## A NEW BRUNSWICK BANK OFFICIAL

Arrested in New York on a Charge of Embezzlement—Amount Said to Be \$37,000.

New York, Oct. 23.—Harry B. Clark, said to be wanted for the embezzlement of from \$30,000 to \$50,000 from the Bank of New Brunswick, was arrested tonight in Harlem at the request of a private detective agency whose operatives have been trailing him since last June.

When searched at the 125th Street Station, he gave his name but refused any further information for the record, except that his age was 28. In his pockets were found a ticket for a second class passage to Europe on the Kaiser Wilhelm der Grosse, and ten \$20 traveller's cheques, payable to Harry Carleton, the name in which the ticket had been bought. He also had several letters, one to "dear papa and mamma," which was unaddressed. Others were addressed to Gertrude Sherwood, Sussex, N. B., one to Gordon B. McKay, one to Mrs. H. B. Clark, both of Sussex, and another to A. E. Clark, at a town in Prince Edward Island. An unaddressed letter contained the following sentence: "The Pinkertons have made a punk job of this and I guess they are tired of the chase I have given them."

The detectives located Clark at Asbury Park, N. J., during the summer, but he gave them the slip and they got on his trail only a day or two ago. He had been boarding for three weeks at No. 236 West 127th street and talked freely of the pleasure he expected to have in London and other cities.

After his arrest Clark was closeted with the detectives and they said that he proclaimed his innocence and stated that the trouble was that he had, as an officer of the bank, made loans to promoters on collateral which had not been as valuable as it had been represented.

St. John, N. B., Oct. 23.—Henry B. Clark, who was arrested in New York tonight for embezzlement in this city, was manager of the Bank of New Brunswick's Charlotte Street branch here, up to a few months ago, when he disappeared and it became known that he was financially involved. It is said that the Pinkertons, acting for the bank, have been in close touch with his movements since he went away, and some say the detectives acting for the bank were thought to be able to put their hands on Clark when the signal was given from St. John. While the despatch mentions the amount in litigation as \$55,000, it has been understood here that it is only \$37,000. The management of the Bank of New Brunswick and its counsel were both silent tonight when asked about the matter, though both had had word of the arrest from New York, and neither would deny that Clark had been arrested at the instance of the bank here. The city has heard many stories in connection with the affair. In the first place if the Bank of New Brunswick should suffer any loss it would meet with only a trifling one, for it is one of the most solid institutions in the country, and even the total amount involved could not be regarded as serious from the bank's standpoint. It has been said that some person or persons took to the branch bank in Charlotte street certain bonds and left them with Clark, who in the course of time, and without the knowledge or authority of his superior, took them to a local banker and hypothecated them for the sum of \$27,000. It has been reported that in order to hypothecate to this amount he gave the broker a letter purporting to bind the Bank of New Brunswick to meet the obligation any time the broker "wanted the money. A further story in connection with the matter is that later he contrived to cash a certified check for \$10,000, the broker understanding that the bank's guarantee was behind the check. It is intimated, of course, that Clark in these matters acted in his individual capacity only, and so deceived the bank on the one hand and the broker on the other. Court records show that recently a suit was brought by a broker against the bank for the money, and the bank took the position that it was not responsible. A further complication is said to have arisen through the bank being sued by the foreign holders of certain deposit slips, and it is reported in this connection that the bank's contention is that these deposit slips figured in a deliberate and concerted attempt to defraud the institution, and it is alleged that one of the men said to have been concerned in this attempt has since been arrested on another charge and is in jail in another city. It is said that Clark lost heavily speculating in cotton. Clark has a wife and child living in Sussex, N. B.

### EARL OF ONSLOW DEAD.

London, Oct. 23.—The Earl of Onslow died today.

William Hillier Onslow, fourth Earl of Onslow, had been chairman of committees and Deputy Speaker in the House of Lords since 1905. He was a Conservative. An ancestor, Sir Richard Onslow, was a parliamentarian; he urged Cromwell to assume the kingship, but afterward assisted the restoration. The fourth Earl of Onslow was born in 1853. He was twice a lord-in-waiting. He was Under Secretary for the Colonies in 1887-1888; Parliamentary Secretary to the Board of Trade, 1888; Governor and Commander-in-Chief of New Zealand, 1888-92; President of the Board of Agriculture, 1903-05; in Lord Salisbury's and Mr. Balfour's ministries.

### MOTHER CHARGED WITH MURDERING HER CHILD

Bath, Me., Oct. 23.—That three-year-old Martin Howard Keefe, Jr., whose body was found in a mill pond Saturday morning by his mother, Mildred Keefe, was not drowned was the report made by Medical Examiner R. H. Donnell, following an autopsy today. The cause of death cannot be determined until the stomach and other organs have been thoroughly examined. They have been sent to the Bowdoin College Medical School. The mother was arraigned before Judge A. J. Dunton in the Municipal Court today, charged with murder, and entered a plea of not guilty.

### CHILDREN CRY FOR FLETCHER'S CASTORIA

Copenhagen, Oct. 23.—Dr. Frederick A. Cook, who was so enthusiastically welcomed here after his alleged discovery of the North Pole two years ago, arrived in Copenhagen tonight. He was accompanied by his wife. Owing to the threatening attitude of the crowd, Dr. Cook was escorted to his carriage by a detachment of police. The mob followed, jeering and hooting. The explorer said he had given up his projected European lecture tour, and will lecture only in this city. The newspapers denounce him, some of them recommending demonstrations of disapproval at his lecture.

## LABOR GAZETTE TO BE ABOLISHED

It Has Been a Costly Toy—The New Solicitor General—Montreal Postmastership.

(Special to the Chronicle.)  
Ottawa, Ont., Oct. 23.—The Labor Gazette, that expensive luxury of late government, is doomed to extinction. In reorganization of Labor Department by Mr. W. T. Crothers, the new minister, this toy of his predecessor MacKenzie King is to go into the waste paper basket with many other baubles. For some years it has made its appearance monthly at a cost of about \$50,000 a year and has served no useful purpose. The solicitor-generalship is likely to go to Ontario as result of splendid showing of that province in recent elections.  
Mr. A. C. Boyce of West Algoma is looked upon as likely man to be chosen. Mr. Boyce is nominee of a large number of old country societies, such as Sons of England, St. Georges and kindred bodies. He reached Ottawa today and his appointment is regarded as very probable.  
During the Premier's absence Mr. Foster is acting Prime Minister.  
No appointment has yet been made to fill the postmastership of Montreal and will not be until Mr. Borden's return.

## APPLICATION FOR CHANGE OF RATES

By Express Traffic Association Refused by the Dominion Railway Board.

Toronto, Ont., Oct. 23.—An application by the Express Traffic Association for an order authorizing express companies to cancel section D of the classification of express rates, relating to the shipment of books, maps, almanacs and other printed matter, was refused by the Dominion Railway Board today. The rates were adopted by the express companies to compete with the postal service and now the association, claiming that the rates have not proved remunerative, urged the deletion of the section on the further ground that book rates, covering long distance shipments, were discriminatory, favoring some shippers more than others, and should be made to conform with other express rates of the association.

Chairman Mabee, in delivering judgment, said that no evidence had been given by the Express Association to show that the rates had not been remunerative as they had contended. Indeed, the association had extended the classification of the rates so as to cover shipments of ten pounds, whereas the postal service limited each shipment to five pounds, indicating that the association considered the new rates remunerative. Moreover, Chairman Mabee pointed out, that the association had agreed to an international scale with the United States express companies, covering many of the items included in section D.

Regarding the counter application by the Booksellers' section of the Toronto Board of Trade, for an order increasing the weights carried under section D from 10 pounds a single book to any weight, providing the article be limited to \$10 in value, Chairman Mabee said the board had no authority to grant the request.

In response to an application by the Express Traffic Association, the board agreed to vary an order so as to provide that charges on "empties" must be prepaid by the consignees unless an agreement be otherwise made.

## CHANGES IN THE BRITISH CABINET

Considerable Shifting of Positions—Ministers Exchange Portfolios.

London, Oct. 23.—The British cabinet has undergone an important reconstruction, rumors of which have been in circulation for some weeks past. Winston Spencer Churchill, the Home Secretary, becomes first Lord of the Admiralty, while Reginald McKenna lays down the Admiralty portfolio to assume the Home Secretaryship; Earl Carrington, president of the Board of Agriculture, becomes Lord of the Privy Seal; C. E. Hobhouse, financial secretary to the Treasury, is appointed Chancellor of the Duchy of Lancaster; Walter Runciman retires from the presidency of the Board of Education to become president of the Board of Agriculture, while the presidency of the Board of Education has been assumed by J. A. Pease, the former Chancellor of the Duchy of Lancaster. Sir Edw. Strachey, parliamentary secretary of the Board of Agriculture, and the Rt. Alfred Emmett, M.P., for Oldham and deputy speaker of the House of Commons, have been promoted to the peerage.

London, Oct. 23.—With the exception of the exchange of offices by Mr. Churchill and Mr. McKenna the Cabinet shuffle causes little comment. The Unionists express the fear that the change made will enable the Government to reduce the naval estimates, Mr. Churchill being considered one of the economists of the Cabinet.

The exchange, however, is more likely to have been due to parliamentary than to political causes. Both Ministers have met with the disapproval of the laborites and the extreme radicals. Mr. Churchill for the employment of troops during the strikes and Mr. McKenna because of a recent speech advocating a further increase in the naval expenditure. By the change both escape the necessity of replying to their critics.

The changes necessitate three bye elections—in Oldham, East Bristol, and South Somerset.

### EARL OF ONSLOW DEAD.

London, Oct. 23.—The Earl of Onslow died today.

William Hillier Onslow, fourth Earl of Onslow, had been chairman of committees and Deputy Speaker in the House of Lords since 1905. He was a Conservative. An ancestor, Sir Richard Onslow, was a parliamentarian; he urged Cromwell to assume the kingship, but afterward assisted the restoration. The fourth Earl of Onslow was born in 1853. He was twice a lord-in-waiting. He was Under Secretary for the Colonies in 1887-1888; Parliamentary Secretary to the Board of Trade, 1888; Governor and Commander-in-Chief of New Zealand, 1888-92; President of the Board of Agriculture, 1903-05; in Lord Salisbury's and Mr. Balfour's ministries.

### MOTHER CHARGED WITH MURDERING HER CHILD

Bath, Me., Oct. 23.—That three-year-old Martin Howard Keefe, Jr., whose body was found in a mill pond Saturday morning by his mother, Mildred Keefe, was not drowned was the report made by Medical Examiner R. H. Donnell, following an autopsy today. The cause of death cannot be determined until the stomach and other organs have been thoroughly examined. They have been sent to the Bowdoin College Medical School. The mother was arraigned before Judge A. J. Dunton in the Municipal Court today, charged with murder, and entered a plea of not guilty.

### CHILDREN CRY FOR FLETCHER'S CASTORIA

Copenhagen, Oct. 23.—Dr. Frederick A. Cook, who was so enthusiastically welcomed here after his alleged discovery of the North Pole two years ago, arrived in Copenhagen tonight. He was accompanied by his wife. Owing to the threatening attitude of the crowd, Dr. Cook was escorted to his carriage by a detachment of police. The mob followed, jeering and hooting. The explorer said he had given up his projected European lecture tour, and will lecture only in this city. The newspapers denounce him, some of them recommending demonstrations of disapproval at his lecture.

## ALLEGED DEFENDERS PLACED ON TRIAL

Charged With the Illegal Use of the Mails—Selecting a Jury.

New York, Oct. 23.—Simon Jacob Herzog, better known as George Graham Rice; Bernard H. Scheffels, George Sullivan, otherwise known as "Red Letter" Sullivan, Charles B. Stone, Charles E. Belser, John Delaney and Ralph E. Waterman, composing the brokerage firm of B. H. Scheffels & Company, were this afternoon placed on trial in the United States Circuit Court, charged with using the mails in a scheme to defraud investors and with obtaining money by false pretences. Their operations covered the whole of the United States and portions of Canada. These men and others were captured in a raid on the Scheffels' offices here in September, 1910, when similar descents were made upon offices of the firm in Chicago, Boston, Philadelphia, Milwaukee, Detroit and Providence. The United States District Attorney surprised the defence at the outset by having the indictment against John Delaney severed. Whether Delaney will turn state's evidence could not be learned. The examination of witnesses continued all afternoon with success in swearing in a single juror. Several of the 16 men examined were excused because of their admissions that they had already formed an opinion from reading newspaper accounts of the case. The trial continues tomorrow and is expected to last several weeks.

### OFFERED A BONUS

London, Ont., Oct. 23.—The Southam Printing Company is offered a bonus of \$30,000 to go to Simcoe. The statement was made at the offices of the company today that the matter will be settled this week. It is understood that the company has under the terms of the Simcoe-by-law to expend the whole of the money in the erection of a building. None of the bonus funds will be permitted to be used in equipment.

### A PECULIAR CASE

Ottawa, Ont., Oct. 23.—Felix Drouin, the Ponsby farmer, accused of shooting an unknown on Oct. 11, and who was remanded on Saturday morning, appeared before Magistrate Goyette in the Hull court today. As yet no trace of the body has been found and Detective McCaskill, Montreal, has doubled his searching party. "We will hold Drouin until Saturday, and if by that time nobody is found we will release him," said Magistrate Coyette.

### RACE RESULTS ON AMERICAN TRACKS

Latonia, Ky., Oct. 23.—Prince Gal repeated his performance of last Saturday by winning the feature race at Latonia today from a good field of three-quarter horses. Catching Love Not tiring, he assumed the lead in the stretch and won easily. Countless was second and Princess Calloway third. Irish Kid, an outsider, annexed the third race, while Casey Jones got the first, and the favorite, Jenny Geddes, won the second.

Baltimore, Md., Oct. 23.—With the classic Bowie Stakes at two miles as a feature, the annual fall meeting at Pimlico was brought to a close today. S. C. Hildreth's crack three-year-old Zeus went out to the front, and galloped all the way. Bounder furnished the contention, but Sotemia beat him out for the place in a stretch run.

## THE GRAND TRUNK AND ITS EMPLOYEES

Report of the Board of Conciliation—It Favors Increase in Pay to Men

Ottawa, Oct. 23.—The Board of Conciliation in the dispute between the Grand Trunk Railway Company and its machinists has made its report which says: "Owing to the system of payment which prevails in the Grand Trunk, and which has been fully explained to us, the majority of the board do not see how it is possible for the board to lay down any schedule of minimum rate without dislocating the system which has as its basis the payment according to the merits and qualification of the individual workman based upon the judgment of his foreman. The evidence, however, satisfies us that owing to the increased cost of living since 1907, the increases which have been granted by the Grand Trunk since that time in the rates of pay of the men, have not in a number of instances kept pace with the necessities of the men, while in other instances the rates of pay seem to be fair and reasonable. The majority of the board strongly recommend therefore that the master mechanics take up with their foreman at the earliest possible moment the individual cases in the various shops and round-houses where the lower rates of wages obtain, and should make advances in pay according to the merit and qualification of the individual, so that the pressure of the increased cost of living will be relieved by an advance in remuneration. Mr. O'Donoghue is of the opinion that the men are entitled to have their grievances presented through a committee, and that a minimum rate, on a par with that in force on other Canadian roads, should be established. This would give to the men an increase of wages that would, in some measure, compensate for the increased cost of living. He is also of the opinion that double time should be paid for overtime work from midnight to six a.m., and that apprentices should share in the increase above mentioned."

The board consisted of Mr. Justice Teetzel, Toronto, chairman; Mr. Wallace Nesbitt, K.C., Toronto, nominated by the company, and Mr. J. G. O'Donoghue, nominated by the employees.

### ECONOMIC DEVELOPMENT OF GERMANY.

Berlin, Oct. 23.—After representatives of the agrarian and center parties had opposed any measures except a slight modification in the system of rebates on grain exports, the Socialists and Radicals had attacked the high tariff system restrictions on foreign meats as responsible for the situation. Chancellor Von Bethmann-Hollweg replied in a speech that frequently caused a disorderly scene. He rejected the idea of any change in the present economic system because of the situation produced by the "triennial drought" and said that only measures to tide over the immediate crisis was necessary. A reduction of the duties on foodstuffs would benefit the middlemen and not help the consumers, he said.

