Bus Service Huntingdon to Valleyfield Proposed

Private Owner Asks Resolution if Council Has Any Objection

The regular monthly meeting of the Huntingdon Town Council was held at the County Building, on Monday evening, with all present except Alderman Riel. The minutes of previous meeting were read and the bills approved and passed.

A. Gallipeau appeared before the council to ask for a water connection on his vacant lot on York Street. The Council thought that there should be some signs of a building before such a request is granted. They advised Mr. Gallipeau to apply for his building permit and the water connection would be given when needed after the spring thaw. It was pointed out that no water connections are given after November 1st.

Mr. Leslie Hayer asked the Council what had been decided with regard to the damage done his basement floor when water from a main got into his cellar. The Mayor reported that the Council was waiting for the Council for the Town legal advisers. In order not to hold up the work of laying a new floor, it was decided by the Council to re-imburse Mr. Hayer up to the sum of \$100, or less if the work could be done for less, if it goes over the \$100 Mr. Hayer will have to put up the difference. Mr. Hayer said that this arrangement was satisfactory to him.

Paul Oulmet applied to the Council for permission to install a sign over the sidewalk at the O'Connor Building, which would be at his own risk. The permission was granted.

Mr. Arthur Picard requested the Council by letter and also appeared in person to state if the Council would have any objections to him operating a bus between Huntingdon, Ormstown and Valleyfield, with a depot in Huntingdon, at the Empire Garage. The Council put through a resolution that they had no objections to such a project.

Some more correspondence was read with regard to the Dept. of Roads claim for monies for the maintenance of the highway through Chateaugay Street from McCoys Corner to the Canadian Bank of Commerce. The claim covered the

Canadian Legion Will Observe Remembrance Day

The Huntingdon Branch of the Canadian Legion will observe November 11th, Remembrance Day, as is the usual custom.

On November 10th, Sunday, a parade to the cenotaph in Prince Arthur Square will take place and the public is invited to take part and to place wreaths on the memorial. All veterans will fall in at the Masonic Hall at 2 p.m. and the parade will arrive at the cenotaph for a short service of commemoration of those who fell in World War I and in World War II. While full arrangements have not yet been made, it is expected that Rev. W. S. Hatcher, Chaplain of the Branch, will give the address. Those wishing to place wreaths on the memorial, are asked to contact Mr. W. K. Pope, President of the Branch, by November 6th. It might be mentioned that Poppy Wreaths can be purchased through the local branch if same is done at once.

On November 11th, Monday, the Huntingdon Branch will hold a banquet for its members, at the Rod and Gun Club, Port Lewis. It is hoped that both old and new members will attend and that the attendance will be a hundred per cent. A special entertainer from Montreal has been engaged and a real enjoyable time is assured for all. Cars will leave F. C. Moore's yard at 6:30 p.m. and those who provide transportation are asked to assist in this matter.

Mayor Appeals For Poppy Day

Urges That Everyone Should Wear Poppy On Remembrance Day

Mayor W. E. S. McNair has issued the following appeal for Poppy Day on Saturday, Nov. 9th, when Poppies will be sold by the Huntingdon Branch Canadian Legion for welfare work:

"TO OUR CITIZENS:

The local Branch of the Canadian Legion has designated Saturday, November 9th, as Poppy Day in Huntingdon.

The sacrifices made by our Canadian men and women during the fateful years 1914-18, and in the past conflict, are again recalled as we observe Remembrance Day, and a thankful people hold in grateful remembrance the courage and heroism of our soldiers, sailors and airmen, who have given their lives in the cause of Freedom.

The Canadian Legion of the British Empire Service League has contributed valiant service to this Country in helping to heal the scars made by the acts of war, and has brought comfort, courage and practical aid to many in distress.

The difficult conditions existing at the present time offer a challenge to us to respond even more generously than usual to the Legion's appeal.

Let everyone feel it a duty and a privilege to wear a Poppy on Remembrance Day and in so doing strengthen the hands of the Legion in their splendid work."

Hallow'een Party For Boys and Girls

Rotarians Hosts to Boys and Girls of Community

Upwards of 240 boys and girls plus a number of adults found their way to the Curling Rink on Hallow'een night where the Rotarians played host. As the boys and girls entered the rink they were given a treat of an apple and some molasses kisses. Moving pictures were screened and they gave the youngsters a good wholesome laugh. During the evening the High School Band under the direction of Bandmaster Don Moore arrived on the scene and all in a becoming costume for Hallow'een. The band led the various groups of boys and girls that were judged for the prizes awarded for best costumes.

Prizes were awarded the following: Class under 8 years of age: Jimmie McLean, Bernie Beaudin and Russell Thornton.

Class 8 and 9 years of age: Jean Claude Vachon, Garfield Beare, and Renee Soulesse. Class 10 to 12 years of age: Denis Beaudin, Roger Caza and Bruce Amyot. Some of the contestants appeared in pairs and they were judged as such, the prize winning pair being Joyce Vepe and Marina Gregory. Class 13 years and over: saw Louise (Keith) Fawcett, a member of the band, take first position. Denise Gallipeau 2nd and Lyaill Cairns 3rd.

As the boys and girls left the party they were treated to another apple and a small pie or cake. The evening proved to be a real success and we would further add another \$50. well spent by the Rotary Club for the benefit of the boys and girls of Huntingdon.

Rotarian W. R. Wilson and his committee of workers are to be commended for the efforts they put forth. Mr. Stan Livestide, looked after the screening of the movies and it was quite evident the boys and girls now all know Stan and what he says is always respected.

Commencement Exercises At Howick High School

A record number of people attended Howick High School's Commencement Exercises on Saturday night to hear a rich and varied programme.

The first portion of the programme consisted of an Opening Prayer by Reverend G. E. Bingham, an annual report by the Principal, selections by the girls' choir directed by W. F. Welch, two recitations by choral reading groups, Rhythm Band selections, and a song by Grade One, the last items directed by Miss Doris Pradier.

Next followed the Graduation Exercises with valedictory by Mr. Stanley Muir, followed by the awarding of nine High School Leaving Certificates to the graduates of 1946.

Mr. G. M. C. Duckworth, Executive Secretary of the N.D.G. Young Men's Christian Association delivered the main address of the evening, an address which may safely be described as one of the finest heard in Howick. He chose for his topic "The Challenge of the Modern World," showing that ever-in-

creasing demands were being made upon the school which is one of the positive forces left in the community to offset a myriad of undesirable social influences which threaten the growing child.

A final feature was a newly released technical film entitled "On Which We Build," recently prepared by Mr. C. Wallace for the Quebec Department of Education. The film effectively traced the development of education in this province over the last century emphasizing new architectural plans, new teaching methods, new types of text-books, and a broader curriculum. The audience found the film both instructive and entertaining.

Some forty-five students of Howick High received prize awards. During this presentation it was omitted to mention that the Proficiency Prizes from Grade I to XI were donated by the School Commission and that the Grade XI prize in French was given by the Aubrey-Riverfield Women's Institute.

Clarifying the Milk Reports

A bit of misunderstanding might have been taken from a report in the Huntingdon Town Council when reference was made to the reports received on milk tests. It seems such milk tests are made at irregular intervals and the report presented was for a specific test which showed the bacteria count in milk being delivered locally by several milkmen was higher than usual.

To determine the classification of milk being supplied by a milk dealer it is essential that such be based upon the samples received over a year's time. The report issued by the Health and Social Welfare, who made these tests, was issued on October 9 and it shows that F. Monique, Huntingdon had been sampled 22 times and that his Classification as "A", Pringle Bros. had 21 samples tested and received "B" classification, Ralph Goodfellow had 21 samples tested and received a "C" classification. Kensington Dairies had 23 samples and received a "C" classification.

\$40,000 Paid For 5 Months Bull Calf

At the recent All-Canadian Holstein sale at Oakville, the highest price ever paid in Canada for a single animal was paid for Glenatton Killarney, a five-month-old bull calf. The purchaser was the Waterloo County Holstein Breeders' Club and they intend to use the animal at an artificial breeding centre.

A bred heifer was sold for \$5,000 and a two-month-old bull calf sold for \$3,100. The average for the sale was \$2,201, with the entire offering of 66 head selling for a total of \$142,275. Thirty-three of the animals brought over \$1,000 each. Top price female brought \$11,000, five animals brought \$5,000 each and twelve reached the \$2,000 mark. The \$40,000 bull calf was consigned to sale by J. J. E. McCague, Alton, Ont., and the animal is a member of the famous Rag Apple family, that was originated at Mount Victoria Farms, Hudson Heights, Quebec.

W. T. McEwen Heads Valley Jersey Club

Annual Meeting Held at Ormstown Wednesday

The annual meeting of the Chateaugay Valley Jersey Club was held in McDougall Hall, Ormstown, on Wednesday evening, Oct. 30. A very acceptable dinner was provided by the ladies of the United Church, when 66 persons sat down to enjoy the repast.

Wm. C. Winter presided. Mr. and Mrs. Reid of Ormstown furnished music that was much appreciated. Dr. M. Rowat, N.P., the secretary, reported that the recent inventory of Jerseys in the district showed some 1350 head, to which he estimated some 150 head should now be added.

After some persuasion the Executive of the Provincial Jersey Club have decided to hold its annual meeting at the Huntingdon Chateaugay, on Saturday, November 9th. The meeting will open in the morning and at noon a dinner will be served. Forty of the sixty-six present signified their intention of being present at this meeting.

G. W. Radway, Franklin County Farm Bureau, Malone, N.Y., will speak on the "organization and management of artificial insemination," and will be introduced by Dr. Sweet of Chateaugay, N.Y.

The following were elected to office for the coming year: Wm. T. McEwen, President; Roy J. Blair, Vice-Pres.; Gerald Higgins, R. Howden and Wm. Cullen, directors. D. M. Rowat, N.P., was requested to be the Club representative to the Provincial Club. W. C. Winter, the retiring president, made an honorary President of the Chateaugay Valley Jersey Club. R. J. M. Reid was made an associate director of the Club.

Mr. McEwen informed the meeting that the Provincial Jersey Club had offered \$2 to each who would show a Jersey calf under the Dominion Calf Club regulations. This matter was left in the hands of Mr. R. J. M. Reid.

NO REQUEST FOR GRANT FROM PROTESTANT SCHOOL BOARD AT HAVELOCK

In our report of the meeting held at Havelock on the question of a new school for that district, it was stated that Mr. T. A. Brislin, Chairman of the Protestant School Board for Havelock, said that he had been promised by Mr. Henri Turcot, that a grant for a new school at Havelock would be received. No amount of money was mentioned for the grant, but simply that Mr. Turcot had promised to secure one from the provincial government.

As The Gleaner went to press on Wednesday morning a letter was received from Mr. Turcot stating that he had received no such request from the Protestant School Board at Havelock. In view of Mr. Brislin's statement to the meeting in question and of the fact that he is Chairman of the Protestant School Board at Havelock, the letter received would seem to indicate that he did not give an accurate report to that meeting. If Mr. Brislin had approached Mr. Turcot for a grant, it would have been in the name of the School Board in question and Mr. Turcot would have understood it in that light. Mr. Turcot, however, refutes this and wants it made clear to the people that he has received no such request. This being the case how could Mr. Brislin make the statement that he had been promised a grant by Mr. Turcot?

We suggest to the people of Havelock and especially those who voted in favour of a new school for Havelock, that they get to the bottom of this matter and find out where the money is coming from to build the new school and how it was that Mr. Brislin came to tell the meeting that Mr. Turcot had promised a grant.

