

STATE RESTS ITS CASE

Now Up to Harry Thaw and His Counsel to Prove that He is Sane.

White Plains, N.Y., August 4 — The State rested in the Thaw case to-day, and from now on it devolves upon Harry K. Thaw and his attorney, C. Morschauer, to offset the testimony of the State's alienists, who have sworn without exception under the cross-examination of District Attorney Jerome that Thaw is still insane and would be a menace to the community if released from the asylum at Matteawan.

Dr. Carlos F. Macdonald was the last alienist called by the State. He was followed by J. B. Gleason, Thaw's original legal adviser, after the shooting of Stanford White. He came to Thaw's aid this afternoon and cleared up a few old mysteries, sweeping away some of Thaw's apparent vagaries on which Mr. Jerome has dwelt so persistently.

Mr. Gleason's most advantageous statement, from the prisoner's standpoint, concerned the dropping of the law firm of Black, Gruber, Olcott and Bonyong and of L. L. DeLaford, and the engagement of Delphin M. Delmas as chief counsel for Thaw. This had been done at his (Gleason's) orders, he said, and was not by Thaw.

Through Mr. Gleason, Thaw's lawyer hopes to show that Thaw's attitude toward Stanford White was not due to delusions as the State contends, but was prompted by what Thaw knew of White's practices. Mr. Gleason has about 50 letters which he received from Thaw and they may prove one of the sensations of the hearing to-morrow if read. Mr. Morschauer tried to prove the charges against White to-day by reading parts of Evelyn Thaw's testimony at the trials. Thaw's letters to Mr. Gleason bear upon this, it is thought.

Trying to clear Thaw of another delusion, Mr. Gleason presented a report of detectives regarding an alleged attempt on Thaw's life on the night of Dec. 24th, 1903. The wording of this document was not made public, but it was introduced to counteract the State's contention that Thaw had delusions concerning the "Mink" Eastman gang which he believed had been engaged by his enemies to beat and perhaps kill him, and that after White's death the architect's friends entered into a conspiracy to "railroad his slayer to Matteawan."

If he can show that Stanford White and a number of wealthy friends did maintain several establishments where young girls were ruined and that an attempt really was made on his client's life, Mr. Morschauer will be able to dissipate some of the delusion evidence of the State. He intimates that he has some surprises in store for the remaining days of the hearing, including ten lay witnesses, who may testify as to what Thaw knew of White. To-morrow he will finish reading from the testimony of Evelyn Nesbit Thaw and certain other witnesses at the murder trials. The present plan is to have the attorneys sum up on Saturday and, if possible, finish the case this week.

The dull routine of expert testimony was jarred this afternoon by loud shouts outside the court room: "I want Jerome, I must see Jerome," came the cry. Pietro Caporale, a wild looking Italian, about 50 years old, who had hung about the place all morning, tried to force his way into the room, and when the attendants refused him admittance, he waved a letter and demanded to see the New York District Attorney. "Tell Thaw they will rob him as they robbed me of my children," he yelled.

It developed that he wanted Mr. Jerome to help him obtain the release of his little girls, Angeline and Amelia, from the juvenile asylum in New York. No weapons were found on him.

MICKEY IONS PLEADS NOT GUILTY

Toronto, Aug. 4—Mickey Ions, the defense player of the Tecumseh lacrosse team, who kicked Geo. Kalls, of the Toronto, in the face during Monday's game at Scarborough Beach for the city championship, came up in the Police Court this morning on a charge of aggravated assault. The defendant elected to go to a jury and pleaded not guilty. He was represented by Mr. J. B. White, who said his client would not be ready to go on for a week. The Crown Attorney did not have his witnesses present either. Manager Chas. Querrie, of the Tecumsehs, renewed his security of \$200 for Ions' reappearance and the case will come up again next Wednesday. The Tecumsehs have decided not to play Ions Saturday against the Shamrocks or again this season, because of his attack on Kalls. Murton and will be moved to the defence and Querrie will be on the home.

A MILITARY WEDDING

Halifax, Aug. 4—J. Norman Ritchie, barrister, son of the late Judge Ritchie, of this city, and Louise, daughter of Col. Wadmore, Royal Canadian Regiment, were married to-day at St. Mark's. The regimental band played the wedding march. Immediately after the ceremony the young couple left via Montreal and Toronto for Lethbridge, Alberta, where they will reside.

CAUTION OF AN AVIATOR

Though Ready to Surpass Flights of Wright Brothers He Desires Favored Auspices.

Minneapolis, L.I., Aug. 4—Exhibiting the same caution and the same indifference to the clamor of "land lubbers" as aeronauts the Wright Brothers has shown, Glenn H. Curtiss, the Hammondsport, N.Y., aviator, declined to attempt flight here to-day. A slight wind at daybreak caused a postponement until sunset when conditions were still more unfavorable. The aviator was as much disappointed as the spectators, for he had desired to try for a world's record before sailing to-morrow for Europe to compete in aviation contests at Rheims, France, the latter part of this month.

If weather conditions are favorable, Mr. Curtiss will attempt a flight at dawn to-morrow. At noon he will sail on La Savoie of the French line, taking with him a new aeroplane, which has not been tried at all, but which is almost a duplicate of the one which he sold to the New York Aeronautic Society.

In the aviation events at Rheims, which begin August 22nd, Mr. Curtiss will try principally after the International Cup, a trophy offered for the best time made over a set course of about twelve miles. He will also follow other competitors and afterwards will visit other points in Europe as the Wright Brothers did last year. He will be accompanied by his chief mechanic, Mr. Todd, and his assistant, Ward Fisher, of Rochester, N.Y.

IMMENSE CROWD GATHERED IN PARIS

To Witness One of the First Public Executions which has Taken Place for Years Past.

Paris, Aug. 5—A sudden official announcement that a public beheading would take place at 4.30 o'clock this (Thursday) morning in the boulevard fronting the Sainte prison, created a sensation in Paris, which has not seen an execution in 15 years. Immediately immense crowds gathered at the scene, but were kept back from the guillotine by heavy details of police and municipal guards. Parisian sentiment long has been opposed to public executions, for in the past they were accompanied by scandalous scenes of revelry.

Despite this sentiment, Parliament refused to abolish the death penalty in France and in view of the revolting crime of the man executed this morning, President Fallieres refused to commute his sentence to life imprisonment. The victim was one Duchemin, aged 23, a butcher. In 1908 he stabbed his mother, and this not resulting in her death quick enough, he finished her by a strangulation. The motive for the crime was robbery.

G.T.R. PRESIDENT IN TORONTO

Toronto, Aug. 4—Sir Charles Rivers-Wilson, President of the Grand Trunk Railway; General Manager Chas. M. Hays, Third Vice-President E. H. Fitzhugh, and General Manager of Transportation Brownlee, with a score of lesser officials, arrived here from Montreal by special train at five o'clock this morning. After an inspection of the terminals the party left for Stratford.

NEW ENGLISH BANTAM WEIGHT

New York, Aug. 4—Jim Kendrick, champion bantamweight of England, made his metropolitan debut here to-night in a fast ten-round bout with Johnny Daly, of New York, at the Sharkey Athletic Club. The Englishman seemed to have a shade the better of it although both finished strong.

JACK JOHNSON IN TORONTO

Toronto, Aug. 4—Big Jack Johnson, the world's heavyweight champion pugilist, arrived in town at noon to-day in his new motor car, accompanied by his new manager and backer, George Little, of Chicago. The big fellow drove the car himself and came from London, 115 miles, in 44 hours. Mr. Little is not at all sanguine of Jeffries meeting Johnson. He deposited \$5,000 in Chicago before he left to cover Jeff's money to bind a match and the money was immediately forwarded to New York. Johnson, although champion, will not be anything but fair. Mr. Little says, and is willing to fight in England or Australia or even in Jeffries' own club at Los Angeles. Johnson came here for exhibitions this afternoon and to-night at the Island ball ground, because of the bad weather during his three days stay recently. He takes three local heavier at two rounds each at each exhibition.

GLOUCESTER HAD UNIQUE SPECTACLE

New England Town Celebrated its Two Hundredth Anniversary in Striking Manner.

Gloucester, Mass., July 4.—A spectacle unique in the annals of New England, and probably the most elaborate of its kind ever seen in the United States, brought to a splendid close the first celebration of the settlement of Gloucester, 280 years ago. Seated in an amphitheatre overlooking the harbor 5,000 persons witnessed the production by a cast of 2,000 players of "The Canterbury Pilgrims," a pageant most artistically conceived and brilliantly staged.

"Gloucester day" is an annual fixture in the local calendar but this year an unusual elaborate programme was arranged and when it was thought that the occasion would be marked by the presence of President Taft the citizens vied with each other to assist in the plans and make the affair eclipse all previous efforts. The inability of the president to come here, on account of the pressure of tariff affairs in Washington, caused much regret.

