

COMPANY ADVISED OPTION CLEAR.

Tender For Westbury Power Must Be Accepted.

"SELL IT, SELL IT QUICK," SAYS EX-ALDERMAN—HAS WESTBURY POWER SERVED ITS PURPOSE.

Will the Sherbrooke Railway and Power Company secure the Westbury power?

It is understood that the company's legal advice is that the option given by the city is absolutely clear and good and that there is no question but that the city must hand the power over at the price stipulated and that the company will be free to do with the power as it sees fit. The recent policy of the city has been to hold on to its water powers and acquire more where possible. The offer to sell the Westbury power was undoubtedly made with a view of helping the Street Railway Company for the purpose of the street railway extension, believing that the power would be transmitted to Sherbrooke and assist in the city development.

There is little doubt that should the company acquire the Westbury power now, in addition to the power which it has purchased in Sherbrooke, that the transmission lines would be extended towards the asbestos regions rather than towards the city of Sherbrooke.

On the whole it does not look, as though the City Council had manifested any remarkable cleverness in dealing with this problem. It inserted a clause in the franchise which gave the company to transport its Sherbrooke power out side of Sherbrooke for sale, that is all over 1000 h.p. Now the famous Westbury power which for half a dozen years has been mooted as the force which would one day turn the wheels of Sherbrooke industries is about to pass out of the city's hands with the probable result of more power for Black Lake and Theford, rather than for Sherbrooke.

An ex-alderman, speaking of the matter, yesterday said, "Sell the Westbury power, \$23,000 is a good price. Sell it quick." The motion granting the option was made by Alderman McManamy, who was instrumental in its purchase, and it may be that he considers that the power has already served the purpose for which it was purchased and that to hand the article over to the Sherbrooke Railway and Power Company for \$23,000 would not be doing too badly after all.

The Westbury power was purchased by the city for \$9,500. It was used in the municipal ownership campaign as the alternative to the purchase of the Sherbrooke plant.

Even if the company was disposed to come to Sherbrooke with their power the Council's policy of "No competition," if continued in, would force it to seek a market elsewhere.

TURNED DOWN ROAD BY-LAW.

Waterloo Ratepayers Thought Amount Too Large.

PROPOSAL WAS TO SPEND \$20,000 ON ROAD MACHINERY AND WORK.

Waterloo, July 7.—(Special)—The by-law which came before the ratepayers on Monday and Tuesday of this week for approval or disapproval, was defeated by a majority of 10 to 84 and valuation of \$95,000. This by-law was for the purpose of raising \$20,000 to be expended on road machinery and road work. The amount appears to be too large and met with the disapproval of the ratepayers.

EARL GREY IN CANADA.

GREATEST NATION THAT HAS EVER BEEN IS IN PROCESS OF MAKING.

London, July 7.—In this week's Standard of Empire, Earl Grey gives a statement of his hopes and convictions regarding Canada. He says Canadians are a sane, sober and earnest people, a patriotic and invincible industrial people, worshipping no false gods or following no will-o'-the-wisps, but steadily and surely, with their eyes wide open alike to the opportunities and dangers, building up between the Atlantic and the Pacific the greatest nation that has ever been. Canada, he says, is a wonderful inspiration to any right-thinking man and no better fate could befall any British girl or boy, man or woman, than to become a good Canadian and play a part in the Dominion's great forward march; a most wonderful process in this wonderful age. Earl Grey strongly favored the emigration of young children to Canada.

Mr. M. L. Jourdain had an operation on his eye performed this morning by Dr. Darche.

ARE OFF TO SEE THE OLD HOME.

700 Sail in Sons of England Excursion To-Day.

ALL HAVE RETURN TICKETS, AND EACH PROMISES TO INDUCE ONE PERSON TO COME TO CANADA WITH HIM.

Montreal, July 7.—(Special)—Early this morning there sailed for England by the Royal George over 700 men, women and children, under the auspices of the Sons of England. It is the largest excursion party ever organized in Toronto or the Dominion of Canada for a European trip. Five hundred of the party are from Toronto, and the remainder from outside points as Vancouver, Victoria, Detroit, Cleveland, Sherbrooke and the Maritime Provinces.

