Germans Foiled In Attempt To Break Lines Of Allies Renewed Fierce Attacks in the Region of Arras

ENEMY ADVANCING IN FORCE IN SILICIA; GERMANY TO TAKE OFFENSIVE AGAINST RUSSIA; SERVIANS AND MONTENEGRINS GAIN VICTORIES

GERMANS FAILED IN ATTACKS.

Paris, Oct. 3.—(Special)—After having tried in vain recently, in the north of France, to break at Tracy-le-Mont and then at Roye the strong line of the Allies, the Germans have renewed their fierce attacks between the latter city and the region of Arras. Their latest efforts, in which they have been hurling their forces against the French and British in trying to gain a decisive victory, have had no better results.

JAPANESE BOAT SUNK.

Tokio, Oct. 3.—(Special)—An official announcement states that another Japanese mine-sweeping boat at Kiao Chau has been sunk after striking a mine. The casualties are given as four killed and nine wounded.

CHOLERA IN GERMANY.

London, Oct. 3.—(Special)—The North German Gazette admits the appearance of cholera in Germany as well as in Austria, says a Rome despatch to Reuter's Telegram Agency, but assures the public that the outbreak is well in hand.

GERMANS ON OFFENSIVE WITH RUSSIANS.

London, Oct. 3.—(Special)—No news could be more auspicious for the Russian plans, says the Petrograd correspondent of the Times, than the news now received that the enemy is advancing in force in Silicia. It was feared that, having entrenched in the line from Kalisz and Czenstochow, he would await an attack, but it is now expected that the main blow of the Germans will be directed towards the upper reaches of the Vistula.

NO CORRESPONDENTS WITH THE GERMANS.

London, Oct. 3.—(Special)—A Copenhagen despatch to the Central News says that the German general staff has announced that no correspondent, painter or photographer will be allowed in the future at the German frontier.

SERVIANS GAIN BRILLIANT VICTORY.

London, Oct. 3.—(Special)—The Nish (Serbia) correspondent of Reuter's has forwarded the following: "Serbian and Montenegrin troops, which are marching on Sarajevo, Bosnia, have left the line between Srebrenica, Jaborina and Homany, and after desperate attacks on the Igrichta and Karlieva positions have gained a brilliant victory and occupied Vafresentza. The enemy has bombarded Shabats (Serbia). It is estimated that they fired ten thousand shells, but the town was little damaged."

ATTACK CONCENTRATED ON LEFT WING.

London, Oct. 3.—(Special)—Commenting on the status of the battle in Northern France, the correspondent of the Times at Paris says: "The violence of the battle seems to be concentrated for the moment on the left wing, which has prolonged itself to a point within thirty or forty miles of the Belgian border south of Arras. Through this line the Germans have attempted to break with the object of cutting our lines."

STRENGTHEN RHINE FORTS

SPECIAL ACTIVITY IN THIS DIRECTION IS NOTICEABLE AT COLOGNE.

London, October 3.—(Special)—Travelers arriving at The Hague confirm reports that all the German strongholds along the Rhine are being prepared for attack. Especial activity in this direction is noticeable at Cologne.

London military experts explain the Antwerp bombardment as a demonstration to hold the Belgian army to its base while the German withdrawal is proceeding.

ALLIES REPULSE ATTACKS.

Paris, Oct. 3.—(Special)—The official announcement issued this afternoon declares that the violent attack of the Germans at Roye has been repulsed by the Allies.

REINFORCEMENTS SAVED VON KLUCK.

Bordeaux, Oct. 3.—(Special)—Minister of War Millerand declared today that only the steady arrival of heavy reinforcements had averted disaster for the army of General Von Kluck and the entire right wing of the German army. He said that early in the week the forces of Gen. Von Kluck were in desperate straits and that part of them had been forced to withdraw from advanced positions to a point northeast of St. Quentin, by a raid of French cavalry. The minister said that general fighting continued about Roye.

DETACHMENT FALLS BACK

PROGRESS HAS BEEN MADE TO THE NORTH OF THE SOMME.

Paris, Oct. 3.—The following official communication was issued last night:

"First: On our left wing, one of our detachments which came out of Arras (a fortified town and capital of the Department of Pas-de-Calais) has fallen back a little toward the east and north of that city.

"North of the Somme we have made progress in front of Albert. Between Roye and Lassigny the enemy has directed violent attacks which have broken against our resistance. "Second: Quiet prevails along the rest of the front. It is reported that in the neighborhood of St. Mihiel (Department of Meuse, 20 miles southeast of Verdun), there remains no enemy on the left bank of the Meuse."

HARD FIGHTING BEFORE SUCCESS

REPORT THAT RESULT OF ALLIES' SUCCESS WAS PREMATURE.

London, Oct. 3.—The battle of the Aisne, as it is still called, although the armies contending in it have spread far beyond that river, has been in progress just three weeks now, and no decision has yet been reached. The reports coming from Paris earlier in the week that the results of the Allies' operations were about to be attained were premature and from all appearances there must be more hard fighting before either side gives way.

The hardest blows are being given and taken in the western area, where, according to yesterday's French official communication, an extremely violent battle continues, especially in the Roye district, where the Germans have concentrated considerable forces. The communication added that the action was extending more and more northward, and that the fighting front is now extended to the district south of Arras.

RUSSIANS NEAR CRACOW

BELIEVED TO HAVE ALREADY ENGAGED GEN. DANKL'S FORCE.

London, Oct. 3.—The Daily Chronicle's correspondent, writing from Petrograd on Thursday, says: "The Russian army that pursued General Dankl was, when the last reports were received, within eighteen miles of Cracow, and probably by this time is in close contact with General Dankl's force before Cracow. The famous old Polish city is strongly fortified and developments there are awaited with eager interest. The Russian Poles are exceedingly anxious that its splendid historical monuments and art treasures shall be

spared the horrors of a long bombardment and express the hope that the Galician Poles will see the folly of resisting on behalf of the lost Austrian cause and will bring about a speedy surrender.

"The other Austrian armies are practically hors de combat. The remnants of General Auffenburg's army have fled in wild disorder. "The Russian advance into Hungary threatens the German and Austrian army from the rear and is likely to have a demoralizing effect on the population in the interior."

KING OF GREECE

DEFIES KAISER

London, Oct. 3.—A despatch to the Express from Rome states that it is reported there that Emperor William of Germany has sent a telegram to the King of Greece warning him that if Greece enters into a war against Turkey, Germany will not guarantee the future existence of Greece.

King Constantine replied, the despatch declares, that if any of the Balkan States took up arms on either side Greece would declare for the Triple Entente.

GERMAN RIGHT

FLANK CRUMPLED

CENTRE ROUTED BY RUSSIANS IN SERIES OF ENGAGEMENTS

Washington, Oct. 3.—The Russian campaign on the north against the German armies that crossed from East Prussia into the Russian border province of Suwalki and Lonja appears to be developing as vigorously as the Russian southern campaign in Galicia against the Austrians, according to an important despatch received late last night by Colonel Goleaewski, military attache of the Russian Embassy here.

The despatch, which came from the Russian War Office at Petrograd, reported a series of distinct victories against the Germans. Their right flank has been badly crumpled and the Germans' centre routed, according to the announcement made by the attache.

TASK OF ARMY

NOT CHANGED

NO GROUND HAS BEEN LOST BUT SOME HAS BEEN GAINED

London, Oct. 3.—The official bureau issued a statement at midnight from the headquarters of the British expeditionary force under date of Sept. 29, concerning the movements of the British force and the French armies in immediate touch with it. The statement follows:

"The general situation as viewed on the map remains practically the same as that described in the last letter, and the task of the army has not changed. It is to maintain itself until there is a general resumption of the offensive.

