DETAILS OF THE WARSAW CONFLICT.

Over One Hundred Killed in May Day Conflict—Troops Fire on Crowd Without Cause.

Warsaw, May 2.—Nearly one hundred people were killed or injured in disturbances in various quarters of Warsaw yesterday. The troops apparently were uncontrollable, and violated all orders to act with moderation. They fired into crowds of demonstrators, and workmen, in retaliation, resorted to the use of the fire-arms and bombs. What approaches a state of terror exists; the city presents a most gloomy aspect, and the temper of the entire community augurs ill.

May Day opened with every prospect that the recent gloomy foreboding would find contradiction in a peaceful ending. The presence of numerous patrols of Cossack cavalry and infantry were the only reminder of lurking danger. The first disturbances occurred between 1 and 2 p.m., when a procession of several thousand workmen carrying red flags, marched along Zolozna street. Suddenly several squadrons of Uhlans appeared, but without interfering with the procession, and took up a position along the sidewalks while the work was passing through the lines. Then a company of infantry approached from the front and immediately the cavalry charged into the procession, driving it with the flats of their swords and a ghastly massacre. When the cavalry withdrew the infantry fired whereupon the demonstrators turned and fled. The infantry continued to discharge volleys into the retreating multitude. Thirty persons were killed and many wounded, and of the latter it is believed that fifteen will die.

The shooting is described as having been quite unprovoked. It has aroused the most intense indignation among all classes in Warsaw. Many of those who were killed or wounded were shot in the back, showing that they were running away when they were struck.

A terrible scene was enacted at 5 o'clock p.m., at the corner of Zeleta and Soanore streets, when workmen fired from behind a wall at a patrol, which immediately opened fire on the passing crowds, killing or wounding twenty persons.

BOMB WAS THROWN.

The first bomb-throwing occurred at 9:35 o'clock last night, when a bomb was thrown into a Cossack patrol near the Vienna station. Three Cossacks and one policeman were killed, and two ladies who were leaving the station at the time, were severely wounded by the explosion of the bomb. Cossacks and infantry fired a number of volleys, and it is reported that many persons were killed or wounded. Troops surrounded the whole area, and it has been impossible, up to the present time to secure accurate information as to the casualties in this affair.

At 10:45 p.m. disturbances broke out at the Zombokowska Gate of the Suburb of Prag, across the Vistula river. A great crowd had assembled there, threatening the troops, when hussars fired upon the crowd and killed four and wounded many others. In Jerolimni street a man fired into a patrol from the roof of a house, but without result.

Yesterday's bloodshed is likely to very seriously affect the situation and may cause a general strike. The temper of the people is at white heat, and there is much apprehension regarding the possible events of May 6.

"Sherbrooke, Its Ambitions, Its Possibilities And Its Progress."

Sunday evening, at Plymouth Church, Mr. Frank J. Day gave the first of his addresses on "Sherbrooke, its Ambitions, its Possibilities, and its Progress." According to announcement made at the time, "Some things Sherbrooke has reason to be proud of."

In his introductory remarks Mr. Day spoke of the beautiful situation of the city. Holding a place amid the unrivaled scenery of the Eastern Townships, nestled in the valley of the St. Francis just where the rushing Magog crosses its waters through its rocky, craggy gorge, the city itself clinging to its many hillsides with picturesque irregularity; and all around a glorious vista of hill and dale, forest and glen, rippling streams and distant mountains—the whole the gift of a kind Providence, glorious in its beauty and filled with fresh inspiration and vigor. Reference was made to the influence that such surroundings ought to have upon the character of the people. The ancient Greeks believed that people grew to be like that which they are accustomed to contemplate. If this be true there ought to be everything in the environment that nature has provided to develop beauty of character in the citizens of Sherbrooke.

From this was an easy transition to the part of the speaker to the influence of the organized and unorganized that make for good in the life of the community.

Arguing the former reference was made to the influence of individual character, the power of the homes, and the general spirit of the community. It was held to be deplorable that with the general growth of the community there had not been found a place for the influence of so elevating and helpful an influence as that of the Choral Society, and that the support given to the high class entertainments. To be more enthusiastic. In this connection it might be no worse than other places, but none the less was it to be regretted. Every well-organized and cleanly conducted athletic organization and social club must be classed as perhaps no less powerfully, tell for the good of the community.

Speaking of the organized influences, Mr. Day referred first to the Library Association. Its work was reviewed and most heartily commended. It served a splendid purpose in the community, aiming to provide a well equipped library, a thoroughly equipped reading room, a picture gallery, and a series of bi-class entertainments. They were very largely the fate of the citizens, and should be most carefully considered whether the community can afford to lose one thing that this organization represents. Whatever its form may be it is most earnestly to be hoped that everything that it can do will be conserved for the benefit of the city.

Reference was then made to the influence of organized associations—the Young Women's Association. This is a work of women for women, and

\$233 000 OFFER IS REFUSED.

Only Two Councillors Favored Its Acceptance.

ALSO AGAINST MAKING NEW CONTRACT—STANDS BY ARBITRATION DEMAND.

The City Council, last night, turned down the \$233,000 offer of the light company.

Councillors McManamy and Thompson voted in favor of accepting the offer. All the others were against.

A motion to open negotiations for new contract with the company was also defeated.

The Council, therefore, stands by its demand that the company dispose of its assets to the city at a price to be fixed by arbitration, under a clause of an old contract.

