HUBBEL & CO.'S

Celebrated Golden Bitters!

The Best Tonic in the World.

BY Tonics are understood those substances the operation of which is to give vigor and strength to the system They are not to be considered as operating by any change they produce in the state of the solids, but they act upon the living principle; and so far as their action is understood, are stimulants of great power and permanent in their operations. The ingredients of the justly celebrated

Golden Bitters,

are recommended in all cases requiring Stimulants or Tonics, and are composed of the Purest Bitters in the Vegetable Kingdom, and all preserved in Jamaica Rum, the superior medicinal qualities of which are widely celebrated and universally known.

The GOLDEN BITTERS, as a Beverage, are unequalled—they are pleasant to the palate, and impart a sweet odor to the breath.

They *Invigorate, Strengthen*, and create a healthy *Appetite*. They will alleviate the pangs of Dyspepsia, and overcome the effect of Dissipation; and, for general Feebleness and Languor, they are considered to be the most reliable remedy of the present age.

In Families they are almost an indispensable article They may be taken by the Old and Young—Male and Female, without regard to diet or time of day.

TO LADIES

We particularly recommend them, and especially for those suffering from Dyspepsia, Debility, Weakness and Prostration. ☞ This Tonic is no Humbug, but is in fact the best in the World.

The Golden Bitters

Are mild in their action upon the system, and increase gradually the force of the circulation—promote the action of the Digestive Organs, and counteract the bad effects of a change of water or diet. To persons of sedentary employment, who for want of sufficient exercise, become debilitated and generally weak, will find almost immediate aid by their use.

The Golden Bitters

Are put up in cases of One Dozen Quarts each, and for sale by Druggists, Grocers, Hotels and Restaurants throughout the United States.

RIDLEY'S
IMPROVED
ANTI-CORROSION PAINT,
FOR
Painting and Preserving all kinds of External Wood, Iron, Plaster, Stucco and Brick-work.

RIDLEY'S IMPROVED ANTI-CORROSIAN PAINT is the best and cheapest Paint for every description of outdoor work, for Frame Houses, Ships, Steamboats, Fences, Sashes, &c., as it effectually resists the action of both heat and moisture. It can be confidently recommended as the best possible covering for Stucco, Plaster and Brick-work, Gates, Iron Palisading, &c, &c. It is considerably cheaper than common Paint, and will last four times as long. Two coats of "Anti-Corrossian" will render Wood or Iron work, however exposed, impervious to the weather. It has stood the test of Twenty years, and took the first prize at the London Exhibition, 1862.

Eagle Life Insurance Company of London.
Established in 1807.
☞ Canada Agency established in 1825. ☜

THE Quinquennial Division of Surplus for the period ending in 1857, will be paid in Cash at the office of the undersigned Agents at the current rate of Exchange, to those policy holders who may select that mode; they have the option, however, of applying the surplus in either of the following modes, viz:—

1stly.—Payable in Cash.
2ndly.—Adding to the amount assured.
3rdly.—In a reduction of Premiums falling due in the five years subsequent to 1857.
4thly.—In a reduction of all premiums subsequent to that date.

The surplus in 1857, divisable among the assured, exceeds TWO HUNDRED AND FIFTY THOUSAND POUNDS STERLING.

The realized assets of this Company amount to over ONE MILLION THREE HUNDRED THOUSAND POUNDS Stg.; and the annual income upwards of TWO HUNDRED AND TWENTY THOUSAND POUNDS.

The rates of Premium are as low as the experience of more than half a century warrant; and as eighty per cent. of all profits is every five years divided among the assured, it is evident that these rates are the very lowest that any Life Insurance Company can demand, consistent with its own safety and the consequent security of the assured. Policies are issued with or without participation of profits, for one year, seven years, whole life, joint lives, or payable on the life attaining the age of sixty. Premiums payable quarterly, half yearly or yearly. One-half credit for first five years.

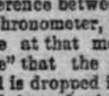
Notice to Mariners



THE TIME BALL in the CITADEL, each day, (Sunday excepted,) at Half-past Twelve will be hoisted half-mast; at Five minutes before ONE it will be hoisted to the mast-head, and at ONE o'clock, Mean time at Observatory, the BALL will be DROPPED. A Chronometer keeping correct Greenwich time, should then shew 5h. 44m. 49s., and the difference between this, and the time shewn by a Chronometer, is its true error on Greenwich time at that moment;—As it is "Greenwich time" that the Observatory shews when the Ball is dropped it is no matter where the ship is lying; for instance, if a ship half-way across the Atlantic could see the Ball drop, the difference between 5h. 44m. 49s. and the time shewn by the face of her Chronometer, would be its error on Greenwich time—A ship, on arriving, should compare her Chronometer by the Time Ball, as it will enable her to get her "Sea Rate," which seldom or ever agrees with "Harbour Rate."

—EXAMPLE:—

May 23rd, 1859, the Barque "Nancy," of Bristol, on leaving Liverpool, found her Chronometer (Dent 728) fast on Greenwich mean time, 0h. 4m. 57s.—June 20th she anchored at Quebec, and when the Ball dropped her Chronometer shewed

Chronometer shewed		5h. 50m. 42s
Greenwich Mean time when Ball dropped		5h. 44m. 49s
June 20th, Chronometer fast on Greenwich mean time.		5m. 53s
May 23rd, " " "		4m. 57s
No of days.. ..	28	56s
Sea rate, ...		2s
Again, on June 27th, when Ball dropped, Chronometer shewed		5h. 50m. 54s
June 20th, Chronometer shewed		5h. 50m. 42s
No of days, ...	7	0m. 12s
Harbour rate		0m. 1-7 s

By paying attention to the Sea and Harbour Rates, under different temperatures, the intelligent master of ship will be able to arrive at a better rate for his Chronometer than could be obtained in any other way.

It is strongly recommended not to send a Chronometer on shore, when they can be so easily rated on board, and no one who has the interest of his ship and the welfare of his owners at heart, will ever give his Chronometer to the charge of another, if it is possible to avoid it.

Should the ship be loading timber, the Chronometer can be slung to the loom of an oar (one end being made fast, the other affords a spring,) that will save the Chronometer from any jar or injury.

Majority for Mr. Bosse..	715	

When the House met yesterday, the Honorable Attorney General Macdonald stated the arrangements were progressing favorably, and, as he hoped, to the ultimate solution of all difficulties; but the question, as it progressed in discussion, presented many new and complicated phases, which could not be left in abeyance, and were consequently occupying much time. He, therefore, requested a further adjournment until three o'clock this day. The galleries were crowded with curious and anxious listeners.

If the House of Assembly were fairly polled upon the question, it is pretty certain that there would not be found half a dozen members who would not prefer almost any compromise to a dissolution and a general election. Yet the leaders of the extreme section of the Liberals are goading on their followers to a course which can only end in that which it is understood all but every one is desirous to avoid. This insane conduct on the part of those who now profess to head the Opposition might find some excuse were there any real issue in debate; but when it is universally acknowledged that there is nothing in dispute, when, confessedly on all hands, it is agreed there is no other point of difference but in the personal constitution of the Cabinet, when the struggle for power is not attempted to be disguised, and the *personnel* is well known to be the only ground of their opposition, the country will not be likely to accept from these gentlemen this self-seeking obstruction as an apology for plunging it into the turmoil, confusion and cost of another general election. We have heard a great deal of talk from the same individuals, who are now obstructionists, *coute qui coute*, about retrenchment, and the necessity for the exercise of economy in every branch of the public service, and not less so in that of the Legislature than in other departments. But how do these pratings and professions harmonize with this incontinent wastefulness of the time and money of the country. Is it to be pretended that the country cares one jot whether Mr. Holton, or Mr. Dorion, or Mr. McDougall has a seat in the Cabinet or not? Are the people to understand that these gentlemen will not permit the country's wounds to be healed unless they are the well-paid doctors to apply the remedy—a remedy, too, which, if they had even the wit to discover, they had not the moral courage to apply, and which, when adopted by others, they have not the manliness to acknowledge, but with the most unblushing selfishness declare shall not, as far as their poor spite can obstruct, be consummated unless in their selected *modus*? Is this the sort of thing they ask the people of Canada to believe patriotism? They may rest assured that no such deception can succeed. What recks it to them that the wings of certain honorable gentlemen's ambition be clipped? What care the habitant of Hochelaga or Chateauguay that the monthly five hundred dollars go into other pockets than those of Mr. Dorion or Mr. Holton, or why should Upper Canada grieve because Mr. McDougall has o'er-vaulted the saddle and landed in the mud on the other side? There is no reason in such suppositions. But there is much reason to believe that the tax-payers of both Upper and Lower Canada will fully understand, and appreciate at its true value, a course of opposition which entails a heavy draft upon the public treasury, while it denies to the country the peaceful solution of its great constitutional problem. Yes, they will comprehend, because they are so entirely within the experiences of all, the selfish and personal motives which prompt this factious obstruction. And to what and can it lead but to that most desirable for all concerned to avoid? Professions such as we hear are idle if they are merely intended to delude. No one is silly enough to be deceived by a professed moderation in colloquial intercourse which he sees belied in practice—to talk one thing and to do another has no further effect than to create contempt for the insincerity of those falsely professing. If it be true that the political friends with whom Mr. Brown has formerly acted be content to aid his arrangement with the Government upon the single stipulation that he should become a member of the Government, why is not a definite proposition to that effect submitted to Mr. Brown, and by Mr. Brown to the Government? We speak only upon mere hear-say, upon no better authority than that which is open to the public, and current within the precincts of the Parliament buildings; but we take it for granted that no such plain speaking has taken place between the three parties to which allusion is made; and it seems to us that if there were an earnest desire to come to an arrangement, what is so modestly and moderately professed would not end in idle talk to outsiders, but would take a practical and more efficacious shape.

