Ocean Steamship Company.

NOTICE.

TO IMPORTERS OF GOODS FROM BRITAIN.

THE MONTREAL OCEAN STEAMSHIP COMPANY beg to draw the attention of Importers of Goods to the great advantages and facilities which their arrangements with the Grand Trunk and Great Western Railroads enable them to offer to parties importing Goods by their Steamships, sailing during the ensuing Winter and Spring between Liverpool and Portland.

Through Bills of Lading from Liverpool to the Railroad Station nearest the place of destination will be granted at Shipment, & by this means Importers will receive their Goods without any delay or trouble, and at a charge in addition to the Freight and Primage of only Fifty cents per Package to cover the Custom House Expenses at Portland and Island Pond.

The Rates of Freight will be found lower than by any other route.

Goods may be expected to reach any part of Canada in from 20 to 25 days from the date of sailing of the Steamships from Liverpool.

Duplicate Invoices of all Goods by this route should accompany each Shipment, and should be addressed to J. S. Miller, Esq., Agent of the Grand Trunk Co., Portland; and Importers in order to secure these advantages, will please specially direct their Goods to be shipped by the Steamers of the Montreal Ocean Steamship Company.

Produce as return Cargo will, in like manner be engaged through from any place in Canada to Liverpool, and at moderate rates of freight; and Passengers of all classes will be ticketed through.

The following are the dates of sailing fo the Steamships:—

INDIAN MEDICAL SOCIETY.

AT a meeting of this Society, held in Boston, Oct 1st, 1856, the following Officers were chosen:

Rev Noris Day, Boston, Pres't | John Stiles, Esq. Boston, Sec. Reuben Greene, M.D. " V.Pres't | Wm. M. Tyler, Esq. " Treas.

The following Resolutions were unanimously adopted:

Resolved, That in associating ourselves together to extend and perpetuate the Indian System of Medicine upon scientific principles, we believe we are conferring a favor upon the afflicted, and advancing the cause of TRUE Medical Science.

Resolved, That we have had ocular demonstration that Dr. Greene's treatment has cured hundreds of cases of Cancers, after they were acknowledged incurable by other physicians, and that the fruits of his practice for the last ten years conclusively prove that Cancers, Scrofula, Humors of the Blood, and various other diseases which have found no remedy in the labyrinths of the old systems of medicine, are permanently cured by a judicious use of "Nature's Remedies," in scientific and skillful hands.

Resolved, That we will not countenance ignorant pretenders, or quackery in any form, or receive as physicians into this Society, persons who have not received a medical education.

Resolved, That we recommend the continued publication of the newspaper entitled "Nature's Arcana," and that an extra copy, containing references to cases cured in different parts of the country, be furnished gratuitously to any person calling at the office, or ordering the same by mail, enclosing a postage stamp, addressing Dr. R. Greene, 36 Bromfield st., Boston.

JOHN STILES, Sec'y. NORRIS DAY, President.

INDIAN MEDICAL INSTITUTE,

Office, 36 Bromfield street, ----- Boston.

Established by Dr R. GREENE and his Associates, for the successful and scientific treatment of Cancers, Scrofulous Humors and all kinds of diseases, upon the Natural or Indian System of Medicine.

This Institution has now a large MEDICAL OFFICE and LABORATORY at 36 Bromfield st, and several Houses for the accommodation of patients from abroad, and is the ONLY Establishment sanctioned by the New England INDIAN MEDICAL SOCIETY. A newspaper has also been established, advocating this system of practice. It is entitled "Nature's Arcana," or the "Scientific Indian Physician." Monthly: 50 cts. per annum.

There are connected with this Institution, Bathing Rooms, where the patients can have the benefit of the ELECTRO-CHEMICAL BATHS.

Dr Green has also discovered what he terms the Electro-Medicated BATHS. This is the greatest triumph ever attained in MEDICAL ELECTRICITY, and offers new facilities for purifying the blood from all humors, and removing CANCERS, TUMORS, &c. ** Dr. GREENE may be consulted personally or by letter, free of charge. Circulars sent free when requested. All letters should enclose a postage stamp, and be directed "Dr. R. Greene, Bromfield st. Boston.

Coughs, Asthma, and Consumptive

Complaints are effectually cured by

Keating's Cough Lozenges.

THESE LOZENGES have become as familiar to the ear as "Household Words," as a remedy for Coughs, Colds, Hoarseness and other Affections of the Throat and Chest. They have found their way into the most remote districts and the most distant lands. They accompany the Gold-Hunter to the Diggings of Australia and California, and the Emigrant and Trapper to the forests of Canada, and the shores of Hudson Bay. To be without them in cases of need, would, in any person valuing his own health, be unwise; and in those to whom is entrusted the health of others, unpardonable.

Prepared and sold in Boxes and Tins of various sizes, by Thomas Keating, Chemist, &c., No. 79 St Paul's Churchyard, London. Sold retail by all Druggists, &c., in the whole world.

N. B.—To prevent spurious imitations, please to observe that the words "Keating's Cough Lozenges" are engraven on the Government Stamp of each Box, without which none are genuine.

IMPORTANT TESTIMONIAL

From Mr. MURLEY, late a Practitioner in Cheltenham.

Huntley, Gloucestershire, 3rd Nov., 1838.

Dear Keating,—It affords me much pleasure to learn that the sale of your Cough Lozenges is so extensive. Being acquainted with their composition, I am fully persuaded of their efficacy for promoting gentle expectoration, and allaying pulmonary irritation. In cases of Catarrhal disorder, it is most desirable to combine a class of medicines which may calm without the deleterious effects of Opium, and this desideratum is, I believe, effected by the ingredients in your Cough Lozenges. I well remember the very high opinion which a late eminent surgeon of one of our London Hospitals had of this preparation; he frequently told me that it was the only medicine which afforded relief to his wife, who had suffered for many years from Asthma.

If you consider the testimony of a retired Practitioner (after thirty-six years of extensive practice) of any advantage, you are quite welcome to avail yourself of this recommendation. With best wishes, believe me, dear Keating,

Faithfully yours,

S.H. MURLEY.

MONEY! MONEY MONEY

WHY BE WITHOUT MONEY? when it is just as easy for any one to be around with a pocket full as not, if they only think so. I have got a new article, from which from five to twenty dollars a day can be made, either by male or female. It is a highly respectable business, & an article which is wanted in every family in the United States. Enclose me two dollars by mail, at my risk, and I will forward by return of mail a Circular, with full instructions in the art. The business is very easy—Try it, if you are out of employment, and you will never regret it; for it will be better for you to pay the above sum, and insure a good business, than to pay twenty-five cents for a spurious advertisement. This is no humbug. *Try it! Try it! Try it!* Address your letter to

DWIGHT MONROE, New York.

I sent one of my Circulars to an Editor in Georgia, and he gave me a notice in his paper like the following:—

"Mr. Munroe sent me one of his Circulars, and I will just say to my readers that whoever of you are out of employment that Mr. Munroe's business is a good business, and money can be made out of it by any one who engages in it, for it is no humbug."

MONUMENTAL DAGUERREOTYPE CASES.

A METHOD has long been sought for, to insert in a durable manner, Daguerreotype Likenesses to Head Stones and Monuments. I have been manufacturing these Cases for the last two years, and can warrant them to *secure* the picture for a long number of years.

The outside case is made of Parian Marble, and the box which encloses the picture and keeps it in a state of great preservation for a long number of years, is made of brass,—*a screw box*. It makes a very neat job on a Head Stone or Monument. They are used in Greenwood Cemetery, Mount Auburn, Laurel Hill, and many other Cemeteries in the United States.

A liberal discount made to Marble Dealers and Daguerreotypists. Price from $2.25 each to $9.50 A circular of engravings will be sent to any address, free, with price list. Address,

QUEBEC, FEBY. 13, 1857.

