## RAILWAY AND STEAMSHIP TERMINALS FOR QUEBEC

The Canadian Pacific Railway Will Use the  
Valley of the St. Charles  
and River.

## RIVER FRONT FOR G.T.P. AND OTHER LINES

The railway and steamship interests of Canada, alive to the vast trade of the future, in connection with the grain resources of the North-West, are now making every effort to get ready for its export and at the same time arrest the great amount of Canadian trade now finding its way to European ports through American channels.

Mr. F. B. Girdlestone, Manager of the Bristol docks at Bristol, England, who is now travelling through the North-West taking observations of its development, recently told the Quebec public through the medium of the Chronicle that every port in England was expending vast sums of money to get ready for the vast Canadian trade of the future on the completion of the Grand Trunk Pacific and other railways in all parts of the Dominion in course of construction, and cautiously remarked that he was surprised that nothing whatever was done to get the port of Quebec ready. He pointed out the large percentage of Canadian trade these days finding its way through American ports and expressed surprise that the port of Quebec was still in a primitive condition, and not even able to handle its shipping trade of the present.

Sir Charles Rivers-Wilson, President of the Grand Trunk Railway, when in Quebec some weeks ago, counselled the people of Quebec to prepare their port for the trade of the future, and said there was no time to waste in making it ready.

Mr. C. M. Hays, Vice-President of the Grand Trunk, and President of the Grand Trunk Pacific Railway, made use of the same remarks, and with emphasis added that under present conditions, and if the Grand Trunk Pacific were completed, the port of Quebec would be blocked within 24 hours. He also said that the Grand Trunk Pacific would be completed within another four years, and if the port of Quebec had any desire to get a share of the vast European shipments, it had no time to lose in preparing its terminals and steamship accommodation and harbor equipment.

Mr. D. McNeill, Vice-President of the C.P.R. system, expressed the same sentiments, and notwithstanding these great living authorities, a man can be found in the community, actuated by sinister motives, to council delay, and wait until the tide of export finds other outlets than Quebec and Canadian ports before making any attempt to get ready.

The Chronicle is using every effort to obtain information regarding the future trade of Canada and learn the opinions of experienced mercantile men, at home and abroad, and at the same time discover what the railway and steamship interests of the country are doing and think of the situation before giving vent to its opinions, that are nothing less than the opinions of the leading men of the country, who day in and day out are studying the problem of the future and how and when to prepare for the same. The meeting of the Transcontinental Railway Commission with the various railroad and steamship interests on Friday next in this city, to consider a plan for terminal facilities, will be the signal for what is to follow.

### C.P.R. TERMINALS.

It leaked out yesterday that the C.P.R. will seek to have independent terminals, altogether separate from the Grand Trunk Pacific, Canadian Northern and other railways. It is said that the C.P.R. is looking over large properties in the valley of the St. Charles, and have in mind the utilization of the River St. Charles with the Beauport beach and Louise Docks, together with the river front from Pointe-a-Carey to the Richelieu & Ontario Navigation Co. property, if they can acquire the same for their steamship service.

They have in mind that the city should purchase and demolish the buildings on the south side of Dalhousie street to make room for railroad tracks, sidings, etc.

It is said that this company wishes to bring the whole of its Liverpool steamship service to Quebec next spring on account of the lowness of the water in the harbor of Montreal, that is decreasing in depth every year, and before many years will not float any large ship. The C.P.R. no doubt would complete the dockage of the St. Charles and bear a portion of the cost if the Government would agree, and it is likely that this will be the

## GOLDEN JUBILEE OF ST. COLUMBIA CHURCH

Will be Celebrated at Sillery  
with Becoming Pomp

### THREE DAYS' OBSERVANCE

Hon. Charles Fitzpatrick, the Chief Justice  
of the Supreme Court of Canada, to  
Take Part in Ceremonies.

The Church of St. Columbia de Sillery will reach the 50th year of its dedication on Saturday next, the 13th instant, and the parish priest, Rev. Father A. E. Maguire, together with the church wardens and members of the congregation, which comprises over four-fifths of the population, are making preparations to celebrate the very important event in an elaborate and becoming manner. The celebration of the golden jubilee will commence on Saturday evening next, with a musical soiree and lecture to be held in the large school-house adjacent to the church, that will be open to the people of the parish and friends of the parish priest from the city, and for the accommodation of the latter the steamer Frontenac will make a special trip from its berth at the Champlain Market wharf to Sillery, and return at the close of the entertainment. The lecture will be given by Hon. Charles Fitzpatrick, Chief Justice of Canada, and a native of the parish, who will dwell upon the historical features of Sillery of the past and the church which during its dedicated career has been presided over by priests whose names will occupy an important place in the history of the Catholic Church.

### ALLAN LINE GETTING READY FOR THE CHANGE.

In the meantime the Allan steamship line is watching the commercial chess board with all the keenness of the business intellect of its management, and the Grand Trunk Railway is apparently ready to come to its support. The slightest movement of a straw oftentimes tells the lay of the wind, and this was recently made very evident when the Allan line brought their first ship under the new conditions to Quebec one day ahead of her sailing time.

Without any solicitation whatever a certain railway system voluntarily went to the Allans, and offered to convey their western passengers to Quebec at the same rate that they were carried to Montreal for. This company, even went one better and carried 1,500 barrels of apples to Quebec without extra charge to load on the steamer at this port.

### RELIGIOUS CELEBRATION.

On Sunday the 14th, the golden jubilee will be religiously observed with a Solemn High Pontifical Mass to commence in the church at 10 a.m., and which will be sung by His Grace the Archbishop of Quebec, assisted by priests from his Episcopal household and Quebec Seminary. There will be two sermons on account of the mixed congregation, the one in English will be preached by Rev. Father Mulhern, C.S.S.R., of St. Patrick's Church, and the one in French will be preached by the Rev. Father Scott, parish priest of St. Foy.

After Mass and Benediction, that will follow, the parish priest, Rev. Father A. E. Maguire, will entertain the Archbishop and some two dozen visiting priests to a banquet at the Presbytery.

On the following day, Monday the 15th, a Solemn High Requiem Mass and Libera will be sung in the church for the repose of the souls of the departed members of the congregation.

### HISTORICAL FEATURES OF THE CHURCH.

The historical features of the parish and Church of St. Columbia de Sillery are very interesting, and date back to the missionary days of the Jesuit Fathers at the very outset of the French regime in Canada, and Sillery the scene of religious teaching among the Indians. It also calls to mind that Sillery Cove was the cradle of the timber trade in Canada, and the Sharples family among its pioneers.

It was also an important centre, in years gone by of shipbuilding, and no less than twelve wooden ships were launched off their stocks in a yard now the property of Hon. John Sharples, the present head of the old and illustrious English Catholic family, who contributed their share to the prosperous days of the port, and now one of the leading lumber merchant firms of Quebec and Sillery. Sillery was also the home of the present Chief Justice of Canada, son of the late J. J. Fitzpatrick, who was likewise a pioneer Irish resident of the parish and in his day a prosperous and energetic merchant, and Messrs. James and Stephen Connolly, brother-in-laws to the late J. J. Fitzpatrick, who were, in the earlier days of Quebec, prosperous lumber merchants, and still living in the enjoyment of good health, and the respect and esteem of all who know them. The former is now a resident of Marquette, Michigan, where he went some years ago, and the latter a resident of Quebec City. Sillery also claims among her chosen sons the late R. R. Dobell, lumber merchant, Sir James LeMoine, the well-known litterateur, the late James Bogie, Wm. Power, M.P., the late James Beckett, P. McInerney, father-in-law of Mr. Stephen Connolly, ex-Mayor Timmony, still hale and hearty and as much interested in the parish as ever. The late Nolan family, Irish pioneer settlers of Quebec, the late Hon. John Roach, in his lifetime a successful lumber merchant, and many others who have figured prominently in the shipping and lumber trade of Quebec in its palmy days of square timber and wooden ships.

In the year 1854, when Sillery was peopled principally by Irishmen, and their descendants and a few old English families, who lived and agreed together in the spirit of friendship and neighborly love, the present Church of St. Columbia de Sillery was commenced.

### MILITARY FOR BUCKINGHAM.

St. John's, Que., Oct. 9.—The Royal Canadian Dragoons have received orders and will leave here immediately for the scene of the strike at Buckingham.

### Rites are no more religion than literature is love.

Rites are no more religion than literature is love.

The ground was purchased by the first pastor, the late Rev. Father Barkin, whose ashes lie at peace within the church walls. He purchased the ground from the late Mr. Patrick Mc-

## THE GREAT DEPARTMENTAL STORES 157-173 ST. JOSEPH'S, QUEBEC. Z. PAQUET THE GREAT DEPARTMENTAL STORES 157-173 ST. JOSEPH'S, QUEBEC.

SHOPPING AT THIS STORE IS REALLY A PLEASURE.

ALL the disagreeable features such as waiting, disappointment, dissatisfaction and many others which the lady shopper so thoroughly dislikes, are completely eliminated through our departmental system. Here you may be directed at once to the particular department in which you desire to make your purchase. When you get there you invariably find a competent clerk to show you the goods, a complete assortment of such merchandise as you may be interested in, and a range of prices that will meet your requirements. The universal politeness and the cheerful willingness of every member of the salesforce are proverbial. If you ask for advice or suggestions they are respectfully given—if you know just what you want you will not be subjected to the unpleasant officiousness of clerks who think they know your wishes better than you do. And last, but not least, your money will be promptly refunded if you are not perfectly satisfied with any purchase made at this store.

### Handsome Silverware.

See these splendid Water Sets of finest quadruple plate, 3 pieces, comprising a Fitcher, Tray and Goblet, burnished silver, richly engraved. Only two sets will be sold on Wednesday at the special price of..... \$12.00

QUEBEC, OCTOBER 10, 1906.

**ARCHBISHOP BOND.**

The truth of the proverb that Death loves a shining mark has been strikingly demonstrated in Montreal of late. Within a few hours of each other ex-Mayor Beauregard, who during his term of office rendered signal service to the city in the days of the anti-vaccination riots, and subsequently became proprietor of La Patrie, and Dr. James Stuart, who was greatly esteemed and loved, and whose knowledge of nervous diseases and skill in their cure were recognized throughout the Dominion, and far beyond its confines, have passed away, and yesterday morning the Anglican community suffered a grievous loss in the death of the Right Reverend William Bennett Bond, D.D., L.L.D., Archbishop of Montreal and Primate of Canada. Born in Truro, England, Sept. 10, 1815, he had just completed his ninety-first year, and to him was allotted a span of life which falls to but few men, and which few men, if any, have made a better use of, or have more largely devoted to the practice of all good works, and the unselfish service of their fellow men. It was in Quebec that he completed his studies for entering on an ecclesiastical career, and in Quebec in 1840 that he was raised to the priesthood by the beloved Bishop Mountain, for two years subsequently acting as a travelling missionary, and organizing several missions and establishing church schools in the Eastern Townships. For thirty years, until his elevation to the Episcopate in 1879 he was connected with the parish of St. George's, Montreal, first as assistant, and then as rector, and it was said of him that he had no superior among the clergy of the diocese as administrator. His long and arduous life spent in the championship of all good causes, was marked also by a courtesy and Christian charity which rendered him beloved by all who came into contact with him, and when in 1893 he was attacked by a serious illness prayers were offered for him in the Roman Catholic churches in Montreal. He has died full of years, honored and beloved, and his memory will long be kept green in the communion to which he ministered so well and so devotedly.

