FRENCH TAKE PRISONERS IN ATTACK IN MARNE REGION; ADVANCE LINES CONSIDERABLY EAST OF AMIENS

Raid By the Enemy on Front South of Arras Repulsed With Losses—Successful Daylight Raid Near Moricourt By British—Big Gun Activity South-east of Commeccourt.

(Associated Press Despatch.)

PARIS, June 28.—French troops last night carried out an operation on the front southeast of Amiens, as a result of which their lines were advanced in Senecat Wood, on the Avre River, the War Office announced today.

In this action and in other fighting, between the Marne and the Ourcq south of Dammard, prisoners to the number of 122 were taken.

BIG GUN ACTIVITY ON BRITISH FRONT.

(Associated Press Despatch.)

LONDON, June 28.—Considerable artillery activity developed last night on both sides in the region southeast of Commeccourt, southwest of Arras, the War Office announced today.

British patrols inflicted casualties upon the Germans in clashes in this area.

British troops carried out a successful raid yesterday near Moricourt, northeast of Amiens.

An attempted raid by the Germans near Moyenneville, south of Arras, was driven off with loss to the enemy.

EARLY OFFENSIVE EXPECTED ON THE WESTERN FRONT

LONDON, June 28.—With the return of almost normal conditions on the Italian front, and with no indications apparent that it is the intention of the Austrians in the immediate future to launch another stroke against General Diaz's armies, the eyes of the world are being centred once more in expectancy on the battle area in France and Flanders as the possible theatre of early encounters on a large scale.

This expectancy is heightened by the utterance of Premier David Lloyd George in the House of Commons Monday, when he said another enemy attack might be looked for, possibly within a few hours and certainly within the next few days—a blow on which the issue of the campaign might depend—rather than by any outward signs of great preparations by the Germans to loose their armies for another attempt at the capture of Paris or the channel ports.

Although the infantry operations have not risen in importance above patrol encounters recently, nevertheless the Germans are trying out with their artillery the stability of the British and French positions on various sectors from Flanders to the region of the Marne. Southwest of Armentieres, on the River Lys sector, and between Givenchy and Robecq, the British lines have been heavily shelled with guns of all calibres and with considerable numbers of gas projectiles. The French have been receiving similar visitations between the Oise and Aisne rivers, especially in the region north of Villers-Cotterets, where the recent German offensive reached its greatest depth on the attempted dash to Paris.

SIGNS OF GERMAN WEAKNESS

Serbian Minister Says Foreign Secretary's Address Betrays Fact that Force of Arms Cannot Gain Victory.

(Associated Press Despatch.)

WASHINGTON, D.C., June 28.—H. M. L. Michaelovitch, the Serbian minister, in a statement last night declared that the address this week by Dr. von Kuehlmann, German minister of foreign affairs, betrays for the first time the fact that Germany no longer believes in victory by force of arms, and consequently tries to obtain it by other means. For this reason, he said, the nations fighting the Central Powers should have greater faith than ever in their final victory by force.

FAMOUS FRENCH "ACE" WOUND.

(Associated Press Despatch.)

PARIS, June 28.—Lieut. Mezergues, of the Air Service, one of the noted French "aces" who escaped from prison in Germany and resumed his flights, has been seriously wounded in a fight with an enemy airplane, the Havas Agency reports. The bomb thrower of Mezergues' machine was killed in the encounter.

THE WEATHER

WESTERLY WINDS, MOSTLY FAIR AND MODERATELY WARM.

The western disturbance is now moving eastward across Northern Ontario. Rain was almost general and fairly heavy yesterday in Manitoba and Saskatchewan, and showers occurred during the night in Ontario. Fresh south and southwesterly winds, showery; Saturday, westerly winds, mostly fair and moderately warm.

REPORTED OVERTHROW OF BOLSHIEVSKI GOVERNMENT IN MOSCOW

(Associated Press Despatch) LONDON, June 28.—According to unconfirmed reports today the Bolshievi Government in Moscow has been overthrown, says a despatch to the Exchange Telegraph Company from Copenhagen. Moscow, the report adds, has been captured by General Korniloff, supported by German troops. Advice from the same sources assert that Grand Duke Nicholas has been proclaimed Emperor. Nikolai Lenine, the premier, and Leon Trotsky, the Minister of War, were said to have fled to the Murman coast. General Kaledines is said to have co-operated with General Korniloff in the capture of Moscow.

KERENSKY MAN OF FUTURE

(Associated Press Despatch) LONDON, June 28.—The Copenhagen newspapers, the agency despatch adds, give prominence to a Berlin despatch quoting the Tages Zeitung of that city as follows: "It is believed here that the Bolshievi Government will soon be overthrown and that Kerensky is the man of the future in Russia."

BRITISH OFFICIAL STATEMENT

(Associated Press Despatch)

LONDON, June 28.—The British official statement follows: "A raid attempted by the enemy Wednesday night against one of our posts in the neighborhood of Moyenneville, south of Arras, was repulsed with loss. A party of our troops carried out a successful daylight raid yesterday near Moricourt. They captured a few prisoners without suffering casualties. "During the night our own and the enemy's artillery was active in the neighborhood of Rossignol Wood, southeast of Commeccourt. Casualties were inflicted on the enemy in this neighborhood by our patrols."

FRENCH OFFICIAL STATEMENT

(Associated Press Despatch)

PARIS, June 28.—The French official statement follows: "North and west of Mont Didier the French advanced their lines in Senecat Wood and captured 100 prisoners. "Between the Marne and the Ourcq a local operation was carried out south of Dammard, and the French took 22 prisoners. "The night was calm on the rest of the front."

SAYS FORMER RUSS EMPEROR WAS MURDERED

Reports from Russian Foreign Minister Indicate Confirmation of Previous Reports of Assassination.

(Associated Press Despatch)

PARIS, June 28.—The court-marshal at Darmstadt, Germany, has received a telegram signed "Tchitcherine," announcing that Nicholas Romanoff, the former Russian emperor, has been assassinated, says a despatch to the Matin from Berne. The assassination took place between Ekaterinburg and Perm.

The despatch from Berne gives weight to the increasing number of reports of the assassination of the former Russian emperor. Darmstadt is the capital of the Grand Duchy of Hesse, and the former Empress Alida is a sister of the reigning Grand Duke. It is not unlikely that the Russian Government, through Foreign Minister Tchitcherine, would inform the Hessian Court of the death of Nicholas Romanoff before making it public through regular channels.

SAYS FORMER EMPEROR WAS MURDERED.

(Associated Press Despatch)

LONDON, June 28.—The Frankfurter Zeitung reports that M. Tchitcherine, the Russian foreign minister, has telegraphed the Russian minister at Darmstadt that the former Russian emperor was murdered a few days ago between Ekaterinburg and Perm, says the Exchange Telegraph correspondent at Copenhagen.

SON SAID TO HAVE DIED A FEW DAYS AGO.

LONDON, June 28.—Rumors are current in Petrograd that Alexis Romanoff, son of former Emperor Nicholas, died a few days ago, says an Exchange Telegraph despatch from Copenhagen today.

ELEVEN PERSONS KILLED IN AIR RAID ON PARIS

Several Groups of Enemy Machines Dropped Bombs—Damage Done By the Raiders is Reported to Be Considerable.

(Associated Press Despatch)

PARIS, June 28.—(Havas Agency)—Eleven persons were killed and fourteen others injured through the explosion of bombs dropped by German airmen in last night's raid over the Paris district.

Reports of the raid indicate that there were several groups of enemy machines which took different courses in an effort to break through the defensive barrier fire. During the commotion in the air thus created some of the machines evidently were able to effect a penetration, for bombs began to drop almost immediately. There was shortly a lull, after which the bombardment gained growth in intensity and then finally subsided.

The damage done by the raiders is reported as considerable. President Poincare sent the victims messages of sympathy and solicitude on behalf of the Government.

There were several cases of careless onlookers being wounded by fragments of shells from the anti-aircraft fire.

M. Teysiere, chief of the Paris fire department, died of suffocation while directing the rescue of victims of Wednesday night's raid.

PREMIER HUGHES ON ECONOMIC SITUATION

Australian Prime Minister Declares that Government Should Declare After War Policy to Dominions Without Delay.

(Via Reuter's Ottawa Agency.)

LONDON, June 28.—Speaking at a luncheon given by the London Chamber of Commerce in the Cannon Street Hotel yesterday, Premier Hughes, of Australia, referred to the economic situation, recalling that during his previous visit he had urged the need of Empire organization, and emphasized the folly of Great Britain's reverting to the fiscal and economic methods on which she had hitherto relied so long. We longed for peace, but was Great Britain any better prepared for peace than it has been for war? But for the war Germany would have destroyed our trade by peaceful penetration, and reduced us and most of our allies to a state of economic vassalage. The war had revealed that our industrial and commercial greatness was honeycombed by German influence and control.

Two things were necessary to enable us to hold our own. First, the ability to defend ourselves against our enemies; second, the ability to produce wealth and develop our economic resources of labor and capital, so as to support numbers of our people, and happy people. (Applause.) Any policy ignoring the intimate relationship between national safety and economic welfare, said Mr. Hughes, was doomed, sooner or later, to destroy the nation adopting it. Hitherto, however, Great Britain had treated these two essentials as separate entities. A country's economic safety and development rested upon the organization covering every part of the national economic sphere.

Germany's progress under such a policy has been phenomenal. Germany was today preparing for peace, as she did for war. Germany was the best organized nation. Great Britain's policy, except as regards the navy, was a policy of laissez faire. Nevertheless, we are superior to Germany in initiative and resource.

Has Great Britain organized for peace? That was the great question now, said Mr. Hughes, unless Britain was to sink into a third-rate nation after the war. He was glad to know that since he had last been here something had been done to organize our industries and prepare for peace.

He was not criticizing what had been done. He knew the difficulties; but not enough had been done.

Mr. Hughes emphasized the danger in which British commerce and industry would stand after the war unless we were at least as well organized as other nations.

After urging incessant and more vigorous war against pacifists, who, conspicuously or unconspicuously, are agents of the Germans, Mr. Hughes concluded by saying that effective action by the Dominions must await the formation of a clear and definite economic policy by Great Britain, which should be declared without delay.

PENSION SYSTEM FOR PRESS EMPLOYEES

(Associated Press Despatch)

NEW YORK, N. Y., June 28.—The Board of Directors of the Associated Press, has established a system of employees pensions, disability and death benefits, effective July 1st, 1918, and has set aside one hundred thousand dollars in Liberty Bonds from its emergency reserve funds for the inauguration of the plan.

VICTIMS OF SUB. LAND AT CANADIAN PORT

(Canadian Press Despatch)

HALIFAX, N. S., June 28.—A Sheburne, N. S., despatch filed at 9:18 this morning says:

"A fishing vessel landed here a boatload of sailors from a ship that had been torpedoed off the American coast. The men were picked up sixty miles south of Seal Island. They had been drifting for eight days surviving on a small quantity of bread and water."

A telephone message from Shelburne at 11:40 this morning says the boatload landed there contained 24 men and are from the steamer Dwinsk.

SPIRIT OF REVOLT SPREADS TO ARMY IN HUNGARY

Two Thousand Troops Involved in Mutiny Condemned to Death—Demonstrations Take Place in Austrian Cities.

