TERRIBLE WRECK ON SOUTHERN PACIFIC

Thirty Passengers Killed and Over One Hundred Injured.

STRUCK AN OPEN SWITCH

Train Was Running Forty Miles An Hour When It Jumped the Rails.

Colton, Cal., March 29.—A disastrous wreck on the Southern Pacific occurred last night at Colton, Cal. A passenger train No. 10, bound for San Francisco, ran into an open switch while going at the rate of forty miles an hour. The engine and several coaches were derailed. Twenty-six persons are known to have been killed, and the final toll will probably total much higher. The derailed coaches, about one hundred, many of whom may die.

The wrecked coaches were hurled in every direction, and four were smashed to splinters. Most of the dead were Italian from New York and New Orleans going to San Francisco. They occupied the smoker and day coach. The dead were terribly mangled.

Eighteen corpses were brought to Colton this evening, and eight additional bodies could be seen under one of the demolished cars.

This car could not be raised until a derrick was brought from Los Angeles, fifty miles away.

The injured were carried to this city in vehicles of all sorts and the Colton Hospital was quickly filled to its capacity. Many were taken to the Presbyterian Church and to private residences.

But two Americans are known to have been killed, although several among the injured will undoubtedly die within the next few hours. Geo. L. Sharp, of Muncie, Ind., was instantly killed. The baggage man of the train, whose name had not been ascertained, was also killed. Engineer Clarence E. Wornington and Fireman Victor Trebb jumped, but were caught in the wreckage and terribly injured.

Out of about eighty Pullman passengers only two sustained serious injuries. The three Pullman coaches and diner, which were on the rear of the train, did not leave the track. The occupants of these cars were mostly unhurt.

The Florence Roberts Theatrical Company occupied one coach, which was hurled from the tracks. Both ends of it were crushed in upon against the others. Two of the twenty-two members of the company were injured. Miss Roberts escaped unhurt. The escape of the occupants of this car was remarkable, considering the manner in which the coaches were splintered and torn.

The men and women were hurled from one end of the car to the other. There were tracks where the accident occurred, which is in the open country. The people of Colton were also notified of the catastrophe. Hundreds gathered to the scene, and many San Bernardino and Colton.

JENNIE BURCH INSANE.

Bereaved Parents Forgive Girl Who Poisoned Their Baby.

Carroll, N.Y., March 29.—The jury in the case of Jennie Burch, the young girl who was on trial for poisoning the child Wilbur Winslip, returned a verdict of "Not guilty by reason of insanity," and Justice Miller at once ordered that she be committed to the asylum for the criminally insane.

Mrs. Wilbur Winslip, the mother of the baby who died, said she might die with the only persons she loved, went to the sheriff's rooms to say good-bye. The bereaved mother clasped the girl in her arms and kissed her, and told her that she freely forgave her. The father also told Jennie that he had forgiven her.

SAN SALVADOR EXPLAINS.

Made Common Cause With Honduras Against Common Danger.

San Salvador, March 29.—The official organ of the Government, in setting forth the reasons for Salvador's making common cause with Honduras against Nicaragua, said: "The opponents of the Government of Salvador were encouraged by the unconditional assistance offered to them by President Zelaya of Nicaragua. Salvador saw in this movement on the part of Nicaragua a serious menace to the tranquility of Salvador, and sympathized with Honduras, the opponents of whose Government were encouraged in the same manner during the difficulties of Honduras with Nicaragua. Therefore, though the moment opportunity to take its share in the opposition to the policy of Nicaragua."

JEROME IS FOILED BY LUNACY BOARD

Scope of Enquiry Limited to Thaw's Present Mental Condition.

DECLARE COMMISSIONERS

Tenderlon Evidence Secured by Jerome With Much Trouble Will Not Be Admissible.

Special to The Montreal Star. New York, March 29.—When the Thaw commission in January met yesterday afternoon at the Criminal Courts building to hold their first formal and public session, there was a prospect that they would soon be called upon to hear revelations more sensational and scandalous than any of the amazing disclosures that have come to light during the trial.

All Wednesday night and yesterday detectives from the District Attorney's office were ranging the Tenderlon serving subpoenas to the sort of people who make the Tenderlon. Subpoenas were handed to waiters, cab drivers, chauffeurs, barkeepers, doormen, coat room attendants, cafe managers, bellboys, theatrical people, dance hall proprietors, hotel clerks, and chorus girls, requiring this motive regimen to hold themselves in readiness to give testimony before the commission.

Jerome was prepared to flood the rooms where the commissioners sit with a torrent of weird stories and rumors during the last few years. Thaw's conduct in the days when he was living the fast life of Broadway with a red glow in his path and the odor of burnt-up money in his wake.

