A PLOT TO BURN VIENNA.

A MOST INFAMOUS CONSPIRACY BY ANARCHISTS AND DYNAMITERS.

VIENNA, Oct. 11.—The Vienna police have furnished the press with an account of the recently discovered anarchist plot to burn Vienna. Although many details are obviously suppressed the plot is shown to have surpassed in extent and diabolical ingenuity any dynamite plot hitherto concocted. Seventeen conspirators were arrested. The examination of the prisoners shows the plot was hatched in and directed from America and London, and was to have been carried out by Viennese anarchists who recently returned from America. The plot was cleverly organized. The conspirators were divided into several groups, one of which was detailed to set fire to the town, another to take charge of dynamite operations, another to forge the necessary official documents and to coin money for expenses. The parties were detailed to set fire to Persing, Untermeidling, Hetzendorf, Meidling and Favoriten. The police got wind of the plot and watched until it was almost mature. They receive universal praise for their zeal and circumspection. An Anarchist of Prague gave the first information to the authorities concerning the conspirators. The plotters were mostly Czechs and Germans. They held secret meetings in a tavern at Penzing where the operators were instructed in the use of and manufacture of bombs. The seizures include numerous daggers and bombs, dynamite, fire bottles for firing buildings, printing and forging implements, and a variety of disguises, all of the most ingenious character. Another plan to obtain money was by means of a forged document to frighten old ladies at whose houses the plotters would make a domiciliary visit under the pretence of searching for counterfeit money, when they would seize all good money upon which they could lay their hands. A recent fire in a private house was the result of the experiment with a fire bottle.

A SOLDIER'S FATAL FALL.

CAIRO, Oct. 11.—A soldier who ascended the great pyramid to day without the guide slipped and fell to the base. He was picked up a shapeless mass.

THE BULGARIAN CRISIS.

BASE RUSSIAN PLOTS.

PHILIPPOPOLIS, Oct. 11.—A plot has been discovered to create revolts among the Bulgarians by means of armed bands engaged by the Russian consulates at Sofia, Philippopolis and Rutchuk. The ringleaders of the conspiracy have been arrested.

PREPARING A NOTE.

LONDON, Oct. 11.—It is reported that the Russian Government is preparing a note to the Powers, which will be the forerunner of decisive measures in Bulgaria.

KAULBAR'S DEMORALIZED.

ST. PETERSBURG, Oct. 11.—Gen. Kaulbars has telegraphed the Czar that he must now be either recalled or furnished with troops. The failure of his mission is generally admitted.

THE POPE'S PROTEST.

ROME, Oct. 11.—The Pope has charged all the nuncios to communicate to the various Governments his protest against a continued persecution of the church by the Italian Government. An allocation will soon be issued embodying the protest.

A GRAND MUSICAL PROGRAMME.

LONDON, Oct. 11.—A musical license has been granted to the American Exhibition, and there will be an orchestra of 120 pieces as part of the entertainments. The works of American composers will be largely presented, but European productions will not be neglected, and so far as practicable a feature will be made of having the composers lead in the production of their own works.

AN ASSASSIN DENOUNCED.

PARIS, Oct. 11.—An attempt to shoot the manager of the Great Iron Works at Creuzot has been frustrated by an employee, who informed the police and showed them where to capture the criminal. The workmen disown sympathy with the accused man. It is supposed he had private motives for the assault.

AMERICAN.

THE SS. "ANCHORIA."

NEW YORK, October 11.—The *Herold's* St. John's (Nfld.) special of the 10th says:—The "Anchoria" is safe. Nothing, after all, but a broken shaft. All well on board. The staunch old ship is bobbing about on the ocean some fifty or sixty miles to the eastward of Cape Spear. There is great joy in St. John's. On the passenger list of the "Anchoria" are the names of several people well-known in Newfoundland. The deepest interest has been taken in all concerning the missing steamer. Old sailors in this seaport were both to believe anything serious had happened to the vessel, and they put down the delay to what, as it has turned out, was the true cause—a mishap to the machinery. It was about half-past eleven this morning when a large ship's boat was observed entering the harbor. She was under sail, and four sailors were also helping her along with oars. She very naturally excited some anxiety as she came in. The boat proved to be one of the "Anchoria's" life-boats, was under the command of the first officer and manned by eight picked men of her crew. The "Anchoria," they reported, had broken her main shaft and had drifted along to the westward under sail for several days. The first officer, who was very

reserved, declined to give much information. He said, however, all were well on board, and that both passengers and crew had done the best they could to lighten the tediousness of the long passage under sail. They had plenty of food, and there was never any fear among the passengers. They came along slowly, it is true, and had been driven out of the usual track of ships by adverse winds, but the steamer was staunch and uninjured, and behaved admirably under the scant canvas she was able to spread. When they got within 70 miles of Cape Spear Capt. Small determined to send a boat ashore to let the people know all were safe, and, more important still, to get a steamer sent out to tow the "Anchoria" to port. The first officer's business was soon accomplished, and he engaged the steamer "Miranda" to go in search of the "Anchoria." Steam was immediately got up and every preparation made for the undertaking.

THE PASSENGERS.

"How did the passengers behave?" was asked. "They didn't mind it much," was the reply. "They had plenty of music, and made the best of a bad job."

THE RESCUING STEAMER.

The "Miranda" left here at six o'clock and there is little doubt she will pick up the "Anchoria" to-morrow and that both steamers will be safe in port ere many hours elapse. The first officer told nothing about how or when the accident happened. From one of the sailors it was learned the main shaft broke during a strong wind accompanied by a heavy sea, and that the "Anchoria" had been knocking about for nearly two weeks under sail.

MR. MCCARTHY.

BOSTON, Oct. 11.—Mr. Justin McCarthy addressed a large audience at the Boston theatre last night.

HERESY TEACHERS.

Proceedings have been begun against three Professors of Andover Theological Seminary upon the charge of teaching heresy. They have been summoned to appear before the Board of Visitors the latter part of this month. Should the decision of the Board not be satisfactory, the matter will be appealed to the Supreme Court upon the question as to whether the provisions under which the trust funds of the Seminary are held have or have not been violated by these teachings. It is said the accused are the editors of the *Andover Review*, and their accusers three prominent Congregational Ministers, two of whom are now retired.

"THIS MUST BE STOPPED!"

PETE'S SINGULAR ABBREVIATION—AMERICAN FISHERMEN AND THE TREATY OF 1818.

LEWISTON, Me., Oct. 11.—Senator Frye says one of the results of the inquiry by the Senate Committee on Fisheries, is the confirmation of the fact that both fishermen and owners of vessels agree that they require absolutely nothing of Canada other than the treaty rights of 1818. It is unnecessary for them to take bait in Canadian waters. All they need to enter Canadian ports for is shelter, wood, water and repairs. The privilege of fishing within three miles of the shore is valueless. The trouble is the Canadians refuse us rights which they admit we are entitled to. This must be stopped!

