"MONMOUTH" THOUGHT TO BE ASHORE ON COAST OF CHILE

BRITISH FLEET PLUCKILY GAVE BATTLE TO STRONGER SQUADRON UNDER UNFAVORABLE CIRCUMSTANCES AND STUCK TO THEIR GUNS.

London, Nov. 6.—It was the British cruiser Good Hope, Rear-Admiral Sir Christopher Craddock's flagship, which foundered after being set on fire by shells from German warships in the naval battle that took place off the Chilean coast last Sunday.

This was the news given to the British public by the Admiralty this evening just as the people were beginning to think that the German accounts of the result of the battle in the Pacific had been exaggerated.

The British cruiser Glasgow, which was with the Good Hope and Monmouth, also put up a fight against the two German cruisers Leipzig and Dresden and when her bigger sisters were put out of action managed to escape.

Rear-Admiral Craddock lived up to his reputation of being one of the followers of that naval school which believes that the enemy should be engaged no matter what his superiority, according to the Admiralty it was who brought about the action.

The loss of the ships and men, but particularly the latter, is a matter of very deep regret in England.

The statement says: "The Admiralty has not received trustworthy information about the action on the Chilean coast."

"During Sunday, the first of November, the Good Hope, Monmouth and Glasgow came up with the Scharnhorst, Gneisenau, Leipzig and Dresden. Both squadrons were steaming south in a strong wind and a considerable sea.

"The German squadron declined action until sunset, when the light gave it an important advantage. The action lasted an hour.

"Early in the action, both the Good Hope and Monmouth took fire but fought until nearly dark, when a serious explosion occurred on the Good Hope and she foundered.

"The Monmouth hauled off at dark making water badly, and appeared unable to steam away. She was accompanied by the Glasgow which had meanwhile, during the whole action, fought the Leipzig and Dresden.

TSING-TAU HAS SURRENDERED AFTER THREE MONTHS' SIEGE; RUSSIANS ALSO WIN VICTORY

Germany Loses Her Last Foot Of Possessions On The Asiatic Mainland And Her Last Strategic Position Outside Of Europe---Besiegers Are Reported To Have Lost Heavily---Japanese Have Revenge For Certain Phases Of Their War With China Twenty Years Ago---Russians Capture Jaroslavl---Admiralty Confirms Loss Of "Good Hope"

Tokio, Nov. 7.—It is officially announced that the German fortress of Tsing-Tau has surrendered to the Japanese and British forces.

It is officially announced that the first step in bringing about the surrender of the fortress occurred at midnight, when the infantry charged and occupied the middle fort of the first line of defence. In this operation they took 200 prisoners.

The fall of Tsing-Tau ends the most picturesque of the minor phases of the great world war now raging. On two continents and in many of the islands of the seas where colonies of the warring nations were planted, combats of more or less interest have taken place, garrisons have been captured and towns occupied peacefully, but in the little German concession on the south side of the Shan Tung Peninsula of Ohina, there has been going on since late in August a reduced scale of war that from all accounts has duplicated nearly all the features of those battles in Europe that have resulted in the capture of fortified positions.

The capture of Tsing-Tau loses to Germany her last foot of possessions on the Asiatic mainland as well as her last strategic positions outside of the German Empire in Europe. For nearly three months the German garrison amounting to about 7,000 men has held out against the land and sea attacks of the Japanese, and of certain British detachments of white and Indian troops that found themselves in China at the outbreak of the war.

It was on Aug. 15th that Japan threw herself into the European war as an ally of Great Britain, after demanding that Germany withdraw or intern all German warships in Asiatic waters and relinquish possession of Kiao-Chow. In the statement from Tokio that accompanied this declaration, Japan asserted that her intentions were purely military and did not contemplate the retention of one foot of ground on Chinese territory and later affirmed that she did not intend to extend her holdings in the islands of the Pacific that might fall into her possession during the campaign.

Her demands ignored, when the ultimatum, expired a week later, Japan proceeded cautiously with plans to seize the German settlement on the Chinese mainland.

The operations in this far isolated far eastern theatre of the war have been reduced to a scale of some 200 square miles as compared with the whole continent of Europe, but on that account they have been none the less interesting. Aeroplanes and all other accompaniments of modern warfare have figured in both the Japanese and the German operations.

The details of the movements have been secret, but the first general operation undertaken by the Japanese was the sweeping of the waters around Kiao Chow for mines which the Germans had laid. In this connection a hundred Japanese women shell divers offered their services, thinking that they, unseen by the enemy, could dive and release the mines. But the offer was declined since the Japanese law prohibited the employment of women in warlike operations.

The next general move on the part of the Japanese was to seize the German owned railway running west from Tsing-Tau into the province of Shan Tung. This was done under violent protest from the Chinese government.

The number of the expeditionary forces has never been officially divulged, but it is said to have been upwards of 30,000 men. A British detachment, consisting of some 800 South Wales Borderers and 400 Indian Sikhs, under command of Brigadier-General Nathaniel W. Bernardiston, commander of the North China forces, was at the head and is said to have formed a part of the centre of the Japanese line in the investment of Tsing-Tau.

Fighting continued from the middle of September intermittently until the fall of the fortress today. During this period both the German and the Japanese warships and aeroplanes engaged in the bombardment of each other's positions. In one of the most severe of these engagements, of Oct. 1, it was announced that the Japanese loss was 1,700 killed and 800 wounded. It was then reported that the Japanese would await the arrival of siege guns before continuing operations. At various times German losses were reported up to a score or more.

On the night of Oct. 17, occurred the most serious of the Japanese naval losses when the cruiser Taka-Chiho was blown up by the German torpedo boat S-90.

It was reported on Oct. 23 that the Japanese had finally installed their siege guns under cover on Prince Henry Mountain and other hills near the town. The German fortresses included three lines of defence. The first of these, on the outskirts, appears to have been evacuated some time ago and the garrison concentrated in forts Moltke and Bismarck and Itilis, which occupy commanding positions on the range of precipitous hills that circle the harbor city. The Germans, also, had five forts exclusively for shore defense.

The heights back of the city are penetrated only by the railway line, and it is probably through this path that the Allies proceeded into Tsing-Tau, once the defending fortresses had been silenced.

(Continued on Page Seven)

OFFICIAL WAR SUMMARY

BRITAIN
London, Nov. 6, 11:25 p.m.—The Official Press Bureau has issued the following statement: "The enemy's attack has decreased in vigor and the process of pressing them back is making slow but steady progress."

FRANCE
Paris, Nov. 6, 10:40 p.m.—The following official communication was issued by the French War Office tonight: "To the north the fighting continues to be severe. According to the latest reports our offensive was proceeding in the region to the south and east of Ypres."

GERMANY
London, Nov. 6, 5:35 p.m.—The Marconi Wireless Company has received the following official statement issued by the German headquarters today: "Our offensive to the north-west and south-west of Ypres has made good progress."

The Weather
Toronto, Nov. 6.—Pressure is high over the eastern half of the continent, while a disturbance centered over Manitoba is moving toward Lake Superior. Cool weather prevailed today over the Dominion with snow flurries in many parts of the western province.

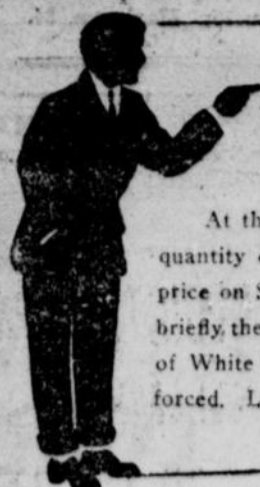

The first decisive victory of the war has been won. Tsing-Tau, the German fortress on the Shan-Tung Peninsula in China, has surrendered to the Allies. The Japanese and British forces encompassed the downfall of the stronghold after its garrison of 7,000 had held out for nearly three months. With its loss Germany is evicted from Asia. Fighting with the British before Tsing-Tau were Indian detachments. On the European battle front Russia claims through Grand Duke Nicholas, her commander-in-chief, the greatest victory since the beginning of the war in the driving back of the Germans to their East Prussian frontier and defeats to the German and Austrians below the River Vistula. Germany, however, does not concur in this statement, saying that there has been no change in the situation in the eastern battle front. The fighting in Poland, according to Berlin, has not yet begun on account of the slow troop movements due to bad roads. It is admitted that numerically the Russians are the stronger in this region but Berlin says it hopes to overcome this by advantageous positions. In Austria, still according to the Germans, the Russians are continually harassed by the troops of Emperor Francis Joseph. In the extreme western zone, south and east of Ypres; hard fighting continues but with neither side having a distinct advantage. Both the Allies and the Germans report gains, but neither make claims that would indicate anything except that at all points the contenders either are endeavoring to push forward or to check advances. On the Aisne the French say they have retaken the town of Soupir, near Vailley, and that to the east of Verdun they have captured some trenches. The Germans, on the other hand, assert that they have won important positions near St. Mihiel and in so doing, inflicted heavy losses on the French. As for the operations by the Russians and Turks against each other, nothing new has developed. The Turks are said to be advancing in the Sinai Peninsula in the direction of Egypt. Berlin declares that the Ameer of Afghanistan has sent 170,000 men to the British India frontier and also that the Sheik-Ul-Islam, the head of the Mohammedan Church in Turkey, has had spread throughout the world a decree saying that in the war with Russia, Great Britain and France it is the duty of Mussulmans to be true to their faith. Greece, it is said, has satisfied a desire she had at the close of the late Balkan war by the taking of Epirus. The British Admiralty reports the foundering of the cruiser Good Hope, and expresses the fear the cruiser Monmouth has been forced ashore as a result of the battle last Sunday between British and German warships off the coast of Chile. A newspaper despatch says Germany will move 150,000 fresh troops into Belgium next Sunday.

Imperial Bank of Canada
DIVIDEND NO. 97
Notice is hereby given that a Dividend at the rate of twelve per cent. (12%) per annum upon the paid-up Capital stock of this institution has been declared for the three months, ending 31st October, 1914, and that the same will be payable at the head office and branches on and after Monday, the 2nd day of November next. Our Sensational Sale of Apples Is Still in Full Swing

We have had big Apple Sales in past years but never anything, to compare with the one now going on here. Our low prices have created such a demand and brought such a tidal wave of business, that barrels of apples by the carload are being rushed out of here every day. It is a fact that delivering apples to purchasers is the biggest problem of our Delivery Department just now.

We have made ample provision for duplicating tomorrow the enormous Sales of last Saturday, which beat all previous records. There will be apples for everybody that wants them, at by far the lowest prices in the city.

Baldwins, Greenings, Cranberry, Ben Davis, Russets, Spy, and other apples, to choose from.

No. 1 grade Apples, a barrel\$2.70	Spy Apples, No. 1 grade, a barrel.....\$2.95
No. 2 grade Apples, a barrel\$2.55	Apples by the measure, a peck25c

QUEBEC, SATURDAY, NOVEMBER 7, 1914.

ONE CENT.

BRITISH DETERMINED NO COPPER REACHES GERMANY

WILL USE ALL LEGITIMATE MEANS TO PREVENT AT BEING SENT THROUGH FOR PURPOSES OF MANUFACTURE OF AMMUNITION.

London, Nov. 6.—Information is in the possession of the British government, it is said, which proves conclusively that very large shipments of copper, rubber and other commodities are passing through Italian ports on their way to Germany.

In New York large purchases of copper are being made by representatives of houses in Rotterdam, Amsterdam and Copenhagen, who, it is stated, are working on German accounts. Directions at the same time are given that these consignments of copper are to be shipped through the Italian ports to the orders of the various financial institutions which are said to be controlled largely by German capital.

The British government is determined that it will use every legitimate means to prevent copper reaching Germany where it is being made into ammunition for use against the British forces. Great Britain, therefore, is diverting various steamers, which are carrying copper to Italy, to Gibraltar, where the copper is discharged. The steamers are promptly released. Some of this copper actually has been found packed in cases marked for Danzig. Other lots are shipments made through German houses in Amsterdam and Rotterdam. Some of these houses are said to be connected with the Krupp's, manufacturers of big guns. It is understood that representatives of some big copper refining firms recently sailed from New York for Europe with the object of consulting agents of German firms as to the best means of forwarding copper to Germany.

Since October 25 vessels bound from New York for Italy, having on board a total of 7,700 tons of copper, have been diverted to Gibraltar, and the British government is informed that some thousands of tons additional are now en route to Italy. The larger part of these copper shipments were for Genoa. Official returns just published show that for two and one-half months prior to October 19th, imports of copper into Genoa amounted to only 1,316 tons. A comparison of these figures with the more recent shipments shows, it is said, that the present trade in copper with Italy is entirely an artificial one and that the Italian imports are not for the consumption of that country.

In view of all this accumulative evidence, the British government maintains that there is no alternative left it but to stop this contraband trade in copper with Germany through Italy. With a few possible exceptions, American exporters don't suffer as they have been paid already, but the British government, not wishing to be unreasonable in any way, is prepared so far as concerns shipments made before October 19, when copper was transferred from the conditional to the actual contraband list, to arrange for the purchase of copper which it is detained.

OPPORTUNITIES FOR CANADIAN MANUFACTURER

India Offers Field For Agricultural Implements Of All Kinds.

London, Ont., Nov. 6.—That India offers a field of almost unparalleled opportunity for the Canadian manufacturer was the statement made here today by Samuel Higginbottom, of the Indian Department of Agriculture, who is in Canada in the interests of the Laymen's Missionary Movement. In view of the rapid development in agriculture there, agricultural implements of all kinds, he said, were very much in demand, while Canada has another opportunity in the matter of small wares, which had hitherto been imported from Germany and Austria on a large scale.

PRISONERS HELD BY THE GERMANS

Berlin Gives Figures Showing Number of Prisoners on Hand

London, Nov. 6.—A despatch to Reuter's Telegram Agency from Amsterdam says that advices received there from Berlin are to the effect that up to last Sunday the German concentration camps and hospitals held the following prisoners:

French, 3,138 officers and 188,618 men; Russians, 3,121 officers and 186,779 men; Belgians, 537 officers and 34,907 men; British, 417 officers and 15,730 men.

The correspondent adds that the Berlin despatch says these figures don't include prisoners not encamped

INTERNED PERSONS RETURNING HOME

SOME 25,000 GERMANS AND AUSTRIANS AT PRESENT INTERNED IN FRANCE.

