

LEAGUE OF NATIONS AND EUROPE'S FOUNDATIONS WERE SHAKEN

By Italy's Refusal To Recognize Right Of League To Intervene In Italian-Greco Dispute—Consternation And Sadness In Geneva—Mussolini Challenged Competency Of League

Geneva, Sept. 5.—The superstructure of the League of Nations is imperilled and in the British view the very foundations of present day Europe are shaken. Such, briefly, is a summary of the situation at Geneva tonight because of Italy's refusal to recognize the right of the League of Nations to intervene in her dispute with Greece.

Consternation and a deal of sadness prevails everywhere, for it is generally, though reluctantly admitted that the League has been unable to withstand the first great test of its practical use as machinery for regulating differences between nations, as one of its leading members has declined to concede to its competency.

Signor Salandra's entire argument today was that the questions arising from the assassination of the Italian mission should be arbitrated by the Council of Ambassadors and not by the League, because it was the Ambassadorial body which had appointed the mission to fix the frontier between Albania and Greece.

PRESBYTERIANS TO HELP JAPAN

Will Call Representative Meeting As Soon As Information Is Available

Toronto, Sept. 5.—At a meeting held in the Presbyterian Foreign Mission Boards of the various churches considered the catastrophe in Japan and sent the following telegram to the Japanese Consul-General at Ottawa.

BIRKENHEAD AGAIN ATTACKED U.S. ISOLATION

Peace Conference Made Mistakes Because It Did Not Foresee U.S. Course

EXPECTS A STORM

Canada May Expect To Become Centre Of Political Gravity Of Europe

(By Canadian Press) Montreal, Sept. 5.—Speaking a second time at the eight annual dinner of the Canadian Bar Association here to-night, the Right Hon. the Earl of Birkenhead, former Lord High Chancellor of England, referred to a speech made earlier in the evening by Martin Conboy of New York, representing the American Bar Association who had said that the United States was satisfied to live its own life and not meddle in European troubles.

THE WEATHER

Toronto, Sept. 5.—Pressure remains high from the Great Lakes eastward while depression of moderate intensity is moving across the Western Provinces.

Forecast: Light winds; fair and a little cooler. Lower St. Lawrence, Gulf and North Shore—Moderate winds; fine and moderately warm.

AMERICAN OPINION

Martin Conboy, of New York, representing the American Bar Association, said that some people in the United States, rightly or wrongly, he would not say, had thought that here were some slight remarks made by Lord Birkenhead about the former United States President.

AMERICAN OPINION

Mr. Pierre Lepaulle of the Court of Appeals of Paris, representing the Bar Association of France, spoke of the ideals that underlie the striving for international peace.

The Quebec Chronicle

Printed and published by the Quebec Chronicle Printing Company, at the building of the Company, 9 Buede Street, Quebec.

QUEBEC, SEPTEMBER 6, 1923.

PROVINCIAL RECKLESSNESS.

Another bulletin has just been issued by the Citizens' Research Institute of Canada—this time devoted to Provincial revenues and expenditure—that should furnish excellent material for the Montreal Star's whippers of death and at least point to a situation in our economic life that calls for serious attention.

To begin with, in all the Provinces there have been substantial increases in revenue which means, generally speaking, proportionate increases in taxation and helps to explain why recent revolutions in Provincial politics have occurred.

Table with 3 columns: Province, 1918, 1921. Rows include British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, P. E. Island.

An analysis of expenditures demonstrates that the increases in this respect have been far in excess of revenue increases, Quebec alone excepted, for reasons that can be more easily explained than justified.

Table with 3 columns: Province, 1921, Increase Per cent. Rows include British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, P. E. Island.

The above excesses of income over expenditure lead inevitably to greater borrowings which in turn create fixed charges to meet which taxation must be pyramided. In such a case the only effective remedy is to reduce expenditure until a credit balance can be applied to the reduction of public debt.

Table with 3 columns: Province, 1919, 1923. Rows include British Columbia, Alberta, Saskatchewan, Manitoba, Ontario, Quebec, New Brunswick, Nova Scotia, P. E. Island.

On the other hand, as the Ottawa Journal properly observes, "there are, of course, many factors to be considered in the case of each Province before drawing final conclusions. In some instances assets may have kept pace with liabilities.

MUSSOLINI SCORED.

Mussolini is getting cold comfort in his Adriatic venture from the English-speaking newspaper world and there is a remarkable unanimity of opinion evident in British and American comment regarding it.

Looking back over Mussolini's record in connection with foreign affairs it is realized, however, that the present move is not out of line with his earlier actions.

atic and, in the second, he has an overweening personal ambition. At the same time, he is like a weathercock, ready to feel the changing winds of international politics, now on one side of a question and now on another.

His relation to the reparations problem is a case in point. Very soon after his accession to power in Italy he met with the other Allied Premiers to discuss reparations. Although nothing required him to present a "plan," this he did with a great air of having solved the problem with a gesture.

In seizing upon the Greek Government instead of one of the other Adriatic nations he has simply chosen the most distressed one in the lot. It is only a year ago that the Greek army was forced to surrender to the Turks in Asia Minor, and the treaty closing that deplorable incident was signed just about a month ago at Lausanne.

In all this criticism there is only one weak point, in that one might almost be led to infer from it that Mussolini had ordered the assassination of his own Boundary Commission at Janina in order to furnish him with a pretext for his Adriatic coup.

THE JEWISH NEW YEAR.

The Jewish New Year, Rosh Hashanah, begins Monday evening next and lasts through the following day. It is a purely religious occasion and in that spirit it will be solemnly celebrated in every Synagogue and Temple, throughout the world.

Rosh Hashanah registers the profoundest convictions of the Jewish people. Together with the Day of Atonement which occurs ten days later, it has always had a unique hold on the Jewish people the world over.

The Biblical basis for the New Year is found in Leviticus 23:24, where it is said: "In the seventh month, in the first day of the month, shall be a solemn rest unto you, a memorial proclaimed with the blast of horns, a holy convocation."

There are evidences that Babylonian rites did at one time prevail in the celebration of the New Year. But the leaders of Jewish thought in ancient and modern times concentered them and sought to make the first day of the Hebrew month Tishri a day of divine judgment.

The symbolism of the day was used with great effectiveness in driving home the moral lesson of repentance. The sounding of the ram's horn (Shofar) was to remind the congregation to repent of their sins and to improve their ways that they might rise on stepping stones of their dead selves to higher things and worthier aims.

The Shofar blasts were intended to signify three dominant ideals of the religion of Israel. These blasts proclaimed the fact that God is King all over the earth, that He is Judge of man's deeds and thoughts and that He is Ruler who proves throughout the ages that righteousness and justice are ultimately triumphant.

The New Year's day is therefore a sort of Judgment Day. According to Judaism, Judgment Day is not held after man has departed this world. Such decisions would be of no value in influencing conduct. But on the contrary Judgment Day takes place annually in this life in order to make man the better prepared for service to humanity.

Legend would have it that this is the 5684th year since the world has been created. This fiction is no longer seriously entertained. The medieval custom of going to a river or any body of water to cast one's sins into the depths of the sea is likewise obsolete and only half-heartedly carried out.