(Canadian Press Despatch)

PARIS, June 28.—(Havas Agency)—There have been rebellious outbreaks among the garrisons of the cities of Győr and Pécs, Hungary, as a result of which 2,000 of the military involved in the mutiny have been condemned to death, according to reports received by the Matin today.

Both Austria and Hungary are affected by the revolutionary movement, which is said to be in progress on a large scale in Austria, the newspaper's advice de la. The spirit of the revolt is said to be strongly pervasive in the army.

Violent demonstrations are reported to have occurred in numerous cities.

Pécs is the Hungarian name for the city of Fünfkirchen, 105 miles southwest of Budapest. It has a population of about 45,000. Győr, more commonly known as Baab, is a city of more than 28,000 population, 67 miles northwest of Budapest.

PLAN TO CRUSH INDEPENDENCE OF POLAND

Germany and Bolshevik Government Enter Into Secret Treaty—Berlin to Dictate Policy to Govern Poles.

(Associated Press Despatch)

LONDON, June 28.—Germany and the Russian Bolshevik Government, in a secret convention regarding the future of Poland, have virtually agreed to co-operate in crushing Polish nationalist aspirations. Details of the treaty have been printed in the newspaper The Nation's Voice, of Cracow, Galicia, according to a despatch to the Times from Milan.

The Bolshevik Government pledged itself to recognize Austro-German hegemony in Poland and to aid in defending it against the former allies of Russia.

The Cracow newspaper describes the treaty as "a scandalous document, showing the treachery of the Bolsheviki and the baseness of the Germans." It gives the gist of the eight articles of the agreement, as follows:

First—The Polish policy shall be conducted by Germany.

Second—The Russian Government pledges itself not to interfere with the organization of Poland.

Third—The Russian Government may keep in touch with democratic and revolutionary clubs in Poland through agitators known to the German information bureau.

Fourth—The sending of agitators to Germany and Austria shall be suspended by the Russian Government.

Fifth—Russia shall exercise strict vigilance over Polish national groups so as to prevent them from enlisting in the Russian territorial army.

Sixth—Russia shall consider violation of the frontiers of Lithuania and the Ukraine by Polish troops as a declaration of war on Germany and Austria-Hungary and shall aid in crushing such troops.

Seventh—Russia shall prevent Russian citizens from investing their own or French, British or American capital in any industrial undertaking in Poland.

Eighth—Russia pledges itself to recognize the eventual new state of things to be created by Germany and Austria in Poland, and to defend it against Russia's former Allies.

SNOW STORM AND COLD WAVE IN GERMANY

LONDON, June 28.—Snow has fallen to a depth of from one to three inches in several parts of Germany, according to a despatch from Amsterdam to the Exchange Telegraph Company. Havoc has been caused to the fruit trees by frost. The cold wave, the message adds, is considered to be an economic catastrophe. Berlin and Hamburg have experienced four days of uninterrupted rain.

GOVERNOR-GENERAL PAID A HIGH TRIBUTE TO LENNOXVILLE SCHOOL ON OCCASION OF "OPENING"

Fine Traditions of the Old School are Today Being Carried Out in that Far Off Battle Field of Europe—Many Distinguished Guests Present at the Ceremonies—Congratulated Commander J. K. L. Ross on His Fine Gift.

Historic events are being recorded which period the early portion of the daily, especially "Over There" on the bloody battle-fields of Europe where so many brave lads are continually giving up their all for the cause of honor, justice and freedom, but an event which undoubtedly marks an epoch in the history of Canada was the official "opening" of the excellent new buildings of the Lennoxville School, probably better known as Bishop's College School, by His Excellency, the Duke of Devonshire, Governor-General of Canada. While the "opening" ceremonies were of the war-time nature, there being no elaborate programme of addresses, the event will not be forgotten by the huge throng in attendance. It was a most picturesque scene that was witnessed, many prominent ladies and gentlemen journeying from Montreal to be present, while Sherbrooke and Lennoxville society was very well represented, the bright colored dresses and hats of the ladies serving to add splendor and color to the scene. Conditions could hardly have been more favorable for such an occasion, and the programme was carried out in delightful style.

While a large portion of the guests witnessed the morning events, during the afternoon the early portion of the sports programme was carried out, it was after one o'clock before the chief event took place, namely the "opening" of the new buildings. The lawn in front of the new buildings was crowded with guests awaiting the arrival of the Governor-General, while the houses in Lennoxville along the route which the honored guests passed were decorated with flags and bunting in honor of the occasion.

On the arrival of His Excellency, accompanied by Commander J. K. L. Ross, donor of the fine new buildings, the Lennoxville School Cadet Corps under Capt. A. C. Price drew up for the official salute and after a few greetings, the Governor-General was handed the keys to the buildings. Even the keys were a fine piece of art, one side the words "Lennoxville School" and the date being seen, while on the other side was the "Ross Shield." His Excellency immediately opened the door of the main building and proceeding along the corridor, followed by the invited guests, he completed a tour of the whole building, and then used the second key to open that new building in which is to be found the assembly hall, dining room, (Continued on page 10.)

The marriage was solemnized in St. Mary's Church, Northampton, Mass. The bridesmaid was Miss Lilla Olney, sister of the bride, and the groomsmen, Mr. Edward Fitzpatrick, of Boston, Mass., cousin of the groom. The bride was gowned in white taffeta silk and georgette crepe, and wore a veil of orange blossoms, her bouquet being of roses and maiden hair ferns. The bridesmaid wore pink messaline, trimmed with rosebuds and pink hat to match. Immediately after breakfast, they left for their wedding trip to Danville, Que., the home of the bride, where a large reception was given, over 125 invited guests being present. The tables were laid on the lawn and a pleasant evening was spent. The bride's presents were numerous and beautiful including linen, cut glass, silver and cheques. The evening closed by the singing of the National Anthem.

Champion Asbestos Lined Copper Gaskets Mean Dependability

They are an exclusive patented feature of all Champions that insure dependable service under any condition of driving. They take

Champion Dependable Spark Plugs

out of the ordinary class and make them super-service plugs. They prevent any part of the porcelain from coming in contact with the hard steel shell.

The asbestos lining in the soft copper gasket rings form a cushion on each shoulder of the porcelain that absorbs the continuous, invisible blows of gas explosions in the motor cylinder and at the same time takes up the expansion caused by excessive heat.

There is a Champion for every make of engine, and the name "CHAMPION" on the porcelain guarantees "Absolute satisfaction to the user or free repairs or replacement will be made."

Ask any dealer for the Champion that will maintain maximum efficiency in your car.

Champion Spark Plug Co. of Canada, Limited Windsor, Ont.

Stop at the next Auto Supply Store and get a Champion "Minute" Spark Plug Cleaner. Cleans a set of plugs in a few minutes without even getting your hands dirty. Sell for \$1.00.

BEDFORD DISTRICT HAPPENINGS

Gatherings By Daily Record Correspondents in Various Communities.

COWANSVILLE

At about 9 a.m., Tuesday, the pupils, teachers and friends of Trinity Sunday School, started for Selby Lake on their annual picnic. A most enjoyable day was spent at this popular resort, games, races, bathing, and boating were indulged in. At noon a sumptuous lunch was served to about one hundred. Every one arrived home safely and voted that it had been the best ever.

Miss Annie Gatchner, spending a couple of weeks with her aunt, Mrs. C. Drake; Miss Molly Jamieson is spending a couple of weeks visiting her cousin, Mr. C. S. Jamieson, of Boston; Mrs. C. E. Hayes, of West Shefford, returned home on Sunday, after a few days with her friend, Mrs. Kerridge.

Mrs. Cote, Notary, successor of Mr. Marchessault, has arrived in town to take up his residence in Mr. J. Carson's house.

Mrs. Geo. Fuller, and two little sons, visiting Mrs. Adams, of Adamsville; Shirley and Adele Fuller, visiting their aunt, Mrs. O'Halloran, in Rock Island; Mrs. Parsons, of Stanstead, at her father's, Judge Hackett's; Mrs. I. McCabe, and little daughter, Ethel, of Richmond, with her sister, Mrs. George Johnston.

Master Clifford Johnston entertained a number of his little friends Tuesday, on the occasion of his fifth birthday.

Mr. A. McPhee was successfully operated on at the Royal Victoria Hospital, Montreal, for appendicitis.

Mrs. Rodger, who has been visiting Mrs. McOut, at Sixteen Island Lake, returned home Tuesday.

WARDEN

Mrs. Wm. Farley, sr., returned Saturday from a trip to Montreal; Misses Marion Robb and Irene Boright returned Monday from a visit to South Roxton, where they were guests of the Misses Daisy and Kathleen Reynolds; Miss Gladys Marston returned from Magog, where she taught during the past year; Miss Constance Premond has returned from Maple Road Convent; Mrs. M. A. Martin is the guest of her sister, Mrs. A. L. Whitcomb; Lieut. Barron W. Montfries, of Camp Devens, Ayer, Mass., made a visit here to see his mother; Mr. A. F. Bryant returned on Tuesday from East Bolton, where he attended the funeral of his sister-in-law.

A patriotic service will be given in the Methodist Church on Sunday afternoon by the children of the S. S. The collection will be devoted to patriotic purposes.

Mr. and Mrs. W. T. Wallace celebrated the 32nd anniversary of their marriage with a few friends at a dinner party at their home on Monday. This was the anniversary of the marriage of Mr. and Mrs. H. S. Newton, who were present. The 24th was the 15th anniversary of the marriage of Mr. and Mrs. W. H. Talbot, who celebrated the following day by a picnic to Bromé Lake. The day was ideal and the trip was much enjoyed.

Miss Florence Allen left on Wednesday for her home in West Shefford.

Mrs. Corkman is improving slowly from her recent illness.

Service at the Church of St. John the Divine will be at 8 o'clock Sunday evening, instead of 7.30, as formerly.

FACE COVERED WITH PIMPLES

ASHAMED TO GO OUT.

Many an otherwise beautiful and attractive face is sadly marred by unsightly pimples, blotches, flesh worms and various other blood diseases. Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends. Many a cheek and brow cast in the mould of beauty have been sadly defaced, their attractiveness lost and their possessor rendered unhappy for years.

Why, then, consent to rest under this cloud of embarrassment?

There is an effectual remedy for all these defects. It is Burdock Blood Bitters. This remedy will drive out all the impurities from the blood and leave the complexion healthy and clear.

Mrs. Katharine Henry, Fort Sydney, Ont., writes: "Two years ago my face was so covered with pimples I was ashamed to go out at all. I tried several remedies, but they were of no use. At last a friend advised me to try Burdock Blood Bitters. I got a bottle, and by the time it was used I could see a difference. I then got two more, and when I had used them the pimples were completely gone. I can highly recommend B.B.B. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont."

ABBOTSFORD

A large number met the noon train on Sunday to welcome home Pte. Victor Smeaton. He is the first of the Abbotford boys to return. Pte. Smeaton enlisted in the 8th University Corps. He escaped without wounds, but for the past few months has been suffering from shell shock.

Mr. and Mrs. Arthur Egg, Montreal, were recent guests at Naverna Cottage; Mrs. Wm. Egg is in Montreal; Dorothy Bussell is home from Macdonald College; Mr. A. H. Rowell and family, Dr. Watson and family have opened their homes here for the summer; the Misses Marshall, Miss Zelta Honey, Montreal, are at their respective homes for the summer.

