FRANCE REJECTS ITALO-REICH PLAN

Claims Granting Of Belligerent Privileges Would Promote War

Non-Intervention Committee Warned that Patrol of French Border Must Be Abandoned Unless Complete Sea Cordon is Re-Established Together with Blockade of Portuguese Border—Dismisses Question of Good Faith.

London, July 9.—France today told the Non-Intervention Committee that recognition of the belligerency of both sides in the Spanish civil war could not be granted under present conditions.

Neither could land control of the Franco-Spanish border be continued by Paris if naval control of the Iberian coasts were abolished, Charles Corbin, the French ambassador, declared in support of the Anglo-French plan to continue the patrol work abandoned by Italy and Germany.

Moreover, Corbin warned, if supervision of the Portuguese frontier was not promptly re-established, the French Government would definitely notify the London Committee early next week that it would no longer allow international control of the Pyrenees border.

France stands ready to discuss any new proposal which may be presented to solve the present deadlock, Corbin said, provided such a proposal is as effective as that advanced by London and Paris.

The twenty-seven-power committee met in plenary session under the chairmanship of the Earl of Plymouth in an attempt to break the deadlock. The session, convened at eleven a.m., was expected to last throughout the day.

On the eve of the session, Julio Alvarez del Vayo, the Valencia Government's Commissioner-General for War, arrived in London for what was described as "an official, private visit."

Corbin dismissed the Italo-German plan for recognition of belligerency with the assertion that the present situation in Spain is no way justified such a step.

Claims Plan Favors Franco

In the French view, the Ambassador said, recognition would tend to favor General Francisco Franco, since a blockade of the Mediterranean (Government) coast could easily be established, whereas a blockade of the Atlantic (insurgent) coast would be impossible.

Moreover, Corbin continued, establishment of blockade by the opposing Spanish fleets would increase the danger of international incidents.

"Belligerency," he declared, "would give both sides rights in the matter of search and seizure, the use of which would be a permanent occasion for incidents. Until now an exception, incidents henceforth would become the rule."

Linking land control inextricably with the sea patrol, Corbin announced that if the Portuguese border were not immediately closed, Paris would inform the London committee early next week it could no longer tolerate international supervision of the Franco-Spanish frontier.

"The Italian and German governments," he said, "propose the maintenance of land control. The French Government consents willingly, provided this is not an exception, including only France, but makes part of a whole based on two conditions:

Patrol Must Be Complete

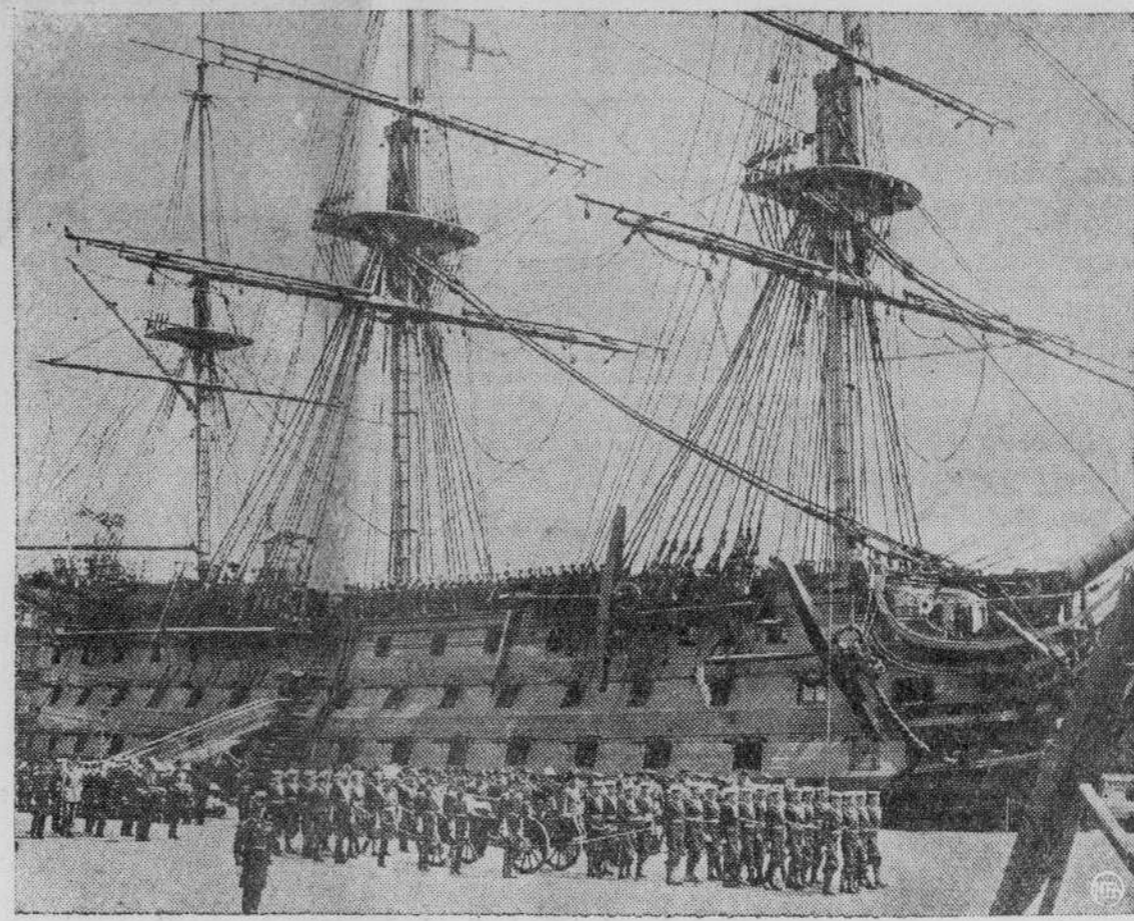

"First, that supervision of the Portuguese frontier, which has been discontinued for several days, be re-established without delay. If not, Continued on Page 2, Col. 4.

CLAIMS MRS. ROOSEVELT USED TAX LOOPHOLE

Washington, July 9.—Representative Fish, Republican, New York, told a United States Congressional investigating committee today that Mrs. Franklin D. Roosevelt had availed herself of a tax loophole.

The New Yorker read what he said was a photostatic copy of a contract which Mrs. Roosevelt signed in 1935 for radio broadcasts. It stipulated, he said, that after each of ten programmes the sponsors were to pay \$3,000 to the American Friends Service Committee, Philadelphia.

"Paths Of Glory Lead But To The Grave"

Centuries of British sea-power and majesty met in a moving ceremony at Portsmouth when the body of Admiral Sir William Fisher, late commander-in-chief of the British fleet, was borne in a solemn cortege past the historic frigate "Victory," flagship of the immortal Admiral Nelson at Trafalgar. Admiral Fisher was buried at sea.

British Government Hits At South African Claims On Territorial Transfer

British Dominions Secretary Informs House of Commons that South African Prime Minister, in Attacking Delay of Transferring Protectorates, Must Have Misinterpreted Meaning of Recent Negotiations.

London, July 9.—Dominions Secretary Malcolm MacDonald made a firm reply to Prime Minister J. B. M. Hertzog today on the question of transferring British protectorates in South Africa to the Union of South Africa.

"Clearly, there has been some misunderstanding," was the diplomatic phrase running through his detailed statement in the House of Commons. But accompanying phrases challenged Hertzog's version of the negotiations.

And, replying to supplementary questions from Labor members, MacDonald repeated Great Britain's pledges:

- 1.—Not to transfer the protectorates until the local population has been consulted and,
- 2.—Not to transfer them until Parliament has had the opportunity of expressing its views.

The protectorates are Bechuanaland, Swaziland and Basutoland. They are now administered under the British Government. Hertzog wants them included in the Union of South Africa.

Labor members wanted to know what exactly was meant by consultation. Did it mean, questioned Commander Reginald Fletcher,

that the consent of the natives would be obtained before the transfer, or did it merely mean they would be consulted but their wishes not respected.

MacDonald: "The pledges of His Majesty's Government in the matter have been set down. They are well known. I do not think they need add to them. We shall adhere to them."

"But what does consultation mean?" pressed Clement Attlee, Labor leader.

MacDonald: "Consultation means consultation. I cannot add to that."

Attlee: "That is not good enough. Can the Right Honorable Gentleman tell us whether these people are to be transferred against their consent or will their consent be obtained before they are transferred?"

Parliament To Be Consulted.

MacDonald: "I think the best answer I can give is that the matter rests with the House. There are two pledges:

- 1.—Consultation with the local population;
- 2.—The transfer cannot take place until Parliament has had an opportunity of expressing its views. So it will be for Parliament to express its views on what consultation means when the question arises."

Hertzog at the moment charged South Africa's request for the transfer was made as far back as 1925, that it was then represented to him that the time then was not propitious, because, among other things, a general election was imminent.

"There is no record here to this effect," MacDonald replied. "Indeed no such reason could have been given because at that time no general election was pending. In fact no general election took place until three years later."

Hertzog said that in 1935 J. H. Thomas, then Dominions Secretary, gave him a written assurance in which the prospects were set out that the transfer would possibly occur after a few years—at least as far as one or two of the territories were concerned.

Populations Must Consent.

