#### ELECTION JOTTINGS.

MR. BEAUBIEN'S "RETROGRESSION"—THE ENGLISH MEMBERS FOR THE TOWNSHIPS.

Speaking of the Hon. Mr. Beaubien, *La Presse* says: "The Hon. Mr. Beaubien continues his retrograde movement; he is moving toward the Government, slowly but surely. The day is not far, however, when he will be obliged to uncover his face and show himself—selfish."  
\* \* \* On Sunday last, the Hon. Mr. Taillon declared that Mr. Beaubien would be the Government's candidate for Hochelaga.

*Le Progrès de l'Est* states that Mr. Thornton will probably not enter the field, and that the candidates for Stanstead will then be Mr. Hackett, advocate, as Conservative, and Mr. John Lovell, of Coaticook, as Liberal.

It appears that Mr. Sawyer has decided to retire from politics, and that the choice of a Conservative candidate for Compton will be between Mr. C. A. Barlay, brother-in-law of Mr. Pope, and Mr. Alex. Ross, Mayor of Tingwick.

It is now considered certain that Mr. J. A. Decary, advocate, will oppose Mr. Robidoux in Chateaugay.

It is stated that Mr. Benoit Bastien, who has been asked to oppose Mr. Leblanc in Laval, will only do so on two conditions,—the first, that his election expenses be paid by the Liberal committee of Montreal; the second, that Senator Bellerose support his candidature.

Both Mr. Tremblay and Dr. Clement claim to be the chosen candidate of the Conservative party for the county of Charlevoix.

Mr. Joseph Pilon, of Upton, is now spoken of as the probable Liberal candidate for the county of Bagot.

#### AT NOTRE DAME HOSPITAL.

EXPOSURE—FALL FROM A LADDER—AND A KICK.  
This morning an old man named Michel Blanchet, aged 62, was found very ill from exposure and want on Notre Dame street. He was taken to the Central Station, and subsequently removed to the Notre Dame Hospital, where his condition is reported very low.

This morning John Collins, aged 28, residing at No. 82 Kennedy street, whilst working in his yard, fell from a ladder and fractured his collarbone. He was taken to the Notre Dame Hospital.

John Shaw, 20, residing on Wellington street, was this morning engaged loading cattle on the steamship "Batavia," when one of the animals kicked him, breaking his left forearm. He also was taken to the Notre Dame Hospital.

THE WIMBLEDON MATCHES.  
GOOD SHOOTING BY THE CANADIANS—ENGLAND WINS THE KOLAPORE CUP.

LONDON, July 22.—The match for the Kolapore Cup was shot at Wimbledon yesterday. The teams consisted of eight men each, and seven rounds each at 200, 300 and 600 yards, were fired. England was victorious with a total score of 666, Canada making 646, Guernsey 636, Australia 632, Jersey 626, and India 595. The Canadians won the chief prizes in the Corporation series. The Duke of Cambridge subsequently inspected the Canadian camp and afterwards the Colonies were drawn up in three sides of a square in full uniform. The Commander-in-Chief congratulated them upon their splendid appearance, and praised their love for the Mother Country.

THE G. O. M. AND MR. PARNELL.  
LONDON, July 22.—Mr. Gladstone indirectly advised Mr. Parnell against pursuing an obstruction policy in the coming Parliament. Mr. Parnell replied that he is desirous of following Mr. Gladstone's lead, reserving entire liberty of action in the event of the Tories trying coercion.

A ROYAL PRESENT.  
BERLIN, July 22.—The Emperor William has presented to the Shah of Persia the principal works of Frederick the Great. They comprise twenty-three volumes printed on parchment.

THE DILKE SCANDAL.  
LONDON, July 22.—In the Dilke case Mr. Donald Crawford testified that Mrs. Virginia Crawford asked him not to make Capt. Forster a co-respondent, because, she said, she did not want to ruin more than one man. This evidence caused a sensation. When the court adjourned it was understood that the evidence was closed.

THE THREE EMPERORS.  
LONDON, July 22.—The *Standard* says the Emperors of Russia, Germany and Austria will meet at Gastein on August 8th.

THE CHESS TOURNAMENT.  
LONDON, July 22.—In the chess tournament, yesterday, Lipschutz beat Burns, Zukertort beat Schalloop, Hannam beat Mortimer, and Bird beat Pollock. Gunsberg and Mason and Mackenzie and Blackburn played drawn games. Taubenhau did not play.

ROYALIST RIOTERS.  
Marseilles, July 22.—Cyrrit Inwards has been sentenced to one month's imprisonment for violently opposing the police. The other persons arrested in connection with the Royalist riots were sentenced to shorter terms.

THE METHODIST CONFERENCE.  
DR. SUTHERLAND CORRECTS DR. FOSS.

LONDON, July 22.—In the Wesleyan Methodist Conference, yesterday, Dr. Sutherland was introduced as representing Canada. He created amusement by correcting Dr. Foss, who had said that he believed that Providence designed America to be the home of a great nation. Dr. Sutherland reminded Dr. Foss that there are two nations there, and that Canada is the larger in extent.

THE WHIGS AND TORIES.  
LONDON, July 22.—The *Standard* is dissatisfied with the reluctance of the Whigs to assist Lord Salisbury. It says: "The public will know if any obstacle is thrown in the way of the formation of a powerful united Government with whom the difficulty has arisen."

MANCHESTER CANAL BONDS.  
The issue of Manchester ship canal bonds has been badly received on the Stock Exchange. Shares which were first quoted at a premium are now at par. Brokers declare the shares are a dead failure. The opposition is said to be due to the railway interest, which the canal is expected to injure.

THE EXTRADITION TREATY.  
The *Daily Telegraph*, commenting upon the new extradition treaty between the United States and Great Britain, says the convention is not as far reaching as is desirable. It only touched refugees; it fails to touch the gang of dastardly conspirators who devise outrages from the safe vantage grounds of America, but never risk their own skins in executing them. Such a salutary convention we must hope to obtain in the future.