Mr. Etienne and family, Montreal, are occupying Mr. Geo. Roach's cottage. Mrs. J. S. Crossfield is at Shefford

SHERBROOKE, guest of relatives. Messrs. A. R. McMaster, M.P., and W. R. Oliver, M.L.A., held a meeting in Mr. A. P. Cote's hall on Friday evening.

Mr. Ray Wing's house caught on fire, but was gotten under control by a little hard work. It is thought it started from a spark from the chimney. Some damage was caused to the roof.

SUTTON

Norman Edson has installed apparatus for framing, and will frame pictures at reasonable prices.

White-Canvas Shoes and Oxfords at Boright & Safford's.

DUNHAM

The Homemakers' Club met with Mrs. H. H. Smith on Saturday afternoon, and the report of the convention recently held at Macdonald College was read by Mrs. J. F. Yeats.

SELBY LAKE

The dance at the Lake View House on Saturday evening was a successful event.

Mrs. H. W. Jones, Waterloo, guest of her daughter, Mrs. H. E. Teel; Mr. S. J. Turner at Idle Hour cottage the week-end; Mr. and Mrs. J. Enis and daughter, Miss Doris Enis, with friends at Kamuzna cottage for the summer season.

A basket picnic will be held on the grounds at the Lake View House on Monday, July 1, followed by a dance in the evening.

IRON HILL

Mrs. McCutcheon went to Montreal Monday for a few days with her father and sister, Mr. and Miss Smith; Mrs. Winnie Patten, Richmond, Vt., is visiting at Mr. H. L. STEPS TAKEN TO STOP DESERTIONS FROM GERMANY

Charged Wire Fences at Swiss Frontier Ineffectual—Leave of Absence from Alsace-Lorraine Stopped.

PARIS, June 28.—Three barbed wire fences, one of which is charged with electricity, have proved ineffectual in preventing German soldiers from deserting across the frontier into Switzerland, says a Havas despatch from Basel. The German military authorities have attempted to remedy the evil by cancelling all leave of absence and special privileges for soldiers hailing from Alsace-Lorraine.

WAR GARDEN BULLETIN.

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in Collaboration with Experts on the Staff of the Dominion Experimental Farm.

GET THEM RIGHT.

Every vegetable used for canning, dehydrating or storing should be in perfect condition. For satisfactory results it is necessary not only to have products which are absolutely free from decay but to catch them at just the right stage of development.

Even if perfectly sound, over-ripe vegetables are not satisfactory for canning, because most vegetables undergo a decided change in texture as they reach maturity and become fibrous or pithy. This not only detracts from their quality but greatly increases the work of preparing them for canning or for drying and, later, for cooking.

One factor which makes for success in saving for winter is to have all the products as freshly gathered as possible. Vegetables which have once been allowed to wilt are not nearly so good in the final analysis as those which are canned, dried or stored when absolutely fresh from the garden.

A Serious Matter

There is delicacy about mentioning piles. And yet so many suffer needlessly who could be readily relieved and cured if they only knew about Dr. Chase's Ointment.

Men tell one another about this remarkably successful treatment. But many women pine away their health and vitality, dreading a surgical operation and not knowing how easily they can be cured at home by Dr. Chase's Ointment.

A PULPIT PUNSTER.

The Sinn Féin movement is responsible for the worst pun of the decade. A priest of Dublin began his discourse as follows: "There have been many eras in Irish history. We have had the Pagan era, the Christian era, and now we are having the Devil era" (De Valera.)

The Oases of Death

(By Capt. Lord Dunsany.)

While the German guns were pounding Amiens, and the battle of dull Prussianism against Liberty raged on, their buried Richthofen in the British lines.

They had laid him in a large tent with his broken machine outside it. Thence British airmen carried him to the quiet cemetery, and he was buried among the cypresses in this old resting place of French generations, just as though he had come there bringing no harm to France.

Five wreaths were on his coffin, placed there by those who had fought against him in the air. And under the wreaths on the coffin was spread the German flag.

When the funeral service was over three volleys were fired by the escort, and a hundred aviators paid their last respects to the grave of their greatest enemy; for the chivalry that the Prussians, never understanding it, have thrown to the winds, lives stronger than ever in the British race.

They buried Richthofen at evening, and three planes came droning some as they buried him, and the German guns roared on, and the guns of the Entente answered, defending Amiens. And in spite of all, the cemetery had the air of quiet, remaining calm and aloof as all French graveyards are. For they seem to have no part in the cataclysm that shakes all the world; they seem to withdraw amongst memories, and to be aloof from time and, above all, to be quite untroubled by the war that rages today, upon which they appear to look out listlessly from amongst their cypress and yew, and dimly, down a vista of centuries.

They are very strange, these little oases of death that remain unmoved and green, with their trees still growing, in the midst of a desolation as far as the eye can see, in which cities and villages and towns and hedges, and farms and fields and churches are all gone, where only a desert broods. It is as though death, stalking up and down through France for four years, sparing nothing, had recognized for his own his little gardens, and had spared only them.

When we had cleared the barge of its burden the dump made an imposing sight; it looked a mighty amount of work, and the R. E. subaltern was quite pleased with the job, and told us so, which of course put our officer in a good temper. He had worked as hard as any of us, in his shirt-sleeves, and he sang as loud as any of us on the way back.

And that was, now I come to look back, the opinion of all of us. We were jolly pleased to get to work again after a week's comparative inactivity, and besides, it was rather interesting wondering where the stores would go to, and the various adventures that would befall them before they fulfilled their destiny. There were quantities of planks which were obviously infant duckboards and the corrugated iron—well we had been familiar enough with that in England.

When we had cleared the barge of its burden the dump made an imposing sight; it looked a mighty amount of work, and the R. E. subaltern was quite pleased with the job, and told us so, which of course put our officer in a good temper. He had worked as hard as any of us, in his shirt-sleeves, and he sang as loud as any of us on the way back.

When we got to bed that night we felt quite contented with ourselves, and realized that working parties are not the evil things they are sometimes imagined to be by young soldiers.

Deaths Reported MR. WRIGHT HENRY, IRON HILL. IRON HILL, June 28.—(Special)—Mr. Wright Henry passed away at the home of his daughter, Mrs. H. L. Hastings, Tuesday evening, surviving a paralytic stroke only a few days. The funeral service was held at the residence, Thursday, conducted by Rev. Wright, Methodist minister of West Bromé, and Rev. A. Wallace, pastor of the Evangelical Adventist Church of this place. Interment in the Union Cemetery, Iron Hill. The funeral was largely attended by old friends and neighbors, by whom deceased was held in high esteem.

MR. JAMES O'NEIL, FRELIGHSBURG. FRELIGHSBURG, June 28.—(Special)—There passed to rest another old and respected resident on Monday morning in the person of Mr. James O'Neil, after over five years of ill health. He was well known throughout the province as well as in the States, as he travelled for the O. S. Rixford Manufacturing Co. for years until his health failed. He will be much missed, as he was of a cheerful and genial disposition. He leaves to mourn his loss a widow and one son, John O'Neil, who is now in France. The funeral took place at the R. C. Church on Thursday at 10 a.m., manager, Mr. Alex Dupuis; bearers, Messrs. N. Paquette, B. Chalifoux, Henry Thompson, Arthur St. Marie, Thos. Cassidy and Homer Levitt; W. A. Reynolds, undertaker.

When we got to bed that night we felt quite contented with ourselves, and realized that working parties are not the evil things they are sometimes imagined to be by young soldiers.

REV. MR. CALLIS UNDERWENT ANOTHER OPERATION.

Rev. Philip Callis went to the Royal Victoria Hospital, Montreal, on Monday, and after an examination it was found necessary for him to undergo another operation on his eyes, which will be performed today at that institution. Mrs. Callis went to Montreal yesterday and will remain with her husband until he is able to accompany her to Pointe Bleue, which it is expected will be in a few days.

ANOTHER CHALLENGE TO PRAYER.

Sunday, June 30th., has been chosen by the Government of Canada as a day on which Christians of all colors and creeds throughout the Dominion are urged to humiliation and prayer. It may not seem like making much sacrifice to devote a Sunday to prayer; but all the same, it will mean a great deal to the nation and to the cause of the Allies if all the churches of the land be found in special prayer at the throne of grace on Sunday, June 30th. Let all the pastors preach on the subject of prayer, or at least make some extended reference to its privilege and necessity on that day; and let all the people, at home and in the public services, give themselves to prayer and supplication, and we may well expect results that shall gladden the hearts of all. "More is wrought by prayer than this world dreams of."

DR. HAYES GAVE AN INTERESTING TALK AT MAGOG

Spoke of Work of Registration and of the Necessity of Good Roads at Summer Meeting of Associated Boards of Trade.

One of the chief speakers at the summer meeting of the Associated Boards of Trade held in Magog was Dr. John Hayes, of Richmond, superintendent for this district of the work of registration. Dr. Hayes gave an interesting outline of the work that has been accomplished, its necessity at this critical time and its meaning. He said he was pleased to announce that the work of national registration was now practically completed. "To those who have already registered let me say that in performing this act they have asserted their patriotism as citizens of no mean country; to those who have not registered, the opportunity still remains open for thirty days, after which those who fail or neglect to fulfill this obligation are not likely to have a very enjoyable time with the many severe and disabling penalties to which they may be subjected. I am proud to say that the work has been well done in the Eastern Townships, thanks to the generous response made by many organizations of our community life.

"National registration will furnish a rational basis for many after war activities, not the least will be to dispose of the available labor for the furtherance of such projects as road construction, etc., in which we are so vitally interested. For immediate purposes it will help to establish rationing on a proper basis, if that should prove necessary, as it may perhaps be, to get the full effect of Canada's economic effort in the world war. Again, national registration will furnish accurate data concerning the large number of new arrivals from European countries to Canada during the years immediately preceding the war, and of which no record was extant."

SOME PROGRESS MADE IN ROAD BUILDING.

Speaking of the road question, Dr. Hayes said in part: "Despite the many difficulties which recently have arisen in connection with this work, some progress has been made. Already very great number of municipalities along certain well-defined regional main highways have petitioned the Government for the necessary funds to carry on the projected work, the labor shortage being the greatest obstacle at present. The inspiring addresses which these boards have listened to—last year at Waterloo by Col. Sohier, of the Massachusetts State Highway Commission, and this day by ex-Governor Gates, of Vermont—have done much to bring home to us the necessity of closely studying our local conditions.

TAKE INTO ACCOUNT VERMONT'S EXAMPLE.

"Conditions in Vermont closely resemble our own, and we should ponder well on the wise councils of Vermont's ex-governor today, to secure the best immediate results according to the means at our disposal. We can well imitate the Green Mountain State by the construction of gravel roads where that is possible.

HAVE GREAT OPPORTUNITIES.

