THIRD REPORT.—7 P.M.

AMERICAN NEWS.

TELEGRAPHIC CONFERENCE WITH THE INDIANS.

New York, March 13.

Dates to the 4th from Savannah have been received.

The Herald states that the Savannah and Ogeechee Canal is now in full operation. The blockade runner Banchee has been placed en route between St. Marks, Fla., and New Orleans.

Gen. Foster is concentrating the detachments of troops in various parts of Florida into permanent regiments.

John T. Moore, the national democratic candidate for Mayor of New Orleans, was elected over Mr. Moore, the national candidate, by 316 majority.

A Washington telegram states that Quantrel, the guerrilla, has been found and will be brought to Washington for trial.

Omaha, March 13.

All the principal chiefs of the Upper Platte and Sioux assembled at Fort Laramie yesterday. Colonel Magruder and Indian agent, through an interpreter, held a long talk over the wires with Gen. Wharton and Superintendent Taylor, at Omaha, during which the Sioux gave positive assurances that they would keep the peace. The first of June was agreed upon as the time for a Commission to assemble at Fort Laramie, to conclude a treaty with the lately hostile tribes of Upper Platte. Seven hundred Indians were present during the talk, there will be no further trouble on the Platte route. This is the first instance of a conference, by telegraph, with the Indians.

Sixty miles of the Union Pacific Railroad were finished ten days ago. Commissioners to examine the road are expected in a few days.

LIBERALITY OF THE MERCHANTS.

We were authorized to state—but too late for publication yesterday—that the merchants of this city are about to raise a subscription amongst themselves to compensate the Volunteers in some measure for the sacrifice they are now making and the loss they are suffering by neglecting their usual avocation. The idea is excellent and we have no doubt will be carried out in a manner creditable alike to the mercantile community and our gallant defenders.

The Quebec Bank directors, at their meeting of today, voted the sum of Five Hundred Dollars towards the Volunteer Fund.

THE COMMAND OF THE VOLUNTEERS.

Colonel Lord Alexander Russell, of the Rifle Brigade, who is Commandant of the garrison, met the officers of the Quebec Volunteer Force, at the Assistant Adjutant General's Office yesterday, and announced to them that henceforth they would be under his command in virtue of the recent Militia General Order, directing the Militia of Canada to be under the orders of the superior Military Officer in each garrison.

Lord Russell congratulated the officers on the efficiency of the Quebec Force. He was proud to be at the head of men who he felt confident would, when required, acquit themselves bravely against any foe.

FIELD BATTERY.—In copying the portion of the General Order relative to the Volunteers called out from this District, several papers have omitted the Quebec Field Battery.

CHAUDIERE GOLD MINES.

The Government agent, Mr. Pope, reports on the 28th of February that several quartz lodes have been struck since the date of his last report. There are now fourteen quartz veins in the division, on which shafts are being sunk and work being actively prosecuted, viz:—

- 1.—Detroit Company—No. 1 Kennebec road range, L'Esclapart.
- 2.—Reciprocity Mining Company—Kempt stream at its intersection with the Kennebec road.
- 3.—Da Loup Mining Company—At the intersection of the Metegomette with the Kennebec road.
- 4.—Detroit Company—At Jersey Point.
- 5.—New York Company—At same place.
- 6.—New York Company—At Cumberland Mills, Fief Cumberland, at Cumberland Club, in de Lisle.
- 7.—New York Company—At same place.
- 8.—Rigg & Co.—83 1st range N. W. Seigneurie Rigaud Vaudreuil.
- 9.—Kilgour & Fenton—19 St. Charles Concession, do.
- 10.—Kilgour & Fenton—21 do., do.
- 11.—Reciprocity Mining Company—18 de Lery Concession, do.
- 12.—Reciprocity Mining Company—Do, do.
- 13.—Power, Causby & Co.—39 1st Range N. W. do.
- 14.—Hamilton, Smith & Co.—71 do., do.

In addition to the above, a number of veins have been prospected and surface specimens of ore extracted therefrom for assay.

Rigg & Company's vein has attained a depth of 45 feet. Those on the Kennebec road vary in depth from 25 to 40 feet.

Mr. Pope says that all continue to give promising indications. A portion of the machinery for Messrs. Kilgour & Fenton's crushing machine has arrived at Lévis, on its way up to the mines.