But is there a desire on the Opposition side of the House that the pending arrangement should be perfected? We confess to have had hopes, but our hope has not been without misgivings; and the doubtings that have perplexed us were yesterday somewhat strengthened by Mr. Rankin's intimation that there were other means of solving the difficulty besides that which was pending. What the member for Essex meant was, we suppose, the existence of a willingness on the part of some honorable gentlemen of the Opposition to form a coalition. If this was what was intended to be conveyed, it was at best but an old tale, and a very impracticable one at that. Everybody has known—at least the everybodies who trouble themselves about such matters—that there were several, if not the most prominent members of the Opposition, seeking for the last fortnight to bring about such a result as would place themselves in a more elevated position than that which they at present occupy. These gentlemen are no doubt as willing to accept office now as then; but it seems to us that the field which was once open to them is no longer so—it is now occupied. When they could they would not. They had the will, the desire and perhaps the opportunity, but lacked both the independence and the requisite courage. They coquetted with what they wished, but did not dare to do, and it is not at all improbable they now regret the cowardice which has made another's opportunity. If this be the alternative to which Mr. Rankin referred, he may rest assured that, failing Mr. Brown's negotiation, there is nothing left between it and dissolution. We speak only for ourselves, and as we think from what we have seen passing before us, which leads us to no other conclusion than that the material suggested is not equal to the emergency. There was a time, and that only of a few days' age, when a much more easy compromise was possible, and would have been efficient; but it is impossible not to see how much larger in importance the crisis has become since the great constitutional question has been fairly grappled with. It is not second or third-rate workmen to whom the difficulty, as it now stands denuded of all shams, can be entrusted. A prompt and effectual settlement of the great and complicated question, upon which the destinies of Canada, both Upper and Lower, depend, has been mooted with a full intent to its accomplishment; the country's attention has been suddenly aroused to its consideration, and the most leading and able men have agreed to lay aside all minor differences, so that by one herculean effort, and by the sacrifice of all personal and party prejudice, they may plant in Canada one great and broad principle of Government in the place of that sectional strife which threatens both our peace and disruption. It is not a time, then, we say, when those who are the foremost men of our country are willing to make sacrifices and run the risk of their motives being misinterpreted, for others of far smaller note to profess patriotism while they plot obstruction. We venture to affirm that both the Government and Mr. Brown are sincere in what they have undertaken; and amongst the Ministerial supporters, though all may not look without apprehension at the means taken, not one desires by word or action to cause embarrassment or to throw obstacles in the way of a fair arrangement. Obstruction comes solely from a section of the Opposition, and upon them and upon them alone will rest the consequences and the responsibility of a failure—a dissolution, a general election, and all its attendant cost and inconvenience.

A "SENSATION" STORY.

A city contemporary, in the French language, gives publicity to the following genuine sensation story. We translate it for the benefit of the lovers of the sublime and terrible; and we are free to confess that it is both mysterious—and misty:—

"A few days ago, in a certain part of the *banlieu* of Quebec, a scene was witnessed which affords ample material for conjecture relative to the mysterious intentions of the actors who therein figured. Subjoined are the facts as we had them related to us:—A respectable citizen entered the market, with another individual, for the purpose of purchasing a property of small value, but the parties in treaty did not agree as to the price. Some days after, a third party presented himself in the dwelling of the would-be purchaser, and after several general observations, stumbled, in conversation, upon the projected bargain, remarking to the intending buyer, that if he would go the proprietor's house with $300, ready money, he would be sure to obtain the property immediately, for, added the speaker,—'the money will tempt him.' This strange individual also offered to accompany the purchaser. The latter accepted the suggestion, put $300 in his pocket, and started with his companion to go to the house of the owner of the property, which dwelling was completely isolated. It was evening. On entering the purchaser did not at first perceive that the seller was alone in the house, and that no member of the family was there; but he did remark, that immediately after he had entered with his companion that the master of the house locked the front as well as the back door—a very suspicious precaution. The owner of the property in question now began to praise highly the house he occupied and in which all the parties were, which, however, was not the property contemplated in the transaction, and finally, he insisted strongly on showing the intending purchaser the cellar, stating it possessed admirable accommodation. At this point the ideas of our buyer became more and more be-clouded, but he had perception enough to regard his two companions as men of sinister appearance and still more sinister intentions. Consequently, he refused to descend into the cellar, although the trap-door was already open and he was only separated from it by a step, having at either side one of his companions urging him to proceed. By a rapid glance, which terror already influenced, he saw below him a deep cellar without steps intervening—a yawning abyss, dark as the gloomy designs which he already suspected his sinister companions of entertaining towards him. The invitations to descend began to be too pressing, when the startled purchaser heard the bar of the house-door moving and being struck. The seller went and opened the door, when he saw his wife, who, having left to go to church had forgotten and returned for her prayer-book. The owner of the $300 speedily profited by the occasion of the open door to retreat from the premises which had already become exceedingly disagreeable. He effected his escape, it may readily be believed, without naming a second meeting for the next day, or stopping to shake cordially the hands of his two friends. Now this was, unmistakeably, a snare laid with the object of murder and robbery! Were the other members of the family of the proprietor innocent of the dreadful design? Has the happy accident of this woman, in forgetting her prayer-book, prevented a crime? The explanation of this mysterious affair can only be found in the hearts of the two designing parties themselves."

PRESENTATION.

On Saturday afternoon, the Civil Service Rifles met at the Armory, St. Lewis street, and presented to their drill-instructor, Sergeant T. Lambkin, of the 1st Battalion, 17th Regiment, a well filled purse as a token of their esteem and in acknowledgment of Sergeant L's. services. The presentation was made by Major Bernard on behalf of the Company; and was suitably acknowledged. Sergeant Lambkin is certainly one of the best drill instructors we have ever had in this city, and the reward was well deserved by him. His friends in Quebec and elsewhere—and their name is legion—will be glad to hear of the fact that his good conduct and excellent services are thus appreciated.

MUSICAL.

We have to draw the attention of our readers to the advertisement of the Messrs. Nordheimer, in other columns. We are informed that the pianos referred to are from the world-renowned establishments of Messrs Steinway & Sons, and Messrs. Chickering & Sons, both which establishments obtained the highest honors at the World's Exhibition. The instruments in question have, however, the additional recommendation of being guaranteed by the oldest and most extensive musical firm in Canada, so that we need not add a word as to the merits of either makers or instruments. An excellent opportunity is thus afforded of obtaining that which is so indispensable in every gentleman's drawing-room—a really good piano.

HELPING THE NEEDY.

A sum of $300, contributed by the Quebec Colonisation Society, has been distributed by the Reverend P Girard among the needy settlers in the neighborhood of Lake St John, in the Saguenay district, to enable to purchase seed-grain and other necessaries.

SUMMER.

Yesterday, 20th inst., was, according to the almanacs, the first day of the summer season.

THE GOLD REGION.

From what we are able to gather from the reports of parties who have visited the Chaudiere District, within the last week or ten days, the prospects of the gold region are decidedly "looking up." The water is beginning to subside in the low grounds; and the stories of those who rushed to the Chaudiere before the snow was off the ground, and returned despairing because they could not make a fortune in twenty-four hours, are beginning to be appreciated at their true value. As may have been observed by our yesterday's issue, several good "strikes" have already been made.

OBITUARY.

We regret to have to announce the death of Madame Marie-Julie Lemieux, wife of the Hon. Joseph Cauchon, M. P. P., which took place on Sunday morning, about nine o'clock. Deceased was aged 43 years, 11 months and three days.

Our contemporary, *Le Canadien*, in making this sad announcement, says: "Madame Cauchon bears with her to the grave the most universal regret. By the firmness of her character the goodness of her heart, and the kindness of her manners, she had won the esteem of all who knew her. She suffered the long illness which has borne her off with the courage and resignation of a powerful soul. In the midst of the most cruel sufferings her firmness of heart never abandoned her for a single instant; and to her last moment she consoled by the calmness of her attitude and her language the afflicted persons by whom she was surrounded. Public sympathy cannot fail to be accorded, under these painful circumstances, to our *confrere* and to his young children thus deprived of their good and pious mother."

