THE CENSUS COMMENCES TO-MORROW

Mr. E. G. O'Connor, District Commissioner, Gives Some Explanations

LAST WORD TO HOUSEHOLDERS.

New Forms Affect Disability and Churches — Special Precautions Anent Factories.

To-morrow the census enumerators will commence their great task, and it will take at least three weeks before the work is completed ready for the Government tabulators. A 'Witness' reporter interviewed Mr. E. G. O'Connor, one of the district commissioners for Montreal.

'The census,' said Mr. O'Connor, 'is a very serious matter. The information collected will be very valuable for purposes of vital statistics. We want to find out whether Canada is a good and healthy country to live in, and the number of people, for instance, who are getting on in years. When the aggregate ages of the people who live in the country are ascertained, and the number of deaths during the last twelve months, the Government will be able to form some conclusion as to the healthiness, not only of the whole of the Dominion, but of its sections. This will be exceedingly valuable information. You might point out again that in connection with the collection of the information it is a strictly secret affair. All enumerators are sworn to keep secret all information, and it is a criminal act to divulge any part thereof.'

'Another principal object of the census,' said Mr. O'Connor, 'is in respect to the redistribution of parliamentary representation. As everybody knows, the number for the Province of Quebec is 65, and it is our hope that there will be a great increase this census, as there was ten years ago. As there are expected to be great increases west and northwest, as well as Ontario, the results of the census, as compared with Quebec, are looked forward to with interest. On the last occasion the Maritime and Ontario Provinces lost members in the House owing to their growth not being so great in proportion as Quebec. The British-American Act provides that there shall be a redistribution, and because of this it is very necessary to take the census.

NEW QUESTIONS.

'There are many new questions to be answered this year,' went on the speaker. 'Form 2 contains new aspects in relation to disability, mortality and compensation. A person has to state the total amount of compensation paid, whether compulsorily or otherwise. This is the first time in the history of census taking in Canada that statistics relative to accidents to employees, whether in factory, mine, stone quarry, railway, or other place of employment, has been collected. The cause of the accident, period of disability, loss of earnings, and compensation received from employer and insurance companies. Then the nature of the accident has to be defined, also the weeks of disability, loss of salary, and every information touching on the accident.'

Speaking on the question of a man's real estate, the interviewer asked if the enumerators would not experience opposition in that direction, Mr. O'Connor replied in the negative. 'The enumerator asks the head of the house: "Do you live in your own house?" If the man replies "No" the matter is ended, likewise to the question, "Have you any other property at all." Suppose he answers in the affirmative, then the statistic collector ascertains the value he puts upon the property and its rent and location, whether in the city or in Manitoba or further west. By this means the Government find out the value of the property in the whole Dominion, which is very valuable as a record. The real estate proprietor has also to give a description of any building he owns, whether stone, brick or wood, and, further, the number of rooms. For agricultural purposes, farmers have to state whether they cut and store their own ice for dairy purposes.

FACTORY PRECAUTIONS.

Proceeding, Mr. O'Connor intimated that another entirely new schedule to be filled up in Montreal was relating to the churches, schools, charitable institutions, etc., and by this means further valuable statistics would be placed on record. Then the factory form is very important, and special care has been taken in this direction. A perforated slip is attached to this, and when the enumerators have completed this class of work, the District Commissioner tears off the perforation which contains the name and address of the factory, and the information remaining is known by number only, thus the tabulators in making up the statistics have no idea as to which factory the particulars belong. Thus secrecy is again strictly observed. The factory form contains questions relative to the number of hands, salaries, working hours, and every thing imaginable which might be of value in making up government statistics of this character. It is hoped that this information may have some bearing on improved factory legislature in the future.'

'In conclusion,' said Mr. O'Connor, 'I again want to impress upon the people that this is a matter in the interest of the country, and as the whole of the enumerators are bound by oath to secrecy, I hope that every facility will be afforded them in the collection of the particulars. Of course any person refusing is liable to a fine, but such cases are not anticipated nor wanted.'

SCHOOLS AND CHURCHES.

As the form governing institutions is an entirely new one the following will not be out of place:

The locators of every church, school, college and charitable institution will be entered in column 1. In cities, towns and villages the street and block are to be given.

CHURCHES.

The facts for every church or place of worship will be obtained from the clergyman, priest or minister who has charge over it. The name of the religious denomination, the seating capacity, the number of communicants or church members, and the value of the edifice and lands.

The clergyman in the various Protestant denominations and the parish priest in the Roman Catholic church are the persons from whom the information regarding Sunday Schools and Cathechism classes will be obtained. If two or more denominations are united in one school it may be termed a Union School, and the names of the denominations interested indicated.

DAY SCHOOLS.

The record of Day Schools, public and separate, will be obtained from the teacher or principal of each school. The kind of school, whether High, Public, Separate or Private; the number of rooms occupied as class or study rooms; the number of teachers, male and female; the number of pupils, male and female, and the value of the buildings and lands. The number of scholars to be the number enrolled since January 1, 1911 who have attended school for two months or longer.

The kind or class will be entered thus: Aylmer University; Bishops College; Brighton Academy. The number of professors, lectures or tutors, male and female, will be recorded, the number of students, male and female, enrolled for the college term ending in the spring of 1911, an estimate of the value of the lands and buildings.

The special or legal name of each must be given, the number of offices, male and female, number of other employees by sex, number of male and female inmates for which it furnishes accommodation, whether treatment for detentions or for any other object, and also the value of the buildings and lands.

ENUMERATORS' HARD TASK

Wives Not to be Bullied—Special Forms for Lodgers—Husbands Not Pestered at Office.

Complications appear to be presenting themselves at every point in regard to the taking of the census, and householders are becoming fidgity as to the manner in which the enumerator will go about his work. As regards this, however, one need have no fear. The enumerator will call at the house in a polite way, and endeavor to get the necessary information from the person in authority at the house at the time. Of course, it is entirely within the province of the person interrogated to either refuse or to refer him to the head of the house at his place of business or at the house at a later time of the day.

Wife Not Obliged to Give Information.

Speaking on this particular question this morning to a representative of the 'Witness', Mr. E. G. O'Connor said, 'I would not advise the following up of a man to his place of business as it would undoubtedly upset him and business in general, but I should leave a form with his wife or someone in authority for him to fill, and instructions as to when I would call for the same.'

'Supposing he has property?' asked the reporter.

'In that case' said Mr. O'Connor, 'the gentleman will have to be seen in order to ascertain the particulars as they are to be filled in an another form.'

From this it is quite evident the enumerator's task is to be in no way a light one ,and he is certainly to be pitied.