Alluvial mining has revived, the Reciprocity Mining Company having consented to let claims on lots 16 to 19 inclusive, in de Lery Concession, Seigneurie of Rigaud Vaudreuil, 25 and 50 feet front on the river by 100 in depth, at \$2 per foot frontage, the time allowed for working being 12 months.

A great many claims have already been taken, and several of the lessees have commenced work. One party shortly after beginning, picked up a little nugget from the surface worth from \$9 to \$10.

Those who have commenced to wash, meet with good paying results. One party of three, washing casually on a recent day, realized \$14. It is hoped that other Companies will lease out claims.

The rumored anticipations of the resignation of Earl Russell cannot but be regarded as highly interesting at the present moment, more especially as connected with the probable policy of the Government in reference to Ireland, as a part of the United Kingdom to be included in the forthcoming measures of so-called Reform.

Many years ago, Lord Russell, whose popularity chiefly arose from his support of the Reform Bill, gained an immense amount of approbrium by declaring that bill must be regarded as a "final measure," and has since done all that his career as an agitator and a titled "tribune of the people" left him the power of doing, to resist that demand for extension of the suffrage which, in the interest of the Whig families and that class of the people of London who since the days of Henry VIII. have been systematically courted by the House of Bedford, he had so largely helped to promote.

It is quite clear, however, that the principle of the new Reform Bill would make the share of Ireland in the representation of the people disproportionately large. Whatever may be the evils of the "Concave" system, its effect under such a reform as alone would satisfy "Friend Bright," as alone perhaps would secure the co-operation of Mr. Gladstone, would be to make the agriculturalists of Ireland a population of electors. This was, and is, no part of the policy of Lord Russell, and doubtless he has sought, and sought in vain, for a pretext for keeping that class of subjects from the benefits of his contemplated act, just as he would have preserved "the rotten boroughs" of England when in Whig hands, had it not been for the knowledge of misanthropy, the sententious and masterly tact of John Wilmot, who, terrible in defeat as the flying Partisan, struck through after thorough from the hands of the Whig victors, and though he could not rob them of their triumph, deprived them of no inconsiderable portion of its spoils.

The old plea of the existence of "a state of anarchy in the sister kingdom" entirely failed Lord Russell; unopposed juries did their duty; the law was vindicated with mild dignity, so far as the proceedings of the Courts of Justice were concerned, and all expectations of such disturbances as would justify exceptional legislation in reference to the electoral franchise was disappointed. Nor was this all, Celtic nationality found a perfectly unexpected patron in the person of one whose name was better known to the world than his real abilities and Parliamentary skill. A member of the landlord class, stood forward as the spokesman of a party who have placed Tenant Right upon their banners and made a speech such as no Irishman since O'Connell has equalled and even that master of Bibernian eloquence and Parliamentary tricks rarely surpassed. Despite of the able diversion in his favor made by his best friends and their native country's deadliest foe—the Fenians of America—Lord Russell stood cheek and chin deflated by Ireland and O'Donoghue. His retirement would leave the road open to a nobleman who is untrammelled by the antecedents of the descendant of the 8th Henry's favorite courtier.

DISTILLERY FRAUDS.

Some thirty Distilleries in New York and vicinity were seized on Saturday for alleged violation of the Internal Revenue Act.

The Field Battery were allowed to go to their quarters this morning and go to their own homes, where they keep their horses, but will parade three times a day as usual and receive pay and rations.

ST. PATRICK'S DAY.—The sermon in St. Patrick's Church, on the Irish national festival, will be preached by the Rev. Mr. Doherty.

THE PUBLIC HEALTH.

We call the attention of both the Road and Health Committees to Dr. Marsden's letter in another column, on the subject of drains. The defects to which he refers are of a very serious character, and highly prejudicial to the public health at all times. There are but too many persons in the Upper as well as Lower Town, who without being possessed of extraordinary olfactory powers, can attest to the truthfulness of the doctor's remarks during the prevalence of easterly winds. The evil should be remedied at once.

VOLUNTEER MARCH OUT.

The two battalions of Quebec Volunteer Rifles left their encampment this afternoon and marched through the streets of the Upper Town. They presented a very soldier-like appearance, and have manifestly improved in bearing since called out and kept together in their billets. There is still a slight want of uniformity and completeness in dress, which will no doubt be soon remedied.

INACTION OF THE FEDERAL AUTHORITIES.

We are informed by telegraph that conferences have taken place between the British Minister at Washington and Mr. Seward relative to the Fenian movement; that Sir Frederick Bruce has been assured that no violation of the neutrality laws will be permitted; and that if necessary a warning proclamation will be issued.