Berne, Switzerland, Nov. 6.—Via Paris.—Five hundred German women and children who had been interned in France and who are now being repatriated, arrived here today.

It is estimated that at the present time there are in France about 25,000 Germans and Austrians who have been interned. Every day, however, seen this number reduced by from six hundred to one thousand persons. These pass through Switzerland by train on their way home.

Something like 100,000 letters and 5,000 money orders for prisoners of war reach Berne every day to be forwarded to their destination. All this matter is sent post free by the intermediary of Switzerland. No fewer than forty Swiss postal clerks are detailed to handle this mail.

GERMANS ANXIOUS IN ANTWERP NOW

IMPRESSION THAT THEIR OCCUPATION IS NOT SECURE.

Amsterdam, via London, Nov. 6.—A despatch to the Telegraaf from Roosendaal says that all trains arriving there from Antwerp are full of fugitives. One of the fugitives declared that not a single German officer slept in Antwerp last night, all being housed in the forts.

The correspondent adds that a proclamation issued at Antwerp yesterday threatened to imprison all citizens found on the streets after 9 o'clock at night. "Machine guns have been mounted at the railway station, and the impression prevails that the Germans fear their occupation of Antwerp is not secure," the correspondent concludes.

SHIFTING CATTLE.

Kansas City and Others Now Receiving Points.

Chicago, Nov. 6.—A large part of the cattle receiving and meat packing industries of the country, long centered here, tonight temporarily is shifted to Kansas City, Omaha, St. Joseph, Mo., and other western cities, and the Chicago Union Stock Yards, for the first time since its organization in 1865, was closed down for nine days in consequence of the prevalence of hoof and mouth disease among cattle. The quarantine against the stock yards and all other cattle pens within the State went into effect at midnight. The State's action supplements the Federal quarantine against Illinois.

No more cattle, sheep or hogs are to be received in Chicago until Nov. 16, when business is to be resumed after the yards have been thoroughly disinfected and pronounced free from the disease.

The packers tonight sent to Kansas City and their other western branches one thousand butchers to kill and dress the animals which ordinarily would have been sent to Chicago. They announced that the products from their western plants would be sufficient to supply the market without any change in prices.

DISINFECTION OF STOCK YARDS.

Business in Buffalo Cattle Market At A Standstill.

Buffalo, N. Y., Nov. 6.—Pending the completion of the disinfection of the pens and yards at the East Buffalo Stock Yards, business is at a complete standstill. Not a head of cattle, sheep or hogs is at the yards today. Expectation that business would be resumed in a few days was blasted today when stock yards officials were notified by Washington authorities that not even stock shipped from clean districts in quarantined states could be handled or shipped to interstate points for immediate slaughter. The ruling limited the source of supply to Canada and states not under quarantine.

"GLASGOW" WAS IN FIGHT BEFORE SUNDAY LAST

BADLY DAMAGED PREVIOUS TO ENGAGEMENT IN WHICH "GOOD HOPE" WAS LOST.

Santiago, Chile, Nov. 6.—That the British cruiser Glasgow was in an engagement with a German warship or warships prior to the fight last Sunday evening off Coronel in which the British cruiser Monmouth and Good Hope were lost and the Glasgow and the transport Otranto are reported to have been badly damaged is indicated by advices received here from Coronel.

These advices are to the effect that the Glasgow entered Coronel last Saturday and took on coal and made repairs of injuries made by shells. One of her four smokestacks was destroyed, there was a big hole in one of her sides and her bulwarks were smashed, according to the report. The cruiser left Coronel the day following her arrival, Sunday.

In his report of the sea fight of Sunday the German Admiral von Spee, said that after it had ended, the Glasgow was heard calling by wireless the flagship Good Hope, but received no answer. Since that time nothing has been heard from either the Glasgow or the Otranto.

TURKS ADOPT CONSCRIPTION WAYS

SYSTEM OF MOBILIZATION TURNED INTO REGULAR PLUNDERING.

New York, Nov. 6.—Merchandise of every conceivable value is being seized by officers of the Ottoman government in cities of Syria, under the general orders of mobilization of the troops, according to reports from missionaries made public today by the Board of Foreign Missions of the Presbyterian Church.

"Under the order of mobilization," the board states, "unwilling conscripts are being gathered, each soldier being required to bring with him from home eight days rations with a certain amount of money. The local officials have turned the orders to commander horses, mules, food and fodder into a wicked and unbridled system of plunder. They have entered the shop at Beirut at all hours of the night and day and have seized not only flour and articles of food, but dry goods, clothing, household utensils, silk stockings by the gross, foreign made shoes for women and expensive sets of furniture."

BRITISH WORKMEN LOYAL TO COUNTRY

GERMANS NON-PLUSSED AT UNITY SHOWN AFTER WAR OUTBREAK.

Montreal, Nov. 6.—"Germans counted on disaffection among British workers at the outbreak of war, but put their money on the wrong horse. No question in the country's history has so united all sections. For six weeks before I left England, I appeared nightly on platforms with Liberals and Tories, peers and peasants, appealing for recruits."

So said James A. Seddon, president of the British Trades Union Congress and ex-M.P.P. for South West Lancashire. He was in Montreal today on his way to the convention of the American Federation of Labor.

"WOLF OF WALL STREET" HAS BEEN ARRESTED.

New York, Nov. 6.—David Lamar, known as "the Wolf of Wall Street," who has been fighting removal to this city from the District of Columbia since his indictment in 1913, on a charge of impersonating a government officer with intent to defraud, was arrested in the corridor of an uptown hotel tonight, by two agents of the Department of Justice.

PROUD TO HAVE A CANADIAN HORSE.

Toronto, Nov. 6.—Sir Adam Beck received a cable today from Sir Peter Walker, of the Derbyshire Yeomanry, expressing the thanks of General Alderson for the gift of Sir James, Sir Adam's favorite charger, adding that he will be proud to have a Canadian horse.

FRENCH AVIATOR TURNED THE TIDE

DROPPED BOMBS ON BRIDGE AT MOMENT OF RETREAT OF FRENCH.

Paris, Nov. 6.—The story of an exciting incident that took place near an important bridge over the Oise, not far from Sempigny, has been received here.

The French were ordered to hold the bridge at any cost. They placed quick-firers which played havoc for twenty minutes in the German ranks and prevented the German advance. Suddenly the bugle sounded for a French retreat, and the Germans quickly pursued them over the bridge. A moment later a French aviator, who had been hovering overhead, dropped a bomb which completely destroyed the bridge.

The French then delivered a bayonet charge, forcing the enemy into the river. A pontoon bridge was quickly constructed and the French crossed. They succeeded not only in regaining the lost position, but in establishing themselves in an advanced position at Tracey.

GIVE UP ATTEMPT TO CROSS THE YSER

GERMAN TROOPS RETREAT EASTWARD IN LARGE NUMBERS.

Amsterdam, via London, Nov. 6.—A despatch from Sluis to the Telegraaf, says:

"It is now obvious that the Germans have abandoned their attempts to cross the Yser. Belgian troops occupy both sides of the river. "German troops have retreated eastward in large numbers, and continued to arrive in Bruges throughout yesterday."

LIVERPOOL COTTON MARKET IS OPENED

LANCASHIRE SPINNERS ARE MUCH GRATIFIED OVER FIRST DAY'S RESULT.

Manchester, via London, Nov. 6.—The Lancashire spinners are much gratified over the results attained the first day the Liverpool cotton market was open since the war began. Although trading was hedged about by many restrictions, the spinners believe even restricted dealing is a decided step forward and confidently expect that the Liverpool Cotton Association will remove all impediments to general trading as soon as the New York Exchange opens. President Rosburgh of the Liverpool Assoc. believes this will be about Nov. 16.

China has commenced placing orders with the Lancashire spinners, which has stimulated the market and is regarded as the forerunner of orders from India and a general demand for cotton goods.

Sir Charles W. MacAra, president of the Cotton Spinners Association, and other prominent manufacturers expressed their delight at the reopening of the Liverpool market. While the spinners were not inclined to regard the first days business as positive proof that a steady market was assured, a majority of them expressed the opinion that the improvement in the cotton situation was due largely to Sir George Paish's efforts in the United States, resulting in a better understanding between bankers, growers and brokers and the American and British governments.

While the Liverpool market was closed the Lancashire spinners had little trouble in buying all the spot cotton they needed, but the opening of the Chinese trade makes it imperative that futures be bought to cover orders booked. The Liverpool Spinners Association has fixed 8 1-2 cents a pound as the minimum price to protect the trade against loading up at a ruinously low price on the 6,000,000 bales of American cotton raised this year in excess of estimated demands.

The Liverpool market ranged from nine to twenty points above the minimum fixed by the association. Futures have been so generally sold heretofore that there is abundant demand to justify today's prices, in the opinion of the Manchester News, which intimates that the orders for raw cotton were much larger than was generally believed.

Under the restrictions of the Liverpool market spot cotton is not affected. Buy orders for May and June futures so are not restricted, but selling orders for May and June are limited to old business and must be certified by the association.

JAROSLAW AGAIN IN THE HANDS OF CZAR'S TROOPS

RUSSIANS HAVE SUCCESSES OF IMPORTANCE OF GALICIA.

Demberg, Galicia, Nov. 6, via Petrograd.—News was received in this city the evening of Nov. 5 of the recapture by the Russians of the Galician town of Jaroslau together with 5,000 prisoners.

Military reports given out in Lemberg set forth that during the past few days the Austrians have been attacking furiously day and night. Their artillery fire has been particularly severe, and leads to the impression that they have been making their last supreme effort. Nevertheless, the Russians have repulsed the enemy vigorously and have broken his desperate resistance. At the present time the Austrians are retreating along the river San.

This last engagement was over an extended front, and the noise of the cannonading could be heard for a great distance. Enormous forces of Austrian endeavored to prevent the Russians from crossing the San at a point near Monastyrzek, but the Russians held their positions in spite of this resistance.

It is reported here that Austrian artillery has destroyed the chateau on the property of Prince Czartoryzky near Lezaka, on the San. Presumably the valuable historical library in the chateau was destroyed.

NEW YORK STATE QUARANTINED

Transportation of Cattle From Canada to This State Prohibited.

Rochester, N. Y., Nov. 6.—An order quarantining New York State against the foot and mouth disease will be issued tomorrow by Calvin J. Huson, Commissioner of Agriculture, and will become effective Monday. Mr. Huson made that announcement here this afternoon. He had been in Buffalo since Tuesday, looking over the stock yards situation. An order, also to be issued tomorrow, will prohibit the transportation of cattle from Canada into this state.

DESTROYED NAPHTHA TANKS AT BRUGES

AVIATOR OF ALLIES DESTROYS TANKS IN HANDS OF GERMANS.

London, Nov. 6.—10.45 p. m.—An aviator from the Allies lines dropped two bombs on German naphtha tanks at Bruges Thursday, killing eight marines," says a despatch from Amsterdam to the Exchange Telegraph Company. The message continues:

"Guns were thundering yesterday and again today in the direction of Thourout and Ypres. The Allies make constant sallies from Passchendaele (11 miles north-east of Ypres), at night.

"Apparently scouts have blown up the railway between Bruges and Ghent as a trainful of wounded was obliged to return to Bruges today."

FRENCH DO NOT USE UNFAIR MEANS

DENY ACCUSATION THAT TROOPS WORE GERMAN UNIFORMS.

Washington, Nov. 6.—Foreign Office despatches to the French Embassy today duplicated the usual War Office statement, and added a denial of accusations made in the German press that the French were using German uniforms as disguises to cover their attacks.

"In one of their recent communications to the press," the despatch said, "The Germans accused our troops of having on many occasions put on the uniforms of certain of their regiments. This ruse, to which they have often resorted themselves, has never been employed by our soldiers, who, proud of their uniform, are content to fix their bayonets and hurl themselves into the assault of a position. The Germans, however, have often abused the white flag since the beginning of the campaign, waiting to shoot down our troops at close range, after they have advanced unsuspectingly."

PREDICTS NEW STEAMSHIP LINE FOR THE ATLANTIC

MONTREAL NEWSPAPER SAYS NEXT YEAR SHIPPING POOL TO HAVE COMPETITION.

Montreal, Nov. 6.—The Montreal Star says:

The next season will see a new steamship line running from Montreal to England in competition with the North Atlantic Shipping pool, according to the latest report in shipping circles. The new line, it is declared, is only incidental to a co-operative enterprise being organized in Montreal. In conjunction with the incorporation of the Co-Operative Society a steamship charter is to be asked for. The steamers will carry whatever goods are imported by the Co-Operative Society.

It is further reported that the Midland Railway Company of England will give the line, which is to run to their docks at Heysham, near Liverpool, very low rates in the hope of developing trans ocean trade.

GERMAN STEAMER SUNK BY A MINE

APPARENTLY A MINE PLANTED BY THEIR OWN TRAWLERS.

Copenhagen, via London, Nov. 6.—A large German steamer has been blown up south of the Danish Island of Langeland, in the Great Belt, by a mine, said to have been placed by the Germans. A number of her crew were lost.

During the past fortnight two German trawlers and one German steamer have been destroyed in this region. There are no Danish mines in the waters where the disasters have occurred, as they were gathered up by a Danish steamer some time ago.

THE PAQUET COMPANY LIMITED Retail Division, 157-173 St Joseph St

The Quebec Chronicle

Printed and published by The Chronicle Publishing Company, D. Watson, General Manager, at the building of the Company, 9 Beaudry Street, Quebec.

QUEBEC, NOVEMBER 7, 1914.

THE POLICY OF ATTRITION.

The London Economist, which should have some reasonably accurate knowledge upon which to base an estimate, calculates that the resources of Germany at the present rate of exhaustion, will be wiped out in six months from the declaration of war, which means that in March next she will have burned up her reserves of supplies of food, horses, money, gasoline, and all the necessities of a campaign, and will be compelled to carry the war from that date by hand-to-mouth and grab-all methods in the commissariat department.

