SECTION IV : Characteristics of Issues

GENERAL CHARACTERISTICS

1. Securities Issued on the Domestic Market

Unless otherwise indicated, the following terms and conditions apply to domestic securities:

- The principal and interest on bonds are payable in lawful money of Canada at any branch in Canada of any bank or any savings and credit union (“Caisse Desjardins”) designated as authorized paying agent by Québec.
- In the section “Other Bonds and Notes”:
 - The indicated amount outstanding is equal to the face value at issue, unless otherwise indicated.
 - The issue price is the price to the public, excluding any accrued interest.
 - Issues purchased in whole or in part by the Caisse de dépôt et placement du Québec are indicated by the acronym “CDP”.
- Bonds may be exchanged, free of charge to their holders, by surrendering them to the transfer agent, for bonds of an equal aggregate face amount and with the same characteristics, in any authorized forms and denominations.

Transfer agent: Computershare Trust Company of
 Canada
 1500 University street, 7th Floor
 Montreal, QC H3A 3S8
 1-800-564-6253

- Unless otherwise indicated, bonds are not callable.

If a security includes a call option, Québec shall give notice of its intention to redeem not less than 30 days prior to the date fixed for redemption. Such notice shall be published once in a daily newspaper of general circulation in the City of Montréal, once in a daily newspaper of general circulation in the City of Toronto and once in Gazette officielle du Québec, and copy of the notice shall be sent by registered mail to the registered holders of bonds so called for redemption at their respective address appearing in the register.

- The Minister of Finance maintains registers for bonds. In addition to all necessary information pertaining each issue, the names and addresses of registered bondholders are recorded as well as details concerning registered securities, their transfer and their deregistration.

Closing of books: 15 days before the interest payment date.

- Bonds may be issued either as bearer bonds or fully registered bonds.
- Bearer bonds, in denominations identified by series letters (M: \$1 000; VM: \$5 000; XXV: \$25 000; CM: \$100 000) are issued with coupons and may be registered as to principal only. Fully registered bonds, bearing the name of the bondholder, are issued in multiples of \$1 000 but not less than \$5 000.
- Book-based system: when bonds are available only through members of the Canadian Depository Securities Ltd clearing system, this feature is indicated.

2. Securities Issue on Foreign Markets

Unless otherwise indicated, the following terms and conditions apply to securities issued by Québec on the US, European, Asian and Australian markets.

- As a general rule, these securities include provisions relating to tax status. These provisions are intended to guarantee that all payments of principal and interest will be made by Québec without deduction of any taxes, duties, or other charges, present or future, withheld at source by Québec and set by any governmental or other tax authority in Canada.

In the event that Québec is required to pay such additional amounts as may be necessary to ensure that the holders receive the full amount due to them, Québec may, upon giving notice, redeem the outstanding securities at their face value.

When the tax provisions of a particular security differ materially, in particular regarding the price at which Québec may redeem such security, compared to the general description given above, such provisions are described in detail in the section relating to such security.

- In the section “Other Bonds and Notes”:
 - The indicated amount outstanding is equal to the face value, unless otherwise indicated;
 - The issue price is the price to the public, excluding any accrued interest.
- Terms and conditions of payment: payment of principal and payment of interest or premium, if any, are subject to the tax laws or regulations applicable in the country where they are solicited. They are made, free of charge, in the currency of the loan, upon presentation and surrender of the bonds or coupons, as the case may be, at the counter of a paying agent authorized by Québec.
- Book-based system: when bonds are available only through members of an electronic clearing system, this feature is indicated.
