CANADIAN-WEST INDIES SERVICE TO BE DROPPED

British Government Will Not Renew Contract With Pickford and Black Line.

Special to The Montreal Star.

Ottawa, April 20. The British Government has informed the Government of Canada that it will not renew the contract with the Pickford and Black line for a steamship service between Canada and the British West Indies. The service is now operated from St. John and Halifax and the contract expires on June 30. Heretofore each government has contributed $65,700 annually.

The British authorities have now entered into a contract for a direct service between the United Kingdom and the West Indies, however, and therefore do not consider the line by way of Canada of material benefit to them for mail purposes.

The West Indies Commission recommended a fast service from Great Britain to the West Indies by way of Canada, but to this the West India people strenuously objected. It is not known whether the Canadian Government will increase the subsidy and make up for the loss from the withdrawal of the British subvention, but there is considerable doubt about it.

All of the big steamship companies operating between Great Britain and Canada have applied for a share in the mail subsidy on the Atlantic service, the contract for which expires in May, 1912. It is now held by the Allan line, which has a sub-contract with the Canadian Pacific. No decision in the matter has been reached.

PEACE RIVER COUNTRY RICH.

Hon. F. Oliver Enthusiastic Regarding Northern Section.

Edmonton, Alta., April 20. Hon. Frank Oliver was the guest of the Canadian Club yesterday at a lunch, and gave an account of the country in the Mackenzie River basin.

"I took the trip," he said, alluding to the journey he made last summer, "to find out whether Canada still had vacant land to offer to settlers and with conditions which would be favorable to the making of their homes there."

He was enthusiastic, not only on account of what the Mackenzie Basin offered, but more particularly because of the Peace River country.

"There is a country," said Mr. Oliver. "Whatever questions there may be as to the possibilities of the Mackenzie, there is no question concerning those of the Peace River."

BAD WEATHER AT NEWARK POSTPONES MONTREAL'S OPENING

From a Staff Correspondent.

Newark, N. J., April 20.—For the first time since Newark has been represented in the Eastern League, rain prevented the opening game of the league season scheduled to be played between Montreal and Newark here to-day. Manager Ed. McCafferty, of the Royals was informed of the postponement at ten o'clock today at the King Edward hotel in New York where the visitors are putting up. A heavy rain all night and showers this morning, caused Joe McGinnity to declare the festivities off until to-morrow.

The biggest opening day fete ever planned in this city, and probably the biggest inaugural of any town in the Eastern League, has been planned for Newark. Sixty three amateur teams were scheduled to take part in the parade, all of them being provided with automobiles, and a general half holiday had been declared.

Reserved seats have been a premium for a month, and there was every indication that a record crowd, would be present at the formal dedication of the new Wiedenmayers' Park.

The programme, without change will be followed out to-morrow. Automobiles have been provided for owner Lichtenhein and his party of Montreal friends, and they are to follow the Montreal and Newark teams in the pageant.

Decorations in the windows of the shopping district and flags all along the line of march, were strung up yesterday, the Stars and Stripes and the Union Jack being used in the general decoration scheme.

Capt. Lew McAllister announced that Wyatt Lee, the star southpaw of the Newark Club, would twirl in the opening game, and that Cady, the promising young recruit from Evansville, will catch behind the bat. Yesterday the Newark team played a double header in Springfield, Mass., and won the first while the second game was called in the ninth to allow the Tigers to catch a train. The score of the first game was 4-3, while the second ended with the score 9-9.

The Montreal players saw the Brooklyn team go down to defeat before the New York Giants at American League Park yesterday.

Joe Yeager rejoined the Royals yesterday, and Young Savidge and Pitcher Burke reported. Sutton will probably pitch the opening game.

No Game in Jersey City.

Jersey City, N.J., April 20.—Eastern League's Rochester-Jersey City game postponed. Rain.

At Baltimore.

Baltimore, April 20. The adverse weather conditions of the past twenty-four hours gave way this morning to clearer skies, encouraging local fandom in the hope that the Eastern League baseball season would begin on time in Baltimore this afternoon, despite the prediction for showers. Toronto with "Wee Willie" Keeler, the former big leaguer, in right field, is the opposing team. The battery selected are Dygert and Egan, for Baltimore, and Mueller and Phelps for Toronto.

Mayor J. Barry Mahool will toss out the first ball, and the League's president, Edward Barrow, is expected to attend the game which will be preceded by the customary street parade of the players.

Rain in New York.

New York, April 20.—Weather permitting, the baseball programme in New York City, and its Jersey suburbs to-day, was one calculated to smash all records for a day of baseball "openings."

MANCHESTER PAPER AGAINST IMPERIAL COUNCIL SCHEME

Fears Such a Body Would Be Out of Harmony With Home Affairs.

Canadian Associated Press.

Manchester, April 20.—The Manchester Guardian to-day says that as far as Imperial defence goes, as much is to be said against as for the elaborated schemes aiming at common action, but on political grounds the arguments are definitely against formal, as distinguished from sentimental bonds of union.

"We can imagine," the Guardian continues, "a scheme of federation, in which questions of foreign policy would be settled by representatives of every part of the Empire with power to bind their constituents to definite expenditure and action, but it is difficult to imagine how such a federal council could act without impairing local control over home affairs. As far as we can see, your colonial Imperial council would lead to become a body out of sympathy with the home affairs of the various territories. The bifurcation of our domestic and foreign policy, one of the evils of our political status, would only be confirmed."

METROPOLITAN SONG BIRDS TAKE FLIGHT, LEAVING ONLY DELIGHTFUL MEMORIES

Operatic Engagement, Though Financially Unsuccessful, Assures Montreal of a Return Visit on Company's Next Tour—Last Night's Performance of "Butterfly" Another Artistic Triumph.

With the departure of the Metropolitan Opera Company from Montreal this morning, the greatest theatrical enterprise ever attempted in Canada comes to an end. It is morally certain, however, that the influence of the four performances given by the company will make itself felt for a long time to come. For the first time in Montreal's history, New York has recognized this city as a centre of art culture, not developed very far yet possibly, but promising things for the future.

The Metropolitan management, in deciding to visit Montreal, recognized that they would have to face several conditions militating against financial success. The large number of wealthy people away for the Easter holidays, the natural extravagance of the average citizen at Easter time, the Jewish Passover on Tuesday, and the drawing to a close of what has been the most expensive season the city has ever seen from a theatrical and musical standpoint, were all facts that promised to reduce, rather than to swell, their receipts.

Expenses Were Enormous.

When it is borne in mind that the total expenses of the Metropolitan management, from the time they left New York last Sunday morning, to the time of their arrival in Cleveland today will total between fifty-five and sixty thousand dollars, some idea of the financial burden of the enterprise may be obtained. Of course the receipts in Montreal simply meant a loss of thousands, every cent of which falls upon the Metropolitan Company. Notwithstanding this fact, however, the management are by no means discouraged. They are not of that type. Their mission is an educative one, and while the Metropolitan is not a philanthropic institution, it can face a deficit, if necessary, with equanimity.

The reception accorded the company here has convinced Mr. Gatti-Casazza and his colleagues that Montreal is a city with an operatic future, that people here have a genuine taste for grand opera, and that, properly fostered, that taste is capable of great development.

Consequently, despite the heavy financial loss their visit to Montreal has entailed, they are content, and more than content, with the artistic success achieved, and when the Metropolitan Company goes on tour in the spring of 1913 Montreal, it is assured, will again be the first city visited.

This news will come as a welcome and reassuring item to the many devotees of opera here. It shows that the city is to have its change, and the experience of the past three days has proved that the chance will not be allowed to pass by unappreciated.

The company's bookings in Atlanta, Ga., are already so large as materially to minimise the loss here, and will likely equal the total receipts of Montreal and Cleveland together. With a big financial success in Cincinnatti assured, the Metropolitan do not anticipate any heavy net loss on their tour this spring.

Montrealer's Debt.

Montrealers owe to Mr. L. M. Ruben and Mrs. Lawrence, of the Windsor Hall, and to Mr. D. S. Walker, of His Majesty's theatre, the pleasure of the past three evenings. But for the enterprise of these three, Montreal would never have heard the Metropolitan Opera Company this season, and probably not for several seasons to come. Mr. Walker's devotion to the cause of art, will doubtless find ample reward in stronger local support for the Montreal Musical Society's grand opera company, during the fall, for he pins his faith on the influence exerted by the visit of the Metropolitan towards this.

His Majesty's Theatre management merit the gratitude of every opera-lover, for the really gigantic efforts they have put forth, in order to ensure that the Metropolitan productions should be seen to the best possible advantage here.

To the indefatigable devotion and the artistic genius of Mr. Seidl, the remarkable stage manager of the Metropolitan, is due a generous tribute for his really superb achievements. There is probably not another man in the world, who could have achieved as much in the face of such difficulties. The generous public appreciation of his work was his best reward, as he himself admits.

AMERICAN SONGSTRESS WHO CHARMED AS "BUTTERFLY."

GERALDINE FARRAR.

GERALDINE FARRAR'S "MADAM BUTTERFLY" AN ARTISTIC DELIGHT

It is a peculiar pleasure, in these days when the press generally on this side of the Atlantic is accused of favoring foreign artists and frowning upon native artists, to pay tribute to the sterling merit and illuminating art of Geraldine Farrar. After having seen her Butterfly at His Majesty's last night, on the occasion of the final performance of the Metropolitan Opera Company, one can easily understand why her own people take such pride in this singer, and why Europe esteems her great. Any nation might well be proud of an artiste who can interpret such a role so enthrallingly, with such profound sympathy, such grace, such charm. Her Butterfly is a double triumph—a triumph for the singer, and a triumph for the woman. Henceforth she can count on Montreal opera-goers as her whole-hearted admirers and friends.

Lest this should appear in the eyes of some to be indiscriminating praise, the writer proposes to analyze Miss Farrar's Butterfly in some detail, in order to indicate its many beauties, and to justify his verdict.

* * *

In the first place, there is the absolutely impersonal note. Miss Farrar is Butterfly from the moment she appears round the bend of the path leading to the cottage on the hill above Nagasaki to the moment when she rolls down the steps in that cottage, dead. There is never the slightest suggestion of Farrar either in vocal or dramatic appeal. She sinks her own individuality entirely, and to splendid effect. All the fascination, all the pathos, all the tragedy of a great love and a great faith are epitomized in her lithe, swaying, graceful form, her pretty gestures, her extraordinary voice. Only great artists can submerge their own individualities thus.

It is, of course, complementary to this that there should be, in her impersonation, no conscious or obvious striving after external effects. She has grasped the Japanese spirit, and she portrays that spirit. With but one notable exception, which will be discussed later, she is never theatrical. Hers is no mere sentimental study, but a convincingly natural, artless presentation of an elemental nature.

She is highly successful in creating atmosphere, and there is ample evidence, that she has carefully studied the possibilities of the role. At times she appears to be rather neglectful of detail, however. For instance, she does not seem to make much, to indicate sufficiently clearly the significance, of the incident in the first act when Butterfly shows her few girlish possessions to Pinkerton. But throughout this first act Miss Farrar seems to aim directly and solely at one idea—to convey to her audience a picture, at once vivid and realistic, of the little Japanese girl with thoughts for nothing but the man she loves. That she achieves this end is beyond doubt, so perhaps the minor points may be dismissed.

The fluttering little soul, bubbling over with youth and happiness, becomes a fascinating creature of mood with the disappearance of all her friends and relations, and with this change, effected with a subtle art that neither jars nor makes itself obvious, Miss Farrar passes imperceptibly from the note of lighthearted irresponsibility to the deeper note of passionate love.

It is a remarkable artistic achievement. Manner, gestures, attitude—all take on a new significance; her voice, which up to this point has suggested the merry little child of Japan in its lightness, its airy grace, takes on a deeper color, a richer tone, a fuller, more sensuous quality, until at last it soars up, thrilling, throbbing, passionate and glorious in the magnificent love-music which brings the act to a close.

"Dolce notte! Quante stelle!
Tutto estatico d'amor ride il cielo."

It is a rapturous burst of song, and as the melody is gathered into the superb climacteric phrase, the last vestige of the earlier Butterfly passes, and the new Butterfly stands fully revealed.

* * *

This is art of the highest type, and in the second act Miss Farrar develops the idea. The keynote of her Butterfly in the first part of the second act is a faith so unquestioning, so impatient of any shadow of doubt in others, so beautiful in its simplicity, its appeal goes direct to the heart of every listener. Here again the triumphant voice conveys the idea, even more fully than the eloquent gestures of absolute incapacity to waver in a fixed belief. Her singing of the passage in which she pictures her husband's return, "Senti. Un bel dì," is so instinct with the complete trust born of a great love, that its pathos grips the heart. And when, invincible still against the hint of Sharpless, the Consul, she brings her little child to him, and between her caresses, describes to the child in exaggerated baby-talk what Sharpless has hinted, so thrilling with mother-love is her voice, and so vibrant with passionate pride in the child, it is almost overpowering in its poignancy. There were many eyes dim with tears when Miss Farrar had concluded this lovely passage, and those tears were the tribute of which she ought to be most proud.

* * *

There was one other feature in this scene that merits mention. When, on making sure that it is Pinkerton's ship which is signalled in the harbor, Butterfly and Suzuki begin to decorate their humble cottage with floral emblems in welcome, there is a situation which is often spoiled by inability on the part of the artist playing Butetrfly to maintain the strict impersonal note. We have seen Butterflys in Montreal who strewed the flowers as if they were engaged in some flower-dance and were saturating themselves in the rhythm of the music. Miss Farrar runs no risk of giving any such impression. She emphasises, on the other hand, the one thought uppermost in Butterfly's mind—the man she loves has come back again, and the occasion is one to be celebrated by strewing flowers that shall be to him a sign of welcome. This is conveyed in her movements and in the note of exultation in her voice—a thrilling paean of rejoicing.

She wastes very little time with the toilet-box, just giving to the incident the necessary significance and no more. Thus she succeeds in conveying more forcibly the idea of her impatience to begin the vigil until Pinkerton shall come—a clever and most effective touch.

* * *

Up to this point Miss Farrar's art is worthy of all praise. It seems incredible that she should elect to present the final scene in a manner that positively brings it to a considerably lower level than those preceding it. Her farewell to the child is most tenderly and beautifully sung. Then she puts the little one out into the garden and tells it to run away and play. Suddenly turning towards the audience, she stabs herself, falls, and rolls down the flight of steps into the middle of the room.

This is melodrama. It is an absolute departure from Puccini's directions in his opera, which provide for the ending usually seen, where Butterfly bandages the child after having placed the American flag in its hands; then goes behind a screen and stabs herself, out of sight of the audience, and staggers out towards her child to die, a scarf tied tightly around her throat to prevent her from crying out in her death agony. The latter is in strict accordance with Japanese tradition. It is also more in keeping with the spirit of the opera. The placing of the flag in the child's hands may be objected to by some people, but properly understood, it is every bit as legitimate a dramatic feature as the reiterated use of a few bars from the "Star-Spangled Banner" which occur repeatedly throughout the operatic score.

Miss Farrar's straightforward stab, fall, and acrobatic roll down the steps is the one false note in the whole. It is an entirely unnecessary bit of theatricality, weakening the tragedy of the finale, and one can but wonder why she does it. There is nothing in her conception of the role up to that point that gives the slightest indication as to her reason. There are, as has been shown above ample reasons why she should change this death-scene.

* * *

This one feature apart, her Butterfly is a figure of tremendous poignancy, fascination, and realism. She uses her voice—which possesses an upper register of magnificent sonority, richness, and purity, and which is an organ of exceptional brilliance, freshness, smoothness, and color,—with a skill commensurate to her histrionic art, and she combines voice and action with impeccable judgement. Her Butterfly is an impersonation of beauty in the highest sense, of which her people have every right to be proud, and which must prove a source of unfailing delight everywhere.

* * *

One can conceive of nothing more satisfying than Signor Scotti's Sharpless. Like every role this artist undertakes, it is instinct with sympathy, with clarity, and with power. The warmth and richness of his splendid voice are admirably displayed, and in his interview with Butterfly in the first scene of the second act his finished art reveals in a score of exquisite touches. His fondling of the child was one. It was so natural, so suggestive of his appreciation of the pathos of the scene. The whole effect of his pourtrayal of the role may be summed up succinctly in the statement that one would hardly care to see any other Sharpless now.

* * *

Again Mr. Riccardo Martin proved disappointing. One could understand his failure to meet the requirements of "Celeste Alda," but that he should adopt such a frigid attitude throughout almost the whole of "Madam Butterfly" seems incomprehensible. He did admirably in the airy persiflage of the first half of the first act, in his duets with Sharpless and in the dialogue with Butterfly. His great robust tenor voice was displayed in all its purity and strength. But when it came to the finest music of the act, he simply walked through the part. The singing was done, and as voice production it was fine, no doubt. His high notes are thrilling in their volume and power, but where is the feeling? Here is music as tenderly passionate as any in modern opera, music instinct with the call of sex to sex, yet Mr. Martin sings it as if it were a story he was reciting with nobody present. Until he can infuse the elements of passion into his singing voice, his Pinkerton will never succeed as an artistic achievement. In the last act he managed to suggest some sense of remorse, though it was not at all clear or very convincing.

* * *

Mlle. R'ita Fornia merits warm praise for her sympathetic and effective presentation of Suzuki,—a role she illuminated without over-accentuating its significance.

One might have expected the Metropolitan management to keep Kate Pinkerton in the garden. The intrusion of Pinkerton's wife into Butterfly's little house is an artistic outrage, unnecessary from any standpoint, and grates on one's sense of fitness. As the management did cut the dialogue between Kate Pinkerton and Butterfly, why not elliminate it in its entirety? At the same time, it must be said, in justice to Miss Leonora Sparkes, that she softened the brutality of the thing wonderfully by her admirable suggestion of hesitating shyness and subtle expression of dumb sympathy shown in attitude and gesture.

* * *

The orchestra, under Signor Podesti, accentuated the poignant dissonances of the score, and also brought out fully its wealth of coloring and its potent suggestiveness. One is inclined to think, however, that our own Signor Jacchia gets nearer to the real Puccini spirit than Signor Podesti.

* * *

In the afternoon "Faust" was given, in response to French-Canadian request. "Faust" should be finally buried. We have outgrown its artificialities and its trickery. The production was uneven. Carl Jorn in the title-role sang finely, but his acting was limp. Adamo Didur's Mephisto was a pungent, poignant, sardonic thing, unconventional, not always authoritative, by no means dignified—but then why should the Devil be dignified?—and very interesting. His voice is a delight. So is that of Dinh Gilly, whose work as Valentine was superb. Miss Bella Alten was the Marguerite. She has a voice of lovely quality, but her conception of the role is not yet authoritative or convincing. Miss Jeanne Maubourg, as Siebel, did well. The orchestra and the chorus were admirable throughout.

THE SOCIAL WORLD

Nicolson-Hamilton.

The marriage of Miss Emma Hamilton, daughter of Mrs. J. B. Hamilton, Stanley Street, to Mr. R. L. Nicolson, of Edmonton took place quietly at Dominion Square Church at half-past six o'clock last evening. The ceremony was performed by the Rev. E. I. Hart. Mrs. Frank Hodgson played the wedding march, and during the signing of the register Mr. R. Dumbrill sang a solo. The bride, who was given away by her brother, Mr. John Hamilton, wore a gown of cream crepe de chine over taffeta with a tulle veil caught with orange blossoms, and the bridegroom's gift a pearl sunburst pendant. Her bouquet was composed of white sweet peas and lillies of the valley. Her only attendant was her sister, Miss Ella Hamilton, who wore a gown of pink satin with an overdress of pale pink chiffon, and a large white hat trimmed with white plumes and corals, she also wore the bridegroom's gift a bangle bracelet, and carried pink sweet peas. Mr. W. B. Boucher was best man and Mr. James Hamilton, brother of the bride, and Mr. E. Stanley Day were the ushers. Mrs. Hamilton, mother of the bride, wore a gown of black satin veiled in black point d'esprit, and a small black moire hat with willow plumes. Mrs. Margaret Nicolson, of Boston, mother of the bridegroom, was gowned in grey silk with a grey hat to match. Miss Nicolson, of Boston, aunt of the bridegroom, was wearing black. Mr. and Mrs. Nicolson have left on a trip to New York, the bride travelling in a costume of blue chiffon broadcloth, and black hat with pale pink roses and black and white ribbon.

Bain-Milburne.

A quiet wedding took place last evening at half-past six o'clock in St. George's Church, when Miss Lillie Forrester Milburne, eldest daughter of Mr. and Mrs. R. J. Milburne, was married to Mr. Archibald Douglas Bain, son of Mr. and Mrs. E. Bain, of Montreal. The bride was attended by her sister, Miss Blanche Milburne, who wore a grey costume and carried pink roses. Mr. James T. Bain, brother of the bridegroom, acted as best man. The bride, who was given away by her father, wore a navy blue travelling suit with hat to match, and carried a shower bouquet of white roses and lilies of the valley. The ceremony was performed by the Rev. W. Stevenson Major, assisted by the Rev. R. J. Ascah. Mr. and Mrs. Bain have left for a trip to New York, Washington and Virginia. On their return, they will reside on Old Orchard avenue, Notre Dame de Grace. The bridegroom's present to the bride was a pearl and diamond brooch; to the bridesmaid, a pearl and peridot brooch and the best man received a diamond and pearl scarf pin.

Tea and Sale at Mrs. Lighthall's.

At the residence of Mrs. W. D. Lighthall, Murray Avenue, a most successful tea and sale was held by the Westmount branch of the Zenana and Medical Missionary Society in aid of the Canadian Hospital at Mas.k, India. Mrs. Lighthall received with Mrs Lang, president of the society, Mrs. Hugh Brodie, treasurer, and Mrs. Louis Smith, secretary. The candy table was in charge of Mrs Harris, assisted by Miss Barridon. Miss Cream and Miss Madge Crock, while Mrs. Bishop, assisted by Mrs. Lester and Mrs. Teskey presided at the "home-made" table. The decorations were arranged with daffodils and greenery in the tea room, where Mrs. MacMaster and Mrs Still poured tea and coffee, assisted by Miss Margery Hodgson, Miss Buchanan, Miss Crock Miss M. MacFarlane, Miss Millen, the Misses Elsie and Grace Harling, Miss Henriette Gnaedinger, and Miss Alice Lightall.

Mrs. Reddy's Reception.

Mrs. H. Lionel Reddy, formerly Miss Ethel Poole of Charlotte, received yesterday afternoon, for the first time since her marriage, at her residence, 705 Dorchester street. The rooms were prettily decorated with pink roses, carnations and greenery. The bride, who was wearing a gown of pale mauve crepe de chine, was assisted in receiving by Miss Eileen Reddy, gowned in pale blue satin, with an overdress of pale pink nimon. In the tea room the table effectively arranged with pink flowers in silver and crystal vases, was presided over by Mrs. C. P. Hill, and Mrs. John Barrett, assisted by Miss Barrett, and Miss Helen Warburton, of Charlottetown. Mrs. Reddy is receiving again this afternoon, with Mrs. William Wheeler, and Miss Reddy in charge of the tea table, assisted by Miss Donkin and Miss M. Barrett.

Rogers-Hurd.

In the presence of a large number of friends the marriage was solemnized at St. Edward's Church yesterday morning of the Rev. D. B. Rogers, rector of St. Luke's Church, and Miss Florence Hurd, daughter of Henry Hurd, University street. Rev. Rural Dean Sanders assisted by Ven. Archdeacon Ker, of Grace Church, performed the ceremony. The bride was given away by her father, and her only attendant was her sister, Miss Maud Hurd. Mr. Hincheliff was the best man. Miss Devey played the wedding march, and the choir sang. At the conclusion of the wedding service Holy Communion was celebrated. Mr. and Mrs. Rogers have left for Ottawa where the honeymoon will be spent.

Linen Shower for Miss Ritchie.

Miss Pearle Cooke, Arlington avenue, was hostess at a linen shower given in honor of her cousin, Miss Gertrude E. Ritchie, whose marriage to Mr. Baxter E. Hurlbut, takes place on April 26th. Miss Cooke will be maid of honor.

SIR WILFRID AND IMPERIAL CONFERENCE

London Morning Post Comments on Premier's Probable Absence

Says if Mr. Borden Keeps Sir Wilfrid in Ottawa His Purpose Will Be Well Understood.

By Special Cable From Our Own Correspondent.

London, April 20.—Increasing the possibility of Sir Wilfrid Laurier's absence from the imperial conference the Morning Post leader says:

"If Mr. R. L. Borden sees no reason to do this time what he did in 1907, to facilitate Sir Wilfrid Laurier's attendance, his action will not be misunderstood.

"Imperially, it is of far greater importance that the Reciprocity Bill, under which Canada is made to purchase the privilege of preference against the rest of the Empire in a foreign market, should be resisted, than that the statesmen responsible for it should attend the Imperial Conference.

