Woman Found Hanging Dead in the Bathroom of the Corona.

CAME FROM BOSTON.

Left a Note Asking Finder to Communicate With Battle Creek Lady.

That a woman who committed suicide in her room at the Corona Hotel was Mrs. Mary E. Mounford, wife of R. K. Mounford of Boston, Mass., was the conclusion arrived at this morning by Coroner McMahon after he had examined her effects.

FRENCH IN SCHOOLS.

Catholic Criticism of Bishop Fallon, of London, Ont.

Taking up in its turn the question of the French language in the Catholic schools of the diocese of London, Ont., the "Devot" says: "In its issue of September 15, the Toronto 'Standard' calls for the closing of a man whose task would be to find the province of bilingual schools. If we are to believe the despatches and journals which are being sent to us for the past few days, the providential man so ardently wished for by the Orange lodges, has arrived. His Lordship Bishop Fallon, of London, Ont., realizing the wisdom of the situation, is said to have inaugurated the crusade against bilingual schools and the teaching of French. We can hardly believe the correctness of such statements. It is impossible that a Catholic bishop should thus agree with the most spiteful enemies of the Church. We repeat our confidence and respect for the judgment until we get the exact documents and facts."

KISSED GIRL IN COURT.

Romantic Scene in King's Bench When de Soule Was Acquitted Yesterday.

Couple May Marry.

Court Found That the Shooting of Albina St. Jacques Was Accidental.

Kissing in court costs nothing. In this it comes cheaper than on Mount Royal Park, where a policeman, failing to suppress the kissing, is alleged to have offered to suppress the court proceedings for fifty dollars. The romance in the case of Louis de Soule, who was charged with attempting to kill Albina St. Jacques by shooting, reached the climax at the conclusion of the trial in the Court of King's Bench yesterday afternoon, when, on the jury finding the prisoner not guilty and the judge announcing his acquittal, de Soule crossed the courtroom, and before the people kissed the young woman, who warmly reciprocated, and the couple left the place with locked arms and crossed the Champ de Mars to Craig street, in view of a sensation-loving crowd.

DEATH IN HOTEL FIRE.

Schreiber, Ont., September 22.—The King Edward Hotel at Schreiber was burned to the ground yesterday. One life was lost, that of a Finn girl named Palm, aged 25. A woman of 50 years was so badly burned that she is not expected to live. A girl, aged 22, was badly injured in jumping from a window.

WITNESSES DISAPPEARED.

Monday's session opened with Senator Cloran and Mr. Patterson appearing for the prosecution, and Messrs. Perron, Murphy, Marchand and others for the defence. Judge Bazin asked Senator Cloran if he was prepared to go ahead with the prosecution to bring them before the court. Subpoenas had been issued for them, but when they were available could not be produced. Mr. J. L. Perron, K.C., asked for the discharge of his clients on the ground that no evidence was offered, and he thought a conviction could not be secured even after postponement. He deprecated the methods taken by the Alliance to suppress a legitimate business, and persecute innocent men. He said this was a repetition of what had happened often in the past. He thought the Alliance should be easily deceived by men who, regardless of the reputation of the city, had evidently conspired to obtain the money they could from the Alliance and then depart for parts unknown. Men who would do such work he declared were not to be believed. He said the witnesses were promptly discharged, and he was unable to get back to the city until court was over.

WITNESSES DISAPPEARED.

Asked if he had anything to say about the way things had been done, he said there was nothing for publication to-day. He was greatly disappointed, but might have a statement to make in a day or two.

WITNESSES DISAPPEARED.

Nicolaï Malafy, on trial for attempting to murder Nicolaï Olericissine, had his charge reduced by the jury of the day to manslaughter. He has been in jail since August 16, when he was arrested, and will probably be allowed to go with a warning. There were no witnesses against the accused, even though the defence had been fully disclosed. Mr. Justice Bazin asked that he be held till Monday pending inquiries as to the man's antecedents.

ARCHBISHOP'S APPOINTMENT.

Selection of Archbishop Gauthier for Ottawa Vacancy Confirmed.

IN CABLE FROM ROME.

Several Important Changes in Boundaries of Ecclesiastical Provinces.