For the purpose of informing the people of Havelock of this latest development and of clearing Mr. Turcot of something he has not done, we publish the letter received from Mr. Turcot, in full:

The Editor, Huntingdon Gleaner Inc., Huntingdon, Dear Sir,

Referring to the article which appeared in the "Gleaner" of the 9th inst, under the caption "Havelock Meeting Falls in Its Object to Reach Agreement," I wish to make it clear that I have not promised a grant from the Provincial Government to build a school at Havelock.

As an ex-candidate and representative of the Union Nationale Party, it is my duty to assist the people of the County of Huntingdon in obtaining from the Provincial Government their fair share of public funds, and this is as rather well known throughout the county, I have done quite persistently since the last provincial election.

My invariable attitude is not to promise but actually to help whenever I am requested to do so. In the case under review, I have received no such request from the Protestant School Board at Havelock.

Aird Outlined Work

Mr. Col. W. G. E. Aird outlined the work done in extension of the existing building, when conditions would permit construction and said six additional class rooms, a large gymnasium and stage and modern facilities in manual training and home economics were planned. He also thanked the provincial government, on behalf of the trustees, for the strong support given to the project.

J.A.B. McLeish, principal of the Gault Institute said that for the sixth successive year all members of the matriculation class had secured their certificates in June. The school had also won permanent possession of the Strathcona cup for physical training and had captured inter-high school titles in hockey and track for the past three years.

Jean Proctor was presented with the Andrew F. Gault scholarship for highest standing among the graduates, while Jessie Dent and Enid Proctor were awarded the Hon. James A. Robb medals for highest standing in Grades 10 and 9. Richard Willis and Wilbur Leslie received trustees' awards for second and third highest standing in the matriculation results.

Dean Arthur L. Walsh, of the faculty of dentistry, McGill University a graduate of the school, presented the Strathcona trophy to Cadet Captain John D. Cluff, while Mrs. James A. McLeish presented the Dr. J. A. McLeish Memorial cup, won in competition with Lower Canada College in football to Charles Lafontaine.

John Lowe, chairman of the board of trustees thanked Mr. Robinson for his address. The school choir, directed by Miss Marjorie Elliot, sang several songs while Jean Claude and Andre contributed pianoforte solos.

Platform guests in addition to those participating in the program included Dr. John A. McDonald, of the trustees board. Dr. O. E. Caza, chairman of Valleyfield Catholic School Commission, Dr. Claude St. Onge, Rev. B. Thorpe, Andrew J. Wishart and J. A. E. McDonald.

Service of Commemoration

On October 20th, at the regular morning service, the congregation of St. Paul's Presbyterian Church, Winchester, Ont., commemorated the 75th anniversary of the induction into that charge of the late Rev. Andrew Rowat.

A grandson, the Rev. Ronald Rowat of Malone, N.Y., preached the sermon; a daughter, Miss Margaret Rowat of St. Lambert, presided at the organ and a solo, "O Lord Most Holy" was sung by a grand-daughter, Miss June Rowat, of Winchester.

Five members of the immediate family and five grandchildren of the late Rev. Andrew Rowat were present at the service.

Award Prizes At Gault Institute

Better Teachers Needed—Minister of Mines

Health and education should go forward hand in hand, Hon. Jonathan Robinson, Quebec Minister of Mines, told those attending the annual Commencement Day exercises of the Gault Institute Friday evening, when scholarships and other trophies were presented. Mr. Robinson said that health and education were interdependent and both were indispensable to the boy or girl of this generation.

Unfortunately many people seemed more concerned with the cost of education than they were about education itself, said Mr. Robinson. This was not a matter that should be left to the government, but one that every parent should give some attention to. The tendency to leave everything to the government, which he termed socialism, for lack of a better word, was one which would do much to stifle and even destroy that spirit of initiative and hard work which had been the basis of the wonderful progress already made in developing Canada.

Better Teachers Needed Mr. Robinson declared that one of the most pressing needs for education was more and better qualified teachers. "Teachers are leaving by the hundreds for better paying positions and more attractive jobs," he said. "We are driving them from their positions, their profession, leaving our children's and our country's future as well to the whims of circumstance. We should appreciate what lack of proper education has done in Germany, Italy and Japan. Never in the history of this country has our youth been more desperately in need of proper teaching and encouragement yet today our shortage of competent teachers is greater than ever before."

After pointing out that the Education Bill passed by the Quebec Government last session was one of the most practical, sound and progressive steps ever taken in education on a sound business-like basis and remove it from the haphazard hit or miss methods formerly adopted, the minister commented that money alone was not responsible for their children and competent teachers—there was a feeling among them that their profession was not being given the respect it deserved because too few people showed an interest in their work or appreciated what they were doing for their children and the country. The speaker emphasized that human capital was the most important capital in any country, and to conserve it, more attention must be given to the worthwhile things of religion, family love, health and education.

Aird Outlined Work Mr. Col. W. G. E. Aird outlined the work done in extension of the existing building, when conditions would permit construction and said six additional class rooms, a large gymnasium and stage and modern facilities in manual training and home economics were planned. Twins Born on Different Days

Something of the unusual happened at The Huntingdon County Hospital, this week, when twin sons were born to Mr. and Mrs. Aurele Levac, Valleyfield, Que. We do not mean that it is unusual for twins to be born, but it is in the fact that they were each born on a different day.

The usual thing is for twins to celebrate their birthday together, but it looks as if these two boys will have to celebrate their birthdays on different days, even though they are born twins. One of the boys was born at 11:31 p.m. on Monday, November 4th, and the other was born 12:02 a.m. on Tuesday, November 5th.

Incidentally this is the third set of twins to be born at The Huntingdon County Hospital this year. This is another rather unusual thing as twins are supposed to be born at an interval of every 500 births. Of course, just when this should occur would be quite hard to figure out.

Dr. H. R. Clouston was the attending doctor.

Car Mixes With Cows, Kills Two

An accident occurred between St. Anicet and Port Lewis, on Tuesday evening, October 29th, at about 7 o'clock, when two cows were killed and one injured. The cows belonged to Mr. Gerard Caza and were being brought to the barn for milking. An American car came along and drove into the cows. The two that were killed were of the Ayrshire breed and valued at about \$300.00, the one that was injured was a Holstein and was finished for milking. The car was only slightly damaged and no hurt came to the four men who were its occupants.

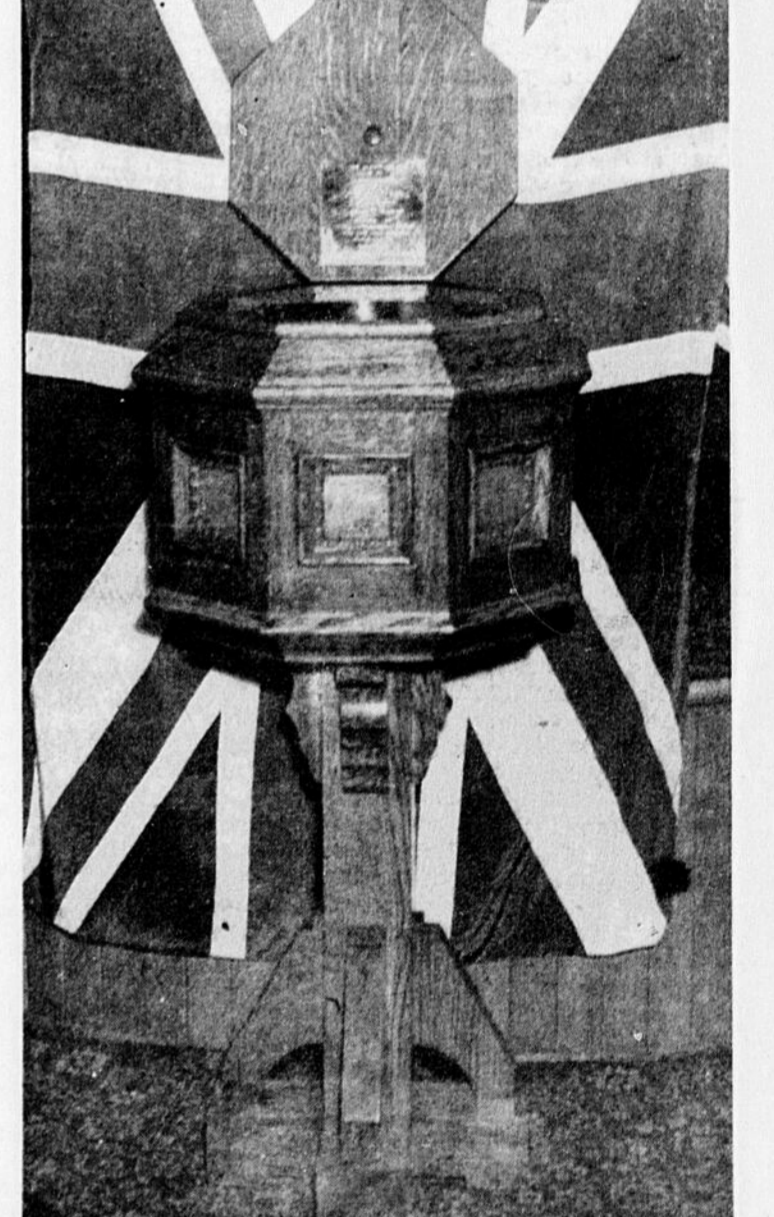

J. D. Lang Nominated Director For Holstein Association

At a meeting of the directors of the Huntingdon-Ormstown Holstein Breeders' Club held in the County Building on Saturday evening, November 2nd, Mr. J. D. Lang was nominated as director to represent the Holstein breeders of this district and all the members of the Association are requested to mark their ballots for Mr. Lang.

The directors also decided to hold the annual meeting in the form of a banquet if suitable arrangements can be made, notice of which will appear later.

BAPTISMAL FONT DEDICATED TO FALLEN AT ATHELSTAN

To the glory of God and in loving memory of Cameron B. Elder, St. John Elder, George E. French, Members of Athelstan Presbyterian Church who gave their lives in World War II 1939-45 "Greater Love Hath no Man Than This".

When Athelstan Presbyterian congregation met last January to pay tribute to those of its members who had volunteered for service in Canada's Fighting Forces, it was announced that a memorial would be erected in honor of those who paid the supreme sacrifice.

This memorial, which was a beautiful oak baptismal font, was made during the past month by Mr. R. D. Watson, and beautifully finished by Mr. Wm. Duncan.

The font was unveiled on Sunday afternoon by Mr. R. G. MacMillan, and formally presented to the congregation by Mr. Fred Ross, chairman of the Board of Managers and dedicated by Rev. J. B. Maclean, D.D., in the presence of a large congregation. Dr. Maclean said it was fitting that such a memorial be erected to our boys, and used in coming years when young children were brought into the church for baptism.

The inscription on the font is as follows:

Seized Meat And Sugar Sold By Customs

The sale by auction Wednesday afternoon at the Port Covington Customs Office of considerable quantities of hams, pork, sugar, fats and oils, seized the previous Friday night has a story behind it reminiscent of bootleg days and merry chases by patrolmen of elusive and wily smugglers.

According to the grapevine the story involves a couple of St. Lawrence Co. men with a truck who in Canada brought their load to the border on the Mary Reilly road and dumped it. While one man stayed with the stuff, the other retraced his route and reported through Customs, going afterwards to the place from the American side, and rejoining his comrade there, reloaded the truck.