The city was gayly dressed in flags and bunting, a squadron of warships and the many vessels of the famous fishing fleet in the harbor were profusely decorated also, and a parade in which the sailors from the squadron assisted acted as a sort of curtain raiser to the grand fete of the evening. The pageant was given at Stage Park, a prettily adapted spot, historically because it includes the site of the house of Roger Conant, the first governor of the little Gloucester colony. Percy MacKay, is the author of the play, "The Canterbury Pilgrims" and he was assisted in the production by Eric Pape, one of the summer's colony of artists here, who developed the artistic element and was master of the pageant, and by Watts Darnowsky, director of the New York Symphony Orchestra who arranged the music.

On an open air stage, 175 feet long and 680 feet in depth, the principals in the various acts and the hundreds of people making up the choruses, faced an audience seated in the immense natural amphitheatre. There was no curtain, but a beautiful display of colored fire screened the stage between the acts.

The music was by a band and a large powerful organ, built expressly for out-of-door work. At certain periods in the performance, the bells of the city churches, connected electrically with the organ, sounded their chimes, a small salvo of artillery from the warships was also a feature of one part of the play.

MONUMENT TO ZEPPELIN

Frankfort-on-the-Main, Aug. 4. — A monument to Count Zeppelin was unveiled to-day near Oppenheim, on the Rhine, to mark the spot where Count Zeppelin landed in his airship August 4th, 1908, during his flight from Lake Constance to Mayence. The monument was erected by the State of Hesse.

COL. McDUGALL FOR HALIFAX

London, Ont., Aug. 4—Lieut.-Col. J. C. McDougall, R.C.R., now in command of Wolsey Barracks, will be transferred September 1st to Halifax as chief staff officer of the Maritime Provinces. The command is the most important in Canada of its kind. Col. McDougall's successor is not yet known.

YOUNG WOMAN'S TROUBLE

Brookville, Ont., Aug. 4.—Miss Grace Henderson, a young woman of Gananoque, is under bond of \$6,000 to appear in Brookville police court next Monday for a preliminary hearing on the charge of stealing \$2,620 in cash, and converting to her own use two cheques for \$572 and \$96.04 respectively. The complainant is the Thousand Island Railway Company, in whose offices at Gananoque Miss Henderson was formerly employed as cashier and bookkeeper. The young woman was brought here last night by Chief Ryan, of Gananoque, who made the arrest at the house of her father.

A GOOD REPORT

Albany, N.Y., Aug. 4.—A marked improvement in the condition of the savings banks of New York State is indicated in a statement given out to-day filed as of July 1st in comparison with July 1st, 1908. This year 139 banks reported as against 137 last year. An increase of \$71,332,345 is reported in the total resources, the total being \$1,587,027,555. There was an increase of \$66,741,081 in the amount due depositors, the total being \$1,444,974,860. During the year \$75,598,505 was deposited, an increase of \$11,256,932, while the amount withdrawn was \$360,932,917, a decrease of \$69,608,799. The interest credited and paid was \$32,087,290, an increase of \$1,662,836.

NEW BASEBALL PRESIDENT

New York, Aug. 4.—John Heydler, the new President of the National League, returned to New York this afternoon from Louisville where he attended the funeral of Harry C. Pulliam, and immediately assumed control of the affairs of his organization. Mr. Heydler says he is gratified that the board of directors of the National League deemed him qualified to act as successor to Mr. Pulliam, and he hopes that his administration will be successful. "If the care of the office weigh on me as they did on Harry," said Mr. Heydler, "I want my friends to tell me and then I'll resign. No new secretary of the National League will be elected until the annual meeting in December. For the present I am occupying the positions of president, secretary and treasurer."

TREACHERY IN A SUBMARINE

Plot to Sink French Naval Submarine Ship and Crew Frustrated.

Paris, Aug. 4.—A deliberate attempt to wreck the submarine vessel Circe is reported to have recently been made at Toulon. The Circe is one of the largest submarine vessels of the French navy, and was only recently launched. She had a displacement of 351 tons and a crew of twenty-five.

Recently Capt. Ravoux, commanding the first Mediterranean submarine flotilla, received an anonymous letter stating that the Circe had been "sabote" (willfully damaged), and that if he wished to save the lives of twenty-five men and prevent the loss of the ship he should set it on fire.

Capt. Ravoux and Lieut. Parnard immediately made an inspection. They found that the principal parts of the delicate machinery had been tampered with. Nuts and scraps of iron had been inserted in the engines in such a way that at the first attempt to dive a catastrophe must have resulted. Capt. Ravoux made a secret report on the subject to the Marine Prefect, and an inquiry was ordered. The mechanics who put the machinery together have been interrogated, and several arrests are expected.

It is suspected that the pieces of metal found in the Circe's engines were placed there by one of the numerous anti-militarists in Toulon Arsenal. The version given by the Minister of Marine is that a bolt accidentally fell into one of the submersible's dynamos.

TWO CHILDREN KIDNAPPED

Demand for Ransom of \$25,000 Creates Great Excitement in St. Louis.

St. Louis, Aug. 4.—The discovery to-day that three trunks had been shipped from St. Louis to Chicago by men suspected of the kidnapping of Grace and Tommaso Viviani confirmed the police in the belief that the disappearance of the children and the demand of \$25,000 ransom for them, was the result of a carefully laid plot, which did not, however, contemplate harm to the children.

The St. Louis police believe that the trunks found in Chicago contain the property of Samuel Turrisi, who is believed to have lured the Viviani children from their home, and other members of the blackmailing gang. The trunks were taken from the house of Jos. Pagano Monday afternoon. Pagano and Turrisi were friends and a man answering the latter's description left the house an hour before the children's disappearance on Monday. The police received tips from Chicago to-night that only clothing was found in the trunks.

COWES YACHT MEETING

Cowes, Aug. 4.—The yacht racing here to-day in connection with the Cowes regatta showed some interesting events. The principal race was that for Emperor William's trophy, in which there were ten starters. It was won by the German schooner Susanna on time allowance, although Germania, finished first. Cicely was second and Susanna third. In the twenty-three meter class, White Heather defeated Shamrock.

YOUNG GIRLS' SUICIDE

Harrisburg, Ont., Aug. 4.—Clara Braithwaite, aged 13 years, daughter of G. J. Braithwaite, hotelkeeper, was found hanging by the neck to a limb of an old tree, on the G.T.R. bank close to Mr. Braithwaite's home this evening. A strap was used and the girl's legs were drawn up so she was clear of the ground. The girl had received a whipping from her step-mother this morning and was seen around the village this afternoon in a very despondent mood.

STRIKE IN SWEDEN NOT GENERAL

Stockholm, Aug. 4.—The strike is by no means general in the provincial towns and industrial centers of Sweden. In most places the street cars are running and city employees are at work as usual. Work in a number of factories has been suspended, but this condition is not universal and no disturbances have been reported. The strikers total about 45,000 men, of whom 8,000 are at Malmö, but barring the fact that some factories are closed, there is little change in the ordinary life of the port of Malmö. The loading of ships at Gothenburg, where 10,000 men are on strike, is being done by the troops.

Sunshine grates have maximum strength

Sunshine Furnace has four triangular grate bars, each having three distinct sides. In the single-piece and two-piece grate no such-like provision is made for expansion or contraction, and a waste of coal always follows a shaking.

On the left- and right-hand sides are cotter pins, which when loosened permit the grates to slide out. These four grate bars are made of heavy cast iron, and are finished up with bulldog teeth. The teeth will grind up the toughest clinker; and

SUNSHINE furnace

because the grates are made in sections, not only can nothing but dust and ashes pass through, but after each shaking a different side can be presented to the fire. Also, with the Sunshine grate, there is no back-breaking movements attached to the shaking. By gently rocking the lever, first on the left and then on the right, the ashes are released on both sides, and fall through into the pan.

The Quebec Chronicle

QUEBEC, AUGUST 5, 1909.

CAPTAIN DEMERS.

A correspondent writes us to say that on the return of Hon. Mr. Brodeur from England, the position of wrecking commissioner, formerly held by Commander Spain will be filled up by the appointment of Captain L. A. Demers. We agree with our correspondent in thinking that such an appointment would be beneficial to the public interest and meet with general satisfaction. Captain Demers is well known and highly respected in this community, and on these grounds alone, the announcement of his appointment, would be grateful to his numerous friends, but he brings higher qualifications for his office than personal popularity; he knows from actual experience, the dangers, as well as the capabilities of the Lower St. Lawrence, and is well able to form an accurate judgment on the questions that may come before him.

CANADIAN HISTORY.

From time to time we see in Canadian newspapers instances published of British ignorance concerning the geographical and other statistics of the Dominion. According to a Toronto paper, which publishes extracts from the history examination papers of recent candidates for entrance into the Provincial Normal Schools, there is a considerable beam in our own eye to be removed before we suggest that our British brother has need to consult an oculist. The age of the candidates for entrance into the Normal Schools is assumed to be about eighteen years, and their ideas of history, says our confrere, appear to be "delightfully hazy." The non-professional history examinations, judging from the specimens given, "must have the Pickwick papers reading like an obituary notice."