Discussing the cost of meats, food and grains, the Chancellor said that the conditions were not essentially bad and placed the blame for the high prices partly upon the retailers, and partly upon the political campaign of the opposition, which, he declared, amid ridicule and protest from the left, had encouraged dealers to advance prices. Germany, he added, must look within her borders for a way in which to lower meat prices since Russia and America, the two

TUESDAY, OCTOBER 24, 1911.

THE G. T. P. TERMINUS.

As the question of the Transcontinental terminal is again to the fore the most judicious course to pursue now is to make sure that the site chosen for it is really the best and most compatible with the city's future needs.

There were many who thought as we did at the time that the selection of such a spot was far from ideal and, in fact, that it possessed several disadvantages, the most notable, for instance being the comparative lack of space for a work of such magnitude.

We are still of the opinion that this site is far too cramped to be desirable, and that it should only be agreed to if it can be shown that there are no better spots available.

This matter was brought up at various times by three competent engineers. The first was Major Hodgins, a Liberal, an engineer of experience and high character, appointed by the Transcontinental Railway Commission to superintend District F, where the estimate on excavation alone was greatly exceeded.

THE TRANSCONTINENTAL SHOPS.

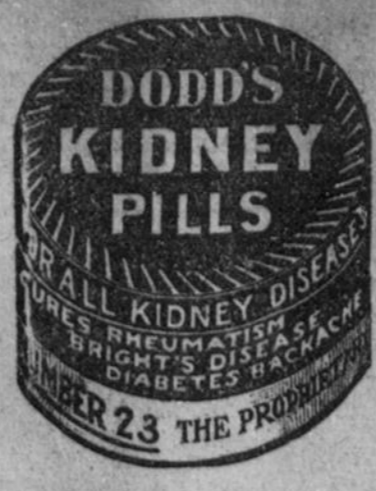

A local paper asserts that there is a rumor that the Transcontinental shops are likely to be removed to Montreal, instead of remaining in the vicinity of the Bridge.

That, however, is now part of the past. What is more important is to get together and, if the story be true, to see that Quebec does not lose these shops, which mean so much for her future expansion and industrial welfare.

INVESTIGATING THE TRANSCONTINENTAL.

One of the first tasks to be taken up by the Borden Government should be a thorough investigation into the past workings of the National Transcontinental Railway. Governments come and go, but the railways must be carried on just the same, and both parties are at least united in pushing forward the development of our transportation system in the interests of the country.

When the information came to hand as to the stupendous increase in the cost of the railway and the dishonesty and gross manipulation of over-classification, the Conservatives at once stood for a thorough and immediate investigation so as to prevent fraud, discover the incompetency and dishonesty and have the above-mentioned charges probed to the bottom.

Commission had no experience in engineering or in large affairs. One was an implement dealer and grain buyer, another a country lawyer, formerly a Liberal Member of Parliament; the third was a country storekeeper, formerly a Member of Parliament and Liberal whip.

It was not long before the cost of the Transcontinental was shown to have grown inordinately through overclassification. There was an enormous increase in the expensive material and an extraordinary shrinkage in the cheaper material.

This matter was brought up at various times by three competent engineers. The first was Major Hodgins, a Liberal, an engineer of experience and high character, appointed by the Transcontinental Railway Commission to superintend District F, where the estimate on excavation alone was greatly exceeded.

According to Major Hodgins, the root of the trouble between him and the Commissioners was that they wanted him to change his ideas, based as they were on many years of construction, to the Quebec classification.

Major Hodgins acted on this advice and came to this district. What he saw here made him resolved that Quebec classification would never be introduced into the West so long as he was in charge.

There were two other engineers of standing who made similar charges of over-classification. One was Mr. Woods, the Assistant General Engineer of the Grand Trunk Pacific.

And what did the Liberals do? They held a sham investigation on side issues into the Hodgins and Lumsden cases and none at all into the Woods case. They dared not investigate properly.

When the information came to hand as to the stupendous increase in the cost of the railway and the dishonesty and gross manipulation of over-classification, the Conservatives at once stood for a thorough and immediate investigation so as to prevent fraud, discover the incompetency and dishonesty and have the above-mentioned charges probed to the bottom.

Now, however, the Conservatives are in power and pledged to carry out their promises of inquiry.

DEFRAUDING THE MAILS.

The Toronto News charges the Toronto Globe, the leading organ of the Laurier party, with having flooded the country with copies of its paper during the recent elections in contravention of the Post Office regulations.

persons whose subscriptions have been paid by interested parties must be paid for at the rate of one cent per four ounces to each separate address.

It is under this ruling that the News prefers its charges, claiming that the additional postage called for was not paid by the Globe on those papers sent out in addition to those for irregular subscribers. The News estimates that the amount due to the country by the Globe on this count is not less than \$25,000.

In July last the question of this clause in the postal regulations was brought up in the Federal house and at that time Mr. Lemieux gave his assurance that the ruling would be strictly enforced against all papers of whatever party.

INVENTORS will find a Patent Office now in Quebec City opened by FETHERSTONHAUGH, DENNISON & CO.

There is urgent need of a clean, healthy condition of the teeth. Did you ever realize that your mouth was the gateway of your body and that the teeth are the guards in the gateway? Do you know that one's health is never better than his teeth? It is a fact.

When the numerous bacteria of the mouth begin to multiply, due to unclean conditions rendering the mucous membrane susceptible to specific fever germs, you swallow these germs every minute and infect your digestive organs. No wonder stomach troubles result.

If you are seeking good health the FIRST thing to do is to keep your mouth in hygienic condition—disinfected with the well-known mouth antiseptic:

SOZODONT used for this purpose for over 63 years.

Stock in Trade for Sale. Comprising Properties, Merchandise, Furniture and All The Material. Immediate Possession. Liberal Conditions. For all information apply to E. ROUMILHAC. Telephone 1146. 48-50 Palace Hill, QUEBEC.

Continuation of Clearance Sale of Surplus Stock. Suitable for Christmas Presents. Our Dollar Sale of useful brass wares proved a great success. Hundreds of small articles were disposed of. Inkstands, candlesticks, photo frames, and similar lines were in great demand. This week we include Cut Glass in our Dollar Sale. This Sale will include compots, almond dishes and bon bon dishes. There are only a couple of dozen pieces, just enough to make the sale interesting. This is an excellent opportunity to brighten the dinner or tea table with a few more pieces of brilliant Cut Glass. Another useful dollar article is an asbestos tea stand with solid silver hall marked frame. The sale of Wicker work Baskets and Fruit Dishes is of interest to housekeepers. This Wicker work was a novelty introduced about a year ago. The material is metal wire silverplated, and worked up in the form of bon bon dishes and fruit dishes with glass linings. We are selling off the balance at half-price. A very nice dish costs \$3.00. During this sale we will offer a lot of jewelry left with us to dispose of to settle an estate. An 18 kt. gentleman's watch, 33 dwt. case, Elgin Movement, \$50. 18 kt. Ladies' Watch, full jewelled Waltham \$37. Solitaire Pearl Ring \$15. Turquoise Half Hoop \$5. Garnet and Pearl Half Hoop \$6. Opal and Diamond Half Hoop \$15. Opal and Diamond and Olivine Cluster \$15. Diamond Cluster (7 stones) \$25. Diamond Half Hoop (7 stones) \$35. Diamond and Turquoise Cluster \$50. Three Stone Diamond Half Hoop \$50. G. SEIFERT & SONS Jewelers 16 Fabrique Street, Quebec

FOSTER DIVORCE TRIAL ATTRACTS FASHION

Artist Admits He Pasted Scraps of Letters From Co-respondent to Mrs. Foster.

London, Oct. 23.—Many fashionable women scrambled for places in court to-day to hear the testimony in George Sherwood Foster's suit for divorce.

As these despatches told yesterday, Mr. Foster, an artist of repute, names as co-respondent Thomas Beecham, an impresario and son of the millionaire pill maker.

About Doctor's Opinion.

Under continued cross-examination to-day Mr. Foster answered some very intimate questions about the object of his visit two days ago to a physician who, it is understood, will testify in support of Mrs. Foster's counter charges.

A letter his wife wrote Mr. Foster in 1909 was put in evidence. In it she said her health was broken by his cruelty.

Women Look Respondent Over.

Hearing this, the women in court carefully inspected Miss Foster, pretty, very fashionably dressed, she was rather pale, from nervousness probably, but she is distinctly robust.

CITY OF QUEBEC.

CITY HALL.

City of Quebec, District of Quebec.

BY-LAW NO. 19.

CONCERNING THE CONTROLLER OF LICENSES; HIS POWERS AND PRIVILEGES.

(Drawn up in the French language.)

At a meeting of the Municipal Council of the City of Quebec, held on the twentieth day of October instant, 1911, the following By-Law was read for the first time.

Whereas, the City Council of Quebec, by a resolution passed on the 12th of May, 1911, has instituted the office of License Controller.

It is ordained and enacted by the Municipal Council of the City of Quebec, and the said Council doth hereby ordain and enact as follows:

1. The License Controller shall see that each and every person having to provide himself with a license, as provided by the City By-Laws, be provided with said license, at the time appointed by said By-Laws;

2. The License Controller in the exercise of his duties, and wearing a badge to that effect, shall have the right to visit any place, establishment, to satisfy himself if the persons subject to the taking out of licenses for any object whatever, has obtained such license.

3. The License Controller shall report to the Recorder's Court the names of all persons which have failed in taking out licenses, as required by the By-Laws of the Council.

4. Whomsoever shall give the License Controller wrong informations, or shall insult by words, or shall ask or shall refuse him an entry on his premises, shall incur for each said offense a fine not exceeding forty dollars, which shall be recovered according to law in the Recorder's Court of the City of Quebec.

Public Notice.

Is hereby given that, pursuant to law, the above By-Law will be read for a second time, for adoption, on Friday, the 27th day of October instant, 1911.

By order: H. J. B. CHOUINARD, City Clerk.

CITY OF QUEBEC.

CITY HALL.

City of Quebec, District of Quebec.

BY-LAW NO. 18.

CONCERNING THE WIDENING OF THE NORTH PART OF BRIDGE STREET.

(Drawn up in the French language.)

At a meeting of the Municipal Council of the City of Quebec, held on the 20th day of October, 1911, the following By-Law was read for the first time:

Whereas, the obligation contracted by the City of Quebec, in accordance with the Act I, George V, (2d session), chapter 3, to rebuild Dorchester Bridge.

Whereas, it is necessary, to have a convenient access to said bridge, to widen the north portion of Bridge Street, west side, and to purchase for that object, strip of land thirty feet wide, forming part of number 547 of the official cadastral plan of St. Roch Ward.

It is in consequence ordained and enacted by the Municipal Council of the City of Quebec, and the said Council doth hereby ordain and enact as follows:

1. To widen the north portion of Bridge Street, west side, for the approaches necessary to purchase a strip of land of thirty feet in width on the depth of the lot No. 574 of the said lot of ground, bordering said Bridge Street, on its western side, said strip of land comprises a superficies of about 5,355 square feet and is designated by the letters A, B, C, D, on the plan deposited in the City Engineer's office, dated 11th October, 1911, and prepared by Mr. Hugh O'Donnell, land surveyor.

2. For the above reasons, the City shall purchase, by way of expropriation, or amicably, said strip of land.

3. The price to be paid for said strip of land shall be taken from the monies the City is authorized to borrow in virtue of Act I, George V, chapter 47, and Act George V (2d session), chapter 19.

Public Notice.

Is hereby given that, pursuant to law, the above By-Law will be read for a second time, for adoption, on Friday, the 27th day of October instant, 1911.

By order: H. J. B. CHOUINARD, City Clerk.

THIRTY YEARS OF DISFIGURING ECZEMA CURED

"Ever since I was a little girl, thirty years ago, I had suffered tortures from eczema in one of its worst forms. The disease runs in my family, and mine was of a sooty and most disgusting kind. The eczema formed in round rings, and then scales all over my face and limbs. I have been smothered from head to foot. I was born in Leamington, which is famous for its sulphur baths and pump waters, and one would think that after taking the treatment there regularly as I did, the disease would have been cured, but it was not. I attended the Hospital for years and years, so you will see I gave it a fair trial.

Everyone in the town knew of my case. My face was disfigured very badly. A doctor told me that I should never get rid of it. I spent months in doctors' bills and I attended several hospitals but nothing did any good.

Then one day an uncle of mine recommended the Cuticura Remedies. I took his advice, and commenced to use the Cuticura Soap. To my astonishment an improvement at once set in, and my hair, which had been a complete mass of scales and scurf, soon began to look in splendid condition. Then I bought a box of Cuticura Ointment, and this cleared my skin wonderfully. In a few weeks' time all traces of the sooty long scurf had completely disappeared. Now my skin is clear and healthy, and thanks to the Cuticura Remedies I am completely cured of my eczema. All my neighbours were astounded. The Cuticura Remedies are worth their weight in gold, and one tablet of Cuticura Soap goes further than four cakes of cheaper soap. It has brought happiness into my home." (Signed) Mrs. Butler, 17, Francis Rd., The Cotteridge, King's Norton, Birmingham, Eng., July 28, 1910.

Cuticura Soap and Ointment are sold everywhere, but those who wish to try them without charge may do so by sending to Foster Drug & Chem. Corp., 62 Columbus Ave., Boston, U. S. A., for a liberal sample of each, post-free, with 32-p. skin book.

PUBLIC NOTICE

CITY TREASURER'S OFFICE. CITY HALL. Quebec, October 18, 1911.

Public notice is hereby given that the Assessment Books for all the Wards of the City of Quebec have been deposited by the Assessors of the said City, in the office of the undersigned, and that the said books will be opened to all interested persons every day from 10 a.m. to 3 o'clock p.m. (Sundays and Holidays excepted) for and during three weeks from FRIDAY, the 20th instant, to FRIDAY, the 10th of November next.

Any one who shall deem himself aggrieved by any entry made in the Assessment Roll shall make complaint to the Board of Assessors in writing, and under oath, taken before a Justice of the Peace or a member of the City Council, or before the Clerk of the said Recorder's Court. That complaint shall be lodged within the said time to the Board of Assessors, the Clerk of which shall give notice in the newspapers as hereinbefore set forth, of the place, days and hours in which the complaints will be heard.

After such date no complaint will be heard, and for no consideration will the books be changed.

C. J. L. LAFRANCE, City Treasurer.

CITY OF QUEBEC

CITY HALL.

FIRE DEPARTMENT. Quebec, October 10, 1911.

PUBLIC NOTICE

Is hereby given that sealed tenders, endorsed "Tenders for Fire Apparatus," addressed to the undersigned, shall be received at the City Clerk's office, from this day until Wednesday, the 25th of October instant, at four o'clock in the afternoon, to supply the city with the following fire apparatus:

- 2 automobiles combined chemical and hose wagon.
2 aerial extension ladders 75 feet.
2 city hook and ladder trucks, 65 feet.
One 800 gallons steam fire engine.
2,000 feet of fire hose 2 1/2 inches in diameter.

All the above mentioned fire apparatus must be guaranteed for a certain number of years, and only after a satisfactory test made in the City of Quebec in presence of the members of the Council shall the Department accept said apparatus.

The tenders shall have all the necessary information from the Chief of the Fire Brigade.

Said fire apparatus shall be delivered to the Fire Department, in the City of Quebec, free of charge.

Tenders will have to give a full description of their different automobiles, ladders, etc. The tenderer shall pay the cost of deed of sale and guarantee to the notary, and shall give a certified copy of said deed to the city.

By order, Aug. Malouin, Secretary Fire Committee.

Prof. C. D. BELLEAU. Ex-Plantist at the Chateau. Piano, Organ and Harmony Teacher. 410 1/2 St. John. Phone 3399.

Standard remedy for Gleet, Gonorrhoea and Runny Nose in 48 HOURS. Cures Gleet, Gleet and Bladder Troubles.

MEETING OF CITY COUNCIL

Friday, Oct. 20, 1911.

Present: His Worship the Mayor, Ald. Barbeau, Beaumont, Bergevin, Campbell, Cannon, Collier, Cote, Cummings, Delisle, Dinan, Fiset, Gosselin, Guillet, Guilot, Lantier, Lamontagne, Levallee, Lockwell, Madden, Messervey, Monaghan, Morin, Mulroney, Paquet, Plamondon, Pouliot, Shink, Trudel, Verret—29.

The minutes of the last meeting are read and confirmed.

Read a letter from the Hon. R. L. Borden, thanking the Mayor and Council for the invitation tendered him and his colleagues to the farewell reception to H. E. Lord Grey.

