MERGER ERA UNDER KING REGIME CHARGED WITH CAUSING HARDSHIP

Hon. H. H. Stevens Announces Determination to Pursue Investigation into Price Spreads and Mass Buying—Holds Definite Hopes that Situation Can Be Remedied—Denies Liberal Leader's Charge of Split with Prime Minister—Only Four Mergers Carried Out Since Conservatives Took Power.

Toronto, Sept. 19.—"Whatever happens," Hon. H. H. Stevens, Minister of Trade and Commerce, is prepared to go on with the investigation he started into price spreads and mass buying in Canada. The situation, in his opinion, must be thoroughly analyzed before government action is taken.

"I am condemned," he told a mass meeting here last night in Massey Hall, "for seeking to know too much. I am considered to be a busy-body. Some of my friends of the so-called large interests will scarcely look at me. They hold up their hands in holy horror; I am an Ishmaelite.

"Well, it does not worry me very much. I have been criticized for talking too much to the public, as I have already intimated, for the simple reason that I found after talking to business organizations for two or three years there were no results."

An overflow audience greeted the veteran statesman from British Columbia, speaking on behalf of T. L. Church in the East Toronto bye-election campaign. It heard the Conservative Minister hold out definite hope of a remedy of a situation he said was caused by large-scale merging of business organizations in recent years.

"Most touching," Mr. Stevens

termed Liberal "solicitude for the imagined and concocted differences between the Prime Minister and myself." The answer to Rt. Hon. W. L. Mackenzie King's statement that there is a "choice between Bennett and Stevens" lay in Mr. Bennett's introduction and motion of the price spread and mass buying probe resolution, he said.

Mergers during the Liberal administration between 1922 and 1929, charged Mr. Stevens, caused sweatshop conditions in Canada. During those years, he said, one hundred and twenty mergers involved five hundred and fifty firms.

Since the Conservative Government came into power, only four mergers have taken place, Mr. Stevens said. "And yet the suggestion is made that sweatshops are caused by monopolies. There is Mr. King's statement."

Mr. Stevens charged "the head of the biggest packing concern in Canada" could get good and cheap beef steers on the Toronto market at seven and eight cents within two weeks—instead of at four and four and a half cents as at present. It would not do his business "an atom of injury," and farmer purchasing costs would be increased by \$30,000,000 or \$40,000,000.

He also charged certain chain stores with "flimflaming" the public by short weight scales.

"I cannot speak now for a definite action by any government or any parliament," he said, "but I think the heads refuse to recognize their duty and their opportunities and to do their part to set the economic structure of Canada right, then I say that public influence—whatever that may mean; I know what I mean—public influence will help."

Hon. J. C. Elliott, Minister of National Revenue in the former Liberal Government, questioned the leadership of the Conservative party when he addressed a meeting in Toronto East in behalf of Major H. S. Snowgrove, Liberal candidate in the bye-election. He said there seemed to be a difference of opinion regarding the leadership. He questioned whether Mr. Stevens or Mr. Bennett headed the party, and he criticized the Minister of Trade and Commerce for his statements regarding the conditions which, Mr. Elliott maintained, were caused by Conservative high tariffs.

LIBERAL CHIEF SEVERE IN CRITICISM OF GOVERNMENT

Markham, Ont., Sept. 19.—Moving west, Rt. Hon. W. L. Mackenzie King today carried his bye-election campaign into the constituency of West Elgin, which was represented in the Federal Parliament by the Conservative Ontario Premier.

Tonight the Dominion Liberal leader will join with Mitchell F. Hepburn in supporting the candidature of W. H. Mills, chosen by the Liberals to contest the West Elgin seat. The meeting will be held at St. Thomas, where Mr. Elgin's contest is a straight fight between Liberal and Conservative. The Conservative candidate is H. Borbridge.

In Markham last night Mr. King appealed to the electors of North York to support Col. W. P. Millock, who carries the banner in the riding which the Liberal leader represented in Parliament from 1921 to 1925. Mr. King charged the present administration at Ottawa with betrayal of the people, failure to implement promises made at the last general election and a determination to hand the reins of government to a dissatisfied electorate.

The danger of a dictatorship in Canada was also held up to his audience by the Liberal chieftain. Citing recent legislative enactments passed by the Bennett Government, he warned the electors that the powers of Parliament were gradually being vested in the government. Notably he criticized the new Central Bank legislation on the ground that it would vest in a private corporation the power to control the note circulation and create the right to issue currency which should belong to the representatives of the people who were going to be handed over to a private body.

A recent statement which he said had been made by Hon. R. J. Manion, Minister of Railways and Canals, to the effect that the results

SELF-STYLED KING PROTEM IS GIVEN A FULL SENTENCE

Madrid, Sept. 19.—The self-styled Boris I, King of Andorra, pro tem, was sentenced to a year in jail today as an undesirable alien who violated an expulsion order.

The decree of the Spanish court will calm for a year the fears of the Andorrans, who enjoyed undisturbed peace for a thousand years until Boris announced many new plans for the world's tiniest republic.

Boris' pipedream of a palace in the Andorran hills was taken as a joke until the Spanish government wearied of it. The expulsion order was issued last year.

The Republic, numbering 5,500 persons, is under the suzerainty of France and the Spanish Bishop of Urgell.

CANADIAN DOLLAR STRONGER

New York, Sept. 19.—Canadian dollars were narrowly higher on a dull foreign exchange market today but other leading currencies were off fractionally in terms of United States funds.

Canadian money improved 1.32 per cent, to 103 3/32 cents. Pounds Sterling declined 5/8 cent to \$5.01 1/2.