THE CHOLERA.  
ROME, July 22.—The cholera returns for the 24 hours ending last night are: Brindisi, 9 cases and 5 deaths; Venice, 2 cases and 2 deaths; Fontana, 16 cases and 3 deaths; Latino, 7 cases and 3 deaths; Codigoro, 8 cases and 2 deaths; Trieste, 6 cases and 3 deaths; Fiume, 5 cases and 3 deaths; Ostuni, 2 cases and 1 death.

#### AMERICAN.

END OF A STRIKE.  
SCOTTHAVEN, Pa., July 22.—The strike at Scott's five mines has ended by the men signing an ironclad agreement and returning to work. About 1,000 men were affected.

#### DISMISSED.

POSTON, July 22.—The directors of the Lowell Bleachery Corporation have removed from office Samuel G. Snelling, who has been treasurer of the Company for twenty-seven years. It is charged that he embezzled large amounts of money.

#### A DASTARDLY MURDER.

NACARDOCHS, Texas, July 22.—Parson Jim S. Smith, editor of the *Simpson Times*, Simpson, Texas, was murdered on Tuesday evening. Smith and his wife were sitting in their room talking. Mr. Smith had his back close to the open door. The murderer placed the muzzle of his pistol close to the head of his victim, who turned, and at the same moment the ball entered his head just above the eye. Smith died within five minutes. Just before dark a man rode up and paid a negro 15 cents to show him where Smith lived. He tied his horse a short distance away and noiselessly crept up and fired the shot, mounted his horse and fled.

#### THE SLOW CANADIAN CRUISERS.

GLOUCESTER, Mass., July 22.—The American fishermen who have seen the Canadian cruisers "Lansdowne," "Howlett," "Critic," and others, have all along expressed the opinion that any of the first class Gloucester fishing schooners could get away from them handily. The schooner "David J. Adams," in sailing back to Digby, verified it by outstripping the cutter, and the letter received yesterday states that a schooner supposed to be the "Richard Newcombe," was chased by the "Lansdowne" for fishing inside the three-mile limit and escaped with ease.

#### SMALL-POX IN DETROIT.

DETROIT, July 22.—Another case of small-pox has been discovered, this time nearer the heart of the city, and there are grave misgivings in the minds of the members of the Health Department as to whether or not Detroit will escape an epidemic scourge. The victim is a young girl of seventeen, named Mary Arnold, employed at a picture frame factory. The patient is isolated, and members of the family, all employees of the factory and neighbors who have been exposed to the contagion, have been vaccinated. There is considerable excitement in the neighborhood over the discovery as there are thirty or forty girls in the factory, all of whom have been more or less exposed.

#### CANADIAN.

SIR JOHN MACDONALD AND CROWFOOT.

GRAND POW-WOW AT GELICHEN—SOME COMPLAINTS MADE AND PROMISES ALSO.

WINNIPEG, July 22.—The Premier held a pow-wow with Crowfoot, Old Sun and minor chiefs, yesterday, at Glichen. There was a large assemblage of Indians. Governor Dewdney, Lady Macdonald and General Strange were present. Crowfoot made known his complaints, which were the burning of the grass on his reserve by fire from Canadian Pacific Railway fire waggons, bad stories told about him and his people in the east, and wanting more grub. The Premier promised to do what he could for him. Presents were distributed to the chiefs by Lady Macdonald. The Indians then had a dance and games on horseback, and went away delighted with the big chief, Sir John. To-day, the Premier and party are being received at Calgary where Mr. Thomas White is also expected.

#### TORONTO.

(Special to the Witness, July 22.)

MAYOR HOWLAND, believing that the Street Railway Company is paying too little taxes on its property, has published a statement of its traffic which seems to justify his contention. The revenue of the company is over \$400,000 a year.

THE GOOD TEMPLARS of Toronto and York are forming themselves into a district under the authority of the Grand Lodge.

DR. BRYCE, of the Provincial Board of Health, has made an elaborate report of the system of quarantine on the St. Lawrence. The report recommends minute inspection of vessels and passengers both before and after embarkation with vaccination where necessary. It recommends the inspection of incoming mail steamers at Rimouski and of all others at Grosbe Ile.

#### THE SHOEBURNESS TEAM.

QUEBEC, July 22.—The Shoeburness team left by the steamship "Vancouver" this morning. The men as they marched to the ferry were loudly cheered. They made a fine appearance. The officers of the Battery accompanied them to the steamer. In conversation with Capt. Drury, he said that the men were almost perfect in their drill, &c., and that he felt certain of success. Sir A. P. Caron, Dr. C. Sewell and other prominent citizens are passengers by to-day's out-going steamer. As the steamer left the wharf the band struck up some lively airs, and together with the loud cheers of the people, caused quite a scene of animation.

#### WEATHER PROBABILITIES.

METEOROLOGICAL OFFICE, Toronto, Ont., July 22, 1 a.m.  
—The depression which was over the Upper Lake region last night now covers the St. Lawrence Valley; elsewhere the pressure is uniform and about the normal. Local showers have occurred this evening in the Lake and St. Lawrence districts, but on the whole the weather in Canada has been fine. Probabilities for the next twenty-four hours:—Lakes, moderate winds, fine weather, slightly lower temperatures, fine and warm to-morrow. St. Lawrence, moderate to fresh winds, mostly west and north-west, fine weather, slightly lower temperatures, fine and warm to-morrow. Gulf, fresh south-west and north-west winds, generally fine weather, preceded by a few local showers, stationary or a little lower temperature. Maritime, moderate to fresh south-west and north-west winds, fair weather, stationary or slightly lower temperatures.

BELGIUM STRIKERS ON TRIAL.

The trial of the strikers who participated in the riots at Charleroi, in March last, has commenced. Two have already been convicted and sentenced to ten years' servitude, and two more to twelve years.

THE RIOTS IN FRANCE.

The Royalist rioting at Marseilles continued on Tuesday and during the night. The military at midnight charged the mob, capturing 200 of the rioters, and turned them over to the custody of the police. Ten persons were wounded during the conflict.

Carl Von Piloty, the celebrated German painter, is dead.

THE DILKE SCANDAL.

A TERRIBLE TALE OF DEPRAVITY—A WICKED WOMAN'S EVIDENCE.