After learning that the Prince of Wales has been living by programme Canadians will unanimously agree that he deserves his holiday in that Albertan ranch, despite of disappointment that they will not be able to shake his hand off in welcome back among them.

The Italian representative on the League of Nations Council appeared to treat the Greek spokesman more as a criminal at the bar than a fellow-member of that organization. The proper function of the Council is as a mediating influence rather than as a tribunal of justice.

UNCLE SAM FROWNS

ON CUBAN LOTTERIES

General Crowder, American envoy to Cuba, has been summoned to Washington to discuss the Cuban lottery question. Washington is said to regard the lottery as a violation of the economic pact between Cuba and the United States.

The Gambling Instinct.

It is commonly said that Gambling is inherent in the Latin races, but perhaps it does not differentiate them from other races. The Cubans have always gambled, but what distinguishes them from most other peoples is the fact that they love a sheer gamble with not other element than that of chance deciding the matter.

Gomez and the Gamble.

When there was an American Military Governor in Cuba, he suppressed the lottery, and under President Palma and during the second American intervention there was no lottery. The Cubans had borne, with some resemblance of fortitude, the suppression of the public bull ring, but they fretted under the anti-lottery restrictions.

agent pays \$19 for a \$20 ticket and sells it at \$21. Theoretically, each of them can make legitimately \$45 a month, but in practice the privilege can be sublet for \$200 or \$300 a month.

Not long ago the collectorias were increased to 2,000 to avowed object being to increase sales in order that more money might be forthcoming for pensions and bonuses to government employees.

The Drawing.

As regards the drawings themselves, they are dramatically and pathetically free from any kind of crookedness. Three times a month these important events take place and are of more interest to the Cubans than the running of the Derby to the English people or the World Series to the Americans.

Anger is short madness—rule your mind, which if it does not obey will command; restrain it with a bit, restrain it with a chain.

Free Belgium, heroic France and unconquerable Italy saw with pain and grief their two Allies, Great Britain and the United States, sitting at the bed side of the common enemy trying to supply him with a panacea to relieve his present sufferings.

When peace was decided upon in Belgium and France, said the speaker, there had been a desire for an European peace, but Great Britain and the United States had made an Anglo-American peace. The English had signed "their own peace," said Mr. Dupont, and the Americans had "taken French leave," their signature had not yet been affixed to the Versailles Peace Treaty.

25,000 PEOPLE THROUGHOUT DAY AT EXHIBITION

"La Journée Du Merite Agricole" Attracted Large Numbers, Aided By Weather MANY FEATURES To Yesterday's Programme Of Events On The Grounds—Civic Holiday Today

Yesterday was "La Journée du Merite Agricole" at the Exhibition, and some twenty-five or thirty thousand people were seen in the grounds from all sections of the city and district.

The beautiful weather attracted an unceasing stream of people through the turnstiles of the Exhibition, which tickled merrily the whole day long. They were a happy crowd, visitors for the most part, who seemed to enjoy their way into the grounds from all sections of the city and district.

Speeches appropriate to the occasion were delivered by Sir Charles Fitzpatrick and Hon. J. E. Caron, Provincial Minister of Agriculture.

The lunch for the Boards of Trade was the next item on the programme, and at this event nearly five hundred people sat down, while a few hours later, at the banquet, an equal number were accommodated, showing the efficiency that exists down at the Exhibition, where nearly 1,000 people can be served at two sittings in a few hours.

But one person called to claim any money retained for all kinds of prizes, Mr. Alphonse Lussier, of Maple Avenue, being the lucky winner of \$5.00.

Civic Holiday. To-day is a Civic Holiday, and in consequence there should be an extremely large number, largest of the week, attending the Exhibition. The celebrated parade of prize animals will take place this afternoon at 3 o'clock, and there is little doubt but that not many persons will miss this event.

His Worship and the Aldermen were received at 3 o'clock this afternoon by the Exhibition Commission, while an hour later Premier Taschereau will be greeted at the grounds by the Arts, Science and Letters Society.

Improved and there was practically no unemployment in those countries when there was quite a lot of it in Great Britain.

In conclusion Mr. Dupont expressed the belief and hope that the United States would soon see the importance and necessity for her to take an active part in world and particularly European affairs.

After Mr. Dupont had concluded his address a vote of thanks was moved and unanimously adopted.

EVOLUTIONARY THEORY OF LIFE

Has Superseded Old Theological Conception, Said Rev. F. K. Moore

London, Ont., Sept. 5.—"The evolutionary theory of life, which no longer allows for the doctrine of the 'fall' as we always understood, is undoubtedly the orthodoxy of today. So declared Rev. F. K. Moore, M.A., St. James Cathedral (Anglican) Toronto during the course of an address on the 'fall and original sin' delivered at the annual convention of the Huron College Alumni Association.

Proceeding, Rev. Mr. Moore said in part: "In spite of fundamentalist fulminations and canonic commands, the movement of thought has swept entirely over the old entrenched and carried us to the higher ground and solid rock of scientific fact. Only in out of the way places and in closed, if plumed, winds, does the traditional view of the universe still exist. "To continue the use of old terms when the beliefs they were chosen to express are no longer true, is to confirm those who use them in unbelief, and to leave us open to the charge of saying one thing and believing another. "We ought surely, to put the new truth quite frankly in its own terminology, in place of the old. New wine in new bottles is a principle of the Gospel".

CONSOLIDATION OF WIRELESS

In Canada Is Aim Of Subcommittee Of Cabinet Council At Ottawa

(By Canadian Press)
Ottawa, Sept. 5.—A sub-committee of the Cabinet Council consisting of the Ministers of Public Works, Mercantile and Marine and Fisheries has been appointed to consider the feasibility of consolidating under one control or department, the administration of Government services in connection with wireless cable, telegraph and other means of communication.

At present each of those departments has, under its jurisdiction one or other branches connected with wireless, cables and telegraphs resulting in some overlapping of jurisdiction and unnecessary expense of administration. The Government believes that there can be a centralization of staff and services in this connection along the same lines as in other consolidations already perfected securing a considerable economy.

It is more disgraceful to suspect our friends than to be deceived by them.

GREATEST CROP IN ITS HISTORY

Will Be Harvested By West If Frost Keeps Off, Says Motherwell

Toronto, Sept. 5.—"If the frost keeps off another week the West will have the greatest crop in its history. Don't be surprised if it reaches 400,000,000 bushels. It will go a long way in putting that great part of Canada back on its feet".

This was the opinion expressed by Hon. W. R. Motherwell, Minister of Agriculture in the Federal Government today.

Hon. Mr. Motherwell remarked that the meaning of so great a crop was almost beyond the imagination in its effect on the general welfare. Winnipeg, Sept. 5.—The weather during the past week throughout western Canada has been mostly fine and warm with cool nights, according to the weekly crop report of the Canadian National Railways. A few scattered showers are reported at various places in the three Prairie Provinces. Threshing operations have been in full swing in Southern and middle Manitoba while in the northern parts cutting is in progress. Cutting of all grain is general in

Canadian Harvest train landing at New York, August 20. ex. Cunarder Caronia.

