INDEX DIVIDERS

for BRIGHT SUPERIOR indexing

+ ADD colour and efficiency to catalogues ♣16 sparkling contrasting colours available for better indexing

– SUBTRACT time waste. Catalogues are easier to read, easier to use. Information is clearly colour-coded for quick identification

× MULTIPLY sales. A catalogue with *Plasdex* index tabs is more attractive, distinctive, looks new longer. It stands out in comparison to competitors'. Helps salesmen sell faster in customer's office.

BINDING EDGE AND PUNCH HOLE REINFORCING. Should your indexes be subject to extremely heavy use, the binding edge also should be MYLAR* polyester film reinforced. Protection on binding edge gives maximum strength to this normal point of greatest wear.

CUSTOM MADE. *Plasdex** index tabs are manufactured to best suit your requirements. Custom designing is the only way to ensure your indexing system will complement the contents and cover of your catalogue. Excellent deliveries and expert indexing counsel too.