"Coming here today I could not but reflect on nature's bountiful dispensation of gifts to these great Townships. Everywhere beautiful scenery, rich agricultural lands, a wealth of great lakes and splendid rivers, such a land as well could be made into a tourists' paradise did our highways but permit their freer coming. "All along the beautiful valley of the St. Francis, from the St. Lawrence to Lake Memphremagog, lies the material from which to construct another great link in the provincial system of highways. A gravelled road from here to the St. Lawrence, then to connect with the national highway on the north shore, would admit to the province a stream of tourists and increasing prosperity to all classes of our population. This work could be done at comparatively small cost per mile. There are gravel beds all along this highway which could be readily utilized, and we cannot too frequently insist on our Government authorities taking up actively the study of this subject. The information given today by ex-Governor Gates should be known to everyone concerned with our road problems. Let us learn from the acquired experience of our great neighbors to the south of us; they are our allies in the great fight for human liberty and happiness, and we may well march on together in making material betterments for the future progress and prosperity of our respective countries."

MARRIAGES
MacLEOD—MacDONALD.
A pretty wedding took place on Wednesday evening, June 26, when Miss Catherine Anna MacDonald, of Scotstown, Quebec, was united in marriage with Mr. David MacLeod, also of Scotstown. The bride wore suit of navy blue taffeta with white panama hat. The ceremony took place at the Manse, with Rev. Alfred Bright, of St. Andrew's Church, officiating.
Mr. and Mrs. MacLeod left immediately for their honeymoon, and will later reside at Scotstown.
THE BELGIAN AND HIS DAUGHTER
She was wea knad fragile, hungry, and cold,
As she knelt by her father's side
And softly kissed a crucifix,
Emblem of Him who died.
She breathed a prayer for patience
As she lowly bowed her head,
For her brother and her lover
Were numbered with the dead.
She touched her father gently,
To recall him to his place,
And with gentle, loving fingers,
Cared his careworn face.
"Father," she whispered softly,
Pressing closer to his knee,
"Do you think that God in Heaven
Has forgotten you and me?"
You know you always told me
That He was wondrous kind,
How could he let those cruel men
Make my poor father blind?
And take my darling mother,
And my gentle sister, Beth,
To a life of shame and slavery,
More bitter far than death?"
"Hush, hush, my child," he answered,
As his arms around her fold,
And he pressed her to his bosom
To shield her from the cold.
Has my daughter dear forgotten,
The sufferings of God's son,
And how He prayed amid it all,
"Thy will, not mine, be done?"
"This is the ante chamber
To God's eternal day,
And though its dark and gloomy,
Light is not far away."
And as they talked together
Of unseen things above,
And cheered their fainting spirits
With thoughts of Christ's dear love.
A bomb loud bursting overhead
Wrought desolation dire,
And the father and the daughter
Went home in flames of fire.

WELCOME TO WINDSOR MEN
Three Returned Soldiers Given Hearty Reception on Their Return from Overseas Wounded.
WINDSOR MILLS, June 28.—(Special)—On Wednesday night at the Royal Templars lodge room, Pte. G. R. Huxtable, Pte. Howard Cascaden and Pte. George Robb, all of whom are members of the lodge, were welcomed home again by a large number of friends. Mr. Walter Wheeler occupied the chair and briefly explained the object of the meeting. A fine programme of music was arranged. The opening chorus was well rendered by the choir, after which the chairman asked the Rev. Chas. Huxtable to address the meeting and welcome the boys back. Mr. Huxtable said that as one of the boys was his own son, it was hard for him to repress his feelings and do justice to the welcome which all present cordially gave, and hoped they would all speedily recover from their wounds. The speaker pointed out by several instances in the history of the world God caused the work of wicked men to redound to His glory, and no doubt the present war would make the world better for all to live in. Short addresses were delivered by Dr. Tanner, Messrs. J. M. Caswell and Angus McIntyre. The programme was as follows: piano duet, Miss Power and Miss Robb; reading by Chas. Carroll; recitation by Master Gilbert; piano solo, Miss Caswell; recitation, Highland Brigade, Miss Hodgson; reading, The Volunteers, Norris Bailey; piano solo, Miss McIntyre; humorous Irish recitation by Mrs. C. Chapman, who was encored and gave in reply a letter from Tracey; solo song, Indiana, the chairman; piano solo, Miss Ferguson; recitation, Miss L. Frame; Frame; solo, Miss Irene Cote; recitation, Mrs. C. Chapman. A very pleasant evening was brought to a close by all singing God Save the King, after which refreshments were served.
Visits Old Friends.
L.-Corp. Ernest Taylor, a Windsor boy who left here for Victoria, B.C., and went with the first contingent from B.C. to the front, has been invited home, and on his way arrived at Windsor on Tuesday to see his old friends. He leaves on Saturday for Ottawa and then for his home in Victoria. His many friends were pleased to see him, and wish him a speedy recovery.

English as a World Language.
English is well adapted to use as a world language because of its rich vocabulary and its grammatical simplicity. It is the literature of liberty and social equality. The fundamental hindrance to the spread of the English language as a world language is its irrational spelling. It is difficult because of the confusion of letters and the confusion of representations. If these objections were removed and the proportional rate of increase of the nineteenth century continues English will be the language of the world.—De Witt Croissant at Chautauque.

MANY ATTRACTED BY THE GARDEN PARTY

"Gleaners" Gave a Most Successful Party Yesterday Afternoon and Evening.

Sunshine, flowers and music marked the garden party of the Gleaners, a young society of the Methodist Church, given yesterday on the grounds of Mrs. B. C. Howard, London street, and general gaiety and enjoyment prevailed.

The veranda and the portico were draped with brilliant flags. Mrs. Howard received the numerous guests. Small tables centered with flowers were arranged, and many taken possession of. Ice and cooling beverages were served by the members of the society, and popcorn and flowers were offered for sale by pretty white-frooked children.

An irresistible attraction was a donkey cart, which made many round trips during the afternoon, crowded with youngsters. In the evening Japanese lanterns began to glow amongst the trees and the scene was one of real beauty, the music of the orchestra adding to the pleasure of the occasion.

Mrs. A. H. Foss, joint superintendent of the Gleaners, was in general

THE RAPE PLANT, ITS CULTURE, USE AND VALUE

Worthy of a More Extensive Use— Makes Strong Rapid Growth and Nutritious for Stock.

Among all forage plants possible and profitable of cultivation in Canada, none seems worthier of a more extensive use than rape. It is simple of culture; it makes a strong, rapid growth; it adapts itself quite readily to different soils and to various climatic conditions; responds vigorously to fertilizer and to good cultivation; and, most important of all its good qualities, it is a palatable, wholesome and nutritious green food for all kinds of live stock on the average Canadian farm.

The seed used is biennial, but seldom lives through the Canadian winters. The variety most commonly used in Canada is the Dwarf Essex. The rape stems and leaves resemble those of Swedish turnips, but the roots are like those of cabbage. The leaves are numerous, smooth, irregular in outline and covered with a bluish bloom. The plant grows to a height of from one to four feet, according to soil and season.

Rape may be classed as root or hoed crops; it does best on soil rich in plant food and full of humus, prepared in a manner such as for roots or corn. New land may be most profitably used to grow this crop for a year or two immediately after being cleared; black

soil or muck gives good returns also. The seeding season extends from the first week in May until the end of August, subject to climatic conditions. It may be sown in rows or broadcast. When sown broadcast about four pounds per acre is used. However, a larger quantity of seed should be used when it is intended to cut as soon after seeding as possible; a lesser quantity where it is intended to permit the plants to attain their full growth. When sown in rows, preferably 22 inches apart to permit of horse cultivation, about four pounds per acre of seed is used. The method of seeding in rows is, generally speaking, much to be preferred over the broadcast. The principal reasons are: (1) greater proportion of leaf to stem; (2) more rapid and vigorous growth; (3) less waste when pastured; (4) permits of cultivation.

Rape is an exceedingly valuable food; it is especially well fitted for sheep, swine, young cattle and steers, and has also been fed to dairy cows with good results. In feeding rape to cattle and sheep care should be taken to prevent bloating; they should never be permitted to enter a rape field when very hungry; more especially if the rape is wet from dew, rain or frost. Once accustomed to the feed, however, and having access to it at all times, little danger may be anticipated.

On account of its very juicy nature, it is practically impossible to cure rape, and it is not much used in making ensilage. In sections where rather steady frost maintains once the hard frosts come, rape may be cut and put into small piles to freeze. It should be taken to the stable the day before required for feed and allowed to thaw out completely before being fed. Repeated thawing and freezing spoils it for forage.

HOW PERSIAN LAMB AND ASTRAKAN FURS ARE OBTAINED

Persian lamb fur, states a pamphlet issued by the Live Stock Branch, Ottawa, that can be had free from the Publications Branch, Department of Agriculture, is the primary marketable product from Karakul sheep. Both in Canada and the United States there is a keen demand for this fur, which is being filled mostly from Asiatic countries, through the production of these same Karakul sheep. This Persian lamb is obtained from killing the young Karakul lamb when only a few days old; at this age the skin is very black and tightly curled, while as the lamb becomes older the curl rapidly loosens. The qualities deter-

mining the value of a skin are lightness and size of curl, the lustre and size of the skin. Another grade of fur, the product of the Karakul, is broadtail or baby lamb, the skin of prematurely born lambs. When these skins are strong and of good size they usually possess more lustre and a longer, closer curl than do the other grades. Astrakhan fur is the dressed and dyed skins of young Karakul lambs which do not possess the regular tight curl, but rather loose and open. Astrakhan is also frequently the result of late killing. These three classes of fur, Persian lamb, broadtail and Astrakhan, are invariably black when taken from the young Karakul. There is, however, a fourth grade which is usually included with the above by the fur trade, namely, Krimmer fur. This class is very similar to the Astrakhan, except that it is grey and is dressed in its natural state. It is said to be the product of the Karakul produced mainly in the Crimean Peninsula. The Karakul has now been introduced into Canada, especially in Nova Scotia, where it is crossed with commercial success on Lincolns, Cotswolds and Leicester. The skins so produced are worth from \$5 to \$7. The wool of the Karakul and its crosses varies in color from light gray to black. So far the Karakul industry in Canada is only in the experimental stage, but there seems to be no good reason why Persian lamb, Astrakhan and other similar classes of fur cannot be produced in this country.

INCREASED PRODUCTION COMPETITION

Rules and Regulations Regarding Organizations in Stanstead and Sherbrooke Circuits.

In the Spring time the Provincial Department of Agriculture asked that each municipality organize an Agricultural Committee. The work of this committee was to try and have the farmers increase their production this year; 2, To see that all farmers had a sufficient supply of good seed; 3, To aid the farmers in securing the necessary farm help; 4, To see that the farmers found the necessary Spray material for the coming summer; 5, To organize a competition for increased production.

The following are the main points of the competition. Each municipality who has a competition, if there is a Farmers' Club in the municipality, the competition will be held under the Club. Every other person in the municipality wishing to enter the competition must join the Club. In the municipality where there is no Farmers' Club a fee of 50c. will be charged. Only those who have at least one-fifth of their tillable land under cultivation will be allowed to compete. When there are 20 competitors \$75 will be divided in 10 prizes. When there is less than 20 competitors and more than 15, \$50 will be divided in eight prizes.

The visit of the judges to award the prizes, will take place during the month of August. All those wishing to enter the competition must give their name to the Secretary of the Agricultural Committee in their municipality by the first of July. The following are the Secretaries of these Committees, in the various municipalities in the Counties of Sherbrooke and Stanstead:

Ascot Corner—Secretary, J. S. Gosse, Ascot Corner.