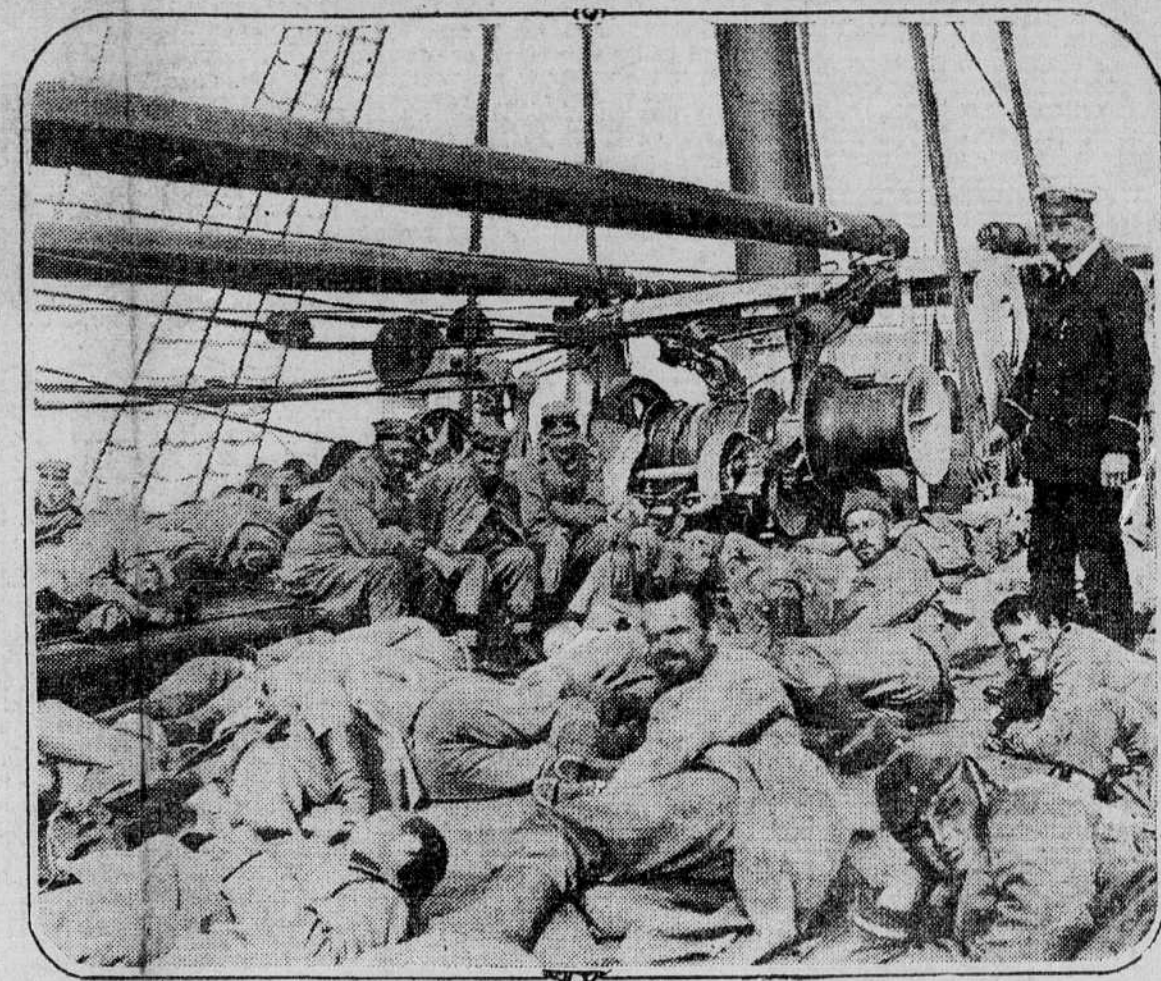

"No ground has been lost. Some has been gained, and every counter attack has been repulsed in certain cases with very severe losses to the enemy. "Nevertheless the question of position is only part of the battle and there has been considerable improvement in the situation in another important respect. Recent offensive efforts of the enemy have been made without cohesion, his assaults being delivered by comparatively small bodies acting without co-operation with those on either side. Some of them, indeed, evince clear signs of inferior leadership, this bearing out statements made by prisoners as to great losses in officers suffered by the enemy."

SENGALESE STRANGLE GERMAN MANS IN HOSPITAL

Paris, Oct. 3.—The French Red Cross has found it necessary to place special guards in hospitals where both Germans and soldiers of the allied army are being treated, as wounded Senegalese require constant watching night and day. The blacks were found to creep from their cots whenever they get an opportunity and strangle wounded Germans. A number of Germans have been found strangled in the morning.

MANY NAMES IN CASUALTY LIST

Official Mention is Made of Wounding of Youngest Son of the Kaiser

FIFTH SON OF EMPEROR HAD HEART FAILURE WHEN ATTACKED BY FRENCH AND TURCOS.

Berlin, Oct. 2, via London, Oct. 3.—(Special)—Major-General Freiherr Von Der Horst, commander of the 20th infantry brigade, was killed while leading his troops on September 28, according to an official announcement made to-night. He had previously received an iron cross for his work in the field. To-day's casualty list contains about 9,600 names and includes a mention of the wounding of Prince Joachim, the youngest son of the Emperor, at Schatzels, East Prussia.

PRINCE OSCAR HAD HEART FAILURE.

The Canadian Press correspondent learned at Metz from the adjutant of Prince Oscar, the fifth son of the Emperor, that the Prince on September 24 led his regiment at Verdun in a most desperate battle. The French, including Turco sharpshooters in trees, picked off the officers, of whom so many were lost that the companies were led by sergeants. During the hottest part of the fighting Prince Oscar headed the column and got so excited that he collapsed with acute heart cramp, brought on partly by several days' exertion prior to this fighting. The physicians ordered him to Metz, where he is now rapidly recovering.

GERMAN WOMEN GAVE VALUABLES

Rome, Oct. 3.—(Special)—A meeting of the Germans was held here yesterday to collect funds for a war present to the Fatherland. The women in attendance gave all the valuables they possessed, and a chambermaid insisted on giving a bank book calling for 3,000 lire (about \$600), though she was urged to keep part of it. The German women here have sent to Germany three carloads of bandages for the wounded, made from their household linen.

SHERBROOKE CAMPAIGN

Patriotic Fund Collections On October 14, 15, 16

ENTHUSIASTIC MEETING YESTERDAY—CAPTAINS OF TEAMS ARE CHOSEN

A number of citizens were called together informally yesterday afternoon to get down to business in connection with the whirlwind campaign for the Patriotic Fund. It was not a long meeting, it was not a demonstrative meeting, no lively speeches were uttered, but there was more solid and practical progress made than has yet been accomplished at many longer and larger meetings. Col. Fraser was made chairman of the campaign and Mr. J.K. Edwards agreed to manage it with him. OCTOBER 14, 15, AND 16, THE DATES

The dates of the campaign were first decided upon. As there is a good deal of preliminary work to be done in connection with preparing lists and completing teams it was not felt that the campaign should be opened before Wednesday the 14th, instant.

CAPTAINS CHOSEN

It was decided to have seven teams of seven men each and a captain. Messrs. J.K. Edwards, J.S. Mitchell, J.O.C. Mignault, W.R. Webster, J. H. Walsh, W. Lacroix, and O. Morissette were chosen as captains. The last two feared they would not be able to act, but promised to find men who, in their estimation, would do better work. The captains were very enthusiastic and the friendly competition already displayed in choosing men for their teams promises to swell into an enthusiasm which will make a big success of the campaign.

The Relief Committee of the Patriotic Association made considerable headway at their meeting last Wednesday afternoon. Relief forms have been completed for over 200 dependents in Sherbrooke, and the matter of outside cases is being closely followed up. Every case in the North ward has been reported and investigated, and by next week all the other wards will have been covered. Two members of the clergy were present at the meeting and took an active part in the discussion making some very practical suggestions. As soon as all the cases have been investigated a formal requisition will be made and cheques will be forwarded to the respective dependents. All those dependents who require special immediate assistance, or who have any questions to ask regarding relief should apply to Mr. J.J. Fitzgerald, at the Board of Trade Office, in the Record Block, or to any of the following ladies: Mrs. W.E. Patton, Mrs. F. Bertrand, Mrs. J. H. Walsh, Miss McWilliams and Mrs. G. Mackinnon, who are the conveners of the different wards

THE WEATHER

Light winds; fine and moderately warm.

SO WELL THEY MIGHT.

Berlin, Oct. 3.—(Special)—A campaign was inaugurated here to-day against the use of Scotch whisky and French liquors.

W. BLUE & CO., LTD.

Mr. H. D. Lawrence appeared in support of the appeal of Walter Blue & Co., Ltd., against a total valuation on factory, cottage and plant of \$21,000. He stated that this was low lying property and was only suitable for a factory. The building which was valued at \$26,000, only cost \$12,000 to build with another \$1,000 for the land it stood on. He considered the fair value of the properties and plant was \$20,000. The firm employed 250 hands and paid no dividend. Mr. J. H. Blue corroborated. Ald. Ewing understood it was the intention of the Council to encourage manufacturers as much as possible. (Continued on Page 8)

VALUATIONS WERE REDUCED

City Council Dealt With Seventy Protests Last Evening

VALUATION OF WALTER BLUE & CO.'S PROPERTY WILL BE CONSIDERED LATER.

Seventy valuation protests were considered at the Council meeting last night. The attendance of citizens was only about one-fourth of that of Wednesday and only about a dozen objections were supported in person.

The following reductions were made: Brodeur, J.A., \$4,000, reduced to \$3,500; Ballantyne, W., \$3,500, reduced to \$2,800; Boucher, L. H., \$3,500, corrected to \$2,500; Brulotte Louis, \$8,000, reduced to \$2,000 (error admitted by valuator.); Duncan property, \$23,700, reduced to \$18,000; Bailey, Wm., \$3,000, reduced to \$2,500; Bonnaille, Mrs. W., \$3,800, reduced to \$3,500; Berwick, A. E., \$3,000, reduced to \$2,500; Codere, Fils & Co., \$47,500, reduced to \$42,500 (error admitted by valuator.); Church, W. J., \$3,200, reduced to \$2,500.

HATLEY

Mr. Percy Austin, a Harvard student, who has been spending the summer here at the home of Mr. and Mrs. A.E. Hodges, where he has been studying Canadian farm life and its conditions, has left for Boston and New York, en route to his home in Santa Barbara, Cal.

Miss Perkins, Miss Hartwell, Mr. Gordon White, and Mr. Bradley Hartwell, the week-end at home of Mr. and Mrs. N.E. Egan, Boynton; Mr. McDougall, to Montreal, after a short visit with his family at the Falls; Miss Lizzie Inroy, of West Compton, at the McDonald home; Miss Carr, who has been the summer at Brookban, with her sister, Mrs. T.D. Hunter, is at North Hatley, for a short stay, before returning to her home in Boston, Mass.