MacDonald: "This refers to an agreement reached between General Continued on Page 2, Col. 1.

Russians Threaten Open War Unless Japan Leaves Siberia

In Warning Japanese to Evacuate Islands in Amur River, Government Communique Declares "All Possible Means" Would Be Used to Drive Out All Japanese or Manchoukuan Troops Setting Foot in Siberian Territory.

Moscow, July 9.—The Soviet Government threatened Japan with open warfare today if Japanese troops do not keep out of Siberia.

Maxim Litvinoff, Soviet Commissioner of Foreign Affairs, warned the Japanese ambassador, Mamoru Shigemitsu, that Russian troops along the Siberian-Manchoukuan border had firm orders "in no case to allow Japanese-Manchoukuan troops to cross Soviet frontiers."

"All possible means," the Foreign Commissar told the Japanese representative, would be used to drive out any Japanese or Manchoukuan troops that set foot on Russian territory.

The Russian warning was linked to a strong protest that Japan had violated the agreement to withdraw her armed forces from the disputed channel islands of the Amur River.

A clash between Soviet troops and Japanese-Manchoukuan border guards last week created a serious crisis in Far-Eastern affairs. It was settled only by a mutual agreement between Japan and Russia to recall their armies simultaneously from Sennafu and Bolshoi islands.

An official Government communique disclosed Russia had accused Japan of failure to evacuate the barren sandspits which control the channel of the river boundary between northeastern Manchoukuan and Siberia.

The Russian accusation was an answer to Shigemitsu's warning that clashes on the border of Siberia and the Japanese-inspired state of Manchoukuan.

ROYAL FAMILY CONTINUE WITH SIGHT-SEEING

Warm Welcome Accorded King George and Queen Elizabeth on Visit to Glasgow Industrial Districts

Glasgow, July 9.—The King and Queen visited this Scottish industrial city this morning, driving twenty miles through streets lined with crowds which turned out despite the rain.

Their route took them through rich and poor residential districts and dockyard regions to Bellahouston Park, scene of the Empire Exhibition to be held next year. In the afternoon they visited Dumbarton Castle.

Accompanied by Walter Elliott, Secretary of State for Scotland, Their Majesties came by special train from Edinburgh and were greeted at the station by the Lord Provost of Glasgow, John Stewart, first Labor holder of the office.

The King was dressed in the uniform of an admiral of the fleet while Her Majesty wore a beige coat with a fox fur on her shoulders.

Princesses Elizabeth and Margaret remained at Edinburgh and continued their sightseeing privately. The Royal Family will end their visit to Scotland Sunday.

THE WEATHER

FAIR AND WARM.

Pressure is relatively low over the Mackenzie Valley and Western Provinces and continues low near Hudson Straits, and high near the west coast of Hudson Bay, over the Upper Lake region and southeast states. Thunderstorms have occurred locally in the Western Provinces, the Rainy River district and in the Lower Lake region while in other parts of Canada the weather has been fair. It was decidedly warm yesterday in southern districts of Ontario and Quebec, also in Saskatchewan with moderate temperature elsewhere.

Forecast: Light to moderate variable winds; fair and warm today and Saturday.

Northern New England: Generally fair and continued warm tonight and Saturday, except not quite so warm on the coast.

Temperatures yesterday: Maximum, 84; minimum, 72.

Same day last year: Maximum, 84; minimum, 68.

BRITAIN'S SEA PLANE NEARING JOURNEY'S END

Eighteen Ton Caledonia Scheduled for Early Afternoon Take-Off from Boucherville on Last Lap of Atlantic Crossing to New York.

Boucherville, Que., July 9.—New York and the journey's end lay ahead of the flying boat Caledonia today, and the single, three hundred mile stretch of skyway was to be spanned before nightfall by Britain's colossus of the commercial air trials.

The eighteen ton aircraft, an Atlantic crossing behind her, was groomed by mechanics for an early afternoon take-off for New York. Her objective in a test flight that began in London, touched at Ireland and Newfoundland and halted overnight here yesterday. It was to be the easiest lap of the voyage.

The hop-off time was set for two p.m. E.D.T. from the St. Lawrence River below this village fourteen miles southeast of Montreal. With the forecasters promising fine flying weather, Imperial Airways' big ship should be at Port Washington, N.Y., by 3:30 p.m. E.D.T.

She was pronounced in fine shape for the short jump. Yesterday's nine hundred mile flight from Boucherville, had been just a mild workout for the Caledonia and her crew after their 1,995-mile trip Continued on Page 2, Col. 4.

EUROPEAN ARMS RACE DEPLORED BY STATESMAN

Grim Necessity Forces Great Britain to Divert Money to Armaments Which Could Be Spent Better Elsewhere, Claims Chamberlain.

London, July 9.—Peaceful discussion "instead of the arbitrament of force," Prime Minister Chamberlain believes, is the wise way of settling international differences.

Addressing a meeting of seven thousand Conservatives in Albert Hall last night the Prime Minister deplored that Great Britain had to spend so much on her rearmament programme—"Money which I would very much rather see devoted to objects which are calculated to raise the level of human happiness."

"But sometimes, you know, the longest way round is the shortest way home, and I myself am convinced that re-establishment of our strength in arms like that of that other great peace-loving nation across the Atlantic will in time convince the world of the wisdom of settling its differences by peaceful discussion instead of by arbitrament of force."

The Imperial Conference, he said, was an example of how nations could get together and approach problems in the right spirit. He paid tribute to Malcolm MacDonald, Dominions Secretary for tact and understanding of the Dominion view. Continued on Page 2, Col. 3.

Canadian Premier Denies Any Great Commitments Made At London Parley

Declares No Policies Announced or Approved Not "Wholly in Accord With Those of the Government of Canada as Known to the Country."

Montreal, July 9.—Home from two months of journeying in Europe, Prime Minister Mackenzie King headed for Ottawa and affairs of state today after assuring the Dominion it stood committed at the Imperial Conference to nothing "on which the Canadian Parliament would wish to be informed in advance."

The Prime Minister arrived here early today from Quebec, where he landed late last night from the Empress of Britain with four members of his cabinet. He left in two hours for the capital.

Though he declined to discuss other domestic affairs as he reached Canada, Mr. Mackenzie King, in a statement on shipboard, termed his news of Canada's part in the Imperial Conference "reassuring." He declared no policies had been enunciated or approved there which were not "wholly in accord with those of the Government as known to the country."

On Premier Hepburn's announced split with the federal Liberal party, the Prime Minister would say no more than that "on any matters which may have been the subject of controversy" in his absence, he would wait for first-hand information before commenting, "should that be necessary."

The Government chief, appearing in fine health, was accompanied home by Justice Minister Ernest Lapointe, Finance Minister Charles Dunning, Defence Minister Ian MacKenzie and Hon. T. A. Crerar, Minister of Mines and Resources. They also headed for Ottawa.

Discussing European affairs, Prime Minister King said the nations he had visited did not desire war and believed it would end European civilization. Of extreme economic nationalism, he said it had "out-lived" its day.

On the Premier's arrival in Ottawa, a cabinet will be summoned to meet next Wednesday. After that, announcement may be made of the personnel of the Royal Commission to investigate Dominion-Provincial relations.

Under present plans, the Premier said, Parliament would not meet this fall as a result of developments at the Imperial Conference.

OTTO PREPARED TO ASSUME OLD HAPSBURG SEAT

Pretender to Austrian Throne, Exiled in Belgium, Rules Over Court as Exacting as Those of Old Vienna.

Steenockerzeel, Belgium, July 9.—Handsome Otto von Hapsburg is ready, even to the smallest detail of royal decrees and proclamations, to take over the government of Austria when "His Day" comes, writes Louis Matzhold of the Associated Press staff after an interview with the Austrian pretender.

Every action, every thought of the industrious young Archduke, pretender to the Hapsburg thrones of Austria and Hungary, is directed confidently, toward that day. He has been trained for most of his twenty-four years to expect it.

Close associates here in his Belgian castle say Otto needs only to fill in the dates, affix the Hapsburg seal and the Royal decrees will be ready to be slapped on the doors of Vienna's Chancellery restoring the ancient Hapsburg monarchy.

Austrian Legitimists believe that loyal Viennese will then make ready for another Hapsburg age in the valley of the Blue Danube.

In the meantime Otto must wait and keep busy. He does both well, surrounded by his miniature court in exile.

Inside Steenockerzeel's tree-fringed thirty acres, the Archduke is "Kaiser Otto," ruler over a court as exacting in its etiquette and as obedient in its allegiance as was the Viennese court in the old days.

Otto's mother, Zita, is as much an Empress today as she was when she and Charles I ruled Austria-Hungary for a few eventful years before the dynasty crumbled in 1918. She Continued on Page 2, Col. 2.

AMMUNITION BLAST ROCKS CAPITAL OF FINLAND

Helsingfors, England, July 9.—Ammunition stores exploded near here today with a terrifying roar which shook the whole city.

Thirteen persons were injured, three critically, but there were no deaths.

The blast in Sveaborg Castle, just outside Helsingfors, was followed by fire that shot hundreds of feet into the air and burned for hours.