LONDON, July 21.—Mrs. Crawford resumed her testimony to-day in the Crawford divorce case. She said Sir Charles Dilke declared that Mrs. Rogers, who is his mistress, Mrs. Crawford asserted that she believed that it was Mrs. Rogers who wrote the anonymous letters, accusing witness of adultery with Captain Forster, and that her object was to screen Dilke.

THE BRITISH POLITICAL SITUATION.

MR. GLADSTONE'S RESIGNATION. LONDON, July 21.—Mr. Gladstone, as soon as his messenger returned from Osborne with the Queen's acceptance of the resignation of the Ministry, notified his colleagues. Mr. Gladstone will not proceed to Osborne to personally surrender the seals of office until Her Majesty shall have appointed his successor.

LORD SALISBURY NENT FOR.

It is officially announced that the Queen will sumn on the Marquis of Salisbury to form a new ministry. Lord Salisbury is due here to-morrow morning.

MR. GLADSTONE ON IRISH LITERATURE.

Mr. Gladstone, replying to-day to enquiries as to which were the best books to read on the historical side of the Irish question, said that at present there was a great lack of any complete work. He recommends Goldwin Smith's article on Pitt in his "English Statesmen"; also Lecky's "Leaders of Public Opinion in Ireland"; and "History of England in the Eighteenth Century"; also many portions of Froude's "English in Ireland in the Eighteenth Century"; Lord Cloncurry's personal recollections of his lifetime, with extracts from his correspondence; but, above all, Burke, especially his writings on America, as applicable to Ireland. As regards the recent history of the land

question, Mr. Gladstone recommends the perusal of Barry O'Brien's articles in the Nineteenth Century.

THE TORIES AND HOME RULE.

The following significant paragraph appears in Justin McCarthy's recent cable letter to the New York Herald: "If the Tory leaders have a grain of common sense, they will set to work at once to educate their party up to the level of Home Rule—a real genuine measure of Home Rule. Lord Carnarvon said last winter they could have done this if they only had three months more for the work of education. Now they have plenty of time if they only use it wisely. I have always been of the opinion up to this time, and continue of the same opinion still, that we shall get Home Rule from the Tories—we shall get it from them, and we shall not thank them for it any more than we thanked them for Catholic emancipation or the Reform Bill of 1832. In both cases they went round and adopted the very principles they had always contended against before they became reformers, who had hated reform. No doubt they will adopt the same policy in the present case after a decent interval."

Mr. James O'Kelly, (Home Ruler), also a correspondent of the Herald, cables as follows: "The Tories, if deserted by the Unionists, may offer Home Rule as the price of Irish support. Should a new alliance be formed on this basis, the Tories and Irish would be strong enough to rule the British Empire, certainly for seven years, in spite of the Liberal party."

MICHAEL DAVITT ON OBSTRUCTION.

NEW YORK, July 21.—The following cable despatch has been received by Patrick Ford of the Irish World:—"I have read the extracts from the Irish World article recommending the Irish Parliamentary party to adopt the policy of obstructing in Parliament measures introduced for the benefit of the English masses because of the votes of the latter against Home Rule. This policy would be suicidal. The English are not against Gladstone and Home Rule, but against the land purchase scheme. The hostility on the part of the demagogue to buying out the Irish landlords and the middle class against Home rule decided the issue of the election."

"Even now Gladstone has polled 300,000 votes more than the Tories, but the untested elections gave the opponents of Home Rule a majority. The true policy for Home Rulers is to advocate the reforms required by the workers of Great Britain while advocating justice to Ireland."

"The struggle for the highest form of Irish liberty can and ought to run parallel to the aspirations of the British democracy for a reform of their social condition, for economical liberty, for labor in the field and the workshop."

"The issue knifed by Gladstone is, the classes against the masses in the effort to satisfy the national demand of the Irish people."

"If the Irish people obstruct the cause of the English masses, they will be playing the game of the classes, and forfeit the sympathy of the million and a half of British voters who supported Home Rule this election."

"Ireland has a splendid chance of winning a better measure of Home Rule than that defeated, if we show the millions who toil and spin in Great Britain, that in fighting for our right we place no limit to the cause of liberty, and will strive for it for the people of England, Scotland and Wales, as well as for the people of Ireland."

"By this policy we will soon have the voters of England following the example of the Scotch and Welsh in supporting Home Rule."

"MICHAEL DAVITT."

AMERICAN.

The President, accompanied by Secretaries Bayard and Whitney and Private Secretary Lamont, left Washington on Wednesday afternoon, on the 3:50 o'clock train, to participate in the bicentennial celebration at Albany, N.Y.

Mrs. Marcella Cooper, aged 60, known as the Gypsy Queen of Somerville, has been arrested, in Boston, on the charge of embezzling \$14,000 belonging to Mrs. Manella Rink, of Boston Highlands. The latter claims she lost it in speculation.

Four notes of the Bridgewater Iron Company, Boston, went to protest on Wednesday. The assets of the Company are said to be \$800,000; liabilities approximate \$400,000.

THE CHICAGO ANARCHISTS.

HANGING EVIDENCE AGAINST THE PRISONERS.

CHICAGO, July 21.—The eight Anarchists moved silently in Judge Garry's Court this morning. There was a serious look on Spies' face as he took his seat, and a somber melancholy seemed to brood over the entire gang with the exception of Lingg. William Seliger, who is regarded as the principal witness for the State, was put in the witness stand. The Court room was crowded and the testimony was listened to with the keenest interest. Seliger testified to the manufacture of the bombs for the purpose of "feeding" them to capitalists and their abettors. Not a dull moment elapsed during the afternoon. Jury, lawyers, judge and spectators were kept fixedly without the slightest relaxation at the same high tension to which they were raised when the day's exciting developments began in the early morning hours. A determined attempt was made by the defence to show that the bombs manufactured the afternoon of the day on which the massacre occurred had no necessary connection with the Haymarket. The essential points of the witness' testimony were unshaken by the cross-examination, which was so severe at times as to call for interference by Judge Garry. Mrs. Seliger also testified that Lingg had a number of bombs in his possession at her house and that a number of men were there making bombs the day of the Haymarket affair. Cross-examination failed to shake her testimony. The court adjourned until to-morrow.