In preparation for the trial, Jerome secured names of scores of persons who had been eye-witnesses to seemingly irrational and insane acts by Thaw during the last few years.

THAW UNDER EXAMINATION. Thaw took the stand at the session of the lunacy commission yesterday afternoon. Chairman McClure announced that both physical and oral examinations of Thaw would be private, only the board, attorneys and court officers being admitted.

Thaw was submitted to a running fire of questions for two hours. The three Pullman coaches and diner, which were on the rear of the train, did not leave the track.

Thaw went willingly and confidently before the commission, and when the secret session was over his attorney appeared with smiling faces, and declared they were more than satisfied with the course of the proceedings.

Thaw was examined by the commission, and when the secret session was over his attorney appeared with smiling faces, and declared they were more than satisfied with the course of the proceedings.

SCOPE OF ENQUIRY DEFINED.

The scope of the inquiry into the life of the defendant was defined by the commission to limit the scope of the inquiry to the exact language of the statute—to determine solely the question whether or not Harry Thaw is able to understand the nature of the proceedings, to testify, and to conduct his defense in his own case. The commission also decided to limit the scope of the inquiry to the exact language of the statute—to determine solely the question whether or not Harry Thaw is able to understand the nature of the proceedings, to testify, and to conduct his defense in his own case.

In laying down this principle the commission confronted the District Attorney with the very position he has maintained in putting Thaw on trial.

Mr. Jerome contended that Thaw was suffering from paranoia on the night of June 25, when he killed Stanford White, but that paranoia cases often have knowledge of what they are doing, and that Thaw knew the nature and quality of his act in shooting White, and knew that the act was wrong. Thus, while medical experts may determine that Thaw is still suffering from paranoia, the question to which the lunacy commission has decided to confine itself deals solely with Thaw's knowledge as to the proceedings against him and his ability to advise his lawyers.

THAW ANSWERED READILY.

It was said that during most of the two hours that Thaw was before the commission letters which he has written to his counsel since the trial began were under consideration. To put Thaw thoroughly at ease, the commissioners addressed their questions to him in a conversational tone, and, in a casual manner, as though he were in conference with them. They asked him from time to time to explain incidents in the trial which had not been explained in the notes he addressed to Mr. Delmas when his trial was in progress. These notes and letters were made a part of the affidavit filed by Mr. Delmas with Justice Fitzgerald when Thaw's counsel were opposing the appointment of a commission.

The roving bands of peasants in the district of Teleorman were surrounded and brought to bay by detachments of troops.

TWO HUNDRED PEASANTS KILLED.
At Vlaschka, a band of peasants, who were summoned to disperse refused to do so, and opened fire on the troops, whereupon the latter fired three shots at them from a field gun, killing seventy men and wounding many more. According to an unconfirmed version of the encounter, two hundred of the peasants were killed.

A squadron of hussars went to Brailova, came in conflict with a band of peasants, and it is reported that fifty of the latter were killed. A train running between Bucharest and Kiovan was stopped by rioters and thoroughly looted.

There is a slight improvement in the situation at Jassy. The streets of the city are empty, and the shops still shut. The peasants there apparently

approximate estimates of the number killed or wounded since the beginning of the disorders, but there is apparently good reason to believe that the reports have not been exaggerated, and that when the totals are finally learned they will be greater than is now supposed. Not less than eleven officers have been killed or wounded.

It is reported that in Northern Moldavia, where the rioting was temporarily suspended, the peasants intend to recommence their pillaging during the Jewish Passover, if the promises made to them by the Government are not fulfilled.

The authorities are doing all they can possibly do to restore order, and some of the measures being adopted are most severe. Premier Sturdza had both houses of Parliament adopt a bill, authorizing the Government throughout the grave circumstances prevailing in the country, to declare a state of siege wherever necessary. This step can be taken, however, only by royal decree.

Bucharest, Roumania, March 29.—The efforts of the Government to suppress the revolt of the peasants have met with only partial success. The

A large number of rioters have been killed in the numerous conflicts with the soldiery, but as yet there is no sign of permanent amelioration of the situation. As an indication of the nervous apprehension existing even in the capital, the new prefect of Bucharest, as a measure of precaution, ordered all shops in the city closed. AMBASSADOR BRYCE AT OTTAWA

Ambassador Bryce arrived at the House of Commons on Wednesday at a most opportune time. He was thus enabled to listen to an exchange of opinion between the leader of the opposition and the leader of the Government as to the attitude that Canada should take at the coming Imperial Conference.

