### GENERAL KNOX DEFEATS DE WET

DRIVES HIM FROM A STRONG POSITION — OTHER MINOR ENGAGEMENTS — TASMANIAN BUSHMAN TO RECEIVE THE VICTORIA CROSS — HE DISPLAYED UNPARALLELED COURAGE.

(Special Cable to the Chronicle.) Durban, Wednesday, December 5. — Lord Roberts, who has arrived here, was accorded a tumultuous reception. Members of the Irish Association dragged his carriage to the Town Hall. The streets were profusely decorated and crowded to suffocation. Numerous addresses were presented to the Field-Marshal.

DEWET BEATEN.  
London, Dec. 5. — The War Office has received the following from Lord Kitchener, dated Bloemfontein, Dec. 5: "General Knox re-engaged DeWet near Bethulo, on the Smithfield road, yesterday. He drove the enemy from all their positions before dark, when they retreated northward. Col. Pilcher assisted by a turning movement on Knox's left."

VICTORIA CROSS.  
The Official Gazette announces that the Queen has been graciously pleased to signify her intention to confer the decoration of the Victoria Cross on Lt. Guy J. E. Wylly, of the Tasmanian Imperial Bushmen. On Sept. 1, near Warm Bad, Lt. Wylly was with the advanced scouts of a foraging party. They were passing through a narrow gorge, very rocky and thickly wooded, when the enemy in force suddenly opened fire at short range from hidden cover, wounding six out of the party of eight, including Lt. Wylly. That officer seeing that one of his men was badly wounded in the leg and that his horse was shot, went back to the man's assistance, made him take his (Lt. Wylly's) horse, and opened fire from behind a rock to cover the retreat of the others, at the imminent risk of being cut off himself. Col. S. E. Hickman, D. S. O., considers that the gallant conduct of Lt. Wylly saved Corporal Brown from being killed or captured, and that his subsequent action in firing to cover the retreat was instrumental in saving others of his men from death or capture.

### A CANADIAN CARDINAL

### MR. J. I. TARTE HAS A GRIEVANCE

He is Again the Victim of Bad Reporting.

### CHARGE AGAINST REPORTERS.

THEY DISTORT HIS UTTERANCES — NEVER ASKED FRENCH CANADIANS TO UNITE AGAINST ANGLI-SAXONS — THINKS HIS COUNTRYMEN SHOULD DEMAND THEIR RIGHTS FROM IRISH BISHOPS IN THE UNITED STATES.

Ottawa, Dec. 5. — The following telegram was received from Mr. Tarte to-day: "The report of my speech in St. Mary's, as published in the Tory newspapers, is just as much a fabrication as the bogus Globe was. I never said or never hinted that French Canadians should unite against the Anglo-Saxons. I said that unfortunately our opponents were continuing the kind of warfare that they had conducted against us during the last campaign. I added that if the Liberal party in Ontario were strongly organized as we are here, the appeals to passions and prejudices would not have the same effect as they have. 'Referring to the difficulties that are existing between the French Canadians and some of the Irish Bishops in the United States, I said that the duty of the two million French Canadians in this country was to help their brethren of the other side of the line in their endeavors to maintain their language and their rights. The Tory reporters have distorted that part of my speech and made me say that the French Canadians should unite against the Anglo-Saxons of this country. No doubt, that my speech was distorted, as it has been, in view of the bye-elections that are going on in British Columbia just now.'"

### CANADIANS IN PARLIAMENT

MEMBERS OF THE CONTINGENT VISIT BOTH HOUSES IN LONDON — THEY ARE WARMLY RECEIVED — COLONEL OTTER'S COMPLAINT.

London, Dec. 5. — The visiting members of the Royal Canadian Regiment piloted by the Duke of Argyll and Lord Lansdowne, visited the House of Parliament this morning. Mr. Chamberlain in an address, acknowledged the indebtedness of Great Britain to the colonial troops.

The Canadian Contingent was most cordially welcomed in the House of Lords by Lord Lansdowne in brief speeches. Colonel Otter, in thanking the speakers, denied the allegations of ill-treatment of the Canadians. He said the only complaint he and his men had made was that they were being killed by kindness.

### CONSERVATIVES MEET IN TORONTO

A LARGE NUMBER PRESENT. — PROPOSAL TO FORMULATE A PROVINCIAL PLATFORM DISCUSSED — MR. WHITNEY OPPOSED TO IT.

Toronto, Dec. 5. — The caucus of the Provincial Conservatives was held at the Albany Club this morning, under the presidency of J. P. Whitney. The meeting, which was an unusually large one, few of the members or the candidates at the last Provincial elections being present, then discussed at considerable length the proposal to formulate a Provincial platform. Mr. Whitney personally opposed the holding of a convention to frame a platform, while J. J. Fair, M.P.P. for South Toronto, strongly favored it.

At the close of the caucus the leader gave out a statement saying the gathering had been in every respect a satisfactory one and the greatest good feeling prevailed. Members generally declared that the coming general election would be fought by an enthusiastic and united body of supporters behind Mr. Whitney. The Conservative members of the Dominion House and defeated candidates will meet to-morrow for a similar conference.