Arab Leaders Seeking United Front Against Partition Plan

Arab Higher Committee Calls Upon Kings of Four Arab Countries to Intervene Against British Plan for Division of Palestine into Three States—Emir of Transjordan, Neighboring State, Supports Plan.

Jerusalem, July 9.—The Arab Higher Committee called today a plea "in the name of God and religion" to intervene against the plan to partition Palestine.

The rulers from whom assistance was sought are Emir Ibn Saud, of Saudi Arabia, the Imam, of Yemen, Emir Abdullah, of Transjordan, and King Ghazi, of Iraq.

The committee protested the best part of Palestine would go to the Jews and the holy places would go under British mandate.

Anibey Abdulhadi, prominent member of the Arab Higher Committee, declared of the proposal to divide the Holy Land into sovereign Arab and Jewish states:

"I cannot imagine an Arab hand could sign anything like that."

"We will not willingly yield Haifa, Safad and Tiberias for \$2,000,000 or any money," Abdulhadi asserted. "It is not a matter of economics but of honor. Would Britain sell Portsmouth to Germany?"

"We are weak and we have no guns or gas, but we have the same hearts as you."

Police, posted at strategic points in Jerusalem, were searching passersby in an attempt to nip any disturbance of the peace. Several shots were reported to have been fired in the town of Nablus shortly after the Continued from Page 1.

Hope Dwindling Rapidly For Safety Of Aviators Lost In South Pacific

Naval Aviators Returned Empty Handed to Battleship After All-Day Effort to Pierce Wall of Silence Veiling Fate of Amelia Earhart.

Honolulu, July 9.—Aviators of the pair, who were missing since they were last seen on their search for Amelia Earhart, charted courses across new sections of the equatorial Pacific today in efforts to pierce the week-long mystery of her fate.

By sea and air search for the missing aviator and her navigator, Frederick J. Noonan, has encompassed approximately 136,000 square miles without even sighting some of the shoals and sand-spits supposed to exist in the vast area.

The flyers vanished a week ago today in an attempt to fly the 2,750 miles from Lae, New Guinea, to Howland Island, a mere dot of land in the sea.

Three planes from the United States battleship Colorado, steaming from the equator southward to the Phoenix Islands, soared over the area east and south of Howland Island yesterday but sighted no trace of the pair.

The planes could not even find Winslow Reef, which old charts showed peeked just above the sea 175 miles southeast of Howland. Should today's search prove fruitless for the aviators, who once expressed no fear of death in the skies, the naval fliers planned to spend Saturday combing the north-east portions of the Phoenix group, including Canton Island, largest of the chain.

Radio amateurs in Hawaii and on the mainland continued to report interception of messages they interpreted as being from the aviators, but Coast Guard and naval operators said they had not heard them, and in most instances pointed out the reported calls were on frequencies not used by the aviators.

As the extent of the hunt widened, the belief has steadily grown that Miss Earhart and Noonan never would be found.

New Strike Ordered In Attempt To Undermine Back To Work Movement

Steel Workers Organizing Committee Calls for New Demonstration Against Republic Steel as Company Reports Operations Near Normal.

Youngstown, Ohio, July 9.—Steel union leaders called a new strike today in Republic Steel Corporation's plant here in a move to reform lines planned by reopening of mills two weeks ago.

George Simcox, vice-president of the Steel Workers Organizing Committee unit at the Republic plant, announced the new strategy at a meeting last night. Tom White, president of the Lodge, confirmed the call, which set the walk-out for 12:30 p.m. (E.D.T.) today.

Simcox said the strike call was issued only to Republic employees, here, and that similar action in the plants of Youngstown Sheet and Tube Co. would be taken later.

He asked strikers to gather at the Poland Avenue gate of the Republic mill and "show Tom Girdler that the real Republic workers are not in the plant."

Republic reported yesterday that 6,200 men out of a normal force of

6,800 here were on duty. Sheet & Tube claimed it had 12,500 men at work in Youngstown plants which have an average daily total of 13,050 at work.

Ohio National Guardsmen continued on duty at plants here, as well as in other Ohio steel strike centres. Republic reopened the last of its Ohio mills in Cleveland yesterday.

The deadlock keeping seven thousand Sheet & Tube employees idle in Indiana's Calumet district continued as Governor M. Clifford Townsend urged petitioners for reopening of the two mills to "help convince the Youngstown company to pursue a fair policy."

LIVING COSTS MOUNT SHARPLY IN ALL FRANCE

The Chautemps Government Orders Drastic Increase in Taxation and Utility Tariffs in Attempt to Offset Huge Deficit.

Paris, July 9.—Five million Frenchmen began to mold their economic lives to a new pattern today...

The average citizen awoke to find his taxes and cost of living increased...

The Council of Ministers, under the new Premier Camille Chautemps, last night published the sweeping financial decree...

Some of the results under this new economic deal are:

The French citizen must pay one-fifth more income tax than last year...

Cigarettes, which formerly cost the equivalent of 10-14 cents...

It costs 2-1-2 cents to mail an ordinary letter instead of the former approximate charge of two cents...

Telephone bills were increased about one-third...

The tax on transfer of securities was raised from eight per cent. to twelve...

Fuel for motor trucks was increased in price but that for private automobiles remained unchanged...

The new indirect taxes raising the cost of living, however, do not apply to what the Government calls the necessities of life...

LIGHTHOUSES PROVE REAL ESTATE DRUG

United States Government Withdraws Three Lighthouses and Islands from Sale in View of Poor Bidding.

Washington, July 9.—It appeared today that Uncle Sam is a better book salesman than a peddler of lighthouses and islands.

Three parcels of romantic real estate, which were dangled before the public a month ago, have been withdrawn from the market because the Treasury's Procurement Division figures it wasn't offered enough money.

Bids on the aquatic property ranged downward from \$3,500 to one cent.

The pieces of land, which officials said will be up again when the lighthouse and island market appears stronger.

WAGE INCREASE FOR MONTREAL CLOTHING WORKERS

Montreal, July 9.—David Kirsch, chairman of an arbitration committee set up last May, said yesterday the committee has recommended increases of approximately ten per cent. for workers here in the clothing industry.

Kirsch's decision was handed down on behalf of the International Ladies' Garment Workers Union, Dressmakers' Union No. 262, The Dressmakers' Union No. 262, the Dress Manufacturers' organization of Montreal.

EIGHTEEN YEAR OLD BOY DROWNED

Val St. Michel, Que., July 9.—Yves Lamare, 18 years old, of Syabre, Que., drowned yesterday in the Nelson River near this village, fifteen miles northwest of Quebec. The youth's body was recovered.

Country and Dairy Products Prices

Montreal, July 9.—Butter futures were firmer with 1/2 to 3/4 c advance in yesterday's trading. A better demand for cheese was experienced with a steadier market. The egg market was firm, with prices unchanged from previous quotations.

Sales at the Canadian Commodity Exchange were 600 boxes of Quebec fresh 92 score butter, 400 boxes of which were sold at 25 1/2 c and 200 boxes at 25 3/4 c. Butter futures were firmer at 25 1/2 c to 1/4 c advance, July, 25 1/2 c to 26 c, up 1/2 c; November, 26 1/2 c to 26 c, up 1/4 c. Small lots to the retail trade were quoted by jobbers at 26c for solids and 26 1/2 c for prints.

Steadier prices prevailed in the cheese market as a result of better demand. Quebec white was quoted at 13 1/2 c to 14c, colored, 14c to 14 1/2 c; Western white, 14 1/2 c to 14 3/4 c; Western colored, 14 3/4 c.

There was no change on the egg market, with price levels holding firm and receipts sufficient for immediate market requirements. Graded shipments sold in case cases at 24 1/2 c for A-large, 22 1/2 c for B and 18c for C. Offerings at the Canadian Commodity Exchange were 24c for Ontario A-large, 22 1/2 c for A-medium, 21c for B-large and 18 1/2 c for C. Prices of local jobbers to the retail trade in eggs was as follows:

Airliner Makes Historic Flight.

History was made when the great airliner Caledonia reached Montreal yesterday practically on schedule.

Leaving its temporary base at Botwood, Newfoundland, at a quarter to nine in the morning, the Caledonia passed over Fame Point shortly after noon and before four o'clock was soaring above the city of Montreal. It had successfully concluded its historic trans-Atlantic journey.

The Caledonia covered a distance of nearly two thousand miles between its starting base at Foynes, Ireland, and Botwood, and another stretch of over eight hundred miles from Botwood to Montreal.

Canadians rejoice in this flight, which marks another successful experimental flight by air. The flight was followed with close interest. The success of this flight is a source of satisfaction and rejoicing to all who have the advancement of modern progress at heart.

Hitler's Ways Are Difficult To Understand.

Hitler claims he desires peace, but it is rather difficult to understand the logic of his words, especially after he divorced Germany from the League of Nations, encouraged Mussolini to make war upon Ethiopia and joined Mussolini in wrecking the collective security system.

It is also baffling to follow Hitler's desire for peace when we see Germany collaborating with Italy in sending the most modern war equipment to Spain to wreck havoc upon a people who are striving to preserve their liberty.

But that is not all. Why, we ask ourselves, did German aviators wipe out the city of Guernica and why did German battleships lay waste the city of Almeria? Why was Hitler responsible for the killing of thousands of helpless civilians?

