

EPIDEMIC OF COLDS

Houses Kept Too Hot the Cause Given by Dr. Laberge

Dr. Laberge, medical health officer, states that there is a mild epidemic in the city. This, he says, is caused by the changeable weather and from the fact that colds are exceedingly infectious. Persons in the street cars with those suffering from coughs are in contact with them unless they are sufficiently healthy to throw off germs.

BOY SCOUT ORDERS

ST. POINT ST. CHARLES (9TH MONTREAL)

Friday evening, January 13th, a regular meeting of the Boys' Work Conference is being held at the Y. M. C. A. at 8 p. m. The meeting is being held at 299 St. Charles St. sharp. I have requested members of the group to attend the meeting, so they may be able to wear their uniforms.

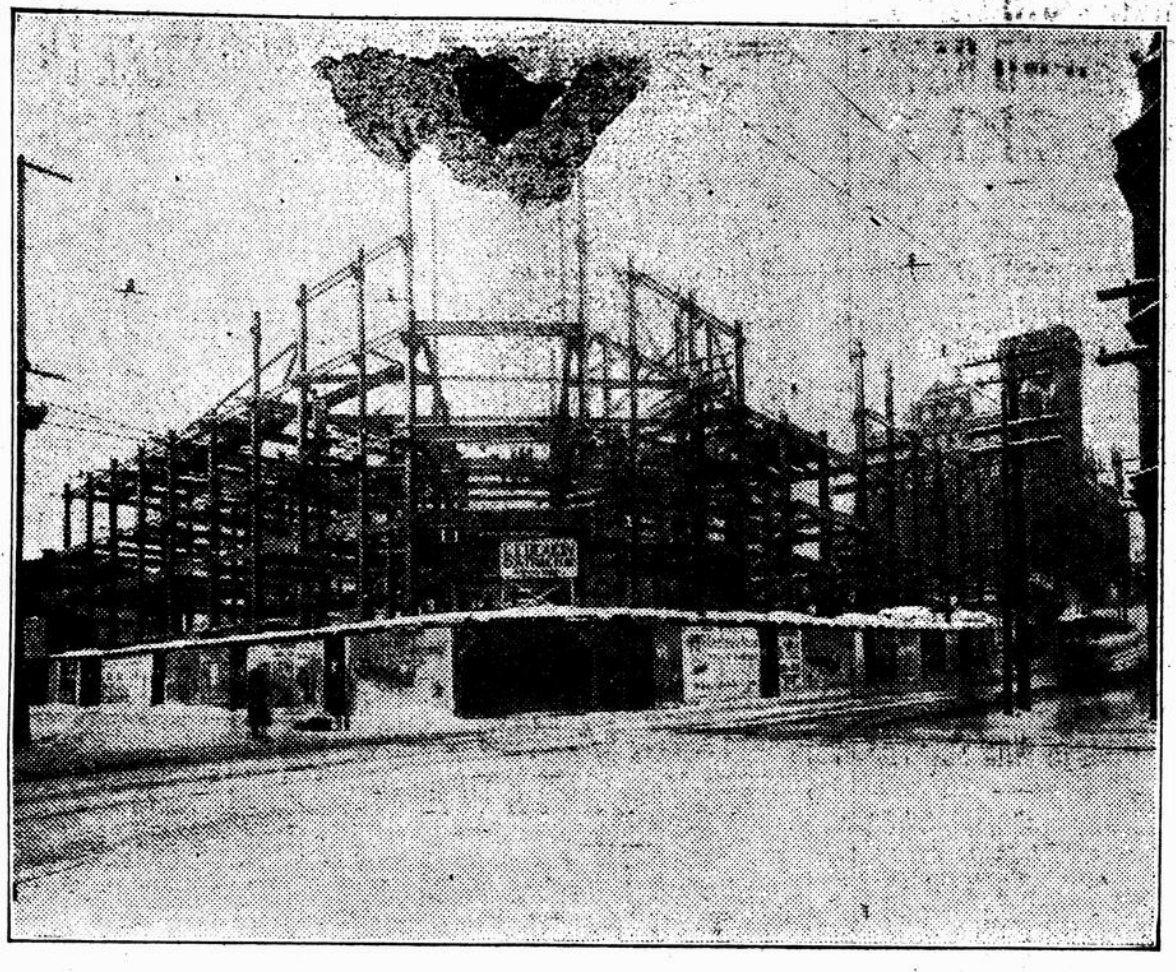

PRINCE RUPERT: SEAPORT.

Progress and Prospects in the G. T. P.'s Great Western Terminal.

Prince Rupert has already taken its place as an important seaport. During the year 1910, sixteen hundred calls were made at Prince Rupert. For the period, a hundred thousand dollars worth of goods were collected in duties. More than fifteen hundred dutiable packages were received by mail at this new seaport.

CANADIAN PACIFIC RAILWAY EXTENSIONS.

AT THE WINDSOR STATION.—The rapidly rising network of steel that, when encased with stone will make the Windsor station one of the finest and largest terminals on the continent. Despite the cold and the wintry white-hot rivets about, while the rat-tat of the compressed air hammer echoes for blocks.

EVEN BETTER LIGHTS

Diffusion Will be Improved by Raising the Lamps

Mr. Parent, city superintendent of lighting, states that the new lamps now being installed will give an even better light than at present in the course of a few months. The idea has been to get the lamps in place with as little delay as possible.

THE CHRISTIAN CHINESE.

A Happy Reunion as Part of Holiday Festivities.

Erskine, that missionary church, with about a dozen representatives in China, was a natural meeting place for the Chinese Sunday schools for a pleasant and profitable evening yesterday, though the absence, through illness, of the large-hearted and missionary-spirited pastor, the Rev. Dr. Mowatt, was much regretted.

IRISH WIT AND ELOQUENCE.

Lecture by Mr. J. Hamilton Ferns at Meeting of Irish Protestant Benevolent Society.

Grattan, Flood, Curran, Sheridan, Burke, Emmett, O'Connell and many other brilliant stars in Ireland's galaxy of fame, were quoted by Mr. J. H. Hamilton Ferns in his lecture on 'Irish Eloquence and Humor' at a meeting of the Irish Protestant Benevolent Society.

REAL ESTATE.

POINTE-AUX-TREMBLES.—Wm. Beaudry has sold to 'Hudson' O'Connell, the buildings situated at Pointe-aux-Trembles, fronting on the public road, under official lot 207, Parish of Pointe-aux-Trembles, area 2 arps. by 40 arps. for \$10,000.

ST. DENIS STREET.—R. Guilbault has sold to the Estate Masson, a property on the southwest corner of St. Denis and Ontario streets, for \$1,000.

GAIN STREET.—Houses on Gain Street, near Sherbrooke Street, St. Mary's ward, have been sold by Onestine Perrault to Henri Gervais, for \$4,000.

ST. TIMOTHEE STREET.—Mrs. A. Brosseau has sold to Ad. Monette, et al., the houses Nos. 72 and 74 St. Timothee Street, and Nos. 99 to 105 St. Andre Street, St. James ward, area 40.9 by \$7.6, for \$10,000.

ST. DOMINIQUE ST.—The houses 327, 329 to 345, St. Dominique Street, below St. Catherine Street, have been sold by Rose Berthoin to Messrs. Zola Rattner and others, area 41 and 98, for \$11,500.

WORKING FOR PENSION FUND.

The special committee of Council appointed to consider the advisability of establishing a pension fund for civic employees has considered the scheme suggested by Mr. B. Hal Brown. Its members have now asked Mr. Pelletier, the city comptroller, to state what financial responsibilities the adoption of the scheme would place upon the city, and what sum it would be necessary to invest to make the scheme a possibility.

FUR MERCHANT ASSIGNS.

Joseph R. Gagnon, a fur merchant, has assigned on the demand of Chas. Mignault, who has been appointed provisional liquidator.

POWER CO. SUES CITY.

The courts began to sit again today after the vacation. Among the cases being heard is an action brought by the Montreal Light, Heat & Power Co. against the city of Montreal for the central depot on Wellington Street at six o'clock on Jan. 21.

DEATH OF MR. A. MERRILL.

Mr. Arthur Merrill, of 347 Pine Avenue West, died suddenly of apoplexy this morning, aged 59 years. He was well known as a real estate agent, and was the son of the late Mr. Ezra Merrill, of H. & H. Merrill, dry goods merchants. He leaves a widow and four children—Arthur, Walter, Geoffrey and Yvonne, all of Montreal.

