## World News In Brief

Ottawa, Sept. 20.—(C.P.)—Recent unrest and riots in Bombay are "the birth pangs of a new era for India," Sanjivrao G. Shah, vice-president of the Indian industrial delegation now visiting Canada, said here today.

"These riots are not very serious," he said, "and confidence in India will never experience bitter civil war. Unity is coming and we can all foresee that things will soon settle down."

The delegation, headed by Sir W. Visvesvaya, arrived in Ottawa from Montreal and while in the capital will confer with heads of various government departments.

Paris, Sept. 20.—(A.P.)—President Georges Bidault won a round today in his political tug-of-war with Gen. Charles de Gaulle over the proposed new French constitution.

By a tie vote, 21 to 21, the Constituent Assembly's constitution commission approved the government's proposed text for a federal union which would knit the nation's colonies to the homeland under a new deal of increased freedom and autonomy.

Under the assembly's rules, a tie vote is considered affirmative.

M. Bidault yesterday had informed the commission that he would interpret rejection of the government proposal as showing lack of confidence in his government. He delivered this ultimatum after Gen. de Gaulle had condemned the proposed constitution, and particularly the phrases pertaining to the colonies.

Moscow, Sept. 20.—(A.P.)—Moscow newspapers printed about 800 words today on the letter which Commerce Secretary Wallace wrote to President Truman last July on Soviet-American relations. About one fourth of the dispatch was devoted to that part of Mr. Wallace's letter dealing with the atomic question. There was no comment.

Haifa, Palestine, Sept. 20.—(Reuters)—Haifa's Eastern Railway station was partly demolished by a heavy explosion today. No loss of life was reported.

Tokyo, Sept. 20.—(A.P.)—A wave of sex slayings—almost unprecedented in Japan—plus a wild, rusty jackknife fight against Premier Yoshida, unopposed kidnappings and a rising tide of robbery and assaults are keeping shocked Tokyo folk indoors at night.

A pardoned murderer with a grisly sense of humor, who paired bodies of recent girl victims with skeletons of earlier dead, confessed today to five sex killings.

Police also sought vainly for two kidnapers, one of whom had vanished with the young daughter of one of Japan's richest families.

In custody was a man, believed a psychopathic case, who was arrested Wednesday night while climbing the fence of Premier Yoshida's official residence. Waving a rusty jackknife, he told officers that "My original plan was to kill the Premier if he did not agree with my ideas."

Washington, Sept. 20.—(A.P.)—The United States today made public a note denouncing the "unprovoked, unprovoked" charges of improper treatment of Yugoslav officers.

(Britain's Ambassador to Belgrade delivered an almost identical note, London dispatches said.)

## Wallace Asked To Resign By Truman To End Uproar Over U.S. Foreign Policy

President Truman Indicates to Press Conference There Is to Be No Change in American Foreign Policy—Has Complete Confidence in State Secretary Byrnes and Delegation Representing U.S. at Paris Peace Conference.

Washington, Sept. 20.—(A.P.)—President Truman today asked Commerce Secretary Wallace to resign to end an uproar over American foreign policy.

Mr. Truman firmly and formally declared to a press conference that there is to be no change in the government's foreign policy and that he has "complete confidence" in State Secretary Byrnes and the delegation representing the United States at the Paris Peace Conference.

The President said that there was a "fundamental conflict" between Mr. Wallace's "views on foreign policy and those of the administration."

"We could not," he said, "permit this conflict to jeopardize our position in relation to other countries."

Standing before a jammed press conference, Mr. Truman read his statement slowly. It climaxed a week of furore over foreign policy which began when Mr. Wallace proposed some changes. The President said first he had approved what Mr. Wallace said. Then he declared Saturday that he meant only that he approved Mr. Wallace's right to speak.

Mr. Wallace was in his office in the Commerce Building when President Truman made his announcement at the White House.

It was understood Mr. Wallace probably will have an announcement later, but there was no immediate comment. Meantime business went on as usual in his office although the President's announcement hit the department like a bomb shell.

With Mr. Wallace out, Navy Secretary Forrestal remains the sole holdover in the cabinet from President Roosevelt's regime.

Mr. Wallace was Secretary of Agriculture under the late President for eight years, then moved into the vice-presidency, was shelved when Mr. Roosevelt turned to Mr. Truman for a running mate in 1944, and subsequently re-entered the cabinet in the Commerce post.

By removing Mr. Wallace from the cabinet, Mr. Truman also removed the gag the former Iowa farmer had imposed on himself, which would have held through most of the fall political campaign.

Mr. Wallace now is free to speak up and to stump the country, if he chooses, in behalf of the foreign policy he advocates—one which envisions more lenient treatment of Russia.

What the political effects of his removal will be remains for future determination. Republicans already had been making much of the Wallace affair. Mr. Wallace, furthermore, has a following in what generally is considered the left-wing branch of the Democratic Party.

slav War Booty Commission, and while taking no action against persons who attacked this building, arrested Yugoslav officers and men."

The reply—"An entirely false interpretation upon the facts of the matter. Investigation has shown that the attack . . . was one of a number of sporadic outbreaks of violence occurring simultaneously and provoked both by pro-Slav and pro-Italian elements . . . One Yugoslav officer and two Yugoslav men were arrested. As they admitted that they had fired on the crowd, thereby fatally injuring a civilian, there can be no doubt that their arrest was abundantly justified."

2. The charge—"That there were 'six other instances of alleged failure of the civil and Allied Military Police to protect the persons and property of Yugoslav citizens in Trieste.'"

The reply—"That the 'fullest investigation possible' of three of the cases 'failed to reveal any independent evidence that these allegations are well founded. The remaining three have proved on investigation to be false in part and exaggerated throughout.'"

3. The charge—"That 'no satisfactory answer had been given to a number of the (Foreign) Ministry's notes alleging that other similar attacks upon Yugoslav persons and property in zone A (Anglo-American) of Venezia Giulia had been condoned by the Allied military authorities, and in general implying that these authorities are prejudiced against Yugoslav interests.'"

## Manitoba Is Expected To Aid Strikers

Delivery Strike of 20,000 Members of Alberta Union Appears to Be Moving Across Western Canada.

Edmonton, Alta., Sept. 20.—(C.P.)—Strengthened picket lines in Alberta, increased support from Saskatchewan and an indication of aid from Manitoba were reported today as the two-week-old delivery strike of more than 20,000 members of the Alberta Farmers' Union appeared to be moving slowly across Western Canada.

Confirming earlier reports that "thousands" of Alberta farmers were sending in membership application forms to the A.F.U. headquarters in Edmonton, the union's secretary, R. J. Bouffler, said he "fully expected" the A.F.U.'s paid-up membership would "pass the 30,000 mark by mid-October."

Manitoba entered the strike picture yesterday as the People's Co-operative, a member of the Manitoba Federation of Agriculture and Co-operation, issued a statement describing the demands of the striking farmers as "just and reasonable."

"We are convinced that Manitoba farmers will declare themselves strongly in support of the strike and its objectives, once they have discussed it among themselves," the statement added. Reports from Northern Saskatchewan indicated growing shortages of livestock and dairy products with some southern points also reporting "light" cattle receipts and a drop in cream deliveries.

The United Farmers of Canada, whose estimated 30,000 farm members are confined to Saskatchewan, issued a strike call early this week in support of the Alberta farmers.

Both Walter Tucker, Member of Parliament for Rosthern, Sask., and newly-elected leader of Saskatchewan Liberals, and I. C. Nollet, Saskatchewan's C.C.F. Agriculture Minister, yesterday supported claims of farmers for a fact-finding board to determine what farm produce prices should be to make returns commensurate with farmers' costs.

Charge Of Murder Reduced By Jury

Guelph, Ont., Sept. 20.—(C.P.)—The trial of William Callahan, 45, on a charge of murdering his roomer, William Norrish, 58, was concluded late yesterday afternoon when a Supreme Court jury brought in a verdict of manslaughter and Mr. Justice G. A. Urquhart sentenced Callahan to 10 years in penitentiary.

Hopes for Settlement Raised by Agreement of Operators to Federal Arbitrator's Award in East and Gulf Ports.

New York, Sept. 20.—(A.P.)—Leaders of striking C.I.O. mariners raised hopes today for an early end of the ship strike as operators agreed to a federal arbitrator's award in the National Maritime Union walkout in United States' east and Gulf ports.

Joseph Curran, president of the N.M.U., said after a meeting of the C.I.O. committee for maritime unity, that he believed that a membership meeting of the union today could "result in the men's going back to work," and that he would recommend such a move—"all things being equal."

The award, made yesterday by James L. Fly, federal arbitrator, granted N.M.U. seamen salary increased of \$5 to \$30 monthly, bringing them to wage parity with A.F. L. seamen.

Gromyko Gets The Gavel

Andrei Gromyko, Russian delegate to the United Nations, takes over new duties as chairman of the Security Council at Lake Success, L.I. Chairmanship of the Council rotates among delegates.