Saskatchewan with some threshing in the southern part of the province. The crop in Alberta, which is very late, is rapidly ripening, but owing to showers weather cutting has been somewhat delayed. True patriotism is of no party.

BUTTERFLY FARM
Los Angeles, Cal., Sept. 4.—An application for permission to establish a butterfly farm on public domain in the Angeles Forest Reserve has been made to Supervisor R. H. Chadton here, by John Hewlett of

Redlands, Cal. Hewlett stated that if permission were granted for him to use forty acres for that purpose, he would plant the entire tract in flowers he believed butterflies like particularly and would raise the insects for colors and decorations.

APPEAL FOR AID FOR JAPANESE

Sent Out By Canadian Branch Of St. John Ambulance Association Yesterday

Ottawa, Sept. 5.—The head office of the Canadian branch of the St. John Ambulance Association, today sent out the following appeal to all its Provincial Councils. "The appalling calamity which has befallen the Empire of Japan, has aroused the sympathy of all Canadians in common with the entire world. "The emergency which has arisen calls for action which speaks louder than words. In anticipation of a National Relief Movement in Canada, the Advisory Committee of the St. John Ambulance Association suggests that all Provincial councils communicate with local centres with a view of stimulating the formation of local relief committees. "It is also suggested that contributions be in cash, to be forwarded to the national treasurer".

COUNCIL OF AMBASSADORS

Marking Time On The Greco-Italian Dispute, Pending Instructions From Gov'ts.

Paris, Sept. 5.—The first observation made by each member of the Council of Ambassadors when it met today to consider the Greco-Italian dispute was to say that he had no instruction from his Government. It was agreed this being so, the Council for the present should delay definite action.