The Louisville (Ky.) Courier-Journal thus expresses in the mild Kentuckian way its opinion of the Kaiser: "Henceforth let him be called the Accursed Kaiser—Wilhelm the Damned—who, like the devil himself and Bonaparte before him, will live immortal as the Father of Lies and Lying, his agents in the field and in the counsel of the same murderous and bloody kidney. Let them enjoy while they may the riot of vandalism; but their doom is before them; they await their Waterloo; when the world will ring around the universe. To hell with the Hohenzollerns and the Hapsburgs."

As things are developing in this war, the "Home Guard" idea ceases to be a joke. It should never be forgotten that at the outbreak of war, thousands of German and Austrian "reservists" were summoned to the colors from every Province in Canada and every State in the American Union. Most of them never got there. The British command of the sea prevented them from securing passage across the Atlantic. So they piled up against the Atlantic sea-board as against a great dam; and many of them are still idle and desperate in the sea-coast cities of the United States. No one imagines that the American Government will permit any open organization of this disappointed host for the invasion of Canada. But secret organization is quite within the range of possibility; and a sudden raid might be accomplished on the Canadian border, which could make considerable progress if there were absolutely no armed force ready to meet it.

The allies' war plan, by which he was going to conquer the world, promises to finish in the killing of nearly all of the men in Germany. The world is witnessing the greatest tragedy of all time, a tragedy which will take the laughter and fun out of more than half the world.

BRITAIN'S FOOD SUPPLY.

In comparing the food supplies of Great Britain with those of her opponents in the present war, it is made clear that very little is imported from the countries against which we are at war, or likely to be at war. As much as 81 per cent. of the wheat from overseas is a product of the English-speaking world, including the British dominions and the United States. Most of the meat comes from South America, the dominions, the United States and Denmark. Turning to commodities like butter, cheese and eggs, it is found that they are supplied from neighborly Holland and Scandinavia, or again from the overseas dominions.

The only food which Germany and Austria supply in large quantities is sugar. They send nearly half the supply used in Great Britain. But the shutting down of the beet sugar imports will have the effect of stimulating the manufacture of cane sugar in Canada, and other British dominions, so that the temporary hardship of increased sugar prices will result eventually in material benefit to this country. It should also have the effect of promoting the beet sugar in Great Britain, where only one large factory was in existence when the war broke out.

Egypt, Holland and Spain have been the greatest source of potato supplies in Britain. Imported potatoes are, however, almost wholly the early varieties which can be done without ordinary potatoes are largely a home product. The backbone of Britain's food supply is her own harvest. It has been bounteous and in

excellent condition. In many cases, where the state of the grain permitted it, farmers have not wasted labor in stacking the sheaves into the threshing machines. This is something of a novelty for the careful British farmers. The price of wheat in Great Britain has been falling steadily despite the war, and this, coupled with the fleet's command of the sea, augurs well for flour and bread at reasonable prices during the coming winter. Compared with the fate of the German householder, this is a condition which will have much to do with the eventual victory for British arms.

The Louisville (Ky.) Courier-Journal thus expresses in the mild Kentuckian way its opinion of the Kaiser: "Henceforth let him be called the Accursed Kaiser—Wilhelm the Damned—who, like the devil himself and Bonaparte before him, will live immortal as the Father of Lies and Lying, his agents in the field and in the counsel of the same murderous and bloody kidney. Let them enjoy while they may the riot of vandalism; but their doom is before them; they await their Waterloo; when the world will ring around the universe. To hell with the Hohenzollerns and the Hapsburgs."

PRESS COMMENT.

As things are developing in this war, the "Home Guard" idea ceases to be a joke. It should never be forgotten that at the outbreak of war, thousands of German and Austrian "reservists" were summoned to the colors from every Province in Canada and every State in the American Union. Most of them never got there. The British command of the sea prevented them from securing passage across the Atlantic. So they piled up against the Atlantic sea-board as against a great dam; and many of them are still idle and desperate in the sea-coast cities of the United States. No one imagines that the American Government will permit any open organization of this disappointed host for the invasion of Canada. But secret organization is quite within the range of possibility; and a sudden raid might be accomplished on the Canadian border, which could make considerable progress if there were absolutely no armed force ready to meet it.

The allies' war plan, by which he was going to conquer the world, promises to finish in the killing of nearly all of the men in Germany. The world is witnessing the greatest tragedy of all time, a tragedy which will take the laughter and fun out of more than half the world.

HOW I CURED MY CATARRH

Told in a Simple Way

Without Apparatus, Inhalers, Salves, Lotions, Harmful Drugs, Smoke or Electricity.

Heals Day and Night

It is a new way. It is something absolutely different. No lotions, sprays or sickly smelling salves or creams. No atomizer, or any apparatus of any kind. Nothing to smoke or inhale. No steaming or rubbing or injections. No electricity or vibration or massage. No powder; no plasters; no keeping in the house. Nothing of that kind at all. Some-

thing new and different, something delightful and healthful, something instantly successful. You do not have to wait, and linger and pay out a lot of money. You can stop it over night—and I will gladly tell you how—FREE. I am not a doctor; and this is not a so-called doctor's prescription—but I am cured and my friends are cured, and you can be cured. Your suffering will stop at once like magic.

I Am Free—You Can Be Free

My catarrh was filthy and loathsome. It made me ill. It dulled my mind. It undermined my health and was weakening my will. The hawking, coughing, spitting made me obnoxious to all and my foul breath and disgusting habits made even my loved ones avoid me secretly. My delight in life was dulled, and my faculties impaired. I knew that in time it would bring me to an untimely grave, because every moment of the day and night it was slowly yet surely sapping my vitality.

RISK JUST ONE CENT

Send no money. Just your name and address on a postal card. Say: "Dear Sam Katz: Please tell me how you cured your catarrh and how I can cure mine." That's all you need to say. I will understand, and I will write to you with complete information. FREE, at once. Do not delay. Send postal card or, write me a letter today. Don't think of turning this page until you have asked for this wonderful treatment that can do for you what it has done for me.

IN AND ABOUT TOWN

WESTERN RECRUITS ARE COMING HERE

FRENCH-CANADIAN COMPANY HAD GREAT SEND-OFF YESTERDAY

With the departure of a full company of French-Canadians who left here yesterday morning under Capt. Thibautot, the number of second contingent men in Quebec is much lessened, there being only about thirty now left in the city to go towards forming the four hundred and fifty or so which are to be enrolled here. However, a detachment of about two hundred men is expected here tomorrow and it is possible that another hundred may be sent from Winnipeg to fill up. It, therefore, remains for Quebec to get together a representative English company.

The recruits will take over the Immigration Buildings today.

The French-Canadians who went away yesterday under Captains Thibautot, Gingras, Beauvion and Henri Chasse had a great send-off and were escorted down to the ferry by a strong detachment of the Ninth Voltigeurs and also by the R. C. G. A. Band. Before they left, Lt.-Col. Chabot, addressed them, telling them how the thoughts of their comrades and compatriots in Quebec would follow them.

Colonel J. P. Landry and other officers accompanied the company as far as Levis.

FINED FOR ASSAULT

Romeo Daigle, accused of assaulting a pilot on the SS. Prefontaine, was fined \$1 and costs in the Court of Sessions yesterday afternoon.

REVENUE CASE

A revenue case was disposed of in the Court of Sessions yesterday; the defendant, A. Girard, being condemned to pay a fine of \$100 and costs.

ORGAN RECITAL FOR THE BELGIAN RELIEF FUND.

An organ recital will be given by Mr. E. A. Bishop at the Cathedral of the Holy Trinity on Monday evening next at 8.30 o'clock.

ACTION WITHDRAWN

Alleging that some three months ago he gave Mr. Andrew Wilson, proprietor of the White Star Restaurant on St. Paul street, a ten dollar bill and only received change for five dollars, a Mr. Boudreau entered an action against Mr. Wilson in the Superior Court, claiming damages to the extent of \$105, alleging at the same time that he refused to open his cash register at the time the ten dollar bill was supposed to have been handed over the counter. The action, however, has come to naught, as Mr. Boudreau withdrew it yesterday morning, thus exonerating Mr. Wilson from an inference of wrongdoing.

WHO'S YOUR GROCER?

The attention of Chronicle readers is directed to the advertisement of Messrs. Brousseau and Matte, which appears in another column. This enterprising firm has just opened out an up-to-date family grocery store at the old and well-known stand of Leon Gaboury, 235 St. John street. Customers will find there a full line of everything in the grocery trade. The firm aims to secure a share of public patronage and they will no doubt do so. New, fresh and attractive goods with right prices and courteous attention to the wants of customers will be leading features in the dealings with the public.

DEATH OF MR. MURPHY.

The death occurred at the Jeffery Hale's Hospital yesterday of Mr. John Edmund Murphy. It will be doubtless come as a shock to his many friends, for deceased had been ill but a short time, and expired just before the 70th anniversary of his birthday. Much sympathy will be felt at the rather sudden taking away of this old and respected citizen, who had many friends who knew him to be of the kindest disposition and always willing and ready to assist the needy. The late Mr. Murphy, who was a member of St. Patrick's congregation, was the representative of the Atlas Insurance Company, and also of the New York Underwriters, a position he held since the death of his late uncle, Mr. Owen Murphy, ex-mayor of Quebec. He is survived by two cousins, Mr. Fergus Murphy, K.C., from whose residence the funeral will be held, and Mr. D. R. Murphy, of the legal firm of Gouin, Lemieux & Murphy, of Montreal.

MEN'S FALL AND WINTER COATS

For the next 8 days we will sell a number of Men's Stylish Fall and Winter Coats for \$15 each, all sizes. Sale ends Saturday.

Holt, Renfrew & Co., Ltd.,
Buede Street

TOY EXHIBITION AND SALE THIS MONTH

H. R. H. DUKE OF CONNAUGHT HAS OFFERED PRIZE FOR COMPETITION.

Even Santa Claus has got the "Made in Canada" slogan now, and if things turn out well, some little boys and girls are going to get toys this year made not only in Canada, but in Quebec city. The Home-Makers, the Stadacona Chapter of the Daughters of the Empire are investigating the possibility of starting a toy factory here, and so far they have met with great encouragement. They have discovered a great amount of local talent, and have seen some remarkably fine work done by Quebec workers.

They propose holding an Exhibition and Sale of Quebec made toys during the last week of November, and will give prizes for the various sorts of toys,—the cleverest, best made, least costly, most popular, etc., etc. H. R. H. The Duke of Connaught has already sent a prize to be competed for and has shown great interest in the undertaking.

Further particulars may be obtained from Mrs. J. C. McCliment, St. Louis St., or Mrs. Montefiore Joseph, 113 Grande Allee.

EMMETT A. A.

Popular Organization Will Hold Encore and Dance

Anyone who was present at the last encore and dance given by the Emmett Athletic Club will hail with delight the announcement that this popular organization intends holding another of these pleasing socials in the club rooms of the Sarsfield A. A. on Wednesday evening, November 11th.

The committee in charge of the arrangements has spared no efforts in the work of organization and has secured many valuable donations which will be keenly competed for.

The success of former affairs held by the Emmetts is sufficient guarantee of an enjoyable evening to all those who wend their way to the S. A. A. club rooms Wednesday evening next.

A GOOD MEDICINE FOR THE BABY

Baby's Own Tablets are the very best medicine a mother can give her little ones. They sweeten the stomach, regulate the bowels, break up colds, promote healthful sleep—in fact they cure all the minor ills of little ones. The mother may feel absolutely safe in giving them to her children for they are guaranteed by a government analyst to be strictly free from all injurious drugs. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THE LADIES' MORNING MUSICAL CLUB

This interesting club will give as usual, a series of concerts this season when some most distinguished artists will be heard. Some of these artists come from abroad and others are among our own local talent in which the Ladies' Morning Musical Club is particularly interested.

The first concert will be held on Wednesday next, November the 11th at the Columbus Hall, at 11 o'clock.

Messrs. Leopold Morin, Henri Gagnon and P. Robitaille will be among the performers at this concert.

In addition to the work undertaken by the Musical Club for the coming season it is their intention to do all in their power for the suffering people of Belgium. It is hoped the Quebec public will give them every support.

ARMY WORM HAS DONE MUCH DAMAGE.

Toronto, Nov. 6—Three hundred thousand dollars is the amount of the damage done by the army worm in Canada during the past summer, according to the estimate given today at the annual meeting of the Entomological Society of Ontario, by Mr. A. Gibson, of Ottawa. Of this Ontario was the loser to the extent of \$250,000. The remainder of the damage done was in Quebec, New Brunswick and Nova Scotia. The pest worked its havoc in 142 townships in 37 counties.

KILLED IN ACTION

London, Ont., Nov. 6—Mrs. H. A. Schaefer, 463 Grey street, received word today that her only brother, Private John Morringer, of the third Leicestershire Regiment, has been killed in action in France. Morringer was for five years groomsmen to the Khedive of Egypt.

QUEBEC PRAISES KING OF BELGIANS

CITY COUNCIL PASSES RESOLUTION—APPOINTMENTS AT CITY HALL.

After a long drawn-out protest on the part of Aldermen Fiset and Lockwell with regard to the appointment of Alderman Trudel as accountant in the Civic Department of the Public Work, the Council last evening finally ratified the nomination on division, and unanimously passed the recommendations of the Finance Committee voting \$5,000 for payment of insurance premiums on the lives of Quebecers enlisting in the Second Canadian Overseas Contingent; and granting ten years exemption of taxes to the Arctic Artificial Ice Company; voting \$750 for five beds in the Canadian hospital at Paris; appointing Alderman Morin to the position of City Attorney and granting the contract for the supplying of hay, straw and oats to the firm of Colvin and Company.

Foreign Labor Here.

A letter was read from the Federated Trades and Labor Council of Quebec and Levis, protesting against the employment of foreign laborers on the work on Dufferin Terrace.

Pro-Mayor Collier.

On motion of Ald. Cannon, seconded by Ald. Lavigneur, Alderman Jos. Collier, of Champlain Ward, was unanimously elected pro-mayor for the ensuing term of three months.

Express Deliveries.

The question of express deliveries in the city of Quebec, which was investigated recently by the officials of the Dominion Railway Commission, was brought up at the meeting of the Council, and Ald. Lockwell proposed a motion which was unanimously carried, and will be duly sent to the Commission, urging that the Express Companies be obliged to collect and deliver parcels to all wards of the city and all parts thereof.