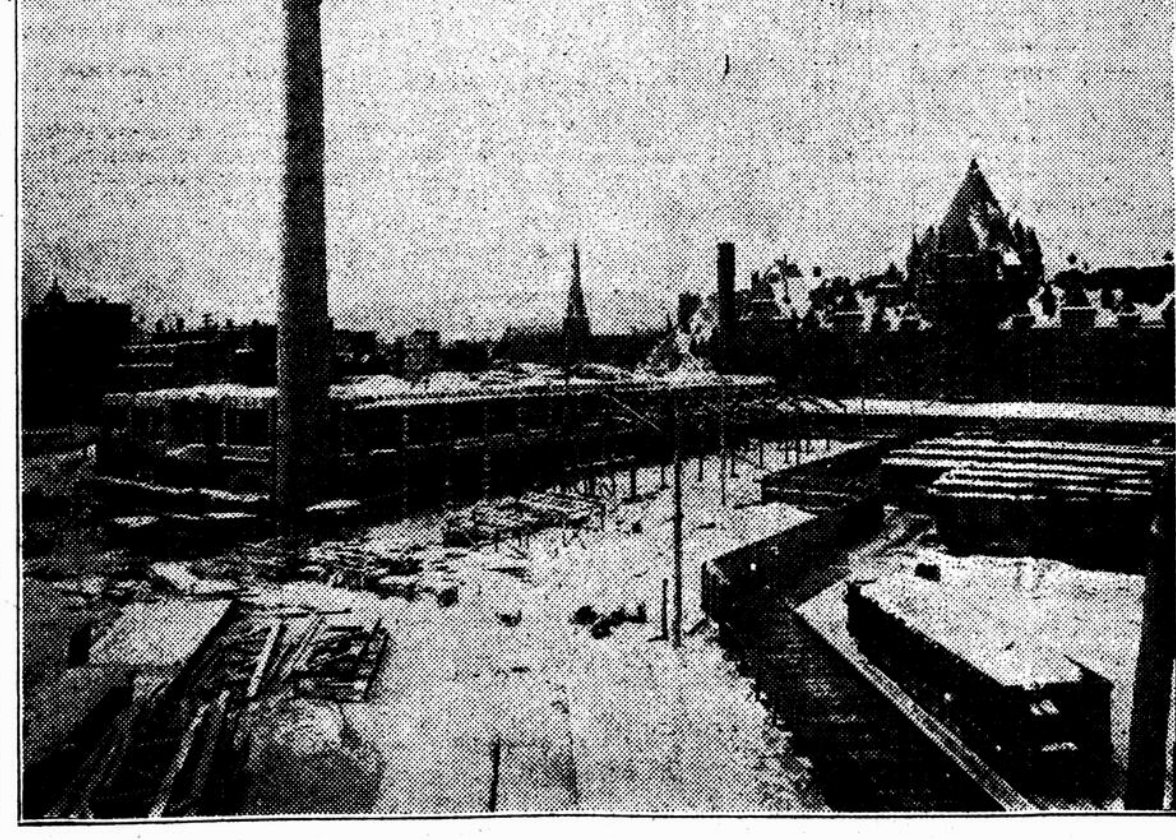

SECRETARY-TREASURER CAN CONDUCT CASE.

An interlocutory judgment rendered by Mr. Justice Lafontaine has established that a municipality in a law suit by its secretary-treasurer as counsel. Exception was taken by A. Bernard, a plaintiff, who brought an action against the town of Carletonville against the defendants being so represented, but the judge in the Practice Court refused to restrain the official from appearing as legal adviser.

PATENT REPORT.

Owen N. Evans, solicitor of patents and expert, Merchants Bank Building, reports the following United States patents granted to Canadians last week: 880,185, automobile, A. R. Benjamin; 880,186, match safe, J. R. Layton; 880,187, tool holder, A. P. Marconi; 880,188, garment supporter, J. P. Walton; 880,189, electric light attachment, J. Williams; 880,200, automatic electric switching mechanism, J. J. Fanning.

CANADIAN PACIFIC RAILWAY EXTENSIONS.

AT THE PLACE VIGER.—The great increase of traffic has forced the Canadian Pacific Railway to increase the facilities of the east end terminal. The extension to this, two stories are to be added to the station proper. The yards have undergone a vast growth, thousands of cubic yards of earth having been carted from the great excavation to the east of the station, where several blocks a hill was cut away.

JANUARY DISCOUNT SALE OF 10%, 20%, 30%, 40% and 50% Off our Entire Stock of Furniture and Carpets. Renaud King & Patterson Limited, St. Catherine Street & Guy Street.

PERSONALS

Sir Frederick and Lady Borden spent the week end in Halifax. Lieut.-Col. R. Scott, of Quebec, is a guest at the Windsor Hotel.

SERIOUS ACCIDENTS.

Two Men Injured in Cote St. Paul May Die.

Two seriously injured men were rushed to the Western Hospital this morning, and both may die. W. Ralph, aged 33, was crushed between two cars at Cote St. Paul, and James Brazier, aged about 40, had a fall from a scaffolding on a building there and fractured his skull.

EMIR OF BOKHARA DEAD.

Died From Bubonic Plague and Was Hurriedly Buried.

St. Petersburg, Jan. 10.—Advices from Bokhara say that the death of Sayid Abdul Ahid, the Emir of Bokhara, a Russian vassal state in Central Asia, was due to bubonic plague. The Emir died on Jan. 5, and his body was hurriedly interred the same day, without ceremonies.

NOTHING TO INVESTIGATE.

Judge Barron, of Stratford, was in Montreal yesterday to investigate the grievances of ex-Grand Trunk employees who have not been taken back since the strike was settled. During the day the judge had a conference with President Hayes and other officials of the company, and left last night, declaring that there was nothing to investigate in Montreal.

QUESTIONS AND ANSWERS.

(We invite questions on all possible subjects of general interest, and will do our best to obtain correct answers, and shall insert such queries and replies as we can find room for. We do not accept, however, as an advertiser's column or as an inquiry bureau for matters not of public interest. Every question must be accompanied with the name and postal address of the sender, and no notice will be taken of anonymous communications.)

GENERAL.

WOULD BE ENGINEER.

R. E.—Where could I apply to the C.P.R. company, and also the G.T.R. company, to learn for engineer? Ans.—It is suggested that you apply to the Master Mechanic of the Ottawa division of the Grand Trunk Railway at Ottawa, and the same official of the Canadian Pacific Railway at Montreal.

SELECTION WANTED.

An Ottawa subscriber asks for the reproduction of a path made by a calf, with all its windings and turnings, first into a travelled road, then into a city street,—the power of habit.

CHINESE MINISTERS.

J. W. H.—Will you oblige me by giving me the address of the leader of the Chinese Progressive Party. I want to get the name and address of a Chinaman in that Empire who is active against the opium evil? Ans.—Yuan Shikai, the most prominent of the representatives of the forces of order and progress, was dismissed from his office early in 1909. The government, of which the chief advisory body is the Grand Council, is dealing with the opium question, since Chang is president of the Administration.

SHEEPSKIN FOR MAT.

Fear-Aisig.—I have a sheepskin which I wish to prepare for a mat for bedroom. When the sheep was killed I salted the skin well. I wish to ask through your question column what to do next and how to dress it for that use. Ans.—To prepare the sheepskin, make a strong solution of salt water and soap, let it cool, then wash the skin in it, squeezing out all the dirt from the wool. Then wash in clear water of the same temperature, until all the soap is taken off. Dissolve one pound of alum in one gallon of water in two gallons of hot water; pour this over the skin in a tub, taking care that the skin is covered with the liquid. Let it soak for twelve hours, then hang it over a pole to drain. When well drained stretch it carefully on a board to dry, and stretch it several times while drying. Before it is quite dry, sprinkle on the flesh side one ounce of finely pulverized alum and the same of saltpetre, mixed together, rubbing in well. Try if the wool be firm on the skin; if not, let it remain a day or two, then rub with alum. Fold the skin side together and hang in the shade for two or three days, then dry the skin over each day till quite dry. Rub the flesh side with a blunt knife, and rub with pumice or rotten stone.

INNOVATIONS ON LIFEBARS.

A number of innovations which have never before been included in the accommodation of a steamer will be introduced on the new White Star liners Olympic and Titanic, the former of which will make her first sailing from New York to Southampton on June 23 next.

INCREASES IN CANAL TRAFFIC.

Ottawa, Jan. 9.—The total tonnage passing through Canadian canals up to Dec. 1, as shown by the returns to the Department was 42,593,305, as against 32,735,398 last year, an increase of 9,857,907 tons. The increases were: Soo Canal, 9,155,503; Welland, 313,165; Lawrence, 325,754; Ottawa, 313,294; Erie, 42,107; St. Peter, 745; Murray, 62,693. The Chamby Canal traffic decreased by 82,813, and the Trent by 13,843 tons.

TWO BARGES ASHORE.

Highland Light, Mass., Jan. 10.—Caught in a fifty mile northwest gale of force early today two barges which were being towed from Philadelphia to Boston by tug Lykens were blown on Peaked Hill bar, and a third barge in the tow of the same tug is missing, and is believed to have been sunk. The number of men who were on board the barges is not known.

CURLING FRIENDLIES

Fourth Round Entered Upon at Local Rinks Last Night

MONTREAL BEAT ST. LAWRENCE

Close Finishes Seen on Well-Conditioned Ice—Close Games at the Thistle Rink.

The soft snap was arrested last evening, the weather taking a sudden and decided drop, so that curlers had ice at the various friendly games indulged, to their complete satisfaction, some good close finishes being witnessed in consequence.

The closest curling of the evening was seen on Thistle ice, where at the expiration of the games only two points divided the rinks.

Exceptionally close curling was played by the powerful Montreal Club on the St. Lawrence. The latter had done exceedingly badly this season so far, so that it was refreshing to see them come back to their old style. Only one point separated the six rinks. St. Andrew's curled badly and were 22 points behind Heather.

Lachine are curling well this season and are 10 in front of Thistle, whilst Caledonia had a 10 point lead over Outremont.

Scores are as follows:—

Montreal	St. Lawrence
N. P. Adams	J. C. Casselman
E. Sanger	J. R. McGregor
Dr. W. H. Jamieson	J. Roy
Col. W. H. Gardner	D. Guthrie
(Skip)—5	(Skip)—16

	45

HEATHER VS. ST. ANDREW'S

The long lead established by W. B. Hutchinson over his opponent of the younger club had the effect of leaving Heather 22 points to the good on the night's play. While St. Andrew's won only two of the six matches played, they were, with the exception of this one rink, holding their formidable opponents down well. Scores:

Heather	St. Andrew's
F. J. Shaw	Dr. G. Fisk

Second game—Can. Fairbanks Co. Ltd. vs. Frothingham & Workman, 9-10 p.m.

