100TH BIRTHDAY OF SIR J. A. MACDONALD WILL BE OBSERVED

IT WILL BE OF A NATIONAL
CHARACTER—PREPARA-
TIONS STARTED ALREADY.

(Special to the Chronicle)

Ottawa, Feb. 26.—Preparations are being made to fittingly celebrate the hundredth anniversary of the birth of Sir John A. Macdonald which occurs on January 11th, 1915. Preliminary organization has already begun and it is intended to make the event national in character. There will be a Dominion committee in charge as well as committees for each province. Just what form the celebration will take will be left to the committee. There is also a proposal to erect in Ottawa a national memorial to commemorate the centenary of Sir John's birth and the semi-centennial of Confederation an event with which his name is forever linked. The fifty years of Confederation will be rounded out in 1917 and it will be marked also by a great national celebration.

DOCTOR TESTIFIES IN MCGIBBON CASE

HIS TESTIMONY TENDS TO UP-
SET PLEA PUT FORWARD BY
THE DEFENCE

Ste Scholastique, Que., Feb. 26.—A sensation developed in the McGibbon murder trial today when Dr. Fraser, of Lachute, called by the defence, gave evidence that went a long way towards upsetting the defence plea on the shooting of young John McGibbon on the 21st of August. The prisoner, Leonard McGibbon, had previously corroborated the stories and his father, Peter McGibbon, and brother Melville, that he shot his cousin when he saw the latter aiming a second shot at his father, who was already lying writhing on the ground with a gunshot wound in the leg.

Dr. Fraser testified that when he was called to attend Peter McGibbon the latter made light of his injury and said he had walked home from the scene of the shooting. The wound was in no sense a serious one, and if it had caused him to fall, he would not have fallen on his right side as he and his sons claimed. Asked as to a wound on Peter McGibbon's right hand Dr. Fraser thought it could have been sustained only by striking a blow at some resisting object. The Crown contended that he had assaulted the sister of the victim.

The case is expected to go to the jury late on Saturday.

MONTREAL HARBOR BOARD.

Will Make Tour of British and Euro-
pean Ports.

Montreal, Feb. 26.—An extensive inspection of British and European ports is to be made during the next two months by Mr. W. G. Ross, president of the Harbor Board, accompanied by Mr. F. W. Cowie, the chief engineer, and Mr. M. P. Fennell, assistant secretary-treasurer of the board. The idea of the tour is to collect data to apply to the improvement program of the Harbor Commission of Montreal.

THE OUTSTANDING FEATURE WAS TRAGIC MARCH WHERE TWO DIED

ECHO OF CHINIQUEY,
FORMER PRIEST, IN
MONTREAL COURTS

ALLEGED DAUGHTER BRINGS
SUIT AGAINST PUBLISHER
OF LA CROIX.

Montreal, Feb. 26.—In the Revision court this morning before Chief Justice Sir Charles Peers Davidson and Justices Archibald and St. Pierre, the argument began in the appeal in the case of Dame Rebecca Chiniquy against Joseph Begin.

The Superior court had awarded the plaintiff \$3,000 damages. She alleges she was the legitimate daughter of Charles Chiniquy, a former Catholic priest, who had married in the United States, and Euphemie Allard. They were married in the state of Illinois on January 13, in 1884. She further stated that she is the wife of Prof. Jos. L. Morin, of McGill University, and married according to the laws of the United States.

On November 18, 1911, the defendant, who is the publisher of the newspaper La Croix, published an article entitled, "We call a cat a cat and Chiniquy an apostate." In that article he said that as priest, the father of the plaintiff, was incapable of marrying, and that Euphemie Allard was only his mistress.

Begin has now appealed to the Revision court on the grounds that the plaintiff could not take action without the authorization of her husband, and further that she had not produced any authentic evidence that she is really the daughter of Chas. Chiniquy and Euphemie Allard, although she had always been recognized as such.

ONTARIO MEMBER DOES NOT EXPLAIN

MR. GUSTAVE EVANTUREL
FAILED TO PUT IN AN AP-
PEARANCE YESTERDAY.

Toronto, Feb. 26.—Gustave Ewanturel, M.P.P. for Prescott, did not put in an appearance at the Legislature today to make the expected explanation with regard to his letter soliciting a retainer from the liquor interests of the province, and Hon. J. J. Foy, acting leader of the Government, with the concurrence of N. W. Rowell, leader of the Opposition, made the following statement on the matter:

"With reference to the letter written by the honorable member from Prescott and read to this House yesterday the leader of the Opposition says he made a statement to caucus, but he has not given any explanation to this House. It was publicly stated that he would do so today. We would like to have heard this explanation, but in default of any I wish to say, on behalf of the Government, that the serious matter involved in that letter has engaged the attention of the Government, and they will take such steps that they deem necessary after calm and careful consideration to deal with it properly, and to save the dignity of the House, which dignity has been insulted by that action."

DOMINION ALLIANCE DETECTIVE ACQUITTED.

Montreal, Feb. 26.—Michael Sannes and Frederick Carsten, engaged as detectives of the Dominion Alliance, were acquitted today by Judge Leet, of the charge of having attempted to obtain money from Parker Brothers, proprietors of the Cafe Parisien, to abandon a case they claim to have made against them.

EDMONTON MAYOR DOESN'T LIKE REPORTERS

Edmonton, Alta., Feb. 26.—Mayor McNamara set what is probably a precedent today when he announced that in future he would not allow newspaper reporters to see him at all. The mayor is irritated over what he says is the misrepresentation of the Edmonton newspapers of his attitude on public questions. In order to place the record of the council and commission board before the citizens, he has launched a scheme to establish a municipal gazette, to be published weekly, and to contain verbatim reports of all meetings of the civic bodies.

ONE DISAPPEARED WHERE A CREVASSE SWALLOWED HIM UP

The Other Succumbed to Cold, Hunger
and Hardship—Lone Survivor Bat-
tled a Month With Starvation and
Distance

Commander Mawson of the Antarctic expedition gives
out the following:

Adelaide, Australia, Feb. 26.—"The Ant-Arctic expedition ship Aurora, under Captain Davis, second in command of the expedition, arrived here today, successfully terminating my undertaking without further loss of life. Last year our western Ant-Arctic base, in charge of Frank Wild, and also some members of the main base returned.

"It will be remembered that owing to the deaths of Lieut. Ninnis of the Royal Fusiliers and Dr. Mertz while on a sledging journey, I arrived at our winter quarters too late to return that year. The sub-Ant-Arctic base also has been kept in commission this second year.

"My escape was almost miraculous. I was in the last stages of starvation when I discovered a food cache left by a search party. It was thirty days after the death of my last companion before I reached the expedition's hut, and travelling was for the most part in falling and drifting snow.

"The expedition has been most successful. It was organized to complete the knowledge of the salient features of the Australian quadrant of the Ant-Arctic regions, and it operated in the great unknown expanse to the west of the much frequented Ross Sea area.

(Copyright 1914, in the United States
by the New York Times Co.)

Adelaide, Australia, Feb. 26.—Following is a summary of the work accomplished by my expedition to the Ant-Arctic, which arrived here today on board the Aurora:

1st.—The successful negotiation by a ship of Ant-Arctic pack ice in a fresh sphere of action where conditions were practically unknown, resulting in the discovery of new lands and islands.

2nd.—The establishment of two Ant-Arctic wintering stations separated by an air line of 1,000 miles, both on lands never before sighted. At these stations, scientific programmes have been conducted, in one case for a period of one year, and in the other extending over two years.

3rd.—Journeys made over sea ice and a plateau in regions never before sledged over, at a main base aggregating 2,400 miles, and a western base of 800 miles, which figures do not include journeys, supporting parties or relay work. The land has been followed through 33 degrees of longitude, 27 of which were sledged over.

4th.—The establishment of a party at MacQuarie Island, a sub-Ant-Arctic possession of the Australian Commonwealth, where two years were spent mapping and investigating the island and acting as a wireless connecting link with the Ant-Arctic in the main base and communicating weather conditions daily to the Commonwealth's meteorological office for immediate use in preparing forecasts.

5th.—Oceanographic investigation, chiefly of the nature of soundings and trawlings, prosecuted from the ship in depths between Australia and the Ant-Arctic and along the Ant-Arctic continental shelf. Trawlings have been successfully conducted to a depth of two miles by soundings. The continental shelf has been indicated through fifty five degrees of longitude.

Nature of Party

Regarding the party I led: My companions were Lieut. B. E. S. Ninnis, of the Royal Fusiliers and Dr. Xavier Mertz, an expert Swiss ski runner. The object of the dash as far east as possible was to ascertain the nature of the land in that direction. We were assisted by sixteen dogs in dragging a load of over 1,700 pounds.

The morning of December 14 found us in latitude 68 degrees 53 minutes south, and longitude 151 degrees 35 minutes east, having covered a distance of 311 miles. The track had lain over plateau heights and crevassed glacial depressions, three of which were encountered aggregating 9,000 feet in ascents and as much in descents. All were in high spirits. All trouble seemed then at an end, as we had arrived on an unbroken plateau with a clear sweep of coast to the east, and it was intended to keep the track at a safe distance to the

(Continued on Page Four).

QUEBEC-MONTREAL GOVERNMENT ROAD

CONTRACTOR SAYS SIXTY
MILES WILL BE FINISHED
ON NORTH SHORE THIS
SUMMER

Montreal, Feb. 26.—Mr. H. Beauregard, general contractor for the macadamized road which the Quebec Government is building between Charlemagne and St. Augustin on the north shore of the St. Lawrence, a distance of 152 miles, announced today that at least sixty miles would be completed this year. The contractor has three years to complete the work and receives \$7,855 per mile.