It was added that the woman did not receive all the care she should have had at the Western Hospital and that the doctor sent there on Hazleton's behalf should not have been denied admission.

### AN APPEAL FOR PEACE BY A BOER

Paul Botha Thinks British Rule Must Prevail

### OVER WHOLE OF SOUTH AFRICA

HE IS SEVERE ON EX-PRESIDENT STEYN — BRITONS AND BOERS WILL LIVE PEACEABLY TOGETHER — A SYSTEM OF DEFENCE IN SOUTH AFRICA. — ALL BRITISH SUBJECTS TO BE TRAINED IN MILITARY TACTICS.

Cape Town, Dec. 5.—Paul Botha, who was a member of the Orange Free State Volksraad for 21 years, has issued a pamphlet appealing to his fellow-countrymen to accept the inevitable and recognize British rule, which, he says, is alone possible in South Africa, although Great Britain's weak and spasmodic policy in the past was a grave mistake. He says that he has repeatedly, but vainly, appealed to Steyn and De Wet to cease fighting. He bitterly attacks Steyn. He predicts that Britons and Boers will eventually live peacefully together under the British flag.

Johannesburg, Dec. 5.—Governor McKenzie made an important speech at a banquet given in the Caledonia Society's hall in honor of St. Andrew's Day. There was a brilliant gathering, including representatives of the army and administration. Governor McKenzie said that he would follow the custom in many of the colonies of the Government's policy at the banquets given on St. Andrew's Day. He declared that the decision had been taken and that all British subjects of suitable age should in the future bear arms. He expected that the citizens of Johannesburg, on returning to the district, would make a force of 20,000 men, which would be named the Rand Rifles. This force would be able to defend the district against any possible hostile force in South Africa. This was in the interest of the people, who would then be enabled to resume industry without fear of interruption. A probable result of the war would be that the principle of a nation in arms as against a great standing army would be accepted throughout the Empire. He believed that the beneficial training, physical development and independence of the race would not interfere with its commercial and industrial progress. Germany, with conscription, was making a great industrial advance. The plan he mentioned was not conscription, but voluntary training.  
Messrs. Hoskin, Dunn and others referred to the war as inevitable, saying it resulted from the irreconcilable conditions prevailing in South Africa, which were due to the Boers having diverged from their peaceful programme of fifty years ago.

**THE UNKNOWN NORTH.**  
Canadians ought to have no difficulty in appreciating their own country quite as much as do the best informed of our American friends. The Electrical Review, of New York, sees immense possibilities in the country south of Hudson Bay. "A good topographical and geological map of Canada," says The Review, "if looked at with a discerning eye, possesses at the moment the deepest interest for the electrical engineer. People have got into the habit of thinking of the northern part of Canada as a region wrapped in perpetual snow and of interest to nobody but the hunter, the trapper or the fisherman. We know now, however, that the region lying to the south of Hudson Bay is rich with every variety of mineral and abounds with magnificent water powers. The only thing that it needs for its exploitation and development is a system of transportation, which could easily be electrical. The electrical development of the many magnificent water powers of Canada cannot fail to bring about also metallurgical processes for the reduction of the various ores found in that country. Indeed; Northern Quebec and the Labrador Peninsula should no longer be looked upon as unfavored regions but toward them should be turned the careful attention of the miner, the engineer and the chemist." This is a country which is naturally tributary to Quebec, but which is likely soon to be tapped by an Ontario railway. If we realized the value of it we would not let the trade of the north slip from our grasp.

**NEWFOUNDLAND'S GOOD SHOWING.**  
Newfoundland has at last turned the edge of its financial misfortunes and is now more than paying its way. Its revenue during the past year exceeded its expenditure by \$229,889, thus leaving a tidy balance to the good. The trade of the island colony is considerable. The total exports for the year ending June 30, 1900, were \$8,627,576, and the total imports \$7,497,147. Newfoundland's largest customer is Brazil, the sales to that country being \$2,068,586. The next in order are Great Britain, \$1,890,658; Portugal, \$1,009,027; United States, \$988,954; Gibraltar, \$972,085; Canada, \$473,940; British West Indies, \$307,003; Spain, \$291,053; Holland, \$147,978; Germany, \$137,043; Italy, \$112,870; France, \$38,892; Belgium, \$20,484; Denmark, \$18,175; American West Indies, \$14,900. Newfoundlanders buy more Canadian goods than they do from any other country, our sales to them during 1900 amounting to \$2,805,490. Great Britain comes next with \$2,221,353; British West Indies, \$271,692; Ceylon, \$24,306; India, \$1,206; total from Great Britain and her possessions, \$5,326,957. It will thus be seen that over 70 per cent. of Newfoundland's purchases are from other parts of the Empire. The revenue for the year was \$2,213,334; expenditure, \$1,983,445. The showing is one that does infinite credit to our neighbouring colony. We are prospering and are delighted to see that Newfoundland is also doing well.