Third game—Thos. Robertson & Co. Ltd. vs. Jas. Walker Hardware Co., 10-11 p.m.

This will be the first appearance of Stadke, Seybold Co. this year in a league game. The second game is expected to be the feature of the series, both teams having won their previous matches. The last game will be the initiation of the Jas. Walker Hardware Co. in this league.

COMMERCIAL HOCKEY.

Big Crowd Watch Games on Victoria Rink.

Close on a thousand spectators assembled to watch four games in the Commercial Hockey League on the Victoria Rink last night.

Hodgson-Sumner faced off with Eaton's at 8 o'clock, and things were rather scrappy in the first half, with-out a score. In the second half Laurence scored one for Hodgson-Sumner, while Eaton's failed to tally. While the nets were played a steady game, without any sensational spurts, their opponents were a little inclined to go after the man rather than the puck.

Lyman's were too fast for the Lake of the Woods team in the second game, sending the puck through three times to the latter's one. Farley, an intermediate Shamrock man, netted two and McDonough, one for Lyman's, while Osborne played a steady game, while Osborne played a steady game, while Osborne played a steady game.

Navigation had a greatly strengthened team over last year, and their combination was good. As a result they defeated Morgan's four to nothing, though the latter checked closely. Ouellette, on the navigators' left wing, played a fast game, and reached the nets twice, Hughes and Kerr taking one each.

The last game was easily the best of the night's play, when Cassidy's won from Rea's by one to nil. The winners played good combination, but Rea's followed them closely, and were

SPALDING HOCKEY.

Eight Games Scheduled This Week.

Eight games are scheduled for the Spalding Hockey League this week:

Tuesday—10-11, Silver Leaf vs. Cote St. Paul, on Cote St. Paul ice.

Wednesday—8-10, L'Aligon vs. Celtes; 9-10-30, Certe Canadian vs. St. Stephens; 9-10, Eagle vs. Red Wings; 9-10, Crichon rink, Comets vs. Crystals.

Thursday—Cote St. Paul vs. Melbourne, Cote St. Paul rink.

Friday—Cote St. Paul vs. Maple Leaf; St. Lambert vs. C.P.R., Laurier rink.

THE PARK SLIDE IS IN FULL SWING.

A RACE BETWEEN FIVE TOBOGGANS ALL LOADED UP WITH TOBOGGANING ENTHUSIASTS.

HYLAND UNABLE TO PLAY INJURED INTERNALLY SATURDAY

Wanderers' Crack Shot Will, if Present Intentions are Carried Out, Rest Up—Walter Small Will Take His Place.

HEAVY DEFEAT AT OTTAWA EXPLAINED.

Lavolette Hors de Combat—Quebec Hopeful of Winning To-night—Evenly Matched Teams Should Provide Close and Interesting Game at the Arena This Evening.

A further examination of the Wanderers' crack shot, on his return from Ottawa last night, where he was knocked out, found no bones broken, but a grave suspicion of internal injuries.

Under the circumstances, Hyland's medical doctor has advised him on no account to turn out to-night, even should he be able to, as the slightest knock might have disastrous results in the aggravation of the trouble.

This most unassuming player is very anxious to get back, but under the conditions, wiser counsels will prevail, and Walter Small will fill the position.

The Wanderer executive and supporters are unanimous that the heavy defeat was caused by two things—that rash act on the part of Walter Small, whom everyone thought knew better, throwing his stick at the puck and being ordered off for the remainder of the game, and the lack of confidence and over-confidence of the presumably invincible champions.

One prominent member of the executive is highly delighted at the defeat, as he says it will show them to keep fit, to do what they did last season. They thought they could just 'win when they like.'

There is no denying the air of confidence assumed by the Renfrew game, when, with such apparent ease, they scored three goals towards the end of the game, and it is just possible that a few more would have been scored had they not been so confident. The idea they were invincible, so that Saturday's thrashing will have a chastening effect.

Quebec are hopeful of finding the Wanderers at Ottawa found them, in which case they will win, but a close and interesting game should be witnessed.

Jack Lavolette is hurt, and may not be able to turn out on Saturday next. The line-up in the Quebec-Wanderer game to-night will be:

Hern. Marshall. Johnston. Small. Russell. Gardner. Macdonald. Malone. Oatman. Hooper. Holden. Moran. QUEBEC.

Russell Bowie and Dunc. Campbell will handle the match.

M'GILL WIN AGAIN

Beat Crescents by Three Goals to Two.

New York, Jan. 9.—The hockey team of McGill University of Montreal defeated the Crescent Athletic Club seven by three goals to two here to-night. The game was exciting from start to finish, the team work of the Canadians featuring the match. Woodyard, McGill's goalkeeper, played splendidly. At the end of the first half the score stood McGill, 1; Crescent, 1. The latter scored another goal in the second period. The line-up: McGill University, Crescent A. C. Woodyard, Goal; Point, Thomas Moseley, Point, Kennedy Casels, Coverpoint, Dufresne Scott, Rover, Shirreff, Williams, Cover, Bannister, Sargent, Left wing, Martin Forman, Right wing, Scarborough Goals—Blair, Moseley (2); Dufresne and Shirreff.

CITY HOCKEY LEAGUE.

Three Good Games at Jubilee Rink.

A crowd of over sixteen hundred people witnessed three remarkably good games of hockey which were played in the Jubilee Rink last night. In the first match the Stars triumphed over the Astors by scoring one goal to their opponents' zero. Quite a foul play was the Bellaregon Express, by defeating the St. Jacques 3-0. The final game was rather hand-capped by being without the services of Duckett, their vore point man.

Perhaps the most interesting game of the evening was the National Gar-net match, which resulted in a win for the former of a score of 3 to 2.

The Nationals showed great speed and aggressiveness, which won the match for them.

The Garnets, too, played a good, clean game, fought hard to win, but without success.

Good clean hockey played in this league so far is a revelation to some of the spectators of hockey, some even going so far as to say that it rivaled the class of hockey at the Arena.

Stars (1). Goal. Astors (0). Peters. vs. Goal. Couture Hefferman. Point. Bouldard Kennedy. Cover. Emard Barraghe. Forward. Laflech Lacken. Forwards. Piche Kelley. Forwards. McEgahan Referee. Lalonde, assistant, L. Dandurand, Umpires, O'Hara, Etier, Time-keepers, Gaudry, Provost.

IRISH-CANADIANS, ONTARIO AND BELMONT'S WIN.

About four hundred people were in attendance at the Ontario Rink to witness the second series of games in the City and Suburban League last evening. The first two games, between the Ontario and Outremont teams, and the McGill and Belmonts, produced clean, fast hockey, while the final game, between the P. R. and Irish-Canadians, was rather on the rough side. The checking was hard and unnecessarily rough, many penalties being exacted, and during the whole game there was not a period of five minutes when two or more players were not on the penalty bench. Ontario and Outremont started the puck rolling, and as nice a game as could be asked for was seen. G. Bradford, Chemillard and Joe Bradford put up a fast exhibition. Joe Bradford's run being most conspicuous. The latter, in goal for the Ontario, stopped many shots which looked like sure games, while on the forward line R. Albar and the Eya brothers put up nice work.

The second game, between McGill and Belmonts, was almost a repetition of the preceding game. McGill had almost an entire new line-up from last week, and were rather unfortunate in their shooting, not having a man who could be depended on to score. They were the better of the play, and Belmont's goals were always in danger. Butters and Lockwood saved many hard shots. For McGill, Williams and Goodve were the stars, while Roche, Abrams and Mulcar got the honor for the Belmonts. This game ended 2 to 1 in favor of Belmonts.

The final game, between the C. P. R. and Irish-Canadians, was a clear case of rough hockey; it seemed that every man was looking for trouble, and the final time it came to a scrap, Tigh and Brophy mixing it up, and both got ten minutes. Buckingham and Grophy played the best game of the evening, while the rest of the team were conspicuous on the Irish-Canadian team. The final score in this game was 3 to 1 in favor of Irish-Canadians. The teams were:

Ontario (3). Outremont (1). Koutledge. Goal. Harrey Eel. Point. Bullen. Yonders. Cover. Chamillard Allan. Rover. W. Bradford W. Eya. Centre. J. Bradford C. Jva. B. Wing. G. Bevard Belhune. L. wing. F. Fletcher Referee—Mr. Roohe. Judge of play—Mr. Abrams.

NO WAR INTENDED

Barrow's Intentions in Baseball Pacific.

New York, Jan. 8.—The Eastern League according to an official statement made on Saturday by President Edward Barrow, has no intention of making war on the major leagues and the national associations.

"Although I intend to look after and protect the interests of the Eastern League in every possible manner, said President Barrow, I do not intend to advise or try to lead its members into a warfare on organized ball. I always have been an advocate of organized game, and I believe the great advance the game has made in the past has been due to airtight organizations.

"The Eastern League, and I presume, the American Association, has a few reasonable requests to make to the National Commission regarding classification and drafting rules, and I shall try to present our case in a manner to command a respectful hearing, and whatever the commission decides, I will try to get it done in a manner to satisfy all. At any rate, the past has been authorized by any member of the Eastern League."

BOWLING MATCHES.

Three Matches on Palace Alleys.

The Palace alleys were busy last night, three scheduled matches being pulled off. There was a big crowd watching the bowlers.