The smugglers however failed to reckon with the ingenuity of the Customs men who sensed the set-up and with the aid of patrolmen kept a lookout. Somewhere up the road west, the truckload of contraband was overhauled after a terrific chase and the seizure was made.

Listed on the notice of sale posted in the post office were: 19 hams, 12 lbs. bacon, 3 gallons "Olio Bravo" cooking oil, 137 lbs. fresh pork, 200 pounds of sugar. A reservation in the sale of the sugar was ironically that sugar stamps would be required of the purchasers, which local householders, hopeful of easing their own shortages, viewed as bad—very bad.

The notice stated the contraband was "seized at Ft. Covington on October 25, 1946 for violation of Section 593, Tariff Act of 1930" and was signed by Leo Trombly, Collector.

Local people do not think the smugglers smart. To use the Mary Reilly road for such illegal traffic is courting certain trouble. It is so closely watched. And duty on meat runs from one to two cents a pound, making the risk hardly worth the price, although smuggling sugar is something else again, because it is necessary to surrender ration points for the amount brought over. However, it is probably because the Canadian Mounties are watching the traffic in meat and sugar so closely on the Canadian side of the border that the smugglers were prompted to do what they did—and not because of fear of American officers. Meat is rationed in Canada and there is an embargo against its exportation, as is also true of grain and sugar which Mounties are enforcing rigidly.

Noted Surgeon-Sportsman Dies in 67th Year

Dr. Frederick J. Tees Decorated by King During First Great War

Dr. Frederick J. Tees, C.M., F.R.C.S., M.C., widely known Canadian surgeon and well known athlete, died early Wednesday morning, October 30th, at the Western Division of the General Hospital, after a brief illness. He was in his 67th year. He had been admitted to the hospital on Monday after suffering a stroke.

Dr. Tees is survived by his wife, the former Beatrice Armstrong, a daughter, Miss Miriam Tees, and a son, Frederick, a student at McGill. He also leaves two sisters, Mrs. A. L. Paterson and Mrs. J. Ritchie Bell, both of Montreal.

Born in Montreal on Jan. 6th, 1880, Dr. Tees attended Montreal High School and McGill University, where he graduated with first class honours in Arts in 1901, and in Medicine as a final prize man in 1905. After serving as an interne in the Montreal General Hospital for three years, he left to take up post graduate studies on the continent, returning to Montreal in 1909.

He was appointed medical superintendent and served in that capacity until 1911, when he started a practice of his own. At the outbreak of the First Great War he enlisted in the 9th Ambulance Corps and was put in charge of ambulances in the Canadian Hospital at Buxton. On Sept. 12, 1917, the King decorated Dr. Tees with the Military Cross for services rendered when the 73rd Canadian Division went into action at Zelleke, on that occasion he had administered aid to the wounded for 60 hours without rest.

He was a member of the first McGill track team together with the late Percy Molson and John D. Morrow in 1899. He was Secretary

To Take Part in Royal Exhibition Judging Contest

The Province of Quebec will be represented at the Junior Farmers National Contest which will be held at Toronto on November 11 and 12 next. This year, the event coincides with the Royal Exhibition which will resume its activities, suspended during the war.

Quebec delegates who will compete for the Junior Judging Championship are members of the winning teams at the Sherbrooke provincial tournament. Dairy cattle: Donald McCaig and Eric McCaig, of Ormstown; hogs: A. Dumais and M. Dion of Honfleur; livestock cattle, J. Kirkpatrick and H. Harrison of Bury. These young breeders, all from club members, will be accompanied by their respective trainers and by P. Fleury, head propagandist for livestock production with the Federal Department of Agriculture.

The Quebec teams registered for the Judging Competition on potatoes and grains are, in the first case, Roger Drolet and Maxime Plamondon, of Ste-Raymond, and in the second case, Miss Marie-

Valleyfield Constable Injured in Accident

Traffic Officer S. Henderson, of the Provincial Police, Valleyfield, was in hospital on Friday, with knee injuries and body lacerations, while his radio patrol car lay a total wreck outside of Caughnawaga as a result of a mishap late Thursday night.

Trailing behind another vehicle which suddenly stopped on the highway near the railroad tracks outside Caughnawaga, Henderson's vehicle smashed into the rear of the halted auto, driven by Jean Louis Larose, of 4187 De Bullion street, Montreal, and careened into the ditch.

Larose told police that he saw what he believed to be an approaching train and braked his vehicle to a stop. The "train" was a bulldozer, bearing one light, which was attempting to regain the highway, police said.

Paul Desrochers and Alice Blouin, of St-Louis-de-Blandford, Members of the Young Farmer's Clubs will be accompanied by Joan-Charles Magnan, Director of the Educational Farm Board and J. Vincent Lanouette and L. P. Paquet, their respective trainers.

We wish the delegates a splendid trip and we have no doubt but that they will maintain the good reputation that Quebec has made for itself in previous national contests where Quebec won several championships.

In Tribute

THIS being Education Week, we feel there is no better time at which to pay tribute to one who was recently awarded a high honour in the field of education, than this.

As Huntingdon has always stood very high in the realm of education and many of its sons have passed through this school to achieve great names for themselves, this honour that has been added to keep up the splendid reputation it has earned through the years.

"J. B." is of a retiring nature and dislikes publicity when it concerns himself, thus outside of his scholastic duties he has not been much in the limelight on public occasions.

We believe that this shows that considerable credit is due Mr. Liversidge for the work he is doing among the younger people in town.

Huntingdon is indeed fortunate that it has a man of the calibre of Mr. Macmillan on its school staff and that he has been Principal of the school for the past 28 years.

It Can Be Done

FOR several weeks now we have written editorials on the poor service being given by the railway companies serving the Chateauguay Valley.

However, it has been shown that if effort is put forth, the trains can run on time and thus provide better service to the passengers.

Remembrance Day — November 11th Poppy Day — November 9th

CHATEAUGUAY Valley Branches of the Canadian Legion are making their annual Poppy Day appeal to the people of this area on Saturday.

Poppy—the symbol of sacrifice—is used entirely to relieve unusual distress among War Veterans of the last war and the recent conflict, and their families.

There is another reason why every citizen should wear a Poppy for Remembrance Day. These Poppies are manufactured in the Veterans shops of Canada, workshops in which handicapped Veterans are given sheltered employment.

Doing Good Work HALLOWEEN passed off quite quietly in Huntingdon, due in large measure to the organizing of the younger fry into a party sponsored by the Rotary Club.

Another good feature that has recently been introduced is that of a weekly movie show for the children. The children have just been clamoring for such an entertainment ever since the regular movies were barred to them.

We believe that this shows that considerable credit is due Mr. Liversidge for the work he is doing among the younger people in town.

One thing that Mr. Liversidge has repeatedly asked for is a desk and some kind of filing cabinet in which to keep the collection of papers and correspondence that is gradually piling up.

Considering the length of time that Mr. Liversidge has been handling the recreational facilities in Huntingdon, he has done and is doing a real good job.

Education Across the Years

IT has been our privilege the past week to review a book written by Dr. W. P. Percival, Director of Protestant Education for Quebec, entitled "Across the Years".

There are several references to the Huntingdon Academy. Even as early as 1825, George Davies of Invernesshire, Scotland, taught in Huntingdon, and was one of the few teachers at that time to make a reputation for himself.

solidation required much persuasion to get school districts to do this, but bit by bit it is being accomplished.

Two Pictures of Ribbentrop

Ribbentrop was perhaps the most pathetic-looking figure in the big dock at Nurnberg. There was some attempt on the part of the rest of the accused to preserve their old military or diplomatic dignity.

Compare this pompous and Olympian Ribbentrop, in all his glory at Berlin in 1940, with the miserable, cowed figure sitting in the criminals' dock at Nurnberg in 1946.

LETTER to the EDITOR

Dear Sir: This year, as in other years, the Canadian Legion, through its 1769 Branches and Auxiliaries in Canada, is calling to the people of the Dominion that they should observe more than ever in solemn remembrance the symbolism which has become an integral part of Remembrance Day.

This appeal is not made on behalf of the Legion or of its members, but on behalf of all ex-Service men who are in need. The collection and administration of the Poppy Fund has been entrusted to the Canadian Legion.

The organization of Poppy Day, the sales of wreaths and poppies, the handling of monies collected, the investigation and relief of all applicants, are done by voluntary

The book is not the dry reading type that might easily be associated with one of its nature, as it lists the interesting as well as the routine side of education.

THE WEEK AT OTTAWA

Ottawa, (CP)—The economic situation of Canada's friendly neighbor to the south is beginning to affect the Dominion adversely in several ways.

While not all of Canada's economy depends on the U.S., that country's financial situation today strongly influences not only Canada but most other countries in the world.

Prices would rise to some extent anyway, Mr. Gordon said, but Canadians must choose between "controlled" re-adjustment and "uncontrolled" re-adjustment.

Another influence from the south was in the labor field. Canadian industry, just emerging from the most crippling period of strikes it has ever experienced, was looking ahead to a peaceful period.

Over a half million citizens of Quebec wore a Poppy in Remembrance last November. 5,000 Wreaths were placed in Churches and at Memorials, in honour of the dead.

Every man, woman and child in Quebec is expected to wear a Poppy on Remembrance Day.

Should any of our friends desire further information on any point in connection with Poppy Fund activities, our Branch Secretary will be glad to supply it.

likely Canadian strikes would again follow.

The butter situation, a natural matter of concern to all Canadians, is starting to rise again as the off-production season comes on.

Complicating factors have been the withdrawal of consumer and producer milk subsidies, last June and September.

While the Liberals lost the last three by-elections—one in Pontiac to the Union des Electeurs de Pontiac, a Social Credit faction—and the other two to Progressive Conservatives in Toronto Parkdale and Portage la Prairie, Man., it appeared they would stand a good chance of gaining their 12th seat in Richelieu-Verchères.

Prices again appeared the main factor. The U.S. strike threat was based on increased costs of living.

Canada's chief tax collector—C. Fraser Elliott, deputy minister of

national revenue for taxation—got a new job last week. He will be Canada's new ambassador to Chile.

As the spy trials continued, James Scotland Benning, wartime employee of the munitions and supply department, was sentenced to five years for conspiracy in connection with espionage charges laid by the royal commission investigating the Soviet spy ring in Canada.

RECIPES

SCHOOL LUNCHES FOR HEARTY YOUNG APPETITES

Many mothers wonder how they can possibly prepare a lunch box that will satisfy the hearty appetites of their school going children. After trying, and they admit not always successfully, to fill them up all summer, they worry because they are not able to put in the lunch box the same quantity of food that the children consume when at a home meal. The point to remember when preparing carried lunches, is that quality must replace quantity, which in other words means that the small amount of food in the lunch box must give that well satisfied feeling.

Certain schools have cooking or at least warming facilities, this eliminates the problem of keeping something hot for lunch. Thermos bottles now easily available can be used when these facilities do not exist. In these, soups, macaroni or spaghetti, baked beans, chowders, stews, hash, etc., are easily kept hot and ready to eat. If the child knows that the stay-at-homes will have the same lunch it makes him feel more satisfied with his lot.

The home economists of the Consumer Section of the D.D.A. suggest recipes which will prove good either at home or at school.