ARMAMENT CONCERN HEAD ADMITS PART IN FOMENTING REVOLUTION

President of Pittsburgh Firm Tells Senate Committee of Decision to Support Mendieta Revolutionary Group Against Grau San Martin Regime in Cuba—Declares Decision Made After Series of Conferences with United States State Department.

Washington, Sept. 19.—Munitions investigators of the U. S. Senate sought today to trace the activities of the Federal Laboratories at Pittsburgh in selling gases and machine guns to South America.

Testimony has already shown that this company decided last autumn to favor a revolutionary group in Cuba against the government in power. Examining Senators hinted that this decision had a considerable influence in the fall of the government and victory for the Mendieta revolutionary group.

Shooting questions at John W. Young, president of the concern, investigators brought the Logan Act into the picture after Young had acknowledged that he advised Cubans last year about how to overthrow the Cuban government.

"Are you familiar with the Logan Act?" Senator Arthur Vandenberg, Republican, Michigan, asked.

"Never heard of it," Young answered.

Young told the committee his decision to favor Mendieta over the existing Grau San Martin government came after conferences at the State Department and a personal visit to Havana. He said, however, that the State Department officials never advised him what he should do in his business negotiations.

The Federal Laboratories, which recently have supplied large amounts of tear-gas and gas for use in United States strike zones, also did a large business in South America.

It was their South American agent, F. S. Jonas, who once remarked in a letter to a friend that it was certainly a hell of a business where a person has to depend on trouble for a living.

Federal Laboratories sold to the Machado Government; negotiated with the Government which succeeded it; supplied arms to the San Martin regime and sold to the present Administration, which gave Young the task of organizing a police force for Cuba.

A newspaper article commenting on Young, said his remuneration for building up the police force was only a "meagre reward." Young was paid \$10,000 for this work.

Senator Vandenberg led Young through the story of his sales to the Machado Government, a narrative studded with references to "commissions," and then to his relations with his series of predecessors.

The situation was such in November, 1933, that Young was frankly puzzled. Through one Texidor, in Havana, he had virtually committed himself to sell to both the Grau Government and the Mendieta group, then out. He planned a trip to Havana to find out what to do.

The result of that trip, Young said, was to convince him that the Grau Government would not endure and he instructed Texidor that business was to be done with "the outs."

The committee, as it has in the past, sought to show instances of graft in connection with munitions "commissions" uncovered a report that Lt. Joaquin Demestre, one-time Cuban military attaché in Washington, had requested Federal Laboratories, Inc., to increase its bid on a Cuban order by twenty-five per cent, in order to "take care of him."

Further evidence was presented that an unidentified "colonel representing the Cuban Government" had shown to a representative of Federal Laboratories a United States Government price list on war materials

TWO CONDEMNED TO ASSIZES ON ARSON CHARGE

Wilfrid Lebeau and His Mother, Both of Farnham, Accused of Trying to Set Fire to Shed—Courtemanche and Russian Also Arraigned Before Magistrate.

Sweetsburg, Sept. 19.—A mother and her son, charged with attempted arson, were condemned to stand trial at the next session of the Court of King's Bench in this district following their preliminary hearing before Judge J. H. Lemay, of Sherbrooke, in the Magistrate's Court here yesterday.

The two accused are Wilfrid Lebeau and Mrs. Lebeau, both of Farnham, who it is alleged attempted to set their shed on fire.

Joseph Courtemanche, of Acton Vale, who has already been condemned to stand trial at the criminal assizes, was arraigned on the attempted robbery of the Canadian Bank of Commerce at Lennoxville, appeared before Judge Lemay charged with burglary of the Cowansville post office on August 22. Paul Prevost, K.C., district Crown prosecutor, stated that he had been authorized to proceed with the case against Courtemanche, and the prisoner was returned to Montreal jail.

Although an interpreter was present from Montreal yesterday to assist at the preliminary hearing of Francis Szwachuk, alias Sullivan, charged on a charge of attempted murder, Judge Lemay ruled against proceeding with the enquiry at present and ordered that the Russian be subjected to a medical examination to determine his mental condition.

Szwachuk is accused of striking his employer, Shadrach farmer near Oxford Mountain, with an axe.

The case of Lionel Roberge, of Farnham, charged with infraction of the liquor laws, was taken under advisement by Judge Lemay.

DENVER POLICE CHIEF DEFIANT OF GANGSTERS

Expresses Determination that Large Gold Shipment Will Be Conducted Safely to United States Mint.

Denver, Sept. 19.—Chief of Police Albert T. Clark today challenged anyone to "try and get" a \$200,000 shipment of gold due here tonight from San Francisco.

Although the Chief's challenge was meant to exclude no one, it was directed in particular at George "Baby Face" Nelson and John Hamilton, accomplices of the late John Dillinger, who were reported to have been seen here.

"We'll shoot it out with them anytime, any place," Clark said. Detectives armed with riot guns cruised through streets raiding from the United States mint on the edge of the downtown district after noon today.

Clark said the informant was positive in this identification of the gangsters.

The gold shipment, the fifth from the mint at San Francisco to the mint here, was slated to arrive tonight for \$31,000,000.

\$245,000,000, was estimated, has been transferred to the government's storehouse in Denver.

CHARGES UNDUPE PRESSURE USED AGAINST CREW

Marine Workers' Counsel Claims Sailors Threatened with Blacklisting if Truth Told About Morro Castle Disaster.

New York, Sept. 19.—Federal authorities investigated today a charge that members of the crew of the ill-fated Morro Castle had been threatened with the blacklist if they tell the truth about the disaster.