As Mr. Fritz Webster, son of the proprietor of the Hatley House, was driving on the Barnston road, near the Currier place, some part of the wagon broke. The young horse became frightened and began running. Mr. Webster held to the reins until he was drawn over the dasher. The colt ran as far as the home of Mr. Albert Bowen. Mr. Webster escaped serious injury, and was able to follow in pursuit of the runaway, and the harness broken.

It is only upon very rare occasions now-a-days, that one sees a yoke of oxen being used as a means of transport. As a consequence, whenever the fine, slick pair, belonging to Mr. Taylor Little, of Highland Farm are driven into the village, they attract no small amount of attention and admiration.

The second public meeting of the Young People's Christian Endeavor Society, was held in the vestry of the Methodist Church on Wednesday evening, September 30th. There was a good attendance and the business in order before the meeting was duly proceeded with. The election of officers took place and resulted in the following being appointed for the ensuing year: Rev. E. Williams, President; Miss Nellie Emery, Vice-President; Mrs. Alice Glidden, Treasurer, and Miss Maude Gage, organist. The meetings will be held each Wednesday evening, every fourth Wednesday.

The regular weekly meeting of the Patriotic Society was held on Friday afternoon in the Guild Hall.

Mrs. G. C. Poole accompanied by her daughter, Miss Edna Poole, drove to Boynton on Friday, where she will remain for a few days with her

given Mrs. Moulton, on Wednesday afternoon. A very pleasant and enjoyable social time was spent and many useful articles including quilts, pillows, table linen, towels, china, glass and many other necessary adjuncts to a home were left as a silent reminder of the occasion. At the close of the afternoon, a basket tea was served by the ladies of the Aid, and others.

Mrs. Nichol, and Mrs. Robertson, at Compton and Waterville on Tuesday; Mrs. Buck, of Ayer's Cliff, who has been several weeks at the home of her daughter, Mrs. W. Hodges, has reopened her home, Comfort Cottage, on Maple Avenue for a few weeks; Mr. and Mrs. C.A. Hodges, from their honeymoon trip, and are staying for the present, with Mr. and Mrs. A.E. Hodges. They will take possession the first of October of the house on the H.F. Webster farm; Miss Beulah Niblock, of Foxboro, Mass., and Miss Mildred Sanborn, of Boston, Massachusetts, visitors at the home of Mr. L. F. Emery, and his daughter, Miss Nellie Emery; Mr. and Mrs. J.H. Halnes at home after a stay of two or three months at their summer home, Cedar Cliff Cottage, Lake Massawippi.

Master John Faquet, of Old Fort Bay, Labrador, arrived on Monday morning, at "Meadow Brook Dairy Farm," the home of Mr. and Mrs. W. Hopkins, where he expects to remain for next year or two. Master Faquet left his northern home in a sailing vessel the last of August, reaching Quebec on Saturday morning, Sept. 26th, having been a month on the way. Master Faquet will attend the Hatley High School during the year, where he is no stranger, as he was a pupil in 1912-13, while stopping at the home of Mr. and Mrs. H. Corey, having accompanied their son, Rev. H. H. Corey, when he returned from his missionary labors upon the Labrador coast.

The weekly Thursday evening prayer service has been resumed at the Methodist Church, the first meeting having been held in the vestry of the Church on Thursday evening.

On account of the annual Thanksgiving service at St. James Church being held on Thursday evening, Sept. 24th, the last Thursday in the month the I.O.F. postponed their regular monthly meeting until Thursday evening, Oct. 1st, when it was held as usual in the lodge room over the Foresters' Hall.

Miss Ethel Perkins who has been in this place for the past seven months at the home of her cousin, Mrs. I. Leavitt, left on Tuesday, going at once to visit her brother at Valcartier Camp, thence to Montreal for a short stay before leaving for Pennsylvania, where she received her professional training.

Mr. Whitcomb, of "The Butter-nuts," is in receipt of a letter from the family of his brother, the late Venas (Yed) Whitcomb, who lives in the midst of Ohio's grape vineyards, which states that this fruit is now selling at the rate of \$32 per ton.

The regular weekly meeting of the Patriotic Society was held on Friday afternoon in the Guild Hall.

Mrs. G. C. Poole accompanied by her daughter, Miss Edna Poole, drove to Boynton on Friday, where she will remain for a few days with her

sister, Mrs. O. L. Hills, who has been ill for some time; Miss G. Pope, of the Academy staff, Waterville, the week-end at her home, "Keewayden Farm."

Miss Winnie Oliver, of Hatley Centre, is in charge of the old Church school, a short distance north of this place.

Mrs. M. Ayer and her daughter, Mrs. Wm. Hodges at Waterville on Wednesday.

MARTINVILLE

Recent visitors include the following: Mr. and Mrs. P. A. Griffin and daughter, of Brownville, Vt., and Mr. and Mrs. C. F. Haseltine, of Johnsonville, recent guests of Mr. and Mrs. Earl Griffin; Mr. George Brown of Coos, N.H., guest of his son, Mr. A. Brown; Mrs. J. W. Bridgette, of Sawyerville, with her daughter, Mrs. Irving Cass; Masters Clifford Merrill and Clayton Robinson, of North Hatley, at Mr. G. Goudie's on Saturday and Sunday.

Departures: Mrs. D. Parsons back to Compton after the fortnight at home; Mr. J. J. Parsons and family have moved to the village and are domiciled for the winter in the house formerly owned by Mr. C. N. Cass.

Miss Pearl Martin entertained her friends at a "corn roast" on Tuesday evening of this week. All reported a very nice time.

Mrs. George Sharman of Moe's River is visiting Miss Lila Merrill for a few days.

Preparations are going forward rapidly for the Harvest Home. Supper to be given on Tuesday evening, October 6th in the school room of the church and followed by a good programme of music and speeches.

EAST ANGUS

On Tuesday evening, October 6, the Ladies' Aid of the Methodist Church will have their annual Thanksgiving supper, sale of fancy work and useful articles, in Cooper's Hall, followed by an entertainment.

Arrivals and departures: Mrs. Walter Arnott and daughter, of La Tuque, and Miss Myrna Steele, of Ottawa, who have been guests of Mrs. E. A. Gorham and also visiting other relatives and friends in town, left on Monday to return to their homes; Miss Emma Jones to St. Johnsbury, Vt., on Wednesday, and was accompanied as far as Sherbrooke by her aunt, Mrs. Walter Cameron; Mrs. S. T. Arnott and children, a few weeks in Cookshire with her father, Mr. Albert Pope, Mrs. La Marrie, of Biddford, Me., visiting her sister, Mrs. Isaac De Blois; Mrs. Chas. Woman, Her Interests And Her Work

[Edited by Mrs M. E. McCurdy]

AN EXPLANATION

In accordance with the kind permission granted to the women of Sherbrooke County by the publishers of the Daily Record, to edit a page each week in their valuable paper, for several weeks, we shall avail ourselves of the opportunity by handling our subject under the general title of "Woman, Her Interests and Her Work." We shall endeavor to show the many handicaps under which she labors, even under the most favorable circumstances known, and in the most civilized countries in the world, handicaps which are in most cases the result of traditional prejudice. And while comparing conditions in other countries, we shall also treat of our subject in a manner distinctly Canadian.

Among the elements which hinder the development of women, and through her, the development of humanity in general, we shall give prominence to the fact that, though she forms one-half the adult population of our country, yet she has no representation at the polls; and, consequently, no representation in the legislative bodies, while, at the same time, she must conform to the same laws as her brother, man, in whose hands the entire law-making interests are vested. This condition of affairs unavoidably gives rise to many abuses, and great injustice is often the result.

We shall undertake to prove that women granted the power would speedily sweep away many of the legal evils of the land; that she would use her power and influence to prevent immorality; to further education; to equalize matters in the commercial world; to prevent child-labor; in short, to protect the home, which is, after all, the mainspring of woman's desire for a more speedy recognition in the world about her.

We shall further show that, despite her obstacles, woman has filled a very important page in the world's history; that, by her intelligence, courage and truth, she has played no mean part on the world's great stage; that, by what she has been able to do in the past, she has honestly earned the right to be allowed to show what more she can do in the future.

The ideals set forth above will be largely the subject matter of this page from week to week. If we succeed in educating our sisterhood in new ideas as to the largeness of life, the dignity of work, the responsibility of existence, and the necessity of action, we shall have succeeded in our effort.

To our gentlemen readers, and we hope we will have many such, we have only to say that we have no desire whatever to wrest from them even the least of their privileges, but we have a most honest desire to help them in the great work for humanity which every true man longs to do, and which can only be done effectively when all the component parts of the human machinery of the world are put in motion.

M. E. McCURDY (Ed. Woman's Page).

PERSONAL RESPONSIBILITY AND THE LIQUOR TRAFFIC

Directly we hear the title of this short paper, the question suggests itself to our minds: "Am I my brother's keeper?" and the answer comes back, "You are!"

Now, I have no doubt that the majority of my readers will resent this statement and say: "I am not responsible, I neither take intoxicating liquors myself nor do I give them to others." In that case either the answer is wrong, or we are mistaken in our conclusions respecting ourselves.