DOCKERS BAKE

- 2 tablespoons fat
 - 1/2 pound minced beef or left-over cooked meat
 - 1 onion, sliced
 - 2 cups grated raw potato (4-5 medium potatoes)
 - 1 tablespoon vinegar
 - 1 cup rolled oats (quick-cooking)
 - 1 teaspoon salt
 - 3/4 teaspoon poultry seasoning
- Melt fat in frying pan, add minced meat and onion and brown. To

the grated potatoes add the remaining ingredients, then add the cooked meat. Blend thoroughly. Press into a greased loaf pan and bake in a moderately hot oven, 375° F. for 1 1/2 hours. Six servings.

HAMBURG VEGETABLE CHOWDER

- 3/4 pound ground beef
 - 3 tablespoons fat
 - 2 cups canned tomatoes
 - 2 medium carrots, diced
 - 1/2 cup celery diced
 - 1 medium onion, chopped
 - 2 teaspoons salt
 - 1/2 cup barley
 - 1/4 teaspoon pepper
 - 1 1/2 quarts water
 - 2 cups potatoes, cubed
- Brown meat in fat. Put all ingredients except potatoes in a large kettle and simmer slowly one hour. Add potatoes and continue simmering an hour longer. Serve with toast or crackers as a main dish. Serves 6 to 8.

LUNCHBOX CHEESE SANDWICHES

- 2 hard cooked eggs
 - 1/4 teaspoon pepper
 - 1 teaspoon dry mustard
 - 2 tablespoons melted butter
 - 1/2 cup top milk
 - 2 tablespoons vinegar
 - 1/2 cup cheddar cheese, grated
 - Salt to taste
- Separate whites and yolks of hard cooked eggs. Mask yolks, and blend with other ingredients. Add egg whites finely chopped. Makes 1 1/2 cups filling.

Price Control and Rationing Notes

This column is conducted under the supervision of the Women's Regional Advisory Committee to the Wartime Prices and Trade Board. All enquiries should be addressed to 910 Aldred Building, Montreal, Que.

Q—What is the ceiling price of Australian raisins?
A—Australian raisins have a ceiling price of 13c a pound in the Montreal area.

Q—Why are sugarless canned peaches rationed?
A—Peaches canned without sugar are for diabetics and are rationed because they have been in short supply. If they were not rationed, those requiring them in their diet would have difficulty obtaining them.

Q—Are laundries allowed to change their prices?
A—Laundries are not allowed to raise their prices but must continue to offer the same services for the price charged during the basic period. This means that all laundries need not charge the same price for the same kind of service.

Q—A woman who rents a room in my house says that I must give her six months' notice before she has to move. Is this right?
A—If your tenant is not taking meals from you and is sharing some part of your home such as bathroom or kitchen, and you are supplying the household linen and the laundering of it, you must give her six months' notice to give up the tenancy. This notice must be given on regular forms supplied by the rentals office of the Wartime Prices and Trade Board.

BIG GAME HUNTING IN AFRICA

"Lion hunting is good sport and I thoroughly enjoy it. Almost every night we could hear the zebras stampeding and could hear the lions roar as they made a kill. I lived on the escarpment of the great Rift valley. We could look across the valley with a pair of binoculars and as far as we could see there was game in great numbers—zebra, antelope and other game."

"When the lions stampeded the zebra and make a killing, they roar to attract others of their kind. The method of hunting them is to shoot two or three zebras and drag them across the desert for some distance and then in an open spot plant the kill at the base of some bushes, perhaps tying it to the bushes with wire or chain. It is well to have it near a donga or dry streambed or near an oasis, so the hunters can keep out of sight when the lions approach the meat and can work up near them when they are feeding."

"Usually after nightfall you find one or more, sometimes 4 or 5 lions

feeding there. They will gorge themselves until they can hardly walk. They start to walk away and only a few rods before they lie down or sit on their haunches. It is difficult for them to get around. In that condition they couldn't run fast, though normally the lion is one of the fleetest of animals. With the telescopic sight it is easy to get a trophy, but four out of five lion skins are not worth taking home because of the long scars on their back, their hairs scraped off in patches and no manes. "Ziegfeld Folies" Superb All-Star Hit

A musical masterpiece, M-G-M's "Ziegfeld Folies of 1946," filmed in Technicolor with an all-star cast, coming to the O'Connor Theatre as one of the most superb entertainments of this or any other year, on Sunday through Thursday, Nov. 10, 11, 12, 13, 14.

Outstandingly produced and directed by Arthur Freed and Vincente Minnelli, the production has everything from "A" to Ziegfeld. In this case, it is the star Fred Astaire, and he is at his superb best, singing and dancing with lovely Lucille Bremer, with whom he previously scored in "Yolanda and the Thief."

The pair appear in "This Heart of Mine" and again in the celebrated "Limelight Blues." Judy Garland never has been better than in "An Interview"; Kathryn Grayson personifies the "Beauty" number in which she is starred, and Lena Horne sings "Love" the way only she can.

The comedy end of the production is handled by Keenan Wynn, in an hilarious sketch called "Number Please"; Victor Moore and Edward Arnold, in "Pay the Two Dollars"; Fanny Brice, Hume Cronyn and William Frawley in "A Sweepstakes Ticket"; and Red Skelton in "When Television Comes."

George Williams is seen in an exquisite water ballet number that will keep you gasping at its (and the star's) sheer beauty. The grand voices of James Melton and Marjorie Bell are heard in "Traviata." And Astaire and Gene Kelly lead a number, with song and dance, called "Babbit and the Bromide," which brings together Hollywood's best two male dancers.

Altogether, M-G-M's "Ziegfeld Folies of 1946" is one of the grandest film musicals ever to come out of Hollywood. You'll enjoy it immensely.

Howick

The 3th meeting of Community School was held Wednesday, Oct. 23, at 8 o'clock.

A splendid film of the Winnipeg Music Festival was shown. Mr. Geo. McArthur introduced the evening. Dr. Manfred Saalheimer, who was born in Southern Germany about 40 years ago. Educated in law at Munich, he spent a brief period in Buchenwald Concentration Camp, before he escaped to Great Britain. He has heard nothing of his parents since that time. The problem of the Displaced Persons of Europe lies heavily on his heart. A film, "The Buchenwald Camp," gave a vivid picture of what these people have suffered and it is not difficult to understand why many wish to leave the country. They are utterly exhausted in body and mind after such horrible treatment, but time and care would keep many of them from leaving. Immigration laws prevent help being given in many cases where relatives could give financial assistance. Great Britain was lauded by the speaker for the magnificent part played all during the war in keeping the unfortunate like himself and to her he owes his life.

Imported skills are an asset to any country and at least 100 new industries were started in Canada during the war by refugees. "During the discussion period Mr. Wallace expressed the feeling that Canada as a Christian Country should care for her fair share of these unfortunate. Mr. McArthur suggested that all refugees who accepted the protection of a country should abide by that country's laws. Any screening process might be used to keep active Nazi from hiding away. Rev. Mr. McPherson spoke very fitting words of appreciation to Dr. Saalheimer for showing us what needed to be done and hoped we would take some active part in solving the problem."

The meeting closed with the singing of the National Anthem.

SOME HELPFUL HINTS

Cleaning Paint Brushes
Be sure always to clean paint brushes before putting them away. Hardened brushes may be soaked in raw linseed oil for about 24 hours and then placed in a can of benzene. Work the bristles of the brush until they are separated and the paint will soften so that it can be washed out. Ordinary fibre brushes can be soaked in laundry soda water until they soften and then washed clean with soap and water.

The Range
To keep the range black and clean, wash with still warm with sponge, soap and water. If very greasy, add a little soda to the water.

Hot Lemonade
If the glass for the hot lemonade is placed inside another glass, the inside glass will become hot, but the outer glass will remain cool to handle.

Without Crumbling
A nail can be driven into a plastered wall without crumbling the plaster if the nail is first dipped into hot water or melted paraffin for a few minutes.

Buying a Mop
When purchasing a new dry mop, shake it and see if the strings are matted together. If they are, reject it. The strings of a good mop will practically stand alone.

What's In The Wind?

By Paula Dicks

A Farmers' Trading Centre

On a Sunday afternoon we followed the St. John road out of Fredericton. The mellow September sun lent further beauty to the heavy-laden orchards along the banks. Crossing the Gasqueton ferry we went east on our way to Sussex, passing lakes; up and down around mountains. A new road was under construction and for miles only sign of civilization were the bulldozers and universal carriers; hills surrounded the few cleared farms.

Sussex has about 2,500 population and is in a flat basin surrounded by hills and prosperous farms. Even the last depression is said to have dealt lightly with this section. The chief pride is the Cheese and Butter Factory and Sussex Ice Cream and Ginger Ale Works. The ice cream is really high quality. The wide main street is cut into two by a railway crossing, guarded by gates. The Depot House, where we stayed, is situated right across from the station.

I awoke about 5 a.m. from a shattering dream. There had been a car accident and I appeared to be in hell. It was an engine under the window, shunting, whistling and letting off steam in a most devilish imitation of confusion in the night. Meals here were fairly good but uninteresting. Like most Maritime Hotels, this one is pre-war 1914. Only the rates are first class and everything else second or third. The Depot House did a roaring trade during the war on account of the military camp but hasn't spent anything on furnishings or upkeep. Stair carpets are in shreds. Of the fourteen calendars on the lobby wall, one went back to 1942. Edward Arnold, in "Pay the Two Dollars"; Fanny Brice, Hume Cronyn and William Frawley in "A Sweepstakes Ticket"; and Red Skelton in "When Television Comes."

Public Library in Sussex is contained on one side of the second floor of Town Hall, across from the Secretary's office. It is given heat, light, rent free and \$100, a year grant. The library has a charge of 1000 other books are free. The management is on a voluntary basis and the memberships and book rentals finance new purchases. Selections are in hand in Librarian and most of the popular new books are purchased when published. During my visit a number of school children were in getting books.

The evening we went to a couple of farms with Mr. Ken Raymond, Agricultural Representative. A large wooded mountain and a stream skirted one farm. I was informed that the mountain was in the hands of the government. The land was held here by Scouts from all over the district. Enough lumber has been sold to pay for the property and this year they bought a large lot from the Military Camp which is to be moved to mountain top and used as a permanent Scout Camp.

Mr. W. E. Wallace was born on his farm near the Kennebecasis River. His son and grown-up grandsons live with him. Wallace's early years came from Northern Ireland, cleared some of the land and built the house over 100 years ago. There are five fire places, the one in the dining room, where twelve of us sat down to dinner. There is a deep Mr. Wallace said it was the old kitchen and the fireplace held a crane and original cooking equipment.

"If anyone starts a factory here," said Mr. Wallace, "the Ontario people will have a charge of it."

An emulating works started in 1905 was taken over by McClary Company; carriage companies were bought out by McLaughlin; a farm machinery company in St. John was taken over by Massey-Harris. Sugar refinery not working now and some reason will be found for closing it altogether. These are stories one hears repeated again and again by the farmers.

After dinner we made a non-stop trip along to Moncton, Shediac, up the coast to Tormentine. My first sight of the Ocean was at Shediac where a strong east wind was whipping the waves to a white fury. There is a decided slump in appearance of villages and farms along the Coast. Clusters of small cabins around huge churches.

The Island
We arrived at Port Borden, P.E.I. at 10 p.m. Tuesday, Sept. 15. On the outskirts of Charlottetown at midnight we decided to take a cabin. It was a cold night and in spite of the fire in stove the wind blew enough to make it uncomfortable. The next morning we found the hotel booked up and after some difficulty located a room for that night. As we were moving in, a car drove up beside us and H. J. Kennedy held out the hand of welcome to THE ISLAND.