Read a letter from the Revd. Lady Nuns of the Hotel Dieu de Quebec, thanking the Mayor and Council for the kind treatment and favors granted to them recently.

Read a letter from Mr. O. La Roche, farmer, of Ste. Croix, complaining of extortions practised upon him by the collector of the revenues of the Champlain market. Referred to the market committee.

Read a letter from the National Central Council of Trades and Labor of Quebec, complaining of defective service by the electric tramway and also of the want of cleanliness of cars used by them, to the detriment especially of the working classes.

Ordered that the said letter lay on the table until the time for questions. Read a letter from Hon. Philippe Roy, Commissioner for Canada in Paris, praying for the regular invoice of municipal documents concerning the administration of the municipal affairs of the city of Quebec.

Referred to the Finance Committee. Read a letter from Mr. William H. Petry, informing the Council that he has been appointed Consul for Denmark for the city of Quebec.

Read a letter from Mr. Hector Bernier, on behalf of Mr. Narcisse Allard, farmer, of L'Ancienne Lorette, claiming a hundred dollars damages from the city for injuries sustained by him through a defective sidewalk, corner of Demers and Hermine streets in the city. Referred to the Road Committee.

Read a letter from Mr. R. P. Lemay, architect, praying to be appointed to make the plans and superintend the work of rebuilding fire station No. 5, in Lower Town, recently destroyed by fire. Referred to the Fire Committee.

Read an application from Mr. Paul Parent, praying to be appointed plumber in the Health Department. Referred to the Health Committee.

Read a letter from Mr. Victor Letarte, Captain of No. 4 Station, complaining that his application for appointment as sub-chief of the Fire Brigade has not been considered by the Fire Committee at their last meeting. Referred to the Fire Committee.

Read a letter from Mr. J. E. Plamondon, on behalf of Mr. N. Richard, of Limoulu, joiner, urging the Council to build a gully well at the southwest corner of the 3rd avenue and the 6th street at Limoulu, in front of Mr. Richard's property, to prevent water from accumulating and causing damage. Referred to the Road Committee.

Read a letter from Mr. Laurent Lortie, praying that a road be opened and verbalized along the track of the Quebec Railway, Light and Power Co. Referred to the Road Committee.

Read a letter from Mr. Ernest O'Dell, asking to open the road leading off 8th street in Limoulu on to Beauport Road or La Canardiere. Referred to the Road Committee.

Read a letter from Mr. J. L. Lachance, praying the Council to verbalize that part of St. Cyrille street west of De Salaberry street. Referred to the Road Committee.

Read a letter from Mr. Louis Tremblay, praying the Council to order the laying of sidewalks on the 5th street, Domaine Lairet, to facilitate the circulation of the public. Referred to the Road Committee.

Presented a petition from Mr. Henri Robitaille, explaining the advantages which would accrue to the city through the building of abattoirs in the vicinity of Quebec, and enclosing draft of a proposed by-law, which would meet requirements of the situation. Referred to the Market Committee.

Presented the report of Dr. Catellier of the seizure made of condemned meats and provisions, during the last three months.

Presented the following reports of the Finance Committee: 2064th (to grant Mrs. Widow Damase Lacasse \$162.50, equivalent to three months' wages of the late Sergt. L. Lacasse).

Moved by Ald. Cannon, seconded by Ald. Campbell, and resolved: That the said report be taken up as the 2nd order of the day.

2065th (to grant Mrs. Widow G. Savard \$182, equivalent to 3 months' wages of her late husband, a fireman.)

2066th (to pay the Quebec Exhibition Co. the balance of the city's subscription, \$8,000.)

2067th (to purchase land to widen Bridge Street). Moved by Ald. Cannon, seconded by Ald. Pouliot, and resolved: That the said reports be taken up as the 3rd, 4th and 5th orders of the day.

2068th report (Caisse d'Economie, exchange of debentures). Fire—779th (Tenders for hay, straw, etc.)

Moved by Ald. Cummings, seconded by Ald. Madden, and resolved: —

ASK FOR NEWSON'S Unshrinkable UNDERWEAR

That the said report be taken up as the 6th order of the day. 780th (Appointment of deputy chiefs Talbot and McManus.)

Moved by Ald. Cummings, seconded by Ald. Messervey and resolved: That the said report be taken up as the 7th order of the day.

Fire—781st (Tenders for winter uniforms). Moved by Ald. Cummings, seconded by Ald. Cote, and resolved: That the said report be taken up as the 8th order of the day.

Ald. Verret lays on the table the draft of a by-law No. 18, concerning the controller of licenses; his powers and functions.

Moved by Ald. Verret, seconded by Ald. Barbeau, and resolved: That the said by-law be inscribed as the ninth order of the day to be read this evening for the first time.

Ald. Verret lays before the Council the draft of a by-law, No. 19, concerning the widening of the northern portion of Bridge Street.

Moved by Ald. Verret, seconded by Ald. Guillot, and resolved: That the said by-law be inscribed as the 10th order of the day, to be read this evening for the first time.

ORDER OF THE DAY. The Council proceeds to the second reading, for adoption, of By-law No. 16a, for the opening and extension of certain streets, for which the second reading and adoption the presence of two-thirds of the members of the Council is required.

The following members being present, to wit: His Worship the Mayor and Ald. Barbeau, Beaumont, Bergevin, Campbell, Collier, Cote, Cummings, Delisle, Dinan, Fiset, Gosselin, Guillet, Lantier, Lamontagne, Levallee, Lockwell, Madden, Messervey, Monaghan, Morin, Paquet, Plamondon, Pouliot, Shink, Trudel, Verret—(26).

The preamble and clauses 1, 2, 3 are read and adopted.

Clause 4 being read, the following words are added after the word "called": "Lockwell street shall be opened and made on a width of 66 feet." And said clause 4, thus completed, is adopted.

Clause 5 is read and adopted.

Clause 6 being read is amended by substituting to the word "Caronthie" the word "Fiset," and this clause, thus amended, is adopted.

Clauses 7, 8 and 9 are read and adopted. And the said by-law No. 16a being submitted for adoption in toto, is adopted, and His Worship the Mayor declares the said by-law No. 16a read a second time, passed and put in force.

2nd Order of the Day—Read the 2064th report of the Finance Committee, which being put to the vote, is adopted, and it is resolved: That the sum of \$162.50, equivalent to 3 months' wages of her late husband, of the police force, is hereby granted to Mrs. Widow Damase Lacasse, said sum to be charged to the credits voted for contingent expenditure.

3rd Order of the Day—Read the 2065th report of the Finance Committee, which being put to the vote, is adopted, and it is resolved: That the sum of \$182, equivalent to three months' wages of her late husband, of the Fire Brigade, is hereby granted to Mrs. Widow Georges Savard, said sum to be charged to the credits voted for contingent expenditure.

4th order of the day—Read the 2066th report of the Finance Committee, which being put to the vote, is adopted, and it is resolved: That the Council hereby orders the payment of the sum of eight thousand dollars, being the balance of the city's subscription towards the holding of a provincial exhibition by the Quebec Exhibition Company, the said Company having fulfilled all the obligations imposed upon them.

5th Order of the Day—Read the 2067th report of the Finance Committee, which being put to the vote, is adopted and it is resolved: That, in order to facilitate public access to Dorchester Bridge, when it shall have been rebuilt, this Council orders the acquisition, by way of expropriation, or through amicable settlement, of a strip of land thirty feet in width on the depth of lot No. 574 of the cadastral plan for St. Roch's Ward, alongside Bridge Street, on its western side, and that a by-law be passed to that effect by the Council, the purchase price of said acquisition to be taken out of the funds which the city is authorized to borrow in virtue of the Statute I George Fifth, chap. 47 and I George V, chap 59 (2nd session).

6th Order of the Day—Read the 779th report of the Finance Committee, which being put to the vote, is adopted, and it is resolved: That the contract for the supply of hay, straw, oats, brand and gaudriole, is hereby awarded to Messrs. Colvin & Co. for the fire brigade for the year beginning 1st November, 1911, and ending the 30th October, 1912, at the prices of their tender, the amount to be charged to the credits voted to the Fire Department to that purpose for the fiscal year 1911-12, and His Worship the Mayor is authorized to sign said contract and to accept suitable security.

7th Order of the Day—Read the 780th report of the Fire Committee, which being put to the vote, is adopted on division, and it is, on division, resolved: That this Council hereby appoint Messrs. Denis McManus as Deputy Chief of the Fire Brigade at the Fire Station No. 1, and Mr. Louis Talbot, Deputy Chief of the Fire Brigade at No. 3 Fire Station, their salaries to be \$1,000 each, to be charged to the appropriations voted for salaries.

8th Order of the Day—Read the 781st report of the Fire Committee, which being put to the vote, is adopted, and it is resolved: That the contract for the supply of firemen's winter uniforms is hereby awarded to Messrs. F. Simard & Co. at the price of \$11.79 each for sample marked D—the amount to be charged to the appropriation of the Fire Committee for that purpose, and His Worship the Mayor is authorized to sign said contract and accept suitable security.

9th and 10th Orders of the Day—The Council then proceeds to the first reading of by-law No. 18, concerning the Controller of Licenses, etc., and

Makes Food Taste Better. Ever notice how much better food tastes when well served and daintily garnished? Pabst Blue Ribbon The Beer of Quality. is a clean, fully aged beer. It gives a keen appetite for wholesome food. In its handsome package it adorns any table and it tastes even better than it looks. Order a case today. L. Chaput, Fils & Co. 2-4-8 De Breslau St. Tel. Bell M 2198; More, 400.

19, concerning the widening of the northern portion of Bridge Street, the following members being present during the reading of the said two by-laws, to wit: His Worship the Mayor, Ald. Barbeau, Beaumont, Collier, Campbell, Cote, Cummings, Gosselin, Dinan, Fiset, Guillot, Guillet, Lantier, Lamontagne, Levallee, Madden, Lockwell, Messervey, Monaghan, Morin, Mulroney, Paquet, Pouliot, Shink, Trudel, Verret.

The said by-laws are both read for the first time.

Ald. Verret moves, seconded by Ald. Guillot, and resolved: That the said by-laws Nos. 18 and 19 be translated in English, published in the official newspapers of the city, and read a second time and submitted for adoption at the next meeting of this Council.

Moved by Ald. Cannon, seconded by Ald. Pouliot, and resolved: That a special committee is hereby appointed, composed of Ald. Cannon, Collier, Morin, Pouliot, Verret, entrusted with the duty of preparing the divers amendments which the Council shall deem necessary to ask to the City Charter at the next session of the Provincial Legislature—to follow any other Legislature which may be laid before the House, of a nature affecting the interests of the city.

Moved by Ald. Cannon, seconded by Ald. Pouliot, and resolved: That Ald. Paquet is hereby appointed Mayor for the current term, and the Council then adjourns.

Adjourned.

BOY'S FOOT BADLY SCALDED. MOTHER SAYS ZAM-BUK ACTED LIKE MAGIC

Mrs. E. Capell, 31 Sydney street, Hamilton, tells how beneficial Zam-Buk proved in her family. She writes: "My little boy, aged one and a half years, put his foot into a pot of boiling water. The foot was so badly scalded that the skin came off with his stocking, and he had a shocking scald, from instep to toes."

"I at once sent for a supply of Zam-Buk, and as soon as this was applied, it seemed to act like magic and gave him ease. It was good to tell that Zam-Buk stopped the pain, because up to applying it I had to nurse the child all the time, but soon after I applied Zam-Buk he was anxious to get on the floor and go on with his play!"

"I only used four boxes of Zam-Buk, and the scald was then entirely healed; so I consider this the best investment I ever made. I believe Zam-Buk would have cured the scald even more quickly had the boy been lying down all the time, but after beginning with Zam-Buk, it made the sore so easy that he was soon on his feet and playing about as usual."

"I might also tell you that my next boy to him, aged five years, had some bad broken chilblains. We used Zam-Buk on these also, and it cured them. For sores of any kind, I shall in future use only Zam-Buk."

Housekeepers everywhere speak similarly of Zam-Buk. It is a sure cure for eczema, rashes, ringworm, chapped hands, scurvy, heat rashes, cuts, burns, ulcers, discharging sores, abscesses, piles, inflammation, festering and all skin injuries and diseases. 50c box, all druggists and stores, or Zam-Buk Co., Toronto, for price. For skin diseases use also Zam-Buk Soap, 25c tablet.

TORONTO PROVISION MARKET. Quotations are as follows: Ontario wheat, No. 2 northern 86 to 88c outside, according to location. Manitoba No. 1 northern 108c; No. 2 northern 106c; No. 3 northern 103 1/2c.

**CANADA AHEAD  
ONE GENERATION**

That Is Governor Woodrow Wilson's Opinion—An Interesting Comparison.

In a speech at Hackensack, N. J., last week, Governor Woodrow Wilson made vigorously complimentary references to Canada, in comparing its business and social conditions with those in the States.

"Do you know the real reason why reciprocity was voted down in Canada? Has any of you visited Canada recently?" he said. "The present contrast between Canada and the United States is this, that in the United States business is feverish and fretful and distrusted, but in Canada absolutely buoyant with confidence and hope. The contrast is extraordinary, and the Canadians fear that reciprocity would be the opening wedge to a very much closer commercial and industrial relationship with the United States, and they felt that their situation in regard to these matters was vastly superior to ours, and they did not want to be pulled down into our distress. I do not take that by conjecture. I take that from gentlemen in Canada, who know what they are talking about."

"The truth is that Canada is just about a generation ahead of us in the regulation of corporate business, in her banking system, and in her currency system. She has got through all the deep waters we are in now, or rather she was never in them—she never let herself go in them, while we have been going on helplessly from one financial crisis to another. Canada has not had any financial crises. And Canada, if we must admit the truth, feels her economical superiority to the United States, because, forsooth, she did some time ago as a matter of course the things now called radical in the United States which are making business men uneasy."

**IN THE SUPERIOR COURT.**

The case of the city of Quebec against the Canadian Northern Railway Co. to revoider \$200,000, which the city subscribed to the company on condition that it would erect its workshops in this city, is fixed for Wednesday next, for the adduction of evidence and for hearing on the merits, but the case will not be proceeded with on that day.

Chief Justice Lemieux rendered judgment yesterday in the Practice Court on the inscription in law, made by defendants in the action of damages taken by Mr. Letourneau, M.P. P., against L'Evenement.

This is an action taken by the local member of Quebec East for \$50,000, and is the outcome of the Leduc scandal. Mr. I. N. Belieu, K.C., inscribed in law asking for the dismissal of the action on the ground that sufficient details were not given in the action. The Chief Justice dismissed the inscription in law with costs.

**ALDERMAN LANTIER ELECTED PRESIDENT.**

Montreal, Oct. 23.—At the annual meeting of the Dentists of this Province, held here to-day and largely attended, Dr. A. Lantier, of Quebec, was elected President of the Association and presided at the annual banquet held at the St. Regis this evening.

**THE UNION BANK IN LONDON**

The London Canadian Gazette of October 12 has the following:

The Union Bank of Canada, which has had an agency in London for some eighteen months past, has now acquired permanent premises in Threadneedle street, next to Parr's Bank, which are consequently well situated for the conduct of its business. The office is in charge of Mr. F. W. Ashe, who has been in the service of the bank for about twenty-five years and has come from Canada in order to take charge of the new branch. Prior to his arrival in London, Mr. Ashe had occupied many different posts, having been manager at various times of some eight or ten of the bank's offices, while more recently he was in charge of affairs in Montreal, and subsequently was appointed district superintendent. The growth of the bank's business has rendered it desirable for some time past that suitable offices should be acquired in the capital of the Empire, and the advent of this institution into the metropolis is regarded by the Dominion banking community in general as a wise policy. The Union Bank of Canada has been growing in power and prestige for many years, and it now occupies a prominent position among its contemporaries. Since 1901 dividends, at the rate of 7 per cent per annum have been paid regularly, and the shares command a substantial premium in the market. The head office is in Quebec, while the number of branches, which spread from the Atlantic to the Pacific, is nearly 250. The office now opened in London is the only one possessed by the bank outside the borders of the Dominion. The directors are naturally desirous of conserving the connection they have already built up, and with the position to which it has now attained those in authority can well afford to be satisfied with its achievements.