## Big Four Agreements On Italian-Yugoslav Boundary Are Upheld

Paris, Sept. 20.—(A.P.)—The Paris Peace Conference upheld today the Big Four agreements on the Italian-Yugoslav boundary and the borders of the future Free State of Trieste, as the Italian political and territorial commission beat down in vote after vote every effort to revise the proposed frontiers.

Faithful to her Big Four commitments, Russia cast her ballot against the boundary revisions, even though some of them were proposed by the Slav bloc, which she frequently has backed.

Edvard Kardelj, Deputy Premier of Yugoslavia, declared after the voting that he "regretted the commission preferred the method of the vote instead of conciliation" and insisted that his earlier remarks, in which he declared Yugoslavia would not sign a treaty which he considered "unfair," had entered in the commission's records.

The commission balloted 11 times on proposals to change the borders of the internationalized, free area of the port of Trieste, fixed by the Big Four along the so-called French line and bounded on the north by a line drawn from Duino to the French line, voting down all of them, except one, by a 13 to 5 count.

White Russia, Poland, Czechoslovakia, the Ukraine and Yugoslavia voted for the proposed changes in most cases and Belgium and Ethiopia abstained. On the other proposal, one by South Africa to enlarge the area so as to include Pola and other Italian cities down the Istrian Peninsula, the vote was 12 to 5, with Canada, Australia, Brazil, New Zealand and the Netherlands supporting South Africa.

Britain Abandons Secret Bermuda Agreement—Will Aid States in Around-the-World Air Plans.

Washington, Sept. 20.—(A.P.)—Britain's abandonment of a secret Bermuda memorandum gave the United States fresh support today for its open skies aviation policy.

The two countries in a joint statement declared their faith in the general Bermuda Agreement as a means of "orderly development and expansion of international air transport."

Hence Britain reversed her stand taken secretly during the Bermuda aviation conference last winter. Under that stand Britain assumed no obligation to seek in negotiations with other countries the same standards which she accepted in the American agreement.

Last night's statement resulted from an informal conference in London last week during which an American group told British civil aviation authorities they had "strayed off the reservation" in their air pacts with Argentina, Greece, France, Holland, Portugal and other countries.

British officials told the American delegation, headed by Chairman James M. Landis of the Civil Aeronautics Board, that it would help the United States obtain an agreement with India, toughest hurdle in American plans for routes around the world.

Mr. Landis, discussing the joint statement at a press conference, said that while Britain did not commit herself to initiating revision of existing pacts, she would do so when other signers asked it. Most of them will do so, Mr. Landis said.

In the case of Argentina, which sought the restrictions, it appeared possible Britain might take the first step by denouncing the agreement if Argentina fails to respond to United States demands for full air freedom.

Star Witness For Russia Is Suicide

Tokyo, Sept. 20.—(A.P.)—Lt. Gen. Tsumi Kusaba, scheduled to be a leading witness for Russia at the International War Crimes trial, died violently early today. Russian army officers said Kusaba had gulped poison in the downtown room where they held him under armed guard.

American intelligence officers said Kusaba arrived yesterday with two other Japanese prisoners the Russians plan to use as key witnesses against former Premier Tojo and 26 other war-makers.

## Peace Looms In Valleyfield Mill Trouble

Company Accepts U.T.W. A. as Bargaining Agent—Government-Supervised Ballot Yesterday Chooses A.F.L.

Valleyfield, Que., Sept. 20.—(C.P.)—The bitter industrial dispute between Montreal Cottons Ltd. and the United Textile Workers of America (A.F.L.) appeared to be near its end today with the union designated the legal bargaining agency for employees of the Valleyfield textile plant.

In government-supervised balloting yesterday, the textile workers voted 1,477 to 707 for the U.T.W.A. over the Independent Textile Workers Association which the international union had dubbed a company-sponsored organization.

In Montreal, G. Blair Gordon, president of Montreal Cottons Ltd., said the vote indicated "a clear majority" for the U.T.W.A. and that as soon as it was officially confirmed by the Quebec Department of Labor the company stood ready "to open negotiations with the successful union within 48 hours in accordance with our promise to the Minister of Labor."

"With the settlement of this dispute the company looks forward to a period of industrial peace in Valleyfield with none of the bitterness, maliciousness and violence which has marred the past few months," Mr. Gordon said.

The textile workers went on strike in June for higher wages, better working conditions and a union contract. The strike dragged on three months until early September when a provincial government plan calling for a secret ballot to choose a union was accepted by both company and U.T.W.A. and work in the plant was resumed.

In Montreal union officials still had a court fight on their hands.

R. Kent Rowley, Canadian director of the union, and Azelus Beaucage, Valleyfield organizer, are on bail pending trial on charges connected with the strike, while Madeleine Parent, Canadian organizer for U.T.W.A. who played a leading role in the dispute, is to appear for preliminary hearing Monday on charges of subordination and impeding justice. She is at liberty on \$500 bail.

Will Be Charged With Mail Theft

Vancouver, Sept. 20.—(C.P.)—Postal authorities today prepared to place a formal charge of theft from the mails against 32-year-old C. R. V. Bennett, arrested here following the recovery of nearly \$20,000, alleged to have been stolen from a mail bag, Sept. 4.

Bennett, a mail carrier for a city transfer company, was arrested by R.C.M.P. and postal authorities said all but \$120 of the money was found in his home, along with other articles, alleged to have been missing from the mails.

The bag contained \$120,000 in cash—two bundles of \$50,000 each and one of \$20,000. The more valuable packages were not touched.

The authorities disclosed with the arrest of Bennett that the bag, bound for a Victoria bank, had been found in the post office here, slashed open with knife, and hidden inside another bag. It had been concealed near a loading platform door.

U.N. Council Ready To Vote On Turbulent Balkan Issue

By CHARLES A. GRUMICH  
Lake Success, N.Y., Sept. 20.—(A.P.)—The United Nations Security Council was ready for balloting today on whether it will pass or deal further with questions raised by the Soviet Ukraine's charges that Greece, with British aid, is threatening peace in the Balkans.

Winding up its third week of debate on the issue, the council had before it a Soviet resolution laying the blame solely on Greece for reported Albanian border incidents, and counter-proposals of the Netherlands and Australia.

In addition, the United States delegation was ready to present one of two prepared alternate proposals before the voting begins, and will join in the leadership for majority rejection of the Russian resolution.

The resolution offered by Russian Delegate Gromyko, who is currently the council chairman, seeks to have the council hold Greece responsible for the Albanian border situation on the basis of charges made by Ukrainian Foreign Minister Manuilsky. The resolution also would require Greece to cease "disturbing peace" in the Balkans and would keep the case on the agenda until the situation quieted.

The Netherlands proposal would have the council call upon Greece, Albania, Bulgaria and Yugoslavia to pacify their borders but would refrain from any attempt at fixing the blame for the reported troubles.

The Australian resolution simply provides that the council pass on to the next business, thus sidetracking the Ukraine's charges but leaving them on the agenda for revival at any time at the call of any member.

Russia and Poland have opposed both the Netherlands and Australian proposals, and there was the possibility that Mr. Gromyko would exercise the veto, if necessary, in attempt to kill the Netherlands and United States resolutions.

The well-supported Australian motion was presented as a procedural matter, not subject to veto. If adopted it would open the way for discussion of the Russian demand for reports by the United Nations on the dispositions of Allied troops and air and sea bases in foreign non-enemy countries as of last Aug. 1.

FINANCIAL NEWS

By The Canadian Press

Opening Night Of Rotary Fair At Boundary Splendid Success

Rock Island, Sept. 20.—Hundreds of citizens from both sides of the International Border, including a number from Newport and Sherbrooke, mingled with citizens of the Border Communities here last night, as Lady Luck took many of them under her wing and sent them home jubilant at being among the prize-winners at the second annual Rotary Fair, sponsored by the Rotary Club of the Boundary.

That the Fair was a success was quite evident from the attendance standpoint as well as from the self-satisfied "see what I won" smiles on the faces of the hundreds who thronged the Rock Island Armoury during the evening, carrying with them a bountiful basket of fruit, a treasured pair of nylons, a luscious box of chocolates, men's

WATER SHORTAGE AT MEGANTIC

Lake Megantic, Sept. 20.—With water in the lake low and a piston in the municipally-owned diesel engine broken, citizens of this Eastern Township place have been without adequate water and electricity supplies for the past couple of days.

The water in the lake has been pumped out carefully for families' use, with electricity provided only between 4 p.m. and 6 a.m. The latter situation will be remedied tonight, when it is expected the diesel engine will be repaired. The water situation will not be relieved until the countryside gets some rain.

careful to show the copy of the Record which they are required to carry in their hand. Last night's Mystery Man, who was finally identified as Mitchell Thompson, of Beebe, who managed to evade the eager challengers for little more than half an hour, finally was successfully challenged by a young lad, Homer Goodsell, of Rock Island, who won the ten dollar reward. A different Mystery Man will be present tonight, and again tomorrow night when a similar reward will be paid on both occasions.