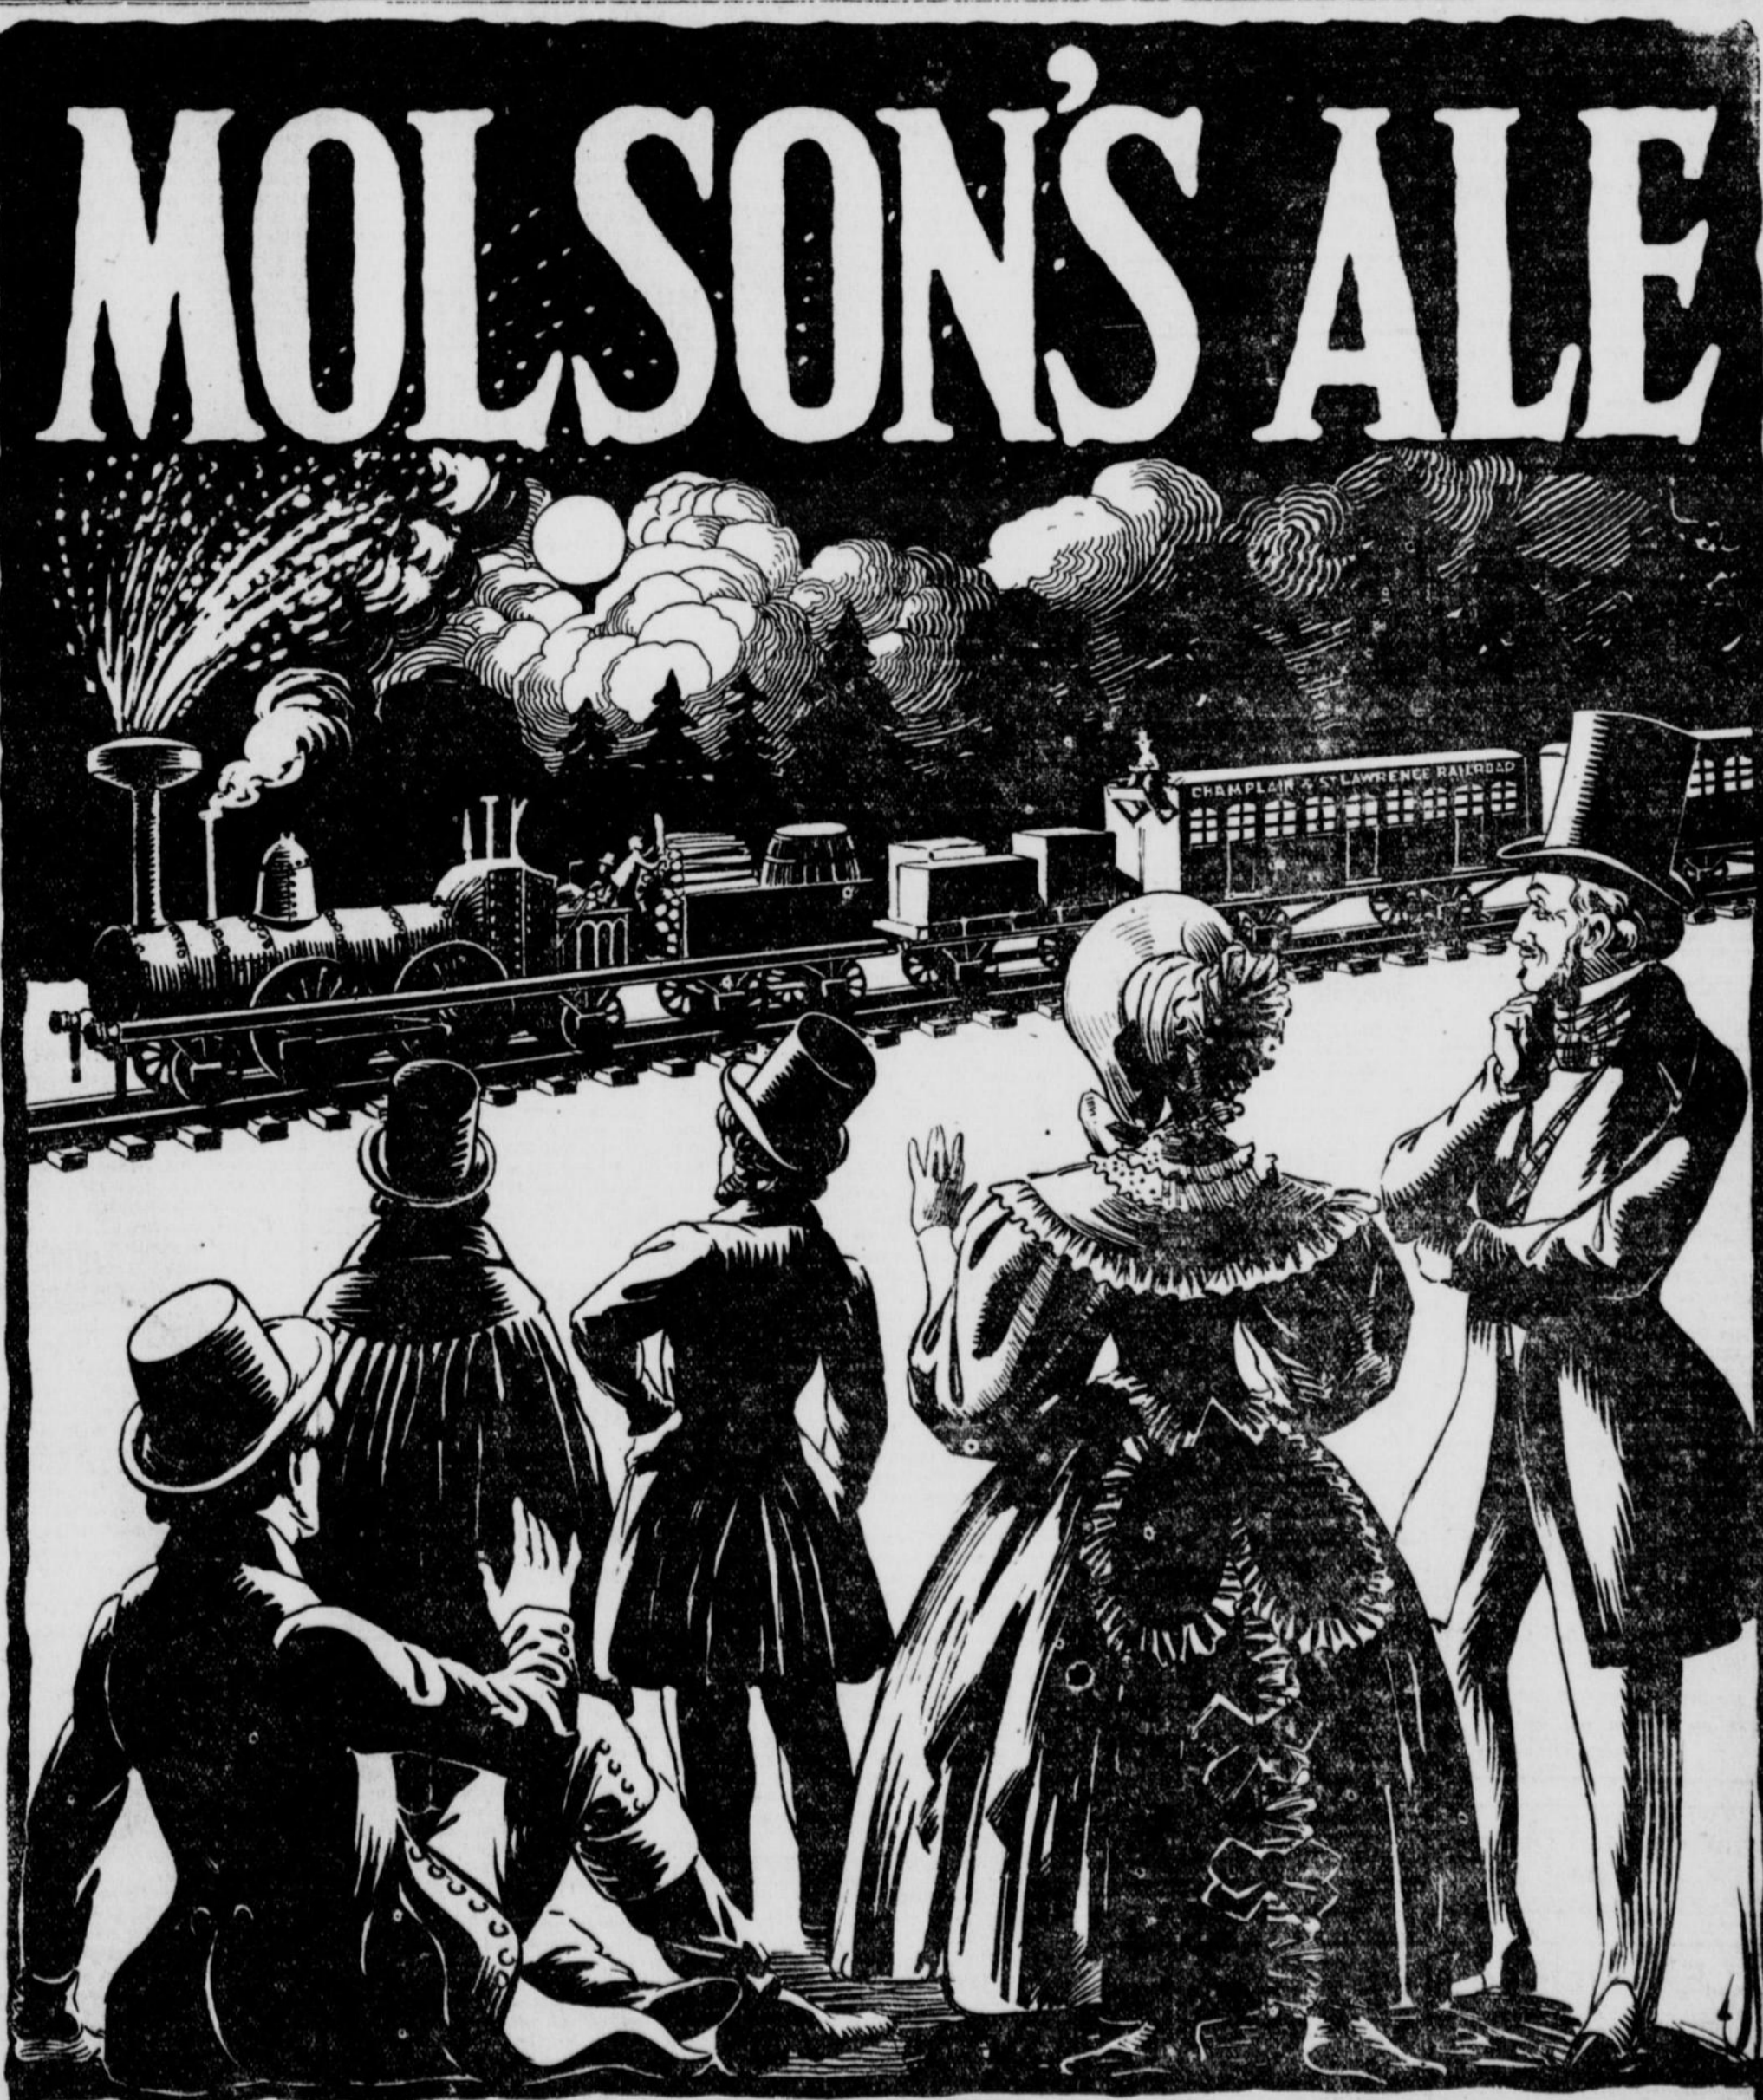

The Ambassadors examined the Greek reply to its note at their meeting in the foreign office this morning and paid particular attention to the Greek stipulation that the Athens Government was prepared to make any reparations the Council of Ambassadors regard as just and another stipulation proposing that a Commission of Inquiry be appointed composed of three powers on the Albanian boundary mission. At the meeting were Lord Crewe, the British Ambassador; Jules Cambon, General Secretary to the French Foreign Office; Baron Mano Avezano, the Italian Ambassador, and the Japanese Charge d'Affaires.

The Council will meet again Friday. In the meantime the Secretary was directed to inform the Secretary General of the League of Nations of the proceedings of the Council of Ambassadors.