Actions speak louder than words. Hitler is attempting to deceive the world with fake assurances.

World peace is the last thing Hitler wants. He has and is still proving that.

Showdown Expected At Any Time.

Indications point to an early and decisive showdown in international affairs. The matter is bound to come to a head over the Spanish issue.

The present situation is none too encouraging. Italy and Germany are apparently determined to stand pat, while, on the other hand, Britain and France have stated their position and do not intend to make any change.

Premier Chamberlain declares that Britain is getting into a position in which no one will treat her with anything but respect and that he, as head of the Government, faces his responsibilities without fear or hesitation. This is meant to imply that the vacillation and weakness that featured British foreign policy during the Baldwin regime are at an end. Mr. Eden emphasized the Premier's observations by declaring that Britain is determined to maintain the territorial integrity of Spain and keep the Mediterranean open as a main arterial channel. In other words, Germany will not be allowed to take over the Canary islands, let alone the Basque provinces, and Italy will not be permitted to seize the Balearic islands.

The dictators have failed to frighten Britain and France into according belligerent rights to the Spanish rebels an advantage which might have decisive results. They have withdrawn their own warships from neutrality patrol work but have not induced other nations to abandon the patrol system. The rebels, notwithstanding their northern victories, are in need of more help and the dictators have been wondering whether they could afford to intervene openly. Not unlikely they agreed tentatively to give direct aid to the rebels and attack government centres, but the firmness of Britain and France may lead to a last-minute reconsideration of that plan.

The League of Nations has been shoved to one side in the matter, although Spain had a perfectly good case against Italy and Germany for their aggressions against her. But League nations dominate the non-intervention committee of twenty-seven members and solidly support the British and French position. These countries include the Little Entente nations, Belgium, Holland, Bulgaria, the Baltic states and the Scandinavian countries. The United

States and Russia also are in sympathy with the non-Fascist majority countries.

Italian papers, controlled by Mussolini, intimate that Il Duce has given up hope of reaching an understanding with Britain and that war may be expected within a year. The younger Fascists are urging immediate action before Britain can get ready. But the odds against the Fascist nations already are terrific, and if Britain can persuade them that she will fight rather than back down, the war danger may be obviated.

Everyone Needs A Holiday.

There is greater significance to the holiday season than many people realize. The businessman or the industrialist often thinks he cannot afford to waste time taking a holiday.

This is a wrong conception, for everyone needs a holiday and a change. It does a person the world of good to get away fishing or to a camp for a week or two.

A holiday in the open gives a person a new slant in life and he returns to his work refreshed in mind and body with more enthusiasm to face the trials and problems of the coming fifty weeks.

The following lines by S. E. Kiser contain much wisdom and are worthy of consideration:

"You are rushing, you are straining with a grim look on your face,
You are turning from all pleasures, in your breast peace has no place;
You have ceased to find contentment in the nooks you used to know;
You have ceased to care for others whom you clung to long ago;
You are straining, you are straining through the dark days and the fair,
But, oh mirthless, eager brother, are you getting anywhere?"

"Out beyond you there is silence that no man may ever wake;
In the distance there is darkness that no morning's light may break;
At the journey's end dishonor is for those who day by day
Cheat their souls and dull their senses as they rush upon the way.
You are passing many pleasures which you have the right to share,
As you rush to fill the hollow men will dig for you somewhere."

EDITOR'S NOTE-BOOK

Newspapers have been commenting on the success in Nova Scotia of a person to whom some of them refer as "Young Macdonald." But, after all, Nova Scotia's Premier will be forty-seven on August 1st, and is only a few months younger than Quebec's Mr. Duplessis, who was forty-seven on April 12th. Premier Campbell, of Prince Edward Island, will be only forty-two this Wednesday, and Premier Hepburn, of Ontario, will not be forty-one until August 12th.

Brazil has destroyed 27,000,000 bags of coffee in three years, or more than one billion pounds. What a curious world we are living in; growing things only to destroy them; paying people not to grow things, as has been the case in the United States; and making munitions, which are "useful" only in so far as they fulfil a mission of destruction.

The St. Thomas Times-Journal deprecates Premier King's visit to Hitler and suggests that the Canadian Premier is "a novice in international politics." We consider Mr. King no novice in international politics.

We wish we worked in the local Court House. It must be great to lock the office door at four o'clock in the afternoon these hot days.

PRESS COMMENTS

HEARST-ROOSEVELT TIE-UP RELATED

When William Randolph Hearst hired the President's son-in-law, Boettiger, to run his Seattle paper and engaged Roosevelt's son Elliott to boss the Hearst radio stations in the southwest, the country chuckled. Was Hearst going to hire the President's nephew?

That, it seems, was a little too much, even for Hearst. Who was the next best? The Roosevelt first lieutenant, James Aloysius Farley. So to James recently went an offer of \$200,000 a year to become general manager of the Hearst newspapers. Reports have it that he gave a loud and angry snort. "Tell Mr. Hearst that I am not interested in any offer from him, even if he should bring it himself with his pockets full of \$10,000 bills."

But Mr. Hearst should not be discouraged. With a Roosevelt son and son-in-law in the fold, he has made a good start. Tough luck about Farley, but there are eleven other Cabinet members. If Mr. Hearst could buy Madame Perkins and put her to work writing hints to the Lovelorn or a daily horoscope instead of messing around with the labor department, the country would be in his debt.—Detroit Saturday Night.

ABOUT MODESTY

It is reported in some of the old country newspapers but not confirmed, that British girls still persist in believing in old-fashioned notions of modesty. They will go so far, but in Yorkshire, at least, there's a limit, which apparently is not too short shorts. For the Leeds community carnival committee said according to the press aforesaid, "All the girls were too modest to play Lady Godiva." One doubts whether that committee really asked all the girls. Anyway, a boy was drafted for the job of putting on a silly wig and riding naked through the streets. The committee says he agreed "reluctantly," and we believe the committee this time. From what we know of any normal "Yorkshire type" he would much rather stand on the beach of Brigate in Leeds and watch a lass go by, as Lady Godiva particularly. Otherwise one seems to be reminded of the narrow division of decency and nudity, which, after all, is in the point of view. Once a woman missionary to the heathen obtained another viewpoint. Her pupil took hold of her skirt and asked if she wore clothes because she was deformed.—Brandon Sun.

A GYPSY'S PREDICTION

As Queen Elizabeth drove in state along the Ascot course, she probably recalled a curious incident which occurred during her attendance there in 1921. She and Mrs. Forbes, who accompanied her, were stopped by a gypsy, who caught their hands and insisted on telling their fortunes. It is an absolute fact that this gypsy prophesied that Her Majesty—then Lady Elizabeth Bowes-Lyon—would be a queen, and the mother of a great queen. Her prediction for Mrs. Forbes was that she would be famous in five continents. This Mrs. Forbes is the Rosita Forbes of today, whose explorations are world known, but who had done no travelling at the time.—News of the World, London.

GRADE CROSSINGS

Canada has about 32,000 highway crossings, of which over 27,000 are in the rural districts. The majority of these are unprotected but with a little common sense on the part of a number of drivers, accidents can be avoided. The future may bring about a solution to the question of the level crossing but as yet it presents a great problem.—Frederick Gleason.

FORESEES DEFEAT OF ALBERTA GOVERNMENT

The new leader of the Liberal party in Alberta, Mr. Gray, is apparently ready to tender a helping hand to Mr. Duggan, the Conservative Leader, so that, united, the two groups can attempt to tumble the Abernethy Government from power. The Social Credit party in Alberta, as everybody knows, is very badly "shot," and since its election to office, it has lost a tremendous lot of ground, and is still doing so at the present time.

Members of the three other most important groups in the province, the Liberals, the Conservatives and the United Farmers, have retained their programmes, their leaders and their objectives.

Divided, they can do nothing, but, adopting a common object and plan of action, we believe they could accomplish startling things in little time.

"All those in Alberta who no longer believe in the magic theories of Social Credit, and they are particularly numerous, are anxious to return to a more logical and ordinary form of administration.—Le Nouvelliste, Three Rivers.

FRANCO-CANADIAN RELATIONS

The formal inauguration of Canada's pavilion of the Paris International Exhibition was a significant event. There is opportunity for rejoicing that this ceremony took place in the same week as the French Language Congress.

The inauguration at Paris advertises in a practical manner our attachment to our French origins and gives our former mother country a new tangible proof of the fidelity so strikingly declared recently at Quebec. At this ceremony the Prime Minister of Canada will be intimately associated and almost on equal footing with his Quebec colleague, Hon. Ernest Lapointe, whom he regards so highly.

This association of the two federal ministers proclaims abroad Canada's dualism and the place in it held by the French group. The presence of other eminent French-Canadians

also helps to recall the part which we play in our country. While the French language was being honored at Quebec, the French-Canadians themselves were being honored at Paris.

All this is encouraging. What is even more so is the practical effect it may have upon our country and particularly upon our ethnic group. Our participation in this great enterprise is calculated to do for our commercial relations with France.

By exhibiting at Paris we may hope to sell to France larger quantities of Canadian merchandise. To compensate we can possibly buy a little more from her. Inasmuch as it has been said that the French Language Congress was also a French Spirit Congress, the ceremony at Paris augurs well.—Le Soleil, Quebec.