Since the world was created, or since we have any knowledge of the existence of man upon the earth, there have been different grades of Society. The rich and the poor, the servant and the master, the freeman and the slave. Now as the aristocracy is a complex. We have the aristocracy of family, of intellect and of money, and the rank and file of labour and idlers.

The question of responsibility is an old one dating back to the earliest ages of the world's history. We will consider, first, that pertaining to the possession of property. In the older countries of Europe we have landed proprietors whose ancestors at one time were feudal chiefs, "under promise to fight for king and country and many of whom acquired their land as payment for military service. Now are they responsible for the liquor traffic? In many ways. As most of these men occupy seats in one or other of the parliaments, and take their parts in making the laws of the country, it is to them we look for good prohibitory or license laws.

Secondly the intellectual leaders of the age have the power of the pen or spoken word. They have opportunities for research and experiment denied to less favored individuals. It is their privilege to help on the educational work of the temperance crusade, which is, and will be, one of the most powerful agents in the world for sober men and women. Thirdly, we all know the power of wealth. Those who possess it, and wish to use it might have almost unlimited opportunities of fighting the evils of this traffic. The heads of most of the large labour corporations have realized that in order to secure efficient work a man requires a clear brain and that they cannot depend for safety and efficiency upon men addicted to the use of intoxicants, therefore they make strict rules against their use, either on or off duty.

If these industrial leaders are to win the respect of their employees it will be by living pure, temperate lives. Men will usually do anything to make money or improve their position and look up to and copy those who have done such things themselves. Therefore the master who stands

on the side of temperance is acknowledging his responsibility. In the labour world of today with its race for wealth we find men who are doing their utmost to raise their employes. Take for instance the village of Bourneville near Birmingham, England, built and managed by Messrs. Cadbury, also the settlement near New York belonging to Messrs. Rowntree, of that city, another come and time to study improved housing conditions and the working of model villages.

Nearly every one has heard or read of Port Sunlight, near Liverpool, controlled by Messrs. Lever Bros. of Sunlight Soap fame, with its comfortable homes, amidst healthy surroundings, good schools, technical classes, recreative clubs for men and women and other religious and social advantages which tend to elevate the employes of this enterprising firm.

People will say what has this to do with the liquor traffic? We answer, a very great deal. Temptation is removed, and with good environments, mentally as well as physically, the craving for the pleasures of the bar-room is lessened, and in the majority of cases overcome altogether.

The clergy of all denominations have a heavy burden of responsibility in connection with the liquor traffic. It is their duty by preaching and practice to stand out boldly for temperance and influence their congregations thereby making the Church a power for good in the community.

The sentiment of the Medical profession upon the use of intoxicants has changed considerably during the last twenty years. Now, many of the most prominent members of the profession maintain that "Alcohol is a poison even when used in small quantities" and should be treated as such. They prescribe it less frequently both in hospital and private practice, and are endeavoring to have the subject of hygiene particularly with reference to the injurious effects of alcohol and narcotics taught in the public schools. They know too well the danger of prescribing a dangerous medicine, which is often continued long after the need for it has ceased.

Let us now turn to the army and navy and call to mind the work of Miss Robinson and Miss Weston, two devoted women who have given their lives to the work of benefiting the men of both services by establishing homes for soldiers and sailors when off duty, with club rooms, reading rooms and restaurants entirely without intoxicating liquors. They also send annually hundreds of manly thousands of letters to men on foreign stations. We cannot all work as do these two women but by our prayers and financial assistance we can help to lighten their burdens. In both the army and navy there are flourishing temperance societies and one only has to compare the behaviour of our navy men when enjoying a holiday now with what it once was to notice a marked improvement.

Now we come nearer home and consider the responsibility resting upon the teacher. Childhood is the most impressionable period of life, and we all know how a teacher influences the young mind. "Teachers' opinion or theory generally takes precedence of the parents' and there are so many ways in which lessons of temperance and morality can be taught. Recently text-books on Hygiene showing the injurious action of alcohol and narcotics upon the human system have been prepared for school use but until the subject is made compulsory we have to depend upon the teacher, whether they will be used or not.

Now about ourselves as citizens. Are we accepting of shirking our responsibility? Are we as municipal and parliamentary electors voting for men upon our City Councils and for Parliament, who are decidedly on the side of temperance? Are we working for the abolition of the bar from our cities or our Province?

Are we putting forth every effort in our power to improve the houses and conditions in our own immediate neighborhood?

As Church members are we working for temperance teaching in our Sunday Schools and Young People's Societies, also to organize temperance Societies amongst the adults. One important matter which requires the earnest consideration of our Church members is the use of fermented wine at the Holy Communion. As heads of families are we setting the example to our households by abstaining ourselves and forbidding the use of alcoholic beverages at our tables?

Lastly, as simple men and women, let us accept our responsibility and endeavour to influence everyone with whom we come in contact.

The world is composed of units, each having its place and work. Governments are powerless to pass laws in opposition to the will of the people.

It is easy to say the Government should do this or that, but we must remember that the people control the Government, and we are one of the people, therefore let us as the boy said "Pull our pound" in the right direction and pray for God's blessing upon the efforts of men and women everywhere who are working for the suppression of the liquor traffic.

Henri Beaudry, of the Bishop's Palace, was conducted to the church, which was as well filled as at the Sunday services.

After offering up a prayer, an address was made by Mr. L. C. Belanger. Mr. Belanger congratulated the Rev. Father St. Jean on his safe return,

BOARD OF TRADE ACTIVITIES

The New Federal Act to Amend Inspection and Sale Act

NOW OPPORTUNE TIME FOR AMERICAN INDUSTRIES TO PLAN CANADIAN PLANTS

There has just come to hand at the Board of Trade office from the Department of Trade and Commerce at Ottawa, a copy of "An Act to amend the Inspection and Sale Act." This Act comes into force on January 1st, 1915, and establishes important new laws for the whole of Canada, respecting flour, meal, rolled oats, rolled wheat, feed and vegetables. WEIGHT MUST BE MADE.

One of the important features in connection with the new Act is that the contents of any bag, sack or package of any of the cereal products mentioned must be stated thereon and uniform weights per bushel or per bag, for vegetables, throughout the whole of Canada will be definitely established. All those interested in the Act and the Amendment can get further particulars by applying to the secretary of the Board of Trade, or copies may be had by applying to the Department of Trade and Commerce at Ottawa. APPEAL FOR NEW INDUSTRIES

The Sherbrooke Board of Trade is endeavoring to convince a large number of American concerns with which it has had correspondence that now is the opportune time for them to come to Canada.

The following is the copy of a letter which is now being sent out in this connection:

Gentlemen:—
Boston, Mass.
Dewy was the Morning
Dewy was the Day
Dewy was the Admiral
Down in Manila Bay.
Dewy were the Regent's eyes,
Those Orbs of Royal Blue.
Do we feel Discouraged?
I Do not think we do.

Some optimistic American produced the above jingle some years ago when you were engaged in your war with Spain. While not a classic, it reflected the confidence and courage of the American people at that time. Canada, as a part of the British Empire, is directly concerned in the European conflict now raging. The Canadian people, however have adopted "BUSINESS AS USUAL" as their motto believing it to be their patriotic duty to keep things humming. Many industries are working overtime. Agriculture was never so prosperous before.

There is also a determined and wide spread movement to buy "MADE IN CANADA" goods.

Many American concerns, with plants on this side of the line, will reap in full measure the benefit of this movement.

We believe that now is the opportune time for American concerns to now manufacturing in Canada, to take active steps in this connection.

There is no more favorable location in Canada for your factory than the City of SHERBROOKE.

Please consider the Sherbrooke Board of Trade entirely at your service.

Yours truly,
JOHN T. FITZGERALD,
Secretary, Sherbrooke Board of Trade.

and spoke of the anxiety of his parishioners at his long absence and silence and their joy when they received the welcome news that he was in London and was about to sail for home.

Benediction of the Blessed Sacrament closed the ceremony, and later the esteemed priest was presented with a well filled purse by little Miss Blandine Fontaine, and with bouquets by Misses Marie Anne Giard and J. Charost.

Among those present at the reception were Mr. Chas. Kenrick, of "Hillside Grange," and members of his family.

In speaking of his experiences, Father St. Jean said that he and his companion were at Dresden when war was declared. They managed to get to Belgium, and there at Verviers, they remained six weeks, virtually prisoners of war, though not in prison. They heard the thunder of the cannon, saw thousands of Belgian and German troops, witnessed the destruction of villages, but no actual battle. Europe is shaken to its centre by the terrible war.

LENNOXVILLE PATRIOTIC ASSOCIATION

A meeting of the Lennoxville Patriotic Association was held in the Village library on Thursday.

The Association is now a branch of the Canadian Patriotic fund and all moneys collected, deducting \$300, which was sent to the hospital ship, will be deposited to the credit of the Canadian Patriotic Fund, and expenditures on behalf of English and French reservists and Canadian volunteers will be regulated in accordance with instructions from headquarters. The amount collected to date will be published next week.