Ottawa, Sept. 22.—Confirmation of the report that Mgr. Gauthier of Kingston, has been appointed archbishop of Ottawa diocese to succeed the late Archbishop Duhamel was received at the Archbishop's Palace to-day. The official announcement appeared yesterday in 'Acta Sancta Sedis', of Rome, the official organ of the Vatican. This morning Mgr. Gauthier received a cable advising him of his appointment, and he called back his acceptance.

He also advised Canon Campeau, of this city who left at eleven o'clock for Kingston, and the arrangements for the enthronement of the new archbishop, etc.

It is understood that a number of important changes in the boundaries of the various dioceses have also been decided on. The ecclesiastical province of Kingston and the diocese of Peterboro, will be united with the diocese of Ottawa, the archdiocese of Kingston being reduced to a bishopric, and like Peterboro presided over by a bishop. The eastern boundary of the archdiocese of Ottawa, is further understood will be created in Quebec province with a new diocese in the city of Quebec, under the name of Hull, and Father Raymond, of the 'Brook' are being mentioned as the possible first bishop of Hull.

FLETCHER'S FIELD CASE.

Argument Heard by Court of Appeal To-day.

The very important case of Poirier vs. the City of Montreal came up for hearing in the Court of Appeal, this morning. This is an appeal from the judgment of Mr. Justice Charbonneau dismissing the action of one branch of the Poirier heirs, who claim ownership of that portion of Mount Royal Park known as Fletcher's Field.

There are several claimants to this valuable land, the aggregate value of which represents about one million dollars. The portion claimed in the present action is \$100,000 as representing the amount reverting to plaintiffs in the property by the city from the Bagge estate.

The first judgment was based principally on the ground of prescription.

CANADA AT BRUSSELS.

Commissioner Reports on Advertising Effects.

Ottawa, September 22.—Mr. Thomas Cote, assistant commissioner-general for Canada at the Brussels exhibition, has sent a report to Mr. Sydney Fisher dealing with social and general conditions in Belgium, and the concentration in the urban industrial centres of Belgium to the detriment of the agricultural districts. He does not anticipate that Canada's future position in Brussels exhibition will do much to bring Belgian colonists to us, unless in the form of Canada better known in all countries of Europe, such as Holland, Germany, etc. These citizens have visited the Canadian pavilion in great numbers. 'It will also,' he concludes, 'have the result of considerably extending the commercial relations between Canada and Belgium.'

CRITICISE MAYOR GUERIN.

Committee of Investigation Say His Conduct Has Lacked Courtesy.

It is rather a slap at Mayor Guerin which the special committee appointed to investigate the trouble arising over the arrangement of flags on the City Hall roof, gives in its report to council.

After stating what was found at the investigation, the communication concludes:—

'Under these circumstances, your committee does not think that the superintendent of the City Hall is to blame, but it can not refrain from judging the attitude of the mayor as showing a lack of courtesy, especially since the mayor was an active member of the reception committee, and it would have been easy for him, instead of ignoring its members, to confer with them and arrange the question of flags to the satisfaction of all.'

'As your committee has also been charged to submit to council the precedent which should be followed for the future with regard to questions of this nature, it recommends that the mayor give flags upon special occasions be left entirely in the hands of the city clerk.'

The following are the members of the committee—Aldermen O'Connell, Boyd, Roux, Turcot, Letourneau, Emard, Lamoureux, Bastien, Lariviere, these, Ald. Boyd and O'Connell would not sign the report. Ald. Emard is out of the city.

BUT ONE HIT OFF DUBUC

The Heavy Hitting Pitcher Holds His Former Team Mates Helpless.

JONES MAKES FINE CATCH. Grabs Starr's Long Drive With Bare Hand While Running at Top Speed.

A pessimist of a malignant type occupied a seat in the grand stand at Atwater Park during yesterday's games. No sooner had Buffalo scored one run in the first inning of the first contest than this individual began to regret the expenditure of fifty cents which he had made to see the struggle.

Then a double play, Holly to East to Cockill, was about as fast as has been seen in the history of the game. Holly, who was attempting to steal second, was caught by East and Jones, and though both were hot after it everything seemed to point to Mr. Starr getting a hit.