'Now as to boarding houses' said reporter, 'are persons to give the landlady the whole of his family history that she may not only record it in her own memory and to the enumerator?'

Regarding Absentees.

'No, certainly not, but the enumerator will doubtless ascertain from the landlady the christian names and surnames of her boarders, and whether they are permanent residents or not. If they reside here then he will fill in the names on separate forms specially provided for the purpose and leave them for the respective parties to fill in, and call again.'

Continuing, Mr. O'Connor speaking as to absentees said 'We don't expect to follow a man to Timbuctoo, but we shall follow him a good distance. In cases where parties are absent in England at the Coronation special cards are provided, and a record of the absentee is sent to Ottawa and particulars obtained when the absentees return to their home. Special cards are also provided for persons who have gone into the country to live. In these cases the enumerator ascertains the place to which the family have gone, and, having done so, he sends a post card to the District Commissioner of that place to collect the particulars, and gets five cents for doing so. Absolutely no place will be missed. Banks, stores, stables, hen houses, and outbuildings of every description will be investigated in order to discover any population. But it cannot be too thoroughly impressed upon the minds of the public to do all they can to assist the enumerator in the great work he has to undertake.'

The Census Act provides that the population shall be enumerated under the 'de jure' system. The literal meaning of the term 'de jure' is 'by right of law,' 'legally,' or 'rightfully,' but the term has no legal meaning. For the purpose of a census the home of any person shall mean the habitual place of abode of that person—that is to say, where the person usually sleeps or dwells—where his fixed home is.

In every case where members of a family or a household are temporarily absent from their homes or usual place of abode, their names and records should be entered on the schedules, the facts concerning them being obtained from their families, relatives or acquaintances or other persons able to give the information.

In the case of domestics, the enumerator is instructed to take all such persons where they are found at service, but not at the family home.

General Rules.

The general rule to be laid down as to who should be enumerated in addition to the permanent family is that a student at college, a sailor or fisherman at sea, a lumberman in the forest, a commercial traveller on the road, inmates of hospitals, and other like persons whose period of absence is more or less known, should be entered with the family. But a son or daughter permanently located elsewhere should not be included with the family.

The following persons have not to be enumerated:

Persons visiting the family;

Transient boarders or lodgers at hotels or elsewhere who have some other usual or place of abode;

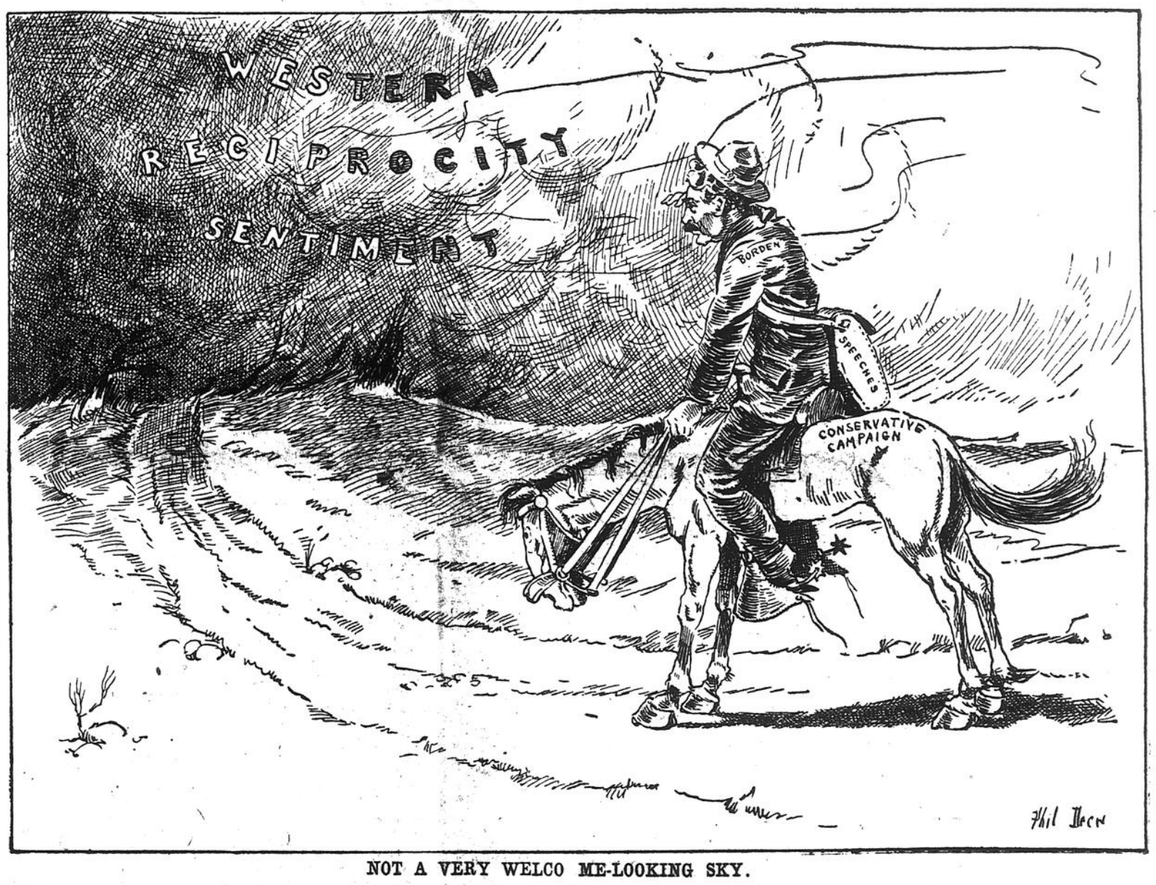

Persons who take their meals with this family, but lodge or sleep elsewhere;

Servants, apprentices or other persons employed in the family and working in the home or on the premises, but not sleeping there;

Students or children living or boarding with the family in order to attend a school or college, but whose home is elsewhere;

Any person who was formerly in the family, but has since become the inmate of an asylum, almshouse, home for the aged, reformatory or prison, or any other institution of a similar kind;

Members of the family who have been away from home for twelve months or more.

NOT A VERY WELCO ME-LOOKING SKY.

DR. HARE OF HARRINGTON

The New Hospital Launch in Sight.