The names of the officers of the Executive Committee of the Association are, President, Mrs. Aylmer; First Vice-President, Mrs. Arthur Ward; Second Vice-President, Madam Martin; Secretary, Mrs. R. C. McFadden; Treasurer, Mrs. Lucke. The following ladies have been appointed a committee with power to add to their number: Mrs. Aylmer, Mrs. Ward, Mrs. Lucke, Madam Martin, Madam J. Severyn, Mrs. R. C. McFadden, Mrs. Winder, Mrs. Scarth, Miss Parker, Mrs. Spied, Mrs. W.H. Abbott, Mrs. Wright, Mrs. Orr, Mrs. Geo. WORK FOR ALL

If the men and women of Canada will buy nothing but "Canadian-Made" Goods from now to January First, every workman in Canada will be employed and the country will enjoy a period of prosperity hitherto undreamed of.

Canadian manufacturers are doing their duty under present stress in endeavoring to keep plants running and men employed regardless of profits.

Good Canadians will show enlightened patriotism, as well as sound business common sense, by buying only "Made in Canada" goods, thus building up their own prosperity and looking after those who remain at home.

And "Made in Canada" goods offer equal value with those made anywhere else in the world.

THE ONLOOKER COMMENTS

The Valuation.

The City Council is busy with its task of revising the valuation roll, and as far as can be learned, the petitions and resolutions of the Board of Trade and citizens' meeting have met with the usual fate of such documents.

Until the ratepayers learn the lesson that their power and only recourse lie in the ballot box, they have only themselves to kick if things don't go to please them at the City Hall.

Those Zeppelins.

Recent reports from another series of efforts to damage cities by dropping bombs make a bizarre list of accidents. Three Zeppelins, one flying over Paris, another over Warsaw, and another over several Belgian cities, and dropping bombs willy-nilly, succeeded in crippling a little child, killing a cow, and stumping other cows, damaging the roof of a hospital, injuring an old man, killing four men, and damaging several buildings. For this, three airships were risked, and one was destroyed and its crew captured.

The Belgian Refugees.

The visit of the deputation of Belgians to Canada brought home to Canadians the fact of the really deplorable condition to which that country has come. Only recently a prosperous and independent country, happy and inoffensive within its borders, its prominent citizens are now forced to give expression to its misery, and to ask aid for those who are thrown upon the world's charity through no fault of their own.

Thousands of Belgian refugees, some of them maimed and stricken, have been taken into English homes and cared for. Willingly help has been given, and spontaneously offered these victims of the war. Willingly in Canada have the citizens contributed supplies for the unfortunates of plucky little Belgium. But, whatever is offered or done for them, cannot in any degree make up for the national ruin that has come upon them. Bruised and stricken, with little remaining to them save a courageous national spirit, the Belgians have been sacrificed to that modern Moloch, the god of war, have been innocent victims in a purposeless explosion of competing "armaments."

Eastern Townships Stand The Test.

Year in and year out, this substantial section of country will hold its own with any other part of Canada.

There was a time when the tendency of our people was to move westward. The trek is now eastward, and if many of those who had settled in other parts were financially in a position to return, the old home movement would be much more apparent.

Even newcomers to this country, after travelling across the continent, show a tendency to regard the Eastern Townships as the best proposition of all.

The Eastern Townships Immigration Society had a striking instance of this a few days ago. John Moore, a sturdy Scotchman, who came to the Townships last spring, became a little restless later in the season, and in August started west. He went out on the harvest excursion at \$10, and in spite of the fact that the railway insisted on charging him \$20 to return, he determined to come back to the Eastern Townships, and arrived this week.

Mr. Moore agrees with the idea that a good many have held for some time, that the agricultural opportunities of the Eastern Townships are equal to any Canada has to offer.

The Church And The War

The attitude of the Church, its ministers and priests, towards the war in Europe and its causes has been interesting. In the United States, the neutral position of that country has brought forth critical statements and sermons, differing vitally in tone from those of the Canadian or English religious leaders. One man contends that Christianity undoubtedly has failed, but not because of any fault in Christianity, rather because humanity lags so slowly toward the ideals of Christendom. Christianity remains sure and lasting as the religious ideal of the world. The European war is a relapse, a breaking out of the savagery in man's nature. Others are pessimistic; still others cynical. Being not concerned in the strife, their feelings are unmixt with the patriotism that shades the discourses of our own preachers, and presumably those in every country directly concerned in the European conflagration.

Patriotism colors the thoughts, discourses and prayers of our Canadian preachers of all sects. The volunteers included ministers, and several of those who did not go boldly declared they would have gone if they could. Some high in church author-

ity have termed the war a righteous one. And a large body of assembled clergymen of one of our strong Canadian churches joined in prayer together recently that peace may come "after the Germans are conquered."

"After the Germans are conquered" is the reserved ending of all prayers for peace in this country. Not always do congregations boldly voice this feeling, as did the body of clergymen, but it is the mental reservation that will make peace impossible till England is victorious. With us, the temporary need of our country and the Empire overshadows or intermingles with a high desire for immediate peace. In a neutral country, the question of sustained or falling Christianity alone comes up for consideration. In our own, the flag that protects our churches is threatened. Wherefore we pray for peace "after the Germans are conquered."

"Business As Usual."

This expression is becoming a British Empire war-time slogan.

The suggestion of this motto came first from the London Daily Mail.

The London Spectator aptly remarks in this connection: "That is sound common-sense and true patriotism. There is not one of us who cannot without the slightest loss of health or happiness be 'speeded up' by some fifteen or twenty per cent. If we all—men, women and children—resolve to work harder and better than before, we shall very soon overtake the losses of war. They are superficial things, if the spirit survives."

The Toronto Star, from the Canadian point of view, observes that: "Nations fight, not with armies and navies alone, but with resources. The Allies are vastly superior to Germany in natural resources, but in order to be available sources of strength, these resources must be developed. As the 'Spectator' says, men, women and children must resolve to work harder and better than before."

"Business as Usual." We need business and more business, in order to provide the sinews of war, to arm, feed and clothe armies, and to provide for the families of those who fight.

"Business as Usual." Let that be our motto in Canada as well as in England and all over the British Empire. Yet not quite as usual. Let us feel that we are doing business with a purpose—not to accumulate money, but to add to the stock of useful things, useful in war as well as peace.

The Hospital Dedication.

The formal public announcement of the completion of the new Hospital building will be voiced at the dedication services at the Sherbrooke Hospital next Thursday. For many years the incoming and outgoing patients, the doctors and the nurses, have wished for better and more up-to-date accommodation. Inconvenience in arrangement, lack of elevators, and innumerable shortcomings, made the old building, as a hospital proper, very inadequate. Yet contributions came slowly, too slowly for any initiative move toward building, until very recent years. After overcoming many obstacles, however, after much patience and much patient labor, the friends of the hospital may now view with appreciative pride and pleasure, this new and satisfactory "house for the sick" in the community.

There are many people in Sherbrooke and in the Townships who have, by financial help and sympathy, made the dedication next week possible. Two or three, or more, names might be mentioned of persons prominently active in forwarding the interests of the hospital. To these, public praise has been and will continue to be given. But beside them are hundreds of others who must be known only as "the many friends of the hospital." From the latter have come small contributions, of money, or bed linen, or jellies, or preserves, or some homely but highly useful article for daily use. Week after week, during the past years of the hospital's usefulness, these "friends" have never forgotten the institution. Their names cannot be listed for individual praise. This society, that club, this man or that woman, has given and been thanked. Probably somewhere

If you are using an imitation and you don't believe that it is costing you more than the genuine Lea & Perrins, try this: Order a bottle of LEA & PERRINS. Eat one meal with the imitation—eat the next with Lea & Perrins. See how much you have been missing. The genuine goes further and gives more satisfaction. It does cost more to buy—but costs much less to use.

Tire Attacks

Which Goodyears are Best Fitted to Resist

The Fiercest Four

These are the four chief tire troubles:
Rim-Cuts Loose Treads
Blow-Outs Punctures

Note, for your own sake, how Goodyears meet them in ways exclusive to these tires.

Rim-cuts are impossible in Goodyear No-Rim-Cut tires. We control the way—the only feasible way—to prevent it.

Blow-outs—most of them—occur in weak spots, due to wrinkled fabric. We remove this cause by our "On-Air" cure, which no one else employs.

Loose treads are combated by a patent method, which creates in each tire hundreds of large rubber rivets.

Punctures and skidding are best met by our exclusive All-Weather tread. It is tough and double-thick. The grips are deep, sharp, resistless. Yet the tread—flat and regular—runs as smoothly as plain treads.

No tire ever built offers one of these features save the Goodyear No-Rim-Cut tire.

It's Up to You

These things mean safety, strength, endurance. They mean maximum mileage and minimum trouble.

Getting them depends on you, for any dealer will supply you Goodyear tires. And at less than usual tire prices because of our mammoth output.

Countless men do get them, and tell other men to get them. More men now buy Goodyears than buy any other tire.

Please remember these things when you next buy tires. Don't trust to luck. Don't think that tires are much alike.

And remember that Goodyear tires are made in Canada—at the Goodyear tire plant, Bowmanville, Ontario, where master standards and equipment mean the best, always.

The only way to save tire troubles is to buy tires that combat them.

Agriculture: Stock Raising: Farm Notes

LITTLE THINGS

More and more it is becoming evident that the study of the farm must commence and end with the study of the farmer. All of the material problems, such as the soil, the crops, the live stock, the machinery, lie in the centre. The farmer must be at both ends: in the beginning of thought, purpose, conception of what must be done, and at the ending of the matter in the way things are done. And so as the strong phrase goes: "It is the playing of both ends against the middle." No matter how good the soil, or the buildings, or the livestock, or the equipment; if the master spirit is not there, fit for the place at both ends, the farm is a failure.