Sir Wilfrid Laurier contended that the fact that we had nothing to offer for discussion was an evidence that we were well content with things as they are. This attitude, however, was somewhat damaged by Sir Wilfrid's speech in which he admitted that a British preference would please us so much that we would willingly give for it a further preference on our part.

Sir Wilfrid was undoubtedly right, however, in assuring the country that he will not permit Canada to be drawn into "the vortex of militarism" which is the curse of Europe. Still, it is very easy to overlook this determination.

Mr. Bryce will have noticed in both the speeches of Mr. Borden and Sir Wilfrid a ring of staunch Canadianism which will constitute the best guarantee he can have as to his proper attitude toward Canadian problems.

There should, in any event, be no settlement of a question in which Canada has the chief interest on the British side, unless a Canadian Ministry, responsible to the Canadian people, is entirely willing to accept the responsibility for that settlement.

the great American game of "bluff" better than do our brothers in Britain; and we are quite willing to take our chances of winning out if permitted to play our own hand.

THE DECAY OF THE SENATE.

It has become a common saying that the Senate may soon be called upon to give a reason for its existence. There has been no time in which the justification would be more difficult than since the beginning of this tenth Parliament of Canada.

The House of Commons has to deal with the tariff which this year takes up a good deal of time. It has also to supply a budget and assume responsibility for it.

The Secretary of State has no administrative duties worth mentioning and no legislation is offered by his department. In former times three Ministers of Justice, a Postmaster-General, a Minister of the Interior, a Minister of Militia, with other influential ministers, and even a Premier of Canada, have had seats in the Senate.

The presence of Ministers with important portfolios, attending the various departments, and promoting legislation belonging to their various fields of activity, gave the Senate a prestige and importance and interest which it does not now possess.

The Senate is sometimes compared with the British House of Lords. It should be relatively an equally influential body. With the whole of Canada to choose from, and the privilege of appointing half the Senate in ten or twelve years, the Prime Minister could have made that chamber an exceedingly important body.

How different it is in Canada. When Mr. Templeman took the comparatively unimportant office of Minister of Inland Revenue, it was thought necessary for him to leave the Senate and become a member of the House of Commons.

A FEW ANSWERS FOR "CORN GEM" ENQUIRER

The following answers to "The Enquirer's" request for workable recipes for corn gems, published in The Morning Mercury, are published in The Star.

In answer to "Enquirer" for Corn Gems, my wife gave me a demonstration (she is a past mistress of the art) to improve the value of the following recipe.

Having looked in the "More the Merrier" a request for a "fried" recipe for "corn gems," I would like to say that the "Daughters of the Empire" gave me a recipe for "corn gems" which contains not only the coveted pepper, but hundreds of other valuable ingredients.

Perhaps "Enquirer" may like this recipe for "Corn Gems": Two cups Indian, one cup wheat, one cup sour milk, one cup sweet, one good egg, that will you beat; Half a cup molasses, one cup milk, Half cup sugar add thereto.

With one spoon of butter, one Salt and Soda each a spoon. Stir up nicely and bake in a pan. Then you'll have corn gems complete. Best of a corn gem you meet.

The Standard.

Notwithstanding the terrific storm on Saturday night and the great increase in the edition printed of **The Standard** we were short three thousand copies on mail and telephone orders from dealers, besides returning money to boys paid in advance for fifteen hundred copies.

Testimony of the Vendors

The publishers have sent a message to the newvendors asking them to tell the public about the demand for **The Standard**.
The replies of the newvendors will speak for themselves.

TO BANK DEPOSITORS

The **Standard** will have something to tell the depositors in our banks that will come home to them with force and make them sit up and think. Every depositor whose very little or very big deposit is entrusted to a bank should know what security he has for his money. The honor or dishonor of the directors is the keystone of security or insecurity. Every depositor, whether it is a dollar or a fifty thousand dollar holder, will read and think about what **The Standard** has to say.

BLACKBALLING AT THE CLUBS

This week's **Standard** has something very interesting from a prominent club member on the matter of Blackballing at the Clubs.

THE BEST NEWSPAPER

The admission is freely made that **The Standard News Edition** is the very best, most progressive and most up-to-date newspaper amongst all the newspapers, morning and evening, published on Saturday in any part of this Province. **The Standard** has the connections to get the news, and is being strengthened hourly.

If **The Standard News Edition** is not the most interesting of them all, from a news standpoint, call and get your money back.

ROUND THE WORLD SERIES

As foreshadowed, **The Standard** is now getting ready to begin its Round the World Series of famous sights, architectural triumphs, national monuments, world-famed pictures, renowned cathedrals. Don't think of travelling without knowing something of what you are going to see. For your boys and girls to know the world this series will be invaluable, and as material for scrapbooks unexcelled.