In a late article we entered into some explanation of the Municipal Loan Fund Act, and gave a satement of the extent to which the municipalities, East and West, had availed themselves of its advantages. We shewed that out of the £3,000,000 sterling, to be divided equally between Upper and Lower Canada, Western municipalities had drawn £1,480,000 currency; while in the East only £171,000 currency had been applied for, and that this application had been limited almost exclusively to towns and counties in the district of Montreal. It might not be altogether useless to consider, how far the act on which has been taken in the matter can be traced to any political bearing. On minute investigation we found that in Upper Canada about £1 000,000 of the £1,480 000 had been taken up by towns and counties, which, at present, return to Parliament fifteen members of the opposition; £300,000 by constituencies returning nine members of the ministeral party; and £100,000 by others returning three members of doubtful leaning. In Lower Canada, the difference is more striking:—£170,000 had been taken by constituencies returning eight members of opposition, and the remaining £1,700 by Stanstead, which returns one ministerial member, Mr. Terrill. In this curious view of the case,—which may, at first sight, appear to some persons rather strange and farfetched, though statistics are justly regarded as the guiding principles of the day,—the grand total of the research is: £1,170,000 of the Municipal Loan Fund debenture debt sends 28 opposition members to Parliament; while £301,700 sends 10 ministerial members, and £100,000 three doubtful (Larwill, Robinson and Bell.) It would appear, then, that not fewer than 36 members, as representatives of their constituents, are politically and directly interested in the favorable treatment and satisfactory settlement of the Municipal Loan Fund debenture question, and these, it will be found, are not among the least enlightened or intelligent of our present legislators. The object of the Act, as well as its manifest tendency, is to promote the improvement of towns and various localities, the construction of roads, whether plankroads, railroads or highways, the building of bridges, and (it may be) the formation of wharves, docks, &c., &c. Altogether, the Act must certainly be considered, according to the language of the day, the Act of a reforming government; for it partakes largely of the genuine quality, and is calculated to enable municipalities to work out improvement and reformation on an extensive scale,—provided always that integrity and prudence preside over the management and application of the funds. Not the least important results, which may flow from its operation, will be decentralization of the governing power, and improved internal inter-communication.—We are induced to recur to this subject, and to take the above liberal view of the probable effects of the Act when fairly carried out, because a rumour has reached us, that certain *liberals* of Quebec intend to oppose the adoption of so beneficial a measure when proposed at the public meeting of the 19th inst. Has the threat in that violent tirade in the *Mercury* of the 7th inst., (for merly noticed by us) anything to do with this affair? There is certainly a hint given there, in rather frantic terms, that people are to be put down if they dare to make any propositions interfering with the object in view,—the judges being, without doubt, the editors of the *Mercury* and the *Journal*, and their special friends. The citizens of Quebec are not very likely to allow persons to be gagged at a public meeting by any set of partisans; however much the latter may fear public discussion, and may wish to avoid publicity, even in proportion as the liberal and straightforward court it at all times, and especially in all pubic undertakings.

Effects of the Recent Thaw.—We transfer to our columns, from United States papers, additional accounts of damage by freshets. The only flood in Eastern Canada that we have yet heard of is that of the Yamaska river. The ice on this river having broken up, on Sunday last, caused a tremendous rising of the water. Two bridges owned by M. L'Heureux, and M. Soly's mill dam were much damaged; and the Grand Trunk Railroad bridge, in course of construction, was partially destroyed. The loss to the Company is estimated at $6,000, and M L'Heureux, it is said, is also a sufferer to some extent.

Charge of Murder.—John Germain Weatherwax was lodged in the Common Gaol of this District yesterday by Mr. High Constable Delisle on a charge of murder. The prisoner was delivered over at Plattsburg, State of New York, on a requisition under the Ashburton Treaty.—Montreal *Herald* of yesterday.

No New York Mail of a later date than Saturday last has been received at the time of our going to press. The inundations in the vicinity of Albany have stopped all travel along the roads.

The Montreal Municipal Elections took place yesterday, when Mr. Starnes was reelected Mayor, without opposition.

E. Boulton, Esq., having resigned, W. Weller, Esq., has been elected Mayor of Cobourg for the present year.

To Correspondents.—"Cheops" notice of Mr. Andrew's lecture, Colonel Gugy's letter, and the communications signed "A Steamboat Agent," "Proprietor," and "Justice" will appear either to-morrow or on Monday.

To Sportsmen.—We are requested by a correspondent to publish the following Sections of the Act, 7 Vic. c. 12.:—

II. And be it enacted, that no person or persons shall within this Province after the first day of February in every year hereafter, take or kill in any manner whatever, any red or grey Deer, or any Moose, Elk or other Deer, or any Fawn, until the first day of August.

III. And be it enacted, that if any person shall take, hunt, shoot, kill, or destroy, any red or grey Deer, or any Moose, Elk, or other Deer or any Fawn, between the first day of February and the first day of August, or any Game called wild Turkey, Prairie Hen, or Grouse, Grouse Pheasant, Partridge, Quail, or any or either of them, between the first day of February and the first day of September in every year, or shall sell, offer for sale, buy, receive or have in his or her possession any Venison or Game aforesaid between those periods (such Venison or Game having been killed after the first day of February in any year, the proof to the contrary whereof shall be upon the party charged) or if any person shall take, shoot, kill or destroy or shall sell, offer for sale, buy, receive or have in his or her possession any Woodcock between the first day of February and the fifteenth day of July in any year, or if any person shall at any time hereafter erect make or set either wholly or in part any pen, trap, gin, net, or snare, for the purpose or with the intention of entrapping, taking, or snaring any wild Turkey, within this Province, any such person being convicted of any or either of the said offences before a Justice of the Peace, upon the oath or affirmation of one or more credible witness or witnesses, (which oath or affirmation the Justice is hereby authorized to administer) or upon view had of the offence by the said Justice himself, shall pay a fine or penalty not exceeding ten pounds nor less than ten shillings, current money of this Province, together with the costs and charges attending the proceedings and conviction.

Portland papers complain of the present arrangements on that section of the Grand Trunk Railroad, by which passengers are obliged to remain over night at Sherbrooke, instead of Island Pond as formerly. They say petitions are in circulation among the business men of that place, praying that the old arrangement may be resumed again.

Late advices bring some interesting intelligence from Japan. A grand convocation of the dignitaries of the empire has decided to permit no foreigner to visit the interior; therefore the efforts of the English, Russians and Americans to open trade with that country, have proved of no avail. The Japanese simply supply our vessels with necessaries, and receive in payment only gold and silver. The Dutch, on the contrary, are in high favor and enjoy a monopoly of foreign traffic. The Japanese are making rapid progress in naval knowledge, and they appropriated two million and a half of dollars for getting up a fleet of vessels of war, on the Eropean plan, to be commanded by Dutch naval officers. Four of these vessels are to be screw steamers.

Sheathing Copper.—The price of this article had advanced 8 per cent. in England during the week ending the 24th ult., being a rise of 25 per cent. in 6 weeks. Yellow metal had advanced in the same proportion. This will be good news to the holders of copper stock on this side of the water. So high have the prices of these articles risen during the past ten years, that as little as possible of either is now used upon shipping. This is particularly the case with copper. We do not suppose that there are fifty vessels now belonging to Boston that are sheathed with it. The cheapest yellow metal sheathing is in most demand. Copper and yellow metal fastenings are now almost out of use in shipbuilding. A few years ago every ship's floor timbers were bolted through the keel with copper, but now very few are even bolted with yellow metal. Iron and treenails are now the only fastening used in most of our ships; and the cause of this is the high price of copper and yellow metal, and the low price of shipping.—*Boston Atlas.*

Fair Hit.—Henry Ward Beecher, says, in reference to the exclusively fashionable churches, "there is too often private worship in public places."

It is said that the Chamber of Commerce of New York, as individuals, have signed a paper addressed to the President elect, requesting him to retain Mr. Marcy in his present position.

Some of the banks of Toronto will not receive the notes of the Zimmerman Bank.—Mr. Zimmerman, says the *Message*, should collect all the notes of the unsocial banks, and draw out £10,000 of their gold every other day. The Banque du Peuple brought them to reason in that way,

THE CORRIGAN TRIAL.

OPINIONS OF THE MONTREAL PRESS.

(From the Montreal Gazette)

We published yesterday the verdict rendered at Quebec, on Friday last, in the trial of James Hagan for the murder of Corrigan, preceded by the admirable charge to the jury of Mr. Justice Caron. No person, who has followed the course of this most unhappy judicial investigation, can have read the lucid, dignified, impartial charge of the judge, his careful weighing and sifting of the evidence, his careful exposition of the law, all clearly tending to the conviction that the prisoner was guilty, and not have been shocked at the decision arrived at by the jury. No honest man can rise from a perusal of the case, and not feel that justice has been thwarted, and an active participator in a foul crime, (whether murder or manslaughter, men may possibly differ in opinion,) has been loosed again on society. Strongly Protestant as we have been and are in feeling, and anxious for the punishment of Corrigan's slayers, of whatever creed, we should have yet been sincerely glad if this man Hagan could have proved himself not guilty, and so have saved the reputation of Lower Canada jurors, by affording a justification of the step they have taken. Such a result would have tended to allay any tendency to religious animosity, and have led to that much-to-be-desired tranquillity, which it is the duty of all good citizens to promote. Such is not the case, however; and it would ill become us, who have not hesitated to denounce the sectarian bigotry and fanaticism of certain parties in the West, to remain silent when we see criminals escape the punishment they deserve, when we see jurors ignoring the plainest evidence, and the clearest application of the law, for no reason under Heaven that we can divine, but that they are Romanists, the prisoner a Romanist, and the slain man a sort of Protestant bully. It is absolutely necessary for the public safety hereafter that these plain truths should be spoken, and much as we should regret a recurrence of any religious feud, we should regret still more if public opinion should rest unmoved at the spectacle of a fellow subject done to death, and his slayer justified by the perjury of twelve jurymen. The duty of saying this is an unpleasant,—perchance a dangerous one; but we shrink from no unpleasantness or danger in the discharge of what we conscientiously believe to be our duty as public journalists. Ministers have not been blameless in this matter, and, as their friends, we regret, of course, to say so. The law officers of the crown should have taken steps, after the result of the previous trials and the dissatisfaction expressed on the point, to have removed the venue. We do not believe they have acted otherwise from any desire to screen the offenders. On the contrary, we believe every effort has been used to procure a fair trial and a proper result at Quebec. We believe they did this from a desire to allow a Quebec jury an opportunity, by a manifestation of impartiality, to show that they had been falsely accused, and so put an end to all the ill-blood roused. They desired to act for the best. The result proves that they have erred in their judgment of the state of affairs. The verdict of acquittal in favor of Hagan has also been a verdict of guilty against Quebec juries,—a verdict in favor of the accusers. We believe Hagan was the last man in gaol awaiting his trial. If so, let the Government Commission act, and act at once, in the investigation of this matter. Let us have no more excuses for delay, and no more delays. Parliament should insist on having the report of that Commission ere its session is ended in the spring. If men are on it who cannot be spared for this business at this season, let others be appointed who can do the work, and do it forthwith. Better a thousand other political evils, than that men's property and lives should be left to the tender mercies of the bigots of any creed, with no redress to the injured for the wrongs comitted. Just such failures in the administration of justice have led to the establishment of Vigilance Committees, to anarchy, and the wildest disorders elsewhere. Let us avert these evils in Canada, by devising remedies at once for a state of things which is simply disgraceful to any civilised community.