MGR. CAPEL.

NEW YORK, Oct. 11.—The *Herold's* San Francisco correspondent telegraphs an interview with Mgr. Capel, in which the eminent prelate says: "Having been broken down in health as the result of delivering over one hundred lectures in a short space of time, I contracted malaria, which prostrates me at times. In this condition I accepted the invitation of an estimable Catholic lady to stay in the country and there recruit." Mgr. Capel recites at length the social standing and prodigal liberality of this lady in contribution to the erection and support of Catholic churches, and the fact that Archbishop Riordan, Governor Stoneman and wife and other leading

NEWS

TRANSATLANTIC.

A Belgian syndicate has taken the Congo railway concession which the English abandoned. General Joseph Alexis Ulrich, the defender of Strasbourg during the Franco-Prussian war, is dead. The exports of coal from Yorkshire to Russia were double the usual amount for September. The schools in the city of Hanover have all been closed because of an epidemic of scarlet fever and diphtheria. Mr. Gladstone is suffering with cold which keeps him within doors. The condition of his daughter, Mrs. Drew, is still critical. The French Senate has appointed Admiral Jaures and General Pellissier to represent that body at the dedication of the Statue of Liberty at New York. A Constantinople despatch says the Sultan has been especially attentive to the Admiral of the French Mediterranean squadron and has bestowed costly presents upon him. A new Spanish cabinet has been formed as follows:—President of the council, Senor Sagasta; minister of foreign affairs, Senor Morot; minister of justice, Senor Martinez; minister of finance, Senor Puigecerver; minister of the interior, Senor Leon Castillo; minister of public works, Senor Rodrigo; minister of war, General Castillo; minister of marine, Admiral Arias; minister of the colonies, Senor Badajoz.

SOCIALISTS ACQUITTED.

BELLIS, October 10.—Six Social Democrats connected with a party of two hundred working men, who on August 21 got into a fight with the police have been acquitted. The jury that tried them was composed of well-to-do citizens, and the verdict was an immense surprise. The charge being conspiracy against the peace of the country, it was intended if a verdict of guilty was found that the sentence should be a number of years in the state prison. Fifty witnesses were examined and the trial lasted two days. The Socialists are rejoiced at the result.

THE TORY HOME RULE MEASURE.

LONDON, October 11.—The Daily News says: It is the intention of the Government, after promising a Home Rule bill, to take up the procedure measure as first business of the session. The Government have so intimated to Lord Hartington and Mr. Chamberlain, but nothing definite has been arranged. Although the Government hope to carry the Home Rule measure by a majority of 100, they prefer to secure the right of closure first. It is likely that the Parliaments will object to the Government's programme, and insist that Irish affairs be the first business.

A DENIAL.

The Marquis of Hartington authorizes a denial of the statement that he has proposed to support the Irish Government bill alleged to have been drafted by Mr. Chamberlain and to be under the consideration of the Government.

A GRAND DEMONSTRATION.

CORK, Oct. 10.—Five thousand members of the League of the Cross, a total abstinence society, paraded through the streets of Cork today to celebrate the anniversary of the birth of Father Matthew. They were accompanied by bands of music and sang Irish, French and American national songs. Although rain was falling, 20,000 persons viewed the parade.

A MISCHIEF MAKER.

DUBLIN, October 10.—William O'Brien, speaking at Gurteen, Sligo, yesterday, said that if the people allowed the winter to pass quietly the Government would use that fact against Mr. Gladstone and Mr. Parnell. The English Liberals would not regret if another batch of ricketers were expelled from Ireland. If the Government was foolish and criminal enough to suppress the National League a thousand secret societies would arise instead.

RANDOLPH'S RAMBLES

AND THE SPECULATION THEY CAUSE. Lord Randolph Churchill has arrived at Prague. The English are obstinate in the disbelief that his mission is a non-political one. They assert that he is arranging new alliances. The Brussels Nord informs Lord R. Churchill that he is badly mistaken if he expects the approach of war between Austria and Russia.

THE EASTERN QUESTION.

A KING INTERVIEWED. PARIS, Oct. 10.—The Temps publishes an account of an interview had by a member of its staff with King George of Greece. The King said his Government would maintain an observant attitude with reference to the Eastern Question, such as was maintained by France. He referred to the examples of Charles IV., Louis XIV. and Napoleon, and expressed the opinion that no power could long maintain absolute supremacy in Europe. He spoke in terms of the highest praise of M. Gambetta and M. DeFreycinet.

THE RUSSIAN IN A HUFF.

LONDON, Oct. 10.—Advices from Sofia confirm the report that M. Neklidoff, the Russian agent at Sofia, has suspended relations with the Bulgarian Government pending instructions from Gen. Kanlizar.

RASCALLY RUSSIANS AT WORK.

SOFIA, Oct. 10.—To-day one hundred and fifty peasants came in from the surrounding villages, and after visiting the Russian Consulate, where they were harassed by Consul Neklidoff, who tried to put a stop to the elections, an affray ensued in which sticks and stones were freely used and several persons were wounded. The intruders were eventually expelled from the city. Consul Neklidoff complained to the consuls of the other powers that the elections were illegal inasmuch as friends and followers of Zankoff were roughly handled and not allowed to vote. The consuls sent evasive replies. The polling is now going on quietly and will be concluded this evening. The election disturbers are Macedonians, and are consequently not entitled to vote. The Russian consulate supplied the rioters with money and spirits, and they renewed the conflict. A crowd threatened to attack the consulate, whereupon the consul's servants opened fire upon the mob. It is reported that eight persons were wounded. A lady was observed at the window ostentatiously dressing wounds. Some of the bullets entered

the neighboring German consulate. The consul made a complaint and troops now occupy the streets to prevent anyone from passing through.

THE RELIGIOUS RIOTS IN INDIA.

FIGHTING RENEWED.—ASERIOUS STATE OF AFFAIRS. DELHI, Oct. 9.—The situation which has grown out of the religious rioting between Hindus and Mohammedans is extremely critical. Reinforcements have been sent here from Morat to help to preserve order. The Mohammedans last evening attacked a small Hindu temple. The Hindus defended it, and a desperate fight ensued, in which the Mohammedans triumphed. The victors then beset the temple with blood, smashed the idols and destroyed the buildings. Twenty Hindus were so badly wounded in the battle at the temple that they had to be removed to hospitals, where they lie in a critical condition. Troops are sustaining order to-day. Serious religious riots between the Hindus and Mohammedans prevail throughout the districts of Geypor and Kattywar. The Bengal Government has declined to interfere with the native religious customs by initiating reforms looking toward abolishing infant marriages and enforced widowhood. The Government insist that the question of reform in these matters must for the present be left with the Hindus themselves.