**ARCTIC POSSESSIONS.**

As Canada advances in the national life questions from time to time crop up which lay dormant during her earlier days, but which increase in importance as the Dominion herself increases. Two such questions are upon us, if not actually now, yet in the immediate future, the sovereignty of the Hudson Bay, and the ownership of the Arctic Islands; the first has for some time been the subject of negotiation, and is in a fair way, it is said, to be settled by the recognition of Canadian sovereignty over the Hudson Bay, special rights being granted to American fishermen. This may be held to be satisfactory as between ourselves and the United States, and it is very probable that no other Power will feel sufficiently interested in the matter to raise any objection, but at the same time it must be remembered that the question as to whether the Hudson Bay can be considered as a mare clausum depends on the interpretation of international law, and cannot be regarded as finally settled by an agreement between the two countries chiefly interested in its solution.

The ownership of the Polar Islands is a matter in which little or no interest is taken by anybody just at this time, though it may at any time become prominent. Little is known about them at present, and that little is not likely to arouse any covetous desires in any quarter, but if valuable mineral deposits should at any time be discovered on them, a possibility which, judging by the recent events in the archipelago of Spitzbergen, is by no means a small one, they may be made the subject of altercation and international interest. That is just what has occurred in the case of the archipelago of Spitzbergen, which is thus described in the Toronto Mail and Empire: "In the ups and downs of its history this group of islands has often changed hands, one nation after another losing interest in it and abandoning it. For upwards of a century it has been looked upon as the territory of Norway, by which State it was peopled, and such as were known of its resources were developed. But the discovery of precious metals there last summer revived claims that were supposed to have been extinguished and relinquished. To the gold fields adventurers rushed from every country in Northern Europe. Before the gold fever took men thither the economic value of the islands had begun to attract attention, and when the King of Sweden and Norway a few years ago undertook formally to extend his sway over them Russia and the Netherlands forbade him to do so. Both claimed prior rights.

The dispute is not unlikely to have an effect upon Canada, for now that Norway is under a separate Government, its ruler, King Haakon is desirous of seeing the matter authoritatively settled once for all, and has requested that an international conference shall be called to consider, not only the question of territorial rights in Spitzbergen, but also that of territorial rights in the Polar regions both Arctic and Antarctic. If he is successful in this, the whole question of proprietorship in the Arctic and Antarctic plains, and in their numerous islands and seas will be opened up, and the sooner the better, for at present there does not seem any good reason for coveting their possession, and the task of delimitation should be comparatively easy. There is already some speculation in the United States as to the attitude to be taken by that Power should such an international congress be convened, and a correspondent of the New York Tribune, writing over the signature of "Ex-attache," takes the ground that the United States will insist on the exclusive proprietorship of the islands north of Alaska, not only those within the three-mile limit, but also those lying between the boundaries of Alaska converging in the North Pole. The Mail and Empire thinks that Canada has the best of warrant for taking its stand on the same principle, and that the islands of the Arctic-east of the one hundred and forty-first meridian as far as Davis Strait, Baffin's Bay, Smith's Straits, and Kennedy Channel are the property of Canada, and their ownership cannot be affected by the proceedings of any international polar congress.

**ART EXHIBITION OF VENICE.**

The municipal council of the city of Venice has issued a circular giving notice of its intention to hold its seventh International Art Exhibition in Venice next year, opening April 22nd, and closing October 31st. The city will award large gold medals to the best works of pure and decorative art, and the municipality will allot a considerable sum for the purchase of works of art which will be placed in the International Gallery of Modern Art in the city.

The exhibition is to be divided into Italian, Foreign and International rooms which will contain pictures, sculpture and drawings and objects of decorative art which will be selected by a special committee, or commissioners entrusted with the task of decorating and furnishing the rooms. Some of the best national and foreign artists are to be invited to contribute to the exhibition, and their works will not be liable to examination by the Jury of Admission, consisting of five members, three to be appointed by the municipality and two by the artists not invited whose works have already appeared at least once in previous exhibitions of Venice. This jury will pass on the works of artists desirous of contributing who have not been personally invited. Works submitted to the jury will be allowed the usual reduction of 50 per cent on Italian railways, and, if accepted, will also be free from any charge for packing and repacking. Notification of works intended for exhibition must be sent in duplicate, by means of the schedule issued for that purpose by the Secretary, not later than January 1st, 1907, and goods must be consigned at the buildings of the Exhibition, (Giardini Pubblici) not before the 10th March nor later than the 25th March. All communications must be addressed to A. Fradelleto, General Secretary of the Exhibition, Municipio di Venezia.

There are in all forty-nine items in the "regulations" before us, but those are the principal ones and most necessary for the information of any Canadian artist who may be ambitious of adding to the reputation of the Dominion abroad.

**PRESS OPINIONS.**

**SOCIALISM AND TRADES UNIONS**—Both in the United Kingdom and the United States a wedge is being driven into the ranks of organized labor, and it is difficult to see how the cleavage into two separate bodies can be averted. The divisive force is supplied by the Socialists, who have been for some considerable time the most active and aggressive section of the labor parties and have attained, at least in Great Britain, a position and influence to which numerically they were not entitled. Up till now the Socialist leaders have been content to pose as trades unionists primarily, but by degrees they have so impregnated the unions with their propaganda that in most of them they command a majority of the active members.

Since the last general election the mask has been discarded, and Mr. Keir Hardie has been busily engaged in attempting to commit the labor party to a Socialist platform. In this, however, he has to some extent overreached himself, and has stirred up acute opposition in the trades unions. Nevertheless the movement has disclosed unexpected Socialist strength, testifying to a remarkable change in the political opinions of labor men and aligning them more closely with the workers of continental Europe. To all appearance the labor party of Britain will now be split into two camps—the trades unionists of the old school accepting the present individualistic conditions and occupying themselves with purely labor questions, and the Socialists demanding among other things the abolition of the monarchy, the nationalization of land, railways, trusts, docks, canals, etc., state banks, repudiation of the national debt and other revolutionary alterations of the existing order.—Toronto World.

**POSTMASTER - GENERAL** LEMIEUX said to an audience at Erie, Pa., the other day, "the nineteenth century was the century of the United States, but I say to you that the twentieth century is the century of Canada." Many people suppose that Sir Wilfrid Laurier was the author of this rather pretty boast. But it came from an article in the great London monthly, the Nineteenth Century, and After, of December, 1900. The author in that article tells of the vast resources of this country, and concludes

**Thin Blood**

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak nerves, general debility! We wish you would ask your own doctor about this. Ask him to tell you honestly what he thinks it will do for your case. Then do precisely as he says.

Experience count anything with you? Then what do you think of 60 years' experience with Ayer's Sarsaparilla? Sixty years of curing thin blood, weak nerves, general debility! **Holt Renfrew & Co.**  
Furriers to H.M. Queen Alexandra.

with the remark: "What the United States was to the nineteenth century, Canada will be to the twentieth." Sir Wilfrid embodied the idea in one of his speeches, and has since permitted himself to be spoken of as the discoverer of the idea.—Exchange.

THE GOVERNMENT has sustained a decisive defeat in East Elgin. In certain aspects it was a nasty fight, and it is not undertaken to say who was responsible for its unifying features, and it would be unprofitable to dwell upon that side of the campaign. The lesson for the Liberal party is that it lacks robust and inspiring leadership in this Province and that its electoral methods and its Western legislation have chilled the zeal and broken the spirit of the old Liberal element. The outlook for the Government in a general election in Ontario must be regarded as gloomy and discouraging to the last degree. It is not likely that the result in North Renfrew will be any more satisfactory to the Liberal managers than that of East Elgin, and even in North Bruce Mr. Tolmie may have a harder contest than was generally expected. Sir Wilfrid Laurier may carry another general election, but his power is clearly waning, and there are signs that when the crash comes the ruin will be as complete as that of the Provincial Liberal organization, and that so much of character and principle will have been sacrificed that it will take years to restore the foundations and rebuild the structure.—Toronto News.

Will be found an excellent remedy for sick-headache. Carter's Little Liver Pills. Thousands of letters from people who have used them prove this fact. Try them.

**THE KENTUCKY TROTTING LEET.**

Lexington, Ky., Oct. 8.—Lillie R., owned by David Shaw of Pittsburg, won the Johnston Stake for 224 trotters here to-day from a field of brilliant 210 trotters. The 212 trot, required seven heats to decide the contest. Budd, a consistent Grand Circuit performer, won the first two heats to Robin C. The 218 class pacing, and the 208 class trotting were unfinished. Early in the afternoon it was decided not to start Sweet Marie and Dan Patch against the records, owing to the strong wind. Later, however, they were brought to go an exhibition mile. The wind was still blowing strongly and both failed to break their previous records.

**W. VINCENT & CO**

Closing Out Sale of  
Gent's Furnishings.

We wish to inform the public that our store will be closed (Tuesday) to assort our stock but will re-open Wednesday morning to continue our closing sale of Gents Furnishings at prices that never were seen in Quebec before. Now come for the bargains. A visit will convince you.

**Sale by Licitation.**

Public notice is hereby given that under and by virtue of an order granted by the Superior Court of the Province of Quebec, District of Quebec, dated the fifth day of October, nineteen hundred and six, at the request of Stuart Hunter Dunn, of the City of Quebec, acting in his capacity of tutor to the minor children of the late Charles William Samuel Dunn, in his lifetime also of Quebec, namely: Charles Gervillyn and Charles William Samuel Dunn, and authorizing the sale by licitation of an immovable property and premises described as follows:—A lot of land known and designated as number seven hundred and twenty (720) upon the official cadastral plan and in the book of reference thereto for St. Roch's Ward in the said City of Quebec, together with the tannery thereon erected, and with also the engine, boiler, pulleys, shafts and heating apparatus therein contained, the property and premises above described will be put up to auction and adjudged to the twenty-second day of October instant (1906) at eleven o'clock in the forenoon, in the office of C. E. Taschereau, Notary Public, at No. 139 St. Peter street, Quebec, subject to the charges, clauses and conditions contained in the list of charges deposited in the office of the undersigned Notary.

Quebec, October 6th, 1906.

# Lea & Perrins' Sauce

has been before the public for very many years (nearly a century) during which time it has commanded an ever increasing sale in all markets of the world. The innumerable imitations attracted by its success are devoid of the excellence of quality and richness of flavour characteristic of the genuine article, which is prepared from the original recipe, the exclusive property of Messrs. Lea & Perrins.

MANUFACTORY, WORCESTER, ENGLAND.

The fact that unscrupulous persons commonly make use of the designation "Worcestershire" for inferior productions, and even call them genuine, renders it necessary that the public should ask specially for Lea & Perrins' Sauce and refuse cheap substitutes.

J. M. DOUGLAS & CO., Canadian Agents, Montreal.

# BOARD OF TRADE'S IMPORTANT MEETING

Mail Tender Service at Rimouski Considered

# BETTER BOAT WANTED

Improved Equipment of the Docks and Harbor Urged—Railway to Chibugamoo Mineral Region.