THE FISHERIES TROUBLE.

A DRAFT DISHONORED.

PORTLAND, Me., July 22.—A draft recently given in a Canadian port by the captain of the schooner "J. K. Kennedy," was presented yesterday to E. J. Willard & Co. The firm declined to pay it as they believed the Canadian authorities had no right to demand it.

A GUILTY WOMAN'S PUNISHMENT.

TOBY, Ohio, July 21.—Mrs. Sullivan, wife of Theodore Sullivan, a prominent lawyer and politician, suspecting her husband of infidelity, hired detectives. She learned he was at the house of Ida Hamilton, a beautiful blonde, and proceeded, on Monday night, with her 19-year-old son and two of his friends to the house. They gained entrance to the room with a ladder and found Sullivan in the room with the woman. Mrs. Sullivan seized her and while her son and his friends kept the guilty pair covered with revolvers Mrs. Sullivan turned a bucket of mixed tar and cressote over Miss Hamilton's head and shoulders, completely covering her person with the mess. When the tar cooled it

could not be cleaned from her head and her hair was therefore shaved off close to the scalp. She is a pitiable sight. Mrs. Sullivan will institute proceedings for divorce.

MR. F. HAWKES, the assistant postmaster of this city, has just returned after a lengthy visit to Newfoundland, whither he had been despatched at the request of the Colonial Government for a Canadian postal officer to reorganize their service on the island. He reports that United States business men are fast taking the import trade of the island away from the Dominion, Boston merchants having resident agents on the island. The number of commercial travellers from the United States far exceeds those sent there by Canadian houses.

ROME, THE WOLF.

In these days of pseudo-liberalism, it is just as well that Rome be unaltered and unalterable, drunk with and thirsting for the blood of God's saints.

The following is translated from a Roman Catholic periodical, entitled *La Bandera Católica* (The Catholic Banner), printed in Barcelona, and bearing the date of July 29, 1883. It has reference to the burning of a large number of Gospels, by order of the Government, in Barcelona:—"UN ACTO DE FE."

Thank God! last we have turned towards the times when heretical doctrines were persecuted as they should be, and when those who propagated them were punished with exemplary punishment.

Under the pretext of falsely-called religious tolerance, which revolutionary winds brought to this classic country of Catholicism, the irreconcilable enemies of our most holy religion have been carrying out their plans, and have scandalised the world with the propagation of their impious writings. Fortunately, the cry of indignation which such scandalous conduct drew from the hearts of all good Catholics, has found an echo in the consciences of our rulers, who, although late, have now listened to the voice of duty, giving full satisfaction to good Catholics by a wise and opportune order for the burning of a number of Protestant books, which evil disposed persons were introducing into the country in spite of the vigilance of sincere Catholics.

But Catholic Barcelona, the country of St. Eulalia, and of Blessed Oriol, has had the very great pleasure of witnessing an "Auto de Fe" the last part of this 19th century. On the 25th inst. the festival of the Apostle James, in the Custom House yard of this city, one of the most glorious traditions of the Catholic religion, was carried out by the burning of Protestant books, destined to pervert the tender heart of our children.

It is in vain that the sons of Satan lift up their voice and cry out against this most righteous act, which is but the beginning of a glorious era, of a new epoch, in which the brightness of the Sun of Righteousness, with its purest light, will dispel the darkness of ignorance and error. There is but a step between this event which we now record and the setting up of the Holy Inquisition. What we now want is the good-will and united efforts of pure and true Catholics. It seems that the Government is only disposed to carry out our desires, and it is only right that we should take advantage of this new right that we should take as soon as possible the goal of our aspirations.

Onward, then, good and sincere Catholics! The happy day of our social and religious regeneration is not far off. The "Auto de Fe" with which we are now occupied, is a clear and evident proof of the certainty of our indications. The re-establishment of the Holy Tribunal of the Inquisition must soon take place. Its reign will be more glorious and fruitful in results than in the past, and the number of those who will be called to suffer under it will exceed the number of the past. Our Catholic heart overflows with faith and enthusiasm, and the immense joy which we experience as we begin to reap the fruit of our present campaign exceeds all imagination. What a day of pleasure, spiritualists, freethinkers, and anticlericals writing in the flames of the Inquisition!

That Roman Catholics may not be ignorant

of the deeds of the Inquisition in the past, there is the following in another column of the same number of *La Bandera Católica*:—

We judge our esteemed subscribers will read with great pleasure the statistics respecting those who suffered under the Holy Tribunal from the year 1481 to 1808, when this venerable institution was abolished. As our readers will see, it refers to Spain only; we are unable to give the numbers of those who suffered in other countries. We have believed it right also to publish the names of those holy men under whose hands so many sinners suffered, that good Catholics may venerate their memory:—

Table with 2 columns: Name and Punishment. Includes names like Torquemada, Diego Deza, and Adrian de Florencia.

The Inquisitor established the holy office in America, and in 1523, as a reward for the same, he was elected vicar of Jesus Christ on earth; but he did not love his former ministry that he did not transfer it to another until the second year of his pontificate. He burnt during this time 324 persons, and condemned to various punishments short of death 4,081.

Table with 2 columns: Description and Total number. Includes categories like 'Total number of men and women burnt alive'.

QUEBEC.

GEORGEVILLE is well filled with visitors just now.

WEDDINGS appear to be in vogue in Cowansville and its vicinity.

THE CANADA MEDICAL ASSOCIATION will hold its sixteenth annual meeting at Quebec on the 18th and 19th of August.

THE "SALVATION ARMY" will not in future be allowed to beat drums or carry flags in Cook's public streets.

THE MISSISSQUOI HORTICULTURAL AND FRUIT GROWERS' ASSOCIATION will hold their annual exhibition in the Town Hall, Dunham, on Tuesday and Wednesday, September 14th and 15th.

LONG FACES are said to be worn by Fulford farmers on account of the low prices of butter and cheese, notwithstanding that the hay crop in that vicinity promises to be far ahead of the average yield.