The charge was given to United States Attorney Martin Conboy by William L. Standard, counsel for the Marine Workers' International Union, who promised to produce sailors to testify to the threats.

Conboy, who has been conducting the grand jury investigation of the burning of the liner, said the charges would be given to his aids for investigation.

The Department of Commerce Board of inquiry was still in the dark today concerning the cause of the fire as it planned anew into the questioning of witnesses.

After a four-hour inspection of the ruined hulk on the beach at Asbury Park, Dickerson N. Hoover, chairman of the Commerce Department's investigating board, said yesterday the examination showed "no indication as to the cause of the fire."

OPPOSITIONS OF 'NEW DEAL' LED IN MISSISSIPPI

New Senator and Three New Congressmen Expected to Come from Gulf State as Result of Yesterday's Primary—'New Dealers' Favored in Wisconsin.

Jackson, Miss., Sept. 19.—Mississippi Democrats shuffled to new deal deck and dealt themselves a new United States Senator and three new Congressmen, it appeared today.

With nomination tantamount to election, former Governor Theodore Gilmore Bilbo had a lead of more than 4,000 votes over Senator Hubert D. Stephens in yesterday's primary. Stephens ran on a "stand by Roosevelt and the New Deal" platform.

The two incumbent Congressmen who apparently lost their seats were Jeff Busby and Russell Ellzey.

ROOSEVELT SUPPORTERS LEAD IN WISCONSIN

Milwaukee, Wis., Sept. 19.—The Democratic state ticket, strongly in support of President Roosevelt and the United States "New Deal," apparently polled the biggest vote in the Wisconsin primary election yesterday, leaving the new LaFollette Progressive party and the Republicans behind at the rate of about eighteen votes to a precinct.

This was indicated by returns from more than half of the state's 2916 precincts.

Governor Albert G. Schmedeman had a heavy majority over two opponents for the Democratic gubernatorial nomination with more than half the state reported.

On the other state tickets, Philip F. LaFollette, Progressive candidate for Governor and Howard T. Green, Republican candidate had substantial majorities over their opponents but fell short of meeting the democratic voting strength.

FOOD SHORTAGE BECOMES ACUTE IN NOME TODAY

Meager Supplies Being Doled Out as Fire-Swept City Seeks to Partially Repair Ravages of Flames—Relief on Way.

Nome, Alaska, Sept. 19.—Some doled out meager food supply today and labored to partially rebuild the fire-swept city before winter comes.

Damage from Monday's disastrous fire was placed at \$3,000,000 by the city council and business men.

In near freezing temperatures, amid scenes of blackened ruin, city and federal agencies tirelessly worked arranging more permanent places for the several hundreds of homeless to live. The food supply, which must be used sparingly until relief arrives, is in requisition from the United States, was being rapidly depleted.

Two restaurants, hurriedly set up in shacks, exhausted their supplies of ham and eggs yesterday, and people stood in line buying their remaining food. Grocers who had managed to save some supplies before their buildings were burned were besieged by buyers.

Pledges and moves to bring aid here from the "outside," by Federal, Red Cross, territorial and other groups, brought cheer to the stricken city.

Three coast guard cutters, carrying some food supplies from their bases, were reported nearing the city.

No building material is available here, but first steps to clean up the debris left by a conflagration which swept over more than twenty square blocks, leveling the entire business area and much of the residential district were under way. The deaths of two Eskimos, trapped by the flames, remained the only loss of life discovered.

MIRACLE PORTENDS BIRTH OF ROYAL HEIR

Naples, Sept. 19.—A nine-gun salute today proclaimed to the world a miracle whose authenticity is vouched for by thousands of witnesses.

It happened in the Church of San Genaro and was hailed as a divine portent for the birth of a child expected shortly by Princess Maria Jose, wife of Crown Prince Umberto of Italy.

The miracle was the liquefaction of the blood of San Genaro.

In the early morning vials of the dried fluid were set against lights in the church and prayers were offered up. After an hour the blood liquefied, worshippers observed. Immediately a great cry of acclamation burst from the crowd.

DOCTOR GAVE A VERY EFFECTIVE DEMONSTRATION

Spokane, Wash., Sept. 19.—T. M. Ahlquist was showing the Jurors how the back works.

Testifying in a damage suit involving injuries, he leaned back in the witness chair which collapsed and the doctor turned a somersault, landing on his head four feet below the stand.

"Anyway," said Dr. Ahlquist, "that's how the back works."

RUSSIA DENOUNCES GERMAN PLANS AS ENDANGERING EUROPEAN PEACE

Maxim Litvinoff, Soviet Foreign Commissar, in Assuming Seat in League Urges Amendments to Covenant which in Certain Instances Legalizes War—Charges Germany and Japan with Being Out to Re-fashion Europe and Asia by the Sword.

Geneva, Sept. 19.—Bright and early, Maxim Litvinoff, the Soviet Foreign Commissar, appeared this morning on the League scene. Smiling broadly, the delegate for the newest member took his seat on the League Council in private session.

Then at the open meeting he formally took his seat at the Council table. On his left sat Josef Beck, Polish Foreign Minister; to the right stood the empty chair of Japan.

Next to that was Captain Anthony Eden, British representative, who leaned across the vacant place to shake hands with the urbane Litvinoff.

The main question before the Council was the prohibition of arms shipments to Paraguay and Bolivia, warring in the Gran Chaco.

Louis Barthou, French Foreign Minister, bluntly pointed out the Gran Chaco war had gone on too long already and should be ended at the earliest possible moment. Further "adjournments" or "postponements" would not add to the League's prestige.