M. A. A. No. 2 took three straight from Champtre No. 2.

Champtre No. 1 beat National in two of three games rolled.

M. A. A. No. 1 took a win from Colonials, rolling out ahead in two out of three games.

The highest score of the evening was rolled by Colonials.

Following were the players and scores:—

M. A. A. No. 1	1st	2nd	3rd
R. C. Bach	184	192	149
E. H. Holmgren	185	172	150
F. H. Gardener	185	159	165
A. G. Darling	189	154	189
Totals	917	867	914

NOTES and COMMENT

Hyland is more seriously hurt than at first thought.

That defeat at Ottawa will do the Wanderer seven more goals than a win, so the executive think, and they should know.

Walter Small was guilty of a very foolish act, throwing his stick at the puck. Quite good enough without this additional 'accomplishment.' Walter! Bowia doesn't like 'javelin throwers' rolling, and it is ten minutes every time.

Gotch enters the blissful state of matrimony to-morrow, so perhaps he will be heard about wrestling championships for a while.

The future Mrs. Gotch will not live up to the reputation of the weaker sex if she does not send him that twenty thousand dollar purse, when she takes charge of the mighty Frank.

Jack Lavolette is a very doubtful starter for Saturday's game, Canadian-Brenfrew. Taking a line through the easy beating Ottawa gave Wanderers and how lucky they were to beat the Canadian team, it looks as though Kennedy's lot will be favored in the Wanderer-Canadian clash next Wednesday week, and win.

Jack Brennan and Desse Brown will act as referee and assistant respectively in the Renfrew-Ottawa game at Renfrew.

Buffalo, Jan. 9.—George Smith, who played second base for the Buffaloes, and who at various times has either been the Bison's manager or captain will be with the McGill's Newark club next season, so it was learned last night from one of Smith's personal friends. Smith was conditionally released by Buffalo, but a few days ago, and was immediately snapped up by Manager McGinnity, of Newark. He will cover second for the Indians.

MCGILL AQUATIC SPORTS.

Swimming Handicaps at Laurentian Baths on January 20.

January 20th is the date fixed for McGill swimming handicaps, and the place is Laurentian Baths. The team to meet Toronto in the Toronto week will be picked from the sports on this occasion.

McGill will also take a polo team to Toronto to play the Toronto sextet after the events have been swum off. Walter Penelley, the star forward and president of the club, will be unable to make the trip, as he is laid up with an attack of appendicitis; but despite his absence the local swimmers expect to give a good account of themselves.

CHORISTERS WIN.

St. James Choir Beat Christ Church Four to One.

The Christ Church Cathedral Sunday school seven lost their first game of the season to St. James' Choir at the Coliseum yesterday. In the first half the Sunday school boys tallied the only goal of the period; but in the second half the choir team, which was obviously in better shape, pulled up and scored four straight, making the final score four to one. Meadowcroft and S. Lyons were named for the losers, while Arless and Woods were the most effective among the choristers.

ENGLISH VISITOR PRESENTED WITH SOUVENIRS.

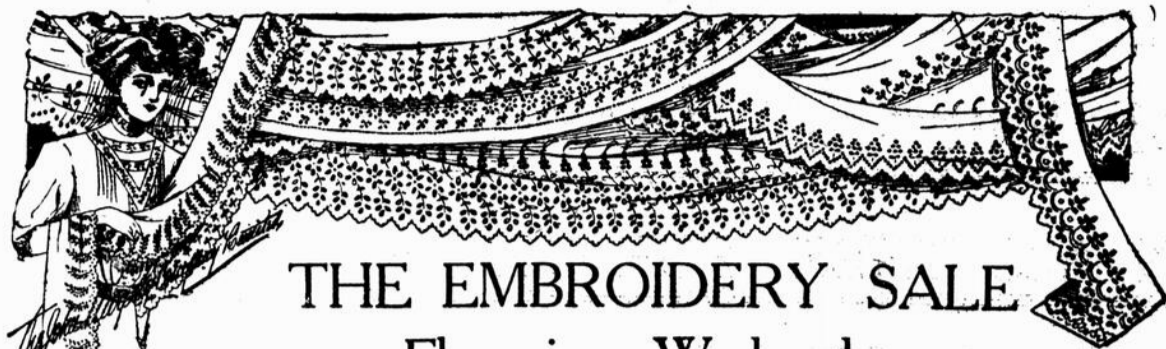

The Holly Snowshoe Club held their first trip last night, starting from Leach's piano store at 8.30, and proceeding to the St. George's Club.

Past President Geo. Hodge, Junior, was present, accompanied by Miss Stevenson, of London, England, to whom the club presented a souvenir picture of the organization.

(Third Floor up.)

Of Interest to Women.

The 'Witness' Daily Fashion Hint.

PICTURESQUE HEAD-GEAR.

Some of the new hats have fur brims with velvet crowns; others have fur crowns with velvet brims. The latter style is usually more on picture hat lines, and the former gives a toque effect. The fur crowned hat illustrated has the graceful 'dip' at the back and front, which is always picturesque and dashing. This hat is of dark red velvet with a crown of black fur and a feather ornament in front in deep red and old pink shadings. The upturned brim is now much smarter than the very drooping, mushroom effect of the large hats, at least. Many picture

hats worn by well dressed women have this jaunty upcurl in the brim, sometimes at one side, sometimes all around. This big hat of black velvet has a graceful 'movement' as milliners call

it—in the brim, and the high crown rises from a feathery edge of white goose feathers.

Nowadays almost every woman possesses a boudoir cap, under which she tucks stray ends of an incomplete coiffure when she breakfasts or receives early guests in her own room. Luxurious boudoir caps, like the one pictured, are for special wear, and invalids appreciate these dainty caps, which cover the hair. This boudoir cap is made of a white lace veil, stirred on both long edges to make it fit the head. Over the shirring are loops of blue satin ribbon and a bow to keep the cap in place at the back.

HOW TO COOK RICE.

Wash a cup of rice through several times with water to remove all cloudiness. Drain as dry as possible, shaking to loosen the rice grains. Put into a saucepan or boiler three full cups of water, add a level teaspoonful of salt. When the water is boiling rapidly sprinkle in the rice gradually, so that it will not stop boiling. If it does stop, pick up and the rice settles, give the water two or three rapid twists until it starts boiling hard, so that the grains will be kept in constant motion and separate to allow the starch on each grain to be thoroughly and evenly cooked. In about fifteen minutes after it starts boiling vigorously the rice will have fully absorbed the water. Keep the cover on while cooking, but pushed a little to one side to allow for the escape of the steam. When the grains can be crushed smoothly between the thumb and finger the rice is done. Remove the cover and without reducing the heat, let the rice dry out for five minutes, then the drying out continue over a moderate heat for twenty-five to thirty minutes. Do not stir the rice, but if you fear it will stick, stir or toss it lightly. Now and then the 'sweating' process mentioned in the recipe is the best and quickest way to finish the cooking. As soon as the rice is thoroughly tender, set it in a colander and wash it under running water for about five minutes. The rice should be washed with cold water, not hot water, and the water should be changed frequently. The rice, when washed, should be drained thoroughly, and the water should be poured off. The rice should be dried in a colander for about five minutes. The rice should be dried in a colander for about five minutes. The rice should be dried in a colander for about five minutes.

mate use of the knife, fork, and napkin, the taking of food and drink without sound, and the proper mastication of food.

The same writer makes an interesting note on the growing philosophy of the influence of food colors. It has been found that people are very sensitive on this subject. Among the educated classes chocolate-colored viands are said to be the most popular. With children pink is the favorite hue, offer a child the choice between a pink and a yellow sweet, and the former will be instantly selected. Green, however, as an artificial color of food is generally avoided. The scientific reason for these likes and dislikes is said to be that certain colors stimulate the appetite and digestion, but others have the reverse effect, whilst to sit down to dinner in a green-papered room often destroys one's desire for food.

George Findlay, M.L.C., Attorney-General and Colonial Secretary, New Zealand.

STAINS UNDER THE NAILS.

There are various preparations said to remove stains under the finger nails. If there is any doubt about a special preparation, substitute lemon juice. As a stain remover it is excellent, and the woman who keeps half a lemon on the washstand where she washes her hands, rarely will have to blush for the unsightliness of her nails.

Oxalic acid is also good, but is injurious to some skins. It should be applied with a bit of cotton on the end of an orange-wood stick. If using the lemon the tips of the fingers can be rubbed into a section of it. Later rinse well with clear water.

Stains on the sides of the fingers are quickly removed with a moist pumice stone. This is invaluable to get of the first blotches after painting, or doing any disfiguring work. In cases where the skin under the nails is roughened, a little powdered pumice can be moistened with lemon juice and applied with an orange-wood stick. Never scrape away a stain; it roughens both cuticle and nail and becomes a dirt catcher rather than dirt remover.

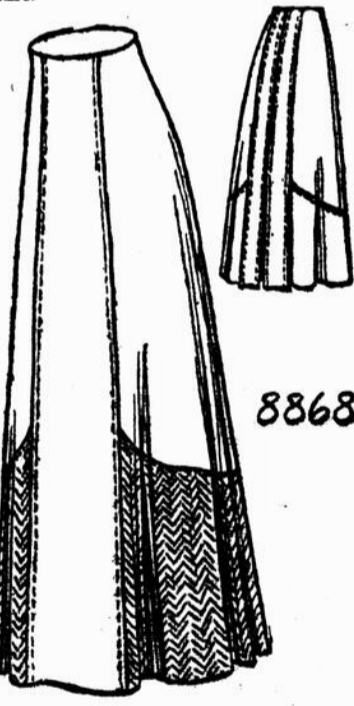

Soaking the tips of the fingers in olive oil will help to keep the skin about the nail in good condition.

