SECOND TIME — This house situated on Du Rosaire Street has been the scene of a fire twice in the past two days. Although it burned down last year, discontented neighbours

have been complaining that it should have been demolished long ago. Police said the fires were set purposely to burn down the house completely. See story page 3.

## Egypt accuses US of blocking peace

UNITED NATIONS (AP) — Egypt and the Sudan have accused the United States of blocking peace in the Middle East by giving support to Israel.

The two Arab countries made the charges Tuesday in policy speeches to the 126-country United Nations General Assembly. Lebanon, a third country, assailed Israel but refrained from any criticism of the U.S.

Outside the assembly, Michael Stewart, the British foreign secretary, said the real peril in the Middle East crisis is that Israel and the Arab states will freeze their attitudes toward a solution.

"If once they freeze themselves it may be impossible to get a settlement at all," he said in reply to questions at a news conference.

But he said he believes slow progress is being made in the continuing diplomatic efforts to work out an Arab-Israeli peace package that could be accepted by both sides.

Mahmoud Riad, the Egyptian foreign minister, told the assembly U.S. military and political support of Israel—such as the supply of U.S. Phantom jet aircraft—violates the UN charter and "is against peace in the Middle East."

### WON'T MEET ISRAEL

"It is within our right," he said, "to ask the United States to follow in the Middle East a policy of justice compatible with the charter and in its own commitments, and to proceed from the principle that the right of an Arab man to peace, his land and his home should not be sacrificed to satisfy Israel's dreams of territorial expansion."

Riad rejected demands by Israel for direct negotiations, saying they would amount only to a continuation of aggression and a means of consolidating the fruits of aggression.

"No matter how much military assistance the occupying Israeli forces receive, never will they overcome the will and determination of the people of Egypt to recover the occupied territory, nor will they ever be able to impose on the people of Egypt or other Arab people a capitulation," he said.

The Israeli UN delegation said in a statement that Riad's speech "confirms the intransigence" of Egypt in regard to establishing peace with Israel and negotiating secure and recognized boundaries.

Sudanese Premier Sayed Babiker Awadalla declared that U.S. policy "can lead to nothing but the alienation of the Arabs."

He said U.S. policy is one-sided and could aggravate the Middle East situation to the point where the nuclear powers might

become involved.

Youssef Salem, the Lebanese foreign minister, in concentrating his fire on Israel, accused the Jewish state of deliberately sabotaging all chances for peace in the Middle East.

LOS ANGELES (AP) — Grant B. Cooper, former defence lawyer for Sirhan Bishara Sirhan, was fined \$1,000 Tuesday for contempt of court. He had pleaded guilty to illegally possessing and using a secret federal grand jury transcript in a different case.

Cooper, 66, and another lawyer, William Marshall Morgan, 49, who also pleaded guilty, were sentenced by Judge Albert Lee Stephens Jr.

There is no set penalty for contempt of court. Morgan's penalty was the same as Cooper's.

The two lawyers and nine other men were accused of obtaining, possessing and using a transcript of secret U.S. grand jury testimony in the trial of four men convicted of rigging card games at the Friars Club. The other cases are pending.

After the Friars Club trial, Cooper took over as chief defence counsel for Sirhan, later convicted and sentenced to death for the June, 1968, slaying of Senator Robert F. Kennedy.

## NEWS IN BRIEF

### Tapes submitted

MONTREAL (CP) — Montreal and St. Leonard police Tuesday submitted to the courts audio-visual tapes seized from six radio and television stations in connection with the recent school-language riot in suburban St. Leonard.

The submission was made following a request for a court order by Montreal lawyer Raymond Daoust.

Mr. Daoust represents Raymond Lemieux, leader of the Ligue pour l'Integration Scolaire, who faces charges arising out of the Sept. 10 clash between supporters of English and French-language education.

### Marchand still thinking

QUEBEC (CP) — Raymond Decarie, a secretary to Regional Development Minister Jean Marchand, says Mr. Marchand will decide by Oct. 1 whether to seek Quebec's provincial Liberal leadership.

Mr. Decarie said in an interview Mr. Marchand is devoting much of his time to consultations in the matter.

Mr. Marchand was also receiving fewer visitors to his office and was cancelling appointments, indications of his increasing study of the leadership, Mr. Decarie said.

### Laporte might run

QUEBEC (CP) — Liberal Pierre Laporte is expected to announce his candidacy for the leadership of the Quebec Liberal party Friday.

A statement issued on Mr. Laporte's behalf announced a news conference will be held in the Montreal region at 3 p.m. Friday.

Opposition Leader Jean Lesage announced his resignation Aug. 28. A leadership convention will be held here Jan. 16-17.

## No nurse strike is in sight

SHERBROOKE — (RS) — With negotiations reported going well in Montreal, the possibility of nurses going on strike has been temporarily

dismissed. CNTU technical adviser, Maurice Guertin, representing the nurses in the region, said yesterday that negotiations

between both parties had picked up and that a settlement would probably be reached within the next few days.

Government officials and the National Federation of Services, which represents some 80,000 government employees in the province, have been negotiating since May of 1968, one month before the two year contract expired.

The unprecedented 21 day long strike during 1968 led to the signing of a two-year contract, now long expired, he said.

The new three year contract now

being negotiated in Montreal, he added, will be retroactive as of July 1968.

"Although the mediation period has also expired," continued the CNTU adviser, "has not been renewed and does not mean the nurses are planning a strike," he confirmed.