"We must take up a definite attitude," M. Barthou urged. "We must say what we think, and we must insist on the application of any decisions that are taken."

Eduard Benes, of Czechoslovakia, said that the League should be two or three states, said the Briton, now remained outside the agreement to prohibit the export of arms to the Chaco.

"The time has come for a decision," pressed Captain Eden. "The dispute is ready for a decision."

The Council then concurred in a resolution that as the prohibition of arms to Paraguay and Bolivia had been referred by the League Assembly to its political committee there would be no advantage in its further discussion at the same time by the Council.

A protest against the admission of Russia to the League of Nations—formally accomplished yesterday—was received by the Assembly from exiles claiming to represent a group of former independent republics now federated with the Soviet Union.

Azerbaijan, Northern Caucasus, Georgia, Turkistan and the Ukraine alleged Russia committed aggressions in their countries, occupied them by military force and now governs them by terror.

The protest announced a continued struggle at Geneva to secure independence for the sixty million people in these states.

Russia was taken into the League family yesterday and Maxim Litvinoff announced he would offer amendments to articles of the covenant which in certain instances, he said, legalize war.

An indirect denunciation of both Japan and Germany as being out to re-fashion Asia and Europe by the sword was read by many delegates into Litvinoff's opening speech. "War must appear to all as the threatening danger of tomorrow," said Litvinoff.

"Soviet Russia could not but observe," said Litvinoff, "increasing activity in the League of Nations of states interested in the preservation of peace and their struggle against aggressive militarist elements. More, it noted these aggressive elements themselves were finding the restrictions of the League embarrassing and were trying to shake them off."

Both Germany and Japan have withdrawn from the League. Encouraged by the addition of Russia to the family, leaders of the League were reported today to be mapping plans to induce Germany and Japan to return to the fold. An official allusion to this was made by Salvador De Madariaga of Spain in a report to the Assembly yesterday.

TROOPS SUMMONED TO QUELL WILD DISORDER SWEEPING MAINE TOWN

Local and Highway Police Forced to Fight Hand-to-Hand Battle with Pickets Who Were Attempting to Close Large Mill at Waterville, Me.—Wildest Rioting in Maine Textile Strike to Date—Lewiston Police Arrest Seven for Picketing Activities.

Waterville, Me., Sept. 19.—National Guardsmen were ordered to duty here today after the wildest riot in the textile strike in Maine to date occurred outside the Lockwood Manufacturing Company mill.

The National Guard was called out after local and state highway police fought a hand-to-hand battle with pickets at the mill gates. Four men were arrested and police sought others allegedly implicated in the rioting.

The Lockwood mill, a cotton manufacturing concern, employs six hundred operatives, nearly two hundred of whom have been on strike. The demonstration was staged in an endeavor to bring other workers into the strikers' ranks.

The mill operated on a greatly curtailed basis. At about the same time that the Waterville strikers were rioting, police in Lewiston, another Maine textile centre, took five men and two women pickets from Biddeford into custody as they and other pickets from that city tried to induce employees of the Lewiston Bleachery and Dye Works to join the strike.

Storming the mill fence, some pickets hurled stones at the cloth hall where women employees worked. Others, meanwhile, stoned the weave room, and on all sides disorder prevailed. Police fought the strikers with clubs and tear gas.

More than one hundred windows were shattered and two police cars were deluged by successive barrages of stones and other missiles. No one was known to have been seriously injured. The strikers attempted, without success, to wrench the arrested men from the clutches of the officers.

CONFLICTING CLAIMS MADE BY EMPLOYERS AND WORKERS

Washington, Sept. 19.—A report of a presidential Mediation Board was awaited today as an event of major importance in the United States textile strike.

The Board, headed by Governor Winant, of New Hampshire, has been unsuccessful in its attempt to obtain arbitration. It is expected to submit a report today or tomorrow to Secretary of Labor Francis Perkins to be turned over to President Roosevelt.

A call to 100,000 more workers to leave the mills appears certain on or before Monday unless a settlement is reached.

Empowered by union leaders to call out all allied groups at its discretion, the national strike committee said the deadline for the summons to the rayon, carpet, rug and dyeing workers would be Monday at the latest.

Henry I. Harriman, president of the United States Chamber of Commerce, denounced the strike in an address as "vicious and unwarranted."

In another speech, Frank Morrison, secretary of the American Federation of Labor, declared "Strike lines are holding despite tremendous pressure by employers and by state governments in many places." He criticized the use of the National Guard in "real areas of the strike was not the betterment of industrial conditions, but the furtherance of labor organization."

As more mills re-opened, conflicting claims came from employers and workers as to the number of operatives returning to work. Union leaders said the workers are holding their lines, with the number of those returning to work offset by new converts to the ranks of the strikers. Manufacturers asserted the number of strikers was diminishing.

Violence flared anew yesterday when two men were seriously wounded and several others picked up by Guardsmen's bayonets at Belmont, N.C., during a brush between strike sympathizers and troops.

Guardsmen were lined up at the plant of the Sayles Finishing Co. at Saylesville, R.I., as the mill planned to resume operations halted by a riot last week.

Norman Thomas, Socialist leader, invaded new textile centres in North Carolina in his campaign to rally workers to hold their ranks.

Paterson, N.J., silk strikers went to court today to seek an injunction to restrain Passaic police from interfering with Paterson pickets. The police prevented strikers from picketing a Passaic mill yesterday and arrested three of their leaders.

ATTENTION FOCUSED ON EFFORT TO REOPEN MILL

Boston, Sept. 19.—New England focused its attention today on the tiny town of Saylesville, R.I., where one person was killed and six wounded in strike rioting last week.