The Fair continues tonight and tomorrow night, coming to a conclusion at midnight on Saturday night, when the final drawings will take place for the door prizes, the grand door prize and the Frigidaire.

ADMITTED TO BAIL

Montreal, Sept. 20.—(C.P.)—Bail of \$2,000 each to four alleged operators of a "nerva centre of gaming and gambling" in Montreal was granted today by Mr. Justice Theodule Rheaume in practice division of the Superior Court after it had been refused yesterday by the Recorder's Court.

SEAWAY PLAN APPROVED BY SENATOR AIKIN

Rock Island, Sept. 20.—Urging immediate construction of the proposed St. Lawrence Seaway project, Senator George Aikin, senior Vermont senator, speaking at the pre-opening session of the International Community School held in the Haskell Opera House here Wednesday evening voiced strong support for the plan.

Senator Aikin pointed out that the proposed international development of the St. Lawrence River would make it possible for ocean-going vessels to take on loads of grain and meat, steel, automobiles and other products manufactured in the Great Lakes region of the United States and Canada and deliver them directly to any part of the world without the necessity of trans-shipment by rail to Atlantic Coast ports and the re-loading on vessels.

Of particular import, he continued, the development would provide 2,200,000 horse-power of the lowest priced electricity in North America. For this part of the United States and the Provinces of Ontario and Quebec in Canada the possibility of acute shortages of electrical energy in the not too distant future should make this project one supported by the majority of people, he said.

The speaker was introduced by Gary Earl Heath, president of the International Community School for the current session. Prior to Senator Aikin's address, Rev. C. R. Stetson of the school's executive committee briefly described the year's program.

'Cramming' Practice Deplored By Bishop's University Head

In a welcoming address to more than two hundred students at Bishop's University yesterday, Rev. Dr. A. H. McGreer, principal and vice-chancellor, deplored the wide practice of students on this continent of cramming for term and yearly examinations.

He said that the modern high school system was defective, pointed to its weaknesses and inadequacies that allowed immature young people without knowledge of either the conception, the value or the purpose of real education, to select and choose their subjects of study not by their own interests and training standards but by the like-and-dislike system.

The principal's address climaxed a busy registration period at Bishop's for more than 85 students in first year, and 125 students in second, third and fourth years, an all-time record for the university. Eighty of Bishop's undergraduates are veterans. Although lecture rooms and residence accommodation facilities are taxed to the limit, faculty and staff are adequate. In his address Dr. McGreer stressed the need of purpose and resolution in all undergraduates and impressed on them the aim of real education. He said that the training they would receive at Bishop's would have failed in its objective if the necessary perspective and balance in each student's life activities were not developed.

NO NEW CASES OF POLIO HERE

Sherbrooke parents should find a measure of relief in today's polio report which shows no cases admitted to hospital yesterday and one released as completely cured. Active cases here now total twenty-one, of which nineteen are under treatment at the St. Vincent de Paul Hospital.

Sister Couture, head nurse at the Hospital, reported today that nine lady volunteers assisted in the polio ward yesterday. All in terms of property valuation, votes representing \$720,000 were in favor of the loan, \$363,700 were against it and \$352,000 were rejected.

The money to be obtained by the loan will be spent as follows: \$134,000 for water works; \$50,000 for a work shop and \$25,000 for equipment; \$31,000 for the purchase of various vehicles for the town, including trucks, tractors and air compressors; \$49,000 for roads and sidewalks; and \$15,000 for the construction of a public park.

MAGOG FAVORS PUBLIC WORKS LOAN BY-LAW

Magog, Sept. 20.—A proposed loan for \$280,000 was approved by the ratepayers of this town, when 195 citizens voted in favor of the by-law, 97 against and 12 ballots were rejected. In all, 304 out of a possible 1,200 votes were cast.

Hollywood Highlights

Hollywood, Sept. 20.—(P)—When California shows off its bathing suits, it doesn't fool around.

For instance, designer Cole of California had a few suits he wanted to exhibit, so what did he do? He chartered a train and brought 125 fashion writers and experts from the east "westward to the sea."

"Westward to the sea," eh? Well, as far as they got was Pasadena, which is 30 miles from the Pacific. But there at the Huntington Hotel was performed a show which even Hollywood would envy.

Under a clouded sky, the travellers sipped champagne and attended a formal dinner. Then they were ushered to the hotel pool, where the big show started. The performance began in a flurry of blank verse and ballet, accompanied by a full orchestra. Then it got down to business—the bathing suits.

If these models are any indication, bathing suits are going to be even shorter. Designed for next season, they show much more than was generally seen on the beaches this summer. The suits are principally two-piece, and reveal considerably more hip, than in the past. In fact, some of the girls modeling them looked quite uncomfortable exposed to the cool California night.

At Jolson should be very happy about this time. For

Columbia has fashioned as fine a tribute as anyone could hope for in his lifetime. "The Jolson Story" has turned out to be bang-up entertainment, ranking with the great "Yankee Doodle Dandy."

Movie goers may be surprised at first to hear Jolson's voice coming out of Larry Parks' mouth, but the illusion is successful. Laddy does a fine job in a richly sentimental film.

## Teacher Shortage Emphasized At School Boards' Conference

Knowlton, Sept. 20.—The seriousness of the teacher shortage situation was driven home to seventy rural school board representatives meeting here yesterday at the 17th annual parley of the Provincial Association of Protestant School Boards. Principal speakers were Dr. W. P. Percival, director of Protestant education for the province, and Dr. Sinclair Laird, dean of the Macdonald College School for Teachers.

Said Dr. Percival, speaking at a luncheon gathering: "Beside this, all other problems appear small at the moment."

The difficulty would not resolve itself, he warned, and he charged school boards with the task of finding some solution, adding, "I, personally, don't see any way out of the teacher shortage for the Province of Quebec in the next few years." Later Dr. Percival said that if university credit were given teachers training at the Macdonald College school it might be one means of making the profession more attractive.

Business sessions of the conference dealt with such matters as teachers' convention date, Canadian Legion Education Services, election of honorary members, and election of officers for 1946-47.

Heading the new executive is J. V. Waddell, for eight years a member of the St. Rose Protestant School Board, and for six years a member of the executive of the P.A.P.S.B. Mr. Waddell succeeds Dr. Murray Stalker, of Ormetown,

## AUGER APPEARS IN COURT ON FOUR CHARGES

Charged with theft of a truck, reckless driving, fleeing from the scene of an accident and obstructing a police officer in performance of his duty, Eddie Auger, of this city, appeared before Judge Anatole Gaudet in Magistrate's Court this morning for preliminary hearing.

At the opening of the hearing Judge Gaudet refused a motion of the defense represented by Paul-Emile Brazeau that the proceeding be quashed because of the inclusion of four separate charges in the indictment. The defense claimed the wording of the charge was irregular and would not allow any orderly arrangement of the plea.

Finally, after four Crown witnesses had given evidence, Judge Gaudet took on deliberation another defense motion that there had not been sufficient evidence presented to prosecute on the first and third charges and further that the second charge be quashed. Judgment on these motions will be handed down next Thursday.

Auger is being held in connection with the theft of a Sherbrooke Paving Company truck and a collision on the Brompton Road alleged to have occurred on the night of July 30-31.

Henry Grant, of Sherbrooke, told the Court that on the night in question he was driving his car from Bromptonville to Sherbrooke when what he believed to be a truck, "by the sound of the motor and the noise it was making" side-swiped his car. The witness stated further that two of the occupants of his vehicle had been injured in the collision and that shortly before the alleged collision he had noticed a vehicle coming in the opposite direction swaying from one side of the road to the other.

The time of the incident was put at between 11 and 1:30 o'clock on the night of July 30-31.

A. Delorme, Sherbrooke, brother-in-law of Grant, stated in his evidence that he had been following Grant's car from Bromptonville and had witnessed the collision. He corroborated Grant's evidence.

Leandre Cote, Rock Island Provincial Police Officer, stated that he had been called to the scene of the accident and that when the truck containing the accused and J. E. Isabelle, Sherbrooke, returned from the direction of Bromptonville, he had called them to a stop. Further in his evidence, he claimed that Auger was "not normal," that he "continually wanted to leave and did not answer my questions."

J. E. Isabelle remained on the stand for brief questioning but was later remanded for voluntary statement next Thursday. Isabelle has been charged with stealing a truck.

## TEXTILE WORKERS HONORED

These photographs were taken last evening as Dominion Textile Company honored its long service employees at Magog. At top six veteran workers are seen proudly examining the watches with which they were presented by G. Blair Gordon, president of the company, as a mark of appreciation for their long service. They are, from left to right, Edouard Grenier, 41 years' service, George Robinson, 39 years, Emery Lavoie, 36 years, Georges Ledoux, 40 years, Leopold Charland, 40 years, and Joseph Audet, 41 years. In the lower picture are Mr. Gordon and two of the oldest employees, Miss Albina Racicot, left, who has been with the textile firm 47 years, and John Peters, with 57 years' service.