The Weather

Toronto, Feb. 26.—Fair, comparatively mild weather now prevails in all parts of the Dominion, with no present indication of any change to colder conditions.

BOY NAMED ROY NOT ABANDONED

CHILD'S STORY OF PARENTS'
NEGLECT IS FALSE—LAD
LOOKED AFTER BY FATHER

The boy named Roy, who at the police station on Monday evening last related a pitiful story of ill-treatment and neglect by his parents, told a falsehood. He was never neglected or ill-treated by his father, who had the police seek out the child at a house on Boulevard Langelier where he took refuge after running away from home. Furthermore, the allegation that the father of the child did not manifest much interest in the support and protection of his son is entirely without foundation, and has only been intimated by the lad whose young mind has been perverted by a premature tendency for adventure, which is said to have been inspired by moving pictures.

BETTER DRILL THAN LOAF AROUND CLUBS

MINISTER OF MILITIA AIRS HIS
VIEWS BEFORE ARTILLERY
ASSOCIATION.

Ottawa, Feb. 26.—Col. the Hon. Sam Hughes, addressing the Canadian Artillery Association this afternoon said men who had spare time on their hands should spend it in drilling in the militia of Canada. It was much better to spend their time in drilling than in loafing around clubs or saloons.

"Commissioner Botha down in South Africa says that a man should drill or pay," said the Minister. "I would like to make some of those men who scoff at the militia drill or pay."

Militiamen, the Minister continued, should make their presence felt in the constituencies. For example, in Toronto it was found that there were 24,000 members of the Queen's Own living and it was remarkable how great the interest of Toronto members of parliament became in the militia's welfare when this was discovered.

ADMINISTRATION OF AGRICULTURE IN QUEBEC PROVINCE

SEVERELY CRITICIZED BY
QUEBEC MEMBERS IN THE
HOUSE OF COMMONS

(Special to the Chronicle)

Ottawa, Feb. 26.—During discussion of the agricultural estimates Dr. Paquet, of L'Islet, criticized the Quebec Provincial Government with regard to its administration of agriculture. Where Ontario had spent \$1,200,000 for agriculture, Quebec had expended only \$436,000. The population in Quebec rural districts had increased only 39,000 and this increase had been in the villages, not on the farm. Dr. Paquet also alleged that the distribution of the Federal grant in the Province of Quebec had been for other purposes than purely agricultural ones. In his own county, L'Islet, he said, \$5,000 of the grant had been spent by the Minister of Agriculture in the way of reward for his own political organizers.

Mr. Boulay, of Rimouski, also criticized the distribution of the Federal grant and asked that the policy be changed so as to prevent the use of the money at Quebec for partisan ends.

Hon. Dr. Beland came to the defence of the Quebec ministry. If Quebec did not spend so much on agriculture it did so on highways. In reply to Mr. Paquet's statements in regard to the lack of increase in the farming population he asked whether any farms were abandoned in Quebec. New villages were being formed all the time.

OLD METHODIST CHURCH FOR BILLIARD PARLOR

Montreal, Que., Feb. 26.—"To let, suitable for a billiard parlor," is the sign which appears over the door of the old Dominion Square Methodist Church here. On all the vacant space of the property transferred by the church, stores have been erected, and now the old church building is to be rented for commercial purposes.

The stamps of Persia show the lion and the sun—the lion as a symbol of power and the sun as an emblem of the ancient fire worship of the Persians.

"Did you recognize me the other night?" asked the Oracle, as he planted himself in an office chair this morning. "I mean Mardi Gras night? Uh, uh! I was the gay-looking female who was smoking the cigarette through my veil, and who ruined your good name by addressing you in front of your lady friends. How'd you like my get-up. Gosh! I'm glad I'm not a woman. I'd hate to live all my life encased in a skirt. When I first started out, it was a hobble, but before I'd gone two blocks it was the latest thing in split skirts. Nothing like being up-to-date! But hereafter my vote goes for the harem skirt. I sympathize with every one that has to wear the others. Mild today, unless the air gets colder."

Speaking of dresses. Have you obtained a

The Quebec Chronicle

Printed and published by The Chronicle Publishing Company, D. Watson, General Manager, at the building of the Company, 9 Beaudry Street, Quebec.

QUEBEC, FEBRUARY 27, 1914.

WELL DONE! C. P. R.

The attitude of the Canadian Pacific Railway in regard to the provisions of the Panama Canal Act seems to have created something like a sensation in Washington, where, as elsewhere in the United States, it appears to have been taken for granted that with the opening of the canal to regular traffic, Uncle Sam would control the only available route, under modern conditions, between Europe and Asia, at least via the Atlantic and Pacific oceans. All other routes were apparently to be abandoned with the opening of the canal, and all traffic of whatever kind between western Europe and the Asiatic continent must necessarily pass, according to American "calculations," through the Panama Canal, subject, of course, to whatever trade and other restrictions it might please our southern neighbors to impose. And in the case of ships sailing under any other than the United States flag, there has been ample provision for regulations of a sufficiently restrictive character to compel as much as possible all freight passing through the canal to do so on American bottoms.

To be told by the Canadian Pacific Railway that it would not regard it as a good business proposition to send its ships through the canal on any terms, has evidently caused a rude awakening of the dreamers in Washington. The dispatches from that city have already informed us that this information was received with particular interest there, because Senator Bristow and others in congress have charged that agitation in favor of repealing the action of the canal act giving free tolls to American vessels was in the interest of the great Canadian railway and steamship corporation. Even if there was no question about its right to do so, the Canadian Pacific declares that it would not send its fleets through the canal, for the simple reason that the company's officials can see no advantage to be gained in changing their present routes across the Atlantic and Pacific.

If there has been no extravagant estimate in the American mind as to the apparently absolute necessity to Canadians of the canal, no reason would exist for the surprise caused in Washington by the C. P. R.'s official declaration on the subject. A simple glance at the map of the world suffices to illustrate the very natural attitude of the Canadian railway and steamship company. Admitting the heavier cost of transportation by rail, and the great length of the C. P. R. haul across the Dominion of Canada, there is to be taken into consideration the tremendous difference in the length of the ocean voyages on both seas, which operates so largely in favor of the Canadian route.

Apart from the fact that the C. P. R. management would not consider it good business to send its ships through the canal, even under favorable conditions, the management of the company were well aware of the fact that it could not possibly look for such favorable conditions if it had required or desired them. This is proved by the fact that it has already stated in a report to the Canadian Government that the act of congress of the United States dealing with the subject of tolls and the regulations for the management and control of the canal appeared to provide some restrictions with reference to the movement of traffic through the canal on vessels owned by railways in the United States, and that this being the case, a demand by any foreign railroad company to be placed on a preferential footing would be unwarranted and indefensible.

The welfare of the Dominion is so closely associated with that of the C. P. R. in so many respects that it is a matter for public congratulation that the opening of the rival Panama route is destined to have so little effect upon the trans-oceanic and trans-continental traffic of our own more northerly one. And the same condition of affairs will apply to our other great Transcontinental routes, with their probable steamship connections on the two seas. Our comparatively long distance from the Panama Canal and the equatorial regions brings us a good deal of winter each year and a tolerably fair amount of frost and snow, but as we benefit by a more healthy climate and better and harder wheat in consequence of our higher latitude, so do our trade routes from east to west and from west to east enable us to encircle the world in a very greatly reduced mileage, in either of these directions.

BRITISH BY-ELECTIONS.

Three by-elections were held in England last week, the results of which are being interpreted as on the whole much more favorable to the Unionists than to the Liberals. In the first, a Unionist seat so remains. In the second, the government candidate—of cabinet rank at that—is defeated, the seat being captured by the Unionists. In the third, a Liberal seat, so remains, but with a significant change in the figures.

The first by-election (on Wednesday) was in South Buckingham, rendered necessary by the elevation of Sir A. C. Cripps to the peerage. This is an agricultural constituency. If Mr. Lloyd George's land reform scheme should be popular anywhere, it is here. Yet the Unionist vote is larger than ever, though the majority is slightly reduced. In the last election, Sir C. A. Cripps, Unionist, had 8,690 votes, and Mr. T. A. Herbert, Liberal, 6,134—the Unionist majority thus being 2,556. On the present occasion, the Unionist candidate, Mr. W. B. Dupre, Unionist, gets 9,044 votes; but he had to contend with an exceedingly popular Radical in the Liberal candidate, Mr. T. Mosley, who gets 6,713. The Unionist vote is increased, but the Liberal vote is increased in greater measure; hence the reduction in the Unionist majority. At the last election the seat was captured from the Liberals, and the Unionists hardly knew whether they were going to retain it at all at this time. Their majority is larger than they expected.

The second election occurred on Thursday. There has been a shuffle in one part of the British ministry. Mr. Samuel, postmaster-general, and Mr. Burns, president of the local government board, taking new places. Mr. Hobhouse becomes postmaster-general. To succeed him as chancellor of the Duchy of Lancaster, Mr. C. F. Masterman has been appointed. Mr. Masterman has represented the south-west division of Bethnal Green, in the east end of London, and it became necessary, because of his appointment to the ministry, for him to ask for a re-election. This he failed to secure. At the last election, the vote was: Liberal, 2,745; Unionist, 2,561—a Liberal majority of 184. In the present election, the vote is: Unionist (Sir M. Wilson), 2,828; Liberal, 2,804; Socialist (J. Scurr), 316. There is thus a Unionist plurality of 24. Considerable excitement was caused in the House of Commons by the announcement of the result, the Unionists loudly acclaiming it as a triumph for their cause. It is only fair, however, to say that they seem led away by the natural tendency to allow the wish to become father to the thought. The election was fought chiefly on the merits of the Insurance Law, enforced collections under the new system being very unpopular in a poverty-stricken district. The Liberals claim that of the votes given to the Socialist candidate on this issue, enough should have gone to them to give them their former majority. There is really not much to boast of in the Unionist win by a very slight majority under such circumstances.