An important and interesting meeting of the Board of Trade was held in the Board Room yesterday afternoon, there being a large number of members in attendance. The chair was occupied by Mr. Geo. Amyot, President of the Board, and among others present were Messrs. Joseph Picard, Cyr. Duquet, J. A. Kirouac, A. Lachance, J. F. Guay, H. d'Hellencourt, F. Gunn, J. Macnaughton, V. Chateauvert, D. E. Carrutiers, J. Matthews, Chs. Flannan, P. E. Sylvain, Major T. S. Hethrington, W. M. Dobbell, Jules Hone, Jr., Geo. Madden, D. E. Drolet, D. Matte, Hon. E. B. Garneau, Geo. Tanguay, W. A. Weir, M. Joseph, D. Watson, E. E. B. Rattray, John Allyn, J. T. Lachance, G. R. Grenier, Jas. Holliday, Hon. John Sharples, L. A. Moisan, W. Watson, J. B. Morrissette, and T. Levasseur, secretary.

After the reading of the minutes of the last meeting and the report of the proceedings of the Council since the last general meeting, the first business to come before the meeting was the following resolution, moved by Mr. J. F. Guay and seconded by Mr. F. Gunn:

That the Secretary of the Board of Trade write to Mr. Peter McKenzie and Mr. J. G. Scott asking them to give as exact information as possible on the mineral district of Chibugamoo, as well as the proposed railway from Roberval to Lake Chibugamoo, and that the Secretary notify these gentlemen that the Board is fully aware of the importance of this railway and offers its support and influence to any proper measure to assure its construction.

Mr. Guay spoke of the remarkable mineral richness of the Chibugamoo district and the urgent need of the railway. Many companies were interested in the region, but the great majority of people did not realize the wealth of the district.

Mr. D. Watson said that a local syndicate had sent Mr. Blake, a mineral expert, to prospect the region, and bring the most favorable reports. The samples of ores which he had brought were simply astonishing, and the discoveries he had made would surpass anything yet thought about. The need of a railway to develop the wonderful resources of the region was urgent, as it was impossible to do anything without it. There was a very good route for a railway.

The motion was then adopted. The following motion was then proposed by Mr. V. Chateauvert, and seconded by Hon. J. Sharples:

"That this Chamber calls the serious attention of the Federal authorities, and in particular the Postmaster General, and the Minister of Marine and Fisheries, at Ottawa, to the defective service of the steamer used at Rimouski for the transport of the mails, and to represent:

"That the Rhoda is an antique paddle wheel boat, which was used as a tugboat on the St. Lawrence more than twenty-five years ago;

"That the boat is absolutely too slow to carry on efficiently the service in which it is engaged, and does not offer sufficient guarantees of security for mails and passengers;

"That as a result, all ocean vessels engaged in the transport of the mails are delayed at Rimouski, and in particular those important vessels, the two new and immense steamships of the C. P. R. and of the Allan Line, whose delay is very prejudicial.

"That it is a matter of notoriety that a grand number of passengers from and for New Brunswick, Nova Scotia, Prince Edward Island and the New England States prefer to embark at Rimouski, as the distance is shorter and time is saved;

"That in the last service organized by the C. P. R. for mails and passengers between Liverpool and Hong Kong, Rimouski is the only point at which time is lost, and the service is retarded with.

"That in consequence this Board respectfully and firmly recommends to the Federal Government, that this antique, defective and inadequate tender be replaced as soon as possible by a screw steamer, of convenient dimensions and modern equipment, so that the expedition of the European mails at Rimouski may be carried out with all the rapidity and efficiency required."

Mr. Chateauvert spoke briefly in support of the motion, as did Mr. Amyot.

Hon. Mr. Sharples said that he did not wish to impute any blame to the Department in control, but if the Government in the future did not improve the service they would leave themselves open to severe criticism. For himself he would go further than the Board should urge that the mails should be put on board at Quebec, so that the steamers could proceed without further interruption. A delay of seven or eight hours down the river was a great reflection on the country and a great hardship to the C.P.R. after it had made such remarkable arrangements for carrying the mails half way round the world.

After Mr. Lachance, M.P., for Quebec Centre, had returned his thanks for the invitation to attend the meeting in regard to the subject and some remarks from Mr. J. Hone, Jr., the motion was passed.

The following motion was then introduced by Mr. J. T. Guay, seconded by Ald. Duquet:

Considering the need of competent civil engineers, which is becoming more and more felt; considering that there exists in Quebec a large number of young men wishing to follow this career who are prevented from doing so owing to the absence in this city of a polytechnic school in which to follow an engineering course, while they are prevented from attending either of those in Montreal owing to lack of necessary means; considering the occasion of its jubilee, Laval University was presented with the sum of \$100,000 due to the generous subscription of the citizens of Quebec for the purpose of endowing new chairs in addition to those already existing; Resolved that this Board respectfully suggests to the administrators of the jubilee funds that the revenue be devoted to the foundation of a chair of civil engineering and that the Provincial Government be asked to aid by a generous grant the creation of such a chair at Laval University, which would be especially in the interest of the youth of Quebec.

There was some discussion upon the subject, in which Mr. Guay, Major Hethrington, Hon. John Sharples and Ald. Duquet took part. The latter gentleman said that, contrary to general opinion, Laval University was not a rich corporation. He thought that if the money was not forthcoming for such a chair, the Board of Trade should take it up and raise a fund in the city for the purpose. Ald. Duquet spoke of the hardship in which young Quebecers stood in this respect. Major Hethrington thought it would be somewhat out of the province of the Board to raise funds for educational purposes. Hon. Mr. Sharples said that this could be done outside the Board altogether. He did not think it right to be always knocking at the door of the Government, and that the people should be more self-reliant. The motion was carried on division.

The following motion, moved by Mr. D. Watson and seconded by Mr. Montefiore Joseph, was then adopted after slight discussion:

"Whereas the Louise Docks are absolutely devoid of equipment to the great detriment of our shipping trade and that it is urgent that they be provided with up-to-date handling facilities of all kinds.

"Resolved that this Board recommend respectfully to the Quebec Harbor Commissioners to take the financial and other necessary measures in order that the docks be equipped as soon as possible with up-to-date facilities for cargo handling, particularly with powerful and adequate electric cranes, etc."

"Resolved that copies of this resolution be sent to the Secretary of the Quebec Harbor Commission and to Sir Wilfrid Laurier and to the Ministers of Marine and Fisheries and Public Works.

A circular from the Halifax Board of Trade was read asking the Quebec Board to join with them in a protest against the proposed change in the Atlantic mail service, whereby the mails will be landed alternately at Halifax and at St. John. As several members of the Board thought it inadvisable for the local Board to interfere in the matter no action was taken.

The following new members were elected to the Board: Messrs G. W. Parent and M. P. Connolly.

# Turn Your Face Into Dollars.

Many a Man Has Failed Because His Face Was a Picture of Calamity.

It takes sunshine to produce a rose, a perfect rose. And so man, to be successful, must have sunshine inside. The life which has it not, which has no health and no happiness, is sour, surly, pessimistic, and a failure. The world already has too many vinegar faces that breathe ill-will and strife. The world wants joy, comfort, sunshine, and will cling to the man who has it, who radiates gladness and triumph wherever he is and under all circumstances.

Some people have a genius for seeking out the disgreevables, the crooked, destroyers, they travel in schools, they herd together for they love their kind and the cheerful part of the world will have nothing to do with them.

And why is it that so many peddle disaster knowing at the same time that if they do, their lives will be ruined? Some people cannot help it, for pessimism usually comes from bodily disorders, and this cannot always be prevented. The stomach, for instance, is the most common cause of discontent, sour face, recklessness, disgust and lack of ambition. A bad stomach, there is the secret of many a failure. Anyone can have a good stomach, a strong stomach, a stomach that can take care of anything and everything that is put into it, no matter whether it is a very bad stomach now or not. Then why not have it?

Stuart's Dyspepsia Tablets do this very thing. One ingredient of these little tablets digests 3000 grains of food, and no matter how bad is your stomach, thoroughly and completely, and better and quicker than a healthy stomach can do the same thing. Stuart's Dyspepsia Tablets will cure quickly loss of appetite, flatulency, irritation, burning sensations, nausea, heartburn, eructations, loss of vim and spirit, bad memory, and dyspepsia and indigestion in their worst forms.

No other little tablets in the world can do so much. You should carry Stuart's Dyspepsia Tablets around with you wherever you go and take them after meals. Then only will you realize what it is to enjoy a meal, and what perfect digestion means. Your whole body and your mind will feel the effects; your vim will increase, you will be more satisfied with what the world does, you will think happier and be happier and your face will be one of supreme contentment. That will bring you success and then more success. Your face will bring you dollars. Try it. It will cost you just 50c. for a package at any drug store on earth.

See our advertisement for costume goods in another column.

#### THE PRINCESS'S LOVE MATCH.

How an Alpine Adventure Brought About a Royal Mesalliance. (Marquis de Fontenoy, in the New York Tribune).

Not far from Berne, on toward the Friburg border and remote from the railway line, is to be found the picturesque country seat where the oldest scion of Old World royalty—a princess—has just celebrated her twentieth birthday, entirely forgotten by the world. She is the aunt of the reigning Prince of Schwarzburg-Sonderhouse, himself a man of seventy-six, and if the last fifty years of her life have been spent in her Swiss retreat, so secluded from the world as to be almost forgotten, it is on account of the romance of her marriage, which created a great sensation just half a century ago.

Princess Charlotte had been travelling in Switzerland, and was passionately fond of Alpine climbing, a form of sport in which she was an adept. On one of her excursions her life was saved by the most wonderful presence of mind, muscular strength and pluck of her Alpine guide, who narrowly escaped being dragged down the precipice over the brink of which she had already disappeared, suspended to the rope, the other end of which was fastened to him, in accordance with mountaineering requirements. He managed not only to withstand the shock of her fall, but likewise to drag her back to safety, though with the utmost difficulty and at the risk of himself slipping, owing to the insecurity of the foothold. The princess naturally was filled with sentiments of gratitude towards her saviour, and as he happened to be an extremely handsome man, possessed of sufficient education to qualify him for a commission in the militia of his canton, she determined to prove to him her gratitude by marrying him. True, she was 40 years old at the time, and

some ten years his senior. But she was a very good-looking woman and quite rich.

Of course, there was a tremendous outcry on the part of her royal and imperial relatives. For she is connected by ties of blood with two-thirds of the reigning houses of Europe, and all sorts of stories were circulated as to the origin of the romance, the one most generally accepted being to the effect that John Jud, for that was the name of the guide, had been one of the domestics at an inn at which the princess had been staying, and had attracted her attention while engaged in the performance of some menial service. The reigning prince of Schwarzburg eventually gave his consent to the marriage of the princess, on the condition that she should live abroad with her husband, and thereupon conferred upon the latter, by way of a wedding present, the title of baron.