## WOMAN INJURED IN COLLISION AT EAST ANGUS

A head-on collision between two automobiles, in which, according to provincial police, the occupants were lucky to have escaped serious, if not fatal, injuries, occurred shortly after two o'clock this morning on the Sherbrooke-East Angus road near the latter centre.

One passenger vehicle containing Lucien Tremblay, 25, driver, a Miss Metras, 20, and Mr. and Mrs. Jean Bouthier, all of La-Prairie, was headed towards Sherbrooke when the collision took place with a car driven by A. C. Smith of Bishopton.

The first-mentioned automobile was almost completely demolished but the only passenger hurt was Mrs. Bouthier, who received cuts and bruises about the face.

Damage to the second vehicle was not extensive.

Provincial Traffic Officer Vital Lemire is investigating.

"I am inclined to agree with them," wrote Mr. Wilson, "that at the opening of school they have many new teachers on the staffs which attend the convention and get direct benefit from the lectures and contacts as do older teachers, and if the date were changed to Easter, the session would be two-thirds over."

School commissioner accepted the report and dropped the matter. Mr. Whitehead reminded school boards that members of the armed forces in their schools were entitled to use of material prepared by the Canadian Legion Education Services.

Regret that all school boards in the province were not members of the P.A.P.S.B. was voiced earlier by Dr. A. S. Douglas, of the Knowlton board, in delivering an address of welcome prepared by L. M. Knowlton, chairman of the Knowlton body. Later, Dr. Stalker, retiring president, uttered a challenge to the association to bring into membership, boards not yet affiliated.

Stressing in his address that low-

## MILL PRESIDENT HURLS RIDICULE AT COMMUNISTS

Magog, Sept. 20.—(Special to the Record)—Malicious Communist propaganda, misrepresenting working conditions in textile mills, was completely repudiated last night by president G. B. Gordon, at a banquet honoring long-service employees of the Dominion Textile Company.

A total of 166 employees of the company were presented with gold watches by Mr. Gordon in recognition of 25 years or more of service.

"There are radical labor leaders who talk about the 'misery' of textile employees," said Mr. Gordon. "I wish they could see, as I do, a large group of men and women who have spent upwards of 25 years working in this business; men and women who have homes, families and healthy, happy lives; men who have sons working alongside of them in the mill earning good wages under good conditions; and who have grandchildren who will, when they grow up, begin taking their places in the mills, earning their livelihood and raising their own families in the tradition of honest work for honest pay."

He said that the workers being honored, and those before them who had been honored, some with up to 57 years service in the company, "are in themselves and in their way of life a full denial of the malicious Communist propaganda which is being spread throughout Canada by those who wish to destroy our nation and our democracy."

Among those at the head table were Dr. M. E. Adams, Mayor of Magog; John Peters, an employee of the textile firm for the past 57 years and Miss A. Racicot, an employee for 47 years.

## 1,200 Attended Safety Rally In Christ Roi Hall Last Night

An estimated 1,200 individuals attended a mass meeting for workers of this district held in Christ Roi Hall last night under the auspices of the Quebec Association for the Prevention of Industrial Accidents.

At this gathering, which concluded the two-day safety convention of the society held in Sherbrooke, C. J. Arcand, former Labor Minister in the Taschereau Cabinet, and Paul A. Cooke, were the chief speakers. Moving pictures were shown and door prizes awarded.

In the absence of Col. A. Gagnon, the meeting was presided over by his assistant, Mr. Cooke. He made an appeal to all workers, seeking their fullest co-operation with management and supervisory personnel of their respective plants. He expressed the opinion that the worker was in a better position than anyone else to report any existing hazard.

The worker, said Mr. Cooke, is actually doing the work or the operation. If he who is exposed to danger and he that may have been hurt or had a near accident, and if every worker would realize the importance of reporting immediately to his foreman, or bring to the attention of the management any hazard noticed, these would be corrected and no plans would soon become much safer. Employees can therefore play a big part in any accident prevention program.

Thousands of persons have lost their eyesight because at the time of the accident, they did not have, were not issued with, or would not make use of, eye protective equipment.

He then made an expose on eye accidents and the necessity of using protective equipment. To better illustrate the consequences following major eye accidents he told of one case where a young boy had remained totally blind when acid splashed from a plating tank. This young lad had only been employed for a few days. It was his first job. He had not been warned of the danger or the exposure in this operation and at the time of the accident had no protective equipment.

Mr. Cooke then drew the attention of the female audience to the danger of working on or near power machines without some kind of headgear. Past experience, particularly in these war years, should be sufficient proof of the necessity to prevent female workers' hair from becoming entangled in some moving part of the machine. Last year 12 had been badly scalped and in most cases they have remained permanently disfigured. In this respect he added that it was compulsory by law to have their hair protected, a heavy mesh or a common hair net in most cases being considered adequate protection.

Mr. C. J. Arcand treated industrial accidents from the social and humanitarian point of view. He pictured what generally follows a fatality when someone has to inform the member of the family of the tragedy that has so suddenly taken away the life of a beloved father or brother. Socially, said the speaker, it is everybody's duty to protect the lives, limbs and health of co-workers and since we are our brother's keeper, the moment anything that might someday become a contributing factor to an accident is noticed, steps should be taken to have the hazards corrected or removed.

The meeting was closed by the screening of safety pictures which seemed to be highly appreciated by those present. The moving picture program was under the direction of E. Fontaine and G. Toupin in charge of the Association's Cinecar. Six door prizes were given, these having been supplied by the following firms, Julius Kayser Co., Ltd., Mine Safety Appliances Co., Ltd., and the association.

**LOCAL MAN SENTENCED**  
 Claude Leveseur, of Sherbrooke, pleaded guilty before Magistrate Anatole Gaudet of having made false statements on four occasions for the purpose of obtaining unemployment insurance benefit.

He was sentenced to three days and costs on the first count and to six days and costs on each of the other three counts.

In passing sentence, Judge Gaudet pointed out that in future all similar cases brought to his attention will be dealt with very severely.

## "NO PARKING" SIGNS GIVEN FRESH PAINT

Although some citizens have complained about the new bus stop the majority seem to approve the latest move by the City Council to improve traffic conditions in the downtown and other areas in the city, a survey revealed this morning.

Most complaints came from men and women who were personally inconvenienced, but nearly all admitted that it would help prevent traffic jams, as were experienced in the past on the intersection of Wellington and Marquette streets and at other busy corners.

Employees of the roads department are today painting the new zones and most of the markets for bus stops have already been moved to their new locations.

While engaged in painting the new "No Parking" signs, the city painters are also re-painting all the old signs and motorists will now have no excuse for parking in a restricted zone. It is the policy of the Roads Department to repaint these signs at least twice a year.

In connection with the trial refuse can, which was recently placed on the corner of King and Wellington street, City Clerk Antonin Deslauriers stated this morning that it was being used a great deal, but that trouble had been experienced with youngsters carrying the receptacle off to different places, and that means of fixing it to the ground are now being studied. It is expected that more will be put up in the near future.

**CITY BRIEFLETS**

Don Fields and his Pony Boys at Cid's Place, Cherry River, Wednesday night, Sept. 25th.

Dance in I.O.O.F. Hall, Sawyerville, Sat., Sept. 21st. Len Lobb's Orchestra.

## TRUMAN AND WALLACE

The reported compromise whereby Commerce Secretary Henry A. Wallace will remain in the Truman Cabinet but will cease from making any further comments on the international situation until the peace conference is concluded does not help to strengthen the position of either the President or the chief critic of his foreign policy. Nor does it improve the whole position of the United States in the international political field.

At the very time when it is almost a necessity for the government to show a united front in support of the stand taken by State Secretary Byrnes at the Paris peace conference, the world is greeted to the spectacle of the head of the government condoning an attack on this policy by a senior member of the administration. Of course, the remarks of Mr. Wallace were disavowed by the President but the rebuke was so mild that it counted for little.

The grim fact remains, despite the patching up of the differences, that there is contained in the United States cabinet an element which may be expected to break out at any time with a fresh attack on the general policy of the government, and this outbreak is likely to come at a most inopportune and critical hour. True, Mr. Wallace has given his pledge to say nothing on international affairs but he is freed from this pledge as soon as the peace conference is over or upon leaving the cabinet. Until then he will be under extreme pressure, especially from the leftist groups in the nation, which might well cause him to explode.

It would have been more satisfactory for all concerned had the Commerce Secretary resigned after finding out how he had embarrassed the government and permitted himself to be replaced by a man more in tune with the administration policies. This would have left him free to express his views at will while permitting the cabinet to show some semblance of real unity.