QUOTATIONS ON STEEL LIKELY TO HOLD STEADY

Steel quotations are expected to rule at or near present levels for some time to come. There have been no changes this week in quotations, and sales are reported as being good in all lines. Foundry iron sales are slow, only a few foundries being really active, and those on special orders. The Steel Company of Canada, with two furnaces in operation at Hamilton, state that iron shipments mainly on contracts, are much in excess of new orders, says Canadian Machinery and Manufacturing News.

Little forward buying is being done. Steel manufacturers say they have had as many as five orders in a week from firms who ordinarily purchase in one large lot. Buyers who, in normal times would take one or two carloads, have been purchasing in half-ton to eight or nine-ton lots. In steel, while orders are small, the volume is sufficient to make a list that shows visible improvement. Had not labor difficulties interfered with production, July might have set a record in the iron and steel industry in Canada.

C. J. LOCKWELL IS CONSERVATIVE ORGANIZER HERE

Selected For Quebec District By Representative Party Gathering Last Night

DR. FAUCHER PRESIDES

Vigorous Speeches Delivered At Dinner Which Was Held At Bertani's

At a large and representative meeting of the Conservative Party from all parts of the District of Quebec, held here last night, Mr. C. J. Lockwell, of this City, was chosen Provincial party organizer for this District.

The meeting was held at Bertani's following a dinner in honor of the occasion. Dr. P. Y. Faucher, M.L.A. for Quebec Centre, presided, and had at his right Mr. Jules Langlais, M.L.A. for Temiscouata County, while the gathering was comprised of many prominent Conservatives of the City and District which extends as far east as Gaspé County.

It was on motion of Mr. Jules Langlais that Mr. Lockwell was selected as organizer. There were several suggestions made as to appointing an advisory committee to assist and direct the organizer and Mr. Paul Drouin suggested that there be a committee of twelve with three as a quorum. These suggestions, however, were set aside by the meeting when Mr. Lockwell made it plain in accepting the position of organizer that he would follow the programme outlined for him by Mr. Arthur Sauve, the Leader of the Party, and the Conservatives members of the Legislature.

Mr. Lockwell's selection was greeted with cheers and in a brief nimer said that one of the first things he would do was to form a finance committee and those who wanted to form a publicity committee, a speakers' committee and a committee for the revision of the electoral lists. There was need of the services of all men of good will and he was ready to accept all those who would volunteer to work.

Mr. Lockwell made it plain that in combatting the Government, the Conservative Party would be seeking to combat any individual but the policies of the Government and he said that there would be no personalities. The Conservative Party would fight for principles as it had always done. He said that he could not accomplish wonders right away, but he promised the out-of-town Conservatives that very shortly there would be a place for them to meet when they came to the City and there would also be a table in some hotel which would be known as the Conservative table.

He then proposed a vote of thanks to Mr. Charles Dorion who was organizer of the Conservative Party in this District for the Provincial elections last February, and the guests rose and toasted Mr. Dorion, whom they cheered to the echo.

In opening the meeting after the dinner Dr. Faucher said that the meeting would dispense with speeches and get down to business. He said that the Member for Temiscouata and himself felt proud indeed to find themselves surrounded by so many sincere friends whose devotion to the cause did not flag.

He explained that the object of the meeting was to select an organizer for the party in this District. He said that some time ago there had been a preliminary meeting at which the question of organizing this district had been decided. The next step taken was to consult Mr. Arthur Sauve, the Leader of the Conservative Party in the Province (Cheers).

Dr. Faucher, continuing after the ovation had subsided, said that Mr. Sauve deserved the cheers of his followers and if he were not with them for their meeting it was because he respected their opinion. Mr. Sauve had told him that he would accept their choice of an organizer whoever it might be.

At the first meeting held, Dr. Faucher said that Mr. Charles Dorion had been asked to continue in the position of organizer, but that gentleman for personal reasons could not accept to continue in the role of organizer.

When asked to suggest a man of action and an efficient worker as his successor Mr. Dorion had mentioned Mr. C. J. Lockwell. (Cheers). Dr. Faucher added, amidst renewed applause, that Mr. Lockwell was a man whom he honored and esteemed.

Dr. Faucher urged the meeting to look at the matter from the point of view of general interest and what ever happened he would accept the decision of the meeting as he knew that the choice would be made judiciously and honestly.

LABRADOR GOLD SEEKERS WAIT MONEY BACK

Prospectors Talk Of Taking Legal Action Against Labrador Goldfields Ltd.

BUSTED BOOM

Canada And Newfoundland May Be Asked To Make Investigation

Sydney, N.S., Sept. 5.—That plans are on foot in Newfoundland and Montreal to take legal action against the Labrador Goldfields Limited and other stock selling corporations that boomed the Labrador gold rush last spring, is the statement made by George Winston, prospector, who reached Sydney on Tuesday, after spending four months at Stag Bay.

Winston states there is not enough gold in Stag Bay to cover a penny. He bought a small claim and after working it for months gave it up. With Winston were a number of experienced mining men, some of whom had spent considerable time in the Klondyke. They explored all the bays and creeks in the Stag Bay section but did not find even a color.

Among the fellow prospectors with Winston were A. Green, of Thomasburg, Ont.; Gene Fournier, of Windsor, Ont.; R. R. Stapleton of Flushing, N.Y., who was sent to Stag Bay by prominent mining men in that city.

WILLS' MANAGER CAUSING TROUBLE

Order Issued In Supreme Court May Result In Stopping Dempsey-Firpo Bout

New York, Sept. 5.—Paddy Mullins, manager for Harry Wills, heavyweight boxing championship aspirant, obtained an order in Brooklyn Supreme Court today directing Tex Rickard to show cause why a writ should not be issued restraining the conduct of the Dempsey-Firpo fight, Sept. 14.

In his argument for the order Mullins declared if the fight between Dempsey and Firpo occurs as scheduled, Wills will be champion under the rules of the New York State Athletic Commission because of Dempsey's failure to meet him. He said Wills was the logical opponent of Dempsey because he had \$2,500 forfeit money posted for more than a year.

Tex Rickard, when informed that Mullins had obtained an order to show cause, said the news meant nothing to him.

"If he had any legal means to stop the fight he would have done it long ago," he said. "But Mullins has no contract for Wills to fight Dempsey and no right to one. He had a chance to sign a contract to fight Firpo and he still has, any time he wants to come and sign."

JACK PUT IN A GOOD DAY'S WORK

Dempsey Displayed Astonishing Speed And Ring Cunning In Workout Yesterday

Saratoga Springs, N.Y., Sept. 5.—Displaying astonishing speed and ring cunning, Jack Dempsey today started his final week of training in preparation for the defence of his title against Firpo.

He engaged in six furious rounds of boxing, in addition to tugging at the chest weights, shadow-boxing and peppering the punching bags for four rounds. The champion, refreshed from his lay-off yesterday, was eager for work and his sparring partners suffered a severe pummeling.

In the first round of his go with Lodge, Dempsey cut Lodge's right eye with a punch.

While boxing Newman, Dempsey remained on the defensive except for landing an occasional short right hook to the body as they came into close quarters. Godfrey, with respect for the champion's accuracy and punching prowess, danced away from the fast moving Dempsey during their two rounds, trying to keep him at a safe distance with a long left jab. In the second round Dempsey shot a short right to the negro's head, forcing him to fall into a clinch.