AMERICAN.

Judge Gerry sentenced the seven condemned Chicago anarchists to be hanged on December 3rd. The American schooner "Henrietta" has been seized in the Arctic regions by a Russian cruiser for illegally trading in Russian ports. John Fitzgerald, President of the Irish National League in America, has sent \$3,000 to the treasurer, O'Reilly, as his personal contribution to the anti-eviction fund started in response to Mr. Parnell's appeal.

END OF THE INDIAN CAMPAIGN.

ALBUQUERQUE, N.M., Oct. 10.—General Miles has issued a congratulatory order formally announcing the close of the Indian campaign and congratulating the troops on the result. With the exception of one small thieving party, now in Chihuahua, Mexico, all the hostile Indians have been removed to places of safety.

SHOCKING TRAGEDY IN A THEATRE.

A HUSBAND KILLS HIS WIFE AND THEN HIMSELF. ST. LOUIS, Oct. 10.—Shortly before the performance was to begin this evening at the Alhambra Theatre, a variety hall, a terrible double tragedy was enacted behind the scene. Josie Martelli, a rather pretty woman, was stabbed and instantly killed by Frank Handmire, who saved the hangman a job by immediately ending his own existence. The victims of the tragedy are said to have been husband and wife. The exact cause of the murder and suicide is unknown, but it is supposed to have been jealousy. During the afternoon Handmire quarrelled with the woman. This evening he called her from her private dressing room, where she was preparing for the night's performance, into the general dressing room, and was heard to ask, "Are you going to do that?" to which she replied very decidedly, "No." Instantly Handmire struck her with a knife, the blade penetrating the heart, and she sank to the floor dead. Then, without moving from his tracks, the murderer plunged the weapon into his own heart and fell dead beside his victim. Josie Martelli was about 30 years of age and well known to variety theatre-goers.

WHAT THE ROCKS REVEAL.

MONSTERS OF PAST AGES. WILKESBARRE, October 9.—The workmen engaged in building a branch railway at Plains Township, three miles from here, made a curious find to-day. After making a blast in Aschely rock they found what appears to be the bodies of two well preserved animals. The specimens will weigh two hundred pounds each. One of them has the perfect head and features of a bear, while the other is a strange looking Saurian monster with a mouth resembling that of a frog.

AN EARTHQUAKE ALMOST HERE.

CHARLESTON, S.C. Oct. 9.—Indications yesterday all pointed to a renewal of seismic disturbances. Last night the atmosphere was oppressive and excited considerable alarm. The first shock was felt at 12.35 a.m. but slightly. At 1.50 there was a sharp and very distinct shock. At 3.40 a.m. there was a third shake sufficiently sharp to throw down loose bricks from unrepaired walls and shake the plastering from shattered ceilings all over the city. Many persons ran into the streets.

To ADD to the misery of the outlook in Newfoundland, the potato crop is now reported a general failure. A caucus of members of the Legislature has been held to consider the situation.

THE IMPERIAL TROOPSHIP "HIMALA" arrived on Sunday morning from Fortmouth. THE BUSINESS SITUATION.

GOOD TRADE DONE ALL OVER THE COUNTRY. NEW YORK, Oct. 8.—Special telegrams to Bradstreet's, while recording a moderate check in sales of some staples, as expected at this time, make plain new evidence of the exceptionally heavy volume of business. The bank clearings now begin to reveal the full proportion of commercial trade, with a very heavy total for thirty cities. During the current week the aggregate clearings were \$1,299,255,487, against \$995,843,528 last week and \$956,738,195 in the like week of 1885, showing a gain of 29.04 percent this and of 28.01 percent against last year. The sales of dry goods, cotton, wool and, to some degree, of lumber, have been somewhat checked, but there remains confidence on all sides of a good demand in the near future. Pig iron is now a dollar per ton higher in all directions. Southern and western furnaces are heavily sold ahead, and a demand for 300 tons from a dozen consumers in New York for early delivery would put No. 1 up to \$2 per ton. For this grade \$19 is now asked, with a probability of \$20

by January. Dry goods are firm. Print cloths are higher, and brown and bleached sheeting fractionally higher. Stocks are not increasing. Wool is quieter, but strong. In spite of speculative buying home prices are below foreign. The improved beet and cane crop prospects have further depressed sugar, and increased receipts of coffee have caused a decline of it.

LITTLE LORD FAUNTLEROY.

BY FRANCES HODGSON BURNETT.

(In St. Nicholas.)

CHAPTER V.—(Continued.)

"You don't wear your coronet all the time?" remarked Lord Fauntleroy respectfully.

"No," replied the Earl, with his grim smile; "it is not becoming to me."

"Mr. Hobbs said you always wore it," said Cedric; "but after he thought it over, he said he supposed you must sometimes take it off to put your hat on."

"Yes," said the Earl, "I take it off occasionally."

And one of the footmen suddenly turned aside and gave a singular little cough behind his hand.

Cedric finished his dinner first, and then he leaned back in his chair and took a survey of the room.

"You must be very proud of your house," he said, "it's such a beautiful house. I never saw anything so beautiful; but, of course, as I'm only seven, I haven't seen much."

"And you think I must be proud of it, do you?" said the Earl.

"I should think any one would be proud of it," replied Lord Fauntleroy. "I should be proud of it if it were my house. Everything about it is beautiful. And the park, and those trees,—how beautiful they are, and how the leaves rustle!"

Then he paused an instant and looked across the table rather wistfully.

"It's a very big house for just two people to live in, isn't it?" he said.

"It was quite large enough for two," answered the Earl. "Do you find it too large?"

His little lordship hesitated a moment.

"I was only thinking," he said, "that if two people lived in it who were not very good companions, they might feel lonely some times."

"Do you think I shall make a good companion?" inquired the Earl.

"Yes," replied Cedric, "I think you will. Mr. Hobbs and I were great friends. He was the best friend I had except Dearest."

The Earl made a quick movement of his bushy eyebrows.

"Who is Dearest?"

"She is my mother," said Lord Fauntleroy in a rather low, quiet little voice.

Perhaps he was a trifle tired, as his bedtime was nearing, and perhaps after the excitement of the last few days it was natural he should be tired, so perhaps, too, the feeling of weariness brought to him a vague sense of loneliness in the remembrance that to night he was not to sleep at home, watched over by the loving eyes of that "best friend" of his. They had always been "best friends" this boy and his young mother. He could not help thinking of her, and the more he thought of her the less he was inclined to talk, and by the time the dinner was at an end the Earl saw that there was a faint shadow on his face.

But Cedric bore himself with excellent courage, and when they went back to the library, though the tall footman walked on one side of his master, the Earl's hand rested on his grandson's shoulder, though not so heavily as before.