The party was given a send-off at Toronto yesterday morning by Mayor Leahy, several members of the City Council, and leading citizens. They arrived in Montreal last evening at 7.30, and were transferred to the Royal George. Members of the Montreal branch of the Sons of England assembled and an informal reception was tendered the travellers on board the Royal George.

On their arrival in England at Avonmouth docks, Bristol, a special train of the Great Western Railway will be in waiting to convey the party to Bristol City. On their arrival there the party will be given a civic welcome by the Lord Mayor and City Council. On the conclusion of a few days' stay there the bulk of the party will visit Cheddar, Wells, Bath, Oxford, Leamington, Stratford-on-Avon, Chester, Liverpool, Manchester, Glasgow and other cities. At most of these points a civic welcome will be extended.

The return journey will be made to suit the convenience of the party, but the majority will return early in August. Each person in the party has a return ticket, and all have pledged themselves to induce at least one person to make the return trip with them. Many of those going home on the journey have not seen the Old Land since they left for Canada. One man with his wife returns after nearly 40 years residence here, while many of the others have been here from ten to thirty years.

RUSSIA AND JAPAN MAKE TREATY.

To Facilitate Commerce and Communications Between the Two Countries.

HARMFUL COMPETITION TO BE ABSTAINED FROM.—STATUS QUO TO BE MAINTAINED IN MANCHURIA.

St. Petersburg, July 7.—The Russo-Japanese convention covering interests of the two nations in the Far East, which was signed on Monday by M. Izvolsky, minister of foreign affairs, and Ambassador Motono, for Japan, expresses the sincere attachment of the two Governments to the principles of the Russo-Japanese convention of July 30, 1907. It states that they desire by the present instrument to develop and perfect the arrangements of that treaty.

With the object of facilitating communications and commerce between the two nations, they pledge their friendly co-operation to the task of improving the railway lines and roads and agree to abstain from all harmful competition. They express the determination to observe the status quo in Manchuria, as defined by the treaties, conventions and other existing arrangements between Russia, Japan and China.

FIGHTING THE FIRE AT BURY.

INDIGNATION AT DELAY IN GETTING THE SHERBROOKE ENGINE TO WORK.

Bury, July 7.—(Special)—To the Bury bucket brigade and the Cookshire "pump" force is due the credit of whatever success was attained in fighting the fire on Tuesday. Citizens of every walk in life, including clergy and doctors, worked diligently. Several men covered with wet blankets fought till exhausted, when others took their places.

The men were refreshed at frequent intervals with hot tea, coffee, cake, sandwiches and other delicacies donated by neighboring houses and distributed by the ladies amongst the fatigued men. Several baskets were also sent down from the town hall by ladies of the Guild, where a S. S. convention was being held, and which came in very handy. The exact form was also ordered from the hotel sent down by Mrs. F. M. Pope, to refresh the men in their diligent work.

Mr. Pope and Mr. Martin in their cars, former's mill being totally destroyed a short time ago by fire. Mr. Martin only came to Bury a short time ago, and has erected a large mill, engine house, etc., installing all the latest and up-to-date machinery. He has also a new dwelling. Special mention should be made of Mr. Lloyd Planché and party, who came from Cookshire with "hand pump" in an auto. Thirteen minutes from the time they left Cookshire they had water playing on the fire. Had it not been for this, the fire would have certainly got beyond control, and the Cookshire contingent share with the Bury bucket brigade the full credit.

The fire engine from Sherbrooke was telegraphed for, and arrived in New York on Tuesday morning. It was fully two hours after arriving on the grounds before it could be got into working order. Much indignation was felt at this. This was owing to something going wrong with the engine, and no force could be obtained to throw the water. However, as soon as things were in working order they soon had a generous stream playing upon the flames, and the constant stream upon the burning embers soon put all signs of fire out.

Mr. F. Barter's house caught several times, but men were kept on the roof with water and wet blankets. Mr. George Russon's house almost a quarter mile away caught twice, on roof and interior, a cinder entering the open window and falling on the bed.

For a great distance around, fully half a mile, large cinders were carried and several fires were put out around the fields.

UNLOOKED FOR DISPLAY OF FIREWORKS

Supply in Store Window at Newport Exploded.

A LIVELY TIME WHILE IT LASTED—ROCKET SHOT STRAIGHT ACROSS STREET.