Before the close of the meeting Ald. Lockwell and Ald. Cannon paid tribute to the valuable services rendered by Aldermen Morin and Trudel, who were both abandoning their seats to accept positions in the corporation. Letters were also read from the aldermen in question, tendering their resignations from the Council.

Tribute to Belgians.

The following motion of tribute to Belgian heroism, was unanimously carried:

"That this Council feels it is its duty to express to the King of the Belgians in the name of the citizens of Quebec, the admiration and appreciation which is inspired by the indomitable bravery and the admirable perseverance which they are displaying in the gigantic struggle which our British citizens and the whole nations allied with them are maintaining at the present time in Europe for the defense of civilization against barbarism, and the noble example which is being given to the world by the King and Queen of the Belgians, who are identifying themselves with their people by sharing the sufferings and the perils of the war.

"That this Council prays His Majesty the King of the Belgians, his respectful homage and the hopes which we entertain that it may please God to put an end to the war and to restore the benefits of peace."

Just before the adjournment, Ald. Lockwell asked the Mayor if he had any knowledge that 25 pairs of rubber boots had been purchased in Beauce for the Fire Brigade, and that the transactions had been carried out with out the knowledge of Chief Hamel, who first learned of the transaction when he received the boots.

Mayor Drouin said that this was

NO ALUM IN ROYAL BAKING POWDER

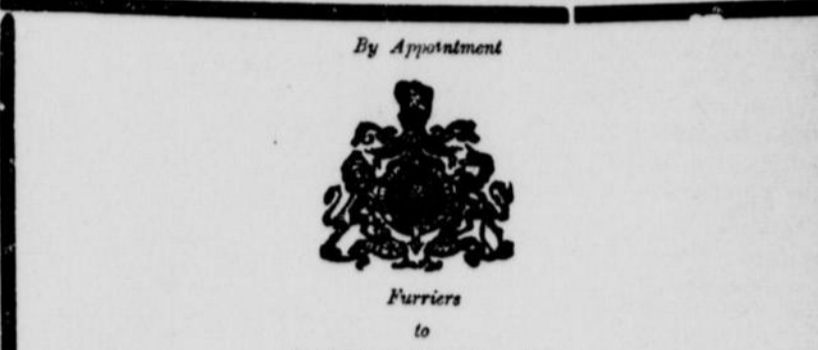

the first he had heard of the transaction, and asked that the question be put in writing and he would reply to it at the next meeting.

The Council adjourned until the 20th instant.

REASON FOR GRAIN EXPORT DECREASE

Chicago, Nov. 6—Scarcity of vessel room was the explanation today for the marked decrease in sales of grain for export. Wheat export sales were reported as 500,000 bushels while 600,000 bushels of corn, 50,000 bushels of oats, and 40,000 bushels of rye were shipped from Chicago.

Vessel room for 500,000 bushels of wheat and 200,000 bushels of corn were chartered here, the rates being 1 1/4 cents on the wheat and 1 1/8 cents on the corn to Buffalo. The rates were 1-8c. and 1-4c higher, due to the increasing difficulty in getting lake steamers.

About Persian Lamb Coats

PROBABLY no merchandise has so variable a value as furs. This is because there is no set standard by which the value of furs may be judged. The "best quality" of one store may be accounted as only a fair quality in another establishment. The store having a more critical clientele will naturally have a collection of better and more carefully chosen pelts than the ones whose business is founded on a "price" basis rather than on "value."

We by no means claim to have all the good furs there are. But we do claim we have so perfected an organization for collecting pelts and making them into garments that there are no better furs sold in Canada.

In previous advertisements we explained how, because of the war in Europe, most furs are cheaper.

Realizing that Now more than ever the public demands the utmost value for every dollar expended we have placed on sale a number of 52 and 46 inch Persian Lamb Coats that can now be had at \$200 and up.

Also a few 36 inch garments at \$175 and up.

These prices apply to coats in stock only.

Holt, Renfrew & Co. Limited

We Will Not Remain Inactive During the Month of November

and we propose to stimulate commerce by special sales every day of the month.

We shall therefore offer at prices which will defy all competition, goods of the highest novelty in all the departments for ladies and gentlemen, boys and girls.

WOULD REMAIN IN INTER-PROVINCIAL

LAURENTIDES WILL AGAIN ENTER TEAM IF HOCKEY LEAGUE IS REORGANIZED

The Laurentide Hockey Club will again have a team in the Inter-Provincial Amateur Hockey Union if the league is reorganized for this coming winter. This was the statement from one of the officials of the club but thus far, nothing has been heard from Shawinigan Falls, Sherbrooke or any of the other clubs making up the Quebec section.
It was the general belief in local hockey circles that neither Laurentides nor St. Patrick's would remain in the Inter-Provincial as both clubs are known to have lost money last season. St. Patrick's will not likely remain in the senior amateur circuit, although nothing as yet has been decided upon. The organization of a semi-professional city league at the Arena is being talked of and should the plan materialize it will probably mean that the players of the two leagues will join together and form six or eight strong clubs.

PRINCETON AND HARVARD TODAY

BOTH TEAMS UNDEFEATED YET—HARVARD A SLIGHT FAVORITE.

Cambridge, Mass., Nov. 6.—Two unheaten football teams—Princeton and Harvard—will match strength and skill in the Stadium tomorrow in the first of the round-robin series which includes Yale. The game will be the first of the major contests of the season in the east. The second will be fought a week from tomorrow between Princeton and Yale at Princeton. On the following Saturday will come the Yale-Harvard clash at New Haven.

For tomorrow's contest Harvard was a slight favorite tonight in what little betting was reported.

WILL HOLD MEETING EARLY NEXT WEEK.

Formal Resignation of Tom Yates Foster Received by the National Hockey Association.

Montreal, Nov. 6.—Secretary T. E. Quinn, secretary of the National Hockey Association, has received the resignation of T. Yates Foster, as president of the Association. In his letter, Mr. Foster states that owing to business pressure he is unable to attend to the administration of the N. H. A., and is compelled to retire for this season. Secretary Quinn has sent out notices to all the clubs, advising them of the resignation of the president, and calling a meeting to be held some time next week. When the management of the local clubs learned of the resignation of Mr. Foster they expressed regret at his not being able to continue in office. Mr. Foster's successor will be appointed at next week's meeting.

ERECT MONUMENT OVER GRAVE OF BASEBALL UMPIRE

AMERICAN LEAGUE WIND UP ANNUAL CONVENTION BUT TWO PROBLEMS UNSOLVED

Chicago, November 6.—American Leaguers, in winding up their annual convention today left unsolved the two most important problems supposed to be on the program. The question of peace with the Federal League appeared no nearer solved, and no change in ownership or in the list of stockholders in the New York club was announced.

Regarding the latter point it was given out that no formal discussion of it had taken place. But it was noted that while most of the magnates caught early trains for their homes tonight, Frank Farrell, of New York Club, and James Lamin, of the Boston club, Farrell's leading supporter, stayed over, saying they would start back east tomorrow. A shake-up in the membership of the New York club was considered advisable by some of the magnates as a preliminary to an attempt to strengthen the team in the Metropolitan.

Only a pretty definite statement that the Wards, owners of the Brooklyn Federals, would not buy into the New York Americans was announced on the Federal situation. Everybody admitted that terms on which peace could be reached would not be possible until after long negotiations.

The club owners decided to erect a monument over the grave of Umpire "Jack" Sheridan, whose death occurred this week at San Jose, Cal.

Charles Somers, of the Cleveland club, was re-elected vice-president of the league without opposition, and the board of directors for the ensuing year will include representatives of the Chicago, Cleveland, New York and Boston clubs.

Most of the owners declared themselves in favor of a reduction in the number of players carried. They agreed that twenty was a more convenient number than twenty-five, but definite action was deferred until the spring meeting, and meantime, the National League will be consulted on the plan.

Reduction in the price of seats at world's series games also found unanimous support, and the magnates agreed that the prices charged should exceed the regular admission prices by only a small margin, if at all. The National League again will have to agree to this suggestion before any change is made.

Believing that the games played last year, in a good many cases, extended far beyond the time really necessary, the club owners agreed that managers, umpires and players should be instructed to hurry up the games.

In connection with the American League meeting some of the minor league problems were discussed in the lobby of the hotel where the meeting was held. Among the statements that came out was one that there is now no prospect of Roger Bresnahan purchasing the Cleveland or St. Paul American Association franchise and putting a team in Toledo.

Bresnahan this afternoon conferred for a long time with Charles Thomas, president of the Chicago National, and it was reported, though neither would confirm it, that the catcher had agreed to stay with the Cubs. Whether he would succeed O'Day as manager could only be guessed at.

A number of minor league leaders stayed over to leave for Omaha Sunday night to attend the National League meeting. It was announced that President C. A. Comiskey of the Chicago Americans, probably would attend the Omaha meeting.

HOPPE WINS AGAIN

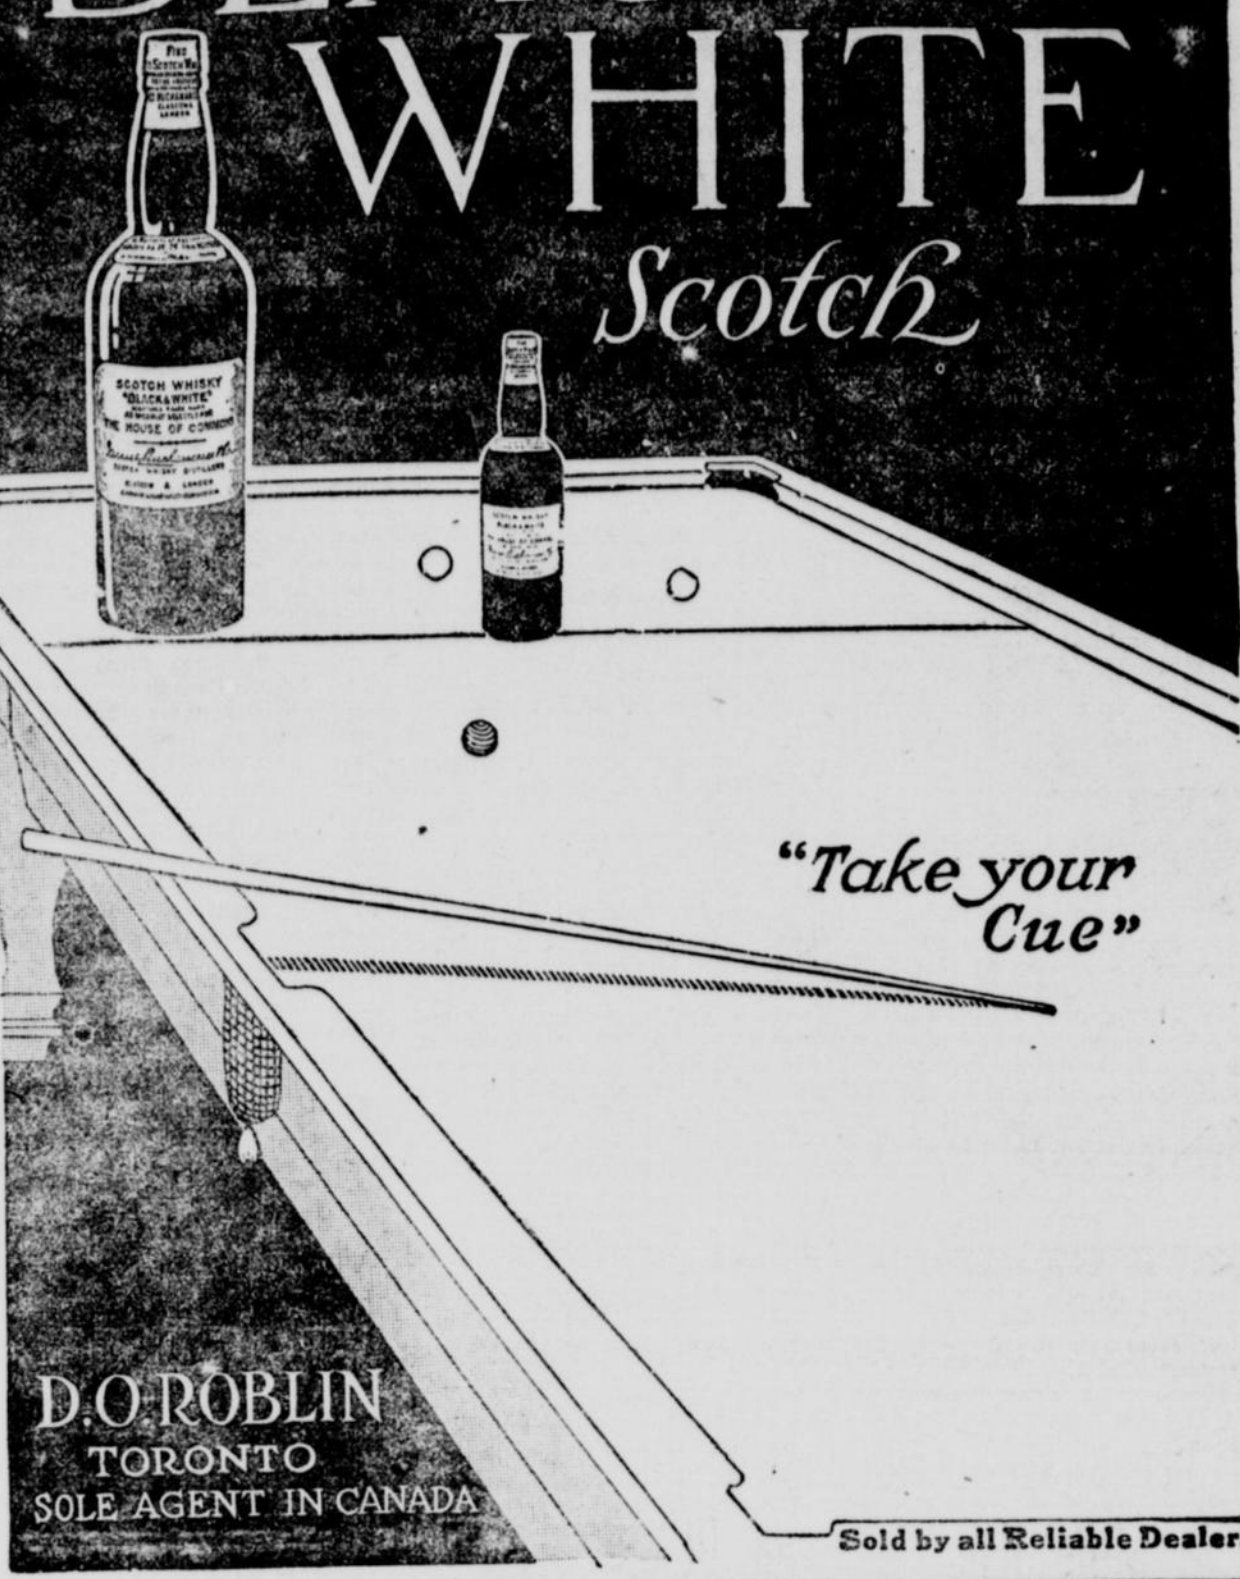

Englishman Fell Down With Victory In Sight

Winnipeg, Nov. 6.—Traveling in the worst kind of luck in the final stage of the last match of the International billiard series, Melbourne Inman failed to catch Willie Hoppe's long lead, the American winning the match by 41 points. Both sessions today were occupied with English billiards and the English champion failed to settle to his real game, was unusually erratic and otherwise encountered bad luck in that the balls were not running to his liking. With victory in sight, he fell down unaccountably on an easy red winner, allowing Hoppe to reach the figures which put the game on ice. Inman on the day's play, aggregated 1,250 to Hoppe's 478, his average being 39, Hoppe's 154.