(From the Montreal Argus.)

We give in another column the concluding part of the trial of Hagan for the murder of Corrigan, which press of other matter compelled us to omit yesterday. The charge to the Jury by Mr. Justice Caron is really an able production; and his exposition of the La sound and well delivered. It is in every respect the reverse of that of Judge Duval last year as reported. We would willingly believe that the Jury have acted conscientiously, and given a verdict in accordance with their belief of the evidence; but it is deeply to be regretted that the sectarian and party aspect given to the affair from the commencement rendered it almost impossible to look for an unbiassed judgment.

The conduct of the Government has been, from first to last, such as to withhold from them all confidence in their desire to render justice impartially. Their tardy and fruitless proceedings for the restoration of order, and to bring the alleged culprits to justice; their screening the public functionary who presided at the trial from the consequences of alleged misdirection of law, by refusing to obtain for the representatives of the people that information they had a right to demand; and their ultimately staving off the question by appointing a mock Commission of enquiry, which they took care should not act; these and other acts of culpability connected with the affair, which it is needless to recapitulate, mark them as men who would sacrifice the public safety, the public interests, or anything else, to the maintenance of themselves in power.

(From the Montreal Witness.)

The last act of this drama has, we suppose, been enacted. Hagan, who, up to last Fall, had eluded justice, has been brought to trial, and, in the face of the clearest proof of his guilt, has been acquitted. It is of no use to disguise the fact, that Roman Catholics have no conscience about the oath of Jurymen, and it is vain to hope that they will ever convict their co-religionists of crimes, however atrocious and however strong may be the evidence. The whole country was amazed when Kelly and others were acquitted of the murder of Corrigan, and its amazement and indignation will be increased when it learns that the evidence against Hagan was still more conclusive than it was against them. Mr. Justice Caron, in his charge to the Jury, said:—

"To acquit the prisoner, the jury must do one of two things, either declare they did not believe a single witness for the prosecution; or that they fully approved of all that had been done."

The jury did approve all that had been done to Corrigan. Their verdict was that Hagan was not guilty of murder, manslaughter, or assault.

THE NEW YORK MURDER.

The inquest in the case of the murder of Dr. Burdell was continued on Sunday. The Journal of Commerce gives an abstract of the evidence as follows:—

Miss Ellen Cunningham was re-examined. She knew nothing of her mother's marriage until the day after the murder, but had noticed that during the month of November her mother and the Doctor were very intimate. The silk dress found with what appeared to be blood upon it, was stained, as she thought, with pear juice.

Geo. Cunningham, a little son of Mrs. Cunningham, was sworn and testified that he had not spoken to his sisters or mother about the murder; did not remember having seen the deceased on Friday, or of hearing any noise in the house on Friday night; Snodgrass slept with him that night.

Miss. Ellen Cunningham was then recalled, and testified that during the past few months both herself and sister had slept with their mother; she never saw her mother have a safe key. On Saturday, the day after the murder, her mother took from a drawer, in her own room, her marriage certificate and showed it to Dr. Roberts, Mr. Snodgrass, her self and others, who were in the room. This was the first time witness knew anything about the marriage. The night of the marriage she remembers that Dr. Burdell and her mother and sister went out together, but did not know where they were going; does not remember seeing Mr. Eckel about the house then; is sure it was Dr. B. who went out with her mother and sister.—There was a Rev. Doctor who was in the habit of visiting Dr. Burdell, and witness recently understood that the deceased talked to him about getting a divorce from her mother, when Mr. Cox said he could, for $500, get sufficient evidence to accomplish it.

Levi S. Chatfield sworn—Said he had never seen Mrs. Cunningham; in September last he was called upon by Mr. Thayer, and retained by him as counsel for that lady in some action she intended to bring against Dr Burdell; Mr. Thayer brought the material facts of the case, and from his statements witness drew up the necessary papers, in which the application was made for the arrest of Dr. Burdell, for breach of promise of marriage. The substance of her statement was that a contract of marriage existed between her and Dr. Burdell, made in 1855, and to be executed in June, 1856. That soon after this contract was made, Dr. B. told her that he had some property in New Jersey, and invited Mrs. C. to go with him and look at it. They went, and by design on the part of the Doctor, failed to reach the cars in time to go home that day, and stopped at a hotel all night, where the Dr. came into her room and slept with her, although she remonstrated. That some time after she found herself *enceinte* and informed the Dr. who produced an abortion, and subsequently refused to fulfil the marriage contract.

B. C. Thayer sworn—Am a lawyer, and acquainted with Mrs. Cunningham. The suits in question were discontinued on the 22d October, but about three or four weeks after, Mrs. C. came to him and said she thought she would have to revive them again. One of them was for breach of promise of marriage. They were never revived.

[The marriage, it will be remembered, is claimed to have taken place on the 28th of October, and yet three or more weeks afterwards Mrs. C. told her lawyer that she did not know but she would have to revive the "breach of promise suit." This announcement created quite a sensation in the room.]

New York, Feb. 9.—Several witnesses testified in the Burdell case this morning. Drs. Blaisdell and Smith, both having business connections with Burdell, testified to their belief that the latter was at Saratoga on the 28th of October, the date of the alleged marriage. Blaisdell also testified that certain papers found in Eckel's possession, and purporting to have passed between Burdell and Mrs. Cunningham were forgeries.

Miss Sallenback, a corset maker, testified that one evening, late in October, Mrs. Cunningham and her eldest daughter came to her mother's house to await the arrival of a gentleman. The latter came, said "All right," and then the three went off together. The witness was here conducted into another room, where were several persons, and requested to point out the man that called for Mrs. C., and she unhesitatingly pointed to Eckel. The theory of the prosecution is, that the night alluded to was the one on which Mrs. Cunningham claims to have been married to Dr. Burdell.

Mr. Eckel was then called up, but refused to answer any interrogatories, on the plea that he was a party implicated. An exciting discussion ensued.

Wm. Burdell of Columbus, Ohio, a brother of the deceased, has given notice that he intends to apply for letters of administration on the latter's estate.

A WOMAN BUYING A SWORD-CANE.

Mr. Steward Black called upon the Deputy, Coroner last night and stated that on Friday last a lady and gentleman called at the store of Clyde & Black, No. 401 Broadway, to purchase a sword-cane. The lady was very particular about it, wanting a sword very strong and sharp. After trying a number, and finding none to suit her, she left with her companion. Mr. Stewart thought the proceeding a very strange one for a lady.

DR. BURDELL NOT IN THE CITY ON THE 28TH OCTOBER.

The certificate produced by Mrs. Cunningham to prove the marriage of Dr. Burdell and herself bears date October 28th, 1856, and purports to shew that the ceremony took place on that day. Dr. Watrous of Saratoga states that Dr. Burdell was at that village at the time mentioned—was there for three days—and is so registered at the Marvin Hotel. This statement is corroborated by The Saratoga County Press, which adds he was stopping at the hotel on his return from collecting his rents in Herkimer County. This would seem to prove an *alibi* as to the marriage. However the documents will be on here in a short time

The Rev. Mr. Marvine was recalled, and swore that he had seen Eckel both with and without his toupee, and that he was not the man he married to Mrs. Cunningham, the man whose body he had seen (Burdell) looked more like the man he had married. Eckel being out of the marriage, and if, as there is good reason to believe, Burdell was at Saratoga, when the marriage came off, the question arises, who is or was Mrs. Cunningham's last husband? Mr. Blaidsdell, a liquor merchant, swore that on Friday last Dr. Burdell told him that he was not married to Mrs. C.—that he had made a will without giving her anything, and that she had stolen it, &c.

I saw Mrs. C. open the door of the front parlor during this conversation; she passed out and went up stairs; I did not observe whether she walked away slowly orquickly I have been bondsman for Dr. B.'s of bills costs, &c; Dr. Burdell had a good many enemies; nearly all his difficulties grew out of money matters; he was a most penurious man, and thought more of a penny than another would of a $20 gold piece; no one outside the house expressed animosity against him; he had a serious difficulty with a man in Broadway named Evans, who I think is now in the Virginia State Prison; but I am not certain; it was about a robbery; Doctor told me that he had threatened revenge. I think he was convicted of burglary, and I know he was taken in Virginia.