LACE WORKED IN COLORS.

Lace applique embroidered in colors gives a touch of distinction to an otherwise plain and inexpensive blouse or house dress. The lace need not be at all expensive, but should have a pattern that will show up handsomely when overcast with colored embroidery cotton. The work is not difficult to do, a simple over and over stitch being used. Several colors can be introduced with the effect of a rich Oriental embroidery. The most effective result is obtained where all the lace ground is covered, but if there is not time to spare for so much work, a more straggling pattern can be chosen. Another way is to procure lace the color of the dress it is intended to adorn, and work the pattern in harmonizing colors. One girl who likes to do a little fancy work is turning her attention to embroidering rather heavy curv lace in dull blues, greens, and reds, to use on an ecru linen dress for next summer. It is best to embroider lace in strips that can be sewed lightly on to the dress or blouse, and removed when the garment is to be laundered.

THE 'WITNESS' DAILY PATTERN.

The home dressmaker should keep a little catalogue scrap book of the daily pattern cuts. These will be found very useful to refer to from time to time.

FOR THE THIN WOMAN.

Hard as it is to get rid of flesh, it is just as hard to put it on. The woman who is constitutionally thin, and who wants to have her bones nicely covered has a problem on her hands. She will take a long step toward solving it if she will learn never to worry and never to hurry. Sleep a great deal, and if one's duties and one's temperament permit one to spend a lazy hour in bed after waking, it is the best practice in the world for gaining weight. The thin woman should eat very slowly, savoring her food well, and her diet should include, along with meat, bread, and other staples, plenty of cream, cereals, well cooked vegetables, butter and olive oil, says one who has studied the subject. Massage is fattening, and nothing out the diet like a good rub every other night with a skin food. This should be followed in the morning by breathers before an open window and by a brisk dashing of cold water to the chest. A nightly massage of the face will do much to bring the complexion upward from the chin to the forehead, and then across the forehead and gently around the eyes—is good for taking out the wrinkles and the extra look so many thin women have.

WHAT IS SAID ABOUT IT.

I most earnestly believe that the moral forces of society would be strengthened if the privileges and duty of voting were shared by women. —The Rev. Philip S. Moxom, D.D.

I fully believe that the time has come when the ballot should be given to women. Both her intelligence and conscience would lead her to vote on the side of justice and pure morals. —Bishop Hurst.

We used to ask for suffrage because women needed it as a means to larger opportunities. But the aspect of the woman question has changed. Women are now saying, 'the country needs us.' —Mary A. Livermore.

To have a voice in choosing those by whom one is governed is a means of self-protection due to every one. Under whatever conditions, and within whatever limits, men are admitted to the suffrage, there is not a shadow of justification for not admitting women under the same. —John Stuart Mill.

MANNERS AND FOOD COLORS.

There is no position where innate refinement is more fully exhibited than at the table. The 'Gentler' and 'more kindly' of humanity are more keenly aware of their delicacy. Delicacy of manner at table is a distinction, to both man and woman, for at a change one can perceive when a person has been trained well. In this respect, among the education of children is to be appreciated the necessity of training them with the legit-

I believe the granting of the ballot to women is along the line of the higher development of our humanity.

I hope the time may never come when I can be so forgetful of the interests, rights, or liberties of any human being as to refuse such a simple act of justice, however few the number asking for it.—The Hon. Oliver W. Stewart, Illinois.

Women are more interested in public affairs than they used to be before they obtained the franchise, and politicians deal more earnestly with social and political questions, but no neglect of private duties on that account can be laid to the women's charge. —Lady Holder (wife of Sir Frederick W. Holder, G.C.M.G., Speaker of the House of Representatives of Federated Australia).

Politics is properly the friendly consideration of all the interests of common interests, in which the women are as much concerned as the men are. Why should the state then keep up the old-world barrier of political inferiority against such mothers, sisters and wives? No one can give any reason, except such arguments of conservatism and timidity as have generally stood every step in the advancement of mankind. —The Rev. Charles F. Dale.

I think that the women's franchise in New Zealand has, on the whole, resulted in good to the well-being and progress of the colony.

As regards the use made by women of the vote, the statistics of the last elections in New Zealand, and particularly the last federal election (Australia), in which it will be found women exercised their vote as freely as the men. I consider that the educational work done by the organized women of the world since 1850 has been a great factor in stimulating the manly interest.—The Hon. John

8868—FOR MISSES OR SMALL WOMEN.

This design is modish, becoming and graceful. It may be made with the regulation or raised waistline, and with or without the flounce, which, however, adds to the attraction of the design. The skirt is cut on slender lines, but is not too narrow to be comfortable. It is suitable for any of the season's popular dress materials. The pattern is cut in 3 sizes: 14, 16, 18 years. It requires 5 1/4 yards of 27-inch material for the 14-year size.

PATTERN COUPON.

Please send the above-mentioned pattern as per directions given below.

Name

Address in full:

N.B.—Be sure to cut out the illustration carefully filled out. The pattern cannot reach you in less than a week. Price 10 cent, each, in cash, postal note or a. r. Address, 'Witness' Pattern Department, 'Witness' Block, Montreal.

Fur Coats That Are Both Attractive and Practical Are Within the Range

:: :: of Very Moderate Prices :: ::

ON ALL THESE FUR COATS—AND MANY OTHERS—WE OFFER YOU

:: :: A DECIDED SAVING :: ::

Women who take advantage of this Sale will find very few of the most favored styles missing, because our stock is exceptionally complete, and though this is our first winter in Montreal, we believe our reputation is so well known that you will not hesitate to take advantage of this opportunity to save part of the cost of new furs.

QUEBEC MONTREAL TORONTO WINNIPEG

BLACK KNIGHT STOVE POLISH

is the best polish in the biggest box. It is a paste, and far less troublesome than any other preparation. A gentle rub brings out a brilliant, lasting shine. Is without a rival for polishing stoves, pipes, grates and ironwork.

If your dealer does not carry Black Knight Stove Polish in stock, send us his name and location, and we will send a full size tin free by mail.

THE F. V. DAILEY CO., LIMITED
HAMILTON, ONT.

A HINT FOR MONTREAL.

Westmount Does Not Give Discount For Early Payment of Taxes.

Last year the Westmount City Council decided not to offer any inducement to citizens to pay their taxes early. The bills were sent out payable by a certain date. After that date interest would be added. When Westmount was a growing town a discount of five percent was offered to coax the ratepayers to pay up a month or two before the limit fixed for compulsory shelling out. This amounted to practically sixty percent per annum in many instances—five percent per month. Later the rate was reduced to three percent, but last year it was about \$6,000, which will be quite a factor in keeping down the rates.

RESULTS OF EXAMINATIONS.

In the official report received some little time ago from Quebec, the Aberdeen Model School, Montreal West, received one hundred percent for proficiency and efficiency, and also gained the maximum bonus granted by the Department of Public Instruction. This season the school has been provided with another class-room and teacher, so that there is practically a teacher for each class. The regular curriculum is followed in all the classes, with special attention to French and drawing.

MONTREAL SOCIAL CLUB.

Lac Ouimet Rendezvous for Weekend.

The weekly tramp of the Montreal Social Club, heretofore known as the 'Bleu', took place last night, the occasion being president's night. The usual trail through the Gully and across the Catholic cemetery to Lumbkin's was taken, and ideal conditions were met with. The weather was all that could be desired, whilst the snow was in prime condition for snowshoeing.

SCHOOLS AND COLLEGES.

KING'S HALL

The School re-opens WEDNESDAY, Jan. 12th, 1911. Girls are requested to return by 6 P.M. 4.15 p.m. from Bonaventure Station, Montreal, on that date.

MISS JOLL,
Lady Principal.

The LADIES' COLLEGE

DUNHAM, P.Q.

Will Reopen after the VACATION, on Jan. 16, 1911, with a full staff of resident and visiting teachers, and under the principalship of Miss Winifred Wade, B.A.

Thorough instruction given in all ordinary branches, and in Piano, Violin, Singing, Elocution, Drawing, Painting, Calligraphy, etc.

A few vacancies. Application for entrance, and full particulars from the Lady Principal, or the Secretary, Dunham, P.Q.

Write for Calendar.

THE MONTHLY BULLETIN.

The 'Monthly Bulletin', the organ of the City Mission, published by the Rev. Dr. Tucker, is to hand again, and is full of interesting reading about city mission work. On account of the arrest and acquittal of Dr. Tucker for distributing tracts appears, and the diary describing the mission's visit to England in August and September is continued.

ST. GEORGE'S BIBLE CLASS.

The members of St. George's Church Bible class met, for the first time this year, in the church, on Sunday afternoon. General report was expressed at the conference, also.

TANK CARS FOR C. P. R.

The C. P. R. is having built in the United States sixty steel tank cars, specially designed for carrying pitch. They are of 26-ton capacity, with steel underframes and standard trucks.

NO DEFECT IN AEROPLANE

Moisant Had Shut Off Ignition Himself Prior to Reaching Earth.

MECHANIC EXONERATED.

That Nothing Went Wrong with Machine, Braces and Guys Being Absolutely Intact.

York, Jan. 9.—The theory has come to be accepted generally that John B. Moisant, the aviator and winner of the International Aviation Tour at Belmont Park, last October, died at New Orleans through a defect in his machine, which was the monoplane to become unmanageable and pitch to the ground, as reported by Roland Garros, Simon, Rene Barriere and Edouard Audemars, all of whom were members of the organization of aeroplanes which Moisant was the head of.