Dr. H. Mather Hare of the Labrador Deep Sea Mission station of Harrington Harbor, passed through Montreal yesterday on his way to Halifax, taking this longer route in order to meet the Montreal committee in connection with the purchase of the new launch for his work. At an informal meeting the launch formed the main topic of interest and the numerous 'Witness' readers who have such a large interest in this special branch of Dr. Hare's work, will be glad to hear that the new and larger launch now demanded by the growing work has, we hope, been found, Dr. Hare being on his way to seal its purchase with the stamp of his approval. While the sum so far in hand in the 'Witness' fund for this purpose is not much over the $2,000.00 mark, as Dr. Hare explained the amount, some $1,000.00 or more, from the sale of the earlier launch provided by our readers and which is now being superseded, is also to be placed towards the purchase of the new and larger vessel, while further contributions in the hands of the Montreal treasurer, and several private donations bring the full sum of $5,000.00 almost in sight. Dr. Hare is enthusiastic over the reports and photographs of the new vessel now awaiting his personal inspection at Halifax and most anxious to have it on duty at Harrington.

Dr. Grenfell, who has taken a great interest in the selection of the new 'Northern Messenger' has secured for her, as for a number of the other launches in connection with his Labrador hospital, the services of a volunteer crew of college men, and Yale is in this instance supplying him with his volunteer sailors. They will man the launch at Halifax and convey her with all due honor to Harrington. Dr. Hare had at first hoped himself to captain the crew but owing to a government call to duty it will be impossible. A new phase of a mission doctor's work was introduced by his explanation with regard to this shifting of his earlier plans. Smallpox has this year broken out along the coast and Dr. Hare having been appointed Indian agent is under the pretty big contract of meeting the three hundred or more Indians on their annual 'mission' at Musquaree and vaccinating them. This little private 'picnic' of his will effectually prevent his going up with the new launch to Harrington.

Dr. Hare spoke at some length with regard to less well-known branches of his work and being urged to explain a little more the peculiar difficulties of his post laughingly disclaimed any real distinction along that line.

'We have our difficulties, of course, but every man runs up against those no matter what his work in life may be. That ours are of a distinctive nature does not necessarily make them more hard to bear. We have to face the elements sometimes at their worst, it is true, but the hardest night I ever hope to pass through, a night which we spent without other shelter than the slight windbreak of the komatik in the worst storm of the year, and on a rock some twenty feet square, left me and my man really none the worse for our adventure. We had passed the day without food and the dogs had been practically kicked into any motion at all for some time through the blinding storm when we decided, as my man was suffering severely from cramps, to make camp of some sort for the night. We were then on the ice of the open bay and fearing a repetition of Dr. Grenfell's undesirable trip on a pan of ice, stayed only to discover something more stable than that, on which to camp. The small rock we were finally glad to make use of we found in the morning was barely one mile from home. As I said, we were after all none the worse for our experience and good rest and good food next day put us quite into shape

Asked with regard to the new hall at Harrington, Dr. Hare reported the frame already cut and the erection of the building for which the funds are on hand, a matter of the near future. It was also reported that the generosity of a member of the Montreal committe had supplied this new center of instruction and social life in Harrington with twelve dozen each of all such dishes as may be required.

The work is on an established footing, its principal needs are being rapidly met and with the new launch now on the immediate horizon Dr. Hare is full of enthusiasm for the opening season's work. He hopes, however, that the people of Canada will continue to support the work with the same generosity and interest hitherto given, remembering that while the new and larger launch will widen the scope of his labors it will also require a considerable augmented sum for its maintenance and running expenses in connection with the larger crew that will be required.

PRESENTATION TO DOCTOR.

The staff of the Western Hospital presented Dr. James Perrigo, who has been connected with the hospital for the past 39 years, with a silver loving cup at a dinner in his honor held in the St. James Club last night. Appropriate speeches were made by Dr. Perrigo. Mr. Peter Lyall, president of the hospital, and others.

TRESPASSERS SENTENCED.

Arthur Beliveau, age 30; Hector Charetier, 26, and Dominque Gagnon, 29, were caught trespassing on the G. T. Railway property, and this morning on their plea of guilty were sentenced to serve five days in jail. The option of a fine being withheld by Judge Leet.

'TITANIC' LAUNCHED

World's Largest Liner Left the Stocks at Belfast To-day

The 'Titanic,' the White Star line's new giant steamer, was successfully launched at Belfast this morning, in the presence of a large crowd of spectators. The 'Titanic' and her sister ship the 'Olympic' are the two largest vessels in the world.

The 'Titanic' is complete with every convenience that modern science can provide for the comfort of the travelling public, and in first, second and third class, the same care for the welfare of their patrons is displayed. On both steamers swimming pools, tennis and handball courts, and Turkish and electric bath establishments are among the innovations introduced for the pleasure of the passengers.

The 'Titanic' measures 882 1-2 feet long, and 92 1-2 broad. Her registered tonnage is 45,000. She will be licensed to carry 2,500 passengers, in addition to a crew of 860.

The 'Titanic' will enter the White Star's New York to Southampton service late in the year, and it is no small acknowledgment of Southampton's importance as a port that it should be the terminus of this giant steamer's run.

This afternoon the speed trials of the 'Olympic' take place. She will sail from Belfast to Liverpool, and thence to Southampton, with quite a notable list of guests on board.

WORKERS FOR THE BLIND

Montreal Association Elects Lt.-Col. Busteed President

The first meeting of the board of managers of the Montreal Association for the Blind for the year 1911-1912, was held last night, in Room 170, Windsor Hotel, nine members being present. The following officers were unanimously elected:—Lieut.-Col. E. B. Busteed, president; D. Watson, 1st vice-president; S. Fraser, 2nd vice-president; P. E. Layton, hon. treasurer; Mrs. P. E. Layton, hon. secretary.

Finance committee: Lieut.-Col. Busteed, P. E. Layton, Dr. Milton Hersey, Charles Gurd, D. Watson.

Building committee: W. Owens, J. Kennedy, P. E. Layton, Dr. Milton Hersey, D. Watson.

CONSULS HONOR DIAZ

Sixteen Pay Respects at Vera Cruz—Peace Being Restored

Vera Cruz, May 31.—General Diaz leaves this country for exile tomorrow on the Hamburg liner 'Ypiranga;' sailing from the same port where thirty-eight years ago he swam the shark-infested waters to escape arrest as a revolutionist. He will be escorted to the 'Ypiranga' by General Huerta, commander of the garrison, and a detail of troops. There is little likelihood of a hostile demonstration, but General Huerta is taking no chances. Diaz is accompanied by his wife, his son, his son's wife and five children and Senor Elizaga and wife, the latter being the sister of Diaz. Yesterday sixteen consuls, headed by the United States and the Canadian representatives, paid an official visit of respect to the president of the republic. The Canadian representative will accompany General Huerta and the escort to the ship.