The latter gave a good account of himself, easily demonstrating that he can make a better showing at the English game than Inman can at American balkline. The scores follow:

Afternoon session:
Inman: 12 18 16 4 8 27 100 72 5 8 38 166 77 22 10 0 6 36 (unfinished.) Total 625.

FOUND SHOT IN BUSH
Bracebridge, Ont., Nov. 6.—Joseph Gleason, 57 years of age, who had been missing from his home here since October 13, was found this morning in a piece of bush two miles from town lying by a log with a 22-calibre rifle in his hand and a bullet hole in his forehead. It is not known whether it is a case of accident or suicide.

CHILE MAINTAINS ITS NEUTRALITY. London, Nov. 7.—147 a. m.—The Chilean government in a statement issued here last night says the governor of the state of Constitution has reported that a warship is ashore on Cape Carranza and that it is possible that it is one of the combatants in the battle between the Germans and the British off Chile last Sunday. It adds that the Chilean government will send aid to the stranded vessel.

The statement detailed at length the measures Chile had taken to preserve strict neutrality in the war. It said the engagement between the fleets off Coronel occurred at a considerable distance outside Chilean territorial waters and that Chile sent a ship to the scene of combat to afford whatever assistance was possible.

NO NEWS OF THE CANOPUS. Valparaiso, Chile, Nov. 6.—Nothing is known here concerning the British warships Canopus and Despatch, which are reported to have passed through Magellan Straits to join the battle cruiser New Zealand.

AN EASY WAY TO STOP HEAD NOISES. Good Advice For Those Who Fear Deafness. Men and women who are growing hard of hearing and who experience a stuffy feeling of pressure against their ear drums, accompanied by buzzing, rumbling sounds in their head like water falling or steam escaping should take prompt and effective measures to stop this trouble. Head-noises are almost invariably the forerunners of complete or partial deafness and most deaf people suffer from them constantly. Sometimes these head noises become so distracting and nerve racking with their never ceasing "hum" they drive the sufferer almost frantic and complete nervous breakdown and even violent insanity have been known to result.

Thanks to a remarkable scientific discovery made recently in England it is now possible to almost instantly lessen the severity of these head noises and in a very short time to completely and permanently overcome them. With the disappearing of the head-noises, the hearing also greatly improves and very frequently can be restored to normal. This English treatment is known as Parmitin and can be easily and safely administered at home. Leading druggists in Quebec and vicinity now have it in stock. Get from your druggist 1 oz. Parmitin (Double Strength) and mix it a home with 1-4 pint of hot water and 4 oz. of granulated sugar. Stir until dissolved and then take one table spoonful four times a day until the noises disappear and hearing improves. Parmitin is used double strength in this way not only to reduce, by tonic action, the inflammation and swelling in the Eustachian tube and thus to equalize the air pressure on the drum but to correct any excess of secretions in the middle ear and the results it gives are both remarkably quick and effective.

IMPORTANT.—In ordering Parmitin always specify that you want double strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine St. Montreal, P.Q., who make a specialty of it.

MANY ALARMIST RUMORS IN VIENNA

NEWS FROM CRACOW INDICATES POSSIBILITY OF A RUSSIAN ADVANCE.

Venice, Nov. 6.—Via Paris, Nov. 7.—News of the action of the military authorities of Cracow, capital of Galicia, in forbidding the further return of refugees to that city and warning the civil population to keep far away from the fortifications, has created a most unfavorable impression in Vienna, it is said. Many people express the conviction that it indicates apprehension of a Russian advance.

Despite the severe sentences imposed by the courts upon people charged with disseminating false war news in Vienna, the most alarming reports continue to circulate throughout the city. The police in the Austrian capital are now employing an army of plain-clothes men and as a consequence, hundreds of people have been arrested, chiefly on account of unguarded talk in cafes and restaurants where they are accused of spreading false news or expressing friendly feelings towards the enemy. The majority are sentenced to serve prison terms varying from weeks to months at hard labor.

The military authorities are rushing work on the fortifications along the Austrian coast. No single point of any importance between Pola and Trieste has been left unprotected. Extensive entrenchments also have been constructed inland behind the city of Trieste.

London, Nov. 5.—The British steamer Italia, of the Anchor Line, bound from New York to Mediterranean ports, has been detained at Gibraltar. The authorities there state that the Italia has contraband of war aboard.

Best Treatment for All Complexion Ills

It tells you my panacea for all complexion troubles. If the skin be colorless, low, muddy, over-red, if it be rough, specked, blotchy, pimply, or freckled, there's nothing that will so surely overcome the condition as ordinary mercurized soap. The wax literally takes off a bad complexion—absorbs the dead and near-dying particles of surface skin, so gently, actually, you experience no inconvenience at all. A new complexion is then in evidence one so clear, spotless, delicately soft and beautiful, you look many years younger. One ounce of this wax, procurable at any drug store, will rejuvenate the worst complexion. It is smeared on like cold cream before retiring and removed mornings with warm water. The mercurized wax habit is a healthier and more economical one than the cosmetic habit. If the skin be wrinkled or creased, rub it daily in a solution made by dissolving an ounce of powdered saffron in half pint witch hazel. This acts immediately, affecting even the deepest wrinkles.—Bliss Desmond, in Beauty's Mirror.

WAR NEWS

(Continued from Page One)

An interesting document in connection with the fall of Tsing-Tau is the proclamation which the German governor posted on Aug. 22. In this he said: "Never shall we surrender the smallest bit of ground over which the German flag is flying. From this place, where we with love and success have endeavored during the last seventeen years to shape a little Germany across the seas, we shall not retreat. If the enemy wants Tsing-Tau he must come and take it."

In taking it the Japanese have again had revenge for certain phases of their war with China 20 years ago. Although victorious, she was forced, at the instigation of Germany, to give up Port Arthur—her main fruit of victory—which eventually became Russian.

Ten years later—in 1904-05—Japan fought Russia and again took Port Arthur Now, after another interval of ten years in association with British forces, Japan has seized the German possession of Kiao Chow and wiped out a score which had been a thorn in its side for two decades.

BELGIANS NOW FACE STARVATION.

German Armies Utilize Practically All Products of Country.

London, Nov. 6.—Joseph Botogne, Belgian deputy and a member of the Namur Town Council, and A. Journez a deputy, and member of the Liege Town Council, in a signed statement says:

"We have rudely suffered. After the atrocities and horrors of war we are now threatened by famine. The German armies since the beginning of the invasion have lived on our soil by requisitioning victuals of all nature. Our production of grain normally is hardly sufficient for a fifth of the consumption. The maritime route being closed for the import of grain our country would fatally be furnished in a very short time. Solely for Liege and its environs 1,500 bags of grain are necessary per day. At the moment of writing we have hardly grain enough for a few days."

"Without the generous assistance of the United States, it would mean for us famine with its unavoidable consequences of riots and plundering. We have suffered enough. At least let this misfortune be spared us. We are convinced that you will sympathize with our undeserved miseries."

"In the province of Liege, the city has first been compelled to pay a war contribution of 30,000,000 francs (\$5,000,000), while the requisitions which have been made so far exceed 30,000,000 francs. The city of Liege has a population of 117,000 inhabitants, and its ordinary annual budget hardly reached 14,000 francs."

IMPORTANT CASE HEARD AT MONTREAL

IT INVOLVES THE PROVINCIAL ACT LEVYING DUTIES ON ESTATES.

Montreal, Nov. 6.—A case involving the interpretation of the Provincial Act levying duties on estates, was dealt with by the Court of Review today when the judgment of Hon. Mr. Justice Greenfields, in the case of the collector of provincial revenue, Joseph Desjardins, who claimed \$108,857.65 from the estate of the late Sir Robert Gillespie Reid, was unanimously confirmed with costs. The suit raised the question as to the right of the provincial authority to levy such a tax on assets of the estate, which were represented by bonds of the Dominion Iron and Steel Company and of the Newfoundland government, the defendants arguing that as these bonds were assets located outside of the province the provincial authority had not the requisite jurisdiction to levy taxes thereon.

Hon. Mr. Justice Greenfields, in the lower court held that the bonds in question were at the time of the death of the deceased, physically located in the province of Quebec, and were thus subject to the taxation imposed by law. The higher court has concurred in this finding.

GOEBEN IS NOW IN BLACK SEA

TURKISH CAPITAL REPORTED QUIET—GRAND VIZIER WAS IN DILEMMA.

London, Nov. 6.—The Sofia, Bulgaria, correspondent of Reuters' Telegram Company sends the following despatch:

"A number of subjects of the Triple Entente have arrived here from Constantinople. They report that Turkish capital is quiet and that the military law is being enforced with the utmost vigor. 'I learned that even the Grand Vizier was unable to free himself from the trammels of the military party. He tried thrice to resign but was threatened with court martial and forced to remain in office against his will. 'The best informed of the Turkish public are opposed to war, it is said. They consider the situation as most critical for Turkey but have kept silent through fear of arousing the enmity of the military party. 'Trade in Constantinople is at a standstill. 'The cruiser Goeben, accompanied by four torpedo boats, proceeded to the Black Sea Tuesday.'"

DOMINION TRUST CO. Vancouver, B.C., Nov. 6.—At the adjourned meeting of the shareholders of the Dominion Trust Company this evening the specially appointed committee to make an investigation of the affairs of the company presented its report. It was the consensus of opinion among the committee that the assets would be sufficient to meet the liabilities, though, of course, they could not be certain of that. The directors are the heaviest losers, many of them are numbered among the depositors. The report stated that the committee were not in possession of the true state of affairs.

The late Mr. Arnold, who apparently carried a mass of records in his head, had been in the habit of making loans without the authority of the board of directors. From the accounts it appeared that he had made a loan to Alvo von Alvensleben Company, the firm which was acting for large German interests, to the extent of \$1,143,549. During the week some of the directors visited Mr. Alvensleben in Seattle, and he informed them that he owed the company only half a million.

WILHELM'S NEW FRIEND

London, Nov. 6.—A Rome despatch to the Exchange Telegraph says:

"It is officially stated from Constantinople that Enver Pasha, Minister of War, replying to recent congratulations from the German Crown Prince, on Friday sent the following message: 'The Imperial Turkish army thanks Your Imperial Highness and the Fifth Army Corps for your fraternal good wishes. It hopes, with the aid of the German army under the supreme command of Emperor William, to crush and annihilate all our enemies.'"

MC CARTHY KNOCKS NEW YORKER OUT

MONTREAL HOCKEY PLAYER HAD EASY TIME WITH THE AMERICAN.

Montreal, Nov. 6.—By taking advantage of all openings, Charley McCarthy knocked out Eddie Moran of New York in the seventh round of their scheduled ten round bout at the Canadian Athletic Club tonight. Previously to the knockout punch, McCarthy floored his opponent twice, once in the sixth round and another in the seventh, shortly after which the winner landed with effect to Moran's face, resulting in a clean knockout.

AN EASY WAY TO STOP HEAD NOISES

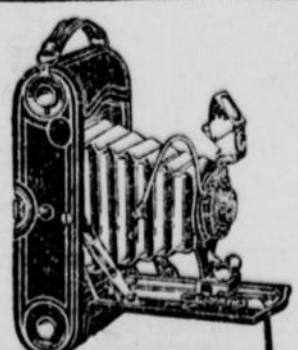

Good Advice For Those Who Fear Deafness

Men and women who are growing hard of hearing and who experience a stuffy feeling of pressure against their ear drums, accompanied by buzzing, rumbling sounds in their head like water falling or steam escaping should take prompt and effective measures to stop this trouble. Head-noises are almost invariably the forerunners of complete or partial deafness and most deaf people suffer from them constantly. Sometimes these head noises become so distracting and nerve racking with their never ceasing "hum" they drive the sufferer almost frantic and complete nervous breakdown and even violent insanity have been known to result.

Thanks to a remarkable scientific discovery made recently in England it is now possible to almost instantly lessen the severity of these head noises and in a very short time to completely and permanently overcome them. With the disappearing of the head-noises, the hearing also greatly improves and very frequently can be restored to normal. This English treatment is known as Parmitin and can be easily and safely administered at home. Leading druggists in Quebec and vicinity now have it in stock. Get from your druggist 1 oz. Parmitin (Double Strength) and mix it a home with 1-4 pint of hot water and 4 oz. of granulated sugar. Stir until dissolved and then take one table spoonful four times a day until the noises disappear and hearing improves. Parmitin is used double strength in this way not only to reduce, by tonic action, the inflammation and swelling in the Eustachian tube and thus to equalize the air pressure on the drum but to correct any excess of secretions in the middle ear and the results it gives are both remarkably quick and effective.

IMPORTANT.—In ordering Parmitin always specify that you want double strength; your druggist has it or he can get it for you; if not, send 75c to the International Laboratories, 74 St. Antoine St. Montreal, P.Q., who make a specialty of it.