THE BIRTH RATE OF CANADIAN CITIES

London Bureau of Statistics Applies for Information as to Fecundity of Canada's Women.

Dr. Laberge, chief of the municipal health department, has just received a very interesting communication from the London Bureau of Statistics, which is generally reputed to be one of the finest institutions of the kind in the world. A request is made for information with regard to the fertility of Canadian women, and especially of those of Montreal. This is a matter which is attracting considerable attention in England in view of the alleged decrease in the birth rate in many parts of the Empire.

ST. ANN'S ORGAN

Inauguration. A solemn service will be held at St. Ann's Church, under the direction of Rev. Father Murphy, for the inauguration of the new organ, which will be held on Tuesday, April 2, at 8 o'clock. The organ, which is the gift of the St. Ann's Guild, is a fine specimen of the art of organ building, and will be a great addition to the church.

CLAIMS ON BOARD FOR HOCHELAGA FIRE

Lives of Little Victims Placed at \$800 Each if Settled Out of Court.

One of the latest results of the disastrous fire in Hochelaga, Protestant School some weeks ago, is a large number of claims for damages. The Board of Directors of the school has received a notification of claims for damages, representing a total of some \$100,000. The Board has not been in session since the receipt of this notification, and it is not known how the claims will be settled.

Small Fire; Heavy Roads.

The fire brigade was called out yesterday afternoon for a small blaze in the garage of the late Mrs. Desjardins. The fire was extinguished in a few minutes, and no damage was done. The roads are very heavy, and it is expected that the fire will be a warning to the public to be careful of their property.

MUCH ACTIVITY IN LABOR CIRCLES

All About the Cigarmakers, Plasterers, Electrical Workers, Painters and Decorators.

There will be no meeting of the Plasterers' Union this (Friday) evening. Several organizers of the National Trades and Labor Council will go to Ottawa next week to form a union of the six trades. The beginning of February, more than fifty new members have been added to the membership roll of the Building Laborers' Protective Union.

Will Arrive the Middle of May.

The wardens and congregation of St. George's Church in this city are completing arrangements for the reception of the Rev. J. Patterson Smith, D.D., of Dublin, Ireland, who is expected to arrive in Montreal about May 15th. The Rev. Dr. Smith will be in charge of the church during his stay in Montreal.

ARTISTS WINNING STRIKE LONDON

Music Hall Managers Quarrelling Among Themselves Before the Commissioner.

Special to the Montreal Star. London, March 29.—The music hall artists in London are winning their strike with the strength of their cause. It is developing before Mr. Asquith, Board of Trade arbitrator. They are much more confident of success than they were when arbitration was first decided on.

BANQUET TO MR. F. H. MCGUIGAN.

At the banquet which is to be tendered Mr. F. H. McGuigan, fourth vice president of the Grand Trunk Railway, on Saturday evening at the Canada Club, on the occasion of his approaching retirement from that road to take up the position of vice president and general manager of the Great Northern, only officials of the Grand Trunk Railway and affiliated roads will be present. It was desired to have as many as possible of Mr. McGuigan's friends present, as the accommodations will not admit of more than two hundred guests, and the list of invitations is being prepared accordingly.

MEMBERS LOOK FOR MORE EXCITEMENT

There is Much Speculation as to Developments When the House Resumes.

Special to the Montreal Star. Ottawa, March 29.—A holiday day in the House of Commons. Practically all of the Eastern members have gone to their homes for the week-end, and will not return until Monday. The House will resume on Tuesday, April 2, at 10 o'clock.

Early Navigation Expected.

Fast Vessels to be Used. An early opening of navigation will be expected in the St. Lawrence. It is said that the first vessels will be used in the first week of April.

Frock Coat \$30.

The nicest, best looking and most stylish frock about town.

The proper thing for Easter attire and the fine Spring days.

Should be worn at church, afternoon calls and day weddings.

San Francisco Executive Declares He Never Received Gift Money.

San Francisco, Cal., March 29.—Mayor Eugene F. Schmitz in a statement issued yesterday, denied the charges published in local papers that the Mayor had received a large sum of money from the United Fruit Company. He stated that he had never received any money from the company.

TRAMPLED BY HORSES.

Canadian Invalid Received Terrible Injuries at Portland.

Special to the Montreal Star. Brockville, Ont., March 29.—A shocking accident is reported from Portland, Me., the victim being Joseph Ready, of Perth, who had gone to that place on a visit to relatives. Ready is an invalid from rheumatism and after being helped out of a wagon stood holding the horses while the driver went inside with his traps. The horses, one of which was only a yearling, became unmanageable and getting into their feet, trampled him frightfully before the driver succeeded in restraining him. One leg was broken and his head and face a mass of cuts and bruises. Ready suffered greatly from the shock and his recovery is a matter of doubt.