The third by-election (on Friday) was at Poplar, an industrial constituency in London. Mr. Sydney Buxton having retired from the ministry to become governor-general in South Africa, it became necessary to elect a new man to the House of Commons. In the last election, there were only two candidates, and Mr. Buxton's majority was 1,829. On this occasion, there were three candidates, and the entrance of a Labor candidate seems to have made serious havoc with the accustomed Liberal majority. The figures are: Alfred Yeo, Liberal, 3,548; Kerr Clark, Unionist, 3,270; J. Jones, Labor, 893—Liberal plurality, 278. About half the Labor vote seems to have been taken from the Liberals, their vote being reduced by 449. As there were 7,500 more votes cast than in the last election, the Labor man could poll 893 votes without affecting the Unionist strength, which actually shows a gain of 1,122.

It is easy to interpret election results in any way one pleases; but the stern fact remains that since the general election of December, 1910, the government has lost thirteen seats. The activity of the Laborites and the Socialists, and their evident determination to persist in bringing on triangular contests, will be regarded by the administration with grave misgivings. Home Rule is not their only embarrassment.

Quebec newspapermen and all who knew him have heard with the keenest regret of the death of Archie Stevenson, of the Montreal Mail, who has been cut down in the prime of his life, and the news came as a great shock to them. "Steve," as he was more popularly called, had long been known to them as he had covered several sessions of the Legislature and had frequently been down to Quebec on important assignments. In fact it was in connection with a

Quebec assignment, the investigation of the charges brought by the Mail, that he contracted the illness which caused his death.

Young as he was, Stevenson had well earned the reputation of being one of the ablest and most reliable newspapermen on the continent. In many ways he was an ideal reporter, and thousands in this city have had occasion to read his copy, whether in the columns of the Gazette, the Star or the Mail with which he was associated at the time of his death. To his lot it fell to chronicle some of the most important stories which have appeared in the press during the past seven years or so.

He died practically in harness. After covering most of the Quebec investigation, he became ill the last day or so of the proceedings and was confined to his room at the St. Louis, whence he was removed to Montreal a day or two later. It was at first thought that he was suffering from tonsillitis but later it was found that he was afflicted with a severe attack of diphtheria. Never very robust, his constitution was run down to a certain extent by the hard work which had been entailed by the work at Quebec and was unable to resist the disease, the end coming on Wednesday morning. In him the public will miss a clever and conscientious writer and his friends a good comrade whose work was an example.

The bond coupons of the Quebec Railway which fell due on December 1st, are at last being paid off, as the ninety day limit expires tomorrow. We congratulate the Merger on being able to honor them!

In another column of today's paper we publish the annual report of the Confederation Life Assurance Co., which shows a remarkable increase in its business during the past year and a splendid surplus of over \$2,000,000. This splendid showing is due in a very great extent to the indefatigable district manager, Mr. J. G. Bruneau, who has been connected with the company as manager in Quebec for over fifteen years and whose splendid work in its interests is responsible to a very great extent for their present high standing. A very strong point is that the Confederation Life Assurance Co. do a greater business in the district of Quebec than any other point west. The head office of the Company in this district is in the Hochelaga Bank Building, St. Peter street, Quebec.

PRESS COMMENT.

In the opinion of the Bishop of Lincoln, the word "obey" ought to be omitted from the marriage service. The Bishops of Winchester and Hereford believe that the men should take exactly the same vows as the woman, and since it would be absurd for each to promise to obey the other, the word should be left out. There are a few women, probably, numerous enough in the aggregate, but small in comparison to the total number of wives, who have felt humiliated by the implication of inferiority to their husbands involved in their vow to obey, but probably it is not in their interests that the proposal to have the word struck out is being agitated. It is not because the wife has promised to obey her husband that she does obey him. When there is obedience on the part of the wife it is rendered because the wife finds that to obey is the easiest way, that to obey will, on the whole, make for more happiness in the home than not to obey. As a matter of fact, the great majority of husbands do not insist that their wives obey them, knowing that their insistence would be futile. Homes are not ordered like military camps. In how many households does the stern husband issue commands and injunctions to his wife based upon the fact that she has sworn to obey him. How often do wives obey commands not because it is wise or expedient to do so, but because they reflect that ten or twenty years ago they promised to obey? Nobody interprets the marriage service to mean that obedience should be rendered irrespective of the rights of the matter. The probability is that in the average household the wish of the wife has a surer chance of being translated into action on the part of the husband, than has the wish of the husband being performed by the wife. In most cases the husband's wish is considered to be rather a fancy or a notion than a reasonable desire. Meddling with the marriage service is not likely to do much good. It will not make the average marriage happier. It may have the effect of making more unhappiness if it gives the wife the idea that she is hardly responsible to her husband, and that the more independence she shows of his wishes the more she is to be commended.—Mail and Empire.

CONFEDERATION LIFE ASSOCIATION

Forty-Second Annual Report

FIGURES FOR THE YEAR 1913
SHOW SATISFACTORY ADVANCE IN THE AFFAIRS OF THE COMPANY

The Forty-second Annual Meeting of the Confederation Life Association was held at the head office on Tuesday, January 27th, when the Report of the Directors for the year ending December 31st, 1913, was presented.

The statement furnished evidence of a healthy condition in all departments and of the Company's continued prosperity.

New Business

Accepted new insurance aggregated \$12,992,535 were written during the year, and the total amount in force at December 31st, was \$99,094,281.

Payments to Policyholders

There was paid to Policyholders and their beneficiaries the sum of \$1,621,707.91. Of this amount the death claims totalled \$537,629.66, while holders of maturing endowment policies received \$470,969.09, and there was allotted by way of dividends to participating policies \$214,659.39. The latter figures show a large increase over those for any previous year in the Company's history.

Income

This branch furnishes evidence of splendid growth. The net income from premiums amounted to \$2,734,127.89; from interest, \$838,573.11, and from rents, \$104,928.35, the combined figures being \$428,063.63 in advance of 1912.

Assets

The Assets, which now total \$18,723,820.42, show an increase of \$1,453,428.58 in the year. All moneys are invested in securities of the highest standard, and in strict conformity with the requirements of the Canadian Government. The rate of interest earned upon the Company's funds again shows an advance over the previous year, and assures to Policyholders a continuance of the favorable returns which have governed in the past.

Surplus

In regard to surplus, gratifying results are reported. During the year there was earned the sum of \$500,970.42, and at December 31st, the total fund held by the Company for the protection of its policyholders over and above all existing liabilities amounted to \$2,081,781.09.

Change in the Directorate

During the past year the Board suffered loss by the death of the Honorable James Young, who had been a member of the Directorate since 1871.

The vacancy has been filled by the appointment of Mr. W. G. Macdonald to the position of Manager Director. Mr. Macdonald has been prominently associated with the Company for many years as Secretary and Actuary and his elevation to the above responsible position assures a continuance of the careful management which has placed the Association in its present available position amongst Canadian corporations.

Election of Directors

The following were re-elected Directors for the ensuing year:

Mr. W. D. Matthews, Sir Edmund B. Osler, Mr. J. K. Macdonald, Colonel D. R. Wilkie, Sir William Whyte, Mr. Joseph Henderson, Mr. Cawthra Mulock, Mr. John Macdonald, Lieut. Col. Albert E. Gooderham, Mr. Thos. J. Clark, Lieut. Col. J. F. Michie and Mr. W. C. Macdonald.

Mr. J. K. Macdonald was re-elected President, Mr. W. D. Matthews Vice-president and Chairman of the Board, and Sir Edmund B. Osler, Vice-president.

C. P. R. EXCURSIONS TO THE WEST.

The Homeseekers' Excursions to the West, and which have been run by the Canadian Pacific annually since the line is opened, will this year be inaugurated on Tuesday, March 3rd, and continue each Tuesday, until the end of October, 1914. The excursion tickets are on sale from all points in the East to the principal points in the Canadian West. The fares vary slightly, according to starting point and destination, being from Quebec:

\$41.50 to Winnipeg, Man.
\$43.00 to Brandon, Man.
\$46.25 to Saskatoon, Sask.
\$49.50 to Edmonton, Alta.
\$49.50 to Calgary, Alta.

The tickets are good for two months, and arrangements can be made, for extension of time if required. They permit of stop-over at all points, Winnipeg and West.

The famous tourist sleeping cars of the Canadian Pacific Railway, run between Montreal, Winnipeg and the Canadian West via, Ottawa, Renfrew, Pembroke, North Bay, etc., thereby affording passengers all the comfort of sleeping accommodation at the low tourist berth rate. Accommodation can be reserved in advance on application to G. J. P. Moore, City Passenger Agent, Canadian Pacific Railway, 30 St. John St., Quebec.

Miss Holliday—Weren't you in when George called you on the phone and proposed?

Miss Winn—No; but when I did get in I returned his ring.—Chicago Daily News.

BOOKS REVIEWED.

WHERE ENCHANTMENT LINGERS IN QUEBEC.

"Have you heard of that queer little place called Gaspé. Let's go there this summer," and the quaintness of Gaspé will be gone! William Deau Howells opened up Montreal to the tourist and Mr. John M. Clarke has done the same for Gaspé. Gaspé has been discovered.