Mr. Seward was Governor of the State of New York when the brigades of 1837-38 invaded Canada from that State, armed with weapons, and supplied with artillery taken from armories purposely left open to them; for weeks they were encamped near the frontier, fed, and supplied with money; and so far from Governor Seward attempting to stop the movement, he did all he could to obstruct the dilatory action of the Federal authorities.

He and his government are no more to be trusted to-day than then; they will prevent such a barefaced breach of neutrality as would involve war with Great Britain; and no doubt in the official interview given to the Fenian leaders they have warned them what will not be tolerated leaving them to infer what will. The American Government will not allow an army of invasion to assemble on its soil to attack Canada; but it will not prevent the material for such an army being collected, and sent across our frontier, and the officers and men who are to compose it following in groups to organize when they get here.

The Montreal Telegraph of last evening says with considerable truth:—"These provinces must depend upon themselves alone for protection; and they will be in the most danger when they cease to regard the United States Government and people as unscrupulous enemies, encouragers and allies of the brigands threatening them."

THE LADY HEAD MURDER.

A private telegram from New Carlisle, Ga., announces the arrival there yesterday of His Excellency's special messenger with instructions to carry out the sentence, in case of the man who murdered his fellow-seaman on board the Lady Head.

A very disloyal article has appeared in L'Union National, bearing the signature of Mederic Lanctot, and indorsing the Fenian movement. L'Union Nationale professes to be perfectly independent in politics, and is distinguished above all papers for fanaticism. A reference to the latest numbers of Le Pays and L'Ordre, the only accredited organs of the Rouges will show that they hold the Fenians in detestation, and give a decided support to the measures of repression adopted by our Government.

They do loyally their part in encouraging volunteers to join the ranks. Indeed the latter paper suggests that the St. Patrick's procession had better be given up this year, to prevent any possible Fenian display in our midst. Mederic Lanctot stands alone among the whole French Canadian people in his sympathies.

Yesterday's Montreal Transcript says:—"There is little doubt that if Canada should again be invaded from the United States, the main point of attack will be Montreal. Several American writers on military subjects, while exposing the blunders committed by their generals in the last war with England have advocated an advance in force on this city, in the event of a future struggle for the possession of the country."

NEW BARRACKS.—The building formerly used as the Canada Gazette office, have, we learn, been leased by the Imperial authorities for the accommodation of troops shortly expected to arrive.

MOUNTED PATROL.—The night Patrol duty outside the walls will shortly, we understand, be performed by the two troops of Quebec Cavalry, fully armed and equipped.

THE BANKS.—There are a few people in Quebec, as in Montreal, who, appearing to be informed of the plans of the Fenians, are withdrawing their money from the Savings Banks. The movement, though not extensive, is worth recording.

GAS EXPLOSION.—At eight o'clock this morning one of the Christian Brethren was indiscreet enough to take a lighted candle down to the cellar of their school in Glacie street, to investigate the cause of a strong smell of gas, that pervaded the entire premises. A tremendous explosion took place lifting the parapet without the building. No one was hurt, though many were frightened.

The billiard Clerk at Toronto is a wag of a fellow. There is great richness in his joke of billiard ten volunteers upon Mick Murphy, the Fenian Head Centre at Toronto.

To the Editor of the Daily Mercury.

SIR,—Permit me to call the attention of the Road Committee of the Corporation to a serious defect in the system of drainage and one that is highly prejudicial to the public health, now, and at all times, and especially in hot weather; but would be infinitely more dangerous in the event of any epidemic visitation. I allude to the outlets of the public drains or common sewers that empty themselves into the River St. Lawrence having their mouths placed at some distance above low-water mark.

This is the case in several places in the very heart of the business part of the Lower Town. The consequence is that twice every twenty-four hours in the neighborhood of these outlets, the air is pestilential with bad smells; and during high winds and especially easterly gales, the stench is blown through these sewers to the distant parts of the Upper Town and even to the Cape. While this great evil exists, all minor sanitary precautions would be perfectly useless, in the event of a visitation of Asiatic Cholera next summer. This, however, from present appearances in Great Britain, France and elsewhere across the sea, may not happen; still, it is right to be prepared.

I am, Sir, yours, &c.,
W. MARSDEN, M.D.,
Place d'Armes,
Quebec, March 12, 1866.

POLICE COURT TO-DAY.

BEFORE MR. JUSTICE MAGUIRE,
March 12.