Newport, July 7.—(Special)—An unusual and for a time alarming display of fireworks took place without warning here on the afternoon of Independence Day. Davis & Livingstone, druggists, whose store is in the Newland block, had on display and for sale in their front window about \$100 worth of fireworks, sky rockets, toy pistols, pin wheels, etc. One of the proprietors, Mr. Livingston, was in the front part of the store alone when he noticed a slight hissing noise in the window, and on investigation found a pin wheel just going off. He immediately sought the chemical fire extinguisher, but before he could reach the window the whole array was in flames, everything going off. Assistance was sent for at once, but not before the rockets had broken on the large windows. Fortunately, the fireworks were pointed outwards, so that none entered the store. One rocket went across the street and struck a two-inch advertising sign. Five people on the street at the time, and those that were made a hasty departure, so that no one was injured, a fact which was most remarkable. The Fire Department was summoned, but the fire was gotten in hand without their assistance. Beside the damage to window and contents and some periodicals, the store, as well as the rooms overhead, were damaged by smoke and chemicals. Every part of the store, soda fountain, drug supplies and decorations, have to undergo a cleansing from the result of the coating of chemical from the fire extinguisher.

The results of the incident are considered small for the danger and loss entailed.

CENTURY OF PEACE.

THAT IS, WHEN YOU FORGET THE RAIDS MADE ON CANADA FROM THE UNITED STATES.

New York, July 7.—The movement for a worldwide celebration in 1914 for the one hundredth anniversary of peace among English speaking peoples took form here to-day with the announcement of a committee selected to organize the work of preparation. The committee is headed by Andrew Carnegie as chairman, and announced the present status of the movement was made to-day by Chairman John A. Stewart, and the executive committee of one hundred.

The treaty of 1814 was signed on December 24, 1814, and it is proposed to commemorate this event through an invitation issued jointly by the citizens of the United States and Great Britain to the world at large to take part during 1914 in a common celebration. The exact form which the celebration shall take has only been tentatively discussed. A suggestion that has received consideration contemplates a programme, including a day of ceremony in Ghent conferences and celebrations in London and Washington, and the possible erection in New York of a great memorial building, which shall be the place of the holding during 1914 of international conferences and congresses for consideration of important subjects relating to the world's peace, with suitable exhibits by the various nations. Nothing in the way of a world's fair is contemplated, however, the committee's representatives state.

It is stated that the movement has been discussed with President Taft, who has expressed a sympathetic interest in the committee's work. It has been suggested that a part of the celebration programme be the creation of a suitable monument such as the erection of a memorial bridge on the Niagara border.

NO HIT OFF WIGGS.

Rochester, N.Y., July 7.—Jim Wiggs carved a niche for himself in the Eastern League's temple of no-hit pitchers when he accomplished that brilliant feat against the Rochester Club yesterday afternoon at Baseball Park. The tall Montreal twirler's performance was phenomenal, and but for a base on balls it would have been perfect. The visitors won, 3 to 0.

FIRE ON A STEAMER.

New York, July 7.—The old wooden three-decker Grand Republic, a sister ship of the ill-fated excursion steamer General Slocum, caught fire yesterday while passing through the Narrows on her way to New York from Far Rockaway, and hurried full steam ahead, with her whistle blowing short, nervous blasts, and smoke trailing behind her, for the Crescent Athletic Club pier at Bay Ridge, on the Brooklyn shores.

Her 450 passengers were all landed safely, and the fire was extinguished, with \$2,500 damage, but there was great alarm in the city and on the harbor until the full details were known.

THE CONFERENCE AT KNOWLTON.

Missionary Section Will Open on July 12th.

AN INTERESTING PROGRAMME IS BEING ARRANGED.—SUCCESSFUL SERIES ANTICIPATED.

Knowlton, July 7.—(Special)—The period of the Knowlton Conference is approaching and will surely be the most successful yet held.

The Young People's Missionary Movement Conference will open July 12th and continue till July 19th.

This missionary movement has held conferences at Silver Bay, N.Y., for several years and for five years in Whitby, Ontario. This year for the first time they will hold a conference in Knowlton, for the Province of Quebec and Eastern Ontario. To this conference are invited all who desire inspiration and training to help them in promoting missionary educational work. It is the co-operative agency of the Home and Foreign Mission Boards and Societies of both United States and Canada, organized to assist them in their work of missionary education. The special field for this work is the nearly twenty million young people of the Sunday Schools and other organizations of the various denominations.