St. Hermenegilde—Secretary, O. Hénault, St. Hermenegilde.

Grain Acreage of Prairie Provinces.

The acreage sown to wheat in the prairie provinces totals 15,196,300 acres as against 13,619,410 acres last year, to oats 8,767,000 acres as against 8,559,500 acres, and to barley 1,845,500 acres, as against 1,850,000 acres. To wheat Manitoba has sown 2,618,000, Saskatchewan, 9,222,000 and Alberta 3,356,300 acres. Under oats the acreages are for Manitoba 1,500,000, for Saskatchewan 4,602,000 and for Alberta 2,665,000, whilst for barley Manitoba has 715,000 acres, Saskatchewan 663,500 acres, and Alberta 467,000 acres.

GRAIN CROPS IN DOMINION

Throughout the west the month of May was exceptionally cold, with heavy frosts and consequent retarding of growth. According to the reports of Crop correspondents, expressed numerically in percentage of the average yield of the past ten years, the condition of the principal grain crops was on May 31 as follows: Fall wheat 80 as against 85 last year; spring wheat 101, as against 93; all wheat 100.5 as against 92; oats 102 as against 91, barley 101 as against 95, and rye 95 as against 97. For other crops the condition on May 31 this year, expressed in percentage of the decennial average, was: Peas and mixed grains 169, hay and clover 101, alfalfa 97 and pastures 100.

Recent Reports of Provincial Departments of Agriculture

Ontario reports (June 5) that timely rains with warm weather have favoured the growth of all field crops. Prospects are excellent for another good hay crop, and spring grains never better promise at the beginning of June. Saskatchewan reports (May 28) that rain and snow were general throughout the province during the week with the exception of some parts of western Saskatchewan. Alberta reports (June 10) that warmer weather has been prevalent during the past week with light local showers. Growth generally is coming along fairly fast.

COVER CROPS IN ORCHARDS

The main uses of the cover crop in the orchard are: to hold snow in winter, and thus afford greater protection to the roots of trees; to prevent the thawing and freezing of the ground; to lessen the depth to which the frost will go in the soil; to furnish vegetable matter in the spring for the purpose of obtaining humus and nitrogen; and to act as a catch-crop in autumn to prevent the leaching of plant food made available during the summer. The cover crop is also a means of reducing the moisture in the soil by transpiration, and thus aids in ripening the wood of fruit trees liable to be injured. Where the soil has been long cultivated, and needs additional plant food, especially nitrogen, leguminous plants, such as clover and vetches, which will take free nitrogen from the air, and thus add a large quantity of this useful and expensive fertilizer to the soil at slight cost, are usually best; while where the soil has not been long under cultivation and is well supplied with humus and nitrogen, a non-leguminous plant such as rape or buckwheat may be better, as the holding of snow and the protection of the roots of the trees are then more important than adding fertility to the soil, especially where the snow-fall is light.

In the colder parts of Canada, where there is usually plenty of moisture in summer, it is better to sow seed for the cover crop in the first half of July or even in late June, rather than in the second half of July, as it is important to have the wood of trees thoroughly ripened before winter sets in, and by sowing the seed early the growth of the tree should be aided in ripening by the drying of the soil caused by the transpiration of moisture from the growing cover crop. In the dry, and milder parts of Canada it is not necessary to sow seed for the cover crop until about the middle of July, as the early ripening of the wood is not so important as the conserving of moisture in the soil by cultivation through the early part of the summer. No nurse crop is as a rule, necessary. Some of the desirable characteristics of a good plant for cover crops are, first, that it will germinate quickly and grow rapidly, so that weeds will be checked. It should be a strong grower, as there should be a dense cover to prevent the frost from penetrating deeply into the ground. It should stand fairly erect, so that it will hold the snow well in winter. It should also be a plant which can be easily handled in the orchard. In districts where there is danger of making the soil too dry by late growth, a cover crop should be chosen which June

An Ideal installed now will pay its own cost quicker than ever before

Thousands of Ideal Green Feed Silos have earned their own cost the first year on Canadian farms.

But an Ideal erected on your place this summer will pay for itself in less time than ever before. Why?

Because it will greatly reduce the amount of dry feed you'll have to provide for your stock next winter—and mill and grain feeds are higher than in many years.

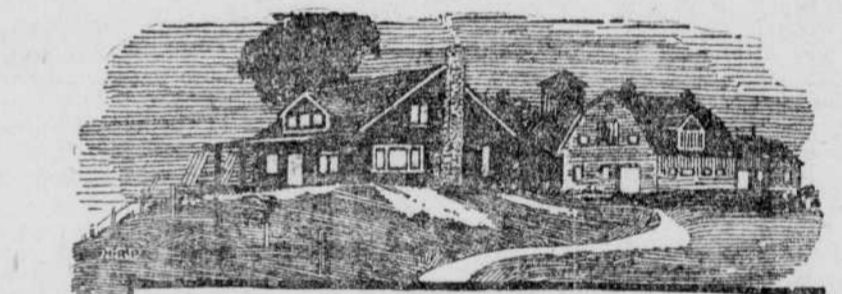

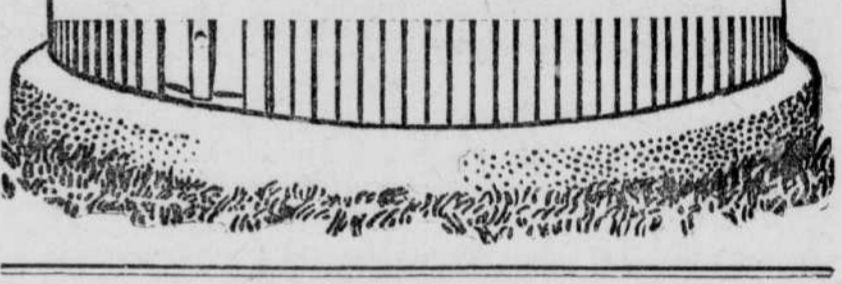

And because it will enable your cows to give 20 to 25 per cent more milk—and butter-fat is bringing 40 to 60 cents a pound, as against 20 to 30 cents in other years.

Figure it out. Write today for our illustrated silo catalogue. You've no time to lose if you hope to get your silo erected in time to take care of your 1918 corn crop.

CONDITION OF CROPS IN EUROPE

Report of Bureau of General Statistics of the International Institute of Agriculture.

The difficulty of obtaining their food supplies, experienced in the principal

countries of Europe during the season 1917-18 has induced the governments concerned to guard against the occurrence of similar difficulties in the ensuing season, by an increase of national production. How far has this aim been realized? It is too early to give any accurate forecast, but we are able to deal with two factors that allow us to form some idea as to what we have the right to expect from the agricultural production of 1918. These two factors include the extent of the areas sown, and the condition of the crops on 1st May after the final disappearance of winter.

The May Bulletin of Agricultural and Commercial Statistics, published by the International Institute of Agriculture in Rome, supplies interesting data on both these points of view. With regard to the areas sown for the season 1917-18 in the northern hemisphere, we find that of all the countries where definite figures are available, Denmark, France, Great Britain, Luxembourg, United States, British India, Japan, Tunis, indicate areas sown

The Government's Advice to Farmers on Cows

In the interest of every farmer and dairyman the Dominion Government has issued a special circular pointing out the value of the Milking Machine under the present conditions of labor on the farm.

Mr. J. H. Giesdale, B. Agr., Director of the Dominion Experimental Farms says, "The present is no time to let things stand in the way of increased production, and every farmer with a herd of twelve or more cows, should seriously consider the installation of a milking machine. Three years' experience of mechanical milkers on the Central Experimental Farm shows that cows do not dry off more quickly than when milked by hand. Cows have no more objection to being milked by a milking machine than to being milked by hand."

The experience of an ever increasing number of farmers, backed by the opinion of the leading Experimental Farms and Stations prove that

EMPIRE MILKING MACHINES

Increase production and save money and time, one machine doing the same work as three hired men. On account of its simplicity, a boy or girl can operate an Empire with ease—doing the work with uniformity and without injury to the cows.

You can help the cause of the Allies by keeping and enlarging your herds despite the shortage of labor. Empire Milking Machines will do the milking for you, cheaper and quicker than hired men.

HEAVY LOSS OF STOCK.

BROME, June 26.—(Special.)—Mr. John Johnston recently found one of his matched pair of mares dead in the pasture. Mr. Johnston had refused \$600 for the pair but a short time ago. The loss of stock throughout the Eastern Townships during the past few months is appalling and together with the severe winter on meadows and pastures, the latter of

which is causing a large decrease in the milk flow, followed by the damaging frosts, and the high taxes, makes the farmers sit up and take notice.

FARM PROPERTY LONG TIME IN ONE FAMILY.

WARDEN, June 23.—(Special.)—Mr. Austin Manning sold his splendid farm to Messrs. Logan and Galbraith for \$9,500. This farm has been in the Newton and Manning families for upwards of 150 years. Mr. Manning's great grandfather, a Mr. Newton, came there from New Hampshire. The house has been built 130 years, but is in good repair, as all the buildings are. Mr. and Miss Manning are moving to Eastern Ave., Waterloo, for the present, as they have to give immediate possession.

SPREAD OF BEE DISEASES

Wherever Indications Point to Trouble Steps Should Be Taken to Eradicate Disease.

The widespread demand for bees this year has increased the risk of the spread of bee diseases. Two of these, American Foul Brood and European Foul Brood cause a heavy loss to the beekeeping industry every year, and wherever they are found, they should be treated promptly and reported to the provincial apiarist or bee inspector.

Every beekeeper should know how to recognize these diseases, and how to distinguish them from the less serious Sacbrood.

In America Foul Brood, the bee larva or maggot, in the stage just after it is capped over with wax, becomes a viscid coffee-coloured mass which can be made to rope out an inch or more and has an unpleasant glue-pot odour. Cells containing the rotten larvae have their cappings discoloured, sunken, irregularly perforated or removed altogether. The remains dry to a scale which adheres tightly to the wall of the cell. This disease must be treated by shaking the bees into a clean hive containing frames fitted with narrow strips of foundation, and burning or boiling the combs, as explained in the Experimental Farms Bulletin No. 26, (Second Series) "Bees and How to Keep them."

European Foul Brood attacks most of the larvae before they are capped over while they lie curled up in the bottom of the cell. The larva turns yellowish or greyish and melts into a pulp which will not rope or will rope but little, and has a slightly sour odour. A few capped larvae are often affected. Sometimes a fetid odour is present. The dried scale is easily removed. Italian bees will resist this disease, and therefore the best treatment is to introduce Italian queens of a good strain. The shaking treatment should also be carried out in many cases.

In Sacbrood the dead larva with darkened skin lies extended in the cell. Usually the entire larva can be removed from the cell without breaking the skin. On puncturing the skin the contents are found to be more or less watery. Colonies affected by this disease usually recover and no treatment is necessary.

To guard against foul brood, do not buy bees on combs or used bee supplies, unless you are sure they are clean. Do not feed your bees with honey from another apiary. Keep the colonies strong and avoid robbing. If European Foul Brood is in the district, Italianize without delay.

CONDITION OF CROPS IN EUROPE

(Continued from page 6.)

with wheat this year decidedly larger than those of the previous agricultural season. For the United States and for British India, in particular, the increase of winter sowings is about 5 per cent.