For the next four days H. J. was our tireless companion and guide and there is no one better

known and who knows more about the country. He reminded me that he was at our farm eighteen years ago when he attended Ormston Show in company with Mr. and Mrs. J. Walter Jones, Vimy Jones and Mr. Bruce. We met also at the Royal York Hotel in Toronto the year H. J. Kennedy was President of the Holstein Friesian Association of Canada. Mr. Kennedy was for many years the Maritime agent for Ralston Purina Company, and one of his sons now represents this company. Another son has a successful hardware business in Charlottetown. The home farm near Southport, is known as "Clearview Village". The three neatly placed homes have lawns between and ocean in background. Mr. and Mrs. Kennedy occupy the centre house with a married son on each side. George Kennedy teaches in the College at Charlottetown and in spare time assists in the conduct of farming operations.

Mr. Kennedy's health does not permit strenuous activity but he is making use of his special ability and knowledge in the promotion of export sales of cattle. We had a delightful but all too short a visit with Mr. and Mrs. Kennedy in their cosy home that has every modern convenience.

Wedding

A very pretty wedding took place at the home of the bride's parents, Mr. and Mrs. W. A. McEwen, of Bainsville, Ont., on Saturday, October 19, at one o'clock, when Jean Alma their eldest daughter, was united in marriage to Mr. Neil McMillan Sangster, son of Mr. James A. Sangster and the late Mrs. Sangster of Lanarkshire, Scotland. The ceremony was conducted by Rev. G. E. Evans. The wedding music was played by Mrs. T. O. McLaren, aunt of the groom.

The bride who was given in marriage by her father, wore a street-length dress of powder blue crepe with matching hat of flowers and short veil and a corsage of pink carnations and feathers. She wore the groom's gift, a strand of pearls. She was attended by her sister, Bessie McEwen, who wore a deep rose wood dress with black accessories. Her corsage was of baby mums. The groom was attended by his cousin Alexander McNaughton.

Mrs. McEwen, the bride's mother, wore an aqua crepe dress with black accessories and a corsage of shatterd mums. While the register was being signed, Mr. George L. Sangster rendered two solos accompanied by Mrs. McLaren.

The rooms were tastefully decorated with pink and white streamers and autumn flowers. After the reception, the bridal couple left for Montreal and the Laurentians. For travelling the bride wore a chalk-striped grey flannel suit with fuchsia blouse and black accessories. She carried a grey three-quarter length coat.

Guests from a distance were Mr. George Sangster of Toronto and Miss Christina Sangster of Cornwall, brother and sister of the groom, Mr. and Mrs. D. L. McEwen, Miss Elda Baird, and Miss Margaret MacGregor of Montreal, Mrs. James Barrington and Mrs. Henry Campbell of Ormston, Quebec, Mr. and Mrs. Robert Whiteford, of Allen's Corners, Quebec, Mr. and Mrs. J. MacMillan of Alexandria, Mrs. D. McCaig, of Glen Sandfield, Mr. Grant McMillan of Alexandria, Mr. Alexander McNaughton of Kemptville and Christina Condie of Ottawa.

On their return the couple will make their home at Glen Gordon.

Obituaries

THE LATE JOHN MCCARTHY

At his home, "New Erin," Huntingdon County, October 25th, Mr. John McCarthy, a resident of this locality for sixty years, passed peacefully away. The deceased had been enjoying his usual good health until Oct. 14th, when he contracted a cold which developed into pneumonia. In spite of the constant medical care and devotion of Dr. George Lefebvre and the tender

nursing of his faithful daughters, Mr. McCarthy lost the battle for life in the early hours of Friday morning.

John McCarthy was born at Inchinagat, in the pro-cathedral parish of Skibbereen, County Cork, Ireland, Dec. 13, 1856. He was the oldest of a family of eight children of late Mr. and Mrs. James Charles McCarthy, his mother's name was Ellen Hurley. He attended the local National School and at the age of eighteen went to Cardiff, Wales, where he remained nearly twelve years. In the autumn of 1888 Mr. McCarthy visited Ireland for the last time, said good-bye to all his loved ones and sailed to this Great Western World on a ship named "The Arizona," landing in New York. He came to Huntingdon in November and continued on to New Erin, where he met Annie, the only daughter of the late Mr. and Mrs. Denis McCarthy, whom he married shortly afterward.

Mr. McCarthy found farming very difficult at first, but with great will power and perseverance he finally acquired an aptitude, becoming quite a successful farmer, maker and agriculturist. The sterling qualities he displayed in family life were just as apparent in his social contacts. He was appointed a Justice of the Peace by the Provincial Government during the term of office of Mr. A. D. Phillips, M.L.A., he had also been School Trustee, Church Warden and Delegate for the Liberal Association and was organizer for Poll No. 1 Godmanchester.

Among Mr. McCarthy's kindred were the O'Learys, the Hurleys, the Maloney's, the Hennessy's and the O'Driscolls. Cousins of the deceased are: Rev. Brothers Aidan and Felix O'Driscoll, Professors at Bialdove College, Dublin; nephew, Mr. Donald Murphy, sculptor and noted artist of the National University of Dublin; niece, Rev. Sister Maura Finbar, of the Sisters of Mercy, Waterford; cousin, Rev. J. Maloney, Los Angeles, California.

Mr. McCarthy was gifted with a great memory which remained with him until the end. Reading was his favorite pastime and The Huntingdon Gleaner was the last newspaper to receive his attention, having been a subscriber for nearly fifty years. His family on whom he lavished kindness and the blessing of a sound Christian education, loved to picture their father's life in triple form, symbolic of the shaddock of his native land. Recalling the happy boy-hood days in Old Erin, then the time he spent in this New Erin, of his childhood, which enabled him to realize his destiny as a parent, his worth as a man and his trust in God and finally the hope of reaching that Erin beyond the skies to which we all aspire, the eternal mansions of Our Heavenly Father.

Those who came from a distance to pay respect to the deceased and to attend the funeral were: Dr. and Mrs. B. Marshall, Montreal West; Mr. J. P. O'Connor and son, Thomas, N.D.G., Mr. A. P. O'Connor, Miss Ada McCallum and Mr. Leo Goffrey, Montreal; Mr. and Mrs. Lucien Haik, Mr. and Mrs. Marcel Montpetit, Mr. and Mrs. X. Aubin and family, Mr. Mederic Primeau, Mr. and Mrs. Armand Larin, Mr. and Mrs. Arthur Lemieux and family, Mr. and Mrs. Harold D. Lacroix, Mr. and Mrs. Felix Legault, Miss Agnes Pridham.

A number contributed floral and spiritual bouquets viz: The Family, Mr. and Mrs. C. L. Starr, Mr. and Mrs. J. P. O'Connor, James Walsh and sisters, Mr. A. P. O'Connor, Mrs. Israel Bonhomme, Mr. and Mrs. Oscar Larin, Dr. and

IF YOU HAD A SAWMILL WOULD YOU SELL IT ... for the price of a saw?

FIFTY years ago a man bought an axe and a saw. He hired himself out cutting firewood. He saved every penny he could and bought better tools and eventually found a partner.

As the years passed, this partnership created a great lumber business. Where once they had toiled with their hands, machinery multiplied their work a thousandfold and that first small stand of trees was increased to mighty timber limits.

WOULD YOU EXPECT THEM TO SELL THEIR MILL FOR THE PRICE OF THAT FIRST SAW?

Of course you wouldn't, and they would think it a joke if someone made such an offer. BUT that is relatively the same proposition put forward by the Quebec Hydro-Electric Commission to the shareholders of M.L.H. & P. Cons. for their gas and electric properties.

We not only find it impossible to believe that anyone could consider this a fair price, but note with concern Quebec's loss of prestige over this unfair and ill-considered proposal.

After discussion it was decided to join the Blue Cross; it was also decided to take up the Public Speaking Contest should the children wish to compete. Mrs. G. Williams read an article on Mr. Truman's speech to the U.N.R.R.A. Mrs. G. Goldie read an article on Preparing for Xmas now. Dr. Stalker, the guest speaker, gave a most interesting address illustrated by lantern slides on the first five years of the Barrie Memorial Hospital. Such an address makes one realize what it has meant to the community to have such a hospital in our midst. Xmas cards, birthday and Get Well Cards were sold and more were ordered. Anyone wishing to join the Blue Cross Hospitalization Plan should get in touch with Mrs. John Goldie. After a hearty vote of thanks to Dr. Stalker, the meeting adjourned. A delicious supper was then served by the hostesses.

IN LOVING memory of a dear Mother, Mary Grace Moore, who passed away Nov. 11, 1945. Remembrance is a golden chain. Death tries to break but all in vain. The years may wipe out many things. But this they wipe out never. The memory of those happy days. When we were all together. -The Family.

Card of Thanks We wish to thank our relatives, friends and neighbors for their many acts of kindness, floral offering, spiritual bouquets during the recent illness and death of our dear father. Ellen and Rose McCarthy.

To my many friends, relatives and neighbors, wish to thank you all for your many acts of kindness to me also for cards, flowers, fruit and personal calls during my recent illness. Mrs. Wilfred Saumier.

The younger children also had a party in the afternoon at which Inspector Brady was the guest of honor. After popping of apples and several other games in keeping with Hallowe'en were played. A parade of the children in costume in all the classes was an entertaining event. Inspector Brady was called on to do the judging and gave 1st prize to Lois Kazulak, Grade IV; 2nd, Dawn Elder, Grade II; 3rd, Shirley Grant, Grade V. Popcorn and apples were given the children by their teachers.

New Mission Band The first organized meeting of the newly formed Mission Band was held on Friday afternoon in the primary room of the Consolidated School. The Band, which is under the sponsorship of the Dundas branch of the Women's Missionary Society, received into its fold 19 members. The Superintendent, Mrs. Vernon Elder conducted the meeting at which the new officers were nominated and duly elected.

SCHOOL NOTES Mrs. Chas. Fraser then took the 1st chapter of "Pig Tree Village," which deals with Central India, the country the Band is studying this year. Mrs. Fraser explained to the children the various phases of life in the Indian village and made it altogether a very interesting lesson.

The Band plans to meet the first Friday of each month, and with the kind co-operation of Miss Hart, the primary teacher, makes it possible for them to hold their meetings in the school and thus enables the children to be present with no effort on the part of the parents, which means a lot in a rural community.

Mr. and Mrs. Wm. Carriere, Sr., left a few weeks ago to spend the winter months with their son and daughter-in-law, Mr. and Mrs. Wm. Carriere, Jr., in Valleyfield, Que. Shortly after arriving in Valleyfield, Mr. Carriere, Sr., suffered a severe heart attack, and on the advice of the doctor was taken immediately to Hotel-Dieu Hospital in the City. For the past two weeks little hope was felt for the patient but over the week-end he began to gradually improve and Dr. O. E. Caza and Dr. Leduc, heart specialists, felt that if he continues to improve he will be dismissed from the hospital in a week or so. His many friends in and around Ste. Agnes hope for his speedy recovery.

Mr. and Mrs. Carriere, Sr. and Mrs. Lawrence spent several days with Mr. and Mrs. Wm. Carriere, Jr., in Valleyfield, to be with Mr. Carriere.

Miss Olive Hart spent the week-end in Riverfield, the guest of Mr. and Mrs. Orr.