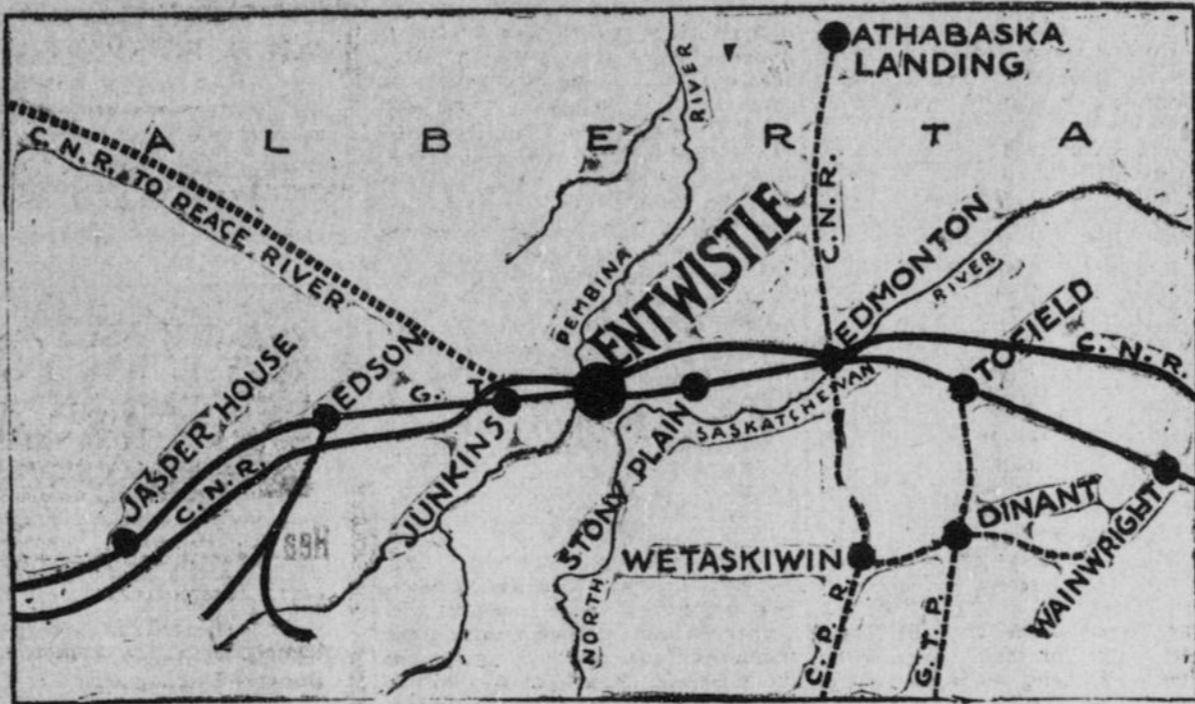

Here Is A Chance To Buy Close In Lots In A New Town.  
A Future City of Famous Central Alberta---Buy Now At First Prices.

# Entwistle

"The Town That Is Just Starting"

Its Location, Its Natural Resources, Its Early Development, Its Present Railway Facilities, and its Assured Early Additional Railway Facilities

Justify the prediction that Entwistle will be the Manufacturing Centre—the Mining Centre—the Lumbering Centre and the Commercial Centre of the Pembina District.

The above map shows Entwistle's Central Location. The plain black lines show the main lines of the Canadian Northern Railway and the Grand Trunk Pacific Railway—two of Canada's three Transcontinental Railways which will serve Entwistle. The dotted lines show branch lines of the Grand Trunk Pacific and the Canadian Northern Railway that are completed, under construction or proposed.

**Entwistle's Location**

Entwistle is located on the east bank of the Pembina River, just 65 miles to the west of Edmonton, and is in the very heart of the rapidly becoming famous Central Alberta. It has a territory all its own of as fine farming country as is to be found in the world, and in this territory which is only just commencing to be developed and only partly settled, there are within a radius of 30 miles between 2000 and 3000 settlers, therefore Entwistle must become a shipping point of farm produce of no mean importance.

**Entwistle Coal**

The coal areas tributary to the town are fortunes in themselves. On the bank of the Pembina River just below the town can be seen what is said to be the largest exposure of coal in the Province. The quality surpasses that found in the Edmonton District, and the quantity is practically unlimited. The coal mines of three companies that own approximately 17,000 acres of coal lands near the town, with a combined capitalization of \$4,000,000, should when proposed development work is completed and mines in operation, support a population of several thousand people.

**Entwistle Lumber**

The immense timber limits on the Pembina River will also be a factor in building up Entwistle, being the only place on the river crossed by the railroad, consequently the manufacturing and shipping point. One of the best known timber land estimators estimates the standing merchantable timber on the Pembina River at 700,000,000 feet. It is only a matter of two or three years until the City of Edmonton will have to look to Entwistle for her lumber supply. A saw mill is now running full blast to supply the needs of the town people and settlers in district surrounding Entwistle.

**Entwistle Building Stone**

Entwistle's sandstone quarries is another resource which, when fully developed, will give employment to a large number. A Company has recently been organized with capital stock of \$80,000 for the purpose of developing these quarries.

**Entwistle Water Power**

The Pembina River in itself presents great possibilities in the line of power development, and will, without question, eventually furnish the power to operate many large industries.

**Entwistle Pulp Wood**

The manufacture of pulp wood is expected to be one of Entwistle's future industries. There is a large pulp wood concession northwest of the town.

**Entwistle Brick Clay**

An excellent clay suitable for brick and tile making has just recently been discovered near Entwistle.

**Entwistle Rail Roads**

Entwistle is on the main line of the Grand Trunk Pacific, Canada's National Transcontinental Railway. The Canadian Northern Railway will reach Entwistle this year. Entwistle will therefore be served by two of Canada's three Transcontinental Railways.

With these Facts before you can there be any question as to Entwistle's Future? We Should Say Not.

With the outlook for a rapid and a substantial growth, Entwistle offers exceptional opportunities for making money. Close in lots—lots right in the town of Entwistle—lots such as we are selling and at prices ranging from \$100 to \$500 each, a safe and sure investment, and one that will pay big and quick profits.

Call And Make Your Selection To-day.

Or if it is not convenient for you to call, telephone to MacGowan & Legare, No. 4490, and one of their Representatives will call on you.

 The annual general meeting of St. Jean Baptiste Society was held at the City Hall last evening when Dr. P. H. Bedard was elected President of the Society, Vice-President, N. E. Papiilon, and Secretary, J. E. A. Pin.

**NEW BRIDGE AT THE BASIN.**  
 The new steel railway bridge at the Louise Basin is nearing completion, and work on it is being carried on briskly. The structure, which is on the bascule plan, is quite a piece of work. The railway tracks have been laid down on each side of the gap and are ready for the trains as soon as the bridge is completed.

**CAT AND THE FIDDLE.**  
 Chas. A. Sellon's mammoth musical extravaganza, "The Cat and The Fiddle," is billed for the attraction at the Auditorium Friday and Saturday, Oct. 27th and 28th. Twenty-one separate and distinct scenes, carload of stage properties, electrical and mechanical effects, handsomely costumed chorus girls go to make up the production. The piece contains some of the best song hits ever written and a clever company of forty acting people, go to make this combination without a parallel, one of the leading musical extravaganzas in the field to-day.

**BUILDING WORK PROGRESSING RAPIDLY**  
 Work in the building line in Quebec, in view of the approaching winter, is being pushed rapidly, and every effort is being made to rush along operations. The repairs to the Custom House are making great headway and the new roof is now almost completed. The large edifice of the Q. R. L. H. and P. Co. in St. Roch's, the new school on St. Augustin street, the Quebec Bank branch in St. John street and various other undertakings are all being proceeded with at top speed.

**PACKED HOUSES AT THE AUDITORIUM.**  
 There were packed houses at the Auditorium yesterday, when one of the best programmes seen in a long time was presented. The feature acts this week are the Do Dio Circus, consisting of ponies, dogs, monkeys, and donkeys. The intelligence displayed by these animals is something marvellous. Jordan and Green, a clever pair of comedy jugglers, have a fine comedy skit entitled "Baseball," while Miss Dulcie Dean is a very pleasing singing soubrette. There are a number of the very latest moving pictures, and the whole show is one that is bound to draw capacity houses.

**LAID TO REST.**  
 The funeral of the late Madame Antoinette Masson, which took place yesterday morning, was largely attended. The solemn requiem mass took place at St. Roch Church, the Rev. Father Cote officiating, assisted by Fathers Grouleau and Desjardens. The chief mourners were Messrs. Ant. Masson, husband; Art. Belleau, brother; Ant. Masson, father-in-law, and Frs. Louis and Napoleon Masson, brothers-in-law. The interment took place in Belmont cemetery.  
 A lengthy cortege of mourners was present at the funeral yesterday morning of Melle. Fernande Samson, daughter of the late Dr. O. Samson. The service took place at the Basilica, where Rev. Father Lemay officiated, assisted by Rev. Fathers T. Paquet and Larue. The interment was at St. Charles cemetery.  
 Come and see the prices of our celebrated manufactured suits New Era. The price and cost will astonish you.  
**FAGUY, LEPINAY & FRERE.**

**DOINGS IN THE CRIMINAL COURTS**

Woman Gets Two Years for Robbery — Other Minor Cases Disposed Of.

It was somewhat of a slack morning in the Recorder's Court yesterday morning, only about half a dozen prisoners being up. Alderman Cummins and Alderman Trudel were on the bench, and dispensed justice. Rose Primeau, who was found drunk in St. Roch at an early hour on Sunday morning, was fined \$20 and costs or two months. Rose was before the court a couple of weeks ago and fined for being drunk and carrying a revolver, but this does not seem to have taught her a lesson. She will now have two months to think over matters, as she had not the necessary collateral to save her from the prospect of viewing the Battlefields Park for the next two months. A colored gentleman from Chicago, who also got lost in St. Roch and who mistook the public street for his boarding house, had nothing to say, except that he did not intend to stay in Quebec after his present job was finished. He got off with \$2 or two days. Several other cases of common drunks were disposed of in the usual way.

There were a number of cases in the Police Court, one of the principal ones being Jennie Ferguson, who had a peculiar disposition of putting up at city hotels and then getting away with anything she could lay her hands on. Detective Walsh, however, landed her at the Victoria Hotel on Sunday night, and yesterday she was given two years in the penitentiary. Edward Demanch was fined \$10 and costs for flourishing a revolver too freely. A Syrian paid \$2 for an assault. A laborer, who carried away a pair of boots while under "the influence," was allowed to go on suspended sentence.

**A ROYAL GIFT.**  
 Two beautiful pictures of H.R.H. Duke of Connaught, Governor-General of Canada, and also the Duchess, size 18 1-2 by 22 1-2 inches, both put in a tube ready for mailing to relatives or friends. Price 25c. Sold at Antoine Langlois, 26 Mountain Hill. oct24x3

**PRESENTATION.**  
 A very pleasant event took place last evening, when Mr. Walter Derouin was waited on by a number of friends and presented with a well filled purse of gold. The presentation was made in honor of Mr. Derouin's approaching marriage. Mr. Michael Hanrahan acting as spokesman for the donors of the gift. Mr. Derouin, who was visibly affected, replied in suitable terms, thanking his friends for their kind remembrance.

**JUST A FEW LEFT.**  
 Of our enamelled and gilt 97 piece dinner sets. These have handsome floral designs, good colors, regular price \$10 to \$12. To clear out \$7.50. No other store can give you such value. We have also some lines of nice cups and saucers at greatly reduced prices. Will be pleased to have you call and examine. oct24x3

**TWO BODIES OF MINERS FAIL TO AGREE.**

Halifax, N.S., Oct. 23.—Some days ago the P. W. A. at a meeting of the Grand Council appointed a committee to draw up a wages schedule for the miners of Nova Scotia on the lines of the -1907 schedule. The different lodges were authorized to enter into an agreement with the coal mining companies on the basis of that agreement. The U.M.W. executive of Nova Scotia now come out with a proclamation addressed to all mine workers in which they refuse to be bound by the proposed P. W. A. arrangement, and protest against such an agreement being entered into. They allege as reasons for this that the P. W. A. was voted out of existence by its own members three years ago, that there have been two general increases in wages to the organized mine workers of North America while the men of Nova Scotia have received no general increase; that all present contracts between mine workers and operators in North America to terminate on March 31st, 1912, at which time all the mine workers of the country will present demands for increased wages and better working conditions, and that the Dominion Coal Company wants to have its employees in such a position as will enable it to take undue advantage of change in the coal market which may occur during the deliberations for new wage contracts. The United Mine Workers say that they are willing to negotiate a wage contract, but they will not stand for one negotiated by anybody else. They announce that public meetings will be held at the coleries to agitate the wage question.

**SCHOOL CLOSED ON ACCOUNT OF SICKNESS**  
 Montreal, Que., Oct. 28.—The Protestant School Commissioners declared the medical health officer of the city today had ordered that the Madison Avenue school in Montreal West should be closed for the present owing to five cases of diphtheria which had broken out in the place. Health officials are at the school today to make a thorough examination. Last week 29 cases of the disease were reported in the city. It was not thought by the health authorities that there was any grave danger of the disease becoming epidemic.

**PERSONAL**

Mr. J. A. Gauvin left yesterday evening for Montreal.  
 Mr. George Derome has left town to spend a week at Three Rivers.  
 Mr. John H. Roberts, Secretary of the Dominion Alliance, is a guest of Mrs. James Reid, Mount Pleasant.  
 Mr. D. O. Lesperance, M.P. for Montmagny, leaves this morning for Cap St. Ignace to attend the funeral of Rev. Mr. Sirois, parish priest.  
 The many friends of Mr. Pierre Cantin, advocate, who had an attack of paralysis a few weeks ago, at his residence, St. Romuald, will be pleased to learn that he is now on a fair way of recovery, and expects to be in his office in a couple of weeks.

**Arrivals at the Chateau:—A. S. Bain, J. C. Ross, B. Rubin, F. C. Jackson, A. F. Gire, G. A. Wendt, Montreal; T. A. Cutbertson, Victoria, B.C.; Mr. and Mrs. P. N. Lazarus, Brooklyn; B. E. Graves, East Walpole, Mass.; F. J. Ritchie, Three Rivers; C. Nicoll, H. Glassford, F. J. Perogo, Montreal; Mr. and Mrs. H. L. Beadel, E. A. Cruikshank, New York; W. H. Parker, Lac La Pêche.**

**Arrivals at the Blanchard:—G. T. Hamelin, Grondines; L. R. Trudel, A. A. Desjardins, Montreal; F. X. Parent, St. Germain; E. J. Hingston, A. Duchaine, E. D. Caron, Montreal; C. N. O. Blais, Chicoutimi; Joseph Hamel, Fraserville; F. Chouinard, St. Pampili; N. Hardy, St. Basile; Art. Giguere, J. C. Giguere, Jonquieres; J. A. E. Lanouette, La Perade; N. Gauvin, Montreal; G. Guerdar, Ottawa; J. Danais, Baie St. Paul; Jean Lortie, Beauport; Emile Cloutier, L'Islet.**

**Arrivals at the Clarendon:—J. A. Warren, Murray Bay; Mrs. N. Werthemer, J. V. Werthemer, N. Demers, Montreal; F. C. Peckham, St. Irene; A. S. Garneau, Miss Garneau, Percé; Mr. and Mrs. J. F. Miller, Montreal; L. G. Belley, Chicoutimi; Captain and Mrs. E. Gagnon, Ottawa; E. J. Hatton, Montreal; A. Larouche, Murray Bay; T. Lamarre, Lac La Pêche; Mrs. G. Laurier, Montreal; P. J. Lynch, St. Irene; Mrs. J. A. Demp, Montreal; Mrs. H. L. Williams, Edmonton, Alta.; J. D. Leclair, Ste. Therese; Mrs. and Miss Parsons, Quebec; J. Lottery, M. Joseph, Montreal; Mrs. and Miss de St. Georges, Cap Sante; F. M. Johnston, Toronto.**

**MET WITH A SERIOUS ACCIDENT.**  
 While returning from church on Sunday morning, Mr. Misael Thibaudau met with a serious accident. Mr. Thibaudau was alighting from a car at the corner of Sous-le-Fort and St. Peter streets, he was caught by the car and was carried a distance along the street. Mr. Thibaudau is now confined to his room as a result of his injuries.