The union turned out far more happily than mesalliances of this kind do as a rule. The couple bought a very pretty place on the canton of Berne, where the baron died about ten years later. From that time to this his widow has never left the estate. She lives there all the year round, greatly beloved by her neighbors, on account of her boundless charity, of her gentle unassuming manner, and of that gracious consideration for the feelings of others, which, alas! belongs to another generation. Her relatives, however, visit her every year. In fact, there are few royal or imperial princesses who visit Berne without driving out to pay their respects to the doyenne of the sovereign houses of Europe, and the heroine of a thrilling Alpine romance of more than fifty years ago.

It's easy to sing "Here I give my all to Thee" when you've left your pocketbook at home.

#### MARIE TWAIN AS A BEAR.

I stripped to the skin and began my practice. I was full of ambition; I was determined to make a hit; I was hunting to establish a reputation as a bear and get further engagements, so I threw myself into my work with an abandon that promised great things. I crept back and forth from one end of the room to the other on all fours, Dandy applauding with enthusiasm; I walked upright and growled and snarled and snarled; I stood on my head, I flung hand-springs, I danced a lubberly dance with my paws bent and my imaginary snout smiling from side to side; I did everything a bear could do, and many things which no bear could ever do and no bear with any dignity would want to do, anyway; and of course I never suspected that I was making a spectacle of myself to any one but Sandy. At last, standing on my head, I paused in that attitude to take a minute's rest. There was a moment's silence, then Sandy spoke up with excited interest and said:—

"Marse Sam, has you ever seen a smoked herring?"  
 "No. What is that?"  
 "It's a fish."  
 "Well, what of it? Anything peculiar about it?"

"Yes, sah, you bey you dey is. Dey call 'em gits and all!"  
 There was a smothered burst of feminine snickers from behind the screen! All the strength went out of me and I toppled forward like an undermined tower and brought the screen down with my weight, burying the young ladies under it. In their fright, they discharged a couple of piercing screams—and possibly others, but I did not wait to count. I snatched my clothes and fled to the dark hall below. Sandy following. I was dressed in half a minute, and out the back way. I swore Sandy to eternal silence, then we went and hid until the party was over.

## "Grand Peninsular"

Is an Ornament to the Home.

Popular taste no longer clings to deeply carved, highly ornamental ranges. People now want rich, yet simple elegance. That is the way I make my new Grand Peninsular Range. The "Grand Peninsular" is easy to keep clean, because there are no deep carvings to collect the dust and dirt. The design is simple but very effective. No fuss or fiddle. Just smooth surfaces which take a beautiful bright polish. The nickelled castings are detachable, and can be lifted off without loosening a bolt, when the range is to be brushed or cleaned.

Then there is the ALL-STEEL OVEN—the THERMOMETER on the oven door—extra large GRATE BARS—and a dozen other time-and-labor-saving conveniences—that are exclusive with my GRAND PENINSULAR. Have your dealer show you all these points.

# IN AND ABOUT TOWN

## HARVEST FESTIVAL

### Thanksgiving Services Held at Levis and New Liverpool.

The annual harvest festival was held at Trinity Church, Levis, on Sunday evening last. The church was profusely decorated with fruit, flowers, grain and vegetables by the young ladies and gentlemen of the church. The choir sang the bright harvest hymns very effectively. Miss Clara Faulconer presiding at the organ. The prayers were read by the pastor, and the lessons were read by the Rev. Dr. Fyles. The sermon was preached by the Venerable Archdeacon Balfour, the subject being "God's Providential Care." The offerings were devoted to the widow and orphan fund of the Church Society.

The annual harvest festival was held at Christ Church, New Liverpool, on Sunday afternoon last. This bright little church was neatly decorated by the ladies of the congregation. The beautiful harvest hymns were sung with much taste and heartiness under the leadership of Miss Atkinson. An instructive sermon, which was listened to with much attention, was preached by the Venerable Archdeacon Balfour. A generous offering was made, which amounted to over twenty-seven dollars, for the widow and orphan fund of the Church Society. This congregation is to be congratulated on its attitude towards all good work.

### TO INSTITUTE A NEW LODGE.

Mr. E. H. Walling, Grand Master of the Grand Lodge of Quebec, I. O. O. F., left yesterday by the steamer Campana for Gaspe, where he will institute a new lodge of the Independent Order of Oddfellows. Mr. Walling was accompanied by Mr. H. A. Blackey, Superintendent of the Oddfellows' Relief Association. The new lodge will start with a large charter list, and promises to have a most successful career.

### CHURCH BELLS TOLLED.

When the news of the death of Archbishop Bond reached town from Montreal yesterday, the bells of the Anglican Churches were tolled as a token of respect to the memory of the deceased Primate. The bells of the Cathedral, St. Matthew's, Trinity and St. Peter's Churches will be tolled at six every evening until after the funeral.

### THE LATE MR. WM. JACKSON.

The funeral of the late Mr. William Jackson took place at Mount Hermon Cemetery yesterday. As it was announced that the funeral would be private only the more intimate friends of the deceased, with representatives from the Canadian Order of Foresters, Messrs. R. H. and J. B. O'Regan, attended. The service at the cemetery was conducted by Rev. Messrs. Scott and Kelly, of St. Matthew's Church.

### FAGUY, LEPINAY & FRERE.

### A NEW STREET ATTRACTION.

Among the novel street sights at present to be seen in town in an athletic young man, who gives an exhibition of fancy and trick bicycle riding that for agility, neatness and daring equals the best that is to be seen on the vaudeville stage. He yesterday gave exhibitions in the various main streets of the city, and in lieu of applause at the conclusion of his feats preferred to receive something more substantial and negotiable with those who deal in the necessities, if not comforts, of life. As may be imagined his exhibitions attracted large crowds, and the sight of the rider giving his performance in the midst of passing vehicles, street cars and pedestrians, while crowds lined the sidewalks on either side, was to say the least, a genuine novelty.

### SEE OUR MANTLES.

### SYNDICATE OF QUEBEC.

### GOING TO WINNIPEG.

Mr. Wm. Kurth transferred from the Chateau to Winnipeg.  
Mr. William Kurth, who for the past six years has acted as steward at the Chateau Frontenac in this city, has been promoted to the same position in the company's palace hotel in Winnipeg, the Royal Alexandra, and will leave to take over the duties of his new position on Friday evening next by the C.P.R. The departure of Mr. Kurth from Quebec will be regretted by the large circle of friends which he has made since his residence here, but all will unite in wishing him every success in the metropolitan city of the Northwest. He will be missed also in athletic and sporting circles, in which he always took a leading part, being a prominent member and one of the crack runners of the Chateau Frontenac Snowshoe Club. He was also interested in several other sporting and social organizations, and was connected with various societies. His friends will unite in congratulating him on his new appointment, and there is not the slightest doubt but that he will in his new and wider field of duties, perform them with the same efficiency and success which has marked his connection with the Chateau and earned for him his well-deserved promotion.

## THE FALLING ROCK

### From Champlain Street Cliff Demolishes Telegraph Poles and Block Roadway.

A scene of intense excitement reigned in the vicinity of the site of the landslide of 1859, which so frightened a number of men, women and children in the act of passing east and west of the part of the cliff upon which the Government workmen are blasting with dynamite and hurling down upon the roadway immense boulders and other debris.

It was simply a miracle that no person was killed or injured yesterday morning when tons of rock suddenly gave way and came down with a roar carrying all before the large pile of debris, including telegraph poles, that blocked the thoroughfare for over an hour. By an interposition of Providence, a number of pedestrians, including men, women and children in the act of passing by, looked up and saw the great danger that threatened, just in time to escape being buried underneath the boulders, telegraph poles and earth that entirely covered and blocked the street below. It is a disgrace and a crying shame the way the Dominion Government is neglecting its bounden duty to protect the lives of all citizens of Quebec, but there is an apparent indifference on the part of the responsible officials as far as such duty should apply to the residents of Champlain street. But it should be remembered that others besides the taxpayers of Champlain ward are called upon to use this thoroughfare in the pursuit of their daily avocations, people from St. Roch's, the Palais and Upper Town, and if the Government attach no importance to the lives of one section, it should consider the others.

Shortly after the incident yesterday, Mr. W. J. Baillairge, City Engineer, appeared on the scene, and ordered the roadway cleared by the Government workmen at once, and losing patience at the disgraceful state of affairs, wired to the Militia Department at Ottawa, that if a new roadway past the site and danger zone was not decided upon at once, he would order the work stopped in virtue of the civic authority vested in him.

In the meantime, citizens of Quebec obliged to pass the dangerous locality, must do so at the peril of their lives.

Last week the engineer in charge of the work, received instructions from Ottawa to again open negotiations with the proprietors of the wharf properties, running parallel with Champlain street to make a roadway. On Saturday last the engineer was further instructed to make final negotiation, when the sum of \$300 was asked the Government. The engineer, in the meantime, did not like to take upon himself the responsibility of a settlement, but wrote to Ottawa for further instructions, which up to yesterday afternoon had not arrived. Three hundred dollars is a small value to place on human life, but evidently it is considered dear in the eyes of the Government officials in charge of the matter, connected with the Militia Department at Ottawa. In the meantime the civic authorities should protect the lives of Quebec citizens by closing up the work, even if it has to remain as a monumental disgrace to Government carelessness. It would be better for the residents of Champlain street to take the chance of the rock falling of its own volition than to run a daily risk of their lives under present conditions.

### 200 CHILDREN'S CLOAKS.

At an immense reduction on sale Monday at

### SYNDICATE OF QUEBEC.

### WOMEN RUN IN.

Among the prisoners roped in by the police last evening were three women, and for loitering. Two of them, one a blind woman, hailed from Montreal. The local female was an old offender. Another victim of the police dragnet yesterday afternoon was the celebrated Durand, who has been heard from before, and who was picked up in St. John street suffering from his old complaint.

### HEAVY WIND STORM.

There was quite a heavy wind storm the greater part of yesterday and a number of fences and trees in the vicinity of the city suffered considerable damage. The wind came from the south-west, and on the river, where the tide was rising, there was a very heavy sea on the waves breaking over some of the wharves. At two o'clock in the afternoon, the Quebec Observatory reported that the wind had reached a velocity of fifty miles an hour. About one hour later heavy rain set in, which had the effect of reducing the strength of the wind to a marked degree. Up to a late hour last night no reports of accidents on the river had come to hand.

### DOCTOR'S WORDS

Talks About the Analysis of Postum Food Coffee.  
To the Doubting Thomases, the endorsement of a physician as to the wholesomeness of Postum Food Coffee may be comforting.  
When coffee causes nervousness and dyspepsia, it's time to stop it. And there is where Postum is a true comforter. It is a warm, palatable and wholesome beverage and at the same time is a liquid food.  
Coffee does harm, not because it's well or purely made—not because it's high or low priced—but because of the alkaloid—drug—caffeine, it contains. The habitual use of coffee, therefore, forms a drug habit.  
"A Buffalo physician" said recently, "I have used Postum Food Coffee in my family and find it to be all that is claimed for it—a most wholesome, delicious beverage. When made and served according to directions it is certainly delightful and refreshing."  
"I have read carefully Dr. Davenport's analysis of Postum Food Coffee, as printed on the pkg. which I most heartily endorse. I have been prescribing it to my patients."  
The Dr. is right and there's a reason. Read the little book, "The Road to Wellville" in pkgs.