**KITCHENER'S METHODS.**  
The valued Telegraph shudders at the mere contemplation of the horrible things that the appointment of General Kitchener to supreme command in South Africa is likely to entail to the afflicted Boers. It says that his ruthless methods of extermination cannot be applied to them without provoking a general cry of horror and indignation. Our contemporary is quite needlessly alarmed. Bad as Kitchener is, in its judgment, he does not contemplate the extermination of any one except those who are engaged in the extermination of the British so far as they are able to effect it. After all what is sauce for the goose may fairly be conceded to be sauce for the gander. By every means in their power, foul and fair, the Boers have sought to drive the British out of South Africa. They have failed, and now refuse to accept the consequences, namely, the conqueror's terms. General Kitchener is precisely the man for the occasion. It is said to be his intention to chase DeWet and other like ubiquitous leaders with relays of fresh mounted men till the burghers and their horses are "rounded up" and exhausted. A large part of the British army is now being mounted. A mounted police force, 20,000 strong, is also being recruited by Baden-Powell, and Gen. Brabant is raising a new corps of mounted Colonials. With some 60,000 mounted infantry and cavalry, divided into commands each about 2000 strong, it is supposed to be possible to keep up the pursuit of an elusive Boer commando with suc-

cessive bodies of fresh troops till it is run down. The scheme is perhaps the best that could be devised, and will bring into play military skill of a high order. It is not a general slaughter, or ruthless extermination that Kitchener contemplates, but a deliberate and scientific policy of cornering the bands of marauders which are infesting South Africa. When they are caught they will have the option of laying down their arms and accepting a peaceful and honorable solution of the situation. If there is any extermination it will only be because they refuse to abide by the issue of the conflict.

**DR. JOHN HAMILTON  
NEW CHANCELLOR.**  
(Continued from Fourth Page.)

greatest benefactor, wise in his gifts, the Lord Bishop of Ottawa, an old and long-continued friend of the institution, and the coming chancellor, have never failed to uphold in every way the stability and the welfare of this university, college and school. We hail, then, the acceptance of the office by Dr. John Hamilton, and wish him a long and brilliant and useful career." (Applause.)  
The Rev. Dr. Parroche then presented to Dr. Heneker, the new chancellor, who took his seat amid applause.  
Dr. Hamilton returned thanks for the honor which had been bestowed upon him in being appointed to such an important position. He trusted that he would be able to do something for the institution, for he took a deep and hearty interest in everything connected with Bishop's College and School. He asked for the assistance of the clergy of the Eastern Townships, the graduates and the scholars. They could all assist the institution, if not by money, by saying a good word for it whenever opportunity offered.  
Convocation was then declared closed.

**THE LITTLE SICKNESSES  
Which Grow Into Big Ones.**  
A little cold in the head is a trifle, but if neglected and gets into the throat and lungs it is no longer a trifle. It is then no longer a slight cold but the beginning of chronic catarrh.  
Do not make the mistake of thinking you have no catarrh because the head and nose appear to be clear. If there is cough, tickling in the throat, hoarseness or a sense of oppression in the chest you have throat and bronchial catarrh. If the appetite is poor, nausea, gagging and disgust for food especially in the morning, you have catarrh of the stomach.  
The surest and safest treatment for every form of catarrh is an internal remedy which acts especially on the blood and mucous membranes.  
Such a remedy is the new catarrh cure, sold everywhere by druggists under the name of Stuart's Catarrh Tablets, a medicine in pleasant, convenient tablet form and containing all the best and latest specifics for catarrh, whether located in nose, throat, bronchial tubes or stomach.  
Stuart's Catarrh Tablets are composed of Sanguinaria, guaiacol, Red gum and similar antiseptics which destroy the germs of catarrh in the blood, and no one who suffers from any form of catarrh and has seen the uselessness of sprays, douches, and powders will ever go back to them after once trying so convenient, pleasant and harmless a remedy as Stuart's Catarrh Tablets and one which gives relief in so short a time.  
Even in cases where catarrh has effected the senses of smell and hearing these tablets accomplish a cure because the blood being cleansed of catarrhal germs, the mucous surfaces of the nose and throat no longer clog up the respiratory passages with catarrhal secretions.  
All druggists sell full sized treatments of Stuart's Catarrh Tablets for the nominal price of 50 cents and the regular daily use of them will effectually cure this troublesome and dangerous disease.

Action Against a Brewery Company for \$57,000.

Toronto, Dec. 5. — Sir Thos. Board, chairman of the Dominion Brewery Company, which is now owned by an English syndicate, has taken suit against the Company for \$57,000. The case is a complicated one, arising out of the sale of the property. Sir Thomas Board and Henry Forster, M. P., gave Mr. Davies, the former chief proprietor a note for \$100,000 on it, \$50,500 was paid, and the balance repudiated because of some dispute between the parties. Mr. Davies sued in England and recovered \$10,000 and costs and expenses of \$7,000 from Sir Thomas, as an individual, who now seeks to transfer the debt to the Company on its behalf.

QUEBEC EAST.