AT THE HIGH SCHOOL GAMES

Dave Craig, a Brother of the Footballer, Breaks Two Records.

MANY SISTERS PRESENT. Schoolboys and Girls Vigorously Applaud Young Athletes on M.A.A.A. Grounds.

Two school records were broken yesterday afternoon by Dave Craig, a brother of the Montreal footballer, at the High School games. In the hop, step and jump he went 38 feet 7 1/2 inches, three inches better than England's mark in 1908; while in the high jump he put three-quarters of an inch over the bar.

C.P.R. TORONTO SERVICE The new Toronto train of the C. P. R., which leaves Windsor Street Station at 10.45 p.m., is the popular night train between the City of Montreal and Toronto. DEATH OF MR. AMOS COWEN The death occurred yesterday of Mr. Amos Cowen, in his 74th year, after an illness extending over some weeks, at his residence in Buckingham Avenue. Mr. Cowen, who, up to a few years ago, was a well-known contractor, came to Canada in 1864, and the business which he established on his arrival soon assumed large proportions. He was prominent for a number of years in Masonic circles, but lately has not taken any interest in the affairs of the craft. Mr. Cowen, who was a widower, is survived by four daughters and one son, who is in business as an engineer in New York.

Of Interest to Women. The 'Witness' Fashion Hint.

GRAY SATIN TOQUE. The toque is a style which Paris milliners are expecting to use with much success this fall. It is a large, draped shape, the outcome of the closely draped small silk turbans of last winter. On this large frame the drapery is tightened to form an interesting bow at one side. The material is of satin, in a new shade of grey.

A MUNICIPAL EXPERT. The idea that women are needed in municipal housecleaning is not altogether a new one. Its practical working out and the demonstration of its success have made the name of one medium-sized town in the State of Michigan known far and wide. The woman in the case was the Rev. Caroline Bartlett Crane, who began her work of civic improvement about eight years ago, led thereto by the discovery of revolting conditions in the abattoirs and slaughter sheds about the city. Her first work in this direction was to secure competent meat inspection for Kalamazoo.

The tale of how Mrs. Crane had the back yards of the town cleaned up, as told in the 'Pictorial Review' this month, has its amusing side. These were much like the back yards of the average town, but that fact had no weight with Mrs. Crane. Surprisingly she photographed a number of the worst yards. Then she called together a number of progressive women and organized a civic improvement league. At one of the first meetings there was a lantern exhibition of Kalamazoo back yards. As pictures of the inhabitants of Kalamazoo squatted in their seats, Mrs. Crane was merciful and tactful enough to suppress names and localities, and every owner of a yard that was shown made up his mind instantly that no one should ever recognize that yard to others by the careless, indiscriminate use of pins.

THE PERIL OF THE PIN. Whoever thought of the woful possibilities of pins in things as the New York 'Herald.' Not pins in one's clothing, reprehensible as that is, though calculated to harm only one's self, but the injury they do to others by the careless, indiscriminate use of pins. In letters, for instance, it is really cruel of many pin things, a sample going to a shop to be matched or a piece of a frock which we wish a bosom friend, away somewhere, to get an idea of. Our intentions in doing either of these things are innocent enough, but the postman who takes the letter from the box, the clerk in the shop who opens it or even our friend, if he is unacquainted with danger, may get a pin prick or a finger ruthlessly torn open, with results both painful and serious.

GOOD HEALTH FOR BABY AT VERY LITTLE COST Baby's Own Tablets only cost 25 cents a box. A box bought now may save baby's life. Summer complaints come suddenly, and carry away thousands of little ones every year. If the stomach and bowels are kept in order there is little danger from these troubles. Baby's Own Tablets is the best medicine in the world for preventing and curing stomach and bowel troubles. They can be given with perfect safety to the newborn baby or the well grown child. An occasional dose of the Tablets will regulate the stomach and bowels and prevent summer complaints. The mother who keeps these Tablets on hand may feel assured her little ones are safe. If you have not got a box of the Tablets get one without delay. Do not wait until trouble comes; it may then be too late. Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE 'WITNESS' DAILY PATTERN. The home dressmaker should keep a little catalogue scrap book of the daily pattern cuts. These will be found very useful to refer to from time to time.