### POLICE NOTES.

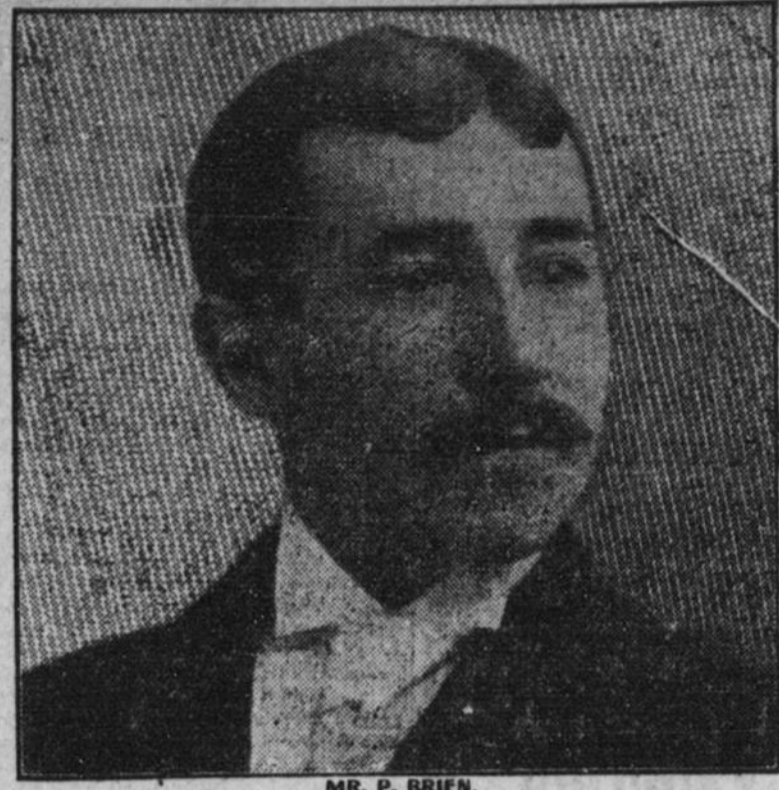

In the Police Court yesterday a woman convicted of selling liquor without a license at St. Ambrose, Lorette, was fined \$5 and costs. A lad accused of stealing a boat was allowed to go on suspended sentence, as his parents paid all costs.  
In the Recorder's Court there were four prisoners charged with drunkenness. One was discharged as he promised to leave the city, two were fined \$5 and costs each, and one paid \$3 and costs.

### SIR R. CARTWRIGHT AT OTTAWA

Kingston, Ont., Oct. 9.—Sir Richard Cartwright, Minister of Trade and Commerce, Lady Cartwright and daughters left to-day in a Government private car for Ottawa to reside for the winter. They have summered at "The Maples" below the city on the St. Lawrence.

# "PE-RU-NA WORKED WONDERS"

## Says a Well-Known Canadian.

MR. P. BRIEN.

Mr. P. Brien, Accountant, residing at 28 Third street, Limoulin, Quebec, writes:  
"The fatigues entailed by my duties as accountant began to weaken my system about a year ago. I felt that I would not long be able to withstand the severe strain upon my nerves, as, a thing unknown to me before, I would long for office hours to be over in order to rest.  
"I gradually grew weaker and a few months later my sight was impaired. I then broke down completely and was obliged to take my bed. I was also suffering from palpitation of the heart.  
"After a few weeks' treatment by a local physician, I was in the same critical condition, and as the doctor held out no great prospects for me, I decided to experiment on myself.  
"I took several remedies advertised as tonics, but did not derive any benefit.  
"Peruna was then given a trial, and before I had taken it a week I felt my condition improving. After a few weeks more had elapsed, during which time I followed the directions carefully, my shattered nervous system became firmer, my sight stronger and I hoped to be out soon again.  
"My expectations were realized, for in three weeks I assumed my duties as accountant at the office.  
"Peruna certainly worked wonders on my system, and for persons run-down from overwork, I believe it is the most efficacious tonic."

### Assistant War Correspondent Recommends Pe-ru-na.

Mr. H. B. Manley, Assistant War Correspondent during the War in China, care "Black and White," 688 Craig St., Montreal, Canada, writes:  
"When a man travels in extremely hot or cold climates, he realizes how valuable a friend he has if he carries a bottle of Peruna.  
"I know of no article in my traveling outfit which I have learned to prize higher.  
"If you are suffering with the extreme heat, Peruna restores you, or if

you are afflicted with a cold, la grippe or bronchitis, Peruna restores you in a short time.  
"Or if you suffer with sleeplessness or if your appetite is poor, again Peruna acts as a good, true friend and is the tonic needed.  
"I have tried it for months and am only too glad to acknowledge it as a true, loyal standby in times of trouble. I do not hesitate to recommend it to all."  
For free medical advice, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Pe-ru-na is a Systemic Catarrh Remedy, Especially Adapted to Cases of Nervous Prostration, Caused by Overwork, Mental Strain Or Extreme Summer Heat.

In latitudes where warm weather is of long continuance, the inhabitants become more or less accustomed to it.

In Temperate Zones, however, where the change from winter to summer is great, the system is sometimes poorly prepared to meet the exigencies of hot weather. This is the cause of much sickness.

Stomach catarrh, indigestion and dyspepsia are not among the least of summer ailments.

When the digestion is disturbed, the assimilation is also affected, and as a result the body does not receive the nourishment it should. Lassitude, weakness, brain fog, loss of flesh and nervous prostration are the natural results.

What is needed is a remedy that will restore the digestive organs to their normal condition.

Such a remedy has been found in Peruna. It has proven itself of priceless value in thousands of cases of this kind.

The action has been seemingly miraculous in restoring some patients who had given up all hope of recovery.

But there is nothing strange about Peruna's action. It simply tones up the mucous membranes of the organs involved restoring them to their normal conditions and leaving Nature to perform her duties unhindered.

That person who has sound, healthy mucous membranes lining the entire digestive tract is well-guarded against the usual summer ailments.

Peruna is the means whereby to attain this most desirable condition.

If you suffer from any of the above-mentioned symptoms, try a bottle of Peruna.

One bottle of this remedy is sufficient to convince any one of its merit as a safe and reliable remedy for all catarrhal conditions.

We have many letters of gratitude received from persons who have experienced its benefits.

These testimonials are proof to us that Peruna has not failed in the mission for which it was intended, that of relieving suffering and restoring health.

INDIGESTION CAUSES WEAKNESS.

PE-RU-NA'S BENEFICIAL EFFECT.

## GOLDEN JUBILEE OF ST. COLUMBA CHURCH.

(Continued from First Page.)

Inevitably, already referred to, and the foundation for the sacred edifice commenced. Prior to this Mass was celebrated in the present presbytery.

In 1856 the church was completed and dedicated, and from that day to this Mass has been celebrated within its walls by worthy religious priests.

Many christenings, marriages and burials have taken place within its precinct, and notwithstanding that it has lived a half century, and passed through many storms, it still stands proudly erect on top of Pointe au Pizeau, youthful in appearance, beautiful in its scenic surroundings that can be observed with the naked eye for miles on either side as it is approached on the River St. Lawrence, and the voice of its bells summoning the faithful to adoration, morning or evening prayers, can be heard from a long distance as they peal out their music that awakens in the soul of man, his thoughts and love for God, the greatest healer and consoler of the heart in the calmness of peace, or its turbulence in time of trouble. The first pastor of the beautiful parish church, Father Harkin, after some years in the vineyard of the Lord, was finally called to his eternal home, when he was succeeded by no less a celebrated priest, than Father Horan, afterwards Bishop of Kingston, Ont., uncle of the present pastor, and succeeded by Mgr. Parico, later created by His Holiness Pope Pius IX. a Cardinal Prince of the church.

Next in order came the late Father Drolet, who was famous for his strictness and labor among the fever stricken Irish immigrants, that survived the ships that bore them across the ocean, but in many cases only to find a grave along the shores of the St. Lawrence, as far west as Montreal, and thousands at Grosse Ile.

The Rev. Father Rene Casgrain, now curé of L'Ange Gardien, County of Montmorency, came next, and was succeeded by the present worthy pastor, the Rev. Father A. E. Maguire, son of the late Mr. Justice Maguire, who in his lifetime was a prominent member of St. Patrick's congregation. The present pastor is a worthy successor to the very worthy parish priests who preceded him. He has accomplished much good for his church and people, and is dearly beloved and trusted by the latter. His whole concern is the moral good and worldly welfare of his parishioners, and he has done more to conserve the latter than his flock is aware of.

Father Maguire's great love is for his church, and though Irish of descent, and a true patriot at heart, makes no distinction. He is broad-minded and shows no favoritism, because he never forgets that he is but the servant of His Master.

Father Maguire installed three new and beautiful bells in the belfry of the church in 1901, that being the occasion of a very interesting ceremony at the time. These bells, which cost \$2,400, weigh respectively as follows: One 2,040, the second 1,870 and the third 1,320 pounds each.

He has been active in another direction ever since, and on Saturday evening next will spring a joyous surprise upon his parishioners. The debt on the church up to the present is \$11,000, but just as soon as the energetic and thoughtful priest got the new bells installed, he started out to reduce the debt, and has succeeded in collecting nearly half the amount notwithstanding the scarcity of the shipping and lumber trade, which his people depended upon.

### THE BUCKINGHAM AFFRAY.

Ottawa, Oct. 9.—Messrs. Alex. and Fred MacLaren, Mayor Valliee, Constables Keirnan, Fournier and Cummings, of Buckingham, reached the city to-night in charge of Sheriff Wright. They are charged by a brother of one of the dead strikers with murder and attempted murder, and will appear before Magistrate St. Julien in Hull to-morrow. They are not occupying cells, the MacLarens and Valliee being at the Russell House. About 40 warrants altogether have been sworn out in Hull, many of the strikers being named as defendants.

Vincent, with an efficient staff of assistants and first class tradesmen, they are now prepared to accept orders for Fall and Winter Garments, and guarantee perfect satisfaction.

LATEST SPORTING NEWS

AMERICANS WON LACROSSE FINALS

Chicago Nationals Defeated in First Game of Series.

Chicago, Oct. 9.—The Chicago team of the American League won from the National League pennant winners today 2 to 1 in the first game of the world's championship series. The game furnished a fine example of modern baseball, wherein the fine points of the game are more in evidence than the slugging of other days, but it was an error of puerile character which gave the American League team its winning margin.

Caps and Tecumsehs will Meet on Oct. 13 and 20.

Ottawa, Ont., Oct. 9.—The question of the final games for the lacrosse championship has been definitely settled. Capitals play Tecumsehs in Toronto next Saturday, October 13, and the Indians come to Ottawa, October 20.

ED. GEERS LEADS

Heads the List of Purse Winners with \$27,785.

New York, Oct. 9.—More than \$200,000 has been divided among the harness-horse drivers by the various associations in the circuit this season. Ed. Geers, the noted driver, who has steered so many trotters to victory, leads the list of winners. He has captured purses which amount to \$27,785.

AUTO RACE CASUALTIES.

Killed and Injured in Vanderbilt Cup Automobile Race, Saturday, on Long Island, were: The dead—Bruner, Kurt L., aged 35, married, Passaic; got on course in front of Elliot F. Shepard's machine; instantly killed.