Quebecers will be interested in the historical ideas arrived at concerning the founder of their city. Discussing Champlain, one candidate remarks:—"When Champlain and his men were suffering from the cold at Hochelaga, Florence Nightingale knit long hose for them. Another embryo teacher casually notes that "the Indians thought Champlain and his men were gods or something inhuman"; still another announces that "Champlain was secretary of the Hudson Bay Company for many years."

With respect to the Hudson Bay Company, one candidate states that it "brought to the Indians whisky, tobacco, blankets and other commodities and articles pertaining to civilization. Another candidate informs us that the H. B. company was a family compact in control of the game and fisheries around Hudson Bay." The most astounding information is the news that "The H. B. company was given a charter by the Pope." This was evidently the origin or the alleged clerical interference in matters political ever since.

Coming down to Confederation, some golden grains are gleaned. For example: "The Specific Scandal turned Sir John A. Macdonald out of office," and this: "Egerton Ryerson, afterwards Lord Strathcona, was one of the 'Fathers of Confederation.'" Other 'fathers' were: "Peter Perry and Marshall Bidwell; Laurier and Whitney; Gladstone, Disraeli, and Beaconsfield; Sir Oliver Tupper; Lord North; Ryerson and Lord Ashburton; Ontario, Quebec, New Brunswick; Washington, Lord Elgin, Warren Hastings Frontenac; Sir Mortimer Clark; Pitt and Gladstone; Lord Durham, George Scott, and William Lyon Mackenzie."

The veterans of 1866-70 will be surprised to learn that "the Fenians made up the new province," and others that "a deadlock was formed in Canada for the purpose of gaining representation by population." However, the causes inducing British Columbia to join Confederation are clearly set forth: "British Columbia joined Confederation in 1876, because she was so near the water."

In the section devoted to social conditions in the reign of Elizabeth some startling explanations are given. We are assured that "in Elizabeth's time the people were polished, though they blew their soup and wore their hats at the table." This double custom still lingers in some sections although many of us dispense with the hat. A

strong social light is thrown on "good queen Bess" by one candidate who tells us that "Elizabeth swore, chewed tobacco and did many other unlady-like things." Reformers will be glad to revise a celebrated historical episode and make it read something like this: "Handing a cigar to his servant, Raleigh said, 'Play the man, Ridley, for we light this day what will never be put out.'"

Other instances are given, but these are enough to secure assent to the remark of the Toronto News that "it is evident that history as she is taught in some of our higher grade schools is entitled to some strict attention on the part of the authorities," but they also have a deeper significance and point to the truth of what we have repeatedly maintained that our educational authorities are trying to do too much and the results are an intellectual muddle until their victims escape from their control.

A LURID DRAMA.

It has sometimes been thought that the only way to maintain a pure theatre would be to emancipate it from dependence on a public taste which will generally pay best for what is vilest. One reason why the nations do not attempt to purify their public shows by maintaining a worthy classical drama, at the national expense, is probably the cost of so doing. Yet they go to enormous expense to carry on for the public delectation the vilest of dramas in the law courts. Nobody but his relatives has any interest in the question whether a scapegrace named Harry Thaw is sane or insane. Every one knows that he is erratic and erotic, and every one knows that whether sane or insane he ought to be shut up for murdering a man. This age-long prying into the mind and ways of a graceless being is about as poor a public exhibition as a government could conduct before the world. It no doubt has its moral, as all exposures of vice and crime have. If it would teach thriving citizens not to hoard wealth for the corruption of their posterity it would be a great point gained. Already the point has been reached in the world's conscience that wealth that does not recognize its mission to mankind is generally not only hated, but also despised. But it is at great cost that this lesson is taught when it has to be done by holding unwholesome pictures continuously before the eyes of a continent and making a pampered fool the hero of the stage. In its essence this interminable performance is a national homage paid to wealth. No one doubts that but for wealth the whole business would have been disposed of in a few hours.

It would seem to be about time that sane nations got this syllogism into their heads, and legislated upon it: Thaw is either sane or insane. If he was sane when he killed a man he ought to be punished; if he was insane, he ought to be shut up. To allow him to go free between the two horns of this dilemma is an imbecility in the law. It is, we presume, to escape making a farce of the state's jurisprudence that the state authorities are so solicitous now to prove Thaw insane. We do not suppose that any one thought at any time that he did not know when he did the deed that he was breaking the law, and that he was murdering a man; he was just as responsible as any other vindictive murderer. No one questions that he had provocation which would be looked on by all men as some extenuation. No one doubts that the plea of insanity, for which evidence had to be sought in his constitution, his nativity and his childhood, was merely an excuse for giving him the benefit of those mitigating circumstances, and of serving White as he well deserved. But after his being judged constitutionally liable to access of murderous insanity, it is nonsense to judge him a sane man now to let loose upon the world. Had he had a term for murder, and been pardoned on repentance, there might be some standing ground for the procedure, but having chosen by preference to be a constitutional maniac, there should have been nothing for it but to treat him as such. This, is, we presume, at the bottom of the asylum doctor's evidence, to the effect that he is still insane, for if the facts be added in support of that view were evidence many of us would be found insane. Circumstances impress on most people the date of a wedding or an election, but lacking that impression, the memory of it would hold it no longer than other dates. There is an every considerable majority of people who could not tell the date of the King's accession, or of their mother's death, or the last parliamentary election.—Montreal Witness

A GROWING COUNTRY.

Seventy years ago Western Canada was that portion of the present Province of Ontario lying beyond Hamilton and east of Lake Huron. Here the Canada Company was settling its lands. To this El Dorado the colonists were moving along muddy roads, and amidst great difficulties. After weeks of travel the pioneer reached his allotment in the forest primeval, and proceeded to carve out a home. Faith, enterprise and industry must have been the qualities which sustained the fathers of Canada in these early days.

Forty years ago Western Canada was that portion of the Dominion of which Fort Garry, now Winnipeg, was the centre. Some valiant souls had already reached this promised land. Certain of them had arrived by way of the Hudson Bay; others had journeyed thither over the prairies, or by the water route from Lake Superior. To the people of the East the distant fields did not look green. The means of reaching them were too strenuous; the possibility of success once they were invaded, had not been established. Twenty-five years ago Western Canada was that part of the West surrounding the new prairie capital, Regina, thus named in honor of the Queen, but formerly spoken of as Pile o' Bones. Here the more daring of the new colonists made their homes. Fifteen years ago we began to think of Western Canada as that section of the country of which Edmonton, the site of the old Hudson Bay Fort, was the principal town. At last we had reached the end of Canada, the jumping-off place, the point beyond which there was nothing. To-day Western Canada lies west and north of Edmonton. To the West there is a large and promising country, fertile, temperate and full of latent wealth. To the north is an area of vast extent. Five hundred miles above Edmonton is Fort Vermilion, and here huge wheat-growing operations are carried on. The new West consists of the Peace River district and the Great Mackenzie Basin. Here an area of 316,000 square miles is suitable for wheat. No less than 407,000 square miles can grow barley; 656,000 square miles will produce potatoes. The rivers are full of fish; the lands unsuitable for cultivation or for pasturage are said to be auriferous. Altogether the new West is a gigantic country, the capabilities of which we have not yet appreciated.

Beyond this huge district we have in British Columbia its glorious valleys and its sea-girt islands, another West, the occupants of which will gather in the riches of the soil and live in comfort, if not in opulence. The striking point about Canada is the marvelous manner in which new and splendid fields for enterprise and industry open up as we journey on. Seventy years have given us an Empire. A few more years and we shall have the development of this magnificent area well under way.—Toronto Mail and Empire.

ARE YOU DEAF?

Cure Awaits You in the New Breathing Cure "Catarrhazone."

Deaf as a door nail. Not an uncommon expression, but quite true of many people whose hearing can be perfectly restored by inhaling Catarrhazone. It quickly relieves and cures all kinds of Catarrh, Catarrhal deafness, and diseases of the respiratory organs. Don't give up hope until you have tested Catarrhazone. It has restored lost hearing to thousands, and can do the same for you. Catarrhazone is a vegetable antiseptic, pleasant and convenient to use, absolutely certain to cure quickly benefit and ultimately cure. The dollar size of Catarrhazone invariably cures; trial size 50c. All dealers or The Catarrhazone Co., Kingston, Ont.

THROUGH CAR TO OLD ORCHARD.

The Quebec Central Railway will run a through Parlor Car to Old Orchard in connection with the train leaving Levis at 8 a.m., August 9th, for the Seaside Excursions. No change of cars and through the most beautiful scenic route makes this a very popular line. aug4x4

HAD NARROW ESCAPE

Newburgh, N.Y., Aug. 3.—By a quick jump Mr. and Mrs. Joel Dickinson and their daughter, Mrs. George Gardner, narrowly escaped with their lives this afternoon as the automobile in which they were riding was picked up on a pilot of a late Erie express train and borne away. All received painful injuries. The crossing is in a deep cut and the automobilists did not see the train until it was upon them.