The Sayles Finishing Co. mill planned to resume operations with the day shifts, more than half of the plant's 1,200 workers.

National Guardsmen there gripped bayoneted rifles, awaiting the reaction of strike sympathizers.

Although Maine, last of the New England states to be affected seriously by the strike, reported more than 8,000 of its normally employed 22,000 out on the strike after the closing of the Pepperell Manufacturing Co., at Biddeford, reports from other states said workers were slowly trickling back to their spindles and looms.

NAMED TORONTO CHURCHMAN AS ANGLICAN HEAD

Rt. Rev. Derwyn Trevor Owen, Bishop of Toronto, Elected Primate of Canadian Church—Great Interdenominational Religious Drive Planned.

Montreal, Sept. 19.—A great inter-denominational religious drive to take place across the whole of Canada by Canadian ministers working as a team, supplementing each other's efforts, will be started next March. The programme for the drive was approved last night by the thirteenth General Synod of the Church of England in Canada.

Each denomination will choose its own leaders, who will address not only their own members but also the entire communities they visit. Next autumn four great leaders of British religious life will be brought over to Canada to deliver addresses. The programme is the upshot of work of the joint committee on the evangelization of Canadian life, of which Rev. Dr. G. C. Pidgeon, of Toronto, is chairman.

In secret voting yesterday, Rt. Rev. Derwyn Trevor Owen, Bishop of Toronto, was chosen primate of the Church to fill the position left vacant with the death of Most Rev. Clarendon L. Worrell, Archbishop of Halifax, a few weeks ago. Bishop Owen, who automatically becomes archbishop according to the canons of the Church, will be one of the youngest men ever to hold the primacy. He is just fifty-eight years of age.

The new primate has been a bishop for nine years. He was elected Bishop of Niagara in 1925 and transferred to the diocese of Toronto in 1932. Toronto will continue to be his See city.

The Synod approved a motion by Rev. J. F. Morris, Montreal, that a general secretary be appointed for the Social Service Council to take the place of Rev. Canon C. W. Vernon, of Halifax, who served as general secretary at Toronto for many years. Canon Vernon died early this year.

CONTRASTING VIEWS IN UNEMPLOYMENT CAMPS

Montreal, Sept. 19.—A special committee of the Synod of the Church of England in Canada will draft a recommendation on the subject of unemployment to be submitted to governmental authorities. This emerged last night from a general discussion by the Synod of social problems while the report of the council for social service was under discussion.

"The subject is one of the most important to deal with at this session," declared Rev. W. H. Vance, Vancouver, in moving for the special committee. No resolution should be issued by the Synod, he thought, until it has been given most mature consideration. Rt. Rev. W. Lyons, Bishop of Ontario, seconded his motion.

The discussion brought forth contrasting views as to the value of the unemployment camps operated by the Dominion Government.

Prof. P. G. C. Campbell, of Queen's University, Kingston, Ont., found the camps were of great value as they taught discipline, required men to work at useful tasks and equipped them with useful trades.

"The Government is doing splendid work with its construction camps and is entitled to praise," Rt. Rev. J. A. Richardson, Bishop of Fredericton, agreed.

From Rev. H. Solly, West Sumnerland, B.C., came the view, however, that the camps should be abolished. "The camps breed the idea among these men that the country must keep them," he declared. The real trouble with the country was that there was a disproportionately large portion of the population in the urban centres.

New Hampshire and Vermont remained quiet throughout yesterday after a peaceful week-end.

GRAVE DISORDERS CAUSE FOUR ARRESTS IN MAINE

Waterville, Me., Sept. 19.—Stones were hurled, tear gas barked and windows in the Lockwood Manufacturing Company textile plant were shattered today in the worst outbreak of the strike in Maine to date. Four men were arrested.

SOLDIERS' BAYONETS HELD BACK ADVANCING THROUGH

Charlotte, N.C., Sept. 19.—Gaston county had become today the scene of further textile violence with two men seriously wounded and several others pricked by Guardsmen's bayonets in an outbreak at Belmont.

The men were injured when a crowd of strikers and their sympathizers, estimated at between 3,000 and 4,000, was said by officers to have "rushed" troops guarding the Knit Products Corporation's plant at Belmont, which had reopened during the afternoon.

Ernest K. Riley, 40, and J. T. Brown, 34, were in serious condition in a Charlotte Hospital, where they were brought late last night.

It was estimated a dozen or more men were pricked by bayonets as the Guardsmen held back the advancing crowd.

London, Ont., City Council Demands Action Following Death of One of Its Citizens in Morro Castle Disaster.

London, Ont., Sept. 19.—London City Council last night decided to ask Premier R. B. Bennett to have Canada represented at the inquiry into the Morro Castle disaster now proceeding, in view of the fact that a London citizen was lost in the disaster. The following resolution was passed with only Alderman George Mitchell dissenting:

Bennett, be requested to have the Canadian minister at Washington have representation at the inquiry in respect to the burning of the Morro Castle to protect the interests of our citizens, the relatives of the late Miss Hoffman."

PUPILS JOIN SEARCH FOR SLAYERS OF HEADMASTER

Diver also Enters Scene in Effort to Find Shotgun which Brought Death to Rev. Elliott Spear, of Northfield, Mass.

Northfield, Mass., Sept. 19.—The students of Mount Hermon School enlisted in the investigation of the slaying of their headmaster today, volunteering a search for the shotgun that brought death last Friday to the Rev. Elliott Spear.