Moisant's close friends in the country as well as here after a statement signed by each of them, tell of having examined the machine within a few minutes after the crash, and of having discovered that the only defect was in the ignition, but that the ignition had not been shut off, showing that Moisant had his engine of his own volition, and that this piece of mechanism did not fail, as has been suggested.

OBITUARY.

LIEUT.-COL. DUCHESNAY.

Quebec, Jan. 10.—Lieut.-Col. T. J. Duchesnay, a well-known military man and for many years commanding officer of the Quebec district, died yesterday, after a long illness. Col. Duchesnay came from a distinguished military family. He had been president of the Garrison Club of Quebec and had held important offices in the military service.

MR. RICHARD A. WAITE.

Toronto, Jan. 10.—Richard A. Waite, the architect of the Ontario Legislative Buildings, the Grand Trunk building in Montreal, the Bank of Commerce in Toronto, and other important structures, died at his home in New York on Saturday, and was buried in Buffalo yesterday. He contracted a cold at Syracuse, which developed into pneumonia. He was born in London, England, in 1848, but spent most of his life in Buffalo.

LIEUT.-COL. HIGGINBOTHAM.

Guelph, Ont., Jan. 10.—Lieut.-Col. Nathaniel Higginbotham, registrar for Centre and South Wellington, died here yesterday morning. In his 80th year. Born in County Cavan, Ireland, he came to Guelph as a young man, and took a prominent part in the development of the city and the district. He served the city as reeve, mayor and county councillor, and was one of the promoters of the Wellington, Grey and Bruce Railway. He helped to raise the first military company in Wellington County, and served as its captain during the Fenian Raid. In 1873 he was elected as Liberal member of parliament for North Wellington, redeeming the riding, and he held the seat until 1878. In 1881 he was appointed registrar. He leaves a widow, five sons and three daughters.

MAJOR BITTINGER.

St. Joseph, Mo., Jan. 10.—Major John Lawrence Bittinger, prominent in Missouri public life for many years, for years editor of the St. Joseph "Herald," died last night, aged 77 years. He was consul-general to Montreal, Canada, from 1897 to 1903.

Moisant's wonderful and admired airship every one will talk about but nobody can know. But we are positive that nothing went wrong in the machine. The two men who were in charge of it are Rene Gerspach, who belonged to the works of Louis Bleriot, from the beginning until he was selected to be Emile Aubrun's pilot. It is interesting to note that one of the most remarkable features of Aubrun's brilliant career is that he never had any accident of any kind and never broke a piece of any aeroplane from the first day he used one. Auburn is the only known aviator in that case, and Gerspach was his mechanic nearly all the time he flew. When Auburn went home after Belmont Park, Gerspach asked permission to stay in America with Rene Barriere and Moisant. Jean Ferlet worked in aviation in the very beginning, with Guyot, who made a great name in Russia, flying the second machine ever built for sale by Bleriot. Guyot gave an aviation after a bad fall. J. Ferlet was engaged by Rene Simon then at his debut, and took care of him all through his recent campaign in Europe. Our mechanics are proving their professional ability and devotion to us every day, and we cannot allow Filieux or anyone else any disgraceful insinuation about them.

ROLAND GARROS
RENE SIMON
RENE BARRIER
EDOUARD AUDEMARS.

Moisant's former companions sent their statement from Dallas, Texas, where they now are, and where news of Filieux's interview has just reached them.

CANADIAN PICTORIAL

Canada's Popular National Illustrated Magazine.

Enamelled Paper, Finest Inks Best of Printing.

The 'Canadian Pictorial' is the best printed magazine in Canada. It is crowded with the most interesting pictures of recent happenings, pictures of beautiful or curious things, portraits of men and women in the limelight, pictures showing the kaleidoscopic development of our great Dominion—pictures that tell the facts as no type-printed pages ever could. It is the next best thing to travelling and seeing people, places, and events, with one's own eyes.

The more people are educated, the more they appreciate and value pictures of current events, for they convey so much information in so short a time. But the children also profit by and enjoy them. The 'Canadian Pictorial' contains between one and two thousand square inches of pictures in each issue, and costs to produce a thousand dollars each issue—sometimes considerably more.

WHAT ITS READERS SAY:

The 'Canadian Pictorial' is certainly worthy of all praise. I have particularly struck with the excellence of the portraits and illustrations.

(Signed) R. L. BORDEN, Ottawa.

The 'Canadian Pictorial' a publication which, if I may be permitted to say so, is a credit to Canada.

(Signed) LORD STRATHCONA.

I am greatly pleased with the 'Canadian Pictorial'. No true Canadian should be without it.—Geo. Martin, Penhold, Alta.

WHAT THE PRESS SAYS:

'Canadian Pictorial' is the most expensively produced illustrated publication in Canada.—'Mail and Empire', Toronto.

'Canadian Pictorial' is worth twice that amount.—'Reporter', Toronto, Ont.

The pictures in the 'Pictorial' are among the finest that have ever been produced.—'World', Vancouver, B.C.

'Canadian Pictorial' has been steadily improving with each issue.—'Justice and a Credit to Canadian Journalism', 'The Montreal Witness', Halifax, N.S.

IF IT DELIGHTS OTHERS SO MUCH IT WILL SURELY PLEASE YOU.

The regular price is ten cents a copy, one dollar (\$1.00) a year, but it will be sent on trial to NEW subscribers for only SIXTY-FIVE CENTS (65c) a year—AND FULL MONEY BACK if in a month the new subscriber writes that he does not like his bargain. Address The 'Pictorial' Publishing Co., 142 St. Peter Street, Montreal.

Subscribers in Montreal and Suburbs must add twenty-five cents to the subscription to satisfy the extra postage demanded by the post office.

"The Largest Exclusive Fur House in the British Empire."

A Greater Sale Than You Have Ever Known

Such values in Fur have never before been offered in Canada, nor is it likely they will ever be offered again. We know that our styles are appreciated and are admired by all careful dressers, and as we guarantee the quality of every fur bearing our label, there is no doubt that you are absolutely sure of your style and quality, and 20 per cent. to 50 per cent. reduction makes it unnecessary to dwell very long upon the price question. This is a genuine clearing sale, genuine in all that the word means, and we are quite sure that you will find in this store just what you want priced below the actual cost.

PROTECT WATER POWERS

Grain Growers' Association Urges Federal Control and Development.

Pipestone, Man., Jan. 10.—At a recent meeting of the Huston (Manitoba Grain Growers') Association, the following resolution was passed: "Whereas the future welfare of the country depends upon the conservation of its natural resources; and in view of the fact that the future source of all power for industrial and other purposes in Canada will be derived from the water powers of our rivers and lakes; and that the Federal Government retain control of all water powers within the public domain, and that the Federal Government develop these water powers for the public use; This resolution will be laid before the Manitoba Grain Growers' Association convention. We believe, as do all western grain growers, in the principle of government ownership of all public utilities.

BILLIARD CHAMPIONSHIP.

New York, Jan. 10.—Plans for the international amateur billiard championship and the national class A and B tournaments have been completed. It is expected that the principal foreign entries will be Jacques Dranartierro, the French champion, and Albert Poensgen, the German titleholder. The first time ever collected by the government since the prosecutions under the anti-rebate law were begun.

Hood's Sarsaparilla

Eradicates scrofula and all other humors, cures all their effects, makes the blood rich and abundant, strengthens all the vital organs. Take it. There is no "just-as-good" medicine. Insist on having Hood's. Get it today.

QUEBEC CITY LICENSES

W. C. T. U. Continues Active Campaign for Reduction in Number.

Quebec, Jan. 10.—The Quebec County W. C. T. U. is continuing its good work, in which connection several recent cases might be cited. Some months ago attention was directed to the 'Salaberry' hotel here, where it was found liquor was being sold to women and minors. With the aid of the clergy, Protestant and Catholic together, and Mr. E. Delage, an energetic volunteer, a largely signed petition was secured which resulted in the cancellation of the license.

Meanwhile the proprietor, having secured another license, is conducting a hotel in another part of the city. In St. Malo, a newly-annexed municipality, a license remains because a largely signed petition for its removal was rejected on a technicality.

Quebec City has the same number of licenses as last year—one hundred. The chief of police, it is stated, does not submit complaints, and the commissioners do not use their discretionary powers.

STORM IN SASKATCHEWAN.

Blizzard Accompanied by Cold Wave Delays Trains.

Saskatoon, Sask., Jan. 10.—The worst storm since the memorable winter of 1907, swept this district Sunday and yesterday, and has resulted in much delay in the train service. Many tales of hardship and innumerable cases of frostbite. Telephone and telegraph wires are also badly demoralized. More snow has fallen this year so far than on any previous winter for four years. All trains are delayed.

BLIZZARD STRIKES REGINA.

Regina, Sask., Jan. 10.—With a fierce, narrow-searching north wind whistling and snow falling heavily, Regina for the tenth time in as many days is in the grip of a real blizzard. The

GIVES HOSPITAL WING.

Brockville Citizen to Erect Memorial of His Wife.

Brockville, Ont., Jan. 10.—The board of governors of the Brockville General Hospital have accepted the offer of Charles W. Maclean, who recently inherited some of the millions of the late Senator Furdell, to bear the entire cost of raising and equipping the southern wing of the building, and converting it into a maternity ward as a memorial to his wife, who died just one year ago yesterday.

LABOR OPPOSES LABOR.

In Verville Pro-Old Eight-hour Day Bill.