SHIPPING NEWS
EMPERESS OF BRITAIN AND THE OTTAWA
Are Keeping Up the Pace—St. Lawrence Record Likely to be Badly Smashed.

The R.M.S. Empress of Britain is keeping up the pace. She passed South Point, Anticosti, (416 miles from Quebec) at 4.20 p.m. yesterday, and is due in Quebec at three o'clock this afternoon. Arriving at that hour she will have completed the fastest passage on record from Liverpool to this port.

R.M.S. Ottawa, of the White Star-Dominion Line, passed Martin River at 6.25 p.m. yesterday, and is due in port about noon to-day, making one of the fastest passages on record. The Ottawa has 151 cabin and 116 stowage passengers.

ALLAN LINE.
Steamer Tunisian, Captain Fairfull, from Liverpool via Merville, with passengers and a general cargo, passed Point Amour at 5.30 a.m. yesterday, and is due in port early to-morrow morning.

BAIE DES CHALEURS LINE.
Steamer Gaspeien, Captain Blouin, arrived from Montreal yesterday morning and moored in the Louise Basin. After embarking Quebec passengers and cargo, she left for Paspébiac and way places at 3.15 p.m.

DONALDSON LINE.
Steamer Caranthea, Captain Mitchell, from Quebec, with passengers and general cargo, arrived at Glasgow on the 1st instant.

DOMINION LINE.
Steamer Cornishman, Captain Jones, from Quebec, arrived at Bristol yesterday.

GASPE LINE.
Steamer Lady of Gaspe, Captain Bouchard, having landed Quebec passengers and cargo, left for Montreal yesterday morning.

NEW STEAMSHIP COMPANY.
Mr. F. Gunn, Norwegian Consul at this port, has received information that a number of leading capitalists in Norway have formed a company to establish a line of first-class passenger and freight steamers to run from Norwegian ports to Canada and the United States.

STEAM TUG REPAIRED.
Messrs. Price Bros. & Co.'s tug Victoria came out of Chevalier's dock yesterday morning, after undergoing complete and extensive repairs.

RUN INTO BREAKWATER.
Port Colborne, Aug. 4.—As a result of the steamer Glenelagh, owned by the Inland Navigation Company, of Hamilton, running into the Breakwater here early yesterday morning, damage to the extent of from \$20,000 to \$30,000 was done to the structure. The breakwater, which is forty feet wide and of solid cement construction, was split open all the way across.

PORT OF PRINCE RUPERT.
The importance of Prince Rupert to the steamboat lines is evidenced by the fact that not less than half a dozen different lines now operate between Prince Rupert and the Southern ports. Prominent among these are the Union S.S. Co., the Pacific Coast Co., the Canadian Pacific, the Boscovitz Co., and the Rogers City. There are also a number of individual boats that call at Prince Rupert. A total of 2,465 lots have been sold at Prince Rupert. The owners of many of these lots are busy blasting and grubbing stumps and leveling off to begin building. More than 70 buildings are in course of erection, many have been completed and are occupied; others are being planned and contracted for. It is stated by the Land Commissioner that although lots brought a very high price, they have on the whole increased in value from 25 per cent. to 50 per cent.

RESUMED HER TRIP.
Port Colborne, Ont., August 4.—The steamer Glenelagh cleared here to-night for Fort William. After repairs were completed by the underwriters, canvas was placed over her damaged bow to enable her to proceed to her destination. The breakwater is considerably damaged by the force of the steamer's blow.

NOTES.
Steamer Russell Sage, from Erie for Quebec, with coal, passed Port Colborne on the 3rd instant.

Steamer Bothnia, from Quebec for Niagara Falls, passed Port Colborne for London, and Ocean from Montreal on the 3rd instant.

Steamer Conway from Three Rivers for Sydney, passed here yesterday.

Steamer Naparima, Captain Campbell, from Quebec, arrived at London yesterday.

Steamer Nancy Lee, Capt. Murchie, from Chicoutimi, arrived at Manchester yesterday.

Steamer Marian, Captain Hogg, from Quebec, arrived at Waterford on the 31st ultimo.

Tug Peter Smith, with two barges laden with pulpwood in tow, arrived from below yesterday and proceeded for Erie, Pa.

WOMEN'S WOES
Quebec City Women are Finding Relief at Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney ills. Kidney cause more suffering than any other organ of the body. Keep the kidneys well and health is easily maintained. Read of a remedy for kidneys only that helps and cures the kidneys and is endorsed by people you know.
Mrs. C. A. Clark, of 3 St. Peter St., St. Johns, Que., says: "I had suffered with a dull, miserable pain and weakness in my back and could hardly stoop over or lift anything. The urine was highly colored and contained a heavy sediment and my limbs and feet would swell. There were also frequent headaches and dizzy spells. I had used several remedies, but they did not help me. I then learned of Booth's Kidney Pills through an advertisement and procured a supply. After only a few days treatment I noted the great relief they were giving me. I continued their use and I am glad to say that I feel better than I have in years. The pain has left my back and the urine is clear and of a healthy color. The swelling has left my limbs and feet and I have not had a headache or dizzy spell since. I am pleased to recommend Booth's Kidney Pills." For sale at Henry Willis' Pharmacy.

RECORDED'S COURT.
Yesterday two prisoners charged with being drunk appeared at the Recorder's Court. Both were discharged. A boy for throwing stones at a woman was discharged after promising to do no more stone throwing, although the plaintiff pleaded hard for his conviction.

PILES
Dr. Chase's Ointment is a certain and guaranteed cure for hemorrhoids and every form of itching, swelling and protruding piles. See testimonials in the press and get your money back if not satisfied. No. 111 St. John St., Montreal.

CAT, TO SAVE LIFE, CUTS THROAT

Dr. Ginger, of Bellevue, Performs
Tracheotomy Successfully
on Himself.

New York, Aug. 4.—After his success in performing the difficult operation of tracheotomy on himself, it is altogether likely that Dr. Ginger will be added to Bellevue Hospital's permanent surgical staff. For the last six months he has been connected with the hospital and the morgue in a visiting capacity, being called in frequently to look after pantry cases. His office is in the morgue and he has built up a large practice, most of his calls being made after dark. Sometimes he is away all night on business.

Up to yesterday he has made a specialty of mouse complaints, but from now on his practice is bound to develop along surgical lines. Right here it might be well to state that Dr. Ginger is a cat. He was born in the morgue about a year ago and has passed most of his life about the gloomy structure. He disappeared for two days one time and later turned up under the floor of the dead house, his mournful wails giving the night clerk plenty to think about until he was released. He was more dead than alive when rescued, and for his pluck in hanging on he was christened Ginger.

After this he spent most of his time watching Dr. John W. McAllister give surgical demonstrations for the benefit of some undergraduate surgeons. Ginger's interest in these affairs caused Dr. McAllister to rechristen him Dr. Ginger. Albert Goldie, assistant day superintendent of the morgue, has been seeing to it that Dr. Ginger got plenty to eat. Last Friday Goldie gave him some fish for his lunch. Ginger ate it with a relish, but when he turned up a few hours later he was coughing and sneezing violently. Thinking he had contracted hay fever, Goldie paid no attention to him. He coughed all day Saturday and Sunday and sneezed plaintively every time he came near Goldie. Dr. McAllister was notified and said he would examine his co-worker yesterday morning.

When he reached the morgue Ginger was nowhere to be found. After half an hour's search he was located in an unused room in the building. He was lying on the floor and in front of him was a fishbone an inch and one-half long. He was seen to wet his paw and rub it against his throat. Dr. McAllister picked him up and a look of astonishment came into his face.

"Well, this surely beats all!" said Dr. McAllister. "Ginger had that bone in his throat. He tore his windpipe open with his paw, drew out the bone and is now engaged in licking it well again. He has performed tracheotomy on himself and the operation was a highly successful one. He will be as good as ever in a few days."

BOWLER'S SEPTEMBER TOUR

To the Pacific Coast via Grand Trunk Railway System.

Mr. E. C. Bowler, of Bethel, Me., has arranged another Pacific Coast tour via the Grand Trunk Railway to start from Portland, Me., and Boston, Mass., on Tuesday, September 7. This tour has been arranged to answer a demand for a low price tour to Seattle. It will be via the Grand Trunk system to Chicago, C. M. & St. P. to Minneapolis, with a stop of one day, the N. P. to Seattle, stopping six days, boat across Puget Sound to Tacoma, N. P. to Portland, Ore., the Oregon Short Line to Salt Lake City, stopping one day, the D. & R. G. to Denver, stopping several hours at Glenwood Springs, a day at Colorado Springs, and a day at Denver, the C. R. I. & P. system to Chicago with a day's stop, thence the G. T. to original starting point with a day at Niagara Falls. A provision has been made whereby any who desire to include San Francisco and Los Angeles in the itinerary may do so. For full information, address

E. C. BOWLER,
Bethel, Me.

THE HAMEL'S COBALT CLOSING LETTER.