When the footman left them alone, Cedric sat down upon the hearth-rug near Dougal. For a few minutes he stroked the dog's ears in silence and looked at the fire.

The Earl watched him. The boy's eyes looked wistful and thoughtful, and once or twice he gave a little sigh. The Earl sat still and kept his eyes fixed on his grandson.

"Fauntleroy," he said at last, "what are you thinking of?"

Fauntleroy looked up with a manful effort at a smile.

"I was thinking about Dearest," he said; "and—and I think I'd better get up and walk up and down the room."

He rose up, and put his hands in his small pockets, and began to walk to and fro. His eyes were very bright, and his lips were pressed together, but he kept his head up and walked firmly. Dougal moved lazily and looked at him, and then stood up. He walked over to the child, and began to follow him unobtrusively. Fauntleroy drew one hand from his pocket and laid it on the dog's head.

"He's a very nice dog," he said. "He's my friend. He knows how I feel."

"How do you feel?" asked the Earl.

"It disturbed him to see the struggle the little fellow was having with his first feeling of home-sickness, but it pleased him to see that he was making so brave an effort to bear it all well. He liked this childish courage."

"Come here," he said.

Fauntleroy went to him.

"I never was away from my own house before," said the boy, with a troubled look in his brown eyes. "It makes a person feel a strange feeling when he has to stay all night in another person's castle instead of in his own house. But Dearest is not very far away from me. She told me to remember that—and—and I'm seven—and I can look at the picture she gave me."

He put his hand in his pocket, and brought out a small violet velvet covered case.

"This is it," he said. "You see, you press this spring and it opens, and she is in there!"

He had come close to the Earl's chair, and, as he drew forth the little case, he leaned against the arm of it, and against the old man's arm, too, as confidently as if children had always leaned there.

"There she is," he said, as the case opened; and he looked up with a smile.

The Earl knitted his brows; he did not wish to see the picture, but he looked at it in spite of himself; and there looked up at him from it such a pretty young face—a face so like the child's at his side—that it quite startled him.

friends, too; but Dearest—well she is my close friend, and we always tell each other everything. My father left her to me to take care of, and when I am a man I am going to work and earn money for her."

"What do you think of doing?" inquired his grandfather.

His young lordship slipped down upon the hearth-rug, and sat there with the picture still in his hand. He seemed to be reflecting seriously, before he answered.

"I did think perhaps I might go into business with Mr. Hobbs," he said; "but I should like to be a President."

"We'll send you to the House of Lords instead," said his grandfather.

"Well," remarked Lord Fauntleroy, "if I couldn't be a President, and if that is a good business, I shouldn't mind. The grocery business is dull sometimes."

Perhaps he was weighing the matter in his mind, for he sat very quiet after this, and looked at the fire for some time.

The Earl did not speak again. He leaned back in his chair and watched him. A great many strange new thoughts passed through the old nobleman's mind. Dougal had stretched himself out and gone to sleep with his head on his huge paws. There was a long silence.

In about half an hour's time Mr. Havisham was ushered in. The great room was very still when he entered. The Earl was still leaning back in his chair. He moved as Mr. Havisham approached, and held up his hand in a gesture of warning—it seemed as if he had scarcely made the gesture—as if it were almost involuntary. Dougal was still asleep, and close beside the great dog, sleeping also, with his curly head upon his arm, lay little Lord Fauntleroy.

CHILDREN'S CORNER.

A LIVING ISLAND.

The alligator is not in any way an attractive animal. On the contrary, it is about as repellent in looks and disposition as any living thing very well can be. And yet in one respect, at least, it is to be envied: It can go through life without ever needing a dentist, unless it be to eat him; for it never keeps its teeth long enough to give them a chance to decay or get out of order in any way. When an alligator's tooth is worn out or broken or in need of any kind of repair, it drops out, and, behold! a new one is ready to take its place. But I hardly need say that the alligator's teeth are a joy to only itself.

Another peculiarity of the alligator is its ability to sleep. Like other reptiles, it is so cold-blooded that it likes warmth and hates cold. It needs water, too, and as the dry season and the cool season come on together in Florida, there is a double reason why the Florida alligator should go into winter quarters. It buries itself in the mud after the manner of its kind and settles down for a long nap.

Sometimes it happens that grass and quick-growing shrubs spring up on the back of this torpid animal. As a rule these are all shaken or washed off when, with the first warm rains the alligator rouses itself and makes for the water; but occasionally, for some reason, the mud clings and with it the plant-growth, so that when the half-awakened creature slides into the water and floats stupidly off it looks like a floating island.

In one such instance, a plover was so deceived as to build its nest in the plant-growth on the alligator's back. The living island so freighted floated slowly down the stream until it was noticed by a party of boys who were out fishing. They saw the plover rise from the little island, and suspecting a nest to be there, they gave up their fishing and rowed out to it.

They never suspected the nature of the island, until they had bumped their boat rather rudely into it once or twice, and so vexed the alligator that it opened its huge mouth with a startling suddenness that brought a chorus of yells from the nest-robbers, and sent them off in a fit mood to sympathize with the plover, which was fluttering about and crying piteously at the raid upon its nest.

The poor bird was doomed to lose its nest, however, for the alligator having at last been thoroughly aroused, discovered how hungry it was, and dived down in search of food, thus washing off island, nest and all.—John R. Corygell, in "Jack-in-the-Pulpit," September St. Nicholas.

"THIS IS WHY I KNOW IT."

"How is your father getting on now?" I said to a little daughter of a man formerly a drunkard, but whom, some months ago, I had persuaded to sign the pledge. "He is getting along very well," was the reply.

"Has he kept his pledge?" "Oh, yes," she joyfully replied.

"Are you sure he has?" "Yes, sir, I am quite sure."

"How is it you are so positive on this point?" I asked. "Why," said she, and her face was radiant with joy, "he never abuses mother any more; we have always plenty to eat; and he never takes my shoes off to pawn them for a drink now. This is why I know it sir."

ELECTION NOTES.

THE FATEFUL WEEK OPENS.

MONTREAL CENTRE'S INDEPENDENT CANDIDATE.

A public meeting will be held on Chaboulez square to-morrow evening, to be addressed by Mr. Keys and others. Mr. Keys' canvass is showing extremely good results. Among the hard-headed men of Point St. Charles he is sure of a solid majority; and even Griffintown, which Mr. McShane likes to make people believe he holds in his pocket, is asserting its independence. On Thursday, it seems probable, "the people's Jimmy" will find that the title only exists in his own egotistical imagination.

THE TEMPORARY "RACE AND RELIGION" CHAMPIONS.