Her funeral will leave her late residence, No. 17, d'Auteuil street, Esplanade, to-morrow (Wednesday) morning, at half-past nine o'clock.

BAND OF THE 62ND REGIMENT.

The following is the programme of music to be played by the Band of the 62nd Regiment, at the Governor's Garden, this afternoon, at the usual hour:—

God Save the Queen.

THE NEWSPAPER CENTENARY.

One hundred years ago to-day—on the 21st day of June, 1764—the first number of the Quebec *Gazette*, the venerable pioneer of the Canadian press, was issued. The occasion has been duly marked by the publication of the "Centenary Number," which we have already noticed in our columns. We commend it to the notice of all lovers of the quaint and curious, and all who take an interest in the progress of the newspaper press in Canada.

PERSONAL.

We learn from an Oxford paper that Mr. S. Austen Pearce, of London, whose recent visit to his brother, the organist of the English Cathedral of this city, will be remembered by many of our readers, passed his examination for the degree of "Doctor" in the Faculty of Music, at Oxford, on the 26th ultimo.

THE WEATHER.

On Sunday night there were indications of a storm; but only a few drops of rain fell. During the night, however, a strong wind set in, which is still blowing as we write. The weather, yesterday, was much cooler than on the previous days; but this advantage was nearly counterbalanced by the blinding clouds of dust driven along the streets by the wind.

SALE OF HORSES.

Our readers will please bear in mind that the sale of the late Dr. George Douglas's horses will take place at the New Market to-morrow at 11 o'clock. We are requested to draw particular attention to this sale, as it is seldom such a valuable lot of horses are offered in this country. The cattle are now at Hough's Stables, St. Ann street, where they may be seen.

WATERING THE STREETS.

A correspondent, who has, doubtless, suffered severely from the nuisance which prevailed yesterday, writes us as follows, over the signature of "Citizen":—

"Cannot our civic authorities do something, during this hot, dusty weather, towards inaugurating a proper system of watering the principal thoroughfares? The expense would be very small, and the good results many. The system which prevails at present is altogether insufficient. Something more general is wanted."

A CORRECTION.

In reference to the statement made in a paragraph which appeared in yesterday's issue, relative to the meeting of the electors of Beaumont and St. Joseph, and to the part alleged to have been taken therein by Mr. W. Haughton, that gentleman has written us a letter correcting this statement, and explaining his position, in which he says:—

"Although present on the occasion referred "to, I did not advocate the cause of either "candidate. I simply stated that I had no in-"tention of interfering in any way; but would "leave it to the electors to vote as they saw "fit."

The misrepresentation, we may add, was accidental. Our reporter was not present on that occasion; and the paragraph was based on a few hurried lines communicated to us by a correspondent. Hence the misunderstanding.

NEARLY A DESTRUCTIVE FIRE.

Le Canadien of last evening says: "About half-past eleven o'clock on Saturday evening, another fire, which might have had most disastrous results, broke out in the sash and door factory of the Messrs. Peters, in St. Roch's. At the first alarm, however, the St. Roch's Sappers proceeded to the spot, and promptly suppressed the flames—even before the arrival of the police. The damage done was not great. Had the succor arrived a few minutes later, the flames would have reached the large piles of boards, which would have soon become an inextinguishable mass of fire."

THE ST. VALLIER STREET SEWER.

"Observer" writes us as follows in reference to this odorous affair:—

"In the *Chronicle* of Saturday last, I was glad to see your well-timed remarks on that most abominable and disgusting nuisance—I mean the filth coming from the wall, and lying stagnant in front of Boswell's brewery. If it is allowed to remain so, a serious consequence may be apprehended, especially at this hot season. But the query is, whose duty is it to have it removed? Is it the duty of the Corporation? If not, why do they not, at least, put themselves in communication with the military authorities, and ask them to adopt some plan, either to prevent, or drain off the offensive matters so generally complained of. I think a request so reasonable would not be in vain."

THE LONDON QUARTERLY REVIEW.

We have received the April number of the London Quarterly *Review* from Messrs. P. Sinclair & Son, St. John street. It contains excellent articles on the Prospects of the Confederates—Shakspeare and his Sonnets—the Mexican Empire—and other interesting subjects.

"CAMPING OUT."

Since Friday last tents have been pitched on the field or *glacis*, immediately outside St. John's Gate, for the accommodation of the Royal Artillery quartered in this garrison—thus giving the men the benefit of "camping out" during the excessively hot weather.

At Prescott Gate, and several other posts tents have been placed for the accommodation of the Guard.

STREET OFFENDERS.

There were sixty-two persons brought before the Recorder, during the whole of last week, to answer for divers infractions of the police regulations, for which they had been arrested in the streets. The number seems large at first sight; but it is small when we consider the great number of strangers, from all parts, in this city during the open season. On the whole, the morals of the city are by no means bad.

NEW FORTIFICATIONS.

The Royal Engineers, who recently arrived from England, are at present engaged in a topographical survey of the neighborhood of Quebec. It is rumored that extensive new fortifications are to be constructed.

CORONATION DAY.

Yesterday being the anniversary of Her Majesty's coronation, the occasion was duly honored by a salute of twenty-one guns fired from the citadel.

☞ The young King of Greece, in a late interview with Admiral Kanaris, to whom he presented his portrait set in diamonds, was in return kissed three times by Mrs. Admiral Kanaris. Thereupon his youthful majesty shed a profusion of tears.

☞ "Mr. Bang," said the counsel, "you say you once officiated in the pulpit—do you mean that you preached?" "No sir; I held the candle for a man who did." "Ah, the court understood you differently. They supposed that the discourse came from you." "No, sir; I only throwed light on it."

PROVINCIAL PARLIAMENT.

LEGISLATIVE COUNCIL.

MONDAY, June 20th, 1864.

The SPEAKER took the chair at three o'clock.

BILLS FROM THE ASSEMBLY.

The SPEAKER announced to the House the receipt of a number of bills from the Legislative Assembly for the concurrence of the Legislative Council. The bills were read a first time, and ordered for a second reading to-morrow.

INTERCOLONIAL RAILWAY.

Hon. Col. TACHE laid on the table a Return to an Address from the Legislative Council for papers relating to the Intercolonial Railway since last session.

THE MINISTERIAL CRISIS.

Hon. Col. TACHE said that on Friday night last he had announced to the House that negotiations had been entered into with a prominent member of the Legislative Assembly—the Hon. George Brown. These negotiations had made some progress; but, as the subject was one of great importance and magnitude, some slight difficulties had occurred, which he hoped he would be able to announce the solution of to-morrow. He would, therefore, move that the House do now adjourn.

Hon. Mr. FERGUSSON BLAIR had no desire to embarrass the Government, and would not, of course, oppose this motion. But he would remind hon. gentlemen opposite that the vote of the Legislative Assembly had taken place on Tuesday night last; and, at this season of the year, it was most inconvenient for members to be detained a moment longer than possible. He hoped, therefore, that no unnecessary delay would take place in bringing the negotiations to a conclusion.

Hon. Col. TACHE could assure this House that the Government were fully alive to the importance of an early prorogation of Parliament. He had good reason to believe that a satisfactory solution of the difficulties would be found by to-morrow, and that he would then be able to make a definite announcement to the House.

The Council then adjourned, at twenty minutes past three o'clock.

LEGISLATIVE ASSEMBLY.

MONDAY, June 20th, 1864.

The SPEAKER took the Chair at three o'clock.

After the presentation and reading of petitions and other routine business—

HAMILTON ELECTION COMMITTEE.

Mr. J. S. SMITH moved that the Hamilton City Election Committee have leave to adjourn until Saturday, July 2nd.—Carried.

MINISTERIAL EXPLANATIONS.

When the Orders of the Day were called—

Hon. J. A. MACDONALD rose and said—Immediately after the adjournment on Friday last, a conference was held between three members of the Government and the hon. member for South Oxford (Mr. Brown) for the purpose of establishing a basis on which future Governmental action might be had. We had also several meetings on Saturday, and two meetings to-day. I am enabled to state that although grave questions—the gravest questions—have arisen, and although the difficulties are very great that surround any attempt at a solution of the questions which it is hoped will settle the sectional feelings between the two sections of the Province, yet we have made considerable—I may say great—progress, and such progress that I believe we shall be able to arrive—and have every reason to hope we shall be able to arrive at a basis on which both parties can agree. The subject is so complex in its nature—there are so many questions to be settled—that we have not been able yet to arrive at a conclusion which can be presented to the House; and we are therefore compelled to ask it to adjourn until to-morrow. (Hear, hear.)