Mr. and Mrs. John Cavanaugh, of Massena, N.Y., were guests at the home of Mr. and Mrs. Wm. McPherson, on Sunday.

Mr. Anatole Castagner is recuperating after an operation which he underwent in the Hotel-Dieu Hospital in Valleyfield.

Mr. and Mrs. Lyman Cookman and David, of Montreal, visited on Sunday with Mr. and Mrs. George Sutton.

Mr. and Mrs. Vernon Elder, Mrs. Mary Davidson and Mrs. Wm. McPherson visited on Sunday at the home of Mr. and Mrs. Chas. McGibbon, Constable, N.Y.

Mr. and Mrs. Lyle Currie accompanied Mr. and Mrs. David Camp, who were motored to Belleville, Ont., over the week-end.

Miss Elizabeth McNicol, Cazaville, spent Thursday night with her little friend, Miss Dawn Elder.

Beware of Carbon Monoxide

Before cold weather comes and you drive with all the windows of your car closed, you should have the muffler and exhaust system checked to make sure that there is no leakage of deadly carbon monoxide gas into the car. If you have a manifold heater, have that checked, too. Carbon monoxide is a colorless, odorless, tasteless gas and only one part in 10,000 parts of air can prove fatal, states the Province of Quebec Safety League.

The stretch that so often enters a car from the oil filter pipe is a combination of gases escaping past the piston rings into the crankcase, plus oil vapors. It is sickening and dangerous. An engine running in a small space where all doors and windows are closed will produce enough carbon monoxide to cause death in a very few minutes. The League warned. The only safeguard is to never let your engine run unless the garage door is opened or at least two windows.

Should you feel any headache or faintness, get at once into the open air, the bulletin recommended. Should you come across anyone unconscious in a garage, drag him at once in the open air. If this cannot be done, open doors and windows and then, without a moment's delay, send for help. If you find the victim has stopped breathing, send someone to call the gas company where there is equipment for resuscitation and you yourself start the artificial respiration by the prone pressure method. Minutes are precious, the League's bulletin concluded.

CELEBRATION REVIVED Labor Day in Kings County, which for a score of years has been a day uncelebrated by any public activities, emerged from its quietude this year through the commemorating of this date by the town of Berwick with its gala day attractions. The Advertiser congratulates the town of Berwick and those responsible for the event, on this fine achievement.

SCHOOL NOTES

HOWICK HIGH SCHOOL Annual Graduation Dance

On Friday, Nov. 1st, in the Howick Temperance Hall, the Howick High School held its dance in honour of the school's graduates of 1946.

Wm. Peasey and his orchestra provided the music and the dance was attended by over 400 people from the Chateauguay Valley.

Early arrivals were graciously welcomed by Mr. and Mrs. A. Kerr, Miss Eleanor Younie, Mr. Ralph Craig and Mr. E. A. King, Principal, into a hall beautifully decorated in a "Southern Theme". On the walls were silhouettes of Southern Belles, Mississippi Steamboats and Negro Quartettes which stood out beautifully on their pastel background.

At 9:30 the dance opened with Win Peasey's theme song and as the curtain opened on the stage, there was revealed a romantic scene of a southern gentleman courting the lady of his choice on the porch of a white, pillared mansion which was cast the pale glow of silvered moonlight.

The dance was well underway after the grand march and at 12:00 refreshments were served by the pupils of VIII and IXth grades.

Credit for the success of this dance is certainly due to Miss Peasey who was in charge of decorations, Marcel Descent whose artistic designs proved the delight of all present and Miss Catterson and committee who were in charge of the food. The able leadership provided by the lady teachers was augmented by the enthusiasm with which the pupils worked in preparation for the dance, the success of which certainly justified their efforts.

ST. CHRYSOSTOME SCHOOL

On Thursday afternoon a Hallowe'en Party was held in the St. Chrysostome School. The classroom was very appropriately decorated for the occasion. The costumes worn by the pupils and their little friends represented a variety of different characters.

Miss Bernice Baskin acted as judge for the costumes. Prizes given by Miss E. McKell, teacher, were as follows: Prettiest: Miss Louise Moran, Little Bo-Peep; The funniest: Miss Lila Costello, clown; Most Original: Wanita Bell, Little Red Riding Hood. A few games were played and songs were sung by the pupils. Refreshments were served during the course of the afternoon.

A letter was received from Mrs. Shaw, thanking the pupils for Hallowe'en favors.

Mr. and Mrs. Jas. Harrigan and Julia were Sunday evening guests of Mr. and Mrs. Felix McCormick and Mr. and Mrs. Francis McCormick.

Glenelm

The infant son of Mr. and Mrs. James Taunton was baptised on Saturday at their home by Rev. W. Hatcher. The baby was given the names James John Reginald. The godmother is Miss Alice Taunton of Montreal. A few friends were present.

WOULD EASE LIQUOR LAWS Winnipeg, (CP)—Easing of Canada's liquor laws would improve the tourist trade, George A. Wilson, president of the Hotel Association of Canada, said in an interview. He advocated that other provinces follow Ontario's example in easing restrictions on the sale of liquor.

EXPORT BEAVER The Pas, Man. (CP)—Twenty Northern Manitoba beaver have been sent to Argentina where they will be bred in the Patagonia region on an experimental basis.

Hi-Spots In Recreation

BY STAN LIVERSIDGE Children's Movie (Wed. evenings) The movie for this week (tonight) is titled "The Adventures of Rusty" and is a special film for children. It should be a very good show so all youngsters between the ages of eight and sixteen are asked to be there in good time. The doors open at 6:30 p.m. and the show starts around seven.

Boxing Names of those interested in boxing are very slow coming in, but it is hoped that a large number will be interested in this sport. Equipment has not as yet been obtained, but as soon as we have a large enough group this will be forthcoming. Merrill Smith and Allen Hayter are busy preparing themselves to take over this club, and two more excellent leaders could not be found. They have both had a lot of boxing experience overseas and are very keen on showing some of the youth of Huntingdon what it's all about.

Wrestling It has almost been established that a leader for wrestling can be obtained if there are enough interested in learning how to wrestle, and equipment can be had. All those interested are asked to dial

2162 and leave their names and phone numbers. The Industrial Bowling League and Hockey League are well underway and although it's a little early to actually start hockey, the organization has commenced and officers have been nominated. Next week the names of the officers will be announced. As far as bowling is concerned, it speaks for itself. Interest in this sport is really keen, and it appears as though it will be a solid club from now on.

District Council Meetings

GODMANCHESTER COUNCIL A regular session was held at the usual place and hour of sessions on Monday, Nov. 4th, 1946. The meeting was opened under the pro-Mayor Wm. Graham. Councillor Chartrand reported to the Board, that the Roads Department had cleaned some of the ditch along the Seignory Line Road.

Mayor John J. Tannahill then took the chair. The Road Department was asked to widen and improve the No. 4 Highway. Councillors Biggar and Pringle were appointed to look into the request of Chas. Reid, regarding some ditching along the Ridge Road.

The Council advised Lyall Watterson and Edgar Helm that they would receive the same assistance for snow removal on the 5th and 6th Range Road, as the other east and west roads in the Municipality.

The Roads Dept. was asked to lower two culverts on the No. 4 Highway, opposite the property of Mr. Lidstone, near Dewittville.

The resignation of Wm. Smythe as road officer was accepted and that F. X. Trepanier was appointed in his place.

The Council will purchase 2,000 feet of snow fence from the Provincial Electricity Board, Montreal, re building power lines were read and filed.

Chas. Reid and Russell Clyde were requested to clean the ditch along their respective lines.

A letter from Mr. Henri Turcot was read and filed advising the Council that the Public Works Dept. will paint the Kelvingrove Bridge.

with orange blossoms and she carried an arm bouquet of Pink Delight Roses. Her only ornament was a strand of pearls, a gift of the bridegroom.

The bridesmaid wore a floor-length gown of orchid taffeta with a fitted bodice and a bouffant skirt, a sweetheart neckline and short puffed sleeves. Her finger tip orchid veil was held in place by a Juliet cap. She wore matching net elbow-length mitts and carried an arm bouquet of yellow baby's breath.

Mrs. Tannahill, the bride's mother, was dressed in black velvet, with black accessories and wore a corsage of American Beauty Roses. Mrs. Peddie, mother of the bridegroom, wore a grey crepe dress with black accessories and a corsage of pink roses.

Following the ceremony a reception was held in the church hall and later at the bride's home, after which Mr. and Mrs. Peddie left on a wedding trip to Toronto and other points. The bride wore, for travelling, a wine-colored two piece wool suit with black accessories and a muskrat top-coat. Her corsage was of pink roses. Upon their return the bride and groom will reside in Howick.

Mrs. Jas. Anderson presided, Hymn 758 was sung and Mrs. W. Stewart read the Bible reading. Mrs. Thos. Goudrey gave the Glad Tidings Prayer.

Minutes and Correspondence were read. The roll was called and six members answered with the text word "Thanksgiving".

Miss Gladys Ritchie gave the Glad Tidings item. Miss Mildred Hay gave the special item "Churches take action to guard their heritage", saying that we must bequeath a great heritage to our children, some day people will learn that material things do not count or bring happiness, and are of little use in making men and women creative and powerful.

When this day comes the world will see more advancement in our generation than it has in the past four years. Mrs. Anderson read the report of the sec-

Indelible Ink

It is much easier to mark a handkerchief or other article with indelible ink if the spot to be marked is first dipped into cold starch, then pressed with a hot iron. This will give a smooth, hard surface on which to write.

A Timely Tip....

My friends, here is a timely warning:
Everyone heard of the declaration made a few days ago by an Ottawa authority in which he said that there is no hope whatsoever for any relaxation in the near future in the shortages of raw materials. This authority emphasized the fact that shortages would be more prevalent in textiles in the very near future, especially with the threat of the possible lifting the price controls on such goods.

Take advantage of this warning, and especially if you are in need of a SUIT or COAT, why not make it your business to take a few hours off TODAY and drive to Valleyfield, visit this friendly clothing store, which is purely and delightfully a clothing store, where man meets man, and does his shopping with the greatest of ease.

If, perchance, you could not choose your suit or coat from our large stock we now have on hand, then we will make yours to your measure AT NO EXTRA COST.

Our store is located at 40 St. Laurent Street, Valleyfield, just a few doors north of the Chateau Hotel.

For the Ladies

The Ladies are invited to note that we have not forgotten them. We have a cosy little shoppe with a large assortment of dresses and coats. It is our policy to make them feel at ease while they shop at CHARLIE ROSEN'S. There is a special entrance for the Ladies' Wear Department, thus assuring them privacy and satisfaction.

Keep in mind, ladies, that we receive fresh stock of dresses, coats, etc., every week and you are thus assured of the very latest and newest in styles at all times.

By the way, we all speak English in this store.

That a copy of this resolution be presented to Mr. Henri Turcot by a delegation representing the different councils interested and asking the assistance of Mr. Turcot in presenting this resolution to the Minister of Roads.

Obituary

THE LATE MISS ANNE WALKER

On Wednesday, Oct. 30th, Miss Anne Walker passed quietly away in her sleep, although she had been in poor health for some weeks, her sudden passing came as a shock to her relatives and friends. Miss Anne Walker was the daughter of the late Mr. and Mrs. Thos. Walker, and was born at Kilbain, Que., in 1865, where she spent the greater part of her life. She had resided in Athelstan village for 30 years, until six years ago, when she went to make her home with her niece, Mrs. William Barrie, where her death occurred. She is survived by one sister, Mrs. Mamie Hughes, of North Vancouver, B.C., and several nephews and nieces to whom the community extends sympathy.