## A UNITED STATES OF EUROPE

The proposal to create a United States of Europe designed to preserve peace in this troubled area of the world, as enunciated at Zurich, Switzerland, by former Prime Minister Winston Churchill Thursday, is not new. However, the fact that it has been advocated on previous occasions and has failed to appear is no reason why some such ideal should not be retained as an ultimate objective by those people who some day hope that the inevitableness of war will be ruled out and that an extended era of peace may allow the world to advance to that level of prosperity to which it is entitled.

No exception can be taken to the thesis that partnership between France and Germany is an essential basis for any such unity among the nations of Europe. The geographical location of these two powers is such that they form the very keystone of any attempt at erecting a United Europe structure. Herein also lies the great obstacle to the plan. The long-standing ill-will which has existed cannot be wiped out by mere platitudes and by the promises of the national leaders of the two countries that the nations will behave themselves. France, betrayed on several occasions in the past, understandably views its neighbor with suspicion and mistrust. This mistrust goes into the very hearts of the people who have felt the impact of the German hordes over eighty-odd years. This mistrust must be removed by the slow process of time.

One factor which might speed this unification program is the rise of the communist menace in Eastern Europe. France has shown a strong disinclination to accept Communism and Germany has a traditional hatred for the doctrine. As a result of the increased Russian pressure on the east it is conceivable that the two nations may ultimately bury their differences to the point where they may undertake common action against the potential danger. When this is achieved, a step will have been taken in the direction of a United States of Europe.

## POOR REPORTING

Many newspaper columnists are men well versed in the ethics of the profession whose experience and training in the reporting of news fully qualifies them to present their views on day-by-day developments to their readers. But unfortunately some of them have never had the advantage of newspaper training and one of these is UNRRA Director Fiorella La Guardia, former

mayor of New York, who finds time in his busy life to do a column which is run as a paid ad by a New York furniture company.

In a recent column from Warsaw, Mr. La Guardia declared: "In almost every capital that I have visited, men in high office as well as heads of government have pulled out clippings of American newspapers and have asked me why the errors, why the misrepresentations, why the false information. If they were editorials, the answer was easy. If they were news items, purporting to represent the facts, there was no answer."

Any newspaperman knows that a good city editor would jump down a reporter's throat for such writing. Who made the complaints? What were the newspapers in question and what did the stories deal with? Are you sure that these officials were unbiased and had all the facts? Did you investigate all the complaints and prove to your own satisfaction that they contained misrepresentations and false information?

But Mr. La Guardia leaves himself an out. "I am not going to mention any particular newspaper today," he writes further on, "lest this article be rejected."

That is as if a newspaper wrote: "There are corrupt, grafting politicians in this city, but we are not going to name them for fear they will sue for libel."

This advice might be given Mr. La Guardia: If you are going to be a journalist, get some facts to back up your accusations, and name names. Even the papers which were the objective of your most abusive attacks during your years as mayor do that much.

## Washington Column

By DOUGLAS LARSEN

### SHIPBUILDING PROFITS PROBED

Million-dollar profits made by U.S. shipbuilders will be put under investigation by Virginia Congressman Schuyler Otis Bland's Merchant Marine and Fisheries Committee during the week of Sept. 23. It will be another of the logical but somewhat crazy aftermaths of war. During the submarine emergency the cry was all for producing more and more ships and never mind the cost. Now that the war is over and there are more surplus ships than anyone knows what to do with, it's the other shoe that is given the hotfoot. The not-so-Bland committee staff, under General Counsel Marvin J. Coles, has asked all the 19 operators of government-owned shipyards to bring their books and their experts to Washington to justify their profits, and presumably they'll all be on hand.

Coles is a young New Yorker, graduate of Yale law school, with several years' experience in the Anti-Trust Division under Thurman Arnold. He served in the Navy during the war. He has been with the Bland committee since early this year, probing Maritime Commission accounting practices which have been under criticism by Comptroller General Lindsay C. Warren.

Allocating expenditures of 910 million dollars which the Maritime Commission can't accurately account for will make up the first part of the investigation, but the big test will come on ship construction profits.

### LIBERTY-SHIP PROGRAM WILL GET SOME ATTENTION

One indication of what may be uncovered by the investigation can be obtained from Maritime Commission figures on the Liberty-ship program. Of 5,600 ships of all types built during the war, 2,580 were of the Liberty type. Their total cost was more than four and a half billion dollars. The average cost of each ship was \$1,800,000, and the average profit on each ship was \$66,631. On this basis, total profits were over 170 million dollars.

No two shipyards had the same costs or the same profits. Under the Maritime Commission's incentive payment plan, the yards which produced the most ships the fastest had the highest profits. On the other hand, smaller yards with longer production time and higher production costs built ships at less profit.

Henry Kaiser's Permanente yards, operating 19 ways, built 489 Liberty ships in an average of 42 days each, at an average cost of \$1,700,000 and an average profit of \$89,000. In the Kaiser-Vancouver yard, which built only two Liberty ships, however, the cost per vessel was \$2,065,000 and the average profit was \$10,000, the highest on record.

On the other hand, St. Johns shipyard in Florida, operating six ways, built 82 Liberty ships in an average of 88 days, or over twice as long as it took Permanente. And, though the average cost was \$2,100,000, the average profit was only \$23,000 per ship—about a fourth of that at Permanente.

This comparison poses the question of what the government wanted for its money—speed, low cost and high profit, or slower work, higher cost and lower profit.

Between these extremes are the records of the other shipbuilders.

### THE BLAND COMMITTEE HAS A HARD ASSIGNMENT

What constitutes fair costs and fair profits, considering the demand for speed, will be extremely difficult for the Bland committee or anyone else to appraise. All yards were, of course, built by the government. Shipbuilders put up little capital of their own, and reaped high profits on small investment, operating mainly on cost-plus-fixed-fee contracts.

If the intent of Congress was to "take the profit out of war," this result may not show in these records of the Liberty-shipbuilding program:

Alabama—20 ships, \$1,200,000 profit. Bethlehem Fairfield—384 ships, \$29,000,000 profit. California—306 ships, \$21,000,000 profit. Delta—132 ships, \$5,000,000 profit. Jones—151 ships, \$5,000,000 profit. Marlinship—15 ships, \$900,000 profit. New England—236 ships, \$10,000,000 profit. North Carolina—126 ships, \$10,000,000 profit. Oregon—330 ships, \$27,000,000 profit. Southeastern—88 ships, \$2,600,000 profit. Todd-Houston—208 ships, \$10,000,000 profit. Kaiser-Walsh—10 ships, \$340,000 profit.

It must be borne in mind that these profit figures are before taxes and before renegotiation. Taxes took roughly \$72 out of every \$100 profit. Renegotiation, not yet completed, may take some more.

So when final accounting is made it may be shown that the shipbuilders didn't make such a tremendous killing after all. And if ships carried the men and materials that won the war, the cost may be made to appear even more reasonable.

## BIBLE THOUGHT FOR TODAY

For he shall have judgment without mercy, that hath shewed no mercy; and mercy rejoiceth against judgment.—James 2:13.

Who will not mercie unto others show, How can he mercie ever hope to have?

—Edmund Spenser.

## Letter From The Editor

This is the second in a series of letters written from the editor who is on a trip across Canada to the Pacific Coast. One of the purposes of this trip is to re-appraise the Canadian viewpoint and to see again the great national strength of this country in her prairies, mountains and sea coast.

Dear Readers: How can one describe the prairies to some one else who may never have seen them—it is like trying to describe the sea to an in-lander, or the mountains to one who has lived all his life on the plains. One can say they are vast, with a profusion of colors, and other physical attributes—but always, I am afraid, the very essence must be lost.

Canada's prairies are a symbol of her very national life. Here is the breadbasket of an Empire—the hope of the world. For hour after hour—at fifty miles an hour—passes the train window. In this early autumn of the year the crop is mostly in. The fields are cropped close, like the head of a recruit after his first army haircut.

The wheat was in, and the rich black soil was turned up by the plough ready for the next planting. Occasionally, like some small intruder in all that vastness, a lone farmer could be seen in the distance turning a black furrow, and one wondered how men could bend

to their wills all that bounty and all that stretch of rich soil.

The contrast of color was lovely. The black, newly ploughed earth, stretched into the brown of cropped fields and the green of grass. The houses clustered in the blessed shade of neat clumps of trees, planted by the farmers to give shelter in all that flat, endless prairie.

To one who is used to the rolling hills, and many lakes of the Eastern Townships, with its stately trees and shaded farms, the prairies give a sense of endlessness. There is nothing to break the horizon. As far as one can see are the never ending fields. The fields from which must come now the wheat to feed a starving world—a grave responsibility for the Canadian farmer. And all the while, stretching ahead are the man-made rails, like veins through which flow the life blood of the nation—wheat from west to east, and manufactured goods from east to west.