WHO KILLED DR. BURDELL?

(From the New York Times.)

But who killed Dr. Burdell? The public insist upon an answer to this inquiry. If an answer cannot be had upon evidence, it must be had upon conjecture. The Coroner has assumed that the deed was done by Eckel and Mrs Cunningham, with the possible complicity of Snodgrass and the two daughters. That all these persons were parties to such a plot is simply incredible. Against Snodgrass and the daughters there is not the least evidence that warrants a moment's suspicion. Against the other two parties, the only circumstances that warrant suspicion are those which tend to establish a *motive* for the deed. If it should be proved that Eckel personated Dr. Burdell in the marriage ceremony, it would warrant a belief that Mrs Cunningham designed to lay the foundation for a claim to dower out of the Doctor's property upon his death, and that she succeeded in inducing Eckel to become a party to the intended fraud. But between this design and that of a premeditated murder, there is an awful gulf, which positive testimony will be required to bridge. That Mrs. Cunningham was a scheming, artful woman—that she disliked Dr. Burdell, and had frequently quarrelled with him—that she had used intemperate expressions of impatience and resentment towards him—that she had schemed to inveigle him into marriage, and even formed the plot alleged to possess herself of a portion of his wealth, may all be true:—and it also may be true that Eckel shared her dislike and had become a party to her resentments and her plans. These things, if proved, will warrant the suspicion that they had some motive, more or less strong, for the murder. But if they committed it, they planned it If done by them it was done with premeditation—in pursuance of a settled purpose; and to our minds there is not only no evidence of such a plan, but all the attendant circumstances exclude the supposition of it. That they should select in advance for the time an hour when part of the inmates of the house had just gone to bed, and the rest might come in at any moment:—that Mrs. Cunningham should on that night contrary to custom, permit her daughters to sleep with her, and thus become cognizant of any absence, agitation, effort to remove marks of blood or anything else naturally consequent upon such a deed;—that no attempt should have been made to conceal the body, to leave proofs of robbery or indications which should suggest inquiry for the murderer, in any other quarter,—while the whole night afforded abundant opportunity for so doing:—that all the parties should have gone to bed, slept soundly and arisen in the morning as usual, without the slightest indication of anything out of the ordinary course of things—all these circumstances strike us as absolutely incompatible with the belief that they were the guilty parties. The manner, moreover, in which they received the first announcement of the shocking tragedy was pefectly natural,—too natural to be susceptible of explanation on the theory of their guilt. That they should be suspected by the public—especially in view of the extraordinary conduct of the inquest, is not at all surprising. If Coroner Connery had been retained by the guilty parties for the express purpose of screening them from suspicion and fastening it upon others, he could not have labored more zealously or effectually for that end.

For our own part we do not believe that the murder was committed by any of the inmates of the house:—and we shall now call attention to some facts which lead us to the belief that it was the work of some person who came into the room on that night—either with the Doctor or in advance of his entrance, and left the house immediately after the deed was done.

The key of the door to the Doctor's room was left upon the outside, contrary to his usual custom. He had come in, unlocked the door, lit the gas, placed his shawl upon the sofa and his cap upon the mantel, and taken off his overshoes; but had not taken the key out and locked the door upon the inside. Upon the outside of the door were marks of blood,—one near the knob and another in the middle—both apparently made by the hands while carefully closing the door:—there was also a streak upon the edge of the casing, as if of blood dripping from the sleeve of the hand which was closing the door. There are also five distinct marks of blood, as if smeared with fingers, upon the stair-way wall leading to the front door:—and blood was also found upon the door near the handle, according to the testimony of Doctor Mane, who says that he tried to rub it off. Now in the absence of any theory, it would naturally occur to any person that these were the footsteps of the crime,—that the murderer had left the room after the deed,—had groped his way in the dark down stairs and through the hall—naturally feeling along the wall for direction—and had gone out at the front door, carrying with him the dagger he had used, the clothes he wore and all the means by which he could be connected with the dreadful butchery. The opportunity he has had during the time attention has been so exclusively directed elsewhere, to destroy all these traces of his guilt, has probably been improved.

In the next place, it is very evident that the murder was an act of vengeance—not perpetrated simply to get the Doctor out of the way, nor in self-defence, nor from any of the ordinary motives to crime. It was the work of somebody who was wreaking upon his victim feelings of the deepest and intensest revenge—not the resentment of persons who merely disliked him, but a feeling of hatred, cherished for years, and growing stronger with every day's delay in its gratification. Fifteen stabs were found upon him—two piercing his heart, one severing his jugular vain—all deep, wide, made eveidently by a weapon driven home by a strong arm and prompted by a passion which death did not satiate, and which found intense satisfaction even in stabbing the inanimate corpse of its victim. That Dr. Burdell had such enemies there is every reason to believe. His whole course of life has been marked by quarrelings and contentions. He was himself passionate, suspicious and personally timid. He had been charged with the grossest dishonesty in his dealings with his brother and his brother's wife, both before and after their divorce. It has been reported that some years ago he was instrumental in sending to State Prison a man who had committed a forgery upon him,—a desperate, determined character, who solemnly declared at that time, that, if he ever left the Prison alive, he would wreak his vengeance upon Doctor Burdell. We have also heard it rumored that this man is not now in prison,—that he was known to be in this City within a fortnight of the time of the murder, and that he has not since been heard of. If so, here, certainly, is a man who had a motive for the deed. The feeling which he entertained, the resentment which he cherished, and the threat he made, are all in keeping with the character of the act. Ten years spent in prison, brooding over such a passion, would nurse it into a degree of vengeance adequate to the dreadful crime.

If this man came to this City in pursuit of his revenge, he would find many ready to give him the needed knowledge of the doctor's habits, and to furnish him with the means of access to his apartment. Any ordinary night-key opens the outer door, and the lock upon his own door is of the most common sort. A man might have been easily concealed in his room—in the closet or the room adjoining—and upon the doctor's entrance waited until he was seated, or had stoped to take off his overshoes or started for the door to take out his key, and then suddenly grappled his throat and inflicted the fatal stabs.

All this as yet is mere conjecture; but it seems to us plausible enough to warrant a rigid and persevering inquiry. There should certainly be some investigation of the doctor's relations with others,—with persons known to be hostile towards him, and especially with men known to have made such threats against him as this convict is reported to have uttered. The animosities and hatreds growing out of his brother's divorce,—out of the conviction of the frauds he is said to have committed in connection with his brother's estate, should be explored and folowed to their results. The great error of the inquest has been in limiting the inquiry to a single direction,—in proceeding upon one theory of the crime, to the exclusion of everything beside. It is some consolation to know that, when the inquest is closed, the case will pass from the Coroner's hands into those of the District-Attorney and a Grand Jury.

TREMENDOUS FRESHETS.

Hudson, Susquehannah, and Connecticut Rivers overflowed.

PROBABLE LOSS OF LIFE AND GREAT LOSS OF PROPERTY.

Destructive Freshet at Albany.—Albany, Feb. 9.—A tremendous flood occurred here last night, causing damage it is estimated to the amount of $2,000,000. When the great flood commenced it was about 2 o'clock in the morning, and the water rose six inches in five minutes. Persons who had retired to bed, thinking themselves safe, were aroused by horsemen who rode through the water knocking at the doors of houses, to arouse the sleepers to a sense of their danger. The wildest confusion prevailed; the people in the lower parts of the city having barely time to escape with their lives.

A large number of cattle stabled in the distilleries, were drowned—their bellowings and cries added excitement to the scene.

In the present condition of things, it is impossible to give a correct account of events. Rumors prevail of several lives being lost, and they are probably correct, as part of Greenbush is submerged, but at present we can only learn reliably of two men being, one of whom was intoxicated and lying on a pier.

Twelve canal boats, three barges, and the steam tugs R. I. Grant and H. M. Dowd, were sunk. The canal line warehouses on the piers are stove in, the flood making a breach through them. Three hundred and sixty head of cattle were drowned at East Albany. A number of horses stabled in the lower part of the city were drowned. The boats in Columbia street basin were badly damaged by being crushed between immense piles of lumber. Two or three wrecks of houses went down the river this morning from above, and on the roof of one of the houses were two men.

The Hudson river railroad track is submerged, but the damage is at present unknown. The Central railroad track is submerged for a considerable distance. The train reached the outskirts of the city this morning, and landed the passengers. No trains have gone out yet to-day, but one will be started at 12 o'clock.

The ice is now supposed to be blocked below Van wick's Point, and the water is again rising. A public meeting has been called by Messrs. Corning, Schoolcraft, and other prominent citizens, to devise measures for the relief of sufferers. Several alarms of fire have been sounded during the morning. The water continues on the rise, and the weather is moderating. Rawson's new Iron store, next to Corning's on Broadway, took fire from the lime in it, but it was subdued.

Mr. Silliman, a lumber dealer, had a narrow escape with his life. He was in his office when a rapid rush of water over the district took place, and he was surrounded by eight feet of water, before he knew of his danger. He cut his way through the roof of the building, and was rescued by a boat.