PEACE PROGRESS IS GRATIFYING.

Mexico City, May 31.—Pacification of the country, notwithstanding outbreaks here and there, is progressing to the satisfaction of the new authorities. President de la Barra regards the outlook as surpassing his most sanguine expectations. If he had doubts respecting the willingness of the scattered insurrecto bands to abide by the peace made at Juarez, they appear to have been dissipated by scores of reassuring telegrams, which have reached the capital from all parts of the country.

From Yucatan, Campeche, Chiapas, Tejic and other points messages have been received by Robles Dominguez, Madero's representative here, and by him transmitted to the chief executive, declaring the intention of the various rebel chiefs to respect the order of the revolutionary leaders.

In the meantime plans are going forward for a rousing celebration by the people when Madero appears.

A bull fight for the benefit of widows and orphans of revolution victims has been arranged for next Sunday. President de la Barra, in view of its worthy object, has signified a willingness to attend.

GENIUS IN TATTERS.

Boy Violinist Who Played to Theatre Queue Had Kaiser as Listener.

At a garden party given at St. Dunstan's Lodge, Regent's Park, by the Earl and Countess of Londesborough, and attended by the Emperor and Empress of Germany and their party, some music was given during the afternoon by a little boy violinist named David Paget, ten years of age. He was found some time ago playing in the street to a theatre queue and proved to have considerable talent. He was dressed in the tattered clothes which he used to wear in the streets, and while he was performing the Intermezzo from 'Cavalleria Rusticana' the Emperor and Empress entered the room unexpectedly. They listened attentively to the playing, and the Empress asked for particulars of the boy's history.

DOUBT HIS SANITY.

Man Who Kissed Indiscriminately to be Examined.

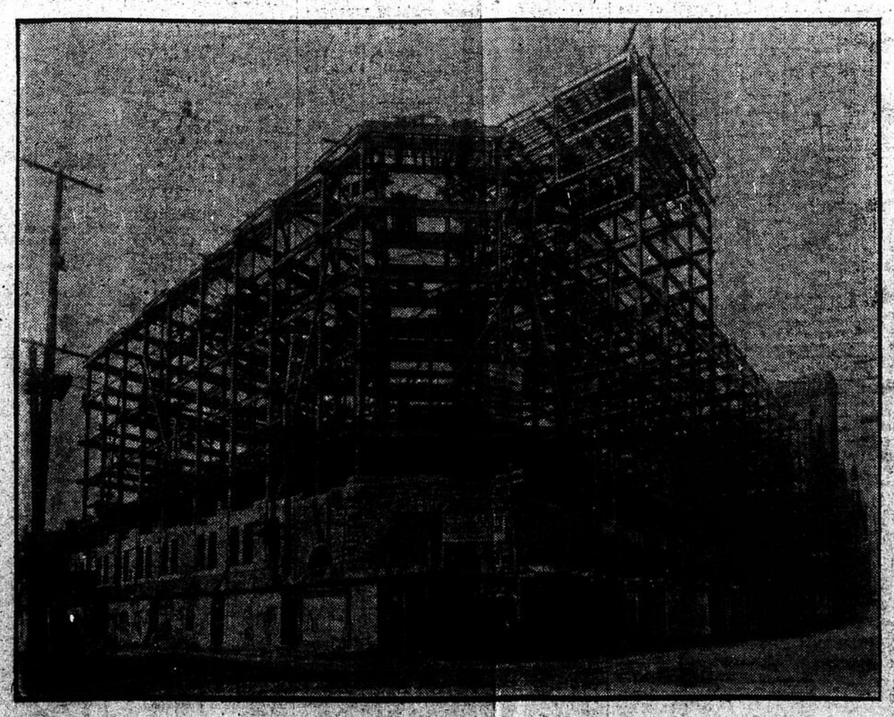

John O'Connell, the man who was arrested by Sargeant Dice and Constable Crowther or scaring women and children on St. Catherine and Peel streets by taking a hold of them and kissing them was remanded by Recorder Dupuis for examination as to his sanity. He lives at 200 St. Paul street.

ROBBED HIS FATHER.

Vincenzo Stauci, 15 years of age, was committed for sentence on Monday for theft of $125 from his father. On his plea of guilty being entered, before Judge Leet this morning.

GOLF AT PRESTWICH.

Prestwich, May 31.—In the fifth round, Evans, of Chicago, was beaten by Bruce Pearce, of Australia, at the nineteenth hole.

AIRMAN WINS $20,000 PRIZE

Andre Beaumont Wins Second Stage of Paris-Rome-Turin Flight

COVERED 160 MILES.

Many Accidents Delayed Contestants—Garros Led Until Near Finish.

Rome, May 31. — Andre Beaumont, the French aviator, arrived here at 3.55 o'clock this afternoon. He was the first contestant in the big Paris-Rome-Turin flight to reach the Italian capital, the end of the second stage of the big race. His magnificent flight from Pisa, a distance of about 160 miles, made him the winner of a $20,000 prize.

Pisa, Italy, May 31.—Accidents of a more serious nature than any which have occurred since the flight was begun marred the Nice to Rome stage of the 1,300 mile Paris-Rome-Turin aviation contest.

Three of the competitors, the Frenchmen, Garros and Beaumont, and the German, Frey, all met with mishaps to-day which damaged their machines, and Frey himself was slightly injured.

Roland Garros, who was being hailed as the victor of the long flight, left Cascine di San Rossere, the estate of King Victor Emmanuel, before sunrise to-day, bound for the Italian capital, to the accompaniment of a deafening roar from the thousands of enthusiastic spectators who had waited all night to witness his departure.

The aviator flew away at a tremendous speed, but after covering a few miles his monoplane suddenly fell to the ground and was wrecked. Garros, however, was not hurt, and he hurried back to Pisa to await the arrival of a new aeroplane with which to resume his flight.

Beaumont and Frey, who left Genoa this morning for Rome, both mistook the race course here, which was decorated with flags, for the aerodrome at Cascine di San Rossere and landed heavily. Their machines turned somersaults and were badly damaged. Frey dressed a slight wound and all three aviators are now working desperately to get their machines into shape to resume the flight. The airmen met a most cordial reception on arriving here.

Beaumont made a sunrise start from Alassio, with the intention of regaining the lead in the race. He arrived at Genoa at 6.47, after a fifty mile flight, and left an hour later for Pisa. His welcome at Genoa was an ovation.

DESPERATE DEED

Train Deliberately Wrecked and Two Trainmen Were Killed.