Then on the morning of the second day, at breakfast, a few minutes before the train is due to arrive at Calgary, far on the horizon across the prairies, the foothills of the Rockies suddenly take form. Glistening in the bright morning sun they separate themselves from the clouds, low-hanging in the still air, to take their own majestic shape. One thrills to this first glimpse of the Canadian Rockies.

Yours sincerely,  
THE EDITOR.

## Press Comment

### FEDERATION OF AGRICULTURE REPUDIATES FARM STRIKE

Ottawa Journal The non-delivery strike of some farmers in Alberta and Saskatchewan is attracting considerably more attention than is warranted. Possibly some Western writers, envious of the amount of strike news emanating in the East, chest days, are making the most of what has actually transpired there. True a few milk cans have been overturned and some farmers forced to return home with a load of grain but close reading of the strike news leaves the impression that such instances have been at isolated

Farmers' Union is affiliated, had also refused to endorse the strike.

From Alberta comes further evidence that this strike has not the support of the farmers of that province in general. Mr. R. H. M. Bailey, managing director of the Alberta Milk Producers' Association who is also president of the Dairy Farmers of Canada, calls on all producers of milk for Edmonton, Calgary, Lethbridge and Medicine Hat, to continue deliveries and states the "right of any producer to deliver his milk will be upheld." He tells producers to call police if stopped at any picket line. "As this organization serves most of the large centres in the province it is an indication of how widespread is the strike effort."

In its Charlottetown statement the Federation makes it clear that strikes are not a part of organized agriculture's policy for adjustment of grievances. As opposed to strike action, it states the report, the directors of the Federation today declare their decision to remain consistent with the Federation's own policy of achieving objectives through negotiation and consultation with Government authorities. "The Federation is all for the declared objective of the Alberta strike, to have the Government name a commission to study the relationship of the major groups of the nation with respect to the division of the national income with the objectives of attaining a more balanced economy as between agriculture, labor and industry." It proposes to attain that end by peaceful means. It has twice made this request and has been given to understand that preliminary research work is under way.

It looks very much as if this Alberta strike, within the set-up of organized agriculture in Canada, is about what labor circles term an outlaw, or wildcat, affair.

### WALLACE vs. BYRNES

New York Sun If the Republican National Committee is really alert to its opportunities it will finance (covertly if necessary, overtly if possible) a lot more speeches by Henry Wallace. Henry long ago talked himself out of the confidence of most level-headed Americans. He is now in process of talking himself and the Truman Administration out of their jobs. After a few more speeches such as he made at Madison Square Garden on Thursday night nothing much more will be left to the New Deal coalition than the machine vote in a few cities, the die-hard vote in a few Southern States and the fanatic fringe of the left wing.

But not only did the New Deal Secretary of Commerce kick the New Deal Secretary of State in the slats but he also used the President of the United States as a football. To all practical intents and purposes, the Wallace speech in New York contradicted, and endeavored to cancel out, the speech which Mr. Byrnes made the other day in Germany. To the applause of the American public Mr. Byrnes at Stuttgart advocated a firm stand against Soviet Russia's aggressive policy respecting Eastern Europe. To the applause of the Comrades at Madison Square Garden Mr. Wallace advocated further appeasement of Russia, saying in substance that Uncle Sam and Uncle Joe are really good fellows who in all friendliness should be left to sell their respective ideologies in amicable competition for the political trade of the world. Mr. Byrnes cheered his compatriots by telling them in effect that Soviet toughness must be answered by American toughness. Mr. Wallace cheered the Comrades by telling them in effect that getting tough with Russia has never been profitable to anybody who tried it in the past.

The nation has been given to understand that Mr. Byrnes cleared his Stuttgart speech with the President. It is now given to understand that Mr. Wallace also cleared his Madison Square Garden speech with the President. This puts Mr. Truman right on the spot. Which of these diametrically opposed conceptions of foreign policy is it of which he really goes ap-

## From The Record Files

### THIRTY YEARS AGO

Highway traffic officers have been busy during the past few days with the result that twelve persons were fined for infractions of the Motor Act. In eleven other cases the hearings were postponed for five days.

Fire caused considerable damage to the factory of the Danville Chair and Specialty Company.

Officers elected at the annual meeting of the Sherbrooke Branch of the Canadian Red Cross Society were: Mrs. J. T. Morkill, Mrs. de Lottinville, Mrs. T. J. Parkes, Mrs. R. A. Ewing, Mrs. A. C. Bissell, Miss E. M. White, Miss H. Spier and Mrs. S. A. Jones.

Almost fantastic accounts are being received of the exploits of the British land battleships, "the tanks," which are playing havoc with the German defences.

### TWENTY YEARS AGO

By a vote of seven to three the Sherbrooke City Council rejected petitions that the decision to place the Soldiers' Memorial on King Street be reconsidered and that a site on Strathcona Square be approved.

Officers elected for the newly-organized Athletic Club at the Knowlton High School were Cedric Wheeler, Marion Kenworthy, Bill Hillhouse and James Hunter.

United States business interests in Mexico have protested to their government against the domination of the banking field by Canadian banks following the purchase of the last Mexican bank by a Canadian institution.

The engagement has been announced of Crown Prince Leopold of Belgium to Princess Astrid of Sweden.

### TEN YEARS AGO

The Italo-Ethiopian trouble is again before the League of Nations Assembly with the refusal of Italy to attend the sittings if the Ethiopian delegates are present. The League so far has refused to recognize Italy's conquest of Ethiopia.

Officers elected at the annual meeting of the Ladies' Branch of the Lennoxville Golf Club were: Mrs. R. W. E. Wright, Mrs. J. P. L. Stewart, Mrs. W. H. Ames, Miss Carolyn Taylor, Mrs. L. M. Watson, Mrs. C. Hall.

Five Loyalist warships, stationed at Moroccan bases, have surrendered to the Fascists, thus further complicating the international situation in the Mediterranean area.

A preliminary \$5,500,000 public works program has been announced by the Provincial Government as a relief measure.

### FIVE YEARS AGO

Ten crack German divisions are reported to have been destroyed by the Russian defenders of Kiev, while hundreds of planes and tanks have been lost in the attack on the Ukraine capital. In Paris a campaign of wholesale slaughter by the occupation authorities is failing to halt the underground sabotage drive.

The decision of the United States Navy Department that repairs to British warships could be carried out in United States naval yards under the terms of lend-lease is expected to materially improve the British naval position in the Atlantic war.

The Japanese forces are reported as advancing along the Tungting front in China and have cut a number of strategic railway lines.

## Do You Know?

prove? The nation has a right to an honest answer.

With sorrow we are obliged to note that the Comrades were not altogether kind to Mr. Wallace. Whenever he let slip any sentence that could possibly be interpreted as critical of Russia he was hissed and booed and heckled. They were root-and-branchers, those boys at the Garden! They would stand for no slight innuendo that in any given matter Moscow could conceivably be wrong. Evidently Mr. Wallace remains unimpaired regarding the deeper loyalties of the party line. Senator Pepper made no such mistake, so he was cheered all the way.

The Wallace speech was supported to be in favor of Mead for Governor and Lehman for Senator. If Governor Dewey and Candidate Ives have a proper sense of the fitness of things, they will ascertain at once whether the expenses of the Madison Square Garden affair have been fully covered and, if not, will send in their checks to make good the deficit.

Q—Is Europe showing signs of regaining its prewar food production rate?

A—It is expected that Europe's food production will be at 90 per cent of prewar rate by the end of this year.

Q—What is the relationship between black pepper and white pepper?

A—They are the same, but black pepper is picked when the berries are brown, and then dried in the sun, while white pepper is picked while the berries are still red, and soaked in water.

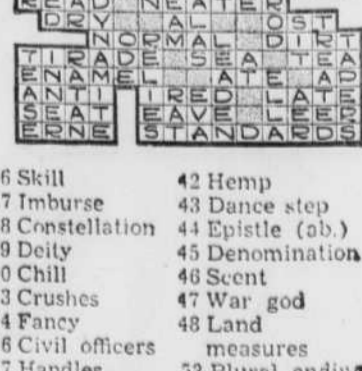

Q—Who founded what is now the U.S. Coast Guard?

A—Alexander Hamilton, in 1790, to operate against smugglers.

# TONY DEMERS, EX-CANADIEN, TO PLAY FOR SHERBROOKE

## Boisvert And Prefontaine Upset Blais And Turmel To Reach Finals

Making a sensational comeback after dropping the first two sets, Hector Prefontaine and Ivan Boisvert defeated Gaston Blais and Laurent Turmel 2-6, 3-6, 6-4, 6-4, 6-3 last night in the Mount Pleasant tennis tournament.

By virtue of their victory over the city champions, Prefontaine and Boisvert advanced to the finals. Turmel and Blais outplayed their opponents in the first two sets and it looked like a sure victory again for them. Prefontaine started playing a very defensive game in the third set and his partner played well at the net. Turmel and Blais could no longer find the range and lost the set 6-4. In the fourth set the steady and brilliant playing of Boisvert and Prefontaine proved to be too much for their opponents and they emerged victorious 6-4.