"Committed to the American policy Sir Wilfrid could not be expected to show himself more favorable to the projects of closer union for defence, consultation, or naval defence, than at previous sessions when he was free from any such entanglement."

The introduction at Washington of the so-called Farmers' Free List Bill. The Post declares, seems to observers here to vindicate those Canadian critics of the agreement who declared that Canada had only to sit tight in order to get for nothing the same tariff reductions which, in the view of the paper, Sir Wilfrid Laurier has agreed to purchase at the cost of Imperial unity. WINDERMERE

CRITICISM FOR THE BRITISH LIBERALS OVER CONFERENCE

Canadian Associated Press.

London, April 20.—The Sheffield Telegraph to-day says that this year, as in 1907, the Liberal Government's true to the old Liberal tradition and merely regards the Imperial Conference as an unavoidable nuisance and a regrettable necessity inflicted from its political opponents, which it is compelled to tolerate, but which it means to do its best to depreciate and ignore.

The Premier, who is nominally the president, will only preside when other duties permit, and in his absence his place is to be taken by the pleasing, but not pressed, imposing figure of Rt. Hon. Sir WalVernon Harcourt.

On the same principle the Imperial Government will ignore the things that matter and will merely invite the Conference to discuss three or four subjects quite subsidiary in importance.

One immediate consequence of this deliberate trifling with great Imperial problems, the Telegraph declares, is the absence of Sir Wilfrid Laurier, who simply does not think it worth while to attend unless the progress of the reciprocity agreement leaves him nothing more important to do.

Both the probable scope of the Canadian Premier and the reason for it the Telegraph considers throw curious and much needed light upon the outlook for the future of the Empire. The reciprocity agreement, it says, is a measure inevitably of an anti-Imperial tendency, and that tendency is even more plainly visible in the naval policy of the dominion.

GOHIER IS HELD UNTIL AUTOPSY RESULT IS KNOWN

Leonide Arpin Was Hurt in Fight, and Coroner Will Investigate Death.

The Coroner's inquest in the case of Leonide Arpin, who died at the Hotel Dieu yesterday, was not held this morning. The autopsy will take place this afternoon and the inquest to-morrow and upon the findings of the Coroner, will be decided who the Alexandre Gohier will have to face a more serious charge than common assault.

On the 15th day of December last, Arpin was assaulted at a saloon kept by Mrs. Semenzi, at the corner of Saguenay street and Laurier avenue, by a man who is supposed to be Gohier. There appears to have been a glass and a take fight, and although Arpin got the worst of it, he was not considered sufficiently hurt to be taken to hospital.

He was attended to by Dr. Lauzon, of 449 Mount Royal avenue, but his condition gradually grew worse and he was taken to the Hotel Dieu last week.

Gohier was arrested and is now out on bail, under two securities of $200 each, and he will appear again before Judge Bazin on Wednesday next.

REPORT SMALLPOX IN NEW DISTRICTS OF THE PROVINCE

Eight Cases in Bonaventure, Quebec, Champlain and Nicolet Counties.

The Provincial Board of Health officers are having a busy time at present owing to the small pox cases. Today eight new cases were reported to the above Board and the disease seems to be increasing daily. The cases are reported in the County of Bonaventure, Quebec, Champlain and Nicolet.

Dr. [illegible] Provincial Secretary, received from Provincial Board, letters from Nicolet, Quebec, and reports that from information that he received which there, there had been cases of small pox in that district since last fall. This announcement has caused some uneasiness amongst the authorities, and now officers are making investigations.

In the eight new cases reported to the Provincial Board, the houses have been ordered to be put under quarantine at once and guards are being placed outside the residences to see that all the cases are isolated.

"If the [illegible] Dr. Pelletier, "in the case of Bonaventure county, or Dr. Pelletier, in the case of Nicolet, will not report to physicians or people in charge of the patients should be punished. There is a custom which does away with the excuse of 'we did not know that it was small pox' which families constantly give when caught. This latter reads as follows:—So long as the present by-law will not have been repealed by municipal council, any householder shall report to the municipal sanitary authority any case of skin eruption, occurring in his house unless the patient has been seen by a physician, and that the latter has positively established that the case is not one of small pox. The report to the municipal authorities will have to be made within the twelve hours following the first appearance of the eruption. For any infraction of the present by-law the offender will be liable to a fine of $20.

"If this by-law was executed, and the residents vaccinated, we would have no fear for any small pox outbreak."

There are no cases reported in the city of Montreal, and the patient in Verdun is reported to be progressing favorably.

HELPS SCOUTS TO ATTEND CORONATION

Lt.-Col. Jeffrey H. Barland, who is just leaving for England, has, with a generous donation, headed the fund to defray the expenses of the local contingent of Boy Scouts for the Coronation, and it is now hoped that those interested in the movement will respond in order that the full quota of twenty-five boys can be sent.

King George has given a generous contribution to the headquarters of the Scouts' movement in England, and with this money an Efficiency Competition is being inaugurated. It must be decided in Canada before September 20, which is the most efficient troop, and this troop will then be designated the "King's Troop of Canada," which title it will hold for a year. The winning troop will also hold a challenge standard, and the scoutmaster and assistant scoutmaster will be presented to the headquarters in London with a special badge of merit.

ALD. CARTER'S COAT IS OFF IN THE FIGHT OVER EXPENSE BILL

Ald. Carter announced to-day that at the caucus of aldermen on Monday morning he intended to have a thorough enquiry made into the $9,000 bill that the city is asked to pay for the aldermanic delegation which went to Quebec to fight the tramway bill.

"I shall ask, for instance," said Ald. Carter, "how it happened that the Mayor charges $1.50 for a dinner at the Chateau against the corporation. I shall enquire just how the city is asked to pay $1,200 for taxi fares for the delegates. I shall ask if any steps were taken by the city to see that only influential citizens were given free rides."

Ald. Carter said that he would also enquire how it happened that certain aldermen were charging the city over two hundred dollars, in addition to their railway fares, for fighting the tramways measure. He cannot understand how any member of Council could get away with such a big amount in a few days.

Another member of Council will make the demand that the $9,000 shall not be paid unless every member of Council gives a detailed account as to how he expended the city's money.

NEW SCHOOL OPENED THIS MORNING

Great Attention Being Paid to Fire Drill—Cooking and Needlework Classes.

The new William Dawson School, at 350 Christopher Columbus street, which replaces the Berri street school was opened to-day with about three hundred pupils in attendance. The six teachers and the principal had a busy time organizing the classes which include cooking and needlework.

Much attention is being given to fire drill, despite the fact that the school is equipped with the latest type of fire escapes. The ventilating is of the most improved kind, and the school has been built so that it can be enlarged at any time.

Owing to the absence of several members the meeting of the Board of Protestant School Commissioners had to be postponed until Saturday. Rev. Dr. Barclay, chairman, said there were many matters which required immediate attention.

NURSE FOR THIRTY-FIVE YEARS, DIED AT HOTEL DIEU

The death of Miss Philomen Forest, 55 years old, took place at the Hotel Dieu last night. For 25 years she has been engaged as a nurse in the institution.

BRITAIN WILL NOT INTERFERE IN MEXICO

Foreign Office Makes Definite Statement as to Policy

London, April 20.—William James Thorne, labor member in the House of Commons for the South Division of West Ham, appears to be the only man in Great Britain who attaches the slightest credence to the special newspaper despatches from Washington, since a ring that joint British-American action is contemplated in Mexico.

In the House this afternoon, Mr. Pickersgill put the Foreign Office when that the report was true and proceeded to put the question again.

Under Secretary Wood also denied the suggestion that representations had been made to the United States Government that Great Britain's recognition of the Monroe Doctrine was conditional upon the power of the United States Government to maintain its paramountcy on the American continent and to protect established British interests.

Mr. Wood added that except for a few isolated cases in which the British Consuls in the affairs had applied to the Mexican Government for protection the Foreign Office had received no complaints that British interests were affected.

SHOT FIRED FROM U. S. CUSTOMS HOUSE?

Douglas, Ariz., April 20.—The details of Minister De La Barra's response to President Taft's protest against the entry into Douglas by the Mexican federal troops and rebels were received here today.

One of the items of Senor De La Barra's is that Lieut. Troncoso, of the Mexican federal army was wounded by a shot from the United States Custom House, that shots came from this Custom House constantly during the struggle, and that it was not plain whether the shots came from revolutionists who might have taken possession of the Custom House or from American sympathizers with the revolution who were present in the United States building.

COLLISION NEAR KEMPTVILLE TO-DAY

Two Railway Employes Terribly Injured When Engine Crashes Into Freight Caboose.

Smith's Falls, Ont., April 20.—A collision took place on the Canadian Pacific Railway this morning at 4 o'clock, at Hayes P.O., two miles east of Kemptville. A freight train in charge of Conductor Elsie Woodmark, with James Asselford as brakesman, was going east. Following it was a light engine returning to Montreal in charge of Engineer W. O. Dales and Fireman W. McCoun. The engine was going at high speed and a curve in the road hid the freight from view until they were almost together.

It was too late to bring it to a stop and it crashed into the caboose. The engineer and fireman jumped and escaped injury. Woodmark and Asselford, who were in the caboose, were caught and were terribly injured about the head and face.

Dr. Anderson went down from here with the ambulance and brought the injured men back to the hospital here. The engine was damaged and the wreck caught fire. The caboose and one car were burned.

LICENSE COMMISSION HEAR TRANSFER REQUESTS

A meeting of the License Commissioners is being held this afternoon to consider the following transfers:

From L. Archambeault to W. Dufour, 1285 Notre Dame West.

A. Bessette to A. D. Bertholet, Abattoir.

A. Brabant to P. Theoret, 471 Craig street.

There was no opposition to the above requests.

S. Abrahamson, who has a license for a hotel near Chaboullez Square, asked to be permitted to transfer his place of business to 131 Common. This matter was held over for a few days there has been some opposition made to the transfer and the Commissioners wished to investigate before granting permission for a change in location.

NAMED A CANADIAN TRADE COMMISSIONER.

MR. W. J. EGAN.

Ottawa, April 20.—Mr. W. J. Egan, of Montreal, has been appointed Canadian trade commissioner at Manchester, vice P. B. McNamara, deceased.

Mr. Egan has had twenty years experience as a commercial man, and is past president of the Dominion Commercial Travellers' Association.

POLICE DALLY, TRAP IS SPRUNG, MAN IS DEAD

Penniless Wife Praying for Warrant Gets Letter

While her husband was deliberately building a trap and arranging a noose to hang himself, Mrs. Joseph Bourdon, an wife of farm, went to the Recorder's Court office Tuesday, and asked officials to intervene, to arrest him, or do anything to save his life.

She did not have $3 for a warrant, so the officials after due deliberation sent the man a letter asking him to explain his conduct. That was the best thing they could think of.

At 5 a.m. yesterday, Joseph Bourdon was found hanging to the noose, and quite dead.

Today, many hours after Joseph Bourdon had tightened the noose about his neck, a bailiff leisurely approached the house, at 1119 Papineau avenue, with the official document, asking Joseph Bourdon to explain his conduct. His tearful widow had to explain that Joseph Bourdon was dead, long dead.

Another unexplainable fact was the failure to cut down the man's body or try to restore animation. Neither the neighbors nor the police attempted to cut down the body until the morgue officials arrived and found a group of helpless people surrounding the dangling corpse.

They seemed to think there was a law against touching a body until the morgue people arrived on the scene. The discovery of the body was made by Bourdon's five-year-old son, who rushed to obtain help. Bourdon's brother-in-law telephoned the police and the morgue. By the time the men from the morgue arrived, there was no sign of life. This morning Coroner McMahon declared "The first duty of anyone finding a person under such conditions, is to cut down the body and try to restore life. Too many people seem to think that nothing should be done till the police or other officials arrive. There is no law to such effect."

No apparent reason appears why Bourdon should have taken his own life other than a fit of despondency brought on by his hard drinking. He has had steady work and earned good wages. He leaves, besides his wife, three young children, a boy and two girls.

POPE IS WARNED AGAINST EXERTION.

Special to The Montreal Star.

Rome, April 20.—Pope Pius X. is somewhat indisposed, and has been cautioned by his private physician, Dr. Giuseppe Petacci, to avoid over exertion.

His Holiness, however, has refused to change from his daily routine, and to-day celebrated mass, and gave a few private audiences.

WATER COMPANY'S OFFER COMES DOWN FROM SEVEN MILLION

It was stated by Ald. N. Lapointe to-day that he would call a special session of members of the City Council next week to again open the question of the city buying out the plant of the Montreal Water and Power Company. New proposals would be made to the city in regard to the contemplated purchase. So far the city had been asked to pay about seven millions for the plant; but this sum would be materially reduced, while an offer would be made that the corporation should buy the bonds of the company for about a million dollars.

There would be invited to this meeting members of the Board of Control, members of the City Council and representatives from the company. Ald. Lapointe was of the opinion that this time amicable arrangements would be arrived at with the city.

ONLY WINDOW BARRED LED TO FIRE EXIT

Others in Factory Were Clear, This One Nailed Up

Further investigations of factories in regard to fire escapes have brought to the notice of Chief Tremblay of the Montreal Fire Department many curious conditions.

A captain reports that a four storey factory in which many people are employed had all the windows open save the one leading to the only fire escape. This was found nailed up, and would require considerable exertion and work to open.

Why this only means of escape on the top floor should be thus made secure was explained. It was stated that employes were in the habit of skipping out between working hours by way of the fire escape. To prevent this it was thought advisable to nail up the window without thinking that the lives of the people working in the factory would be imperilled in case a fire should break out.

Other instances were found where piles of boxes and other materials were piled up against the windows leading to fire escapes. Machinery was also found blocking another exit, which if in motion, should fire break out, would be a great danger in the event of a crush by an excited crowd of workers.

PAVING MAY BE LONG DELAYED BY INJUNCTION CASE

The Board of Control was informed to-day that an injunction was threatened against the city in connection with the paving of streets which is to be undertaken this summer. It is feared, by members of Council, that the entire paving works may be held up.

Mr. Louis Skaife, contractor, waited on a member of the Board of Control in regard to the matter and pointed out that while the Legislature, at its last session, had enacted that proprietors must pay for permanent pavements on which fronted their properties, nothing whatever was said as to who should pay for paving of the intersections of streets. In other words it is now claimed that street intersections do not front on any particular properties, but belong to the city. In addition to this the contention was made by Mr. Skaife that the law was drafted in a manner that made it illegal for the Board of Control to pay for sectional intersections.

The Board of Control to-day had a long discussion in regard to this question. It was decided that it should be more thoroughly discussed at a later meeting. As stated, an injunction is threatened should the city decide that proprietors must pay for intersections. The fear is expressed that should an injunction be taken out so much time would be wasted, even should the city win, that paving works would be seriously delayed this year.

MR. W. F. MACLEAN BEREAVED

Mrs Maclean Died Suddenly in Toronto, Aged 52 Years.

Toronto, April 20.—Mrs. W. F. Maclean, wife of the M.P. for South York, died suddenly last night, after a short illness, at the family residence Donlands Farm, east of Toronto. The deceased lady, whose maiden name was Catherine Gwynne Lewis, was 52 years of age.

Mrs. Maclean, in the afternoon had been out driving. Shortly after dinner she fell in a faint and passed away in a few minutes. Death was caused by the sudden formation of a blood clot.

Mr. Maclean and Miss Maclean were at home at the time.

Mrs. Maclean had spent the past three months in the city and only returned to the country a week ago. She had been in delicate health for some time, but always able to be about.

CONVICTS GET MONEY AND LIQUOR TOO

Investigation Continues Into Penitentiary Discipline

It looks as if the Dominion Prison Inspector Stewart would have several days' work yet before he can return to Ottawa, for new things are cropping out in the penitentiary at St. Vincent de Paul.

The latest cases under investigation are those of two guards, who were found soundly asleep at their posts in the night.

The matter of trafficking with prisoners, seems to have been much more serious than was at first supposed.

In the case of an employe now under suspicion, it appears that his case had been turned over to the Dominion Police Office, and that Col. Sherwood has had him shadowed for months. It was found that the man in question used to constantly visit the wife of a prisoner who lived in Montreal. After one of these visits it was found out that the wife had given the prison employe money and tobacco. After allowing a few hours to elapse after his return, the prisoner was searched and the money and tobacco found on him.

Other cases are said to be under surveillance, but the most flagrant case of them all was that of the guard who tried to start a little saloon of his own inside the penitentiary, with one of the prisoners as a partner.

It appears that he managed to bring in a big square gin-bottle filled to the top with overproof highwines, without anyone seeing it, and hid it in the snow-covered coal-pile in the yard.

His partner, the prisoner, removed it when he thought no one was looking, but another guard saw him.

After the prisoner had gone back into the prison an investigation was made, and the shape of the bottle was quite visible in the snow. Then the prisoner was searched, and the liquor found. The guard who brought in the stuff was discharged.

ENROLL 1700 AS TAG DAY WORKERS

Organizers Believe That the Necessary $35,000 Will Be Raised Next Saturday.

Already 1,700 workers have been enrolled to campaign the city on Tag Day, next Saturday, in aid of the school for the blind. Generous contributions have also been received to aid in the work. The advertising signs which to-day appear on the street cars were donated by Mr. Ralph Campbell, son of the celebrated educator of the blind. Sir Francis Campbell. The special Tag Day buttons have been taken to schools in Montreal, St. Lambert and Montreal West and will be sold on Friday at five cents each. There are many pennants for sale and orders for them can be telephoned to Uptown 5941. It is hoped that automobiles and other vehicles will be specially decorated on Saturday to make Tag Day as gay as possible.

Addressing the captains and chaperones who have enlisted for the work, Mr. Philip E. Layton, emphasized the necessity of a setting apart a building for the education of the blind, making them useful and self-supporting citizens. Tag Day, Mr. Layton remarked would be a wonderful demonstration of what the women of Montreal can achieve. He emphasized the fact that the Association wants to raise $35,000, as when that sum is obtained Lord Strathcona has promised $5,000 which will complete the $100,000 fund.

In the Church of the Redeemer and the Methodist Church, St Paul ward, the women have arranged to make a vigorous canvass of the latter ward and Emard ward. Mrs. Smith has been appointed captain and Mrs. Gomery, chaperone of the district.

Mrs. Gourden Dies Suddenly.

Mrs. Gourden, 74 years old, was stricken with heart failure while reading a newspaper last night and died almost immediately. She was living with her sister at 1052 Berri street.

JURY TRIAL IS CHOICE OF C. D. SHELDON

Held for Court of King's Bench, June Term

Pleads Not Guilty and Receives Committal With Equanimity —Question of Bail.

"Not guilty" was the formal plea entered this morning by Charles D. Sheldon when he was brought before Judge Leet on two charges of obtaining money under false pretences and one of theft.

Sheldon was afterwards taken before Judge Langelier in the Court of Special Sessions, and chose a jury trial, which means that he will have to remain in jail until the next session of the Court of King's Bench, in June, providing he does not change his opinion, or secure bail.

There was no application for bail made this morning, and Mr. H. Pelletier, attorney for Sheldon, said that he would make no application for bail today. Further than that he would say nothing, but it is probable an application will be made later in the week before Judge Langelier.

Sheldon or his attorneys will be at liberty at any time to change their option from a jury trial to a trial by a judge in the Court of Special Sessions, and it is believed by the prosecution that this change will be made as soon as the defence has had an opportunity of preparing its case.

The "Wizard of Finance" who at this time last year was the wonder of the community, was brought from the jail this morning in the prison van along with a score of prisoners who were standing trial on numerous charges, but on his arrival in the Court House he was given a separate cell, partly owing to the courtesy of the guards and partly to the fact that there happened to be a cell vacant.

Sheldon does not show any other outward signs of worry, and his two weeks' sojourn in the Montreal jail has had no visible effect on his appearance. He is the same Sheldon that stepped off the train in charge of Chief McCaskill two weeks ago, and is still hopeful that he will be successful in defending himself against the charges.

He shows the greatest interest in the proceedings of the Court, paying no attention to the onlookers, his whole attention being riveted upon the judge. After the charges had been read this morning by Judge Leet, and the accused had entered a plea of "not guilty," he was asked if he desired the names signed to the complaint read to him.

"It is not necessary, my lord," replied Sheldon.

He also waived the right of having the depositions made at the preliminary hearing, read to him.

Anti-Mormon Demonstration

All Religious Denominations Will Combine Against Mormonism in London.

London, April 20. In order to bring to a focus as rapidly as possible, the growing agitation against Mormonism, a demonstration representing all religious denominations will be held in Holborn Hall, London, on April 28. The Right Rev. James Cowell Weldon, Dean of Manchester, and formerly Bishop of Calcutta, and Metropolitan of India, will preside.

Addresses will be made by prominent members of the clergy, and laity, and the Government will be urged to take measures to prevent the luring of British girls to Utah.

SAW DR. BEATTIE NESBIT IN A NEW YORK HOTEL. DECLARES TORONTO, MAN.

A well-known Toronto man who is in Montreal to-day after a short business trip to New York, tells an interesting story of running across Dr. Beattie Nesbit, the Toronto politician whose testimony on Farmers' Bank matters is badly wanted in Ontario, in the Hotel Astor during the height of the Easter holiday influx of visitors. The Torontonian in question has known Dr. Nesbit for years and is certain of his identification.

New Soccer Constitution Approved--Maud S. Shot--Glidden Tourists Coming

United States Polo Players Practice Hard For The Coming International Matches with Eng.

Lakewood, N.J., April 20.—Six periods of polo between the Meadowbrook four and a picked team of American played followed by several periods of cut in play, in which the champions took no part, formed the programme for the day on the Georgian Court fields. The contest, on the whole, developed some splendid practice and gave opoprtunity to see where the play could be improved. The score was 4 3-4 to 1 3-4 in favor of the Meadowbrooks.

The first period was rather listlessly played, the Meadowbrook four getting the ball at the throw-in and taking it toward their opponents' goal, but being unsuccessful in scoring. The Greens toward the end of the period braced up a bit and took the ball to their opponents' end of the field, but were not able to score.

In the second period the Whites started off with a rush and several times were prevented from scoring by the blocking of Stevenson and Agassiz, but Jones finally succeeded in putting the ball between the posts for the first score of the game. Shortly after the throw-in following this score, Foxhall Keene landed on the ball in the centre of the field and started it down for a goal, with Jones making strenuous efforts to stop him. The former, however, succeeded in riding around his opponent and made the goal in a little over a minute. On the third throw-in Stevens made a fine run with the ball but when he reached the post was unable to put the ball between them. Before the period ended in an effort to keep the Meadowbrooks from scoring, Mr. Lamontagne was charged with a safety by Referee Lee, losing a quarter of a point for his side. The Whites had things all their own way in the third, scoring three goals.

The fourth period, on the whole, developed the best play of the afternoon, although no score resulted. For the first four minutes the champions had the ball in their opponents' territory, but fine blocking kept them from scoring, while in the last couple of minutes of play the situation was reversed, and, although they tried hard to do so, the Greens could not make a tally. J. M. Waterbury scored a goal in the fifth, and La Montagne made the second count of the afternoon for the Green, when Keene rode L. Waterbury out of his way, leaving the field clear for the score. In the sixth neither side scored, although Keene and La Montagne had one splendid chance to work the ball down the field.

The line-up and summary:

Meadow Brooks—L. Waterbury, 1; J. M. Waterbury, 2; H. P. Whitney, 3; J. D. Jones, back.

Greens—F. P. Keene, 1; R. La Montagne, 2; M. Stevenson, 3; R. L. Agassiz, back.

Goals—Meadow Brooks—L. Waterbury, 2; J. M. Waterbury, 1; Whitney, 1; Jones, 1; penalized for safeties, ¼; score 4¾. Greens: Keene, 1; La Montagne, 1; penalized for safeties, ¼; score, 1¾.

Referee—S. Lee.

The two British players, Captains Hardress Lloyd and Herbert Wilson, were interested spectators during the principal game, and took part in the entire cut in contest.

SPORTING VIEWS AND REVIEWS

A young man bearing the euphonious name of Honus Hight would be sure to climb—provided he possesses the other qualities. The Honus in question evidently has them, for he has recently gone up one or two rungs on the ladder that leads to fame and fortune.

Last summer he was pitching for the Lennoxville team in the Eastern Township League—playing for fun and glory, and he did it so well that during the coming season he will play with St. Thomas for hard cash and prospects of further advancement in the profession. The ball players of the Townships are becoming almost as famous as are the butter and horses of their hillside farms.