John Lessard, jr., was committed to goal to stand his trial at the next Court of Quarter Sessions on a charge of breaking into and stealing from the residence of Mr. Edmund H. Duval, on the 23rd of February last, at Mount Pleasant, during the absence of Mr. Duval and family.

RECORDER'S COURT TO-DAY.

BEFORE HIS WORSHIP THE RECORDER.
Margaret Lynch and Alexander Paquet, for being drunk, were committed.

Five prosecutions were issued:—One for disturbing a religious congregation in St. John's Church, assembled for divine worship; two for neglecting to fill up and level culverts; one for using insulting language from inside a house towards a passenger in the street, and one for an apprentice disobeying lawful orders of his master.

THE MALDEN MURDERER TO BE EXECUTED.—The Executive Council, at a meeting held at Boston, appointed Wednesday, the 18th of April next, for the execution of Edward Green, for the murder of young Converse, Assistant Cashier of the Maine Bank, some two years ago. The votes of the Council were unanimous.

ANOTHER EPIDEMIC AT ALDENSHOT.—English papers state that measles have again broken out in the camp in a virulent form, and the former severe medical restrictions have been resorted to in order to prevent its spreading. In the 1st Battalion 17th Regiment, almost all the children have been laid up with it. This regiment is now quartered in the lines formerly occupied by the 31st Regiment, where the disease made sad ravages last year.

MILITARY COURTESY.—A letter from Colonel Peacocke, of the 16th Regiment, was read by Lieut. Colonel Booker, at parade, Friday morning, in which Colonel Peacocke said that he had been aware that the Volunteers had been going out for a "March out" on Thursday, he would have lent them the services of the Band and Fife and Drum corps of the 16th Regiment, and that upon any future occasion he would be happy to do so. The letter also alluded to the patriotism displayed by the Volunteers. Three hearty cheers were given by the men of the 13th for Colonel Peacocke and the 16th Regiment.—Hamilton Spectator.

IT IS ACKNOWLEDGED.
That Dr. Foutlier's Placemeter is superior to all other preparations of this description. Try it once and you will have no reason to regret this experiment.

EVERY FAMILY should have a case of Dr. Humphrey's Specific Homoeopathic Medicines. They are simple, easily applied, harmless, and yet, in a thousand instances, they arrest disease, allay pain and suffering, cure the doctor, and prove a friend indeed. The valuable service rendered immensely overbalances the small sum they cost. See advertisement.

That the (careful annual) mortality of 40,000 young children and delicate persons of all ages may be arrested, if instead of trying blindly to pile and medicines, which though apparently relieving the patient, have, in reality no other tendency than that of increasing debility, and with it, the danger to life, we were simply to study how to increase the vitality by imparting new and pure blood, upon which the harmonious development of the whole frame depends, has been successfully proved by Dr. Barry's Infants' Food, the Revalenta Arabica, and its thousands of cures annually. It yields three times as much easily assimilated nourishment as the best milk for children. It is the best substitute for human milk. Dr. Routh, Physician to the Samaritan Hospital for women and children—the best authority on such matters—has published his admirable publication on Food, says:—"Amongst the requisites for infant life, which come closest to milk in its composition is, without doubt, Dr. Barry's Revalenta Arabica Food, containing both phosphate and carbonate of lime, the same principal which is found in milk in its constituent parts. No wonder, therefore that under its influence many children affected with rickets (weakness of the body) and rickets, have completely recovered. I have given it with the greatest advantage in such cases; and so far as I may judge from my own experience, practice fully carries out what theory, from a knowledge of the requisites for infant life, has anticipated."—In time, 1 lb. 2s. 9d.; 2 lbs. 4s. 6d.; 5 lbs. 11s.; 12 lbs. 22s.; 24 lbs. 40s., sterling.—Barry Dr. Barry and Co., 77 Regent Street, London; in Montreal by Lamplugh & Campbell; in Halifax by Avery Brown & Co.; and all Grocers and Chemists. Beware of spurious imitations.

HOW CANADIAN MATTERS ARE REPORTED TO THE AMERICAN PRESS.

FENIAN MEETINGS IN BOSTON AND NEW YORK.

American Troops marching to the Canada frontier to preserve order.

New York, March 12.

The New York Herald's Toronto despatch says:—

The Fenian excitement has somewhat subsided here.

The city is still full of Volunteers, who are compelled to wear their uniforms and side arms at all times under penalty of arrest. A number of Regulars is stated to be on the way from Quebec.