Hon. J. S. MACDONALD said he was willing to express the same view in reference to this matter as he had done the other day. The difficulties connected with this question demanded that the Government of the day should have ample time to consider it in all its bearings; but he repeated, at the same time, that he would like the hon. Attorney General West to state whether any basis had been agreed upon, or a proposition for reconstruction, or proposals to that effect had taken place. However, if that hon. gentleman informed the House that matters were in such a stage—that prudence prevented further disclosures, he (Mr. Macdonald) would be satisfied with that, as far as he was concerned. The subject under consideration was of such very great importance that Ministers should be allowed another day, and, as far as he was concerned, he should not grudge them the delay asked for. (Hear, hear.)

Hon. J. A. MACDONALD—I hope that my honorable friend will accept my thanks and those of my colleagues for his consideration. It would not be for the interests of the grave questions we are trying to settle—it would be highly inexpedient that we should lay any half-measures before the House. We ought to come down here with a full statement of the basis that may be agreed upon; and the announcement of the success or failure of our negotiations, should they fail; and to be in a position to do so, I ask for further delay. (Hear, hear.)

Mr. RANKIN would like to hear something on this matter from the hon. member for South Oxford.

Hon. Mr. BROWN—It is my duty to endorse what has fallen from the hon. member for Kingston (Mr. J. A. Macdonald); and I will take this opportunity of saying to my friends of this House, with whom I have not had an opportunity fully to consult, that when the basis shall be arrived at I will communicate it to them. (Hear, hear.)

Mr. RANKIN hoped that when those gentlemen had arrived at a basis satisfactory to themselves, they would give the House an opportunity to consider whether it was desirable or not to accede to the propositions agreed upon. He trusted that the parties negotiating would be as considerate in dealing with the House as it had been with them; and he hoped that the hon. gentlemen now in communication would meet each other in such a spirit as to give, at least, a guarantee of the patriotism of their intentions. He had no doubt that it was practicable to form a Ministry out of this House that would meet the views of the country and command a majority in Parliament. He therefore felt it to be right to say that in the event of the present negotiations failing, he was not prepared to admit that other negotiations might not be attempted and brought to a satisfactory conclusion. (Hear, hear.)

The House then, at half-past three p.m., adjourned on motion of Hon. J. A. Macdonald.

☞ The Gamins of Montreal are as energetic as they are ragged, as sharp as they are small, and business men might learn lessons from them. These newsboys are better "posted," though only averaging from eight to twelve years, than some gentlemen of twenty, who part their hair in the middle, smoke feebly, expectorate profusely, and swear, as they drink, "*muchly*." One *gamin* yesterday by the Post Office said to another:—"Give me a *Telegraph* for two *Witnesses*." The other, a vender of the *Telegraph*, could not see it in that light. These newsboys are philosophers, merchants, millionaires in embryo.

A SERIOUS TYPOGRAPHICAL ERROR.—The Paris correspondent of the London *Daily News* says:—At the Correctional Court of Douai, this week, Madame Ceret, printer and proprietor of the *Courrier Douaisien*, M. Chevalier, journeyman printer, and M. Valin, reader in the office of the journal, appeared to answer an indictment charging them with having wilfully falsified a proclamation of the Mayor of Douai, by substituting for the word *drapeau* (flag), the word *chiffon* (rag), such falsification being of a nature to trouble the public peace, and being, moreover, as far as regarded Chevalier and Valin, made with "bad faith." It appeared from the examination of Chevalier, who composed the incriminated paragraph, that under the influence of a reminiscence of other times he mentally took the word *drapeu* as synonymous with that of *chiffon*, and that his fingers acting unconsciously in accordance with what was passing in his mind he set up the word *chiffon* instead of the one in the copy before him. The court seems to have accepted this explanation to a certain extent, for it acquits Chevalier of the aggravating circumstances of bad faith. But the judgment solemnly dwells upon the unhappy and seditious state of mind in which he must have been to have made such a mistake, and lays it down that to call a flag a rag was an offence "eminently of a nature to trouble the public peace, because to insult the flag was to insult France herself in the glorious symbol of her nationality." Valin, the reader, who passed over the substitution, is found guilty as an accomplice, inasmuch as "his attitude and his words in the presence of witnesses, no less than his multitudinous and contradictory explanations betray his culpability." Madame Ceret is declared to be guilty of the publication only, "without being animated by any sentiment hostile to authority." After the above severe observations as to the two principal criminals, the court waxes indulgent, and on the ground that they did not sufficiently comprehend the odious character of their offence, and seem to have been carried away by the "bad habit of making a joke of things the most serious and the most worthy of respect," it sentences them only to a fine of 50f. each. Curiously enough, the inocent proprietress of the journal, Madame Ceret, is condemned in the like amount of fine, notwithstanding the distinctions in her favor drawn in the preamble of the judgment.

American Despatches

Latest War News!

WASHINGTON, June 18th.—War Department, 10 p.m.—To Major-General Dix.—The following despatch from Gen. Grant, dated yesterday, 11 a.m., at City Point, has been received by this department. The 9th corps this morning carried two more redoubts, forming a part of the defences of Petersburg, capturing 450 prisoners and four guns. Our successes are being followed up. Our forces drew out from within 50 yards of the enemy's entrenchments at Coal Harbor, and made a flank movement of about 53 miles march, crossing the Chickahominy and James River, the latter two thousand feet wide, and eighty-four feet deep at the point of the crossing; and it surprised the enemy's rear at Petersburg. This was done without the loss of a wagon or a piece of artillery; and only about 150 stragglers were picked up by the enemy. In covering this move, Warren's corps and Wilson's cavalry had frequent skirmishing with the enemy; each losing from 60 to 70 killed and wounded, but inflicting an equal if not greater loss upon the enemy. The 18th corps were transferred from the White House to Bermuda Hundred by water, and moved out near Petersburg.

On the night of their arrival they surprised or rather captured the very strong works north east of Petersburg, before a sufficient force could be got in there by the enemy. They were joined on the following night after this capture by 2nd corps, which in turn captured more of the enemy's redoubts further south, and this corps was followed by the 9th, with the result above stated.

All the troops are now up, except seven divisions covering the wagon trains, and they will be up to-night.

The enemy in their endeavor to reinforce Petersburg abandoned their entrenchments in front of Bermuda Hundred. They had expectation of troops from the north of the James River to take their place before we discovered it. General Butler took advantage of this, and moved a force at once upon the Railroad and Plank Road between Richmond and Petersburg, which I hope to retain possession of.

Too much praise cannot be given to the troops and their commanders, for the energy and fortitude displayed during the last five days; day and night have been all the same, no delays being allowed on any account.

Latest unofficial despatches show that at 8 o'clock this morning the enemy still occupied Petersburg.

Major Morton was killed in an assault yesterday.

Nothing to-day from Sherman or Hunter.

WASHINGTON, June 18th.—War Department, 11 p.m.—To Major Gen. Dix: Despatches from Gen. Sheridan have just been received. He reports a victory over the enemy, at Nevelan Station, on the Virginia Central Railroad, a few miles south of Gordonsville, where Gen. Lee a few days ago reported a victory. The official report is as follows:—

I have the honor to report to you the arrival of my command at this point, and also to report its operations since leaving Newcastle Ferry. I crossed the Pamunky, on the 7th inst., marching via Aylettz and encamped on Herring Creek. On the morning of the 8th, I renewed my march via Pole Cat station, and encamped three miles west of the station. On the 9th I marched through Childsberry and New Market, encamping on Erie Creek, near Young's Bridge. On the 10th, I marched via Andrew's Tavern and Leaver's Store, crossing both branches of North Anna, and encamped at Buck Childs, three miles north-east of Trevilan Station. My intention was to break the railroad at this station, march through Mechanicsville, cut the Gordonsville and Charlottesville, near Lindsay's House, and then march on Charlottesville; but on our arrival at Buck Childs I found the enemy's cavalry in my immediate front.

On the morning of the 11th, Gen. Tarbert, with his division, attacked the enemy. After an obstinate contest, they drove him from the Secessionville line of breastworks through an almost impassable forest back on Trevilan Station.

Gen. Custar was ordered, with his brigade, to proceed by a country road, so as to reach the station in rear of the enemy's cavalry. On his arrival at this point, the enemy broke into a route, leaving their dead in our hands, 20 officers, 500 men, and 300 horses.

These operations occupied the whole of the day. At night I encamped at Trevilan Station. On the morning of the 12th, commenced destroying the railroad from this point to Loring C. H. This was thoroughly done—ties burnt and rails rendered unserviceable. The destruction of the railroad occupied until three o'clock of this day, when I directed Gen. Tarbert to advance with his division and Gen. Davis' brigade of Gen. Gregg's division in the direction of Gordonsville, and attack the enemy, who had concentrated and had been reinforced by infantry during the night, and who had constructed rifle pits at a point about five miles from Gordonsville.

The advance was made, but as the enemy's position was found too strong to assault, no general attack was made.

On the extreme right of our lines a portion of the reserve brigade carried the enemy's works twice, and were driven therefrom by infantry.

I found, on an examination of the command, that there was not a sufficiency of ammunition left to continue the engagement.