A large meeting favorable to Mr. David was held, on Saturday evening, on St. Catherine street, east of St. Lawrence street. Mr. Bedard, N.P., presided, and there were probably 2,000 people present; but only twenty or thirty persons near the speakers showed much enthusiasm. Mr. David repeated his speech at Papineau square the previous evening, and Mr. Denis Barry gave a second edition of his appeal to the Irish electors, referring also to the North Shore and other scandals. Mr. P. M. Sauvalle having made an eloquent speech in favor of "national rights and liberties," Mr. Lemieux entered his mighty protest against the insulters of "our language and our religion," predicting that he would soon have to sing a *libera* over the political tomb of Quebec's Attorney-General. Mr. Donald Downie also undertook to address the meeting in English.

SUNDAY ELEKTIONERING.

A citizen complained to-day that Tailion's and David's committee rooms were open all day yesterday, in the East End, and were crowded with people from morning till late at night. "These," the gentleman remarked, "are the pious churchmen! Gravel, who is branded as a Knight of Labor—the synonym in some quarters of all that is irreligious—respects the Sabbath, has his rooms closed, and transacts his business on week-days."

MR. HELBRONNER AND THE ARCHBISHOP.

La Presse publishes the following: "I have had the honor of being received to-day by His Grace Mgr. Fabre, who, after having heard me, was satisfied with the explanations which I gave concerning the visit which I was reproached for not having paid to him; and he has authorized me to publish this."

"JULES HELBRONNER."

"EMIGENCY STATEMENTS" OR TRUTH?

The friends of Mr. Champagne, the Nationalist candidate in Hochelaga, pretend that Mr. Tailion was unable to obtain a hearing at Mr. Villeneuve's meeting at the Tanneries on Saturday evening.

Mr. A. Desjardins, M.P., told a *Witness* reporter to-day that Mr. Villeneuve's election was a certainty, and that the *Herald's* statement Mr. Tailion could not get a hearing at the Tanneries was not true.

THE CHAMBERLAIN'S CONTEST.

L'Etendard declares itself to be more in favor of Mr. Rochelleau than of Dr. Martel in the contest for Chamblay.

Mr. Rochelleau had a splendid audience at his St. Lambert meeting on Saturday evening. Dr. Martel had monopolized the indoor speaking accommodation of the village, but the weather was mild and the sky did very well for a roof.

A PRIEST'S ACCOUNT OF CHATEAUGUAY.

A parish priest from Chateaugay, to-day, said Mr. Robitoux ran a great risk of being defeated, as a great number of English and Scotch Liberals had determined not to vote, and quite a number were supporting Mr. Derome. The cure thought the Kiel cry would not change any French Conservative voters.

THE SCHOOL COMMISSIONERS.

THE DIVISION OF COMPANIES' SCHOOL TAXES—TUNIC SOLA IN THE SCHOOLS.

The regular monthly meeting of the Protestant School Commissioners was held on Saturday afternoon, the 9th inst., when the following was the business transacted:—

An Act to secure the more equitable distribution of school tax derivable from incorporated companies, firms and commercial partnerships, whose shareholders or partners are in part Protestant and in part Roman Catholic was adopted, and it was decided to present the bill at the next session of the Provincial Legislature.

Two school sites were selected,—one for a west end school on Luke street, the other the Mill street, which reverts to the Government at the end of the present year.

The rules governing admission to schools were modified, so as to oblige children residing in unassigned districts to attend the nearest school in which there is room.

Miss Hendree's resignation was accepted. Miss Brown, of Mill street, was appointed her successor, and Miss Henthorn was appointed to Mill street. Miss Callista Burnham was placed in charge of Hochelaga school.

It was resolved to increase the time devoted to arithmetic by half an hour weekly in classes for girls, and reduce the time given to sewing by the same amount.

Two plans, one for B. Ribelle Street School and the other for Point St. Charles, were ordered to be purchased.

The Superintendent was empowered to arrange with Mr. Dawson, of the Tonic Sol-a College, London, Eng., to give a course of lessons for the benefit of the teachers, and to issue an edict to the effect that each teacher would in future be expected to take her class in vocal music.

THE LATE MR. WITHYCOMB.

Many of our readers will regret to hear of the death of Mr. Robert Withycomb, which took place Saturday at his son's residence in Outremont, at the age of fifty-two. Mr. Withycomb, who came from Quebec, and was well known in the printing trade of that city and of Ottawa, was for many years in connection with the job printing office of the *Witness*, and was at the head of that department until seriously impaired health prevented his continuance at business. The funeral will take place on Tuesday, the 12th inst., at 1.15 p.m., from his late residence via Fleury street, and 2.30 from St. Bartholomew's Church.

THE CANADIAN PACIFIC WORSTED

IN AN ACTION BROUGHT BY A FARMER. Judge Mathies, to-day granted the injunction asked by Amable Forcive, of St. Constant, forbidding the Atlantic and North-Western Railway from constructing their road through his farm before being authorized by the Court to do so. Immediately after the judgment the Company agreed to pay the petitioner the amount contended by him for his land—\$200 per acre.

DEFAUDING THE BANKS.

A CHICAGO PACKER SWINDLES A CANADIAN BANK AND FLEES TO CANADA.

The following despatch published in the morning papers produced quite a sensation on the street during the forenoon:—

CHICAGO, October 9.—An afternoon paper says M. Needle, partner in the well-known packing house of J. C. Ferguson & Co., is in Canada. He has issued bogus warehouse receipts, amounting to \$400,000, and has practically ruined his firm. The loss will fall altogether on the banks, and \$100,000 on a single New York bank. Among the banks which have suffered by Ferguson's failure are the Bank of Montreal, Chicago, and the Bank of British North America. A banker who is familiar with the facts says the Bank of British North America will suffer to the extent of \$95,000. The same banker said there were a great lot of receipts in the hands of the Board of Trade capitalists, so that while the loss of the banks is only about \$25,000 there will be at least \$1,000,000 on the outside. The firm's capital was \$200,000. The banks will probably take no attachments for the reason that all that was found in the warehouse, where there should have been half a million dollars' worth of property, was 200 bags of salt. The actual amount of embezzlement cannot be told until a thorough investigation has been made.

Some of the figures given are incorrect on the face of them; and enquiry at the Bank of Montreal elicits the fact that that institution is in no way interested in the failure. As to the Bank of British North America the Manager states that they have been informed by telegraph of the departure of Needle, but cannot yet state to what extent they are liable. However, the amount can be nothing like \$95,000, as the total advances to the firm are far below such a figure. The bank will be in a position to give full particulars in a day or two.

KNIGHTS AND BISHOPS.

ANOTHER COMMUNICATION FROM MR. POWDERLY.

With reference to the despatch received from Richmond, on Friday, in which Mr. Powderly was made to say that he did not promise Mgr. Fabre to support certain amendments to the constitution, *La Presse* publishes a despatch from its special correspondent as follows:—

The revised constitution has not yet been presented to the Convention, and consequently Powderly knows nothing at all about the matter. I saw him, and he himself wrote what follows to send home to the time for introducing amendments to the constitution has not arrived, and until then we cannot say what amendments will be presented. The delegates may have the new laws by then, but they must wait to present them until the legal time for such presentation.