Mr. George Darveau held large meetings last evening at Lincoln and in his Central Committee Room, St. Roch's, both of which were largely attended and which were addressed by the candidate, Mr. Tanguay, M.P.P., Alderman Roy, Dr. Verge, Mr. Payment, Alderman Drolet, Mr. Jos. Turcotte and Mr. A. Croiveau. Both candidates and their friends are working like Trojans and it is difficult to say who will carry the day. However, for the past few days Mr. Darveau's chances of success have wonderfully improved and his friends are already claiming a victory. A large sum of money has changed hands over the result, odds being given at first in favor of Mr. Lane, but the money of the latter's friends was scarce yesterday. Mr. Darveau's supporters being willing to bet on the result in favor of the latter. Both claim the Conservative vote, but Mr. Darveau, from all appearances, will get the majority of the Conservatives.

Pictou, N.S., Dec. 5.—E. M. MacDonald, Liberal, and C. E. Tanner, Conservative, were elected to-day by acclamation, and in consequence there will be no contest in this County. Sydney, N.S., Dec. 5.—There will be a straight fight in this County. Mr. D. B. McKenna, of Sydney, and J. A. Gilles, of Glace Bay, Conservatives, and Henry McDonald, of Glace Bay, and Colin McKinnon, of Sydney, Liberals, were nominated to-day. After the nomination a joint meeting was held and addresses were delivered by the candidates.

ELECTRIC COMPANIES UNITE

Royal and Canadian General to Join Forces.

Montreal, Dec. 5.—The consolidation scheme of the Royal Electric Company and the Canadian General Electric Company, of Toronto, is about to become a fact. The matter has been submitted to Mr. Rudolph Forget, the President of the Royal, who to-night made the following statement:—"It is true we are in negotiation and that it is well advanced for the purchase of the Canadian General Electric Company for the interests of the Royal, including all the appurtenances, and will probably be closed soon. The Toronto Company was represented in the negotiations by Messrs. Nicholls and Kerr. Mr. Forget also said that the Royal in the future will go in solely for light and power. The Chambly plant will be brought to its full state of development. A meeting of the shareholders will take place soon to decide on the future policy of the Company."

THE CONNORS SYNDICATE

Making Slow Progress—Has Eighteen Men Employed.

Montreal, Dec. 5.—At the Harbour Commissioners' meeting yesterday, Engineer Kennedy reported on the progress of the work on the Connors syndicate elevator. Eighteen men were employed, and pile driving was going on at the rate of fifty piles per day. Mr. Crathern thought that the Board ought to consult their solicitor with regard to Mr. Connors' fulfillment, or rather non-fulfillment of his contract. Mr. Crathern had made enquiries and ascertained that no contracts had been let for steel, etc.; and there was no evidence to show any sort of intention of pushing operations through. Mr. Lemay said the elevator would never be ready by 1901.

The President suggested that a communication be sent to the syndicate, asking for information as to the progress of work, as to what arrangements for contracts were made or being made, and when the syndicate proposed to complete the elevator. This suggestion was accepted. A very general feeling of dissatisfaction was prevalent on the elevator question.

AN INSOLVENT ESTATE

Toronto, Dec. 5.—Creditors who have claims amounting to \$33,000 against the defunct Cloak Manufacturing Company, of Toronto, (Ltd.) having expressed their desire to appeal the case in which the Quebec Bank was declared entitled to a preferred claim for \$13,000. Liquidator Clarkson to-day asked the Master-in-Ordinary, at Osgoode Hall to decide whether the suit should be prosecuted further. The total liabilities are \$81,800, of which amount \$58,000 is due to the Quebec Bank.

CIVIC TELEPHONE SERVICE

No Rush of Subscribers Taking Place in Toronto.

Toronto, Dec. 5.—The call for the signing of contracts for a civic telephone system has not been very successful. The civic committee which has the proposed public system in charge has received up till the present 186 signed contracts from citizens who agree to take phones at the city's price \$35 for business, and \$20 yearly for private use. There are 6,000 telephones in Toronto, and it was thought that 3,000 of the telephone users would readily sign the contract offered. If signatures do not come in more readily the City Council will have nothing to do with the project.

DR. JOHN HAMILTON NEW CHANCELLOR.

Officially Installed at Lennoxville College.

DR. HENNEKER'S VALEDICTORY.

PRINCIPAL WHITNEY RECEIVES THE DEGREE OF D.C.L. AND ASSUMES HIS NEW DUTIES.—PRESENTATION TO THE UNIVERSITY.

Lennoxville, Dec. 5.—A special meeting of Convocation of Bishop's College, Lennoxville, was held yesterday for the purpose of installing the new Chancellor, Dr. Hamilton, the presentation of Dr. Henneker's (the retiring Chancellor) portrait, and the conferring of the degree of D.C.L. on Principal Whitney. There was a very large attendance of the public, and the retiring Chancellor, Dr. Henneker, was accompanied on the platform by Bishop Dunn, of Quebec; Rev. Dr. Scarth, Lennoxville; Rev. Dr. Allard, Rev. Dr. Campbell, Principal Whitney, Ven. archdeacon Roe, Very Rev. Dean Williams, Dr. John Hamilton, Rev. Dr. Parrott, Rev. Prof. Wilkinson, Rev. E. A. W. King, Rev. A. H. Moore, Rev. G. H. A. Murray, Mr. F. W. Frith, (Registrar), Mr. O. Smith, Rev. Jas. Hepburn, Mr. H. G. H. Petry (Head Master), and Mr. Bazzette.