GERMANY WILL SOON GIVE UP RUHR CONFLICT

Is Opinion Now Held In Financial Circles In Berlin, It Is Reported

HEAVY PRICE PAID

To Maintain Passive Resistance — Work Being Resumed In Mines At Essen

Berlin, Sept. 5.—While Chancellor Stresemann is still awaiting French reaction to his speech at Stuttgart last Sunday there is a strong belief in Bourse and financial circles that the Ruhr conflict is facing an early and enforced termination. Whatever effect the Chancellor's pronounced shifting in the direction of French rapprochement may have had on Premier Poincare, there is a growing conviction that Germany is no longer capable of paying the terrific price involved in maintaining her passive resistance.

Aside from gradual disintegration which is daily becoming more conspicuous through the Ruhr and the Rhineland, the nation's finances are lapsing into such chaos that further indulgence in the luxury of dumping uncounted trillions into the battle along the Ruhr and the Rhine is viewed in official and private quarters as indefensible.

The Ruhr and the Rhineland today are literally wallowing in oceans of wild cat currencies of official and private coin, all of which must eventually be redeemed. As these two territories are nominally Germany's most productive sources of tax revenues, the Government has virtually paid double price for keeping them inactive through eight months of passive resistance. In that it has been deprived of enormous tax receipts from the most prolific producing areas, their rehabilitation to the former standard of production will consume another six months of unproductiveness so far as the tax structure is concerned. In the opinion of industrial leaders who are qualified to gauge the physical deterioration of the plants and mines and the extent to which the workers have been demoralized by their idleness.

Aside from the financial considerations involved the situation in the Ruhr is also drifting into chaos due to the disorganization of food supplies, wage disputes and communalistic machinations.

While the situation in general is believed to be firmly controlled by the labor federations, the prevailing social distress, it is feared, threatens to make the army of miners and steel workers restive.

Essen, Sept. 5.—Mining difficulties in the Ruhr apparently have been settled without the necessity of intervention by the Government. Work has been resumed in all mines in Essen except one and in most of the others of the Ruhr the men are going back to work of their own accord.

JAPAN'S GREAT CITIES CRUSHED BY DISASTER

(Continued from Page One) reassuring cablegram "All safe"

New York, Sept. 5.—The National Council of the Protestant Episcopal church today announced receipt of a cablegram declaring that 17 of its 27 missionaries in the stricken area of Japan were accounted for. Among those not accounted for was Bishop McKim and his staff who were stationed in Tokyo.

Doubt as to whether the Bonin Islands, lying southeast of Yokohama, had been sunk by the earthquake which rocked Japan as had been reported, was raised this afternoon when the Commercial Cable Company announced that the Cable Station Peel Island, one of the group, had spoken to Guam repeatedly since the catastrophe.

Two official messages received today at the office of the Japanese Consul General estimated the casualties in Tokio and the vicinity from the earthquake at 160,000, with 1,000,000 persons homeless.

One message which listed Tokio wards virtually undamaged was relayed by Consul Oyama at San Francisco who received his information by way of Shanghai. The other dated September 1 originally was sent by Count Makino, keeper of the Imperial household at Tokio, to Prince Kitashirakawa at Paris, who relayed it to the Japanese Embassy at Washington. Thence it came to New York.

Moscow, Sept. 5.—Reports received here by way of Vladivostok stated that as a result of the convulsions attending the earthquake a New Island thirty miles long and fifteen miles in width has sprung up in the sea off Yokohama.

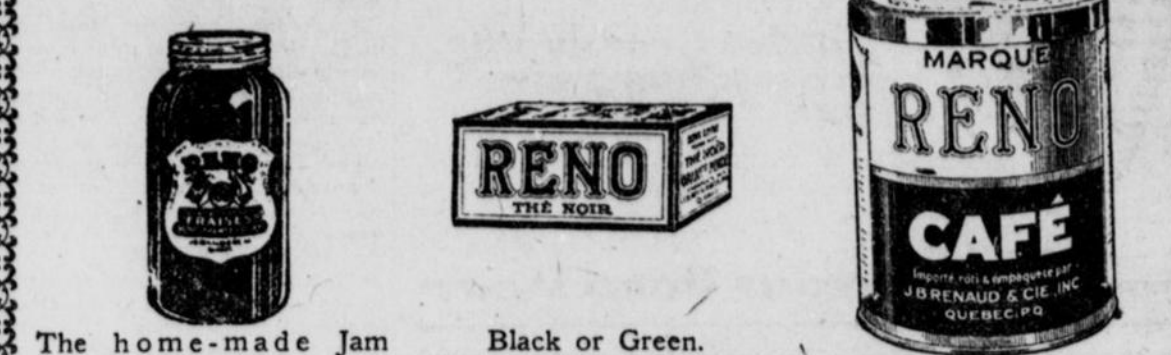

Many big battleships were sunk, according to the report, the coast line was considerably altered and the sea bed changed.

The crew of a United States transport, while engaged in recovering bodies found that of the French Vice-Consul M. Valentine. It is reported from Peking that the number of refugees exceeds two million.

STERLING HIT NEW LOW BUT BOUNCED TO \$4.52 1-8

UPWARD TREND OF PRICES ON THE NEW YORK MARKET WAS CONTINUED YESTERDAY

Steel, Food, and Textile Stocks Were Bid Up In Expectation Of Orders For Reconstruction And Relief In Japan—Chemicals And Shipping Also Showed Group Strength

New York, Sept. 5.—The upward movement of stock prices which was temporarily halted yesterday by selling reported to have been based largely on the Japanese disaster, was resumed in today's quiet session.

Short interests apparently disappointed at the relatively small volume of liquidation brought out by the Japanese news, began to cover from the outset. This buying was augmented by the operations of pools and others for the advance by speculators who began to discount the benefits that would accrue to American companies from orders for reconstruction and relief work in Japan.

Steel, Food and Textile stocks were the principal ones bid up in expectation of increased Japanese business.

Gains of 2 to 3 points were recorded by Baldwin, Dupont, American Can, Gulf States Steel, Corn Products, American Woollen and Continental Can. touched new high prices for the year.

Chemicals and shippings also gave demonstrations of group strength. Davison Chemical sprouted 1-2 points to 49 after selling as low as 43 1-4.

A brisk demand for Chicago and Alton preferred, presumably based on reports of higher earnings, featured the railroad list, the stock closing nearly a point higher at 8.

Gains of 1 to 1-1/2 points also were established by New York Central, Union Pacific, Northern Pacific and Can. Pac.

The money market exhibited an easier tone. Call money opened at 5 1/4 but eased off to 5 and thence to 4 1/2. Time money was quoted at 5 1/2 bid and asked with demand slightly in excess of supply.

The Commercial paper market was more active with an increasing amount of prime names going at 5 per cent.

Demand sterling established a new low for the year at \$4.50 5-8, and then bounced back to \$4.52 1-8. Recent weakness of Sterling, was attributed to speculative expectation of heavy drafts being drawn on London as a result of the Japanese earthquake.