In order for a strike to be legal, Mr. Guertin explained, an eight day notice must be given to the minister of Labour after the mediation period has expired.

He added that the first indication of a strike would be a general vote, "which has not been taken."

## St. Leonard kids get back to school

MONTREAL (CP) — The school year finally got under way Tuesday for 330 English-speaking St. Leonard children, caught up in a lengthy conflict over school language rights.

Accompanied by their parents, the Roman Catholic Grades 1 and 2 students were transported by bus to two schools under Montreal's Protestant school jurisdiction and settled into their respective classrooms.

The two elementary schools, Nesbitt and Tetreaultville, are under the administration of the Protestant School Board of Greater Montreal and are located outside the boundaries of St. Leonard, a northeast suburb.

The normal amount of tears and confusion by distraught first graders failed to slow down the roll call in the basement of Nesbitt school. Most of the names called out were Italian.

St. Leonard, where the Roman Catholic elementary school board last year began eliminating English-language instruction, has a population of about 35,000 — 45 per cent of which is of Italian origin.

The Montreal Transportation Commission has agreed to provide four buses for the children at a cost of \$100 a day during the

school year. Transportation costs, estimated at about \$20,000 for the 1969-70 school year, and the \$25 monthly fee charged by the Protestant board for each of the Catholic children are being shouldered by the St. Leonard Parents Association.

The association, headed by Robert Beale, is seeking to collect as much as \$140,000 this year to meet these costs.

Mr. Beale said Tuesday more than \$9,600 in private and business donations has already been received.

"We need \$10,000 by Oct. 1 for the monthly fees so there are no problems at present," he told reporters.

Mr. Beale is planning a speaking tour in Montreal and throughout the province to try to raise the money to keep the temporary classes in operation.

The Protestant school board is providing 11 teachers and 10 classrooms in the temporary setup. One French specialist will visit each class on a rotating basis.

Religious instruction will be provided by a brother or nun. Board official Kenneth Hill said the religious instruction period will be worked into the regular Protestant curriculum for the Catholic children.

## Irishmen argue

BELFAST (AP) — Prime Minister James Chichester-Clark accused the Irish Republic Tuesday of trying to embarrass his government over the rioting in Northern Ireland and rejected unity with Dublin.

He rejected suggestions that the southern and Northern governments move toward a closer relation along federation lines to ease tensions involving their Roman Catholic and Protestant populations.

The independent republic is 95 per cent Roman Catholic and the North, linked to Britain in the United Kingdom, is two-thirds Protestant.

Jack Lynch, premier of the Irish Republic, said during the weekend that he is willing to consider a federal solution — in which each country would retain its own Parliament — as a means toward "a free and genuine union."

Chichester-Clark said: "No proper view can be formed of the attitude of the North unless one accepts that the loyalty of the vast majority here to Britain and to the Crown is an intense and deeply rooted thing. I say with emphasis that we mean to maintain inviolate our link with Britain."

## Bertrand announces Valcourt plans

VALCOURT — (CJ) — Monday by Premier Jean-Jacques Bertrand. The Quebec Premier, who was accompanied by Jean-Paul Beaudry, Minister of Industry and Commerce, and Armand Russell, Minister of Public Works, in the provincial government, made his announcement during a

reception tendered by the Valcourt Municipal council.

Without in any way limiting himself as to the projects to be carried out, Mr. Bertrand indicated that the development would include a new inter-municipal waterworks system to cost an estimated \$1,000,000, a housing development, an

educational campus; the completion of the road between Sherbrooke and Valcourt; participation by the provincial commission of recreation, sports and youth in the field of municipal recreation; improvement of an artificial lake using the waters of the Yamaska river; the unification

of the school commissions and an inter-municipal fire protection service.

Industry Minister Beaudry, who has been named coordinator for the Valcourt development, explained that the project came under his

## THE DOCTOR SAYS

Need Tension Relief? You Must Learn to Relax

By WAYNE G. BRANDSTADT, M.D.

If you can learn to relax as completely as your sleeping cat or dog—and you can—you will be well on your way to conquering your nervous tension. When relaxed and reclining, your limbs, if lifted up, will fall back like a wet rag. Tension is basically nothing more than the contraction of one or more of your muscles. Relaxation, which is not confused with recreation, is a complete letting go of all muscular contractions.

The disorders stemming from excessive tension include peptic ulcer, mucous colitis, high blood pressure, coronary heart disease, insomnia, anxiety states, nervous stomach and depression. The ability to relax is the prime prerequisite to the avoidance of all of them but, for most victims of these disorders, the habit of tension is so firmly entrenched that it cannot be overcome without the expert guidance of a doctor trained in progressive relaxation.

Every task you perform requires nervous energy. The harm comes from the fact that when the need for normal tension passes we fail to unwind or let down. Because some of our tension is based on persistent reports of impending disasters of every kind beamed at us daily through various news

media, it is all the more imperative that we learn how to relax.

Although partial relaxation of those muscles not needed for the task at hand—can and should be practiced throughout your waking hours, complete relaxation is accomplished only by lying down, preferably on your sides and no part of your body resting on another. You must then become fully aware of the difference in the way a contracted and a relaxed muscle feels. This is especially important with regard to the small muscles around your eyes, ears and larynx.