With the awful example of the Government and the House of Commons before it, the Capital Lacrosse Club has made up its mind to abandon representative institutions and responsible Government and revert to a good old-fashioned autocracy, such as that enjoyed by the Caesars of long ago, and by Mr. Charles Querrie of the present day Tecumsehs. So far as the selection of players is concerned, it is to be a one man rule among the Capitals after this. The position of manager of the Capitals will hereafter be an office that, for responsibility, for power, and even for glory, will throw in the shade that of Prime Minister or even that of an automobile chauffeur.

That other ball player besides Hight, who has the honor of writing Honus as his first name, Honus Wagner, to wit, does not seem to be quite "all in" yet, nothwithstanding his own admission that he finds himself a year older every twelve months. In one of the "Pirates'" recent games Honus was at bat three times and out of those three oportunities he knocked out two three-base hits. He also made a sacrifice hit and started a double play. And besides it was a sort of off-day for Honus. If he acts like that now what may not be expected of him when he gets real old?

ONLOOKER.

FRENCH-CANADIAN CLUB.

One Has Been Formed in Cornwall.

A lacrosse club composed entirely of young French-Canadian residents of the East End of Cornwall, has been organized under the name of "The Canadiens." The East End has boasted of lacrosse clubs before, but while these organizations have been composed of players who were mostly French-Canadian, a little Irish, Scotch or English was always mixed up in it. Not so with the Canadiens, and they promise to make things warm for the Victorias, the other East End club, and all other clubs in this section this summer. The Canadiens have a strong list of officers, and if they do not move things it will not be lack of enthusiasm.

The officers are:

Hon.-president Treffle Dentras, Hon. First Vice-president, Geo. Prieur, Hon. Second Vice-president J. E. Plamondon.

President, John Blanchard; First Vice-president, Edward Le Blanc; Second Vice-president, George Lefave; Secretary, Arthur Dextras; Treasurer, Joseph Seguin; Committee, F. Martell, Dan. Leroux, Sim. Riviere, Ed. Larin, Alex. Tacey, F. Laperle, Alex. Lefave.

Delegates to league—Edward Le Blanc, John Blanchard and George Prieur.

T. L. Paton Competition.

The judges for the T. L. Paton trophy competition, to be held in the Arena, Saturday, have been announced. The gentlemen who will officiate in this capacity are: Dr. J. Anderson Springle, Major Winter, D.A.A.G., Sergt.-Major Medhurst, physical instructor St. Johns' Military School.

THE RESULTS IN A NUTSHELL.

In the B. A. A. Marathon Clarence Demar, of North Dorchester A. A., won, in 2.21.39 3-5, beating Longboat's record of 2.24.29, made in 1907, by 2 mins. 44 2-5 secs. F. J. Madden, South Boston A. C., second, 2.24.31. Edward Fabre, of Montreal, third, 2.29.22 1-5. Robert Fowler, Cambridge, fourth, 2.29.31. R. F. Piggott, Medford, 2.30.45, fifth. Daniel Sheridan, Toronto, Canada, sixth, 2.31.44. Albert Harrop, Fall River, seventh. Demar had lead of 3.20 3-5 minutes. All finished strong at the 15th mile. Madden was one minute behind Whelton's record for that distance.

EASTERN LEAGUE SEASON STARTS TODAY

ROYALS OPEN WITH NEWARK

BRIEF BIOGRAPHICAL SKETCHES OF THE ROYALS

From a Staff Correspondent

Newark, New Jersey, April 20.—"Officer, they're off again."

Weeks of training, days of barnstorming, hours of perspiration producing labor, and the time for playing at playing ball are over. It is dead earnest to-day.

The team is in good shape, considering.

All the same—

Little blasts of coldness,
Little dabs of frost,
Make the baseball magnet,
Feel that all is lost.

Star readers have read many times in this column since the team started south at the end of March, bound for Newport News, Va., that the weather man has been most unkind.

His harshness continued right up to the end, and that abhorrence of ball players, chilly wind, stayed with the Royals up to now.

Here are a few particulars about the Royals:

Arnold Gandil, known as "Chic," first baseman. Height, 6 feet 1 1-2 inches, weight to-day 190 lbs.; fast, has a tremendous reach, and is a demon sniter. Formerly with Sacramento, Cal., Shreveport, in the Texas League, and the Chicago Sox. Age 22.

Second Baseman Charles French, called "Rabbit," is twenty-five years of age, 5 feet 8 inches high, a hitter, and at least one of the brainiest men on the Eastern League infielders' roster. He weighs 150 lbs., is lightning fast, and has been with the Red Sox, the White Sox and the Evansville Central League team.

Shortstop Eddie Holly, sometimes called "Pinch Hobbs," weighs 160 lbs., is twenty-nine years old and 5 feet 8 1-2 inches high. He was formerly with Johnstown, New Orleans, St. Louis and Rochester, and his work with Montreal last year is too well remembered to need further comment.

Third Baseman and Captain Joseph Yeager, always called "Joe," is thirty years old, five feet seven and a half inches high, and weighs 172 lbs. For the rest, he is the best third-baseman in the Eastern, and money wouldn't buy him.

It's enough.

Left Fielder C. Ray Demmitt, always called "Ray," is twenty-seven years old, 5 feet 9 inches high and weighs 170. Was previously with Ottawa, Baltimore, New York Americans, and St. Louis. He is another whose work will be well remembered and he is going better than ever just now.

Centre Fielder Ward Miller, generally addressed as "Ward," and destined to be one of the hardest hitters in this year's Eastern. He is 5 feet 11 inches high and weighs 175 lbs. He confesses to 25 years of life and has played with Pittsburg and Cincinnati, a safe, hard hitter, and as good as the best in the country at fielding his position.

Left fielder, Charles Hanford ("Charlie") is a distinct contradiction to the statement sometimes made that the Montreal team consists of "has-beens." Charley has been only two years in class "A" ball and spent them both with Jersey City. He is fast and a safe hitter, stands five feet eight inches in his stocking feet and weighs 155 lbs. He is twenty-four years old.

Pitcher Frank Barberich ("Rob"), is 26 years old and five feet ten inches high, while he has 176 lbs. of beef to put over behind his deliveries. He is an occasional moist delivery artist and has a big assortment of curves. Was formerly with Boston Red Sox, Worcester, Mass., and Providence.

Pitcher Phillip Sitton, called "Sit," is an inch taller than Barberich, having 5 feet 11 inches to his credit, and weighs 160 lbs. He is twenty-six years of age and has performed with Augusta, Ga., Atlanta, Pittsburg and Jersey City.

Pitcher Richard Carroll, "Dick," is 26 years old and stands 6 feet 1 in. high. He weighs 185 lbs. and played formerly with Newcastle, Pa., Canton Ohio, Akron, Ohio, the New York Americans and Toronto.

Pitcher George Leclair, "S." is a Province of Quebec boy, who is going to make Farnham famous. He is 24 years old, 5 feet 9 inches high and weighs 170 lbs. He has played with the Holy Cross College team at Farnham and the Farnham town nine. Jack Hardy says he has the fastest breaking ball he has ever seen.

Pitcher Fred Ashton (Ash.), is another Montrealer with lots of smoke. He is 23 years of age, is 5 feet 6 1-2 inches high and weighs 154 lbs. He has played pro ball in Montreal and also performed for Ottawa, Hull and Cobalt.

Pitcher John Dubuc, "Jean" and the demon world's record pinch hitter, is 5 feet 10 1-2 inches high and weighs 185 lbs. He confesses to 23 years and is just breaking in, practically. He has played with Notre Dame University, Cincinnati and Buffalo.

Pitcher Fred Burchell, is thirty years of age, and one of the most versatile and heady pitchers in the Eastern League. He is rapidly getting into shape, after a trying illness, and before the season opens in Montreal, will be there with the goods. He stands 5 feet, 9 inches high, and weighs 175 lbs. in condition.

Catcher Harry Curtiss "Sam" one of the most promising of the Eastern Leagues young backstops, is 25 years old, stands 5 feet 10 1-2 inches high and weighs 178 lbs. He is an ex-member of the Notre Dame University College team, and was also with the University of Syracuse, and the New York Nationals.

Catcher Frank Roth, who has no nickname, and never had, is a living encyclopedia of inside ball. He is 28 years old, and weighs 165 lbs., standing 5 feet 8 inches above ground. He has played with Cincinnati, Milwaukee Philadelphia Nationals, Chicago and St. Louis Americans. He is of the greatest value to the Montreal team, because of his intimate knowledge of the game, and all connected with it. He is also a hard hitter and a good base runner.

Catcher John Hardy, "Jack" 29 years of age, professes to 175 lbs. of fight and 5 feet 10 inches of brawn. He is another hard hitter, with a quick thinking brain, and has played with Cleveland, Cincinnati, the Cubs and Washington.

Catcher J. Emile Morin, "Amee" is a young Montrealer, who only needs weight to make him as good as any. He is 5 feet 8 inches high, and weighs 154 lbs., while he is only twenty-one years old. He has played semi-pro. ball in Montreal and district for years.

Infielder Mark Purtell, "Tom" is only 20 years old, and stands 5 feet 7 inches high, while the scales tip for him at 150. He comes of a baseball family, and knows the game from soup to nuts. He has played with Decatur in the I.I.I. league, and Chillicothe in the Ohio State league, and is a sure enough coming man.

Infielder W. W. Nattress "Natty," is 26 years old, and is still as live as many a young man. He stands 5 feet 6 inches high, and weighs 153 lbs. He has been with the Kansas City, Omaha Fort Wayne, Cleveland, Columbus, and Buffalo clubs, and came to Montreal last season.

Outfielder James Bailey, recently dubbed "crutch" and "Judge" is another coming man. He is 25 years old, weighs 180 lbs and stands 5 feet 11 inches in his socks. He is perhaps the finest specimen of physical development on the team. He has played in the trical clubs in New York, and also with the York team of the Tri-State League.

Every man is anxious to win today, and to keep right on winning. The club spirit is as strong as ever, and only the most dumbest blue ruin diviner, can have the heart to predict anything but success in the circumstance.

SONS OF SCOTLAND CARPET BALL FINAL

The final game of the home and home series for possession of the above cup was played in Invergordon Camp rooms last Wednesday evening. The contestants were Falls of Clyde Camp (the holders) and Invergordon Camp. The cup holders on their own carpet in the first game gained the substantial lead of 5 points, but the Invergordon boys playing a grand uphill game, wiped this out and won out by 3 points on the last end. A large crowd witnessed the game and the winners were heartily congratulated. Bro. T. H. McAthy, Mount Stephen Camp, efficiently refereed the game. Scores:—

GLIDDEN TOURISTS MAY VISIT CITY

It now looks as if the Glidden tour, which really finishes at Ottawa this year, would be unofficially extended to Montreal.

The Secretary of the official publicity bureau of Ottawa City has been in communication with Mr. Macnamee, Secretary of the Automobile Club of Canada, to see what arrangement the Club can make for the reception of the travellers here in Montreal.

Some five or six years ago, the Glidden Tourists passed through here, and were well looked after by the Auto Club.

Soccer Football Notes.

Meeting of the Sons of Scotland F. C. will take place on Friday evening at Sam's Cafe, Point St. Charles. A full attendance is requested, owing to important business.

A practice match will take place between R.R.Y.M.C.A. and Sons of Scotland, at Pt. St. Charles Kick off at 3 o'clock.

Snowshoe Club Meets.

The old Tuque Bleue Snowshoe Club met last night and elected officers for the ensuing year. The following gentlemen will control the destinies of this organization during the seventy-third year of its life:

President—James Macdonald.

Enquiry Into the Baseball Bribery Fund Charge Held In New York Legislature

Albany, N.Y., April 20.—Rev. O. R. Miller, Field Secretary of the New York Civic League, calmly faced the Senate Committee on Privileges and Elections and told the story of his early life and later activities as a professional reformer. He has been active at the State Capitol in fighting legislative propositions, mainly those that proposed greater liberties for all forms of gambling except that officially countenanced in Wall street.

At a recent meeting of the Methodist Conference in Saratoga, the Rev. Mr. Miller made the statement that a bribery fund of $250,000 had been raised to pass the bill introduced by "Big Tim" Sullivan to legalize baseball playing on Sunday. Senator Ferris, of Oneida, who has also introduced a Sunday baseball bill, had the Senate adopt a resolution last night calling for the clergyman's authority.

Senator McClelland, as chairman of the committee, subjected him to a grilling examination. The Rev. Mr. Miller described himself as an "ordained minister, a worker in the field of civic reform and a registered lobbyist assigned by the organization he represents to oppose legislation of an undesirable character and to promote that favored by the churches and best citizens."

He gave as his authority for the bribe story the name of Frank S. Gould, the circulation manager of a local newspaper. He said Gould, for whom the committee has issued a subpoena, told him: "Oh, you fellows haven't got a chance to beat the Sunday Baseball bill. The big clubs have raised $250,000 to pass it and that's all there is to it." The bill did not pass, but is scheduled to come up later on.

The Rev. Mr. Miller said he had no other authority for the statement he had made than this casual conversation with Gould. He admitted he had made no effort to verify it, but denied that he had made the direct statement as charged. He said that he had "qualified it as having been based upon current reports."

Gould was haled before the committee to-night. After making an unequivocal denial that he ever told the Rev. Mr. Miller anything about a bribery fund, the committee accorded him the unique distinction of cross-examining the latter.

The Rev. Mr. Miller gave the committee further facts about his admission to the ministry. A copy of the Bulletin, a periodical published during the session by the Rev. Mr. Miller, was produced, containing an article on the Sunday Baseball Bill. The article stated that baseball interests admitted that a bribery fund had been raised.

Gould testified that the Rev. Mr. Miller had called on him to talk about a cartoon on Sunday baseball.

"Was anything said about a fund of $250,000?" asked Chairman McClelland.

"Absolutely nothing," replied Gould. "The statement that I said anything of that sort is a falsehood."

Gould, then expressing the desire to cross-examine the Rev. Mr. Miller, was given that privilege by the committee. The witness declared that he stood by what he said concerning Gould.

TREMBLAY WON LONG DRAWN OUT CONTEST.

Tremblay, the lightweight wrestling champion and Kilonis, the Greek welterweight, mixed it up in clever and forcible manner at Sohmer Park last night, when the fans were treated to one of the liveliest entertainments they have seen at the Park for a long time.

In addition to the wrestling contest there was an exhibition of weight lifting by Wilfrid Cabana, who broke the world's record by lifting 275 pounds with one arm. He failed twice, but the third time accomplished the feat and lifted 1 3-4 pounds more than lifted by Louis Cyr, who held the record with 273 1-4 pounds.

Despite the fact that the wrestling contest was lively it was a long drawn out affair, with Tremblay handicapped by height and weight, working hard to secure a fall by means of the toe-hold, for it was admitted that this would be the only way he could win out against such a clever and wiry chap as the Greek. The latter was exceedingly game, and fought with dispersation every time the French-Canadian tried to secure the toe hold, and he was successful all the way through.

For over two hours the men wrestled with varying success, first Tremblay keeping his man underneath for a time, and then the Greek would have his turn at it, until it was finally decided to give the men a rest. Kilonis did not concur in this part of the proceedings, but they took the rest just the same. After renewing the contest again they went for nineteen minutes, when from a scramble Tremblay pinned his opponent's shoulders to the mat for the first and only fall. It was agreed during the resting interval that one fall would decide the contest owing to the lateness of the hour and in order that the side bets made on the contest might stand. Tremblay by winning the one fall won the contest.

M.A.A.A. CONCERT AT ST. LAMBERT

Before a crowded house, the M. A. A. A. Musical Club put on one of the best entertainments of its kind seen in these parts for some time. The concert took place in the Town Hall, St. Lambert, under the auspices of the St. Lambert Football Club. The M. A. A. A. Musical Club is probably the only organization of its kind in the city and as a club the M. A. A. A. Association should feel proud that it has gathered within its ranks such talented members. The three numbers rendered by instrumental section were very good, and were justly appreciated so also was the comedy quartette which was encored several times. Mr. Archie Moir by introducing some new stunts into his buck and wing dance brought down the house. The curtain then rose on the Dinner scene and from that moment the audience was given one surprise after another. Mr. Ed. Murray, the toast master presided over a chorus of thirty voices who joined very ably in the choruses of the many solos given in this act. The comic songs, jokes, and speeches given by the comedians throughout the evening are well worthy of the highest praise and the work of the Rice and Weldon Bros. together with Hugh Hamilton would do credit to any of the best vaudeville companies. The M. A. A. A. quartette was in very good form and their harmony was perfect. Many requests have been handed to Mr. Carter, the president of the musical club to have this show staged in the M. A. A. A. clubhouse and the committee may decide to do so in the near future.

The following numbers were included on the programme:

Drinking Song... W. D. Moore
O'Hara... W. Weldon
Friends... W. O. H. Percy
Brown October Ale... R. L. Taylor
Oh how that German could Love... H. Hamilton
My Dear... W. Davison
My Yiddisher Colleen... Jim Rice
Long Lost Chord... Chas. Weldon
Humorous Dissertation... R. L. Taylor
Goodnight... Chorus
A Serenade... Thomas, Bourdon, Taylor, Johnston
Comedy Quartette... Jim Rice, Hamilton, Weldon Bros.

SEES DANGER THROUGH FIRE IN FACTORIES

Chief Tremblay Tells Board Of Blocked Exits in Montreal Buildings

Provincial Inspector Asks for Report So That Some Action May Be Taken.

Chief Tremblay is daily receiving reports from his fire captains, which emphasize the need for the adoption of more stringent regulations if proper protection against fire is to be given to factory workers. One report received to-day shows that in a factory in the Point St. Charles district, forty-five women are engaged on a fourth floor, from which the only means of exit are narrow stairways. A fire in this place during working hours, says the chief, would mean certain disaster.

The following extracts taken from the fire captains' reports give some idea of the disaster risks that are being run under existing conditions.

In a three storey cigarette factory where about 150 employees, mostly girls, are engaged, nearly all the windows leading to the fire escapes are blocked.

In another four storey factory, the proprietor frankly told the captain that he would not care to take chances by going down the only fire escape on the building. Access to this escape was blocked by tables.

In a four storey shoe factory, where about 250 people are engaged, there is no protection against fire, the only fire escape being described by the captain as useless. The building is in a bad condition, and the fire risks are increased by the fact that the workmen are allowed to smoke in the place.

Women Are Cut Off.

In a cigarette making factory 30 women working on the third floor would be completely cut off from escape in the event of fire on the second floor, for none of the windows will open on the third floor, there is no means of exit other than down through the second floor.

In scarcely any factory inspected was any indication found pointing to the fire escapes where such existed, and in more than one instance the windows through which escape might be effected would not remain open when lifted.

In one place shafting and machinery block the passage to the fire escape while steam coils block the way to another escape.

Upwards of two hundred reports of the special inspections the fire captains have made are now before the Chief, and it is from these documents that he has taken forty or fifty at hazard and presented them to the Board of Control so that the Commissioners may the more readily appreciate the necessity for making a change in the system of inspection, if proper fire protection is to be provided in factories and other public buildings in the city.

Department Lacks Power.

"The fire department," says the Chief, "has made an inspection with success in all these places so far as they have resulted in cleaning up the factories, etc., and in having cinders thrown into metal boxes instead of distributing them promiscuously all around, but when it comes to the more serious question of compelling the erection of fire escapes and the provision of other means of protection in the interests of factory workers, school children, and hospital patients, we have no power to have our instructions obeyed.

"Therefore, I have asked the Board of Control to take steps which shall give the fire department the power to take proceedings against people who, after proper notice, neglect to provide proper protection against fire. If we had this power the improvement which the captains' inspections have shown to be so necessary would very soon be effected."

In addition to the provision of fire escapes and fire extinguishing appliances on every floor of a building, the Chief suggests that in all big factories a volunteer fire brigade should be recruited among the employes, and all employes should be instructed in fire drill.

Board Supports Chief.

The Board of Control is determined to support Chief Tremblay in his present work. The building inspector has to-day been instructed by the Board to see that the law is enforced which requires that proper safeguards be applied for the protection of those employed in factories, or housed in schools, convents, hospitals, or hotels. Furthermore, the Commissioners are preparing a report to the City Council recommending that the Fire Department shall in the future be charged with the work of inspection of such public buildings.

Provincial Officer Interested.

Mr. Louis Guyon, the chief provincial building inspector, has written to the Board of Control asking to be furnished with a copy of Chief Tremblay's report, together with a list of the buildings complained of, "so that," Mr. Guyon adds, "I may put the provincial staff of inspectors at once on this work and follow the matters up until satisfactory results have been obtained."

Chief Tremblays report is in accordance with the factory shortcomings described in the Star a week ago. He shows that fire escapes are lacking on most public buildings, and in many instances where they are provided they are useless through defects or obstructions. Canvas chutes which have been placed in some buildings as a means of escape in case of fire have been found to be a negligible quantity, thrown about the places anywhere—in one instance carefully stowed away in the cellar!

JURY DISAGREE. CASE MUST BE TRIED ANEW.

After three hours of deliberation, the jury in the case of Dame L. Laverdure against the Canadian Northern Railway, did not reach any agreement and the case will have to be tried anew.

The plaintiff sued the company for damages resulting from the death of her husband, Alphonse Brouillette, killed in a fall on the ice, from a bridge in erection on Blanche River, near Joliette, while he was occupied in the erection work.

Dress Cutting Pupils.

Pupils of the dress cutting and sewing classes, are requested to attend at the class rooms in the Monument National building, with their work on Tuesday. The teachers will be present between two and four in the afternoon, and from 7.30 o'clock in the evening.

MASONRY IS TOPIC IN LIBEL ACTION OF MR. L. A. CARON

Was Born a Catholic But Was "Thrown Out" Because of Affiliation.

Masonry was the only topic heard in room 33, of the Court House, this morning. Hon. Justice Dorimier was on the bench, and the case which was being heard was that of Mr L. A. Caron, chartered accountant, against Mr. Jos. Beglin, publisher of La Croix.

The complaint was for two alleged libelous articles published by La Croix in which Mr. Caron was designated as a Mason, a worshipper of the devil, and a man living in the hatred of God.

Mr. Caron was the first witness, and declared that he is a member of the Coeurs Unis Lodge and never denied it, as pointed out by La Croix, but that he was not a worshipper of the devil, as claimed by La Croix.

He declared that he had always tried to live to the best standard of Christian morality; that he was a believer in God, and prayed to the Deity, and that it was very painful to him to be called a worshipper of the devil, especially when he was trying to educate his family in the love and fear of God.

Mr. Caron declared that he was born in the Catholic Church and would like to live and die in it, should the church be willing to tolerate Masonry. I did not walk out of the Church," said he, "I was thrown out. I still hope a day will come when the leaders of the Church will change their mind on that subject."

While Mr. Caron was speaking, Rev. Father Garand, a Jesuit who was sitting just opposite the witness box, nudged his neighbor, and laughed.

"I ask the protection of the Court," said Mr. Caron, "and I object to be laughed at before this court while I am in the witness box. What I say may not be right, but I speak to the best of my knowledge with the deepest conviction from the bottom of my heart. I do not insult any one. I respect every one. I wish to be respected."

The remark was endorsed by the judge.

When cross-examined Mr. Caron was asked questions about Masonry at large, especially the Grand Orient, but he claimed that all he knew of Masonry was the English Masonry.

Mr. Caron was represented by Mr. Gonzalve Desaulniers, K. C., and Mr. Beglin by Mr. A. Drolet.

HON. SYDNEY FISHER TO SPEAK AT WESTMOUNT

Hon Sydney Fisher will address the Westmount citizens on reciprocity at Victoria Hall Saturday night. The Westmount Liberal Club, which is managing the meeting, are making preparations to handle an immense crowd of Westmounters.

Dr. Clarke, of Red River, Saskatchewan, one of the most prominent Western Liberal speakers, will also very likely address the meeting. L. J. Rivet, M.P., for Hochelaga, will be another of the speakers. Ex-Mayor W. H. Trenholme, as president of the Westmount Liberal Club, will act as chairman at the gathering.

BOY TELLS OF FIRE TO HIDE ROBBERY.

Accused of having tried to hide a robbery they had committed on the premises of A. & E. Sauvageau, 667 St. Catherine street, by setting fire to the place, Conrad Dubois and Leo Belanger were yesterday afternoon brought before Fire Commissioner Lafontaine. Dubois the elder of the two boys, refused to testify, but the other told the same story as before, saying that he and Dubois had planned to hide their depredations by setting the place on fire. Both were remanded until Monday for voluntary statement.

FLEMING AND WHITE BOXED.

One of the cleanest and most delightful boxing exhibitions ever given in this city was that which Frankie Fleming, of Laprairie, and Bud White, of Toronto, two clever youngsters who are trying to make their way in the United States, gave at the Royal Highlanders Armory, last night.

There were some other athletic features provided by members of the Regiment.