The movement took organized form at a conference of leaders held in July, 1902, at Silver Bay, on Lake George, New York. The board of managers of the movement is composed of thirty-three members, twenty-eight of whom are secretaries of mission boards, and fifteen are prominent business and professional men. According to its act of incorporation, there must always be a majority of mission board secretaries on the board of management of the movement.

The seven members of the board of managers who are resident in Canada constitute the Canadian council of this movement. These are five secretaries representing the mission boards of the leading Protestant denominations in Canada, together with two well-known business men. This conference is held under the immediate auspices of the Canadian council, which gives direction to all of the inter-denominational lines of the movement's work in Canada. The board of managers is elected and an advisory committee of representative leaders in the missionary enterprise, whose valuable assistance might be secured in helping to solve the problems of the work. Thirteen members of this committee are resident in Canada, and they serve as the advisory committee of the Canadian council. From the beginning of its history the Young People's Missionary Movement has been seeking to assist the boards in training and equipping leaders for study classes and other forms of missionary work in the world. For this purpose particularly a series of summer conferences is held each year.

THE 1910 SERIES.

The 1910 series is as follows:
Whitby, Ont., July 4-11.
Lake Geneva, Wisconsin, July 1-10.
Asheville, North Carolina, July 1-10.
Knowlton, P.Q., July 12-19.
Silver Bay, Lake George, N. Y., July 14-21 (for Sunday School workers).
Bay, Lake George, N. Y., July 22-31.
Cascade, Colorado, Aug. 3-12.

THE AIM OF THE CONFERENCES.
The aim of these conferences is:
1.—To train leaders of mission study classes.
2.—To discuss the best plans of the present work in Young People's Societies, Sunday School, and other church organizations.
3.—To lead young people to consider missions as a life-work.
4.—To inspire to missionary work by messages from missionaries and other workers.
5.—To deepen the prayer life of those who must lead in missionary work.

While the programmes for all these conferences are largely similar, the Knowlton programme is especially adapted to our Canadian situation. The opening session will be held on Tuesday morning, July 12th, and the conference will close with the evening session on Tuesday, July 19th.

The following are among those who are expected to be present and take a leading part in the work of the conference:
E. D. Soper, Harry Wade Hicks, secretary of Young People's Missionary Movement, New York; Rev. C. J. L. Bates, Japan; Rev. E. Mitchell, Montreal; Rev. Howard, Montreal; Dr. P. C. Leslie, China; Mrs. F. W. Read, late of Africa; Rev. F. J. Day, B.D., Montreal; Canon L. N. Tucker, Rev. J. G. Brown, D.D.; Rev. R. P. MacKay, D.D.; Rev. G. Osborne Troop, Rev. Prin. E. J. Telford, D.C.L., Montreal; Rev. R. A. J. Haslam, India; Rev. H. M. Clark, China, and others.

The accommodation provided by the authorities of the Knowlton Conference is offered to delegates at a very reasonable rate. In consideration of the prompt consideration of applications for accommodation at the conference, all correspondence should be sent to Young People's Missionary Movement Conference, 103 Hutchison street, Montreal. As the delegation will be limited, it is strongly urged that applications for room reservation be made early. Efforts are being made to secure special railroad rates, but at this date no definite information can be given.

TALKED TEMPERANCE AT COWANSVILLE.

Ald. Carter and Mr. Roberts the Orators.

INTENTION IS TO HOLD MEETINGS IN EVERY PART OF MISSISSQUOI COUNTY.

Cowansville, July 7.—(Special)—The visit of Alderman Carter and Mr. John H. Roberts, president and secretary respectively of the Dominion Alliance to this town Sunday, was quite an event in local history. Splendid audiences came to hear these speakers and deep interest was manifested in the work and aims of the great temperance organization they represented.

In the morning Alderman Carter preached in the Methodist Church, taking for his subject "The Wheat and the Tares." He dealt with the responsibility of Christian people and the churches in general for the solution of the temperance problem. He pointed out that the Dominion Alliance was really the church of God in action and that it voiced the sentiments of all the churches in attacking the drink evil. His remarks were listened to with great attention and the old residents present felt proud of the distinguished reformer of Montreal, whose early days had been spent in their midst.