The lumber district is overflowed. The lumber all upset, but not much carried away. The report that large fires were raging here having reached Troy, four companies started for this city, and reached here at half past 11 o'clock, after a hard journey. They were loudly cheered as they arrived.

9 P. M.—The water has not receded, although no perceptable rise since 4 o'clock. Teams are employed dragging out accessible dead cattle. Huge masses of lumber, offices, houses, &c., are pouring down the stream with frightful rapidity. The amount of damage it is still impossible to conjecture—days must pass before correct estimates can be made.

R. H. Pease's machinery is demolished, and valuable machinery destroyed. The Central Railroad freight house, which is filled with a large amount of flour, and provisions is surrounded by water. The Canal line warehouses on the pier have been cut open by the ice, and the contents carried off. The Mohawk River is clear of ice to Schenectady.

The ice is piled 15 feet deep on the Troy and Greenbush Railroad the entire distance.

Citizens and officials are acting energetically for the relief of the sufferers.

Freshet at Troy.—Troy, Feb. 9.—The ice commenced moving in the river here at 3 o'clock yesterday, the water rising higher than has been known in 50 years before. The entire lower part of the city is overflowed.

The Rensselaer railroad bridge is in imminent danger, the buildings from up the river came down with considerable force, and lodged against the Troy and Saratoga bridge. The Rensselaer and Saratoga freight depot on Green Island, caught fire from the slacking of lime, and was burned. The railroad tracks from all points are stopped, and business is entirely suspended.

Freshet at Harrisburgh, Pa.—Harrisburgh, Feb. 9.—There is a flood in the Susquehanna. The ice is gorged four miles below this city, and is piled upon the railroad some 10 or 15 feet high. The trains are of course suspended both ways. It is reported that a couple of bridges over the Juniata have been swept away, together with several pieces of the Cumberland Valley Bridge. An enormous destruction of property is threatened.

Freshet at Greenfield Mass.—Greenfield, Feb. 9.—Deerfield river broke up last night, and dammed up at the bend in the river, near Deerfield Meadow. The water and ice set back, completely undermining and destroying Stebbins' grist mill at Deerfield. From 600 to 800 bushels of grain and meal were destroyed, and two families were with the utmost difficulty saved. The mill is a total loss.

Philadelphia, Feb. 9.—The ice in the Schuylkill broke up last night. There are eleven feet of water on the Fairmount Dam. Most of the wharves are overflowed, and large quantities of wood and lumber have floated off.

Easton, Pa., Feb. 9.—The Delaware River has risen 15 feet, and the town is flooded to the depth of 5 feet, in some parts. A house has been washed away at Lambertville, and also a portion of Van Cleve's foundry at Trenton. The bridges are all in a precarious condition; the ice in some places being piled up 20 feet.

Baltimore, Feb. 8—Our harbor is open again and the steamer Herald got down to Annapolis yesterday, and will come up with the barque Swan to-morrow. In the river the ice is much weakened, and in the bay it is all adrift, and will be driven out tonight by the Northwest gale, which is now prevailing.

Chicago, February 9.—We have been visited with the greatest storm and flood experienced in this vicinity since 1849. The Milwaukee Railroad Bridge is damaged considerably. No trains are running on the Galena Railroad. The bridge at Elgin has been swept away, and a number of culverts destroyed. The Fond du Lac Railroad track is carried away in several places; also, the bridge at Aux Plains. The Burlington Railroad Bridge, across the Bureau River, is gone. The Rock Island Railroad Bridge, across the Dupage River, was moved by the ice on Friday night. An engine tender and six cars were precipitated into the river. The engineer, fireman, and brakeman are missing; supposed to be drowned. The Illinois River at Lasalles, rose twenty-eight feet.

Sir,—Being anxious to get a contract for Champlain street Water Works, would you be so kind as to inform me (it being understood that Editors know everything,) if the report now circulated is true, i. e. that the Water Works Committee have no money to pay the contractors who have already finished their work? It may be that these contractors only want to frighten the like of me. Perhaps, too, the Committee have advertised, only to throw dust in the eyes of the people of Champlain Street. Do let me know?

WHAT DO THE PHYSICIANS SAY OF M'LANE'S VERMIFUGE, PREPARED BY FLEMING BROS.

☞ Listen to the testimony of an eminent physician in favor of M'Lane's Vermifuge, which is now universally acknowledged to be the best in use; even members of the medical faculty (who are so, often opposed to the use of patent medicines, cannot withhold the approval of this invaluable remedy:

Lind, Stark Co., Ohio, January 8, 1849.

I have used Dr. M'Lane's Worm Specific, prepared by Fleming Bros., Pittsburgh, Pa., in my private practice, and am prepared to say that the unparalelled success with which I have prescribed its use, both for children and adults, induces me to say the most in its favor of any specific or patent medicine ever before brought to my notice. The mode of administration, the smallness of the dose, and the certainty of its efficacious effects, give it, in my opinion, a decided advantage over any other medicine of the kind before the public.

Holloway's Ointment and Pills, cure of Piles, after fourteen years affliction.—Mr. M. C., of Montreal, was a martyr to this complaint for 14 years, rendering him an object of misery to himself as well as to his friends; he shunned society, lest he should let those around him observe his affliction, and thus he suffered secretly. As he had tried every remedy without success, he at last gave up in despair all hopes of recovery; but resolved to give to Holloway's Ointment and Pills a last trial, and fortunate it was he did so, for these potent remedies cured him infive weeks. He feels so grateful for the cure effected, that he wishes these facts to be made public for the benefit of similar sufferers.

Public Notice!

WE, the undersigned, most respectfully inform our Friends and the Public in general, that we have ENTERED INTO PARTNERSHIP together, and intend opening an OFFICE in this City, in the beginning of MAY next, and we beg leave to offer you our united services in all the BRANCHES of

GENERAL AGENCY.

About three years ago, a similar institution was established at Montreal, and the citizens of that place, impressed with the usefulness and importance thereof, have not ceased nor failed to grant it that encouragement and patronage which it deserves, and it now enjoys an extensive and still increasing prosperity.

At the solicitation and through the advice of several of the most respectable inhabitants of this city, who tell us that Quebec also requires an institution of this nature, and being in hopes that the same might meet with equal encouragement in this city and relying in advance on the approbation and patronage of our friends and the Public in general, we have threfore come to the determination above mentioned of opening an OFFICE OF GENERAL AGENCY in this city, on the FIRST of MAY next.

We deem it our duty to declare that it is our intention to organize our Office in such manner as to enable us to despatch all amount of business which we may be entrusted with, without any unnecessary delay, and while the performance of all such services will be the means of procuring us an honorable existence it will at the same time furnish our clients the opportunity of saving themselves a great deal of time so precious at divers seasons of the year, when agricultural and commercial pursuits command their attention.

The measures which we intend adopting will enable us to execute, without the least difficulty, all Collection of Monies, to make and forward all Claims to Government and others, to procure all information on Township Lands or elsewhere, to dispose of all Immoveable property and generally transact all other business with which we may be entrusted, as well in Town as in the Country, and in all the Provinces of Canada, as also in the United States of America; and all which shall receive on our part the most prompt attention and despatch; on the most moderate terms.

For the greater convenience of our clients, we are disposed to establish a regular rate of per centage for all transactions, and even contract with them an annual engagement at a stated salary. We shall make it our duty to attend to all Collections as diligently as possible in using all necessary delicacy to not indispose any debtor against his creditors.

By thus taking all necessary measures and precautions for the full satisfaction of our clients, we fully trust that a benevolent Public will grant us their patronage, and we shall make it our duty to do all in our power to promote their benefit and interests and give them general satisfaction.

The most devoted servants,
JEAN BTE. MARCOUX,
P. HONORE MARCHAND.

NORTH SHORE RAILWAY.

CITY HALL, QUEBEC, 5TH FEB., 1857 }

AT a MEETING of the CITY COUNCIL, held on the 2nd instant, it was—

1.—RESOLVED, That with the view of ensuring the construction of the North Shore Railway, the Corporation of Quebec do subscribe to the capital of the North Shore Railroad Company between Quebec and Montreal, shares to the amount of Two Hundred Thousand Pounds, in addition to the amount of One Hundred Thousand Pounds already subscribed, and this on the following conditions:—1. The Company shall commence the works within four months after the passing of the present and its ratification by the citizens of Quebec, and shall prosecute them without interruption, in such manner as to complete them in three years. 2.—So soon as the Company shall have disbursed the sum of thirty thousand pounds on the road, the Corporation of Quebec will pay to the Company thirty thousand pounds on account of the three hundred thousand pounds subscribed by it; the Company paying the next thirty thousand pounds, out of their other means; and the Corporation, and the Company shall continue thus to pay thirty thousand pounds alternately, until the three hundred thousand pounds subscribed by this Corporation shall have been paid. 3.—The works of the railway shall be commenced at Quebec. 4.—The payments to be made by this Corporation shall be in bonds of the city or Debentures of the Province guaranteed by the Municipal Loan Fund for Lower Canada. 5.—The contractor and the Company shall bind themselves to pay six per cent interest on the said debentures thus received during the continuation of the works on the North Shore Railroad from Quebec to Montreal.