LOGICAL TOWN PLANNING It was announced, not long ago, that the services of Jacques Greber, noted French town planning expert who is the author of most of the important buildings of the Paris Universal Exhibition of 1937, had been acquired by the Canadian Government to direct the important embellishment plans which are being projected for Canada's Capital city.

All other cities in the Dominion, regardless of their own situation will undoubtedly be glad to learn that it is planned to beautify Ottawa. We already have the example of our friends and neighbors, the Americans, who spared no time, effort or expense in embellishing their own cities of Washington, with the result that their national capital is now one of the show places of the continent.

We naturally cannot afford to spend what the Americans spent, but, proportionately speaking, there is no earthly reason why Canadians cannot beautify Ottawa as the Americans embellished Washington. Town planning for Ottawa is a good thing but, we think, town planning for all the municipalities of Canada would be an even better one.—La Presse, Montreal.

INSTITUTE AT LENNOXVILLE HEARD APPEAL

Financial Problems of Malvern Cemetery Company Discussed at the Regular Session of Lennoxville Women's Institute.

The Malvern Cemetery Association is showing a steady financial loss each year, it was revealed yesterday afternoon at the regular meeting of the Lennoxville Women's Institute held in the Institute Room of the Town Hall, with the president, Mrs. E. L. Atto in the chair.

In answer to an appeal for assistance from the Malvern Cemetery Association recently, the Women's Institute asked that a delegate from the Association attend a meeting of the W.I. to discuss their financial condition and ascertain if anything could be done towards the raising of the amount required by the Association to set their books in order. Therefore, D. G. Harrison, president of the Association, and W. H. Abbott, secretary-treasurer, were present at yesterday's meeting, and threw much light on the financial condition at the present time. "We are running behind financially each year," stated Mr. Harrison, "and we need more co-operation from the public, for a little co-operation and team work is worth much more than much criticism." Mr. Harrison stated also that the Association is getting about \$188 each year with which to pay expenses, and they really need \$500 a year in order to be able to hire the help required during the summer, and pay the expenses of the upkeep of the graves. A solution to the problem, he believed, would be an annual subscription of from \$1 to \$5 from interested persons, who would pledge this amount and take care of it each year, so that the Association would be in a position to carry on financially without being required to ask for assistance every few years. Given in small amounts by the interested parties faithfully annually, he said, the necessary would not then be asking for large donations at any one time. "The public has been lax about attending our meetings, and perhaps they do not believe they have a right there or are welcome, but we would be very glad if more would make it a point to attend our meetings, and assist us from time to time by offering helpful suggestions or constructive criticism and co-operating with us in any way that they can," he concluded.

In thanking Mr. Harrison and Mr. Abbott for their kindness in answering the questions put to them by the Institute, the president assured them that the matter would be given every consideration in view to assisting the Association in any scheme which they might try for a successful outcome of their difficulties.

During the business meeting, which was opened with the singing of "The Opening Ode" and repeating the "Club Woman's Creed" two full and comprehensive reports of the recent Twenty-fourth Annual Convention of the Quebec Women's Institute held at Macdonald College and graced by the presence of Lady Tweedsmuir, were given by the Lennoxville Women's Institute official delegates, Mrs. Grace O'Keefe and Mrs. Calvin Sterling. A vote of thanks from the president and a round of applause were the reward of the delegates for their splendid reports.

A moment of silence was observed in memory of a faithful and dearly loved member, the late Mrs. Kate Reed, who passed away recently, leaving a place in this branch which will never be filled, and whose years of splendid service will not soon be forgotten.

It was announced that the sister of the delegates chosen to attend the County meeting in August were Mrs. G. G. McCurdy and Mrs. M. H. Pegg. A resolution regarding banking, which would simplify the regulations required for the treasurer, was accepted and passed.

The delegates chosen to attend the County meeting in August were Mrs. G. G. McCurdy and Mrs. M. H. Pegg. A resolution regarding banking, which would simplify the regulations required for the treasurer, was accepted and passed.

A recognition of the money sent by this branch to the Wales Home Auxiliary was also read.

At the close of a busy meeting, refreshments were served by the hostesses, Mrs. R. E. Mosher, Mrs. Lawrence Parker and Mrs. Philip Walton.

Members of the Past Noble Grand's Bridge Club were pleasantly entertained last evening at the home of Mrs. Howard Nutbrown on Clough avenue last evening, when contract bridge was played at three tables, the prizes being won by Miss Estella Weisman.

During the business period, which was conducted by the president, Miss Ruby Pegg, an invitation extended by Mrs. Arnold Bown for the members of the Past Noble Grand's Bridge Club and Myrtle Rebekah Lodge Number Twenty-Eight, to come to the cottage of herself and Mr. Bown at Stoke Lake, on July 17, was gladly accepted, and plans were formed for transportation on that date.

At the close of sixteen hands, a dainty lunch was served by the hostesses.

General Notes. Mr. and Mrs. Wesley McCurdy and little Peggy White, of St. Catharines, are guests of Mr. McCurdy's parents, Mr. and Mrs. G. G. McCurdy at their home on Prospect street. Mr. and Mrs. G. Clayton Tirrill and little son, Lloyd, of Canaan, Vt., were recent guests at the same home and on their return they were accompanied by Mrs. A. Charles Greenfield, and children, who will be their guests for some time.

The Misses Dinah and Marion McKivinen are spending some time in Ottawa.

WEEK-END OUTING PLANNED More than one hundred representatives of the Maple Leaf Division of Investors Syndicate will enjoy a week-end outing at Cap St. Jacques Beach in celebration of the company's \$100,000.00 jubilee and as a climax to an international contest that terminated on June 24. Representatives of the company and their families from the Eastern Townships will attend the meeting at the Chateau. Divisional Manager, M. H. Latendresse, of Montreal, is in charge of this outing.

One of the novel features of this meeting will be an address by J. R. Ridgway, chairman of the Board of Directors of Investors Syndicate, over an international telephone hook-up. From the home office in Minneapolis, Mr. Ridgway will address members of his agency organization who are meeting in similar jubilee celebrations in forty-one states and the District of Columbia in the United States, and in eight Canadian provinces, simultaneously. His message to his far-flung organization will be heard through loudspeakers at each divisional jubilee.

Other features on the outing's programme include luncheon at noon, a grand chicken dinner in the evening, bathing, golf, dancing and sports of all kinds.

A. C. Jenkins, manager of the Sherbrooke agency, and his representatives will attend the meeting.

NATIVE OF SHERBROOKE PASSED AWAY IN QUEBEC CITY Word has been received here of the death of Rev. William Hansford Stevens, a prominent Quebec clergyman and port chaplain for the past twelve years, who passed away at his home yesterday.

Mr. Stevens was born in Sherbrooke in 1867, receiving his early education here before proceeding to Wesleyan Theological College, Montreal, for training in his chosen vocation.

After his ordination in Sherbrooke in 1893, he held pastorates in Ottawa, Hudson Heights, Que., Grenville, Que., Calumet, Que., Knowlton, Huntington, Pembroke, Ont., Chesterville, Ont., and Almonte, Ont.

Mr. Stevens was called to Wesley Methodist Church, Quebec, in 1922, relinquishing the pastorate in 1925 when his church was united with Chalmers' Church under the name of Chalmers-Wesley United.

In that year he assumed the position he held until his death, acting as port chaplain for Methodists and Baptists.

He is survived by his widow, Wilhelmina Sophia Hurdman, whom he married in 1893, a daughter, Wilhelmina Isabel Laskie, Glasgow Scotland, two sons, Graham, of London, Ont., and Allan, of Montreal and a brother, E. S. Stevens, of Sherbrooke.

Funeral services will be held in Chalmers-Wesley Church on Saturday morning, with interment in Sherbrooke.

STORM FAILED TO BRING END TO HEAT WAVE

Electrical Storm Caused Some Damage to the Canadian Brakeshoe Plant and To City Power Plants — Paquetteville Man Struck by Lightning.

Yesterday's thunderstorm and downpour failed to bring relief to the thousands of Sherbrooke citizens sweltering in the grip of a heat wave which, although breaking no records, has caused plenty of discomfort.

Temperatures all week have hovered between eighty-three and eighty-five, but no cases of prostration have been reported. The maximum reading of the year, eighty-seven, was reached on May 31.

The Canadian Brakeshoe Company reported that yesterday's electrical storm caused some damage to the plant's power division, necessitating curtailment of operations for a time, while approximately two hundred dollars damage was caused to the city's Drummond and Weedon plants. Other damage throughout the city was largely confined to blown fuses.

Camille Gregoire, of Paquetteville, was taken to the St. Vincent de Paul Hospital yesterday with a badly burned right arm, suffered when he was struck by a bolt of lightning. Hospital authorities state this morning that he was in no danger and would leave the hospital soon.

HEAT DEATH TOLL IN U.S. MOUNTS Chicago, July 9.—The death toll from the season's longest heat wave mounted steadily today as the sun-baked northern tier of states looked in vain for relief.

At least fifty-seven persons succumbed to the merciless temperatures that extended from the United States Atlantic Coast to Eastern Washington.