Not by a hunter or a missionary or an out-and-out explorer, but by a "sympathetic interloper," as he calls himself; and he writes of the country in a way which goes straight to the heart. "Here," he says, of a house in which he has been staying, "is a house in which there is only one book. Can anyone but an over-stuffed soul whose daily commerce has to be with books, appreciate the rich fallowness of a spot where no book stands between him and his Maker, and he can give his mind free rein for a while from thinking other people's thoughts."

Gaspé is a part of the Province of Quebec, delightful, quaint, more Old-Worldish than provincial France itself, though "it is the flavor of New France and the ancient regime." It is "bigger than the State of Massachusetts, or the Kingdom of Saxony." Treasures are still there of old china and old chairs and rare coins; and there are "little farms fighting their way upward against the spruce and fir, on an August day are carpets of coral red pigeon berries set in emerald nests, great clusters of heavy gold tipped tansy and goldenrod fill the fence corners, the fallow fields are blue with vetch or gleam with rugs of crimson monarda. Banks of white immortelles are at every hand . . . the eye looks down the long slope to the water . . . With every passing cloud the scene is changed."

Maps and many photographs accompany the account. And it carries between the lines a very lure to tempt the reader into "The Heart of Gaspé." THE HEART OF GASPÉ. By J. M. Clarke. (MacMillan Company.)

AMERICAN NEGROES AND WESTERN AFRICA

London, Feb. 26.—The British government having been informed of the claim made by Alfred Charles Sam, the reputed chief of the Akim tribe of Western Africa, that he had secured land concessions in the Gold Coast colony, which he contemplated colonizing with American negroes, is making inquiries of the Washington government concerning the nature of the scheme. Officials at the Colonial Office today said that no land in the Gold Coast colony had been conceded to Sam.

The Gold Coast authorities are anxious to have light thrown on the scheme, as they say the American negroes are not likely to prosper in the African colony because there is nothing in that region for them to do.

Time's flight will frequently dismay. With changes gradual but immense. The letter that you wrote today. May startle you a few years hence.

—Washington Star.

SOAP ON HAIR CAUSES DANDRUFF,

SCALP GETS DRY, HAIR FALLS OUT

GIRLS! GET A 25 CENT BOTTLE AND TRY A "DANDERINE HAIR CLEANSER."

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanser." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

GLIMPSES OF OLD QUEBEC

From the Files of the CHRONICLE, February, 1884 and 1814.

THIRTY YEARS AGO TODAY

St. Andrew's Church, Quebec
A largely-attended meeting of the congregation of St. Andrew's church was held at this time 30 years ago, when an address was read by the Rev. Dr. Weir, and an accompanying testimonial of \$1,600 was handed to the Rev. Dr. Cook by Mr. J. H. Clint. The address was a great tribute from the congregation to their pastor, who, for nearly fifty years had so ably filled the position, and had endeared himself to them by his Christianity, literary culture and warm advocacy and promoter of education. The address—We regret exceedingly that the time has come when from your declining years you find it necessary to retire from active service, which you have so long filled with credit to yourself and with much profit to many a wavering, doubting soul. In conclusion, we beg your acceptance of the accompanying testimonial as a slight token of the regard of the congregation and as a mark of their appreciation of your valuable ministerial labors. McLean Stewart, A. Thomson, Geo. Weir, J. H. Clint, Allan McGie, Thomas Craig, J. W. Henry, N. Neilson Ross, Wm. Thom, C. A. Pfeiffer.

Dr. Cook's Reply

These are kind words which have now been spoken to me—honestly meant, too. I do not doubt—and it is a satisfaction that, at the close of a ministry unusually long, there are such feelings of regard and affection as the address expresses. But you are not to judge of the commendations in it otherwise than very far beyond anything I can lay claim to. It would be a sad thing, however, if, at the end of so long a course of years, there were ground only for confessions and contrition. I thank you for the testimonial which has now been placed in my hand. I thank you still more for the permission, that has been given me to continue in the manse with which my family and myself have so many tender associations. My desire and prayer is that an able and faithful minister will soon be found. I bid you farewell and may God have us all in his holy keeping.

London, Feb. 26.—Bullion amounting to £50,000 was withdrawn from the Bank of England today for shipment to South America.

A HUNDRED YEARS AGO TODAY

Re-Captures the Stores
Head-quarters, Quebec. The commander in chief has received the report of Lt-Col. Morrison, announcing the complete success of an enterprise against the enemy. A large amount of property belonging to British merchants, captured by the enemy near Cornwall, and which had been stipulated to be returned, but had been removed. Contrary to treaty, to Madrid on the Grass river and was publicly advertised for sale. Lieut-Col Morrison, one subaltern, 2 sergeants and 20 rank and file of the Royal Marines and ten militiamen, crossed his small party to the enemy's shores and marched through the village of Hamilton, and proceeded 14 miles to the interior on the Grass river, where the plunder was deposited, and having on his route impressed all the sleighs and horses he could find, he immediately took possession of the property. The sleighs being loaded, the party returned through the village of Hamilton, of which not a single house was entered, nor did any individual suffer the slightest loss or insult. And so scrupulous has this officer been, that not being provided with sufficient means to remove the whole of the property, left about 20 sleigh loads, and would not suffer the building containing them to be burned at least any private property should be destroyed. The party returned to where their boats awaited them. A few of the enemy's militia made an appearance, but were soon dispersed, the whole crossed to Cornwall without any loss or casualty. The commander in chief highly approves of the good judgment evinced in this enterprise.
EDWARD BAYNES.

Galveston, Texas, Feb. 26.—The British cruiser Essex, on which Sir Lionel Carden, British Minister to Mexico, is to sail for this port en route to Washington, was delayed at Vera Cruz. This information came to the British consul here late today in a cablegram from Vera Cruz.
Whether or not the Essex is now under way is not known. Efforts of the local wireless station to get in communication with the Essex have failed. Plans have been made to extend to Sir Lionel a formal welcome to America waters.

AMERICAN MISSIONARY IS REPORTED KILLED.

Berlin, Feb. 26.—The Vossische Zeitung today publishes a special despatch from Durazzo reporting that an American missionary who was travelling through the south of Elbassan, in Albania, has been captured by a band of brigands. According to one version he was killed.

Admission Station in Albania, is maintained by the American Board of Commissioners for Foreign Missions. Phineas B. Kennedy, their missionary, who was formerly stationed at Kortoha, Albania, was recently in Durazzo. He has been engaged in distributing relief in the vicinity of Elbassan among the Albanians.

BANK CLEARANCES.

Montreal, Feb. 26.—Montreal bank clearings for the week ending today show a gain of \$3,832,025 over the corresponding period a year ago, registering their first increase for some weeks past. The figures for the corresponding weeks for the three years follow: 1914, \$49,668,968; 1913, \$45,796,941; 1912, \$43,837,148. Last week the total showed a decrease of \$5,101,279.

Winnipeg, Feb. 26.—Bank clearings for the week ending today were \$19,055,715, as compared with \$24,111,827 for the corresponding period last year, and \$23,628,989 for the same week in 1912.

Toronto, Feb. 26.—Clearings of banks in Toronto for the week, with comparison, were as follows: Week ended Feb. 26, 1914, \$40,110,568; last week, \$39,094,368; corresponding week 1913, \$36,360,974; corresponding week 1912, \$32,225,580; corresponding week 1911, \$30,038,835.

STRIKE TIES UP SPANISH RAILWAYS.

Paris, Feb. 26.—Railroad communication between Lisbon, Portugal and the Spanish frontier has been completely stopped by the acts of railway men belonging to the revolutionary section of the Socialist party who have gone on strike. According to passengers who arrived here from Lisbon today after a journey of 102 hours instead of the usual 32, the tracks have been destroyed in many places, a bridge has been blown up and telegraph and telephone communication has been interrupted almost throughout Portugal.

The passengers were obliged to transfer six times between Lisbon and the frontier owing to breaks in the line. The rails in the tunnel near Kabregas have been torn out and a freight train was derailed at the mouth of the tunnel.

At Santarem the railroad bridge had been blown up by the strikers and no train has run in either direction between Lisbon and Madrid since early on Sunday morning.

HAS BEEN APPOINTED PREVENTIVE OFFICER IN CONNECTION WITH H. M. CUSTOMS.

Mr. Alex. J. Messervy of this city has been officially notified from Ottawa that he has been nominated to the position as preventive officer in connection with H. M. Customs of Quebec, at a salary of \$2,500 per annum. The nomination is well deserved. Mr. Messervy has not only been a consistent supporter of the Conservative party for many years past, but has rendered yeoman service in the public interest during the past two years without the least thought of reward, and the position offered him is not only a surprise, but meets with the approval of a large section of citizens irrespective of party politics, who know Mr. Messervy for his sterling worth.

He was born and educated in Quebec, and when a very young man, entered the employment of Dunn & Co., timber merchants, where step by step he rose to the position of confidential manager, and is still connected with the firm as executor of the estate. From early youth Mr. Messervy has taken an interest in politics, and in the past supported the man rather than the party, but during the past ten years he became a distinctly party supporter of Conservative principles, and won the confidence of his leaders for his consistent work and upright principles that gained him many friends. He also took an interest in municipal politics and for six years represented Palace Ward as its Alderman. During that period of time he performed good and conscientious work in the interests of Quebec.

On the advent to power of the Borden Government Mr. Messervy was chosen President of the Patronage Committee for the city and district of Quebec, which position he continued to fill with ability and judgment until the date of his nomination. During the two years he has been connected with the Patronage Committee he showed himself a true friend of the laborer in quest of work, and his withdrawal from the Committee deprives them of a true friend.

A SENSATION

Come one, come all to Mullin's Sensational Tie Sale: 90, 75 and 50c. Ties to clear, 3 for \$1 for a few days only.