**SERIOUS CHARGE AGAINST A YOUNG BOY.**  
 Ottawa, Oct. 23.—Accused of shooting with intent to kill, little Samuel Davis, 14 years old, of Masham, Que., was arraigned before Judge Goyette in Hull this morning. It appears that Davis was in the habit of helping on a milk round with a man named J. Mac-Anderson. The boy was put off the rig for using foul language, and tried to get back on again, when the driver used the whip to the boy. A few days ago when young Davis was passing with a gun he saw the milk cart and the driver who had ejected him from the rig. He at once raised the gun and fired, hitting the rim of the man's hat, which caused the bullet to glance away from him. At the request of his lawyer, Mr. Wright, he was remanded until Saturday.

**CASES IN THE SUPREME COURT.**  
 Ottawa, Oct. 23.—In the Supreme Court to-day the argument in Anderson vs. South Vancouver was concluded. Judgment was reserved. McInnis vs. Stewart was taken up next. The action in this case was brought by the appellant, McInnis, claiming damages for trespass to his land. The case turns on boundaries of the respective lands of the parties, wilderness lands, both claiming through grants from the Crown, the defendant having had possession of a portion of his grant for over sixty years. The trial judge held that the title to the lands was the plaintiffs'. His judgment was reversed by the full court. The argument was not concluded today. Wall, K.C., for appellant; Newcombe, K.C., for respondent.

**ORE RATES IN NORTHWEST TO BE REDUCED**

Duluth, Minn., Oct. 23.—Ore rates on the two Iron Range roads of the United States Steel Corporation will be cut to sixty cents a gross ton, within the next thirty or forty days. The announcement of the proposed reduction came today from President William A. McGonagall, of the Duluth, Mesaba & Northern, and was later confirmed by President Frank E. House, of the Duluth & Iron Range Railway.  
 The present rate on iron ore is 80 cents per gross ton from all Mesaba range points to Duluth. The rate covers all shipping points on the Duluth, Mesaba & Northern road and all the Mesaba range points on the Duluth & Iron Range Railroad. From Tower the rate is 90 cents to the docks at Two Harbors, and from Ely it is \$1. When the proposed change takes effect there will be a flat rate of 60 cents a ton from all points on the two ranges. The cut from Ely will therefore amount to 40 per cent; from Tower 33-1/3 per cent and from all Mesaba range points 25 per cent. There is already a 6 cent rate in effect on the Soo line, with a further provision for a 60 cent rate any time the shipments exceed the 2,000,000 ton mark.

**TO CURE A COULD IN ONE DAY**  
 Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 25c.

Late Telegraphic News.

INQUEST ADJOURNED
Toronto, Oct. 23.—The identity of the assailant of J. Walter Dick still remains a mystery.

FIRST INQUEST CORRECT
Toronto, Oct. 23.—The second post mortem held on the body of Violet Smith, according to all those connected with the case, was purely a private one, and nobody has anything to say for publication.

SUCCESSFUL DASH FOR LIBERTY
Toronto, Oct. 23.—While on their way to night school tonight two inmates of the Mercer Reformatory made a successful dash for liberty.

RESCUED YOUNG BABE FROM DEATH
Toronto, Ont., Oct. 23.—To save the life of a nine-months-old baby, whose carriage had rolled down an incline into a pond of stagnant water two feet deep, Frank Barber, of 196 Ashdale avenue, jumped twenty feet from the second story of his house on Saturday afternoon, sinking deeply into the mire.

FINANCIAL AID TO STRIKERS
Winnipeg, Man., Oct. 23.—The Canadian Northern machinists to the number of 300 voted tonight to give \$4 per man to the fund for the striking Grand Trunk Pacific machinists.

MISSION DAY AT THE BAPTIST CONVENTION
Montreal, Oct. 23.—Today was a mission day for the Baptist convention, the morning and afternoon sessions being held at the Feller Institute, Grande Ligne, while this evening a number of addresses were made on various phases of foreign mission work.

RESCUED YOUNG BABE FROM DEATH
Toronto, Ont., Oct. 23.—To save the life of a nine-months-old baby, whose carriage had rolled down an incline into a pond of stagnant water two feet deep, Frank Barber, of 196 Ashdale avenue, jumped twenty feet from the second story of his house on Saturday afternoon, sinking deeply into the mire.

HUNTING FOR A NEGRO
Columbia, S. C., Oct. 23.—Men are searching the swamps in the neighborhood of Springfield, 50 miles from here, for Arthur Brown, a negro accused of attacking a white woman today. It is thought that the negro will be lynched if caught.

CHARLEY WHITE WON
Memphis, Tenn., Oct. 23.—Charley White of Chicago was awarded the decision over Boyo Driscoll of England, at the end of their eight-round bout before the Southern A. C. tonight. It was White's fight from the start. Driscoll's face was badly bruised. White was unmarked.

YOUNG MAN DROWNED
Midland, Ont. 23.—A young Englishman, Harry Barrian, was drowned in the bay Sunday by falling off the tug Audrey C., which was towing a raft of logs. Barrian tripped on the tow line and fell overboard. The crew threw out a line but he did not grasp it. A boat was launched but Barrian never rose to the surface.

OTTAWA MAN DEAD
Guelph, Ont., Oct. 23.—Mr. George Blais, proprietor of the White House, passed away at his home, Eldora road, on Sunday, aged 40 years. He was born in Ottawa, where he resided until last July, when he came here to take over the White House dry goods store from James Ramsey.

ACCIDENTALLY KILLED.
Strathroy, Ont., Oct. 23.—The inquest into the death of James Leo, who was killed on Saturday last, by being struck by a Grand Trunk train, No. 46, near Strathroy, was held in the town hall this afternoon.

AMATEUR ATHLETIC CLUB
Ottawa, Ont., Oct. 23.—Responsibility for the affairs and management of the Ottawa Amateur Athletic Club passed tonight into the hands of a practically new board. Mr. George S. May, for many years vice-president, was unanimously elected to succeed Mr. C. Ross, who found it impossible to continue, owing to pressure of business, while Mr. L. N. Bate was elected vice-president, he too, receiving the position by acclamation.

ASSETS OF THE SLOCUM COMPANY
Toronto, Ont., Oct. 23.—The Trusts and Guarantee Company, official liquidators, have refused to accept the offer of \$33,000 and an additional \$21,000 to cover the mortgage on the premises at 193 Spadina avenue, made for the assets of the Dr. T. A. Slocum Company, and have decided to put the assets of the company up at auction in Suckling's auction rooms, 68 Wellington street west, on November 1.

GREAT SCARCITY OF LABOR.
Sarnia, Ont., Oct. 23.—An appeal has been made to the town council asking that they take measures to supply the labor needed for the city's industries. Workmen are hardly obtainable at any price and positions for four hundred men are going begging.

AMALGAMATION OF MINING PROPERTIES IN B. C.
Vancouver, B. C., Oct. 23.—Mining properties in the famous silver and lead section, Slocan district, valued at over \$2,000,000, were amalgamated by a deal concluded in Vancouver today. Incidentally the town of Sandon may be said to have been born a-new and a new lease of activity given to many somewhat somnolent silver lead properties in the Slocan. The amalgamation is one of the most important moves made in British Columbia mining affairs for several years.

TRIED TO SPEND HIS \$5,000, THEN DIE AT GRAVE OF HIS WIFE

Paul Newman, Planning Suicide After Her Death, Tried to Get Rid of Fortune.

New York, Oct. 23.—A tragic story was told to Magistrate Fitch in the Flushing Court, Queens, yesterday by Paul Newman, who was arraigned charged with attempting suicide. Newman, thirty-five years old and a printer, lived at No. 338 East Ninety-fourth street, Manhattan. Just two months ago yesterday his wife and only child died within a few hours of each other. The shock almost crazed him. Then the reaction set in and he became morbid over his bereavement. But there were no more wild outbursts of grief. His sorrow simply gnawed at his heart, he says, till it became an obsession.

"The death of my wife and child," Newman said, "left me without a relative in the world. After thinking it all over for a long time I concluded that life was not worth living. By the strictest economy I had saved \$15,000, of which \$10,000 was in my wife's name. "Having no kinsfolk I could think of, no one to whom to leave my money, so I decided to spend it—and in doing so perhaps scatter my shameful thoughts—and then a revolver shot would do the rest. "The money in my wife's name I could not get without going through numerous formalities in the surrogate's office, so I decided to spend my own \$5,000 first. I went to Europe and threw myself into a life of pleasure and gayety, and every dollar I spent was with the intention of quickly getting rid of my money, hoping that the sooner I spent it my dejected thoughts would be banished. And even at the end of the string was the thought of death by my own hand. "But I had trained myself to save money and it was not easy for me to spend that \$5,000. I soon tired of Europe and returned to New York with about half my money still unspent. I had heard that automobiles were expensive, so I decided to take a long ride in one. When my wife and I were on our wedding trip we went to Niagara Falls so I decided to take a motor trip there and go over the ground where once I had been so happy. "But the ride to the falls did not use up Newman's money fast enough nor did it serve to relieve his grieving thoughts. It simply made them more melancholy, for when he returned he said, he decided to abandon his attempts to get rid of his little fortune and end the whole thing by killing himself. So on Oct. 2 last, with a friend named Daucher and the latter's wife, Newman hired a taxicab and went to the Lutheran Cemetery, Glendale, Queens. "Near the burial ground, where his wife and child lay, he stopped at a marble works and ordered a \$250 tombstone for himself. He was explicit in giving directions for it. Then he went to the graves of his little family, fell on his knees and prayed for several minutes. As he rose with bowed head he drew a revolver from his pocket and fired two bullets into his mouth and one in his forehead. "He tumbled across his wife's grave unconscious. He was taken to the German Hospital, Brooklyn, and for days his death was momentarily expected, but he recovered after two of the bullets were extracted; one is still in his throat. "No, I'm not sorry I tried to kill myself," said Newman to the magistrate. "Without my wife and child I do not wish to live."

CHASED BY TORPEDO BOAT.
New York, Oct. 23.—Officers of the Austrian line steamer Martha Washington, which arrived to-day from Trieste, Patras and Palermo, brought belated "war news" in the report that the Martha Washington was chased for some distance off the port of Patras by a Turkish torpedo boat. The excitement occurred on the night of Oct. 9, which was an unusually dark one, and the torpedo boat kept up the chase until she had focussed her searchlight on the liner's bow and learned the steamer's name.

IN CINCINNATI.
Cincinnati, O., October 23.—Fire which started in the basement of Closson's art store on Fourth street, between Race and Elm avenues, consumed the building and two others. After an hour's fighting the firemen succeeded in getting the blaze under control. The loss is estimated at one hundred thousand dollars. The Closson Art Co. establishment was completely gutted while the buildings occupied by the Furneaux and Hoeft Millinery Co. and the F. S. Schultz Co. were badly damaged. Other buildings in the vicinity suffered small losses.

DR. ROLLER DEFEATED.
New York, Oct. 23.—Dr. Roller, the Seattle physician, lost his catch-as-catch-can match with Paul Samson, the German wrestler, at the Harlem Casino tonight. The terms of the match were announced that Roller throw Samson twice within an hour or forfeit \$500. Roller, while much more clever than his opponent, was unable to throw Samson once within the time limit. The German, who weighed 300 pounds, broke every hold the westerner tried. Roller weighed about 200 pounds. Ivan Romanoff threw August Faust twice, each time with a half Nelson, in their Graeco-Roman style match. He secured the first fall in 6 mins. 40 secs. and the second in five minutes forty seconds.

ALLEGED CASE OF WIFE POISONING.
New York, Oct. 23.—On the eve of the presentation of the "McFarland poison mystery" to the Grand Jury new light was thrown on the case in a statement made through counsel this evening for Allison McFarland, who is now in a cell at the Essex County jail, Newark, N.J., charged with the murder of his wife by the substitution of cyanide of potassium for headache medicine. McFarland, who had previously been quoted as positively regarding the death as wholly accidental, now believes that his wife committed suicide; statements which he is previously credited with having made to the effect that any friendship he might have had for another woman was unknown to his wife, are altered by the belief now expressed that Mrs. McFarland had discovered some of the letters received by him from Miss Florence Bromley, of Philadelphia, and, that knowing where the cyanide of potassium was kept, and deliberately drunk the fatal drug. Frank A. McDermitt, who has been retained by McFarland as counsel, spent several hours in the cell with his client to-day and later made public the new phase of the case. He said that McFarland positively declared himself innocent of the murder but admitted that he had not been on the best of domestic terms with his wife. The relations were so strained in fact, that the woman started divorce proceedings some time ago at her home city, Rockland, Me., but finding that the papers were not satisfactory, later discontinued the suit. "We were never mated," McFarland is quoted as saying, "for she was a domesticated woman and I was not a domesticated man. We finally agreed that she should get a divorce without action on my part. She held the custody of both children while I wanted to keep the boy with me."

## McCLURE

Has built up a successful Optometry practice in this city in little more than one year.

**WHY????**

First—Absolutely painless and drugless Optometry. I honestly believe that this is the strongest reason for my success. People come to me in fear and trembling, and go away happy, wondering why they doubted.

Second—Reasonable prices consistent with best work.

Third—What McClure sells or repairs he guarantees. This causes patients to send their friends to me—the friends doing likewise. In this way I have built up a big practice. People can rely absolutely upon my work.

### BIG GAME MAY BE PLAYED TODAY

First Sunshine for a Week Occurred in Philadelphia Yesterday—Ground Drying.

Philadelphia, Pa., Oct. 23.—After having been postponed for the fifth time there is every indication tonight that the fourth game of the world's championship series between the New York Giants and the Athletics will be played tomorrow afternoon at Shibe Park. The sun which made its first appearance in this city since Monday, Oct. 16, shone brightly all day and aided by a northwest breeze put the playing field in fairly good condition. The diamond is in far better shape than the outfield, but a liberal use of huge sponges by a score of men under the supervision of Ground-keeper Schroeder cleared the outfield of the numerous rivulets. By 2 o'clock tomorrow afternoon, if the sun shines brightly up to that time, it is thought that the outfield will be practically normal. Both teams took advantage of the pleasant weather to prepare for what is thought will be one of the most bitterly fought games of the present series. Manager Mack had his men on the diamond at Shibe Park for fully two hours. The greater part of the time was devoted to batting practice. With Danforth, Martin and Combs serving up their benders the players took their regular turns at batting and sent the ball to all corners of the field. Baker, the sensation of the two victories thus far scored by the Athletics, was the star in today's batting matinee. In five successive turns at the bat he thrice drove the ball into the enclosure between the temporary low wooden fence and the right field wall and later sent the ball over the right field fence. Oldring, who had been absent attending his sister's funeral, took part in the practice and will be in tomorrow's game. While the other members of the world's champions were polishing up their batting eye, Bender and Plank were warming up with Thomas and Lapp on the receiving end. Both the Indian and the big left hander had plenty of speed and judging from today's programme the selection of the man to face the Giants tomorrow will be one of these men. The astute manager of the Athletics, however, will not admit that either Bender or Plank will go in. When the batting practice had nearly concluded Mack sent Combs in to pitch to Lapp, his battery mate. Combs' speed was terrific and as it is known that he is anxious to again face the New Yorkers it would not be surprising if Mack sent him in in an endeavor to have him repeat his brilliant performance at the Polo Grounds on last Tuesday. While the Athletics were going through their limbering up process Manager McGraw had his Giants out for a lengthy practice at the National League grounds. He followed practically the same line of play adopted by the Athletic manager. With Ames, Crandall and Wiltse serving up an assortment of curves the New York players got in some elegant batting practice.

### LATEST HOCKEY DEVELOPMENTS

Now a Chase After the Almighty Dollar, Says Well-Known Sporting Writer.

Joe Gorman, the well-known Ontario sporting writer, has a very interesting article in the Toronto Star on the latest developments in hockey. After speaking of the game as it existed in the past days, under amateur conditions, he says:

Those were the days when the amateur hockey director took particular pride in his position and left nothing undone to bring the highest hockey honors to his club. What a difference the proposed changes in the constitution of the National Hockey Association forecast! From now on it is purely and simply a chase after the almighty dollar. Far from the enthusiasm and interest which the different players took in their work, and the respective standings of the clubs, hockey is to develop into a mighty financial problem. Hereafter you will not find the same patriotic enthusiasm among the players. To cite an instance of what we may expect in hockey in the near future, one has but to look over the records of the American and National Baseball Leagues. It is a common occurrence in those organizations for a player to allow his playing ability to drop so low that the manager or club owner is forced to bend to the wishes of that player, when the latter seeks a change of environment.