Only in Spain and Canada have the sowings decreased, but very slightly (less than 2 per cent.) in Spain, though 13 per cent. in Canada. We must remember that we are dealing for Canada with winter wheat only, and that generally this description is no more than one-tenth of the total crop.

What was the condition of these crops on 1st May last? Here also is reason for satisfaction.

The information furnished by the Bulletin of Agricultural and Commercial Statistics allows it to be stated that the condition of crops at that date was very good in Ireland, good in Spain, Great Britain, France, Morocco and Tunis. The same may be said as regards the spring sowing in Canada, which, as we have seen, is the most important crop in that country. Crop prospects were average ones in Italy, Switzerland, the United States and Egypt, and the position was a bad one only for the winter wheat crop in Canada.

In the United States, the Bureau of Crop Estimates, taking as a basis the condition of the winter wheat and rye crops on 1st April last and the areas under these two cereals, estimates that, if circumstances are normal from that date till harvest time, the farmers of that country will reap 152,410 thousands of quintals of winter wheat and 21,845 thousands of quintals of rye. The crop in 1917 was 113,782 thousands for the first named, and 15,277 thousands of quintals for the latter.

To sum up, we are enabled to say that, both on account of the increase in areas sown, and of the decidedly favorable condition of the crops on 1st May, we have the right to expect in the coming summer a better crop of food grain than in 1917.

Market your wool through the co-operative association and get the manufacturers' price.

The herd or flock will not be improved if you continue to sell your best breeding stock.

It is estimated that the world's export output of frozen and chilled beef, mutton and lamb last year was

965,000 tons, as compared with 915,380 tons in 1916, and 800,375 tons in 1914.

It is claimed that the United Kingdom alone requires 2,500,000,000 pounds of beef and pork from abroad during 1918.

The herd bull and calves which are confined to the stable should be given fresh grass instead of dry hay. This entails a little extra work but it pays.

The census returns of last July accounted for 12,443,304 cattle, 10,558,594 sheep and 4,200,280 pigs in France. These totals compare favorably with those of 1916.

Cut the burrs and burdocks growing along the fences this summer, and so make it impossible for the cattle and sheep to become matted with burrs in the fall.

The fence around the sheep pas-

ture should be put in good repair early in the season. Once sheep commence going through, over or under the fence, it is almost impossible to stop them.

The fly season is with us again, and the stock in stable and field are being tormented with these pests. It will pay to assist the stock in fighting them off. Applying some oily solution to the body and darkening the stable will help.

Canada's normal annual consumption per capita of beef and pork is estimated at 128 pounds. In Great Britain the normal per capita consumption of these products is 96 pounds. Practically double the quantity of fish is consumed per capita in Great Britain compared with Canada.

If the stock are pasturing in one big field, it may pay to run a temporary fence across it. While one part of this field is being cropped the oth-

er part will freshen up and more feed will be obtained during the season than would be the case were the herd to have free run of the entire field. It does not pay to crop the grass too closely.

It is usually the half-starved cur that is allowed to roam at large which causes depredation in the sheep lot. A good dog is an asset to the farm, but we fail to see a place for some of the canines seen on the streets of many of our villages and towns. Fewer dogs and more hogs might work to an economic advantage.

A SEA OF TROUBLE
The twins had gone in swimming without mother's permission, and they anticipated trouble.

"Well," said Tommy, philosophically, "we're both in the same boat anyhow."
"Yes," returned Ray, the humorist of the family, "but I'm afraid it's a whale boat."

Delight of Berlin Life.
One of the beauties of autocratic government, says the Springfield Union, is shown in the snow-removal order issued by the military authorities in Berlin, under the provisions of which every property owner is required to remove the snow not only from his sidewalk, but from the roadway as far as the center of the street, and is authorized to call on all tenants between the ages of fourteen and sixty to assist him in this work. Failure to comply with the order is punishable with a fine of not more than \$575 or imprisonment for not more than a year, and the police are authorized to handle all such cases without the formality of a trial.

Eight million persons have died of the plague in India within fourteen years. The disease is spread by rats and fleas. When the religion of a people is opposed to taking life—even to the extent of killing the fleas—it becomes somewhat difficult to exterminate such diseases.

We Could Close Our 22 Stores And Tailor Shops With Profit If We Were Minded To Do So

WE could hoard up our woollens against the time when they would be in demand at treble the prices they command today. But we have never taken this view of the situation—we are in business to do business—in fact we take just a bit of personal pride in our wartime record—there has been no interruption to the good and satisfactory service we have been giving our patrons.

Today you should welcome an investment opportunity such as we are offering—and remember that our Made-to-Measure Garments will pay for themselves twice over—you will do well to order now for future needs while we are able to quote our present standard price.

WE were never as busy as now in our 22 Stores and Tailor Shops taking orders for and making garments to measure. Many of our customers are placing orders and are frankly telling us that they have no need for the garments until a year or more from now, but that they are ordering against the rise in price. We cannot urge with too much emphasis that our patrons fortify themselves now for future needs—woollen prices will be almost unbelievably higher in the very near future.

Don't Depend on Pasture

But Feed a Supplementary Ration to Your Live Stock

In the Old Country, where the grass keeps so fresh and green all the summer, they almost all feed Linseed Oil Cake to their live stock to supplement the grass.

On the other hand, in the East where there is a hot sun and often dry summers, the pasture lands soon dry up, the grass is not so succulent, and there is frequently not sufficient to more than barely sustain the animals.

Milch cows cannot produce nearly their best, and the other live stock can barely hold their own, which means a LOSS all summer.

Many of the best Canadian farmers today are adopting this same plan of supplementary feeding.

One of the best and most profitable rations for this purpose is

Linseed Oil Cake

Maple Leaf

It means a big profit to the farmer for the reason that his milch cows will give more milk and maintain it longer all summer, also the calves, stockers, etc., will gain weight throughout the entire summer. Order some MAPLE LEAF LINSEED OIL CAKE today and feed it to some of your stock, and note the difference. Write for price and FREE booklet, "Facts to Feeders."

KITCHENER IN THE EAST.

What the National Hero Accomplished in Africa. The late Lord Kitchener first went to Egypt in 1882, when he volunteered for the army then being organized by Sir Evelyn Wood.

Cloudy and chilly days come occasionally, reminding one that another season is at its close. What have you gained from your summer days? Is your body stronger, your mind fuller of stored knowledge, your soul grown to wider appreciation of the true things of life?

When Lord Roberts went to South Africa to take command against the Boers Kitchener went as his chief of staff and is credited with having organized the forces which brought the war to a successful conclusion.

were full of praise of these noble women. Then Sen. Foster asked the Chasseurs to take a message also to the Canadian boys in France to tell them that the heart of Canada was as warmly and as staunchly behind them now as at the beginning of the struggle.

There was a message, too, for the business men of France.

"Tell them," said the speaker, "that the end of the war will find Canada ready to tackle the great problems that confront her with courage and the determination to strike a blow at everything that aims at the national life of this country. When we have ships of our own, built with Canadian money—not German—in Canadian yards, and manned by Canadian sailors, we want to trade and do business with the nations of the world, we want to trade with France. We want to build up Canada and France together, as we hope to aid in building up the other allied nations by trade and commerce with them. Treaties will be made, but whatever they are there is no man in Canada who wants to see a bushel of Canadian grain or a dollar of Canadian money go to Germany as long as he is alive."

that soil was stolen by them four years from the last foot of French territory, ago or forty."

"We wish to send back by you a message to your country," went on Sen. Foster, addressing the Little Blue Devils, who occupied the post of honor at the central table. "We wish you to express to that great, noble, wonderful army all the admiration we feel for it and all the support that we wish to give it. We wish you to tell that army that it is not less adored and loved in Canada than within the boundaries of its own country."

ROCK ISLAND AND DERBY LINE

Automobile Went Down Embankment But Occupants Escaped Injury—Employees to Take Holiday.

ROCK ISLAND, June 28.—(Special.)—A bad auto accident, happily with no fatal results, occurred on the curve on what is known as Martin's Hill, Wednesday evening, when Herman Simmons and a party of three others were on the way to Beebe. The driver attempted to change places with the other occupant of the front seat without stopping the car, with the result that the car and all passengers went through the fence and down 80 feet towards the river. The bank is very steep at this point, but not a straight drop, otherwise there would undoubtedly have been some loss of life. However, the parties all escaped with a few scratches and bruises, but the auto was pretty well destroyed, and it is little short of a miracle that the occupants escaped without serious injury.

The Portland, Me., Sunday Telegram, of June 23, has the following: "Montgomery S. Gibson, who died at the home of his daughter, Mrs. Alice T. Pollard, Melrose, Mass., as previously reported) was for many years one of the most active and popular hotel men in Maine. Mr. Gibson was born in the Province of Quebec, in 1843, one of a family of eight brothers and two sisters. He went to Portland in 1870 and obtained employment at the U. S. hotel. In 1886 he leased the Ottawa House on Cushings' Island and for four summers managed it in connection with the Prible House. In 1892 he moved to Boston, to assume the management of the American House, but his stay there was short. He felt the lure of

the South, and in 1894 he had secured the control of the Look Out Inn, a popular hotel in the Blue Ridge Mountains, Tennessee. There he remained until about three years ago, when falling health compelled him to give up active hotel work. Since then he and Mrs. Gibson made their home in Melrose, Mass., with their daughter, Alice. Mr. Gibson, at the time of his death, was president of the Melrose Realty and Insurance Co. He was agreeable, smart, and fine looking, and had a host of friends. He is survived by his widow, his daughter, Alice, and son, Montgomery, who is connected with a Boston Bank; also four brothers, Joseph, William, and Fred, residing in Danville; R. McDougall Gibson, of Montreal, also one sister, Annie, in Danville.

SENATOR FOSTER'S MESSAGE TO THE "BLUE DEVILS"

Hon. Senator Foster, who was one of the joint presidents of the Montreal executive in connection with the welcome of the Chasseurs Alpins, in proposing the toast to the Blue Devils at the business men's luncheon at the Windsor, said:

"We want you to say to that heroic French army when you go home, that so long as there is a dollar of national credit in Canada, so long as there is left here a man who can fight alongside them, Canada will stand at their back until the Germans are driven and tell them that it does not make a particle of difference to us whether

LIBERAL LEADER IS PROGRESSIVE

Wm. Proudfoot, K.C., M.L.A., Has Splendid Record.

FOUGHT LIQUOR TRAFFIC

He Has Never Been Defeated in an Election Campaign, and is the Proud Father of a Son Who Recently Won the Military Cross for Bravery on the Western Front

MR. WILLIAM PROUDFOOT, K.C., the new leader of the Opposition in the Ontario Legislature, is a Liberal of long-standing in Provincial politics. In 1902 he was tendered the nomination for the Provincial Legislature, but declined to stand until 1908 when he successfully contested the riding. He has never been defeated. Since his election to the Legislature he has been one of the most prominent members on the Opposition side of the House in fighting for progressive legislation along temperance lines; in fact, he was one of the strongest supporters of the abolition of the liquor license system in Ontario.