GIRL'S DRESS. The little dress pictured above is an excellent model for a school dress; where so many are needed, only the simplest designs should be selected. The waist closes in front, and at each side are two backward-turning tucks and two forward-turning tucks at each side of the back. The bishop sleeves are finished with a turn-up cuff, and a deep collar completes the neck. The skirt is side-plaited, the plait turning toward the back; the skirt closes down the centre-front and is joined to the waist by a belt. Any suitable material will develop well in this design; of course, care should be taken not to select the heavy cloth materials. The pattern (5144) is cut in sizes 6 to 12 years. To make the dress in medium size will require 4 1/4 yards of material 27 inches wide, 3 1/8 yards 26 inches wide, or 2 5/8 yards 44 inches wide, with three-eighths of a yard of contrasting goods 27 inches wide.

PORTER CHARLTON IS SANE. Wife Slayer's Insanity Plea is Rejected.

Jersey City, N.J., Sept. 22.—Porter Charlton lost the opening skirmish yesterday in his fight to escape extradition for the confessed murder at Lake Como, Italy, of his wife, Mary Scott Castle Charlton. Judge Blair, before whom he was arraigned, declined to admit a plea of insanity, and took the application for his return under advisement. An attack on the allegations in the dossier, and had been the main prop of the defence. Several alienists were ready to testify to Charlton's mental incapacity, but were denied a hearing under Judge Blair's ruling. Prosecutor Garvan rested his case on the dossier sent to this country by Italy. Charlton's counsel at once asked for the dismissal of proceedings on the ground that no proof of the allegations in the dossier had been offered, but Judge Blair overruled the motion. R. Floyd Clark, one of the Charlton attorneys, then attacked the treaty with Italy. He quoted from the Italian penal code a statute passed in 1890, providing that no Italian citizen shall be extradited, and said this was a virtual abrogation of the treaty. If Judge Blair's ruling is adverse to Charlton, the case will be certified to Mr. Knox, the Secretary of State, who will pass on the question of extradition.

MAY END 'SHAKER' COLONY. Enfield, Conn., Sept. 22.—The passing of the picturesque 'Shaker' colony in this town is believed to be presaged by negotiations which have been undertaken by representatives of the Baron de Hirsch Fund for the purchase of the property of the North and South families, which includes twelve buildings and about 548 acres. While an offer of \$350,000 for the property has been refused, negotiations are still in progress. The Hirsch fund of \$2,500,000 was founded in 1892 to encourage agriculture among the ignorant Hebrews, and, if property is secured, it will be cut into small farms and leased to poor persons of the Hebrew race.

SOCIALIST IS WRATHY

Eugene V. Debs Criticises Constitution, Mr. Roosevelt and Supreme Court.

Chicago, Sept. 22.—Eugene V. Debs, formerly candidate of the Socialist party for president, opened the fall campaign of the Socialist party in Cook county here in a speech in which he engaged in philippic against the United States Supreme Court...

EUGENE V. DEBS.

Grosscup, of Chicago, and August Belmont, of New York, were among those who attended the meeting...

The Constitution of the United States, said Mr. Debs, 'is a class document. It was prepared by the colonial capitalists for the purpose of keeping the working class down.'

He is a dishonest man. He advocates publicly campaign contributions, but ignores a challenge to publish the names of trusts that furnished the money to elect him in 1904.

AWAKENING OF SCIENCE TO THE VALUE OF FRUIT

What is 'FRUIT-A-TIVES'?

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful.

A physician in Ottawa, after years of patient work, discovered a process, whereby the medicinal or bitter principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained.

Hundreds of prominent people in every section of the Dominion owe their good health to 'Fruit-a-tives.'

READABLE PARAGRAPHS, SATISFACTION.

'The most amusing story of an American in France that I ever heard,' said a recently appointed attaché to the French Embassy, in this city.

'A well-known French actor became involved in a discussion with an American, grew heated, drew his card from his pocket, threw it on the table with a tragic air, and stalked out.'