Coming nearer home, it cannot but affect the character of the men who now play senior hockey. There are very few players in the game today who will submit to being sold or traded. The few trades or sales that have transpired since the inception of the National Hockey Association are not what a person might call real business transactions. The desire of the player has been the chief consideration heretofore. When Newsy Lalonde was sold by Renfrew to the Canadiens last winter it was because that great centre ice player wished to play for the Montreal French-Canadian organization. The same applies to the projected sale of Bruce Ridpath, former Ottawa wing man, who will be the playing manager of the Toronto club in the N. H. A. this winter.

The men who made hockey what it is today, the players who struggled valiantly in countless memorable matches for the Stanley Cup, men who hold the highest standing in their respective communities, will slowly disappear; their places usurped by athletes to whom money is the chief object. All of the former hockey players and the players of today who play not alone for the monetary sum at which their services are valued, will step back before the advance of the out-and-out professional. Any social recognition to which the players were entitled to must disappear.

Hockey will improve; the reduction of the teams means a greater playing area for the remaining players. There are those who state that the abolition of the fourth forward will have a tendency to deaden the play of the remainder. During the past two or three years the close student of the game has been able to discern the ever-varying styles of play. During the days when hockey—at least the big league stuff—was in its infancy, the famous four-man combination was the outstanding feature of each and every club. The defence men in those days were not counted upon to assist in the attack upon the opposing clubs' ciadel. It was not until Tom Phillips and his Western challengers, the old Rat Portage seven, now the Kenora hockey club, introduced the rushing attack, that the Eastern magnates awoke to the realization that the game was changing with the times.

The latest developments made necessary by the abandonment of the "rover" will bring about an even more drastic change. Ottawa's great little centre man, Marty Walsh, who led the N. H. A. last season in goal scoring throughout a hurricane campaign, comes out flat-footed with the statement that hereafter the clubs must depend upon the individual efforts of its players. Any science which was coupled in a two, three, and even four man combination play must now drop back into oblivion. Speed and stick-handling are now the great assets of a team. This state of affairs, undoubtedly, will bring about a more rapid scoring game. The spectators will be treated to a greater variety of those sensational cyclonic rushes, for which Fred Taylor, the Listowel "bullet," is noted. It means that the defence must also change their style of play. The goal-tend in the opinion of Eastern experts, will be called upon to do more blocking than formerly.

It is unnecessary to state that the recent action of the National Hockey Association marks an epoch in Canada's hockey history. The numerous changes necessitated in the many changes of that body cannot mean otherwise than a general reorganization of hockey from the ground up. The players must become acclimated to the new condition of affairs, while the spectators themselves will have to be taught the newer points of the modern pro game.

However, it is not for one club to dictate to hockey's controlling interest, there are changes which must be made in the management of even the smallest organization. The N. H. A. has seen fit to make a ruling, and it behooves the men of that organization to look after the well-are and interest of professional hockey, of which it is the controlling body.

# El-Hamur Cigarettes

The Orient's Best

## A Fitting Finale

to the choicest dinner man ever ordered is that aristocrat of cigarettes, the El Hamur.

Made from a rare blend of the finest Turkish tobacco, this brand represents a real achievement.

Heretofore, we have been dependent for first-quality cigarettes upon the imported—and we have had to pay heavily for this luxury.

Now it is different. El Hamurs are free from cigarette-duty, yet they share the full quality of the imported because they are made by our London experts—brought over for the especial purpose.

Not for double the El Hamur price could you improve upon El Hamur quality. In fact a better cigarette is not possible at any price. Prove this for yourself!

## INTERESTING TRIAL AT CORNWALL, ONT.

An Ex-Reeve Charged With the Murder of a Druggist—A Complicated Case.

Cornwall, Ont., Oct. 23.—Of four criminal and one civil case at the Cornwall fall assizes, which will open tomorrow, the case of outstanding interest is that of the King vs. McRae, in which F. D. McRae, ex-Reeve, of Lancaster township, is charged with the murder of William Shaw, druggist, of Carp, Ont. The tragedy took place on July first near the residence of D. C. McRae, Bridge End, Lancaster township, Glengarry, where Shaw had been one of a party which is said to have made a futile attempt to recover possession of the infant child of Dr. and Mrs. Magee, of Carp. The pair had quarrelled along religious lines, Magee being a Methodist and his wife, by birth and education, a Roman Catholic.

After the birth of their first child last spring, troubles began and multiplied. Finally Mrs. Magee left home with the child and went to the residence of her father in Glengarry. It was on the occasion of Dr. Magee's second attempt to get possession of his child that the fatal shooting occurred. Dr. Magee was accompanied by his brother, his druggist, Shaw, who was fatally shot, and a constable named Uren, from Bainsville.

The defence sets up the claim that when the McRae house was visited on July 1 that Constable Uren threatened D. McRae with a revolver. Uren says that it was a pair of handcuffs that were mistaken for a gun. F. D. McRae, the accused, was brought into the trouble at the request of his brother, D. C. McRae, father of Mrs. Magee, who had been notified from Ottawa that the doctor and his party had left for the east in a motor car.

From the evidence given at the coroner's inquest it would seem that Mrs. Magee and the child were hiding in a field and that Dr. Magee almost found them; also that of D. McRae, after driving the invaders away by a threat to chop the tires of their car, secured a rifle and fired the shot which is said to have killed Shaw.

The Crown business will be attended to by Mr. Blackstock of Toronto, while the defence is in the hands of R. A. Pringle, K. C., and John A. Chisholm, of Cornwall. The case will probably come up for hearing on Thursday, or perhaps earlier.

## Oh Say! I Forgot.

How often we find at the last moment that some important matter has been forgotten.

If you have a Telephone at the house you can use the last moment to remedy the oversight—and this is only one of a thousand emergencies in which a house Telephone is invaluable.

Residence Service costs only \$20.00, and up, per year—just a little over 5 cents a day.

# Danderine

Grows hair and we can prove it

Hair Becomes Soft, Fluffy, Lustrous and Beautiful Immediately After a Danderine Hair Cleanse

Get a 25 Cent Bottle Now and Forever Stop Falling Hair, Itching Scalp and Dandruff

A little Danderine now will immediately double the beauty of your hair—No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Try as you will after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use when you will actually see new hair, fine and downy at first—yes—but really new hair—sprouting all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its life-producing properties cause the hair to grow abundantly long, strong and beautiful.

Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it, if you will just try a little Danderine. Real surprise awaits you.

## LITERARY NOTES

### THE KING'S BOOK OF QUEBEC

The appearance in print of "The King's Book of Quebec" will be welcomed by the book-lover, by the historian and by all who are interested in the old City of Champlain or were here to witness the magnificent Tercentenary Celebrations which the book commemorates in truthful and impartial fashion.

**A Word as to the Title.**  
The direction, which was submitted to and approved by King George himself is as follows:—To His most Gracious Majesty, King George V., who, as Prince of Wales, crossed the ocean to render homage to the memory of the Founder of Quebec, this book, setting forth the achievements of two races in building an Empire in the New World, is dedicated.

An idea of its objects and subject matter may be found in the preface which is written by Earl Grey himself. In the opening paragraphs he says:—  
"His Majesty has graciously consented that the memorial volume of the Tercentenary Celebrations should be allowed to carry the proud title of "The King's Book of Quebec."

"Its preparation has been entrusted to Dr. Doughty, the Dominion architect, and to Colonel Wood of Quebec, the author of "The Fight for Canada." My thanks, and I venture to think, the thanks of all Canadians, are due to these gentlemen for the way in which they have performed their task."

"The object of this volume is twofold: to unite more closely Canadians of French and of British descent; and to create a public opinion in favor of preserving the battlefields of Quebec in a manner worthy of their traditions."  
\* \* \* This volume is also designed to record the fact that, thanks to the contributions of 46,927 New Ireland school-children and to the generosity of the Provincial Legislatures of the Dominion, of Canadian individuals and of outside friends all over the world, it was made possible for this majesty to hand over to the Governor-General funds sufficient for the purchase of those portions of the battlefields not yet built upon which belong to private owners.

"A special responsibility would consequently appear to be incumbent upon the Canadian people who have received from the hands of their sovereign, in trust for the whole Empire, the title deeds of the Plains of Abraham, to treasure their ancient aspect as far as possible, and by the removal of the jail and factory, which to-day deface the scene, to restore the full dignity of their historic associations."

"His late Majesty, King Edward VII, was among the first to be consulted with regard to the desirability of celebrating the Three Hundredth Anniversary of the birthday of Quebec by the nationalization of the battlefields. With characteristic generosity he started the fund for this purpose with a donation of one hundred guineas."

"This present Majesty, King George V, who had already visited Canada five times, paid Canada the compliment of a sixth visit for the express purpose of taking part in the Quebec Tercentenary Celebrations."

"This memorial volume will explain in detail the National, Imperial and International significance of the Celebration."

"The King's Book of Quebec" owes its being to Earl Grey whose powerful patronage contributed so much to the inception, the celebration and the success of those events of which the volume treats. It was he who wrote the Preface, who chose the experts for its preparations and who contributed so largely of his own time and money to assure its success from all points of view.

Eleven subscribers are thanked in the preface for their contributions. These are Lord Strathcona, Lord Mount-Stephen, Sir Edmund Walker, Sir Henry Pellatt, Sir W. Mackenzie, Sor D. Mann, Sr Hugh Graham, Sir E. Clouston, Sir Wilfrid Laurier, Senator Wilson and E. B. Osler, Esq.  
An interesting feature of the book is that everything that could possibly be done by hand was so done. In binding, printing, paper, general material, make-up and illustrations it is no exaggeration to say that it easily attains the highwater mark of fine art publishing. It is published by the Mortimer Company of Ottawa, who specially obtained the services of necessary experts in all departments. All the personnel and material requisite for fine art publishing in Canada were assembled for this purpose.

There are five hundred copies of the book of which forty or fifty were presentation copies. About 250 will be offered for sale in two volumes with paper covers at a price of \$25. This sum represents scarcely half the cost of commercial production and such money as is made from the sale will be devoted to some specific object in connection with the battlefields.

The back of the volume bears the Crown and the Fleur de Lis. The paper used throughout is hand-made Strathmore. The type, which is excellent, was specially made and has since been destroyed to prevent its being used again.

The frontispiece is a portrait of King George V. This portrait and those of King Edward, Queen Alexandra and Queen Mary are photographs, facsimiles of portraits specially selected and signed for the book by the four sovereigns themselves. That of King Edward was only signed a few days before his death and his handwriting is not nearly so firm as usual. An four are splendid plates.

The title page is engraved as in the old Aldine editions. It simply bears the title and the Tercentenary medal. The dedication and the greater part of the preface have already been dealt with above. Mention is also made in the latter of the gratitude due to the Battlefields Commission for their self-sacrifice, to Hon. Thos. Chapais whose counsel was invaluable in clearing up several misunderstandings at a critical

time, and to Mr. Frank Laselles "whose brilliant imagination and organizing capacity enabled him to make the pageant of Quebec a revelation to the people of Canada of their own history as well as a scenic event of world-wide importance."

Earl Grey has but one cause for regret, namely, that the time was too short and funds too scanty to permit of the representation of India in the pageant. Many persons will, no doubt, wonder what connection there can be between a French-Canadian Pageant and India. They are apt to forget that, as Earl Grey points out, "the exchange with France of Louisbourg for Madras in 1748 helped to establish the Pax Britannica which ensured to the Princes of India the security of their rule at the cost of weakening the British position in North America."

As to the contents about one third consists of a historical background within by Dr. Doughty, the Dominion architect, whose reputation as a historian is known to all and whose previous researches into the history of Quebec have resulted in the addition of so much original matter to the stock of information available before. The chapters compiled by Dr. Doughty come under the following headings. Conditions in Europe, Jacques Cartier, Samuel de Champlain, The Missionaries, The Intendant Talon, Frontenac, La Salle, The Struggle for Supremacy.

The remaining two-thirds of the book dealing with Tercentennial Quebec are from the pen of Colonel Wood who by his residence in Quebec, his access to valuable and original documents, his profound and devoted study of history in general and that of New France in particular, his work in connection with the Tercentenary and his ability as a writer was in a better position than anyone else to handle the theme. It needs little more than a mere perusal to convince one that he has done justice to his subject.

Then there are the illustrations. Six of them, large full-page water-colors, were specially painted for the book by Frank Craig, R.A., who is, perhaps, the best illustrator of the kind in the English-speaking world to-day. Mr. Craig spent several months in Quebec in the preparation of his work and the result is as satisfying to the connoisseur as it is pleasing to the ordinary eye. The originals of these and other illustrations connected with "The King's Book" are now in Ottawa and it is to be hoped that when our local Legislature will have completed its new fireproof library an effort will be made to assemble all this original material together for a special exhibition, if not for keeping altogether.

Of these six illustrations the one depicting Champlain at the Court of Henri IV is good. The Arrival of the Ursulines is still better. Every face of the six nuns is taken from a portrait. In fact every record, description, and portrait available in this connection was utilized. It is a magnificent piece of work and the only criticism that can possibly be found is, perhaps, this, that the beauty is of the flesh rather than of the spirit.

A third picture is that portraying the reception of Jacques Cartier by Francis I, one of the gorgeous court scenes in which Mr. Craig excels. The reception of Tracy by Laval is another artistic success but the palm must be awarded to the picture of Madame Champlain's entry into Quebec. In composition it is undoubtedly the finest of the lot and the reproduction is well-nigh perfect. All these illustrations are distinguished by a warmth and richness seldom seen.

There are also three other large water-colors specially executed by Mr. Geo. Reid, the president of the Royal Canadian Academy. The first depicts the arrival of the Don de Dieu and its welcome by a flotilla of Indian canoes. The second is a most creditable portrait of Champlain for which the Hon. Chas. Langelier, who played that role in the Pageants, posed. The third represents the return of the Indians from the Long Sault after their victory over Dollard's little band of brave and devoted heroes. Mr. Reid's illustrations are more of the Impressionist school. All are good but the last is most striking.

One of the best things in the book is from a water-color by Steele entitled "A View of Quebec in 1837." It is an almost flawless reproduction. Two other illustrations call for more than ordinary mention, one a portrait of Earl Grey from a sketch specially executed for the book by Sargent, the other a photograph of Lady Grey by Hyatt. The latter is technically perfect.

Again, there is the music. Probably this is the first occasion where the history of any event introduces the contemporary music into the text as Colonel Wood has worked it in. Such a work must have entailed a great amount of trouble when it is considered that no less than thirty pieces of original contemporary music are accurately noted. Among them is the old Parisian *couvre-feu*.

The music in Colonel Wood's text is chiefly folk-music. As he says himself: "These folk-songs were among the most interesting features of the Pageant. French-Canadian folk-lore, like French-Canadian speech, is almost entirely Old French carried overseas by the most conservative of emigrants and kept alive in Canada ever since. In some ways a Frenchman among the habitants experiences the same thrill as an Englishman would if he were to find a people still talking as his forebears used to talk at Warwick Fair when Shakespeare haunted it. The habitant's speech is not at all a debased form of any standard language, but mostly Old French with a preponderance of Norman peculiarities, with many nautical and a few military terms used with reference to everyday affairs and with some excellent Franco-Canadianisms which have been developed by the new environment."

"The same is true of the folk-song, words and music alike. Many of the best songs of France—from the days when the songs were as plentiful as the apples in cider-drinking Normandy—are still sung in their un-

## FRIENDS AMAZED AT THIS RECOVERY

### AFTER YEARS OF AGONY, "FRUIT-A-TIVES" CURED HIM

Hardwick, N. B., Jan. 25th, 1910. "Chronic Constipation of the Bowels was the disease I suffered with for many years. My general health was miserable."

"I was treated by physicians and tried all kinds of Pills and Tablets, but nothing did me any good. I then saw a strong testimonial in favor of "Fruit-a-tives." I tried "Fruit-a-tives" and the effects were most marvellous. Now I am entirely well from Chronic Constipation, and my general health is once more all right."

A. G. WILLISTON.  
"Fruit-a-tives"—the famous fruit medicine—is the only remedy in the world that will completely and permanently cure Constipation.  
25c a box, 6 for \$2.50, or trial size 25c. At all dealers, or from Fruit-a-tives Limited, Ottawa.

corrupted forms in Canada, even in cases where they are now extinct in the Mere-Patrie. Nothing brought the past and present into more intimate touch with each other than when Jacques Cartier, Champlain's and Frontenac's men in the Pageant would strike up the same folk-songs that were as much alive to them today as to their ancestors who sang them in Canada two or three centuries ago."