A diver, Fred Wallace, of Somerville, also entered the investigation, ready to descend into the Connecticut river to seek the weapon which the headmaster was slain with last Friday night as he stood in the study of his hill top home.

Authorities said they had found no motive for the slaying, but continued their questioning of the persons living at the preparatory school.

BRITAIN WILL ENTER OIL REFINING INDUSTRY

London, Sept. 19.—Early establishment of an oil refining industry in Great Britain was reported in the press today. A backer of the plan declared erection of a \$1,800,000 plant for converting crude oil would be started soon at East Hutton, on the Humber River, near Hull.

At present practically all the lubricating oil used in Britain is imported. The Air Ministry is said to depend on Soviet lubricating oil.

HOLLINGER LED MARKET TODAY AT MONTREAL

Noted Gold Issue Advanced Over Point and a Half in Heavy Trading—Other Issues Fractionally Stronger.

Montreal, Sept. 19.—Strength and activity of Hollinger featured trading on the Montreal stock exchange in the first two hours of the session today. The list, as a whole, was stronger although changes in most instances were small.

Opening unchanged at \$20.00, Hollinger soon began to climb and in less than twenty minutes after the resumption of trading had established a new high at \$20.75. In heavy turnover, it continued to rise, going as high as \$21.55 in the course of the morning. At noon, it was turned over at \$21.15, for a net gain of \$1.15 and at its highest level for more than five years.

International Nickel was also a firm and active feature, advancing 1-4 to 23 5-8 after opening at 23 1-2. Brazilian Traction was content to hold at the gain of yesterday's session at 10 3-4. Canada Cement preferred appeared at 39 7-8, 1-7-8 higher than its former board lot level.

General Steel Wares, Montreal Power, Lake of the Woods and Canadian Pacific were fractions higher. Canadian Industrial Alcohol "A" at 8 was unchanged as were Dominion Steel and Coal "B" and National Breweries. Canada Northern Power was off 7-8 at 18 1-8.

VETERAN PILOT LANDED DAMAGED PLANE SAFELY

Mal D. Freeburg, Decorated for Ability to Meet Emergencies in the Air, Added Another Brilliant Feat to His Record.

St. Paul, Minn., Sept. 19.—Mal D. Freeburg, veteran pilot who has been decorated by President Roosevelt for his ability to meet emergencies in the air, has added another brilliant feat to his record.

Trapped in the air when the landing gear of a Northwest Airlines plane bound for Chicago failed to function, three women and two men passengers rode over St. Paul for nearly two hours last night while Freeburg and his co-pilot, John Woodhead, made futile efforts to adjust the apparatus.

Freeburg then brought the big plane to earth with all passengers safe and slight damage to the ship, after emptying the tanks of gas to prevent an explosion while ambulances, fire department trucks and spectators lined the field.

A small amount of money in the clothing obviated a robbery motive. The victim apparently had been killed by a blow from a blunt instrument over the left eye. His left ear was lacerated and the skull was fractured.

The dead man was five feet five inches in height, weighed one hundred and forty pounds and had black hair and brown eyes.

Other occupants of the house denied ever having seen the victim before.

Three Rivers, Sept. 19.—A heart attack suffered while he was chatting with his physician caused the death here last evening of Mgr. Francois-Xavier Cloutier, eighty-six, third Bishop of the diocese of Three Rivers and the oldest bishop of the Roman Catholic Church in the province of Quebec.

Despite his advanced age Bishop Cloutier enjoyed good health until last Sunday, when an acute attack of indigestion forced him to take to his bed. His condition caused no concern and early yesterday he got up and attended to several matters. Before the arrival of Dr. C. N. de Bois, however, the prelate went back to bed to rest.

A report that Germany was subsidizing German aircraft manufacturers was read to the committee.

A letter written December 4th, 1933, by the International Engineering Company, Inc., to the United Aircraft Exports, Inc., was put into the record. It said the German Government was subsidizing German aircraft manufacturers to the extent of twenty per cent. against non-German competition in all lines.

"This fact should be known to American firms as we have recently noted that the foreign funds impounded in Germany are now used in financing such subsidies," it said.

"Did you know that foreign funds impounded in Germany were being used for the purchase of military equipment?" Chairman Gerald Nye asked C. W. Deeds, treasurer of United Aircraft.

TO OFFER U.S. GOVERNMENT A POWERFUL SLEEPING GAS

Monticello, N.Y., Sept. 19.—Philip del Fungo Giera, proprietor of a "mystery laboratory" in the Sullivan County hills, said he would offer the United States Government a powerful "sleeping gas" when he goes to Washington next week to testify before the Senate munitions committee.

Giera was described to the committee last Friday as an "international spy" hired by the du Pont Company in February, 1933, to sell powder in Germany and Holland.

In his remote laboratory here, he revealed, he has recently perfected a "sleeping gas" which he claimed was capable of putting an army to sleep within a minute. One man, carrying a small cylinder of gas in his pocket, can put anyone within 300 feet asleep with one discharge, Giera declared.

Victims, he said, remain asleep two hours and awake unharmed by the gas.

FURTHER RISE NOTED IN STEEL INGOT PRODUCTION

Survey Finds Evidence of Growth of Replacement Purchases Rather than Initiation of Broad Fall Upturn.

New York, Sept. 19.—Steel ingot production, said the weekly Iron Age review today, has had a further rise of one and a half points to twenty-one per cent. of capacity. The survey finds reports that the moderate increase in miscellaneous orders accountable for the upturn in operating schedules reflects a growth of replacement purchases rather than the initiation of a broad fall upturn.