August 4, 1909.
 Ophire and Foster were the features of to-day's market. The former selling up thirty points from the opening this morning. The rich strike is reported and the stock seems to be comparatively scarce. The rest of the issues were on the quiet side and the trading confined to the specialties. Ophire had advanced sixty points with in the past few days. History repeats itself in a mining camp and procrastination is the "chief of profit." There are other issues worth watching which have possibilities for a big rise. Farah, City of Cobalt, Nova Scotia and many more deserve attention around the present market. The decline in La Rose is the natural sequence of a big rise with scarcely any recession of note. Advances from Cobalt are optimistic and the stock offers inducements at present levels.

CATS AND MICE.

(E. T. Brewster in August McClure's.)
 If anything in the entire animal kingdom would seem to be a matter of pure instinct, that thing is the traditional antipathy of cat and mouse. Yet a recent study by C. S. Berry, made in Professor Munsterberg's laboratory at Harvard, shows pretty clearly that a cat has no instinctive impulse to kill and eat mice—nor the mouse any instinctive fear of cats. Berry finds that a mouse may smell the nose of an inexperienced cat, or even perch on its back, and be quite safe, so long as it does not run away. For the instinct of the kitten is to chase any small moving object. It is not the mouse that interests it, but the mouse in motion. Some day, often by accident, the kitten plays too roughly with its captive, and discovers that there is meat inside. It is well known that cats specialize their hunting, some catching mice, some squirrels, some birds. It seems, in each case, to depend on accidents of discovery. A good mouser, then, is not a cat with a strong instinct for catching mice, but one with a strong habit of doing so.

REVOLUTION IS AT AN END

Order Has Been Pretty Generally
Restored in Spain Except
in Certain Quarters.

Madrid, Aug. 4.—An announcement issued by the Minister of the Interior, declares that tranquility now reigns throughout Spain, except in certain isolated localities of Catalonia. A column of troops composed of artillery, cavalry and infantry to-day is marching on Sabadell, 10 miles from Barcelona, where the insurgents are holding out, with orders to repress mercilessly any resistance that may be encountered.

Vienna, Aug. 4.—Don Jaime, the pretender to the Spanish throne, declared in an interview here yesterday that he had no intention of interfering in the present crisis in Spain, and said that his retirement to Frohsdorf in lower Austria, far from the Spanish frontier, was proof of his peaceful purposes.

"The Carlist party is a party of order," said Don Jaime. "I never will take upon myself to entice people into danger for my own ends. Never will I lead Spaniards against Spaniards. Should I return to Spain at the head of an army it would be only to restore order. This might happen should the revolutionaries drive out King Alfonso, or the welfare of the country require it. The popularity of King Alfonso is declining through no fault of his own, and Queen Victoria is certainly less liked than the King. Spaniards dread foreign influence; Victoria has remained a stranger too long, and the people never will forgive her." Don Jaime is of the opinion that the war in Morocco was unavoidable, and he fears that it will last a long time.

Forecast of Weather.

Toronto, August 4-8 p.m.—Showers and thunderstorms have occurred to-day in Alberta and Saskatchewan and also locally in Ontario, whilst elsewhere in Canada the weather has been fine. It has been cool in Central Alberta and Northern Saskatchewan, but in the other Provinces the warm conditions have continued.

Minimum and Maximum Temperatures.
 Dawson, 48.4; Atlin, 36.2; Victoria, 52.66; Vancouver, 52.67; Kamloops, 52.76; Edmonton, 52.59; Battleford, 44.48; Calgary, 50.66; Moose Jaw, 50.83; Qu'Appelle, 46.78; Winnipeg, 58.84; Port Arthur, 62.78; Parry Sound, 60.84; London, 59.81; Toronto, 60.84; Ottawa, 56.80; Montreal, 60.82; Quebec, 54.84; St. John, 56.78; Halifax, 50.88.

Forecasts.

Lower Lakes and Georgian Bay and Ottawa Valley, Upper and Middle St. Lawrence.—Variable winds, fair and warm; local thunderstorms.

Lower St. Lawrence and Gulf.—Moderate to fresh winds, mostly westerly, partly fair and warm, but some local thunderstorms.

Maritime Provinces.—Moderate winds, fair and warm; some local thunderstorms.

Lake Superior.—Fair and warm. Manitoba.—Warm with thunderstorms.

Saskatchewan and Alberta.—Cool and showery.

U. S. TARIFF

Washington, Aug. 4.—Small interest was shown in the tariff debate in the Senate to-day, but a night session was necessary to allow progressive Senators an opportunity to express their views on the tariff bill. Interest now seems to center on the vote on the conference report which will be taken at 2 p.m. to-morrow. From the Committee on Finance, Mr. Aldrich reported a concurrent resolution by which, as soon as the conference report had been voted upon the hide and leather schedule would be corrected, it is intended, to meet the views of Western Senators who demanded lower duties on products manufactured from leather.

PLANK AS CHANNEL FERRY

London, Aug. 4.—A London man named Westlake intends to cross the channel, when the weather is suitable, on a frail bark that has hitherto been confined to boys' stories of shipwreck. It consists of an 18-foot plank, with two oil drums underneath. On this is rigged a seven-foot mast with a yard, carrying an ordinary bed sheet, which is to form a sail if there is a breeze. If there is not, Westlake will take the mast and yard out and use them as oars. He had a previous experience of travelling on a plank after being shipwrecked in the Atlantic.

IN AND ABOUT TOWN

TOURIST TRAFFIC IS LOOKING UP

Present Month Shows Considerable
Increase Upon Previous One, but
the Usual Rush is Still Lacking.

The present season's tourist traffic
has up to the present been rather slow
when compared to former years. The
month of July did not commence to
compare with former years, but hotel
men held out the hope that August
would be a month to measure compensation
for the falling off. The early days of
August already show a distinct im-
provement upon the previous month,
but whether the summer as a whole
will equal previous ones is yet a
moot question. The leading hotels for
the past few days, however, show evi-
dence of being busy, and the hackmen
also report an increase in business.

While there is no contrast to be
drawn with last year, when the town
was crowded with Tercentenary visi-
tors, the influx of tourists fall far be-
low that of two years ago, when con-
ditions were normal, and it is a ques-
tion if the number will come up to
the usual average. The vagaries of the
weather and the late season is given
as one reason for the falling off, while
the many counter attractions in the
way of exhibitions and other at-
tractions in the United States is given
as another reason for the lessening
of travel to the Ancient Capital.

STALLS BEING REMOVED.

The work of removing the hucksters'
stalls which have stood for so many
years on the Montcalm market place
is now in progress, and within a day
or two all the sheds which have been
a familiar figure on the square will
have disappeared.

COURT OF SESSIONS.

Arthur Drouin, who is charged with
causing the death of his father, was
brought before the Court of Sessions
yesterday morning. After the charge
had been read to him, the investiga-
tion was fixed for to-day. A boy
was found guilty of deliberately kill-
ing a dog in the town of Montcalm,
and fined \$1 and \$15 damages.

SALE STOPPED.

Mr. F. Gunn, Norwegian Consul at
this port, received a telegram yester-
day from Norway directing him to
stop the sale of the bark Cambria,
which has been advertised for some
days past. The sale is, therefore,
postponed for the present.

A lady writes, regarding the Cana-
dian Pacific Railway great lakes ser-
vice which is now running five days
per week each way between Owen
Sound and Port William and Port
Arthur, that for accommodation and
cuisine everyone should avail them-
selves of this favorite route, when
travelling to the West. Special steamship
Express leaves Toronto at 1 a.m.
connecting with steamers which sail
at 5 p.m.

aug5x2

WIRELESS APPARATUS IN- STALLED.

The Department of Marine and Fish-
eries has just installed on board the
steamer Druid the wireless telegraphy
apparatus. The system will prove
valuable to the steamer, which is oc-
cupied with the buoy service.

ELECTRICAL REQUIREMENTS.

The attention of the public is directed
to the advertisement of Mr. T. D.
Lamerigan, which appears in another
column. The advertiser is an electric-
ian, whose ideas and work are
practical and up-to-date. Any busi-
ness in the electrical line entrusted to
his care is sure to meet with prompt
and careful attention.

NOTICE TO TOURISTS.

Take the Electric Express Tourist
train to Ste. Anne de Beaupre. Leaving
every morning, except Sunday, at
ten o'clock, returning at 12.30 and
1.30. Leaving again in the afternoon
at ten minutes past two, returning at
4.50 and 5.30. This trip includes stop
over at Montmorency Falls. An ex-
perienced guide accompanies each
train. Return fare \$1.50, which in-
cludes all expenses. Q. R., L. & P.
Co.'s Station, Paul street.

aug-1.f.