There is an endless number of small details about a farm that must be comprehended and looked after with care and thoroughness, else failure comes. A big barrel with many small leaks is of no good. The size of it makes it all the more helpless. And so we would say that the true training of the farmer is in the development of his ability to look after the small details. A farmer was never yet a successful hog raiser that was not first of all a good pig raiser. And so it goes along the whole line of farm activities.

Right here lies the reason why women are often successful managers of a farm. A woman is trained from childhood in the care of a home, to keep a sharp eye on all the minor details that go to make up the whole of a well kept home. Women are better caretakers of children than men, and this ability extends to the rearing of calves, pigs, and poultry, and the maintenance of neatness, order, and cleanliness in farm affairs. A favorite saying with many of the farmers when their attention is called to these facts is: "O! I cannot afford to putter." They think that success will only come in a sort of slaphdash looking after the big things.

Real executive thoroughness and ability on the farm or in the factory consists in seeing that the work is done right down to the smallest detail. Right there is where destructive waste is stopped. Because of this lack of attention to small things occurs the tremendous wastage that marks American farming everywhere. Our schools of agriculture can do no greater service to their students than to indicate strongly the idea of thorough attention to the minor details of farm business. Once let that idea obtain mastery in a farmer's mind, it will take care of his future in everything. It will train and educate him toward success as nothing else will.—Hoard's Dairyman.

LETTERS TO THE EDITOR

FARMERS AND PATRIOTIC FUND. Mr. Editor—As there has not been a great rush of views to Mr. Lyster's suggestion of levying a special tax on the ratepayers for the Patriotic Fund, will you kindly allow me to express my views along this line.

Mr. Lyster must live a long way off if he is afraid of not being reached by one of the various collectors, for I am sure I have been met by four already, and I am sure every farmer in this town has had a chance to contribute all he wishes to give. Now would it be fair to compel a man to give more when he has given all he is able.

The war has been going on less than five months. Surely it has not caused starvation yet. If so what will it be in five years more. As some of our old military men predict it will take ten years to end the war.

I think the big cry is on too soon, but some times the baby cries worst when over fed, but Canada will feed the babies, never fear.

But it looks to me as if some big men were afraid the war would end before the farmers were well bled. Tell Mr. Lyster if he is not paying tax enough to come over and live in our town for a while and I am sure our Municipal Council will not overlook him.

Thanking you Mr. Editor for this and past favors,
I remain yours truly,
G. H. GREY,
Brookbury.

THE FEDERAL DEPARTMENT OF AGRICULTURE

The report of the Minister of Agriculture for the Dominion of Canada for the year ending March 31st, 1914, has been issued. In the opening section, of which there are five in addition to nineteen appendices, references are made to the legislation affecting the Department passed during the year. The Agricultural Gazette, the general assembly of the International Agricultural Institute, the International Meteorological Commission and other matters of general interest. This is followed by brief reviews of the many services carried on in the separate branches, including the Dairy and Cold Storage, Seed, Live Stock, Experimental Farms, Health of Animals, Patents of Invention, Copyrights, and Public Health.

This report, which is issued as Sessional Paper No. 15, is a volume of 119 pages. Copies are available at the Publication's Branch, Department of Agriculture, Ottawa.

CEREAL HARVEST OF 1914.

A cablegram received from the International Institute of Agriculture to-day gives the following estimates of the cereal harvest of 1914: Wheat—For the following countries the total production is estimated at 2,604,000,000 bushels, or 92.8 p.c. of last year's production: Hungary, Belgium, Denmark, Spain, Great Britain and Ireland, Italy, Luxemburg, Netherlands, Russia-in-Europe, Switzerland, Canada, United States, India, Japan, Algeria and Tunis.

Rye—For the following countries the total production is estimated, at 1,483,000,000 bushels or 98.1 p.c. of last year's production: Prussia, Hungary, Belgium, Denmark, Spain, Great Britain and Ireland, Luxemburg, Italy, Netherlands, Russia-in-Europe, Switzerland, Canada, and Algeria.

Barley—For the same countries as wheat, but omitting India, the production is forecasted at 1,071,000,000 bushels or 90.9 p.c. of the 1913 production. Oats—For the same countries as in the case of wheat, but omitting India and Japan, the production is forecasted at 2,616,000,000 bushels, or 87.7 p.c. of the 1913 production.

T. K. DOHERTY, Commissioner.

A POULTRY KILLING KNIFE

For killing poultry a special knife may be made, according to the following directions by H. C. Pierce of the United States Department of Agriculture. The knives in common use in bleeding and braining poultry are not suited to their purpose. The blades are too broad and too long, and the curve at the point should be on the back instead of on the cutting edge. The handle is so large that the killer is encouraged to use too much force in making the cut to bleed, whereas a light touch of the sharp knife properly directed is all that is needed to cut the blood vessels. The knives are also insanitary in that dirt collects at the junction of the blade and handle.

The knife which is to be used to bleed and brain poultry should be small, with a narrow blade, stiff, so that it does not bend; of the best steel, so that it can be kept sharp and is not nicked when used in one braining; and the handle and blade should be in one piece. Such a knife, with the aid of the packing-house emery wheel or grindstone and oil-stone, can be made from an 8-inch flat file.

To make this knife the handle of the file should first be ground off. Then the blade should be sharpened from the small end of the file. It should be two inches long, one-fourth inch wide, and one-eighth inch thick at the back. The curve to make the point should slope from the back downward. A blade of this shape reaches the blood vessels to be cut more surely than does a blade on which the point curves upward. After the blade is made the ridges on the file should be ground down, leaving just enough roughness to prevent the knife slipping in the hand of the killer. The length of the knife, over all, should be seven inches.—Farmers' Advocate.

English news agents have to get up earlier to satisfy their customers. A suburban dealer writes: "I used to deliver papers at eight o'clock and after without complaint, but now if the customers don't get their papers before seven o'clock there is a row."

There is evidence on every side that the public thirst for news, great as it was a month ago, has been hugely stimulated by victory. Though they rise far earlier to get the papers, they stay up late for the last editions. In little villages the arrival of the papers is the event of the day. Reading clubs have been formed to buy the news agents' stock and pass the journals on from one to another. A Sussex village news agent is so busy that he announces: "No time to give change; bring the exact amount."—London Mail.

CO-OPERATION IN ONTARIO

In his discussion of co-operation in the selling of farm produce at the joint meeting of the Wisconsin State Board of Agriculture and the Farmers' Course last winter, Mr. F. C. Hart, of Ontario said that they had started organizing the producers of Ontario in order that they may control the products of the farm till they get a little nearer the consumer. The farmer cannot be an expert in both production and distribution; he must hire his distributing expert, his business manager, and he can only do this through proper organization. In promoting this organization work in Ontario they found that for permanent success there should be a strong local organization, that not only the leaders but the membership should have the true co-operative idea. The speaker called attention to the following as being among the factors that make for success in co-operative organization: One man one vote; returns on business done through the association, not on capital; efficient business management; membership under control of the association. These were not always essential, but failure has resulted from their lack of one or more of them. There are now a large number of co-operative associations in the province, covering practically all of the various farm products—fruit, dairy products, poultry and eggs, pure seed, potatoes, etc. How these associations work, and what they have accomplished may, perhaps, be best illustrated by the speaker's description of a few of these associations.

Buy This Canadian Separator

No Trouble to Get Parts

During the continuation of the war, purchasers of cream separators should exercise great care in the selection of their machines. They should make certain that they can get quickly all parts of their machines, in case of accidents. And accidents will occur once and a while, you know—and generally at the most inconvenient times. European separator factories in the war zone are now closed up, and it will be impossible to get repair parts for their machines beyond the stock on hand in this country. But owners of Standard Cream Separators can get repair parts quickly. If our agent happens to be out of a part, he can get it for you immediately from the factory where a complete stock of repair parts are always on hand. A cream separator that stands idle is a dead loss to you. To avoid the possibility of such a contingency, let your choice be the Canadian-made Standard.

UNCLE JOE'S COLUMN

Dear People:—If you hate the Kaiser, keep right on smiling.

It's rather close to Thanksgiving for Turkey to do much strutting about.

What action is the Council going to take in the case of William Bell?

The fact that there is an opening for a Chief of Police may relieve the unfair pressure being exerted on City Treasurer Gatten by certain individuals.

Glancing over my family law book, I can't find any clause that would enable me to go into the city's employ, unasked, and successfully claim wages.

Everything is in readiness for the Patriotic Campaign. If "German" Berlin, Ont., contributes \$75,000, what will "Canadian" Sherbrooke give?

The war office declares that there is no truth in the report that Sam Hughes, Frank N. McCrea and Ned Tobin are out on a hunting trip together.

German officer to recruit: "What are you saluting that horse for, you fool Polacker?" Recruit: "Ain't it the Kaiser's horse?"

How long would the United States remain neutral if Ted Roosevelt were at the head of the government?

Do you expect an election this fall? Ald. Denault and Ald. Brault have pledged themselves to keep the rate of taxation at 12 1/2 mills. Perhaps the city could do this if certain aldermen did not force the city to pay for their trips to Quebec to fight against the measures which they were instructed to support...

