Thirty-Eighth Year.

OPPOSITION CONTINUE TO ATTACK UNEMPLOYMENT RELIEF PROPOSAL

Charging Deliberate Attempt to Block Measure Until Return of Opposition Chief, Prime Minister Turned House from Debate on Relief Bill to Study of Estimates—Another Attempt to Pass Measure to Be Made Today—Senate and House Committees Active.

Ottawa, April 13.—Parliament today continues the battle of "peace, order and good government." For nearly two weeks now the House of Commons has been deadlocked on the Government's Unemployment Relief Bill, largely over the clause which empowers the Governor-in-Council to take such action as he deems necessary for the maintenance of those three happy conditions.

A Liberal amendment to strike the clause from the bill met with defeat in the committee of the whole yesterday. As is customary in committee deliberations, there was no registered vote. A call for the "eyes and nays" resulted in its defeat.

Amoyed at what he termed a deliberate plan of the Liberals to delay passage of the bill until their leader, Rt. Hon. Mackenzie King, returns from the bye-election campaign in South Oxford, Premier R. B. Bennett last night switched the House into committee of supply on the estimates for the Department of Agriculture, but today another attempt will be made to advance the bill.

The Liberals' objection to the clause is that it surrenders the powers of Parliament to the executive and the Government's insistence on it is based on the desire to be equipped with power to act quickly in the event of an emergency developing out of the economic stress now prevailing.

The name of Arthur W. Cutten, Canadian-born grain trader of Chicago, was dragged into the discussion yesterday, when William Duff, Liberal, Antigonish-Guyshoro, wanted to know if it was true Mr. Cutten sold grain on the Winnipeg market to John I. McFarland, who has been conducting market stabilization operations backed with a Government guarantee.

Mr. Duff did not press for a specific answer but switched to the case of the Canso fishermen who, he said, could not obtain a guarantee of \$15,000 to outfit themselves for spring fishing while the Government was guaranteeing millions of dollars to aid Western farmers.

The Canso fishermen had not asked for a guarantee, said Mr. Bennett. They had asked to be brought under the scope of the Marketing Act which Parliament had not yet enacted. He accused the Nova Scotia representative of playing politics, of attempting to set east against west and of suggesting the farmers of western Canada should be driven out of business.

So long as his Government was in office, Mr. Bennett declared, all parts of Canada would be treated alike in the matter of relief. The basis of relief would be necessity and no favors would be shown.

Within a few days the House will be called upon to express its views on the question of legalizing sweepstakes in Canada for hospital purposes. Yesterday the Senate gave third and final reading to the bill sponsored by Senator G. H. Barnard, of Victoria, by a vote of thirty-two to twenty. Both party leaders, Rt. Hon. Arthur Meighen, Conservative, and Hon. Raoul Dandurand, Liberal, opposed it to the last. It is assured of a non-party vote in the House of Commons.

Intimation of the coming budget would give effect to further changes in the trade agreement between Canada and the United Kingdom was the Prime Minister's answer to a query about reports from London that Canada's preference might be limited. Mr. Bennett pointed out the treaty provided for alterations by mutual consent and certain alterations had been made in the budget last year.

Representations have been made to Washington in connection with legislation introduced in Congress to exclude Canadians from the right to compete across the international border, was another piece of information Mr. Bennett supplied.

No definite action could be taken until the bill became law, he said. Similar legislation had frequently been proposed at Washington but had so far always fallen short of enactment.

A move to provide the elder statesmen of the Senate with more work was launched yesterday by Rt. Hon. Arthur Meighen, Government leader in the Upper Chamber, carrying out one of the suggestions made in the recent debate launched by Senator Charles Murphy.

The plan is to have all private bills receive their first, and consequently detailed, review in the Senate. To this end Senator Meighen's resolution proposes that the fee for private bills introduced in the Senate remain at its present level, but the fee for bills introduced in the House of Commons be substantially increased.

The House banking committee yesterday appointed a sub-committee to decide whether to call Lord Beaverbrook, Sir Herbert Holt, J. H. Gandy, E. W. Beatty and J. H. Price to testify concerning the relation of the banks to pulp and paper companies as requested by C. G. Power, Liberal, Quebec south.

It also heard M. W. Wilson, general manager of the Royal Bank of Canada, deny the accusation the banks speculated in currency or set the level of the Canadian dollar abroad.

The Senate banking committee reported favorably on a bill to amend the Precious Metals Marking Act and heard Rt. Hon. Arthur Meighen, Government leader, say the Government was considering its policy on Federal regulation of insurance companies.

The Senate Public Accounts Committee heard Georges Gonthier, Auditor-General, say that, owing to heavy relief expenditures, he had been unable to make as many special audits of Government outlays as he would have liked.

The Senate Railway Committee continued on page 2.

BROTHER TESTIFIES AT INQUEST INTO SHOOTING

No Formal Charge Yet Laid Against New Brunswick Man Held Responsible for Fatality by Coroner's Jury.

Bathurst, N.B., April 13.—Victim of two rifle bullets on Wednesday evening, Frank Hagarty, aged fifty-five, was buried at West Bathurst today while his cousin, Thomas Hagarty, aged fifty-four, stood charged by a coroner's jury with responsibility for the fatality. Thomas, occupying a cell in the county jail here, has yet to be arraigned and a formal charge had not been laid against him this morning.

Funeral services were held in the Frank Hagarty farm house at North Tetagouche and Holy Family Church at West Bathurst. He survived by a widow and five children. Thomas, unmarried, lived with a brother, Timothy. The bachelor brothers resided a short distance from their cousin's home.

Timothy Hagarty was the chief witness at yesterday's inquest. He heard a shot soon after Frank had returned a borrowed horse, he said, and running outdoors saw Thomas fire two more bullets.

Frank collapsed, added the witness, and the latter rushed to his neighbor. Police responding to a telephone call found the wounds had been fatal and brought Thomas to Bathurst.

GOVERNMENT DROUGHT BILL APPROVED

London, April 13.—The House of Commons last night gave second reading to the Government's drought emergency bill, after defeating a Labor amendment which charged the bill was inadequate. The vote against the amendment was 184 to 23.

U.S. INDUSTRIAL SITUATION HAS ASSUMED MORE HOPEFUL OUTLOOK

At Least Two New Developments Today Gave Brighter Hue to Troubled Situation—Ten Per Cent. Wage Increase for Workers on Boats Operated by Lake Carriers' Association Announced—Motor Plant Employees Voted to Accept Wage Concessions and End Six Weeks' Strike.

New York, April 13.—At least two developments gave a brighter hue today to the black United States industrial situation.

Ten per cent. wage increases were announced last night for all workers on boats operated by the Lake Carriers' Association. If all four hundred boats operated by members are in service this year about 13,000 persons will receive the increase.

Employees of the Nash Motor Company's Kenosha, Wis., plant voted to accept new wage concessions from the company and end a six weeks' strike.

Elsewhere unrest grew and in some places was marked by violence. A strike of tool and diemakers in forty-five of Detroit's sixty-two plants became effective at midnight. Approximately 3,800 men are affected. The other seventeen plants, employing 1,200 men, negotiated separate agreements.

Two thousand workers at the Electric Autolite plant in Toledo, Ohio, dropped negotiations for a five per cent. wage increase on May 1 and walked out.

Two branches of the glove cutters' union at Gloversville, N.Y., comprising nine hundred of the three thousand union members, voted to walk out at 5 p.m. today unless their wages are increased.

Two nickets at the Cleveland Worsted Mills Company plant were shot, one suffering serious wounds. They told police an unidentified man fired at them with a shotgun. A strike has been on at the plant for several weeks.

Two mill employees, who have remained at work during the strike of knitters at three Indianapolis hosiery mills, reported bricks were thrown through windows of their homes.

Authority to call a strike at the St. Louis Chevrolet and Fisher Body plants was voted the executive committee of the Federated Automobile Workers of America at a meeting of workers late last night. The trouble is over the alleged refusal of the two companies to rehire about 250 men, most of whom have been active in union affairs.

Five local unions in the automotive industry at Pontiac, Mich., ignored the Automobile Labor Board and presented new demands to manufacturers for higher wages and shorter hours.

Striking aircraft workers in Buffalo expressed unconcern over threats of the Curtiss Company to move operations to a Baltimore plant. Almost 2,100 workers are involved at two factories which have contracts for about \$5,500,000.

MISSING VIOLIN RESTORED TO ABSENT-MINDED OWNER

New Haven, Conn., April 13.—The \$3,000 Alessandro Gaglianico violin which David H. Carey, of Short Beach, told police he had "mis-laid" has been restored to him. It was found in a gutter by a man, police said, but how it got there was a mystery.

Carey left the violin somewhere while on a shopping tour.

NUN PERISHED WHEN CONVENT RAZED BY FIRE

Body of Sister St. Charles Recovered from Ruins of St. Gregoire Convent Which Was Destroyed by Flames Early This Morning.

St. Gregoire, Que., April 13.—The body of Sister St. Charles was recovered from the debris of the St. Gregoire convent of the Sisters of St. Joseph and St. Valer which was destroyed by fire early today. The nun's remains were found by firemen after a four-hour search of the ruins.

The fire which started shortly after midnight was brought under control after more than six hours of hard fighting by volunteer firemen and a detachment from the Quebec fire department. It destroyed the convent, the nuns' residence and three other buildings. Damages were estimated at approximately \$50,000.

Sister St. Charles, a cook at the convent, was reported missing when a check up was made during the height of the fire, which started in the furnace room of the three-story brick convent. Search was immediately started among the various houses of the little village on the north shore of the St. Lawrence River, ten miles below Quebec, but to no avail. When the fire was brought under control searchers started to explore the ruins for a trace of her body, and their search was rewarded during the morning.

Sister St. Charles, who before entering religion was Miss Irene Trotter, of Grandis, Portneuf, Que., was forty-three years of age.

WOULD EXTEND INQUIRY INTO PULP INDUSTRY

Sub-Committee of Banking Committee to Determine if Industrialists and Financiers Should Be Called to Explain Promotion of Canadian Paper Firms.

Ottawa, April 13.—Whether a group of prominent industrialists and financiers should be called before the banking committee of the House of Commons to explain the relation, if any, of Canadian banks to the promotion of pulp and paper companies is a question which will be decided by a sub-committee.