All the forts are being emptied. Forces are moving towards the frontier as fast as they arrive, and are organized and equipped. Magazines and arsenals are guarded night and day by picked men. Numbers of men who believed there was no danger of a Fenian invasion, refused to turn out, and were handcuffed and marched off to barracks. Some few were alarmed and fled to the interior, while another small detachment left for the States.

General Orders have been issued from the Governor-General's office, placing the whole Volunteer force under martial law, and making Lieut. Gen. Michel Commander. The Governor-General relies with confidence on the loyal spirit of the Canadians, that if necessary, the entire population of the Province would come forward to resist invasion.

There are ten companies at Windsor, six at St. John, ten at Prescott, and a regiment of artillery at Brockville. The balance of the troops are held in reserve at Toronto, Hamilton, London, Kingston, Montreal, and Quebec.

Volunteers are pouring into all the interior towns. Much enthusiasm is manifested and recruiting is going on rapidly. Men are coming in from the country and are volunteering here. The troops were paraded and marched to church yesterday.

In the Catholic churches, Bishop Lynch's letter was read, and some priests called on Catholics for the sake of peace of the city not to walk on St. Patrick's Day.

Parliament meets in the 2nd week of April.

An immense meeting of Roberts' wing of Fenians was held at the Music Hall to-night and thousands were disappointed in not gaining admittance. President Roberts and Gen. Sweeney were escorted from their hotel by the 40th Union attached Co., Col. Umbrian Guard, to the hall. An immense

FIRST REPORT.—11 A.M.

AMERICAN NEWS.

SOUTH AMERICAN NEWS.

Latest from Washington.

THE FENIAN MOVEMENT.

Mr. Seward gives kindly assurances to the British Minister.

PROCEEDINGS IN CONGRESS.

THE TARIFF DEBATE.

New York, March 12.

The steamer New York, from Aspinwall on 4th with \$1,425,000 in treasure, arrived at four o'clock.

The steamer Uncle Sam, which was refused clearance until bonds were given, was still further detained until the protest of her owners against giving bonds and a promise was made that the Panama authorities should in no way be held responsible for detentions.

From Chile, dates are to Feb. 12th. Three vessels of the Spanish squadron off Valparaiso, the remainder having left for parts unknown.

Foreign Consuls at Valparaiso had protested against the Spanish commander's order prohibiting the export of coal from Chilean ports.

The total loss of the Peruvian steamers Loa and Amazona is confirmed.

The declaration of war against Spain by Ecuador is confirmed, and alliance has been entered into with Peru and Chile.

Washington, March 12.

Secretary Seward has assured the English Minister that the Fenians will not be permitted to commit any overt act, and the Government will issue a proclamation in case of any violation of laws.

In the House a lengthy debate sprang up on taxing Canadian timber. The clause in regard to lumber was, on motion of Mr. Blair, so as to read on lumber pine, round split or sawed 3 per cent. per cubic foot when sawed and not valued at over \$10 per thousand feet \$2 per thousand feet, when valued at over \$10 per thousand feet \$3 per thousand feet.

The second section of the Act applies to all foreign countries charging the duties on the importation from abroad on the articles mentioned. The 2nd was amended by adding the following:—On freestone, sandstone and granite, when in the rough and uncut to dimensions 34 per cent ad valorem; when wrought or cut to dimension 40 per cent ad valorem.

Mr. Wilson, of Iowa, moved to amend by increasing the duty on living animals of all sorts from 20 to 30 per cent ad valorem. The amendment was agreed to by a large majority that the negative vote was not counted.

Mr. Hubbard moved to admit milch cows at 20 per cent, which was lost.

Mr. Price, of Iowa, moved to amend the paragraph in reference to barley not including Pearl or hulls by increasing the rate from 10 to 15 cents per bushel.

Mr. Wilson, of Iowa, moved to amend the amendment by making the duty of 25 cents instead of 15.

Mr. Price accepted the amendment.

Mr. Morrill moved to amend the amendment by reducing the duty to 15c per bushel.

The amendment was rejected and the amendment increasing the duty on barley to 25c per bushel was agreed to.

Mr. Bergen moved to reduce the duty on beef from 1c to 3/4c per lb. without disposing of the amendment.

The hour of 4.40 having arrived, the committee rose.

Humphrey's Homeopathic Specifics

HAVE proved, from the most ample experience, an entire success in the treatment of all the following diseases. They are the only medicines perfectly adapted to popular use—so simple that mistakes cannot be made in using them; so harmless as to be taken in the most delicate cases; and so reliable, that they have raised the highest commendation from all, and will always render satisfaction.