2.—RESOLVED, That His Worship the Mayor do call a public meeting of the citizens of Quebec, at an early day to consider the project of the North Shore Railway, with a view to further aid.

IN conformity with the above Resolution, I hereby convoke a PUBLIC MEETING of the Citizens of this City, at the COURT HOUSE, on THURSDAY, the 19th instant, at TWO o'clock in the afternoon.

Russell's Hotel,
Palace Street, Dec. 27, 1856.

To the Electors of the County of RIMOUSKI.

GENTLEMEN,—Learning that J. C. Taché, Esquire, Knight of the Legion of Honor, has resigned his mandate as the Representative of your County, and that the electors of the County of Rimouski desire to bring forward, as a candidate, one of our esteemed fellow citizens, Mr. M. W. Baby, of this City,—I deem it right, and it affords me pleasure, to give publicity to the following letter, which that gentleman lately addressed to me, on the very day of his departure for Europe. I ought not to omit saying that the purpose of Mr. Baby's voyage is to execute a mission of much importance to the commerce of this Province, the object being mainly, to obtain a large reduction of the rates of insurance on vessels and goods despatched from Europe to Canada in connection with the question of the establishment of a Line of Provincial Tug Steamers for the Gulf of St. Lawrence.

I have the honor to be, respectfully,
Gentlemen,
Your very humble servant,
GEO. H. SIMARD.
Quebec, 12th Jany., 1857.

QUEBEC, 1st December, 1857.

GEORGE H. SIMARD, Esq., M. P. P.,
Quebec,

Dear Sir,—

As I am about to leave for Europe, whence I shall return by the 15th February next, I conceive I should, ere my departure, inform you what would be my line of conduct, and my politics, in the event of Mr. Taché resigning his seat in Parliament, and the electors of the County of Rimouski returning me in his stead.

Before all things, I should be wholly devoted to the promotion of the interests of this important County, making every effort, and energetically striving to obtain for it the improvements of which it stands so much in need.

I should be in favor of every measure having for object, not only the continuation of the Railroad from St. Thomas to Trois Pistoles, but to the New Brunswick boundary, following nearly the route marked out by Major Robinson, and thus securing a line of Railway to all the Parishes along the River; and I should, also endeavor to have this road extended, even to Halifax.

I should, advocate colonization, in Lower Canada, on a liberal basis, affording to our Canadian youth the advantages of settling here, instead of removing to a strange country, as has, unfortunately, been too much the case for a number of years past.

As regards my political principles, they are essentially liberal, for on this Continent of America, progression is absolutely necessary.

I address you these few lines in order that, if need be, you may communicate them to my numerous friends in the County of Rimouski.

I am, dear Sir,
Your very devoted servant and friend.
M. W. BABY.

Vice-Presidents:

JOHN CAMPBELL COLQUHOUN, Esq., of Killermont,
His Grace The DUKE OF BUCCLEUGH,
His Grace The DUKE OF ATHOLL.

☞ THE PRESIDENT, VICE-PRESIDENTS and DIRECTORS ARE ALL INSURED IN THE SOCIETY.

1. CHARACTER and STANDING—The Noblemen and Gentlemen who form the Board of Direction of this Society attest their high opinion of its soundness and liberality and of the positive pecuniary advantages secured to its members by *insuring their own lives in the Society* and by presiding over the management of its affairs.

2. CERTAINTY OF FINAL PAYMENT.—Every consideration is made subordinate to the perfect security of the Assured. It is the paramount object of this Society that seventy or eighty years hence Policies shall be as promptly paid as they have been for the last thirty years of its existence, and the safe and satisfactory character of the investments will be found detailed in the 3rd Septennial "Investigation" Pamphlet, published and distributed by numerous agents of the Society, which is neither a secret nor a Proprietary Association.

3. IMPORTANT REDUCTION OF PREMIUMS.—From the pamphlet referred to information will be obtained as to the large profits of the Society, *all belonging to the assured*, from an application of which for the future, as fully explained in page 29, has been framed a Table of Premiums unprecedentedly low. For instance, (table A C) a person aged twenty may secure £100 at death by the annual payment of £1 8s 6d.; were his age thirty, he should pay £1 16s. 7d; if forty, £2 9s. 7d.; if fifty, £3 10s. 9d.; if sixty, only £5 7s 2d., and proportionate premiums for intermediate ages. Under the table the £100 is insured if the additions declared during the currency of the Policy are greater than at the rate of 1¼ per Cent., or diminished if less. *The rate has never been less* and at the last two investigations *exceeded* 1½ per Cent. A Life Insurance for one year will cost £1 5s. 6d. for £100 at age 40.

4. AMOUNT OF BUSINESS.—The outstanding Assurances exceed TWO MILLIONS and A-HALF STERLING. A number of the most respectable citizens of Quebec hold Policies, or are insured in the Society.

5 Proposals entertained for Assurance of any *contingency* depending on human Life. Various modes of payment of premiums to suit the Assured.

WONDERFUL FACTS!!

Scrofula! Scrofula!!

R. H. COLLINS,

THE CELEBRATED AND WELL KNOWN

Veterinary Surgeon of Galt.

IN compliance with the wishes of many of his friends to make known to the public, for the sake of the sufferings of thousands who are now afflicted with the worst of Dried and running Scrofula, his valuable Ointment and whole vegetable Bitters, has now been tested for more than half a century, and never once has a failure in a perfect cure been known, though hundreds have used it both here and in the old country.

R. H. Collins binds himself to the public, that wherever a certain cure is not performed, he will honorably refund the money at his residence in Galt, to all who may use his Ointment, and its not having eradicated the disease. The names of several persons here and elsewhere can be given, if required, who have used it and a thorough cure having been made. Medicine and directions sent to all parts of the province by R. H. C.

Sold only by R. H. Collins, (to prevent imposition) at his residence, Galt, near Knox's Church.

R. C. H. also fully recommends to the public his celebrated Mixture for Rheumatism and Sprains. References of the highest respectability will be given.

R. H. C. wishing to satisfy and prove to the most Sceptical, the value and confidence that may be placed in his ointment, for the above disease, wishes to make known that he requires no money for three months after the cure is perfected, but good security wil be required for the amount.

No More Pills nor any other MEDECINE

FOR CONSTIPATION, INDIGESTION, (DYSPEPSIA), NERVOUS, BILIOUS, & LIVER COMPLAINTS, COUGH, ASTHMA, CONSUMPTION and DEBILITY.

DuBarry's delicious Revalenta Arabica Food saves fifty times its cost in other medicine, and cures the above complaints and their consequences, such as:—Flatulency, distension, acidity heartburn, palpitation of the heart, nervous headaches, hysteria, neuralgia, deafness, noise in the head and ears, pains at the pit of the stomach and between the shoulders, erysipelas, eruptions of skin impurities and poverty of the blood, scrofula, cough, asthma, consumption, dropsy, rheumatism, gout, nausea and sickness during pregnancy, after eating or at sea; low spirits, spasms, epileptic fits, spleen, general debility, inquietude, sleeplessness, involuntary blushing, paralyses, tremors, dislike to society, unfitness for study, loss of memory, delusions, vertigo, blood to the head, exhaustion, melancholy, groundless fear, indecision, wretchedness. It is moreover the best food for infants and invalids generally, as it never turns acid on the weakest stomach, nor interferes with a good liberal diet, but imparts a healthy relish for lunch and dinner, and restores the faculty of digestion, and nervous and muscular energy to the enfeebled. Supported by testimonials from the celebrated Professors of Chemistry Dr. Andrew Ure; Dr. Shoreland; Dr. Harvey; Dr. Campbell; Dr. Gattiker; Dr Wurzer; Dr. Ingram; Lord Stuart de Decies; the Dowager Countess of Castlestuart; Major Gen. Thomas King and many other respectable persons, whose health has been restored by it, after all other means of cure had failed.

IMPORTANT CAUTION against the fearful dangers of spurious imitations:

The Vice-Chancellor Sir William Page Wood granted an Injunction on the 10th March, 1854, against Alfred Hooper Nevill, for imitating "Du Barry's Revalenta Arabica Food."

BARRY DU BARRY & CO., 77, Regent Street, London.

A few out of 50,000 cures are here given:—

Cure No. 71, of dyspepsia, from the RIGHT HON. THE LORD STUART DE DECIES, "I have derived considerable benefit from Du Barry's Revalenta Arabica Food, and consider it due to yourselves and the public to authorise the publication of these lines:—
STUART DE DECIES."

Cure 52,612.—Rosstrevor, County of Down, Ireland, 9 December, 1854.—THE DOWAGER COUNTESS OF CASTLESTUART feels induced, in the interest of suffering humanity, to state that Du Barry's excellent Revalenta Arabica Food has cured her, after all Medicines had failed, of indigestion, bile, great nervousness and irritability of many years standing. The Food deserves the confidence of all sufferers and may be considered a real blessing. Enquiries will be cheerfully answered.