There were hundreds of prostrations. Death by drowning claimed scores of persons among the tens of thousands who sought relief at the beaches.

Fifteen deaths in Michigan were attributed to the heat. Massachusetts reported eleven. Connecticut eight. Illinois five. Minnesota, Nebraska and New York three each. Rhode Island two. Maine, Indiana, Iowa and Ohio one each.

Temperatures in the upper ninety western farm belt and in numerous eastern cities.

In New York City, whose normal average for July 8 is seventy-three degrees, thermometers registered maximums of ninety-four to ninety-eight yesterday. It was the city's hottest day this year.

Howard Miller, M.A., son of Mrs. Miller and the late Major H. B. Miller, of Ottawa, formerly of Sherbrooke, was ordained to the diaconate of the Anglican Church by the Most Reverend Dr. Roper, Archbishop of Ottawa.

The ordination service took place in St. Matthew's Church on Sunday morning, June 27th, when the Rector, Rev. Canon Jefferson, presented the candidate for ordination. Rev. John Fisher acted as chaplain to His Grace, and Rev. W. H. Bradley read the Litany. Dr. John W. Bearder, a former organist and choir master of St. Peter's Church here, presided at the organ.

In his sermon Canon Jefferson referred to the newly-ordained clergyman whom he "had known since boyhood. Deprived in early childhood of the guidance of his father, who was killed in the Great War, Howard Miller had done exceedingly well and had an exceptional academic record."

Rev. Howard Miller is an honor graduate of Bishop's University, Lennoxville, taking his Bachelor's Degree a year ago and his Master's Degree in the year just closed. During his scholastic career he won the Laussing Lewis Memorial Prize in Theology, the Archdeacon Balfour Prize in Greek and was head of his class in each year of his course.

WHERE TO GO FOR VACATION OR WEEK-END

Unequaled Spectacles Of Nature And Man Join In Welcoming Tourists

Rugged Mountains, Wild Forests, Attractive Lakes and Rolling Farm Land All Form Part of Beautiful Vista Greeting Visitors to the Eastern Townships — Man-made Opportunities for Recreation Numerous.

Unrivaled spectacles of nature, rugged mountains, wild forests, attractive lakes, large and small, turbulent rivers and streams and rolling prairie and farm land have all combined to make the Eastern Townships a tourists' paradise. No matter in what direction a visitor crosses the district, he is bound to be met by a highly varied panorama. In the east are dense forests, in the centre hills and mountains while on the western boundary are flat lands which stretch for miles in every direction offering a rural vista in sharp contrast to the rough and almost primeval setting found in the more easterly sections.

Everywhere there are lakes, ranging from the small pond whose only right to the title of a lake is one of courtesy to those magnificent bodies of water such as Memphremagog, Massawippi and Megantic. Some of these have been developed as tourist resorts and attract their quota of the thousands of visitors who visit this district annually. Others are comparatively little known and difficult of approach but provide for lovers of rustic simplicity all the benefits of a real "back-to-nature" campaign within a few miles of substantial centers of population.

Overtopping these are those hills and mountains which played an important part in delaying the early settlement of the region and the king of them all is Orford, one of the highest mountains in Eastern Canada, from the top of which can be seen seventeen lakes while on a clear day the high buildings of the metropolis spreading at the base of Mount Royal can be seen.

CHURCH MARKED 75TH BIRTHDAY AT COATICOOK

Impressive Services Featured by Various Addresses and Dedications Were Held at St. Stephen's Church Observed Seventy-Fifth Anniversary.

Coaticook, July 9.—With ideal weather prevalent, St. Stephen's Church was crowded to capacity on Sunday, July 4th, for the seventy-fifth anniversary of its founding. Scores of former parishioners gathered with the usual congregation were present.

The church was attractively arranged with a profusion of flowers and had been newly re-decorated. The memorial gifts were arranged in their respective places.

Rev. W. W. Davis, rector, officiated, assisted by two former rectors, Rev. Cecil G. Stevens, of St. Lambert, and Rev. A. E. E. Legge, of Three Rivers. Miss Eleanor Wallace presided at the organ. Rev. Legge read the opening responsive readings, and at the conclusion of same congratulated the members of St. Stephen's Church and parish re the beauty of the interior of the church and heartily expressed his appreciation at having received the invitation to be one of the guest-clergy on this occasion, also voicing the thanks of all present to those who had been instrumental in renovating the church.

Rev. G. Stevens also expressed his personal sentiments regarding this anniversary event in a speech similar to that of Rev. Legge. Rev. Davis addressed the congregation in words of appreciation and gratitude for the co-operation of the two guest-rectors and for the faithful and untiring efforts of his parishioners regarding their newly re-decorated edifice.

Rev. Legge then dedicated to the memory of the late Mr. Thomas Johnson, father of Mr. Charles G. Johnson, the beautiful brass candlesticks on the altar. The second dedication made was the altar rail given by Mrs. Emma Cleveland, in memory of her husband, the late Calvin Fritz Cleveland, followed by the dedication of the beautiful new chancel and church lights donated by Mr. L. M. Thomas, Mrs. G. C. Tillotson, Mrs. W. J. Bleay, Mrs. W. Blizard, of St. Lambert, Mr. Saunders, Mr. D. Moyle and Mr. Allen Moyle to commemorate the memory of deceased relatives.

At the conclusion of the dedications, Mr. Sydney Meade, Jr., of Montreal, beautifully sang, "The Lord Is My Life." Rev. Legge, as guest-speaker, addressed the congregation from the Psalms, sixteen, verse seven, and in the appropriate text exhorted the parishioners of St. Stephen's Church to adhere to Christianity, and to maintain for themselves the "goodly heritage" promised in his text and also firmly advocated them to be true to Christian morals and practice religion throughout their daily life and deeds. Rev. Legge also urged his listeners to remember the great faith of their ancestry.

In closing his sermon, Rev. Legge again exhorted all to live so as to enjoy the beautiful heritage that God had given them in St. Stephen's Church. Rev. Davis, the rector, then gave the final prayer for the morning, followed by the Holy Communion service, which concluded the morning worship.

At three p.m., Rev. Stevens addressed the parishioners of Christ Church at North Coaticook, and at seven p.m., evening worship was held in St. Stephen's Church. After the customary ritual, Rev. Stevens dedicated the new chancel rail given by Mr. Daniel Moyle in memory of the late Mrs. Moyle, also the new road-rail, which was placed above the chancel by Mrs. Albert C. Stevens, of Sherbrooke, and by Mr. Turner Webster to honor the memory of their parents, the late Mr. and Mrs. O. H. Webster.

Rev. Stevens, after blessing the above to the use of the church, spoke from Psalms, 145, verse four, verse four. In the address Rev. Stevens reviewed the growth of the church from the time of its construction seventy-five years ago to the beautiful and modern St. Stephen's Church of today. Rev. Stevens exhorted his listeners to be true to their faith so that the Church of God might be maintained.

The anthem, "Like As the Hart Desireth the Water," was delightfully sung by the choir, with Mr. Lloyd Dodds, of Sherbrooke, as soloist. Miss Dodds, of Sherbrooke, also sang in the choir for this special occasion.

At the conclusion of Rev. Stevens' address, the evening service was concluded in the customary manner. Among the anniversary guests present were Rev. A. E. E. Legge, Mrs. Legge and the Misses Mary and Enid Legge, Three Rivers; Rev. C. G. Stevens and Mrs. Stevens, St. Lambert; Mrs. Reginald Barrett, Paris, Ont.; Mrs. E. Christie, Montreal; Mr. and Mrs. Harold Edwards, Granby; Mr. Earl Andrews and Miss Andrews, Montreal; Mrs. M. A. Woodman and Miss Helen Woodman, Sherbrooke.

Among the seventy-fifth anniversary events of St. Stephen's Church which were held in connection with the occasion were a picnic at Murray's Beach, on Lake Massawippi, a garden party on Dr. C. H. Church's lawn with the band in attendance, "In Old Vienna," sponsored by the Anglican Men's Club, was presented in the Opera House, and a social evening was held in the Guild Hall, when greetings were received from other churches. The guest-speaker was Rev. A. E. E. Legge.

A man saw a gaudy-plumaged parrot on the roof of his cottage. He climbed up to capture it. The parrot looked at him and said sharply, "What do you want?" The man touched his cap. "Beg pardon, sir. I thought you was a bird."

At the address Rev. Stevens reviewed the growth of the church from the time of its construction seventy-five years ago to the beautiful and modern St. Stephen's Church of today. Rev. Stevens exhorted his listeners to be true to their faith so that the Church of God might be maintained.

The anthem, "Like As the Hart Desireth the Water," was delightfully sung by the choir, with Mr. Lloyd Dodds, of Sherbrooke, as soloist. Miss Dodds, of Sherbrooke, also sang in the choir for this special occasion.

THE STORY THUS FAR

Carol Clayton, engaged to wealthy Hartley Madison, plays the horses so that she can pay Duke Bradley, handsome young bookmaker the \$76,000 racing debt incurred by her father before his death.

pull. She could not stop laughing. "Ouch! You're murdering me!" Duke cried. For one moment, the trap came free then slipping from her grasp, snapped on his toe again.

An arm suddenly shot from under the bed and tugged at Carol's skirt.