There are many other notable points about the book. It contains for instance, an original article by Rudyard Kipling. To enumerate everything of interest would require a good deal more space than is at present available. But any review would be incomplete which did not give a special note of praise to the libretto of the Pageants. This is an admirable piece of work in every way and Mr. Ernest Myrand deserves to be highly congratulated upon it.

To sum up, "The King's Book of Quebec" is without exaggeration a masterpiece whether viewed from the standpoint of the litterateur, the student of history, the artist or the ordinary citizen seeking for interesting reading matter. Most of all, those who contributed to its preparation accomplished what they set out to do. They have given us the best possible permanent record of the Tercentenary, its lessons and its results. What those results were is best seen by a quotation which concludes Earl Grey's Preface. "It is generally admitted," he says, "that the effect of the Tercentenary has been to draw Canadians of French and of British descent closer to each other and to the Crown; to reveal to Canada through the Review on the Plains of Abraham the strength of her manhood, and through the Pageant the culture of her people and the virtue and valour of their ancestors; to strengthen the entente cordial so happily existing between the Empire and the great and friendly powers of France and the United States; to unite on Canadian soil the people of the Mother Country and of the self-governing Dominions in a celebration of common interest to all alike; to bring the growing powers of the new Dominion of Canada and the proud record and modern attractions of the ancient city of Quebec more prominently before the attention of the world; and, lastly, to nationalize, or rather imperialize, the sacred ground on which the foundation stone of the Empire of Greater Britain was so well and truly laid."

HE WAS NOT ALWAYS THUS  
"Madam," remarked the weary wayfarer with the bandaged eye, "I was not always as you see me now."  
"I know it," replied the stern-visaged woman at the back door. "The last time you were here you had on a deaf-and-dumb sign."

CATCHING THE FAT AND BALD  
(From the Boston Transcript.)  
"So you sent \$2 for those flesh-reducing and hair-falling recipes. Well, what did you get?"  
"A printed slip with this on it: 'To reduce your flesh increase your worries.'"  
"And what about the other?"  
"Another slip which read: 'Falling hair can be avoided by stepping nimbly aside when you see it coming your way.'"

HAD TO TAKE HIM.  
The vicar had been suddenly ill, and his church warden was in great difficulty about getting a substitute, when the bishop of the diocese kindly offered to take the Sunday service himself.  
The church warden, wished "to do the right thing," at the close of the service went up to the bishop and, after thanking him, stammered out: "A poorer preacher would have done for such folks as we, your lordship, but we were unable to find one."—The Continent.

TY COBB'S MISSISSIPPI FRIEND  
Ty Cobb, Detroit's star player, gets as much mail every day as a member of Congress. Letters come to him from girls who admire his style of beauty, from boys who study his style of batting, and from seasoned "fans." If he attempted to answer them all, his batting arm would soon be a wreck.  
One morning in Chicago he was examining his mail. Out of the 50-odd communication before him he took one.  
"This letter," he said, "is the only one that gets a rise out of me. I'm going to write to this old fellow."  
He passed the letter to a friend, who read:  
"Dere Marster Cobb—How you kumin' along? My respects to Madam Cobb. Pleas', sir, rite me a line. Dese niggers down here in Missisipi says I don't know you and I wants to show dem yore letter. Yores respectfull, BEN JACKSON."

## THE BLANKET QUESTION

Almost every housewife at times finds herself in a quandary concerning her blankets. To trust them to the tender mercies of the washer-woman—is quite out of the question to send them to the ordinary laundry entails a risk—while to have them washed under her own eyes is too inconvenient.

We suggest that the Imperial be called upon the next time this problem arises. We are signally successful in the laundering of pure wool articles of all kinds. We return the goods soft, fluffy, and thoroughly cleansed. Try us. We do it right.

BETTER HEADWAY NOW BEING MADE

In Procuring a Jury in the McNamara Case—Important Decision by the Judge.

Los Angeles, Cal., Oct. 23.—Legal machinery in the McNamara murder trial revolved to such effect today that at the close of court a problem which had bothered everybody concerned since the first day of the trial was solved in the opinion of counsel, and five talesmen were excused for various reasons. The half empty jury box was filled again and only ten men of the original venire of 125 were left.

By denying a challenge of the defense against Talesman George McKee, based on the ground that while McKee had no prejudice against James B. McNamara, the defendant, he believed the Los Angeles Times was blown up by dynamite, Judge Bordwell upset a cherished contention of the defense. The ruling was based on the court's belief that, in spite of McKee's opinion, he could and would be a fair and impartial juror. Of this the court is the sole judge. Whether other jurors of McKee's frame of mind would be disqualified depended, the court pointed out, upon the individual instances and not upon any general ruling.

Talesmen E. O. Robinson and A. R. McIntosh were excused at the morning session of court because of their assertions that they would not render a verdict of guilty in a murder case on circumstantial evidence.

Later in the day, Willis F. Oliver and P. C. Thompson were excused because each was opposed to the death penalty under any conditions.

E. C. Huaser, vice-president of a meat packing company, was excused for bias, after he had said that his belief that the Times building was destroyed by dynamite was a matter of personal observation. This case differed from McKee's for the reason, among others, that McKee's information was based on indirect information, such as newspapers and common report afford. All these sources of information are excepted in the statute, but belief founded on personal knowledge or inspection is not.

That the ruling in McKee's case will expedite the task of obtaining a jury, was the expressed belief of opposing counsel. "I think we'll strike a gait soon," said Attorney G. Ray Horton, chief trial deputy of the District Attorney's office. "Every day sees the procedure more clearly outlined."

Edward Neckles, Secretary of the Chicago Federation of Labor, arrived today and called upon the McNamara brothers. He talked a long time with John J. McNamara, brother of James, and indicted jointly with him for the murder. It was said that he brought evidence which he believed of value to the defense.

THE DEATH OF MISS AVIS LINNELL

A Startling Bit of Evidence Is Said to Be in the Hands of the Police.

Boston, Mass., Oct. 25.—A startling bit of evidence which has been in the hands of the police for several days, but which they have carefully guarded, leaked out tonight and promises to cast additional interest in the case of Rev. Clarence V. T. Richeson, the Baptist Minister, who is confined in a cell in the Charles street jail on the charge of the murder of Miss Linnell, the 19-year-old music student and Sunday school teacher.

When the police recently gave out a statement as to evidence which had been given them by William H. Hahn, the Newton druggist, where the Cambridge pastor is alleged to have bought cyanide of potassium on the Tuesday preceding the death of the Linnell girl by the same drug, they dragged the pastor had asked the druggist for a poison which "would kill a dog at his home which was about to give birth to puppies." The statement stopped there.

Tonight it is stated on authority that Druggist Hahn added another sentence on which the police lay considerable stress. According to this authority, Mr. Hahn added that the minister also said: "I want a poison which will kill the puppies without killing the dog."

Druggist Hahn declared, it is claimed, that he stated that he knew of no medicine or drug which would bring about the situation which the minister outlined.

While the state was collecting its evidence in the case, the Rev. Richeson late today faced two leading members of his church and declared: "I am innocent and will prove it when the time comes." The two men, A. F. Watson, treasurer, and J. E. Hughes, both of the Immanuel Baptist Church of Cambridge, paid a visit to the man in his cell today, as did Rev. George Holt, the Rhode Island clergyman who is to marry the younger sister of Violet Edmonds to whom Mr. Richeson was engaged. The pastor's protestation of innocence was made to each of the visitors.

Another visitor to the prisoner today was his sister, Miss L. V. Richeson of Saranac Lake, N. Y. She came to the jail an hour before the opening time, but owing to the fact that after coming such a long distance she was unable to see her brother on Sunday, she was admitted to the prisoner. The usual limited time allotted to visitors was also overlooked and Miss Richeson spent nearly an hour at the door of cell 47 where the pastor is confined in what is known as "murderers row."

All that money and the legal profession can provide to give aid to Richeson will apparently be forthcoming. Besides Moses Grant Edmonds, father of his fiancée, the imprisoned pastor's uncle, Dr. William A. Richeson of Amherst, Vt., a wealthy man, has declared his fortune at the command of the defense.

One of the perplexing problems which have confronted the prosecution is the apparently long time in which the cyanide of potassium acted before it caused the death of Miss Linnell. The medical examiner, Dr. Timothy E. Leary, in his report, declared that death ensued 25 minutes after the taking of the poison. To the police this seems strange in view of the fact that cyanide is supposed to cause instantaneous death. Various explanations are being advanced for this seeming inconsistency. One is that an overdose of the poison acted as its own emetic. Another is that the poison had deteriorated through chemical action. This matter will be ascertained by an analysis of a quantity of cyanide of potassium to be secured from the Hahn drug store, to see if the drug kept there, such as was purchased by the minister, had lost its strength.

The medical examiner is authority for the statement, however, that no special significance need be placed on the fact that the girl survived nearly half an hour after taking such a deadly poison, citing cases where the drug had deteriorated or an overdose had been taken so that life was prolonged.

In view of the fact that the case is now in the hands of the District Attorney and that the evidence will be presented before the Grand Jury on Thursday of the present week, a special sitting having been called to avoid a hearing before the Municipal Court which would divulge the evidence to the defence, the police declare that no more material secured by them will be given out to the press.

THRASHING ALMOST COMPLETED.

Brandon, Man., Oct. 23.—If the favorable weather continues, thrashing will be completed in the district by the end of this week. The wheat is practically all threshed and all that remains is oats and barley and other coarse grains. There does not seem to be the damage that was expected from the rain, as oats threshed out with stock have been coming in here this morning and are grading feed oats. Ninety-five per cent of the wheat marketed here this year has graded two and three northern. During the wet weather a few loads of soft wheat brought in was refused and the report was circulated that the damage to the grain crop was very great while the wheat was not marketable. The main object in refusing it was to stop thrashing until conditions improved and it had the desired effect.

MINISTER ELECTED BY ACCLAMATION

Winnipeg, Man., Oct. 23.—George Lawrence, the new provincial Minister of Agriculture, was re-elected by acclamation for Killarney today.

SAYS HE DID NOT ELECT A SENATOR

Nor Did He Assist in His Election—How the Story Originated.

Milwaukee, Wis., Oct. 23.—Edward Hines, the Chicago lumberman, denied before the Senatorial investigating committee today that he, directly or indirectly, had had anything to do with the election of Senator Isaac Stephenson. Mr. Hines' denial covered the following:

That he went to Washington and there told Senator Stephenson that because of charges of corruption, made in the Legislature, the Senator could not be re-elected.

That to overcome this obstacle he entered into an agreement whereby he and Stephenson each contributed \$55,000, which resulted in an election by the Wisconsin Legislature, on March 4, 1909, after three Democratic Assemblymen had absented themselves.

That he paid Robert J. Shields \$7,500 to help "put over" the election. Mr. Hines declared that much of the story, as given to the committee by W. H. Cook, of Duluth, was due to business reasons. Hines said Cook had written a letter threatening to "expose" him if he, Hines, did not withdraw as a director from a company in which both were interested. Hines also denied part of a conversation attributed to him by Cook at a hotel in Chicago, in which Hines was reputed to have said: "I have had a terrible time getting Stephenson lined up. After I elected him, he goes down to Washington and votes for free lumber, and he is a lumberman, too."

The committee endeavored to trace the source of the charges implicating Hines and Shields. The development of this phase of the investigation, as shown by the record, was:

John Brady, a Duluth hotel clerk, now dead, said he overheard two men, unknown to him, "joshing" about Hines' and Shields' work in Stephenson's behalf. Then Brady told Daniel Haley, Cook's partner, and Haley told Cook and Cook told Lieutenant-Governor Thomas Morris, and Morris told the investigating committee. Going over the record the committee found that Cook denied part of what Morris had said, and Haley varied from what Cook said, and as Brady, the hotel clerk, was dead, no information is to be had as to the identity of the two men who were held responsible for the original report.

Another feature of today's session was an admission by Assemblyman Joseph A. Domachowski, that his charge that he was offered a bribe of \$1,500 to remain away from the Legislature at the time of Stephenson's election, was a joke. Domachowski's allegation was made one of the specific charges against Senator Stephenson. On the witness stand he declared it was intended only as a joke, and he had never been offered any bribe. Several other witnesses testified they had heard the assemblyman's charge, and were led by him to believe it was true, but that they were told by him that it was a joke.

THE CRUSADE AGAINST IMPURE FOOD

New York, Oct. 23.—The crusade against impure food continues with zeal in New York. Two men were sent to jail, one for 30 days and one for 20 days, and a large number of other persons were given fines ranging from \$30 to \$100, in the trial today of cases charging violations of the pure food law. Butchers, fish dealers, milk purveyors, candy stand keepers and restaurant proprietors formed a majority of the defendants. The man who received the 30 day jail sentence was Louis Hamer, an East Side baker, who had some 170 dozen bad eggs from which it was intended to make cakes and other pastries. Frans Fozzeno, a butcher, was given 20 days for having in his shop a mouldy leg of veal.

THE LATEST MERGER IS JEWELLERS' AMALGAMATION

Montreal, Oct. 23.—The latest Canadian merger is the Jewellers' Amalgamation which aims at the consolidation of the Canadian Jewellery trade, both manufacturing and retail. The new merger is to be called the Canadian Jewellers, Limited, and has already secured a charter from the Federal authorities. The authorized capitalization is \$5,000,000, one half of which is to be preferred stock at seven per cent and the other half common stock. The amalgamation will have manufacturing establishments in Montreal, Toronto, and in the Eastern Townships, and a string of some sixty retail stores stretching across the Dominion. Nine establishments are said to be already included, among them being Wm. Bramley, the Heming Manufacturing Company and the Hensley Manufacturing Company, all of Montreal; J. A. Brown & Company of Toronto, and three other Toronto firms, one Montreal firm, and one firm in the Eastern Townships, the names of which have not as yet been announced. J. A. Mackey of Montreal is the president of the new consolidation, with Oscar Jonasson, late of New York, as secretary-treasurer. The merger has opened temporary business offices at No. 7 Bleury street.

8TH ROYAL RIFLES CLASS OF INSTRUCTION

There was a very large attendance of the members of the 8th Royal Rifles at the class of instruction at the Drill Hall last evening, and the manner in which the class is being followed is proving a great satisfaction. It is announced that every non-commissioned officer and private who passes the examination will receive a substantial bonus as a reward for his assiduity and progress.

The Guest Room should be a "rest" room. Often it's quite the reverse. Memory recalls the old fashioned room reserved for stay-over visitors, which was anything but restful. Cold, draughty, musty-smelling and cheerless, it was usually effective in putting a damper on the visitor's enjoyment. Nowadays in homes heated with a

King Boiler and Radiators

The guest-room shares equally with every other room in the pure, clean, invigorating warmth evenly diffused throughout the house. A turn of the valve regulates the temperature to any desired degree. Can be placed in any building, old or new, city or country. No need to pull up floors or tear down walls. No dust, or fuss to cause inconvenience or expense. King Radiators are decorated to match walls, furniture, etc., and are made to fit anywhere. Write for four copies of "Comfortable Homes."

STEEL AND RADIATION, LIMITED Head Office: Fraser Ave.—Showrooms: 78 82 Adelaide St. E., TORONTO Branches in all the principal cities

Show Rooms: Quebec, 153 St. Paul St. Montreal, 138 Craig Street, West.

The best part of the day is the evening, when the whole family is gathered together around the lamp. The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp. There are to-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes. Other lamps cost more, but you cannot get a better light than the low-price Rayo gives. It has become so popular we may almost call it "the official lamp of the American family." The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere. Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency.

THE EXPLOSION ON THE LIBERTE

Investigation Into the Cause—No One to Blame—Nearly a Repetition of Accident.

Paris, Oct. 23.—The commission appointed to inquire into the cause of the explosion which wrecked the French battleship Liberté at Toulon on September 25 last, has completed its report. The commission finds that the explosion was not the result of the outbreak of fire, but was due to the ignition of a cannon cartridge, although exactly what caused the ignition has not been established. The commission further finds that all the regulations were observed, and that no one was to blame for the disaster. There was nothing, according to the commission's report, to show that the disaster was caused by sabotage.

Toulon, Oct. 23.—A repetition of the Liberté disaster was probably averted today by the presence of mind of the commander of the battleship Suffren. As the vessel was preparing to leave her escaping steam overheated the partitions over the coal bunkers and the magazines, causing an outbreak of fire. The commander, without delay, flooded the magazines and extinguished the flames.