AN IMPORTANT DEAL.

A meeting of the shareholders of the
Boston Asbestos Company was held
yesterday at the Chateau Frontenac,
when the offer of Mr. J. A. Rousseau,
banker, of St. Ann de la Pêrre, and
ex-M.P. for the County of Champlain,
to purchase the property, was accept-
ed. Senator Choquette is President
of the Company, and Mr. A. A. Nor-
mandin, one of the principal share-
holders, still retains his interest in the
concern.

THE NICKEL.

The usual change of programme took
place at the Nickel Theatre yesterday
and an interesting and delightful pro-
gramme of animated photography is
provided for the numerous patrons of
this up-to-date theatre. The views
shown are all high class and consist
of the latest creations in the realm of
moving pictures, while the vocal num-
bers included in the programme are
not the least interesting feature of the
entertainment. Mr. Carroll has creat-
ed a most favorable impression by his
splendid singing, as has also Master
George Fairbairn, whose youthful
voice is very pleasing, and he has be-
come quite a favorite with the Nickel
audience. Miss Jackson, as usual,
continues to delight her audiences with
her songs, and daily adds to her
popularity. The titles of the pictures
shown are "Book Taught Hypnotism,"
"The Making of a Fountain Pen,"
"The Engineer," and "The Peasant
Prince." This is a diversified picture
programme which will be sure to meet
with general appreciation.

NEW PRESIDENT LABOR CONGRESS.

Winnipeg, Aug. 4.—Winnipeg and
Western labor men intend to run W.
J. Bartlett, ex-President of the Trades
and Labor Congress, for Presidency of
the Dominion Trades Congress, which
meets in Quebec in September.

BIG CONVENTION FOR QUEBEC

Knights of Columbus Will Hold Next
General Assembly in This
City.

Quebecers, and particularly the mem-
bers of the Knights of Columbus, will
be pleased to learn that the next an-
nual convention of that prominent or-
ganization will be held in Quebec in
August or September, 1910. This was
decided upon yesterday at the conven-
tion held at Mobile, Ala., which was
attended by several thousand Knights,
and the Quebec delegates, Dr. Dussault
and Mr. Fergus Murphy, sent the fol-
lowing telegram to Mr. P. M. Cotter,
Grand Knight of the Quebec Council:
"Amidst the wildest enthusiasm Que-
bec was unanimously selected for the
convention of 1910."

The Knights of Columbus is one
of the most prominent organizations
in the world and their annual conven-
tions are attended by thousands, so
that next summer the city of Quebec
will be visited by probably no less
than three thousand members of the
order, including ladies. This year
there are delegates from all over the
United States and Canada besides
Mexico, Cuba and the Philippine Is-
lands, and it is safe to say that next
year Quebec will have in its midst
the most influential body that ever
visited Canada for its annual conven-
tion.

Messrs. Dussault and Murphy are to
be congratulated on the success they
obtained in bringing the convention
to Quebec, which has a strong com-
petitor in St. Paul, Minn.

KENT HOUSE GROUNDS.

The popular rate to Kent House
Grounds and the reduced 25c. fare from
your door to the Rustic Theatre and
home again is attracting the usual
great crowds, and the Rustic Theatre,
Holt, Renfrew & Co.'s animal reser-
vation and the many other points of
interest are being daily and nightly
visited by multitudes of people.

SEASIDE EXCURSIONS.

The seaside for your holidays. A
few days or weeks at the seaside will
prove an invigorating and enjoyable
holiday.

Commencing Monday, August 9th,
the Grand Truck Railway System will
run their annual cheap excursions to
Portland, Me., Old Orchard, Me., and
Kennebunkport, Me., and return at
\$8.50, \$8.75 and \$9.10 respectively.
Tickets good going August 9th, 10th,
destination on or before August 30th.
11th and 12th, valid to return from
Splendid through train service, leav-
ing Levis at 7.00 a.m. and 7.20 p.m.
(daily except Sunday.) Through
Pullman sleeping car leaves Levis at
7.20 p.m., running through to Port-
land without change.

THE ROYAL CLUB.

The above is one of the leading places
of public entertainment in St. Roch.
It is centrally and conveniently situ-
ated on Jacques Cartier place in the
centre of the business portion of that
thriving portion of the city, close to
the theatre and other places of public
amusement. On the premises, which
comprise the numbers 11, 13, 15, 17,
are magnificent billiard and pool
tables while the wines, liquors and
cigars for quality and flavor are un-
surpassed. Mr. Antoine Masson, the
proprietor, is an enterprising, live man
of business, thoroughly up to the re-
quirements of the times. He has re-
cently added a wholesale branch to
his business and now does a wholesale
and retail trade of very considerable
proportions.

POST CARD IN A BOTTLE.

A floating bottle, sealed and with
something about it that seemed to
challenge attention, was picked up in
the harbor yesterday by H. Joynt,
who was out on the river in a row-
boat. The bottle was picked up, and
carefully opened, when it was found to
contain a post card with the address
in lead pencil of "J. Z. Cor-
bell, Bureau des Douanes, Montreal." In
a corner of the card was also the
indecipherable and smiling countenance
of a gentleman presumed to be the said Mr.
Corbell, who will undoubtedly be in-
terested to learn that his post card
has reached Quebec safe and sound by
the water route, even though it may
have been somewhat slower than if
the post office authorities had the
handling of it.

GOT TO

Have Sharp Brains Nowadays or
Drop Back.

The man of to-day, no matter what
his calling, needs a sharp brain, and
to get this he needs food that not
only gives muscle and strength, but
brain and nerve power as well.
A carpenter and builder of Mar-
quette, who is energetic and wants to
advance in his business, read an ar-
ticle about food in a religious paper
and in speaking of his experience he
said:

"Up to three years ago I had not
been able to study or use my think-
ing powers to any extent. There was
something lacking and I know now
that it was due to the fact that my
food was not rebuilding my brain."
"About this time I began the use
of Grape-Nuts food, and the result has
been that now I can think and plan
with some success. It has not only
rebuilt my brain until it is stronger
and surer and more active, but my
muscles are also harder and more firm,
where they used to be loose and soft
and my stomach is now in perfect con-
dition."

"I can endure more than twice the
amount of fatigue and my rest at
night always completely restores me.
In other words, I am enjoying life and
I attribute it to the fact that I have
found a perfect food." Read "The
Road to Wellville," in pkgs. "There's
a Reason."

Ever read the above letter? A new
one appears from time to time. They
are genuine, true, and full of human
interest.

FIRE COMMITTEE HAD MEETING

Charge Against Member of the Bri-
gade Investigated—Test
of Hose.

A meeting of the Fire Committee,
under the presidency of Ald. Dinan,
was held last evening, those present
being Mayor Garneau and Aldermen
Brunet, St. Pierre, Fiset, Matte and
Madden.

A report was presented from Chief
Fitzpatrick to the effect that he had sus-
pended a fireman from No. 7 Station
for leaving his post and being under
the influence of liquor. The captain
of the station as well as the suspen-
ded fireman were both brought before
the Committee, which reinstated the
guilty party as he was the father of
a family and also supported his aged
mother, and on the fireman's promise
never again to touch liquor. The Com-
mittee, however, decided that he
should be punished, and cancelled his
week's vacation for this year, and his
weekly holiday for a month. If the
guilty party ever takes liquor, he will
be discharged from service without a
hearing.

The only other matter brought up
before the Committee was that of the
hose recently accepted by the Com-
mittee. After a test of the hose, the
chief recommended the acceptance of
the Red Cross brand, and the Com-
mittee accepted his suggestion refusing
to accept the Arrow brand hose, deliv-
ered by the latter company, and
ordering it to be returned, and the
contracting firm will have to send in
another brand, which will be tested
before being accepted.

A petition of merchants on St.
Joseph street asking to transfer the
fire alarm box No. 58 from the corner
of Laliberté and St. Francois streets
to St. Joseph and Laliberté streets,
was granted.

BOOKS ON QUEBEC.

Tourists will find a fine range of
books on Quebec—history and fiction—
view books, photographs and pano-
ramic views at the Cambridge Cor-
poration in Buade street (the red sign
board beside the Basilica). They have
a "Baby" photo of the fleet which
visited Quebec last summer for the
Tercentenary celebrations. This is es-
pecially attractive to American visi-
tors as their battleship the New Hamp-
shire has a prominent position in it.
The Cambridge advt. will be seen on
the front page of this paper.

U.S. TORPEDO BOAT IN TROUBLE.

Seattle, Wn., Aug. 4.—The U. S.
torpedo boat destroyer Paul Jones,
which left here July 26th for a cruise
in Alaskan waters, was said to-night
to have struck a reef several miles
from Skagway, Alaska, and made
port in a sinking condition. The ex-
tent of the damage is not known.