When you have learned to relax these muscles and blot out all thoughts from your mind it will be difficult, if not impossible, to remain awake and in that moment you will have solved the problem of insomnia. There is no better way to relieve the tensions of the day than to lie down for a brief period of relaxation one or more times a day.

my's queen of diamonds. So far, so good. He cashed his ace of diamonds and ruffed a diamond while East discarded. Then he ruffed a spade in dummy and made the important play of cashing dummy's ace of clubs. In working a cross-ruff, it is important to get in your side cards before your opponents have a chance to get in position to ruff them.

Now he led dummy's last diamond. East could gain nothing by ruffing and discarded. Now Eddie led his last spade.

If West discarded, Eddie would ruff for his 10th trick, so West ruffed with the jack of trumps. This left Eddie with the king-10 and, since West was on lead, Eddie could show his two cards and claim the last two tricks.

## Sherbrooke Fusiliers celebrate anniversary

SHERBROOKE — The next twelve months will be important to Les Fusiliers de Sherbrooke, RCIC, as the militia unit celebrates its 60th anniversary year. The first event in a long list of planned projects, social and training endeavors, will be a regimental parade Wednesday evening, Sept. 24 in the Belvedere Street Armory starting at 8:15 p.m.

Lt-Col Jacques Dube, CD,

commanding officer of Les Fusiliers has given a brief outline of the events planned, among which training and exercises will be highlighted by reflections of the regiment's past. He noted, in an outline to the press, that the Fusiliers was Sherbrooke's first French-Canadian Unit in the Eastern Townships, being formed in the autumn of 1909.

At the beginning of the Second

World War, The Sherbrooke Regiment, now the Sherbrooke Hussars, and Les Fusiliers de Sherbrooke amalgamated to form the famous Sherbrooke Fusilier Regiment (27th Armored Regiment) RCAC, which gained acclaim in the western European campaign of 1944-45. After the war, the two militia units reverted to former identities, but both carry the battle honors of the 1940-46 unit.

## Fights city hall and wins

SHERBROOKE — (RS) — He asked for gravel and he was offered cement and asphalt.

Now over 40 children will be able to use the path running through Victoria park to get home.

In fact, such a gravel trail was promised by the city to Kennedy and Levesque Street residents over two years ago.

Concerned over the delay, Roland Fournier, a Levesque Street home owner met with city council Monday night and won his point.

Mr. Fournier, quite modest with his demand asked council why it had not acted in the matter.

He said children had to walk an additional mile in some cases to get home.

"Since Chicoyne Street is still unpaved and without night lights," he added, worried parents are acting as private drivers in getting their children home safely after dark.

"Money was voted and is still available," answered Mayor Armand Nadeau.

Well prepared and armed with information from previous encounters with city officials, the delegate told council of its obligations to home owners of his area.

Alderman Romeo Quintal, from the East Ward, voiced heavy discontent over his colleague's alderman Deziel's implications in the matter.

Mr. Fournier had previously told council he had been in touch with Ald. Deziel about the matter.

Pointing to Ald. Quintal, the owner added "I didn't talk to you about it, because I knew I wouldn't get anywhere."

To everybody's surprise, Mayor Nadeau proposed the path be graveled and cleared of snow during the winter months by city employees.

Ald. Deziel seconded the motion, with the other aldermen keeping from commenting.

Concluded Ald. Antonio Pinard following Mr. Fournier's departure "a man defending his rights."

## Thivierge says he was at home

SHERBROOKE—Yvon Thivierge, accused in connection with the robbery of Allatt's Bakery last March, was apparently at his parent's home in Ascot North, when the theft occurred. So said Huguette Schafer, his sister, who was visiting her parents on Sunday, March 30, the day in question.

She said he was there at 6:30 p.m., the same time he was allegedly in the offices of the Bakery with the co-accused, Jacques Turcotte, who was apprehended at the scene.

Her husband verified this testimony, saying that he saw Thivierge in the house at about 6:15.

Prosecutor Andre Langlais pointed out that Mr. Schafer was uncertain about when he arrived in Ascot North and that he couldn't even remember what he ate for supper that night. How could he be sure, he asked the jury, of the exact time he saw Thivierge?

Thivierge, a 25-year-old store clerk, said he had inquired at a service station about getting acetylene tanks, simply to cut a car frame. Similar tanks were

found at Allatt's.

He said that he spent the afternoon with his girlfriend in Sherbrooke and took a taxi to Ascot North around 5:45, arriving at close to 6:00 p.m.

Raynald Frechette, his lawyer in the case, asked what he did then. He said that he stayed home. He added that he didn't go to Allatt's Bakery at any time.

The jury's verdict is due today.

## Liberalized store hours

The Sherbrooke City Council is displaying common sense in proposing that local merchants be allowed to keep their stores open two evenings weekly instead of being limited to Friday nights as under present regulations.

One of the greatest problems facing prospective shoppers today is in finding a store open at convenient hours, this problem being especially acute in the many cases where both the husband and wife work during the day.

Many establishments close at 5:15 or 5:30 p.m. with the result that customers, unless they happen to work in a plant that closes early in the afternoon, must crowd their shopping expeditions into Friday evening and Saturday or transfer their patronage to stores located in other municipalities where the store opening hours are more liberal.

The natural result of the tight restrictions on night shopping is that the stores are crowded Friday evening and Saturday and the prospective buyer cannot receive the attention he, or generally she, deserves.

In most areas of North America, including wide areas of the Province of Quebec, there has been a strong tendency to extend shopping hours.