FOUND DEAD LYING IN POOL OF MUDDY WATER

Lying in a foot of muddy water near the sidewalk at the foot of Charlevoix street, near the water works, the body of a middle-aged man was found this morning with life extinct. The discovery was made about 7 o'clock by a laborer and was reported to the watchman at the water works. An envelope in the coat pocket bore the name and address, Mr. Daniel Hennesy, 140a Laprairie street. The body so far has not been identified, but information obtained at the address given, tends to prove the deceased man to be Hennesy. Two weeks ago, Daniel Hennesy left that address, the home of his brother, where he had been boarding for some time. He was unmarried, 40 years old and for his intemperate habits had been asked to leave the house. Since then he has been boarding on Charlevoix street, near the Canada Sugary Refinery, where he was employed. On Tuesday night he went to his brother's house, paid his board bill of $3 and gave about 40 cents to the children in tips.

There were no marks of violence on the body when found, and there is no suspicion of foul play. The case will be disposed of to-morrow.

'Varsity's Trip Is Off.

Special to The Montreal Star.

Toronto, April 20. The lacrosse team of the University of Toronto practically has decided to postpone its English tour until October. It will be impossible to negotiate the trip before the Coronation, and after that the game will be out of season there. As a consequence, the usual spring trip to the States will be taken instead, and visits will be made to Hobart College, New York; Harvard, Boston, Crescent A. C., Brooklyn, Swarthmore, Philadelphia, and Johns Hopkins, Baltimore.

The team shows signs of being particularly strong this year. Most of the regulars have turned out again, and the line-up may be the same as last year.

A meeting has been called of all interested in the C. P. R. Angus Amateur Athletic Association, for next Friday evening at eight o'clock at the Carslake Hotel. Players from all branches of the company's service are invited to attend.

Expenses For Boston Terrier Show To Aid Crippled Children Will be Defrayed by Work Done

The prizes for the Boston Terrier Show which is to be held at the Victoria Rifles Armory on the 20th of May, for the benefit of the Children's Memorial are augmenting at such a rate that at least a hundred of them can be counted upon now, with more coming in every day.

The prize lists and entry blanks will be ready in a few days and will be mailed as fast as possible to Boston terrier owners.

Intending exhibitors would greatly facilitate the work of the committee in charge, if they would send in their names at once, so that if they are not already on the list, they may be placed there and have entry forms sent them. Address all communications to the hon. secretary, F. R. Phelan, Esq., 437 St. Catherine street west.

So hard have President Coghlin, Secretary Phelan and the remainder of the directors been working that it is almost safe to say that all the expenses of the show have been provided for already, more than a month before the exhibition comes off, and that all the money received for admissions will be turned over to the hospital and perhaps more.

In addition to this the prize list taken in proportion is even now much larger than any of those ever offered by the larger dogshows that have been held here. A most encouraging feature of the arrangement consists of the numerous promises of entries from other cities, including several from the United States.

The acceptance of the position of judge by Mr. Moore, who is not only known as an expert, but as a fearless one at that, will no doubt add greatly to the success of the show.

Swimming Handicaps.

The last of the M.A.A.A. spring handicaps were run off last night, and as usual some good swimming was seen. Summary:

440 yards—First heat—1. J. Cairns; 2. J. Thom and G. Draper.

Second heat—1. E. Stavert; 2. F. McGill. Time, 23 1-5.

100 yards—First heat—1. F. McGill; 2. J. B. Macphail. Time 1.21 4-5.

Second heat—1. G. Draper; 2. J. Cairns. Time, 1.03 4-5.

Final—1. F. McGill; 2. G. Draper; 3. J. Cairns. Time, .16 4-5.

40 yards green—1. J. Paton; 2. K. Kavanagh; 3. E. Cavens. Time, .26 flat.

Relay race—Won by F. McGill's team with George Hodgson's team second.

It was announced that competition for the juniors in the swimming department will be inaugurated shortly.

St. Lawrence Curlers.

The annual meeting of the St. Lawrence Curling Club will be held on Monday night in the club rooms, and in addition to the election of officers for the coming season, there are three notices of motion. One is to the effect that the annual subscription shall be raised from ten to fifteen dollars for all playing members. Another is that past presidents of the club shall in future not have an ex-officio right to sit and vote at committee meetings, and the third and most important is that which proposes that the shareholders should lease the club premises at a fixed rental to the club as a body.

The Greek Orthodox Church, according to custom, will observe Good Friday to-morrow, while Easter Sunday will be celebrated next Sabbath.

JUVENILE SOCCER LEAGUE FORMED

A meeting will be held in Spalding's, 443 St. James St., to-night, Thursday April 20th, to form a Juvenile Football Association when it is hoped that all the Juvenile clubs who are going to enter a team will be present. It is expected there will be quite a large gatherin gof the boys present, there has been promised a selver cup by Spalding and a set of medals for the boys by Mr. H. Barter and it is more than probable that the governing body of the Province of Quebec Football Association will be present.

$100 Reward $100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Sporting Editor Star:

With eight clubs in the Eastern League how many different combinations would there be in the standing of the clubs at the close of the season, or at any time during the season?

"FAN."

This question was answered in the Star of 18th. There are 40,320 different combinations. This is arrived at by multiplying 8x7x6x5x4x5x2x1, and is known by the term "permutation."—Sporting Ed.

A BRITTANY BARD IS PRIEST'S TOPIC

Father Hervelin Gives Lecture on Work of Botrel, Poet and Singer.

Following an established custom, Father Hervelin, the lenten preacher at Notre Dame Church, took leave of the Montreal public, by a literary address, delivered last night in the Monument National Hall. His Grace Mgr. Bruchesi, with other members of the local clergy, occupied boxes.

The literary programme was not exclusive of music, and Mr. and Mrs. Jos. Saucier, rendered some of their best religious numbers.

Father Hervelin spoke of Botrel, the bard of Brittany. The lecturer gave a short sketch of Botrel's life, telling of his debut in Montmartre and his return to Brittany where he is still singing of the sea and the land of his fathers, and contributing every day to the increasing wealth of the clean and graceful French song. Many of Brotel's couplets having spread all round the world. The speaker mentioned some of the songs of the Briton bard, which he had found very popular in Montreal.

The lecturer was introduced by Mr. B. Panet-Raymond, and Rev. R Labelle, P.S.S.

MIDSHIPMAN YATES.

Funeral of Canadian Naval Officer Takes Place Here.

The funeral of the late Midshipman Raymond B. Yates, of the Canadian cruiser Niobe, and son of Dr. H. R. Yates, was largely attended yesterday afternoon. The burial service was conducted at the house of the deceased's parents on Peel street by the Rev. Dr. Symonds, vicar of Christ Church Cathedral, the concluding prayers being said at Mount Royal Cemetery. The coffin was covered with the Union Jack, and among the many floral tributes sent the design of the anchor, as emblematic of the navy, was most prominent. The chief mourners were Dr. H. B. Yates, father; Mr. H. R. Yates, uncle; and Arthur and Herbert Yates, cousins of the deceased, while among those who attended were Messrs. F. W. Molson, John Ogilvy, Sir H. Montagu Allan, D. Robertson, Col. Whitehead, Charles Cassils, F. W. Beardmore, F. L. Wanklyn, Smeaton White, Lieut.-Col. A. Hamilton, Allan Mackenzie, M. E. Davis, Col. Roy, J. B. Clearihue, A. Ekers, Lieut.-Col. Wilson, Lieut.-Col. G. R. Starke, A. D. McTier, Lieut.-Col. Cantlie, G. Drinkwater, Lieut.-Col. R. Starke, Paul Sise, Dr. Charles McEachran, G. L. Cains, J. A. Gordon, S. P. Stearns, Dr. Elder, J. Dunlop, E. Sise, Major Nelles, Dr. Adami, A. D. Durnford, D. C. Macarow, Lieut.-Col. Bruce Campbell, J. Emsley, H. Joseph and C. Smith.

LIFE NOT WORTH LIVING

is the way Miss Alta Abel, of West Baden, Ind., summed up her existence after having sought in vain for health. She writes, "I was a complete wreck—always tired, worn out and nervous. I had to spend about one-third of my time in bed, and my life was not worth living.

Vinol, your delicious cod liver and iron tonic, was recommended, and I can truly say it has done me more good than all the medicine I ever took in my life. That nervous and tired feeling is all gone. I have gained in health, flesh and strength, until I feel like another person." (We guarantee this testimonial to be genuine.)

What Vinol did for Miss Abel, we known it will do for every nervous, run-down, overworked, tired, thin and discouraged woman in this vicinity.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Robt. H. Bryson, Druggist, corner St. Catherine and Peel streets, Montreal.

CANALEJAS DENIES GERMAN INFLUENCE IN MOROCCO AFFAIR

Spanish Premier Declares France and Spain Not Acting Under Pressure in Morocco.

Special to The Montreal Star.

Madrid, April 20.—Senor Canalejas, the Premier, denies that France ever proposed to Spain to send a mixed army to Morocco, or that Germany interfered in the matter. He regrets that the Spanish press should publish such reports, which humiliate France and Spain, making them appear to be acting under German pressure.

Senor Canalejas says he dislikes war, but is prepared for emergencies, as his duty requires.

Would-be Murderer Shot Himself.

Malden, Mass., April 20.—Angered because he thought his wife had been discussing his affairs with a neighbor, Zachariah T. Tallon, shot her twice in a quarrel at their home, fired two more shots, which missed, at his step-daughter, Edna Desmond, and then committed suicide. Mrs. Tallon's injuries are not considered fatal.

Tallon, who was 55 years old and a coppersmith, had not worked at his trade since Christmas, and his sensitiveness over the latter fact is said to have led to the quarrel.

Forest Fire in the Catskills.

Kingston, N.Y., April 20. — The forest fire season has begun unusually early, with a start in the foothills of the Catskill Mountains. A large number of volunteers were out last night fighting the flames, which lighted up the woodland brilliantly, but unless aided by rain the fighters will be unable to prevent considerable damage.

Population of Paris 2,846,986.

Paris, April 20. — Paris retains its position as the third largest city in the world, the census taken last month showing a population of 2,846,986. The present census shows an increase of 124,255 over the figures for 1906.

Fell Seven Stories and Lives.

Tacoma, Wash., April 20.—L. Knutson yesterday fell seven storeys to the concrete basement of an office building and was only slightly hurt. At the first floor he crashed through some one-inch boards.

Because a Munich hotel man filled the steins with a large portion of foam he was sentenced to serve six weeks in jail, and fined $750.

It's the "Carbo" Edge

Fire heat is never uniform; electricity can be *exactly* measured and regulated.

That's why the electric tempering of the Carbo-Magnetic Razor Blade is *absolutely uniform*.

The edge of a razor is a series of fine but irregular teeth. Dull razors are those on which the teeth have broken off or turned; broken off on the brittle razors, turned on soft ones.

Because of the added toughness of our recarbonized steel, coupled with the flintlike hardness of our process of electric tempering, the teeth on the Carbo-Magnetic are so tough that they will neither break nor bend; hence our guarantee, with common-sense use.

Every Carbo-Magnetic Razor is guaranteed to be and do *exactly* what this advertisement claims for it.

LAWYER INDICTED FOR BOND THEFT.

DANIEL O'REILLY.

Daniel O'Reilly, once an Assistant District Attorney of New York, and long the counsel for Harry K. Thaw, was indicted with the sensational theft of $85,000 worth of bonds from Aaron Bancroft, the aged member of the brokerage firm of George Bancroft & Co. The specific charge against O'Reilly is that of "criminally receiving stolen goods, knowing the same to have been stolen."

Under the names of John and James Doe, two notorious thieves, who have served terms in jail, were also indicted for their alleged connection with the same robbery.

GUILTY, VERDICT IN OXFORD GRAFT CASE

Ex-Mayor of Ingersoll, Released on Suspended Sentence, After Plea.

St. Thomas, Ont., April 20.—Mitchell T. Buchanan, ex-mayor of Ingersoll, and former warden of Oxford county, spent something less than an hour in the prisoner's dock at the Elgin Assizes before Mr. Justice Middleton yesterday afternoon. During that brief period he pleaded "guilty" on three charges of "grafting," while occupying a municipal office, and was released on suspended sentence. Later the jury returned "no bill" on the conspiracy indictment against B. B. McCarty, of Thamesford.

At 4.15 o'clock the grand jury returned five true bills as follows: Conspiracy to defraud, breach of trust, breach of trust, conspiracy and breach of trust, conspiracy to defraud.

Buchanan here entered the box for arraignment, and Crown Attorney McCrimon read indictment No. 6, concerning a deal with the Sawyer-Massey Company, of Hamilton.

"How do you plead?" the clerk asked the prisoner.

"Guilty," was the unexpected reply.

"Guilty?" queried the clerk, not sure that he had understood.

But Buchanan repeated "guilty."

Indictments No. 4 and No. 1 were then read in full and the plea in each case was "guilty."

Civil War Veterans Parade.

New York, April 20.—Secretary of War Dickinson, Gen. Frederick D. Grant, Governor Dix and Mayor Gaynor were among a number of military and civic officials who yesterday reviewed the parade of the Seventh Regiment of the National Guard. The occasion was the fiftieth anniversary of the departure of the Seventh Regiment for the front at the beginning of the Civil war.

NO WATER IN THIS STOCK

Exceptionally Strong Position of Both Preference and Common Stock of the Russell Motor Car Co., Limited, in Relation to Its Surplus of Assets Over Liabilities.

While there are arguments both pro and con. in relation to watered stock, there is no difference of opinion as to the superior character, from the standpoint of the holder, of shares which are represented dollar for dollar by actual surplus assets over liabilities, irrespective of good will and even of valuable patents rights. In many public offerings the surplus of assets over liabilities of the Company putting out the issue is only about enough to represent the amount of the Preference stock. In the case of the Russell Motor Car Company, Limited, the position in this respect is exceptionally strong, as appears from the following statement of Mr. T. A. Russell, the General Manager:—

"I feel safe in expressing the belief that our profits for the current year, after paying interest on bank advances and other charges, will be in excess of $175,000. If that expectation is realized we will, at the end of the present year, have surplus assets, at a conservative valuation, in excess of liabilities to an amount exceeding by some $40,000 the total of both the Preference and Common stock, or for more than double the Preference stock. This is without taking into account patents, trade-marks and good-will, which are nevertheless valuable assets."

It is stated that there is a brisk demand for the Preference shares of this Company now being offered to the public, and that the subscription books are liable to close at any time.

Child Psychology

To those who have not time or inclination to make a careful study of psychological theories of child training, and the processes of thought in the child mind, and yet must deal more or less with children, the suggestion is offered that simplicity be made the keynote of all instruction and amusement, says an exchange.

So many people find great difficulty in entertaining children, seeming to have forgotten, absolutely, the tastes and feelings of their own early years. Children are usually quick to perceive the mental attitude of their elders, and equally quick to resent an antagonistic or patronizing air.

An intelligent child usually prefers to be included in amusements and conversation beyond his years, or ignored absolutely, rather than to be oppressed with a condescending interest shown by older persons. Many would be surprised to find how responsive a child would prove if met on seemingly common ground.

A somewhat precocious little girl, who was accustomed to good reading and the hearing of such clever conversation on topics of intellectual interest, and questions of the day, was taken on periodic visits to the home of three typical elderly spinsters, who seemed as though they had just stepped from the pages of "Cranford." She often related in after years the conversations, which on these several occasions were identical, as though reproduced by a phonograph. "Are you going to school?" "What is your favorite study?" "Do you like your teacher?" and similar queries. The questions all put in a tone intended to be quite engaging, but totally dissimilar from that used in ordinary conversation.

If older persons will adopt a friendly, unaffected tone with children they will be met half way and will find their influence and capacity for discipline not in the least lessened. A surprisingly strong sense of justice seems instinctive in many children and a deserved reproof or punishment if administered without ill-temper, is rarely resented. This may seen in the way children accept criticism from each other, without any show of irritation. May not the reason be the very plainness and straightforwardness with which it is given?

Just as many hostesses over-entertain their adult guests, providing too many conventional amusemnts and leaving them not one spare moment for mental readjustment, so children are frequently wearied by the formal amusements pressed upon them by well-intentioned "grown-ups." A simple pleasure shared by an older person means much more than an elaborate entertainment provided by a condescending entertainer. A. C.

Fashions for Children

Children's fashions, as usual, follow at a little distance those of their elders. Thus they wear narrow skirts, but not so narrow as the adult styles, as children must have freedom of movement. The little ones, however, have adopted the empire line, with the raised waist line, although the French bebe frock still continues popular.

Peasant or kimono sleeves share favor about equally with the regulation set-in dress sleeves. Most of the peasant sleeves come just to the elbow and have fitted undersleeves of white lawn or batiste. Some of the sleeves are trimmed to match the bodice of the dress.

Little girls' coats are cut exactly on the lines of their mothers', says the Philadelphia North American. There are the side fastening and the sailor collar, while even the polo coat is shown in children's sizes. Among the best materials are serges, homespuns and striped and checked worsteds.

All "les petites Parisiennes," are wearing lace collars, especially over dark or bright colored coats. Little Tyrolean and bell-shaped hats are being worn faced in light-colored silk or chiffon. Bows of ribbon or a few flowers form a finishing touch.

A FASHION HINT

Attractive Summer Suits for the Young.

WOMEN THE WORLD OVER

A Parade of Large Families.

Contray to general belief, there are some large families in France, and they are being asked to parade in force. Fathers are to muster on the Place des Invalides, which it is hoped they will fill to overflowing. They will then march, with bands and banners, but "otherwise in complete silence," to the Chamber of Deputies, which they will not, however, invade with their children, but pass by, tramping on to the Place de la Concorde where they will disperse. The "Popular League of Fathers and Mothers of Large Families," the president of which is Captain Simon Maire, the sire of nine children, all living, wishes to obtain special legislation granting relief in taxation to prolific parents.

Coronation Clothes.

Queen Mary is just now considering the precise nature of the dresses that shall be worn by the six daughters of earls who are to bear her train at the Coronation. That these dresses shall be of white, or, more correctly, of cream, is settled, but the details will require very careful consideration, and the Earl Marshal's department is now being consulted for precedent in this matter. The order of dress for the Peeresses who are attending the Abbey is "full court dress with robes and coronets," and this means, of course, that they shall be cut low at the neck, and with short sleeves and long gloves. The last occasion that the Queen's train was borne by ladies was at the coronation of Queen Victoria, and her attendants then wore low dresses with short, puffed sleeves. Her Majesty has, however, some leaning towards plainly cut frocks high at the neck, and with sleeves to below the elbow, and it may be that these will be finally adopted. It is the intention of the Queen to present to each of her attendants a handsome souvenir of the occasion, and this will be the only ornament allowed to be worn. The head dress will be quite plain, and will probably consist of a simple band of gold.

Attractive Neatness.

We all have among our acquaintances the girl who, without being in the least good looking, always manages to look neat and well dressed. Perhaps she has only a small dress allowance, and yet whenever you happen to meet her she looks smart and attractive, while other girls with twice the money at their command too often look shabby and dowdy.

What is the neat girl's secret? Nothing more nor less than taking care of her clothes; she has a place for everything, and everything is kept in its place; her ribbons, gloves, handkerchiefs, etc., are not all huddled together in one drawer, neither do they lie about on the tables and chairs until they are wanted.

Every article of apparel is put away with the most scrupulous care, first being dusted, shaken or mended, as the case may be. There is a great difference, too, in the way in which girls put on their clothes, and very often a girl dressed in a shirt waist and plain skirt will look twice as neat as the one clad in an expensive gown, the reason being simply this: The one has put her dress on anyhow; the other has taken care that all shall be neat and fresh.

It is the duty of all parents to see that their children are taught from their babyhood to take proper care of their wearing apparel, for the child who lets clothes drop off her and lie in a heap on the floor invariably grows into the careless, untidy woman with whom we are so familiar.

Brantford Library Open Sundays.

Brantford, Ont., April 20.—In response to a general agitation for the opening of the free library on Sundays the Literary Board has decided that commencing next Sunday the Brantford Public Library reading room will be kept open from 2 to 5 o'clock on Sunday afternoons.

PARIS, ONT.—A. E. Kinder, for many years cashier at the Grand Trunk freight office, Strathroy, and formerly editor of the Paris Review, is dead.

WORK APRON

Such a work apron as this one is pretty and attractive at the same time that it is practical. It covers the gown satisfactorily, it is supplied with capacious patch pockets and it takes most graceful lines. It can be made from butchers' linen, gingham, percale or any similar material, but the apron illustrated is made from percale with trimming of banding.

The apron consists of front and backs, with one-piece sleeves that extend all the way to the shoulders. There is a belt attached to the under-arm seams that holds the fullness at the back in place.

For the medium size will be required 5 yards of material 27 or 3½ yards 36 inches wide, with 3½ yards of banding.

The pattern No. 6922 is cut in three sizes, small 34 or 36, medium 38 or 40, large 42 or 44 inches bust measure. It will be mailed to any address by the Fashion Department of this paper, on receipt of ten cents. (If in haste send an additional two-cent stamp for letter postage, which insures more prompt delivery.)

Earl Grey to Visit Berlin.

Berlin, Ont., April 20.—Definite announcement has been made that Earl Grey will visit Berlin on May 29 and unveil the statue erected by the Daughters of the Empire, in Victoria Park, in memory of the late Queen Victoria. The statue cost $5,000.

Mayor Schmalz has been authorized to make the necessary expenditures for the reception to Earl Grey. The Town Council, Canadian Club, Women's Canadian Club, and Daughters of the Empire will unite in the reception.

CANADIAN GETS BACKING IN STATE APPOINTMENT

Richard Johnson Popular Candidate for Associate Judgeship in Dorchester Municipal Court.

Special to The Montreal Star.

Boston, Mass., April 20.—Although the vacancy has existed only a few days, Governor Foss is confronted with at least six candidates for the position of Associate Justice of the Dorchester Municipal court.

Richard Johnson is being backed by Frederick J. McLeod, of the Democratic State Committee, for the place. He is a Canadian, and it is being urged upon the Governor that it would be good policy to recognize the Canadians by a judicial appointment. Johnson also had prominent lawyers urging his appointment.

M.S.R. NOT REPLIED TO CITY'S LETTER

No Further Move Regarding Negotiations for New Franchise.

"We have not yet received a word," said Controller Wanklyn today, "from the Montreal Street Railway Company to the letter the Board of Control sent asking the company to open negotiations with the city as to a new franchise. I cannot understand why the company is delaying so much. Fault has been found with the Board of Control for not first taking action, so something definite could be done. It appears to me that if fault is to be found now it is with the company."

Handsome Man to Swing Whip

"A. Anderson" Has Long Experience in Administering the Cat.

A. Anderson, of Alton, Ont., who will officiate to-morrow morning in the Jail of Montreal, as executioner in the case of Gervais, the wife beater, sentenced by Judge Langelier to the whip, is in Montreal, and paid a visit to Sheriff Lemieux this morning.

It is understood that everything is in readiness for the whipping, which will take place in one of the rooms of the jail, where a small number of persons will be admitted.

Talking of the man who will swing the lash, Sheriff Lemieux said that he is a professional, having acted in every case of whipping in Canada for many years, and had also served in New England States.

The pseudo A. Anderson is a man of powerful build, handsome, stylishly dressed and looking very energetic. He wears a dark brown moustache and his brown eyes are very clear and piercing.

No Ice Change Shown in River

Slight Fall in Water in Montreal Harbor.

There has been no perceptible change in the ice conditions along the river between Lake St. Louis and Quebec to-day, notwithstanding the warm sunshine and the strong wind which should help along the general movement. The water gauge in the Harbor Commissioners' office has shown little movement to-day. At two o'clock it recorded a depth of 32 feet 1 inch over the sills, which is a slight fall as compared with yesterday's conditions.

The water in the river opposite Lapraurie had an upward tendency this afternoon. Several blocks of ice moved out of the bay, but got jammed near St Lambert and the water backed up and rose about ten inches. The condition of the streets in Lapraurie is unchanged.

BOY ADMITS THEFT BUT DENIES ARSON.

Conrad Dubois, aged 15, and Leo Belanger, 15 years old, who are accused of having set fire to the premises occupied by Mr. A. Sauvageau, on St. Catherine street east, on the night of the 10th of April were again in Judge Bazin's Court this morning.

The fire is supposed to have been started with the intention of covering up a robbery in the store where one of the accused, young Belanger, was employed. The latter pleaded guilty to having committed the theft, but denied having set the fire, and Dubois pleaded not guilty to both charges.

From the testimony heard this morning, Belanger is supposed to have made a confession, implicating a "partner" of his as being connected with the theft and arson, but did not mention any name. It could not be brought out whether or not the youngster had been warned by the detective engaged on the case before a confession had been secured, the witness having no recollection of having heard any warning being made, to the effect that what the boy would say could be used against him at the trial.

The boys were remanded for voluntary statement on the 27th.