POLITICAL CRISIS IN TURKEY

Constantinople, Oct. 23.—The political crisis is reacting on the financial situation and endangering a number of firms of proved credit. The Banque de Meletin has suspended payment for a fortnight because of the scarcity of gold. The Banque de Salonique today had to cope with a run of depositors. Enver Bey is said to be in command of the Turks at Benghazi.

DARING ROBBERY BY AN ACCOUNTANT

Enters a Bank and Holds Up the Teller, Taking \$5,000—He Is Arrested.

Fort William, Ont., Oct. 23.—One of the most daring robberies that ever took place in this section occurred today when A. R. Running, until two months ago accountant in the local branch of the Royal Bank, at 1 o'clock, held up the teller at the point of a gun, and took between \$5,000 and \$6,000. Running entered the bank and the teller, H. L. Dickson, offered to assist him to remove his trunk. He pulled out a revolver and compelled the teller to hand over a part of the money inside the cage. He backed out of the bank and started down Victoria avenue, followed by several persons to whom the teller had shouted the alarm. The police captured Running in the coal dock section in half an hour. He offered no resistance. Running came here about six months ago. His former home was in Brockville, Ont. He formerly worked in Winnipeg at the British North America Bank, and but recently joined the Royal Bank. The money stolen was found in Running's room in a valise, amounting to \$4,835, and bank officials say that that was the amount taken. The young man was to have been married next Thursday to a local girl. He wanted to take a honeymoon trip, and was without sufficient means. Friends think his mind is unbalanced. He has not confessed.

At Odds With Your Food?

Better look into it. If the food is right the stomach will soon be right. That's certain, and

Feed Right Feel Right Think Right

all follow as a matter of course. Doubts about it? Well we won't argue 't make a ten days' trial of

Grape-Nuts

he partially pre-digested food that is all nutriment and you will probably learn enough in that short time to put you on the road to health.

Cut out the improper foods and use GRAPE-NUTS two or three meals a day and see the improvement in health that quickly follows.

Fact! Easy proved.

"There's a Reason"

Get the little book, "The Road to Wellville," in packages. Canadian Postum Cereal Company Limited Windsor, Ontario, Canada.

A DRUMMER'S TALE

They Sometimes Tell True Ones.

A quarter of a century "on the road" gives one some knowledge of hotel life and the old drummer's experience with food is worth listening to. "After 25 years' service as a commercial traveller with its vicissitudes, I found myself about a year ago very much the worse for wear.

"At that time I was suffering from nervous dyspepsia, my appetite was poor and I could not sleep, finally reaching a state bordering on complete breakdown. "As medicine had failed utterly to help me I was forced to look into the diet end of it and what I learned induced me to try a course of Grape-Nuts food.

"When it was not on the bill of fare I asked for it and usually got it; so for several months I made my complete breakfast on Grape-Nuts with now and then a bit of toast. "Improvement commenced immediately and has kept up steadily and now, one year after, my general health is fine, better than it has been for years and I attribute the improvement to the use of Grape-Nuts.

"I have proved in my own case that this food is perfect for a stomach at odds with its food and can recommend Grape-Nuts to all my fellow commercial tourists."

Name given by Canadian Postum Co., Windsor, Ont. Although Grape-Nuts is not always on the bill of fare nearly every hotel has it in the pantry and the guest can get it if called for.

"There's a reason" why Grape-Nuts food restores health and strength.

NEW YORK STOCK MARKET
McDonald & Leperance, stock brokers, private wire to New York and Montreal, Hochelaga Bank Building, Telephone 1227.
Canadian Press Service.
New York, Oct. 23.—Prices barely moved through most of today's session on the Stock Exchange. The market was dull and listless and in the absence of any inducements for speculative operations trading was light. London sent over a somewhat lower range of prices before the opening and this fact, coupled with moderate pressure from professional traders, caused slight recessions in the early trading. It was soon apparent, however, that the bears were attracting no following by selling the market and that so far as any tendency was observable, it was rather in the direction of better prices. The market rallied briskly and held firm until shortly before the close when a final dip which had been most of the modest gains which had been made. The session ended with no change of consequence among the speculative issues. Reading showed the greatest strength of any of the leading stocks. Chesapeake and Ohio retained last week upon publication of an unfavorable annual report, and Norfolk and Western also moved upward. Among the industrials International Harvester, with a gain of nearly five points, was strongest. There were a few weak points among the industrials. New York Air Brake fell 3 1/2 points to 50, its lowest price in many years. Liquidation of this stock and of the convertible six per cent bonds recently is attributed to delay in declaration of the usual dividend. There was some further selling of American Tobacco Preferred, which lost a point, although the bonds held steady. United States Steel was again the most active stock and displaying effective resistance to bear attack. The day's trade reports indicated that the reduced prices of steel and iron might not stimulate business indefinitely. Incoming orders were said to be smaller than a week ago, notwithstanding that prices of many products are almost at the lowest level of a decade. Although business early in the month showed some improvement, the present contraction renders it uncertain whether orders for October will be a large as in September. Purchases of equipment of railroads continue to be far below normal. Perhaps the most significant event of the day was the announcement that a large part of a \$20,000,000 loan for the Prussian government was to be placed here in the form of 4 1/2 per cent six-months treasury bills. The offering of so large a portion of the loan at this point was regarded as only logical in view of the extreme ease of money in New York. As compared with the rate of payment on the Prussian loan funds for six months were quoted here today at 3 1/2 per cent.

CLOSING LETTER

New York, Oct. 23.—The market which opened slightly lower, sold down in the early dealings. Steel touching 59, Union Pacific 162, Reading 130 and Lehigh Valley 163 1/2, but this was soon followed by a rally, carrying prices up one point or more and slightly above Saturday's closing. The market still remains narrow and in the traders' hands, only a few issues being at all active and monopolizing, to a great extent, the bulk of the business. London business was small and without interest, less than six thousand shares changing hands for this account. Stocks appear to be in but light supply and the short interest large and getting somewhat nervous. Lehigh Valley and Reading are two of the issues most in borrowing demand by the shorts. The case of the United States against the Union Pacific Railroad, otherwise called the Merger suit, has been sent over to January term. There was bullish manipulation of International Harvester and the stock was advanced over four points to 108 1/2 on reports that Russia would exclude American made machinery; the Harvester Company having a plant in Russia. Frosts were reported in Texas and Oklahoma, but cotton was weak. Copper metal is in stronger demand, with quotations firm at 12 1/2 cents per pound. The Chinese revolution seems to be gaining ground, but the foreign governments are not disturbed as yet. The closing prices were firm and at near the highest for the day. We still recommend the trading position and believe stock, if bought on breaks, will offer opportunities for profits.
—New York Curb Closing Quotations—
American Tobacco 400 at 403; Butte 15 1/2 to 16; British Columbia Copper 3 1/2 to 4; Dobbie 1 1/2 to 1 3/4; Dome Ex 7 1/2 to 7 3/4; Foley 11 1/2 to 12; Giroux 3 1/2 to 4; Greene Cananea 6 1/2 to 6 3/4; Hollinger 1 1/2 to 1 3/4; Inspiration 7 1/2 to 7 3/4; Inter. **THE REVOLUTIONARY SPIRIT SPREADING**

In the North, as Well as In the South of China—Warning From a Shanghai Paper.

Peking, Oct. 24.—The revolutionary spirit is now manifesting itself in the north as well as in the south. Those who heretofore have believed that the northern provinces might rally around the government are now of the opinion that secessions will follow in rapid succession.

The precautionary measures taken in Manchuria, where the government does not permit mention of the revolution, show the anti-government spirit in the far north. There are existent reports that risings have been planned for the past few days in the immediate vicinity of the capital. It may be that these will not be fulfilled, but they indicate a widespread sympathy with the revolt.

The diplomatic corps have discussed the necessity of maintaining communication between Tein-Tsin and Peking. The military commanders report only sufficient troops to protect the legation quarter in Peking and the foreign settlement in Tien-Tsin, which numbers approximately 1000 and 3200 respectively. Consequently, in a serious emergency only Japanese would be immediately available from the garrisons at Port Arthur and Dalny.

The legations have not yet considered the suggestion of an English paper in Shanghai that the Manchus, when desperate, might endeavor secretly to encourage the ignorant multitude to attack the foreigners, and thereby attain foreign intervention which would militate in their favor, they being the only established dynasty.

Hankow, Oct. 21.—(Delayed in transmission)—The imperial gunboats have proceeded down the river and their whereabouts are unknown. The movements of the imperial forces are a mystery. The revolutionaries believe that the imperialists have scattered northwards.

The revolutionists have been advancing cautiously and are meeting with only guerrilla opposition. Many of the rebels have cut off their queues, indicating that they will win or die.

The city of I-Chang, in Hu-Peh province, was taken Thursday without a fight. Recruits are flocking to Wu-Chang.

Shanghai, Oct. 23.—According to consular reports from Hankow the imperialists have withdrawn as far as Kilometre 64 station, evidently for the purpose of joining General Yin Tchang at Siaoan. Native refugees are arriving here in almost destitute condition as a result of having to pay outrageous charges for transportation.

It is argued that such machinations will prove more dangerous to the Manchus than to anyone else, because it is known that the rebel organization elsewhere is able to restrain its adherents. The Manchus, however, are apparently following a weak and vacillating policy, which conceivably might be followed by desperate measures.

A prominent Chinese official of western education, in discussing this possibility, gave it to be understood that precautions against such a manoeuvre should not be overlooked. The increase in the activity of the press shows either defiance or relaxation of the censorship, whether from venality or sympathy on the part of the police is unknown. The newspapers are publishing reports of rebel victories which have not yet been attained and of government casualties more serious than have yet been suffered, and in so doing they are displaying a greater degree of temerity than usual.

General Yin Tchang, the war minister, seems to have pushed his troops through the passes on the No-Nan-Hu-Peh border without resistance. Some, therefore, are of the opinion that he intends to attack promptly. He has, however, less troops under his command than heretofore supposed. It is not generally believed that he has above 15,000, of which only two battalions are Manchus. They are guarding the railway in the rear. Other troops intended for the Hankow campaign have not been sent owing to the fear of their desertion. There was also necessity for the retention of a strong force near Peking.

General Yin Tchang sent back several military attaches who attempted to follow the army, although they all possessed passports from the Chinese Foreign Board. The British and American attaches left here for Shanghai yesterday, intending to proceed to Hankow up the Yangtse Kiang. It is believed that Yin Ychang, Manchulike, desires to give battle, although the half-hearted spirit of his troops may deter him. On the other hand, Yuan Shi Kai, Chinese-like, is temporizing with rebels. Yuan Shi Kai has refused to leave Chang-Te in the special cars which have been sent for him, but there is evidence that he has despatched trusted adherents of former days as emissaries to the rebel leaders. It is believed that he is endeavoring to reach a compromise between the rebels and through on the basis of immediate constitutional government.

The foreign customs commissioner at Cheng-Sha has telegraphed the Inspector-General of Customs here that the city revolted. The officials were killed and the viceroys fled. The foreign customs men took refuge in the river boats.

It is officially stated that the diplomatic body has informed the Chinese government that it is unable to reply on the subject of indemnities, which is so complicated and important that China had better approach the individual governments direct.

**HOW TO SPEND THE FALL EVENINGS**

And Drive Away Dull Care—Read Matter Printed Under This Heading.

Now that summer is past and the long fall evenings are with us, the people are faced with the problem—What shall they do with their time? One of the most pleasant methods would be to spend it at Kent House.

The splendid ball room is open to the public for dancing every evening from 8.30 to 11.30 p. m., with Miss Fuchs presiding, as usual, at the piano.

The old ball room, at present a most attractive tea room, is available for ladies' bridge parties in the afternoon, euchres or private dances in the evening.

There are also a number of charming dining rooms, splendidly equipped, suitable for ladies' lunches, private dinners, etc.

A special feature is the orchestral dinner every Sunday from 6.30 to 8.30 p. m.

The strictest attention is paid to our cuisine and service. Our wine list has been recently revised and contains the choicest vintages, whilst the most moderate prices prevail.

In addition, the terminus is now in the Kent House grounds, and obviates the discomfort of the elevator. Special trains disembark passengers right at the door of the hotel.

For terms and all other information, apply to the Manager, Kent House, Montmorency Falls.

**THE ITALIAN IS NO SHARPSHOOTER**

Or Another Italian Would Be Dead Now — The Shooter Escaped Arrest.

Montreal, Oct. 23.—After firing one badly aimed shot at Louis Morocco, an Italian engaged in track laying work at the Place Viger Station early this morning, Peter Lazario, also an Italian, rushed from the building shouting threats of returning later to finish his deadly task. When he returned there was an officer waiting, but Lazario managed to escape, although another fellow-countryman, named Cotoyo, was arrested.

The shooting followed a quarrel between the two men, said to have emanated from jealousy evoked by a love affair. After a duel or words, about seven o'clock this morning, Morocco rushed up and sent a blow to Lazario's face. The second Italian whipped out his revolver and fired. The bullet missed the intended victim, and after standing for an instant with the smoking weapon held menacingly in hand, Lazario turned and left. "I'll come back," he shouted in Italian, as he departed, "and when I do, I'll finish the job."

Lazario at ten o'clock returned to Place Viger Station, but prospects of bloodshed were stopped by Constable Dooner. A brother of the man on whom Lazario sought to wreak his vengeance pointed out the gun-man walking out of the station with Jos. Cotoyo, after the Italian gang had been paid off. Constable Dooner ran through the crowd, but just as he got to the pair they separated and departed on the run through the station. Dooner caught Coyoto, and went through his clothes, getting a loaded 32-calibre revolver. The prisoner protested that he had nothing to do with the shooting and stated that his companion had passed him the revolver with which the shooting was done. Cotoyo was locked up on charges of carrying concealed weapons while Constable Dooner started out in plain clothes to find the original assailant.

**PROBLEM OF CHILDREN'S GOVERNMENT**

Auburn, N. Y., Oct. 23.—Harold Large, an English penologist, who has had training in New Zealand and to study the problem of children's government at the George Junior Republic with the purpose of establishing a somewhat similar institution in England. It is said that the Earl of Sandwich has donated 150 acres of land to the English movement and that it has behind it such prominent men as Arthur J. Balfour, leader of the Opposition in the House of Commons, and John Burns, president of the Local Government Board.

**USUALLY ONE DOSE ENDS INDIGESTION**

Heartburn, Gas, Dyspepsia and Sourness Vanish and Your Stomach Will Feel Fine.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, Sick Headache, Biliousness, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapepsin will cost fifty cents at any Pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of Indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name—always remember that a certain cure is waiting at the drug store the moment you decide to begin its use.

Pape's Diapepsin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

**ORVILLE WRIGHT'S NARROW ESCAPE**

His Glider Turned Over in the Air and Was Dashed to the Earth.

Kill Devil Hill, N. C., Oct. 23.—Orville Wright had a narrow escape from serious injury today when his glider turned over in the air and dashed to the ground. The machine was disabled, but not so badly that it cannot be repaired again for flights tomorrow or Wednesday. Today's accident was the second the machine has met with since the present experiments were begun.

Wright had made one short slide in the machine and was essaying a second, when the glider began to turn turtle slowly in a cross wind. The aviator scrambled nimbly over the machine as it turned, with the result that he was on top of it when it dived to earth, bottom side up. Wright's injuries consisted of a severe laceration of his trousers and a slight shaking up.

To make travel in the air virtually as safe as it is on the earth is known to be the real purpose of the experiments which the Wright brothers are conducting. They are working upon their new mechanism designed to keep an aeroplane on an even keel. This problem of stability has been the study aviators the world over. The Wrights began their work on it before 1907. What they have accomplished, if anything, both Orville and Wilbur are, keeping in characteristic secrecy.

**WOULD-BE SUICIDE FOILED**

New York, Oct. 23.—"I have just taken enough cyanide of potassium to kill ten men," exclaimed John Andrews, a robust young Englishman, as a policeman caught him swallowing a dose of white powder in Park Row. The officer called an ambulance and while it was on its way he gave Andrews some milk and other antidotes. When the ambulance surgeon arrived he hurriedly employed the stomach pump but could find no trace of the deadly drug. In Police Court this afternoon it developed that a Bowery drug clerk had played a trick on the would-be suicide by giving him a harmless white powder when he asked for cyanide. Andrews was despondent again when he learned the trick that had been played on him and said he still wanted to die. He was born in India, the son of an officer in the British army, and has travelled all over the world. He was locked up until he changes his mind about dying.