Sometimes restrictions have been abolished completely, leaving the question of store opening and closing to the exigencies of the market demand, while in other areas shopping is permitted two or three nights per week.

Generally speaking, the extended business hours have been welcomed by the merchant, employee and shopper alike.

Entering a new television season is like passing through a town of 300; blink, and you miss the sign.

## Eire taxmen favor arts

An aspiring author works for a couple of years on a book, finally gets it published and makes a few thousand dollars. He works a few more years on another production and it reaches the best-seller class. But most of his revenues are eaten up by income taxes.

And other artists — whether they be authors, painters and sculptors — in almost every country of the world suffer from the same problem.

But with a typical flash of Irish genius, the government of Eire proposes legislation that would exempt all creative artists from paying taxes on their output, the clause being contained in the Republic's latest budget.

However, before the authors, artists and sculptors prepare for a mass exodus to Ireland, they might consider some of the problems involved.

For example, only artists whose work has "cultural or artistic merit" will qualify for the exemption.

Who will determine "cultural or artistic merit?"

Will it be somebody like the Canada Council? Anyone who has studied the awards made by this august body will understand why some authors prefer to risk paying taxes elsewhere in the world to subjecting themselves to the whims of such a group.

And how will an artist with strong political activist tendencies come out when he runs up against the establishment?

But, despite these qualifications, there is reason for not taxing artists — especially those poor, proud and often dreaming individuals who provide much of the color for the life of a nation if they happen to strike it rich.

The self-made man is often something less than perfect as a designer.

Sir James Brooke, English soldier and traveller, was made Rajah of Sarawak officially 128 years ago today—in 1841—as a reward for helping the sultan of Borneo put down a rebellion. Brooke later became British governor of Labuan but lost this post after a financial inquiry. He lived only part of the time in Sarawak and had to put down a local rebellion on almost every visit. However, his title passed without dispute to his descendants to this day.

## Distribution main cost

### Comprises two-thirds grocery bill

WASHINGTON — (AP) — The cost of getting food from the farmer to the housewife has soared 160 per cent in two decades and now consumes two-thirds of the American grocery bill.

The House agriculture committee cites these figures: Twenty years ago, when Americans spent \$45,000,000,000 a year for food, the farmer got about \$20,000,000,000. Today, when the country's annual food bill is about \$90,000,000,000, the farmer gets about \$30,000,000,000 and the middlemen about \$60,000,000,000.

The recent upward trend — the U.S. labor department reported recently that the cost of living is going up at the fastest rate in 18 years — has been so steep that in some areas housewives are talking of boycotts in an attempt to bring down the cost of food. "My food bill averaged \$135 a month in 1964 and the same stuff would cost me about \$275 monthly in 1969," said Mrs. Jan Stophlett, who is leading a protest movement in Cocoa Beach, Fla. "That hurts."

Similar complaints are being sounded elsewhere. WHAT HAPPENED

The widening farmer-to-consumer gap is clear in a comparison of agriculture department statistics showing what happened to the money a housewife paid for a loaf of bread 20 years ago and what happens to it today.

In 1949, the average price of a one-pound loaf of white bread was 13.5 cents. Today, the same loaf costs 22.9 cents.

In 1949, the retailer's slice of the bread price was 2.2 cents. Today it is five cents.

In 1949, the baker and wholesaler — the key middlemen — got 6.3 cents. Today they get 12.2 cents.

In 1949, 1.7 cents of the retail price went for milling, grain handling and transportation. Today the figure is 2 cents.

In 1949, the farmer received 3.3 cents for his wheat and other ingredients — such as lard, sugar and dried milk — that went into the loaf of bread. Today he gets the same 3.3 cents.

The staff of the House agriculture committee, in a

report this year, pointed directly at the middlemen in discussing the reasons for rising prices.

MIDDLEMEN TAKE IT "Processors and marketing agencies — the middlemen — experiencing higher costs, have been successful in adding greatly increased charges to farmers' products before they reach the consumer," the report said.

"All the increase in retail price — and more — goes to the middlemen. None accrues to farmers."

Middlemen bristle at the contention they're solely to blame for higher prices.

"It's inflation-pure and simple," said Clarence Adams, president of the National Association of Food Chains.

Adams and other spokesmen for marketers tick off their own rising cost-labor costs up more than 100 per cent in 20 years, costs of containers and packing material up 40 per cent, overhead costs such as rent up 96 per cent.

Housewives, they add, also are demanding foods that require more and more processing — canned chocolate pudding, for example, or frozen three-course dinners.

A commission set up by former president Johnson to study food marketing costs, however, was critical of the substantial costs built into the price of food as a result of various forms of selling effort — advertising, sales promotion, expensive packaging, salesmen.

## Charges, cross-charges mark German campaign

By OTTO DOELLING

FRANKFURT — (AP) — Charges and counter-charges of past and reborn nazism have been hurled about in the campaign for the West German elections next Sunday.

Chancellor Kurt Georg Kiesinger, a Nazi party member from 1933 to 1945 and deputy head of the radio propaganda section of Adolf Hitler's foreign ministry during the Second World War.

Economics Minister Karl Schiller, a one-time member of Hitler's Brown Shirts and of the Nazi League of University Professors.

Adolf von Thadden, chairman of the ultra-nationalist National Democratic party, whose sharpest critics contend he is the spiritual heir of Hitler's party.