With that stage of its inquiry relating to the efforts of the banks to combat the effects of depression in Canada, the committee will swing into the realm of advanced monetary theory at its next meeting on Tuesday, when it will hear the "Douglas Plan" of monetary reform expounded by the author, Major H. B. Douglas. A retired Scottish banker, Major Douglas has been advocating his scheme for some years and he was invited to appear before the committee at the suggestion of Farmer and Labor members. The cost to the treasury will be five hundred dollars.

Yesterday Major C. G. Power, Liberal, Quebec South, one of the sponsors of the Liberal move for an inquiry into the efforts of the banks to combat depression and their relation to other large corporations asked that Lord Beaverbrook, Sir Herbert Holt, J. H. Gandy, E. W. Beatty and John H. Price be called before the committee to reveal the intricacies of the financial troubles of the pulp and paper industry.

Morris W. Wilson, general manager of the Royal Bank of Canada, provided the committee with some information about his chief, Sir Herbert Holt, president of the Bank, who, he said, was greatly interested in having regard to his responsibilities. Sir Herbert, he explained, received \$25,000 a year as president of the Bank less a ten per cent. deduction and some \$3,000 a year as director. Mr. Wilson said he was merely a merchant of exchange and bought and sold it as required by their customers, but they did not gamble on fluctuations of value.

Mr. Wilson was questioned at length regarding exchange and assured the committee he banks did not set the value of the Canadian dollar abroad. This could only be done by an organization which had ample funds with which it might risk a loss.

The proposed Central Bank could do it, he said, if the Government provided it with sufficient funds. It would then be able to conduct stabilizing operations such as were now carried on in England with success.

"Regging of stocks on the Montreal Stock Exchange after Great Britain went off the gold standard was deflected by Mr. Wilson. If the same situation arose again he would advise the same action. He believed it had averted a panic and enabled prices to find their natural levels in an orderly way.

They were going to arrest the King, when on his way to Bucharest to attend the Easter service to be celebrated by the Rumanian patriarch and establish a dictatorial regime in Rumania.

The plot was discovered on Saturday morning, and the arrests followed immediately. The men who were arrested will be judged by a council of war in Bucharest at the end of next week.

NEW AGREEMENT TO FIX PRICES BEFORE PARLEY

Details of Wheat Price-Raising Scheme Kept Secret Until Submitted to Governments Concerned.

Rome, April 13.—A draft agreement on a plan for maintaining a minimum world price for exported wheat running to twelve closely-typed pages today was giving delegates to the World Wheat Conference cause for serious thought.

Although the main conference met today after adjournment since Tuesday, it did little beyond accept the minimum price scheme from the subcommittee which had labored on it nearly all week. The meeting broke up while the delegates took the plan back to their various hosts to get a good going-over.

Before the Conference formally considers the plan tomorrow the delegates will have opportunity to study it and cable their governments for instructions.

The report, although it is carefully guarded, is known to contain definite recommendations on a method whereby a minimum price might be established. What this price should be is up to the Conference to determine. It is expected now the Conference will conclude on Tuesday evening.

FORMER U. S. SENATOR DIES

Baltimore, April 13.—Former United States Senator Richard P. Ernst, of Kentucky, died early today at the Johns Hopkins Hospital, where he had been a patient for the past two weeks. He was seventy-six years old.

STUDY RIGHTS OF STATES IN CERTAIN SHIPS

Congressional Committee to Determine Right to Take Over Ships Under British Flag But Under Mortgage to U.S. Citizens.

Washington, April 13.—The Havas News Agency said today it was reliably informed that records involving the right of the United States to take over British ships, owned by United States investors through large mortgages held but operated under the British flag, will soon be made public by Senator Hugo Black's special committee investigating air and ocean mail contracts.

The records deal specifically with an agreement supposedly made between P. A. S. Franklin, president of the International Mercantile Marine Company, and the Council of National Defence. According to Senator Black's files, Havas said it had learned, Mr. Franklin accepted a plan at a session of the Council during the Hoover administration that provided for the seizure of White Star Line ships, on which the International Mercantile Marine held an \$11,000,000 mortgage, through foreclosure.

Havas said this alleged agreement was later denied by Mr. Franklin in a letter addressed to Arthur J. McCarthy, manager of the White Star Line, and the letter was said to be part of the file soon to be made public by the committee.

The facts revealed were held to throw light on the controversy that has recently raged between the I. M. M. and British shipping interests engaged in pushing through a merger of the White Star and Cunard Steamship lines.

In recent weeks the British Parliament has been debating a bill providing for the merger and subsidizing of the new company in order to facilitate completion of the new giant Cunarder "534." Labor opposing the measure but Conservative opinion in favor of its enactment.

On returning from London about a month ago, Mr. Franklin denounced the plan, saying the company it would bring into existence would be "nothing more nor less than a British national line," and renewing his threat to prevent its creation by asking for an injunction against the merger.

Neville Chamberlain, Chancellor of the Exchequer, replied in the House by declaring that he could see no reason why the merger should not be carried through, no matter what the conditions for the I. M. M. may take to prevent it.

Havas said it learned that included in the correspondence soon to be made public by the Black committee there are radiograms sent by the I. M. M. to Kermit Roosevelt, cousin of President Roosevelt, when both were aboard Vincent Astor's men-of-war, the Nourmahal last summer, asking him to intercede on behalf of the Company with the President.

It was pointed out that there exists no evidence that they were ever acted upon in any way, either by President Roosevelt or by President Roosevelt, but attention was drawn to the fact that the owner of the yacht, Vincent Astor, is an important stockholder in the International Mercantile Marine Company.

Havas said that following the discovery of the messages in the files of the I. M. M. by the investigating committee, advisors close to the President were opposed to his taking the cruise from which he returned early today.

THREE CHILDREN ESCAPE FROM BLAZING TENEMENT

Men Rip Main Door from Building to Allow Youngsters to Jump from Second Story.

Charlottetown, April 13.—Three children trapped in a burning tenement house here today were rescued by a group of men who ripped off the main door and held it above their heads on the steps while the three jumped on it from a second-story window.

The fire raced quickly through the three-story structure and made twenty-three persons homeless. Most of the tenants fled in night clothes when the alarm was given, but the three children of Mrs. P. Callahan lagged behind and met a wall of flames when they attempted to run down the stairway.

It was the second building destroyed within twenty-four hours and third within a week. Several days ago fire razed the Canadian National Railway freight office, and yesterday morning a vacant building, formerly occupied by the Palm Garden, was destroyed with a loss of \$8,000.

William Ryan raised the alarm in the tenement house about two o'clock this morning as smoke poured from the Callahan kitchen. He hustled his wife and child out and aided others in escaping. Other families were Mr. and Mrs. Kenneth McDonald and two children; Mrs. P. Callahan and three children, Mrs. Stanley Ryan and four children, Angus Doucette and six children and Joseph Gallant and his son.

Hot Springs, Ark., April 13.—Two men believed by police to be members of the gang of Clyde Barrow, Texas desperado, were captured here today and two men, one of whom was suspected of being Barrow himself, and a woman escaped.

SITUATION IN FRANCE CRITICAL AS OFFICIALS PROTEST PAY CUTS

Resignation of Minister of Finance Rumored as War Veterans Refuse Cabinet Economy Proposals—Prices Tumble on Stock Exchange—Employees of Telegraph System Stage First Demonstration Against Reduction in Indemnities.

Paris, April 13.—A breach with war veterans over proposed pension cuts, which caused rumors that the Minister of Finance might resign, and falling prices on the stock market developed today coincident with the first of a series of demonstrations by Government employees against contemplated salary reductions.

Police guards watched while 1,800 Government employees swarmed the courtyard and stairways of the main telegraph bureau at the noon hour. Communists among them shouted their hostility to the Government and chanted the Internationale.

Andre Mallarme, Minister of Communications, said the leaders would be punished.

A stormy session between Premier Doumergue and representatives of the war veterans failed to close the wide breach between his suggestion that their pensions be slashed three per cent. and their steadfast stand against a cut.

Louis Germain-Martin, Minister of Finance, demanded that the economy programme, which includes pay cuts for Government employees, as well as pension cuts, should be fully effective. It was rumored he had threatened to resign.

The veterans reform ultimatum was accounted a bearish influence on the Bourse which turned heavier.

MINERS' STRIKE MENACES FOLLOWING RIOT DEATH

Paris, April 13.—Week-end strikes and demonstrations in protest against the cutting of the pay of Government functionaries and reductions in war veterans' pensions got under way slowly in France today.

A Communist one-hour postal strike failed to make itself felt, but the menace of disorders grew with a new call for a "general strike" of miners beginning on April 16th, against "Fascist assassins" as a result of the riot and slaying at Henin, Leitard, on Wednesday night.

There a miner was killed and fourteen persons were injured in a clash which developed when workmen, most of them Socialists and Communists, forced their way into a hall where young Royalists were meeting.

Postmen carried on today in their demonstrations at work—shouting and singing the Internationale as they delivered the mail.

POISON RESEMBLING CANDY OBJECT OF POLICE SEARCH

Connecticut State Police and Putnam Authorities Searching Frantically for Deadly Poison Believed Stolen by Children.

Windsor, England, April 13.—The Prince of Wales has lost his dog—"Jigs," a little Cairn terrier with long black whiskers under his chin—and the police of two counties have been called out to assist in the search.

"Jigs," who with his girl friend, "Cora," a little blond cairn, often accompanied the Prince on strolls through Windsor forest, disappeared during the night from Fort Belvedere, the Prince's country house.

Today, while employees of the Royal estate were searching the bushes thinking "Jigs" might have become lost there, Berkshire and Surrey police were combing the roads.

The Prince was in Glasgow, but it was reported the telephone wires were kept hot by searchers informing him of their progress.

CHEAPEST AIR SERVICE IN WORLD TO BE INAUGURATED

Passengers Will Pay Not More Than a Penny a Mile on Glasgow-Belfast-London Route.

London, April 13.—The world's cheapest air service is to be inaugurated between Glasgow, Belfast and London.

The service will cost passengers not more than a penny a mile. Equipped with two motors of 450 horsepower each, the planes to be used will carry sixteen passengers and two pilots.

Starting May 1st, the Southern Railway Company will operate an air line between Crofton and the Isle of Wight.

paths, spill salt, smash mirrors, raise umbrellas indoors and search diligently for cross-eyed, red-haired girls.

Tonight they'll drink toasts to the goddess of hard luck.

THE WEATHER

RAIN OR SNOW.