We're ready for the "white papers" in connection with negotiations with E. C. Gatten, the Council and Ald. Brault re the latter's claim for an indemnity on behalf of his son "Henri."

Will some person please corroborate that statement of your correspondent who stated that there was something twenty-five years ago Wednesday.

How often did you tell your customers during the past week that business was dead and no person was buying? Some fool statement when you come to think it over.

When the collectors for the Patriotic Fund call on you, give them a hearty welcome. Cheer them eleg.

Have you seen to it that your name is on the voters' list?—Uncle Joe.

market is quiet and unchanged and last sales are reported at 90c to \$1.00.

Rye—Prices nominal at 80c to 85c. Malt—The market is quiet and unchanged with sales at 95c. New malt will be higher owing to the high price of barley.

Hops—English hops are now in the market good Kents being quoted at 25c to 26c, East Kents golden 31c to 32c; Fuggles 22c to 23c, delivered, Oregon, 18c to 19c f.o.b. coast.

There are very few Canadian hops this year, most of which have been sold at about 16c to 17c, and what few are left are held at 18c to 20c as to quality. The lots of B. C. sold at 23c to 25c as quoted by us at the time. Bohemian grown on the coast, 25c to 26c.

Wherefore the said Joseph Olive Beaudin will ask that aforesaid Superior Court of Records to set aside the said polling or voting held in the county of Stanstead on the 6th day of August last past as having been illegally and irregularly held, and said demand will be made in the ordinary form which is used before the said Superior Court of Records for the district of Saint Francis.

Any person who desires to oppose such proceedings may file an appearance in the said court, and if no person files such appearance the said Joseph Olive Beaudin will proceed to judgment before the said court ex-parte.

Dated at Coaticook, in the county of Stanstead, district of Saint Francis, on the 22nd of September, 1914.

J. O. Beaudin, voter, who is entitled to vote and did, in fact, vote in the county of Stanstead, in the district of Saint Francis, on the 6th day of August, 1914.

HONOR TO MGR CHALIFOUX

Has Been Appointed Auxiliary Bishop to Mgr. LaRocque For Sherbrooke

WORD RECEIVED THAT HIS HOLINESS POPE BENEDICT HAD SANCTIONED APPOINTMENT.

A cablegram was received by Mgr. Bruchesi, Archbishop of Montreal, from Mgr. LaRocque, Bishop of Sherbrooke, who is at present in Rome, announcing that His Holiness Pope Benedict XV. has been pleased to appoint Mgr. H. O. Chalifoux, V.G., of the diocese of Sherbrooke, Auxiliary Bishop to Mgr. LaRocque.

Mgr. Emile Roy, Vicar-General of Montreal, arrived at the Bishop's Palace in Sherbrooke last evening, to communicate officially the news of his appointment.

GENERAL ALDERSON WILL COMMAND CANADIANS.

London, Oct. 3.—Major-General E. A. H. Alderson, C.B., has been given command of the Canadian contingent on its arrival here.

Major-General Alderson, who is well known to several Canadians, is spoken of as one of the most popular officers in this country. He is 55 years of age, and has had active service in Egypt, Telex-Kebir and the Nile expedition, as well as in South Africa, where he commanded a Mounted Infantry Corps. Among his literary works may be mentioned: "With the Mounted Infantry and Mashonaland Field Force."

BELGIANS HOLD ROYAL PRISONER

Kaiser Threatened to Destroy Brussels if he Was Injured

KING ALBERT REPLIED THAT HE WOULD SHOOT DUKE WHEN DESTRUCTION STARTED.

New York, Oct. 3.—Letters from London received here last night clear up the identity of the mysterious prisoner mentioned in recent cables as held by the Belgians, to whom the other German prisoners pay extraordinary respect, such as would be accorded by them only to royalty. One statement was that the prisoner was Prince Adalbert, the third son of the Kaiser. The despatches from London identify the mysterious prisoner as the Duke of Mecklenburg-Schwerin. It is not known when the duke was captured, but the Kaiser has shown the keenest interest in his welfare.

According to statements from London, two letters of surpassing interest have recently passed between the Kaiser and King Albert of the Belgians. In his first letter the Kaiser in his own handwriting, informed the King of the Belgians that if a hair of the captured Duke of Mecklenburg-Schwerin were hurt, he, the Kaiser, would destroy Brussels.

The reply to this ultimatum was laconic, but to the point. King Albert, also in his own handwriting, assured the Emperor that immediately the forces of the Kaiser commenced their work of destruction he, King Albert, would shoot the Duke of Mecklenburg-Schwerin with his own hand.

FISH WAYS IN ST. FRANCIS RIVER

Board of Trade at Windsor Mills to Take Question up at Once

DEATH OF FISH IN RIVER DUE TO NON-COMPLIANCE WITH REGULATIONS REGARDING DAMS

Windsor Mills, Oct. 3.—(Special)—The regular monthly meeting of Board of Trade was held in the Board room, Mr. J. Pender, the President, in the chair, Mr. Nourse, the Sec.-Treasurer read the minutes of the last meeting, which were approved as read. There were no applications for membership, or reports from Committees.

Mr. J.R. Hebert, asked the Board to call the attention of the Council to the dangerous state of fences on road leading to G.T.R. station and the highway.

The Secretary was instructed to write to the Council.

At the last meeting of the Board Mr. Millette gave notice that he should move a resolution that the bye-law with regard to annual subscription for two dollars be reduced to one dollar. He thought that it would induce many to become members.

Mr. N. Knapp seconded the motion which was passed unanimously.

Mr. Millette and Mr. Brazner, were appointed to collect the annual subscriptions now due.

Mr. Pender said that the Directors of the Telephone Company had been in town and conferred with members of the Council and the Board and promised to remove several of the telephone poles along Main St., as soon as possible and they would lay a cable 300 yards long to the Telephone office which would do away with a number of the poles.

Mr. J.R. Hebert proposed and Mr. Brazner seconded a motion that the Council be asked to macadamize the road from the bridge to the G.T.R. tracks and from the tracks to the main road.

Mr. J.R. Hebert wished to call the attention of the Board to the absence of fish in the St. Francis River. Twenty years ago there was always an abundance of salmon, sturgeon, and all kinds of smaller fish. Since the dams were made at Windsor, Bromptonville, Drummondville and East Angus, owing to their not having fish weirs, at each dam as required by Law and the emptying of chemicals into the river by the various mills, fish had almost disappeared from the river, and he thought that if the proper authorities at Quebec were made acquainted with the fact they would take steps to have the weirs, etc., put in.

Mr. F. Sampson suggested that the Secretary write to the Council of Windsor Mills and the other councils calling their attention to the matter, their united efforts would no doubt bring good results. Mr. Sampson moved that the Secretary be instructed to write to the Councils named calling their attention to the matter. Mr. T.A. King seconded the motion which was carried unanimously.

Mr. Brazner moved that the bye-law with regard to the regular meeting of the Board be altered from the first Thursday in the month to the second Friday in each month. Mr. J.H. Hebert seconded and it was carried unanimously.

Mr. F. Millette suggested that cards be printed in French and English and be kept permanently in the upper and lower end of offices, stating that the Board of Trade would meet every second Friday in the month. The Secretary was instructed to have the cards printed.

VALUATIONS WERE REDUCED

(Continued from page 1.)

He thought the Rand Drill property, which had a fixed valuation of \$100,000, was really worth \$300,000, and that although Blue's property was probably worth the amount of valuation, in industrial cases the Council should be a little easy on the valuation. He moved the matter stand over until manufacturing properties were considered. The motion was seconded by Ald. Denault and carried.

THE DUNCAN PROPERTY.

In supporting his protest, Mr. Duncan swore that he was willing to sell the property for \$18,000. He was told not to make a protest last year and the matter would be fixed up for this year. He also produced a letter signed by one of the city officials, stating the valuation would be \$16,000 for 1914.

Mr. Dion said he gave no authority for such a letter to be sent.

Ald. Edwards remarked that if the Council commenced making such reductions they would have to do the same thing all along Wellington St.

THE PLATEAU CAMIRAND PROPERTY.

A motion had been made to reduce this valuation from \$31,500 to \$20,000. When the representative was asked to place his value on the property he replied he would take \$31,500 but the motion was thereupon withdrawn and the valuation was sustained.

HEARING ADJOURNED UNTIL WEDNESDAY.

The further consideration of objections will take place on Wednesday night.

THAW TO WINTER IN MANCHESTER, N. H.

Manchester, N.H., Oct. 3.—Harry K. Thaw will spend the winter here. He has leased the estate of Dr. Chauncey W. Clement in the North End and will take possession next week, the doctor says.

COURT OF KING'S BENCH

Fredrick Cook on Trial For Theft of an Overcoat and Handbag

GOODS WERE TAKEN FROM ROOM OF BOARDER AT CONTINENTAL HOTEL.

The hearing of the evidence in the case of Frederick Cook, charged with stealing an overcoat, handbag and other articles, the property of Mr. Wm. MacCallum, had not concluded when the Court rose at 4.30 yesterday afternoon.

The complainant said he was residing at the Continental Hotel in October last, and left about ten o'clock on the night of the 14th to spend the evening elsewhere. On returning the next day the goods were missing. From a clue he received he advised the police, and that same evening received a message from Constable Dandenault to go to Lennoxville. He there found the prisoner boarding a train in possession of the goods, which he identified, and the constable arrested him. Prisoner tried to escape.