Kiesinger and von Thadden are continuously beset by leftist demonstrators shouting the

Hitlerian "Sieg Heil" and "Nazi."

Kiesinger, chairman of the Christian Democratic party, also has come under fire from within his own cabinet.

Schiller, a member of Foreign Minister Willy Brandt's Social Democratic party, broke a truce between the government coalition parties.

"The chancellor, or better yet, the CDU chairman, has a disturbed view of freedom of speech and the press," he said.

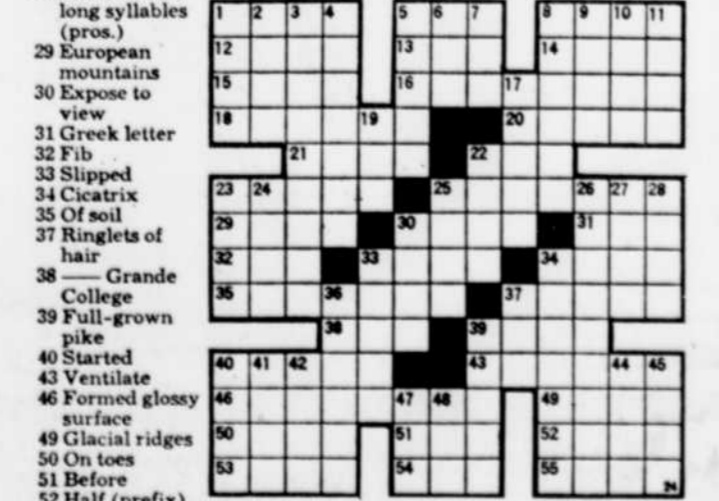

"Kurt Georg Kiesinger should reflect and consider if he has his personal and occupational background to thank for this disturbed view."

The spark for this attack was strong objection by Kiesinger's party to a nationally televised program that accused it of vying with von Thadden's party for the rightist vote.

## Coming events

The ladies committee of the Lennoxville Golf and Country Club are planning a Harvest Buffet for Thursday, September 25 from 6 to 8 p.m. at the Clubhouse.

## Pink & blue shower

DERBY LINE — Mrs. William Jonis and her daughter, Mrs. Anthony Champigny of Morgan, were hostesses for a delightful stork shower at the home of Mrs. Jonis. Mrs. Burton K. Daggett was the guest of honor.

The decor was carried out in a color scheme of pink. Mrs. Daggett was wearing a corsage of roses from Mrs. Jonis' garden while arrangements of flowers from the gardens of Mrs. Champigny decorated the home.

Mrs. John Cowens and Mrs. Elsie Cowens, the mother and paternal grandmother were seated with Mrs. Daggett. A tea wagon held the prettily wrapped and ribboned gifts which were opened to reveal a wide selection of lovely items for the expected baby.

The buffet table was attractive with a pink and white cover and centered with the stork cake, made and decorated by Mrs. Benoit Blais, with apple blossoms and centered with a pair of pink booties. Pink candles in pewter holders completed the decor.

Guests attended from Newport, Morgan, Derby and Boundary Villages.

# Every second car

By HEWARD GRAFFTEY

If you walked to the corner of Central Park West and 74th Street in New York City on Saturday, September the thirteenth, there wouldn't be very much to see or notice. No monuments or plaques commemorate any special event. Cars speed by and pedestrians hustle past pretty much in New York fashion. Yet, it was here, at this very same corner, that H.H. Bliss, a real estate dealer, was struck down and killed by a horseless carriage. The date was September thirteenth, 1899. Bliss, while stepping down from a horse driven trolley-car, became the first victim of the automobile age. Now, exactly seventy years later, we have a world wide epidemic on our hands.

In this seventy year period approximately one and three quarter million Americans and Canadians have lost their lives in or by the automobile; more than all the victims claimed in all the

Wars in all our history. Today, in Canada alone, over five thousand Canadians are dying each year on our highways. At the same time, two hundred thousand Canadians (the size of a large city) are permanently disabled while, annually, the direct measurable cost to the economy is in the neighbourhood of one billion dollars. The automobile is the biggest killer of our young people between the ages of sixteen and thirty-five, the third biggest killer after heart disease and cancer — of all our people. Yet, we spend virtually no research dollars to find out really — why people are getting into accidents and what kills or injures them. In the fifties, we spent millions to lick polio — but, in any one year, polio never claimed more than four per cent of the total of those who perished on our highways. Unless we reverse the upward trend of this public health epidemic, soon every second car rolling off our assembly lines will be involved in a death or injury producing accident.

It would be ridiculous to argue that the automobile has not, in many ways, transformed our lives for the good. Who can really argue that increased mobility does not have many advantages. It has — but, to say as many do, that the slaughter on our highways is the price we pay for efficient transportation is pure fantasy.

It is a waste of time to allocate blame. Blame cannot be pinpointed. It is enough to say that unbelievable Government inertia, public apathy and the automobile industry's lack of responsibility have all played their part. Also no epidemic has ever been subject to more over simplified answers and cliches than this one. Some blame the driver, others the car, and others the road. In fact, death or injury producing accidents involve all three. The anatomy of an accident involves the driver, the

road and the car — and it is only when we systematically attack all three that we shall begin to make progress. — What is not being done now — that should be done by Ottawa and the Provinces?