The funeral service was held in the United Church, Huntingdon, and was conducted by the Rev. T. Knowles. The floral tributes were very beautiful. Interment was made in the family plot in Huntingdon Cemetery.

Letters to The Editor

The Editor, Huntingdon Gleaner Inc., Huntingdon, P.Q.

Dear Sir:

The report given by the Chateauguay Valley representatives, regarding their visit with the Prov. Trans. Company, seems, as usual, to be quite favorable to those who have already a good service on Route 4, compared to other routes.

Route No. 4 is already served by a "one way" train service, morning and evening, besides this, two buses are to go over this same route every morning, one in the afternoon and one in the evening. Then a bus service between Ormstown and Valleyfield has been promised them.

Ten miles south of this, Route 52 is still without transportation of any kind. Almost four generations have passed, but the promises given to each have never been fulfilled.

This Company promised bus service on this route to Montreal, the route along this route is to and from St. Chrysostome or Hemmingford, to get a means of transportation to the city.

Many of our young people, working in the city, would like to spend their week-ends in their homes, but when they have to drive this distance it is impossible. Some are fortunate enough to have cars, but many others, especially summer boarders have to hire a taxi at 25c a mile. This makes rather an expensive trip if Route 52 had a bus service no one would have much over 5 miles to go at the most.

A few years ago a young man, seeing the urgent need of transportation along this route to and from the city, proposed to run a bus, he was not allowed to do so, as the above mentioned Company had the "right of way."

We, the residents along this

route, only ask for fair play. Are we getting it?

It is not Educational facilities alone that appeal to people moving to these locations, along this route, but transportation to and from the city and other places.

We sincerely hope the Mayor of Franklin, who was one of this delegation, urged the need of bus service on Route 52. Why not begin to agitate for this service now?

A Resident of Route 52.

To the Editor, Huntingdon Gleaner Inc., Sir:—

You have a regular contributor to your columns who writes under the name of Paula Dicks. Her articles are always interesting and instructive. In the issue of Oct. 23rd, this writer tells about a trip which she is taking through the Maritimes which she takes much pains to share with your readers. But the part about which I wish to speak is where she tells of a young lady riding in the car with her to her home a few miles distant. This young lady told Paula Dicks that she was soon going to Toronto to study, to prepare herself for a career as a missionary in China. Paula Dicks said to her, "If you feel an urge to do good, why do you leave New Brunswick?" And she also spoke to the lady about the "doubtful value of Foreign Missions." This amazes me very much, because, especially since the return of our soldier boys from their experiences in the Islands of the Seas, with such enthusiasm over the achievements of missionaries, I supposed everyone would be convinced of the vast importance of Foreign Missions. I have not read the book entitled "My life with the Enemy," to which Paula Dicks refers as confirming her theory of the doubtful value of Foreign Missions. The author of this book had been a prisoner in Japan, and if she speaks disparagingly of the missionary enterprise, she is the exception which proves the rule. Missionaries whom I have seen and known are all enthusiastic over the good work which is being done. And we know that in heathen countries many doors are wide open, and the people pleading

TROUT RIVER FARM FORUM

The Trout River Farm Forum group met at the home of Mrs. Gordon Helm, on Monday evening, November 4th, with an attendance of 26.

The subject of the radio broadcast "What About Farm Taxes" was discussed in two groups and agreed that income tax is the fairest form of taxation. A welcome visitor at the meeting was Mrs. Thompson, of Vermont, who is visiting relatives in and around Huntingdon.

Cards were played, and refreshments were served by Mrs. Helm and Mrs. William Arthur, and an enjoyable evening spent. The next meeting will be held at the home of Mr. Clarence Stark, on Monday evening, November 11th.

THEY'LL ALL HURRY HOME if you serve Maxwell House. This delicious coffee is bought and enjoyed by more people than any other brand of coffee in the world.

For more missionaries to be sent to enter these open doors. Of course we do not dispute the fact that there is need for missionary effort at home, but, as the young lady said, there are Christians here to do this work, but there are few who are able and willing to go to the Foreign Fields. Those who wish to go should surely be encouraged to do so, rather than otherwise. We do hope that that young lady may be diverted from her purpose by the words of discouragement from our friend, Paula Dicks. Jesus said "Go ye into all the world and preach the gospel to every creature." In these words there is a prerogative for all missionary endeavor, or so, let us all do what we can to help and encourage it. There must be real Christianity at work in the backwoods of New Brunswick to inspire such zeal for the spread of the gospel to the people of China.

Hard of Hearing! Hearing Aid Users! You are invited to a Free Demonstration of the Acousticon "Super-Power" Unipac. Tuesday, November 12, at Hotel Hebert, Ormstown. Wednesday, November 13, at the Chateau, Huntingdon. Thursday, Nov. 14, at Hotel Salaberry, Valleyfield. From 1 p.m. to 9 p.m.

Come and see why...

DAD'S NEW GIRL ... Is the Same Old Girl!

Talk of a second honeymoon! It's more like a second courtship. And only a few months ago, she felt old, neglected, discouraged. She lost interest in friends, church work, even her music. She was deaf—and, according to her, the deaf didn't have fun. They just grew old.

Dad was desperate, for she wouldn't wear a cumbersome hearing aid. Then they were invited to a free demonstration of the new all-in-one Acousticon, world's smallest, lightest, most powerful hearing aid.

They're sweethearts again. And she is as active socially as ever. Thanks to the Acousticon.

If you, or any member of your family, are hard-of-hearing, you are invited to this free, private demonstration of the Acousticon hearing aid. If you prefer, you may have a free demonstration in your own home—without obligation. Simply call the Acousticon at the above address and arrange a time convenient to you.

Plan to have a private demonstration... now! Remember, there is no obligation and you won't be urged to buy.

No embarrassment... No discomfort

You can wear an Acousticon "Super-Power" Unipac* without embarrassment or discomfort. Its natural-colored plastic earpiece and cord are hardly noticeable. And because of its trifling 7 1/2 oz. weight, it's as easy to carry as a spectacle case. Actually, the complete hearing aid is hardly half the weight, half the size, that the batteries alone used to be.

Football Requires Close Supervision

Football is a game of hard, explosive physical contact. It ranks as one of the most hazardous sports in the history of our own or any other nation. Yet, perhaps because of that very element, the game has an almost irresistible appeal to all boys between eight or nine years of age and the late twenties, stated the Province of Quebec Safety League in a bulletin published recently.

In football some of the injuries are caused by the nature of the activity, but many others are preventable. Some authorities say that it is possible to reduce football injuries by as much as 50 per cent. With such a possibility, safety in football is of vital concern to every coach, every school official and every parent.

Several studies of the causes and prevention of football injuries have been made by educators, safety engineers and the American Football Coaches Association. All are in general agreement that football is safest for the player when the following conditions are present, the League adds:

Mr. and Mrs. H. G. Dawson and the Misses Naomi and Ursula Dawson, of Westmont, were guests of Mr. and Mrs. Charles Moe, on Sunday.

Mrs. Jas. Winter and small daughter Holly, visited the past week at the home of Dr. and Mrs. Jas. Quintin in Sherbrooke.

Dr. and Mrs. G. L. Sutton and family spent the week-end in Montreal, guests of Dr. Sutton's parents, Mr. and Mrs. P. E. Sutton.

Mrs. C. Hollingsworth has rejoined the teaching staff of the Ormsdown High School, and is staying at "The Towers". She is temporarily replacing Mrs. C. Walsh, who we regret to report, is a patient in the Montreal General Hospital.

Christening

The christening ceremony of the infant daughter of Mr. and Mrs. A. D. Moe took place recently at St. James' Episcopal Church, Greenfield, Mass. The baby was given the name Pamela Anne, and wore her father's christening robe of Swiss embroidery.

The ceremony was conducted by the Rev. John Whiteman, rector of the church. The godmothers were Mrs. John Park and Mrs. Helen Graves, and the godfather was Mr. Edward Hollister.

Tea was afterwards served to relatives and friends, at the residence of the grandparents, Mr. and Mrs. E. H. Hollister.

Mr. and Mrs. David Munroe, Mr. and Mrs. Adam McNeil and Miss Marjorie Roy, attended the annual meeting of the Quebec Council of Community Schools, held in Cowansville, on Friday and Saturday, November 1st and 2nd. Mr. Munroe is president of the Council.

The 3rd Student Council Conference will be held at the Ormsdown High School, on November 8th and 9th. Students from schools throughout the Province will attend. Parents are invited to the open sessions.

Bazaar

The members of the Women's Association of St. Paul's United Church are planning a bazaar which will be held in McDougall Hall, on Friday, November 10th. This should provide an opportunity for many to do some early Xmas shopping, as there will be many articles for sale, suitable for Xmas gifts, in the fancy work and plain sewing booths. A miscellaneous booth will display among other things—home cooking and poiced plants, and there will also be a fish pond and a white elephant table. Supper will be served.

The annual meeting and supper of the Chateaugay Valley Jersey Club took place at McDougall Hall, Ormsdown, on Wednesday evening, October 30th, when sixty-six members were present. Mr. Wm. Winter, president of the club acted as chairman. Mr. Howard Reid entertained with violin selections, accompanied on the piano by Mrs. Reid. An excellent report on the progress of the Jersey breed in the district was given by Mr. D. M. Rowat.

The officers elected for the coming year were as follows: President: Mr. W. T. McEwen; Vice-President: Mr. R. J. Blair; Secy-Treas: Mr. D. M. Rowat; Directors: Mr. Wm. Cullen, Mr. Ross Howden and Mr. T. Higgins.

Presentation to Rev. Pritchard

On Saturday evening the Presbyterian P.S. was entertained at the home of Messrs. Jim and Jack Rodger, Miss Donaldia Goodall presiding. Miss Myrtle Cullen and Mr. Harold Kilgour conducted the worship service.

Various matters of business were discussed, and plans were made to entertain the St. Matthew's Dramatic Club, following the presentation of their play "This Genius Business". Games under the supervision of Miss Myrtle Cullen, Messrs. Jim Rodger and Harold Kilgour were enjoyed. A special feature of the evening's program was a presentation made to Rev. H. A. Pritchard, for his assistance with dramatics. Mr. A. Hooker expressed the thanks of the Society for his valuable services, and Mr. Lindsay Cullen presented Rev. Pritchard with a Waterman's fountain pen. Pritchard graciously responded to the presentation, assuring the young people that his services were very willingly given at all times. Refreshments were served by the committee in charge, and the president thanked Jim and Jack for the hospitality of their home.

Ormsdown Study Club

Those who attended the Ormsdown Study Club meeting on Wednesday evening, heard a vivid description of conditions inside Germany given by Mr. C. H. Peters, of the Montreal Gazette. Taking for his subject "The Problem of Germany", Mr. Peters recounted impressions of Germany and her people, received by him as he travelled through that country last summer. He pictured scenes of complete devastation caused by the allied bombing raids, and told of the helpless and discouraging state of the people, particularly

Helpful New Drugs From Milk Sugar

In the 12 months ended March 31, 1946, about 1,500 farmers in Ontario and Quebec provided 88 million pounds of whey from which 800 tons of milk sugar were obtained, practically all used in the manufacture of penicillin and 1,700 tons of whey powder used in the preparation of poultry and livestock feeds. It is estimated that the farmers received \$125,000 from the sale of the whey. Because of the strict hygienic requirements of whey buyers, cheese factories paid much more attention to the washing and sterilizing of the milk cans with the result that the output of high score cheese increased in the areas in which the whey was bought.