SPECIAL COMMITTEE'S REPORT.

Councillor McManamy, chairman of the Special Light Committee, presented the following report: "At a meeting of the Special Light Committee there were present Councillors Lanctot, McCrea, Denault, Thompson and McManamy. The proposal of the Sherbrooke Power, Light and Heat Co. was discussed and voted upon as follows: In favor of accepting the offer: Councillors Thompson and McManamy; against—Councillors Lanctot, Denault and McCrea."

A MOTION TO ACCEPT.

Continuing, Councillor McManamy submitted a resolution bearing on the offer of the company and moved that the city accept the offer of the company of \$233,000, subject to the ratification of the ratepayers, and in no way to prejudice the city's position in regard to arbitration.

Councillor Farwell went over the usual objections to municipal ownership, claiming that the business was too risky. The citizens had voted this measure down before and he believed they would do so again.

Councillor Brault and Councillor Lanctot opposed the acceptance of the offer on the ground that the amount was more than the plant was worth.

Councillor McManamy said he would (Continued on page two.)

TRANSCONTINENTAL TRAIN WRECKED.

Collided With Freight in British Columbia.

TWO FIREMEN KILLED AND A NUMBER OF PASSENGERS INJURED.

Winnipeg, May 2.—The westbound transcontinental train, which left Winnipeg Thursday, collided, head-on, with a freight which was standing on the main line at Downie, a siding twenty miles west of Revelstoke. Engineers on both trains jumped, but N. Scott and J. Eastwood, firemen on the two engines were caught in the crash of the monsters, and were so injured that they died shortly afterward. Five passengers on the express were injured, and a tramp who had been stealing a ride on the freight was horribly mutilated and will likely die.

The place where the accident occurred is a siding without a depot. The freight was coming west, and it is said, had orders to cross the transcontinental at Downie. The engineer of the passenger, ignorant of the blockade of the line by the failure of the freight to make the siding, rounded the curve at a fair rate of speed, and only saw the front of the freight when it was a few yards from his engine. He applied the brakes, but the impetus already gained carried his train into the locomotive of the freight and the two giant machines crashed together, ploughing into each other. Both engines kept the rails, but that of the passenger train mounted on the other and the two firemen were pinned in the cab. The tramp was caught between the freight cars, which closed with the shock of a collision, and was crushed.

A CASE OF SMALLPOX.

Disease Breaks Out In Alexander Street Tenement.

VICTIMS ARE REMOVED TO THE CIVIC HOSPITAL.

Smallpox has again broken out in the city, this time in a tenement house on Alexander street.

Three families live in the house, but the disease is only in the family of Lapointe. The mother and three young children were removed to the Civic Hospital yesterday. The house was thoroughly fumigated and a strict quarantine placed on the premises.

THE COWANSVILLE DAIRY BOARD.

Opening Meeting and Sale is Held.

REMARKS BY THE PRESIDENT—DECLINE IN PRICE OF BUTTER—THE CAUSE.

Cowansville, May 2 (Special).—The season of 1905 opened auspiciously with the following Montreal exporters present or represented: Messrs. A. A. Ayer and H. H. Hibbard, his representative; Lovell & Christmas, represented by R. Scott; Hodgson Bros., by P. F. Ferguson; A. W. Grant, by Thos. Wilkinson; Fred Fowler, by John A. O'Dell; the D. A. Macpherson Co., by W. P. Hibbard; the Jones, Marshal, Rutherford Co., by A. L. Hibbard; Hugh Allen, by T. D. Buzzell and by Enoch Buzzell; the Gunn, Langlois Co. by Mr. Langlois himself and by Arthur Jones and the John Orpe Co.

THE PRESIDENT'S REMARKS.

President H. S. Foster opened the proceedings by referring to the unfortunate drop in prices of butter just before opening of this season, and thanked those present for the large attendance; however, there yet remained a regrettable apathy on the part of the farmers of these Eastern Townships, and there was also evident a great deal of jealousy on the part of neighboring towns because Cowansville had the Board. The president went on to discuss with regret the formation of a rival board at Farnham, which could not accomplish any good and would only tend to reduce the prestige of this board. A large element of our population needed continual encouragement and spurring on to keep it in line with any progressive measures whatever.

Mr. Foster discussed his recent trip to Montreal to discuss with the Board of Trade and with the Hon. S. A. Fisher, Dominion Minister of Agriculture, the vexed question of cheese-weighting. He had been amused to hear Montreal exporters at that meeting tell how they had been robbed by the farmers, and thought the statement was ludicrous enough to call for no comment. He had been assured by Mr. Fisher that disputes such as had caused trouble in the past would in future be satisfactorily adjusted.

Mr. Foster has for the past year put forth great efforts to have a suitable monument placed over the grave of the late Hon. John McIntosh, the great benefactor of the farmer of these Townships. He has pledged himself to pay \$1,000 towards the erection of such a testimonial to represent to future generations the respect in which deceased was and is held. This district, so Mr. Foster is determined, shall have a leading interest in such an undertaking and was gratified to have received on account of it several subscription-lists well filled up.

DECLINE IN BUTTER PRICES.