St. Thomas, Ont., May 31.—All indications point to a deliberate attempt to wreck the New York-Chicago express on the Michigan Central Railway, a mile east of Ridgetown. The tool house of Section Foreman A. Lamb was broken into last night and the tools found at the scene of the wreck were taken therefrom. Tlongside the track were found two crowbars and a wrench, also bolts and nuts off the fishplates which was removed. The engine was No. 8422, which made a record run last June. It tipped over on the engineer's side and the engineer was found dead in his seat, crushed by the tender. Fireman Oakes was scalded to death. Two baggage cars were derailed. No one else was hurt. Come of the passengers did not even waken up. The track was quickly repaired, and no trains were forced to make a detour. Engineer uinlan was running slow in observance of a cautionary signal, or his whole train would have been derailed.

Quinlan and Oakes both belonged to St. Thomas. Quinlan had been employed by the Michigan Central for twenty-eight years. He was 50 years old and leaves a wife and six children, the eldest 18 years, the youngest two months. Fireman Oakes leaves a widow and three children, from two months to six years. Both bodies have been brought here and an inquest will be held before Coroner Lake.

Detective Heenan has gone to the scene of the wreck.

MR. MAGRATH, M.P., SAILS

Western Conservative Member Was to Have Supported Mr. Borden.

Ottawa, May 31.—Mr. C. A. Magrath, Conservative member for Medicine Hat, has left for London to attend the Coronation. He is one of the Parliamentary delegation of eighteen who will be the guest of a British Parliamentary Committee in London during the period of the Coronation celebrations. It was announced some time ago that Mr. Magrath would remain Canada in order to be in the west when Mr. Borden makes his trip. There is no doubt that Mr. Magrath goes to London with the full consent fo Mr. Borden but his absence will take something from the weight of the Borden party. The member for Medecine HHat is easily one of the biggest and strongest Western Conservatives. He is not a narrow party man and he is sincere in his opposition to reciprocity. His absence from the Borden platform will no doubt be felt in Saskatchewan and Alberta. His place will no doubt be filled by some other western man.

CHANGED TO MURDER

Gravest Charge Laid Against Constaninoski

George Constinoski, 577 Moreau street, who was arrested by the Detective Bureau in connection with the assault on Aleck Luckos, who died from his wounds, was arraigned before Judge Leet this morning.

He was arrested on a coroner's warrant charging him with manslaughter. This was changed to a murder charge in court this morning.

When told of the change in the accusation he pleaded not guilty and enquette was set for the 6th of June.

ENUMERATORS TO BE SECRET

Extensive and Searching List of Questions Put to Householders

CENSUS CATECHISM.

Help Will be Given to Householders to Answer the Questions.

There are those in the city who are poking fun and ridicule at the taking of so elaborate a census as the present one, but let it be understood once and for all that it is by no means a joking affair. The census is to obtain very valuable information which may ultimately assist in better legislation in many directions. The question of secrecy has been threshed out time and again. It need give no person alarm as, quoting from the book of instructions to enumerators on the 'oath of office,' it states:

'Every commissioner,' enumerator or other person employed in the execution of the Census Act must take and subscribe an oath binding him to the faithful and exact discharge of his duties under the provisions of the act, and in all respects as required by the forms and instructions issued by the Minister of Agriculture, and every such person who makes wilful default in any matter required of him by the act or the instructions, or who wilfully makes a false declaration touching any such matter, is guilty of a misdemeanor.'

'Every officer or other person employed in any capacity on census work is required to keep inviolate the secrecy of the information gathered by the enumerators and entered on the schedules or forms. An enumerator is not permitted to show his schedules to any other person, nor to make or keep a copy of them, nor to answer any questions respecting their contents, directly or indirectly, and the same obligation of secrecy is imposed upon commissioners and other officers or employees of the outside service, as well as upon every officer, clerk or other employee of the Census Office at Ottawa.

The mode of procedure on the part of the secret enumerator will be very simple. He is a gentleman, and will be politeness in itself in asking his questions. The greatest difficulty he is expected to encounter is ascertaining ages, and it is earnestly hoped by Mr. E. G. O'Conner, an old district commissioner in the work, that every assistance will be afforded by householders to the enumerator. No silly questions will be asked such as have been suggested in some contemporaries. When the officer interviews the occupier of the dwelling there will be many questions he will fill in without being inquisitive. The form principally operative for the city is No. 1, given in detail below:

Without asking he will fill in the number of the house, then proceed to ascertain the names of the family, entering them in the columns allotted. Knowing the city and sex he is conversing with, there will be no necessity to ask these questions.

Proceeding, the enumerator will ask what relationship to family, and whether single, married, widowed, etc., and then delicately ascertain the month of birth, year of birth, and age last birthday.

After that comes the country or place of birth. If in Canada, province or territory has to be specified.

If the person is an emigrant then five years of immigration; on the other hand, if formerly an alien and now naturalized, then year of nationalization. This is followed by racial or tribal origin, nationality and religion.

After this a person has to state whether he or she has any chief occupation or trade and other than chief occupation; whether he is an employer or employee, or working on his own account.

The census also ascertains whether the person is employed 'on farm,' in 'woollen mill,' etc.; how many weeks at chief occupation or trade in 1910; and time at other than chief occupation; hours of working per week ditto; total earnings in 1910 ditto; and the rate of earnings per hour when employed by the hour.

The same forms wants to know the amount of insurance on life; against accident or sickness; and the cost of insurance in census year.

In the education of the children the total months at school in 1910 has to be determined. Adults have also to state whether they can read or write and the number of languages spoken; and finally the cost of education in 1910 for persons over 16 years of age at college, convent or university.

The last four columns are the most delicate of all, and relate to blindness, deaf and dumb, crazy or lunatic, idiotic or silly. The questions are easily answered and need cause no alarm whatever.

These are the principal questions that an ordinary householder will have to deal with, but other forms, beyond this general one, which deal with real estate, factories, churches and institutions, will be dealt with in another article.

HORSE TRAINER'S DEATH.

A well known horse trainer, Mr. Louis C. Davis, died at Delormier Park suddenly yesterday. He was working there in the stable of Mr. R. Long. Mr. Davis was 40 years of age. During his career as a trainer he had worked in many well-known stables all over the United States and Canada. It is said that he trained 'Charlie Eastman' a horse that won some notable races. Mr. Davis was taken ill and died at 8.30, before a doctor reached the stable. It is thought that heart failure caused death. The body is in the morgue.

FELL FIVE STORIES.

In a five story fall at 2 o'clock yesterday, Mr. Frederick Senior, aged 40, received injuries which will probably terminate fatally.