STRUCK 'EM ALL OUT.

Shenandoah, Oct. 9.—All amateur pitching records were broken here, when Saint Nicholas Clippers defeated Jacksons in a ten innings pitchers' battle, in which McCoog of Saint Nicholas struck out 28 men and did not allow a single hit, while Troy of Jacksons fanned 21, a total of 49 strikeouts.

COLLEGE AND ENGLISH GAME.

On the Pacific Coast an attempt is being made to introduce English Rugby in the two big universities—California and Stanford—and it apparently will be a go.

OPEN GOLF TITLE.

Four Rounds for Championship Latest Proposition. Montreal, Oct. 9.—By making the championship of Canada playable over four rounds, making a total of seventy-two holes, it is considered that this contest would become the chief feature of Canadian golf, and, furthermore, by increasing the distance to go it is likely that the cream of the American players could be induced to take a more intimate interest in the Canadian championship and participate in it.

CANADIAN DEFEATED.

West Newton, Mass., Oct. 9.—Miss Phelps, of Hamilton, was defeated in the women's national golf championship today by Miss Florence N. Ayers, 4 up and 3 to play. All Western aspirants for the trophy were defeated today.

A TROTTING CHALLENGE.

Issued to Mr. Max Clement's Fast Horse "Gleason, Jr." We have been requested to issue a challenge for any amount from \$100 to \$200 for a series of races, best three in five. This challenge is issued by Mr. Wakeley, owner of the gelding, "J. J. W.," and is particularly directed against Mr. Max Clement's fast horse "Gleason Jr." We trust Mr. Clement will accept this challenge and Mr. Wakeley states that immediately he signifies his acceptance he will post his stake in the hands of the Sporting Editor of the Chronicle.

THE OLD WAY THE BEST.

The American Horse Breeder says that the every heat a race plan has proved a failure, and predicts that 1907 will see a return to the old ways. The Breeder contends that "with good judges and efficient starter the two in three and three in five races are most practical and most satisfactory."

BILLIARD CHAMPIONSHIP.

New York, Oct. 9.—Willie Hoppe and George Slosson, who hold the billiard championships, will soon be called on to defend their titles, and the resulting contests should furnish New Yorkers with the most interesting cue battles ever seen in America.

MINCED MEAT.

New York, Oct. 9.—The Chicago team of the American League won from the National League pennant winners today 2 to 1 in the first game of the world's championship series.

Better than a Bank.

There are many temptations to draw money from a bank account.

An Endowment Policy in The Mutual Life MAKES you save. You pay small sums in—you get big sums out.

invests in nothing but non-speculative securities; and being mutual, the policy-holders benefit from every gain.

In 1905—the INCREASE in assets was \$1,075,560.70—in income, \$231,210.01—in surplus, \$179,928.25—and the death rate averaged only 57% of the expected.

BY LAW NO. 404. CITY OF QUEBEC.

City of Quebec, in the District of Quebec.

A BY-LAW. To Amend the By-Laws Concerning Carters' Stands.

(Drawn up in the French Language.) At a meeting of the City Council of the City of Quebec, held at the City Hall, in the said City of Quebec, on the twenty-first day of September, one thousand nine hundred and six (1906), in conformity to law, and in virtue of a by-law passed by this Council pursuant thereto, and after due observance of all the formalities prescribed by the statute in such case made and provided, at which meeting were present two-thirds of the members composing the Council of the City of Quebec, that is to say:

His Worship the Mayor, Ald. Barbeau, Warrby, Beaudet, Brunet, Campbell, Dinan, Duquet, Elset, Foley, Fortier, Galipeault, Hall, Hogan, Howard, Levesque, Letourneau, Madden, Mathieu, Messarvey, Mulrony, Paquin, Picard, Shink, St. Pierre, Taschereau, Taschereau, Verret.

Be it ordained and enacted, and the said Council doth hereby ordain and enact as follows, to wit:— 1. The carters' stand on Boulevard Langelier comprises only, in the middle of said Boulevard Langelier, a space of ground of about thirty-five feet frontage on St. Joseph street, running towards St. Francis street, and it is forbidden to station vehicles outside of that space of ground.

2. The present By-Law is considered as forming part of the By-Laws actually in force concerning the carters' stands and carters in this City. J. GEO. GARNEAU, Mayor.

Attested (L. S.) H. J. J. B. Chouinard, City Clerk.

THE SOUL

Through all the Ages of Man ages have sought for a proof of the soul. Aristotle endeavored to define life. He said: "Life a process of nutrition; growth and decay;" this, as well as Herbert Spencer's latest definition falls short and fails to define life as each individual being, within himself, knows and feels it, but has been unable to give expression of the feeling and the light within, which, as Robt. Browning says in "Acloved by a carnal mesh." It is on this subject that Dr. Chalmers Prentice will lecture at the Y.M.C.A., Oct. 16.

YVETTE GUILBERT AT THE AUDITORIUM TO-NIGHT.

The most famous of all "one night stand" companies began its season, October 8 in Toronto. There, under the direction of Liebler & Co., Yvette Guilbert and Albert Chevalier scored a success that in many respects is the most remarkable in theatrical annals playing to over 2,500 in one night.

They journey from the Gulf of St. Lawrence to the Gulf of Mexico, and from the Red River to the Potomac. They pierce the Green Mountains; cross the Alleghenies; skirt the Great Lakes; traverse farm, ranch and plantation; rush through the blue grass of Kentucky and over the sun-scorched western prairie; play in opera house, theatre, skating rink and Convention Hall, and in a six weeks' season give forty odd performances over a twenty-three thousand mile itinerary. The joint entertainment of the brilliant artists will be given partly in English and partly in French; but no knowledge of language is required to understand and appreciate the rare and inimitable art which has made the names of Yvette Guilbert and Albert Chevalier familiar to millions of people the wide world over.

CRESTON CLARKE. It was freely said of Creston Clarke in "Monsieur Beaucaire" last season that he never failed to captivate his

audiences, dazzling them by his brilliant work. The critics this season have not even tried to give the theatre going public an idea of the artistic merits of Mr. Clarke's impersonation of the modern role of John Morton, the clergyman, in "The Ragged Messenger." They one and all have "metely said:—"Be sure you go to see this splendid actor in his greatest success."

CRESTON CLARKE. It was freely said of Creston Clarke in "Monsieur Beaucaire" last season that he never failed to captivate his

audiences, dazzling them by his brilliant work. SWEPT BY FIRE

Historic Little Canadian Town Almost Wiped Out by Fierce Blaze.

St. Blaire, P.Q., Oct. 9.—The beautiful historical little town of St. Charles, on the Richelieu river, which figured so much in Canada's revolutionary wars, was early this morning almost completely destroyed by fire. The fire started at midnight and, owing to high winds was not got under control till 7 a.m. Twenty-five thousand dollars worth scarcely covered the losses to property, of which very little was covered by insurance. The school and post office were burnt. Had it not been for the able assistance of the St. Marc fire brigade with their fire engine, the entire place certainly would have been burned. Fortunately the business portion was saved. The cause of the fire is unknown, although some assert that there was a flash of lightning about the time the fire broke out.

**CRUISER DETROIT**  
 To be Towed Up Through the Welland Canal.  
 Winsor, Oct. 9.—A special from Hancock, Mich., says:—The protected cruiser Detroit is to be brought to the great lakes from the Atlantic Ocean for the use of the Michigan Naval Brigade. Estimates have been called for by the Navy Department for cutting off a section of the warship and preparing the vessel for passage through the Welland Canal. The Detroit is now out of commission and tied up at the Charleston Navy Yard at Boston. The plan the naval officers are now figuring on contemplating cutting off about sixteen feet from the ship's nose and sheeting over the end left open in order to prevent the water from entering. The section to be removed will be taken aboard the ship when she is towed up the coast from the St. Lawrence River and and through the canals. Her destination probably will be Detroit, and upon her arrival there the severed section will be again set in place and the vessel will be made whole once more. The Detroit will not be able to proceed under her own steam, and she will be towed from Boston to the Michigan metropolis from which she takes her name. It is roughly estimated that the job will cost complete about ten thousand dollars. The Detroit will be the first warship of her class ever located upon the great lakes.

**SUSPICIOUS FIND.**  
 Paris, Oct. 9.—The Echo de Paris to-day published a despatch from Cartagena, Spain, announcing that a sensation has been caused there by the discovery that strong box of the Italian steamer Scipio (wrecked in August last on Romigues Island with the loss of about 150 lives), although found to be hermetically sealed, was empty, raising the presumption of the complicity of the crew in the wreck.

**When Children Are Sick**  
 They eat something that disagrees, catch cold, have cramps or colic. If there is pain just apply Nerviline. It's good to rub on, and for the inside it's most comforting. Effective and pleasant, you can't find a household panacea to equal Polson's Nerviline. Used with satisfaction for half a century and in better demand every day because it does stop pain, ease suffering and cure the thousand of ills that constantly arise in the family. Large bottles at all dealers for 25c.

The hunting and calling of moose and caribou are among the sportsman's chief delights during the continuation of the hunter's moon and the manly sport of tracking the big game through the gorgeous autumnal woods of the Canadian Adirondacks is one that tends to renewing the youth of both mind and body, and the upbuilding of a robust frame and a strenuous manhood. The Quebec and Lake St. John Railway is the open door to the sportsman's paradise of the northern woods, where moose, caribou and bears exist in countless numbers, their run-ways crossing the forests in every direction.

For flannelite underclothing, see our great advertisement, at unprecedented prices.

**ANNUAL MEETING**  
**Of the Quebec Curling Club**  
**Held Last Evening.**

The annual meeting of the Quebec Curling Club was held at the Chateau Frontenac last evening, there being a good attendance of members. The Secretary's report and the Treasurer's statement, which were presented and adopted, were most satisfactory. The election of officers resulted as follows: President—A. W. Boswell (re-elected). First Vice-President—J. G. Bruneau, (re-elected). Second Vice-President—W. H. Davidson (re-elected). Secretary—Geo. Brodie. Treasurer—G. H. Henderson (re-elected). Committee—A. Veasey, T. Delany, F. W. Smith, D. Jewell. Chaplain—Rev. Wylie C. Clark. Representatives to Canadian Branch of the Royal Caledonian Curling Club—D. J. Rattray, Lewis Boswell. Quite a number of new members were proposed.