MADE IN CANADA

On the Shut-in Days: KODAK

Too cold for comfort outside serves but to emphasize the coziness inside—that's the time to make the little home pictures that grow in value with the years.

SUPPLY 400,000 MEALS EVERY DAY

PROVISIONS SENT BY AMERICAN RELIEF COMMISSION ALREADY BEING DISTRIBUTED.

London, Nov. 6.—Provisions sent to Brussels by the American commission for the relief of Belgium already are supplying 400,000 meals daily and plans are now complete for carrying out a similar work throughout that part of Belgium occupied by the Germans.

The Dutch steamer Jan Block will spend some time tonight loaded with 4,000 tons of wheat, rice, peas, beans and flour, and it is expected that the Dutch steamer Tellus will leave tomorrow with 1,700 tons of wheat. Both ships will proceed to Rotterdam where their cargoes will be taken over by representatives of the American commission.

Herbert Clark Hoover, chairman of the American commission, today received the following telegram from Captain T. F. Lucey, the commission's representative at Rotterdam.

"Morris M. Langhorne, secretary of the American legation to Netherlands and Luxemburg, E. B. Wyman, member of the relief commission, and Edward Bell second secretary of the American Embassy at London have returned from Brussels where 400,000 meals per day are being issued. Those people who are able to pay are being charged five cents for the meals. The meal costs fifteen cents and Bell says that rich and poor stand in line for these meals as it is the only way they can get food.

"They state that very complete plans have been entered into by the central committee for receiving and distribution supplies throughout all Belgium. The country has been divided into provinces, each province handling its own distribution and being represented by two members on the central committee. All requisitions on this office will come from the central committee through the American and Spanish ministers. A sub-committee in turn will sell food to the communes which will resell or distribute free to those in need.

"The sub-committees are formed generally by members of the town councils so that the whole organization has an official and unquestionable standing. They are all in accord and are holding meetings from time to time at Brussels and compiling data, as to the needs of every district regardless of how remote. The people are elated at the shipments and the practical results given.

"Some uneasiness is felt here by Belgians as the result of quotations from the American press to the effect that supplies would be seized by the military authorities. They are afraid that this will stop the shipment of supplies. I have assured them that the supplies would come regardless of these unfounded suppositions.

"That all emergencies are being forestalled is evident from a note issued by the central committee in Belgium in which it is stated that the commis-

sion will have a delegate in each province who will see that the shipment of food supplies arrives intact, and who must be informed of any infraction by the German troops of the guarantee given by Field Marshall Baron Von Des Goltz, military governor of the occupied portion of Belgium. If this delegate, protected by the American flag, learns of any infraction he will verify it and immediately call attention to it, when the ministers of Spain and America will make proper representations to the German authorities.

MONMOUTH" THOUGHT TO BE ASHORE ON COAST OF CHILI

(Continued from Page One.)

"On the enemy again approaching the wounded Monmouth, the Glasgow, which also was under fire from one of the armored cruisers, drew off.

"The enemy then attacked the Monmouth again, but with what result is not known. The Glasgow is not extensively damaged and has very few casualties.

"Neither the Otranto nor the Canopus was engaged.

"Reports received by the Foreign Office from Valparaiso state that a belligerent warship is ashore on the Chilean coast and it is possible that this may prove to be the Monmouth. Energetic measures are being taken on this assumption to rescue the survivors.

"The action appears to the Admiralty to have been most gallantly contested, but in the absence of the Canopus the enemy's preponderance in force was considerable."

Rear-Admiral Craddock

Rear-Admiral Sir Christopher Craddock, who commanded the British squadron from the cruiser Good Hope and who probably went down with her, was in charge of the British fleet in Mexican waters at the time the American marines occupied Vera Cruz. He was 52 years old.

Sir Christopher had a distinguished record and received many honors and decorations. During the Sudan campaign in 1891 he served in the British army and also saw service in China in 1900. His gallantry as Taku earned him promotion to a captaincy.

During 1894-95 Sir Christopher was commander of the King's yacht. He served as aide-de-camp to the King in 1909 and became a Rear-Admiral in 1910. He was made a Knight Commander of the Victorian Order in 1912. Among his decorations are the Royal Spanish order of the second class for naval merit and the Royal Humane Society's testimonial for saving life. He received a silver medal from the British Board of Trade for gallantry in saving life at sea in connection with the wreck of the Peninsular and Oriental Line steamer Delhi.

El Paso, Tex., Nov. 6.—The Caranza troops have retired before an advance of 10,000 Villa soldiers after fighting twenty miles south of Agascalientes, according to an official Villa report today. General Leon commanded the Caranza forces.

AIRCRAFT IN MODERN WARFARE

HAS WROUGHT TREMENDOUS CHANGES IN GAME OF WAR.

Washington, Nov. 5.—How the aeroplane has wrought tremendous change in the game of war, as is being demonstrated now on the battlefields of Europe, was pointed out by Brigadier-General Scriven, chief of the Army Signal Corps, in his annual reports submitted today to Secretary Garrison.

"It now appears," said General Scriven, "that the actual game of war is played openly, with cards laid on the table, and opportunity no longer is given for inference as to concealed movements or for surprises; perhaps not even for the exercise of the high military quality of anticipation of the unseen movements of the adversary.

"It seems that the aeroplane, and to some smaller degree, all air craft, have altered, not the principles of strategy, which are immutable, but the theory and application of grand tactics."

Dirigibles as service units the general assigned to the "waiting list." He recommends that the aeroplane continue to be the main reliance of the United States army for aerial work, remarking that he was "not yet prepared to recommend that the army take up the dirigible seriously, as its value is still believed to be indeterminate; it requires too many favorable conditions to insure success and its cost is comparatively great."

VON KLUK, THE BEST OF GERMAN GENERALS

Reports of General Von Kluk being removed from his command seem incredible to military experts who have followed his career since the war broke out, for they have recognized in Von Kluk the best commander in the German army. Great strategists and tacticians as Joffre and French have proved themselves, they have a worthy opponent in Von Kluk. He has done all that a general could do, more than ninety-five of a hundred could have done and it is difficult indeed to believe that the Kaiser would remove him even though the tide of battle is going against him. What is the Kaiser to take his place? All his other generals without exception are either German princes or veterans who were on the retired list before war began. The only soldier still in professional activity among the German commanders is Von Kluk, and he is the best of them, despite the Wolff Bureau reports of daily victories for General Von Hindenburg.

Risen From the Ranks

Von Kluk, moreover, is the only commander who has risen from the ranks. The German fashion is to give important military commands to German kings and princes. In times of peace the German princes are the rulers of their people, and the theory is that in time of war they should be their leaders. Therefore, all the German princes are trained for war. If they would be content to assume the honors of leadership and leave professional soldiers to do the real planning, not much fault could be found with this principle, but the German princes take themselves seriously, and in fact, as well as in name they are the commanders of the armies now in the field. The Crown Prince of Prussia, the Crown Prince of Saxony, the King of Saxony and the Duke of Wurtemberg are among the leading generals. The other generals, with the exception of Von Kluk are born of the nobility, and are of old military families, like the Moltkes and the Buelows. Despite the "Von" in his name, the commander of the German forces in Northern France and Belgium is a plebeian, and for a plebeian to rise to the rank of commander in the German army bespeaks unusual military ability.

Through Two Wars

Alexander Kluk was born in Muenster, Westphalia, in 1846, the son of an architect in the employ of the Government. He received his early education in the Muenster schools, and at the age of 19 entered the infantry. The following year he became a sub-lieutenant, and for seven years remained in that rank, though he fought through both the Austrian and Franco-Prussian Wars, and was awarded the Iron Cross. In those days it seemed to be generally recognized among his fellow-officers that he was an unusually brilliant soldier, and the fact that he failed to rise rapidly led him to being called Lieutenant Von Ungluk, or Lieutenant of Bad Luck. However, fortune favored him when he won for a wife the Countess of Donop. Thereafter his rise was more in accordance with his merit, though probably not directly due to it.

Successful At Manoeuvres

As lieutenant and captain he changed regiments several times and in 1881 became an instructor in a training school for officers, and three years later was made commander of another school at Annaburg. Thence he was transferred with the rank of major to a more important school at Breisach, in Alsace. He remained here for only a short time, as he preferred to rejoin the army. In 1896 he was made colonial of a regiment in Berlin. In 1906 he was general in command of the 5th army corps and in the same year was made general of infantry. Last year he was appointed general inspector of the eighth army corps, and it was from his command of the Koenigsburg army corps that he was recalled when war was declared. He was ennobled when a colonel, and since then appears to have been watched by the Kaiser. At the important annual army manoeuvres Von Kluk has never failed to win the praise of his

Imperial master, and the command he now holds is a recognition and reward of his skill as a strategist and tactician.

Liked by His Men

Pictures of Von Kluk that appear in the newspapers give the impression of a man thoroughly tonic in appearance, a rather burly, bull-necked man. But Von Kluk does not look like a German. His closely clipped mustache and his spiked helmet alone reveal him as a German army officer. He is rather dark, and looks more like a Latin. He is tall, lean and firm in his gait, and carries himself like a man twenty years younger. Von Kluk is said to be the most popular of German commanders with his men, for they believe that his age, his experience and his kindly nature will prevent him from ruthlessly sacrificing his men, although all accounts seem to agree that he has spent his soldiers prodigally. Even so, the men know that a prince has no particular respect for the lives of common soldiers, whereas a general who was once a common soldier and is at heart democratic might be expected to value more highly the lives of those belonging to a class from which he himself rose.

DAMROSCH AND SYMPHONY ORCHESTRA HERE ON 25th

Judging from the unprecedented interest aroused everywhere by the approaching appearance in this city of America's premier musical organization, the New York Symphony Orchestra, with Walter Damrosch as conductor, it is safe to predict that this extraordinary event will be the greatest success, from all points of view, seen at the Auditorium for many a season past. Everyone realizes that to be given the opportunity to hear in Quebec such a grand organization is the greatest attention our public could be given by the management. As is well known, the enterprise is a colossal one,—probably the biggest yet attempted here. But, on the other hand, it is exactly what our public wants: the best in America. And it will be the one great event of the year to draw everybody to the Auditorium.

It is positive that the New York Symphony Orchestra will appear here one night only, on Wednesday evening, the 25th. The theatre will undoubtedly be too small to accommodate all those desirous to attend such a phenomenal attraction and the management expects a very big rush, as was the case at the opera when the sale opens on Thursday morning, the 19th inst. Mail orders will also be received after that date if accompanied with necessary money and addressed to the Manager, Auditorium Theatre, Quebec.

The sale of prices is exactly the same as that of the last opera week here two years ago: Orchestra, \$2.00 and \$2.50; Balcony, \$1.00, \$1.50 and \$2.00; Reserved Family Circle, 75c.; Boxes, \$3 per seat.

LEGAL INTELLIGENCE

Judgments Rendered and Writs Issued

By Hon. Justice Cannon
Fortier vs. Kennedy: Plaintiff claimed from defendant \$1,525 alleging that in the month of June, 1913, Abdon Cote was accidentally killed in the defendant's mill, at St. Raymond, when he was in the defendant's employment; the deceased was the plaintiff's son and died a bachelor, receiving a salary of one dollar and twenty-five cents a day, and plaintiff sued according to the dispositions of the "Workmen's Compensation Act." Defendant pleaded to the action that the said Abdon Cote was not in his employ at the time of the accident, and was not the only supporter of the plaintiff. The court maintained the plaintiff's action, and condemned defendant to pay her \$1,525, interest and costs.

By Hon. Justice Dorion
O'Sullivan vs. Quebec Railway, Light, Heat & Power Co.: Defendant's motion for peremption granted with costs.

Lortie vs. Canadian Order of Foresters: Same judgment as above.
Larouche vs. Jobidon: Defendant's motion to dismiss action dismissed with costs.

Eastern Township Poultry Farms vs. Healey, and Cote, T.S.: Garnishee is condemned to make deposit of \$48 monthly, being the seizable part of defendant's salary, in payment of capital, interest and costs, with costs against defendant.

By the Prothonotary
Lemieux et al vs. Racine: Judgment against defendant for \$281.42, interest and costs.
Banque Nationale vs. Daigle et al: Defendants are condemned jointly

Spain Will Observe STRICTEST NEUTRALITY.

Paris, Nov. 6.—1.24 a. m.—A despatch to the Havas Agency from Madrid says:

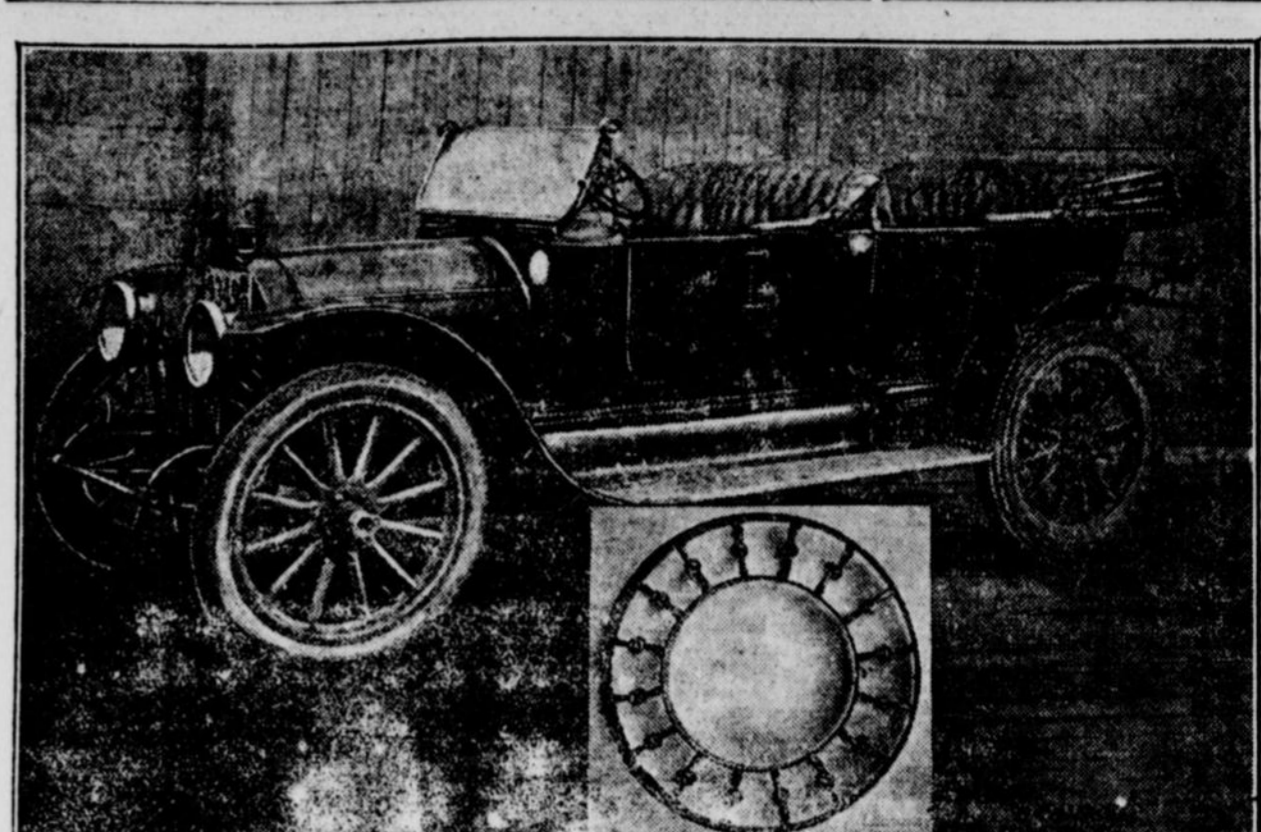

"Premier Dato declared in the Chamber of Deputies today (Thursday) that Spain would continue to observe the strictest neutrality and maintain friendly relations with all the belligerent nations.