The latest report of the Agricultural Supplies Board states that milk sugar has now become one of the basic ingredients in the production of penicillin. It increases the yield of the drug, enhances its keeping qualities and advances the stimulating effect upon the patient.

The outlet for milk sugar is expanding and present requirements of Canadian penicillin plants are about 100 tons per month. Some penicillin manufacturers are also making the newer drug streptomycin, in which somewhat similar culture is used as that for making penicillin. Streptomycin, however, requires a greater quantity of milk sugar per unit than penicillin.

A development of interest to agriculture is the experimental work now being undertaken with penicillin by animal pathologists of Science Service, Dominion Department of Agriculture, in treating animal and poultry diseases. As a result of mass production of the drug, the price of it has been reduced to an extent that enables it to be used economically by veterinarians.

of the children, who presented a pitiable appearance with their lack of adequate clothing, and with the unmistakable signs of malnutrition showing among them. He explained the zonal system of administration undertaken by the Allies. This, he considered, was where the president problem of Germany lay. He called it the "key problem" when it was solved, then the problems of the smaller European countries would be solved likewise. This zonal system is not working very well, he said. Berlin is divided into zones, too, and here, in a smaller area, there is sufficient give-and-take and understanding to make the system work, but in the country as a whole, it is not so successful. One example of the obstacles encountered was noted in the British zone. This zone is located in the large industrial section of Germany, which was so badly damaged during the war, that there is very little work yet for the people, and no food. Britain, therefore, is just one of the countries to the extent of 80 million pounds a year in order to feed the Germans, a condition which would seem almost impossible to maintain. This is just one of the difficulties. Mr. Peters regretted that our Canadian army has been withdrawn from Germany. He thought that Canada should have some representation there in dealing with the post-war program. He made a plea for unity among the nations, and concluded with this quotation from an editorial recently published in a leading Canadian newspaper: "If Allied disunity should be maintained, the peace may yet be won by Germany".

The speaker was introduced by Mr. J. K. Dickson, president of the club. Mr. Jas Winter afterwards thanked Mr. Peters for his interesting and informative address.

United Church Rally at Ormsdown

Stirring descriptions both of the military action and the long imprisonment at Hong Kong were given last Tuesday night by Captain the Reverend Uriah Laité, former Chaplain of the Winnipeg Grenadiers. Captain Laité, who is at present on leave of absence from his church in Vancouver, gave a vivid picture of life during the four years of imprisonment when food, medical supplies and comforts were very scanty. Speaking of the morale of the men, he gave an encouraging description of the comradeship, sacrifice and faith of men of all ranks and ranks.

FARM FORUMS

CLYDE'S CORNERS

A large number gathered at the home of Mr. and Mrs. Emmet McDonagh, on Monday evening, to attend the first Farm Forum meeting in this section.

THE GORE

The Gore Farm Forum met at the home of Miss Stella Coulter, on Monday evening, October 28.

All officers were re-elected, viz. President, Mr. W. J. McCartney; Sec.-Treas., Allister Neely; Recreation, Josie Moneyenny.

A social hour was spent playing cards, with Allister Neely as winner, followed by refreshments which brought the first meeting to a close.

BROOKLET FARM FORUM

The first regular meeting of the Brooklet Farm Forum was held at the home of Mr. and Mrs. Wm. Malther, Monday evening, Oct. 27th, with a good attendance.

Mr. Francis McCormick was chosen leader to replace Mr. J. O. Levers, who wished to be relieved, with Mr. Francis McCormick as assistant.

hour was spent with games. Refreshments were served by the hostess. The next meeting to be held at the McCormick home.

AUBREY CORNERS FARM FORUM, DUNDEE CENTRE ROAD

The first meeting of Aubrey Corners Farm Forum, Dundee Centre Road, met on Monday night, with Mr. and Mrs. Charles Fraser. This being the first meeting several items of business were taken care of and the officers for the ensuing year were the same.

Twelve families registered this year and this included the four original families who formed this forum when Farm Forums were instituted. This goes to prove that Farm Forums must have something to offer or it would not grow.

ONEILL'S CORNERS FARM FORUM

The O'Neill's Corners Farm Forum met at the home of Mr. Martin Curran on Monday evening, about 20 members being present. After listening to the broadcast on the radio a discussion followed on the merits of farm life vs. city life.

Unsafe Oil Burners

Fire losses in Canadian homes may increase substantially this winter through the use of faulty oil burning equipment or burners which have not passed the safety tests of the Underwriters Laboratories or Canadian Standards Association.

Reputable firms sell oil burners which have passed the tests of the Underwriters Laboratories or the Canadian Standards Association and thus assure the public that equipment bearing the labels of these associations can safely be used.

"The Canadian Underwriters' Association has been informed that, in some instances, small tanks are being installed in basements and that some home owners use open containers to transfer the oil from the tank to the burner.

With Canadian Editors at Imperial Press Conference

By C. H. HALE

ARTICLE III

IS THERE ANY THREAT TO THE FREEDOM OF THE PRESS?

To return to the Imperial Press Conference.

As has been said already, the object of gathering together in London representative journalists from the four corners of the Empire at this juncture was to make them acquainted with the conditions facing Great Britain, the heart of the Empire, at home and on the continent of Europe.

What is Involved in the Freedom of the Press

Naturally the journalists of the Empire had some problems of their own to discuss. Of these the most important was the Freedom of the Press, as to which Premier Attlee in his opening address at the Conference declared that the freedom of the press is a democratic principle more important than this Democracy.

The discussion took on added significance when a few days later the Rt. Hon. Herbert Morrison, President of the Council, who had been a speaker at the Conference on another subject, announced that the Government was considering an investigation into the British Press and its control.

Keen Demand for Canada's Newsprint

A related question that caused the Canadian delegation some embarrassment was the shortage of newsprint, a subject that provoked considerable discussion.

papers, reduced to such small proportions by the lack of paper. The British delegates were silent. But their papers pleaded eloquently for them. The London Times prints ten pages daily, the London Telegraph six pages, and some of the large circulation papers only four pages.

The Canadian delegation felt that the day is not far distant when letters posted in London will be delivered within twenty-four hours in Eastern Canada, and he also forecast reduced rates. He referred to the further possibility of bringing newspapers by air freight. Already the London papers, so often a pioneer in newspaper progress, is producing an air mail edition on this paper, for delivery on this side of the Atlantic.

Throughout the Empire

The journalists did, nevertheless, receive one cheering piece of news. The Postmaster-General, the Earl of Listowel, who addressed the Conference on Imperial Communications, signalled the occasion by announcing that Cable and Wireless had agreed to continue the war press rate of a penny a word within the Commonwealth.

The Storage Battery To eliminate the green paste which is inclined to form at the positive terminal of storage batteries, first clean the parts and wash with a diluted solution of ammonia or sodium bicarbonate to neutralize the acid.

higher officials is largely confined to small groups of privileged journalists representing the home Press, and urges all ministers of this Government that, when they communicate intelligence to the Press of Great Britain, they shall take care that equal facilities are extended to the Press of the Empire overseas.

The Principles Underlying Freedom of the Press

The Empire Press Union's idea of the principles underlying the freedom of the Press were embodied in the following resolution, which, under the circumstances has special interest.

"(1) Freedom of thought and expression is the right of all the peoples of the British Commonwealth and Empire.

"(2) The Press is a principal instrument for the people's exercise of this right and on their behalf is therefore entitled to all the liberties necessary for the discharge of its duties.

"(3) The first duty of the Press is to lay before the people a prompt, accurate and full record of passing events throughout the world, and for the performance of this duty the Conference claims for the Press the freest access to all materials and means of production, in order that newspapers may freely compete in the varied and copious presentation of news.

"(4) The Conference, further, deplores a practice which has recently come to prevail in certain departments of state in the United Kingdom whereby access to the

GROCERY STORE HARPIES

A happily insulting name has been coined by the Peterborough Examiner to cover that tribe of socially depraved Canadians, the women who gang up on grocery store clerks to buy in hoards of hard-to-get-stuff they don't need.

And so "Grocery Store Harpies." Some of these 20th century Harpies are pretty efficient birds too. A glance into their nests would show stacks of soap, shortening, toilet paper, canned goods, and all those other items in short supply but not under rationing regulation.

The second duty of the Press is to maintain active and constructive criticism of events, persons, policies and ideas, presenting its argument without fear or favour, yet always with fairness and a sense of responsibility for the public welfare.

BOOK CLUB GROWS

Organized six years ago with a handful of members, the Windsor Book Club has become an organization which today has a membership of 70. It is the aim of the executive, however, to develop the club into a larger service other than providing its members with merely something to read for the week-end.

ADVERTISE MEMORIAL Halifax (CP)—A gigantic version of "the lamp burning bright in the window," a neon light for the Sailor's Memorial in Point Pleasant park, was discussed by members of the Park Commission. Purpose of the light would be to advertise the park to ocean-arriving visitors.

BEAR HUNTERS BUSY Haliburton, Ont. (CP)—Tom Roberts, veteran Haliburton bushman and bear hunter, bagged seven large bears in 10 days and other hunters reported successful kills as the animals were reported frequenting district lumber camps in search of food. One bear was caught in the act of devouring several apple pies and eight pounds of butter.

SYRUP STILL FRESH Pictou, Ont. (CP)—Maple syrup bottled in 1900 was exhibited at Pictou Fair. The bottle, exhibited by Mrs. Garfield Mayne of nearby West Lake, has never been opened but still appears fresh and clear. A corn cob cork was used.

Mud Stains Let the mud stains dry on the clothing, then break the crust and rub lightly to prevent driving the dirt into the material. If there are any remaining marks, rub with a little alcohol.

Kitchen Utensil Keep a strong screw driver in the kitchen cabinet drawer with other utensils. It is excellent to use for prying off tin lids. A knife is not strong enough for this purpose and is also dangerous.

DO FARMERS NEED NEW EQUIPMENT?

"It is a recognized fact that without the use of up-to-date equipment your farm cannot give you all the profit it should," said Kenneth Pope, manager of the Bank of Montreal, in discussing farm financing. Modern farm machinery, materials for extensions and repairs, pumps, motors, and milking machines, adequate electrical facilities—these are the things, he said, which are absolutely necessary for maximum farm profits. "The purchase of these profit-making aids may seem to be beyond your immediate financial resources," Mr. Pope continued. "If the Bank of Montreal would like to help you, for our farm improvement loan plan has been designed to meet just such circumstances. "Taking advantage of our low-interest plan will enable you to own any of the modern appliances designed to increase the profits of your farm." (Adv.)

SYRUP STILL FRESH Pictou, Ont. (CP)—Maple syrup bottled in 1900 was exhibited at Pictou Fair. The bottle, exhibited by Mrs. Garfield Mayne of nearby West Lake, has never been opened but still appears fresh and clear. A corn cob cork was used.

Mud Stains Let the mud stains dry on the clothing, then break the crust and rub lightly to prevent driving the dirt into the material. If there are any remaining marks, rub with a little alcohol.

Kitchen Utensil Keep a strong screw driver in the kitchen cabinet drawer with other utensils. It is excellent to use for prying off tin lids. A knife is not strong enough for this purpose and is also dangerous.