CHOSE RAIL AS PILLOW.

Joseph Gilmour Found Asleep on the Railway Track.

Ottawa, March 29.—As the Grand Trunk Railway train from Pembroke was nearing Carleton Place at a high rate of speed, the engineer saw the body of a man lying on the tracks. The locomotive was promptly reversed and the train was stopped within a very few feet of the man, who was found to be sound asleep, with his head resting on a rail.

Pleaded Guilty to Forgery.

Toronto, Ont., March 29.—Frank Pellat, a young man, was arraigned in the Police Court on charges of forging worthless checks on Frank Cable, a shoe dealer, and forging a cheque passed on Ferrand and Jenkinson, jewelers. He pleaded guilty and was sentenced to six months' hard labor in the Central Prison.

Hamilton Alderman Resigns. Hamilton, Ont., March 29.—As a result of the trouble at Monday night's meeting between Ald. Allen and the Police, Ald. Partridge resigned his seat on the council. The former has tendered his resignation as a member of the council. Ald. Allen is the oldest member of the council having been an alderman for the past thirteen years.

HEALTH IN SPRING

Nature Needs Assistance in Making New Health-Giving Blood.

Spring is the season when your system needs toning up. In the spring you must have new blood, just as the trees must have new sap. Nature demands it. Without new blood you will feel weak and languid; you may have twinges of rheumatism or neuralgia, occasional headaches, variable appetite, pimples or eruptions of the skin, or a pale pasty complexion. These are sure signs that the blood is out of order. A tonic is needed to give new energy. Dr. Williams' Pink Pills are the best tonic in all the world. They make new rich blood—your greatest need in the spring. They clear the skin, drive out disease and make tired, oppressed men and women bright, active and strong. Mrs. John McAuley, Des Moines, Iowa, writes: "I was in bad health in the winter. My blood was weak and watery and I was badly run down. But through the use of the pills my blood was fully restored. I can now recommend them to my friends who may be ailing."

MR. N. A. BELCOURT'S FUTURE.

Special to the Montreal Star. Quebec, March 29.—Adriens of the Belcourt-Senatorship, and the vacant judgeship in Nipissing, the presence in town of Mr. J. J. Kehoe, the stated candidate from East Quebec, is said to be significant. Mr. Kehoe contested the seat for the Commons against Mr. A. C. Boyce, M.P.

DECISION LOOKED FOR, SAYS MR. HILL

Supreme Court Ruling in Great Northern Stock Injunction Expected.

St. Paul, Minn., March 29.—Attorney General Young says that the decision of the Supreme Court in the Great Northern stock injunction was an unfortunate one for the State. He said that the decision in effect deprived the State of the power to supervise railroad capitalization, and permitted railway companies to issue stocks and bonds at will.

SERIOUS FLOOD IS FEARED AT OTTAWA

If Present Mild Weather Continues Overflow is Almost Inevitable.

Special to the Montreal Star. Ottawa, March 29.—There is every prospect that if the present thaw continues there will be a serious flood through the Rideau River district this spring. Although the river has been cleared of ice up as far as St. Patrick's street bridge and the New Edinburgh residents have no fears of any unusual rise in the water level, yet the people near Cummings bridge and Hillings bridge are preparing for a flood.

To the Editor of the Montreal Star:

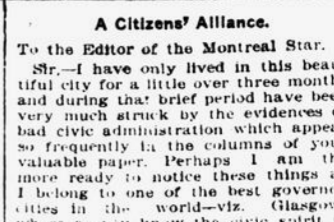

Sir, I wish, in asking you to give space in your paper, to call your attention to a state of things which ought to be brought to notice, regulated and then changed.

The Water Question.

To the Editor of the Montreal Star:

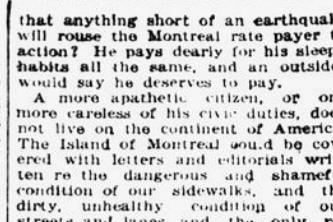

Sir, It strikes me that the City Council, in considering a loan of two million dollars for the purpose of extending the intake pipes, etc., is merely taking over a big question temporarily.

A Citizens' Alliance.

To the Editor of the Montreal Star:

Sir, I have only lived in this beautiful city for a little over three months and during that brief period have been very much struck by the evidences of bad civic administration which appear so frequently in the columns of your valuable paper.

Higher Education in England.

To the Editor of the Montreal Star:

Sir, I have been reading with interest and criticism of Higher Education in England, does not apply with so much force to-day as it might have a few years ago.