'The American regarded the card for some moments, then took out his fountain pen, wrote "Admit bearer" above the engraved line, and went off to the theatre.'—'Brooklyn Life.'

SUPPORTS MR. ROOSEVELT

Schenectady County Convention Surprises Republican 'Old Guard.'

New York, September 22.—'Old Guard' leaders, who are fighting for control of the Republican State Convention at Saratoga next week, were admittedly surprised yesterday when the news reached them that the supporters of Mr. Roosevelt had carried the Schenectady County Convention...

The defeat at the primaries of Vice-President Sherman, the Old Guard candidate for temporary chairman of the state convention, in his home district in Oneida county, was not altogether unexpected, but the loss of Schenectady county was a surprise even to the progressives here.

ASSOCIATION'S TARIFF VIEWS

Proposal for National Educational Campaign is Left to Committee.

AGAINST FREE TRADE DOCTRINE.

Conference With Agricultural Interests in Near Future is Likely.

Vancouver, Sept. 22.—Practically reflecting a resolution to conduct a campaign of education along tariff policy lines, but at the same time expressing the hope that the Dominion Government would not overthrow the present fiscal arrangements in favor of those more radically making for free trade, the Canadian Manufacturers' Association yesterday debated the most important features of the present situation with respect to free trade and protection.

It was in adopting this idea of silence for the immediate present that the convention decided not to make any move towards instructing its tariff committee to go ahead with a campaign along protectionist lines.

The debate came at the close of the reception of the tariff committee's report. It was to the effect that the committee mentioned undertake the duty of issuing pamphlets laying the tariff situation before the citizens of Canada, especially those in the agricultural districts, and that a select committee meet their representative body for the purpose of taking up the whole issue.

FEAR FREE TRADE DOCTRINE.

In the debate of the tariff situation the chief speakers were: Messrs. H. J. Waddie, of Hamilton; P. W. Ellis, Toronto; R. A. Robertson, Hamilton; B. T. Rogers, Vancouver; C. R. McCullough, Hamilton; A. Saunders, Goderich; C. S. J. Phillips, Montreal; A. Fleming, Toronto; R. H. Alexander, Vancouver, and the association tariff expert A. W. Bradner.

Mr. Waddie, who was responsible for the unsuccessful resolution for a tariff educational campaign, said the farmers needed the lesson the most. He thought many good chances for a discussion had been missed by the manufacturers on their way across the prairies, where the free trader germ had been started. With the advent of so many free traders from the old country, who found the present tariff conditions in this young land rather irksome, the doctrines of free trade would be largely spread unless a counter campaign was carried on.

Mr. P. W. Ellis, Toronto, thought that it would be wiser if the manufacturers would take some action to hold a conference with the agricultural interests with a view to arriving at some amicable arrangement as to tariffs. With a spirit of unity and peace

there was no reason why a solution could not be secured.

At the present time some of the free traders, such as one man in Portage la Prairie, declared that the seven million people in Canada should not be taxed one hundred million dollars, but they did not go on to say as to what they proposed doing to raise the money necessary for the improvements demanded in the Dominion, and they did not offer any changes to the present policy of tariffs prevailing in the country. It was strange that so many took exception to levying the duties which provided money for the needs of Canada. He followed with illustrations of what had been achieved by the protection in the United States. He added, amid laughter:

"We do not believe in kicking, for kicking brings no peace; but the wheels that creak the loudest is the wheel that gets the grease."

He was sure that nothing would be gained by a milk-and-water policy, and a strong campaign for education along protectionist lines was the very thing that should be encouraged.

MANUFACTURERS BECAME ANXIOUS.

Other delegates thought that as free trade was coming so strongly to the front in the prairie towns, the manufacturers should do something in active opposition.

That the association should not commit itself at the present time was the contention of Mr. A. Saunders of Goderich. The manufacturers, he said, should give the farmers credit for possessing a good deal of intelligence and some ideas as to what was best for the country at large. The association should not discuss this situation with its opponents, it should wait until the tariff came before parliament and then appear with its arguments, and in the end that view was adopted.

In further discussion of the tariff committee's report, read by Mr. Ellis, Toronto, Mr. Ellis said: "The manufacturers felt very nervous when the tariff question was being considered with the United States. We do not like to feel that at any time our interests can be jeopardized by the granting to other countries of minimum tariffs."