Toronto, Jan. 10.—William Glocking, president of the Trades and Labor Congress of Canada, has gone to Ottawa on behalf of the labor unions to request the withdrawal of the bill introduced by Mr. Verville, the Labor member, designed to regulate the hours of labor on public works. The unions object to the bill because it provides only for building trades, and takes no account of tailors, printers, paper-makers, makers of arms, and other workmen employed by the Government.

CITIZENS FOR CANADA.

Winnipeg, Jan. 9.—The immigration season of 1911 was formally opened yesterday. A long train filled with immigrants pulled into the Canadian Pacific Railway depot at an early hour.

TRAINS STALLED.

Nelson, B.C., Jan. 10.—The worst storm of the year, if not for several years, set in Sunday night and continued yesterday. The eastbound flyer got into Elko, but had to wait there for help. At Fernie three engines were hitched on and the delayed train pulled out at 8 o'clock. She got as far as McGillivray, where she was held all day. The eastbound local got as far as Michel, when she had to lay up, pending the arrival of a snow plough from Crow's Nest. A freight train is stuck between the plough and the local.

NEAR NELSON.

Nelson, B.C., Jan. 10.—The worst storm of the year, if not for several years, set in Sunday night and continued yesterday. The eastbound flyer got into Elko, but had to wait there for help. At Fernie three engines were hitched on and the delayed train pulled out at 8 o'clock. She got as far as McGillivray, where she was held all day. The eastbound local got as far as Michel, when she had to lay up, pending the arrival of a snow plough from Crow's Nest. A freight train is stuck between the plough and the local.

LONG SAULT PROJECT

Local Board of Trade Assists in Opposing Power Scheme at Washington

Washington, D.C., Jan. 10.—The Montreal Board of Trade and a host of other Canadian business institutions were arrayed against the Long Sault Development Company, a New York corporation, subsidiary to the Aluminum Company of America, at a hearing yesterday before the House Committee on Rivers and Harbors, on the Baitby bill to authorize dams, locks, canals, etc., in the St. Lawrence River. The Canadian interests were represented by former Representative Littlefield, of Maine, and Representative Maltby, of New York, who spoke for the corporation, whose structures are intended to be built near Sault Island, N.Y.

Mr. Maltby contended that the Sault Company is already the absolute possessor of the water power... while Mr. Littlefield argued that the act of the New York Legislature was contingent upon the approval of Congress and of the Canadian Government. Mr. Maltby added that it was the first time in the history of New York that a manufacturing corporation had been compelled to pay the state a single penny for the development of water power, that there was not a single water power that has been developed in New York that has paid its promoters, and that in its unprecedented taxation of his company the state made a better bargain than any other state in the Union for similar purposes. Mr. Littlefield argued that the pro-

NEW LIGHTS INSTALLED

More Than 800 in the City Already—Work Being Rushed.

To date 800 new lamps have been strung in the city streets in accordance with the new contract recently made with the Montreal Light, Heat & Power Company. They are being installed at the rate of 250 to 300 a week, and the whole city will be benefited by being illuminated with these brighter lamps before the spring comes. To date circuits have been installed in the following wards: St. Henry, St. Cune-gonde, St. Joseph, for the greater part, and St. Andrew's. Last night the new lamps will be used for the first time in St. George's ward. In Notre Dame de Grace 119 lamps have been strung, there being still 25 to go up.

In Longue Pointe ward ordinary lamps are to be installed for the time being, as those of the new pattern cannot be secured in large enough numbers to enable the whole city being supplied at once, and it is felt Longue Pointe, which is quite largely farm land, can better get along with a poor illumination than can the districts in the heart of the city.

OBJECT TO LIQUOR LICENSE.
Ottawa, Jan. 10.—In the Superior Court at Hull, yesterday, an unusual case was dismissed by Judge Champagne. A number of ratepayers of Bouchette, Que., presented a petition asking for an injunction to restrain F. Neult, regularly licensed liquor-seller at his hotel, from selling liquor in his establishment, on the grounds that it was contrary to the general wishes of the majority of ratepayers. The license was granted by the Bouchette Council in the usual way, and approved by the authorities.

BILL FOR PUBLIC TRUSTEE.

New Office May be Created by Ontario Legislature.

Toronto, Jan. 10.—A bill will be introduced at the approaching session of the Ontario Legislature providing for the creation of the office of public trustee, on similar lines to the department and board in England in 1863. The public trustee would not only administer estates and trusts at actual cost, but would have power to step in where private executors or trust companies were suspected of mismanagement or maladministration of trusts. The bill will be introduced by a private member, but the government will be urged to accept it as a government measure.

UPSET PRESENT SYSTEM

Redivision of City Would Trouble for Assessors

The assessors state that the proposed redivision of the city would completely upset their system. Now valuations are made according to cadastral divisions. These would have to be changed if the wards were changed. It would mean an entire new set of books and a great amount of clerical work.

EPIDEMIC OF GRIPPE.

Deaths From This Cause Show Increase in New York.

New York, Jan. 10.—New York city is having an epidemic of the grippe second only to that of 1889, when it worked such ravages over the whole country. Figures of the Board of Health, made public yesterday, show the number of deaths from influenza, which is practically the grippe, has increased 400 percent over the number for the corresponding week of last year, and is due, it is stated, to the cold and moist weather. The Board of Health reports fifty deaths last week, as against ten of a year ago.

RAISING THE 'MAINE' EXPENSIVE.

Washington, D.C., Jan. 10.—The \$300,000 appropriated by Congress at the last session for removing the wreck of the battleship 'Maine' in Havana Harbor, will be insufficient for the purpose, and within a few days an estimate will be transmitted to Congress suggesting an additional appropriation. Dredging operations have brought up more or less loose wreckage and coal and other equipment of the ship that was scattered over the bottom, by the explosion which sunk the vessel, but engineer officers state that the wrecking operations have not progressed to a point where it is possible to afford any more light upon the cause of the sinking of the ship than was available when the Sampson Board made its report more than ten years ago.

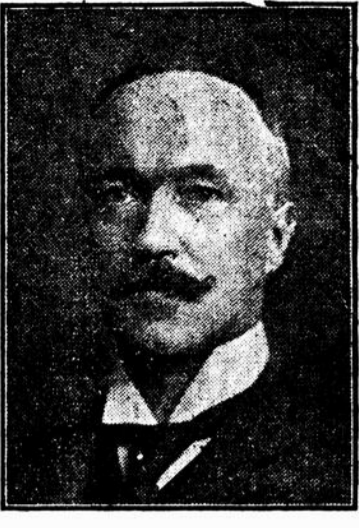

DEATH OF EX-MONTREALER.

One of Toronto's best known citizens, Mr. Montgomerie Lewis, died at his residence, 5 Crescent road, Toronto, on Jan. 4th. Although a resident of Toronto for not more than twelve years, Mr. Lewis in that time built up a large circle of friends, who mourn him deeply. Born in Montreal sixty-one years ago, he graduated from the Montreal High School and from McGill University, going from there into the wholesale dry goods business with his father, the late Mr. David Saer Lewis. In 1880 he moved to London, Ont., and in 1888 went to Toronto, where he was agent for a number of English and foreign companies. Mr. Lewis married the eldest daughter of the late Senator John Macdonald, and leaves a widow, a son and two daughters.

WESTMOUNT'S NEW COUNCIL.

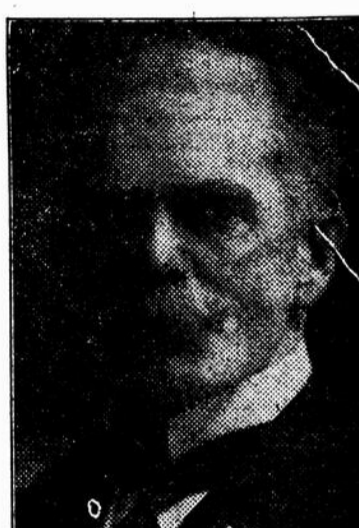

MAYOR WM. RUTHERFORD.

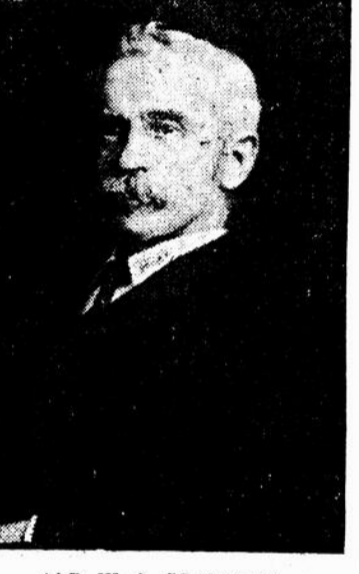

ALD. E. HERR BROWN, Elected for Third Ward.

ALD. J. H. SHERRARD, Elected for Third Ward.

ALD. J. T. MCBRIDE, Elected for First Ward.

ALD. W. A. GRAFFEY, Elected for Second Ward.

ALD. JOHN HYDE, Elected for First Ward.

ALD. ARTHUR JONES, Elected for Fourth Ward.

WESTERN MANUFACTURERS

Will Send Eight Tariff Delegates to Intervene with Government.