The report of the Board of Management for the season of 1905-06 was as follows:—  
 To the Members of the Quebec Curling Club, Gentlemen:  
 On behalf of the Board of Management I have pleasure in placing before you the annual report for the season 1905-06.  
 The last curling season opened early, the first game being played on December 1st and the rink was only closed on March 29th. The winter was a very mild one but nevertheless there was very little time at which we were unable to curl.  
 We were again successful in the preliminary rounds of the Governor-General's Prize and Jubilee Trophy, but lost in the semi-finals in Montreal where we unfortunately were without the services of skip F. W. Smith and Mr. G. H. Henderson.  
 Our inter-club match with the Victoria Club of this city for the Dewar Shield resulted in a regrettable possession of the trophy, winning the match of seven rinks a side by 25 points.  
 I regret very much to say that we were unsuccessful in defending the Quebec Challenge Cup against the Montreal Club in a four rink match.  
 Our club had previously changed the rules governing this competition making it a two rink match in future in order that the smaller clubs should not be handicapped in being obliged to place four rinks on the ice at the option of the challengers, but we did not make this rule effective on the challenge already received.  
 We think that this change was in the general interest as all the important Branch Competitions are for two rink sides.  
 We trust when our turn comes around again that another determined effort should be made to regain possession of this historic trophy.  
 The club's competitions were all carried out to a successful termination, as the following list will show:—  
 January 10th, Anderson Cup, F. S. Stocking, 43; January 13th, Club Gold Medal, P. Johnston, 35; January 13th, Caledonia Medal, J. G. Bruneau, 35; January 20th, Colthurst Cup, Wm. Brodie, 43; February 6th, Carnival Trophy, 1883, J. G. Bruneau, 38; February 20th, Carnival Trophy, 1894, Wm. Brodie, 37; March 1st, Club Handicap, 1st, scratch, F. S. Stocking, 40; 2nd, 10, M. Holliday, 35; 3rd, scratch, W. Brodie, 35; 4th, S. J. Bain, 34; March 6th, Carnival Trophy, 1896, J. G. Bruneau, 39.  
**CHAMPIONSHIPS.**  
 Senior single handed, F. W. Smith, Dufferin Medal; Junior, single handed, S. Grogan, Lorne Cup.  
**SPECIAL COMPETITIONS.**  
 Senior and Junior double handed, J. G. Bruneau and A. Laurie; Junior double handed, Jas. Bain and E. E. Andrews; Bruneau Cup, T. Delany; Average prize (4 best scores) Wm. Brodie, 35 1/2.  
 The Club is deeply grateful to the following gentlemen who generously presented prizes for special competitions: Mr. A. W. Boswell, Senior and Junior Double Handed; Mr. R. Samson, Montreal, Junior Double Handed; Mr. Chas. Shaw, 2nd prize in Club Handicap; Mr. W. H. Davidson, 3rd prize in Club Handicap; Mr. J. G. Bruneau, 4th prize in Club Handicap.  
 It is a pleasure to record the increase in membership during the past season, 22 new members having joined with only two resignations.  
 It is our opinion that the new by-law permitting new members to join the club for a half subscription during their first year has worked satisfactorily.  
 Another innovation which was fully successful last season was the weekly Beef and Green Lunch. This undoubtedly was a good move in promoting the sociability of the members and with a little more systematic organizing it should prove a great success.  
 One of the most enjoyable events of the season was the grand club "Ronspie" of President vs. Vice-President. We are proud to state that we were able to place 12 rinks in this competition and the interest was very keen. This should be repeated more frequently during the coming winter.  
 We are sorry to record the death of one of our oldest members in the person of Mr. Edson Fitch, a past President of the Club, and on the eve of having attained a life membership.  
 Another death which grieved us very much was that of Mr. Geo. S. Bush, late of Montreal. Mr. Bush was a former member of our club and at the time of his death one of our representatives in the Branch.  
 Before closing we wish to congratulate our fair lady curlers of the Ladies' Quebec Curling Club on the good play which they showed last year and particular mention might be made of the winning back of the Coronation Cup. We also wish to thank them for their many acts of kindness which they performed.  
 The club's finances are in a better condition than for some time past and we trust with the increased interest in curling which has manifested itself in our club that we will shortly see the membership greatly enlarged.  
 The duty of every member is to bring another into this grand old game.  
 With all best wishes for a continued and increasing prosperity your retiring Committee of Management beg to submit the above report.  
 F. S. STOCKING,  
 Hon. Sec'y.

**CONSERVATIVE WON**  
**White Elected in North Renfrew by a Great Majority.**

Pembroke, Ont., Oct. 9.—In the North Renfrew Dominion bye-election to-day, Geo. H. White, Conservative was elected by 1032 majority. The liberal vote was split up owing to two candidates. Thos. Murray and Dr. M. McKay, running, both claiming to be supporters of the Laurier Government. The seat was rendered vacant by the death of Hon. Peter White, ex-speaker of the House. The member elected is a son of the late Hon. Peter White.

**NOTHING GIVEN OUT**  
**Provincial Premiers Have Not Yet Come to an Agreement.**

Ottawa, Oct. 9.—So far as could be learned the provincial premiers, at the interprovincial conference, have not yet reached an agreement as to the statement to be presented to the Federal authorities. There was nothing given out at six o'clock and the inference is that a spirit of accord has not yet been reached. To-night the visiting premiers were the guests of the Ottawa club at a banquet in the Russell House and some 150 guests sat down to what was no doubt one of the historic events of recent years. Nine provincial premiers and the federal premier do not sit down at the one table very often. The President, Major P. B. Taylor, presided and after the loyal toasts, made a gracious introductory speech and called on Sir Wilfrid Laurier, who spoke in his usual felicitous way. All the visiting premiers spoke and while there was nothing of political significance, the speeches were all intensely interesting and emphasized the rapid expansion and glorious future of the Country.

**DEATH OF PRIMATE**  
**Archbishop Bond Died at Montreal Yesterday**

Montreal, Oct. 9.—Archbishop Bond, Primate of the Church of England in Canada, died this morning at the age of 92. He had been failing for some time.  
 The Most Rev. William B. Bond, Archbishop of Montreal, and Primate of Canada, was born at Truro, England, on September 10, 1815. He received his primary education in his native place and in London. Leaving England at an early age, he went to Newfoundland, where he engaged in peculiar pursuits. His inclinations however, led him to an ecclesiastical life, and he was prepared for holy orders by the late Archdeacon Bridge. In 1840, under advice of the late Rev. Mark Willoughby, he proceeded to Quebec, where upon completion of his studies he was admitted to the diaconate and in 1841 was raised to the priesthood by the late Bishop Mountain. For two years subsequent to his ordination he was a travelling missionary. Under instructions from Bishop Mountain he organized several missions in the Eastern Townships. In 1842 he became incumbent of Lachine, and remained six years, being subsequently called to St. George's Church, Montreal, his connection with this parish continuing without interruption for 30 years, first as assistant and then as rector, until his consecration as Bishop in 1879. It is said that he had no superior as an administrator among all the clergy of the diocese. Upon the death of Archbishop Lewis of Kingston he became Archbishop of the old ecclesiastical Province of Canada, and upon the death in 1904 of Archbishop Machray he succeeded to the Primacy of the Anglican Church in Canada. He was married in 1841 to Miss Eliza Longley, of St. John, N.B., who died in 1879.  
 The late Archbishop Bond had a commanding presence, was an earnest preacher and a fine platform speaker. He had taken a prominent part in the life of Montreal and was connected with many religious and philanthropic organizations. He had always been an ardent supporter of the temperance cause and likewise earnest in the cause of good government. As an evidence of his good will towards his denomination it is related that when prostrated by illness in 1893 prayers were offered for his spiritual and temporal welfare in the Roman Catholic Churches in Montreal.

**FRUIT-A-TIVES are the finest medicine in the world for women.**  
 As a mild and gentle laxative—as a positive and speedy cure for Constipation and Bilioussness—as the only cure for weak and irritated kidneys and especially for "that pain in the back"—as a positive cure for headaches—and as a general tonic to build up and invigorate the whole system—FRUIT-A-TIVES stand supreme.  
 In cases of irritated Ovaries, Ovarian Pains, Vaginal Catarrh, Excessive and Scanty Menstruation, Ulcerations, Bearing Down Pains—and all those troubles peculiar to women—  
**Fruit-a-tives**  
 ON "FRUIT LIVER TABLETS"  
 have the most remarkable effect.  
 Ninety-nine cases out of a hundred of Female Troubles are due to neglected bowels become constipated—kidneys irritable—skin neglected—and the poisons of the body, which should be carried off by these important organs, are taken up by the blood carried to the female organs and poison them, thus starting up a train of female troubles.  
 FRUIT-A-TIVES are made from fruits and by their remarkable action on bowels, kidneys and skin, rid the system of poisons, purify the blood, and restore the delicate organs of generation to new vigor and health.  
 No woman, who suffers, should ever be without them. 50c. a box—6 for \$3.50, at your druggist's or sent postpaid by FRUIT-A-TIVES LIMITED - OTTAWA.

**C.P.R.'S BIG GROWTH**  
**Over Seven Million Dollars Worth of New Rolling Stock on Order.**

Montreal, Oct. 9.—It was announced at the C.P.R. offices this morning that the management has just placed orders for the construction of a hundred new locomotives of the largest type so that there are now on order a hundred and fifty new locomotives, representing an expenditure of about three million dollars. Eighty-five of these engines will be built by the Locomotive & Machine Company, at Longue Pointe, and the remainder by the company's own workmen at the Angus shops. The company has also an order at the Angus shops for two hundred passenger coaches of various kinds, and four thousand freight cars, the first named representing an expenditure of between one and two million dollars, and the freight cars representing an expenditure of about three million dollars.  
 There is thus over seven million dollars' worth of new rolling stock on order, and the work now placed at the Angus shops is sufficient to keep the works running at their full capacity for the next six months. Considerable enlargement to the works are being contemplated. The company at the present time is making extensions to the passenger coach department that will cost between a quarter and a half million dollars.  
 The management has also placed immense orders for rails to meet extensions authorized or contemplated. The orders for delivery next year amount to between a hundred thousand and twenty-five thousand tons. As all the rails of the company are made in Canada, this will mean employment for a large army of workmen at the two great steel rail factories of the Dominion.  
 It is stated that the new line of ocean steamships established by the company has resulted in a very great increase of business on the railway, and that the passenger traffic is now growing quite as rapidly as the freight. Fast as the business of the country is growing, however, the C.P.R. means to keep ahead of it. Hence the huge orders they have placed.  
**The Process of Corn Sowing**  
 By the agency of tight boots a crop is quickly raised, but its soon coaxed out by the application of Putnam's Corn Extretor. Nothing so safe and painless as Putnam's, use no other.

### Commercial News.

NEW YORK STOCK MARKET.

New York, Oct. 9.—Stocks failed to respond to the leadership of a few issues which showed strength to-day and the condition of the market became lethargic during the latter part of the day. There was no acute pressure at any time and the movements at one or two points in the lists where advances occurred were believed to be for sustaining effect. The railroad list was neglected and Pennsylvania was the only stock of first rate importance to show any activity or movement. There was some large buying in the stock on rumors of an intention to raise the dividend rate to 7 per cent at the next dividend period. A rumored dividend increase stimulated Amalgamated Copper in the early dealings also. The moderate strength in Union Pacific was due to the expectation of the early publication of the annual report. General Electric advanced on rumors of an intended stock issue with valuable subscription privileges. From those industrials the movement spread to others of that class, many weakening into sudden animation to-day and advancing rapidly with no news to explain the movement. Money in the local market continued to work easier. There was some slight relaxation in the London money market. The heavy tone of the latter market persisted to the closing, except in Pennsylvania. Bonds were firm. Total sales par value \$3,263,000.

### COOK'S Cotton Root Compound.

The great Uterine Tonic, and the only safe and effective Monthly Regulator on which women can depend. Sold in three degrees of strength—No. 1, 2, 3; for special cases, \$5 per box. Contains all the ingredients of the best prepared on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., Toronto, Ont. (formerly in Windsor.)