Cure 41 617. Winchester, Dec. 3rd, 1847.
Gentlemen,—I am happy to be able to inform you that the person for whom your Revalenta was procured, has derived very great benefit from its use: distressing symptoms of dropsy, dyspepsia, and constipation of long standing have been removed and a feeling of restored health induced. Having witnessed the beneficial effects in the above mentioned case, I can with confidence recommend it, & shall have much pleasure in doing so whenever an opportunity offers, &c.
James Shoreland, late Surgeon, 96th Reg.

Cure No. 49,832.—Fifty years indescribable agony from dyspepsia, nervousness, asthma, cough, constipation, flatulency, spasms, sickness at the stomach and vomiting, have been removed by Du Barry's excellent food.
Maria Joly, Wortham Ling, near Diss, Norfolk

Cure No. 47,121—Miss Elizabeth Jacobs, of Nazing Vicarage, Walthamcross, Herts: a cure of extreme nervousness, indigestion, gatherings, low spirits and nervous fancies.

Cure No. 48,314—Miss Elizabeth Yeoman, Gateacre, near Liverpool: a cure of ten years dyspepsia and all the horrors of nervous irritability

Cure No. 3,906—Thirteen years cough, indigestion, and general debility have been removed by Du Barry's excellent Revalenta Arabica Food. James Porter. Athol street, Perth.

Cure 52 422. Bridgehouse, Frimley, 3rd April, 1854.
33 years diseased lungs, spitting of blood, liver derangement, deafness, singing in the ears, constipation, debility, shortness of breath and cough, have been removed by your Revalenta Arabica. My lungs, liver, stomach, head and ears are all right, my hearing perfect and my recovery is a marvel to all my acquaintances.
James Roberts, Wood merchant.

Cure No. 180—25 years nervousness, constipation, indigestion, and debility, from which I have suffered great misery, and which no medicine could remove or relieve, have been effectually cured by Du Barry's Food in a very short time.
W. R. Reeves, 181. Fleet st. London.

Cure No. 4,208—Eight years Dyspepsia, nervousness, debility with cramps, spasms, and nausea, for which my servant had consulted the advice of many, have been effectually removed by Du Barry's health restoring food. I shall be happy to answer any inquiries.

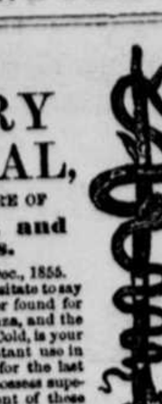
AYER'S CHERRY PECTORAL,



FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BRIMFIELD, MASS., 20th Dec., 1855.

DR. J. C. AYER: I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of UTICA, N.Y., writes: "I have used your PECTORAL myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

Croup, Whooping Cough, Influenza.

SPRINGFIELD, MISS., Feb. 7, 1856.

BROTHER AYER: I will cheerfully certify your PECTORAL is the best remedy we possess for the cure of *Whooping Cough, Croup*, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people.
HIRAM CONKLIN, M. D.

AMOS LEE, Esq., MONTEREY, IA., writes, 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

Asthma or Phthisic, and Bronchitis.

WEST MANCHESTER, PA., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years. HENRY L. PARKS, Merchant.

A. A. RAMSEY, M.D., ALBION, MONROE CO., IOWA, writes, Sept. 6, 1855: "During my practice of many years I have found nothing equal to your CHERRY PECTORAL for giving ease and relief to consumptive patients, or curing such as are curable."

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

Consumption.

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to those the CHERRY PECTORAL affords relief and comfort.

ASTOR HOUSE, NEW YORK CITY, March 5, 1856

DOCTOR AYER, LOWELL: I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She had been five months laboring under the dangerous symptoms of Consumption, from which no aid we could procure gave her much relief. She was steadily failing, until Dr. Strong, of this city, where we have come for advice, recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as she used to be, but is free from her cough, and calls herself well.
Yours with gratitude and regard,
ORLANDO SHELBY, OF SHELBYVILLE.

Consumptives, do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

Ayer's Cathartic Pills.

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these PILLS have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant Medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them, and they should have it.

Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

PITTSBURG, PA., May 1, 1855.

DR. J.C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.
Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders and Liver Complaints.

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the *liver* is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.
Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 15, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system, and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of S. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness,** and **Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

A MARVELLOUS REMEDY!
FOR A MARVELLOUS AGE!!

Holloway's Ointment.

THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the Liver, affections of the Heart, Inflamation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, RHEUMATISM AND SCORBUTIC HUMOURS.

No remedy has ever done so much for the cure of diseases of the Skin, whatever form they may assume, as this Ointment. Scurvy, Sore Heads, Scrofula, or Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND ULCERS.

Some of the most scientific surgeons now rely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings, and tumours. Professor Holloway has dispatched to the East, large shipments of this Ointment, to be used in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Cancers	Scalds
Bad Breasts	Contracted and	Sore Nipples
Burns	Stiff-joints	Sore-throats
Bunions	Elephantiasis	Skin-diseases
Bite of Moschetoes	Fistulas	Scurvy
and Sand-flies	Gout	Sore-heads
Coco-Bay	Glandular Swellings	Tumours
Chiego-foot	Lumbago	Ulcers
Chilblains	Piles	Wounds
Chapped-hands	Rheumatism	Yaws
Corns (Soft)

Remarkable Discovery

IN FOREST PLANTS.

DR. HALSEY (of New York), has discovered medicinal properties in certain plants found growing wild in the forests and fields, from which he has produced Two Remedies which cure the worst form of Disease.

The virtue of five of these Plants he obtains in the form of Extracts, so pure and concentrated, as to take twenty pounds of the dried Roots to make one of the Extract. It is then prepared for use in the form of PILLS, which are called

Dr. Halsey's Forest Pills.

The other Remedy is produced from the virtues of seven Plants, by a process of his own invention. This is called

Dr. Halsey's Forest Wine,

(it being a Wine produced from Medicinal plants of the forest, a thing never before accomplished).

THE FOREST PILLS.

There are three things peculiar to these Pills alone—

1st. They never gripe nor weaken the system. This is because they contain no Drugs or Minerals, but that they are the Pure virtues of Plants which are as wholesome as the food we eat.

2d. They purge most when the stomach and bowels are most bilious and foul, after this their efficacy enters the blood, and the process of purifying goes on until all humor and disease are got out of the system.

3d. A cure is certain in all cases for which they are recommended, and they cure without affecting the bowels but slightly.

It is folly to use severe and griping purgatives, such drugs give pain and weakness, without cleansing the Blood; besides they injure the tone of the stomach and bowels. My principle is never to weaken the system; the stronger the vital functions, the more power have they to throw off disease when assisted by a really good medicine. Salts and Castor oil and the whole category of pills, made of Drugs, answer no purpose more than purgation. Such drugs neither reach the blood or bad humor. The Pills made of these Plants is a different thing altogether. They cannot harm a child, yet just so sure as we are living beings, so sure am I that their efficacy in curing Diseases of the Blood and other complaints is certain, and in some cases to which I have been eye-witness, their cures have been almost miraculous.

THE FOREST WINE.

The medical properties of the Forest Wine are different from those of the Pills, but the efficacy of each Remedy harmonizes together; and in the cure of Disorders one Remedy is as important to the other as water and food are for our existence. Again, there are some complaints which require only the Wine to accomplish a cure. While again, there are a great many complaints which require but the Pills to ensure the cure. I have pointed out in the following directions some of the cases which require only the Pills, and other cases which require only the Wine; also some of the cases which require both the Wine and the Pills. The combined action of both Remedies have a more powerful and searching efficacy, and cure sooner than either remedy alone in all such cases as I have recommended them together.

One purgative dose of the Forest Pills is warranted to cure any Bilious disorder, or any complaint arising from foul stomach and morbid condition of the bowels.

One or two purgative doses will cure Fevers.

One Box of the Pills and a Bottle of the Wine is warranted to break up and cure the most severe Colds, Coughs, and Pain in the Breast. (I have never tried my Remedies in the most advanced stages of consumption, and cannot warrant them to cure it), but old and seated Colds, and Coughs, and Pain in the Breast these Remedies cure sooner than anything I ever knew or heard of.

One Bottle of the Wine and a Box of the Pills are warranted to cure the Asthma, but some bad cases require more.

The Forest Remedies give immediate relief to Dyspepsia and Indigestion, and one or two Boxes and as many Bottles, are warranted to cure the most severe cases of this distressing complaint.

The efficacy of the Forest Remedies in Rheumatism is very singular; some of the most distressing cases I ever saw have been cured by them in ten or twelve days time, while some other cases (apparently not so bad), it took nearly three months before the complaint yielded to the efficacy of the Remedies. This sometimes may be owing to a broken down constitution, but more frequently to some kind of narcotic drug taken at some former period, for I have always noticed it took longer to cure patients who had taken mercury, colchicum, and other poisonous drugs. How often do we hear a remark something like this: "I have never felt so well since my last fit of sickness." Now the cause of prostration, and broken constitution after a fit of sickness, is not so frequently the disorder as the baneful effects of drugs employed while sick.

AGUE AND FEVER, OR CHILLS.