ORGAN RECITAL

An Organ Recital will be given by Mr. E. A. Bishop at the Cathedral of the Holy Trinity on Monday evening next, March 2nd, at 8:30 o'clock.

CURIOUS PROSECUTION FOR TRESPASSING

Alfred Demers, of St. Anne de Beaupre, was before the Police Court yesterday, charged with trespassing upon the property owned jointly by a Mr. Barrette and Alphonse Morel. The defendant claimed that he had permission from one of the property owners, Mr. Barrette, to pass over the ground and did not think it necessary to have the permission endorsed by the second owner, Mr. Morel. The case was fixed for a hearing at a later date.

AMATEUR NIGHT**AT AUDITORIUM**

Outside of the regular five acts of vaudeville the Auditorium will give its patrons tonight an occasion to hear and see a good many of our Quebec amateurs either dancers, musicians, acrobats or singers.

This amateur night was inaugurated last week and the success of it has been so encouraging that the management have decided to give another one this week. There will be eight extra numbers at tonight's performance.

MEN ONLY

For two or three years past, a marked feature of the observance of Lent in our city has been the services of Friday night services for "Men Only" at the English Cathedral. Able and well-known preachers have come from a distance and have delivered stirring heart to heart addresses to the large congregation of men who gathered in the Cathedral week after week.

These services having been so well appreciated in the past, are to be continued this year. The first of the services will be held tonight at 8:15 p.m., when the Rev. Canon Richmond Shreve, D.D., rector of St. Peter's Church, Sherbrooke, will be the preacher. Subject: "A Man's Life." Canon Shreve will also give an address at Evensong in the Cathedral today at 5 p.m.

CARNIVAL AT QUEBEC RINK NEXT TUESDAY

In order to comply with the wishes of many of the subscribers of the Quebec Skating Club, the management will reserve Tuesday evening next for a grand fancy dress carnival. The two carnivals already held, one for the children, and the other for adults, were enjoyed so much by all that it has been decided to hold a third carnival on the date mentioned.

MANY WORKING AT ST. MALO SHOPS

FIVE-HUNDRED EMPLOYED IN EXCAVATION WORK—CHIEF ENGINEER HERE

Capt. W. J. Press, Chief mechanical engineer of the Transcontinental Railway Commission, arrived in the city yesterday morning to inspect the work in progress on the building of the Transcontinental Railway Workshops at St. Malo.

In conversation with a Chronicle representative at the Chateau Frontenac last evening, Capt. Press said that the contractor in charge of the construction was now engaged in the excavation work for the sewerage and water service in connection with the workshops, and 500 men are employed in order to get this work ready for the laying of the pipes, and brick work necessary when the warm weather arrives. Nothing is being done on the foundations at the present account of the severe cold of the past month, but just as soon as the weather permits, this work will be proceeded with and pushed with all possible despatch in order to obtain good results on the buildings by next fall.

REPORTS OF MANY WOLVES IN PARK

MR. FRANK BIGNELL SAYS CARIBOU ARE BEING CHASED AWAY.

Mr. Frank Bignell has returned from Ha Ha Lake, where he proceeded some weeks ago to explore for timber limits. Ha Ha Lake lies some 40 miles south of the Lake St. John, and is reached by the old colonization road, over which Mr. Bignell and his guide travelled. He says that the wolves are extremely plentiful in that district. The National Park is fairly alive with them and the caribou altogether run out of the country by the voracious brutes.

Mr. Bignell says the number of wolves is so great that they were overrunning the whole wooded north country, and the condition is so serious that the Government, instead of paying a bounty of \$15 per head, should organize experienced parties to go into the country and lessen if not exterminate the brutes by trapping and shooting, or else the caribou will be entirely driven away, and the moose likewise, as the wolves also attack the latter.

65 beautiful assorted costumes, black and navy-blue serges, colored tweeds, black and navy-blue chevot. Value from \$20 to \$30. For \$9.99. Feb. 27x2.

AN ESTIMABLE LADY CALLED TO HER REWARD

Numerous friends in this city will learn with deep regret of the death of Sister Margaret Borland, which sad event took place yesterday morning at the residence of her brother, Mr. Geo. Borland. The deceased lady was the third daughter of the late Mr. Robert Borland, coal merchant, of this city, and being of a most pious disposition decided to devote herself to religious work, and left Quebec for Philadelphia, where she entered a deaconess training home of the American Episcopal Church. Subsequently she went to St. Paul, Minn., where she labored for some time, and from there to Chicago. Her last work was in connection with Trinity Cathedral, Cleveland, O., under Bishop Dumoulin, of the diocese of Niagara. Her health failing her, she returned to her native city, where she peacefully passed away. Her relatives, who have suffered severely from the hands of death recently, it being but a few months since another member of the family was called away, will have sincere sympathy in their double bereavement.

PROTESTANT BD. WILL MEET TODAY

COMPENSATION FOR AFFILIATION OF SCHOOL FOR HIGHER COMMERCIAL STUDIES.

The Government bill passed in the last days of the recent session of the Provincial Legislature providing for the affiliation of the School for Higher Commercial Studies, of Montreal, to Laval University, which has to be approved by the Protestant and Catholic Committees of the Council of Public Instruction before it takes effect, will be reported to the Protestant Committee today at its regular quarterly meeting at the Parliament Buildings.

The Committee will in all probability submit the measure to a sub-committee for consideration. The principal consideration as far as the Protestant Committee is concerned is the matter of compensation. The School of Higher Commercial Studies, was built and maintained by monies taken from the general education fund, subscribed by both Protestants and Catholics, so that should the school be affiliated to Laval University, which is a Catholic institution, the Protestant portion of the population will have to be indemnified. This compensation is ordinarily calculated by proportion, which would be about one-seventh per cent, and it is understood that this basis will be taken in the present situation.

Mr. W. S. Bullock, M.L.A. for Sherbrooke, who has been appointed to replace the late W. H. Walker, ex-M.L.A. for Huntingdon, will likely take his seat on the committee tomorrow.

Two Quebec Applications. The Protestant School Commission, of the City of Quebec, will present two applications to the committee, one to be granted complete renting of the Victoria School, and the other for a special grant to the Girls' High School.

The appointment of a successor to Dr. Roblin, of Montreal, who resigns from the Committee, will also be dealt with. His resignation from the committee will be keenly regretted, as his long experience in educational work was of great importance to the committee.

LEGAL INTELLIGENCE.

Judgments Rendered in the Superior Court.

The following judgments were rendered in the Superior Court by Hon. Judge Roy yesterday:

Joseph Paquet, pilot, is the Quebec Corporation of Pilots. Action for the sum of \$1,000 for alleged defamation of character.

It seems that the Corporation had notified Paquet of certain complaints which had been made against him, and advised him to be on the alert and be ready to meet a certain steamer which was on its way to port. The letter containing this notification, which had been given plaintiff, was published by him in a local paper with comments by him thereon. In response to this the Corporation, it seems, drew the attention of the Department at Ottawa to the matter. Hence the action, which was dismissed by the Court.

Senneville vs. Vezina—An hypothetical action for \$1,595. Plaintiff alleged that the defendant is indebted to her for the above amount, balance due her in virtue of a deed of sale executed at Quebec, the 7th July, 1910, of an immovable property situated in Ste. Cecile street, and she concluded by asking that the said immovable property be declared hypothecated, the whole with interests and costs; defendant pleaded that she bought the property and that she had already paid plaintiff the sum of \$6,652, that the value of the said property at the time of sale was \$2,000, that the exaggeration in the price of sale was on account of the property being for immoral purposes, and excess in price constitute a speculation on vice, and that the amount claimed by plaintiff is not due, and defendant asks the dismissal of action with costs.

The Court dismissed the action, each party paying her own costs.

BOY HURT BY A SLEIGH.

Wilfrid Renaud, a little boy, was struck by a sleigh on Desfossez street at noon yesterday, and received severe injuries to his face and head. He was conveyed to his parents' residence close by.

OFFICES TO LET.

Whereas Messrs. Choquette, Gallet, St. Laurent, Metayer, and La Ferte, lawyers, are going to remove their offices about the 1st of April, in the new building of the Imperial Bank, 115 St. Peter street, the splendid offices they now occupy in the Montmagny Block, 105 Mountain Hill can be let, and are very convenient for a Bank or any commercial offices. Offices in the same building can also be let on the 2nd or 3rd floor and a large cement cellar for storage.

For conditions, apply within the building to Mr. A. Metayer, advocate. Feb. 16x10.

RECORDER'S COURT.

The Recorder had thirteen prisoners before him yesterday. They were all charged with drunkenness. One was sent to jail for a month in default of paying a fine of \$5 and costs. The others were disposed of as follows: Six were fined \$5 and costs or eight days' jail each; three to \$2 and costs or two days; one to \$3 and costs or eight days; and two were discharged.

A number of cases for non-removal of snow were also before the Court.

LESS MEAT IF KIDNEYS HURT OR YOU'RE BACKACHY AND RHEUMATIC

MEAT FORMS URIC ACID WHICH CLOGS KIDNEYS; CAUSES RHEUMATISM AND IRRITATES BLADDER

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, thus obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure and makes a delightful effervescent lithia-water drink.

Latest Sporting News

CAN QUEBEC BREAK
TORONTO HOODOO?LOCALS WILL PUT FULL TEAM
ON HERE SATURDAY.

Quebec's victory over Wanderers
on Wednesday has inspired so much
confidence into the fans that all Que-
bec is pulling for the home team to
defeat the Torontos here on Satur-
day night.

The likely champions of the N. H.
A. seem to be the jinx of the wearers
of the blue and white this season,
having trimmed the former champions
in all three games that the teams have
played so far.