Geo. Morin, night clerk at the Continental Hotel, recognized the accused as the person he saw leaving the hotel early on the morning of October 15 with an overcoat and grip, but could not swear that those produced were the same.

Albert Lapalme, night operator at the C.P.R., testified to seeing accused coming out of the Genes block about 12.30 on the morning of the 15th and going in the direction of the Continental Hotel. He informed Constable Robidoux. He afterwards saw him with a grip and coat. His attention was drawn to the man as he was under the influence of liquor. Witness could not identify the articles produced as it was dark when he met accused.

Constable Robidoux recognized accused as the man he saw on Wellington street with an overcoat and grip. Constable Dandenault stated he saw accused on the Grand Trunk station at Lennoxville on the night of October 15. Prisoner put the coat and grip down at the side of the station. Feeling sure from the description he received that they were the missing articles, witness telephoned to MacCallum, who came and identified the goods. Prisoner in the meantime had got on the train. They followed him, and witness arrested accused.

East Angus Ladies Start Work
East Angus, Oct. 3.—(Special)—On Tuesday evening a meeting of the Patriotic Society was held at Mrs. J. A. Macdonald's, when Miss Campbell, of Macdonald's College, was present and talked with the ladies about starting a Homemakers' Club, but as the time was very short and several of the ladies were unable to be present, nothing decisive was done with regard to organizing at present.

On Tuesday evening, October 13th, a tea will be given at the residence of Mrs. Bothwell by the Patriotic Society for the purpose of raising money to purchase material to make warm articles of clothing, knitted socks, etc for the soldiers. A good attendance is expected to help in this good work.

COATCOOK LADIES MEET ON MONDAY
Coaticook, Oct. 3.—(Special)—All ladies interested in the work of the Coaticook Patriotic Society are re-

quested to meet in the Guild Hall on Monday afternoon at 2.30. The convener of the Work Committee, Mrs. Stening, has received the materials needed for the various useful articles planned by the committee, and at the meeting on Monday afternoon the ladies will be instructed in the manufacture of these articles. A large attendance is earnestly desired. The next regular meeting of the Society will be held Tuesday evening October 6th.

NICOLET FALLS
Mrs. G. F. Hill of Brussels, Belgium, the guest of Mrs. Elliott on Wednesday.

Mrs. Grace Hall and Master Geo. Hall, to their home in Notre Dame de Bellevue, to resume his studies at Macdonald College.

The dedication and reception at the New Sherbrooke Hospital, Thursday afternoon and evening, Oct. 8th, promises to be an enjoyable affair. It certainly will be if those interested make it a point to attend.

Mr. Warren Grand entertained a party of about eighteen at the St. Francis Golf Links last evening, Mrs. H. Bruce Fletcher acting as chaperone. A pianist from Granby furnished most excellent music for the dancing, which was kept up to a late hour.

ANNIVERSARY SERVICES.
To-morrow the congregation of St. Andrew's Church will celebrate their 25th anniversary. Rev. M. A. Campbell, of Montreal, will be the special preacher for the occasion.

Special music has been prepared for the occasion.

On Monday evening the annual anniversary concert will be held, under the auspices of the Ladies' Aid.

BANK STAFF MEMBERS GUESTS AT DINNER.
Last evening at the Grand Central Hotel, twenty-seven of the Canadian Bank of Commerce staff gathered at seven o'clock, at a dinner given in honor of two of their members, who are shortly embarking on the sea of matrimony, Mr. L. E. Allen and Mr. Lawrence P. Wyatt. After a most enjoyable dinner, presented by Mr. Allen with a handsome travelling bag and Mr. Wyatt a mantel clock, on behalf of those present. Though taken quite by surprise, both the recipients responded very suitably, expressing their gratification at the friendly feeling shown by their colleagues on the staff. The party then adjourned to His Majesty's Theatre, where at intervals during the moving pictures they sang patriotic songs, and "It's a Long Way to Tipperary," etc.

Build Up a Healthy Appetite

Very often loss of appetite is caused by the system being run down, a condition which is aggravated by indigestion. Campbell's Quinine Wine as a tonic at these times is unequalled. From the start food is enjoyed and assimilated, the system gradually gains strength until robust health is secured.

MANY SPIES HAVE BEEN DEALT WITH

Paris, Oct. 3.—(Special)—A French court martial has begun hearing the cases of Germans taken prisoners by the French while in disguise and upon whose persons there have been found objects of value. All German prisoners in French hands thus suspected of pillage are to be tried. One such man has just been sentenced to imprisonment for five years, while two others were given sentences of eight months' confinement.

Spies are being judged summarily, without the formality of a court-martial. Their executions were kept a close secret, but it is said that a considerable number already have been shot.

CLERGY DID NOT PARTICIPATE IN CRUELTIES

Berlin, Oct. 3, via London.—(Special)—The garrison commanders everywhere are taking measures for the suppression of stories to the effect that the Catholic clergy participated in cruelties against German soldiers in Belgium, which, it is officially asserted, are untrue. The highest Catholic officials protested against the assertions, which came in letters from the front.

GERMANY'S GAME TWO YEARS AGO

London, Oct. 3.—Addressing a recruiting meeting at Cardiff last night Premier Asquith said: "In a communication to the German Government in 1912 regarding her future policy, Great Britain declared that she would neither make nor join in any unprovoked attack upon Germany. But that was not enough for German statesmanship. Germany wanted us to go farther and pledge ourselves to absolute neutrality in the event of Germany being engaged in war. To that demand there was but one answer, and that was the answer which the Government gave."

METHODISTS AND CHURCH UNION

SPECIAL COMMITTEE OF CONFERENCE PRESENT—FAVORABLE REPORT.

Ottawa, Oct. 3.—The special committee of the Methodist General conference has prepared a report favoring union with the Presbyterian and Congregationalist Churches and it is understood that the report will be practically endorsed unanimously by the conference.

The Presbyterian General Assembly will vote on the question of union at the 1916 meeting, so Rev. Dr. Clark, of Montreal, a member of the union committee for the Presbyterian Church told the conference last Tuesday when he addressed it.

An interesting discussion is promised when the conference committee's report is submitted.

VALUATIONS WERE REDUCED

(Continued from page 1.)

He thought the Rand Drill property, which had a fixed valuation of \$100,000, was really worth \$300,000, and that although Blue's property was probably worth the amount of valuation, in industrial cases the Council should be a little easy on the valuation. He moved the matter stand over until manufacturing properties were considered. The motion was seconded by Ald. Denault and carried.

THE DUNCAN PROPERTY.
In supporting his protest, Mr. Duncan swore that he was willing to sell the property for \$18,000. He was told not to make a protest last year and the matter would be fixed up for this year. He also produced a letter signed by one of the city officials, stating the valuation would be \$16,000 for 1914.

Mr. Dion said he gave no authority for such a letter to be sent.

Ald. Edwards remarked that if the Council commenced making such reductions they would have to do the same thing all along Wellington St.

THE PLATEAU CAMIRAND PROPERTY.
A motion had been made to reduce this valuation from \$31,500 to \$20,000. When the representative was asked to place his value on the property he replied he would take \$31,500 but the motion was thereupon withdrawn and the valuation was sustained.

HEARING ADJOURNED UNTIL WEDNESDAY.
The further consideration of objections will take place on Wednesday night.

THAW TO WINTER IN MANCHESTER, N. H.
Manchester, N.H., Oct. 3.—Harry K. Thaw will spend the winter here. He has leased the estate of Dr. Chauncey W. Clement in the North End and will take possession next week, the doctor says.

CITY NEWS

The Children of the Empire will meet at the Club Room, Tuesday afternoon at four o'clock.

Miss Rosette Dugal has entered the Convent at Sillery, Quebec, as a pupil. She was accompanied by the Ancient Capital by her father, Mr. B. A. Dugal.

The dedication and reception at the New Sherbrooke Hospital, Thursday afternoon and evening, Oct. 8th, promises to be an enjoyable affair. It certainly will be if those interested make it a point to attend.

Mr. Warren Grand entertained a party of about eighteen at the St. Francis Golf Links last evening, Mrs. H. Bruce Fletcher acting as chaperone. A pianist from Granby furnished most excellent music for the dancing, which was kept up to a late hour.

ANNIVERSARY SERVICES.

To-morrow the congregation of St. Andrew's Church will celebrate their 25th anniversary. Rev. M. A. Campbell, of Montreal, will be the special preacher for the occasion.

Special music has been prepared for the occasion.

On Monday evening the annual anniversary concert will be held, under the auspices of the Ladies' Aid.

BANK STAFF MEMBERS GUESTS AT DINNER.

Last evening at the Grand Central Hotel, twenty-seven of the Canadian Bank of Commerce staff gathered at seven o'clock, at a dinner given in honor of two of their members, who are shortly embarking on the sea of matrimony, Mr. L. E. Allen and Mr. Lawrence P. Wyatt. After a most enjoyable dinner, presented by Mr. Allen with a handsome travelling bag and Mr. Wyatt a mantel clock, on behalf of those present. Though taken quite by surprise, both the recipients responded very suitably, expressing their gratification at the friendly feeling shown by their colleagues on the staff. The party then adjourned to His Majesty's Theatre, where at intervals during the moving pictures they sang patriotic songs, and "It's a Long Way to Tipperary," etc.