The Forest Remedies are the best cure in the world for Ague and Fever. One or two doses of the Pills and less than a Bottle of Wine, is warranted to break the Ague and cure the patient, but the directions which accompany the Remedies should be adhered to. I have had some Ague and Fever patients who were very much bloated and limbs badly swollen from the bad effect of medicines containing quinine. No bad effects ever follow the cure by the Forest Remedies. The fact is, I have had many apply for my Remedies to cure the bad effects of quinine, even after they had got rid of the Ague.

Ulcers, Boils, Blotches, Scabbed Head, Ring-Worm, Erysipelas, Salt Rheum, Sore Eyes, and every kind of Humor. I have never witnessed anything so certain and complete as the Forest Remedies in the cure of these complaints. They all arise from one common cause—Impure Bloodt Generally nothing but the Pills are required for the cure of the most of these disorders; but if the Remedies are used, two Boxes of the Pills, and two or three Bottles of the Wine is warranted to cure the very worst cases, and frequently by less than half the quantity.

Two Boxes of the Pills and as many Bottles of the Wine is warranted to cure the worst cases of Jaundice.

Female Obstructions produced from bad colds or weakly constitutions, a few doses of the Forest Wine is warranted to cure the most distressing forms of these complaints; and if the wine be followed up for a few weeks these difficulties will not occur again. The wine exactly suits the female constitution, and gives strength, vigor and blooming health.

DEBILITY, EMACIATION, NIGHT SWEATS, and WEAKLY STATE OF THE CONSTITUTION.—The Forest Wine is a popular remedy for all these complaints, one to three bottles cure the worst cases without the use of the Pills; but when the complaint is accompanied with some other disorder the Pills als will be required.

Over a million of boxes and bottles have been sold within the last two years in the United States and Canadas. Letters and certificates to the amount of many thousands have been received, testifying to the cures and good effects of these Remedies.

READER! I never knew a single instance where the Remedies have been taken according to directions, but that they have produced the most decided benefit. Even in old standing complaints, where the patient persevered in them for a reasonable length of time, they have effected a cure in every instance which has come to my knowledge, with the sole exception of one. This was a very old man, whose constitution was completely gone before he began to use them, still he found them to do more good than anything else. It should be understood that these Remedies are not made of drugs kept by druggists, as all other medicines are, but that they are produced from the medicinal virtues of certain plants, which nourish and purify the blood as food does the body. I will mention for example, three of these plants which are well known, Dandelion, Yellow Dock, and Sarsaparilla, the others are found in the forest, and their virtues are ten times more effective than those I have named, and were it not for making known the secret of my discovery, which I place great value on, I would not hesitate to name them. Suffice it to say that the efficacy of one of them was discovered by its cure of a horrible case of Scrofula in Ten Days time.

READER! If you do not want your constitution injured by that slow lurking poison—mercury, or other narcotic drugs, touch no uncertain medicines or compound of drugs, but get those excellent vegetable Remedies—HALSEY'S FOREST WINE AND PILLS. If you have Rheumatism, Sores, Ulcers, Dyspepsia, or any kind of Humor, or Debility, or any other old Disorder, persevere in these Remedies. They never can harm you, but you are certain to get better from week to week until the disease is thoroughly got out of your blood, and good and vigorous health will follow.

Carter's Spanish Mixture.

THE GREAT PURIFIER OF THE BLOOD

The Best Alternative Known!

Not a Particle of Mercury in it!

An infallible remedy for Scrofula, King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Postules on the Face, Blotches, Boils, Ague and Fever, Chronic Sore Eyes, Ringworm, or Tetter, Scald-head, Enlargement and pain of the Bones and Joints, Salt Rheum, Stubborn Ulcers, Syphilitic Disorders, and all diseases arising from an injudicious use of Mercury, Imprudence in Life, or Impurity of the Blood.

This great remedy, which has become so rapidly and so justly celebrated for its extraordinary efficacy in relieving and curing many of the most obstinate and terrible forms of disease with which mankind is afflicted, is now offered to the public, with the confident assurance that no Medical Discovery ever made has been so eminently successful in curing Scrofula, and all diseases of the Blood, as Carter's Spanish Mixture.

The proprietors are receiving by every mail most flattering and astonishing details of cures made in all parts of the country, and in most cases where the skill of the best Physicians had been tried in vain.

Its power over the Blood is truly remarkable, and all diseases arising from impurity of that great Seat of Life, have been relieved and cured without a single failure out of the thousands who have used it. Carter's Spanish Mixture contains no Mercury, Opium, Arsenic, or any dangerous drugs, but is composed of Roots and Herbs, combined with other ingredients of known virtue and may be given to the youngest infant or most debilitated invalid, without the least possible hesitation.

We have only room for short extracts from the volumes of testimony in our possession, and all from gentlemen of the highest respectability, well known in their various localities. Please read for yourselves.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all claims, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY—ILL HEALTH.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Disease:—

Ague,	Dropsy,
Asthma,	Dysentery,
Bilious Complaints,	Erysipelas,
Blotches on the Skin	Female Irregularities
Bowel complaints,	Fever of all kinds,

Important to everybody.

FOR the last three years, I have been engaged in a business known only to myself and, comparatively, few others, whom I have instructed for the sum of $200 each, which has averaged me at the rate of $2,000 to $3,000 per annum; and having made arrangements to go to Europe in the fall of 1857 to engage in the same business, I am willing to give full instructions in the art to any person in the United States or Canadas, who will remit me the sum of $1. I am induced from the success I have been favored with, and the many thankful acknowledgments I have received from those whom I have instructed, and who are making from $5 to $15 PER DAY at it, to give any person an opportunity to engage in this business, which is easy, pleasant, and very profitable, at a small cost. There is positively NO HUMBUG in the matter. References of the best class can be given as regards its character, and I can refer to persons whom I have instructed, who will testify that they are making from $5 to $15 per day at the same. It is a business in which either ladies or gentlemen can engage, and with perfect ease make a very handsome income. Several ladies in various parts of New York State, Pennsylvania, and Maryland whom I have instructed, are now making from $3 to $6 per day at it. It is a GENERAL BUSINESS, and but a few shillings is required to start it. Upon receipts of $1, I will immediately send to the applicant a printed circular containing full instructions in the art which can be perfectly understood at once.

DR. HOOFLAND'S

CELEBRATED

German Bitters

PREPARED BY

DR. C. M. JACKSON, PHILAD'A, PA

Will effectually cure

Liver Complaint,

DYSPEPSIA, JAUNDICE,

Chronic or Nervous Debility,

Disease of the Kidneys, and all diseases arising from a Disordered Liver or Stomach.

Such as Constipation, Inward Piles, Fullness, or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking, or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and difficult Breathing, Fluttering at the Heart, Choaking or Suffocating Sensations when in a lying Posture, Dimness of Vision, Dots or Webs before the Sight Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor in calling the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the disease for which it is recommended.

It is no new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivalled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained.

Derangement of the Liver & Stomach

Are sources of insanity. From disorder or obstruction, a morbid action of the sympathetic and other nerves follows, and the functions of the brain are impaired and deranged; derangement there will also produce diseases of the Heart, Skin, Lungs and Kidneys. It is owing to the same cause that thousands die with Cholera, Bilious or Yellow Fever, and that most baneful disease, Consumption.

The general want of success in treating diseases of the liver and stomach, and not been a deficiency of pathological knowledge of their functions—but of a suitable compound that would act upon the disease and all the sympathetic affections. That has been gained in these Bitters: and they can be used by persons with the most delicate stomach with perfect safety—as they at no time dibilitate the patient, but give strength and increase the nervous energy. They can be taken at all times, and under all circumstances. No ordinary exposure will prevent them having a salutary effect, and no bad effect can result from an over dose.

If patients will persevere in the use of this remedy, and use it strictly according to directions, it will cure the foregoing diseases in every instance, if not beyond the power of medicine; it has caused many to enjoy the blessing of renewed health, and in many desperate and abandoned cases, a perfect and radical cure.

PERSONS ADVANCED IN LIFE,

And feeling the hand of Time weighing heavily upon them, with all its attendant ills, will find in the use of the Bitters, and Elixir, that will instil new life into their veins; restore, in a measure, the energy and ardor of more youthful days; build up their shrunken forms, and give health and happiness to their remaining years.

It is a well established fact, that fully one-hal of the female portion of our population, are seldom in the enjoyment of good health, or to use their owen expression "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite. To this class of invalids, these Bitters are ESPECIALLY recommended. Their peculiar tonic and invigorating properties render them invaluable in such cases.

Persons visiting districts harrassed annually with FEVER AND AGUE, or ANY FEVER OF A BILIOUS NATURE, will find that by the timely use of one or two bottles, they will not in one instance take the disease, as the Bitters will renovate and strengthen the system, and carry the bile off in its natural channel. ☞ Prevention is better than cure.

They are entirely Vegetable.

And are free from Alcoholic Stimulant, and all injurious ingredients; are pleasant in taste and smell, mild in their operation, will expell all morbid secretions from the body, give bloom to the pallid cheek, and health and vigor to the frame.

Price 75 cents per bottle.

Principal Office No. 96 ARCH St, Philad'a, Pa.

Sold by Druggists and Storekeepers in every town and village in the United States and Canadas, and by JOHN MUSSON, G. G. ARDOUIN, and JOS. BOWLES, Quebec.