Pressure is low over the Great Lakes and eastward to the Atlantic coast also in Saskatchewan and Alberta, with high pressure in the Mackenzie Valley and over east Manitoba. Snow and rain has occurred in most districts of Ontario and Quebec, and easterly gales with rain prevail in west Maritime. The weather has been fair throughout the west with considerably above normal temperature yesterday in Saskatchewan and Alberta.

Forecast: Partly cloudy today and Saturday with not much change in temperature; occasional snow-furries.

Northern New England: Probably rain on the coast and rain or snow in the interior tonight and Saturday; not much change in temperature.

Temperature yesterday: Maximum, 54; minimum, 40.

Same day last year: Maximum, 35; minimum, 34.

BEAN ADMITTED HIS GUILT IN THEFT CASES

Pleaded Guilty when Arraigned Before Judge J. S. Couture in Magistrate's Court Today to Series of Thefts in Eastern Townships.

Appearing before Judge J. S. Couture in the Magistrate's Court this morning, Earl Bean, thirty-three years old, pleaded guilty to several charges of theft.

Bean had already admitted his guilt in connection with robberies at Cleophas Langlois' store at Little Lake and John Martin's store at Bromptonville.

This morning he pleaded guilty to thefts with infraction at C. H. Hunting's store at Huntingville, F. X. Therberge's store at Johnsonville, Jules Henneux's store at Katoval, Murray's store at North Hatley, F. H. Rowe's store at Waterville and J. B. LeBaron's store at North Hatley.

The accused was remanded to next week for sentence. Bean was arrested by James Haney, member of the Provincial Police Force, and High Constable Louis A. Gaudreau, following an investigation by these two officials into a series of robberies which have occurred in various sections of the Eastern Townships during the past few months.

OPPOSITION CONTINUE TO ATTACK UNEMPLOYMENT RELIEF PROPOSAL

Continued from Page One reported favorably on the bill providing for joint use of tracks and station facilities at Quebec by the Canadian National and Canadian Pacific Railways.

The House Mass Buying Committee heard A. B. Quinn, Toronto, charge packers induced farmers to sell their stock direct to them at lower prices than prevailed on the open market and that truck operators assisted the packers.

The committee also received a suggestion from the Saskatchewan Livestock Board that a commission inquire into all phases of livestock marketing. Ross Chapman, Toronto, said the Ontario Government had failed to enforce a statute requiring truckers delivering livestock to obtain bills of lading, and Harry Talbot, Toronto, gave details of the finances of commission firms in Toronto.

QUEBEC MEMBERS ENGAGE IN SHARP INTERCHANGE

Ottawa, April 13.—A slip of the tongue led to a sharp exchange in the House of Commons last night between Osmoine Gagnon, Conservative, Dorchester, and Vincent Dupuis, Liberal, Laprairie-Napierville, while the estimates of the Department of Agriculture were being considered.

Mr. Dupuis was discussing Government fruit and vegetable inspectors and asked Hon. Robert Weir, Minister of Agriculture, if he could sell the total production of fruit and vegetables in Canada — intending to ask for the total inspection.

"That's a foolish question," said Mr. Gagnon. Mr. Dupuis objected strenuously to the interjection, and asked Mr. Gagnon to withdraw. "We're not in a barn here, we're in the House of Commons, the most solemn assembly in the British Empire," he declared.

ACTIVITIES OF VEGETABLE INSPECTOR UNDER ATTACK

Ottawa, April 13.—Declaring a Government vegetable inspector in Montreal who could not speak French had prosecuted farmers who could not speak English, Vincent Dupuis, Liberal, Laprairie-Napierville, last night told the House of Commons, the inspector, when asked not to prosecute, had replied: "Let those damned farmers pay their fines; that's all they deserve."

Hon. Robert Weir, Minister of Agriculture, promptly declared if Mr. Dupuis would furnish proof of the incident the inspector would be dismissed, and the latter then declared he had no wish to cost the man his job.

The statement came during consideration of the Agricultural Department estimates. Mr. Dupuis told the Minister that the inspector at Montreal had prosecuted the farmers for not classifying their potatoes, and Mr. Weir declared the Civil Service Commission, in making appointments, tried to get bilingual men on the staff.

He had represented some of the farmers at Montreal who had been prosecuted, he said. The penalty was ten dollars and costs for "forgetting to put their names on the bags." The inspector had refused to grant the man a postponement of trial while representations were made on their behalf. Finally, the judge had granted the farmers an adjournment of one week, as requested. Then the inspector had made the offensive remark.

SNOWFALL IS WELCOMED BY SUGAR MAKERS

Will Encourage Second Run of Sap, It Is Predicted by Eastern Townships Farmers — Rain and Snow Threaten to Hamper Motoring Activities.

Eastern Townships farmers interested in the production of maple syrup and sugar this morning welcomed the unexpected "April snow-storm" for it was just what was needed to encourage another run of sap and allow the sugar-makers to catch up on what to date has been a more or less unfavorable maple season.

This year's maple sugar season has not been up to expectations. At the outset, a bumper crop was predicted, one of the best crops in many years, in fact, but the weather has not co-operated with the sugar-makers to any appreciable extent, with the result that the sugar harvest thus far is only ordinary.

Following this snow, however, if the sun can smile brightly and the nights be just cool enough, there is still a hope that the maple sugar producers will have a profitable season.

But while the snow-storm may have been to the advantage of the sugar-man, it certainly was not to the advantage of motorists who had planned to enjoy motor trips to different sections of the country over the week-end. Quite a few of the highways were reported open for light car traffic yesterday, but the condition of these roads was not such as to withstand a heavy rain fall, such as occurred yesterday and last night, or a snow-fall like today.

The high wind that prevailed yesterday caused considerable damage in this district, tearing off the roof of the Chapelle de la Cathedrale and causing similar damages in other sections.

The temperature yesterday, according to the Lennoxville Experimental Farm, was maximum 54 and minimum 40, and on the same day last year maximum 35 and minimum 24. The mercury registered 32 above at 10 o'clock this morning.

"High wind and cool wave, preceded by squalls," was predicted by the barometer for tomorrow.

CITY BRIEFLETS

SHARP INCREASE RECORDED IN CLEARINGS. Bank clearings for the past week amounted to \$845,462.86, an increase of \$169,539.08 compared with those for the same week last year, when the figures totalled \$476,123.78.

Statistics from the Sherbrooke Clearing House today indicated that the past week's clearings were also an increase of \$89,587.85 as against the total for 1932 of \$556,865.01.

APPEAL REFUSED FOR MAN WHO MURDERED HIS FATHER. Quebec, April 13.—An appeal entered by counsel for Ildige Blais against the sentence of death imposed on him at Three Rivers in connection with the death of his father, has been dismissed by the Court of Appeals here.

Blais who had been convicted on a charge of murder following the death of his father who he shot during an altercation, several months ago, also wounded his sweetheart. The latter, however, recovered from her injuries.

The incident the inspector would be dismissed, and the latter then declared he had no wish to cost the man his job. The statement came during consideration of the Agricultural Department estimates.

Mr. Dupuis told the Minister that the inspector at Montreal had prosecuted the farmers for not classifying their potatoes, and Mr. Weir declared the Civil Service Commission, in making appointments, tried to get bilingual men on the staff.

He had represented some of the farmers at Montreal who had been prosecuted, he said. The penalty was ten dollars and costs for "forgetting to put their names on the bags." The inspector had refused to grant the man a postponement of trial while representations were made on their behalf.

Hon. Robert Weir, Minister of Agriculture, promptly declared if Mr. Dupuis would furnish proof of the incident the inspector would be dismissed, and the latter then declared he had no wish to cost the man his job.

YOUNG MAN WAS BADLY INJURED WHILE AT WORK

Graham Madden, Employed by Esmond Blanket Mills in Granby, in Critical Condition This Morning Following Fall from Third Story Window.

Granby, April 13.—Graham Madden, seventeen-year-old son of the Granby Golf Club's former "pro," is in a critical condition in Dr. Craig Watson's hospital following a serious accident the youth suffered while at work yesterday afternoon.

Young Madden, an employee of the Esmond Blanket Mills, was cleaning windows on the third story of the factory when in some manner he lost his balance and plunged to the cement roadway nearly thirty feet below.

The young man was unconscious when picked up and rushed to Dr. Watson's hospital, where an examination revealed a broken thigh, a fractured right forearm, a broken elbow and painful head injuries.

Reports this morning state that Madden regained consciousness at intervals last night, but his injuries keep his name on the danger list.

The injured youth's father, Walter Madden, was golf instructor here for three years before moving to Montreal last fall. Graham Madden and his brother returned to Granby recently to obtain employment in the Esmond firm, which is situated in the old Consolidated Rubber plant on Cowie street.

CHAPDELAIN'S WIDOW TO HAVE HANGED TODAY

Beatrice-Bernard Chapdelaine, Twice Convicted of the Murder of Her Husband, Would Have Been Hanged This Morning Had Appeal Court Not Granted Her a Stay of Execution.

Twice convicted of the murder of her husband, Ludger Chapdelaine, East Angus taxi-cab driver, Beatrice-Bernard Chapdelaine was to have been executed in the yard of the common jail in Sherbrooke this morning. The Court of Appeals in Montreal, however, granted a stay of execution. The change was made to enable an appeal against the verdict and death sentence to be heard by the court.

Council for the condemned woman is appealing the verdict rendered in the Court of King's Bench in Sherbrooke and unless a new trial is granted the accused or a commutation of sentence allowed, Beatrice Chapdelaine will mount the scaffold to pay the supreme penalty on June 29th.

Mrs. Chapdelaine is charged with having poisoned her husband by giving him arsenic poison. At her first trial in Sherbrooke, in 1922, she was convicted of the crime, but the Appeal Court granted a second trial, when it was established the Provincial Police had exacted an alleged "confession" from the accused.

This confession was excluded as evidence at her second trial, here last fall, but sufficient proof was presented to the jury by the Crown to convince them of the woman's guilt. In spite of the fact that no trace of arsenic poison was found in Chapdelaine's body, the net of circumstantial evidence implicating the accused was tightly webbed and she was sentenced to death by Mr. Justice Louis Cousineau, of Montreal, a second time.

One of the main reasons for appealing the second condemnation is that the defence counsel, in his possession a letter from Gideon Bernard, Mrs. Chapdelaine's brother who is purging a five-year sentence on a manslaughter conviction arising from the taxi-driver's death, in which Bernard declares the testimony which he rendered at his sister's trial was false.