Next day trains of cars also came down to where we were engaged with the enemy.

The reports of prisoners and citizens were that Picket's old division was coming to prevent the taking of Gordonsville. I, therefore, during the night and next morning, withdrew my command over North Anna, via Carpenter's Ford, near Miners' Bridge. In addition, the animals were, the two entire days in which we were engaged, without forage, the neighborhood affording nothing but grazing of a very inferior quality, and generally at such points as were inaccessible to us.

The cavalry engagement of the 12th was by far the most brilliant of the present campaign.

The enemy's loss is very heavy. They lost the following-named officers killed and wounded: Col. McAllister, commanding a regiment, killed; Brig.-Gen. Rokeer, commanding a brigade, and Col. Custer, commanding a regiment, wounded.

My losses in killed and wounded are about 575, and of this number 490 are wounded. I have brought off in my ambulances 377, all that could be transported; the remainder were, with a number of Confederate wounded that fell into my hands, left behind. Surgeons and attendants were detailed and remained with them.

I captured and have now with me 370 Confederate soldiers, including twenty commissioned officers.

My loss in captured will not exceed 100. They were principally from the 5th Michigan cavalry. This regiment gallantly charged down the Gordonsville road, capturing 1500 horses and about 800 men, but were finally surrounded and had to give them up.

When the enemy broke they hurried between General Foster's command and Col. Gregg's brigade, capturing five caissons of Peningston's battery, three of which were afterwards recaptured, leaving in their hands but two caissons. A more detailed report will be made hereafter.

(Signed) E. M. STANTON.

NEW YORK, 20th.—The *Tribune's* special, dated Head-quarters, Army of the Potomac, near Petersburg, Friday morning, June 17th, says we are again in front of the entire Confederate army, which has been engaged by our advance of the 2nd and 18th corps, and important captures of guns, prisoners and positions have been accomplished.

The 2nd, 9th and 18th corps are in line of battle, and on the arrival of the balance of the troops preparations will be made for the final assault upon the enemy's works.

Since Tuesday night, when the advance of the 18th corps arrived in the vicinity of the town, our lines have been pushed steadily forward.

Several strong positions have been wrested by charges from the enemy, and we have taken 18 guns and several hundred prisoners.

Our advance is within half a mile of Petersburg, which is in full view of almost our whole line.

Prisoners state that portions of Lee's army commenced arriving in Petersburg on Wednesday night, only a few hours after the arrival of Hancock with the 2nd corps, and that Wise's brigade, commanded by Wise in person, held the town until that time.

The City Point Railroad is now in our possession, and the Norfolk and Petersburg line is commanded by our troops.

The 18th corps, which landed at Bermuda Hundred this day, now led the advance, crossing the Appomatox on pontoons laid four miles above its mouth, and penetrating to the southward, up to within about four miles of the town before encountering any opposition here.

Skirmishing commenced, and our advance steadily pushing forward, drove back the pickets of the enemy, who took position in the outer defences. Those defences were immediately charged by Hinck's negro division with most splendid gallantry. The enemy were put to flight, and two guns and a considerable number of prisoners captured. The works were held until the arrival of Hancock, at 5.30 p.m., Wednesday. On the arrival of Hancock in the evening, a reconnoissance for the purpose of ascertaining our exact position was made, and considerable skirmishing ensued. Only two divisions of the 2nd, Birney's and Gibbons, reached the field on Wednesday night, Burnew who pursued another road, bringing up the rear and coming up at six o'clock. On Thursday morning the divisions of Birney and Gibbon were deployed in line of battle. When in proximity to the Confederates we bivouacked; on the left Birney occupying the left of the line, and Gibbin the right. On Burnew's arrival in the morning he was ordered into position on the left of Birney. Between five and six o'clock yesterday morning the enemy began a heavy artillery fire on our line, enfilading it with batteries posted on our left, and rendering an advance for the occupation of the position to the rear immediately necessary. Accordingly an advance of the 2nd and 18th corps was ordered by Hancock, who in the absence of Gen. Meade took command of both corps. The result was highly successful.

Several lines of the Confederate works were carried at the point of the bayonet, and a number of redoubts of great strength occupied. 16 guns were taken and turned upon the enemy by the 18th corps. Col. Egan's brigade of Birney's division led the column of the 2nd corps, and gallantly drove the enemy from his works, capturing at the same time two formidable redoubts, with Dwight's and Gett's batteries completely silencing the Confederate artillery on our left. The works were held until about one p.m., when the dispositions for a final charge upon the enemy's last line were made. It was at this time that Col. Egan was seriously wounded in the spine; and the attack was temporarily postponed. At six o'clock last night, however, another charge was made by the 2nd corps, and an advanced position assumed and maintained. The line thus occupied was at once rendered secure by the immediate construction of earth-works. At this time it is impossible to ascertain the extent of our losses; but 500 will probably cover our total casualties.

It is to be regretted that our advance was not pushed forward on Wednesday evening, as prisoners concur in the statement that Wise's brigade alone held the town until late in the evening, when Lee's troops commenced arriving. Portions of his army marched from Malvern Hill, crossing the James River on a pontoon bridge above Fort Darling, while many were despatched by the Petersburg Railroad.

Our line as now formed faces the city from east and south, partially encircling it, and extends across the City Point Railroad, southward to the vicinity of the Petersburg and Norfolk Railroad. Burnside holds the left of our line, Hancock the centre and Smith the right. The remainder of our troops will arrive to-day, and be assigned to their positions.

No one doubts that Lee will defend Petersburg. Our troops are nevertheless confident of final success.

Owing to the rapid marching of our men, the supply trains were unable to come up before last night; considerable suffering was experienced on account of the lack of rations.

HEAD-QUARTERS, near Petersburg, 18th.—Contrary to expectation, no general engagement occurred yesterday, although the fighting on our left was at times very heavy.

Early in the morning the 9th and 2nd corps, forming the left of our line, were considerably advanced, where for a short time the fighting was exceedingly severe.

The result of the battle, though not decisive, was favorable.

Four additional guns were captured by the 2nd corps in their charge, making a total of 23 guns.

The whole line was materially advanced.

A moderate but incessant cannonading was kept up during the day on the left, and at about noon Burnside again charged the enemy in his front.

The struggle was short and bloody, and resulted in the occupation, by Wilcox's division, of a position considerably nearer the enemy's works.

Desultory firing was kept up until half-past eight last night, when the rattle of musketry and the roar of artillery commenced opposite Hancock's left and Burnside's right, telling that we were again pushing the enemy to the wall. The firing continued at intervals until after midnight, and at this hour, 4 p.m. Saturday, nothing is definitely known of the result, but it may be concluded from a number of indications that the object of the attack was accomplished on the right.

Everything remains quiet to-day.

He took his stand upon the railroad track with his votive offerings, and was instantly crushed to death.

THREE PERSONS MURDERED.—The Toledo (Ohio) *Blade*, of the 3rd instant, says that a whole family, consisting of an old man named Boiteaux, his wife, a young man, their son, were murdered, and the house burned to the ground, in Jefferson township, six miles from Fort Wayne, Indiana, on Tuesday night last. The son of one of Boiteaux's neighbors saw a light about eleven o'clock at night in the direction of his house, and told his father he thought the house was burning. The next morning they went over to ascertain the facts, and found Mrs. Boiteaux lying in a fence corner, near the house, dead, having been shot through, the ball entering one side, under the arm, and coming out at the other. The house was burned down; nothing but a mass of burning embers being left. Boiteaux and his son could not be found, and it is supposed their bodies were consumed in the house. Boiteaux was an old Frenchman, and was preparing to return to France. He had recently sold a piece of land, and was believed to have a large sum of money in the house, which doubtless tempted the desperadoes to commit a robbery, and then to conceal the crime, murder all the inmates and set fire to the house. His wife had strength enough to crawl from the house to the fence where she was found, while her husband and son were killed outright, and their bodies consumed in the house. There were three hundred bushels of wheat in the house at the time. Mrs. Boiteaux's body contained three bullet holes, and in her clenched fist was a tuft of hair, evidently pulled from a human head, indicating a terrible struggle with her murderer. The sum of money in possession of Boiteaux is said to have been $7,000.

Davis' Pain Killer

Has won for itself a reputation unsurpassed in the history of medical preparations. It is as well known in the trading ports of India and China as in New York and Cincinnati; and its continually increasing demand, where it has been longest known, is one of its strongest recommendations. It is not unfrequently said of it—"We would as soon think of being without flour in the house as without PAIN KILLER." It gives immediate relief in case of scald dysentery, or other similar affection of the bowels; and being entirely a vegetable preparation, it is as safe as it is reliable.

HOME EVIDENCE.