The Chancellor, in declaring Convocation open, said: "In opening this, my last Convocation, I desire to offer a few remarks. My resignation as Chancellor last summer did not take effect at once, being, when presented to the members of the University, postponed until a new Chancellor might be appointed. I received many kind words from the distinguished men who were present, when I expressed my desire to be relieved from the care of office, but I felt almost overwhelmed by the eulogies passed on my work during the twenty-two years of my service. I do not wish for any renewal of these kind words. I am still almost overwhelmed by so many tokens of esteem on the part of those who were present on that occasion. My first duty to-day will be to confer the degree of D.C.L. honoris causa, on the new Principal of the College, who has so recently been installed by a solemn service in the College chapel, and who has already given splendid promise of success in the future, by his administration since the term opened. On all sides, and from all hands, professors and students of the College, as well as from the School staff and the School boys, the testimonies are strongly in his favor. This assuredly is a matter of congratulation, and I am sure all present will join with me in heartfelt wishes that his career in this country may be such as to cause him never to regret the step he has taken and that the people of the country who seek a high class training for the intellectual walks of life may recognize in him a scholar and a gentleman, not only fit to teach others, but most worthy to devote his talents to the welfare of the Canadian public. The name of Canada stands high at the present time in the civilized world, through the bravery and patriotism of her sons, our fellow-citizens; but the future nation has still much to learn, and its success cannot be secured without definite instruction for these higher positions in life, the Legislature, the learned professions, and above all the Church, the best preparations for which may reasonably be expected to be afforded by such men as the new Principal and his accomplished staff, by which he is aided and surrounded."

Vice-Principal Allard then presented Principal Whitney for his degree. The Chancellor having conferred the degree, Principal Whitney said that he seemed to be at the end of one period and at the beginning of another. It was a high honor to be the last of the old race over which their late chancellor had so ably presided, and he also looked forward with pleasure to the reign of the new chancellor. He had heard, long before he came to Canada, of Dr. Henneker, and the noble work in which he was engaged at Bishop's College, and when he met Dr. Hamilton in England, he formed a high estimate, indeed, of the executive of the university. He was not going to make any prophecy or promises; but he assured his audience that his ambition would always be to raise both college and school as high as it was possible to raise them. He did not care to say much about the educational matters of a new country, but he trusted that during his tenure of office his experience would be very much enlarged. They should not before themselves a spirit of rivalry in educational matters with the great country that had given them birth in many things, as well as to the inhabitants of the Old World, and the great hope that led him to come out was that with God's help he might be able to still further the cause of education. He thanked the members of the college for the hearty welcome which they had extended to him since he had come amongst them. Although he was one of the youngest graduates, in one sense, he hoped that as he grew older his energy and love would never grow old and never grow cold. (Applause.)

Bishop Dunn, on behalf of the corporation, presented Dr. Henneker's picture to the university. He paid a high eulogy on the work which the retiring chancellor had done for Bishop's, and said, that although he was retiring, he hoped he would long be spared as a member of the corporation. (Applause.)

Dr. Henneker said that it was one of the highest honors that could be conferred upon a man that he should be deemed worthy to have his portrait placed upon the walls of such an institution as Bishop's, and handed down to posterity. He said that another duty he had to perform was that of leaving the chair and helping to install a successor, who had proved himself worthy of such high honor. "Dr. John Hamilton," he continued, "is known to all of you through his past and present interest in the welfare of the institution. The name of Hamilton will ever remain an honored name with us. The late Dr. Robert Hamilton, our

CANADIANS MAY STAY IN AFRICA

No News Yet of Their Leaving for Home.

KITCHENER WOULD KEEP THEM

THE NOTORIOUS STEAD MAKES AN ATTACK ON LORD ROBERTS—CONDEMNNS THE MODE OF WARFARE IN SOUTH AFRICA—BOER OPINION OF DEWET—REPRESENTATIVE FITZGERALD WANTS FREE ADVERTISING.

Ottawa, Dec. 5.—Up to a late hour the authorities of the Militia Department had received no advices of the departure of the Canadian Artillery and Mounted Rifles from South Africa, although it was announced last week that they would leave Cape Town about the 1st. The impression prevails that Lord Kitchener will ask them to remain in South Africa a little while longer.

WM. STEAD'S WILD TALK.

London, Dec. 5.—William Stead says that England is waging a second war in South Africa. According to the statements of her officials, the first war, waged against Krugerism and to establish British paramountcy, was ended when the two Republics were annexed to the British Empire. She is now waging a second war of conquest pure and simple, having for its object the extinction of a nationality, and having as its means the cold-blooded infliction of ruthless cruelty upon women and children. It is a war waged mostly with the torch, and arson is employed as the chief means of pacification. If the British, after the flight of Kruger, had offered to guarantee the Boers who laid down their arms the possession of their private property and the right of colonial self-government such as is enjoyed in the Cape, there would have been no second war but the British Minister and the majority of the British people, irritated by the prolonged and heroic resistance of the Boers against overwhelming odds, were determined to accept nothing less than unconditional surrender.