Bernard testified that he had supplied his sister with arsenic poison on two different occasions "with which to kill Ludger," and that when Chapdelaine was taken ill Mrs. Chapdelaine had admitted giving him a dose of the poison.

WEAKNESS IN STERLING. New York, April 13.—Sterling weakness in pounds sterling marked early dealings on the foreign exchange market today. Sterling fell off 1 1/2 cents to \$5.16 1/2.

Canadian dollars were steady at 100 1/2 cents while French gold francs eased 1/4 point to 6.90 cents in the quiet trading.

NAZI LEGIONAIRES FIRED ON AUSTRIAN POLICEMAN. Member of Austrian Auxiliary Police Was Fired on but Not Injured While Patrolling Frontier.

Vienna, April 13.—According to information from Innsbruck, a member of the Austrian auxiliary police was attacked today when patrolling the frontier.

EARLY TRADING VERY INACTIVE THIS MORNING

Volume of Trading During First Half Hour on Montreal Stock Exchange Today Totalled Only 1,600 Shares.

Montreal, April 13.—A few selected issues provided the main attractions during early dealings on the Montreal Stock Exchange today. The recognized leaders were relegated to the backgrounds in spiritless trading with specialties forging to the van as activity picked up slightly towards the noon hour.

Volume for the first hour and a half totalled only 1,600 shares. Canadian Celanese common and preferred and International Power preferred, an infrequent seller, occupied the limelight.

Celanese common, opening at 20, pushed up to 21 1/4, where it held a gain of 1 1/2 points and the preferred advanced 1 at 120. Power preferred was two points higher at 19 1/2.

The remainder of the list was irregular with only minor changes being recorded. Canadian Pacific was 3/4 higher at 16 3/4, while Dominion Bridge, General Motors, National Canadian, Bruce, Silk and other past small fractions. Canada Steamships preferred, Hollinger, Power Corporation and others were unchanged from previous levels.

TRADING VERY DULL TODAY ON WALL STREET EXCHANGE

New York, April 13.—Dullness ruled the early stock trading today. Quotations were narrow and a bit mixed. A number of preferred issues were firm and active. Motors shares displayed a slight firming.

U.S. Steel preferred and Armour of Illinois preferred rose a point or more each. Steadiness prevailed in American Telephone, Nash, Santa Fe and United Aircraft. Small fractional recessions were recorded by Chrysler, General Motors, National Disinfecters, U.S. Steel, Case and Montgomery Ward. Metals were steady. U.S. Smelting got up a point. Call money renewed at one per cent.

Table with columns: Stock Name, Open, High, Low, Noon. Includes Bell Tel., Canadian Pacific, etc.

NEW YORK QUOTATIONS. The following quotations of today's prices on the New York Stock Exchange are furnished by McManamy & Walsh:

Table with columns: Stock Name, Open, High, Low, Noon. Includes Air Reduction, Am. Can., etc.

WEAKNESS IN STERLING. New York, April 13.—Sterling weakness in pounds sterling marked early dealings on the foreign exchange market today.

Canadian dollars were steady at 100 1/2 cents while French gold francs eased 1/4 point to 6.90 cents in the quiet trading.

NAZI LEGIONAIRES FIRED ON AUSTRIAN POLICEMAN. Member of Austrian Auxiliary Police Was Fired on but Not Injured While Patrolling Frontier.

Vienna, April 13.—According to information from Innsbruck, a member of the Austrian auxiliary police was attacked today when patrolling the frontier.

Going his rounds on the Austro-Bavarian border near the customs post of the Vattwald, a few miles from the health resort of Ruetze in the Tyrol, the policeman was attacked by two men who had crossed the frontier and who shot at him, without hitting him, however.

MARKETING ACT HOLDS REMEDY FOR TROUBLES

Hon. H. H. Stevens Tells House Committee that Proposed Bill is Broad Enough to Effect New Marketing Set-up.

Ottawa, April 13.—Implementation of some of the findings of the price spreads and mass buying committee in the Natural Products Marketing Act now before the House of Commons appeared as a possibility today following a statement made in the committee yesterday by Hon. H. H. Stevens, Minister of Trade and Commerce and chairman of the committee.

The Marketing Bill as it stands is broad enough in its terms to effect a new set-up for the livestock trade which has been the subject of the committee's scrutiny for the past week or so. Mr. Stevens intimated, however, the bill might not be proceeded with until three committees have given evidence. All were agreed that the present widely followed practice of farmers shipping direct to packing plants instead of to the livestock markets was bad for the trade and bad for the farmers.

Truck operators, Ross Chapman stated, were in some cases paid a bonus to take livestock direct to the packing plants.

The truckers further, he said, were not competent to sell livestock, particularly when this involved marketing with the skilled and market-wise packing company buyers. Another count against the truckers was that they, in some cases, did not render a proper accounting to the farmers who entrusted their livestock to them.

DEATHS REPORTED. FUNERAL OF MRS. ELLA A. OLIVER, WATERVILLE. Waterville, April 13.—The funeral of Mrs. Ella A. Oliver, formerly of Hatley Centre, was held on Monday, April 13, at St. John's Church.

Country and Dairy Products Prices

Montreal, April 13.—Butter prices, on the decline for several days, held steady on the Montreal wholesale market yesterday. The market for fresh butter arriving in carlots on local lots was 26 1/2 to 26 3/4 c per lb., while finest New Zealand or westerns, No. 1 grade, remained at 27c to 27 1/4c per lb. Small lots to the retail trade were 28c for solids and 29c for prints.

The egg market held steady. Graded shipments in carlots or local lots were quoted 19c for A-large, 18c for A-medium, 17c for B and 16c for C. Small lots to the retail trade were quoted by wholesale jobbing houses as follows:

Table with columns: Grades, Cartons Loose. A-large, A-medium, B, C.

The potato market held steady with current Ontario make quoted 11 1/4c to 11 1/2c per lb., while summer Ontario were 11 1/2c to 11 3/4c for colored and 12 1/2c for white.

The poultry market was steady. Prices to the retail trade by local wholesale jobbing houses follow, per pound, for "A" grades, "B" grade being 2c under "A" prices:

Table with columns: Poultry Type, Price. Milked chickens, Selected chickens, Fowl, Turkeys, Broilers, Geese, Brome Lake ducklings, Domestic ducklings.

DEATHS REPORTED. FUNERAL OF MRS. ELLA A. OLIVER, WATERVILLE. Waterville, April 13.—The funeral of Mrs. Ella A. Oliver, formerly of Hatley Centre, was held on Monday, April 13, at St. John's Church.

- May lessen stress;
- A loving word
- May heal and bless.

A JOB BIG ENOUGH FOR THE BIGGEST MAN.

Mayor Camillien Houde has come back to his seat with a sweeping majority of over 52,000, and against three opponents.

Beneath the victory there is a rebuke to mixing party politics with municipal affairs, and particularly is the rebuke intended by Montrealers to apply to any interference from Quebec.

In civic affairs Quebec City is just as jealous of Montreal, as the latter is dubious about Quebec.

With two years of idleness on the side lines Mayor Houde may have gained wisdom. He may have learned to know that Montreal thinks its Mayor has enough responsibility in managing his Council and in directing civic policies without mixing in with party politics and trying to be a member of Parliament, federal or provincial.

The job of being Mayor of Montreal, Canada's largest city, is quite big enough to occupy the time and to deserve the whole attention of the man who would fill that position. Does he seek other posts he must neglect one or the other.

When a man aims to be a world's champion politician he becomes just a politician, nothing more.

His predecessor in the office of Mayor was a member of the Dominion Parliament. He answered the urge to gain further plaudits, and found he had undertaken incompatible positions. With good sense he gave up the one, lest he lose all his prestige.

THE BIG AND THE LITTLE BARNACLES ON THE SHIP OF STATE.

Out by the Pacific Coast is the Yukon Territory, hemmed in by the Alaskan Boundary Award, which was Canada's first effort to take part in her own boundary disputes, a most disastrous one. The Canadian delegate did not have his proofs, whilst those from the United States had the advantage of versatile Russian geographers, who could show that the whole North Pole was discovered by the Moscow Chief of Police.

The Yukon has a population the size of the Town of Lennoxville. It is a deserted gold camp, with only a rich Papa at Ottawa.

We asked our members the other day, "What have you done since four years for the Eastern Townships?"

Not a peep out of them yet. Well, we can be dilatory, too. But let us show them what can be done in one year by one member for Dead Man's Gulch—in the Yukon, with its population of 1,800 people, some of them Chinamen.

His M.P. has enough verve to have himself elected Speaker of the House of Commons, in which position he has a personnel distribution of over \$1,000,000 a year.

In one year his six hundred voters drew \$20,000 for relief.

The estimates for 1935 allow \$9,500 for salaries of officers; \$9,000 more for the judge; \$102,000 for grant to Yukon Council, and for cost of administration; \$108,000 for a telegraph and telephone system.

A \$250,000 salary list for the Town of Lennoxville, added to which that town already has, would make its member the Duke of Massawippi.

There are more abandoned mining camps in the United States than there are live camps, but in Canada if our civil service oligarchy once get their feet in they hold on, even though the taxpayers sweat blood.

We hang on like grim death to the C.N.R. and its 72,000 employees, not because we like it, but because the Prime Minister feels in the same predicament as the mountain hunter who caught a wildcat by the tail. He clung and he hung because he dare not let go.

Still and all, when you think of this Yukon graft continuing for fifteen years, after the camp

was dead, and our own Charlie Howard knowing about it, perhaps we had better continue along the Straight and Narrow way. It gets you somewhere, and the Yukon grafter and the C. N. R. grafters know they are hanging on by their front teeth, and eventually they must loose them.

"DON'T GIVE UP."

Contributed by Grenville Kleiser.

However hard the task, or rough the road, or dark the outlook, don't give up. To the man of courage, difficulties serve to stimulate and enlist the highest efforts of which he is capable. Your physical and mental powers grow best in the exercise of useful work.

If discouragement assails you, don't give up. Direct your mind to uplifting and constructive thoughts. Soon your depression will dissolve into nothingness. The best time to annihilate worry is when it first appears. Strike quickly and the victory is yours. Health and happiness are primarily mental. Repeated right thoughts will produce right conditions in your life.

If debt threatens you, don't give up. Make a definite plan to discharge it even by small degrees. Look at it courageously and determine to rid yourself of it and thereafter to keep from debt. Economize in every possible way. Keep a stout heart, work diligently, have a clear goal before you, and bend every energy towards the desired achievement. Courage kills despair.