Mr. A. A. Ayer was then called upon and said he could account for the low prices on the score of it being unavoidable just before grass-butler. He maintained the old theory on which he always preached that the Eastern Townships should make nothing but butter. He wished there was not a cheese factory south of the G. T. R. He was afraid the E. T. farmers would be misled by newspaper talk about cheese and would continue to desire what they had not got rather than what they had tried and found good. Distant pastures looked green. Mr. Ayer favored concentration, amalgamation and centralisation of the business in larger factories and better buildings for such factories. The use of the present style of barn or shed-like buildings as creameries was ridiculed. Good goods could not issue therefrom. Many countries used a vast system of skimming-stations to supply one enormous factory such as those of Australia, turning out 1000 packages of butter per week, and those of the Argentine with 5,000 per week, and found them very satisfactory. True, they were not fitted up as poorly as ours are at present, and the cream procured at them was not drawn to the central creamery on a springless wagon and half churned on the way, but there was no reason why we could not adopt their more advanced methods and not only secure as high prices as do these other countries as well as advertise Canadian butter. "Why," said Mr. Ayer, "the average English merchant does not yet know that Canada makes butter." The speaker was much opposed to each farmer doing his own cream-separating as it tended to place the churning-crowd under the necessity of watching hundreds of lots of cream and guard against bad flavors, when, with fairly large skimming-stations only a very few would have to be watched. The centralization of labor.

COATCOOK ODDFELLOWS.

Coaticook, May 2.—(Special).—The I. O. O. F. attended divine service in St. Stephen's church Sunday. The Easter festival music was repeated. The furniture that Mr. J. N. White, Financial Secretary, I. O. O. F., bought in Montreal, on behalf of Victoria Lodge, Coaticook, has arrived. This will be stored until their new lodge rooms are completed.

MOVING HOTEL.

Richmond, May 2.—(Special).—Mr. J. H. Lane has let the contract to move the Phoenix Hotel from its present site to his lot opposite the G. T. R. station, to Messrs. Simoneau & Dion, of Sherbrooke. The barn now standing on the lot will be demolished, and the hotel put in its place.

COATCOOK NEW HALL QUESTION.

Coaticook, May 2.—(Special).—The Council meeting was held at 8 p.m. last night (the Mayor in the chair). Mr. Moulton asked the opinion regarding the new hall question. There was urgent demand for a good hall in Coaticook. Councillor Shurtliff said that if a hall could be built with two stores underneath to let, it would pay, otherwise it would not. Mr. Shurtliff pointed out the public interest, inasmuch as there was to be a series of agricultural lectures held in Stanstead county, and the one for Coaticook was to be held in Barford Town Hall. However, the Council adjourned till Monday next, when they will express their views as to what they will do.

BOURNE—HORSEY.

Abbotsford, May 2.—(Special).—A very quiet wedding took place in St. Paul's church Wednesday at 7:30 o'clock, when Nicholas Alleyne Fitzroy Bourne and Florence May Horsey were united in marriage.

The bride's brother officiated. The bride looked very pretty in a brown travelling suit. After a short trip to Ottawa, Mr. and Mrs. Bourne will reside at Longueuil.

GRANBY SCHOOL COMMISSIONERS.

Granby, May 2.—(Special).—The School Commissioners of the village of Granby met on Saturday afternoon, when the resignation of Miss Janet Wallace as teacher of the High School Department of the High School

Bar Elections Held At Sweetsburg.

MR. S. CONSTANTINEAU IS ELECTED BATONNIER, AND MR. POULIN, SYNDIC.

Sweetsburg, May 2 (Special).—The annual meeting of the members of the Bar for the district of Bedford, took place at Sweetsburg, Monday afternoon, the 1st instant, at which the annual election of officers gave the following result:

Batonnier—S. Constantineau.
Syndic—J. S. Poulin.
Treasurer—F. X. A. Giroux.
Secretary—G. H. Baker.
Members of the Council—Geo. Capsoy, J. A. Jacques, W. H. Lynch.
Auditor—W. S. Ball.
Examiner—A. J. E. Leonard.
Library Committee—F. X. A. Giroux, W. H. Lynch, E. M. J. Lamoureux.

A strong resolution was passed to the effect of getting the support of the Government in support of the keeping of an official stenographer residing in the district, and Messrs. Nutting and the batonnier were appointed a committee to present those views to the ministers at Quebec.

WINDSOR HOTELS ARE STILL CLOSED.

Travellers Demanded Dinner of the Mayor.

HIS WORSHIP AUTHORIZED RIVERVIEW TO FEED THEM—COUNCIL TAKES NO ACTION.

Windsor Mills, May 2.—(Special).—The hotel situation here to-day is unchanged. The hotels are still boarded up.

Yesterday a number of travellers who were in town went to Mayor Marcotte and asked for dinner, as they had been refused admission to the hotels.

His Worship gave them an order on the Mayor's sanction they secured their dinner there.

It is understood, however, that the Inland Revenue authorities have notified this hotel that it cannot open under any conditions until it secures a license for temperance hotel or otherwise.

The Council met last night, and there was a large crowd in attendance. The license question, however, did not come up at all; the Council adjourning after routine work had been disposed of.

BARN AND STOCK BURNED.

Kingsley, May 2.—(Special).—A barn belonging to Mr. Martin was destroyed by fire on Thursday night.

Three head of cattle and some sheep perished in the flames.

The cause of the fire is unknown.

THE LATE GEO. GIBSON.