THE MISSISSQUOI COUNTY TEMPERANCE ALLIANCE have decided to hold their annual picnic in Walbridge's grove, Mystic, on Wednesday, Aug. 25th. This is intended to be the grandest temperance demonstration ever held in the County, if not in the Townships.

THE GOVERNOR-GENERAL will make an unofficial tour through the Eastern Townships about the last week of the present month. He will visit Sherbrooke, Stanstead, Brome, Shefford and Missisquoi. It is understood that His Excellency will be the guest of the members of Parliament whose constituencies he visits.

CROPS in the TOWNSHIPS.—The St. Johns *News* gives the most encouraging reports of the prospects of the crops in the Townships. It says that even hay, which does not promise so well in the neighborhood of St. Johns, is said to be above the average in many parts of Brome, Stanstead and Missisquoi. Grain of all kinds looks well. Corn is a little backward, but the recent warm weather has brought it on finely. Root crops hold out encouraging inducements to the tiller of the soil. Fruit is less promising; in many localities apples will be almost a failure.

MARITIME PROVINCES.

THE COAL TRADE at Stellarton, N.S., is very dull, and no prospects for anything better in the near future. Very little coal is being shipped by water. A large number of miners having no employment there are engaged at the Vale, going to and from home every morning and evening.

THE NEW BRUNSWICK railway train which runs into this city every other day, as the "Flying Yankee," is attracting much attention. It is, undoubtedly, the handsomest train which bows into Bangor. Travellers are greatly pleased with these cars, and they reflect credit on the road.—*Bangor Whip*.

BELL'S TROUBLE.

"AN OWER TRUE TALE."

BY ROSE TERRY COOKE.

"I'd shake her good of I was Charley," said Jane to her mother, as she watched him from the window, scorn for his weak affection sharpening every line of her evil and keen-lined countenance.

"You wouldn't do no good" answered her mother, with the calmness of contempt and superior wisdom, "She'd only get mad and screech like a painter, if he did. It's a pretty good plan to let 'em alone an' starve 'em out of it. Folks won't go hungry no great while, if they be hysterical."

But Bell did. Silent and sad all day and all night, she never even looked at the food the women brought to her. She would drink a cup of warm milk, now and then, if Charley put it to her lips. But though her body wasted, her strength did not seem to fail.

At last Charley refused to listen to his mother and Jane any more. "I'm going for Doctor Graves, anyhow," he said. "She's gettin' thinner every day; and can't stand it, if you can."

So the cheery, kindly, village doctor came over to the Ward farm. Bell shrank from him, and trembled at first; but, his pleasant voice and manner prevailed with her so far that she allowed him soon to feel her pulse, and put his hand upon her burning head. Then he drew Charley away and quite out of the house.

"You've got to take her away," said the doctor, looking at him steadily. "Yes sir, you've got to take her away just as soon as you can."

"Why, doctor, what for? What's the matter?" The doctor's grave face grew pitiful. He had known Charley Ward from a boy.

"Well, Charley, I hate to tell ye; but I must. Bell is crazy." Charley looked at him like a man stunned by a blow. The doctor repeated: "Bell is crazy. You must take her away to a place where they take 'em."

"O—h!" gasped Charley. "I—I can't." "You must. There's no two ways about it," went on the doctor. "You can't take care of her here; and honestly, Charley, it isn't safe. There's no telling what she may do, if she isn't taken proper care of."

lingues that assailed her daily where her memory should have been most sacred—in her own home. But they never dared to say a word against her to Charley. The first derogatory expression from his mother's lips about his wife, a sneer at her feebleness of mind and body, had been so promptly and sternly silenced that neither she nor Jane ever dared venture on another, and of course hated Bell the more.

May came again, and with it Charley. It was little over a year, when he came back one day from Preston with a new light in his eyes, and a rare smile on his lips. The doctor had written to him that he could see Bell.

For, indeed, though Dr. Barton did not tell him so, Bell was her sweet self again. Color and roundness had come back to her cheek, her eyes were bright, and though the heavy mass of her dark hair had been removed to ease the aching head that bore it, it had grown again in soft, shadowy rings, clustering about her forehead, showing the graceful outline of her head, and adding a new charm to her delicate beauty.

"Why, doctor, what for? What's the matter?" The doctor's grave face grew pitiful. He had known Charley Ward from a boy.

The Daily Witness. THURSDAY, JULY 22, 1886.

THE QUEEN has accepted Mr. Gladstone's resignation and has sent for Lord Salisbury. An unsigned article recently appeared in the Nineteenth Century, in which the writer spoke despairingly of the task which awaited the next Government, even if the verdict of the people was against Home Rule, as he expected that it would be.

THERE NEVER WAS very much similarity between the French and English sailor, and the wide difference between the information furnished by them to the legislative bodies of their respective countries shows that there is an even greater difference now than in the days of wooden walls. Not long ago a gallant naval officer, made a speech in the House of Commons, in which he denounced the Admiralty, and read out a long list of the vessels on the British naval list that ought to be broken up.

MR. GLADSTONE, by recommending literature profitable for the perusal of those who are exercised over the question of Ireland's relations to Great Britain, has definitely entered upon the course of educating the people of England up to the point of granting Home Rule to Ireland. It is rather hard on Mr. Goldwin Smith, who is a determined opponent of Home Rule, that Mr. Gladstone should recommend one of his works as an educational primer for use in this work.

THERE IS A FABLE full of meaning in one of our commonest nursery tales. The wolf knocked at the door and asked that his little finger should be let in. That done he asked that his hand might be let in. Then he pleaded for his arm and when that was fairly through the door he came in and eat the old woman up. The people among whom that legend grew knew well who the wolf was. The little finger has this year got in in this Province by appropriations to defray the expenses of the Archbishop's investiture, and in Montreal not only for that, but by an appropriation for one of the arches with which to celebrate the Fête Dieu procession—an insult to the Protestants of Montreal, though small in amount, yet of the most outrageous kind.