"In at least two important market centres," asserted the review, "finished steel booking thus far this month remains smaller than for the corresponding period last month. In the absence of a seasonal upswing in buying, government-financed construction work, doubtless expedited because of the current business setback, looms larger as a sustaining force in the market."

MUTINY REPORTED ABOARD GREEK FREIGHTER ALIKI

Message from Ship's Master Sent Armed Marine Patrol Out to Sea Today in Search of Vessel.

Buenos Aires, Sept. 19.—The grim message "Mutiny" from a ship's master sent an armed marine patrol out to sea today to meet the Greek freighter Aliki.

A wireless message last night gave no details. The Aliki, of 3,199 tons, has a crew of twenty-seven. She is bound for Buenos Aires from Rosario, Argentina.

The Aliki's agent here said he expected the ship to arrive this morning, but he had no advices reported meeting. He said the Aliki ran aground recently on the Paraná River near Rosario and was refloated only after lengthy efforts.

Officers aboard the patrol boat reported after a five-hour search in the vicinity of Buenos Aires they had been unable to locate the freighter. Authorities ordered a tug made ready to attempt to find and tow the Aliki into port.

Vexed Question Referred Back After United Church Committee Refused to Entertain Legality of Female Ordination.

Kingston, Ont., Sept. 19.—Reports of sessional committees were taken up by the General Council of the United Church of Canada today. The business committee had decided on lengthy sessions in order to deal with the heavy volume of business that awaits the Council's consideration.

Of outstanding interest in yesterday's session was the discussion on the question of the ordination of women to the ministry of the Church. Following the refusal of the law and legislation committee to entertain the legality of the proposed ordination of Miss Lydia Gruchy, of Kelvington, Sask., by the Saskatchewan Conference, on the ground that the constitution recognized only a male ministry, Very Rev. E. H. Oliver, appealed for the recognition of women.

The Council finally adopted a resolution by the former moderator by which the question of the ordination of women will be referred to the various presbyteries for their consideration and judgment and report under the Barrier Act to the executive of the General Council which will require the answer "yes" or "no."

Some people are so small that they feel unfriendly towards everyone with whom they may disagree.

OUR NEIGHBOUR'S INVESTMENTS MUST NOT BE RESTRICTED.

Our neighbours, in order to overcome our protective tariff wherein we sought relief from the strangling methods which they themselves taught us, are presently exercised over the Imperial preference and the confidence which it has brought to the United Kingdom and to the British Commonwealth of Nations.

Look for a moment at what the United States has invested in Canada as branch industries:

In pulp, paper and lumber	\$ 489,307,172
Metal Industrial Corporations	489,945,000
Mining operations	376,397,000
Trading and merchandising	151,282,000
Miscellaneous industries	452,116,450

Making total Industrial investment \$1,982,017,622

Adding to these billions:	
Public Utility Investments	\$1,400,019,378
Total government bonds	\$29,354,000
Insurance and financial companies	197,809,000

Grand aggregate of United States investments in Canada \$4,369,000,000

We were glad of having attracted that capital to the speedier development of our vast natural resources, only a fraction of which have thus far been developed.

We know that they are altogether profitable investments, and that we are bound in honour not to be tinkering with our tariff so that there shall be unrest and distrust.

Any government which would so construe a Marketing Act, or adopt quotas or restrictions, regulations or licenses which would directly impair confidence in our business integrity, would soon lose the confidence of our people.

To our United States friends our protective measures have been taken "according to secret orders issued from England." If this were so there would be enough people of high honor to rebel against the very thought of chicanery of that sort.

It was Canada which urged and sought the Imperial trade preferences. It was Canadians who, forty years after, found in a speech by the late Hon. Joseph Chamberlain the theory which they turned into an actuality. Our neighbours have taught us to be smart, but they can never persuade us by example to be tricky.

CAN SOLVE YOUR PROBLEM.

Some are grateful and conceal their gratitude, which arouses a question. Others are grateful and give frank expression to their gratitude. The Record has received a very nice letter of thanks from the President of the Shefford County Fair, held at Waterloo, to which came three times as many visitors as were present the year before.

R. R. Bachand, M.P.P., secretary-treasurer of the County Agricultural Society, who prides himself on having this year an active board of directors, writes to-day to the Editor:

"I am requested by the directors of the Shefford County Agricultural Society to inform you that at its last meeting the Board passed a resolution by which the Directors offer you their very sincere thanks, and congratulate you for the courteous manner by which you have advertised the Waterloo Fair, which was held on August 13th, 14th and 15th last.

Yours very truly,
R. R. Bachand, Secretary-Treasurer.

The Waterloo Fair directors entered into a close alliance with the Record a month ahead, and enlisted the help of our Business Problem manager, under the direction of Walter H. Wood, who devoted a whole week to the solution of how the attendance could be trebled.

The same department helped to increase the paid admissions at the Sherbrooke Fair by ten thousand.

Publicity, when well directed by the business mind, can always be improved upon by the members of our Business Problem department, so that the increased cost shall be a mere fraction of the added profits. The Sherbrooke Record is a powerful instrument for good, and enjoys the regard and confidence of fifty thousand English-speaking people in the cities and counties.

WILL THEY EVER PLUCK UP COURAGE?

The overlordship of the Board of Railway Commissioners compels every railway to be treated as one as far as the public are concerned.

Ownership of railways in Canada lies between the Canadian National and the Canadian Pacific, though the latter has the more far-flung activities. If they are as one would there be any hardship

in making them financially and economically as one.

Would it make any difference if they were made one?

Not a whit, as far as the general public are concerned.