WINNIPEG'S HETEROGENEOUS POPULATION.

If anyone has any doubt that
every language under the sun is spoken
in Winnipeg, and that the western
capital has the most heterogeneous
population of any city in Canada,
all he has to do is to take a glance
through the city directory. Vowels
seem particularly distasteful to the
foreigners of Winnipeg. The k's form
one long series of jaw-breaking names.
Here is a sample: Kon Krysziorn-
ski. For exercise try pronouncing
this name: Mike Krysziornski. It is
when the z's are reached that a page
of the directory looks like a jumble
of all the hard-sounding consonants
of the alphabet. Here are four or five
as they appear one after the other in
the directory: Zawodowski, Zawo-
zenin, Zawodski, Zawogowski, Zaz-
angis, Zborowski.

Rev. Hamilton Wigle, pastor of
Zion Methodist Church, Winnipeg, ran
into a Welsh name recently which he
thinks is just about a record breaker.
A couple came to the parsonage to
be married. The groom was Walter
John Huntingford, of Elstow, Sask.
"Where is your place of birth?"
asked Mr. Wigle.

The groom rattled off a name
which fairly knocked the parson over.
Finally he got him to write it
down and here it was what appeared:
Llanfairpwllgwyngyllgogerychw-
ymadrilloanddiogogoch.

There are just 59 letters in the
name.

A WONDERFUL SPECTACLE.

Lord Curzon not long ago wrote the
following graphic description of the
Victoria falls in Africa: "The edge
once passed, the falls appear to ex-
cel in grandeur any spectacle of the
same kind in the world. The cliff
wall down which they are hurled is
sheer from top to bottom 300 to 400
feet, of perpendicular descent, unin-
terrupted, save where in some places
gigantic masses of basalt, split off
or eroded by the same process as has
formed the chasm itself, lie at the
base and shatter the descending col-
umns into a tempest of foam."

"Conceive a black wall as high as
Shakespeare's cliff at Dover, Eng.,
nearly as high as the cross of St.
Paul's, and over a mile in length, and
over the top of this tremendous precipice
a continuous cataract of water
toppling down from the sky, save in
the three places where larger islands,
carrying their growth of jungle right
to the edge of the abyss, have pro-
tected a section of the cliff and in-
terposed a gleaming surface of ebony
rock between the snowy fleeces of
the falls on either side."

"In scenery, the surroundings of
the Victoria falls greatly surpass
their American rival (Niagara). For
every pinnacle and rocky buttress is
clothed from top to bottom, at least
in the rainy season, with a clustering
forest growth; and the contrast of
the white storm of the cataract and
the gloomy swirl of the torrent, with
the brilliant green of the verdure
amid which it pursues its course, is
a fascination that never fails."

"Never can there fade from the
mind of one who has seen it the
vision of these towers of descending
foam, the shouting face of the cat-
aract, the thunder of the watery phan-
tazies as they charge and reel and
are shattered in the bottom of the
abyss, or the spray spumes whizzing
upward like a battery of guns into
the air."

WE CAN FILL YOUR ORDERS

A telegram received from the Ford Co. informs one that the
company is in a position to supply machines at the latest delay. It
will be remembered that about a month ago, owing to the large
number of local orders sent in to the Company, the latter was
obliged to cancel a number of outside orders.

LATEST SPORTING NEWS

QUEBEC VS. MAPLE LEAF

Arrangements Concluded for Match Between the Two Clubs on Saturday Next.

Arrangements have been concluded for the proposed match between the reorganized Quebec Lacrosse Club, former champions of the Intermediate League, and the Maple Leaf Club, which has one of the fastest and nearest team of players in the local Junior League. The game will be one of the cleanest and cleverest exhibitions of the national pastime seen here for a long time. The Maple Leaf executive will strengthen up its team for this match and promises to give the Quebec men a good hard argument. The match will take place on the Q.A.A. grounds next Saturday afternoon.

The Quebec team is practising faithfully so as to be in proper condition for this match and other important ones which are to follow. They have been turning up regularly every night, and are beginning to show some of their old-time form, while the younger players are benefitting greatly by the experience they are getting in such good company.

Last night there was another big turn out, and one of the best practices yet held resulted. Among those out were Capt. Herbie Copeman, Alb. Kennedy, J. McCormack, Joe Malone, Fred. Demers, Ed. Hogan, John Doyle, Jos. Savard, W. Loiseleur, D. Doyle, E. Malone, Jeff Malone, Thos. McNeill, Thos. Moore, Alb. Copeman, D. Power.

WORLD'S RECORD FOR THROWING BASEBALL.

New Orleans, La., Aug. 2—Joe Martina Saturday broke the world's record for throwing the baseball, his best throw being 135 yards, 2 feet and 2 inches. The former record was held by Larry Twitchell at 135 2-3 yards, made in 1888.

OUT OF THE GAME.

Tit-Bits.

A keen golfer, but maddling player, who was paying his annual visit to a certain seaside course, remarked to his caddy:

"By the way, I played a round with Tom McGregor the last time I was here. Grand player, McGregor!"

"Aye," said the caddy, "but ye could bate McGregor noo."

"Do you think so?" exclaimed the gratified visitor, well aware of the McGregor's prowess.

"Aye," drawled the caddy; "McGregor's deid!"

LAKE ST. JOSEPH REGATTA.

Saturday's regatta at Lake St. Joseph promises to be the finest held there for some years. An unusually large number of entries has been received for the different events, and some exciting races will be in order. Hans Holmer, the famous Marathon runner, who is in training at the lake, has consented to act as starter, so that the boats will be sent off well together. The races will be held rain, blow or shine, and a large crowd of spectators is sure to be on hand.

A CHALLENGE.

Quebec, Aug. 4, 1909.

Sporting Editor, the Quebec Chronicle, Quebec, Que.

Dear Sir,—I hereby challenge any local athlete to run 10, 12 or 15 miles for a side bet of \$50 or more. I have heard that Mr. Jeff Malone has been anxious for a race for some time past. I would be very happy to accommodate him if he cares to make a suitable wager on the result. Thanking you, Mr. Editor, for the occupancy of this challenge in your sporting column, I am,

Yours very respectfully,

S. COLOMBO.

LOCAL BASEBALL LEAGUE.

Three clubs, St. Patricks, Napoleons and Quebec, were represented at a meeting of the Quebec and Levis Baseball League at the St. Louis Hotel last evening. The Rock City club was not represented. The business of the evening was to appoint dates for postponed games. The Napoleons and Quebec teams were appointed to play August 15th. Rock City will play Napoleons in Levis, August 22nd. St. Patrick's journey to Levis Sunday next to have their last go at the champions. Mr. G. E. Carlier has been agreed upon as umpire by both clubs for this game.

GOOD SPORT AT PETAWAWA CAMP

R. C. G. A. Still Playing Successful Football—Also Defeated Engineers at Cricket

Petawawa, Aug. 2—An exciting association football match, was played on the athletic grounds, Petawawa, between Adam's Own R.C.G.A. and Rousseau's Own R.C.H.A. Both teams lined up in great form. Some smart work was done on both sides, the passing and combination was perfect, and the spectators shouting lustily for both teams. At half time the score stood 1-0 in favor of R.C.H.A. Upon resumption of play, the R.C.G.A. boys warmed up to their work and played rings around their opponents. The R.C.G.A. goal keeper saved some magnificent shots. The R.C.G.A. centre forward was on the ball all the time, the outside right did some fine passing, and all the remainder of the team showed good form, and at the close of play the score stood: R.C.G.A., 4; R.C.H.A., 1.

The teams were as follows:—R.C.G.A.—Goal, Thompson; backs, G. H. Brown, Fletcher; half-backs, Foy, Trimby, Wilson; forwards, Reynolds, A. E. Smith, Crotty, Horgan, Mahon.

R.C.H.A.—Goal, J. Kelly; backs, Daw, Burns; half backs, Kelly, Kane, Mason; forwards, Dexter, Wise, La Rone, Gordon, Harmer. Referee, Moffatt; linesmen, Boyd, R.C.G.A.; Manley, R.C.H.A.

The following cricket match was played at Petawawa Camp on August 1st, 1909, between the R.C.G.A. and R.C.E. The R.C.E. won the toss and chose to bat first, but they could not do much with the effective bowling of Lovett and Bunyan. In the first innings of the R.C.E., Lovett took 7 wickets for 5 runs, and Bunyan 2 for 9 runs, the whole side being out for 15 runs. The first innings of the R.C.G.A., mainly through the batting of Boyd and Lowthian, ran up a score of 36, Parker taking 3 wickets for 14 runs and Barnard 6 for 12. That left the R.C.G.A. a lead of 21 runs. On going in for the second time, the R.C.E. did a little better, making 21 runs, Bunyan taking 5 wickets for 5 runs, and Lovett 4 for 13. This left the teams a tie. The second innings of the R.C.G.A. only wanting 1 run to win, played the first over and scoring 8 runs for 1 wicket, finally winning by 9 wickets. The following are the scores:—

RESULTS AT SARATOGA.