CHAPTER XIX.

They had not foreseen this—that was in the long horrified look Duke and Carol exchanged. There was more—he would know she could not be asleep so soon after speaking to him. She could not refuse to go to the door. But when she did—

He took her in his arms and pressed his lips to her in a long kiss. She drew away hurriedly, pointing to the door. "It's so hard to leave you," he said, "that if you only half-way hinted you'd like me to stay, I couldn't resist."

MARRIAGES

WALSH—WALDRON Derby Line, July 9.—A quiet but pretty wedding was solemnized at the home of Mrs. F. G. Edmonds, Derby Line, Vt., on Wednesday afternoon, June 16th, at three o'clock, when Myrtle Adelaide Waldron, of East Clifton, was married to Gilbert Howard Walsh, of Derby Line, only son of Mr. and Mrs. G. H. Walsh, of Ayer's Cliff, Que.

PRICE—ROWLAND East Angus, July 9.—The marriage of Irene Margaret Rowland, daughter of Mr. and Mrs. Frank Rowland, of East Angus, to Mr. Arnold Arthur Price, son of the late Mr. A. Price and of Mrs. M. E. Price, of East Angus, took place on Saturday afternoon, June 26th, at four o'clock in Christ Church, East Angus, Rev. C. E. S. Bown officiating.

REEDSDALE Miss Edith Kinnear has returned to her home here after finishing her term of school at Georgetown. Mrs. W. G. White, who has been visiting her daughter, Mrs. A. J. McVetty, for some time was called to Monroe, N.H., on Tuesday to attend the funeral of her sister, Mrs. H. T. Wilton.

BROWN—OLSON The marriage of Veneta Margaret, daughter of Mrs. Thomas Olson and the late Mr. Olson, to Mr. Edward C. Brown was quietly solemnized in the Church of the Advent on Thursday morning, July 1st. Rev. L. N. Kerr officiated and Mrs. James Wark presided at the organ.

PARSONS—VAN Scotstown, July 9.—A wedding of unusual interest took place in St. Andrew's United Church, on Wednesday afternoon, June 30, at two o'clock, when the marriage of Catherine Mary Van, second daughter of Mr. and Mrs. R. C. Van, to Rev. Harold E. Parsons, B.A., B.D., was quietly solemnized.

McKENNEY ON BRIDGE

GRAND SLAM ON NO ACES! Player's Weak Holding Turned Into Power House, When Combined With Partner's Strength

By Wm. E. McKenney, Secretary, American Bridge League.

When South picked up his good-looking hand, holding that much-desired "strength in both majors," he had visions of at least a game for his own side, and certainly no fears of a successful slam bid by his opponents.

Today's Contract Problem

North has doubled West's contract of five spades. North wins the opening lead and shifts to a heart. West can make his contract by carefully planning the play of the suits, despite two apparent club losers. How does he do it?

opponent's suit was forcing to game, and the moment the fit of the hands in diamonds was confirmed, Miller felt justly proud of his holding and, even though he held not a single ace, contracted for a grand slam. He reasoned that West held a good heart suit, and certainly had to hold the ace of diamonds and the ace of clubs to justify his strong overall and later jump to six.

With such great trump strength and apparent control of all four suits as shown in the bidding, there should be at least a play for a grand slam. I am inclined to think that East and West should have been satisfied with a small slam against an opening vulnerable bid, but no one can quarrel with results, and Miller had no difficulty in making seven.

The opening lead was ruffed and a trump led to the closed hand. Two more spades were ruffed in dummy and three hearts in the closed hand. The last spade was discarded on the third high club.

and Miss Elaine Scott. The entire front of the church was banked with tall woodland ferns which formed a background for masses of pink and white peonies. After the ceremony the bridal party left the church, amid showers of confetti and proceeded to the residence of the bride's sister, Mrs. Earl Gatlin, where a buffet luncheon was served to the immediate relatives and friends. The lace covered table was centered with the wedding cake, decorated with a miniature bride and groom, the house decorations, continuing the color scheme, were pink and white roses.

McLEOD—BROCK Tremholm, July 9.—The United Church here was the scene of a very pretty wedding on Saturday evening, June 5th, when Jessie Edna Evelyn, fourth daughter of Mr. and Mrs. Edmund Brock, was given in marriage to Mr. Harry McLeod, of Spooner Pond, Que. The church was attractively decorated with masses of flowers interspersed with ferns. Rev. E. W. S. Coates officiated, and Mrs. Henry Armstrong, who presided at the organ, played the wedding music and accompanied Mrs. Percy Taylor, who sang, "O Promise Me," very delightfully during the signing of the register.

GIFFORD—BLAKE Danville, July 9.—The marriage of Ida M. Blake, youngest daughter of Mr. and Mrs. Bates O. Blake, of Kingsley, to David W. Gifford, son of Mr. and Mrs. Earl T. Gifford, took place Thursday afternoon, June 24th, at half-past two in St. Augustine's Church, with Rev. S. Wood officiating. The bride, who was given in marriage by her father, wore a gown of silk net crepe with a veil of white silk net and wreath of orange blossoms, and carried a bouquet of pink roses and maiden-hair fern.

McKENNEY ON BRIDGE (continued) The bride was given in marriage by her father, and wore a lovely bridal gown of white satin and lace with matching accessories, and carried a shower bouquet of pink roses, lily-of-the-valley and maiden-hair fern. CENTENNIAL EDITION WILL FIND ITS WAY TO EVERY PROVINCE IN DOMINION

The Mail-Away list for the Centennial edition of the Sherbrooke Record which will be published July 31 is rapidly lengthening.

For the past six weeks the editorial room and mechanical department of the Record have been hard at work getting the material assembled, and soon printing will be commenced.

The history of Sherbrooke will be reviewed from the early days of settlement, replete with photographic reproductions and columns of reading matter, contributed by local authorities or gathered by the news staff of the Sherbrooke Record.

You as a regular reader will naturally receive a complete Centennial copy, but you will want to send some to your friends who are far away. Send in your order now for extra copies. We are confident that you will want to put your own copy away for future reference.

Wrapping and mailing such a bulky paper will be a task. Postage will cost five cents. Why not let us do you the service. Fill the names in on the blank forms which have appeared in the Record. Please enclose 10 cents for each copy required and we will relieve you of the trouble of mailing.

LOCAL SQUAD WON GAME IN NINTH-INNING

Hec Asselin's Single in Final Frame Gave Sherbrooke Two to One Decision Over Granby—Tilt Was Pitcher's Battle Throughout.

Slamming out a clean single to right field which sent Bob Cohen racing across the plate in the ninth inning with the winning run, Hec Asselin gave the Sherbrooke teammates a two to one decision over Granby Red Sox in a twilight fixture of the Provincial Baseball League played at the Exhibition ball park last evening.

It was strictly a pitcher's battle throughout, big Paul Ryan, right-hander on the mound for the locals, granting six hits while "Ace" Corrigan was even more stingy with safeties, giving up but five. Both hurlers pitched stellar ball and both received sparkling support from their mates.

"Lefty" Atkins started in the pitcher's box for Granby, but promptly got himself into a bad hole when he walked Frankie Kitch, the first man up and hit Hal Ploski with a pitched ball. Cohen grounded out and Bill Moge was issued a free pass to first, filling the sacks. Corrigan then stepped into the breach, forcing centre fielder Lawler to ground to the pitcher's box. Corrigan, getting Kitch at the plate and catcher Phil Corrigan throwing Lawler out at first.

Granby opened the scoring in the fourth frame. "Burr" Maloney singled and crossing the plate on Charlie Leach's safety. Helpless before the slants of Corrigan until the sixth stanza when Kitch socked Sherbrooke's first hit of the game, a single, the locals evaded the count on Cohen's one-base blow. Kitch denting the rubber on the hit.

Rogan held the visitors well under control for the remainder of the tilt. Sherbrooke clinching the verdict in the final frame. Cohen bunted safely to open the locals' half of the inning. Moge walked and Duplessis, who went to centre field in the seventh replacing Lawler, fouled out to catcher Corrigan. Hammond then walked to fill the bases and Asselin came through with his timely single.

Ryan fanned three and walked one, while Corrigan whiffed five and gave three bases on balls. Hal Ploski made a beautiful catch of Phil Corrigan's fly in the fourth. Hammond then walked to fill the bases with one hand. Attended by a large number of fans, the game was frequently marred by bickerings between the players and the umpires.

Tomorrow afternoon Sherbrooke will be hosts to the powerful Sorel squad, and on Sunday will take in a twin bill with the Panthers. The management has announced that the Panthers did not appear on Tuesday evening because of a misunderstanding in the schedule, and has promised that the ebony entries will be here on Sunday.

Score by innings: R. H. E. Sherbrooke . . . 000 001 001—2 5 1 Granby 000 100 000—1 6 1 Batteries: Ryan and Chew; Atkins, Corrigan and P. Corrigan.

SOREL RALLY BEAT DRUMMONDVILLE

Sorel, July 9.—With the score tied at three-all and two men out in the eighth inning, Sorel rallied for two runs and a five to three win over Drummondville here last evening, increasing their margin of leadership in the Provincial Baseball League.