"I don't believe Spain will be attacked," the Premier added, "but if she is we will all give our lives to save our country."

WILL TRADE IN AMERICAN WHEAT

New York, Nov. 6.—The Board of Governors of the Consolidated Stock Exchange of New York, at a meeting this afternoon, decided to trade in American wheat. Deliveries will be nation-wide and trading will begin next Wednesday morning.

Prices will be based upon the New York prices, less the cost of transportation from the point of delivery in New York or at various points agreed upon.

Front Wheel Tire on Air Rear Wheel Tire on Springs

THE SAFETY TIRE COMPANY, LIMITED

Authorized by Letters Patent Issued by The Federal Government of Canada SHARES \$100.00 AUTHORIZED CAPITAL \$1,000,000. First emission for subscription \$100,000.

DIRECTORS: Paul Tourigny, member of the Legislative Assembly of the Province. Ernest Roy, Esq., Broker. John Paradis, Director of the Quebec Hide and Skin Co., Quebec. Eusebe Roberge, Merchant of Laurierville. C. G. G. G. G., Mechanical Engineer, Quebec. Legal Adviser, Alcyon Taschereau, Advocate, Quebec.

Office 36 Dalhousie Phone 664 Bankers, Bank of Montreal

EXPLANATION OF INVENTION: It is a rubber tire hard or full, which rests on the horizontal springs. The dimensions vary with the size of the machine to support, and is placed on the wheel just as easily, with the same rapidity and the same manner as an ordinary tire.

RESILIENCY: The rubber tire filled with air is more resilient than the air pressure and lies strong. At a certain pressure this tire becomes as hard as a rubber one not filled with air, such as we see on the big trucks, and the machine or automobile which is equipped with big rubber tires has a high pressure, is not very comfortable and the mechanism consequently suffers considerably. Here, on the contrary, we have a wheel always having the same flexibility, which is equal, if not superior, to rubber tires with normal pressure, this tire offers the biggest comfort and is to the machinery a guarantee of long life.

IMPORTANCE OF THIS DISCOVERY: Since the big increase in auto business in the entire world, it was sought to replace the empty tires, that is to say the tires that are filled with air, first of all, on account of the considerable amount necessary to pay to buy this merchandise, and besides the small use that it gives compared with the price given, and besides on account of the inevitable accident the automobile must suffer. Experience has proven up to the present time that the price of tires was 20 per cent. per year of purchasing price of the car. Thus on a \$2,000 car, an annual expense of \$400.00; a \$5,000 car an annual expense of \$1,000. This is repeated every year.

WE OFFER TO CONSUMERS AND WE GUARANTEE OUR MERCHANDISE—AN AUTOMATIC TIRE OF THE SAME UTILITY, OFFERING THE SAME COMFORTS BUT WHOSE DURATION WILL BE AS LONG-LIVED AS THE CAR ITSELF.

THE COST: Our tires will be sold about the same price as the rubber tire. Thus at the end of 5 years a proprietor of a \$2,000.00 machine will have saved \$2,000.00 only on the purchase of tires, and will be exempt from inconveniences of all kinds that accompany the use of tires with compressed air.

EXPERIENCE: For six months the Company has experimented this new tire, and you can see at their office

Agents Wanted

and severally to pay plaintiff \$116.78 interest and costs.

Brown vs. Lacanice: Judgment in plaintiff's favor for \$250, interest and costs.

Writs Issued
Writs of summonses issued from the Prothonotary's office:
Mary Gertrude Grace vs. William John Lemesurier, Quebec, conservatory attachment.
Pare Richelieu vs. Georges Blouin, Quebec, \$133 contract.
Edmund T. Nesbitt vs. Joseph Doreau, Sacre-Coeur de Rimouski, \$204.92.
J. Alphonse Vezina vs. J. Anacleit Pouliot, Quebec, \$101.04.

SPAIN WILL OBSERVE STRICTEST NEUTRALITY.

Paris, Nov. 6.—1.24 a. m.—A despatch to the Havas Agency from Madrid says:

"Premier Dato declared in the Chamber of Deputies today (Thursday) that Spain would continue to observe the strictest neutrality and maintain friendly relations with all the belligerent nations.

"I don't believe Spain will be attacked," the Premier added, "but if she is we will all give our lives to save our country."

WILL TRADE IN AMERICAN WHEAT

New York, Nov. 6.—The Board of Governors of the Consolidated Stock Exchange of New York, at a meeting this afternoon, decided to trade in American wheat. Deliveries will be nation-wide and trading will begin next Wednesday morning.

Prices will be based upon the New York prices, less the cost of transportation from the point of delivery in New York or at various points agreed upon.

Why Smith Succeeded

He was on the job—alert and energetic. Mental ability and physical activity made him shine in his old job and brought promotion.

Smith took care of himself.

Right there is the keynote of success—one must be mentally and physically fit.

A good start is to avoid the heavy, greasy foods that cause indigestion and kindred ills, and use a wholesome, building food such as

Grape=Nuts

This healthful, appetizing food is made of selected wheat and malted barley. It contains those vital mineral salts, so necessary to health, that are often lacking in the every-day diet.

The partial malting of the barley, with the long baking (about 20 hours), makes Grape-Nuts a food that digests easily and quickly.

TO CANADA

By Percy MacKaye

Men of Canada, Fellow Americans, Proud our hearts beat for you over the border: Proud of the fight you wage, Proud of your valiant youth Sailing to battle for freedom and order.

On our own battlefields Many's the bout we had— Yankee, Canadian, redcoat and ranger; But our old brotherhood, Staunch through the centuries, Shouts in our blood now to share in your danger.

Ah, it's a weary thing Waiting and watching here, Numbing ourselves to a frozen neutrality: Yet, in a world at war, 'Tis our good part to keep Patient to forge the strong peace of finality.

Though, then, our part be Peace, Yet our free fighting souls League with your own 'gainst the world-lust of Vandals; Yes, in the dreadful night, We, with your women, weep And for your shroudless dead burn our shrine candles.

So, by the gunless law Of our sane borderline, By our souls' faith, that no border can sever, Freedom!—now may you fight, Waging the death of war, Silence the demons of cannon forever!

Kin-folk of Canada, So many your allied arms Smite with his legions the Lord of Disorder! God speed your noble cause! God save your gallant sons! Would we might sail with them—over the border!

—Boston Transcript.

Stone went on, and his house was partially demolished. Then flames showed upstairs, apparently from an overturned lamp. He could hear the cries of his wife and the children, some of whom had not been killed by the explosion.

"I waited till I couldn't hear them, then ran and called neighbors. They hadn't heard the noise, and began to help me carry out the furniture from downstairs."

"Did you tell them your wife and children were upstairs?" Stone was asked. "No," he said, "I didn't." The woman and four children were all burned to death, investigation showed, but there was no suspicion that the tragedy had not been an accident.

Girl Finally Betrayed Him

Stone immediately left Tolono and enlisted under an assumed name, at Mattoon, Ill., after "Lucille" spurned him.

His false enlistment reached the ears of the Prosecutor of Champaign County, who found the girl, got the story from her, and traced Stone to Jefferson Barracks, where he was arrested yesterday.

When he was convinced "Lucille" had told of his guilt he said: "Oh, well, I might as well tell you all about it then, so you'll have it right." He will be taken to Illinois for trial. The girl, whose last name has not been revealed, is under surveillance.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill.

Then again, as soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, as soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co., and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today — over three years after his cure of a disease he had for twenty-five years — he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

"LET US RESOLVE"

What We Should Learn From Germany.

If in resisting the expansion of Germany we are fighting for the ideas realized in our own Empire, we can learn one lesson from her. We may well admire the ardor and self-sacrifice of her people for the cause they believe in. The temptation of the disciplined State may be to pride and cruelty. The danger to the free State is that its inhabitants will cease to make the efforts by which alone their freedom is ensured. Yet the price of liberty is no less than of empire — sacrifice and suffering. Indifference and un-willingness to make sacrifices undermined the strength both of Greece and Rome. It has gone some way to endanger the British Empire.

For twenty years we have known the danger that threatens us, yet we have taken no step to remodel our institutions, nor to consider how best the Empire can create and concentrate in the decisive spot the forces on which its existence depends. In resolving to fight the great struggle against autocracy and militarism and money, let us also resolve to face more thoroughly than we have in the past, what our stupendous responsibilities as guardians of a system which gives peace and the opportu-

ity of self-development to one-quarter of the human race, entail. In this task we can exhibit something of the hero spirit of Germany, and something of the great-heartedness which counts no sacrifice too great, no cost too high, to carry on to the end the great political work which destiny has laid upon us. For we no less than the Germans have our destiny.

No less than they we are meant to impress the imagination of the world, to establish an empire over the minds of men. But our Empire is not one which needs blood and war and a mailed fist diplomacy to make its way. It is an Empire of ideas, ideas forged in the long course of our history by Pym and Hampden, Cromwell, Chatham, Pitt, Wilberforce, Gladstone, Salisbury, defended by a net less noble band, Wellington, Nelson, Lawrence, and Nicholas, who have risked or given their lives for the country where these ideas were born, and carried broadcast over the world by example and not the swords that great unknown army of men and women who, exiled in the scorching plains of India, or on the lonely outposts of fever-ridden Dependencies, have steadfastly upheld for generations the reputation and the justice of the British name—"The Round Table."

NEW ROAD CONNECTS WITH ST. POLYCARPE.

Cornwall, Ont., Nov. 6.—The rails of the Glangarry and Stormont Railway, the new road which gives Cornwall connection with the C. P. R. at St. Polycarpe, Que., have been laid to the Cornwall station, and the engine of the construction train ran across Sidney street and into the depot this morning. It is expected that a passenger and freight service will be in full running order a month hence.

THE END OF "MADE IN GERMANY"

Within a few days after war was declared (says Mr. John Lawrie, the manager of Messrs. Whiteley (Ltd.), in "System: The Magazine of Business") I consulted with my buyers as to the placing of foreign orders for our Christmas trade. As a consequence orders for many thousand pounds worth of goods, which usually come from Germany, Austria, and Switzerland, were placed with British makers.

Everything depends upon the British manufacturer. If he can replace foreign wares at anything like the

SYNOPSIS OF REGULATIONS

GOVERNMENT'S Timber on Dominion Lands in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia and the tract of Three and a Half Millions Acres, Located by the Government of the Dominion in the Peace River District in the Province of British Columbia.

LICENSES.
A license to cut timber on a tract not exceeding twenty-five square miles in extent may be acquired only by public auction. A rental of \$5.00 per square mile, per annum is charged on all timber berths excepting those situated west of Yale in the Province of British Columbia on which the rental is at the rate of 5 cents per acre. In addition to rental, dues are charged on the timber cut at the rates set out in section 20 of the regulations.

TIMBER PERMITS AND DUES.
Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of \$20. per thousand feet, B.M., and of a fee at the rate of \$100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.
Any homesteader who has a quarter-section having no timber of his own suitable for the purpose may, provided he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of logging and fencing timber set out in Section 30 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTH-WEST LAND REGULATIONS.

THE sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency), on certain conditions.

Duties—Six months residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months residence in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

LINGAN-MONTMAGNY FATAL COLLISION

JUDGMENT IN THE CASE— PILOT AND FIRST OFFICER OF LINGAN HELD TO BLAME

Pilot Francois Gaudreau and Chief Officer Olaf Swanson, of the steamer Lingan were held responsible for the fatal collision between that vessel and the C.G.S. Montmagny on the 18th September last, while Captain Garbett was repaid money for going to bed while the ship was navigating a narrow channel by the Wreck Commissioner's Court.

Captain Pouliot and the crew of the ill-fated Montmagny were severely criticised for their conduct after the collision occurred.

The Court, composed of Captain L. A. Demers, Dominion Wreck Commissioner, with Captain F. Nash and E. C. Sears, nautical assessors, met at two yesterday afternoon, in the Admiralty Court. There was a large attendance of parties connected in the shipping matters, who appeared to take great interest in the case.

The commissioner read a lengthy review of the evidence, going minutely into all the details, pointing out the most important points brought out at the investigation, which lasted six days, and concluded by giving the following:

Findings
The Court, having carefully enquired into the circumstances attending this shipping casualty finds that this collision was due entirely to faulty navigation on the part of the Lingan's pilot and crew.