BOER OPINION OF DEWET.

The Kruisstad correspondent of the Daily Graphic says: The asseration of prisoners that the Boers are all determined to continue the war to the bitter end is scarcely borne out by the entries in the diary found on the body of a Boer who was killed in an affair with a patrol of Colonel Pilcher near Thaba Nchu. The journal begins on March 9 and ends on October 21. On October 23rd, General Dewet arrived in camp, and is thus described: "As we last saw him, a man of medium height, with a reddish beard and little, fiery eyes. When you hear him speak you know him to be a man from head to foot—not talker, but what he says you feel. One could go through thick and thin with him." Dewet addressed the laager. He regretted that so few members of the Volksraad had sworn at the beginning of the war to be true to the cause till death, were still fighting. The General then went on to give a short account of his last trip, which, according to the diary, was most amusing, being frequently interrupted by laughter.

TO INVITE THE BOERS.

Washington, Dec. 5.—Representative Fitzgerald, who during the Boer war made a number of ineffectual efforts to have the sympathy of the United States Government extended to the Boers, is now presenting a resolution having as an end the transportation of a large number of them to the United States. The resolution in part is as follows: "Whereas, the Boers desire to come to America; and "Whereas, it is conceded that they would make a valuable addition to the citizenship of the United States, being a sturdy, self-reliant, intelligent and industrious people; and "Whereas, there are approximately 1,974,881,662 acres of public lands, of which 917,135,880 acres are undisposed of; and "Whereas, on March 3, 1851, Congress passed a resolution requesting the President to authorize the employment of the United States frigate Mississippi to bring Kossuth and his companions from Turkey to the United States, which was done; therefore be it

Resolved, that the President is hereby requested to authorize the use of any United States steamship in the Government service to be sent to Lorenzo Marques, South Africa, to transport to the United States the burghers of the late Transvaal Republic, or so many of them as may desire to emigrate, and their families, in order that they may take advantage of the opportunity to take up land in the public domain of the United States under the Homestead act."

WOULD SHOOT HIS SISTER.

Bloemfontein, Dec. 2.—Lieutenant Hole, Secretary of the Military Governor, and the two sisters of George Brand, have returned, having failed to persuade that leader to surrender. When they arrived near his commando Brand (twice wounded) declined to see them, and threatened to have them shot if they did not return. Lieutenant Hole and the ladies were subsequently taken prisoners and conveyed to Potrusburg, where they were kept for some days. They were then sent by cart to Kimberley, whence they returned here by train.

CORUNDUM DEPOSITS

Toronto, Dec. 5.—A letter was received from the Provincial Bureau of Mines, from Mr. Louis Joliot, a manufacturer of Paris, to-day, who asks for information regarding the corundum deposits of the Province. Mr. Joliot states that his attention was attracted by the Bureau of Mines exhibit of corundum at the Paris Exposition, and he desires complete information regarding the same. His request will be promptly complied with. The Bureau officials report that the corundum deposits in the Counties of Hastings and Renfrew are being rapidly opened up.

TROUBLE ABOUT A BISHOP

The Cubans do Not Want Foreign Prelates.

Havana, Dec. 5.—The fight now being waged over Bishop Sharetti, the head of the Catholic Church in Cuba, and special representative of the Pope, continues to grow in bitterness. It is headed by General Maximo Gomez and Salvador Cisneros. Both claim to have no personal grievance against the Bishop or against the Church, but contend there are many Cuban priests who would make as good a Bishop as any foreigner and demand that a Cuban be appointed. Meetings are held to protest against the continuance of Bishop Sharetti here, and a committee has communicated by cable directly with the Pontiff in Rome.

Important Letter from Mr. Elz. Fortier & Co. Mr Editor—As a rule, we do not call upon your valuable paper, except to insert our business card, but to-day, we owe to ourselves to defend against certain manufacturers who, by means of misleading ads, is looking for dispute. It has been advanced in certain quarters that the mineral water which we are selling is sophisticated goods, inferior to the one produced from another source. In answer to this false, malicious and uncalled for charge, we think that the best policy is to publish here the certificate of Messrs. Rowan, Bros. & Co., of Montreal.

NOTICE. "The public is hereby notified that we sell as Caledonia Water, nothing but genuine Caledonia Water from the New Caledonia Springs, which notwithstanding any statement made to the contrary, we claim as the analysis of Mr. J. T. Donald establishing its superiority, to any other Caledonia Water in the market. "Very little inquiry affecting the matter in the minds of all desiring to know the truth would prove satisfactory to us. "We challenge contradiction of what we say."

To the above declaration which shuts the door to our blacklist, we have nothing to add, except that we take this opportunity to ask the public to kindly continue us their patronage for the consumption of all kinds of Mineral Waters, and our Beers and Porter. Accept, Mr. Editor, the assurance of our deep and respectful consideration. Truly y'rs, ELZ. FORTIER & CO., Manufacturers, Quebec, Nov. 30th, 1900. 220 St. Valier Street.