If failure stares you in the face, don't give up. Work on with greater zeal. The valiant man recognizes no such thing as failure. He regards mistakes and misfortunes as practical lessons in self-discipline and wisdom. Successful men have often used seeming failures as stepping stones to better things. Remember that right effort, industry and earnestness, ultimately bring sure reward.

If friends forsake you, don't give up. Fill well your part and let your good work speak for itself. Excuse is weakness. Do not blame others for your mistakes. Cultivate a fine sense of independence that will sustain you in the midst of disaster. Be greater to yourself than you are to other men. Let your first aim be to merit your own respect; it will automatically follow that you will win the respect of other men.

If loss confronts you, don't give up. Others have lost before, and have turned the experience to profitable account. Prove the greatness of the qualities within you by new and enthusiastic effort. Right where you are at this moment is the place to begin again and to translate your good desires into actual deeds. Never before have you had so many fine opportunities and incentives for really great achievement.

If sickness smites you, don't give up. Take all available means to get well and have faith that you will be well. A beneficent power co-operates with you when you think constructively and optimistically. Gratitude is a healing power. Cheerfulness and right living are vital elements of good health. Right thinking is a great curative force with which to build a sane and healthy life.

If sorrow overtakes you, don't give up. Patience and self-sacrifice are often necessary to meet the responsibilities and difficulties that beset the daily path. Properly developed patience and self-sacrifice will help you to meet the emergencies of life. The practical value of your beliefs and principles may be suddenly put to the test. Be ready for such occasions by developing nobility and sturdiness of character.

If life seems hard and all the world set against you, don't give up. If you lose your money, your job, your material possessions, your friends, don't give up. Start in again, with head erect, clear vision, and bull-dog determination. Rouse yourself—take a new hold on life. And no matter what happens, Don't Give Up!

EDITOR'S NOTE BOOK.

Some few think Economy is using up the cream of the day before on the morning porridge in order to give the fresh cream time enough to get as stale as what was left over from yesterday. There is a difference between sensible economy and miserably stingy.

THIRTY YEARS AGO TODAY

From the Files of the Sherbrooke Record, April 13th, 1904.

In an effort to improve butter manufacture, Federal authorities offered a bonus to plants installing cold storage. The majority of owners preferred to run their own business.

Quebec Legislature gave second reading to bill authorizing City of Sherbrooke to enter electric light business. Approval of larger rate-payers was evaded, and the majority number ruled.

Andrew Carnegie provided a five million dollar fund for recognition of those who have made heroic effort to save life.

Officers elected by Ascot Corner Anglican Church vestry: W. H. Hall, Alexander Bell, George Lock and A. Bell. Rev. E. R. Roy, of East Angus, was in charge.

Wotton district was started by mysterious stranger who swooped down on farmhouses at intervals demanding food. He refused to identify himself.

Hostesses at Bachelors and Benedicts Ball at Magog: Mrs. F. W. Wallace, Mrs. Frederick L. Reynolds and Mrs. George H. Wilson.

Members of the Sherbrooke Hockey Club presented E. C. Moe with a gold watch prior to his departure for Grand Forks, B. C.

Prize-winners at the Bulwer School: Lela Williams, Hattie Williams, Arthur Williams and Leonard McGilton. Miss Oakes was teacher.

Corporation of Bishop's College decided to construct an extension to the library.

A. O. Norton started construction of a new dam at Coaticook to provide power for his jack factory.

James Ward purchased the Kerby Talbot farm at Georgeville.

Construction of the Universalist Church at North Hatley was commenced.

N. T. Truell, Sherbrooke, took second place in Montreal chess solving competition.

Births: A son to Mr. and Mrs. H. H. Bishop, Marbleton.

Mr. and Mrs. James Jones, Richmond, entertained for the birthday of their daughter, Emily.

HIDING PLACE OF FABULOUS WEALTH FOUND

Twenty-Five Tons of Ancient Peruvian Ingots Have Been Reported Found by Searchers in Tuamoto Archipelago.

Papeete, Tahiti, April 13.—The hiding place of a fortune in buried pirate treasure—twenty-five tons of ancient Peruvian ingots estimated to be worth \$45,000,000—has been reported found by searchers in the Tuamoto Archipelago, patches of coral east of the South Pacific French Colony.

Fearing rival expeditions might seize the centuries-old plunder, the gold seekers swore newsmen to secrecy regarding names and places before divulging their story of progress in their plans to unearth the gold.

The treasure seekers who sailed from Papeete last month have returned from the Tuamoto, claiming they located the cache on an unnamed and uninhabited island of the group.

The leader asserted the gold lay under eighteen feet of sand and water; that borings brought up samples of gold and that the party soon would return to the island carrying materials to erect a coffer-dam and machinery to pump out the sand and water. He said he had traced the history of the looting of the gold in Peru, and established the verity of the stolen wealth.

His researches in Peru, the leader asserted, verified tales of the taking of the treasure, its amount

COMPANY LOSES FIGHT TO SAVE CIVIC CHARTER

Supporters of Public-Ownership Refuse to Extend Charter of Canadian-Owned Trinidad Electric Company.

Port of Spain, Trinidad, April 13.—The bitter fight over civic acquisition of the Canadian-owned Trinidad Electric Company has reached another stage with defeat of a resolution of the company's franchise.

The motion was proposed by anti-acquisitionists, who had to wage a court battle before Mayor A. C. Cipriani was forced to place it before council. But yesterday the Socialist mayor summoned nine supporters of his acquisition policy, and the opposition motion was defeated by two votes.

Defeat of the resolution was regarded as important, since the company's franchise expires shortly. Meanwhile, efforts are underway to arrange for arbitration to fix a price for the company's holdings, which include a tramway line and an electrical system.

The company has turned down a civic offer of \$2,000,000 for its assets. It was asking \$3,000,000.

and even the marks stamped upon the ingots. In Sydney, Australia, and elsewhere the further history of its deposit in the Tuamoto was affirmed, he said.

Buy advertised goods. They must always give full value.

TO DECIDE WHO OWNS CERTAIN MINING ISSUES

Receivers and Liquidators of Nova Scotia Steel and Coal Company Undertake Friendly Court Action.

Halifax, April 13.—A friendly action to determine the scope of trust deeds of the Nova Scotia Steel and Coal Company will be heard in Supreme Court here this month.

Declaration that certain properties of the company including shares in subsidiary companies, principally Acadia Coal Company and Eastern Car Company, are not covered by trust deeds securing bond issue is sought by Col. D. H. McDougall, one of the liquidators.

On the other side, claiming that the properties are covered, is Gordon Scott, of Montreal, one of the receivers.

Holders of bonds and debentures of the Nova Scotia Steel and Coal Company together with unsecured creditors will be affected by the court's decision, as priority rights in assets are involved. The bond mortgage is \$4,000,000 and the debenture mortgage \$5,000,000.

Wording of the description of properties covered by the trust deeds for both bond issue and debenture issue is identical, and doubt has arisen as to whether the deeds cover the shares of the subsidiary companies.

Should the court find that these shares are covered by the trust deeds, the shares will accrue to the receivers and become available for

payment of the bonds. If the court finds the shares are not covered then the shares accrue to the liquidators with consequent benefit to the debenture holders and unsecured creditors.

C. B. Smith, K.C., is representing Col. McDougall; Hector Melnes, K.C., representing Mr. Scott; D. C. Sinclair, K.C., debenture holders; Russell McInnes, certain bond holders.

KIMBERLEY

During the Easter holidays the Misses Margaret, Ida and Flora MacKinnon, of Montreal, Helen MacKinnon, of Dolbeau, and Grace MacKinnon, of Quebec, and Mrs. J. E. Ford and three children, Billy, Helen and Jessica, of Portneuf, spent a few days with their parents and grandparents, Mr. and Mrs. Alexander MacKinnon.

The Misses Marion and Mildred MacKenzie, of Ste. Lambert, spent the holidays with their mother, Mrs. J. J. MacKenzie.

Rev. Mr. Flint was calling on Mr. A. MacKinnon and family and on Mrs. MacKenzie and family during the holidays.

Mr. and Mrs. L. A. Douville attended the funeral of Mr. Michael Byrne, Black Lake, on Saturday.

LIGHTHOUSE TO BE INSPECTED

Quebec, April 13.—To inspect damages to the lighthouse at the St. Roch crossing, a group of officials of the Marine Department will leave here next Monday aboard the "Leons" and will submit their report to their department.

The Most Economical Ford Ever Built

NO CAR at any price has ever proved its economy and reliability so definitely and conclusively as the Ford V-8. It has been driven over 300,000 miles in grueling test runs in various parts of the country. These tests were over all kinds of hills and roads and the cars were driven continuously, day and night, twenty-four hours a day. Each car traveled almost as far every day as the average car goes in a month. These tests have shown that it is the most economical Ford ever built. Other low-price cars may talk about their economy and stamina. Salesmen may weave a pretty story about this and that. But the Ford V-8 dares to go out on the road and prove what it can do. Deeds are always stronger than talk and it's facts you want when you buy a motor car.

The Ford V-8 gives superior performance because it is the only car under \$4000 with a V-8 engine. Scientific dynamometer tests show that it delivers more horsepower per gallon of fuel than any Ford engine ever built. The cost records of owners show exceptional gasoline mileage and a saving of many dollars because of freedom from repairs and long life. Ask Ford owners about economy and drive the Ford V-8 yourself. You will know then—from your own personal experience—that it is far ahead in performance, safety and comfort.

"The whole question of car economy needs cleaning up. An economical car gives economy all round. Price, operation, up-keep—all play their part. If what you save on gas you lose elsewhere, that is not economy. "Our V-8 develops more power on a gallon of gasoline than any car we have made. It is also economical in the complete sense—initial cost, operation, maintenance."

SUPERSTITIOUS PEOPLE HAVING A TRYING TIME

For This Is Friday the Thirteenth when in the Opinion of the More Superstitious Citizens, "Anything Is Bound to Happen."

Mr. and Mrs. Sherbrooke are watching their step today. They are decidedly worried, to say the least. For it is Friday the thirteenth.

And Friday the thirteenth, as everybody knows, is the so-called double-header of ill luck. Similar to every other city, Sherbrooke has its share of superstitious people, and until the stroke of midnight, when the day will have ended, there will be no rest or no peace for those persons for whom Friday the thirteenth resembles what the Ides of March were to Caesar.