La Presse adds: "We may say that we have in our safe official documents which go to prove that the Montreal Knights of Labor will have the religious question settled in a manner that will give full satisfaction to the ecclesiastical authorities at the congress now being held in Richmond."

"POLICE PROTECTION."

A BLUE-COATED WITNESS OF AN OUTRAGE ON THE SALVATION ARMY.

The Salvation Army were on Saturday night marching past St. Ann's Market, when they were pecked by a well-dressed rowdy with tomatoes and other soft garden stuff. A gentleman who saw the affair, and whose coat was smeared with part of the fusillade, asked a policeman standing by to arrest the rowdy, promising to go and lodge a complaint. The policeman refused, and the gentleman now wants to know what right the policeman had to do so.

JORDAN, THE LIFE SAVER.

A SLIGHT RECOGNITION FROM THE GOVERNMENT.

Mr. John Jordan, the boatman whose great services in saving human life in our port have already been mentioned in the *Witness*, was this morning, in the office of Mr. Gault, M.P., presented with a purse containing twenty-five pounds in gold, as a small token of appreciation by the Dominion Government. The presentation was made by Mr. Gault and Mr. Curran, M.P. Mr. Jordan, in reply, said he felt grateful that his services were appreciated by the public and the Government, and hoped to be able to do more good service yet in years to come.

TELEGRAPHIC NEWS.

THE TORY HOME RULE SCHEME.

A NATIONALIST OPINION.
DUBLIN, Oct. 11.—The *Freeman's Journal* describes the alleged Tory Home Rule scheme as a deliberate plan to split the National League organization and minimize the national demand.

A CANARD.
The *Irish Times* pronounces the story that the present Government intend to propose a Home Rule bill is so palpable a canard that it is a wonder any journal could have been deceived by it.

THE BULGARIAN ELECTIONS.

SOFIA, Oct. 11.—In the city election for members of the great Sobranje to elect a successor to Prince Alexander, all government candidates have been successful. M. Karaveloff, pro Russian, received but fifty votes out of 1,600 cast in his district.

"SUNSET" COX ON THE EASTERN QUESTION.

THE GOOD WORK OF THE AMERICAN COLLEGE IN CONSTANTINOPLE—A MUCH-FEARED AMBASSADOR.

NEW YORK, Oct. 11.—In an interview the Hon. S. S. Cox said the grandest educational institution in Turkey was the American College. The students are principally Bulgarians, with a sprinkling of Armenians, Greeks and other nationalities. Lessons of popular and personal liberty as illustrated in America are taught therein. Many of the alumni, especially from Bulgaria, leavened the dough of Bulgarian politics. These students have been master minds in the recent movements in Bulgaria by which Prince Alexander attained prominence. "I am very much mistaken if Russia does not find it a very difficult matter to overwhelm this popular element. Now how this question may be settled without involving Europe in a gigantic war, is the difficult problem to solve. The English Minister who foiled the attempt of Russia after Prince Alexander's annexation of Eastern Roumelia to Bulgaria, in September, 1885, was Sir William White. When I left Constantinople the Russian and German ambassadors, who dread the coming of Sir William White, were moving heaven and earth, and the powers under the earth, to prevent his reception by the Sultan. If Turkey should throw herself under the agis of Russia she would pursue a suicidal policy; if Russia is allowed to establish her influence in Bulgaria and Roumelia the independence of Turkey is at an end."

A CLERGYMAN'S MURDERER.

SAN FRANCISCO, Oct. 11.—Albert Koschenko, who shot and killed the Rev. Geo. Haddock, the Methodist minister at Sioux City, on Aug. 23rd, was captured yesterday and taken to Sioux City.

COUNTERFEITS.

CHICAGO, October 11.—The city is flooded with counterfeit of the recent issue of the ten dollar silver certificates. They were brought here from Washington ten days ago by the men who have been circulating them ever since. One has been arrested. It is thought the principal cities of the North-West have been flooded in a like manner.

A SHOCKING CATASTROPHE.

CHICAGO, October 11.—The roof of the repair shop of the North Chicago Rolling Mill is reported to have fallen in, burying under it a number of laborers, one of whom was removed dead, and nine more or less injured.

THE "ANCHORIA" IN ST. JOHN'S.

ST. JOHN'S, Nfld., Oct. 11.—The steamer "Anchoria" has arrived. The passengers and crew are all safe.

NEW YORK, Oct. 11.—A St. John's (Nfld.) special says: The steamer "Anchoria" arrived there at three o'clock this morning. The steamer "Miranda" which left St. John's yesterday, in search of the vessel missed her, and she sailed to within three miles of port when she was towed in by a tug.

APPEALS for abstinence and prohibition make up a large part of the Rev. Sam Jones' address. The Rev. Sam Small has not yet arrived.

THE OWEN SOUND GRAND JURY has returned a true bill against the accused in the Keppel murder case.

INCREASED ACTIVITY in both political parties is regarded as indicative of a fall election for the House of Commons.

THE REV. DR. AUBREY preached yesterday in Zion Church. He left this morning for Chicago and will re-visit Toronto on his way to England.

THE HUDSON'S BAY RAILWAY.

(Special to the *Witness*.)
TORONTO, Oct. 11.—The *Globe* has a special from Winnipeg as follows:—Oct. 10th.—The first sod of the Hudson's Bay Railway was turned on Saturday, but the proceedings were quiet and informal in character, very few being present on the occasion. The starting point is near the north-west corner driving park, about four miles from Winnipeg, and the line, as at present located, runs nearly north-west eighteen miles straight. Twenty miles will be graded next week, and forty by November first. It is now expected that sixty miles will be graded this year.

WINNIPEG.

(Special to the *Witness*, Oct. 11.)
MR. OLDS, traffic manager of the Canadian Pacific, arrived this morning. An interview has been arranged between himself and the members of the Board of Trade and the City Council for to-morrow, on the questions of stock yards, discriminating rates, etc. Mr. Van Horne is expected on Wednesday.

MR. McDUGALL and the Indian chiefs arrived yesterday afternoon, and, with the exception of Pakan, who is indisposed, addressed the meeting in Grace Church last evening.

COUNT D'ESTERHAZY has returned from the East with some fifty Hungarians.

A MEDICINE HAT DESPATCH, yesterday, says J. Rauch had three horses stolen by the Indians last night. The police are doing their level best to prevent this thieving, but the force at the present is not large enough.

THE EXHIBITION CAR.

(Special to the *Witness*.)
ROBINSON, Que., Oct. 9.—The exhibition car of the Canadian Pacific Railway Company, con-

ants, but among the majority of Mr. Fleming's congregation as well.