On Saturday the teams meet for the
last time this winter and, judging by
the way the home team is going just
now, it should prove the best game
of the season. The locals are taking this
fixture as seriously as if the fate of
the Stanley Cup depended on this sin-
gle game. The scoring machine of
the home team is working very
smoothly just now and Toronto will
have to show something out of the
ordinary to come out ahead.

Owing to the big demand for seats
for the match the Arena management
wish to advise the public that they
will not hold seats ordered by phone
after 5 p.m. Saturday.

JOE MALONE NOW
IN SIXTH PLACETOMMY SMITH STILL HAS BIG
LEAD IN GOAL-GETTING DE-
PARTMENT.

The standing of National Hockey
Association goal-getters after Wed-
nesday's games shows only a few
changes. Tommy Smith is ten goals
ahead of Gordie Roberts of the Wan-
derers. Joe Malone and Darragh are
tied for seventh place with 20 each.

Following are the leading gunmen
as well as the record of the different
clubs:

KING GEORGE SEES
GAME OF BASEBALL;
LEADS APPLAUSEGETS EXCITED WHEN DALY
WINS GAME FOR CHICAGO
WITH HOME RUN.

London, Feb. 26—The King of
England as a baseball fan today ex-
perienced the thrill that comes as the
result of a spectacular hit which
breaks up an extra inning game. Seated
within a wire enclosed box behind
the home plate of a diamond that had
been laid out on the Chelsea football
field, His Majesty saw in the second
half of the eleventh inning Tommy
Daly of the Chicago White Sox meet
with his bat a fast ball delivered by
Faber of the New York Giants, drive
it far across the field and into the
topmost bleachers for a home run and
win the game for Chicago, 5 to 4. The
King clapped his hands wildly as Daly
trotted around the bases and the
others of the thirty thousand specta-
tors followed his example.

The game between the world tour-
ing American baseball teams had been
widely advertised, and, having King
George as a patron, it was the magnet
that attracted to the field persons
from all branches of British sport,
members of the nobility, cabinet min-
isters, diplomats and society leaders.
The American colony in London was
out to a man.

Is Much Interested.

King George, who was accompanied
by Walter Hines Page, the American
Ambassador, watched with great in-
terest and seeming intelligence of
the game the contested eleven innings,
applauding heartily brilliant field
and battery plays. This was especially
noticed when, about midway of the
game, Faber, pitching for the Giants,
got himself into a hole, having three
men on bases and only one man out.
Steadying himself, the Giant twirler
retired the White Sox without per-
mitting a man to cross the plate. His
Majesty's face was wreathed in smiles
over the good work of Faber and he
applauded him as wildly as did the
American fans.

Clever Double Play.

So well did the King understand the
game that it was seldom he had to re-
quest Mr. Page to explain any of the
numerous quickly executed intricate
plays. As an instance of his keen
perception, King George led the ap-
plause at one stage of the contest
when with three men on bases and
only one man out the Sox were re-
tired on a clever double play.
As for the average Britisher, how-
ever, as much cannot be said. Before
two innings had been played many of
them confessed themselves mystified.
The remainder of the game they sat
as though in a daze.

Slow of Understanding.

It was field day for the basebal-
l-hungry American resident in London
and they cheered and rooted in the
manner customary at games played
in the United States. In the lulls of
their exuberance they tried to explain
the fine points of the game to their
British neighbors, but their efforts
were without much success.

LAURENTIDES AND
ST. PATRICK'S PLAYBIG GAME AT ARENA TONIGHT
FOR PAQUET CUP.

The first game in the series of two
hockey contests for the amateur
championship of the city will be played
between Laurentides and St. Patrick's
at the Arena this evening.

A handsome cup has been offered
to the winners by Mr. J. H. Paquet,
lessee and manager of the Auditorium
Theatre, which may be challenged for
by any amateur team in the city.

As there is great rivalry between
the two contesting clubs tonight a
great game is expected and a big
crowd is sure to fill the Arena.

Both teams will have their strong-
est array. All the players are in the
pink of condition, and are prepared
for a gruelling battle.

BRITISH COLLIER

IS PICKED UP.

New York, Feb. 26—Definite ad-
vices were received late today at the
offices of the Red Cross Line in this
city that the British collier Langan
had been picked up by the Red Cross
steamship Morwenna, 125 miles east
of Cape Cod, and was being towed
into Boston. When the Langan was
first sighted she was rolling helplessly
in the trough of a heavy sea. The
Morwenna is expected to reach Bos-
ton tomorrow morning.

GRANDMERE DEFEATED

SMITH'S FALLS TEAM.

Grand Mere, Feb. 26—By the one-
sided score of 15 to 3, Grand Mere
defeated Smith's Falls here in the
second game in the semi-final of the
Interprovincial Hockey League. The
Grand Mere team will now play in the
final for the championship of Canada.

QUEBEC RINKS WIN
IN DEWAR SHIELD

The four rinks representing the
Quebec Curling Club were all suc-
cessful in the Dewar Shield matches
played on Quebec and Victoria ice
last night and the result is that the
Quebec club has now a majority of
31 with two rinks to play.

On Victoria ice the Quebec rinks
skipped by Arch. Miller and W.
Lambton defeated the Victoria rinks
skipped by A. W. Colley and W. S.
Champion, by 14 to 6 and 11 to 7
respectively.

On Quebec ice E. E. B. Rattray's
rink made 17 against the Victoria rink
skipped by F. J. Home, which totalled
12.

The second Quebec rink skipped
by Lt. Col. Davidson against Victo-
ria skipped by Lt. Col. Jones resulted
19 to 10 in favor of the former.

The scores of the matches played
Jan. 3rd:

Victoria, 51; Quebec, 56.

AT QUEBEC RINKTHE ST. LAWRENCE, MONTMO-
RENCY AND MYRAND AND
POULIOT TEAMS WIN.

The menu served up to the hockey
fans who signed the register at the
Quebec Rink last night was relished
by all.

St. Lawrence showed that it is not
through any fluke or party vote that
they are holding down the leadership
of the Quebec Junior Hockey League,
when they rinsed the Canada seven in
the whitewash tub to the tune of four
goals to nil.

J. Fitzgerald and M. McMahon did
damage during the evening to the ex-
tent of puncturing the Canada nets
four times between them. The game
was cleanly contested. The teams
were:—

Canada.

Goal.

J. Gingras..... R. Hern

J. Chevalier..... H. Paquet

E. Jeffries..... W. Fitzgerald

Forwards.

* E. Kelso..... McGiffin

J. Martineau..... J. Fitzgerald

* C. Donnelly..... M. McMahon

B. Gingras..... J. Kenny

* Replaced by F. Fradette.

* Replaced by A. Morrisset.

Referees: M. Delaney and F. Mc-

Laughlin. Umpires: A. O'Connor and

J. Foisy.

Montmorency Beat Garrison.

The Montmorency team secured the
count over R.C.G.A. in a bitterly con-
tested game, the final score being 1 to
0. Latulippe scored the lone goal of
the game. The teams were:—

Montmorency.

Goal.

Doddridge..... Gagne

Mills..... Point.

Pelletier..... Tingham

Forwards.

Latulippe..... Laforte

Langford..... McGrath

Bishop..... Boivin

Fleming..... Lt. Harris

Referees: S. Claxton and Chevalier.

Myrand & Pouliot Team Wins.

The well-known dry goods firm of
Myrand & Pouliot scored a 2 to 1 vic-
tory over the Jewellers in a thrilling
game, which brought the curtain down
on the hockey bill at the Quebec Rink
last night. The teams were:—

Myrand & Pouliot.

Goal.

L. Paquet..... J. Darveau

Grenier..... R. Paquet

Nolin..... O. Fiset

Forwards.

Gagnon..... G. Paquet

**"Gains 22 Pounds
In 28 Days"**
REMARKABLE EXPERIENCE OF
F. GAGNON. BUILDS UP
WEIGHT WONDERFULLY
"I was all run down to the very
bottom," writes F. Gagnon. "I had
to quit work I was so weak. Now,
thanks to Sargol, I look like a new
man. I gained 22 pounds in 23 days."
"Sargol has put 10 pounds on me
in 14 days," states W. O. Roberts. "It
has made me sleep well, enjoy what
I ate and enabled me to work with in-
terest and pleasure."

A Plump, Strong, Robust Body
"Before I took Sargol people used
to call me 'skinny' but now my name
is changed. My whole body is stout.
Have gained 15 pounds and am gain-
ing yet. I look like a new man," de-
clared another man who had just
finished the Sargol treatment.

Would you, too, like to quickly put
from 10 to 30 lbs. of good, solid,
"stay-there" flesh, fat and muscular
tissue between your skin and bones?
Don't say it can't be done. Try it.
Let us send you free a 50c package
of Sargol and prove what it can do for
you.

More than half a million thin men
and women have gladly made this test
and that Sargol does succeed, does
make thin folks fat even where all
else has failed, is best proved by the
tremendous business we have done.
No drastic diet, flesh creams, mas-
sage, oils or emulsions, but a simple,
harmless home treatment. Cut out
the coupon and send for this Free
package today, enclosing only 10
cents in silver to help pay postage,
packing, etc.

Address The Sargol Co., 271 P.
Herald Bldg., Binghamton, N. Y.
Take Sargol with your meals and
watch it work. This test will tell the
story.

FREE CARGOL COUPON
This coupon with 10c. in silver
to help pay postage, packing, etc.,
and show good faith, entitles holder
to one 50c. package of Sargol
Free. Address The Sargol Co., 271
P. Herald Bldg., Binghamton, N. Y.