Major tragedies, however, history shows, have shown no particular preference for Friday the thirteenth, but here are some of the most noteworthy mishaps that have occurred on that date.

Isaac J. Duckworth, architect, walked up to the bar at Milligan's Broadway hotel on July 13th, 1883, and with a sweeping gesture invited: "Come on boys, let's have another drink before we go home."

The "boys" responded with alacrity, but before they could accept the invitation Duckworth had dropped dead.

George C. Davis, a shoot-the-chute man de luxe whose specialty was scooting down a steep runway at the St. Nicholas rink on roller skates and blind-folded, came to grief on Friday, March 13th, 1903. Something—perhaps it was the calendar—did its work and Davis landed in a hospital. He recovered.

And it was on Friday the thirteenth, in June 1912, that Bridge Weeber, a gambler who had testified against Lieutenant Becker in the notorious Rosenthal case, was stabbed in the shoulder.

But all considered, the catastrophes of history have avoided Friday the thirteenth. On that particular day, the general run of mishaps have occurred, as on any other day; and similarly, Friday the thirteenth, like any other date, has witnessed some fortunate events.

Alessandria, Italy, April 13.—Nine persons were killed today and as many injured when a mountain slide destroyed five houses in the town of Gronzona, near here.

WEEKLY GARDEN GUIDE

B. LESLIE EMSLIE, C.D.A., F.C.S. FIRST STEPS IN THE GARDEN—Ref. Bul. No. 3

For these first steps wear something stouter than pumps, for they are to be taken on a spade which, in the garden, takes the place of the plough in the field. Don't dig too deeply, lest you bring to the surface too much raw, cold subsoil. In cultivated ground the top soil is the richest. Climatic and seasonal conditions, nature of soil, etc., determine the time to start gardening. Don't work a clay soil while it is wet. Good tilth is necessary for seed beds and beds in which you transplant seedlings from starting-box, hot bed or greenhouse. To have a garden like the pictures in seed catalogues, cultivate, weed, water and feed properly. Feeding of plants is important, and soils lack adequate amounts of nitrogen, phosphoric acid and potash for plant needs. C-I-L Plant Food furnishes these in proper forms and proportions. Before the final preparation of seed bed in vegetable plot, broadcast C-I-L Plant Food—2 to 3 pounds to 100 square feet (10' x 10') and work in with hoe. For flower beds use 2 pounds to 100 square feet. Don't plant out seedlings until danger of killing frosts is past. Sow peas early and again at intervals of ten days, to provide fresh supply over extended period.

STANDARD OF STRENGTH AND QUALITY

NO DANGER FROM FLOODS FEARED IN THIS AREA

Rivers Rose Perceptibly with Heavy Rain Yesterday but Not Sufficient to Overflow Their Banks—Only Very Heavy Rain Would Bring Back Danger of Floods.

No danger was believed imminent from floods in this district today in spite of the fact that the heavy rain yesterday caused the rivers to rise and it was feared in some quarters that they would overflow their banks.

The greatest danger existed in the low-lying area surrounding the Lennoxville Experimental Farm, where it was reported the river had risen above its ordinary level and water had inundated some sections of the fields. Much of this water, however, was believed to come from wooded sectors where the snow is melting rapidly or has melted into streams of water that have formed pools and small lakes.

Information obtained by the Record from such points as East Angus, Brompton and Richmond indicated that no danger existed at the present time. At East Angus the river was said to be about two feet from the "high-water mark," and unless it rose another two or three feet, which was not considered probable, no floods were expected to occur. A like situation prevailed in Bromptonville and Richmond. The ice, having broken up with the spring thaw, has now moved away and the water, although high, is able to follow its natural course smoothly. There are no ice jams to dam it up and cause an unnatural flow over its banks.

LENNOXVILLE

DR. F. O. CALL ADDRESSES WOMEN'S INSTITUTE

The Lennoxville Women's Institute was privileged to have as speaker yesterday afternoon at its monthly meeting, Dr. F. O. Call, of Bishop's University, who in a graphic manner described his trip overseas with the authors of Canada's literary and political circles of each city. Receptions in their honor were held everywhere their journeys led them, and the homes of literary celebrities of the past were open for their inspection.

The women writers of England and Scotland were met in friendship, and the Parliament Buildings, Windsor Castle, the King's library, Oxford University, Chester, the lake districts, Edinburgh and Glasgow were the places visited. Dr. Call's description of this notable trip was listened to with keen interest by all present.

Mrs. Ross Healy, president-elect of the Women's Institute, presided. Several copies of the magazine, Mental Health, were distributed, and it was decided to continue con-

tacts formed with overseas Institutes by a gift of maple sugar, a distinctive Quebec product.

A competition was inaugurated to be entered around any discovery made in the spring housecleaning as to better methods of decoration or general procedure, to be judged at the next meeting. It was decided to discontinue the ways and means committee and the annual attendance contest, and to form four groups, each one to have charge of the work of these committees for one-quarter of the year.

Mrs. James O'Keefe was re-appointed convener of the "sunshine" committee, and Mrs. Reed and Mrs. Atto were named room committees. Arrangements were made to entertain the annual county convention in May and to serve the visitors with lunch at noon. Hostesses for the afternoon tea which closed the meeting were Mrs. W. J. Martin and Mrs. Arthur Coates.

FUNDS NEEDED BY SALVATION ARMY WORKERS

For Forty Years "Army" Has Worked Among Poor, Placing Its Trust in the Generous Persons Who Are Always Ready to Lend a Helping Hand to Less Fortunate Individuals.

The Salvation Army is one organization that can always be depended upon to do a share far out of proportion to its numbers in relieving suffering of the unfortunate and the needy. They can make a charity dollar give more comfort than can any other form of distress relief, and there are many reasons for this.

For forty years they have worked among the poor, placing their trust in the generous spirits of those who have not. Christian countries send the Gospel of Love to far-off lands, to non-Christian and unprivileged people. That, we believe, is part of the true Christian spirit.

"Our Self Denial Appeal stands for a great ideal," says Adjutant Ambrose Cummings of the Sherbrooke Citadel. "The strong help the weak. Those who have sinners with them who have not. Christian countries send the Gospel of Love to far-off lands, to non-Christian and unprivileged people. That, we believe, is part of the true Christian spirit."

"We cannot be placid idealists. We must be practical. We do things. At our Citadel in Sherbrooke we are often forced to do things, and buy things, even though we know not from whence will come the money to pay. We put our trust in those generous souls who find that happiness consists largely in bringing happiness to others. Not once have we been undeceived."

"There are Salvation Army Soldiers of the Cross working in all countries as we work in ours. We attack Grim Want in Canada as we are doing in Sherbrooke. For those whom we have fed and clothed, for those whom we must continue to shelter until the summer comes again, we are making this appeal. May we ask your readers to help suffering humanity, to give us some contribution, be it but a dollar, a five dollar note, or as much as heart and purse will direct?"

The Editor of the Sherbrooke Record has agreed to publish all donations which may be sent to Adjutant Ambrose Cummings, Salvation Army Citadel, 83 Wellington street south or, if preferred, c/o the Sherbrooke Record, Cheques and Money Orders should be made payable to "The Salvation Army."

Easter paper by Jean Gordon Forbes on "Loving and Giving," was read by the president.

Mrs. Wright Gibson and Miss L. Ranshouston, to the delight of all, contributed a vocal duet entitled, "The Lord is My Shepherd; they were accompanied by Mrs. J. G. Ranshouston.

The tea hostesses were Mrs. L. W. Cook and Mrs. W. O. Rothney, who were assisted in serving by the Misses Margaret Cook and Kathleen McLean. Tea was poured by Miss J. Mitchell, pussy-willows centering the tea table and the smaller tables at which afternoon tea was served.

Mr. P. C. Duboyce, of Richmond, has returned home much improved in health from the Montreal General Hospital, where he went for surgical treatment last week.

The many friends of Miss Marion Daniels will be sorry to hear that she is a patient in the Sherbrooke Hospital, where yesterday she underwent an operation for appendicitis.

Mr. A. H. Baker, of Scottstown, is a patient in the Sherbrooke Hospital, where he underwent an operation yesterday. Mr. Baker's many friends will be pleased to hear that latest reports from the hospital state his condition is satisfactory.

Mrs. E. W. Nielsen, of Maplewood, N.J., who was in Coaticook visiting her sister, the late Mrs. J. H. Cairnie, during the latter's illness, has been a guest in Sherbrooke of the Misses Alice and Corinne Berube. While in this city, Mrs. Nielsen was entertained by Dr. and Mrs. Berube and Miss Mildred Baldwin, R.N., and intends to visit friends in Coaticook before returning to her home in the Orange Mountains, N.J.

Miss Gladys Leech maintained at her home on Queen street in honor of Miss Vena Atchison, who is leaving shortly for Grimsby, Ont. The evening was enjoyed by playing bridge, later the hostess served delicious refreshments, assisted by Mrs. T. McKeage. On behalf of the guests, Miss Leech presented the guest-of-honor with a dainty gift, accompanied by the best wishes of her friends for a pleasant journey.

Mrs. A. A. Munster entertained delightfully last evening at her residence on Portland avenue for Mrs. Stephen Newton, who is being much feted by her many friends prior to her departure from Sherbrooke. Conspicuous plaided by five tables, the prizes being won by Mrs. E. W. Tobin, Mrs. W. L. Reford Stewart, Mrs. J. T. Morkill, Mrs. George Ewing and Mrs. B. N. Holtman. During the evening a box of beautiful Talisman roses arrived for Mrs. Newton from the husbands of the guests, who later hosted a delightful refreshment, refreshments were served at midnight, contract bridge being afterwards continued. Spring flowers in a cut glass bowl and yellow candles in Sheffield candlesticks adorned the lovely table at which Mrs. Stephen Newton, Mrs. W. W. Lynch and Mrs. Robert Newton presided.

A remarkable reception was accorded the authors, Dr. Call went on, in that in visiting the larger cities of England and Scotland, they were received by the civic, literary and political circles of each city. Receptions in their honor were held everywhere their journeys led them, and the homes of literary celebrities of the past were open for their inspection.

The women writers of England and Scotland were met in friendship, and the Parliament Buildings, Windsor Castle, the King's library, Oxford University, Chester, the lake districts, Edinburgh and Glasgow were the places visited. Dr. Call's description of this notable trip was listened to with keen interest by all present.