Mr. C. R. McCullough asked what effect the thirteen minimum tariff concessions made by Canada to the United States had produced, and if the industries interested were notified. He considered it a decidedly dangerous situation where, by a covert act, the duty could be changed to work a hardship on manufacturers.

EXPULSIONS APPEALED.

Kiev, Russia, Sept. 22.—A great number of appeals made by Jews whose expulsion has been ordered by the Imperial Government are pending following the favorable outcome of a test case instituted by some of the Jews who have long resided in Yekaterinoslav province. In this instance the Senate decided that the orders of expulsion were illegal and that the petitioners should be reinstated in their homes. Appeals have now been made in other provinces.

QUEBEC BRIDGE VICTIM.

Quebec, September 22.—The body of Frank Karley, a Caughnawaga Indian, has been found this week in the Quebec Bridge debris and identified, and the remains have been forwarded.

THIS dainty pianistic triumph is the Knabe Mignonette Grand, which would seem to leave nothing that can be desired in melody, harmony, everything.

It is capable of portraying with exquisite effect the varying moods of the player, and if we pause one moment to think how many triumphs have been won by the Knabe creations, they are marvelous, indeed.

The list of masters of world-wide eminence who have endorsed the Knabe Piano is almost endless.—Tchaikowsky, Sauer, Hamburg, Carreno, Rubenstein, Grunfeld, Ysaye, Scharwenka, Melba, and Kubelik. These come to mind at random, but how many thousands of eminent musicians there are throughout the land who enthusiastically echo the sentiments voiced by the above great professionals.

M'GILL RUSHES

Pushball Contests in Arts and Science Faculties.

Although the session at McGill has not yet opened, there is considerable discussion as to the form of initiation to which the freshmen will be treated.

It seems quite evident now that the old barbarian hill-rush, in which so many of Canada's noted lawyers, doctors, and divines have been from time to time engaged, is now entirely obsolete. The great success of the pushball game and of the pushed-ball rush, both of which were instituted last year, produced all spectators in their favor. The result is that the pushball rushes will be the order of the day unless some unforeseen event happens. The old hill-rush is still available, and will doubtless be used to good effect.

The great benefit of the pushball rush is that it is decisive. The game is referred to as the "score contest."

Thus the rush-loving ones are both spectators and participants. There will still be "infatuated freshmen" and "sophomores" tearing each other's clothes off. There will still be four or five freshmen seen sitting on one big sofa, phoning, as the other usual thrilling incidents.

The Arts and Science Faculties will follow their predecessors and initiate their younger brethren by brute force, while the medical men will resort to the daintier pink tea and to the delights of the convivial bowl. Mr. John Millen presented silver trophies towards the two rushes, and these will be given to the classes winning the respective events.

CRICKET SEASON OVER.

McGill Holds Place of Honor in Senior League.

While there was a good deal of wet weather at the commencement of the year, the cricket season has proved to be considered a fairly successful one, and the senior division of the league McGill holds the place of honor, having won ten out of the thirteen games played, while they have lost two and only lost one. They have also won the other two divisions of the league. Lachine, with the same number of games, have lost one more, while the other two divisions have lost two and one game each, and will all, save Westmount who won seven games, occupy lowly positions.

In the second division Osborne, with nine wins out of twelve, and only one game lost, and draws take first place in the second division, in fact their season has been nearly as good as McGill's. The third division was won by the M.A.A.A., one of the oldest clubs, but next year better things are expected, as they have already had a win in the following table showing the standing of the clubs in both first and second divisions of the league.

FIRST DIVISION

McGILL SOCCER TEAM.

Most of Last Year's Men Available.

From all appearances it looks as though the McGill soccer aggregation is to be a winner, since the majority of last year's men are available. The team has already had four practices and will be in first-class condition by the time the season starts. Of last year's first team quite a number remain. These include Christie, Grant, Archibald, Crowdy, Stevenson, Fay, Rutledge, and Hatcher. There are also several prospects in view which will doubtless make a strong team. Some chased the pigskin all last season, while others are freshmen.