THERE IS A GOOD TIME coming for the Canadian farmer and for the fish in such rivers as the Ottawa. An inventive German has discovered a method of making food for cattle out of sawdust and he wants a Canadian patent for the process. Canada has up to this time had unlimited and useless resources in the shape of sawdust. It has been used to fill up rivers and destroy their beauty and their fish, to make roads and "front yards" out of places where the rock comes out of the natural soil, but it has been a mere nuisance almost everywhere.

THE ENERGY AND DETERMINATION of the Prohibitionists of Ohio are worthy of all praise, and their action in declaring war to the knife against the liquor saloon traffic is an example which Canadians will do well to follow. The Committee appointed by the Conference representing the educational and religious interests of the State, to organize for the purpose, has reported in favor of bringing all influence possible to bear upon the Legislature, just as was done in Rhode Island which has lately adopted a prohibitory constitutional amendment.

IT WILL NOT be the fault of the American journals and the American Consul-General at Halifax if the headland question does not come up for settlement during this fishing season. The latter gentleman has instructed all the masters of fishing vessels that have applied to him for information on this matter, to observe only the three-mile line following the sinuosities of the coast. With the exception of the Bay of Fundy, which cannot be classed as a British bay, because one of its headlands is American, there can be no doubt by the law of nations that Canada has the right to preserve her fisheries within three miles of a line drawn from headland to headland.

THE TORONTO "GLOBE" has been publishing lists of the assessments of some of the leading citizens of the professional classes in Toronto, from which it appears that most of them enjoy, or rather suffer, much smaller incomes than was generally supposed. For instance, of lawyers, with which Toronto is overrun, there are only fifty-five with incomes of two thousand dollars or over; only twenty-eight who get two thousand five hundred dollars; only twenty-one who make three thousand dollars; only six who rejoice in four thousand; and only six receive five thousand from all sources.

There is some reason to believe that the lawyers and doctors are much better off than they are willing to admit to the tax assessors. They are probably too modest—a great deal too modest. Mr. Blake left a legal practice which brought him in twenty-five thousand dollars a year to become leader of the Opposition and serve his country gratuitously.

CANADA'S CARDINAL.

Canada's first cardinal has been duly installed in "God's own city," as we are told by Mr. John Lesperance, that Sir John, presumably Sir John Macdonald, "likes to call Quebec," with all the pomp and ceremony possible outside of Rome and away from the Pope. Just what the offices and powers of a cardinal are, and how great the honor is of having one of their countrymen created and installed few of us in Canada probably know. It is enough for us to know that he is one of the fifty or sixty highest dignitaries of the Church of Rome; that, as a member of the College, he has a right of which none, not even the Pope himself or all the cardinals together can deprive him for any cause whatever, of exercising the duties of that office, the most important of which is the election of a new Pope when one has died.

Y.M.C.A. WORK.

YESTERDAY evening the members of the working committees of the Montreal Young Men's Christian Association met at the residence of Mr. David Yule, 265 Peel street, with Mr. R. C. Morse, of New York, secretary of the International Committee of Y.M.C.A.'s, and Mr. Thomas S. Cole, travelling secretary for Canada. The object of the meeting was to hold social conference in the interests of Association work.

MR. MORSE, in addressing the meeting, referred to the conference of college students now being held under the direction of Mr. D. L. Moody, at Northfield, Mass. The conference commenced on the 7th of July and is attended by two hundred and thirty-five students, representing eighty-six colleges. Reference was also made to the fact that last year a school had been opened at Springfield solely for the training of young men as secretaries. The direction of the work for men only was referred to, and Mr. Morse then invited questions on any points on which information was desired.

THE NEW PACIFIC FORT.

ESQUIMAULT DESCRIBED—AN IMPORTANT STATION. In connection with the interview, published yesterday, with Col. O'Brien, who is on his way to survey the British Columbian naval station of Esquimault, some further particulars of that place will be of interest. Esquimault is a small town at the northern corner of the harbor, on Vancouver Island. It is chiefly composed of Government buildings, consisting of a naval hospital, an arsenal and other dockyard buildings. It is, in fact, a naval dockyard, with a sprinkling of churches, schools, hotels and business buildings. The harbor is about three miles long and about two miles broad. It has long been the rendezvous of the English squadron when in the north Pacific. The Dominion Government is now building a dry dock, intending to accommodate vessels of large size, the length of which is to be four hundred feet and to be ninety feet wide at the entrance. The harbor is situated at the south end of the island, on the eastern side, and can be approached in foggy weather by means of soundings for a considerable distance from the entrance to the harbor.

BAD AMMUNITION.

A meeting of the Montreal Rifle Association was held yesterday at 208 St. James street, Capt. Dunn, president of the Association, in the chair. Representatives were present from the various rifle associations. General dissatisfaction was expressed with the ammunition now supplied by the Government, and, on the motion of Mr. Ross, seconded by Capt. Edwards, it was unanimously agreed to forward the following resolution to the Minister of Militia:— That this association desires to call attention to the fact that the scores made by men using English ammunition are far superior to those using ammunition made in Canada, and also desire to express the hope that the Dominion of Canada Rifle Association will allow members of their annual matches to use English ammunition, and also to enable the association to obtain English ammunition for practice as soon as possible before the annual matches.

SELF-PROTECTION AGAINST FIRES—THE BUILDING INSPECTOR'S SUGGESTIONS.

THE BUILDING Inspector's report, which has just been printed for circulation, contains some valuable suggestions. The total value of new buildings erected during the past year is estimated at \$2,000,000, a large increase over the previous year. The report recommends a change in the by-law to enable the Inspector to compel people to properly clean their chimneys. A number of other modifications are asked for, including a clause to compel people to take shutter precautions against fire, by having iron shutters on their windows in the commercial centre, and automatic doors on each flat where elevators are used. The iron shutters would prevent a repetition of the St. Dizier street event, and the automatic doors on elevators would prevent the fire from rushing up as through a chimney, besides preventing many accidents to employees.

"YOUR FRIENDS THE ENGLISH."