OCEAN MAILS.—It was learned from the Postmaster-General this morning that the object of extending the time for receiving tenders for ocean mail service until the last days of December, and the amendment of the terms of contract, is to secure tenders for vessels capable of making an average rate of speed of seventeen and eighteen knots in addition to the original advertisement, which only called for vessels capable of making a sixteen-knot average. The Postmaster-General says he will have no difficulty in securing vessels capable of making this rate of speed.

THE CAMPAIGN.

(From Our Own Correspondent.)

QUEBEC, Oct. 9.

THE EXCITEMENT GROWING.

The utmost excitement and activity reign in all political circles here, and preparations are being made for a stirring field day in all the surrounding constituencies to-morrow. Mr. Flynn has returned from Gaspé, and has gone into the fight against Mr. Lemieux, in Lewis. Mr. Laurier has left here for Compton. The Opposition organs, while disapproving of all acts of violence, give it to be understood that the party who was so badly injured by a stone thrown in the county of Quebec last night was out distributing whiskey and hiring bullies for Mr. Casgrain to disturb the peace. Mr. Edward Penberton, a leading Protestant lawyer of this city, addressed a large meeting in Quebec West, last night, in favor of Mr. Murphy's candidature.

QUEBEC, Oct. 11.

A WARNING TO ELECTORS.
The Episcopal letter against bribery, intimidation, perjury and drinking at election times was again read in all the Roman Catholic churches of this district yesterday by orders of the Cardinal in view of the contest on Thursday.

QUEBEC CENTRE.
Mr. Languedoc, the Ministerial candidate for Quebec Centre, publishes a strong address in the papers to-day denying that he is an atheist. It is understood that the Opposition will retort to-night by publishing his speech at the Free Thought Club, Montreal. His defeat seems probable. On Saturday night his opponents so blocked St. John street (without) to listen to speeches from Dr. Rinfret and his friends that he had to close up his empty Central Committee rooms, whose windows would have been smashed to pieces by the crowd but for the earnest solicitation of the Opposition candidate, who begged his friends to preserve the peace and not damage his victory by violence.

HINTS TO VOTERS.

Amongst the inducements held out by the Dominion Government through the *Chronicle* this morning, in favor of the Caron candidate in the Quebec county and the McGreevy candidate for Quebec west, are announcements that arrangements have been made for the immediate purchase of the right of way for the Cap Rouge Railway, that harbor dredging off Diamond Harbor is to be continued to the end of the season, that new immigrant sheds are to be built on the Louise embankment, and that the Government has decided at an early date to remove all the dangerous rocks from the cliff overhanging Champlain street and the coves.

A SERIOUS CHARGE.

In Quebec county Sir A. Caron's friends boast that \$50,000 will be spent rather than lose the county, and on Saturday night all their agents who left the city for the different parishes are known to have gone out well loaded with money and whiskey.

STRONG ON LYING.

As for the results of the political meetings throughout the district yesterday, it is useless to refer to them, as the most unscrupulous lying is being indulged in on the subject by the party organs, and there is no knowing which to believe.

TORONTO.

(Special to the *Witness*, Oct. 11.)

IN THE CHURCHES.

JOTTINGS FROM THE SERMONS AND SERVICES.

Christ Church Cathedral was crowded yesterday at both services. The pastor preached in the morning and made a special appeal to parents to send their children to Sunday school. The evening service was the Rev. D. H. Norman, who alluded at the close of his sermon to the death of Mrs. Mussen, an old and valued member of the church.

The choir was assisted by Mr. Max. Heinrich, of New York. ST. MARTIN'S celebrated its annual harvest festival yesterday. The decorations of grain, flowers and fruits being very fine. The rector, the Rev. Dr. Stone, delivered appropriate sermons at both services.

The Rev. James Henderson preached on the above subject at Sherbrooke Street Methodist Church last evening. In the course of his sermon he remarked that the hearing of the pew had not been as faithful as the preaching of the pulpit, and that the character of a sermon, as to its moral effects, was largely determined by the kind of hearing it received.

In conclusion he reminded his hearers that the magnitude of their privileges would be the measure of their responsibility, and spoke of the doom that would befall those that would go down to death and darkness with the voice of infinite mercy pleading in their ears.

The parting between Dr. Stevenson and his people is not now distant, and large congregations, including many strangers, gathered to hear him yesterday in Emmanuel Church. The morning sermon was one of his most impressive appeals for an unreserved acceptance of Christ.

The Montreal Garrison Artillery church parade, yesterday afternoon, brought out about two hundred and fifty men and officers, who marched from their armory to St. Paul's to listen to a sermon from their chaplain, the Rev. James Barclay. After the usual service the chaplain delivered a stirring address, pointing out that those nations which had paid attention to physical development had been the ones which had risen to distinction.

The attendance at St. Mary's Church was very large yesterday, the various Irish temperance societies meeting at the corner of Craig and Alexander streets and marching in procession to the church. Among those present at the church were Archbishop Fabre, Rev. Fathers M. Callaghan, J. Walsh, Lavallee, McCarthy, Salmon and others.

The sermon was preached by the Rev. T. J. Conaty, of Worcester, Mass., who devoted his discourse to a biography of the great temperance advocate, Father Matthew. "To-day," said the preacher, "as in Father Matthew's days, intemperance is a crying evil; it ravages the people, it scourges society, and it is the duty of every man who loves his fellows to raise his voice and arm against it."

A STUDENTS' REUNION.

ADDRESSES BY SIR W. DAWSON AND DR. MURRAY.

The Young Men's Christian Association, working in connection with McGill University, held a very pleasant reunion in the lower hall of the Peter Redpath Museum, on Saturday evening. The very enjoyable gathering took the form of a reception to the new students of the institution, and was largely attended by members of the Faculty and a great many ladies and gentlemen.

The Rev. Dr. Murray of the Faculty of Arts, being called upon for an address, said that it was almost out of the question for a professor to turn lectures on science and literature into sermons; but at the same time, as a member of the teaching body of the University, he took the greatest possible interest in all movements tending to bring the students to live a life becoming a Christian gentleman. "The gain of knowledge," said Professor Murray, "is important, but still greater is the culture of that intellectual strength which fits a man for a Christian life and benefits the world in which he lives."

A number of good songs rendered by the students were interspersed with the addresses, and after the formal part of the proceedings, refreshments were served to the visitors, who passed a very profitable hour examining the many curiosities of the museum.

RENEWING THEIR STEAMERS.

The Richelieu Company's Upper Canada fleet, except the "Bohemian," is now in winter quarters at Sorel.

Mr. Senecal, on Saturday, said to a Witness reporter: "We shall commence on Monday to put new dining rooms in every boat, besides making other improvements. The 'Passport' will be made almost as good as a new boat."

ROMAN CATHOLIC CHANGES.