THE FEELING WAS RATHER BEARISH

On the New York Stock Market Yesterday.

NO SHOW OF ENTHUSIASM. THE TONE OF THE MONTREAL STOCK MARKET WAS WEAK.

MONTREAL STREET AND ROYAL ELECTRIC FELL OFF A COUPLE OF POINTS EACH.

CANADIAN PACIFIC MADE A GAIN—TRADING WAS LIGHT.

New York, Dec. 5.—The bullish feeling on the stock market has been checked through the street today, but particularly so among traders.

Everything and London helped the decline, but the public was not at all worried and the commission houses bought more than they sold.

The market shows no enthusiasm on the declines and it looks as if it were near a turn up.

The Sugar dividend is still having its effect on the speculation and the traders seem to think that the absence of a dividend on Atchafalca common will now be basis enough to sell the whole market.

Big holders of stocks, no doubt, have secured their profits pretty well toward the top and many of the belated bulls have during the last day or two been slipping out of their holdings.

There is no reason to look for a bear market and stocks can be bought on further declines for turns, as the market will likely be somewhat of a sea-saw one between now and the first of the year.

Every one had the tip straight from the inside that the dividend on Sugar would not be increased, but an extra dividend could be declared, and it was the failure of this to come that disturbed confidence.

It is thought the short interest larger than for a month and may induce some large market interest to drive it to cover and, therefore, it would not be surprising to see a slight rally in the general list from this point.

MONTREAL STOCK MARKET. Montreal, Dec. 5.—The tone of the speculative favourites in the stock market was weak, more particularly in Montreal Street and Royal Electric.

Stock sold down two points, to 273, and Royal Electric sold off to 207 and 207 1/2, compared with 209, yesterday's highest. Toronto Ralls were steady at 109, but Cable was a half easier, at 171 1/2.

The only thing done in the mines was Payne, at 76, and Victor, at 25. Canadian Pacific was better in the London market at 88 and in the local market sold at 85 1/2 to 85 1/2 in the morning and 85 1/2 and 86 in the afternoon.

The feeling throughout the Board was one of dullness and the volume of trading was light.

QUEBEC CAPITAL

Gets Good British Columbia Mining Property.

A despatch from Greenwood, B.C., states that on Monday last Mr. Wm. Price left that place on the return trip to Quebec. Before leaving, he confirmed the statement that the Standard Copper Company, of which he is President, has purchased the controlling interest in the stock of the Western Copper Company, owning the Greyhound, in the Deadwood camp. The sum of \$10,000 has been paid down. The mine has been placed under the management of Mr. Andrew Laidlaw, who negotiated the transaction. It is stated that Mr. Price and his associates have invested nearly a quarter of a million in the Boundary district in less than a year, being heavily interested in the Standard Copper Company and the Western Copper Company, operating in the Deadwood, and in the Standard Pyritic Smelting Company, which is building a 250-ton smelter three miles below Greenwood, B.C.

A FALSE REPORT.

A report has been circulated, how widely is not known, to the effect that someone of the relatives of one of the crew of the St. Olaf had received a cable message saying that all on board except Marie Page and a young man had been picked up by a mail steamer and were safe in England. The Chronicle has made enquiries and so far as it can learn there is no truth in the rumor. Messrs. A. Fraser & Co., say they have heard nothing in the matter whatever, and they are convinced that should Captain Lemaistre have survived he would surely have sent them word.

COMMERCIAL PROSPERITY.

Every citizen of our grand old city can perceive that Quebec is on the turning point. It has reached the stage that has been looked forward to for many anxious years of hard times. It is for each one to take advantage of the present boom and be on hand when the harvest is to be reaped. Property throughout the city is jumping up in value and there is no safer investment than real estate. All classes wish to have at least a nice cosy home. You can procure one at a most reasonable price in any part of the city by applying to Mr. John G. Cleary, 82 Grande Allee.

THE SHOE TRADE TROUBLE.

The shoe difficulty is now in the hands of His Grace the Archbishop, and the fore, is considered subjudice so far as the parties to the question are concerned. Elsewhere it is, however, being freely discussed. The Canadian Shoe and Leather Journal, which may be considered the exponent of the views of the Canadian employers generally has the following in its last issue: "Very little new has developed in regard to the strike in the Ancient Capital. The manufacturers are determined to fight the matter to a finish this time and to settle once and for all the right of the union to run their establishments. We understand that already there are indications of weakening on the part of the men, although the labor leaders are loudly proclaiming the ability of the men to hold out all winter. In the meantime trade is going elsewhere and already the loss to Quebec in this respect has been considerable. It is a great pity that operators do not realize the legitimate scope of unionism. That men should band themselves together to secure a fair and just remuneration for their toil is only natural and right. But to say to an employer you must not discharge me without my consent, and you must only employ such men as belong to our organization," is rank impudence and tyranny that cannot be tolerated by any self-respecting man. Herein lies the menace of unionism. If the men were only content to aim at legitimate ends the success of their cause would be more assured. Then again, the tendency of unionism is to encourage incompetent and indolent workmen to secure the same results for their labor as their more industrious and skillful fellows. It is a notorious fact that the ring leaders in labor agitations are invariably men who, on their merits, could not secure steady employment anywhere. The man who works his mouth, nine times out of ten, is one whose hands are not as deft as his tongue. To compel an employer to pay a uniform standard of wages or to prevent his employing such help as common sense and his business interests dictate is a rank injustice, and yet unionism seeks to perpetuate the anomaly. We hope for the sake of the trade that the present trouble will not end in a compromise that will tend to its recurrence.