PUBLIC NOTICE
SQUARE HEWN SPRUCE.
The Quebec Harbour Commission-
ers are prepared to purchase Square
Spruce, to be delivered during May,
June and July next; and will consider
offers for the supply of same, in ac-
cordance with the following speci-
fications, but do not bind themselves
to accept the lowest or any offers:
Spruce to be square hewn, with not
more than 1 1/4 inches of waste;
Timber must be sound, straight and
free from cross grain seams—and
must be 18 feet and up in length, the
average length to be not less than 24
feet;
20% of the total quantity is to be
from 10' x 10' up to 11' x 11'—the
remaining 80% is to be from 11' x
12' up to 13' x 13';
The timber is to be delivered at
Indian Cove or at the Louise Docks
as may be directed:
The timber will be culled and mea-
sured on arrival, and the seller must
have a representative on hand at the
time to check the culling and mea-
surements, or must accept the culling
and measurements made by the Com-
missioners' Culler.

Laurier's Refusal to Quit Plunges Liberals in Gloom

Plain Talk of Party's Hopeless Future Follows Caucus on Transcontinental Report

Ottawa, Feb. 26.—A lengthy caucus
of Liberal members was held this
morning. Reports of what took place
indicate that there was a lot of plain
speaking from the rank and file of
the members in regard to the series
of disasters brought upon the party
under its present leadership. The
greatest unanimity was displayed on
the subject of going home; the Lib-
eral members can't see the session
close up too soon.
The last knockout, the report of
the Transcontinental Railway inves-
tigation, was the principal subject of
discussion. It is felt by a majority
of the Opposition that there is no an-
swer to the revelations made in this
report and no sense in making the
finding the subject of debate in the
House. The leaders, on the other
hand, feel that it is up to them to
make what defence they can and

MRS. ROBT. REFORD DELIVERS LECTURE TO LADIES' CLUB

TELLS OF LIFE AND CAREER OF FORMER GOVERNOR- GENERAL OF CANADA.

Mrs. Robert Reford, of Montreal,
was the honored guest of the Wo-
men's Canadian Club of Quebec, at
the Chateau Frontenac yesterday af-
ternoon, who gave one of the most
interesting lectures of the season, a
real literary treat, on the life and
career of the Earl of Durham, a for-
mer Governor-General of Canada.
There was a large number of ladies
present, members of the Women's
Canadian Club, and specially invited
gentlemen guests. Among the lat-
ter were Sir Lomer Gouin, premier
of Quebec; Sir Louis Jette, Col. J. F.
Turnbull, Major Jack Sharples, R. C.
A.; Lt.-Col. G. E. Allen Jones, Messrs
Cy. Tessier, N. P., L. A. Cannon,
K. C., Geo. F. Gibson, K. C., W. T.
Wilson, C. E., A. E. Nash, J. Fer-
guson, Metis, etc.
Mrs. J. C. McLimont, president of
the Club, presided, and introduced
Mrs. Reford, who is a pleasing speak-
er, with perfect command of the En-
glish language and its pronunciation.
She had her manuscripts with her
which she, however, rarely consulted,
in connection with her very inter-
esting subject.

Mrs. Reford preluded her subject
by referring to the family of Lord
Durham, which historians tell, were
on their lands on the banks of the
Wear, from the time of the Saxons,
but that actual proof exists of the
Lambtons being settled in the county
of Durham within a century after the
Norman Conquest.

That they were men of valorous
deeds both history and legends tes-
tify. William Henry Lambton, fa-
ther of Lord Durham was in many
respects, a remarkable man, but dur-
ing his brief particularly life it was
chiefly as a fearless advocate of lib-
erty and justice that he stood out from
the groove—gaining ordinary rank
and file of party. On these vital
questions he was far in advance of
his time, and like others who have
outstripped their contemporaries, he
stirred the elements, but did not live
to see them move.

There has been perhaps, no more
difficult for a young man or mediocre
orator to obtain a hearing in the
British parliament than between the
years 1787 and 1795—the time when
Mr. Lambton sat as member for Dur-
ham. The eloquence of Pitt, Fox,
and Burke resounded through the
walls of Westminster, drowning all
smaller voices and dwarfed all lesser
reasoning,—nevertheless, Mr. Lamb-
ton commanded the respect and at-
tention of the House by his scholarly,
straightforward speeches, on the side
of reform. For a man of his position
to associate himself in those days
with even-handed justice for the
masses meant facing social ostracism;
but happily there was a leavening
lamp, and a small group of men who,
with Lambton, sounded the better
motives in life, banded themselves to-
gether in a society called "Friends
of the People." Its avowed aim was
to "restore freedom of election and
a more equal representation of the
people in parliament, as well as to
secure to the people the more fre-
quent exercise of the right of electing
their representatives.

Mr. Lambton was the chairman of
this outspoken manifesto in 1792, and
it is interesting to note that a man
destined to become famous by the
just Reform Bill, introduced under
his administration exactly forty years
later, was then ennobled as a member
of the society. Mr. Lambton's last
speech in 1795, was true to his prin-
ciples—as a bold protest against in-
iquitous abuse of power.

With their eyes rivetted on France
and the Reign of Terror, the upper
classes and the Government became
almost panicky, and men of liberal
ideas were at a discount in England.
Fox, Sheridan, Grey and Lambton
led in vain the minority opposition,
but the labors of one of them were
almost at an end. William Lamb-
ton's untimely death, at the age of
thirty-three, was deeply lamented, for
he had been the hope of many.
Mrs. Reford continuing, said: "I
have spoken at this length of the fa-
ther, in order to show the qualities
and principals which were his to be-
queath, and never did that mysterious
process of hereditary illustrate more
clearly its power of transmitting.
Courageous, straightforwardness, gen-
erosity, determination and the highest
principles of justice and liberty, so
eagerly pursued by the father, were
innate in the son.
The usual methods of education
were discarded for the first post of
Lord Durham's training. He was
not sent to school, but placed with
his younger brother, when six years
of age, under the care of Dr. Bed-
does, an eminent physician and man
of wide culture, who had been much
attached to his father. Lady Ann,
Durham's mother, and his guardians,
deemed this advisable owing to the
boy's delicate constitution. Dr. Bed-
does soon realized that in Durham
he had a child of no ordinary ability
to deal with. He learnt easily and
eagerly with a very receptive brain
and a spirit of reflection so strong,
that Dr. Beddoes believed it would
never be equalled. He excelled in
classics and was given a good train-
ing in mathematics and manual work,
but of far greater value than lessons
was the time which Dr. Beddoes spent
each day with his charge. He talked
to him on all sorts of subjects, train-
ed Durham to be a keen observer, di-
rected his intelligence into wide chan-
nels and did everything in his power
to fit him for public life, and inspire
him with a hatred for oppression.
Mrs. Reford, then expanded on the
life and career of Lord Durham, his
joining the army, love and elopement
and marriage by a blacksmith at
Gretna Green, his subsequent mar-
riage by a minister, and resignation
from the army, elected to a seat in
the House of Commons, death of his
first wife, and second marriage with
a daughter of the second Earl Grey
and brilliant career as a parliamentar-
ian, in keeping with his grand char-
acter, high intellect, and spirit of in-
dependence that characterized his
manhood. His refusal to be a party
to the measure or act of coercion of
Ireland, and resignation in protest of
that measure from office. His suc-
cess as an ambassador to Russia, etc.,
and finally his appointment as Gov-
ernor-General of Canada, when he
was given the greatest honors ever
entrusted to a governor, to induce
him to accept the office. His great
popularity in Canada and humane dis-
position that won the hearts of all and
finally the issue of his proclamation
that led to his resignation.

Mrs. Reford in beautiful descriptive
language, told the story of the end
of his Canadian administration. It
was on the occasion of the Corona-
tion of Queen Victoria when he chose
the occasion in a spirit of tolerant
conciliation, to pardon all political
prisoners in Canada, and eight re-
fugees in Bermuda, which gave an
opportunity for his enemies in the
House in England to denounce him
and demand his recall, on the ground
that he exceeded his constitutional
authority. His desertion by Lord
Melbourne and members of the then
British Cabinet, that caused him to
resign.
All facts familiar to the student of
modern history, and she closed her
lecture by a description of the great
manifestations of public sympathy in
Canada, and even on his arrival at
home, and concluded by quoting from
authors that though he did possess
extraordinary powers on coming to
Canada, that the pardon of the eight
prisoners at Bermuda was unconsti-
tutional.

**GERMANY IS STILL
UNDER SABRE RULE**
CIVILIANS WILL STILL HAVE
TO KOW-TOW TO SWAGGER-
ING MILITARISTS.
Berlin, Feb. 26.—The movement in
the German Imperial Parliament to
abolish "sabre rule" by the army col-
lapsed today. This dissolution was
announced by the committee consid-
ering the various bills prohibiting the
intervention of the military without a
requisition from the civil authorities,
forbidding the use of arms by the
soldiers except in self defense and
subjecting soldiers to civil jurisdic-
tion.
A majority of the committee com-
posed of Conservatives, Clerical and
Liberals voted against the proposed
measure.
The introduction of the bills was
brought about by the recent violent
encounters between the military and
civilian authorities at Sabern, Alsace.
The government, however, announced
a few days ago that such legislation
was beyond the powers of the parlia-
ment as it involved a constitutional
amendment which was opposed by
the government.
DERELICT REPORTED
OFF NOVA SCOTIA.
Boston, Mass., Feb. 26.—A belief
that an abandoned vessel sighted off
the Nova Scotia coast by the Boston
fisherman Kineo was the missing
schooner Unity, was expressed along
Watch Jos. Cote's advertisement
on sporting page.
St. John, N. B., Feb. 26.—Bank
clearings for the week ending today,
\$1,403,782; corresponding week last
year, \$1,516,961.