He fell down the elevator shaft in the building at 71 William street, occupied by James Alexander, Limited. He was taken to the General Hospital.

LATEST FROM PRESTWICH.

Prestwich, May 30.—Charles Evans, jr., of Chicago, beat Captain F. A. Stephens, of the West Dorset Golf Club, in the third round by five up and 3 to play.

H. L. Gaw, of Philadelphia, defeated F. Brooke, of the Pannal Club, by 2 up and 1 to play.

SABREVOIS COLLEGE.

The closing exercises of the pupils of Sabrevois College will take place this evening at 8 p. m., and will be held in the basement of L'Eglise du Redempteur, Chatham street, between St. James and Notre Dame streets. All friends of the Sabrevois Mission are cordially invited to be present.

MR. Z. FINEBERG,
To whose efforts the founding of the Hebrew Loan Society is largely due. (See page 1.)

PRINCE IS EXPECTED

Leopold of Battenberg Arrived Yesterday Afternoon

Prince Leopold of Battenburg, younger brother of the Queen of Spain and first cousin of King George, arrived here from Toronto yesterday en route for Quebec, form where he will sail on Friday on the 'Empress of Ireland.'

The Prince who is concluding a tour of the Empire is now hastening home to the Coronation. Accompanied by his physician and companion, Dr. McIlroy, of the Buckingham palace staff, he left England last November and visited New Zealand, Australia, China and Japan. The party then came on to Vancouver, but owing to the Prince's delicate health the original intention to spend two months in Canad could not be carried out, and the journey from the Pacific Coast to Montreal was only interrupted by short stays at Banff, Winnipeg and Toronto. Owing to Prince Leopold's illness he is travelling unofficially.

Prince Leopold and Dr. McIlroy are staying at the Place Viger.

EASTERN LEAGUE RESULTS.

Decoration Day was ushered in with fine weather in all the cities of the Eastern League, an da large attendance is looked for all over the circuit, at both the morning and afternoon games. As will be seen by the score, the Royals have accomplished what no other team in the league has done this season, by taking two games from the leaders, they are the most popular team on the road, as the Bronchos are making a runaway race up to date. Dubuc kept the hitting down, and was able to land the game by the good work of the hard-hitting outfit from across the border.

SMOKE NUISANCE.

A delegation from the North End waited on the Board of Control yesterday to complain of the smoke nuisance from the Lamarche Planning Company's mill.

OBJECTS TO RENDERING PLANT

Alleging that Lesage's rendering plant is a menace to the health of the citizens of the residents of the municipality of St. Leonard-Port-Maurice, Mr. Pierre Guinois, farmer of that place is seeking an injunction to prevent the owner of the rendering plant operating it. Apart from alleged bad odors and foetid emanations Mr. Guinois complains that the residuum from the plant runs into a ditch drain used by the cattle, and that this may endanger the lives of the animals.

The hearing was fixed to June 7th. Mr. C. A. Pariseault, for the petition; Messrs. Lavallee and Delfausse for the responients.

INVENTORS SEEK INJUNCTION.

Messrs. J. G. B. Seigert & Son, inventors and owners of the 'Augustora Bitters,' are seeking an injunction before the Superior Court against Messrs. Boivin, Wilson & Co., alleging that the latter are infringing on their rights by manufacturing and selling an imitation of their product.

The petition for an injunction was presented yesterday to Mr. Justice Bruneau, in Practice Court, and was adjourned for two days to give the respondents an opportunity to answer in writing.

DOOM OF THE STENOGRAPHER?

Gramophone Experimented With as Means of Recording Evidence.

RECORD OF SHAM TRIAL.

Unique Experiment Tried Yesterday in Montreal Court House.

Is the official stenographer doomed? Much depends on what experiments now being made at the Court House will show.

A novel experience was tried for the first in Canada, if not in the world, on Monday afternoon at the Court House: that of a trial's report by gramophone.

The experiment was tried in a closed room of the Court House, at which attended Chief Justice Sir Melbourne Tait, Sheriff Lemieux, Messrs. N. K. Laflamme, K. C., Rosario Genest, advocate, and A. St. Martin, official court stenographer.

A shew trial was started, Sir Melbourne, of course, acting as judge; Mr. Laflamme, as attorney for the plaintiff, Mr. Genest, as attorney for the defendant and Sheriff Lemieux getting into the box as the inevitable witness. After a more or less prolonged sitting, the gramophone recitated what had taken place, and a report will be made to Chief Justice Melbourne Tait on the whole matter.

WRECKED ON FIRST TRIP

Seven Dead Reported in Derailment of Passenger Train Near Spokane

Seattle, Wn., May 30.—The Chicago, Milwaukee and Puget Sound Railway Company's new steel passenger train, the Columbian, which left Seattle last night, is reported to have been derailed at Malden, near Spokane, and five passengers and two trainmen killed.

It is reported that the engine was derailed, and the whole train piled up on the engine. The engineer and fireman were killed. The train was making its first trip, the railway having been opened for through passenger service only yesterday. The passenger list was very large.

NEW EXPRESS CHARGES

Companies File Reduced Tariff Schedule With Railway Commission.

Ottawa, May 30.—The railway express companies have filed a new tariff with the Railway Commission in response to the order issued sometime ago. Chairman Mabee says that the new rates have not yet been considered. It is expected that these will show a considerable reduction under the old rates. The board's order abolishing delivery limits in cities becomes operative on Thursday.

MR. R. R. JAMIESON DEAD

Former Mayor of Calgary and Prominent C.P.R. Official Passes Away

New Westminster, B.C., May 30.—Mr. R. R. Jamieson died to-day. He was mayor of Calgary last year, and for many years was prominent in C. P. R. circles, being general superintendent at Winnipeg from 1907 till 1909. He was brought here a month ago broken in mind and body. He suffered from the hallucination that he was Christ.

Mr. Jamieson was born in Westover, Ont., in 1856. He commenced his railway career as telegraph operator, and ended as general superintendent, all on the C. P. R.

HURT IN AUTO RACE

Mechnician Had His Leg Broken When Tyre Blew Off.

Speedway, Indianapolis, May 30.—In the auto race D. Bruce-Brown (Fiat) was leading at 150 miles. His time was 1 hour, 59 minutes and 12 seconds. Ray Harroun (Marmon) second, and Ralph Mulford (Lozier) third.