At the same hour Mr. John H. Roberts preached in the Congregational Church and took for his subject, "The church that is to be." He argued that the gospel which is to be preached and applied by the church of to-day is the gospel of deliverance from the guilt and power of sin, and the destruction of all the known causes of evil. In this connection he declared that the liquor traffic would destroy the church if it could and the church would destroy the liquor traffic if it would. He then dealt with the marvellous awakening along temperance lines that has taken place among the French People of this province. He said that over one hundred thousand French Roman Catholics had taken the temperance pledge during the last three years, and that the French people, led by their bishops and priests, were now in the van of the temperance cause in Quebec province. The result of this was to be seen in the many victories for temperance that are being won throughout the province, such as at Megantic, Huntingdon, and other places which have recently voted.

In the afternoon Mr. Roberts preached at East Farnham, where a good congregation came out to hear him. He again dealt with the temperance situation and the outlook in this province.

THE MENACE OF LICENSE.

In the evening a large meeting was held in the Town Hall, Cowansville, when the Rev. W. E. Baker preached, being supported by the Rev. Alfred T. Jones, B.D., Alderman Carter was the first speaker and his subject was, "The Menace of License." The temperance problem, he said, was an old one. It dated back for many generations. Hundreds of years ago an

Emperor of China had dealt with the drink problem in that country, and declared that anybody who carried on the manufacture or the sale of drink would either be banished or beheaded. Less than one hundred years ago in England signs were exhibited outside the taverns stating that men could get drink for one penny and dead drink for two-pence. The modern license system dates back to Queen Elizabeth. A license really means a permission. In this case it is a permission to do wrong. The fact that governments have found it necessary to license the liquor traffic indicates that they have found it a dangerous trade. In Quebec the government has gone further than that and has said that no license shall be granted in any town or village where the majority of electors declares that one shall not be given. Thus the government has placed the responsibility upon the electors. The licensed barroom in Cowansville, or wherever it may be, declared Alderman Carter, exists by consent of the people, and this places an awful responsibility upon the best citizens. Within his recollection there had been eight licensed barrooms within a radius of six miles of Cowansville. To-day, he said, there are only three. This awakening of public sentiment is the result of the long years of educational work by such organizations as The Women's Christian Temperance Union and the Dominion Alliance. Mr. Carter then drew up on his experiences as a commercial traveller and a business man. He finished by declaring that so long as there are licensed barrooms boys will be tempted, and it will be the best boys always that succumb to the temptation of drink. He urged the citizens of Cowansville to get together for a great campaign for temperance and to leave no stone unturned until they had driven the liquor curse from their town and county.

THE DRIFT OF THE MARKET.

A number of Cobalt and other mining stocks are decreasing daily in value, principally due to the withdrawal of manipulative support by those who have been endeavoring to unload their holdings, and who realize that the chances in favor of improvement in physical conditions affecting these properties are extremely remote.

You may not be in possession of this information concerning your interests. You may be trading in mining issues upon a purely sentimental basis and not be aware that development work has been stopped on account of financial or other reasons.

We have prevailed upon a number of our clients to exchange apparently worthless stock for something of tangible value, and which offers speculative inducements as development progresses.

We are specializing in the established stocks and are prepared to give prompt execution to all orders we may be favored with.

Your enquiries will receive prompt and intelligent answers, and at the same time we may mention that our agents and correspondents throughout the various camps are in direct touch with CONDITIONS THAT WILL ULTIMATELY GOVERN STOCK VALUES.

license policy. First, for the sake of labor, the wages of which would be higher and therefore the general standard of prosperity greater; second, for the sake of the children whose heredity was affected by alcohol and whose education suffered by the drinking habits of parents; and third, for the sake of the community which was much injured by the presence of the barroom in its midst.

At the end of the meeting, Secretary Roberts expressed himself as being greatly delighted with the day's meetings. He said that 70 new members had joined the Dominion Alliance that day and a splendid financial contribution had been made to the funds of the organization. He said that it was the intention of the Dominion Alliance to hold meetings in every part of Missisquoi county and rouse the people to banish the bar.