The final set was closely cont-

## RECORD IN WIN OVER SCOTSTOWN

Sparked by a brilliant five-hit pitching performance by Wilcox, the Sherbrooke Record softball team took the opening game of a home and home series with Scotstown, 11-5, at Dufresne Park last night.

Scotstown opened the scoring in the first inning, tallying one run on a walk coupled with a two-bagger by Pinkham. They were held scoreless until the last of the sixth, when three hits and a walk produced four more runs.

The Record tallied in every inning except the second and amassed a total of seventeen hits off the offerings of L. Irving. Drew, Scofield and Wilcox connected for circuit drives.

Wilcox, the Record hurler, in allowing only five hits, set down thirteen men via the strike-out way and gave up seven free tickets.

The return fixture of the series will be played in Scotstown on Sunday.

Scotstown: 100 004 0—5 3 3  
Record: 202 133 x—11 17 1  
L. Irving and H. Parsons; Wilcox and Drew.

## Tony Demers Signs For Sherbrooke

This picture was taken yesterday afternoon when Tony Demers affixed his signature to a Sherbrooke Hockey card. Seated, left to right: Coach Ivan Dugre, Tony Demers, Dr. N. A. Dupuis, President of the Sherbrooke Team. Standing: Jean-Paul Laine, Sports Editor La Tribune, Len O'Donnell, Sports Editor Sherbrooke Record, and Forest Keene, member of the Sherbrooke Hockey Club executive.

## Coach Ivan Dugre Signs Up Last Year's Top Scorer To Play Here

Tony Demers, ex-Canadien hockey player and the leading scorer in the Provincial Hockey League last season, has signed up with the Sherbrooke Senior Hockey club.

Demers, who notched the right boards for the St. Hyacinthe team last year, affixed his signature to a playing card yesterday afternoon and will line up with Coach Ivan Dugre on the local squad.

Demers is twenty-nine years old, weighs 190 lbs. at the present time. He is considered by hockey experts to have one of the hardest shots in the hockey world of today. In every league that he has played he has always been one of the leading scorers. Last year he led the Provincial League in scoring with forty-nine goals and thirty-two assists for a total of eighty-one points. He missed the last ten games on the schedule when he broke his leg and was forced to the sidelines.

Tony Demers has had a varied career. He played in Europe with the "Flying Frenchmen" of Paris during the season of '36-37. Returning in the spring he signed pro with "Les Canadiens" and was farmed out to New Haven. The following year he was reinstated as an amateur and played with Lachine. In '39-40 he was sent to Valleyfield and at the end of the season he signed pro once again with "Les Canadiens." In the following season he broke his leg and did not play until the next winter when he started out with the Canadiens. He then joined the Army in which he remained for a year and a half until he got his discharge. In 1943 on obtaining his release he went back to the Canadiens and was sent to the N.Y. Rangers in exchange for Phil Watson but disinterested in money matters and quit the professional ranks. He stayed out of hockey for a year in order to obtain his amateur card. The following year, '45-46 he toured the ice for St. Hyacinthe and kept the other goalers busy kicking out his shots.

## Conny Smythe Seeking Another "Kid Line" For His Leafs

Toronto, Sept. 20.—The yearly "Kid Line" dreams of Conny Smythe, the astute, little manager of the National Hockey League Toronto Maple Leafs, may not be getting better all the time but at least they still don't deter him from hoping another such famous combination of his can be developed eventually.

To Smythe and the club's faithful fans the memory of the fame and prowess of his first "Baby Face" line hasn't dimmed through the years. And Smythe, as wide as anyone to the drawing power of another "fuzzy-faced" attacking threesome, makes no secret of the fact he again would like to capitalize on one.

In the early '30s his initial kid line of Charlie Conacher, Joe Primau and Busher Jackson was the bulwark of the Leaf team of that era and their efforts alone practically drew enough customers into Maple Leaf Gardens to eliminate any doubts some shareholders may have had whether their investment in the big ice palace was sound.

Even since that unit broke up the head Leaf pilot has been shop-

## ROYALS DROP OPENING GAME TO SYRACUSE

Syracuse Chiefs got off to a running start in the International League Governor's Cup finals last night by defeating the Royals at Montreal, 5-0 in the first game of the best-of-seven series.

Jim Prendergast, hurling for the Chiefs, gave the Royals only four hits while walking three and fanning eight. Lew Riggs and Earl Naylor were the only Royals getting safeties, splitting the hits evenly between them.

Cy Baker started for the Royals and was reached for a pair of runs on eight hits before yielding to Jean Pierre Roy in the ninth. Doubles by Dick Wahl and Dick West, a scratch single by Prendergast, a fielder's choice and a base on balls scored a run and left the bases loaded.

Frank Laza succeeded Roy to be greeted by a single by Dutch Metz which scored the final two runs.

Charlie Kress' sixth-inning homer gave the Chiefs their first run.

## STARTERS IN LENNOXVILLE FIELD DAY

Twenty-eight entries have been received to date for the field day being held tomorrow by the Lennoxville Golf Club.

Starting times and foursomes are as follows:

11:00: E. McGinty, L. R. Stafford, D.H., E. W. Hall, D.H., E. W. Gilbey, L.

1:12: N. Farrell, L. L. O. Carriere, L. H. W. S. Downs, L. N. Flint, L.

1:18: C. Wyatt, Cow., A. Fyfe, L. L. Dwyer, L. C. T. McCormick, Cow.

1:24: H. Ruiter, Cow., L. Pergau, L. J. McKnight, L. A. N. Other.

1:30: L. M. Watson, L. J. J. Bell, L. R. E. Blake, L. B. Grime, L.

1:36: S. Morse, L. R. Braut, Cow., J. Wood, Cow., J. Huot, M. Orford.

1:42: A. N. Ocher, J. W. Herold, L. B. Hoperat, L. A. N. Other.

1:48: E. Messenger, L. A. N. Other, A. N. Ocher, S. Clarke, M. Orford, H. Fowls, L. A. N. Other.

## No Shortage Of Hockey Players Seen In N.H.L. Training Camps

The National Hockey League returns to the same old stands this winter but fans around the six-team circuit will find many familiar figures missing from the ice and others appearing in unfamiliar uniforms.

A Canadian Press survey of player prospects shows that at least a dozen of the better known players of the last 10 to 15 years have either hung up their skates for good or have drifted back to the minors. Before the season opens Oct. 16 many others, including those of inferior quality who got a chance to play in the big time because of wartime demands on hockey manpower, may be weeded out in the training camp sessions which will be in full swing by the end of next week.

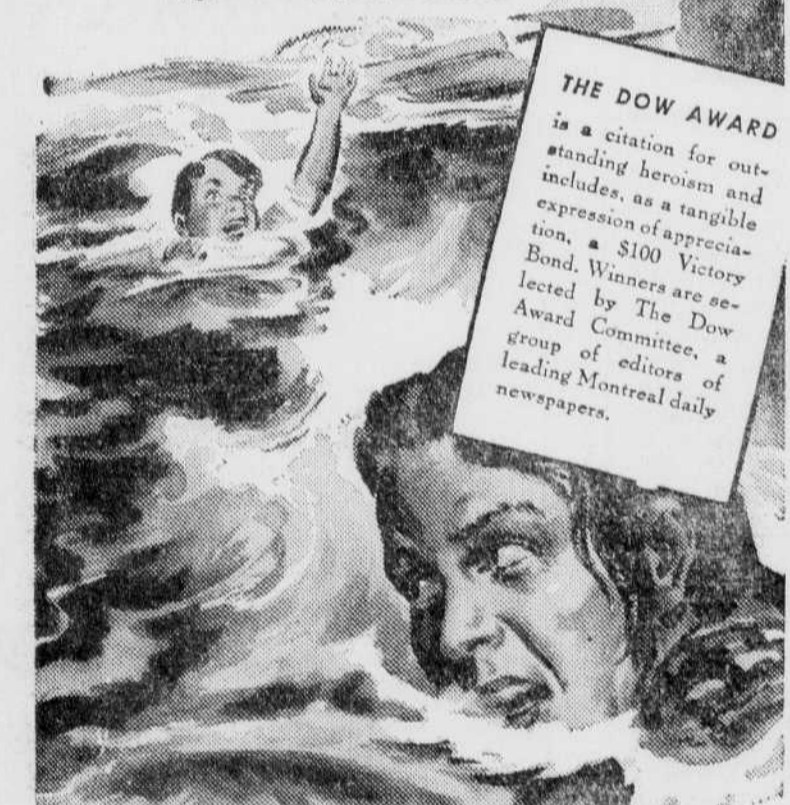

Veterans who have announced that they won't play pro hockey again include: Bob Davidson, Lorne Carr and Sweeney Schriner of Toronto Maple Leafs; Bill (Flash) Hollett and Syd Howe of Detroit Red Wings; Bill Cowley and Dit Clapper, Granddaddy of them all, of Boston Bruins. Davidson stays with Toronto in a coaching capacity and Clapper is coach of the Bruins and some of the others may still bob up in some hockey capacity or other—but they have all said it won't be as players.