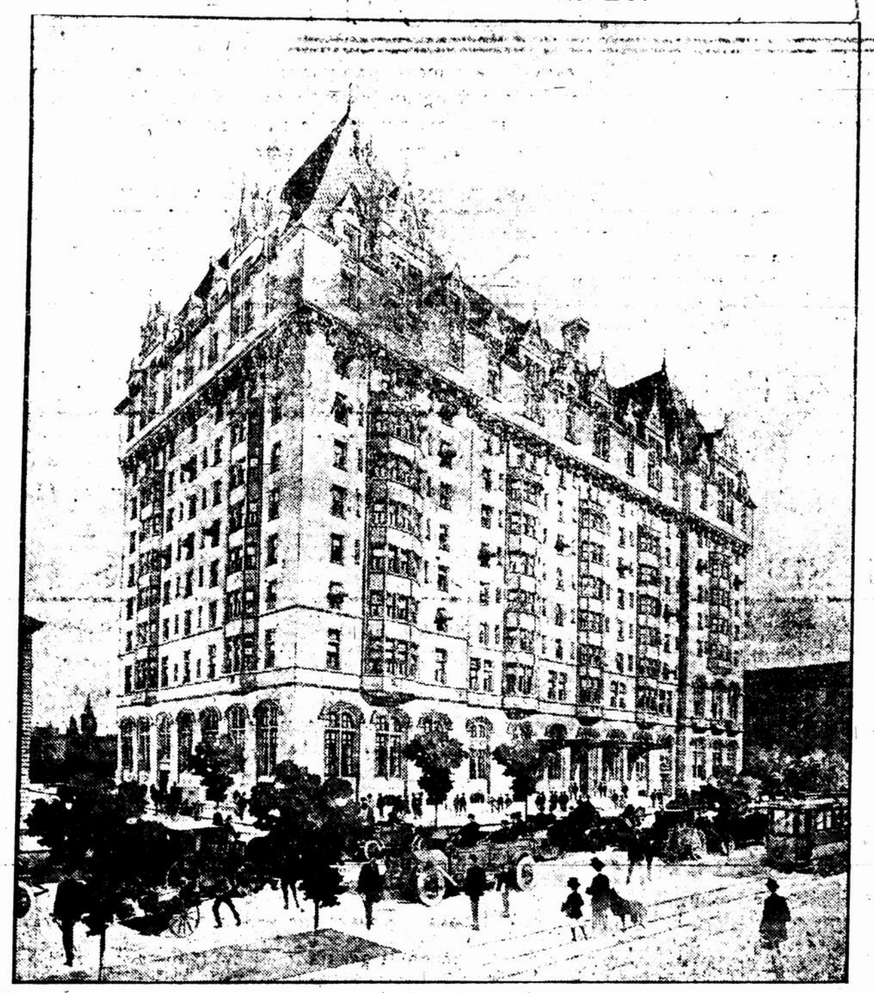
MORE TROUBLE FOR FOSTER AFTER HIS PRISON TERM.

Frank Foster, who has a long string of aliases to his name, and who is now serving a term of three months in jail, for the sale of cocaine is not looking forward to the expiration of his sentence, with any degree of enthusiasm. He has been recognized as a man who had recently been released from St. Vincent de Paul Penitentiary on ticket-of-leave, before getting into trouble for the sale of the drug. His unexpired term amounts to 11 months, and the indications are that upon his release from the jail, he will be taken to the penitentiary to complete his sentence.

Mr. Harry R. Ibbotson Ill.

Mr. Harry R. Ibbotson, well-known passenger agent of the Canadian Pacific Railway, is seriously ill at his home, 113 Laval avenue. Mr. Ibbotson has been in the employ of the C.P.R. for over thirty years.

"THE SELKIRK," THE NEW PALATIAL HOTEL OF THE GRAND TRUNK PACIFIC IN WINNIPEG.



The above is the plan which has been approved by the Grand Trunk Pacific management for the new hotel, which the company intends to erect in Winnipeg. This hotel, which in appearance and luxuriousness of appointments is to be the equal of the Chateau Laurier, at Ottawa, will cost in round figures one million dollars. It will be situated on Broadway, near the Manitoba Club, and close to the new Union Station. It has been definitely decided to call the hotel "The Selkirk," which not only has the merit of being a highly distinctive and appropriate name, but also one which is historically associated with Winnipeg and with the development of the West generally. Messrs. Ross and Macfarlane, of Montreal, are the architects for the hotel. They are now working on the detailed plans, and construction is to commence forthwith.

This hotel will be the first of a chain of similar hotels to be erected throughout the West by the company. To-day the management announced the purchase of a centrally-situated site opposite the Edmonton Club on McDougall avenue, Edmonton, for the erection in the near future of another large hotel. The company has also just closed a deal by which it secures a very advantageous site for a new station to be erected in the city of Calgary.

HARBOR PROPERTY EXEMPT FROM TAXES TOTAL $18,000,000

The City Supplies Free Water. Too and Wants Some Return.

The Board of Control will on Wednesday afternoon next resume pourparlers with the Harbor Commissioners with a view of settling the outstanding differences between the two authorities.

The most important question remaining open to agreement relates to the contribution the Harbor Commissioners may be willing to pay to the city towards the costs of fire and police protection on the harbor properties. The total value of these properties, according to an official statement prepared at the City Hall, amounts to $18,278,650, and not a cent of taxation is levied thereon.

In addition, the water freely supplied to the Harbor Commissioners on the wharves by the city would bring more than $12,000 a year to the city treasury if it were charged for at meter rates.

As an acknowledgment of the foregoing concessions, the city claims that the least the Harbor Board can do is to contribute to the cost of police and fire protection on the wharves.

The tax exempted properties of the harbor are distributed as follows:—East Ward, $4,761,000. Centre, $5,311,900. West, $2,609,750. St. Ann's, $2,620,000. St. James, $410,200. Papineau, $450,000. St. Mary's, $820,000. Hochelaga, $1,465,000, and Longue Pointe, $293,750.

Aviator's Fall Ends in Death

Pupil Tumbled Eighteen Feet From Aeroplane at Chalons Military Camp.

Special to the Montreal Star.

Rheims, April 20.—A few days ago M. Louis, a pupil at the Aviation training grounds at Chalons camp, fell six yards from an aeroplane. He was taken to the camp hospital. It was not thought he was seriously hurt, but the young aviator died to-day.

Deline Sent to Prison for Life

Action of Beasts of Field Could Not Have Been Worse, Says Judge.

Peterboro, Ont., April 20.—When the court resumed this morning counsel for Deline withdrew the plea of not guilty of murder and entered a plea of guilty of manslaughter.

Justice Teetzel sentenced Deline to imprisonment at Kingston for the rest of his natural life, intimating that the prisoner might be released at some time if physicians' examination showed him fit to be set at liberty.

The judge said Deline's was the worst crime that ever came before a court of justice. The actions of the beasts of the field could not have been worse than his.

Expensive Shooting.

Raoul Cyrls, who pleaded not guilty to the charge of having wounded Terrence McCue with a bullet from his 22 calibre rifle, when accidental shooting near Solomon Lake was let out on $100 bail, and ordered to pay the private hearing agreed to pay the costs which amounted to about $5.

Society

Charles-Powell.

In Christ Church Cathedral, Ottawa, shortly after two o'clock this afternoon, the marriage took place of Miss Lola Beatrice Powell, daughter of the late W. F. Powell, and Mrs. Powell, to Captain Eric Montagu Seton Charles, of the Royal Engineers, Dublin, Ireland, second son of the late T. Edmonston Charles, M.D., honorary physician to His Majesty King Edward VII. The ceremony was performed by the Rev. Canon Hannigton, rector of St. Bartholomew's Church, assisted by the Rev. Canon Kittson. The bride was given away by her brother, Mr. W. F. Powell, of Haileybury. She was attended by her two little nieces, Miss Lola Merritt, daughter of Mr. and Mrs. Frederick Merritt, of Cornwall, and Miss Lola Francis, only daughter of Mr. and Mrs. Britton Francis, as flower girls. The matron of honor was Mrs. Lorne Macoun, daughter of Sir Frederick Borden, K.C.M.G., and the bridesmaid Miss Annie McLeod Clarke and Miss Marguerite Crombie. The ushers were Viscount Lascelles, A.D.C. to His Excellency the Governor-General; Captain Bingham, A.D.C.; Commander Roper, R.N.; Colonel Macdonald and Mr. J. A. Ritchie, K.C., and the best man was Mr. D. C. Campbell. The bridal costume included a coronet of orange blossoms, the gift of Lady Gray. After the wedding Captain and Mrs. Charles left for Montreal, and will sail for England in the Victorian from Halifax on April 29th. Among those who sent gifts were Lord and Lady Minto, Lady Eileen Elliot, Lord and Lady Grey, Lord Sybil and Evelyn Grey and Viscount Lascelles.

Zimmerman-Cartwright.

The marriage took place yesterday in the Anglican Church, Summerland, B.C., of Vida Lois, younger daughter of Colonel and Mrs. Robert Cartwright and granddaughter of Sir Richard and Lady Cartwright, Ottawa, to Mr. Otto Zimmerman, of Summerland, formerly of Hamilton.

TRIO DISAPPEAR AND FIRE INQUIRY LACKS WITNESSES

Men Who Promised to Give Testimony Have Gone From City.

The police cannot locate three men who were summoned by the Fire Commissioner to give testimony Tuesday in connection with the fire which was set to the gate of G. J. Esplin's box factory on Ottawa street early Tuesday morning, and who were given chase by District Lussier and Constable Lanouette.

Constable Carle, who effected the arrest of the three men for loitering a few hours after the fire and chase, was at work tracing the men. At Felix Hammell's house on Younge street, he was informed that nothing had been seen of Hammell since he was released with John McKeown and Harry Kenahan. The homes of the latter two were also visited on Prince and Ann streets respectively, but there no information as to their whereabouts could be obtained.

During the investigation Constable Carle was informed that the three men had gone west on a freight train, and that one of them had fallen off the train near Kingston and was killed. Captain Fennell of No. 7 Police station telegraphed Kingston today to ascertain which of the three he deceased was. The answer arrived this afternoon, and stated that the man that was killed was not of the trio whom the police are after.

Captain Fennell is of the opinion that the men had made their escape across the border. Should the men be found they may have more than one charge of incendiarism preferred against them. The investigation made by Constable Carle showed that a fire had been set in a similar way on Duke st. The cotton waste and oil used were found to have been of the same kind, and taken from the same place.

WHARF FIRE PROTECTION.

Modern Fire Tugs Badly Needed, Says the Chief.

There was some discussion before the Board of Control to-day in regard to giving the wharves an improved fire protection. Chief Tremblay has informed the Board that this is a matter that needs prompt attention. An attempt will be made to get modern fire boats to give ships and shipping better protection. The Board decided to ask Mr. Tremblay to make a careful report on conditions and how they should be improved.

FINED FOR GAS THEFT— A NEW CHARGE NOW.

John Gourner, the man who was recently fined in the Police Court five pounds English currency, for stealing gas from the Montreal Light, Heat and Power Company, was up again this morning before Judge Bazin, to answer to a charge of stealing "electricity" from the same company.

He pleaded not guilty and was remanded for voluntary statement on the 25th inst.

FAVOR EXPERT FOR CITY IN CONDUIT CONSTRUCTION

The building of underground conduits for the burying of overhead wires was discussed by the Board of Control to-day.

The Board decided to report to Council in favor of the city appointing an expert who would look after the city's interest in regard to the project, and to see what his salary would be. In addition to this the Public Utilities Commission will have an expert appointed as will also the companies interested.

CHALLENGE LAW ON EARLY CLOSING BY BREAKING IT

This is Tentative Plan of Licensed Victuallers' Association for First of May.

It is probable that on the night of the first of May a prominent saloon man will keep his place of business open after seven o'clock, and on the case thus established the trade will start a test fight to test the strength of the Early Closing Law.

This was decided on in an informal way at a meeting of the Licensed Victuallers' Association, and the project comes up for ratification.

Meanwhile Ald. Carter, a leader in the temperance crusade, answers that such action might result in the absolute cancellation of a license by the Commissioners.

Judge Bazin, when seen this morning regarding the matter, said the Commissioners could take no action regarding the enforcement of the early closing law in their capacity as Commissioners. That is left entirely in the hands of the police, although they might be called to give judgment in the cases as magistrates when the cases were brought before the police courts.

In an interview given this morning by Alderman Carter, president of the Dominion Alliance, he dealt in pretty strong terms with the declared intentions of the liquor dealers to nullify the new Early Closing law.

"Their many protestations of their law-abiding character are now shown to be so much wind. They mean to break the law. They are determined to make it a laughing stock. They will involve the province in heavy expenditure and all because a law duly passed and approved by public opinion universally, is likely to affect their financial interests.

"When they defeated the Early Closing By-law by trickery, and treachery they thought they had won a decisive victory, but it was their scheming and unfair conduct that really created a strong public sentiment which demanded a provincial measure of early closing.

"The temperance workers of the city and province have not the slightest doubt that the Provincial Government will rigorously enforce its own law, and will enthusiastically take up the challenge of the liquor trade in the law courts if need be."

"The Privy Council has decided that a province has the right to prohibit entirely the sale of intoxicating drink, and if it has the right to prohibit liquor sales for twenty-four hours of each day, surely it has the right to prohibit for a lesser period.

"It will be a risky business for a liquor dealer who violates the new law. The License Commissioners, in their judicial capacity, have the power to cancel the license of any license holder convicted of breaking the license law. In their administrative capacity they may refuse to renew the license of any man who has defied the law. If any hotel-keeper is foolish enough to pull the chestnuts out of the fire for the Licensed Victuallers' Association, he will deserve his fate.

FIGHT PILOTAGE BILL RIVER INTERESTS DECIDE.

Strong opposition to the proposed Pilotage Bill now before the Government at Ottawa was declared at a meeting of the Dominion Marine Association this morning held in the offices of the Montreal Transportation Company, Place Royale.

Local navigation men are indignant at the terms of the bill which is to be presented to Parliament under the aegis of the Minister of Marine. The measure provides for the compulsory engagement of branch pilots on all steamers coasting or ocean going from Montreal to the sea. As ocean liners have previously been in the custom of using these men, the new bill affects them little; but coasting steamers, such as those of the R. & O. Nav. Co., coal carriers, and other freighters plying on the river will be compelled, if the measure becomes law, to discharge their old and trusted navigators and engage the members of the branch organization.

The proposed bill, it is felt by the navigation men, is one promoted by political exigency and is decidedly harmful to their interests. The old condition of affairs regarding the engagement of pilots, it is held, was a satisfactory one, and accidents to coasting steamers were rare when compared to the larger craft.

The bill will be heard in committee at Ottawa on April 25th, and steps will be taken by the Marine Association to voice their opposition to the measure.

TOWN OF FARNHAM— SUED FOR COMMISSION.

Another action against a rural municipality for commission on the sale of debentures was entered in the Superior Court yesterday. Mr. E. A. Bertrand, of Montreal, entered suit against the corporation of Farnham, for $1,050, which is claimed as commission on the sale of debentures for $100,000. The contention of the municipality of Farnham is that the debentures were disposed of through Hanson Brothers, brokers, of Montreal, while the plaintiff alleges that it was through his intercourse that Messrs. Hanson Bros. disposed of the debentures.

It is the fifth case of the kind entered within a year, all the others having been lost by the municipalities. The last one was lost by the corporation of La Tuque.

Atlantic Pool In Agreement

Danger of Rate War Averted for Three Months, Says New York Report.

Special to the Montreal Star.

New York, April 20.—Agents of the Atlantic steamship lines were confident to-day that there would be no rate war for at least the next three months, as the Atlantic conference has signed an agreement covering that period. The Canadian Pacific, which has a working agreement with the Allan Line, is not a party to the agreement, having withdrawn from the conference, owing, it is said, to a disagreement with the Hamburg-American and International Mercantile Marine Company over the immigrant traffic.

Quebec Station Plans Added to.

Special to the Montreal Star.

Quebec, April 20.—The improvements to the plans of the new union station to be erected on the site of the Champlain market, will increase the cost of the structure from three quarters of a million to a million and a half. The station building is now to be 350 feet long, and it is expected that construction will be commenced early in the summer.

COUNT DE WITTE ON LORD'S REFORM

Result of Attempt to Imprison Economic Force Declares Famous Russian Statesman.

London, April 20.—It is reported that the Government has decided to accelerate the passage of the Veto Bill through the Commons, so that it may go up to the House of Lords, by May 16. If necessary, this result will be attained by a recourse to the guillotine measure.

Widespread discussion has been aroused on the Continent by the far-reaching changes in Great Britain's constitutional system which are involved in the bill.

The Telegraph publishes an article from Count de Witte, the famous Russian statesman, who says:

"Mr Lloyd-George, has been accused of bringing things to a crisis. It was he, they say, who roused the sleeping dogs. I cannot share this view. The economic reform with which he has associated his name is one of those ideas which no one man calls into being. They are in the air. An individual gives them utterance, a body of men adopts and propagates them, and, in time, the masses assimilate them. Then they become forces which it is dangerous to pen up in England.

"The Old House of Lords is being swept away in consequence of an attempt to imprison one of these forces. In Persia and in Turkey, thrones have been shaken by the same cause."

Girl Ends Her Lengthy Fast

Says An Angel Fed Her With Bread and Wine for Sixty-five Days.

Special to the Montreal Star.

New York, April 20. Annie Geshicla, of Passaic, N.J., has ended a 65 days' fast during which she says angels fed her. Miss Geshicla is at New Jersey State Hospital, at Morris Plains, where she was taken from Passaic early in March.

At that time she had taken no food or drink, except four glasses of milk and half an orange, in more than 50 days, but appeared to be in normal health.

"God is feeding me," was the only reply she would make to the solicitations of the physicians that she take food.

"When he wants to take me he will stop sending food, and I am only waiting for that time."

The girl protested that an "angel" visited her at 4 o'clock every morning and brought small morsel of bread and wine.

BURIAL OF MR. P. M. GRAHAM

Member of Cabinet and House and Prominent Men Pay Respects.

Special to The Montreal Star.

Brockville, Ont., April 20.—The late P. M. Graham, second son of Hon. G. P. Graham, was tendered a military funeral this afternoon, from the home of his parents, where a great concourse gathered to pay their last respects to the young soldier. Business in Brockville was practically suspended during the hour of the obsequies, thousands of people being in and along line of march to Oakland Cemetery.

The 41st Regiment in which he was Captain, turned out in full force and the firing squad was chosen largely from his company. Wrapped in a Union Jack, the body was borne on a gun carriage from "E" battery R.C.R., Kingston.

A wreath of floral tributes had been sent by friends. Mourners came from all parts of the constituency. There were several members of Parliament present also, and a number of representatives from the Ottawa Parliamentary press gallery, and scores of prominent residents of Ottawa, Toronto and Montreal.

The Dominion Cabinet was represented by Hon. Rodolphe Lemieux, Hon. Sydney Fisher, Hon. Mackenzie King, and Hon. Charles Murphy. The pallbearers were chosen from the 41st Regiment.

All those reported missing in the fire which destroyed Morin & Co's liquor store in New York, have been located.

PROSPECTS OF THE GRAIN CARRYING TRADE ARE BRIGHT

New York Attempt to Get Control Has Not So Far Affected Montreal.

Grain men here are in receipt of a report for rates from points as far as the west can be judged at this early season of the year.

A great deal centres on the outcome of New York's complaint now before the interstate commission alleging that eastern rates show discrimination against the port of New York and in favor of other ports, including Montreal.

The intention of this complaint and a prominent shipping man told The Star today "is to check or to retaliate against practically the lower cheaper rates now put into effect by United States railroads that threaten to take trade on the Canadian side of the line suffer."

A prolonged contest is looked for in the whole subject of rates for export shipments.

BIG WESTERN LAND DEAL.

Winnipeg Capitalist Says Million Dollar Project Going Through.

Western News Special.

Vancouver, B.C., April 20.—It is understood that Mr. Edward Brooks, the Winnipeg land boy, referred to in an alleged interview with him, stating that he had closed off the deal for the purchase of one million dollars' worth of farm lands in the Peace River district, owing to recent action of the British Columbia Government in increasing the price of Crown lands.

On the contrary, Mr. Brown commended the action of the Government, as a step towards the conservation of the public domain, and added: "We are buying from private individuals, not from the Government, and intend to carry out our agreement. The large areas acquired will be devoted to colonization purposes. In two instances the certificate of purchase has already been issued, and the first patent is hereby made on the third and largest tract."

EIGHT HOUR BILL FIRST AFTER HOLIDAY MEASURE IN SENATE

Feeling References to the Death of Late Senator L. J. Forget Made.

Special to the Montreal Star.

Ottawa, April 20.—The Senate was not in session after the Easter holidays and before the presumption of respect owing references were made to the death of Senator Forget.

Sir Richard Cartwright expressed the sense of the loss the Senate had sustained through the death of the late Senator. He had been a man of large affairs, and his death would leave a blank in Canada which would not be easily filled. Though not an orator, Senator Forget dealt with subjects in a practical way. Sir Richard said he knew he was a man of enterprise, who had done useful service to Canada by bringing large amounts of foreign capital to the country. All would regret to learn that the Senator had been taken away.

Senator Dandurand said that he and other senators from Quebec had seen Senator Forget come in as a poor boy from the country and rapidly rise to the top of the financial ladder in the city of Montreal. At the top he had shown a progressive spirit.

The iron and steel industries were now so prominent in Canada, and of these industries Senator Forget was one of the pioneers. He was also interested in other enterprises. He was a man of great energy and much courage was required to undertake such an enterprise.

Senator Forget had shown himself generous in philanthropic matters and there was no doubt that the loss Montreal had lost one of the best and most progressive citizens she had had for the past fifty years.

Sir Mackenzie Bowell said that Senator Forget had been a most valuable member of the Senate, as everyone knew who had come into contact with him and had observed his high character in the way he looked at commercial and intellectual affairs. In committee his ripe judgment on financial matters had always commanded the greatest respect.

Eight Hour Day Bill Up.

Senator Ellis resumed the debate upon the bill providing for an eight hour day on public works and favored the measure. After tracing the history of labor movements, he quoted from Prof. McGill, who had declared that a general eight hour day would benefit the workmen, but was not so sure that it would be advantageous to employers generally.

And thy the movement toward the eight hour day be made with a view of giving which could not upset industrial conditions. The bill under consideration met this. It did not propose a general eight hour day for all classes but only to that portion of the world's community which was employed on public buildings being erected by the Government.

Senator Choran congratulated the Senate upon the quality of the speech made by Senator Ellis. He endorsed the bill under discussion as a reasonable and modest step toward a most desirable end.

The debate was adjourned by Sir Richard Scott.

Discussion on the Grain Bill was set down for Tuesday next.

HILLSBURG, ONT.—Wilson Wall, proprietor of the Grand Central Hotel, died suddenly.

How To Make Complexion Satiny

(Modes and Toilettes.)

"Don't smother the skin's pores with powder!" is the warning of Arline Keen, "a well known authority on beauty. "A good lotion will do more to promote an ideal complexion," she says, "than anything else, and if an original package of mayatone is dissolved in eight ounces of witch-hazel, you will have the finest thing obtainable for the skin.

"The use of a mayatone lotion clears and beautifies the skin and gives to any complexion that exquisite satiny appearance and smoothness so much admired.

"Aside from being a complexion beautifier, mayatone prevents the growth of hairs, and protects the skin from harsh winds and changing weather. Using it guards against tan, freckles or sunburn."

BON TON *NON-RUSTABLE* CORSETS

Wear a BON TON Batiste Corset and be Comfortable!

MODEL 944

NO reason why every woman shouldn't enjoy the same perfect comfort and ease during summer as she does through the cooler months. Simply a question of selecting the right corset—the BON TON corset.

This matter of corset comfort is very essential, and correct style, absolute fit, graceful "lines" and serviceability are all-important factors. BON TON corsets combine all these fine qualities and assure the wearer year-round satisfaction.

MODEL 911

IN a BON TON corset your figure will not only assume the ideal contour, but you will be enabled to wear the sheerest gowns without fear of the corset "showing through" or bulging at top.

This is due to the fact that all BON TON corsets are skillfully cut, gored and boned so that they fit and cling to the form glove-like. They are supple, yet firm enough to give necessary support.

MODEL 965

THE illustrations portray three ultra-fashionable models which reflect prevailing corset style in every detail. These, with innumerable other BON TON models for every type of figure, may be seen at your favorite store. Be sure and ask for BON TON.

THURSDAY, APRIL 20, 1911.

UNLESS SIR WILFRID CAN FIND AN EXIT, THERE SEEMS TO BE NO WAY OUT.

THE UNCERTAINTY WILL BE PERMANENT.