BADEN-POWELL'S POLICE.

Several young men of this city have expressed a wish to recruit into the South African Police (Baden-Powell's Police as it is called here). In this regard a letter has recently been received from Lt.-Col. Pinault, Deputy Minister of Militia and Defence. It is in reply to a letter from a Quebecer and explains itself. "Sir,—I have the honor to inform you that the Imperial authorities have requested to recruit for the South African Police among our troops now in that country. Should any recruiting be done for that purpose in Canada, regulations will be promulgated in the General Orders and made known through the press.

LAST SAYINGS OF CHRIST.

Grand Rehearsal at St. Sauveur Church, Last Evening.

The final rehearsal of Theodore Dubois' grand oratorio "The Seven Last Sayings of Christ" took place last evening in St. Sauveur Church, in the presence of the representatives of the press and a few invited guests. The performance was in every respect a grand success, and it is safe to say that nothing similar was ever heard in this city. The soloists comprise some of the best talent in this city and Montreal, the chorus, consisting of one hundred voices, is admirably well balanced, while the orchestra includes the most prominent instrumentalists of this city. In a word the oratorio, as rendered last evening, is superb, and those who had the good fortune to be present were highly impressed with the performance. Besides the oratorio several sacred pieces were rendered by the choir, with orchestral accompaniment, in a splendid manner, a Tantum Ergo by Rossini being specially admired. The soloists are Mesdames Daix-Desprez, Misses Laura Germain, E. Lacroix and E. Juchereau, Messrs. Ed. Lebel and J. Saucier, of Montreal, and Mr. Amedeo Roy. The orchestra is composed as follows:—First violins, Messrs. A. Lavigne, J. A. Gilbert, J. E. Prince, J. Talbot and W. Edge; second violins, Messrs. R. M. Audet and B. Pelletier, Messrs. J. Carneau, W. F. Bevier and J. Darveau; altos, Messrs. A. Pare, N. Campbell, J. Labranche; violoncellos, Messrs. Ed. Gauvreau and A. Devarennes; contrabasses, Messrs. N. LeVasseur, U. Vezeina; bassoons, Messrs. A. Vezeina and Raul Vezeina; trombones, Messrs. E. Trudel, O. Tuigman, J. B. Fournier; flutes, Messrs. J. Rousseau and L. Dumais; clarinettes, Messrs. J. E. Wallis and W. Williams; hautbois, Rev. Brother Stanislas; French horns, Sergt. W. Pugh, L. Lyndon; cornets, Messrs. E. Bussiere and E. Rousseau; harps, Miss Pelletier and Miss M. A. Dionne; piano, Leonce Crepault; drum and cymbals, M. Nadeau; side drum, M. Kingwell; timbales, J. A. Adair; tam-tam, J. Lajeunesse. Mr. J. Arthur Bernier will be the organist, while Mr. J. A. Pequet will direct the choir. We would advise everybody to call at Mr. A. Lavigne's and reserve their seats for Monday evening's performance, as we guarantee them a first-class sacred musical performance, superior to any yet heard in this city.

BUSINESS AND PLEASURE.

"G" Company, 8th Regiment Royal Rifles, Engage in Both. A business meeting of the members of No. 7 Company, 8th Regiment, Royal Rifles was held last night at the rooms of the St. George's Society, Masonic Hall. Notwithstanding the inclement weather and the distance at which many of the members reside, thirty attended. The officers present were Major LeSueur in the chair, and Lieut. Hubert C. Foy. The utmost enthusiasm prevailed and measures were adopted to render the Company one of the most efficient in the Regiment. After purely business matters had been disposed of, Lieut. Foy invited the Company to an oyster supper which closed an evening of good augury for No. 7. "Second to none" seems to be the inspiring motto of this fine Company.

WELL

When you have been caught in a rain and feel that you have taken cold, just take a hot foot-bath, a bowl of hot drink, a dose of Ayer's Cherry Pectoral, and go to bed. The chances are you will be all right in the morning. Continue the Cherry Pectoral a few days, until all cough has disappeared. There is nothing so bad for a cough as coughing.

AYER'S Cherry Pectoral

cures coughs of all kinds. For an ordinary every-day miserable cold a 25 cent bottle is enough; if it's been hanging on, you will need a 50 cent size; for bronchitis and consumption the dollar size is most economical. "Ayer's Cherry Pectoral has no equal as a cure for coughs and colds and all lung troubles. It has always given me instant relief. I always keep it in the house, buying it by the dozen." C. C. CAYWOOD, Dec. 14, 1899. Wellsport, N. Y.