Here in Canada, all cars imported into or built in our country must come up to strict federal safety standards in terms of safety engineering built into the vehicle. Ottawa must police the recall of faulty vehicles and create a National research centre where meaningful and uniform accident reports are studied — so we can begin to find out more about the whys and wherefores of death and injury on our roads. Ottawa should co-operate with U.S. public authorities in the building of a safety car with public dollars — in order to draw up public standards for the manufacturing of safer vehicles by industry. The Provinces must order a meaningful and regular inspection of cars already on the roads and a proper certification for second hand cars, while the Provinces and local governments must educate and police better and safer drivers. They must also engineer and build better and safer roads.

We have long since known many of the answers to the problem — but have failed to act. While this is a sad story, I am beginning to detect a ray of light.

A great percentage of modern thinking people and of the new generation are seriously questioning — not just the war in Vietnam — but a culture and social values and priorities which permit, amongst other things, a polluted environment and needlessly smashed bodies on our highways. We must mobilize the conscience of our people and the technology of our times. Institutions and civilizations which cannot face up to and lick these problems don't deserve to survive.

# SURE FOOTED as a WILDCAT

## PREMIUM QUALITY NYLON TURNPIKE SAFETY '4'

Safety '4' Wildcat has a lot going for it. Much more than you'd expect to find in medium-priced nylons. Where else would you get the tenacious grip of a great cat, the racy look of a Grand Prix tire? Yet that continental look runs more than skin-deep. Built to set your car closer to the road, Safety '4' has the high-speed stability and easy handling that take highway problems in stride. Like a Wildcat, it has the instinct for swifter stops, faster take-offs. Its inner strength and stamina spring from a Dupont Nylon 4-ply cord body that measures up to the toughest road tests. A great tire — a great value! And it's not alone. If long mileage is on your mind, take a look at its running-mate — Turnpike '78' Nylon. This one has the low, wide proportions of tires you'll soon be seeing on the new 1970 high-performance cars. And it's a Whitewall at only \$2.50 more than the regular Safety '4' Blackwall.

\*Manufacturers' List Price — If you're confused about this term, here's the gen: Each manufacturer publishes a list of prices. Generally speaking, for similar grades, these prices are pretty much the same. Newspaper advertised sale prices may cut these list prices 15% to 25%. By contrast, Canadian Tire cuts list prices by more than 50%. Come in — compare — and see for yourself!

Cincy Reds virtually eliminate Dodgers, dropping them twice

# Surging Braves regain top spot in see-saw NL race

San Francisco Giants left Ollie Brown off their protected list for last year's National League expansion draft and San Diego Padres promptly picked him No. 1. It took almost all season, but Brown has finally made the Giants No. 2.

It came about in the ninth inning of Tuesday night's game in San Diego. Roberto Pena singled with one out and pinch runner Ron Slocum raced to second on reliever Frank Linzy's wild pitch. Up stepped Brown and singled to centre, driving in Slocum and giving the Padres a 5-4 victory that knocked the Giants out of first place in the West Division.

The Giants fell one-half game and three percentage points behind Atlanta Braves who trounced Houston 10-2, eliminating the Astros from the race.

Cincinnati Reds remained in contention three games out by sweeping a doubleheader from Los Angeles 6-3 and 5-2, dropping the Dodgers 5½ games off the pace and virtually ending their flag hopes.

New York Mets clinched a tie for the title in the East Division, edging Bob Gibson and St. Louis Cardinals 3-2 in 11 innings. That put the Mets six games ahead of Chicago Cubs, who lost to Montreal Expos 7-3. Both teams have six games remaining.

Philadelphia Phillies nipped Pittsburgh Pirates 4-3 in the other NL game.

**SWEET REVENGE**

The game-winning hit was sweet revenge for Brown, touted as a coming star when he played with the Giants in 1966 and 1967.

A year ago, Brown had a good spring but wound up sitting on the bench while Jesus Alou roamed the San Francisco outfield.

"I thought off my showing in 1967 (13 homers, 53 runs batted in and a .267 average) that I'd get a good shot to start with the Giants, but it didn't work out that way.

"Being drafted was a whole new start for me. I'm glad to be with San Diego where I have a chance to play every day."

The Braves, meanwhile, snapped a 2-2 tie with four runs in the sixth, added four more in

the ninth and cruised past the Astros. It was their fifth consecutive triumph and 12th in 15 games.

**PETE ROSE STARS**

Johnny Bench and Pete Rose keyed early Cincinnati rallies in the Reds' opening game victory over the Dodgers, then Rose slammed a two-run homer in the nightcap and singled in a third run.

The Mets, reducing their magic number to one, scored the winning run with one out in the 11th on consecutive singles by Ron Swoboda, Jerry Grote and Bud Harrelson. In the eighth, Swoboda made a diving stop of a drive with the bases loaded, two out and the score tied 2-2.

The Mets can wrap up the title today by beating St. Louis or if Chicago loses to Montreal.

Home runs by Rusty Staub and Ron Fairly helped the Expos to a 7-0 lead and Bill Stoneman went the route to beat the beleaguered Cubs Tuesday. Bob Bailey's triple gave the Expos a run in the first and they added three in the second.

Richie Allen drove in two runs

with a double and sacrifice fly to lead the Phillies past the Pirates.

Sam McDowell figured there was an easy solution for stopping the only American League regular-season challenge left for the Baltimore Orioles, and it worked.

"I said before the game that Baltimore could be beaten with fast balls in and out," said McDowell. "I threw mostly fast balls tonight. I felt tired late in the game, but still had the fast ball."