The league includes Queen's, Toronto, and McGill, and all matches are arranged so that when the rugby team from each university is away, the soccer team is playing at home.

The schedule, Albert following, is: October 8—Toronto, at McGill; October 15—McGill, at Queen's; October 22—McGill, at Toronto; October 29—Queen's, at McGill; November 5—Toronto, at Queen's; November 12—Queen's, at Toronto.

The new officers for the league for the coming season are—Hon. pres., Prof. MacDonald, Queen's; president, P. T. Pilkey, Queen's; vice-president, A. B. MacDonald, B.A., McGill; secretary-treasurer, W. C. Swinnerton, Toronto.

TORONTO RESERVES BIG LIST.

Toronto, Sept. 21.—The Toronto club's reserve list was sent to the National Association, which contains the names of 28 players, as follows: George Wainwright, Charles R. Tomman, E. Newton, J. W. McGinley, Richard Carroll, Edward Killian, Arthur Mueller, W. Corey, Carl Lundgren, James Murray, Vaughn, Edward Fitzpatrick, James Frick, Edward McDonald, Jos. Delehan, Wm. O'Hara, J. Kelly, Myron Grimshaw, Carl L. Smith, Ben Saffin, J. Donald, Sam Brown, Ben Saffin, J. Slattry.

Of these, Smith, Saffin and Brown are under suspension; Frick has been with Baltimore all season, and Jordan will likely be turned back to Brooklyn, as he never reported here. Slattry has an agreement with the Toronto club whereby he may be a free agent if he wishes.

TENDER OF OLD COMPANY BEST

Controllers Recommend that Lighting Contract be Given to M. L. H. and P. Co.

GREAT IMMEDIATE SAVING.

This Will Increase, Says Mr. Parent, as New Municipalities Are Annexed.

All things considered, Mr. Parent, superintendent of the city lighting department, considers the tender of the Montreal Light, Heat and Power Co. the lowest of those submitted for city illumination. By tables he set this before the Board of Control, and they have determined to recommend to Council that the ten-year contract be given as Mr. Parent advised. The recommendation, if approved, means that the annual cost per lamp of the first grade will be \$72.70 over the whole city, and for lamps of the second grade, \$63.15.

In his report, Mr. Parent stated that the tenders presented four alternatives.

First is the offer of the Montreal Light, Heat and Power Company, to light the whole city at the same rates and conditions that is, at the figures quoted above.

The second alternative is that of the Provincial Light, Heat and Power Company for lighting the whole city not under contract, and the tender of the Light, Heat and Power Company for lighting the city. The Provincial Light and Heat and Power Company would have to be paid at the rate of contracts which they now have for the outlying districts. The prices of these vary from \$75 to \$115 a lamp.

The third alternative is that of the Saragay Electric and Water Company, the Dominion Light, Heat and Power Company and the St. Paul Electric Light Company, each lighting the streets tendered for, while the Provincial Light, Heat and Power Company lights the balance of the city, except such districts already under contract.

The fourth alternative is that of the Saragay, Dominion, and St. Paul companies for the lighting of districts tendered for, and the Montreal Light, Heat and Power Company lighting the balance of the city, including those parts of the city already under contract.

The cost of these alternatives per year Mr. Parent has tabulated as follows:

Cost of alternative No. 1, for 1911.	\$1,174,000
Cost of alternative No. 2, \$154,074.	
Cost of alternative No. 3, \$178,278.	
Cost of alternative No. 4, \$167,494.	

Thus the offer of the M. L. H. and P. Company to be cheaper by \$900 than that of the Provincial Company and the M. L. H. and P. Company. Moreover, Mr. Parent says the saving would grow larger as other municipalities are annexed, the lighting of these would be at the first rate of \$70 per grade a lamp, despite the fact that contracts existed calling for a much greater sum.

The saving the new contract will bring to the city can be understood when it is remembered that the sum which the company tendered for the past service is \$95 per lamp, and these contracts are for a number of years, those provided for in the new contract.

SONS AS WELL AS DOLLARS.

Principal Rexford's Plan for the Ministry.

"A systematic propaganda is necessary," said the Rev. Principal Rexford, yesterday, "in order to develop a strong sense of obligation among church people to consecrate their sons as well as their dollars to the service of the church."