Danville, May 2.—(Special).—The late George Gibson, who died Saturday after about 24 hours illness, at the home of Mr. Austin Haddock, Kingsley Falls, was about 52 years of age. Drs. Darche, McKee and Stevenson held a post mortem examination and found that death resulted from rupture of the stomach. Seven brothers and one sister survives him, Messrs. Thomas, Joseph, E. W. S. and F. W. Gibson; Danville; Montgomery Gibson, who resides in Tennessee; Benj. Gibson, Portland, Me.; M. Gibson, Montreal; and Miss Gibson, Danville. The funeral was one of the largest ever seen here, deceased being a general favorite with young and old. The service, which was a most impressive one, was conducted in the Methodist church by Rev. W. T. Smith, and interment took place in the Cassidy burying ground, Kingsley Falls. The pall-bearers were Messrs. Austin Haddock, Omar Shaw, Frank Brown and Bertram Olney, all of Kingsley Falls.

RUNAWAY NO. 4.

Cowansville, Que., May 2.—(Special).—The fourth runaway within a week occurred in our streets on Saturday morning while people were assembling for the Dairy Board. Mr. Baker, of Dunham, was the latest unfortunate, the horse running from the hotel to Mr. James McClatchie's residence, where it collided with a tree, stopped himself, but smashed up shafts, and cross-bar somewhat, luckily injuring no one.

THE ANGUS LAWN TENNIS CLUB.

East Angus, May 2.—(Special).—The annual meeting of the Angus Lawn Tennis Club was held on Friday evening.

LOCATION OF RUSSIAN FLEET.

Now Off Dayet, 40 Miles From Kamranh Bay.

A CORRESPONDENT MAKES CHARGES AGAINST FRENCH AUTHORITIES.

Hong Kong, May 2.—A correspondent who went to Kamranh Bay and located the Baltic fleet there while the French and other newspapers were declaring they had left that port, and who then returned to Saigon, now telegraphs that the French authorities are deleting his despatches, which they allow to be transmitted, and are refusing others dealing with the Russian fleet. A correspondent here has wired a protest against this action to M. Beau, the governor-general of Indo-China.

Saigon, May 2.—The Russian squadron is lying off Port Dayet (40 miles north of Kamranh Bay), and in Bih-kang Bay (near Kamranh Bay), outside of territorial waters.

Russian, German and British transports are off Cape St. James (near Saigon), and in the Saigon river.

The French naval division has been mobilized to preserve neutrality in French waters.

Tokio, May 2.—It is believed that Admiral Rojostevsky continues to use the ports of Indo-China for the purpose of obtaining coal and other supplies and for maintaining communication with St. Petersburg, and the Japanese press is again questioning the faith of the assurances of France. The Government here is silent, but it is believed the ministers are preparing to renew the neutrality question with France.

\$233,000 OFFER IS REFUSED.

(Continued from page 1.)

in favor of both the previous by-laws but did not intend to work for or against this by-law. The people were educated on the question, and he would leave them to vote as they saw fit. Councillor McManamy said that if this was turned down Councillor Farwell would have an opportunity of seeing Councillor McManamy's offer come into effect. He would vote for the offer and let others do as they saw fit.

Councillor Thompson said that this question had been before the people for two years and had created a great deal of hard feeling. When this offer was up before the majority was in favor of it, although the valuation was against it. It was only the duty of the Council to give the people an opportunity to vote for or against this.

Councillor Denault favored the Council accepting arbitration, because some might think if the city gave \$233,000 that this was too much, and that the councillors had been approached by the company. He contended that the company should give more information, because there was a large discrepancy between the report of the valuator and the offer of the company.

THE VOTE.

The vote was then taken and stood as follows: For—Councillors Thompson, McManamy; against—Councillors Denault, McCrea, Farwell, Colere, Brault, Armitage, Lanctot, Sylvestre, Olivier.

PROPOSES NEW CONTRACT.

Councillor Thompson said that, as this vote was now given, he would move that the Special Light Committee be authorized to meet the company and consider the question of making a contract with the city for a term of years.

Councillor McCrea seconded. Councillor Lanctot moved in amendment that the Council proceed with arbitration as laid down in the contract entered into between the company and city.

This was not seconded. Councillor Farwell said that as the Special Light Committee was prejudiced against the company, he would move that the Mayor, Councillors Armitage, Sylvestre, and Brault be appointed a committee to see about securing a contract.

Councillor McCrea said that as one of the committee he did not like calling himself dishonest. He would leave that to Councillor Farwell and others. The special Light Committee might have different views, but they acted honestly and according to their convictions.

Councillor McManamy objected to entering into a contract when the city had the right to arbitrate, which he believed was the only fair way to acquire the property.

No one seconded the amendments, and the motion was put, and the vote stood as follows: For—Councillors McCrea, Farwell, Armitage, Thompson; against—Councillors Denault, Colere, Brault, Lanctot, Olivier and McManamy.

Councillor Brault enquired when the hydrant question was to be taken up, and it was decided to adjourn the Council until the 11th of May.

J. A. Smiley has returned from Sherbrooke, and is resuming work for G. B. Cleveland & Son.

Miss Effie Murray goes to Spring Hill this week for a fortnight's visit with friends.

From a Vermont newspaper we call the following reference to the death of one who was born and for the greater part of her life lived in Johnville, where her husband and four children are buried. Mrs. Mary Pillsbury died at the home of her sister, Mrs. A. J. Calkins, at Morgan Centre, Vt., April 7th, of pneumonia, aged 73 years. The funeral services were conducted by the Rev. Mr. Wales, of Holland, who preached from the text, "She hath done what she could." The King's Daughters sent a floral offering of 73 white carnations, and a cross. There was also a wreath and bouquets from other friends. A tribute was paid by the preacher to her humble, unobtrusive life of service. She will be much missed in the church and community, especially among the needy and suffering.