Mrs. Ross Healy, president-elect of the Women's Institute, presided. Several copies of the magazine, Mental Health, were distributed, and it was decided to continue con-

tacts formed with overseas Institutes by a gift of maple sugar, a distinctive Quebec product.

A competition was inaugurated to be entered around any discovery made in the spring housecleaning as to better methods of decoration or general procedure, to be judged at the next meeting. It was decided to discontinue the ways and means committee and the annual attendance contest, and to form four groups, each one to have charge of the work of these committees for one-quarter of the year.

Mrs. James O'Keefe was re-appointed convener of the "sunshine" committee, and Mrs. Reed and Mrs. Atto were named room committees. Arrangements were made to entertain the annual county convention in May and to serve the visitors with lunch at noon. Hostesses for the afternoon tea which closed the meeting were Mrs. W. J. Martin and Mrs. Arthur Coates.

Mrs. Miriam Jacobs, of Westmount, is visiting Miss Dorothy Rosenbloom, Quebec street.

Mrs. Max Long entertained the members of the Ladies' Circle of Trinity United Church at this week's meeting at her home on Victoria street. A few items of routine business were disposed of under the presidency of Mrs. R. E. Richardson, after which the evening was devoted to social enjoyment. Later delicious refreshments were served by the hostesses, who were assisted by Mrs. E. G. Pierce and Miss Clara Hyndman.

Mrs. John Brittan, Mrs. F. Steben, Mrs. James Allen and Mrs. Alfred Roy were hostesses at the tea hour yesterday afternoon, following the weekly card party given by the Ladies' Guild in St. Patrick's Church hall. Sweet peas in a silver basket, and a course of appetizers in silver, adorned the attractive table over which Mrs. F. H. Hoye and Mrs. D. McMahon presided. The prizes at bridge were won by Mrs. J. G. Russell and Mrs. L. Barlow, and at "500" by Mrs. Girard and Mrs. W. Davis.

Outstanding among the many delightful events this season, was the largely attended reception given in honor of Mrs. F. H. Bradley yesterday afternoon by L'Union Musicale de Sherbrooke, at their studio, on Frontac street. The spacious hall was transformed for the occasion into an attractive salon, with rugs, pictures and masses of spring flowers. Baskets of daffodils and irises were placed in the window seats, while an exceptionally lovely large basket of vari-colored blooms adorned the entrance. The reception was presided over by Mrs. C. D. White, Mrs. J. H. Lemay, Mrs. J. S. Tetrault and Mrs. J. K. Edwards. Among the invited guests were His Worship, Mayor F. H. Bradley and daughters, the Misses Moira, Margaret and Frederica Bradley. The invitations extended by the executive included honorary members, directors, patrons for 1933-38, subscribers to "L'Alliance Francaise, pupils of L'Union Musicale, a few old friends of Mrs. Bradley's and prominent leaders in musical circles. The elaborate arrangements, which were so efficiently carried out by those in charge, were made complete by Prof. A. S. Bourgeault, who personally conducted a large orchestra in honor of the occasion, their many delightful contributions greatly enhancing the pleasure of everyone. The reception was organized by the Union Musicale in honor of Mrs. Bradley, because she has been their first vice-president for twelve years, and also to mark the recent elevation of her husband as Mayor of Sherbrooke, in which high position she so charmingly acts as his consort.

Steben, Mrs. James Allen and Mrs. Alfred Roy were hostesses at the tea hour yesterday afternoon, following the weekly card party given by the Ladies' Guild in St. Patrick's Church hall. Sweet peas in a silver basket, and a course of appetizers in silver, adorned the attractive table over which Mrs. F. H. Hoye and Mrs. D. McMahon presided. The prizes at bridge were won by Mrs. J. G. Russell and Mrs. L. Barlow, and at "500" by Mrs. Girard and Mrs. W. Davis.

Outstanding among the many delightful events this season, was the largely attended reception given in honor of Mrs. F. H. Bradley yesterday afternoon by L'Union Musicale de Sherbrooke, at their studio, on Frontac street. The spacious hall was transformed for the occasion into an attractive salon, with rugs, pictures and masses of spring flowers. Baskets of daffodils and irises were placed in the window seats, while an exceptionally lovely large basket of vari-colored blooms adorned the entrance. The reception was presided over by Mrs. C. D. White, Mrs. J. H. Lemay, Mrs. J. S. Tetrault and Mrs. J. K. Edwards. Among the invited guests were His Worship, Mayor F. H. Bradley and daughters, the Misses Moira, Margaret and Frederica Bradley. The invitations extended by the executive included honorary members, directors, patrons for 1933-38, subscribers to "L'Alliance Francaise, pupils of L'Union Musicale, a few old friends of Mrs. Bradley's and prominent leaders in musical circles. The elaborate arrangements, which were so efficiently carried out by those in charge, were made complete by Prof. A. S. Bourgeault, who personally conducted a large orchestra in honor of the occasion, their many delightful contributions greatly enhancing the pleasure of everyone. The reception was organized by the Union Musicale in honor of Mrs. Bradley, because she has been their first vice-president for twelve years, and also to mark the recent elevation of her husband as Mayor of Sherbrooke, in which high position she so charmingly acts as his consort.

JAPANESE TEA AND MUSICALE

Under the auspices of the Jr. C.W.L. Saturday, April 14th. St. Patrick's Church Hall, 4 to 7 p.m. Adm. 25c.

BOY SCOUT NEWS

ACTIVITIES OF FIRST MAGOG ROVER CREW. Magog, April 13.—Dr. John West gave an interesting and instructive talk on "Vitamins" at the First Magog Rover Crew, Byng of Vimy, den recently. The various classifications were ably explained, and at the conclusion of the address questions were answered by the speaker. A hearty vote of thanks, on behalf of the crew, was tendered to Dr. West by Rover Leader H. Travers.

Among recent activities of this Scout Crew was the last of a series of talks by Mr. Peake, his subject being "Birds and Their Habits." The speaker has made a deep study of birds and his addresses as a consequence, were not only interesting but instructive as well. At the close of his last talk, a collection of birds' eggs was shown and their shapes, colors and sizes described. The subject of birds has a special appeal to the Rovers and Mr. Peake was invited to address the crew again in the near future. He was extended a vote of thanks by the Rover leader.

Four members of the crew recently enjoyed a hike around Chertsey River under the leadership of W. Lilley, who gave instructions during the hike on "compass bearings." Observation notes were jotted down and rough sketch maps of the district "explored" have been made.

BIG RECEPTION ARRANGED FOR MONCTON SQUAD

Canadian Amateur Monarchs Homeward Bound After Successfully Defending Allan Cup—Rumors that Present Squad Would Be Broken Up Given Lukewarm Denial.

Montreal, April 13.—The Moncton Hawks passed here yesterday during their homeward flight. Monarchs of senior amateur hockey in Canada for the second successive year and newly-crowned North American champions, the Hawks left last night for Moncton where it is expected they will be accorded a tumultuous welcome.

Percy Nicklin, coach of the Allan Cup holders, has returned to his home in Fort Francis, and the team was in charge of Ambrose Wheeler.

Mr. Wheeler, when questioned about plans for next year, replied that Moncton most certainly will be represented in hockey again. Rumors that the present squad would be broken up by the clutching fingers of professional clubs were given a lukewarm denial. "I think we will have the same men next season," said Mr. Wheeler. Reports are that the Maroons will take Sammy McManus; that the Rangers are after Bert Connelly and Bill Gill, and that Len Burage is also said to be headed for a National Hockey League club.

The response, however, was emphatic when Nicklin's name was mentioned. He will lead Moncton's forces again for "We couldn't do without him. He's the daddy of them all," concluded Mr. Wheeler.

The Hawks survived the North American title series, in which they crushed Detroit White Stars, without a scratch and yesterday were celebrating their win. Great celebrations await them in Moncton. The Allan Cup was in the train with them when they left last night, and Frank C. Greenleaf, immediate past president of the C.A.H.A., accompanied the squad home and will officially make the presentation of the trophy in Moncton. Mr. Greenleaf was well known when the Hawks returned there last year with their first Allan Cup and he said he never saw anything like the reception accorded the champions. They were not only met by the provincial brass band, but by the fire bells as well. They piled the Hawks on top of the hook-and-ladder and paraded them through the streets in state. A similar welcome is anticipated this time.

U.S. DAVIS CUP HOPES REVOLVE ABOUT STOEFFEN

Sensational Singles Performances of Giant Californian Have Revived American Hopes of Defeating England This Summer.

New York, April 13.—Although the guiding tennis minds naturally are reluctant to admit it now for the obvious reason that their spring optimism of the past few years has proved so far premature, the fact is that the sensational singles performances of Lester Stoeffen, the giant Californian, has revived United States hopes of lifting the Davis Cup from England this summer.

The seriousness with which this prospect now is being regarded after experiencing a new "low" last year is indicated by the cautious step taken to keep Stoeffen from going stale. The Californian's withdrawal from the Pinehurst tournament, on telegraphed advice from Holcombe Ward, chairman of the Davis Cup committee, marks the beginning of organized measures. Stoeffen is the answer to what America needs for the Davis Cup challenge—a singles star who can perform with consistency. On the basis of his play so far this year, the blonde youngster is America's No. 1 singles performer now and fully equipped to fill the gap left by Ellsworth Vines. He looks to be more formidable than either Frank Shields, the top-ranking amateur of 1933, or Sidney B. Wood.

It is conceivable that Stoeffen may tip the scales, in favor of America by capturing at least one singles match. Should he win two in the inter-zone as well as challenge play at Wimbledon, the classic cup would be just about as good as on its way back home, for the Americans consider the doubles team of George Lott and Wilmer Allison a "cinch" to beat any foreign combination.

Wood has not devoted as much time as other American hopefuls to the preliminaries of the season but he cannot be counted out of the singles picture until the candidates are put through their paces at Philadelphia early in May. Wood may give Shields a real battle for the No. 2 singles position, although the latter now appears the logical choice as a running mate for Stoeffen.

CANADIANS ELIMINATED AT PINEHURST

Pinehurst, N.C., April 13.—Walter Martin, first-ranking Canadian star, was defeated in the North-South tennis tournament yesterday by Frank X. Shields, of New York. The scores were 6-3, 9-7, 6-0. Earlier Marcel Rainville, of Montreal, had been eliminated by Wilmer Allison, of Austin, Texas. Rainville, seeded No. 2 among foreign players was eliminated in the quarter finals by 6-0, 6-1, 6-4. George M. Lott, of Chicago, was

FORECHECKING GAVE CHICAGO WORLD'S TITLE

Revolutionary System Won Stanley Cup for Black Hawks, Tommy Gorman Divulged Yesterday—Believes Idea Will Be Generally Used Next Year.