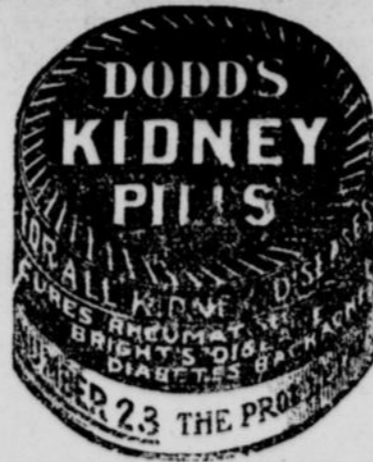

Pilot Francois Gaudreau and Chief Officer Swanson are, therefore, found to be in default by this Court. The license of the said Francois Gaudreau is hereby suspended from the 20th of October, 1914, for the balance of the season of navigation of 1914, and a fine of two hundred dollars is imposed upon him to be paid quarterly in fifty dollar instalments.

The certificate of Chief Swanson is suspended by this Court for a period of ten months, the said suspension to date from October 20th, 1914.

The master of the Lingan, Thomas Garbett, while exonerated in the matter of the present collision and while due cognizance is taken of his commendable and prompt action following his arrival on the bridge, is nevertheless criticised and reprimanded by this Court for having undressed and retired while his ship was navigating a narrow and difficult section of the river, and his action in this regard, is all the more reprehensible when it is considered that the propitious weather conditions that prevailed since the ship's departure from Sydney had not necessitated his keeping length vigil upon the bridge.

The master of the Montmagny was at his post on the bridge prior to and at the time of the collision, and while navigating his vessel to the south of the mid channel indicated by one blast of his whistle and a corresponding movement of the helm that he would retain that side, in view of which it is held that the said Captain Pouliot acted in accordance with the rule of the board and he is, therefore, exonerated by this Court.

No Valor Shown
The duration of time which the Montmagny remained afloat following the impact formed the subject of keen enquiry, and as the preponderance of evidence estimated it to have been five minutes, the work of rescue was necessarily restricted in an all too short period. Brief though it was,

AFGHANS ON WAY TO INDIAN FRONTIER

THE NEWS FROM GERMAN SOURCES AS USUAL IS DISCOURAGING TO THE ALLIES.

Berlin, Nov. 6.—(By wireless).—A report received here from Constantinople, says that the Ameer of Afghanistan has sent an army of 170,000 men, with 135 guns, to the Indian frontier. This news was given out in official quarters in Berlin today to the press.

The railroad from Herat to Kuskik has been destroyed. A number of Indian border tribes have joined the Afghans.

News given out officially for the press today says that the hard fighting in the north-west continues, but that it is as yet without result. The Germans, however, have been able to make slow advances at several points from Ypres inland.

The clash between the Austro-German forces and the Russians in Poland, which has been expected for several days, has not yet developed.

SOME GERMAN LIES.

It is a lie, and a stupid lie promulgated by Germany, that we are in this war for the sake of Serbia, and in support of that little, filthy conspiracy which led to the assassination of the Crown Prince of Austria. As long as the quarrel between Serbia and Austria was the central heart of the trouble, the soul of England was unmoved.

Again, it is a lie that England is in this war for the sake of France, being compelled by secret obligations to support her against Germany without regard to the justice of her quarrel. France is our friend, but we were free to stand by her or not according as we thought best. France knew we were free, and guided her policy in the light of that knowledge. If England and France are fighting side by side, it is because they have a common cause, and have united themselves in the light, not because they are a pair of international Siamese twins who have deliberately bound themselves together in the dark.

Again, it is a lie that England has gone into this war out of hatred and envy of Germany's prosperity. In no quarter of the world is Germany's commercial expansion a menace to British trade. With more reason we might say that Germany had entered into the war out of envy of England's Colonies, which might (if it were possible) to Germanize them; it certainly is not afford some necessary relief from the cramped position in which German industrial life is by nature compelled to live.

Again, it is a lie, and a brazen lie, that Great Britain has entered into this conflict because she is afraid of Germany's strength and desires to smash it before it overwhelms her. If England had been afraid of Germany's strength, she could have escaped from the power of it by accepting her safety on Germany's own suggestion, at the price of an ignoble and almost treacherous neutrality. "Only stand out of this war," said Germany to England, "and we guarantee your own and your neighbors' security on the sea."

Finally, it is a lie, and a preposterous and idiotic lie (though Professor Harnack seems to have been the first to promulgate it), that England is in this war because she hates and would like to destroy German culture, and throw in her lot with the ignorance and barbarity of a nation farther East. How could England's success in arms disturb the spiritual and therefore imperishable contributions to the world's welfare that have come through Goethe, Wagner, and Koch? And where lies the lure that would draw England back from her inheritance in Shakespeare and Milton to the blank poverty and sterility of the darkest of the Middle Ages?—Hall Caine in "Nash's and Pall Mall Magazine."

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

WHEN CONSTIPATED OR BILIOUS GIVE "CALIFORNIA SYRUP OF FIGS."

Look at the tongue, mother! If coated it is a sure sign that your little one's stomach, liver and bowels need a gentle thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhoea, full of cold—give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

A POSITIVE CURE FOR RHEUMATISM

Hundreds of People Have Found "Fruit-a-tives" Their Only Help

READ THIS LETTER

Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

55 Dovercourt Road, Oct. 1st 1913.
"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy "Fruit-a-tives". I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results. I have taken "Fruit-a-tives" for 18 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in 18 months!"

R. A. WAUGH
Rheumatism is no longer the dreaded disease it once was. Rheumatism is no longer one of the "incurable diseases". "Fruit-a-tives" has proved its marvellous powers over Rheumatism, Sciatica, Lumbago—in fact, over all such diseases which arise from some derangement of stomach, bowels, kidneys or skin.

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50, trial size, 25c. or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

MUSSULMAN'S DUTY IS TO HIS FAITH

Berlin, Nov. 6.—(By wireless to Sayville, L. I.)—According to information given out in official quarters today to the press, the Sheikh-ul-Islam, the chief ecclesiastical dignitary of Mohammedanism in Turkey, has issued a decree in Constantinople saying in the fighting with Russia, England and France the duty of every Mussulman is to his faith. This decree has been spread throughout the Mohammedan world and announced to the pilgrims at Mecca.

RELIEF AT ONCE CURE CERTAIN

Conclusive Evidence That Dr. Chase's Ointment Cures Itching Piles

Mr. John G. McDonald, Pictou, N. S., writes: "I used Dr. Chase's Ointment for itching piles and found that the first application gave relief. After using a few boxes of the ointment I was completely cured and can recommend it highly to all sufferers from this disease. You have my permission to use this letter for the benefit of others."

Mr. James M. Douglass, Superior Junction, Ont., writes: "For about six years I suffered from piles, and often could not work for two or three days at a time, so great was the suffering from pain and itching. Doctors treated me in vain, and I tried many treatments before I came across Dr. Chase's Ointment. Two boxes of Dr. Chase's Ointment cured me, and for several months I have had no return of this annoying ailment."

There can be no doubt that Dr. Chase's Ointment is the most effective treatment obtainable for every form of piles. 60 cents a box, all dealers or Edmondson, Bates & Co., Limited, Toronto.

INDIVIDUAL AND GENERAL

Once a man gets the habit of buying things made in his own country, he gets a satisfaction that he never enjoyed before. It's a good bit of human nature not to care where things are made so long as they fit the case. But it's a better and a bigger part of selfish human nature to figure out how one's purchases help along the general movement of prosperity in his own country. In this co-operation between the individual and the general welfare, the personal effort of every man and woman counts when it comes to the big national push that gets the country out of the rut. Canada has a large army of workers to keep busy. The workers depend for their subsistence on thousands upon thousands of factories. The part played by one community in keeping up this great empire of business depends precisely upon how many individuals take hold of the movement. In all great popular movements it is the five and ten cent purchases multiplied by the thousands upon thousands of people that register the popular goodwill. A big subscriber may write himself down for thousands and forget it. A thousand other people may go down for a few dollars each and the world can never forget the result they get for it.

WANTED

WANTED IMMEDIATELY.—Furnished flat for winter months, must be fairly moderate. Good references given. Address A. Z., care Chronicle, stating rent and other particulars.

COMMERCIAL NEWS

NEW YORK MARKET.
 (Canadian Press.)
 New York, Nov. 6.—Two develop-
 ments of distinct significance were re-
 corded in the financial situation today.
 One was the rather free lending of 6
 months money at 5 1/2 per cent. on a
 mixed collateral, as against the long
 standing 6 per cent. rate, and the other
 was the sale of the New York City 6
 per cent. three year notes, which were
 issued at par, at a price to yield only
 4.08 per cent. Incidentally, commer-
 cial paper was accepted for the shorter
 periods at a fraction under 6 per cent.
 In line with this general improve-
 ment, it was also learned that the
 Stock Exchange authorities will with-
 in a short time order the removal of
 certain restrictions which have operat-
 ed against the purchase and sale of
 high class securities. It is not implied,
 however, that anything like regular
 operations will be permitted.
 Dealings in listed and unlisted
 bonds and notes were said to have ap-
 proached \$2,000,000, par value. Aside
 from the demand for city issues, the
 notes of several of the more promi-
 nent railway companies were in active
 request at prices returning from 4 1/2
 to 5 per cent. Listed stocks were
 higher in the unofficial market, and on
 the curb a majority of the Standard
 Oil issues were quoted at prices above
 July 30 closing quotations.
 Foreign Exchange was once more
 a negligible factor so far as London
 was concerned. Bills in that centre
 were virtually unchanged from the
 recent prices, but Paris cables and
 checks were sold at 510 1/2 and 511 1/4
 respectively. Recurrent activity in
 exchange of Italy was seen in the
 quotations for lire, which were sup-
 posed to reflect purchases of food-
 stuff and merchandise here for Italian
 interests.
 There was more than the usual di-
 vergence of opinion respecting the
 weekly cash movement, but on the
 surface it would appear that local
 banks have lost considerable sums to
 the sub-treasury. It remains to be
 seen whether this loss will be large
 enough to efface the excess cash re-
 serves built up during the preceding
 fortnight.
 Bank clearings of the country show
 little betterment, except in the agri-
 cultural sections and certain manu-
 facturing centres whose industries
 have benefited by sales of merchan-
 dise to the warring nations. Cotton
 continued to be one of the chief ar-
 ticles of export, but the sharp advance
 in marine war risks has had a marked
 tendency towards the curtailment of
 shipments to all foreign ports.

THE TORONTO PRODUCE MARKET
 Toronto.—Quotations are as fol-
 lows:
 Wheat, Ontario, No. 2 winter, \$1.08
 to \$1.10 outside. Manitoba No. 1
 north, old, \$1.26, do., new, \$1.24;
 No. 2 north, old, \$1.23 1/2, do., new,
 \$1.21.
 Oats—Canada western, No. 2,
 62c; No. 3, Canada western, 59 1/2c
 at lake ports for immediate shipment.
 Ontario, No. 2, white, 49c to 50c out-
 side.
 Corn—American, No. 2, yel., 79 1/2c
 c.i.f., Collingwood, on track Toronto.
 Peas—No. 2, \$1.40 to \$1.50.
 Barley—65c to 68c outside for malt-
 ing, and Manitoba, No. 3, cwt., 69c
 for feed.
 Buckwheat—70c to 72c shipping
 points.
 Flour—Manitoba, listed quotations
 at Toronto are: First patents, \$6.60
 Ontario, winter, 97 per cent. patents,
 \$4.40 to \$4.50 seaboard.
 Milled—Manitoba bran, \$23 to \$25
 per ton; shorts, \$27 per ton on track
 Toronto.

BANK OF ENGLAND.

NOTICE TO CONTRACTORS

The Commissioners of the Transcontinental Ry.
 SEALED TENDERS addressed to
 the undersigned, marked on the
 envelope:
 "Tender for Boilers and Stokers."
 "Tender for Feed Water Heater."
 "Tender for Steam Engines or Tur-
 bines."
 "Tender for Generators, Switchboard
 and Wiring."
 Will be received at the office of the
 Commissioners of the Transcontinental
 Railway at Ottawa, Ont., until 12
 o'clock noon of the 1st day of Decem-
 ber, 1914, for supplying and install-
 ing, in accordance with the plans and
 specifications of the Commissioners
 of the apparatus above mentioned, in
 the "Leonard" Locomotive and Car
 Shops plant of the National Transcon-
 tinental Railway, situated at St.
 Malo, P. Q.
 Plans may be seen and form of tender
 and specifications obtained at the
 office of Mr. W. J. Press, Mechanical
 Engineer, Ottawa, Ont.
 Persons tendering are hereby notifi-
 ed that tenders must be made on the
 printed forms supplied by the Com-
 missioners and that each tender must
 be signed and sealed by all the parties
 to the tender, and witnessed, and be
 accompanied by an accepted cheque
 on a chartered bank of the Dominion
 of Canada payable to the order of the
 Commissioners of the Transcontinental
 Railway, for a sum equal to ten
 (10) per cent. of the amount of the
 tender.
 The cheque forwarded by the party
 whose tender is accepted will be de-
 posited to the credit of the Receiver
 General of Canada, as security for the
 due and faithful performance of the
 contract according to its terms.
 Cheques forwarded by the parties
 whose tenders are rejected, will be re-
 turned within ten days after the sign-
 ing of the contract.
 Tenders should be enclosed in sepa-
 rate envelopes for each different
 type of apparatus.
 The right is reserved to reject any
 or all tenders.
 By order,
 P. E. RYAN,
 Secretary.
 The Commissioners of the
 Transcontinental Railway,
 Dated at Ottawa, October 26th, 1914.
 Newspapers inserting this adver-
 tisement without authority from the
 Commissioners will not be paid for
 such insertion.—69270.
 Oct. 31xwed, satx6.

MAIL CONTRACT.
 SEALED TENDERS, addressed to
 the Postmaster-General, will be re-
 ceived at Ottawa until noon, on Fri-
 day, the 4th December, 1914, for the
 conveyance of His Majesty's Mails on
 a proposed contract for four years,
 six times per week over a rural mail
 delivery route, to be known as: "De-
 lisle, No. 1," to begin from the Post-
 master-General's pleasure.
 Printed notices containing further
 information as to conditions of pro-
 posed contract may be seen and blank
 forms of tender may be obtained at
 the post offices of Delisle and Fleury,
 and at the office of the Post Office In-
 spector.