Olsen started the Sorel rally in the eighth with a single, followed by Winn's two-bagger. Irvin joining then won the game for the local team with a smash to deep centre which scored both runners.

Alphonse Gibo's twenty-one year old Notre Dame University student, made his debut on the mound for Sorel and gave six hits to the visitors. He also distinguished himself at the plate by belting a home run with a man on in the second inning. Ralph Simpson, Sorel centre fielder, also hit a homer in the same inning.

Cooney Girouard pitched a good game for Drummondville, granting nine hits, three of them to second baseman Bob Olsen. For Drummondville, Bob Smith was the only one to hit twice safely.

Score by innings: R. H. E. Sorel 030 000 02x—5 9 1 Drumville . . . 290 100 000—3 6 0 Batteries: Gibo and Galen; Girouard and Landry.

PANTHERS DOWNED BY THREE RIVERS

Three Rivers, July 9.—Combining nice hits with seven errors by the Montreal Black Panthers, Three Rivers took a nine to seven victory in a Provincial Baseball League game here last evening.

Panthers nearly turned the tables in the fifth, pounding on starting hurler McDermott for six runs. O'Leary relieved, however, and shut them out from then on. Tied seven to seven at the end of the sixth, the locals scored two runs in the seventh and held the opposition scoreless in the eighth. Darkness halted the game before the homeboys went to bat in the last half of the inning.

Score by innings: R. H. E. Three Rivers 203 101 2x—9 9 2 Panthers 000 160 00—7 9 7 Batteries: MacDermott, O'Leary and Trainor; Pace, Fleming and Taylor.

The league standing to date follows: W. L. P.C. Sorel 18 9 .667 Granby 17 12 .585 Drummondville . . . 16 11 .593 Sherbrooke 13 12 .520 Three Rivers 13 16 .448 Panthers 7 24 .228

HEAVY HITTING PROVES SUREST VICTORY MEANS

Failure to Include Heavy Hitters on Line-Up Held Responsible for Humiliating Defeat Suffered by National League Stars.

They wheeled the big league cannons back on the firing line today, while the shots from the all-star game, particularly those exploding the argument of prize pitching over slugging still echoed on all fronts.

As both leagues went into action, after their three-day lull, base-batters all over the map were still shouting theories over the whys and wherefores of the lopsided shelling of the American Leaguers handed their rivals Wednesday.

From the raft of "reasons" thus expounded these arguments stood out: 1—That the National League seems to have placed too much emphasis on the supposed unbreakable defence of its big three pitchers, and not enough on mass run-production.

2—That an extra-base wallop delivered with men on the bags, such as those thumped by Lou Gehrig and Red Rolfe Wednesday, is still the best insurance against a whipping.

3—That the individual performances of the Yanks and Cubs in the mid-summer classic, together with their recent league doings, makes it appear, at this writing, that a New York-Chicago World Series is more than a pipe dream.

Although good pitching is the most vital portion of a ball club's armor, flinging alone can't carry the burden.

The current world champions, the Yanks, provide the perfect example for that line of figuring. Minus consistently effective pitching, they waited away with the American League pennant last year by nine-tenths and a half game, simply by flailing any and all kinds of throw-in.

Wednesday's National League squad boasted the three pitchers generally regarded as the best in the business—Dizzy Dean, Carl Hubbell and Van Lingle Mungo—as well as a "hot" cookie in Lee Grissom. Yet, these four gave up all the Americans' runs—eight of them.

At the same time, the Nationals collected as many hits as their rivals, but scored only three times, simply because they were hitting singles and doubles, if at all. "In the clutch," while the other fellows produced the payoff blow.

JERSEY CITY AGAIN SNAPS LOSING STREAK It looks like the worst is over for Jersey City Giants—and Manager Travis (Stonewall) Jackson fervently hopes so.

Stoney's been having a tough time of it, with the club going into one tailspin after another. The last losing streak got Stonewall down. The Giants had lost twelve in a row and Jackson was so distraught he didn't know if they'd ever win again.

But the Giants did, and did it in an impressive manner. Yesterday, they walloped three Syracuse hurlers, headed by George Ockette, for eighteen hits to score a twelve to nothing victory over the Chiefs.

Newark Bears showed the Giants their real slugging was the Bears' exploit twenty-one hits all over Oriole Park last night as they overpowered Baltimore seventeen to three.

Foremost in the Bruin slugfest was flashy Joe Gordon, the Bears' second baseman, and first baseman George McQuinn. Gordon poled out three homers and McQuinn two, with each driving home five runs.

Montreal Royals also used the home run route to defeat Buffalo Bisons five to three. Gus Dugas, Dave Harris and pitcher Crip Polli belted for the circuit to account for four of the Montreal runs.

LACROSSE

ST. PAT'S TRIMMED LEPINE St. Pat's defeated the Lepine aggregation by five to three in a regular fixture of the City Lacrosse League on the Parade Grounds last evening. Next week, the actual dates as yet unsettled, these two squads will enter into competition for the Bennie Cup, and keenly-contested games are expected.

SPORT FLASHES

New York, July 9.—Ray Pinelli, son of the National League umpire, is being offered more to play college baseball than his dad got the first year he was with Portland in the Pacific Coast League. Ray is a crack shortstop for St. Ignatius High in San Francisco.

One New York hotel reports it has received reservations for eight suites for the Joe Louis-Tommy Farr battle August 25.

Pennant tip: Wise old Bill McKennie, of the Bees, like the Cubs. Says Bill: "They can afford to make more mistakes behind their hurling than the Giants can behind theirs."

Jim Mullen, Chicago promoter, is in town to try to match Bob Pastor and John Henry Lewis for a bout in the White Sox ball park the middle of August.

Musclebone, Premier Mussolini's trotter which will meet Greyhound in a match race in August, sails from Rome August 1. That's the date Joe Jacobs is scheduled to sail for London to second Max Schmeling against Tommy Farr. Oh, yeah? That's Max you see creeping out from behind the eight ball.

Bill Terry is personally scouting other Giants farms to get that much needed relief for Jersey City.

Watch out, batters. Cleveland sports writers at the all-star game say Bob Feller is faster and has more stuff than ever.

The campaign of virtually every New York fight manager to find a new white hope is making no progress rapidly.

TENNIS

VETERAN DAVIS CUP STAR LOSES ONTARIO EVENT Rideau Tennis Club, Ottawa, July 9.—It's Bobby Murray, Montreal against Joe O'Hara, Ottawa, and Ross Wilson, Toronto against Gordon Robinson, Niagara Falls in the men's singles semi-final round of the Ontario tennis tournament here today.

When the eight-man field was split yesterday, Murray defeated George Leclerc, Montreal; O'Hara defeated George Robinson, Montreal; Wilson defeated Laird Watt, Montreal and Gordon Robinson sprang the big upset by defeating Marcel Rainville, the veteran Davis Cup player from Montreal.

In the women's division, the field was narrowed to four players also. Mrs. H. L. Beer, the Ottawa veteran, will play Claire Walsh, the Toronto girl who is ranked third in Ontario, one notch below her opponent. The other semi-final match will feature two unranked Ontario players, Ora Davis, Ottawa and Mrs. Dorothy Fisher, Toronto.

Murray and Wilson were expected to come through the semi-finals and meet tomorrow in the final.

Yacht Racing

RANGER SEEKS TO EXTEND VICTORY STRING Newport, R.I., July 9.—Ranger, the unbeaten sloop which which Harold S. Vanderbilt will meet T. O. M. Sopwith's second British challenger, Endeavour II, today sought her eleventh straight victory over Gerard B. Lambert's Yankee and Chandler Hovey's Rainbow, her two unsuccessful rivals for the honor.

Meanwhile, Sopwith and his associates grieved over the death yesterday of Capt. Donald MacPhee, fifty-six years old, Endeavour II's veteran navigator.

Yankee switched booms before leaving for the starting line. Her flat-topped "Park Avenue" spar was set ashore and an ordinary hollow boom shipped in its stead.

Lambert also has announced he will return to the conventional sail plan used by the other cup boats after the current series and before he engages in races with the New York Yacht Club and Eastern Yacht Club series.

HENRY COTTON IS SLATED FOR OPEN CHAMPION

Fired a Final Round of Seventy-One to Lead Field with Total of 290 with Few Among Those Left to Finish Conceded Chance to Catch Him.

Carnoustie, Scotland, July 9.—Henry Cotton, English ace, fired a final round par seventy-one today to take the lead for the British open golf championship with a seventy-two hole total of 290. Few among those yet to finish the grind were conceded a chance of catching him.

Cotton, 1934 titleholder, displaced Reginald Whitcombe, who had 292 and the early lead.

Despite a driving rain that provided the worst playing conditions of the tourney and flooded fairways and greens, Cotton had a final day thirty-six-hole score of 73-71-144, only two over par.

Reg Whitcombe, out front yesterday at 142 and at fifty-four holes with 216, three in front of Cotton, skidded to a seventy-six on his last round.

Young Byron Nelson was the leading American at 296, with several still on the course but apparently out of the running.

Alf Padgham, the defending champion, had a pitchy final round of seventy-six and finished with 298. With some six thousand spectators looking on, the old champion went to bits on the last hole. He drove into a burn from the tee and had to pick out. Then he wound up by fooling a two-foot putt.