But certainly to the taxpayers who bear the burden of taxation which must always come to an enterprise which is everybody's business and nobody's responsibility.

Timidity and fear are alone the factors in that which keeps us from tackling a losing problem.

Hon. Mr. Roblin lays the blame for the loss of \$100,000,000 a year upon the King Government.

But what has Mr. Duranleau's government done to correct this loss? Not a single thing, except a reorganization which may prevent further waste and extravagance. Not a thing to rid us of the monster which gives us surcease from heard-hearted imposition of further taxes. We but pay part of our yearly losses and borrow more to shift the balance to future years.

Both parties are to blame. Neither party seems to have the courage to rid us of the strangling octopus and the colossal error.

Unification and unity alone will save us from further losses and open the road to Prosperity and Advancement.

Why waste the time of the people in scolding the other fellows? Do something.

Barking at the government in power because we have lost confidence in its constructive policies should not throw us into a disturbing general election whilst we are struggling in the slough, and not yet despondent.

EDITOR'S NOTE BOOK.

The Marketing Board makes a noise like earning their money about a cargo of Nova Scotia apples being shipped from Nova Scotia under their auspices. Evangeline apples have been going to England for ages, and this cargo would have gone anyway. The incident reminds one of the hearty cheers about a few steamships going to the Hudson Bay when that port opens for spring in September—fine old boats with whiskers on them, gleefully and heavily insured with grave hopes.

That the billions coined by the munition makers in the Great War should be devoted to a repetition of that world sacrifice, does seem a pity. Yet, the hands of these trouble-makers, backed by their ill-gotten gains, do show clearly in the recent investigations at Washington. Those who make war should be the first conscripted to go to the front ranks. That would stop them.

Born a year ago, cradled at last session of Parliament, the Central Bank is still in the incubator, the while Mr. Bennett visits England to get further instructions from those who first led him astray. He may bring home a young warship like Sir Wilfrid did. They are provocatively persuasive, those English politicians.

THREE LEADING RESIDENTS OF IRON HILL DIE

Death Claims Mr. E. S. Hastings, Mrs. Claud Derby and Mr. Eric Hastings within Period of a Few Days.

Iron Hill, Sept. 19.—It is seldom in a rural community that three deaths follow each other in such quick succession as has been the case here. First to be claimed by death was Mr. E. S. Hastings, a well-known and highly respected octogenarian, the late member of the family of the late Mr. and Mrs. Jonathan Hastings, lifelong residents of the Hastings neighborhood. The deceased had been in failing health for some time and was taken to Sweetsburg Hospital a few weeks ago and passed away on September 11th.

Then followed Mrs. Claud Derby, who has been a great sufferer for months from cancer, on Wednesday, September 12th. The funeral of Mr. Hastings and Mrs. Derby was held Friday afternoon. Mr. Hastings' from his late residence, and Mrs. Derby's from the United Church in Brome Centre.

Rev. Mr. Mitchell, of Knowlton, and Brome Centre United Church, officiating at both services. Mr. Hastings was interred in the private cemetery, where the Hastings family for three generations are resting, and Mrs. Derby in Brome Centre Cemetery.

Mr. Eric Hastings, youngest son of Mr. and Mrs. H. I. Hastings, of "Alamont, Ayrshire Stock Farm," was taken suddenly ill and was rushed to the Royal Victoria Hospital on Sunday, September 9th, and immediately operated on on his arrival. It was found that the appendix had been ruptured and from that time his condition was considered critical. On Friday a second operation was performed for paralysis of the stomach, but to no avail. His parents and his only sister, Edith, were hurriedly summoned and were with him until the end, which came Sunday morning. The remains were brought to his late home on Sunday afternoon. His own immediate family are plunged into the depth of sorrow, and the whole community mourn the loss of this promising young man, cut off in the flower of his youth at the early age of twenty-two years.

YOUR GROCER HAS THIS SUNNY WAY TO BETTER HEALTH

Check Common Constipation with a Delicious Cereal

Food has a lot to do with how you feel and how you look. For instance, you need plenty of "bulk" with your meals to avoid the risk of common constipation.

This ailment frequently causes headaches, loss of appetite and energy. Yet, in most cases, it can be overcome pleasantly and safely by eating a delicious cereal.

Kellogg's ALL-BRAN furnishes "bulk" in convenient and concentrated form. Laboratory tests show the "bulk" in ALL-BRAN is safe and effective. In fact, it is much like that found in leafy vegetables.

Within the body, the fiber of ALL-BRAN absorbs moisture, and forms a soft mass. Gently, this clears out the intestinal wastes.

In addition, ALL-BRAN provides vitamin B and iron.

Isn't this sunny way better than taking patent medicines—so often harmful? Two tablespoonfuls of ALL-BRAN daily are usually sufficient. Chronic cases, with each meal. If seriously ill, see your doctor. ALL-BRAN makes no claim to be a "cure-all."

Enjoy ALL-BRAN as a cereal, or cook into appetizing recipes. Be sure you get Kellogg's ALL-BRAN. It contains much more needed "bulk" than part-bran products. In the red and green package. Made by Kellogg in London, Ontario.

DOG DAYS! NOTHING TO GET MAD ABOUT IN THE ARCTIC

Dog days! In most places a torrid time for everyone to steer clear of mipping mongrels, for small boys to stay out of stagnant swimming holes, and for dogs to pant for their breath and nip at flies. But in the Arctic—when the midsummer sun soars to around zero—what a difference! Without even looking for shade, these huskies on the trail near Coronation Gulf, in northern Canada, took a cooling siesta when the sledging got tough the other day. Do dog days make them mad? Well, hardly.