SILENT SMITH OF WALL STREET AND HIS MONEY

Leaves \$75,000,000 to His Wife, Who Was With Him in Japan.

THE ELEVATOR MAN NEVER HEARD VOICE.

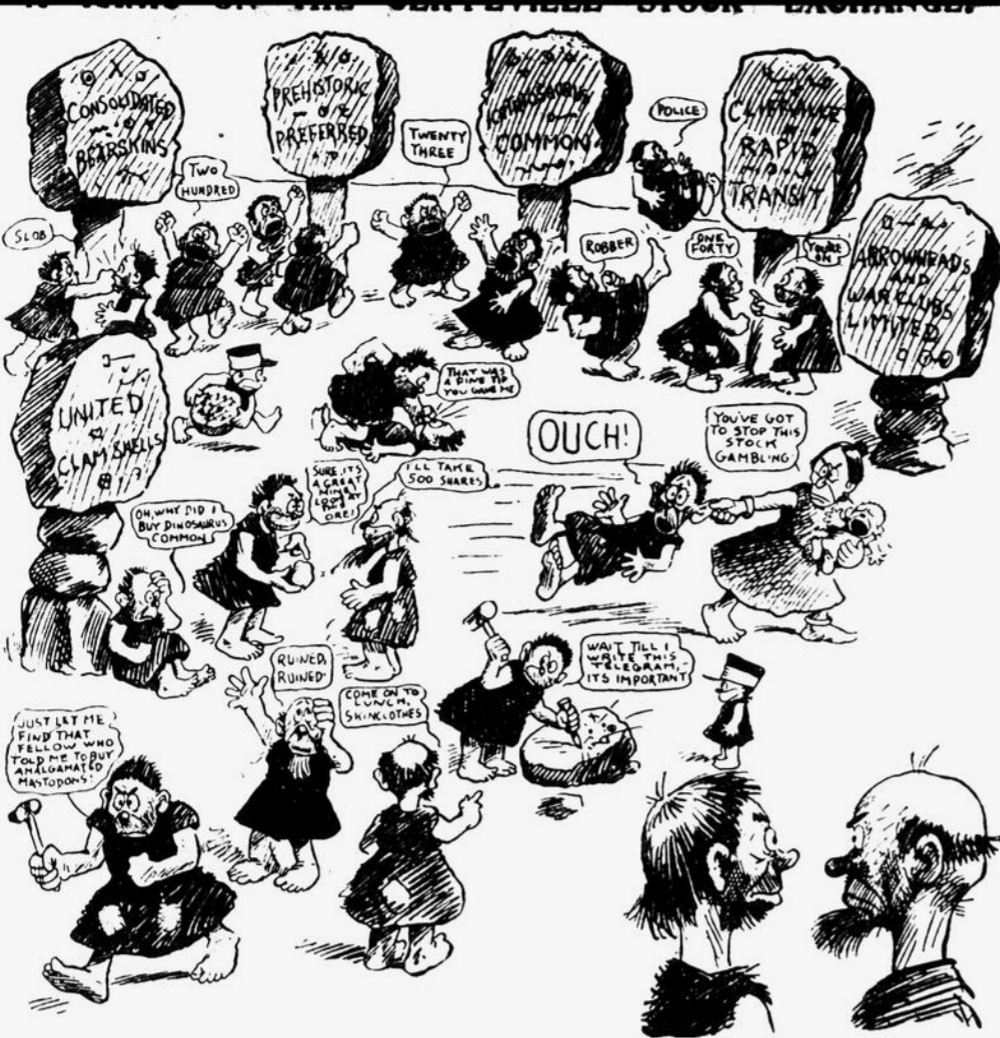

Mr. Smith Was One of the Biggest Holders of St. Paul Railway Stock.

George Smith, the founder of the great fortune which he inherited from his father, James Smith, was one of the great financiers of the United States. He was a member of the New York Stock Exchange and was one of the largest holders of St. Paul Railway stock. He died in Japan in 1907, leaving a fortune of \$75,000,000 to his wife, who was with him in Japan at the time of his death.

His wife, Mrs. Smith, was one of the great financiers of the United States. She was a member of the New York Stock Exchange and was one of the largest holders of St. Paul Railway stock. She died in Japan in 1907, leaving a fortune of \$75,000,000 to her husband, who was with her in Japan at the time of her death.

OUR ANCESTORS OF THE STONE AGE AT WORK.

As they were working with their hands, they were also working with their minds. They were inventing new tools and new ways of doing things. They were the first to use fire, and they were the first to domesticate animals. They were the first to build cities and to create a civilization.