Saratoga, N.Y., Aug. 4—Hill Top, at 1 to 3, won easily the Mohawk selling stake, one mile, the feature of the card here to-day. High Range cut out the pace to the stretch where the favorite moved up and won easily by half a length. The first disqualification of the meeting occurred in the fifth event, a handicap at 7 furlongs. Sir John Johnson, who finished first, repeatedly

A party of ten ladies from New York, conducted by Mr. J. B. Clary, arrived in town yesterday from Ste. Anne de Beauce and Montmorency Falls. The party is stopping at the Victoria Hotel. After lunch they drove around the city. This morning they are leaving for the Saguenay trip.

At the Dominion of Canada Trap shooting to-day, the Toronto men carried off most of the honors. The day was ideal for shooting. Out of a possible 200 at ten targets, the highest score to-day was 157, made by J. E. Jennings, Toronto. George Beattie, Hamilton and T. W. Barnes, Hamilton, tied with 152 for second place. H. W. Heikes, New York, was the highest professional with 180. A. Troop, of Ottawa, amateur, also scored 180.

Evidence in an interesting case is being heard by Hon. John G. Foster, American Consul General, at the consulate. The action is one with a view of forcing Henry Moffatt, of Pendleton, Ont., to support a daughter, who lives in San Francisco and who, accompanied by her mother, has come to the capital for the hearing. Mr. Moffatt was separated from his wife some time ago, giving to his daughter the assurance that he would continue to support her so long as she refrained from taking any action to force him to do so. She wishes to clinch the deal, however, and has taken the action to force the issue. The evidence taken by Col. Foster will be submitted to the authorities in San Francisco for judgment.

Notification has been received at the Trade and Commerce Department that the Transvaal Government, after September 1st, will prohibit the importation of potatoes from all countries unless accompanied by a certificate of the Agricultural Department that they are free from "Black scab."

At the Hull Court of Revision to-day the assessment of Matthews & Co. was reduced to \$80,000 from \$135,000, the original valuation.

The Post Office Department has, at the instance of the Minister of Agriculture, issued a warning to postmasters to be careful to prevent the importation of nursery stock through the mails, except after examining by the customs.

Much of the nursery known to be infested with various insect pests, and therefore the Department of Agriculture has requested the Post Office Department to take every stock thus shipped into Canada is precaution to prevent the delivery of packages containing nursery stock until after they have been thoroughly inspected, and, if necessary, fumigated by the proper authorities.

Information has been received by the Government to the effect that the new international regulations to govern the fisheries of Canada and the United States, agreed upon by Prof. E. E. Price and Prof. David Starr Jordan, will not go into effect until 1911.

They will be published simultaneously in December next, so that a full year's notice will be given to all concerned. The investigations of the commissioners on the Pacific Coast have convinced them that the sockeye salmon which spawn in the rivers of northern British Columbia, such as the Skeena and the Naas, return to those rivers only, and never to the Fraser or the Columbia. The commissioners will therefore advise the establishment of hatcheries on the northern rivers.

Utica, N.Y., Aug. 4.—Jos. Seny, aged five years, was drowned in a frog pond near his home, near Herkimer to-night. Attention was attracted to the spot where the body was found by the whining of a dog with which the child had been playing.

A BEAUTIFUL AUTOPIANO AND TWO PIANOLAS SLIGHTLY USED AT GREAT REDUCTION

We offer for sale immediately one of our marvelous autopianos which has been slightly used during three months in a private family and two pianolas of the celebrated makers, Aeolian Co. of New York. These instruments are in perfect order and guaranteed as good as new, but having received a certain amount of money on them we will now sell them at great reduction and easy terms of payment.

Catalogues sent by mail on application.

BIG STRIKE IN CHICAGO

Ten Thousand Street Car Employees
Voting on Question of a Walk
Out.

Chicago, Aug. 4.—With 10,000 street car men voting to-morrow on the question of a walk out, the attitude of traction and city officials was that of hope that a strike would be avoided by compromise. The referendum will begin at 4 o'clock in the morning, and it is predicted that the men will vote in favor of a strike. Mayor Busse expresses the opinion to-night that there would be no strike. At the same time P. L. Bergeff, a professional strike breaker who figured in the recent Philadelphia struggle, arrived here. Bergeff said that he had been asked to come to Chicago by the presidents of the street railway companies.

TOPICS FROM THE FEDERAL CAPITAL

Consideration of Grievances—Trap Shooting Meet—Interesting Case—New Fisheries Regulations.

Ottawa, Aug. 4.—Hon. Chas. Murphy returned to Ottawa to-day.

The expected meeting of the Capital Lacrosse Club did not come off to-night owing to the absence of some of the executive for unknown reasons.

Saskatoon municipal workers have obtained a board of conciliation from the Department of Labor to adjust some grievances, the alleged insufficiency of pay, the safeguarding from injuries, &c. Some 300 are affected generally.

Edward J. Stevenson, of Winnipeg, and Alex. Smith, of Saskatoon, are appointed members of the Board by the employees and the Corporation of Saskatoon. G. J. Mellich of Dundurn, Sask., is made chairman by the Labor Department.

At the Dominion of Canada Trap shooting to-day, the Toronto men carried off most of the honors. The day was ideal for shooting. Out of a possible 200 at ten targets, the highest score to-day was 157, made by J. E. Jennings, Toronto. George Beattie, Hamilton and T. W. Barnes, Hamilton, tied with 152 for second place. H. W. Correspondence.

Quebec, August 4, 1909.

To the Editor of the Chronicle:

Dear Sir,—I have been reliably informed that it is the intention of the Department of Marine and Fisheries upon the return of Hon. Mr. Brodeur from Europe to permanently appoint Captain L. A. Demers, F.R.S., to the position of Wreck Commissioner to succeed Captain Spain, and as one who has had occasion to assist at many investigations held by former wreck commissioners in Canada, I think it but fair and just to Captain Demers to say that his appointment would give widespread satisfaction.

He has clearly demonstrated in the investigations over which he has presided that he is fully equipped and competent in every way to fill the important office. He has had a lengthy deep water experience as master, in addition to which he possesses a thorough and exceptional knowledge of the River St. Lawrence, which latter is most essential for a Wreck Commissioner in Canada; he is highly versed not only from a scientific point of view, but he has had practical sailing experience in the St. Lawrence, and can therefore be more fully relied upon to discover where wreck exists, for his judgments will affect ships sailing waters which he himself sailed during many years.

His judgments were lucid and impartial, and if I may venture to say, fearless. It is indeed such a man that the shipping interests need as Wreck Commissioner, and as an experienced mariner I can safely say that in Captain Demers the interests of the St. Lawrence River will certainly have nothing to lose but all to gain.

SHIP MASTER.

Quebec, August 4, 1909.

To the Editor of the Chronicle:

Dear Sir,—As one who drives up and down Palace Hill twice a day I desire to add a further suggestion for the relief of vehicle traffic. That is that Carleton street be put in first class order and widened by removing the sidewalk on one side. This will admit of two vehicles passing one another which cannot be done at present. Moreover this is not a steep hill and if it were widened as above suggested it would be greatly used. Trusting that the Road Committee will through your good influence give this suggestion their favorable consideration.

I remain,

Yours truly,

W. H. WIGGS.

DAY BY DAY

The Montreal Falls is the most popular resort just now, says Henri.

Columbus discovered America, and the Knights of Columbus will discover something new in the way of a hearty reception when they come to Quebec next summer.

When a good meerschaum pipe goes "moseying" along after a couple of cats, you can easily depend upon it that its name is Mud.

Playing rings with the fifteen and playing lacrosse with the (Montreal) Shamrocks, in its palmy days, are two different propositions, says our friend Thomas.

The tooth must have been a tough one when "The Boss" had to be tied down to have it extracted.

SHIPPING NOTE.

Father Point, Aug. 5.—Steamer Ottawa, of the White Star-Dominion line, from Liverpool, passed inward at 1 a.m., with 150 second cabin and 118 third-class passengers.

Drink Beauport Lager. It is the best.

MILK AND MILKING.

Many people believe that milk is ready made and stored in the udder of the cow, simply awaiting the milker. This impression is corrected by the statement of the well known scientist, John Burroughs, who says: "Most persons think that giving down or holding up the milk by the cow is a voluntary act. In fact, they fancy that the udder is a vessel filled with milk and that the cow releases or withholds it just as she chooses. But the udder is a manufactory. It is filled with blood from which the milk is manufactured while you milk. This process is controlled by the cow's nervous system. When she is excited or in any way disturbed, as by a stranger or by taking away her calf or any other cause, the process is arrested and the milk will not flow. The nervous energy goes elsewhere. The whole process is as involuntary as is digestion in man and is distributed or arrested in about the same way."