Ray Harroun, in a Marmon had taken the lead from David Bruce-Brown (Fiat) at the 200 mile mark. Harroun's time for that distance was two hours 43 minutes 21 seconds. Brown was second and Mulford (Lozier) third. Dave Lewis, mechanician in the Lozier car driven by Tetzlaff had his right leg broken when the car blew a tire in the home stretch in the 170th mile and ran into a Pope-Hartford, driven by Disbrow. Tetzlaff was injured and the crew of the Pope-Hartford also escaped. Both cars were taken out of the race.

SUBWAYS ON PARK AVE.

City Attorney Archambault Asks Year's Delay as Two May be Built.

City Attorney Archambault is making application before the Dominion Board of Railway Commissioners for a further delay of a year to allow the city to build the subway or subways needed on Park avenue under the C. P. R. tracks. According to Chief Engineer Janin's plan two subways may be necessary at a cost of $349,800, and they could not finish by the end of December, which is the time now allowed. One of these subways is on Park avenue, between Van Horne and Pacific avenues. The other is on Park avenue between Atlantic and Beaumont avenues.

Mr. Archambault will ask in his petition that the cost of the undertaking should be divided between the city, the railway company, and the railway grade crossing fund at the disposal of the board. The Chief Engineer of the Railway Board will have to agree with Mr. Janin that the delay is necessary before it will be granted.

Mr. Archambault goes to Ottawa on June 6 in connection with the Bell Telephone hearing.

CHINAMAN'S SENTENCE.

George King, the Chinaman who pleaded guilty to selling opium, was condemned to one month's imprisonment and a fine of $50.00 or two other months. On the charge of loitering the sentence was suspended.

FINANCE

STOCKS ACTIVE ALL ALONG THE LINE---PRICES

Montreal, May 30.

Canadian Pacific Railway during the past few weeks, or even months, made the markets most prominent feature turning active and strong, with advance to a new record, crossing the previous high of 238.

Sentiment on Canadian Pacific Railway has been made bullish by the increased acreage and excellent crop conditions in the western provinces, while talk of an early listing in Paris has helped the present upturn.

Sir Thomas Shaughnessy is quoted as saying that while the directors have taken no action whatever toward listing the stock in Paris, it might be that French bankers would on their own account arrange for the listing.

This morning, on the local stock exchange, Canadian Pacific Railway advanced to 239½, largely on the strength of the earnings issued for recent months. London is said to be buying again and continental markets are quietly picking up this issue.

Dominion Steel was a great performer during the session. The report in the 'Witness' yesterday, that strong interests are getting in on Steel had its effect, and the 'Street' to-day was predicting higher prices for Steel in the near future. On the strength of the present strong position of the big Steel Corporation, the stock is selling much below its intrinsic value and investors of the careful class are beginning to realize this fact.

Another favorite was Detroit United, which made a gain to 74, on heavy trading. Nothing but favorable reports are coming to hand regarding this company, and market leaders are predicting a good use for D. U. R. before long. Other traction issues were quiet but steady at recent quotations, while Rio gained to 110¾.

Montreal Power was fairly active, opening at 158¼, but it declined fractionally before the noon closing. This stock is quite a favorite, and the favorable position of the company from every side of the compass is evident.

Cement issues were firm, as little attention is being paid to certain rumors. Mr. Jones tells us that all is going well with Canada Cement, and there is no one better qualified to know.

Other securities such as Shawinigan, Richelieu, Mackay and Twin City were purchased in small lots, and altogether the session was a very lively and active market with optimism in every department.

PARIS EXCHANGE RATES.

Paris, May 30.—Closing—Three per cent rentes, 95 francs 97½ centimes for the account.

Exchange on London, 25 francs, 30 centimes for cheques.

BERLIN FOREIGN EXCHANGE.

Berlin, May 30.—Exchange on London 20 marks 44½ pfennigs for cheques.

Money, 3 5-8 percent. Private discount rate, 2 7-8 percent.

AUTO HOSE WAGON

Fire Chief Tremblay Pleased With Experiment

Montreal's civic and fire officials today examined a combination chemical and hose waggon propelled by motor power, and the verdict is that such machines are needed here.

'It's all right,' declared Chief Tremblay, succinctly, to the 'Witness' yesterday. The other fire chief who saw it echoes his entiments.

The apparatus is on its way to Ottawa, which city has purchased it from the makers in Waterville, Ont. It is believed that this is the first motor power fire reel to be put into service in Canada, and it is saying much for Canadian progress to find that the first is 'made in Canada.'

On the Champ de Mars this morning Chief Tremblay, some of the subchiefs, including Sub-Chiefs Mann and Hooper, the mayor and the members of the board watched the car go through some evolutions and examined it. Chief Tremblay has been advocating the installation of such apparatus here, so it was doubly interesting.

Chief Tremblay went for a long ride in the car on Monday, up Peel street to Pine, then to Cedar and back down Guy. It acted very well.

The salient points in favor of motor apparatus are speed and economy. They can go farther at a faster rate of speed than can the horse pulled vehicles. Then their upkeep costs less, and when at a fire it is not necessary to leave a man behind to hold the horses.

The chief is now preparing specifications calling for motor apparatus, and when passed by the board tenders will be called for.

The apparatus shown here carries 1,200 feet of hose and 70 gallons of chemicals.

LADIES' BATH DAY.

Ald. N. Lapointe is making arrangements to have Wednesday set aside throughout the summer for ladies at the N. Lapointe and Letourneux bath on Brewster street. It will be open until 9.30 at night.

GLOBE PRINTING CO.

Toronto, May 30.—During the recent session of the Dominion Parliament, a special act was obtained, amending the incorporation of the Globe Printing Company, authorizing the increase of the capital from $500,000 to $1,000,000, and making the shares of a par value of $100 instead of $500. At a special general meeting of the shareholders of the company yesterday, presided over by Senator Jaffray, by-laws were passed increasing the issued capital to 9,000 shares of $100 each, and changing the end of the company's financial year to April 30 instead of January 31. The decision arrived at was unanimous.

The former directors, Senator Jaffray, Sir George Ross, Messrs. A. F. Rutter, Hugh Blain, N. W. Rowell, K.C., and W. G. Jaffray, were re-elected.

WHO IS BEHIND IRON TRADING IS THE QUERY

'What is putting Dominion Steel Common up? This was one of the questions heard in financial and stock market circles this morning.

Then again, who is behind the heavy trading both here and in Toronto? This was another query.

No one seemed able to solve the situation. Yet Steel was in demand. Some person or persons were taking it, as fast as weak-kneed holders were decided to let go. It was interesting. What did it all mean?