Mr. Horace Martin, of Sawyerville, spent Sunday with friends here.

Don't Let Chronic Bronchitis Run into Consumption

It may unless you cure it now. Inflammation in the bronchial tubes may extend to the lungs. The hacking cough of bronchitis keeps the membranes of throat and lungs irritated. Weak cough mixtures and lozenges don't cure, because they don't reach diseased tissues.

Chronic Bronchitis because it permeates every part of the bronchial tubes, simply ignites the tubes by inhalation. This vapor reaches the affected parts, and completely cures you.

"I have purchased two boxes of Kimo Tablets, and I can say that they are very good. I have been very poorly with Indigestion, and my friends were good Fruit-eaters."

Kimo Cure
Rheumatism

You may say, "Don't tell me. Perhaps you have reason to say. Perhaps you have tried other remedies and they have failed. Analyze our statement. 'Kimo' is the only way to cure rheumatism. It is an absolute fact that the crystals must be dissolved and sent back into the blood before they can carry them off. And right at this point, where ordinary remedies fail, Kimo succeeds.

Contains a Japanese Solvent. Kimo Tablets contain a Japanese solvent, which, when absorbed into the blood, will absolutely dissolve crystals, and throw the uric acid out of the blood.

And then, when this solvent has done its work, the other contents of the tablets stimulate the system sufficiently to carry off the system of the poison.

And the rheumatism is cured. It is the Japanese solvent that the cure certain; and up to the present, the ingredient is not contained in any other remedy.

How Long It Takes

Improvement is noticed immediately upon taking Kimo Tablets. No waiting for results. The crystals are dissolved and carried off quickly. This relieves the pain, and is the beginning of permanent cure.

The time for the permanent depends on the number and size of the crystals. In some cases the crystals are dissolved and carried off in a few days. In other cases, it takes longer, but a cure is absolutely certain. The crystals have hardened to muscles, which is very, very dangerous. We receive letters every day from persons who have been cured by other remedies had failed.

There is no reason why you should be different from others. And it won't if you take the tablets. To hasten the cure let us recommend that much tea, coffee and meat for rheumatism, but much is good. Three quarters of a day is none too much.

But you must have faith. Buy one box. The risk is small. If you have rheumatism, you need the tablets more than the others. At druggists or by mail from Robinson & Co., Coaticook.

Kimo Cure
Rheumatism

You may say, "Don't tell me. Perhaps you have reason to say. Perhaps you have tried other remedies and they have failed. Analyze our statement. 'Kimo' is the only way to cure rheumatism. It is an absolute fact that the crystals must be dissolved and sent back into the blood before they can carry them off. And right at this point, where ordinary remedies fail, Kimo succeeds.

Contains a Japanese Solvent. Kimo Tablets contain a Japanese solvent, which, when absorbed into the blood, will absolutely dissolve crystals, and throw the uric acid out of the blood.

And then, when this solvent has done its work, the other contents of the tablets stimulate the system sufficiently to carry off the system of the poison.

And the rheumatism is cured. It is the Japanese solvent that the cure certain; and up to the present, the ingredient is not contained in any other remedy.

How Long It Takes

Improvement is noticed immediately upon taking Kimo Tablets. No waiting for results. The crystals are dissolved and carried off quickly. This relieves the pain, and is the beginning of permanent cure.

The time for the permanent depends on the number and size of the crystals. In some cases the crystals are dissolved and carried off in a few days. In other cases, it takes longer, but a cure is absolutely certain. The crystals have hardened to muscles, which is very, very dangerous. We receive letters every day from persons who have been cured by other remedies had failed.

There is no reason why you should be different from others. And it won't if you take the tablets. To hasten the cure let us recommend that much tea, coffee and meat for rheumatism, but much is good. Three quarters of a day is none too much.

But you must have faith. Buy one box. The risk is small. If you have rheumatism, you need the tablets more than the others. At druggists or by mail from Robinson & Co., Coaticook.

Kimo Cures Rheumatism

You may say, "I don't believe it." Perhaps you have reason to say this. Perhaps you have tried other remedies and they have failed. An eye for an eye in our advertisement, "I don't believe it." Now let us tell you why and how. When you realize that a difference between Kimo and other remedies for rheumatism, you will see that we have grounds for our pretension. Rheumatism is the result of retention in the blood of waste matter. The kidneys which are the chief filters, are expected to carry off these impurities. But sometimes the kidneys fail. The blood then becomes loaded with this waste matter. It accumulates and crystallizes in the blood vessels, called uric acid. These crystals are 1/1000 of an inch long and carry them to the joints. Then they are deposited in a joint or round a muscle. The crystals grate on the joint or muscle—irritate it and cause pain. This is rheumatism.

How Kimo Cures It.

The only way to cure rheumatism is to get rid of the uric acid—the crystals that have settled round the joints and muscles and cause the pain. This is what every remedy for rheumatism tries to do. But the larger crystals cannot get through the kidneys. And this is why ordinary remedies do not cure. They try in vain to stimulate the kidneys sufficiently to carry off all the crystals, and in attempting it, such drastic drugs are used that kidney and bladder disease often result. For this reason such remedies are to be avoided. It is an absolute fact that the larger crystals must be dissolved and thrown back into the blood before the kidneys can carry them off. And right here at this point, where ordinary remedies fail, Kimo succeeds.