Winnipeg, Jan. 10.—To counteract the impression left at the Capital by the delegation of farmers who presented their views on free trade and protection to the Dominion Government recently, there will leave Winnipeg within two days eight representatives of Western industries, who will state the other side of the case. Included in the deputation will be Mayor Evans, who goes not as an advocate of any policy, but simply to state what Winnipeg is doing to encourage manufactures, letting the auditors determine what the effect of a change in the tariff will be. Within less than a week this motion has been decided on by Western manufacturers, and yesterday Mr. W. J. Bullman, secretary of the organization, stated that the eight representatives would go east to present the other side of the story. 'We think it only right,' said Mr. Bullman, 'that the government should hear both sides. Naturally our story will be slightly different from that of the farmers. We have an appointment with Sir Wilfrid Laurier at ten o'clock on Friday morning. We have held our numbers down, as it is believed that a few can present the case just as well as a great number.'

RAILWAY AS 'COMMON NUISANCE.'

Toronto Street Company Indicted by Jury.
Toronto, Jan. 10.—The grand jury in the jury assizes brought in a true bill yesterday afternoon against the Toronto Street Railway for maintaining a common nuisance. The nuisance consists in the overcrowding of cars and the inadequacy of fenders and other safeguards. The jury was out one hour and twelve minutes. Justice Riddell in his charge said that the accommodation provided for the public should 'such accommodation as a decent Canadian man would demand for his Canadian wife and children.' The case will be called on Wednesday.

WOMEN SMOKERS STOPPED.

New York, Jan. 10.—When the guests left the dining room at the Plaza last night to take their coffee in the Palm Garden and listen to the orchestra, a woman took out a 25-cent cigarette holder and began to puff at a cigarette at the table with her escort. Her example was quickly followed by three other women. They were well on in enjoying their cigarettes when the matter was reported to the manager. He quickly sent a request to the four kindly to discontinue smoking, as this could not be allowed in the public rooms of the hotel.

JAIL THREAT FOR GAMBLERS.

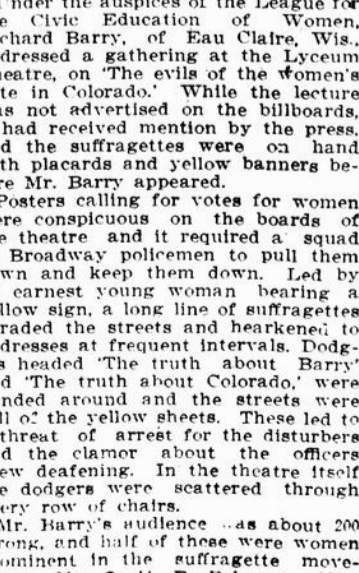

Winnipeg, Jan. 10.—In hiding fourteen gamblers yesterday. Magistrate Daly said that the next offenders would be given jail terms without the option of a fine.

ALD. JOHN JONES, Elected for Fourth Ward.

ALD. ARTHUR JONES, Elected for Fourth Ward.

ALD. ARTHUR JONES, Elected for Fourth Ward.

SUFFRAGETTE TUMULT

Noisy Demonstration Centred Around New York Theatre

New York, Jan. 10.—Broadway witnessed a suffragette demonstration yesterday that equalled in fervor if not in size the battles royal that have revolved about the House of Parliament in London. Under the auspices of the League for the Civic Education of Women, Richard Barry, of Eau Claire, Wis., addressed a gathering at the Lyceum Theatre, on 'The evils of the women's vote in Colorado.' While the lecture was not advertised on the billboards, it had received mention by the press, and the suffragettes were on hand with placards and yellow banners before Mr. Barry appeared. Posters calling for votes for women were conspicuous on the boards of the theatre and it required a squad of Broadway policemen to pull them down and keep them down. Led by an earnest young woman bearing a yellow sign, a long line of suffragettes paraded the streets and hearkened to addresses at frequent intervals. Dodge headed 'The truth about Barry' and 'The truth about Colorado,' were handed around and the streets were full of the yellow sheets. These led to a threat of arrest for the disturbers and the clamor about the officers grew deafening. In the theatre itself the dodgers were scattered through every row of chairs. Mr. Barry's audience was about 200 strong, and half of these were women prominent in the suffragette movement. Mr. O. H. P. Belmont, Miss Inez Milholland, the Rev. Anna Shaw and Mrs. Herbert Carpenter occupied conspicuous places. Mrs. Annie Nathan Meyer presided over the meeting and Mrs. Richard Watson Gilder and Mrs. Gilbert Jones aided her.

M.S.R. ADOPTS SUGGESTION

Improved Car Service on Beaver Hall Line.

The suggestion recently made by 'Witness' reporters that the Beaver Hall Hill line be utilized to greater extent for communication between down-town and up-town districts, has evidently impressed the management of the street railway for the service on this route has been much improved. The number of cars running up and down the line was augmented yesterday, especially between 12 and 1, when cars went up and down in quick succession. More than a minute seldom elapsed between cars during this hour, and sometimes three cars followed one another closely. All were well filled. The advantage of this direct communication between the heart of the business district and the centre of St. Catherine street is obvious; in fact, the work is being neglected so long, with the going up and down every ten to twelve minutes and sometimes longer intervals.

MORMONS ARE ACTIVE.

Churchmen in England Request Government to Check Their Practices.

Liverpool, Jan. 10.—The recent activity here of elders of the Mormon Church has led the Bishop of Liverpool and other prominent churchmen to inaugurate a campaign to guard the English home against the proselyting efforts of the church, which practices and teaches polygamy. The big meetings have already been held at which resolutions were adopted calling the attention of the British Government to the Mormon activity and requesting that the Government take steps to check it. It is pointed out that such steps have been taken in Germany. In a speech yesterday, Archbishop Madden said that if the police who kill the police are to be excluded from the count, the equally dangerous alien who are sowing the seeds of an extraordinary imposture ought to be barred from a moral, Christian country.

COMPANIES MUST PAY TAX.

Important Ruling in Municipal Case at Regina.

Regina, Jan. 10.—The decision of Justice Newlands on Saturday allowed the city to tax the floor space of the Dominion Express Company as the result of a test case. The company refused to pay the tax. The effect of the judgment is that all corporations doing business in Saskatchewan are subject to the provision, except the banks, life and fire insurance companies and loan companies, express companies and telegraph companies are liable to pay the municipal tax based on the floor space of the premises occupied.

BOUNDARY TREATY.

Liberia Prepared to Sign an Agreement With France.

London, Jan. 10.—The 'Times' announced that the Liberian minister authorized to sign the boundary treaty with France, the chief negotiator to the United States in the loan negotiations. A Paris despatch on October 27 said that it was understood that France had withdrawn its objection to the American plan for the re-establishment of the finances of Liberia provided the latter country signed an agreement approving the recent frontier delimitation with France. The United States had already urged Liberia to agree to this proviso.

FREEDOM IN RELIGION.

Restored in Nicaragua by Edict of President.

New Orleans, Jan. 10.—Religious freedom for ten years denied the people of Nicaragua, has been restored by an edict issued by President Juan Jose Estrada. A copy of the edict has just reached this city. The Moravian schools of German Protestant denominations along the east coast have been permitted to reopen. These schools were ordered closed by Gen. Jose Santos Zelaya a decade ago, on the charge that they were disseminating ideas contrary to those of the Government, and of a revolutionary character. Since that time there has been little or no religious freedom in the country.

'FIXING' STEERAGE RATES.

German Steamship Companies Form Agreement.

Berlin, Jan. 10.—It is announced from Hamburg and Bremen that the Atlantic steerage prices for 1911 have just been fixed in accordance with the pool agreement by which the average rate of 160 marks, or \$40, is arrived at. The rate is fixed for the various members of the pool, and according to their apportionment. The Hamburg-American Line advanced its rate \$7.00, the North German Lloyd raises its passage on the fastest steamers to \$45 for New York and \$37.50 for Baltimore. The Cunard Line is required by the readjustment to reduce its rate to \$7.50.

TOBOGGANING MISHAPS.

The joys of sports on the Mount were marred by two accidents last night.

Albert Prevost, aged 20, being kept, employed by Watrous & Todd, timber merchants, fractured his right leg. He lives at 44 Fourth Avenue. Marcel Lavarrie, aged 24, a student of 115 Stanley street, had his leg broken while tobogganing. Both were taken to the Royal Victoria Hospital.

BOARD OF TRADE ELECTIONS.

Although the nominations for the elections to office in the Board of Trade do not officially close until January 20th, they have already begun, and it would not seem that any further ones will be made.

The nomination board show Col. Jeffrey H. Burland is proposed as president, Mr. R. W. Reford as vice-president, Mr. Huntley as president for second vice-president, and Mr. Norman Wight for treasurer.

LIKE PRESS—LIKE PEOPLE AND LIKE PEOPLE—LIKE PRESS

A good sermon might be written on each of the above epigrams

Tell me what newspaper you read, and I will read your character
Tell me what your character is and I will tell you what newspaper you support

No newspaper is perfect, for no man is perfect, But the better the newspaper, the better its readers, And the more good subscribers, the more good newspapers. For if character and quality were profitable in a newspaper the standard of journalism would be very quickly raised.

Every earnest man or woman who considers these things carefully will do all they can for the best paper they know, not only for its own sake, but for the cause of better journalism everywhere.

SOME people and some papers are ahead of their times. They are in that measure the prophets of their generation, and prophets are not in business for profits, and are generally disliked by the wholly worldly-minded, both because of their attitude towards the worldliness of the times, and because of their views regarding the future. But the future will vindicate them, and for the present they rejoice in a consciousness of adherence to duty.

REMEMBER Those who do not support what is best are against it, and working to its hurt. There is the highest authority for that.

If you do not know a better newspaper than the Montreal 'Witness,' then take the 'Witness' and get your friends to take it. If you do know a better paper, then support it with your whole soul, for it is probably making sacrifices such as you do not dream of.