Mr. R. DUGAL, Chemist and Druggist, Crown Street, Quebec:

Sir,—I send you the following certificate attesting the efficacy of BRISTOL'S SARSAPARILLA:

RESULT OF A SLOW FEVER.—I certify that on the 19th March, 1860, my son, nine years old, was obliged to keep his bed from the above sickness. I employed the best doctors, who took him under their charge for two years, without affording relief. Last spring I commenced to give BRISTOL'S SARSAPARILLA, and from the moment he began taking the remedy a rapid improvement took place, and at present he can walk with facility. I therefore advise all persons suffering with similar maladies to try BRISTOL'S SARSAPARILLA.

TO MILITARY MEN.—From Milton P. Pierce, Esq., Commandant Pierce's Sharp Shooters, Buffalo, N.Y.: "Every Drill Master, or officer who drills his men, suffers to a greater or less extent from Irritation of the Throat. I have at times suffered severely, especially when afflicted with a cold so common to camp life. A few weeks since I was suffering from Sore Throat and Excessive Hoarseness, when a friend of mine (a clergyman) advised me to use your 'Bronchial Troches' I tried them and found the relief almost instantaneous. I keep them in my pocket when on drill, and find them a sure relief. No officer should be without 'Brown's Bronchial Troches' I cannot forbear to record, unsolicited, my humble testimonial in favor of your 'Bronchial Troches.'"

DOCTOR THOMAS LEE,

well known in the city of New York, (and an honored member of Eastern Star Lodge F. A. M.,) also in all the provinces of South America.

NEW YORK, June 5th, 1861.

MESSRS. RADWAY & CO.:

I have just returned from a tour through the various republics of Central and South America, and certify to the universal esteem and favor in which is held your "READY RELIEF" throughout the tropical regions. There is not a single hospital, military or otherwise, that I visited, in which might not be seen the Ready Relief at the bedside of the patiwise. It is dispensed by the head physicians the same as any other medicine, and has become with them quite a favorite, owing to its remedial powers, and the facility and safety with which it can be administered by the "Sisters of Charity," or hospital nurses.

In a letter to you some three months ago, making mention of the rapid cure of General Villamil* by the "Relief," I stated that Dr. Archevarie, Chief Physician of the Ecuadorian army, whose acquaintance I had the honor to make while in Guyaquil, introduced the remedy into the army hospitals with great success. Well, he writes me since that the Legislature of Ecuador has passed a law authorizing its adoption in every regiment as a permanent addition to the medical stores. Dr. Garcia, of Carthagena, also sends me a succinct account of its progress in New Grenada, and states that Governor Prieta has, since the breaking out of the revolution, ordered over one hundred gross for the use of the army. In fact, your Ready Relief, through all parts of South America, is acknowledged as the best disinfectant and most effective preventative against malarious diseases known. In no country has its extraordinary power been developed as much as in Venezuela during the last revolution, where it was wisely adopted by the army surgeons as an adjunct to their stores.

Yours truly, THOS. LEE, M.D.

* Gen. V. had been afflicted with asthma for forty years, and had not slept in a horizontal position for twenty years. One application of the Ready Relief enabled him to sleep, and one bottle cured him.

SOLDIERS RETURNING FROM THE WAR, AFFLICTED WITH WEAK LUNGS, READ THIS LETTER.

GREAT CURE OF WEAK LUNGS.

From the Christian Advocate.

"We beg to present to the readers of the *Advocate* the following letter addressed to Dr. Radway. Let those afflicted with WEAK LUNGS and THREATENED CONSUMPTION, read. The writer, Mr. James Sage, is well known in Michigan as a popular hotel keeper."

MEMPHIS, MACOMB CO., MICH., Sept. 4th, 1862.

DR. RADWAY—*Dear Sir:* About four years since I was very much affected with DISEASED LUNGS. My friends thought *I had the Consumption*. I was entirely unfit for business, raised blood, and had every symptom of the above fatal disease. One night, on going to bed, I thought I would take a sweat, and took your READY RELIEF (in hot water) as a stimulant to sweat me It did so. The perspiration was of a slimy substance, and offensive smell. I followed taking the Ready Relief every other night for four weeks, and at the end of that time was entirely well. This is a true statement of facts, which I will testify to under oath.

Yours, &c., JAMES SAGE, Sage's Hotel, Memphis, Mich.

SORE THROAT, INFLUENZA, DIPHTHERIA CURED.

ISLE VALEN, Oct. 18th, 1858.

MESSRS. RADWAY & CO.:

Radway's Ready Relief and Regulating Pills are highly approved of here, for the wonderful cures they have made of a disease prevailing here, commencing with sore throat, and running the gauntlet, with every conceivable pain and ache, of the human system. Send immediately a gross of Relief and Pills.

GEO. LE MESSURIER.

MR. S. B. LOGAN, MUSQUODOIT, NOVA SCOTIA.

A letter written us under date of May 11th, 1858, from Musquodoit, N. S., by S. B. Logan, Esq., says that "it has raged terribly in this place the past winter, carrying off a great many. It baffled the skill of the best physicians, and was only arrested in its progress by Radway's Ready Relief. I was afflicted, and it cured me. Many others I could mention found the same benefit. I remain respectfully yours, S. B. LOGAN.

ANOTHER WONDERFUL CURE

Of a very Dangerous and Common Disease. The only cure known to the world for this terrible consuming malady.

IMPORTANT TO ALL.

SPERMATORRHŒA, OR SEMINAL WEAKNESS.

SYRACUSE, N. Y., Oct. 1st, 1855.

DR. RADWAY:

SIR: I deem it due to you, and also for the benefit of mankind, to disclose the following facts: Some five years since I was troubled with a disease called the Spermatorrhœa, or involuntary loss or emission of semen, which, as you may imagine, weakened me very much, and caused a gradual wasting of the sexual organs. I found, by inquiry, that it was considered incurable, and gave myself up as lost. After taking numerous remedies, I was induced by accident to take four or six drops of your Ready Relief in a little water, and I noticed that on the day following that I had not as much emissions of semen, (or drisling, as you may call it.) I followed up the taking of a few drops of the Ready Relief in a little water, and in a few days I was entirely cured, and have entirely regained my health and strength. Any further information you can have by addressing Box 219, Syracuse, N. Y.

P. S.—It is due your remedy to state, in attempting the cure of this disease, or weakness, in addition to the numerous drugs, I paid to a doctor in New York $25 for a machine for curing this complaint, and all to no purpose.

I never, in my experience, came in contact with a doctor who had the audacity to say he could cure this complaint, but on the other hand, pronounced it incurable; and I can affirm that, in six years, a man can be reduced to death by this complaint alone. Had my cure been in some other part of the body, I would have given you my name, and the privilege of using it. But I deem it my duty to inform you of a quality which you probably was not aware your Ready Relief possesses.

RHEUMATISM CURED.

Read this important letter:

ANOTHER WONDERFUL CURE OF RHEUMATISM.

JANUARY 3d, 1856

MESSRS. RADWAY & CO.:

I tried your Ready Relief, and had my joints rubbed with it, and I never felt pain after the first ten minutes I was rubbed with it up to the present time. Sirs, I do not know what to compare it to but a charm; for it is a mystery to me. I was a cripple for two years, and had not the proper use of my limbs for three years. I was worn down to a skeleton. I then commenced the use of your Ready Relief, Resolvent, and Radway's Pills. The pain left me in ten minutes, and I began to gain strength very fast, and could walk with ease in a few weeks. Before I heard of your Remedies, I was taken to Dr. Parker, Dr. Reese, Dr. Wardle, Dr. Macleian, and other physicians in the city. I cannot now remember. I was completely pulled to pieces by them. My constitution was broken up with medicine that did me no good. I could not put a foot to the ground, nor pick up a pin. I was lifted and carried up and down stairs like an infant; and now, thank God, by the use of your remedies, I am strong as ever. I had the common rheumatism—inflammatory and chronic—and the palsy. You can publish this if you like.

Are You in Agony?

A WELL-SPRING OF HOPE

FOR ALL

CAN BE FOUND IN

Holloway's Pills

Be of Good Cheer! The Sinking may be Saved!

BY THE USE OF

Holloway's Ointment.

The history of these great Remedies is the most wonderful medical revelation that the world has ever known. It establishes the all-important fact that WHEREVER, and in WHATEVER SHAPE internal disease exists, the disinfecting, searching and healing properties of the Pills are fully equal to its subjection and cure, and that, with the Ointment, they are

The Great Ambassadors of Health to all Mankind.

This is not a history written by one man, or even derived from the experience of one nation. It consists of a compilation of testimonials from the sick of every country—an unimpeachable record, the like of which has never been adduced in favor of any discovery or invention since time began.

These Mighty Healers, World Known and World Tried, are a Boon to the Sick.