The Orioles caught the veteran hurler for only three hits Tuesday night as Cleveland Indians pulled out a 3-1 victory that slowed Baltimore's sizzling drive toward a league record for season victories.

McDowell, who achieved a personal high with his 18th victory against 14 losses, struck out six and didn't walk a batter in holding the Orioles' season triumph total to 106.

Quebec golfers are invited to participate in the fourth annual tournament, "George Trew", at the Mount Orford Golf and Country Club on Sunday September 28th, from 9 o'clock a.m., which is under the support of Mr. Ernest Pouliot, local O'Keefe agent.

Last year, well-known golfers such as Jos Leblanc, Gordon Leriche, Henry Setlakwe and many others had played in this tournament.

The Engineering Institute of Canada and The Corporation of Engineers, Eastern Townships branch, jointly organize a golf tournament for their members and guests. This first activity of the season will be held next Saturday, Sept. 27 on the links of the beautiful Mt. Orford Golf Club.

Tee off time will be between 10 hrs. 30 and noon and program committee chairman Jean Charron invites members and their guests to be at the Golf club at these hours. A good number of prizes will be awarded to the best gross and net scores and last year's winner Andre Hamel will be present to defend his title.

## Manager Williams axed

BOSTON (AP) — Controversial Dick Williams, who led Boston Red Sox to their Impossible Dream pennant as a rookie manager in the 1967 American League baseball season but feuded off and on with players throughout his tenure, was fired Tuesday.

The terse announcement by the club said only that Williams would not be back in 1970, and that coach Eddie Popowski, 56, would manage the team for the rest of this season.

The team declined comment on a published report in the Boston Record American that Eddie Kasko, manager of its Louisville farm club in the International League, would be the new pilot.

There also was no immediate indication whether Williams, who has another year to go on a three-year contract calling for a reported \$50,000 per year, would be offered another post in the organization.

At his home in Peabody, Mass., Williams said it was lack of communication with his players that cost him his job.

"I enjoyed nothing but the finest relationship with Red Sox general manager Dick O'Connell," he said.

**THIRD WINNING YEAR**

Williams said he knew for two days that he was through and had been asked to finish out the season. He said he stayed until Monday night's victory over New York Yankees assured him of a third straight winning year in club victories and losses.

Williams, 40, played the last two seasons of a 13-year major league career with the Red Sox in 1963 and 1964, then managed their Toronto farm team to International League playoff championships in 1965 and 1966.

Moving up to the parent club, he took a 100-1 shot which had finished ninth the year before and led it to the pennant, gaining overwhelming acclaim as the American League's Manager of the Year.

The team gained more glory in a gallant seven-game World Series stand before bowing to the favored St. Louis Cardinals, but the next two years were full of injuries and disappointments. The Red Sox finished a badlybeaten fourth in 1968, and were never in contention this year. They are currently third in the six-team Eastern Division.

Williams began his major league managerial career as a strict disciplinarian who ran his club with an iron hand. Even in the pennant year he had trouble with some players, but they were overshadowed by the hectic drive for the flag, which went down to the final day of the season.

Kasko is a former major league infielder who, ironically, would be in almost exactly the same position as Williams. He, too, played for the Red Sox in the twilight of his career. He also has been managing their top farm team—replacing Williams at Toronto in 1967 and continuing to manage the team in the last two years in its new location at Louisville.

## Jackie Parker new head coach-Lions

VANCOUVER (CP) — Jackie Parker, one of Canadian football's all-time greats, Tuesday became head coach of the biggest losers in the Canadian Football League, replacing Jim Champion at the helm of the defanged British Columbia Lions.

The 36-year-old Parker, whose playing career with Edmonton Eskimos and Toronto Argonauts reached near-legendary stature before he moved into CFL coaching as an assistant with the Lions two years ago, has the job at least until the end of the season.

It's no prize. When the Lions gave Champion the boot Tuesday, Parker inherited a club that has won one game in 10 starts this season.

"I don't know quite what I'm going to do or what changes I'll make," said Parker.

"It all happened so suddenly I can't say there'll be anything different from what coach Champion did—I think he did everything anybody could do as well as anybody could do it."

Champion, a stocky crewcut southerner, said he knew "it was coming" when the Lions blew a game last Sunday in Winnipeg, and lost 19-17 to the Bombers in the last minute of play.

"You get to the point where you're not thoroughly stupid," reflected Champion, who took over coaching of the Western Football Conference club from Dave Skrien Aug. 16, 1967.

"I suppose I can get work down south in football, but I think I'll stay here a while and, if the opportunity comes, get out of the game for good."

The decision to axe Champion, who still had a year left in his contract, was made at a Lions directors' meeting Monday night. After the five-hour session, club president Allan McEachern telephoned Parker and told him he would be taking over.

Parker joined the Lions, Nov. 8, 1967, after a short stint as head coach of Toronto Rifles of the Continental Football League. He functioned as offensive assistant coach for the WFC club.

"What can I say?" said an obviously upset Parker after it was disclosed he was replacing Champion. "This man has been my friend for 17 years and always treated me super. Now I'm taking his job."

"He understands. He just didn't win and when you're head coach that's the thing they have to consider."

McEachern has told Parker that he is head coach until the end of the season and his performance will be reviewed then.