But at the hockey camps, there is no dearth of talent. More players than ever before—some 350—are hopeful candidates for the some 120 positions on the club rosters. Many are veterans but most numerous are newcomers, eager young aspirants up from amateur and minor pro ranks intent on hockey careers.

The Red Wings were the first club to start full-scale training, opening their camp for the Wings and minor league affiliates last Monday in Detroit. Both Toronto Maple Leafs and New York Rangers started hockey training schools for young prospects this week and opened their main camps next Monday—Leafs at St. Catharines, Ont., and Rangers at Winnipeg. Montreal Canadiens started training in Montreal yesterday. Boston Bruins report to Hershey, Pa., Sept. 25 and Chicago Black Hawks at Regina Sept. 26.

## MOTHER OF FIVE FIGHTS SWIRLING CURRENT... IN SPECTACULAR RESCUE OF BOY!

Mrs. H. D. WILFORD Wins Dow Award

**THE DOW AWARD** is a citation for outstanding heroism and includes, as a tangible expression of appreciation, a \$100 Victory Bond. Winners are selected by The Dow Award Committee, a group of editors of leading Montreal daily newspapers.

Caught in the turbulent waters of the Otonabee River near Peterborough, a 7-year-old boy screamed frantically for help. He had been trying to swim to shore from a raft when the current over-powered him.

Mrs. H. D. Wilford of Lindsay, Ont., acted quickly when she heard the cries. Leaping into the fast-moving river, she struck out for the drowning boy. Desperately she fought against the current... edging closer and closer to the frantic youngster. When she reached him, he was in poor shape... and it was only after a considerable struggle that she succeeded in dragging him back to the beach.

This brave mother of five children deserves great praise. We are proud to pay tribute to Mrs. H. D. Wilford through the presentation of The Dow Award.

## FIGHTS LAST NIGHT

By The Associated Press

Fall River, Mass.: Tommy Pendleton, 156, Gary, Ind., outpointed Tommy Lamb, 163, Toronto, (8).

North Adams, Mass.: Johnny Eagle, 161 1/2, Detroit, T.K.O. Willie Shanks, 163, Montreal, (9).

Brooklyn: Benny May, 122, Montreal, knocked out Leroy Spencer, 123, New York, (1).

Brooklyn: Pat Scardon, 139 1/2, New York, outpointed Cleo Shane, 138, Los Angeles, (8).

Chicago: Nate Bolden, 182 1/2, Chicago, outpointed McKinley English, 194, Detroit, (10).

Montreal, Sept. 20.—Clarence Campbell, president of the National Hockey League, announced yesterday the formation of a National Hockey League information bureau here.

The bureau has been organized to help sport writers, sportscasters and the hockey public in general in their quest for information about the National League.

Kenneth W. McKenzie of Winnipeg, a former sports writer of the Montreal Gazette and the Winnipeg Free Press, will be in charge of the bureau.

## Musial Rated Greatest Player In National League By Ted Williams

Ted Williams, Stan Musial's chief rival for the title of baseball's most dangerous hitter today, believes the St. Louis Cardinal slouter is the "greatest player in the National League."

The Boston Red Sox socker, who with his manager, Joe Cronin, and others of the team's top-flight stars, were interested spectators at the Cards-Braves game in Boston, got a large eyeful of Mr. Musial in action yesterday.

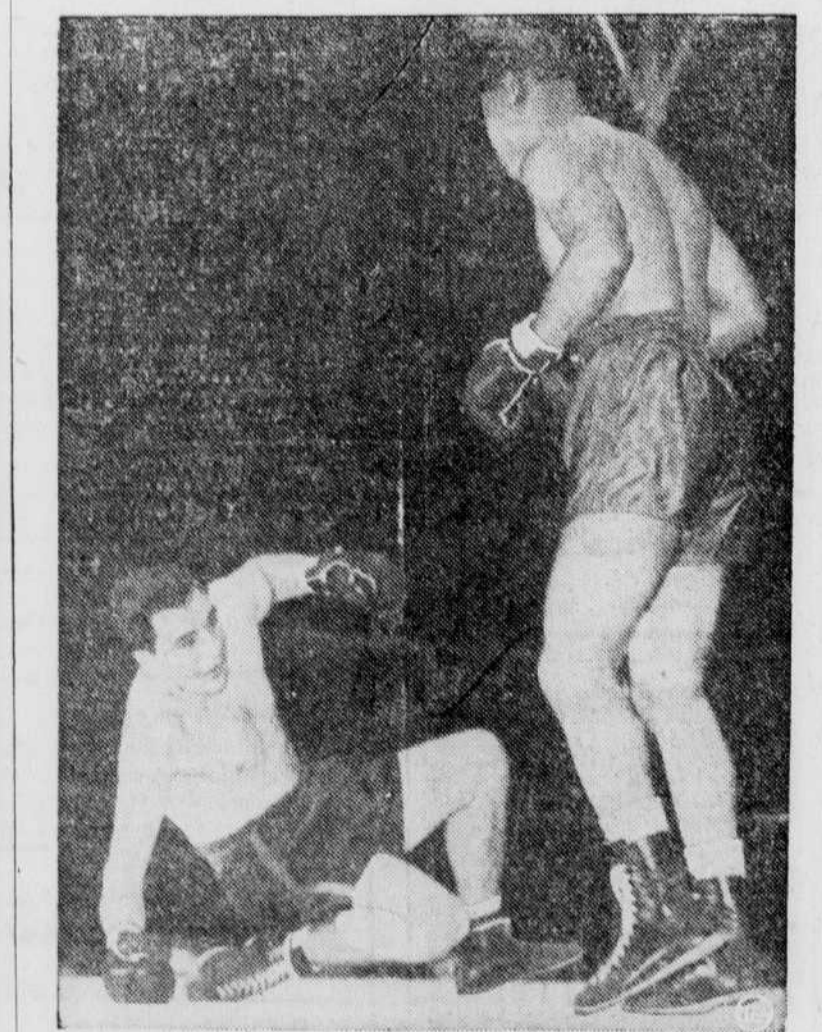

Musial, currently leading the National League batters with a mark of .373, slammed out five straight hits in as many times at bat and drove in the winning run in St. Louis' 5-4 victory with his final safety, a ninth inning single. Two of his hits were doubles, which boosted his league-leading total in that department to 48. Musial also leads the loop in hits, runs scored and triples.

The victory enabled the Cardinals to preserve their first place margin of 1 1/2 games over Brooklyn Dodgers who whipped Pittsburgh Pirates 7-0 at Ebbets Field.

The Cards saw a 4-1 lead vanish when Boston came up with three runs in the bottom half of the eighth.

The Dodgers combined lusty clouting and splendid pitching to grab the rubber game from the

## And This Was The End

Within 2:00 of the first round, Joe Louis nailed Tami Mauriello with a barrage of blows and then reeled the youngster with a left to the chin. Mauriello was on his knees when he was counted out.

## SPORTING NOTES

Manchester, England, Sept. 20.—Threat of a strike by British soccer players to enforce their demands for higher pay apparently had been dispelled today.

Following a player-owner conference arranged by the labor ministry last night, James Fay, players' union secretary, said: "We all know it is illegal to strike under the Emergency Powers Act and the only course now open is to go through the usual channels."

The union had asked that management join in submitting the question of pay increases to arbitration by an industrial board. A joint statement issued after the conference noted management's stand that "if arbitration is entered upon, it must be compulsory."

The players are asking salaries of £12 (\$48) weekly in winter and £10 (\$40) in summer, with contracts running 52 weeks. They want a minimum weekly pay for full-time professionals of £7 in winter and £5 in summer.

Philadelphia, Sept. 20.—(AP)—Philadelphia Phillies are over 1,000,000-fan mark for paid home admissions today for the first time. The paid attendance of 40,007, at last night's game with Cincinnati, a new Shibe Park record, gave the Phils a total of 1,023,460 paid home admissions for the season.

The Phils also:

1. Smashed all single game attendance records here.
2. Smashed all doubleheader attendance records here.
3. Gave the city its first season of 1,000,000 paid admissions in either the National or American Leagues.
4. Turned away a crowd, estimated by police, at more than 20,000.

The 1,000,000th fan to pass through the turnstiles—Chappie Lewis—received a new automobile.

Chicago, Sept. 20.—(AP)—Johnny Gattisig, manager of Chicago Blackhawks of the National Hockey League, left today for Regina, Sask., the Hawks' training camp, to prepare for the 1946-47 campaign. A squad of 60 players will report Sept. 26. Included will be at least 20 rookies.

**FALLACIES**  
The so-called flatfishes, such as halibut, are not flat, but thin, being compressed laterally while the horizontally flattened rays and skates are not flatfish.