The inducement offered by commercial life to divert young men from this holy office, was the subject of Principal Rexford's address, and he emphasized the idea that it was the duty of Christians to foster in their sons' minds the vocation of the ministry.

On Tuesday and Wednesday, September 20 and 21, respectively, was the annual conference of the Montreal Diocesan Theological College Association for the quiet day conducted by the Bishop of Montreal.

On Thursday, September 22, there will be a programme of papers and discussion.

The Friday evening, September 23, there will be a special convocation, at which the degree of D.D. in course will be conferred upon Rev. H. S. Boyle, M.A., D.D., rector of Chatham, Ontario, who has recently been appointed professor of history in Trinity College, Toronto.

His Grace the Archbishop of Ottawa, in his capacity of Metropolitan, will be present to confer the degrees. The Right Rev. Dr. Sweeney, lord bishop of Toronto, will deliver the convocation address, and the Lord Bishop of Montreal will preside.

Principal Rexford stated, in regard to the matter of enrollment, that so far as can be determined at present there is every prospect of a full complement of students at the opening of the college.

WOMEN WANT ON COMMISSION

President of Woman's Suffrage Association Makes Impassioned Plea.

INVITED TO SPEAK OUT.

But Dr. Robertson Told Her Commission Had No Power to Increase Its Size.

Mrs. H. Hammond Bullock interrupted the meeting of the Royal Commission on Technical Education and Industrial Training yesterday at the Council Chamber at the City Hall, by beginning an impassioned plea for representation of her sex on the board and recognition by the board of women.

Mrs. Bullock is president of the Province of Quebec, Woman's Suffrage Association.

She opened with a protest against the exclusion of women from the courses open to men at the new Technical School on Sherbrooke street. She stated that Sir Lomer Gouin had been seen in this connection and he had recommended the delegation to the commission. Mrs. Bullock continued that the women were not satisfied with the attitude of the commission, that the members of the committee which had come to wait on the board had sat in the chamber all afternoon, and had not heard the name woman mentioned, that women were greatly interested in technical education for women, and the speaker urged by asking for representation on the board.

Dr. Robertson, who was in the chair, intimated that the commission could not increase its size, but that women were invited to speak, and that the commission would be very glad to hear anything they might have to say.

During the earlier part of the sitting several representatives were heard on the subject of the information desired by the commission. Dean Moyer and Dr. Adams appeared for McGill University; Canon Daugh for Laval, Mr. J. R. Gardner for the Quebec Architects' Association, Rev. Dr. Shaw for the Protestant School Commissioners, and Judge Lafontaine for the Catholic School Commissioners, Mr. A. McFee for the Montreal Technical Institute, and Mr. Thos. Gauthier for the Arts and Manufacturers' Association.

They all proffered their support and their earnest endeavor to place all the facts they possessed relating to the subject of technical education before the commission.

Dr. Robertson expressed, on behalf of the commission, their thanks for the favors and courtesies extended to them by the city authorities.

'SMOKER' AT MCGILL.

Innovation to be Introduced by the Union on Oct. 8.

The McGill Union are this year making a novel departure in their social programme, in the form of a Graduate-Freshman Smoker. It is intended that the affair be made an annual fixture, and it will serve the double purpose of keeping in touch with the graduates and of introducing the freshmen into the college social life.

In the past no effort has been made to keep the graduates in mind, and it is encouraging to see that the union is following the example set by the other universities.

The graduate-freshman smoker will be held on October 8th, and quite elaborate preparations are being made. The programme will be varied, containing vocal and instrumental numbers, besides one or two elocution stunts. The event will be spiced up with something witty, and the good old McGill songs will find a place. The union is to open its doors on Monday next for the use of the students. Arrangements have also been made to serve meals on that date. The whole place has been renovated, and the student will feel quite at home once more. The football club will make it their headquarters.

Mr. A. B. MacDonald, B.A., of Arts, 1910, is the new secretary, and he also holds the position of secretary of the student body. Mr. MacDonald is making arrangements for the smoker, and will attempt to secure the chief members of the various faculties for the evening.