German marks also established a new low for all time at 3 3-4 cents a million. French and Belgian rates showed slight recessions.

Total shares 558,500 shares. 20 industrials averaged 92.28; net gain .73. High 1923, 105.33; low 85.81. 20 railroads averaged 79.66; net gain .70. High 1923, 90.63; low 76.78.

Conflicting price movements took place in today's bond market. French issues exhibited moderate strength, French Government 5's, Lyons 6's, and Framereon 7 1-2s, each closing about a point higher. Japanese bonds developed a firmer tone although the 4s lost 1-4 points on the day.

Government bonds were heavy, probably in expectation of some new government financing in the next two weeks.

A sharp 3-1/4 point rise in Chicago and Alton 3 1-2s was the outstanding development in the railroad group.

GAINS EXCEEDED LOSSES IN TRADING ON MONTREAL EXCHANGE YESTERDAY

Market Was Closed During Afternoon Out Of Respect To Late C. Simpson Garland—Brazilian Led In Activity—41 Issues Appeared, 10 Gaining And 8 Losing

Montreal, Sept. 5.—There was little feature to today's short session of trading in listed shares on the local stock exchange, with gains slightly in excess of losses. Forty-one issues came out of which ten gained ground, eight suffered losses, five were unchanged and eighteen came out in broken lots only. The exchange was closed in the afternoon as a mark of respect to the late C. Simpson Garland.

Brazilian led in activity and gained 1-3 at the close, 48 1-2; Montreal Power was second down a point at 122; Spanish preferred came third and closed at 99 up 3-8.

Howard Smith was the strong feature of the trading, that issue making a gain of two points at the close of 75. Abitibi suffered the greatest loss being down two points at 63.

Other price changes included Asbestos off half a point; Bell Telephone up 1 1-2; Can. Cottons off 1-2; Laurentide up 1-2; MacKay up 1; Sherwin Williams preferred up 1 3-8; Steel of Canada preferred off 1-2; and Winnipeg Railway off 1-4.

Total sales listed 2,356. Trading in listed bonds on the local stock market today was also equally divided between Government stocks and industrial and was generally firm in tone. Total sales, \$67,750.

(By McDougall & Cowans)

NEW ISSUE \$2,500,000 Ottawa & Hull Power Co. Limited 6% First Mortgage Sinking Fund Gold Bonds Dated August 1st, 1923 Due August 1st, 1948

Principal and semi-annual interest (February 1st and August 1st) payable at the holder's option in Gold at any branch of the Royal Bank of Canada, in Canada or at the Agency of the Royal Bank of Canada in the City of New York, or in Sterling at the Royal Bank of Canada, London, England, at the fixed rate of \$138 2/3 to £2 sterling. Coupon Bonds in interchangeable denominations of \$1000, \$500 and \$100 with privilege of registration as to principal or as to principal and interest. Redeemable as a whole or in part at the Company's option on any interest date on 60 days' notice at 100 and accrued interest.

Table showing Capitalization: First Mortgage 6% Bonds due 1948 (this issue) \$5,000,000, Seven Per Cent Cumulative Preferred Stock 1,500,000, Common Stock - shares of no par value 25,000 shs.

THE COMPANY was formed to acquire the Ottawa & Hull Power & Manufacturing Company and to provide funds for extensions to the properties acquired. Increasing demand for power necessitated additions to the Company's plants and equipment. PROPERTIES: Two power plants owned are located on the Ottawa River at Chaudiere Falls, immediately adjacent to the cities of Ottawa and Hull, which upon completion of additions now under way, will have an installed capacity of 40,000 h.p. In addition the Company controls through stock ownership a power capable of 60,000 h.p. development. This power is 50 miles from Ottawa and is located in the Province of Quebec, as are both the other plants owned. SECURITY: These bonds are secured by a First Mortgage on the entire fixed assets of the Company, now owned or hereafter acquired, comprising hydro-electric plants developing 40,000 h.p. The funded debt of the Company per developed horse-power is one of the lowest in Canada being approximately \$62 per h.p. EARNINGS: The net earnings of the Ottawa & Hull Power & Manufacturing Company Limited for the year ended December 31st, 1922, according to the audit of Messrs. P. S. Ross & Sons, available for interest amounted to \$238,739.48, or more than one and one-half times the interest charges on this issue. As this financing provides for the installation of a third unit of 9,000 h.p. which will be disposed of through contracts already signed, the net earnings should show material increases. The following estimate of net earnings available for interest is based on the actual results to date and from the increased revenue to be received from additional power to be taken under existing contracts: 1923 \$270,000, 1924 800,000, 1925 325,000, 1926 350,000. After this date, earnings should show material increases due to the Company's interest in the Ottawa River Power Company. TERRITORY SERVED: The territory served, which includes the cities of Ottawa and Hull, is a rich residential and manufacturing district and is a centre of the lumber, pulp and paper industries, where there is an increasing demand for hydro-electric energy, both for domestic and industrial purposes.

We offer the above bonds as if, and when issued and received by us, subject to the favorable opinion of our counsel. PRICE: 98 1/2 and interest to yield 6 3/4%

NESBITT, THOMSON & COMPANY LIMITED MONTREAL HAMILTON TORONTO WINNIPEG LONDON, ONT.

The Chicago Produce Market \$780,000 15 Year or 30 Year or Serial 30 Year Bonds Rate 5%

Chicago, Sept. 5.—Despite announcement of suspension of business by a Grain Company here, the wheat market today showed firmness, helped by export buying of 1,000,000 bushels of wheat and of 250,000 bushels of rye. Wheat closed steady at the same as yesterday's finish to 1-4 off. September \$1.01 3-8, and December \$1.05 5-8 to \$1.05 3-4. Corn finished 1-4 to 1-2 down, oats unchanged to 3-8 lower and provisions at 2 to 10 decline.

The mind that would be happy must be great: Great in wishes, great in its surveys: Extended views a narrow mind extend. —Young.

Egg Market Ottawa, Sept. 5.—The market continues to advance particularly for specials and extras which are scarce. Ontario country shippers report sales extras 35c to 36c, firsts 33c to 34c, seconds 25c to 26c, cases returned f.o.b. shipping points. Some further shipments of Western seconds have arrived costing 24 1-2c f.o.b. Winnipeg. No further shipments have arrived from the United States the last that came in cost about 26 1-2c f.o.b. Chicago, but the market there has since advanced. Some export sales of United States storage reported at 35c f.o.b. Montreal.

Toronto firm, extras 41c to 42c; firsts 36c, seconds 29c. Montreal jobbing specials 44c to 45c, extras 40c, firsts 35c, seconds 30c.

Character Bonds are sold with a background of two factors. The first is the property value and revenue producing power behind the securities. The second is the character of the investment houses making the offering. Investors more and more are coming to scrutinize the second factor as carefully as the first.

Chronicle Files
100 Years Ago
Canada.
Bell's Weekly Messenger of the 7th July, says: "We have long made up our minds that Canada is not worth the expense it costs us; and that happy would it have been for this country, if it had been given to the United States in the peace of 1784. We should think any minister deserved well, both of the Canadians and of the English, who, by mutual consent of the governors and governors, should get a couple of millions from the Americans in purchase of our sovereignty of that territory."