Chicago, April 13.—Forechecking, a new development in professional hockey, won the Stanley Cup and world championship for Chicago, Tommy Gorman, manager of the victorious Black Hawks, explained yesterday before leaving for his Ottawa home. Gorman told about the system he believes will be generally used by National League teams next season.

The Hawks, he said, used a revolutionary idea for the last six weeks of the season and in downing the Montreal Canadiens, the Maroons and the Detroit Red Wings in the playoffs. Perhaps it explains why the Hawks had more shots on goal than their foes and yet played near-perfect defensive hockey.

"True, our backchecking was great," said Gorman, "but it was our forechecking that downed our rivals. About five weeks ago, just prior to playing the Rangers in New York, we conceived the idea of bottling up the opposing forwards—letting them out of their own zone.

"We studied and developed a system which consisted of the centre and wings going right down into their opponents' territory while our defence men moved over our own blue line. The Canadiens gave us more trouble than any of the other clubs because of the terrific speed of Morenz and the great stickhandling of Joliat and Gagnon.

"In Montreal, in the first game of our series against the Canadiens Johnny Gotsdiele scored the first goal for us in less than a minute when he dashed in and stole the puck off the goaltender's pads. We carried the play right to them and scored in forty seconds.

"In the third period when they expected us to lay back, having obtained a lead of one goal, we again gave the Maroons the works and scored in less than two minutes. When the Maroons returned here we had the opening goal in twenty-five seconds. Against Detroit we carried out the same system with equal success. We scored on them in twenty-eight seconds in last Sunday's battle here and would have made it three straight if Chick Gardner had been himself.

"Jack Adams was the first of the opposing managers to see through our new system. He tried to beat it by having the defencemen trap the puck and then whip it over to their forwards at the blue line. In Sunday's game it looked as though Jack had bewitched us, but our forwards kept on going in and the Red Wings could never get organized.

"The forechecking of the Black Hawks in Tuesday's game won the championship. Weiland, Lewis, Aurie and other Detroit forwards were completely baffled. Lewis became so disgusted on one occasion that he goaded the puck down the ice. Goodfellow followed in like a leech and kept poking the puck off his stick.

"It was necessary to change our attack every minute or so, but all three lines stood up wonderfully well. In each play-off series we steam-rolled our opponents and wore them down. Instead of backing out of the enemy zone, the Black Hawks kept charging in. The system worked much better than we expected.

"Here are examples of what our prowling forwards did in close: Thompson's winning goal in the first overtime game at Detroit was scored after Romnes had poked the puck off Teddy Graham's stick. In the instance of March's winning goal here, our defencemen moved up and refused to let Detroit get the puck out of their own territory.

"Conacher finally trapped it behind the Red Wings net and then March held it against the boards. Both Coulter and Conacher moved up and when Romnes drew the puck from Weiland, he had three men to pass to. Goodfellow was off at the time and March was uncovered. Then followed his winning shot.

Gorman, who built the Hawks into a championship outfit in one season, said he expected every club in the National Hockey League would employ some variation of forechecking next season. "They will have to," he said, "just as they had to follow suit when Major Fredric McLaughlin, owner of the Hawks, introduced his three forward lines four years ago."

OTTAWA DEFENCEMAN SUFFERING FROM BLOOD POISON

Belleveille, Ont., April 13.—Scotty Bowman, defence player of the Ottawa Senators in the National Hockey League, is in a hospital here suffering from blood poisoning in his right hand. Bowman cut his hand while visiting here and infection set in.

forced to extend himself to defeat Anthony Latona, of Washington, by 6-2, 6-4, 6-4.

Latona, only unseeded player to gain the round of sixteen, was leading by three to two in the final and deciding set when Lott put on full steam to win.

It took Bryan Grant, of Atlanta, two and a half hours to defeat J. J. Gilbert Hall, South Orange, N.J., by 6-3, 1-6, 1-4, 6-4, 6-4. Hall gave a brilliant exhibition of volleying throughout the forty-three games but Grant decided the match with his ability to keep the ball in play.

SPORTING NOTES

BRITISH HEAVYWEIGHT CHAMPION WON ON FOUL

London, April 13.—Len Harvey British Empire heavyweight champion, last night defeated Jimmy Tarante, 172-pounder, in a scheduled fifteen round bout when Tarante was disqualified in the fifth round for hitting low.

Harvey declined to weigh in as the match was a catchweight affair.

CANADIAN JUNIOR MONARCHS DEFEATED IN TORONTO SERIES

Toronto, April 13.—St. Michael's College Majors, monarchs of minor hockey in Canada, ruminated today upon the difference between the senior and junior hockey series and wondered if they had bitten off more than they could chew.

For fifty-eight minutes in their game with City Service seniors here last night the Irish centered blow for blow but the Servicemen shot the works in the final two minutes and St. Mike's reeled groggily off the ice under a six to three defeat. The teams had played a five-all tie in the first game for the city title. A victory in the third game on Saturday will give the Oilers the decision.

All the action was packed in the final eight minutes when the nine goals were scored. The initial session was dull and the crowd of little more than 5,000 were somewhat piqued at the display.

BASKETBALL

TWO IMPORTANT GAMES IN MONTREAL TONIGHT

Montreal, April 13.—Montreal basketball fans will have an opportunity tonight to see the second game of the Eastern Canada semi-finals and the first game of the Dominion junior championship series.

Assumption College, of Windsor, Ont., will clash with the Montreal Nationale in the senior event with the right to advance into the Eastern Canada final against Dalhousie University, of Halifax, at stake. The Broadview Young Men's Christian Association of Toronto will stack up against the Canadian Pacific Railway A.A.A. of Montreal in the junior game.

Assumption College must win to force the series to the full limit of three games. The Nationale won the first game on Wednesday by the score of twenty-nine to twenty-eight. The Glace Bay Macs, Maritime champions, having defaulted their series with the Montreal Nationale Pacific squad, Broadview and the railway team clash for the junior championship.

BASEBALL

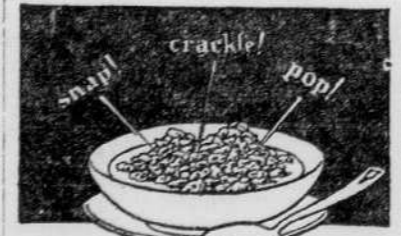

YESTERDAY'S EXHIBITION RESULTS

Montreal Royals 3, Rochester Red Wings 1. Albany Senators 8, Toronto Leafs 7, ten innings. New York Giants 6, Cleveland Indians 6, tie, eight innings. Pittsburgh Pirates 10, Chicago White Sox 4. St. Louis Cardinals 22, St. Louis Browns 9. New York Yankees 14, Charlotte 3. Boston Red Sox 8, Newark Bears 1. Baltimore Orioles 6, Philadelphia A's 5. FOUR HONORARY DEGREES AT MCGILL CONVOCATION

Doctorates of Law to Be Conferred Upon Three Distinguished Canadians and One Prominent New Yorker.

Montreal, April 13.—Three distinguished Canadians and a prominent New York consulting engineer, who was born in Montreal, will receive the honorary degree of Doctor of Laws from McGill University at the Convocation to be held next month, according to an announcement made by T. H. Matthews, registrar, following a meeting of the Corporation of the University.

Those who will be honored by McGill are: Frederick Mark Becket, president of the American Institute of Mining and Metallurgical Engineers of New York; Dr. Seraphin Boucher, director, department of health, City of Montreal; Robert H. Coats, Dominion Statistician and controller of the Census, Ottawa; and Lieut.-Col. the Hon. Hugh Edwin Munroe, M.D., Lieutenant-Governor of Saskatchewan.

The Convocation will take place on Tuesday, May 29th. No decision has been reached as to who will deliver the Convocation address.

For the first time in several years, E. W. Beatty, K.C., chancellor of McGill University, presided at yesterday's meeting of the corporation.

PROGRAMME FOR DOMINION DRAMA FESTIVAL DRAWN UP

Provides for Presentation of Three Plays, or Scenes from Plays, at Every Performance from Monday, April 23, to Saturday, April 28.

Ottawa, April 13.—The programme for the Dominion Drama Festival has been completed. It provides for the presentation of three plays, or scenes from plays, at every performance from Monday, April 23, to Saturday, April 28, inclusive, with the exception of the performance on Wednesday night. Wednesday night, April 25, will be "French night." That evening the four French entries in the competition for the Besborough Trophy will be presented. There will be no Wednesday matinee, but Saturday will wind up the festival with a matinee and night performance.

To the Central High School of Commerce, Toronto, will go the honor of opening the festival with the play "Minnie Field" by E. P. Conkie. At the same performance, on the night of Monday, April 23, the series with the Montreal Canadiens will give "Mansions" by J. Plummer. The Galt Collegiate Institute Staff Plays' Club will close Monday's performance with a presentation of Merrill Dennison's "Brothers in Arms," a Canadian play.

The final presentation of the Festival on Saturday night, April 28, will be "The Devil in Suits," which Toronto Masquers are giving. This play is by Ernest Goodwin.

ROOSEVELT RETURNS FROM FISHING TRIP TO BAHAMAS

Special Precautions Taken to Guard President During Visit to Miami, Scene of Former Assassination Attempt.

Miami, Fla., April 12.—President Roosevelt arrived in Miami harbor today at dawn aboard the yacht Normalah after a two weeks' fishing trip in the Bahamas.

The Normalah came into the dock here accompanied by the coast guard cutter Ellis. Arrangements were made for the President to remain aboard the Normalah until shortly before time for departure on his train for Washington.

A heavy escort of motorcycle police will accompany the Presidential party from the yacht to the train.

It was at this port he was the target of the assassin, Zangara last year.

Anton Cermak, mayor of Chicago, was fatally wounded by the killer's shot, Mr. Roosevelt, then President-elect, was untouched.

NEWS RECORDS SEVERAL DEATHS

The following deaths were recorded in today's news despatches:

North Sydney, N.S.—Albert H. Andrews, 84, former Raid veteran, Trenton, Ont.—Thomas Albert

O'Rourke, 81, magistrate of Trenton for thirty-two years.

Toronto—Melvin J. Hutchison, general advertising director of the Hugh C. Maclean publications.

Kingston—William J. Vince, prominent painter and interior decorator.