THE MEN WHO WON AND LOST IN THE ENORMOUS SMASH THAT HAS OCCURRED IN WALL STREET

Thomas Fortune Ryan Loomed up Big and a Writer Claims That There Was Something Doing in the Waterloo Line for E. H. Harriman—Fewer Millionaires in Wall Street Now.

When E. H. Harriman was in the city, he was the most powerful man in Wall Street. He was the one who made the decisions that affected the fortunes of millions of people. He was the one who was responsible for the great crash that has just occurred in Wall Street.

Money stringency was the result of the crash. It was the result of the fact that so many people had lost their money. It was the result of the fact that so many people had lost their confidence in the market.

There were fewer millionaires in Wall Street now. There were fewer people who had made their money in the market. There were fewer people who had their money invested in the market.

There were fewer millionaires in Wall Street now. There were fewer people who had made their money in the market. There were fewer people who had their money invested in the market.

BUSINESS MEN'S COBALT SYNDICATE

Books now Open for Public Subscription; Close Friday, April 5. FIFTY-FOUR well chosen MINING PROPERTIES (2160 acres) for \$197,050.

Here are the facts; plain, frank and to the point.

This Syndicate is being organized by young business men; Canadians and Americans; men who know the Cobalt country; men who have been able to get close to the original discoverers and stakers of many valuable properties; men who know how to handle a big proposition in a crisp, quick, business-like, honorable way.

If we could have bought these properties ourselves, no Syndicate would have been necessary. The aggregate cost was too great. We did the next best thing; we secured purchase options on fifty-four separate mining properties totalling in area 2160 acres; and we now invite other business men to "chip in" with us to make the purchase. It is a big proposition, but a good one; open to everyone; and the fullest particulars are accessible to each member.

The Syndicate Shares have been fixed at \$100 each. The total amount of the Syndicate Fund will be limited to \$250,000. The money required to make the complete purchase is \$197,050. The balance (\$52,950), less the incidental office, advertising and legal expenses, will be used, as much of it as may be necessary, to test the mining value of each property so that equitable selling prices may be fixed upon in advance of the Cobalt boom which will surely come immediately the snow is off the ground. If all of this treasury fund or any part of the purchase price should not be required, the balance will be returned promptly pro rata to members.

We mean to exercise the same business caution and foresight in selling as we did in securing the options, and every dollar of net returns from sales will be distributed pro rata among members. It is to be a clean-cut, quick-turn proposition.

We are convinced that we have some mining properties which will rank with the "great things" which have been discovered in this Cobalt district. We shall spend some money in stripping veins and in getting down to the testing of values just as soon as Spring opens sufficiently to permit it.

The idea is not to develop and operate mines; not to form stock companies; simply to get at fair, honest values and sell again; and sell quick. Three months ought to clean up everything for everybody.

Within a week we have sold three of our properties at over one hundred per cent. advance. Negotiations are in progress for the sale of others at from three to five times our option prices.

Men who have been able to invest \$50,000 or \$100,000 have gotten millions out of Cobalt properties. This Syndicate opens the way for men who have \$100 or \$1000 to at least double their money, and it may be to multiply it by five or ten.

Members of this Syndicate are not putting all their money into one basket. Our purchase options include ten mining properties (20 acres each) in Coleman Township, eleven mining properties (40 acres each) in Buckle Township, four mining properties (40 acres each) in Lorrain Township, twenty-three mining properties (40 acres each) seventy miles north of Cobalt in the Larder Lake District, and two hundred and forty acres in the very heart of the new Montreal River Mining District. The options include also two hundred acres on Moose Island east of Lorrain Township.

The big shipping business in Coleman Township where silver was first discovered in copper properties in this township are well located and some of them are reasonably close to operating mines.

Our fifteen properties in Lorrain and Buckle Townships are considered great propositions at the option prices which we have been able to secure. Some of them are close to properties capitalized for hundreds of thousands of dollars.

Subscription Books Close Friday, April 5. In the event of the Syndicate being over-subscribed upon that date, preference will be given to subscriptions in the order in which received. If you have an idle hundred or five hundred or thousand and you want to get the money working, send on the check today. This is your only chance. This announcement will not appear in this newspaper again. It will not be necessary. The Syndicate Fund is growing rapidly and a large over-subscription is almost certain.

SMITH INHERITED A VAST FORTUNE

Career of Dead Millionaire Reads Like a Romance.

LEFT FIFTY MILLIONS

He Suddenly Became a World-Wide Figure at the Age of Forty-five.

New York, March 29.—One of the most interesting stories of modern life is that of the late James Henry Smith, who died in this city on Wednesday.

This vast wealth which came to a man who had preferred to spend his leisure in retirement and who left a contained disposition caused him to be known as "the Smith" made his career one of phenomenal interest.