THE determination of the American Protective Tariff League to join hands with the farmers of the American West in fighting Reciprocity, increases the doubt as to its stability, even if it be adopted. Influential members of the Republican party are notoriously hostile already. A majority in the late House of Representatives polled against it; and the Republican majority in the Senate would not so much as permit it to come to a vote. The politicians are plainly cowed to a considerable extent by the clamor of the American people for cheaper food; a clamor which casts a revealing light on the claim of our Reciprocity advocates that it will raise the prices our farmers will get for their produce; but strong elements are forming in the United States which fear Reciprocity and propose to fight it.

Without the Annexation cry, it would not stand a ghost of a chance to-day.

The important phase of this situation for us is that it spells continued tariff uncertainty. With the organized industries of the United States, and the embattled farmers of the American West, leagued in a ceaseless war against it, who can tell when a Congress will be elected which will repeal it? Even if it be as good a thing for us as its warmest friends claim, we would still be buying it too dearly if we paid for it the ruinous price of perpetual trade uncertainty. We could never settle down to business on a paying basis, if we did not know the day or the hour when the whole system on which our trade was being newly built up would be smashed to pieces by a political revolution in the United States.

To-day it is being borne ahead by statesmen who see Canadian Annexation in the future. But statesmen do not always rule a country. Demagogues rise to the top at times, and a short reign of demagogism would tear up the lines of traffic between Canada and the United States, and put us back where we were before we started to create a Home Market and ship our surplus direct to the world's market in Britain.

This uncertainty will give capital pause if it thinks of coming to Canada. It will retard investment and discourage the extension of our native enterprises. New factories will not be started here, new railways will not be built, new risks will not be taken, until it is positively known which road Canada is to travel for the long future. Are we to be independent, or are we to be an annex of the United States? Will we build up a nation of our own here, or will we merge our industrial, commercial, fiscal and agricultural life with that of the Republic to the South?

With some of us answering this question one way and some another, with the true answer to be given at a foreign capital and not in our own people with constant doubt as to what that answer must be, what capitalist, what investor, what captain of industry, what homeseeker, will come confidently to Canada ready to risk all on the permanence of the policy which we may be professing to follow?

MORE INSTRUCTIONS FOR MR CHAUSSE.

EXACTLY what the Board of Control expects to accomplish by the instructions which it issued yesterday to Building Inspector Chausse to see that the fire-protection by-laws applying to factories, theatres, schools, convents, and hotels are enforced, is not, at the moment, very evident. The enforcement of these same by-laws is the most important duty of the Building Inspection Department, of which Mr. Chausse has been the head for several years. It is not straining the probabilities too far to presume that Mr. Chausse has at least a general knowledge of what these particular by-laws cover, had it not been for the disclosures made in Chief Tremblay's report, most of us would have taken it as a matter of course that the Chief Building Inspector was keeping fairly close track of how the by-laws were being observed and was bringing persistent offenders to time with all the authority which the regulations provide for exactly such cases.

For the Controllers to instruct a competent and efficient official to enforce the laws with which his department is specially concerned would be either a wanton affront or a foolish bit of supererogation. To repeat these instructions to an official known to be incompetent and inefficient and to continue repeating them would be a very unsatisfactory way of dealing with a grave emergency. The Board of Control neglected to say under which of these heads its action of yesterday is to be regarded as falling. A little illumination is to be found in the rider which recommends that the city council shall put the responsibility for enforcing and the authority to enforce these by-laws in the hands of Chief Tremblay, thus leaving Mr. Chausse free to devote some adequate attention to his multifarious duties in connection with Jerry-builders, to which he has not been able to give his undivided energy because of the fire-protection agitation. We will all be glad to see what happens when Mr. Chausse gives his undivided attention to any one of his particularly important duties.

A LITTLE QUESTION OF INVITATIONS.

THERE are many ways of getting invited to a function. One of the easiest, although by no means the most certain, is to ask for an invitation. It may have been simply a piece of forgetfulness on the part of your prospective host which prevented your receiving an invitation in the first place, and it is just possible you will save a fellow-creature much mortification and regret by giving him a chance to rectify his carelessness. And it is wonderful the invitations that can be picked up in this manner. Our City Council has used it with very fair success in the past and now feels justified in trying it on King George and Queen Mary, who, no doubt inadvertently, did not include any Montreal aldermen in the list of those whom they expected officially at the coronation. The ceremony would probably be just as binding if performed without the personal assistance of five or ten members of our City Council, it might even be quite as impressive and the distinguished guests with regular invitations would possibly never know that we were not participating. If they did know, the chances are they would not care, so insular and self-centred is the average European potentate. But right is right, whether people recognize it or not, and coronations are coronations, and an aldermanic knout is always a good thing as long as the city pays the expenses. So if the King will only be a good fellow the aldermen can be depended on to do the rest. We understand that those who expected to be selected for the honorable and important duty, in case His Majesty can be prevailed upon to invite them, are even willing to agree not to go near the coronation proper. Such considerateness ought not to go unrewarded.

GRAMOPHONES AND MUSIC.

BEFORE the Railroad Commissioners can expect to hand down a scholarly decision on the very grave question of whether a gramophone is or is not a musical instrument, it will be necessary for them to discover or invent some definition of the word "music" which will satisfy the widely differing requirements of law, art, and literature. Whether a combination and succession of inchoate sounds is or is not music depends in very many cases on whether the individual who is doing the judging is also making the noises or only listening to them. It is not uncommon to find men and women, especially at this season of the year, who are the victims of an apparently irresistible impulse to make loud sounds with their vocal chords. The sounds are perfectly satisfactory to them, but other people do not pay six dollars a seat for the privilege of hearing them. This is one difference between music and Grand Opera. A violin may be an instrument of music or an instrument of torture, with the chances largely in favor of the second alternative. It is possible to conceive of otherwise intelligent people listening to the shrilling of a flute and imagining they liked it. Playing the cornet is said to be good for the lungs and the sounds produced in the process are not unattractive if heard from a reasonable distance, say a mile or a mile and a half. Even the bagpipes, but that is a matter of national pride, and the truth is not in it.

Gramophones, however, differ from all other known instruments in being able to reproduce the noises of any of them. This facility, unfortunately, is apt to prove too much. True Art is not versatile, or at least not as versatile as all that, and the Railway Commission will have to base its decision on the strictest canons of the most difficult of all arts. If pragmatism could only be applied to music, the task would be easy enough. All that Messrs. Mills and MacLean would need to do would be to try the gramophones on one or more individuals of average health and normal intelligence who could serve, for experimental purposes, as a standard solution of humanity. If they manifested genuine and legitimate pleasure throughout the ordeal, it might safely be assumed that gramophones, in moderate quantities and under reasonable restrictions, are no more dangerous than pianos, for example. If, on the other hand, they appeared irritable and peevish after a moderately prolonged test, there would be a certain justification in imposing the highest duty the tariff permits.

CITY AND HARBOR DISPUTES.

THE astounding discovery has been made that where the interests of the city and of the harbor are identical, it is quite possible for the authorities directly charged to represent each to arrive at an amicable and intelligent decision on matters of policy. For a number of years, this particular relationship has been figured on a very different basis. If the City Council made a request of the Harbor Commissioners, that fact was, in itself, good and sufficient reason for the Commissioners looking askance at the proposal, and vice versa, especially if the request was identified by this was never allowed to call forth any response with the traditional attitude one toward the other.

The present Harbor Board and the Controllers are doing away with the necessity of approaching common problems from a different standpoint. Montreal as a port and Montreal as a city need not be always at loggerheads, and to prove this, an ever-recurring problem of long-standing, what to do with the Elgin street sewer, was promptly and satisfactorily solved at this week's conference. This leads one to infer that other equally celebrated matters in dispute, such as the belching and pelting of the wharves and the running powers of the street railway, on harbor property may not be so impossible of solution as the record of the past discussions of these questions would lead us to suppose. No matter what the technical distraction, we want our wharves lighted and protected, just as we want our harbor basins freed from the gross offensiveness of sewage and our wharves kept accessible to street-cars.

It is plain that a condition of anarchy exists throughout Morocco. If Fez falls, there will be no settled government anywhere in the country beyond a few of the coast towns which are under the guns of foreign cruisers. This means the petals as of internal trade, of which there is considerable in peaceful times, and hastens the day when the traders of Europe will compel their several Governments to let Spain or France or both occupy and police the land. Morocco is one of the richest countries in the world, it is at the gateway of the Mediterranean; trading vessels pass it on all sides; and yet it is often more disturbed than Persia, over whose trade routes the Powers are not contending. This is a condition which cannot last.

The strike in Munich over beer reminds us that, while we are worrying about Reciprocity and marriage laws and that sort of thing, the people of the Bavarian Capital are dealing with the realities of life. They have sent a man to prison for six weeks, and committed five of his waiters to keep him company for part of his sentence, beside fining them handsomely, and all because he did not fill his "steins" of beer to the top. Munich is usually as mild as its beer, but an atrocious outrage, such as this fiend committed, does rouse it to the very centre of the Hofbrau.

There is a Garibaldi fighting with the rebels in Albania, and another with the insurrectos in Mexico. Blood does tell, even to the third generation.

The Burden of the Modern Press.

Philadelphia Public Ledger: "The present-day demand for universal publicity, for 'turning on the light,' not only when light is needed, but in every nook and cranny of public or private life in every corner of the world, is not so much the 'privilege' of the modern newspaper as the really serious burden under which it staggers. After all the newspaper, like the individual, has to meet its own problems and make its own reputation, not by any imagined privilege, but by the impression of character, good or bad, which it builds up from day to day."

Canals Must Be Deepened.

London Free Press: "The growth of the lake trade via Montreal will remain, of course, under a handicap until the Welland Canal and the canals beyond are able to accommodate vessels of greater draught and tonnage. The waterway provided in the Welland and St. Lawrence canals is but fourteen feet deep, while the larger grain carriers have a depth of [illegible] feet. When it is remembered that 62 per cent. of the Canadian grain crop went via Montreal last year despite this handicap of a 14-foot channel, it may be regarded as a certainty that almost the whole of the Canadian grain crop would leave the country deep enough to meet the demands of navigation."

House Resumes On Reciprocity

Special Staff Correspondence.

Press Gallery, House of Commons, Ottawa, April 20. The debate on the Reciprocity Agreement is in full swing once more. It was resumed yesterday afternoon by Mr. Thomas McNutt, Liberal, of Saskatchewan, who approved the agreement on the whole, but criticized it because the reduction on agricultural implements was insufficient. He also expressed a hope that the agreement would be followed by further reductions in the tariff.

Mr. McNutt began by defending the Grain Growers' Association against the charge, made by Col. Sam Hughes and Glen Campbell, that it was a branch of the Liberal party. The Hon. President of the Manitoba Association, Mr. J. W. Scallion, and the vice-president, J. S. Wood, he said, were both Conservatives. He then proceeded to read a letter from a correspondent who said he "hated like the devil to support anything proposed by the Laurier Government," but who was a member of the Grain Growers' Association and in favor of the agreement.

"Name," asked Dr. Sproule. Mr. McNutt declined and Dr. Sproule pressed for a ruling that the name must be given.

Chairman McIntyre ruled against Dr. Sproule, but Dr. Sproule gained his point in part. For though Mr. McNutt said he had other letters of the same kind he did not read them.

Mr. McNutt made a striking contribution to the discussion of relative prices in Canada and the United States. Portal, U.S. and North Portal, Canada, he said, were divided only by the boundary line, which ran down the middle of the main street. Yet American farmers that market got only 86 cents a bushel for wheat of the same "grade" for which the Canadian farmer on the same day got only 75 cents, though the Canadian "grade" was actually better.

As a farmer engaged in raising horses, Mr. McNutt admitted that the agreement might lower the price of horses in the West. He said, however, that farmers of the West would not oppose it on that account. They were asking that the protection of the manufacturers be removed, and therefore could not well ask to keep their own protection. Besides the consumer must be considered. The lower-priced American horses would supply a need for a while and the Canadian breeders could get a better price by raising better horses.

He then went on to warn the Government that there was danger of Canadian horses being infected with glanders from American horses. They had been in the past and in the future it would be necessary to keep a close watch on the imports of American animals.

Mr. Lancasters Argument.

"It is better to fear annexation than not to care a tap," said Mr. E. A. Lancaster. "It is all very well to say that the people of Canada would rather stand a packet loss than give up their loyalty. But I do not want to have my grandchildren's financial interest on one side and their loyalty on the other.

"Mr. Fielding," he went on, "talks of loyalty, but it is loyalty I do not like. He talks of loyalty to President Taft. That very talk shows that there is need of fear for annexation. For he has gone to Washington and made an agreement without any authority, and now he will not let the people express their opinion on it because of loyalty to President Taft.

"It is not a matter of honor or 'sic' at all," he said. "It is a matter of the vanity of the Finance Minister."

Mr. Lancaster pointed out that this agreement left the United States free to make what arrangements they wish with other nations, but Canada was not free. Canada was bound to give the same favors to thirteen other nations. President Taft's message to Congress showed that he was aware of this. "I would not say," commented Mr. Lancaster, "that our representatives were not aware of it, but if they were, they did not act like it."

Mr. Lancaster set forth the standpoint of the Niagara fruit-growers with some care and strongly supported the objection to the agreement which has been voiced by Mr. Martin Burrell for the British Columbia fruit men. He pointed out that the Canadian growers could not compete, of course, with the southern fruit. However, under present conditions they were able to compete with the middle and northern fruit of the United States. But if agreement went into force they would no longer be able to do so. The cream of the market was taken by the early fruit, and under the agreement the Americans would be ahead of the Canadians all along the line.

Will help Quebec Farmers.

Mr. J. A. Robb, of Huntingdon, was the last speaker of the day. His main contribution to the debate was on the subject of the milling industry. The chief competitor of the Canadian miller, he said, was the British and not the United States miller. So much so was this the case that a group of Canadian millers were considering the establishment of a mill in Liverpool. Mr. Robb affirmed that the agreement would benefit the Quebec farmers and declared his intention of voting for it.

Mr. David Henderson of Halton holds the floor this afternoon.

Smallpox in Parliament.

The smallpox outbreak was the subject of a question to Col. Sam Hughes. He was informed by the Premier that one of the official reporters had been taken with the disease Sunday. The office in which he was employed had been fumigated and his fellow employes vaccinated.

"What will the Government do if one of the members of the House is taken to the pest house?" asked Dr. Chisholm.

There was no answer except a general half-suppressed laugh.

Hon. G. E. Foster asked whether it were true that the U. S. gunboat Dubuque had been allowed to go through the canals to the Great Lakes, and whether the vessel it was to replace had been removed.

The Premier answered that permission had been given to exchange the Dubuque for the Nashville. The Dubuque was smaller than the Nashville. Neither vessel had yet gone through the canals.

The Premier also made a statement in reply to Mr. Foster in reference to the death of two Royal Mounted Police between Fort Macpherson and the Yukon River. The officers, he said, were engaged in regular patrol of the district. This patrol had been the policy, summer and winter, for many years. The subject was to assert Canadian authority in view of the wintering of American sealers in that region. There had never been any trouble with the sealers but it had been considered wise to assert Canadian authority.

"Has the Canadian Light and Power Co. submitted plans for the enlargement of its works at the Beauharnois Canal?" asked E. D. Monk. "And what action has been taken?"

"Application has been received," replied Sir Wilfrid, "but no action has been taken."

"Will there be any legislation to provide for the conservation of our water-powers this session?" Mr. Monk pursued his questioning.

"I would not like to make any promise that this matter would be taken up this session," was the Premier's reply.

To the Editor.

Questions for Mr. Maxwell.

To the Editor of The Montreal Star:

Sir,—As considerable attention has been given through the Press of the visit to Canada of Mr. William Maxwell, J. P. of Glasgow, Scotland, whose mission here is to give publicity to the Co-operative Society system of doing business and their supposed advantages over the individual method of conducting trade, I would deem it a favor if you would publish the following questions, which are of public interest, and which I would like Mr. Maxwell to reply to during his address on the subject to-morrow before the Canadian Club:

1st. What percentage of the 2,600,000 members who belong to the Co-operative Societies in Great Britain earn their living in Co-operative industry, and what percentage depend upon the energy and ability of the enterprising merchants and manufacturers, whom your Societies call private trades and whom you are endeavoring to "eliminate"?

2nd. In your interview with the press of Montreal you stated that the wholesale co-operative societies of England and Scotland made a profit of fifty-five millions in one year. Will you state if any income tax was paid on this profit? And, if not, why should other merchants and manufacturers be taxed and your societies be exempt?

3rd. In what special way do you claim an advantage through your system over the present system of having goods made by skilled manufacturers and from them to the wholesalers, who distribute them to the retailers and from the retailers to the consumers? If the present system is wrong why do you follow it by adopting the same system?

J. A. BEAUDRY,
Secretary Retail Merchants' Association of Canada for the Province of Quebec.

Ticket Speculation In New York.

To the Editor of The Montreal Star:

Sir,—I read with interest in Wednesday's Star the editorial on ticket speculation in New York. In this connection I would like to draw attention to the fact that the Messrs. Shubert, New York representatives of the Princess Theatre, Montreal, placed some five thousand folders, giving a list of the most popular attractions in New York in the railroad offices prior to Easter, with a view to their coming into the hands of intending excursionists to New York.

In these folders the public were invited to make reservations at the Princess Theatre, Montreal, for any one or more of a large number of New York attractions. These reservations are constantly being made by the Princess Theatre for visitors proceeding to New York. The seats are reserved by telegraph, and the reservations confirmed by letter, free of cost to the purchaser.

Those of the Montreal public who avail themselves of this arrangement, secure excellent seats at the face value of the ticket and are thus protected from the expense and annoyance of speculators.

Assurance Company Explains.

To the Editor of the Montreal Star:

Sir, Will you kindly publish the following letter in the columns of your valuable paper:

"Some days ago you published in the columns of your paper an item to the effect that the Mount Royal Assurance Co. had paid a sum of money to Mrs. Ranger in settlement of a claim which the company precedingly contested, and in connection with which it had accused Mrs. Ranger of arson. The facts, such as you mention, are not exact, and are liable to create a wrong impression regarding our management. Mrs. Ranger was committed to the King's Bench for arson by the Fire Commissioners, and the Crown, having failed to obtain a conviction, we preferred to settle the affair out of court, a procedure which it would have been inconsistent for us to follow if the arrest had been made on our behalf."

Highland Cadets and Coronation.

To the Editor of the Montreal Star:

Sir, It seems as if all the hard work put in by the boys of the Highland Cadet Battalion throughout the past winter to fit themselves for the Coronation ceremonies will fall through for want of support financially. This is a reflection on our wealthy citizens, who, without stinting themselves in the least, might very easily have helped the poor lads to take in this trip.

The boys have assessed themselves ten dollars each towards the cost, and they have nearly $4,000 in hand. The total cost would be about $10,000.

We often see long letters in the papers advocating closer ties for the Empire. Surely these writers could not see a better way to show Canada's desire "to weld the link that binds" the Empire than by sending a battalion of our own boys from this city to the Coronation. They should show their honesty by contributing towards the expense of this trip.

Some time ago one of our papers published a list of nearly one hundred millionaires in our city. A cheque of $100 from each of these gentlemen would more than make up the balance to send our boys home.

Apart from the advertising our city would get, look at the education it would be on Empire building and leave a lasting impression for good on the minds of the boys taken.

The Late Hon. L. S. Huntington.

"The Hon. Mr. Huntington will deliver an address on Monday evening next on 'Reform Principles.' The lecture is under the auspices of the Young Men's Reform Club, and will be delivered at the Windsor Hotel, in the Ladies' Ordinary." From The Montreal Star, April 20, 1881.

THERE was perhaps no man who could explain the reform condition to their followers as could Mr. Huntington, for he kept everything before them that should be considered necessary. He understood just how far an explanation should go, and rarely imposed his opinion, but ever suggested annexation as one of the first principles. That he at several times opposed Mr. Goldwin Smith was to his credit, even if he was constrained to introduce matters that suggested copper mine considerations. The Hon. Mr. Huntington was born at Compton, in the county of Stanstead. He studied law at Sherbrooke, and was called to the Bar in 1853, and, like many brieflless lawyers, he became proprietor of the Waterloo Advertiser. In 1861 he was elected to Parliament, and afterwards filled many places that he aspired to.

Can She Find the Letter in Ten Seconds?

THAT is the test which proves whether your Filing System is giving 100% efficiency or not. It is most annoying when you are busy dictating to have to wait while your stenographer searches for some letter to which you wish to make a reply.

With "Office Specialty" Vertical Filing System, you or your stenographer can find any paper or group of papers with any firm or with any individual, or on any subject in ten seconds. Let us show you why.

STANSTEAD — Farms that will please you, low prices, easy terms. If you are looking for a farm, write to E. W. Hay, Stanstead, Que. 90 4

WE HAVE three farms at the Riviere des Prairies that are the very cheapest and best situated. Being the first to arrive here and take options, we got the land cheap; then the surrounding farms were soon sold, and our hopes were realized, for the land went up in value at once. The actual value is now 25 per cent more than it was two months ago, and bids fair to raise 25 per cent. more within 6 months. Do not forget that these farms are situated just opposite the islands in Prairie River, along the water's edge; price $25,000 for 108 acres; price $20,000 for 97 acres, another of 80 acres for $8000 cash, and the balance on easy payments. GENTLEMA

AMBASSADOR BRYCE AND THE HIBERNIANS

Is Ineligible for Membership as the Order is Confined to Roman Catholics.

London, April 20.—The report that the Right Hon. James Bryce, British ambassador at Washington, had joined the Ancient Order of Hibernians, was brought up in the House of Commons yesterday. Replying to Mr. Blackstone Houston, Unionist member for Liverpool, who asked Premier Asquith if he would communicate with Mr. Bryce, with a view of securing the latter's contradiction of the statement that he had attended a meeting of the Ancient Order of Hibernians, that he made a speech in reference to Home Rule, which was rapturously applauded, and that he was afterward elected a member of the order. Mr. Asquith replied that he didn't think the matter worth inquiring into. Mr. Asquith also refused the request of Captain James Craig, Unionist member for East Down, Ireland, that the Premier send a circular to British ambassadors abroad, warning them against having any connection with such bodies.

When Mr. Houston gave notice of this motion, Patrick J. Halligan, Division president of the Ancient Order of Hibernians at Washington D.C., stated that Mr. Bryce was not eligible to membership in that body, which is for Roman Catholics only.

La Diva

NON-RUSTABLE

CORSET

"What A Perfect Figure!"

Yet if the lady earning this compliment were not properly corseted, the same person would call her stout.

The La Diva Reducing Corset, No. 609, is made on the principle that plumpness is not a detriment, but an advantage when properly treated.

With entire comfort the hips can be reduced three inches or more, and the gores aid the straps in creating the graceful silhouette decreed by Fashion.

Until you have tried La Diva 609, you cannot realize the perfect blend of style and comfort possible in a corset.

Examine this model at any good store,—it sells usually at $3.50,—and see if it is not superior to imported reducing corsets at $5.00 or $6.00.

The Encyclopaedia Britannica, 11th Edition

Is a clearing house of modern thought, knowledge, and achievement, through which the layman can pass his doubts and difficulties, with the certain assurance that no reasonable demand for information that he may present will be dishonored.

The work has all the comprehensiveness of an ideal library, the quick accessibility as to contents of an ordinary dictionary, and (in the convenient India paper, flexible leather-bound format) the unprecedented quality in a work of reference of being as easily handled as a magazine. Its necessity as a resource is measured by the helplessness of even the most learned man alive in the face of the vast complex of things knowable, and its value in use by the thoroughness with which everything that can possibly interest a civilized people has been traversed and indexed by the experts who wrote it. If every other book in the world were destroyed it is not too much to say that, so far as essentials are concerned, it would be possible to reconstruct the human story from its pages; and so in the event of such an unthinkable catastrophe the Encyclopaedia Britannica (Eleventh Edition) would thus be the one work which civilization could least afford to lose, so in the case of the individual it is the best, in fact the only, remedy for the disabilities imposed by his enforced ignorance of all but the most insignificant fraction of the whole of recorded knowledge.

Of all kinds of loneliness, loneliness in a crowd is the most depressing, and of all kinds of ignorance, the ignorance of the modern man which is the outcome of his necessary intellectual isolation is the most humiliating.

The special torture of Tantalus was not merely that he was condemned to perpetual thirst, but that in the midst of an abundance of water he was unable to drink, and it is the similar misfortune of the man of to-day that between himself and the streams of knowledge springing up in every direction around him there is interposed a barrier which the very richness and variety of modern intellectual life only serve to render the more intolerable. Every intelligent person has an instinct amounting to a profound conviction that, while the special training and elaborate mental equipment of the expert are something peculiarly his own, his conception and viewpoint can be shared if only they are intelligently interpreted. What irritates and baffles him is the discovery that if he tries to translate this belief into practice the information he seeks is usually so scattered in source, so diffuse in form and so technical in expression that even the resources of well-furnished bookshelves avail to help him very little. The more valuable the contents of a technical library, the less as a rule has it to offer to anyone outside of the limited circle to whom its volumes are addressed.