The want of a sterling medicinal to meet the ills and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful medicine was ushered into the world; HOLLOWAY'S INVALUABLE PILLS have become the HOUSEHOLD REMEDY of all nations. Their attribute is to PREVENT as well as to CURE; they attack the RADIX OR ROOT of the complaint, and thus, by removing the hidden cause of disease, re-invigorate and restore the drooping energies of the system, assisting nature in her task of VITAL AND FUNCTIONARY REFORMATION

Disorders of the Stomach

Are the sources of the deadliest maladies. Their effect is to vitiate all the fluids of the body, and to send a poisoned stream through all the channels of circulation. Now, what is the operation of the Pills? They cleanse the bowels, regulate the liver, bring the relaxed or irritated stomach into a natural condition, and, acting through the secretive organs, UPON THE BLOOD ITSELF, change the state of the system from sickness to health, by exercising a simultaneous and wholesome effect upon all its parts and functions.

Woman in all her Difficulties

Is invited to test the regulating and restorative powers of this harmless but effective preparation. At the two epochs of life in which the female system undergoes the most important and critical changes, the Pills will prove a positive safeguard against evil consequences. They are also confidently recommended as a specific in every disorder to which females are exclusively subject.

Be it Understood,

That the above statements can at all times be verified by the written testimony (extending through a quarter of a century) of tens of thousands of unimpeachable witnesses.

Bilious Maladies, &c., &c.

In whatever form disease attacks the liver, it is repelled and exterminated by this searching, painless, and irresistible curative. Bilious remittents, bilious purging, and all the ordinary disorders of the organ, indicated by pain in the right side and between the shoulders, yellowness of the whites of the eyes, weakness and debility, &c. are relieved and removed by the remedy, with a celerity which astonishes the sufferers and their friends. Let the sick, whom the faculty have abandoned, resort with confidence to this powerful antibilious agent, and a restoration to health and activity will be the unvarying result.

Dyspepsia, Diarrhœa, Weakness, &c.

The terrible bodily and mental pangs which characterize Dyspepsia are at once mitigated by the Pills. Diarrhœa, constipation headache, physical prostration, nervous tremors, hot flushes, spasms, affections of the kidneys, hemorrhoids or piles, and, in fact, all internal complaints, from whatever cause arising, give way before the salutary influence of this extraordinary remedy. As a specific for dyspepsia, and the disorders connected with it, or growing out of it, the Pills are always to be relied on when every other medicine and mode of treatment has utterly failed.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma,	Headaches,
Bowel Complaints,	Indigestion,
Coughs,	Influenza,
Colds,	Inflammation,
Chest Diseases,	Inward Weakness,
Costiveness,	Liver Complaints,
Dyspepsia,	Lowness of Spirits,
Diarrhœa,	Piles,
Dropsy,	Stone and Gravel,
Debility,	Secondary Symptoms,
Fever and Ague,	Venereal Affections,
Female Complaints,	Worms of all kinds.

Caution!

If the reader of this "notice" cannot get a box of Pills or Ointment from the drug store in his place, let him write to me, enclosing the amount, and I will mail a box free of expense. Many dealers will not keep my medicines on hand because they cannot make as much profit as on other persons' make.

None are genuine unless the words "*Holloway, New York and London,*" are discernible as a *Water-mark* in every leaf of the book of directions around each box; the same may be plainly seen by *holding the leaf to the light*. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

. Sold at the manufactory of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes, at 35 cents, 88 cents and $1.40 each.

☞ There is considerable saving by taking the larger sizes.

WEIGH FACTS.

DOCTOR RADWAY invites the attention of the intelligent reader to the *facts* here presented, showing the superiority of his PILLS, as purgatives, over all other pills or purgative medicines in use.

THEIR GREAT COMBINATIONS.

They are Aperient, Tonic, Laxative, Alterative, Stimulant, Counter Irritant, Sudorific.

AS EVACUANTS

They are more certain and thorough than the Drastic Pills of Aloes, or Croton and Harlem Oil, or Elaterium; and more soothing and healing than Senna, or Rhubarb, or Tamarinds, or Castor Oil.

AS ALTERATIVES,

They exercise a more powerful influence over the liver and its secretions than calomel, mercury, blue pill, hence their importance in cases of Liver Complaints and Spleen Difficulties, Jaundice, Dyspepsia, Bilious Attacks, Headache, &c. In the treatment of Fevers, either Bilious, Yellow, Typhoid, and other reducing Fevers, they are superior to quinine. Their influence extends over the entire system, controlling, strengthening, and bracing up the relaxed and wasting energies, and regulating all the secretions to the natural performance of their duties, cleansing and purifying the blood, and purging from the system all diseased deposits and impure humors.

THE CAUSE OF PILES.

A large dose of the Drastic Pills will, by irritating the mucous membrane, produce a violent expulsion of the contents in the bowels, but in so doing other secretions are suspended. *In* such cases, the stools will be found to be light-colored and watery, and attended with cramps griping pains, nausea, sickness. By this increased unnatural action of the bowels, the secretions of the kidneys and pancreas are diminished, followed by affections of the kidneys, bladder, urethra, piles, tenesmus, general prostration, costiveness, and indigestion.

Why Radway's Pills Cure Small Pox.

In Small Pox, Scarlet Fever, Erysipelas, Yellow, Typhoid and other *reducing Fevers*, PURGATION is *highly essential*. But to administer a dose of Drastic Pills the irritation they would produce, and the relaxation and depletion that would follow, would be likely to prove fatal. If physicians, in these cases, would give RADWAY'S PILLS, they would always save their patients. In these diseases a *mild, soothing*, healing and gently stimulating laxitive is required, which is secured by RADWAY'S PILLS.

Why Imperfect Pills Gripe.

The cause of griping, nausea, sickness, tenesmus and debility, that is induced by a dose of drastic pills, is owing to their imperfect operation. If with the *fæces*, the *diseased humors*, left circulating in the system, were expelled by these pills, there would be but little pain or griping. It is the absence of the olio and other humors which the imperfect pills fail to *purge* out of the system that occasions the pain. By examining the stools evacuated after severe griping they will be found thin and watery.

THE TRUE PILLS TO TAKE.

The only safe pills to take are Dr. Radway's, because they are the only pills that secure purgation without depletion, and expel diseased humors from the system.

CASE OF DYSPEPSIA CURED.

For many years I have been afflicted with our national complaint, called Dyspepsia—my sufferings have been a constant succession of horrors. I have spent thousands of dollars with the hope of realizing a little comfort and tranquillity. All medication failed to relieve me, until I commenced to act upon the judicious advice you gave me on the 6th of April, 1858. And now, after using your Pills, I feel like a new man. God bless you and may this letter induce other suffering victims to this accursed malady, to try the same means.

Yours fervently, W. CARPENTER.

CARPENTERVILLE, N. J., April 16th, 1859.

Letter from Dr. Salmon Skinner.

NEW YORK, January, 1860.

Dr. Radway & Co.:

I have, during the past four years, used your remedies, and have recommended them to others for BILIOUS COMPLAINTS, INDIGESTION, DYSPEPSIA, &c. I consider the Ready Relief and Regulating Pills unequalled. The Regulating Pills are mild in their operations and thoroughly effective.

The first dose should be large enough to purge, say four or five, and each successive dose be diminished one pill, until reduced to one, and then repeated every day for a week or ten days. A permanent cure will surely follow.

Yours, &c., DR. S. SKINNER.

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanction of Her Majesty's Government, and the Chiefs of the Faculte de France.

THERAPION:—or CURE OF CURES;

This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of all taste, odour, and appearance of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion. Each package contains full instructions for every case.

THERAPION, No. 1, in three days only—removes gonorrhœa, gleet, and all discharges; effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears; and the skin assumes the pleasing softness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s., and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s. are saved; and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

HER MAJESTY'S HON. COMMISSIONERS have graciously permitted the government stamp bearing the word "Therapion" in white letters, to be attached to each packet; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

Thomas & Co., as above, a large package will be sent by return mail, carefully secured from observation or accident.

PREMATURE DECAY OF THE SYSTEM and its perfect restoration, whether arising from youthful imprudence, or the excesses of adult life, infection, climate, &c. Observations on marriage, the prevention and removal of certain disqualifications. Rules and numerous prescriptions for self treatment. Sufferers who are prevented from matrimony by the consequences of imprudence, should read this work, as pointing out the sure way to restoration of health. The Cause & Cure of Premature Decline.

Sold by all the Agents for Dr. De Roos' Medicines, or sent post free, secure from observation, direct from the Author for 2s. 6d.

THE MEDICAL ADVISER, on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. By Dr. W. DE ROOS, M. D., &c, of the Ecole de Medecine, Paris, Graduate in Medicine, Surgery and Midwifery; Licentiate of the Royal Society of Apothecaries, &c.

Reviews and Notices.