THE DISCONTENTED DOCTORS AND PRINCIPAL VERBAUC. L'Escland publishes another letter from Drs. Durocher and Beaudry, in which those gentlemen again attack the Rev. Abbé Verreau, Principal of the Jacques Cartier Normal School, accusing him of being opposed to the system of high classical education followed in the Catholic colleges of the Province, and complaining of his "abnormal position" of Examiner and Principal of the Normal School. The letter winds up with these remarks:—"Notwithstanding the general complaints and the well-known opinion of the presidents of our classical colleges, you continue, thanks to your friends in Laval and the majority of the English-speaking people, to occupy the position of examiner, which the most rudimentary delicacy should have made you abandon. As to the Protestants, who are the object of your love, have they not a proof of our excessive liberality in the fact that they possess the same number of examiners as the Catholics, when they are but one-seventh of the population?"

BELL-RINGING NUISANCES.

A FALSE ALARM, AND WHO GAVE IT. The police are after a gang of loafers around St. Paul and St. Jean Baptiste streets. Last night a false alarm was given by some of them from box No. 2, bringing out the brigade. The salvage corps were on the scene first, and Captain Beckingham observed two men running off, and followed them for some distance, but lost sight of them. He then searched the neighboring saloons, but without avail. Detective Richardson was given a description of the men, and hopes to bring them to justice.

DIED FROM HER FALL.

Mrs. Delorme, of 87 Hypolite street, who fell from a gallery to the ground the other day while hanging out clothes, and received severe injuries about the head, died in the General Hospital yesterday. An inquest was held last night, when a verdict of "accidental death" was returned.

THE ENGLISH SERMON.

The Rev. Father Lonergan, parish priest of St. Bridget's Church, has been invited by Archbishop Duhamel to preach the sermon in English on the occasion of the ceremony of the Pallium at Ottawa.

REAL ESTATE.

Mr. R. K. Thomas has sold another lot from the Torrance property on Mountain street, thus leaving only two lots on this street for sale on this property. The price paid was sixty cents per foot.

INSOLVENT.

Messrs. Seath and Davely have been named curators to the insolvent estate of Patrick Lynch, of St. Etienne de Beauharnois. Mr. Charles Cadotte, boot and shoe manufacturer of this city, has made an assignment on behalf of his creditors, Mr. Cassis has been appointed temporary curator.

HORSES ON THE HILLS.

COAL DRIVERS AND OTHERS WHO NEED A TASTE OF THEIR OWN MEDICINE.

The Society for the Prevention of Cruelty to Animals should look after the coal traffic up Cathedral, Windsor, Mountain and parallel streets. Gross cruelty to the horses employed in this business occurs every day in these streets.

Mr. Walter Harper, the engineer who came out from London to conduct the test of the Merryweather fire engine, left last night, for Quebec to return home in the "Vancouver."

(To the Editor of the Witness.)

Sir,—Through the medium of your valuable paper kindly allow a resident of St. Monique street the space to complain of the almost daily ill-treatment of horses attached to carts and other vehicles there.

In the Recorder's Court, yesterday, Renie Courcelles, a tailor on St. Christophe street, aged 18, was sentenced to one month with hard labor, and \$10 or three additional months, on a charge of vagrancy, being able to work and refusing to do so.

Joseph Deglendon and Malvina Lavigneurs, wife of one St. Amour, for being drunk and driving furiously through the streets, thereby knocking down and running over a child named Tailon, were sentenced to \$10 or two months with hard labor each.

The child, who was run over at the corner of Notre Dame and Frontenac streets, was taken to his home, No. 19 Mignonne lane, and Dr. Bouchard called in, who pronounced the injuries not very serious.

A TWO-LEGGED HORSE.

A BREAK OF NATURE PRODUCED AT BELLEVILLE.

There is now on view at 2116 Notre Dame street a colt with but two legs. The animal is perfect in every other respect, finely formed, and of graceful appearance. It was foaled on the 24th May last, its mother being the property of a Mr. Bernard Longwell, a farmer of the concession of Sydney, near Belleville.

A NEW ASSOCIATION.

THE CARTERS FORM A PROTECTIVE BENEFIT SOCIETY.

Last evening a meeting of carters was held at Loiseau's Hotel, Notre Dame street, with the object of forming a Protective Benefit Society on the same principle as the Hackmen's Union.

FELL OVER THE WALL.

Yesterday afternoon a man named Joseph Massey, who seemed to be under the influence of liquor, fell over the revetment wall on Commissioners' street. In his fall he sustained several cuts and bruises about the face and head. He was conveyed to Notre Dame Hospital and is expected to be all right in a day or two.

Massey's injuries consist of several deep cuts in the head and face, internal injuries and a severe shock to the spinal column. It was at first thought that he had fractured several ribs, but this the doctors at the hospital report is not the case.

A NOISY HOUSE.

On Tuesday evening, about 9 o'clock, the residents in the neighborhood of St. George street, near St. Catherine, were very much annoyed by the inhabitants of a house which is represented as a hotbed of vice.

PAID FOR SHORT FOOD.

The case of Seaman Collins vs. Captain Anderson was brought to a close this morning in the Police Court. Collins got his discharge, being paid in full for his services, and was granted an indemnity of \$2.40 for shortness of food on the last voyage.

ITS INFLUENCE FOR GOOD.

A subscriber at Clifford, Ont., writes: "Allow me to say a word for the Witness. We have been taking it and the Northern Messenger for several years. My children are all total abstainers, and I think we owe it to the influence of your valuable and precious paper. I received the picture of the editor, for which accept my thanks."

PERSONAL.

The Rev. Hugh McLean, lately of the Presbyterian church, England, has been ordained minister of Calvin Presbyterian church, La-guerre, Que.

Last evening Ald. Berger left by the Quebec boat to join Mayor Beaugrand on the "Vancouver" for a three months' tour in Europe.

Mr. Walter Harper, the engineer who came out from London to conduct the test of the Merryweather fire engine, left last night, for Quebec to return home in the "Vancouver."

JOHN BRIGHT AT OXFORD.

One of Mr. Bright's sons has recorded the regret with which he saw his father walk the other day into the Opposition lobby amid the cheers of the Tories. There is something quite as incongruous and almost as pitiful in the spectacle of him walking across the floor of the Sheldonian Theatre amid the plaudits of the Oxford undergraduates.