Archbishop Fabre has made the following new ecclesiastical appointments: Rev. Father Giguere, curé at St. Paul l'Ermitte; Rev. Father Malette, curé at St. Charles church; Rev. Father Limes, curé at Berthier; Rev. Father Plante, curé at Ste. Cunegonde, and Rev. Father Harnois, curé at St. Cyrille.

PERSONAL.

Archbishop Fabre will receive the visits of his clergy to-morrow morning, on the occasion of the feast of St. Edward, his patron saint.

The Rev. Dr. Stone, rector of St. Martin's, has received a unanimous call from Grace Church, Philadelphia. The stipend is described as a handsome one.

SPECIAL NOTICES.

A NEW DEPARTURE.—It will be noticed by the advertisement in another column that the property belonging to the heirs of the estate Phillips will be offered for positive sale on Saturday next, the 16th inst. The sale will take place on the grounds at 11 o'clock. Referring to what we term a new departure, we think it is an evidence of what we may look for in similar cases. It is a notorious fact that by far too large rates of interest have been levied on the balances of purchase money on real estate, and it must in many instances have proved disastrous to the sale of property in Montreal.

The heirs and executors of this vast estate have, we think, very wisely concluded to offer the best possible terms for the sale of these so much admired building sites; all that is asked for in cash is one fifth, or twenty percent; the balance in six years at five percent per annum. Greater liberality to intending purchasers could not be offered, and we entertain no doubt that Messrs. James Stewart & Co. will have the most successful sale of real estate ever held on the island of Montreal. Plans and more detailed information can, we presume, be had at the rooms of the auctioneers, 183 St. James street.—Gazette.

COMMERCIAL.

RECEIPTS OF PROVISIONS, &c.—Butter, 573 packages; cheese, 2,570 boxes; leather 22 rolls.

DAIRY PRODUCE.

CHEESE.—The market is quiet to-day, and there is no news in particular. A good deal has been heard of the wonderful advance in cheese of late, but it is a question if the advance has been a very great one. As a matter of fact the cheese for which twelve cents is wanted is worth four cents more than the goods that at the beginning of the season, when the market was quiet, 12c to 13c for the best, the outside figure being holders' prices, and 10c to 11c for the August.

BUTTER.—As usual there is but little movement to-day. We quote as follows: Creamery, 12c to 13c; Townships, 10c to 12c; Morrisburg, 10c to 11c; Western, 12c to 14c.

LIVE STOCK MARKET.—OCT. 11.

The arrivals of live stock at Point St. Charles since Friday night were 534 cattle, 966 sheep and lambs, 572 hogs and 7 calves. The supply of butchers' cattle to-day was pretty large, and the butchers were not wanting many cattle, owing to the warm weather and the scarcity of ice at the abattoirs, consequently trade was slow and prices lower. None of the sales reported to-day were up to 4c per lb., and but few were as high as 3 1/2c, while pretty good steers and heifers could be bought at from 3 1/2c to 3 3/4c per lb. Common dry cows were sold at 2 1/2c to 3c, and lean stock at from 2c to 2 1/2c per lb., with some sales at even less than 2c per lb. Calves are scarce and pretty high priced. Good large sheep are in demand for "shippers" at from 3 1/2c to 4c per lb., and the butchers are paying from 3c to 3 1/2c each for the others. Good lambs are in active demand at \$3.25 to \$4.25 each, and common lambs at from \$2.50 to \$3.00 each. Mr. E. Charters bought five very fine lambs to-day at \$4.25 and twenty others at from \$2.50 to \$3.75 each; he also bought two calves for \$10. Eggs are plentiful but there is a good demand for them. Most of the sales to-day were made at from \$1.50 to \$2.25 per 100 lbs., but a few were sold as low as 5c, and some choice hogs sold up to 5 1/2c per lb. There has been a pretty good trade in horse flesh for local purposes during the past week, but the sales to American buyers were not so large as formerly. The shipments of horses from here to the United States last week consisted of three horses costing \$200, twenty horses costing \$1,750.50, and two mares for breeding purposes (7) which cost only \$155 for the pair.

BRITISH CATTLE MARKETS.

LEANS, Sept. 29.—The best class of beasts made 6 1/2c per lb.; other qualities from 5d to 6 1/2d. Choice small steers made from 7 1/2d to 7 3/4d; other kinds, 6d to 7 1/2d per lb. Numbers at market:—Beasts, 949; sheep, 3,600.

WARREN, Sept. 29.—We had an extra large supply of all kinds of stock to-day, the sheep supply being especially abundant. The result was that dealers had to accept a decided reduction all round. Best heifer beef made 6 1/2d; average 6d; and other sorts, 5d to 5 1/2d; small sheep, 8d; wethers, 7 1/2d and heavy fat sheep, 6d to 6 1/2d per lb.

EDMUNTON, Sept. 29.—At the live stock mart, Haymarket, yesterday, John Swan & Sons had exceedingly large supplies of fat cattle from all quarters. Trade was quiet, the best descriptions suffering a fall of fully 10c per head, and middling sorts fully 1c from the quotation of last week. There is no speculation in the trade, and the meat markets are exceedingly dull for anything except the primest Scotch, the butchers complaining of the difficulty they experience in disposing of the rougher portions of the carcasses. All through, therefore, the trade was against sellers' interests, and a difficult finish was experienced. Best bullocks made up to 42s 10s each, Galloways to 42s 10s, shorthorns to 42l or 8s to 9s 3d per stone, second classes from 7s 6d, inferior from 6s 8d to 7s per stone; some choice quality West Highland bullocks brought 2s 6d per stone; and Irish bullocks (of which there was a fairly good show) realized from 7s 3d to 7s 9d per stone. There were 104 fat cows on offer, and they were equally difficult to dispose of, at very unsatisfactory prices. The trade throughout may be quoted as the worst of the season. A large number of sheep were on offer, but the supply of lambs was small. For the best class of sheep the demand was almost equal to that of last week, but secondary descriptions were rather cheaper. Ewes likewise were a little more difficult to dispose of. Lambs made full prices if fat, but secondary kinds were cheaper. Best black-faced wethers brought up to 45s 6d, half-breds to 35s 6d, grey-faces to 42s, Cheviots to 42s, or 34d to 36d per lb. for nice weights, and 7 1/2d to 8d for heavy weights.

BUTTER.—CORN, Sept. 29.—In market, 1,933, classified as follows: Firsts, 691; seconds, 611; thirds, 232; fourths, 43; fifths, 2; superfine, 153; fine, 146; 1,411, 33 kegs. The quotations were: Firsts, 10s; seconds, 9s; thirds, 7s; fourths, 6s; superfine, 11s; fine, 10s; midd, 9s; kegs, 8s; 10s; seconds, 9s; thirds, 7s.

TORONTO MARKETS.