Contains a Japanese Solvent.

Kimo Tablets contain a Japanese solvent, specially imported for us from Japan, which, being absorbed by the blood, will absolutely dissolve these crystals, and throw the uric acid back into the blood. And then, when this solvent has done its work, the other ingredients of the tablets stimulate the kidneys sufficiently to carry off and rid the system of the poison. And the rheumatism is cured. It is the Japanese solvent that makes the cure certain, and up to the present, the ingredient is not contained in any other remedy.

How Long It Takes.

Improvement is noticed immediately upon taking Kimo Tablets. There is no waiting for results. The smaller granules are dissolved and carried off quickly. This relieves the pain accordingly, and is the beginning of a permanent cure. The time for the permanent cure depends on the number and size of the granules. In some cases the cure is so quick as to be almost miraculous. In other cases, it takes longer, but in the end a cure is absolutely certain, unless the crystals have hardened to the joints and muscles, which is very, very seldom. We receive letters every day from persons who have been cured when other remedies had failed. There is no reason why your experience should be different from theirs. And if you take the tablets. To hasten the cure let us remind you that much coffee and meat are bad for rheumatism, but much water is good. Three quarts of water per day is none too much. But you must have faith enough to try it. The risk is small—only 50c. If you have rheumatism, you need the tablets more than the 50c. At druggists or by mail from B. N. Robinson & Co., Coaticook, Q.

EARLY HISTORY OF DUNHAM

Subject Of Meeting Of Missisquoi Historical Society.

ADDRESSES BY PRESIDENT AND SECRETARY AND BY HON. G. B. BAKER

Dunham, May 2.—(Special.)—The Missisquoi Historical Society held a meeting in the Town Hall here Saturday evening. The attendance, although not large, was representative and considerable interest was shown in the affairs of the society.

The President of the Society, Mr. John P. Noyes, of Cowansville, was present and presided, and in his opening address dealt fully with the society's history and showed clearly the advantages of preserving such local historical data as yet remained extant. Mr. Noyes gave a very interesting address, and was well received.

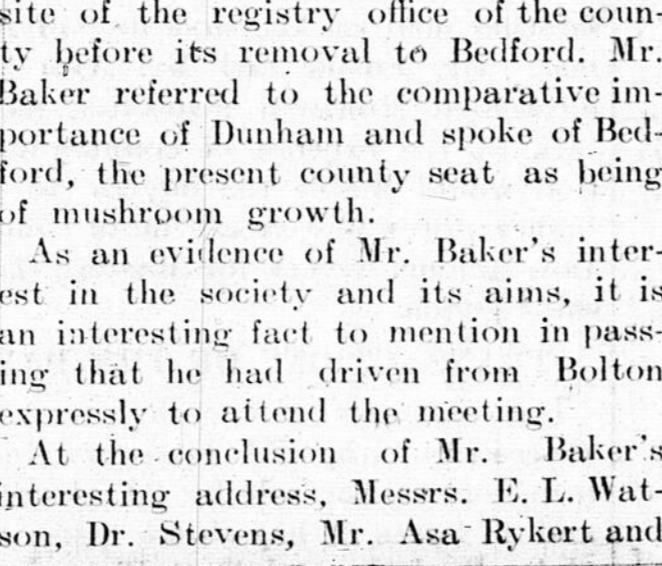

MR. J. P. NOYES, President, Missisquoi Historical Society.

At the conclusion of his address the President introduced the secretary, Mr. Charles O. Jones, of Bedford, who spoke of the plans and aims of the society in connection with its work in each municipality and gave a very general invitation to everyone to make use of the historical notes columns in making public any interesting facts known to them. Mr. Jones, also, alluded to some interesting facts touching the earlier days of Dunham, such as the location of the county seat at Dunham at one time, and the building of the first cheese factory in the Dominion of Canada here. At the conclusion of Mr. Jones' address, the President called upon the speaker of the evening, Hon. Senator Baker, who was a native of Dunham. Mr. Baker spoke of many interesting episodes of early Dunham, and located the site of the registry office of the county before its removal to Bedford. Mr. Baker referred to the comparative importance of Dunham and spoke of being of mushroom growth.

As an evidence of Mr. Baker's interest in the society and its aims, it is an interesting fact to mention in passing that he had driven from Bolton expressly to attend the meeting.

At the conclusion of Mr. Baker's interesting address, Messrs. E. L. Watson, Dr. Stevens, Mr. Asa Rykert and

HON. SENATOR BAKER, who speaks of early history of his native town.

Mr. Joseph Baker spoke, all referring to Dunham's early history and expressed their interest in the society's work.

This was the first meeting ever held by the society in Dunham, and the local organization being perfected by the choice of a ladies' committee to aid in prosecuting the work, it is quite likely that other meetings will soon follow. The following ladies were chosen on the committee: Miss Emma Baker, Dunham Ladies' College; Miss Jessie Small and Miss Clara Watson.

Several interesting relics were exhibited by some of the gentlemen present such as copies of newspapers bearing dates from 1836 to 1860, several prize lists of the Missisquoi Agricultural Society of 1836 to '51. A notable copy of original grant of the land in Dunham to the Hon. Thomas Dunn and his associates in 1796.

At the close of the meeting a considerable number of those present availed themselves of the opportunity of becoming members of the society.

COUNCIL GIVES SPECIAL INSTRUCTIONS REGARDING ENFORCEMENT OF LICENSE LAWS.