Concerning his early life little is known, and coming to his natural vocation he never gave a photographical material to those who sought it.

George Smith was born in Scotland in 1808, and on coming to the United States at the age of twenty-six of course utilized the great opportunities offered in the North West.

He retired in 1861 and went to England, to watch his investments. Mr. Smith was then rated at \$200,000 which at that time was a colossal fortune.

He retired in 1861 and went to England, to watch his investments. Mr. Smith was then rated at \$200,000 which at that time was a colossal fortune.

George Smith died in October, 1895, at the age of 87, and his estate was valued at \$50,000,000.

James Henry Smith had been living in a conservative way. He had bachelor apartments in the Wilbraham, Broadway and Thirteenth streets, but he was hardly the reclusive before he came into his fortune.

News of the great inheritance which had come to him caused many persons to be asked about him, and many persons sought to gather his story on various subjects. He declined to talk, and they called him "the Smith."

Mr. Smith came into his own, though only competent by training and experience to take care of it. After giving the necessary attention to his investments he was able to devote his time to his pleasure in society, in art and in public affairs.

COST TO RAILWAYS OF STORMY WEATHER

Canadian Pacific's Profits in February Were Considerably Reduced.

OVER HALF MILLION LOSS

Earnings of Road, However, From Last July to Present Show Substantial Increase.

Some interesting statistics showing the cost to the railways of the recent hard winter in the West, and in fact throughout the Dominion, have been set forth by the Canadian Pacific Railway.

The gross earnings of that road for the month of February last amounted to \$4,268,296, while the gross earnings for the same month of last year amounted to \$4,234,450.

This increase, however, in the gross earnings is very much more than offset by the great increase in the cost of running the road, due to the extremely severe weather suffered throughout the Dominion.

The statistics make the additional expense quite clear. The working expenses for February of this year amounted to \$3,644,418, as against \$3,018,797 for the same month last year.

Another point to be considered, too, is that this figure, large as it is, does not represent the total loss of profit, for the record of the road for the preceding months has shown that a very large advance in profit might have been confidently expected were it not for the unusual climatic conditions.

INDUCTION OF THE REV. W. J. CLARK

An Impressive Ceremony at St Andrew's Presbyterian Church Last Night.

Rev. W. J. Clark was last night inducted as pastor of St. Andrew's Presbyterian Church, Westmont, in the presence of a large congregation.

Rev. J. S. Ross, conducted the service, while Rev. Dr. Barclay delivered the charge to the pastor, Rev. John Mackay, the charge to the people, and Rev. J. G. Clark pronounced the Benediction. Rev. Dr. Fleck, Rev. Dr. Scribner, Rev. J. R. Dobson, Rev. James Patterson, Rev. K. J. Macdonald, Rev. Dr. Campbell, Rev. H. J. Cruickshank, Rev. S. J. Taylor and Mr. Walter Paul represented the Montreal Presbytery.

Rev. Mr. Ross preached from the text, "Behold I have given Him for a witness to the people, a leader and commander to the people." At the time this message was given the fact of the people of Israel was at a low ebb. Some people deemed the promise contained in the text to apply only to Israel, but Christians believed it applied to the whole world.

The preacher went on to trace the role of Christ as leader and commander, and exhorted the people to follow and obey Him. After the new pastor had answered satisfactorily the questions propounded to him by Prof. Mackenzie, and had been received as pastor, he was welcomed by the members of the Presbytery present and Rev. Dr. Barclay was called to deliver the address to the new pastor.

To Cope With Extra Traffic.

Port Huron, Mich., March 29.—Expecting that the passenger business this summer will be the heaviest in the history of the road, the Grand Trunk Pacific will put on a new train between Chicago and Montreal, via St. Clair Tunnel. The train will be added about May.

There's a Lot of Human Nature About a Filing Cabinet!

ONE of our older customers expressed an interesting fact the other day when he said: "Filing cabinets are a whole lot like people; the longer you work with them the more you find out what they are REALLY worth, no matter what they SEEM to be when you first get acquainted."

It struck us that the point he made was a good one. All filing cabinets look pretty much alike in a general way.

They are usually made of quartered oak, or some similar wood, and have a highly polished finish and good-looking metal trimmings.

But if a business man ever needed to learn the old lesson that "Quality decides Price," it is in selecting filing equipment or any furniture for the office.

First of all, let us mail you printed matter that gives ACTUAL INFORMATION ABOUT FILING METHODS AND FILING CABINETS. If you will ask for this at once, we will give you, free of charge, suggestions, sketches and careful estimates of letter-filing and record-keeping equipment, exactly designed to meet the needs of your work. Nineteen years of PRACTICAL EXPERIENCE lie behind this offer.