It is primarily as an instrument of record and research constructed by the leading specialists themselves for lay use that the new Encyclopaedia Britannica is offered by the press of the University of Cambridge as a complete solution of the problem of the man who is desirous of being of his age as well as in it.

In its pages 1,500 representative experts chosen solely on the ground of pre-eminence in their respective fields have co-operated to break down the intellectual isolation of the general reader by presenting him with an exhaustive account of human achievement to 1910 in which he will find what he seeks and understand what he finds. Vast as is the sum of human knowledge, it is finite, and it has been found possible to exhaust its essential contents within the compass of 27,000 quarto pages of 1,500 words each, and at the same time to preserve an encyclopaedic arrangement by which, with the further aid of an index volume containing 500,000 references, any isolated item of information is instantly accessible. And in this co-operative achievement of modern international scholarship nothing has been abated of the high standard observed by specialists writing for specialists. To the expert the book will prove fruitful of suggestion even in the field he knows so well, besides fulfilling every demand he can make on it in the vastly greater region which lies beyond the limits of his special knowledge. In the effort to produce a work of universal reference suitable for all classes of users, no sacrifice has been permitted of the great tradition for exhaustive treatment with which for 140 years the name of the Encyclopaedia Britannica has always been associated. It is the organization and not the spirit of the work itself that has been changed.

As further extending its usefulness as an instrument of popular culture the editors of the 11th Edition consider that the innovation of India paper logically completes on the material side a refining process by which an aggregate of knowledge estimated to be twice as great as that contained in the 9th Edition has been brought within the covers of 28 volumes.

It is not altogether easy to realize that a thin, flexible volume, occupying one inch of shelf room as against almost three, not only contains 25 per cent. more reading matter than the bulky quarto of the Ninth Edition, but also excels it in durability. Indeed, in this respect, the substitution of India for ordinary paper is reminiscent of the change in structural work from stone to steel. While in every way the superiority of the latter material is incontestable, to an old-fashioned engineer accustomed to the massive masonry of years gone by it must always come a little hard to associate the slender lines of a modern bridge with the idea of increased permanence and added strength.

Advance-of-Publication Prices Soon to be Withdrawn.

All subscribers who register their applications before May 31 will effect a very substantial saving and will acquire the foremost work of reference at a price which has never before been possible.

Vols. I. to XIV. are now being delivered to early subscribers, and Vols. XV. to XXIX. are expected to arrive from England shortly. Complete publication will, therefore, shortly be effected, and the "advance-of-publication" terms must be withdrawn on May 31 next.

NOTE.—Those who possess copies of previous editions of the ENCYCLOPAEDIA BRITANNICA (now out of date) are requested to advise us of the fact, clearly indicating which edition they possess (giving name of publisher and number of volumes), and if they wish to purchase the new edition they will be informed how they can dispose of their old editions at a fair valuation.

The New Edition is sold direct to the public and through the leading booksellers.
No Agents or Canvassers are employed or recognized.

DIAZ LAYS BLAME ON AMERICANS

Says They Disarm Federal and Arm Rebel Troops and Fight With Latter.

Special to The Montreal Star.

New York, April 20.—A special Times despatch from Mexico City says:—

An extraordinary misunderstanding is responsible for the erroneous impression prevailing in the United States concerning both the form and contents of the Mexican Government's reply to the protest of United States Government.

President Diaz, far from promising satisfactory restrictive measures in border operations, such as are demanded by Washington, merely states that he has repeated to the Federal commanders orders previously issued by the Mexican Government.

The Mexican note states that the Diaz Government is not liable for damages of any kind because of occurrences on the frontier; that the United States troops are disarming Mexican Federals, and arming rebels, and that most of the fighting in the rebel ranks is being done by Americans.

FOR BRANTFORD CHARITIES.

Late Charles Champion Leaves Estate of $45,000.

Special to The Montreal Star.

Brantford, Ont., April 20.—The will of Mr. Charles Champion, retired hardware merchant, who died here Sunday night, bequeaths $45,000 to be distributed among local religious and charitable organizations.

These, however, will receive only the interest on the capital sum invested until the death of Mrs. Champion, when the bequests will be paid in full.

Navigation Open at Soo This Week.

Special to The Montreal Star.

Sault Ste. Marie, Ont., April 20.—Continued warm weather has made heavy inroads on the ice in Mud Lake and the vicinity of Round Island and Point Iroquois, which places are the only ones now hindering navigation in St. Mary's River. Unless conditions change materially, vessels will be able to get through by Saturday or Sunday.

Aged Guelph Religuese Dead.

Special to The Montreal Star.

Guelph, Ont., April 20.—Mother Antoinette, of the Toronto Academy, died yesterday afternoon after a lingering illness. Mother Antoinette was the youngest daughter of Mr. James McQuillan, a well-known pioneer, whose homestead is on the Victoria Road, a few miles from this city. She entered the community forty-two years ago.

Lenox Child Shot His Brother.

Lenox, Mass., April 20.—Edwin Mattoon, seven years old, was instantly killed and his brother, Fred. Mattoon, aged five years, was wounded in the shoulder, by the accidental discharge of a shotgun in the Mattoon home at New Lenox, yesterday. It is said that the gun had been left unloaded, but that in playing with the weapon, the boys found some shells and loaded it.

IMPORTANT NOTICE.

Commencing Sunday next, April 23rd and each Sunday thereafter, until further notice, the Grand Trunk Railway System will operate a new Sunday train, leaving Montreal, at 9.10 a.m., arriving Valleyfield 10.55 a.m., returning this train will leave Valleyfield at 7.30 p.m., arriving Montreal at 9.15 p.m. In addition to the above, the Grand Trunk Railway System will also operate a new train daily except Sundays, between Montreal and Valleyfield. This train will leave Montreal at 5.15 p.m., arriving Valleyfield 7.00 p.m., returning will leave Valleyfield at 8.00 a.m. arriving Montreal 9.45 a.m. The first trip Montreal to Valleyfield will be made on Saturday, April 22, the first trip Valleyfield to Montreal on Monday, April 24th. R.&O. Deal Through--La Rose Figures--Record G.T.R. Meeting--New Issues

R.&O. 123 THEN IT RE-ACTED, WALL ST. FIRM

Activity in Richelieu and a sharp upward move in Ottawa Power, were the day's features.

Richelieu sold as high as 123 when the news came out that the deal was practically completed, but profit taking led to a reaction to 121¾.

Dominion Steel was irregular. There was a little buying possibly based on the talk that the announcement about the bounty was coming shortly. The "Street" is pretty well wedded to the view that unless the bounty is renewed the dividend will have to be cut in half for at least a year.

Ottawa Power is a pretty strong issue, and seems to meet with a persistent demand from time to time.

BUYERS AND SELLERS.

Richelieu buyers—Gault & Stephens, Macdougall Ross, Pitblado & Co., McCraig Bros., Redpath & Co., Meredith & Co., Garland & Co., Brearley & Co., Nash & Co., McIntosh & Macdougall, McCuaig Bros., McDougall & Cowans.

Richelieu sellers—Hamilton & Son, Pitblado & Co., Redpath & Co., Mackintosh & Co., McCurdy & Co., A. A. Wilson, Strathy & Co., R. Forget, McCuaig Bros., Meredith & Co., McDougall & Cowans.

Steel buyers—Mackintosh & Co., Bruneau & Dupuis, A. A. Wilson, W. P. O'Brien, Burnett & Co., Pitblado & Co., Redpath & Co., Davidson & Co., Carsley & Co., McCuaig Bros.

Steel sellers—W. P. O'Brien, Gault & Stephens, R. Forget, McCurdy & Co., McCuaig Bros.

Power buyers—McCuaig Bros.

Power sellers—Mackinnon & Macdougall, Garland & Co., Nash & Co.

In Wall Street

A wire said: "Speculation during the morning session resulted in no important changes in prices. Activity slackened and stocks eased off somewhat toward noon. Traders watched the dealings in U. S. Steel, and certain of the railroads closely. U. S. Steel was sold heavily, transactions being largest around 75. There were reports that prices of certain products would be cut. Sentiment was confused by conflicting statements as to the plans settled upon for reorganization of the directorates of M., P. and other Gould roads. Western Maryland and People's Gas improved 1, and American Beet Sugar 1¾."

GEORGE GOULD HAS "COME BACK"

Mr. Edmund Randolph wired this morning in regard to the entry of the Speyers into Missouri Pacific:

"This Missouri Pacific episode is a bold movement brilliantly executed on Gould's part. His change of bankers has decidedly benefited and strengthened the Missouri Pacific's position, owing to other larger conflicting interests, in which Messrs. Kuhn, Loeb & Co. are the dominant powers."

SAME PENMAN'S DIVIDEND.

The regular 1 per cent. dividend has been declared on Penmans common, payable May 15th to holders of May 5th.

FINANCIAL PERSONALS.

Mr. F. A. Vanderlip will become a director of Missouri Pacific.

Mr. Noah Timmins, president of the Hollinger, is in the city.

Mr. James Ross is at Monte Carlo.

Sir Henry M. Pellatt has returned to Toronto.

Mr. George Smithers has returned from New York.

SPEYERS TO BE BANKERS.

Speyer & Co. will be the bankers for Missouri Pacific in place of Kuhn, Loeb & Co. James Speyer will be elected a director.

MERCHANTS BANK RECORD.

The present price—193—for Merchants Bank stock is the record. In the early nineties the price fluctuated between 165 and 184.

Motor Shares Met With a Big Success

The new Cycle and Motor issue—or the Russell Motor as it is to be called hereafter—pretty nearly made a record.

The advertisement of the offering of $800,000 7 per cent. cumulative convertible preferred shares of the company appeared in the newspapers yesterday.

The books were advertised to close not later than 4 o'clock on Tuesday, April 25th, but the demand for the stock was such that A. E. Ames & Co. were forced to close the subscriptions at 4 o'clock in the afternoon after the books had been opened four hours.

Representatives of the Toronto firm state that subscriptions mailed yesterday from outside necessarily have to be considered, and for that reason nothing definite can be said as yet as to the basis of the allotment flotations.

135 Looks Good To the Holders Of the Stock

Toronto, April 20—So rapidly have the shareholders of the Toronto Electric Light Co. responded to the call for the surrender of their shares on 135 basis that all doubt as to obtaining the requisite two-thirds of the stock for the completion of the transfer to the new interests has now been swept aside.

It has been learned on reliable authority that by to-morrow, at the latest, sufficient stock will have been surrendered to consummate the deal, which will be put through at once.

OPINIONS ON THE MARKET.

Charles Head — We would buy on reactions for speculative turns.

Laidlaw & Co. — There is nothing of a tangible nature in the situation to warrant the expectation of any wide decline, while a possible early settlement of the uncertainty surrounding the status of the large corporations will cause pronounced and favorable revulsion of sentiment.

Shearson-Hammill Co.—On any further buying either by shorts or the bull element, I think stocks would advance still further.

G. W. Farrell & Co.: There is no particular trend to the market, but the undertone continues strong.

E. & C. Randolph: A good deal of disappointment is expressed in the Street that the flurry of two days ago has all quieted down and the market seems still to be in as much of a rut as ever.

Oswald Bros.—Bullish reports are being revived on Canadian Pacific. That stock is said to have been bought very strongly again during the latest decline.

R. & O. DEAL IS CLOSED; TALK OF 8 P.C. RATE

Everything Now Cut and Dried--The Dividend Chances

The "Street" took it for granted to-day that the R. & O. deal is cut and dried, and that in the course of a few weeks the R. & O. will be operating the Inland and Northern Navigation concerns.

Confirmation of what has been done here is awaited from the Furness interests in England.

The R. & O. directors and the Furness people had a pretty strenuous day yesterday, and the afternoon meeting lasted until 7 p.m.

It is understood that when the Richelieu shareholders meet on May 1st to ratify the new stock issue, that mention will be made of dividend prospects. It is clearly the intention to put the stock on an 8 per cent. basis, although the increase will not likely be made until the coming season's results are known.

Gold Stocks

Brokers are not getting rich executing commissions these days.

Hollinger is strong again, and was $9.60 bid.

Crown Chartered was 53.

Pearl Lake offered at 54, and West Dome at $2.05.

Kerr Lake was $3.12 bid, and Foley, $1.93.

BANK ENGLAND IS STRONGER THIS WEEK

Mr. Chamberlin Goes West.

Mr. E. J. Chamberlin, vice-president and general manager of the Grand Trunk Pacific, who went to New York to see Mr. Hays off on his trip to London, returned to Montreal to-day. He is leaving for Winnipeg almost immediately.

BROKERS IN LONDON ARE PROSPEROUS.

Although Wall Street brokers claim to be "starving to death," the members of the London Exchange are enjoying prosperity. As stated in The Star the other day, the London Stock Exchange has declared a dividend of 100 per cent. Only once before has such a large payment been made, that was in 1906.

The following table shows the fluctuations in London Stock Exchange memberships and receipts for the last ten years:

	Subscription fees.	Members.	Clerks.
1902	£195,820	4,754	3,109
1903	204,983	4,826	3,338

TOPICS OF THE STREET.

Talk about faith in stocks, one should hear some of the hide-bound friends of Laurentide when they get wound up.

The ordinary mortal would suppose that the present price—218 would satisfy the most optimistic on that property, but 218 is nothing.

It is understood that Laurentide is to double its capital and pay 5 or 6 per cent. on the new basis.

At 218 for the old stock that would be equivalent to 109 for the new.

One man close to the company says that some day the new stock will sell at 200, equivalent to 400 on the present basis!

This beats the Hon. Jeff Levy and Edward Wasserman when they limber up on a few long distance guesses on C.P.R.

One of the objections the R. & O. directors have to the Inland Company is that, technically speaking, the stock contains too much H. 2, O.

Molst stocks are not as popular as they were six months ago, when anything went in a merger at any old price regardless of scrutiny.

There is a disease in Wall Street called Atchisonitis.

It is said that when a man gets fascinated by Atchison stock, he gets the disease in violent form, and remains a friend of Atchison to the end of his days.

It is said that John W. Gates, among others, caught it some years ago.

Sir Thomas Shaughnessy is in favor of wars, but not railroad rate wars.

Some of the brokers are predicting a firmer market for Cement common. The company is said to be making considerable progress.

Dominion Steel pref. sold at par to-day, the lowest it has been for a long time.

"Nip" Figures For the Year, Watson Hopeful

Nipissing's annual report was issued to-day.

General Manager R. B. Watson says: "The results for the past year have been most gratifying, both production and profits have exceeded those for any similar previous period. Notwithstanding a production of over 5,500,000 ounces of silver, enough additional ore was developed during the year to fully replace the ore so output.

"The total cost of production in 1910 was $816,981; $121.62 per ton of shipping ore and 14.72 cents per ounce of silver.

"At the end of the year the surplus of the mining company was $952,790.

B. C. Copper to Buy The McKinley Mine.

British Columbia Copper Co. has taken a working bond on the McKinley mine, the initial payment being $1,000, and the final payment, if the mine proves to be what the company wants after prospecting it, to be $99,000, making a total cost of $100,000.

McKinley mine is located sixty miles from the Greenwood smelter of the British Columbia Copper Co., and twenty miles from the Canadian Pacific.

Canada to Send Naval Contingent.

Special to The Montreal Star.

Ottawa, April 20.—The Government has decided to send a Canadian naval contingent to the Coronation. It will consist of thirty-five petty officers and men, and three officers, and all save one officer and two petty officers will be chosen from among Canadian recruits to the navy. They will not be sent over on a cruiser.

G.T.R. MEETING LASTED ONLY 30 MINUTES

And no Questions Asked --The $30,000,000 G.T.W. Mortgage

From the Special Correspondent of the Montreal Star in London.

London, April 20.—For the first time in living memories, the Grand Trunk meeting lasted less than half an hour. The harmony was so complete that not a single question was asked.

The chairman promised at once to submit a bill to authorize the issue of bearer bonds. He showed the fallacy of the idea lately set afloat here, that the Trunk shareholders might expect a bonus as a result of the Grand Trunk Pacific townsite sales.

The railway had no land grant, and was a poor company, doing an immense work with limited means. The great difficulty is scarcity of labor, but, he says, the company is doing its best.

WINDERMERE.

London, April 20. At the semi-annual meeting to-day of the Grand Trunk Railway of Canada, unanimous assent was given to the Grand Trunk Railway Act of 1911, and the directors authorized to exercise the powers conferred upon them by this law, including the raising of a mortgage of $20,000,000 on the Grand Trunk Western Railway, the interest on which is guaranteed by the Grand Trunk.

BANK RATE IS THE SAME.

The rate of discount of the Bank of England remained unchanged at 3 per cent. to-day.

2 Big Issues Coming on London Market

London, April 20.—Money was more plentiful, and discount rates were weak to-day.

The stock market was quiet and irregular. Mex. and home rails hardened, but coals and gold-edged securities eased off on prospective new issues, including $10,000,000 Queensland and £15,000 East Indian Railways 3½ p.c. bonds.

GOT VANCOUVER BONDS.

Wood, Gundy & Co., of Toronto, secured the issue of South Vancouver bonds, amounting to $1,660,000, at 98¼. Interest rate is 4½ per cent.

May Wheat in Big Demand at Winnipeg.

The Winnipeg wheat market was stronger to-day. A report said that one concern at the seaboard had sold 4,000,000 bushels of wheat and oats for export over night. Winnipeg reported the buying there of May wheat on a large scale, and the volume looked very much like export business.

Cold Weather Retards European Grain Crops.

Foreign crop conditions as cabled by the Liverpool Corn Trade News to-day were as follows:

"United Kingdom — The growing crops are rather backward owing to the recent cold weather.

"France — The winter grain crops are looking well. There are some complaints being heard regarding the spring crop, the plant being in poor condition. Indications point to a large consumption of foreign grain.

"Germany — The weather has been unfavorable, it being too cold, although no serious damage is reported as yet.

"Hungary — Damage to the crops by severe cold weather is confirmed. The weather now is improving.

"Russia — Much winter kill is confined to the winter crops in the south-west, elsewhere crop reports are better. Spring sowing is progressing satisfactorily.

"Roumania — The outlook for the growing wheat crop is favorable. The planting of corn has commenced. The weather is warm.

CHATS ON CHANCE.

A wire received on 'Change to-day from Winnipeg said: "An improved demand exists for both wheat and oats here, with sales of about 150,000 bushels of wheat, of which Hamburg took 15,000 bushels Nos. 1 and 2, and but for loads more, but those low grades are scarce and prices hold quite steady."

The fortnightly bulletin of the American Railway Association, states that on April 1st, the net surplus of idle cars on the lines of the United States and Canada stood at 194,887, compared with 207,261 two weeks before. The difference is 12,374, or 5.9 per cent. The number of idle cars was 196,217, compared with 208,527, while the short-age change was almost nil, the total in the last report standing at 1,330, against 1,266.

In New England and Canada there were increases in the box-car surplus, which, however, were partly offset by a better demand for cars of other classes. Following is a table showing the surpluses and shortages at various recent dates.

George Le Count, the crop expert, estimates the Kansas wheat prospects at from 80,000,000 to 85,000,000 bushels.

POTATO PRICES STRONG.

Potatoes are in good demand and prices hold firm. For car lots, sellers are asking 70 to $1.15 per bag, and in a jobbing way $1.25.

FAIR TRADE IN EGGS.

Receipts of eggs were 942 cases, compared with 1412 a year ago. Prices are about steady, with a fair volume of business passing. Straight gathered stock, in sound lots, 17½c; single cases, 18½ to 19c, and selected stock at 21 to 22c per dozen.

BUETER MARKET EASIER.

Receipts of butter, 971 packages, compared with 123 a year ago. The local market is easy, with new milk creamery quoted around 23c and finest held at 23½ to 23c.

FLOUR TRADE IS QUIET.

Manitoba spring wheat patents, firsts, $5.30; do. seconds, $4.80; winter wheat patents, $4.50; Manitoba strong bakers, $4.60. do. in bags, $1.75 to $1.85; extras, $1.60 to $1.70.

FIGURES ON LA ROSE CAME OUT TO-DAY

The report of the La Rose Consolidated Mines Co. for the seven months ended December 31 last has been issued. Heretofore the fiscal year of the company has ended on June 1, but the change has been made so that the fiscal year conforms with the calendar year. Following is the income account of the La Rose Consolidated Mines Co. for the seven months ended December 31 last: Dividends on 5,999,930 shares and 70 directors' shares of La Rose Mines, Ltd., $475,000; dministration expenses, $15,832; balance for dividends, $459,168; dividends paid, $449,588; surplus, $9,580; previous surplus, $3,781; total surplus, 13,361.

Total shipments for the year amounted to 2,380,609 dry tons, the net value of which was $437.26 per ton. Shipments of silver amounted to 2,118,574 gross ounces, the net value of which was $1,040,934. The average price received per ounce was 53.956c. The total cost of production during the year was 491,120; cost per ton of shipping ore $196.38, and per ounce of silver 19.11c.

Following is the combined income account of the La Rose Mines, Ltd., and the Univversity Mines, Ltd., for the seven months ended Dec. 31 last. Shipments prior to May 21, 1910, 3378,966; shipments subsequent to May 31, 1910, 687,542; gross settlements during period, $1,066,508; gross value of ore at mine, in transit and at smelters on December 31, 1910, $790,228, total, $1,856,736; gross value of inventory May 31, 1910, $456,209; gross value of ore for period, $1,400,527; other income, etc., $7,728; total revenues, $1,408,255; expenses, including smelter deductions, treatment, etc., $498,847; profit on production for period, $909,408; dividends, $475,000; surplus, $434,408; previous surplus, $469,950; total surplus, $904,367.

Combine Bought 12,000 Acres of Oyster Beds.

New York, April 20. — Probably the largest oyster deal made in Connecticut in some time was put through when the Jeremiah Smith & Sons Company, of City Point, that state, sold out their industry to the Sealshipt Oyster Company, of South Norwalk, which has plants in Connecticut, Rhode Island, Massachusetts and New York, and which is considered by some dealers to be trying to get a monopoly of the business. The price paid was in the vicinity of $1,000,000, part of which was paid in cash. The strength of the purchasing company is indicated by its ability to buy up such an enormous tract in a few days, for it took only that time for Charles H. Nichols, of the shell fish commission, to negotiate the transaction. The plant consists of over 12,000 acres of oyster beds.

HAY DEMAND IS LIMITED.

Hay prices are fairly steady, but the volume of business is small.

No. 1 choice, $10 to $10.50; extra No. 2, $9 to $9.50; ordinary No. 2, $8 to $8.50; clover, mixed, $7 to $7.50; clover, $6 to $6.50, car lots.

LOCAL GRAIN RECEIPTS.

Local grain receipts: G.T.R.—Wheat, 5000 bush.; corn, 898, peas, 1200; flour, 330 bbls. C.P.R.—Peas, 1900 bush.; flaxseed, 11,182; flour, 13 bbls.

GREAT PROGRESS MADE IN SEEDING

Special to The Montreal Star.

Brandon, Man., April 20. — With the fine weather which has prevailed since Monday, great progres has been made in seeding work this week. The conditions have been ideal, and, with the splendid outlook for continued settled weather, farmers are well pleased, and the feeling is that the spring work, notwithstanding the increased acreage, will be completed much earlier than expected.

BULL NEWS TO-DAY STRENGTHENED WHEAT

From the Special Correspondent of the Montreal Star on the Chicago Board of Trade.

Chicago, April 20.—Wheat ruled irregular, with May selling between 89⅛ and 89¾c, and back to 89½c, against a resting spot of 88⅜c yesterday; July, 86⅜c to 87⅛c, and September at 86 to 86⅝c, compared with 85 and 85¾c respectively last night.

European Markets Higher.

There was more news of a bullish character from abroad than on any one day in many weeks, and these advices not only attracted general attention, but they made prices. Paris was ¾c higher for wheat, and was up ¾c to 1¼c for flour; Berlin wheat advanced 1¢ and Antwerp was up 1¼c. The strength at Budapest was the top sheaf of the speculation stock, the net gain there being 5½c.

The Prussian official report made the condition of wheat 76 compared with 84 one year ago. The condition of rye is 74, against 80 at this time last year.

Argentine shipments for the week were estimated at Broomhall at 2,800,000 bushels, compared with actual shipments of 1,500,000 bushels a year ago.

Indian shipments are reported at 880,000 bushels.

Primary receipts for the day were 775,000 bushels, against 239,000 bushels one year ago.

North-Western receipts were 151 cars, compared with 88 one year ago.