SPORTS AND GAMES.

LACROSSE.

The match between the Shamrocks and Torontos, on Saturday next, is looked forward to with very great interest. It would be hazardous to make even a guess as to the result, such is the glorious uncertainty of lacrosse, even when the highest skill forms the chief element in the game.

There ought also to be a good display of the game on Saturday, between the Torontos and Ontarios.

The latter have a strong team, and, although after last Saturday's match, they are somewhat under a cloud, they may make a good showing.

Normal L. Munro, of New York, has offered to race his steam launch "Henrietta" against Jay Gould's steam yacht "Atlanta" from Larchmont to New London for \$100,000, the stake of the loser to be given to the charities of New York.

The following constitute the Quebec team, which, to-day and to-morrow, meet the Ontario team at Ottawa: F. Coste (Ottawa), captain; W. C. Little (Ottawa), H. V. Steele (Ottawa), B. T. A. Bell (Montreal), W. F. Sills (Montreal), H. V. Steele (Montreal), H. C. Boakes (Quebec), W. Pinkney (Montreal), F. Stancliffe (Montreal), W. F. Wilson (Ottawa), M. H. Jarvis (Ottawa).

The return match between the Montreal and Longwood (Boston) clubs takes place on Monday and Tuesday next. The following players will represent the Montreal Club: Penberton, F. Stancliffe, B. T. A. Bell, W. F. Sills, Lacey (Prof.), G. Hague, W. S. Duffus, G. Trimble, T. Elliott.

The match between the English and Australian teams, in London, was finished yesterday, resulting in a victory for the English by an innings and 100 runs.

Myers and Cummings are to meet in New York either during October or November. The distances for the respective races will be 1,100, 1,320 and 1,540 yards. The stakes will be \$400 a side, the winner of two out of three taking them.

At three o'clock on Saturday afternoon the Montreal Bicycle Club will leave the club house for a road race to Valois. On arriving at that beautiful spot, and after taking the necessary dip in the bay, the wheelmen will be entertained in the boat-house by the ladies now staying at the village.

When everyone's hunger is appeased a hop will be given. A number of members of the Montreal Junior Bicycle Club will ride to Valois with their senior brethren. The Juniors also have a run out to Blue Bonnets this evening.

THE UNDYING ONE.

We were five brothers, with sisters three, Blithe and merry as bright birds be— John and Peter and Joe and Dan, Henry and Sue and Kate and Fan. But I alone of that fair five To tell the tale am left alive! Humble our lot, for we were but dies, Yet we loved with the love that never dies. Summers come and Summers go, But the love of a fly is not built so. Together at morn, ere the sleeper rose, We buzzed round his pillow and bit his nose! Together when Night had spread her pall We stuck in beauty upon the wall. "But what," they said, "is the nose of man?" So John and Peter and Hen and Dan Flew to sugar and cake and bread;— Ere night had fallen they all lay dead, For the hand of Adulteration there Had set its gin, had laid its snare. Bread of alum and cake of plaster Upon them wrought this great disaster. And for sugar the chemist grim, though placid, Had mingled glucose and sulphuric acid. And he numbered them who were not his foes!— May the bluest Blue Ruin bite his nose!

MADE A CARDINAL.

YESTERDAY'S GRAND CEREMONIAL AT QUEBEC—CONTINUATION OF OUR REPORT.

QUEBEC, July 21.—The scene within the Basilica, to which admission was had by ticket, was a most striking one. Long before it was reached by the procession it had been well filled by those fortunate enough to get tickets.

Outside a crowd of not less than 20,000 people had been waiting patiently for the glimpse of His Eminence, and when he appeared he was greeted with enthusiastic cheers by the multitude.

Arriving at the chancel the Cardinal took his seat on the throne on the "epistle" side, supported by his two assistants, and the Ablegate, similarly supported, on a throne on the "gospel" side.

Archbishop Tache acted as celebrant of the solemn Pontifical Mass, with Vicar-General Langevin, of Rimouski, as vicar assistant, Vicar-General Laurent, of Ottawa, as sub-deacon, and Vicar-General Routhier, of Ottawa, as altar deacon.

On the conclusion of the Mass, Mgr. Gravel, Bishop of Nicolet, preached a brief and eloquent sermon, in course of which he referred to the wonderful growth of the Catholic Church in Canada, and of the attachment of the Canadian people to the chair of St. Peter.

To our Venerable Brother Alexandre Taschereau, Archbishop of Quebec, lately enrolled by us among the Fathers of the College of Cardinals.

Venerable Brother, health and apostolic benediction, the Divine mercy having placed us, without any merits of our own, on the throne of the Apostolic See, our welfare of the Catholic Church. We are especially desirous that the College of our venerable brethren, the Cardinals of the Holy Roman Church should be replenished for eminent men worthy of its high office.

Then, advancing again to the foot of the throne, the Ablegate addressed Mgr. Taschereau in Latin, French and English, to the effect that he had been appointed by the Pope to present to His Grace the insignia of the dignity of Cardinal.

ceremony. Mgr. Taschereau also returned thanks, in the course of which he referred in a feeling manner to the fact that fifteen years ago he had received his episcopal consecration at the hands of His Grace of Toronto.

After the procession a banquet was given in the Academy of Music, at which His Eminence presided. Speeches were delivered by Mgr. O'Brien, Mayor Langelier, Judge Routhier and others.

The illuminations this evening were magnificent, the Basilica Palace and other buildings being exceedingly brilliant. Immense crowds thronged the streets.

The party first proceeded to the Electric Light works on Wellington street, through which they were conducted by the manager. There are at present nineteen dynamos in operation, and an additional 200-horse power engine will be placed in the factory next week.

The party then proceeded to the Electric Light works on Wellington street, through which they were conducted by the manager. There are at present nineteen dynamos in operation, and an additional 200-horse power engine will be placed in the factory next week.

On the conclusion of the Mass, Mgr. Gravel, Bishop of Nicolet, preached a brief and eloquent sermon, in course of which he referred to the wonderful growth of the Catholic Church in Canada, and of the attachment of the Canadian people to the chair of St. Peter.