There was a full board at the City Council last evening, Mayor John Leonard, K. C., presided.

The application of Bonner & Povey for a restaurant license on Depot street was granted.

The ratemakers on Brewster street presented a petition for the extension of the sewerage system, and agreed to comply with the by-law in regard thereto. Referred to Health Committee.

A petition was presented from ratemakers asking for the extension of the water and sewer system on Liverpool street from London street to the corner of Quebec street.

In connection with the latter report Chairman Olivier reported that the superintendent had made an estimate of the cost for the extension of the water. This was placed at \$537.50, and as the revenue would not cover 10 cent of the outlay, the matter was referred to the Water Committee to see if the parties interested would not pay enough to bring the amount up to 10 per cent.

REPORTS. The report of the Finance Committee recommended the payment of Mr. J. E. Genest's account for consolidating the by-laws. It was also recommended that the charter be consolidated, the whole to be issued in pamphlet form.

Councillor McCrea presented the report of the Fire Committee, and recommended that the Council agree to the lease of the Long shop under certain conditions.

An amendment was proposed that iron roofs be placed on the outside sheds. The main motion was carried.

STREET IMPROVEMENTS. A special report of the Road Committee was submitted by Councillor McLennan, with the following recommendations for improvements: A four-foot stone sidewalk from Norrey to Bridge street; a five-foot stone sidewalk from Bushhouse to Exhibition gate, and a four-foot stone sidewalk from the latter point to the Protestant Hospital. A three-foot stone sidewalk on Brewster street, south side, to opposite Bartlett house.

Terrill street—Ditch on Pine street to Farwell house straightened to the line of the street.

Forsyth square—A roadway to be built across the square.

Laurier street—Four-foot stone sidewalk from Aberdeen avenue to the Brook.

St. Charles street—A three-foot stone sidewalk on both sides of street.

St. Jacques street—A three-foot stone sidewalk on east side.

Wilson street—A three-foot sidewalk on portion of both sides of street.

St. Louis street—A three-foot sidewalk on east side.

Mr. E. Desaulnier, of Hardwood Hill, has been chosen to fill the vacancy in the Council.

THE LATE WALTER LAWRENCE.

Melbourne, May 2.—(Special.)—The death of Mr. Walter Lawrence, a native of Melbourne, occurred at Chicago on April 19. Mr. Lawrence having been ailing for a few weeks, went to the hospital, as his wife was away, for treatment, she being an invalid for some time. Finding his strength fast failing, he sent for his sister, Mrs. Bush, of Boston, who only reached his bedside a few hours before he expired.

Deceased has been in the bookbinding business for some years. He served in the American army during the war. For many years he had been an active member of the Methodist church. His remains were brought to Melbourne Ridge, his native home, for interment. The funeral was held at the Methodist church on Easter Sunday and was attended by many of his relatives and friends, the burial being in the Lawrence burial lot, on the farm of the late Noah Lawrence, father of deceased. Mr. Lawrence was in his 62nd year, he being the youngest son of the family, his two older brothers, Mr. W. M. Lawrence, of Dalling, and Mr. Leander Lawrence, of Melboro, and two sisters, Mrs. Bush, of Boston, and Mrs. Woodard, of Wisconsin, survive him.

PROPOSE TO INCREASE SALARIES OF TEACHERS.

Inverness, May 2.—(Special.)—The question of raising the salaries of teachers was discussed at a recent meeting of the Commissioners, but it was decided to call a meeting of the ratepayers at the next meeting of the Commissioners which will be held in the Court House Hall on Wednesday, the 10th day of May next, at 10 a. m., and take their advice upon the question.

The School Commissioners also engaged Miss Hinds as Principal of the Academy for the next session, commencing on first of September next.

The Commissioners also accepted the petition of the ratepayers in Inverness lately annexed to South Leeds for school purposes provided that South Leeds will pay the teacher employed last summer and any expense incurred by them out of the tax collected from the Inverness ratepayers and hand over the balance, if any, to the Inverness board.

In answer to a request from the Superintendent of Education, the Board expressed the opinion that the Academy examinations should not be held till after the 15th of June, and then as near the end of the month as will permit the examinations to close before the first of July.

WAS DRIVER OF THE ROYAL TRAIN.

James Murray Has Now Entered Upon His Last Journey.

PASSES AWAY AT SACRED HEART HOSPITAL AGED 85—UNFORTUNATE IN HIS LATER YEARS.

An old resident of Sherbrooke passed away this morning about three o'clock at the Sacred Heart Hospital in the person of James Murray, at the advanced age of 85 years. The late Mr. Murray had been an inmate of the hospital for the past 14 years where his wife, also, died about 11 years ago. Previous to that he was for many years employed on the G.T.R. as an engineer, and before giving up work was employed by the company in looking after the engine in the pump house of the company at Sherbrooke. In his younger days he was an engine driver on the Caledonian Railway in Scotland, and had the honor on several occasions of being the engineer on the royal train. He could give many interesting reminiscences of the by-gone days, and how the late Prince Consort at the end of the journey dropped gold (gold) into his hands.

He left railway work for some time and went on the farm, but he met with bad luck and he had to be dependant on the charity of his friends, the only thing that seemed to mar his otherwise jovial spirit.

He was a member of Ascot Lodge, A.F. & A.M., and will be buried with Masonic honors.

COWANSVILLE

DAIRY BOARD.