Minneapolis wheat stocks decreased 1,075,000 bushels so far this week, against an increase of 10,000a year ago.

ROD BOUNTY GOSSIP AGAIN TO THE FORE

The rod bounty question was discussed at a Liberal party caucus in Ottawa, the Nova Scotia members strongly urging their renewal.

Reports were very conflicting as to what will be done, and some people in Ottawa are not as hopeful as others.

Steel stock was stronger this afternoon.

Western Canada Power was 58 bid, 59 asked.

Ottawa Power and Winnipeg Street Railway were up again.

Textile rallied sharply, selling up to 71.

The Wall Street market was unable to absorb even the limited offerings that were put out by the professionals, and prices sagged sharply in spots. Missour. Pacific went back to its early lowest, and U. S. Steel and Union sold a point below yesterday's closing. Chicago, St. Paul and Omaha added 3 points to its 7 point loss of yesterday.

SILK ISSUE A SUCCESS.

The Belding Paul Silk issue was largely oversubscribed, making it one of the most successful issues for some time past.

FRENCH BANKS SEEM AFRAID OF NEW ONE

Are Asking Their Shareholders Not to Sell Their Shares

Some of the banks are evidently afraid that Mr. Rodolphe Forget's new International Bank will gonone them up.

Two of the French banks are asking their shareholders not to see their stock, and one of them has already secured the promise of 51 per cent. of the shareholders that they will not let go.

In talking the matter over this morning, Mr. Forget seemed to be much amused at the turn of events.

How to Save Money.

A Pointer to Housekeepers.

Look at the financial side of Zam-Buk's use. A cut sustained in the home, the store, or the workshop, a sore which is unattended, results, say, in festering or blood-poisoning. You have to lay off for a day or two. What does that mean when pay day comes round? Zam-Buk insures you against that loss! A little Zam-Buk applied to such an injury prevents all danger of blood poisoning, takes out the smarting and heals.

Heads of families know how costly doctoring is. Be wise and act on the preventive line. A box of Zam-Buk in the home is so all-round useful. The baby's rashes, the older children's cuts and bruises, the inevitable burn, cut, or scald—for all these, as well as for more serious ailments, such as eczema, ringworm, etc. Zam-Buk is without a rival.

Dangers of Shaving.—You get a cut at the barber' shop. A little Zam-Buk smeared on the wound prevents all danger. If any ailment has been contracted, Zam-Buk cures. Mr. George Hobden, 108 Manitoba street, St. Thomas, Ontario, says: "I contracted barber's rash, and the whole of my left cheek broke out in one mass of red, watery pimples and sores. These spread to the other parts of my face, until face and neck were covered with running sores. How far the disease would have spread had it not been for Zam-Buk, I don't know. I applied this balm, and in a short time Zam-Buk effected a complete cure."

Zam-Buk Soap is as good as the balm, but in a different way. Washed in Zam-Buk Soap the skin is disinfected and disease germs lying upon it are killed. Mothers will find it unequalled for baby's bath.

Zam-Buk Balm and Zam-Buk Soap are sold by all druggists and stores at 50c for the balm and 25c tablet for the soap.

EAT IN TO HOMES BY CO-OPERATION, EXPERT TELLS HOW

Mr. William Maxwell Speaks to Canadian Club of Work in England and Scotland.

Stories are common enough of men who have drunk themselves out of their homes. Mr. William Maxwell, of Rothesay, Scotland, told a pleasant variation on these stories to the members of the Canadian Club of Montreal at the last midday luncheon of the season to-day. He described how men had eaten their way into homes of their own.

The trick is done by means of co-operation, a subject upon which he, as the president of the Scottish Co-operative Wholesale Society for 20 years, is qualified to speak.

Among the varied and ever-growing activities of the co-operative movement in Great Britain, he said was that of helping the members to own their own houses. Any member having 20 per cent. of the purchase price of his proposed house invested in one of these societies could have the other 80 per cent. advanced at 4 per cent. repayable by instalments. As every member also got a dividend proportionate to the amount of groceries, etc., purchased, many men had been able by means of the dividends on their purchases, to pay off the instalments on their houses, and thus eat their way into them.

He traced the movements to its beginnings in an Ayrshire village in 1769, when a number of poor weavers, with poverty as the driving force, started a co-operative store with a capital of $21. Now co-operative stores were dotted all over England and Scotland, with two big central wholesale societies, in connection with which were great flour mills, boot and shoe factories, carpet and clothing factories, tobacco factories, printing work, woollen and cotton mills, tea plantations in Ceylon, cocoa and chocolate factories, two big estates for growing fruit for the jam factories, and four steamers for carrying goods from the Continent to England.

Are in Colonies Too.

There were also purchasing establishments in various colonies and foreign countries. As an example he mentioned that purchases by the co-operative societies to the extent of $1,703,850 were shipped from Montreal alone during the last six months, while a total of over $5,000,000 of products were purchased in the Dominion last year.

There were 2,765 retail societies in Great Britain, with a membership of 2,701,123, and a total working capital of $263,620,755. Fifty-five million dollars were divided in profits among the members last year, the usual rate allowed being 4s. 4d. on every one pound's worth of goods purchased.

The societies were like great limited liability companies, with the exception that the profits were divided among the customers, the interest on capital being paid at market rates, which was about 4 per cent.

The Educational Work.

He spoke of the educational work of the movement, of the way in which it had anticipated social legislation by shorter hours of labor, and division of profits among workers who helped to make them, and of the great force it had been in promoting honesty between man and man by standing out always for pure unadulterated goods of full weight or measure.

DEATHS.

BOUCHARD—At Montreal, Joseph Bouchard, husband of Delia Lajoie, on 20th April, at the age of 27 years and 2 mos. Funeral will take place Saturday, 22nd April. The convoy will leave the father's residence (Treffle Bouchard, barber), at 718 Notre Dame west, at 7.30 a.m., for St. Joseph's Church, where the service will be held, and thence to Cote des Neiges Cemetery. Relatives are requested to attend without further invitation. Deceased was a member of the Maccabees, Court No. 20.

McGOWAN—Mrs. James Kathleen Victoria Hosking, wife of James McGowan, died on Thursday, April 20th. Funeral on Friday morning, April 21st, to R. C. Farnham.

BRITISH PAPERS ON DOMINIONS AND TIES OF EMPIRE

Central Executive Organization Urged by Pall Mall Gazette to Solidify Basis.

Canadian Associated Press.

London, April 20.—The Globe to-day says editorially:

Many Australians and Canadians fairly acknowledge their inexperience in the novel field of world politics, but if they know what we intend doing we know that their desire will not only be for less friction within the Empire, but for greater strength and security all round, as the co-operation between the various partners increases.

The Pall Mall Gazette says the basis of Empire will have no true solidity until it is provided with a central executive organization connected with the whole, upon those lines of representative democracy which are the only valid source of authority in the Anglo-Saxon world to-day.

The Western Mail says the Dominions know that the world is already fully parcelled out, but certain nations refuse to recognize the present distribution as belonging to the eternal order of things. For the Dominions, as for the Mother Country, the strong arm is the only possible motto, if security is to continue.

To Build Normal School.

The Sisters of the Congregation of Notre Dame to-day were granted a permit to construct an annex to their normal school at the corner of Sherbrooke street and Atwater avenue. The new building will be one of three storeys, and will cost $150,000. The building will be fireproof.

TO HASTEN END OF DEBATE OVER THE AGREEMENT

Special to The Montreal Star.

Ottawa, April 20.—Supporters of the Government were in long caucus this morning, and it is learned that three subjects were discussed,—reciprocity, Intercolonial Railway lines in Nova Scotia, and the steel rod bounties.

Regarding reciprocity, in order to facilitate business it was decided that speakers on the Government side will soon conclude, leaving the debate to the Opposition. Only such as have prepared speeches will deliver them.

The question of branch lines of the Intercolonial Railway in Nova Scotia was discussed, and it was urged that several be taken over. Extensions of existing lines were also advocated.

Regarding the steel rod bounties, a number of members strongly urged renewal, but little time was devoted to the subject. Only the slightest encouragement is held out that anything will be done.

Got a Cheque For Three Cents.

Toronto, April 20.—The Toronto Star publishes a photograph to-day of a cheque for three cents received by H. J. Armitage, of Clarkson, Ont., from McKinnon & See, Toronto, commission merchants, being payment for two baskets of tomatoes. Mr. Armitage never cashed the cheque, but keeps it as a curiosity. Clarkson is only 16 miles from Toronto, and ships $100,000 worth of fruit and vegetables every year, for which the people pay $200,000. The moral is that the commission merchants and the express companies are largely responsible for the high cost of living. The tomatoes probably cost the consumer fifty cents, and yet only yielded a gross return of 3 cents to the grower.

Sharp on time

How often have you been three or four minutes late in the morning because you were delayed by an obstinate cravat? You jerked and you pulled, and you tugged, but still that tie refused to adjust itself smoothly. Consequence was, you lost your temper, soiled your collar—swore a little—perhaps bolted your breakfast—ran for a street car—just missed it and you were late. Take time by the forelock, invest 50c. in a

Mitchell Slide-Easy Tie

and your tie-tieing troubles will become a matter of "profane" history. The Mitchell Slide Easy Tie runs under any collar as smoothly as roller bearings. You adjust it in a jiffy—tie your favorite knot and it's done.

Can be had in most first class men's wear shops in best quality silk and endless patterns, both plain and fancy. In case you fail to connect with a live dealer send us $1 for two ties, mailed you post paid.

Look for the Mitchell Slide Easy Label on each tie.

Sovereign Brand

Raising the Ready-to-Wear Standard

When you buy a suit which bears the Sovereign Brand label, you secure certain advantages not possible to special order or custom clothes, no matter what the price.

Every part of a Sovereign Brand Suit is made by a specialist who devotes his entire time and study to making that particular part. There's no "trying-out" stage—no bolstering up of defects to make up for deficient knowledge of the general-purpose tailor, not a cent paid until you get a satisfactory fit—and finally you pay less than you do for a custom or special measure suit. Not because Sovereign Brand Clothes are worth less, but because the highly-developed Sanford organization has eliminated the wasteful economic system of the custom-tailor.

Sovereign Brand Clothing

Think over these reasons for a moment, then go and see the Sanford clothes in your town. Ask to see the Spring and Summer range of Sovereign Brand Clothes. You'll find your size all ready waiting for you to try on.

"FULL OF QUALITY" NOBLEMEN CIGARS
S. DAVIS & SONS LIMITED

The Spots Of The Leopard

Prejudices are something like the spots on a leopard, they are hard things to remove.
For instance, some men believe the earth is flat, although every ship that goes to sea proves it to be round.

Again, a few men still believe in the "imported" Cigar although every Davis "NOBLEMEN" proves the alleged superiority to be a fallacy—an exploded theory.

The "NOBLEMEN" Cigar is equal to high grade "imported" brands, because it is made from choicest Havana leaf, by skilled Cuban workmen.

For obvious reasons, a fresh egg would taste the same in Cuba as in Canada; for equally powerful reasons the Davis "NOBLEMEN" Cigar and the high-grade "imported" smoke taste, and are the same, yet the "NOBLEMEN" costs half the price, or 2 for 25c.

"NOBLEMEN" Size 2-for-a quarter

Partly Made Swiss Embroidered Waists Easily Worth $1.25

.49 Each

Fresh from Switzerland, 1,000 waists partly made, will be placed on sale here for the first time on Friday at a price made possible perhaps for the first time in Canada ..... 49c each

The tucks are all hemstitched, the embroidery work faultless, and the material really fine and there is not more than ten or fifteen minutes sewing required to complete any one of them.

Here is a case where we share with our Toronto store in the benefits of a clearance of great proportions, whereby a Swiss manufacturer unloaded a splendid surplus stock. Our Embroidery buyer regards it as one of the most important offers of its kind which we have been able to lay before you.

We shall accept both telephone and mail orders for these.

Mumps Epidemic Throughout City

Dr. Larberge Says Disease is in Schools and is Spreading.

The statement was made today by Dr. J. E. Laberge [illegible] before the Board of Control that mumps were epidemic in the city. He had not power to isolate patients suffering from this disease as he was empowered to do when they were attacked by other contagious maladies. He asked that this condition of affairs should be remedied. Dr. Laberge also informed the Controllers that the disease had chiefly broken out in educational institutions, and that it is spreading rapidly.

CALL FROM HEMMINGFORD FOR MR. W. G. BROWN.

The call from the Hemmingford Presbyterian Church to Mr. W. G. Brown, a student at the Presbyterian College, was considered and sustained at a special meeting of the Montreal Presbytery held in Knox Church yesterday. The guaranteed stipend is $900, with a manse. The ordination and induction was fixed for Monday next, at which the Rev. J. Patterson will preside, Rev. Mr. Lee will preach and Rev. J. McAllister and Rev. Mr. Ballantyne will deliver addresses.

It was also decided at this meeting, in connection with the report of a committee which had been considering Presbyterian work at St. Anne de Bellevue, that every effort should be made to secure the permanent establishment of a union church for the community and college. To further discuss the question, the Presbytery was adjourned to take place at St. Anne at 8 o'clock to-night.

Repairs to City Hall Roof.

An alderman will ask at Monday's Council meeting if $9,000 had been spent on repairing the roof of the City Hall without tenders having been called. The Board of Control will be asked to make a full report on the matter.

Organ Recital Postponed.

The Easter organ recital to be given by Mr. B. E. Poirier, on the new organ of St. Vincent de Paul Church, has been postponed till the end of the month.

NO DYSPEPSIA OR STOMACH DISTRESS

Settles Your Out-of-Order Stomach and Ends Indigestion, Gas and Sourness Five Minutes Later.

There would not be a case of indigestion here if readers who are subject to stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapepsin. This harmless preparation will digest a heavy meal without the slightest fuss or discomfort, and relieve the sourest acid stomach in five minutes, besides overcoming all foul, nauseous odors from the breath.

Ask your pharmacist to show you the formula plainly printed on each 50-cent case of Pape's Diapepsin, then you will readily understand why this promptly cures indigestion and removes such symptoms as heartburn, a feeling like a lump of lead in the stomach, Belching of Gas and Eructations of undigested food, water brash, Nausea, Headache, Biliousness and many other bad symptoms; and besides you will not need laxatives to keep your stomach, liver and intestines clean and fresh.

If your stomach is sour and full of gas or your food doesn't digest, and your meals don't seem to fit, why not get a 50-cent case from your druggist, and make life worth living? Absolute relief from Stomach misery and perfect digestion of anything you eat is sure to follow five minutes after, and, besides, one case is sufficient to cure a whole family of such trouble.

Surely a harmless inexpensive, preparation like Diapepsin, which will always either at daytime or during night relieve your stomach misery and digest your meals, is about as handy and valuable a thing as you could have in the house.

SHY REPORTERS TAKE TO COVER AS KISSING GIRL COMES

Blush Their Reddest as Dainty Lady From the Princess Looks Them Over.

Enshrouded in such a bundle of furs, with her hands tucked into such a monster muff, and with such a large hat on her head that she astounded everyone in the building—Miss Texas Guinan, who bears the undisputed title of "The Kissing Girl," paid an informal visit to The Star office, carrying with her all the breezy spirit and enlivening girlishness that characterize her on the stage at the Princess theatre this week.

First and foremost, the emphatic calls demanded entry into the Art Depart-

ment of The Star, notwithstanding the fact that the doors of that important room are not open to all-comers. When she calmly explained, however, that her husband, Mr. Moynahan, was a cartoonist on the staff of the Boston American, there could be no denying admittance to the lady. Furthermore, The Star cartoonist volunteered to show her over the rest of the building.

Sad to relate, her tour of some of the other departments was not so cheerful. When the staid [illegible] was lured into [illegible] and returning reporters [illegible] their desks, some [illegible] to take a [illegible] to the press room, [illegible] reporters [illegible]. The effect of Miss Guinan's visit was such that for the first time in The Star's history, the paper that was rolling around the big [illegible] was also took fright and split in all directions.

Probably more curiosity and less embarrassment attended her tour through the circulation and want ads departments, on the ground floor. The young women in these departments, with pardonable eagerness, surveyed Miss Guinan from her big hat down to her hobble skirt and high-heeled shoes but as The Star employees were al-

ready attired in Easter costumes, their study of The Kissing Girl's attire was not of immediate advantage.

Speaking about Miss Guinan's furs, it must be remembered that she was born in far-away Texas, being the niece of United States Senator Bailey of that State, and she showed a remarkable ignorance of Montreal weather conditions. For instance she innocently asked The Star cartoonist if there would likely be any snowshoeing weather this week because she was eager to add snowshoeing to other pastimes in which she had participated.

The cartoonist gravely escorted her across the dry St. James street pavement, to a pile of muddy snow nearly to be carted away and said: "Sorry, but that's the best we can do for you; this is off season you know."

In parting, Miss Guinan confided to the Cartoonist the fact that she was going riding that day, and wanted to know if divided skirts were ever worn in Montreal. "Down in Texas, I always wore them—when riding," she explained.

Mr. Judge, the manager of the duchess, and Mr. Hubert Cushing, accompanied Miss Guinan in her inspection of The Star office, while "Ruff," the stage dog at the Princess, gravely walked in the rear.

BARN DESTROYED BY ICE SHOVE ON LAPRAIRIE ROAD

Half a Dozen Streets of the Cross River Village Under Water—Ice Expected to Move.

The people of Laprairie, who have been cut off from communication with St. Lambert for a week, expect the ice in Laprairie bay to move away within the next twenty-four hours. Yesterday afternoon the ice moved a few yards and the water went down about a foot, but this morning there was a sudden rise and the following streets were flooded:—St. Ignace, Ste. Marie, St. Joseph, Ancient Chemin de St. Jean, St. Francois Xavier, Rue Dupont, St. Louis and others.

Early to-day the lower side of the street leading from the Grand Trunk Railway station to the village was flooded, but the upper side of the street was still open for traffic. Many of the cellars on Ste. Marie street are filled with water, but only a few houses are invaded in the living quarters.

The barn of Mr. Herbert Lemieux, about half way between St. Lambert and Laprairie was wrecked by huge blocks of ice, and farm machinery damaged.

The water condition on the road between St. Lambert and Laprairie was unchanged to-day, but if the ice in the river gets away to-night or to-morrow normal conditions will soon reign again.

PRESBYTERIAN WOMEN ORGANIZE A COUNCIL.

At a meeting of the Women of the Presbyterian Church in Montreal, held in the Crescent Street Church yesterday afternoon, a provisional committee was appointed to arrange for the formation of a permanent council, to consist of women representatives from each Presbyterian congregation in the city, with the object of carrying on an active campaign of social and moral reform.

Dr. J. G. Shearer, in addressing the meeting, said the threefold work to be aimed at was punitive, redemptive and preventive. The Church is employing women workers in the different cities of the Dominion, to organize this work, and yesterday afternoon's meeting expressed by its resolution, a desire that Montreal should be more closely identified with this work. A public meeting to further the object will be held on Thursday next, when an address will be delivered by Miss Ratte, the first women worker appointed by the Church.

RAILWAYMEN ATTEND FUNERAL OF MR. SHARPLES

The funeral of Mr. Sydney Sharples, late private secretary to Mr. William Wainwright, second Vice-president of the Grand Trunk Railway, took place from the Royal Victoria Hospital to Mount Royal Cemetery yesterday afternoon. The funeral service was conducted in the hospital chapel, by Rev. Rural Dean Dart. The chief mourners were: Mr. J. Gleave, Mr. F. McKeeman, and Mr. E. J. Hall. A considerable number of personal friends and fellow-workers of Mr. Sharples attended, among those present being: Messrs. W. Cuthbert, A. F. Morton, F. W. Beaufield, H. W. Wilson, W. J. Brennan, E. B. Hay, R. E. Kendrick, D. Taylor, W. C. Mills, N. Kynsella, J. P. Pratt, D. Smith, V. Payne, F. Johnson, R. Greenhalgh, P. E. de la Cour, H. Cornell, Arthur, T. A. Gilday, C. E. Humphries, C. J. Holden, E. S. Leech, S. W. Martin, J. W. Marks, C. E. Reiffenstein. A number of beautiful wreaths were sent.

FOR THE BOYS AND GIRLS.

Playgrounds' Association Will Give An Entertainment on April 29.

The Parks and Playgrounds Association which has done so much for the boys and girls of Montreal, will give an entertainment a week from Saturday in the Royal Victoria College, when Nance Oldfield will be put on. Funds are needed to carry on the work of teaching the little ones how to enjoy themselves outside, and gain health and strength thereby, and this is one of the means adopted by the committee. In summer five playgrounds are kept open and two in winter at Fletcher's Field and Hibernia Road. The entertainment is called for 8.30 and the ladies hope for a full house to encourage them in their work of love.

St. Jerome Must Pay.

Recently a man was sent from St. Jerome to the city so seriously ill that the civic authorities had to send him to one of the hospitals. This cost the city $16.60. While the amount is not a large one the Controllers decided that an example must be made and the legal department was instructed to collect this sum from the municipality in question.

Considering Quality, Style and Finish OUR TAILORED SUITS

— AT —

$15.00, $17.50 and $19.50

are very hard to equal and impossible to beat

Our Mantle and Suit Buyer, who is now in New York, purchased a collection of about 110 New York Tailor Suits in the most fashionable styles that we have yet seen. Amongst this purchase there are some lovely Serges, with the new close stripes on white or blue ground, also some lovely plain and striped greys, and a few new blues and blacks which are so greatly in demand just at present. Besides having a number of severely plain tailored garments in this offering, we have a good range of the pretty trimmed suits, which look so effective when Tagel and other braids are used on blue, grey or black fabrics.

To-morrow, Friday, we offer these very Suits, and we heartily invite your inspection, even if you don't purchase. To the lady who thinks of adding a really good quality suit to her Spring and Summer wardrobe, this offering should appeal in a decided manner.

We divide them into 3 lots, every one an absolute bargain. COME IN TO-MORROW AND SEE. FRIDAY SELLING.

$15.00, $17.50, $19.50

Stylish Untrimmed Shapes

$1.50

To the lady who is sufficiently deft with her fingers, and has taste for such work, the trimming of her own hat affords real joy, inasmuch as she is able to arrange her Chapeau precisely as she wants it, and so assert that individuality of expression which denotes the artistic in woman. It is, of course, essential that the untrimmed shape be correct, and so to-morrow we offer a line of untrimmed American Hats, which are absolutely "up-to-the-minute" in design and in the color combinations of Straw, which are most becoming when effectively trimmed. Everything that is new and pretty will be found on sale here to-morrow at **$1.50**

Roses for Your New Hat

500 bunches of French made Roses with heavy foliage. Each bunch consists of two full blown Roses with bud and mounted with foliage, and can be had in the following colors:—Pink, Old Rose, White, Blue, Brown, Plain and shades of Tea Roses and American Beauty Roses. You will readily recognize these as the usual 50c value, but to those who can trim their own hats we make a special price to-morrow and sell at, per bunch **25c**

ACCIDENTS OF TRADE

The idea of "Making Bargains" is a thing of the past. Bargains are born, not made. They are "Accidents of Trade." One man buys too much, another too little. The Hobble Skirt comes in, and there are so many yards less of cloth to buy. The cloth manufacturer suffers in consequence. What is he going to do with the surplus cloth? Burn it or let the moths eat it? Neither. He's going to distribute it as far as it will go for less money than it is actually worth. That is a bargain born—born of fortuitous circumstances. The same thing applies to the list in to-day's papers. For one reason and another certain goods must be disposed of and prices are set, not to stimulate trade, but to lighten stocks and dispose of non-essentials.

Regarding Fine Wall Paper

An erroneous impression seems to have gained credence that in this Department only the cheaper lines of Wall Papers are being featured. This impression we wish to dispel by announcing that not only do we carry a full range of up-to-date Canadian Made Wall Papers from four cents a roll to forty cents per roll, but we also stock and display a full range of very highest class ENGLISH, GERMAN and AMERICAN Wall Papers. All these goods are selected by an expert buyer of fifteen years' experience in Montreal, and we can assure our patrons that a treat is in store for the lovers of the beautiful in color and design, who buy their Wall Papers here.

With reference also to prices, a saving of 33 1-3 per cent. is noticed by discriminating customers who appreciate nice artistic goods at moderate cost. We are rapidly getting this department into shape with "New Goods," "New Space," "New Salesmen," and the very best of daylight to select colors by.

For Friday's selling the following bargains are offered:

1,125 rolls English Bedroom Paper, 21 inches wide. Colors of yellow, green, blue, cream, lavender and pink; all on white grounds, good reliable quality of stock and newest shades. Regular price, per roll 35c. For Friday's selling, per roll 22c

1,633 rolls English Wall Dining Room and Library Paper, deep rich tapestry colorings, 21 inches wide. Very extra special goods, all new. Regular price, per roll, 50c. For Friday's selling 30c