Appropriate wire from Chas. Head & Co., New York to Brunau & Dupuis, Stock Brokers, St. Peter Street.

### NEW YORK CLOSING LETTER.

From E. & C. Randolph's Private Wire to McDonald, Lesperance & Co.

This market is dull, professional and dominated decidedly by politics. The public interest is reduced to a minimum. Recently there has been a feeling that Hearst is going to be a hard-core man to beat than was at first thought and the traders are therefore disposed to be bearish and have been pounding the market pretty freely, but such speculative opinion is subject to quick changes and the shorts might produce a strong rally any moment. There is no liquidation and at the same time there is practically no outside buying and these reactions and rallies caused by shifting sentiment of the professional traders have very little significance are are entirely hard to follow.

NEW YORK FLOUR MARKET.

New York, Oct. 9.—Flour receipts, 28,920 barrels; exports, 417 barrels; market about steady; barley, steady. Wheat receipts, 241,500 bushels; exports, 15,945 bushels; spot, firm. The wheat market had good bulk support all day and in face of a slow outside trade was firm, options closed 1 cent net higher. Corn receipts, 49,735 bushels; exports, 150,875 bushels; spot, steady; option market was without transaction, closing unchanged. Oats receipts, 131,800 bushels; spot, firm; rosie, firm; pig iron, firm; copper, strong; lead, quiet; tin, steady; coffee, spot, Rio, quiet; sugar, raw, quiet; refined, quiet.

### AUCTION SALE.

CLOSING LETTER.

By private wire Neville Belleau & Co., 93 St. Peter Street, Quebec. Phone 946.

New York, Oct. 9.—The market this morning was dull and irregular with a strong undertone. The activity was confined to a few issues, however, and the dealings were almost entirely professional. Considerable pool manipulation was evident in the specialties, reflecting operations of this character. In the railroad list Pennsylvania was the principal feature, advancing on talk of increased dividends. Trading fell away to small proportions in the second hour and there were some fractional recessions, but the undertone remained firm. The market closed steady with a spurt by Pennsylvania toward the end and brought it up to the highest for the day.

### THE RUSSIAN ABYSS.

London, Oct. 9.—In spite of the official contradiction from St. Petersburg to-day, what is supposed to be Minister Kokovtsov's confidential report on Russian finances, published in the Paris Temps, is generally credited as being, if not authentic, at least very near the mark. A deficit of seventy-five million dollars has to be faced, with no prospect of a foreign loan. M. Kokovtsov turns in despair to the War Office for wholesale retrenchment. It appears as if Russia must sacrifice her national army to preserve her mere existence. All Russian correspondents of the London press agree in giving a picture of unmitigated gloom in Russia, and must now face famine, revolution, and bankruptcy, with no expedient other than those which have so often failed.

### STEAMER ORLEANS.

Porego, Louis H. Tache, E. W. Hendershot, J. P. Schmidt, G. A. Dillon, A. H. Thomson, and G. I. E. Desjardins, are among the Montrealers who registered at the Chateau yesterday.

**BAD FIRE AT LEVIS**  
 Store and Stock Greatly Damaged by a Blaze Yesterday Morning.  
 A fire which started about 10.45 yesterday morning in the store of G. & E. Couture, Cote des Marchands, Levis, assumed unexpectedly large proportions. It was discovered by Mr. George Perrault, who happened to be in the yard, and immediately gave notice to the employees and workmen of M. Gosselin, at the same time notifying the fire brigade. The fire had manifested itself in the upper story of the building, and no great importance was attached to it at first, the hand-pump of Mr. Couture, being utilized to check the flames till the arrival of the brigade.  
 When the firemen came on the scene no time was lost in establishing a stream from St. George street, but the hose burst, and the water gushed out on the street. Recourse was then had to the reservoir, but it was impossible to form an efficient service with buckets and a chain of men up to the upper story and some time elapsed before two streams were got from the hydrants in St. George street. The flames in consequence gained the mastery and it was found necessary to telephone to Quebec, which sent a detachment of five men and a ladder. These immediately set to work and tore down the roof, and the flames were finally extinguished. The cause of the fire is unknown but is supposed to be a defective chimney.  
 The damage was considerable. The roof, valued at \$1,500, was completely destroyed, and the stock, worth \$22,000, was damaged by smoke and water. The head clerk lost about \$200 worth of winter wear.  
 The building was insured for \$4,000 each in the Caledonian and the New York Underwriters' agency. There was also an insurance of \$8,000 in the Atlas on the stock, and \$300 in the Mount Royal on the furniture.  
 The new acqueduct of Levis was utilized for the first time yesterday in fighting the fire and was found to be most satisfactory.

**PERSONAL**  
 Sunlight Soap is better than other soaps, but is best when used in the Sunlight way. Buy Sunlight Soap and follow directions.  
**ENGLISH HABERDASHERY.**  
 Lloyd, Attree & Smith, of London, have forwarded by Empress of Ireland to Lafrance & Mullin, two cases of English novelties such as Doe Skin Colored Vests, English Silk Ties, Buckingham form; also Collars, Shirts and Underwear.

**THANKSGIVING SERVICE.**  
 The annual service of Thanksgiving for harvest will be held at St. Peter's Church, St. Valier street, to-morrow (Thursday), Oct. 11th, at 8 o'clock in the evening. All welcome. Thank offerings to be devoted to the Clergy Pension Fund.  
**LE THEATRE POPULAIRE AT THE AUDITORIUM.**  
 The Theatre Populaire will go to the Auditorium this week. Residents of the Upper Town will have the pleasure of enjoying the programme which had been prepared for the grand opening of the Jacques Cartier Hall. Owing to the incident of Monday, preventing the opening, the management of the Auditorium offered to take the programme prepared for the first week, at the Auditorium on Thursday, Friday and Saturday, with matinee Thursday and Saturday. The programme includes more than 20 numbers, including the latest success of the season in Montreal. The English song, "Sweet Adeline" is on the programme. Those who were disappointed on Monday can now avail themselves of the opportunity.

**A Wonderful Record.**  
 As made up by improved and exact processes Dr. Pierce's Favorite Prescription is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. It cures the backache, periodical headaches, the dragging-down disarray in the pelvic region, the pain and tenderness over lower abdominal region, dries up the pelvic catarrhal drain, so disagreeable and weakening, and overcomes every form of weakness incident to the organs distinctly feminine.  
 "Favorite Prescription" is the only medicine for women, the makers of which are not afraid to print their formula on the bottle wrapper, thus taking their patrons into their full confidence. It is the only medicine for women, every ingredient of which has the strongest possible endorsement of the most eminent medical practitioners and writers of our day, recommending it for the diseases for which "Favorite Prescription" is used. It is the only put-up medicine for women, sold through druggists, which does not contain a large percentage of alcohol, so harmful in the long run, especially to delicate women. It has more genuine cures to its credit than all other medicines for women combined, having saved thousands of sufferers from the operating table and the surgeon's knife. It has restored delicate, weak women to strong and vigorous health and vitality, making motherhood possible, where there was barrenness before, thereby brightening and making happy many thousands of homes by the advent of little ones to strengthen the marital bonds and add sunshine where gloom and despondency had reigned before.  
 Write to Dr. R. V. Pierce. He will send you good, fatherly, professional advice, in a plain, sealed envelope, absolutely free. Address him at Buffalo, N. Y.  
 Dr. Pierce's Pleasant Pellets do not gripe. They effectually cleanse the system of accumulated impurities.  
 The People's Common Sense Medical Adviser, by Dr. Pierce, 1008 pages, is sent free on receipt of stamps to pay expense of customs and mailing only. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address as above.

**DAY BY DAY.**  
 Roller-skating appears to be on the boom again in Canada. Many Quebecers, however, will continue to enjoy their skate without the aid of the rink.  
 There are only four letters in love, but there are generally more in the breach of promise case which sometimes follows, remarks the Champlain street philosopher.

Had yesterday been nomination day in the County of Quebec the force of the wind would have been increased fourfold.  
 One half the world doesn't know how the other half lives—and as a general rule doesn't care.  
 Is it on account of the electoral campaign in the County that the Quebec Gas Company are putting down additional pipes? asks the St. Malo oracle.

The falling rain and the falling leaves reminds us that we are up against the fall. There will also be more falling when the fall is gone and winter comes around.  
 Levis just needn't think that it can get ahead of Quebec, even in fires.  
 It doesn't pay to buck against authority even in Buckingham, it appears.  
 A female is popularly supposed to be at the bottom of every trouble, but in Halifax it is the mail that is bothering them.

Wind blowing fifty miles an hour ought to be strong enough to take the rouge off a Montreal girl's cheek, says the St. Malo oracle.  
 It is some days, remarks the Champlain street philosopher, since any Government officials were carried away on a steamer.  
 People looking for cheap clothes for the winter should steer clear of the Quebec police.  
 Last night was a fine one to remain at home, says the Champlain street philosopher.  
 The Levis prophet indignantly exclaims:—"Our town could not get up a nice-sized fire, but jealous Quebec must follow suit."  
 Good job the firemen saved all that wood in the lumberyard yesterday. It will come in handy this winter.

**F. SIMARD & CIE.**  
**Tweed and Broadcloth Overcoats for Women**  
 This season the Tweed Coat predominates over coats of all other mixtures.  
 Side by side with it in popularity are the broadcloth coats in black and the other fashionable shades in plain colors. These coats are made in loose-fitting models, so they are all ready to wear and require no alterations.  
 We are showing very handsome styles at low prices, for instance, coats of various tweed mixtures, 42 inches long, loose fly front, velvet collar, large patch pockets at \$7.50 to \$12.00  
 48 inches, tweed coats in light and dark mixtures of brown and gray at \$10.00 to \$20.00  
 Many other styles of German and English Tweeds at \$15.00 to \$22.50.  
 Also coats of black broadcloth, 50 in. long, prettily trimmed with braid, some of them are lined with silk or saten, others are unlined, \$12.50 to \$40.00

**Men's Overcoats to Measure**  
**WORTH \$18.50 FOR \$12.75**  
 F. Simard & Cie's Overcoats, at \$12.75 demand special attention from careful men.  
 Cold days are coming, and the warmth afforded by these meritable coats will be appreciated just as much as the style and finish they donate to the wearer.  
 They are to be made of Fancy Cheviots or Overcoatings, all the most popular patterns for the next season is represented here, all of a superior quality that will hold its shape and give wonderful wearing service.  
**Really Worth \$18.50 For This Week \$12.75.**

**Children's Coats and Dresses.**  
 What a pleasure it is to dress the little ones in pretty, stylish clothes. What a satisfaction it is when you are able to satisfy your own particular ideas and save considerable money at the same time.  
 A wonderful variety of coats in Serge, Cheviots, Bearskin, and cloth, size for 2 to 6 years \$3.00 to \$7.00  
 Children's dresses in the daintiest models you can imagine, all regular stock, all possessing charm and distinction, sizes 3 to 6 years \$2.25 to \$5.50.

**Embroidered Crepe de Chine Waist Patterns**  
 We have about twelve Embroidered Crepe de Chine Waist patterns, all the latest novelties from Paris, regularly worth \$7.00 to \$23.00, for \$5.00 to \$14.50