"To be your own counsel or your own doctor, entails risks that have become proverbial to a degree that prevents much good resolution from taking any benefit or advantage when reasonably offered. Suspicion begets irresolution, and where there is no confidence good results seldom follow Medical books are a field for the faculty alone, and the public act wisely in refraining from their study. 'Drink deep or taste not the Pierian spring,' is good advice where the uninformed mind, listening to its own apprehensions, is otherwise ready to imagine than use its cool judgment. There is one class of medical lore, however that stands in a position somewhat exceptional to our remark, and which treats on disorders and irregularities in which morality is offended. For this reason the patient too often suffers in secret, or pursues in ignorance practices that daily bring him into a more hopeless condition for want of friendly advice. To such we recommend a perusal of the 'Medical Adviser' of Walter De Roos, M.D., of London, an established Physician, graduate and licentiate of all the regular institutions of London and Paris; and who has made nervous disorders and their baneful origin his particular study, and obtained such a practice in this branch of therapeutics, as qualifies him to be a safe and competent adviser."—County Chronicle May 7th, 1861.

"The **MEDICAL ADVISER**, by WALTER DE ROOS, M.D., for the class of diseases upon which it treats, is undoubtedly the best and most soundly practical book which has come under our notice The Author is a man of most enlarged experience."—Derby Telegraph, June 28th, 1861.

"To those who contemplate marriage its perusal is especially recommended."—Bap. Mag. "The knowledge it imparts must come some time, and happy they who do not possess it too late."—Politician. "Cure is certain in every curable case, and few indeed are they which are not so."—Med. Review. "It is calculated to effect a complete revolution in the treatment of these complaints."—Med. Gaz. "Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost."—Scalpel.

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines, are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness; whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their case; with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail; thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR. DE ROOS' GUTTÆ VITÆ OR LIFE DROPS; Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c.; have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa; langour; lassitude; depression of spirits; irritability; anger; excitement; needless fear; distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart; giddiness, noises in the head; impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates be impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c., are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As those complaints, if neglected, become "chronic" or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicine; to make fair trial of a remedy, which concocted on unerring scientific principles cannot fail; and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price 11s., and four times the quantity at 33s, per bottle. The £5 packages containing twelve 11s. quantities, by which a saving of £1 12s. is effected, will be sent from 35, Bedford Place, only, on receipt of the amount per draft on a London house or otherwise.

Extracts from letters which can be seen by any one. "I am happy to say that I am now quite well, thanks to you and your medicine of medicines."—D. P. St Asaph. "I am happy to say that I shall not require more, thank God, and I hope He will reward you for what you have done for me."—A. C. Hartlepool. "If my tongue could speak, or my pen could write to express my gratitude to you. I should feel happy, but neither tongue nor pen of mine can do so."—H. A. Birmingham. "Without you I should have been in my grave, but now I am a happy man again."—D. F. P., Inverness. "I can never thank you sufficiently: had I never read of the Guttæ Vitæ, where or what I might have been now, I cannot tell."—W. G., West Pelton.

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR. DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints, Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s 9d., 4s. 6d., 11s and 33s. per box. The superiority of these celebrated medicines over everything of the kind is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may, without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

"I have taken your Pills and always derive great benefit from them"—W. W. H., Queen's College, Cambridge. "I have taken your Pills with the most happy result."—B. H., Cork. "Your Pills do me great good, I feel better this last twelve months than for years before"—F. G., Wareham, Ashford. "Your Pills did me more good than anything I have taken."—M. J. Dursley. "I have tried your Pills, and derived the greatest benefit therefrom."—V. G., Navy Hotel, St. Helier's.

WISTAR'S BALSAM
—OF—
WILD CHERRY,

HAS BEEN USED FOR NEARLY

HALF A CENTURY,

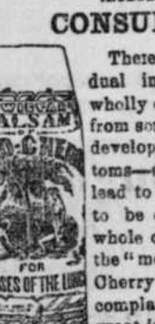
With the most astonishing success in curing

Coughs, Colds, Hoarseness, Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma, and every affection of

The Throat, Lungs and Chest,

INCLUDING EVEN

CONSUMPTION.



There is scarcely one individual in the community who wholly escapes, during a season, from some one, however slightly developed, of the above symptoms—a neglect of which might lead to the last named, and most to be dreaded disease in the whole catalogue. The power of the "medicinal gum" of the Wild Cherry Tree over this class of complaints is well known; so great is the good it has performed, and so great the popularity it has acquired.

In this preparation, besides the virtues of the Cherry, there are commingled with it other ingredients of like value, thus increasing its value ten fold, and forming a Remedy whose power to soothe, to heal, to relieve, and to cure disease, exists in no other medicine yet discovered.

Seasonable Festivities.

Whether attending, in solemn duty, to religious service, at the lecture, the concert, or at any social gathering, we find at this period that coughs and colds are very prevalent: unpleasant alike to those who suffer as well as to those who have aural demonstration of the fact. Many an impressive discourse, many a choice selection of music, has been marred by a din of coughing that seems at times contagious. To remedy this our readers should use and recommend *Wistar's Balsam of Wild Cherry*, one of the best medicines in the world for Coughs, Colds, Bronchitis, and all throat and chest affections.—*Montreal Transcript.*

A Cure for Whooping Cough.

ST. HYACINTHE, C. E., Aug. 21, 1856.

Messrs. SETH W. FOWLE & CO.

Gentlemen:—Several months since a little daughter of mine, ten years of age, was taken with *Whooping Cough* in a very aggravated form, and nothing we could do for her seemed in any way to relieve her suffering. We at length decided to try a bottle of your *Dr. Wistar's Balsam of Wild Cherry*. In three hours after she had commenced using it, she was greatly relieved, and in less than three days was entirely cured, and is now well. I have since recommended the Balsam to many of my neighbours, who have used it, and in no case have I known it fail of effecting a speedy cure.

You are at liberty to make any use of the above you think proper. If it shall induce any body to use your Balsam I shall be glad, for I have great confidence in it.

Yours, P. GUITTE
Proprietor of the *Courrier de St Hyacinthe.*

Certificate from L. J. Racine, Esq., of the Minerve.

MONTREAL, L. C. Oct 20, 1858.

S. W. FOWLE & Co., Boston,—

Gentlemen:—Having experienced the most gratifying results from the use of *Dr. Wistar's Balsam of Wild Cherry* I am induced to express the great confidence which I have in its efficacy. For nine months I was most cruelly afflicted with a severe and obstinate cough, accompanied with acute pain in the side, which did not leave me, summer or winter. In October the symptoms increased alarmingly, and so reduced was I that I could walk but a few steps without resting to recover from the pain and fatigue which so slight an exertion occasioned. At this juncture I commenced taking the Balsam, from which I found *immediate relief*, and after having used four bottles I was completely restored to health. I have also used the Balsam in my family, and administered it to my children with the happiest results. I am sure that such Canadians as use the Balsam can but speak in its favor. It is a preparation which has only to be tried to be acknowledged as the remedy *par excellence*. Your obedient servant,

L. . RACINE.

Dr. Wistar's Balsam Wild Cherry

This sterling remedy appears to be working wonders. We have so long heard of its superior merit in diseases of the Throat and Lungs that we doubt not its claim of being "the *Great remedy*." Many of our most respected citizens, who appreciate its uncommon worth from personal use, have attested to the fact by their written testimonials. These are *strong recommendations*, and should certainly prompt all who suffer from pulmonary complaints in its various forms, to give it a trial. —*Ottawa Citizen.*

A CERTIFICATE

WORTH

A MILLION,

An Old Physician Testimony.

READ:

Waterbury, Vt., Nov. 24th, 1858.

Although I do not like the practice of Physicians recommending, indiscriminately, the patent medicines of the day; yet, after a trial of ten years, I am free to admit that there is one medicine before the public that any Physician can use in his practice and recommend to the public with perfect confidence; that medicine is Rev. N. H. Downs' Vegetable Balsamic Elixir.

I have used it myself with the very best success, and now, whenever I am troubled with a Cough or Cold, I invariably use it. I can cheerfully recommend it to all who are suffering from a Cough or a Cold, for the croup Wooping-Cough, and all diseases tending to Consumption, and to the Profession as a reliable article.

I am satisfied of its excellence beyond a doubt, having conversed personally with the Rev. N H. Downs about it. He informed me of the principal ingredients of which the Elixir is composed all of which are Purely Vegetable and perfectly safe.

J. B WOODWARD, M. D.,
Now Brigade Surgeon U. S. Army.

N. H. DOWNS' ELIXIR.

This old, time-tried, standard remedy still maintains its popularity When all others have proved inefficient, the Elixir alone continues to give satisfaction. Use it for Coughs, Colds, Catarrh, Asthma, Croup, Incipient Consumption and all diseases of the Throat, Chest and Lungs.

31 YEARS AGO

The Elixir first made its appearance; and even then, in its primitive and imperfect state, produced such extraordinary results that it became, at once, a general favorite. Many have made it, what it really is, A Family Medicine.

For as more than half the diseases "to which flesh is heir," originate from colds, so this may be considered a general preventive of all diseases, by removing the primeval cause.

ADULTS

Should always keep this Family Physician at hand; and by its timely use save hundreds of dollars that would otherwise be swallowed up in discharging doctor's fees.

Sold at every Drug and Country Store throughout Canada.