The son of the late Chief Justice Proudfoot, and a mother of Scotch and Irish descent respectively, the new leader was born on February 21, 1859, at Colborne township, County

WILLIAM PROUDFOOT, K.C.

of Huron. He received his preliminary education in the public schools and private tuition, following which he graduated from Ossego Hall in 1881. He was made a K.C. in 1902 prior to which he was a partner of the late Judge Carter at Goderich where he practised law for several years. In 1903 he came to Toronto and became head of the firm of Duncan, Grant and Skeans. At present he is head of the law firm of Proudfoot, Duncan and Grant. Before coming to Toronto he was County Crown Attorney of Huron, and also filled the office of Receiver for ten years. He was president of the West Huron Liberal Association for several years, and a director of several prominent manufacturing industries in Goderich.

Mr. Proudfoot is also the proud father of a son who, for his bravery on the fields of Flanders, was awarded the Military Cross, and who was among the first of Canada's honored sons to enlist for service at the front.

While always looked upon as one of the most progressive Liberals of the Opposition side of the Ontario Legislature, after his election, it was not until the eve of adjournment for prorogation on April 23, 1918 that he became prominent in the public eye. On that occasion, on the floor of the House, Mr. Proudfoot charged Sir James Pilon Whitney, the leader of the Government, and the Hon. W. J. Hanna, Provincial Secretary, with "corrupt and improper acts," following the outcome of an investigation instituted by Mr. Proudfoot before the Public Accounts Committee, arising out of the settlement of the claim of Taylor, Scott and Co., Toronto, in respect of a Central Prison contract.

Mr. Proudfoot made the charge on his responsibility as a member of the House, and subsequently secured the appointment of a Royal Commission to investigate the charges. The substance of Mr. Proudfoot's charge was that \$500 had been accepted by Mr. Hanna, as a campaign contribution, and that there was manipulation of certain tenders for supplies.

SUFFERED WITH NERVES COULD NOT KEEP QUIET

Diseases of the nervous system are very common.

All the organs of the body may be sound while the nerve centres may be affected.

Many women become run down and worn out by household duties never ending, and sooner or later find themselves with their nerves shattered, and the heart action weakened.

On the first sign of any weakness of either the heart or nerves, flagging energy, or physical breakdown, do not wait until your case becomes hopeless.

Milburn's Heart and Nerve Pills will at once quieten the shaking nerves, strengthen the weak heart and build up the entire system.

Mrs. F. Bailey, 221 Earl St., Kingston, Ont., writes: "I was suffering very much with my nerves, so much so that I could not keep myself quiet at all. I was recommended to try Milburn's Heart and Nerve Pills so I bought three boxes, and I must say I have derived much benefit from them, so much so that my friends have all noticed the change in me."

Milburn's Heart and Nerve Pills are 50c per box at all druggists, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

GOVERNOR-GENERAL PAID A HIGH TRIBUTE TO LENNOXVILLE SCHOOL

kitchen, etc.

Many Present at Luncheon

That the architecture and finishings of the buildings simply delighted all was quite evident. They are wonderfully designed and wonderfully finished, and are not only a great credit to the Eastern Townships but to Canada. The "opening" ceremonies having been completed, the guests were invited to sit down to a most enjoyable luncheon served in the assembly hall, the dining room proper not being quite large enough to seat the many guests in attendance. However, large as the assembly hall is, it was not even large enough to enable all the guests to sit down at once, and many were forced to wait for their lunch. In addition to His Excellency, the Duke of Devonshire, the table of honor was occupied by Commander and Mrs. J. K. L. Ross, Col. H. R. Hooper, Hon. Walter Mitchell, Mr. Charles M. Holt, Senator Casgrain, Lady Kingsmill, Mr. Tyson Williams, Bishop Williams of Quebec, Mrs. H. B. MacDougall, Bishop Farthing of Montreal, Mrs. A. E. Ogilvie, Captain Kenyon-Slaney, A.D.C., and Prof. A. E. Abbott.

There were no ceremonies during the course of the luncheon, Bishop Williams asking the blessing and at the conclusion Commander Ross proposing a toast to "The King." Following luncheon, the party adjourned to the grounds, where the afternoon programme of sports was witnessed.

Presentation of Prizes

After tea had been served on the lawn of the Old School, the guests gathered for the presentation of the prizes by the Governor-General. Mr. Tyson Williams, headmaster of the Lennoxville School, made a brief address of welcome to His Excellency on the occasion of his first visit to the school, and paid a high tribute to the generosity of Commander Ross for the excellent buildings which he had donated to the school. "This opening will mark an epoch in the history of the school, which has been doing such brilliant work for some seventy-five years. Bishop's College School has turned out many leaders in Canadian life, and its long list of men who have given up their lives for their King and Country, for the cause of honor, freedom and justice, and of the long list of officers and men at the front in this present great war, clearly shows that the school is living up to its traditions, the traditions of honor, freedom and justice which our Allies are fighting for are the same traditions of our school. The boys in the past have lived up to the many fine traditions of Lennoxville School and I do not hesitate to say that I firmly believe that the boys in years to come will live up to the great traditions," said Headmaster Williams.

Congratulated Commander Ross

His Excellency in replying congratulated Commander Ross on donating such excellent buildings to the school, and stated as an old Eton man expressed his sense of honor at officiating as Governor-General at the opening of the fine new buildings. He spoke of the importance of the traditions of a school and told how these traditions were being carried out on those battle fields across the water. "You will find that your traditions have received added honor and lustre and will in generations to come be one of your most proud assets," said His Excellency.

The Governor-General stated that all boys present would remember the day, which was also their closing, and trusted that those leaving the school would go out into the world and add credit to their old school. "I remember the day when I left the school where I had spent so many idle, I am afraid, but happy days, and there is hardly a day passes that I do not recollect that occasion. The boys leaving Lennoxville School I trust will always remember their old school and what it has done for them," continued His Excellency.

Asked for Public Holiday

As an old public school boy, the Governor-General requested that when the school reassembled in the fall that a general holiday be given the boys in honor of the event at which he was so pleased to attend, and Mr. Tyson Williams' consent to such a proposal was greeted with cheers.

The Duke of Devonshire congratulated the school on its success in perpetuating the traditions of the English public schools which had been so nobly justified in the present war. "I know well what a potent influence a public school training means in a man's after life. The records of this school show that it is exercising a similar potent influence here in training men who will hereafter be able to take leading places in war and peace, as preceding generations of scholars of this school have done."

Following his remarks, His Excellency stated that he wished to quote a few lines which recalled his days at Eton and that he hoped that all the boys that were leaving Lennoxville School would always have a good word for their school and remember what it had done for them. His Excellency then quoted:

Life's duties call us, whatever befall us, High lot or lowly, weal or woe, Brother with brother, thou our mother, in thee united we will go. For home and kinsfolk, for old comrades, For Queen and Country, and for thee, Hearts growing older, love never colder, Never forgotten shalt thou be.

Old Eton places, old Eton paces, Though we be parted, far away, Shall ever clearly, loved ever dearly, Shalt thou be with us today. Each house familiar, each smooth

meadow, Each bend of river, each old tree, Hearts growing older, love never colder, Never forgotten shalt thou be.

The Governor-General then proceeded to distribute the prizes, warmly congratulating T. H. P. Moison, the winner of the Governor-General's prize, and C. L. Price, who was awarded the Lieutenant-Governor's medal. The audience loudly applauded each successful scholar as they stepped forth to receive their prizes.

CHEERS FOR HIS EXCELLENCY AND "JACK" ROSS

At the conclusion of the presentation of prizes, the boys gave three loud cheers and a tiger for the Duke of Devonshire and "Jack" Ross, in which the guests also joined in.

His Excellency later inspected the Cadet Corps. In addition to the honored guests, among the invited guests were:

E. Allen Boswell, Hon. J. Decarie, Sir Lomer and Lady Gouin, Mayor and Miss White.

Tea was served on the lawn during the late afternoon, Miss Nourse being in charge. Their Excellencies and staff, many distinguished visitors, and the friends of the resident clergy and pupils were present, and the event was one of great enjoyment.

At seven o'clock evensong was held in the Chapel, Rev. Prof. Burt officiating, and the Lord Bishop, of Quebec, making an eloquent address.

SERVICE WAS HELD

The closing of the ceremonies was the service in the College chapel, at seven o'clock, which was attended by His Excellency the Governor General and by many of the out-of-town visitors. The large choir of men, from Lennoxville and Sherbrooke choirs, preceded the clergy, the Right Rev. Lennox Williams, Lord Bishop of Quebec, who was the preacher of the evening, being accompanied by chaplain Archdeacon Balfour. The School Cadets, accompanied to the door of the chapel by their fifes and drums, marched in after the choir, and were stationed in the chapel aisle during the service. Prayers were read by the Rev. H. E. Burt, and the lesson read by the Very Rev. Richmond Shreve, Dean of Quebec. The hymns "Fight the good fight," and "Holy offerings rich and rare," were sung and the Lord Bishop's address followed. "It was not," he said, "an occasion upon which a sermon was suitable, but he had been asked as Bishop of the Diocese and an old boy of the

school to speak to them, and considered it a great privilege and a great responsibility. This was not an ordinary occasion, but the beginning of a new era in the history of the school. The representative of His Majesty the King has opened the buildings, erected through the magnificent generosity of an old boy of the school. Then it is the close of the school year. Some of the boys were taking home prizes for proficiency in their studies, some athletic trophies, but he trusted that all would take with them to their homes characters strengthened and developed by school life. The chief thing a public school stood for was development of character, and the watchword should be "honour." Honor is the mark of a gentleman the world over. The boy or the man who can be spoken of as "the soul of honour" will make his mark the world over. This includes so very much, patriotism, courage and devotion to duty, truthfulness, regard for the feelings of others, these are the characteristics of honour. It is dishonourable for the soldier or sailor to leave his post or shirk danger in time of battle—it is his duty to fight for his King and Country. It is dishonourable to tell a lie. No gentleman worthy of the name would be guilty of untruthfulness, and the man of honour will not only guard against telling a lie but always against being involved in anything which might include in the slightest degree untruthfulness or deceit. Boys of this school, or who have been in this school are proud of the fact that this school has stood for honor, and the boys of Lennoxville School have been considered honorable men, manly and courageous, hating deceit, "playing the game." It is that spirit which has made the Lennoxville boys do so splendidly in this great war. We thank God that so many are serving and have served the colors, and have been thought worthy to give their lives for the cause. Many of the boys who are leaving this term will be going into the forces of His Majesty the King, and it is certain that they will uphold the traditions of the school—be men of honor, never believe the devil's lie that is manly to be inapure, the devil's lie that is manly to be irreverent," said the speaker. He knew they could show their manliness in the truest sense as true members of the Church of Christ pledged to the highest honor. The benediction by the Bishop closed the service, after the National Anthem was sung.

JUDGMENTS IN THREE CASES ARE RENDERED

Plaintiffs in Two Instances Were Awarded Damages Asked in Superior Court By Mr. Justice Hutchinson.

Three judgments were rendered in the Superior Court by Mr. Justice Hutchinson, one of them being the case of La Banque Nationale vs. Joseph M. Bourdeau, in which the defendant's daughter, Dame May Grace Bourdeau, made an opposition to the seizure of certain goods and effects seized by the bank in payment of a promissory note which the defendant was owing them and for which they had obtained judgment against him. The judgment went as follows:

Considering that the said female opposant admits in her deposition, given on December 27th, 1917, that she was married about six years before giving the said deposition.