Parker is the seventh coach since the Lions entered the CFL almost 17 years ago. Others were: Annis Stukus, 1952-55; Vern Buffey, another senior member of the group, said Tuesday the Montreal and Ottawa incidents had no bearing on the settlement. He and Scotty Morrison, the NHL's referee-in-chief, "got in touch with us last Saturday and arranged Monday's meeting."

The group now will attempt to entice more NHL officials into the association.

"I think the big thing we accomplished is that now when an official has a complaint he will take it before the association instead of directly to Morrison," Kane said. "That is our major aim."

The group began negotiating 1969-70 contracts individually with Morrison Tuesday.

**Als release QB Williams**

MONTREAL (CP) — Quarterback Carroll Williams was released Tuesday by Montreal Alouettes of the Eastern Football Conference.

The Alouettes said Sonny Wade, impressive in a 41-35 victory over Hamilton Tiger-Cats last Sunday, will replace Williams.

Williams' job had been in jeopardy all season, with the Alouettes picking up only two ties in their first eight games.

Wade, 22, is playing his first year of pro football.

Coach Kay Dalton said that while Williams, 24, is "a fairly good quarterback," carrying two quarterbacks under Canadian Football League rules is "a luxury we can't afford."

Two Als will be groomed as back-up passers — Ed Rutowski, formerly with Buffalo Bills, and Jack Lentz, formerly with Denver Broncos.

## Hull signed four-year pact last season

CHICAGO (AP) — Chicago Black Hawks of the National Hockey League disclosed Tuesday that Bobby Hull last year signed a four-year contract which he now apparently finds unsatisfactory.

General Manager Tommy Ivan issued a statement saying Hull still is committed to three seasons on the four-year pact which Bobby signed last October "at a substantial salary."

The 30-year-old NHL goal-scoring champion has been paid in full on his contract to date, Ivan said, adding: "However, Hull has a deferred payment contract which is not payable until after his retirement."

Ivan's statement continued: "Insofar as the club is concerned, there is a signed contract for Hull's service, and there is nothing to be negotiated."

"However, the club is always ready to meet with Bobby on any business matters relating to his playing contract and his playing for the Chicago Black Hawks."

Hull was not available for immediate comment.

The Black Hawks have been training at the Chicago Stadium since Sept. 15 and Hull's absence was presumed to indicate he was a contract holdout.

"I have talked to Bobby twice," said Ivan. "We weren't getting anywhere on a settlement, so I issued this statement."

Asked the nature of Hull's

demands, Ivan said: "I don't want to talk about it."

Last October, Hull ended a 79-hour "retirement" after missing the Hawks NHL opener, a 4-3 victory over St. Louis Blues.

**REMEMBER WHEN...**

New York Yankees' Charles (Red) Ruffing stopped Washington Senators' bid for the American League baseball pennant 37 years ago today—in 1932—by allowing three hits in 10 innings. The big redhead won his own game by driving in the winning run with a single hit on the last of the 10th.

## NHL accepts Association theoretically-Kane

TORONTO (CP) — The 20 striking National Hockey League officials have accepted the frosting in a dispute with their bosses in the hope the cake will be forthcoming.

The cake in this case is formal recognition of the National Hockey League Referees' and Linesmen's Association by the team owners.

Recognition was not granted by the NHL although the group of 13 referees and seven linesmen had earlier refused to work without it.

The group agreed Monday to accept, among other things, the NHL offer of better contracts and a non-contributory pension plan.

"Theoretically, the NHL has accepted us as an association," said Toronto lawyer Joe Kane, spokesman and legal adviser for the group.

"But we will continue to press for formal recognition. We will probably re-apply to have the matter placed on the agenda of the next NHL governors meeting next February."

Kane said it is only by recognition that the officials can hope to press for higher penalties against players who "participate in activities unbecoming to the game."

**OFFICIALS RETICENT**

Although the officials contend they are interested in "cleaning up the game," they were hesitant during a Tuesday news conference to discuss the means by which they might go about it.

Senior official Bill Friday said there are a number of areas in which the "game should be cleaned up."

"The television people should know enough not to focus on a

penalized player when he is heading for the penalty box," Friday said.

"The camera follows him every step of the way. A person hardly needs to be an accomplished lip reader to know what the player is muttering to himself."

The officials also feel that fines are not heavy enough against players who leave the players' benches during a fight on the ice. This creates general havoc and makes the officials' jobs impossible, the group contends.

The group says it has definite ideas on how strict the penalties should be in such cases.

The group, representing 80 per cent of the NHL's 1968-69 officiating staff, walked out of training camp at Brantford, Ont., last week.

**WAIT AND SEE**

They announced they were adopting a "wait-and-see-if-they-can-do-without-us" policy.

The settlement that will bring the holdouts back to work next Friday was reached Monday following a weekend of violence in NHL exhibition games.

More than \$1,700 has been assessed in donnybrook fines as a result of donnybrook games in Montreal and Ottawa. Defenceman Ted Green of Boston Bruins was struck on the head and suffered a fractured skull in the capital.

Vern Buffey, another senior member of the group, said Tuesday the Montreal and Ottawa incidents had no bearing on the settlement. He and Scotty Morrison, the NHL's referee-in-chief, "got in touch with us last Saturday and arranged Monday's meeting."

The group now will attempt to entice more NHL officials into the association.

"I think the big thing we accomplished is that now when an official has a complaint he will take it before the association instead of directly to Morrison," Kane said. "That is our major aim."

The group began negotiating 1969-70 contracts individually with Morrison Tuesday.