GOLD & SILVER!

AWFUL SACRIFICE!
—BUT—
BANKRUPTCY AVOIDED!!

Extraordinary Announcement

\$200,000 WORTH of Gold and Silver, Splendid Jewellery, French Clocks, Diamond Rings, Pearls, Melodons, Sewing Machines, Silver Ware, &c., &c., to be disposed of at TWO DOLLARS, each article, without regard to Value!

GRAND INTERNATIONAL MEETING OF MANUFACTURERS OF WATCHES AND JEWELLERY.

The following has been resolved, that in consequence of the great Stagnation of Trade, and in order to relieve from pecuniary embarrassments occasioned by a distressing War, and to avoid

BANKRUPTCY,

\$1,000,000 worth of goods from their Stock, must be sold in the course of Six Months, at **ANY SACRIFICE.**

And for that purpose, they have unanimously elected

DE TREY & Co.,
34 LIBERTY STREET,
AS THEIR EXCLUSIVE AGENTS.

As a preliminary they would remark that they manufacture and sell no brass watches or imitation of Jewellery.

ALL ARE WARRANTED GOLD
—OF THE—
FINEST WORKMANSHIP.

The articles to sell at TWO DOLLARS each, consist of Splendid Hunting case Gold and Silver Watches, French Clocks, Rings set with Diamonds, Rubies, Pearls and other precious Stones (Solitaires and in clusters). Large Sets of Jewellery comprising Pins and Ear-rings of the most fashionable and recherche Style, Gold and Enamel Bracelets, Studs and Sleeve Buttons, Chains of all descriptions, &c., &c. Silver Ware, (extra plated) comprising Castors, Butter Dish, beautifully chased and engraved, Table & Tea Spoons, Goblets, &c., &c. Pianos, Melodons and Sewing Machines of the best makers.

The price of each article varying from SIX to EIGHT HUNDRED dollars.

THE EXPENSES OF FREIGHT AND PACKING PLANS IN OIL SEWING MACHINES WILL BE PAID BY THE PARTIES WHO ARE ENTITLED TO THEM.

AGENTS ARE WANTED

In every part of the United States and Provinces and to all such very liberal inducements will be offered, and on application a circular of terms will be forwarded. We prefer money sent in Post Office orders where they can be obtained or by Bank Drafts to our order. Please write your Name, Town, County and State/Province and address all orders to

CANCERS AND TUMOURS.

DR. WOOD, (Provincial Licentiate, Canada West), celebrated for his successful treatment of Cancer, has taken rooms at the Russell House, where he will remain for Ten Days, for the purpose of examining and removing Cancers and Tumours of all kinds. This is done without the aid of the knife, and causes little or no pain. Every case treated is warranted as cured, and as a proof of this no pay is required until the cure is effected. Persons having any Tumours or lumps of any kind about their necks, or elsewhere, who have a private consultation with the Dr. as he has made this branch of the profession a specialty for a great number of years. If required, references given to parties who have been successfully treated many years ago, and who still are sound and healthy. Parties visited at their homes if necessary.

Quebec, March 8, 1866. 1w-54

COTTON & LINEN GOODS.

WE beg to call the especial attention of our customers and the public generally to our stock of

White Shirtings, Table Napkins, Long Cloths, Damask Cloths, Doyles, Huckabacks, Glass Cloths, Irish Linens, Irish Towels, Pillow Sheets, Linen Tick, and every other kind of plain Family Goods, all of that superior class we so carefully select from the best manufacturers in England, Scotland and Ireland.

Our stock of the above goods is larger than usual, and being bought at the lowest prices, have been reduced for the last six or eight months, will be found well worth an early call and selection from, prices having materially advanced lately, and all new plain goods to arrive will be considerably dearer.

READ! READ!

To PROF. PAUL M. BRENNAN.

SIR,—I desire to bear testimony to the services rendered me by you, and to which, under Providence, I attribute the preservation of my life. During five years, I had been under medical treatment, almost constantly by various physicians; finding that I was dying of consumption, and influenced by the natural love of life to make a last effort to prolong my existence, I applied to you. In two weeks I was entirely cured of a disease I had regarded as fatal, and was restored to as perfect health as I had ever known. Influenced by gratitude to make my benefactor the only physician in my power I desire to certify these facts and wish this letter to be made public.