Considering that community evidently exists between the said female opposant and her said husband as per article 1271 of the Civil Code.

Considering that the husband of the said female opposant is the head of the said community has alone the right to make the said opposition, (see authorities under article 1292 C. C., of Beauchamp.)

Considering that the said opposition is not well founded, and, inasmuch as plaintiff by its contestation alleges that all the allegations of the said declaration are false and untrue and unfounded in the fact and in law, and plaintiff contestant prays for the dismissal of the said opposition.

Doth, therefore, dismiss the said opposition with costs.

MUST PAY SUM REQUESTED

The case of Leon Fauteux, Cookshire, against Dame Angelina Demers, claiming \$195.60 as the amount due him for a cheque of \$156, which was not paid at the bank when presented, and an amount of some \$40 as costs, in a certain judgment which the plaintiff obtained against the defendant.

After giving a recital of the evidence and the exhibits filed, and the judgment concludes by condemning the defendant to pay to the plaintiff the said sum of \$195.50 with interest thereon and costs of suit.

JUDGMENT IN FAVOR OF BECHETTE

Judgment was rendered in favor of Joseph Bechette, plumber of this city, against Dame Virginie Caroline Jean for \$307.58 and costs, being the

BOLSHEVIKI STRENGTH IN SIBERIA WEAK

Correspondent Declares that Forces Could Easily Be Overcome—Czecho-Slovak Forces Hold Much Territory.

(Associated Press Despatch)

LONDON, June 28.—That the Bolsheviki in Siberia are weak and could be overthrown easily, but for the support of armed prisoners released by them, is the contention of the Harbin correspondent of the Daily Mail. In a long despatch dated June 23rd, he says that of twenty thousand prisoners fighting on the side of the Bolsheviki in trans-Baikal, four thousand are Magyars, who are the chief source of Bolsheviki strength.

Two or three allied divisions, says the correspondent, could put down all opposition in Siberia. He adds:

"The weakness of the Bolsheviki may be imagined from the fact that a few scattered Czecho-Slovak forces are able to hold the Siberian railway from Tcheliabinsk to Nijudinsk, a distance of 1500 miles, and keep in touch with the counter-revolutionary movement in southeastern Russia led by General Alexieff.

"Bolshevism is a living corpse, allied intervention is vital, not only to save the Russians from the Germans, but to save the Russians themselves."

The correspondent then gives information concerning conditions in leading Siberian towns. He says that there are forty thousand unarmed Austrian prisoners at Omsk, where a German consul has just arrived. The consul has received 250,000 rubles from the local Bolsheviki Government as an indemnity for the liquidation of German business, while representatives of British and American firms are being mulcted heavily under threat of imprisonment.

amount claimed by plaintiff as the balance remaining due on the price of work and labor done, wages earned, services rendered and materials furnished for her benefit and under agreement made and executed, and the installation of a heating apparatus and plumbing in two houses of the said defendant.

The defendant had confessed judgment for \$157.68, but the plaintiff would not accept this tender. When the case came before the Court on its merits, it was taken on deliberation, and judgment was given Tuesday, for the whole amount sued for.

KERENSKY MAKES APPEAL TO GREAT BRITAIN AND AMERICA TO SAVE RUSSIA FROM GERMAN FETTERS

Says Fate of Country Has Special Significance and Value to the Whole World—Russian People Will Never Recognize Treaty of Brest-Litovsk—Declares that Bolshevism is Vanguard of Triumph of German Imperialism.

(Canadian Press Despatch)

LONDON, June 28.—The Labor Congress yesterday capitulated to M. Kerensky when he appeared on the platform at the close of a long afternoon session during which considerable anti-Kerensky sentiment had been vociferously expressed. With his appearance the opposition to him vanished, and before he had finished his speech he received a great ovation. Finally he had to leave the hall by a side door in order to escape the crowd of besiegers, who were clamoring for his autograph or a handshake.

M. Kerensky in opening his speech, said:

"Yesterday one of the members of the conference asked what right had Kerensky to be present? I shall answer the question. I am not here as a matter of right, but as a matter of duty. It is my duty as a man who knows all that is truth, which for a long time did not reach the ears of Western Europe and America.

"In this terrible world war the interests of the Allied nations are inextricably interwoven, and the fate of the country which bore the burden of a front greater in length than the combined front of all the other Allies, cannot be a matter of indifference to all the Allies.

"I have not come here to beg or complain. The Russian people have in the past gone through trials like the present and have always emerged strengthened and renewed. Now bending under the merciless onset of Germany, bleeding at every pore, she still opposes the enemy. I bear witness here that the Russian people will never recognize the treaty of Brest-Litovsk, which is hurling Russia into the abyss of annihilation.

"For three years Russia's soldiers had to fight an enemy perfectly equipped and cruelly merciless under conditions which no one outside of Russia can imagine. It is not to be wondered that, having repeatedly suffered the blows of the enemy, and having again hit him hard, thereby saving the western front, the Russian soldiers were the first among the belligerents to faint in the struggle.

"The great revolution instilled new courage into the tired spirit, but could not immediately revive the mangled bodies of the soldiers. It is a thousand pities that the warning voices coming from Russia were not heeded by the western Allies.

Russians Protest Against German Tyranny

"The treacherous invitations to peace by Germany were not unmasked, and the mass of the Russian soldiers, incited by fanatics and German agents, were deceived. Now they know what is a German peace. The Ukrainian peasant understands how the Germans secure the independence of small nationalities, when German bayonets and chemical vapors are employed to rob him and renege all the atrocities of the old regime.

"All classes of Russians strongly protest now against the tyranny that again reigns in Russia. To my astonishment some very serious European political men consider Bolshevism as what is a German peace. It has abolished freedom of speech, made human life the easy prey of every Red Guardsman, and has made an end of all institutions of self-

government.

"If this be democratic, then I ask what can be reaction. The Bolsheviki claim that the present state of Russia is a dictatorship of the proletariat although ruthless repression is allied against the democratic and socialist parties and the toiling masses.

"Every Russian who refuses to recognize this method of government is declared a counter-revolutionary. Bolshevism, the strength of which mainly lies in the disorganization of the worn out masses of soldiers, was merely the vanguard of triumphing German imperialism. To reach its aim Germany must paralyze Russia.

Appeals for Aid

"That is the sure inwardness of connection between the interior affairs of Russia and the world war. The Russian people alone may not be able to overcome the Germans. Perhaps, abandoned by all, Russia will perish from want of blood; but she will never of her own will submit to this humiliating treason of Brest-Litovsk.

"It is for you, the oldest and most mature of the democracies of the world, to settle the question whether it is possible to remain a calm spectator of this tragedy. I have crossed thousands of miles of the Arctic Ocean to tell you and America this, which I profoundly know to be the absolute truth."

MISSION OF M. KERENSKY

Former Russian Premier Will Appeal to Allies for Support to Drive Germans from Country.

(Associated Press Despatch)

LONDON, June 28.—"Kerensky comes with the strongest credentials; first as the former leader of Russian Socialism, who has learned by bitter experience the rocks and shoals that bestrew his course, and second, as the authorized spokesman of the Socialist and non-Socialist parties of Russia," says the former Times correspondent in Petrograd, who is now in London, and writes regarding the mission of the former Russian premier in England and America. He continues: "Kerensky has wisely resolved to confine himself to propagating the lessons of the Russian revolution among the Allies. He has no thought or intention of returning to the arena of political experiment. His mission is intended as an appeal to the Allies for aid in the only form it can be effective—arms and supplies to enable his countrymen to drive out the Germans and rejoin the fight against the enemies of freedom.

He insists, first of all, that all the Allies take a hand in this task, and they do not impose their will in establishing the future form of government in his country. Russia, he says, does not want to choose between Germany and any other country. She wants to be free, but cannot achieve freedom under the Bolsheviki.

WAS SENTENCED TO TWO MONTHS IN LOCAL JAIL

Numerous Cases Were Heard Before Judge Mulvena in the District Magistrate's Court Yesterday.

Two months imprisonment was the punishment given to Edouard Carrier, of St. Edwidge of Clifton, by Judge Mulvena yesterday, for operating a car while in Sherbrooke under the influence of liquor, and for being in charge of a car when he did not possess a license.

The defendant appeared before the District Magistrate and pleaded guilty to the charge, appealing for a short sentence, inasmuch as the law makes this offence punishable by imprisonment without the option of a fine.

In passing sentence, the Court called attention to the fact that the accused had appropriated his brother's automobile and operator's license, and had been in a state of helpless intoxication when he ran into another car on Strathcona Square. Owing to the frequency of cases of this nature of late, an example had to be made and therefore the Court felt obliged to sentence the accused to jail for two months, but would recommend a shortness of the term if the Government saw fit to allow it.

A charge was laid against the owner of the automobile which Edouard Carrier was driving, viz., his brother, Joseph Carrier, for being a registered owner of an automobile, and having allowed his automobile to be operated by an unlicensed person. However, the prosecution decided, under the circumstances, to withdraw the complaint, and asked the Court to dismiss the defendant.

Another man, Hormidas Lacroix, was fined \$10 and costs for operating an automobile without a license between Sherbrooke and Capleton. PROMISED TO KEEP THE PEACE Rosario Plante, of Windsor Mills, was convicted before the District Magistrate here yesterday of having made threats against Celestin Ruard, of the same place.

The defendant pleaded guilty to the charge, and upon promising to keep the peace for twelve months, was released on his personal bond of \$100, and another security of \$100.

CHARGED WITH NON-SUPPORT

A case of non-support came up before Judge Mulvena yesterday. John Rand was charged by his wife with failure to provide the necessities of life. The defendant pleaded guilty, but sentence was suspended upon his promising to report weekly to Chief Justice, and provide the necessities of his wife and children.

TERRIBLE NEWS FOR MILLIONAIRE

Andrew Carnegie Finds He Is Not Growing Poorer.

CHEATED OF THAT HOPE

The World Has Been Astounded by the Riches of the American Plutocrats, Whose Income Tax Bills Reveal the Fact That It Would Be Impossible for Them to Get Rid of Their Money.

It looks as if Andrew Carnegie were to be cheated of his fondest hope. Some years ago he resolved to die poor—not hurriedly, you understand, but eventually. He was a rich man, and in order that he should die poor it would be necessary for him to devote years to the task of disposing of his riches. It was a large task; he knew the performance of it would take a long time, but he was willing to take the time—if heaven would lengthen his span enough to let him achieve his purpose.

We have often wondered how Mr. Carnegie is getting along in his efforts to regain that state of poverty which he knew in his youth. It was, of course, necessary that he should

ANDREW CARNEGIE.

be cautious not to overwork himself at the task of losing his riches, else he might suffer a breakdown and fail of his purpose. He had to take care of himself, and nurse his strength if he were going to outlast his wealth.

But he does not seem to have made much headway. He has just paid an income tax of \$8,400,000 to the United States Government, and his is the third largest tax bill of all the American plutocrats. John D. Rockefeller is first, with an income tax of \$38,400,000, and Henry C. Frick second, with \$7,160,000. Mr. Carnegie comes third in a published list of thirty plutocrats who pay the 63 per cent. surtax on incomes of over \$2,000,000 a year. It is very discouraging to find Mr. Carnegie so high up in the list, because, so far as we know, he is the only American plutocrat who is trying to die poor.