(Continued from page 1.)

and a protest against the waste of time presently seen on the part of the farmers, who each one took a part of the forenoon to go to the factory rather than hire two men to pick up all their milk each morning, occupied some more of Mr. Ayer's speech, and he also put it more forcibly in these words: "I could never see how 100 farmers could afford to use the time of 100 men, 100 horses and 100 wagons to do the work which four or five men, horses and wagons could more cheaply do by season contract." He also accused some factories of including in shipments butter made after the weekly board meeting. Mr. Foster objected to this statement, but Mr. Ayer said he had no fault to find with the board as a whole, yet he reiterated his statement that rules, theory and practice often varied. He advised the adoption of a system of marking each day's make by itself and thus aid in tracing any poor goods to the very day of its manufacture. Mr. Jas. Burnett pointed out that such a resolution had been incorporated in the by-laws at the meeting held on the first day of April last. Mr. Foster and Mr. Ayer both advocated Montreal inspection as the lack of the expense of country inspection would enable the buyers to pay higher prices and create more competition among buyers for Eastern Townships' goods.

TRANSACTIONS OF THE DAY.

The business of the day was then proceeded with, 751 boxes of butter being offered for sale by 20 creameries, and 43 boxes of hay-cheese being offered by Dunboro and East Pinnacle factories, who, however, refused offers of 10 cents per pound Montreal inspection. They would have accepted that price, factory inspection. The highest price paid for butter was 18 3/4c and even this was higher than was expected or than the market justified. Only four creameries got this price, the other sixteen having to content themselves with 18 1/2c. Hodgson Bros. and Hugh Allan were the only buyers who would offer the higher price.

An itemized report of sales follows: Hodgson Bros. bought Cowansville, 70 boxes, and Daisy (Sutton), 40 boxes at 18 3/4c, as well as Brome Corner, 20 boxes; Farnham Center 20; Green Valley (Mansenville) 35; Mystic Gem, 40; Perfection, 50; Shamrock, 20, and Vale Perkins, 15 boxes, all at 18 1/2c.

Hugh Allan bought Crown (Iron Hill) 35 boxes, and Maplewood, 50 boxes, all at 18 3/4c.

H. H. Hibbard bought Adamsville, 38; Beranger, 23; Maple Leaf, 45; Stanbridge East, 36; Silver Star, 52; West Dunham, 20; and White Star 25, all at 18 1/2c.

The Gunn Langlois Co. bought Mountain Vale, 35 boxes; and Warden, 55 boxes, both at 18 1/2c. All sold. No cheese sold. Offers of 10 cents refused.

MASKED BLEW

Bold Burglary at Gilbertsville Dollars Secured

Gilbertsville, N. Y., May 3.—A band of masked robbers rode into the village of Gilbertsville, about 18 miles from here early yesterday, blew open the supposedly burglar-proof safe in the private bank of E. C. Brewer, and escaped with a sum estimated at between \$2,000 and \$10,000. When by the middle of the night the explosion and had heard of the robbery, the police of the village, who had isolated Gilbertsville from the outside world by cutting all the telegraph and telephone wires, and who were finally taken up by the robbers had gained a lead which could not be overcome.

Last night parties were searching for robbers in every direction. Several teams, which had been stolen and used by robbers in their approach to the village, and their subsequent flight, were found abandoned by the robbers. It is believed they then left the highway and went into the woods about.

It is believed there were five men in the band. That all were heavily armed was shown by the frequency of the fire when the first of the villagers arrived in the vicinity of the bank. The men first tried open the front door.

MUCH FIGHTING IN CHICAGO

One Killed and Many Injured.

PEACEFUL CITIZENS BEATEN STONES, CLUBS AND KNIVES FREELY USED.

Chicago, May 3.—Fighting and rioting fiercer than on any previous day of the teamsters' strike was seen yesterday in the business section of the city. Stones, clubs and knives were used with apparent abandon, an accurate account of the injured men was not obtained. As far as known the man was killed during the day. The fight near the Auditorium Hotel, the skull was fractured, and he was taken to an hospital where he died. His name was Charles Beard.

His strikers and their sympathizers tackled the non-union men at every opportunity, men being shot and within two hundred feet of the residence of Marshall Field & Co., and nearly to death at the corner of the Auditorium Hotel, in plain view of hundreds of women, who were compelled to run from the mob to their own lives. In many instances men walking along the streets, who had no active connection with the strike were assaulted and hoodlums, who beat them first later accused them of being strike breakers. A notable instance of this kind was that of Rev. W. K. Whelan, pastor of a Presbyterian church, while on his way to the Penny's Depot, was attacked by three who knocked him down and beat until the police rescued him. On the assailants was arrested.

The strike did not spread in any degree. No more men were called from present appearances there is immediate prospect that any strikers will strike.

One thousand more police were sworn in yesterday, upon the recommendation by the employers that would move 1,800 wagons to be manned by non-union drivers.

CONSECRATION OF MGR. RACIC

Imposing Service at St. Cathedral, Montreal

BECOMES TITULAR BISHOP COADJUTOR TO ARCHBISHOP BRUCHESI.

Montreal, May 3.—(Special.)—The consecration of Monsignor Racic titular bishop and coadjutor to Bishop Bruchesi took place at St. James cathedral, this morning, was attended by all the magisterial ceremonies in the ritual of the church.

Archbishop Bruchesi was concelebrating, assisted by Archbishops of St. Boniface, a metropolitan of Valleyfield, and by Bishop of St. John's.