The Weather.
The weather has hitherto been unusually favorable for securing the crops, by far the greater part of which is now housed. There has yet been no other frost than slight hoar frost. The grain crops have proved very good.

Chronicle Files
25 Years Ago
The Rev. Abbe Roy, Professor of Rhetoric at the Seminary, in this city, will shortly for Europe where he will complete his brilliant studies. The Rev. Abbe Marchand will replace him for this year as Professor of Rhetoric. The Rev. Abbe Plante, Professor of Universal History, is compelled to abandon his Professorship this year on account of ill-health. He will be replaced by the Rev. Abbe Albert Pare. The Rev. Abbe Poulin also leaves the Seminary this year in order to follow the Ministry.

Heavy Loss.
Early Saturday morning a farmer named Francis Couture, from Pintendre, embarked on board a Quebec and Levis ferry with his horse, which was attached to a vehicle with a load of pork, etc. He was coming to the city to sell his provisions, and the boat had just left to cross the river, when his horse taking fright, backed the vehicle over the side of the ferry, through the gangway's opening, the rails of which broke with the weight of the cart. Mr. Couture tried to bring his horse over to save it, but the weight of the vehicle pulled it back into the river. Mr. Couture also went over, but was fortunate enough to catch the chain of the pontoon and save himself. The horse and vehicle with its contents sank beneath the surface of the water; landing on the bed of the river under the pontoon. It is said that the loss which the unfortunate man has sustained by the loss of his horse and provisions, will amount to some \$150.

After Vacation Peel Your Discolored Skin
Women returning from the seaside or country with browned, reddened or freckled skin will do well to immediately take the mercurized wash treatment. Weather-beaten skin has best come off, for no amount of treatment suggested will prevent you from looking as you would cold cream, and rinse it off next morning with warm water. Use one or two slices of peel off day by day, gradually showing the healthy, youthful skin beneath. One ounce mercurized wash obtained at any drug store is enough to make any discolored or spotted complexion clear, white and satiny soft. Its action is so gentle that no harm is done and the face shows no trace of its use.

SWEET POTATO SYRUP
IS THE LATEST DELICACY
Washington, Sept. 5—A table and cooking syrup made from sweet potatoes is the latest addition to the culinary art made by the Department of Agriculture.
Through experiments conducted at a small plant in Georgia over a period of several years, department chemists were able to produce a syrup, which, it is said, has possibilities not only for table and cooking purposes, but also in making candies such as fuffies, kisses and caramels. The rather dark color might prejudice its use in general, but though it would be valuable in such dark products as ginger snaps and cookies.
The cost of production as determined in the small plant used by the department is 54 cents a gallon, but government chemists believe this figure can be lowered by quantity production.
"Nature takes as much pains in the forming of a beggar as an emperor.

NO OPERATION FOR HER
She Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised
Louisville, Ky. — "I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's medicine and tried the Vegetable Compound and the Sensitive Wash, and they surely did wonders for me. I feel fine all the time now, also am picking up in weight. I will tell you that your medicine is wonderful, and you may publish my letter if you wish."—Mrs. E. BOEHNLEIN, 1130 Ash St., Louisville, Ky.
NEW VOLCANO.
Peking, Sept. 5.—A new volcano has broken out in the Chiebu range about 50 miles northwest of Tokio, according to advices from Osaka. Nikko, country seat of the Imperial family, is reported not to be seriously damaged.
Many foreigners were reported earlier to have been staying at Nikko when last Saturday's quake occurred.

FASHION'S FORECAST
Mrs. St. Georges Legendre announces for the 25th instant the marriage of her eldest daughter, Genevieve, to Mr. P. Gerard Aubin son of late Mr. and Mrs. W. Aubin of Sillery.
Mrs. Margaret G. MacWhirter, and daughter, of New Richmond are in town. Mrs. MacWhirter is on her way to Vancouver to attend the annual convention of the Women's Press Club of Canada.
The marriage is announced to take place September 25th, of Miss Anna Belle, daughter of the Hon. L. B. Belle and Mrs. Belle, to Mr. Romeo Racine, Manager of the Royal Bank, St. Sauveur, son of Mr. and Mrs. David Racine, of this city.
The Earl and Countess of Minto are expected to return to Montreal this week from Calgary. The Countess of Minto is going to Morrisburg to unveil the Soldiers' memorial there next Sunday. She will be accompanied by Lord Minto and Mr. and Mrs. G. W. Cook.
The engagement is announced of Miss Annie Farrell, daughter of Mr. and Mrs. P. Farrell, of this city, to Mr. P. G. Lambert, son of Mr. and Mrs. Wm. Lambert, of Sillery. The wedding will take place quietly on September 24th, in the new St. Patrick's Church, Grande Allee.
Mr. L. A. Trudel, Manager of the Sun Life Assurance Co. of Canada, and Miss Lucienne Trudel have left for Bigwin Inn, Lake of Bays, Ont., where they will attend the annual convention of the Company. Mr. Amable Laprise, Instructor of Agents, Mrs. Laprise and Mr. Adolphe Tremblay, of Chicoutimi, have also left to attend the convention.
Mrs. Lucien Hardy gave a "kitchen shower" on Tuesday, at her residence, Ste. Cyrille street, in honor of Miss Jacqueline Hardy whose marriage to Mr. Andre La Perriere takes place on September 17th. Tea and ices were served by Mrs. Alexandre Hardy, Mrs. Edgar Champoux and Mrs. Arthur Duquet, assisted by the Misses Madeleine and Marthe La Perriere, Marthe Beaudoin and Cecile Stafford.
A quiet though very pretty wedding was solemnized yesterday morning at St. David's Church, Levis, when Miss Paula White, became the bride of Mr. Harold J. Walsh. The celebrant of the nuptial mass was the Rev. Eugene Carlier, Rector of the Parish. The bride, who was given away by her adoptive father, Mr. Alfred Thibodeau, wore a charming costume of fawn pout cloth with hat to match, and carried a bouquet of tea roses and sweet peas. The groom was attended by his father, Mr. William Walsh, of Levis. During the mass an appropriate musical programme was rendered under the direction of Mr. A. Gagnon, organist, solo being sung by the Misses Lily Baker, Antoinette Leclerc,

Anita Pelletier, Annie Marie and Cecile Begin, Aline Thomsasin, Olivette Lemieux and Aime Huard, immediately following the ceremony, Mr. and Mrs. Harold J. Walsh left for Montreal and Ottawa on their wedding trip.
The citizenship of American born Japanese arises from no fault of the United States or Japan, but lies in the fundamental differences in the laws of the countries, he said. The United States holds with Great Britain that children are citizens of the country in which they are born, regardless of the citizenship of their parents, while Japan takes the attitude of several continental European countries that the citizenship of children born in foreign countries is that of their parents. The consul-general explained that Japanese girls may obtain expatriation, at any age, but the boys must expatriate themselves before reaching the age of 17 or after the age of 37. He said that the next step would consider a bill to remove the age requirements, which are imposed because men between those ages are subject to military service. Better be than seem.