**"CASCARETS" IF COSTIVE, BILIOUS,
HEADACHY AND UPSET--DIME A BOX**
No odds how much your head
aches; how miserable you are from
constipation, indigestion, biliousness,
a "Cascaret" tonight straightens you
out by morning.
Clean your stomach, liver and bow-
els tonight; end the headache, bil-
iousness, dizziness, nervousness, the
sour, gassy stomach, backache and all
other distress; relieve your sluggish
Liver and Bowels of all the sour bile,
gases and clogged-up waste which is
producing the misery.
A 10-cent box of Cascarets keeps
your head clear, stomach sweet, liver
and bowels regular and you feel bully
for months. Don't forget the child-
ren—their little insides need a gentle
cleansing, too.

The Myrand & Pouliot Firm

Has just received a rich choice of embroideries, which should attract the attention of the ladies this week.

It is true it is a little early to select one's apparel for next summer, but the patterns are so pretty that we hasten to show them to our customers.

These embroideries are in marquisette and voile de neige, 60 inches in width; designs embroidered in silk of a remarkable richness. We offer them at reasonable prices \$1.50 to \$4.00

Come and make your choice while the assortment is complete. 200 yards of "Paillette" silk, fine stripes, assorted colors, 36 inches in width. Regular price \$2.50, for \$1.19. 100 yards of black silk, 36 inches in width, extraordinary value, and cheap at \$2.50. Our price \$1.49

One lot of black and colored kid gloves, very fine quality, worth \$1.00, for 59 cents. The balance of our woolen gloves and mittens, assorted colors, 90 cents, for 39 Cts. 100 dozen of woolen stockings, ribbed, tan color, 60 cents, for 29 cents. One considerable lot of Japanese Cotton, red and pompadour, 36 inches in width, the real thing for masquerade and Mardi Gras costumes, 20 cents, for 14 cents. 1,000 yards of colored Chambray, striped and checked, worth 12 cents, for 8 cents. A large choice of blouses, which we have just received, very pretty patterns, Robespierre collars, assorted colors. Prices from 50 cents to \$2.00. Ask for our catalogue of Butterick Patterns, and it will be given to you gratis.

FOR THE LENTEN SEASON—In the Grocery Department you will find an extraordinary choice of fish of all kinds. Oysters, per hundred, \$1.00. Seal Shit Oysters, 40 cents per pint. Green and dried peas. Red and white beans, etc., etc. Our prices are always the lowest on the market.

MAKING CANADIAN RAILWAYS SAFER

MR. J. E. LONG, OF GOVT. ROAD, GIVES PERTINENT LECTURE AT LEVIS

Mr. J. E. Long, Safety engineer of the Government Railways, delivered a most interesting lecture on the "Safety First" movement at Levis yesterday in the Academy of Music. A large number of employees from the Government railways and others were in attendance.

In the course of his lecture, Mr. Long said: "The large attendance at this meeting is indeed most encouraging because it shows the interest taken by you in the important subject of safety. You have been informed by an official circular, issued by the management that the Safety First movement is to be put in effect by the Canadian Government Railways. I wish, therefore, in the beginning of my remarks to explain briefly what this movement is."

"The Safety First movement is simply a practical plan of co-operation between the railway officers and the employees for the purpose of discovering and correcting unsafe practices and conditions before—instead of after—accidents happen. It does not mean anything of revolutionary, it does not mean any radical changes in the method of operation, but it does mean careful and systematic attention to details pertaining to safety."

"This movement was first introduced on a railway about 3 years ago, since that time it has extended to almost 200,000 miles of railway in Canada, and the United States, that fact in itself is plainly conclusive evidence of its merits. Railway men are conservative, and rightly so, and the fact that they have in so short a time given their approval in such large numbers is the best possible evidence of the value of Safety movement."

"The success of this movement is due to the fact that it is founded on correct principles, it is a movement for your employees, you are the men who are getting hurt, and it is in your own power to correct many unsafe conditions and practices and prevent a large number of these accidents."

"Later we expect to organize on each division and at principle shops, Safety committees, these committees will be composed of officers and employees from every branch of the service. The committees will meet at stated intervals, usually once a month, at which time each member reports unsafe conditions that he has found and offers suggestions for their correction. Matters which should be corrected are corrected by the local officers, if within their authority, if not they are referred to the proper officers, who have jurisdiction."

"The organization of these committees will give you the opportunity to do what you have long wanted to

do and that is to report unsafe conditions and get them corrected."

"The bridge washed away, the broken rail, are not what are causing the greater number of accidents, because everyone is looking out for them, it is the little unsafe conditions that we have at all times present. If one of you men going through the yards saw a catch basin cover off which might cause a broken leg, or saw a breakbeam or drawbar lying near the track which might cause someone to stumble and fall with serious results, if you said anything at all about these matters, you would be likely to remark to a fellow employee with you that "those things ought to be fixed," but with no action taken the unsafe condition would remain a menace to yourself and other employees. With the Safety committee in effect you will report these matters at once for correction because it is intended that you should report them and you will report them because the other fellows are doing it. No one will be censured for making the report because it will be the duty of all to do it."

"The Safety movement is not a spy system, it is not started with a view to fault-finding or "tattling" on employees. It wants to make safe men by training them not to take chances but to do their work in the safest possible manner."

"The most important things on a railway are men, you can patch a broken machine or buy a new one, but you cannot put back a leg that has been cut off or put life in a dead body."

"Your own judgment may tell you not to kick a drawbar when making a coupling, the book of rules may tell you not to go between moving cars, but it rests with you and you only, whether you follow your own judgment and comply with the book of rules in these respects. The General Manager can't watch you, the Superintendent can't tell you, they might be a hundred miles away, from the very nature of the case and safety of you men after all, rests with your personal attitude in observing safety precautions."

"The Safety First movement places discipline to a large extent where it belongs and that is with you employees, you are the men who can solve the problem of discipline! When you see one of your fellow employees violating a rule or regulation of the railway or indulging in an unsafe practice, the safety movement does not want you to become a tattler concerning that man, it wants you to do something better, it asks you to go to him as a fellow employee and say "Now let's stop that and do business right before you kill yourself or someone else."

"We are trying to put a stop to avoidable accidents on the "People's Railway" we can and will succeed if every employee will do his duty for safety. The only way to do this is for every man to be careful, not part of the time, but all of the time, keep your mind on your work, carelessness is a poor thing in railway business, it makes widows and orphans of your family and cripples and dead men of you."

"On many roads where the Safety movement has been properly introduced and carried out, the result has been a reduction of from 30 to 40 per cent. in the number of accidents. "Every employee is a member of "Safety First" and when you realize that you cannot escape some responsibility, either directly or indirectly, whenever a fellow employee's life is sacrificed or an injury comes to him, you will report anything you see which might cause an injury to an employee or a patron."

"We have to present to you tonight a collection of views, showing unsafe conditions and practices, every one of these views and every remark made concerning them can be put in practice by you employees without in any way interfering with your work. It is many times said by railway men that they cannot get their trains over the road if they comply with the book of rules. This statement is not true as a fair test will prove. As you look at these views and hear what is said concerning them, see if you cannot find something that you can put in practice when you start your duties tomorrow morning and keep in practice all the time."

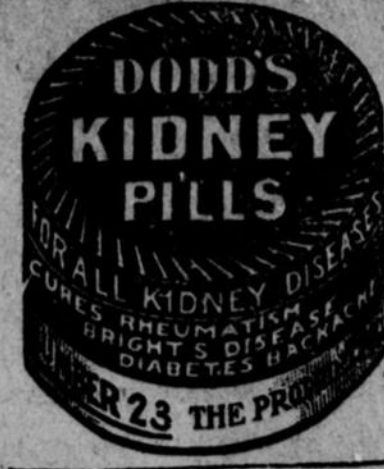

"If you will listen to what I have said and go away and put it in practice, you might save yourself and fellow employees from serious injuries or death, but if you simply look at the views, and say, "O, well, it's all right but not practical," and then go away and do, as perhaps many of you have been doing, your time will be wasted as well as mine."

"Now, gentlemen, what we want to do is to derive the greatest amount of good from these meetings and the only way to do this is for every one of you to put into practice the instructions which has been received, and don't let it stop with you, tell your fellow employees about this meeting, many of them could not be here and get them to consider Safety First and follow the safe course at all times."

GERMANY DISAPPROVES THE WILSON POLICY

Berlin, Feb. 26.—The German Foreign Office today emphatically denied a report published in America that Germany had expressed to the State Department in Washington its disapproval of President Wilson's policy in Mexico and had suggested that the United States was making a serious mistake in not recognizing Provisional President Huerta.

Germany, it was pointed out, persists in her attitude of reserve on this subject, leaving the United States to work out its policy toward Mexico without interference. The German government has, it was said, from time to time when German subjects in Mexico have suffered, protested directly to the government of Mexico and has repeatedly received assistance in obtaining satisfaction through the American consuls.

EMPEROR WILHELM DISTIBUTES HIS SONS.

Berlin, Feb. 26.—Another step was taken by Emperor Wilhelm today, in his policy of distributing his sons throughout Germany. It was officially announced that Prince Eitel Friedrich was to be appointed in the autumn, commander of the King's Mounted Rifles at Posen, where he will be the first resident of the Imperial palace.

The Crown Prince is on the staff in Berlin. Prince Adalbert is a naval officer at Kiel. Prince August Wilhelm is a civil official at Nauen, and Prince Joachim is serving with his regiment at Cassell.

PILES.