Some say that a pool is being organized with influential backing to collect a large block of Steel Common for foreign investment. This may or may not be true. Mr. Plummer would never consent to manipulation. He claims, and rightly so, that Steel does not need to be boosted. It will come into its own, when the market fully appreciates its intrinsic value. He has always discouraged reckless speculation in Steel, and now that the company is in a strong and promising position, those who have to do with inside affairs of the big Sydney plant are not likely to rush the market.

However, there is certainly 'something doing,' as is the saying. Directors of the Steel Corporation are silent, brokers who generally know what is taking place refuse to talk, and the 'Street' is left to wait and wonder.

You will be told that insiders have for some time past been keeping Steeel down. They had an object in view. Renewal of bounties, well that is a foregone conclusion. Payment of dividends, that is settled. Increased business, that is a fact. Enlargement of plant and equipment, all this is under way. Then why is steel so low?

The new mill of the St. Lawrence Flour Mills Company will commence operations very soon. Millers and grain men are looking to this new concern to give the general trade a rouse-up and set the wheels of business in faster motion.

Colonel Lebel, the general manager, assures them that his new company will not be the sluggard in the trade.

The Chicago, Minneapolis and other grain markets in the United States were closed to-day on account of its being Decoration Day.

A good deal of interest is being taken by members of the Board of Trade in the report of the intended hurried flight of the Hon. W. S. Fielding for England. Naturally different and varied interpretations were put upon the matter, but there remains a good deal of curiosity which, in all probability, will not be satisfied for some time.

STOCK BROKER NOT SURPRISED BY BOOM TO-DAY

Montreal, May 30.

The bullishness of the local stock market this morning was a common topic of happy discourse and jubilation on the 'Street' at the close of the noon session to-day, while stock brokers and investors appeared to be much cheered by the great vigor of trading this morning.

'he market hasn't lost all its vitality, eh?' said one broker to another. 'Not by any means,' replied the other, as they went together to a club nearby to have lunch—let us say—which probably possessed an added relish.

'What do you think about it?' Mr. George Smithers was asked, as he left the exchange for his office.

'I couldn't very well have two opinions about it,' replied this authority. 'I have said previously that we were good for higher levels yet, and that general conditions warranted this.'

'But what do you think of Steel common's resuscitation and the rise in Detroit?' Mr. Smithers was pressed to answer.

'I think the same as I did before, and as I said,' he quickly responded. 'Neither stock should require extraneous assistance. Both are worth more than present prices, and I look for a betterment in each.'

'In fact, conditions over the country are so good,' concluded the genial George, 'as to give fresh stimulus to stocks, and consequently I see no reason for discontent.'

IMPERIAL BANK FINE FIGURES

The Imperial bank earned last year over 15 percent on its capital, the net profits for the year being $841,692, exclusive, of the $769,559 which the bank received as premium on its new capital stock.

The recent annual meeting revealed the fact that the 36th year of the bank was the best in its history. For the past year the net profits were $139,000 in excess of the profits for the previous twelve months.

Other evidences of the bank's prosperity are shown by the fact that it increased its dividend during the year, that its note circulation increased by $650,000, its deposits by over $4,000,000, and its total assets by nearly $7,500,000.

The bank is particularly strong in specie and Dominion notes, these totalling over $10,000,000. Other quickly available assets total over $18,000,000, so taht the bank has altogether over $28,315,000 in quickly available assets. The total assets of the bank now stand at $63,710,000.

London Consols, Stocks, Silver, Money and Rates

London, May 30.—4 p.m.—Closing:—Consols for money, 81¼; do. for account (July), 81 7-16.

Bar silver steady 24½d per ounce.

Money, 1½ percent.

Discount rate, short and three months bills, 2 1-16 percent.

U.S. DIVIDENDS

New York, May 30.—June dividends, and interest disbursements in the United States will total $94,682,590, representing payments by railroad, industrial and traction corporations.

This compares with $86,949,121 in June a year ago. The May figures were $93,697,098.

Money More Abundant in London---Home Rails Up

London, May 30.—Money was plentiful and discount rates were quiet to-day.

The stock market was steady and cheerful with Canadian Pacific again the feature. Home rails and oil shares were active and dearer.

EGG MARKET STEADY.

Straight gathered stock, in round lots, 17 1-2c to 18c; single cases, 18 1-2c to 19 1-2c, and selected stock, 21 1-2c to 22 1-2c per dozen.

U.S. CHEESE VIA MONTREAL FOR BRITISH ISLES

If present conditions in the export cheese trade continue much longer, it will undoubtedly be to the detriment of Canadian producers.

The price of cheese at the various Canadian boards is not unreasonably high, but there is such a large over? production in the Eastern States below the border, that local wholesale merchants are able to obtain cheese in Watertown, Utica, and other produce centres in the State of New York at 9 1-2 cents per pound.

They have been purchasing considerable quantities on these favorable terms, for export trade to the British Isles. The produce comes through Montreal in bond, and as freight averages only 1-16 to 1-8 above that ffom our own producing points, the bargain is a good one.

Local dealers state that the quality of the make is first class, but they cannot state how long these conditions will last.

In respect to butter, the 'Witness' was informed by a local wholesale dealer this morning that the trade has experienced some disappointment recently. It was expected that butter would now be selling at about two cents lower than current prices, in view of very large production and supplies.

The price did not decline to this extent, however, and although export trade is fair, it might have been very heavy and profitable, if the expected slump had occurred.

HIGH SCALE OF PROFITS SHOWN IN C.P.R. REPORT

The steady progress and expansion of the Canadian Pacific Railway is once more depicted and shown in its statement of earnings for April just issued, and in the correlative figures given for the ten months ended April 30.

The gross earnings of our premier railway for April totalled $8,672,021, while working expenses amounted to $5,515,049. This leaves net earnings at $3,156,974, which is an increase of $175,863 over those for the same month of the previous year.

For the period of ten months ended the last day of April total gross earnings, stand at $85,376,100, while expenses attain to the fair-sized figure of $54,645,025. Net earnings are therefore $30,731,074, which, in comparison with figures for the corresponding period of the preceding year, show a gain of $2,165,298.

The rate of expenditure by the Canadian Pacific in its railroad and steamship lines, as well as its irrigation and ready-for-occupation farms in the West is now very heavy, and its ramifications extend further than this.

The company is doing a magnificent work for the country, and it will, no doubt, reap the benefits of its systematic careful and splendidly successful projects in the very near future, thus still further adding to its reputation as a corporation of systematic work on a large scale.

FINANCIAL AND COMMERCIAL NEWS

WINNIPEG ST. RY. MAY APPEAL TO PRIVY COUNCIL

Winnipeg, May 31.—Interest in the Street Railway situation here, continues to be the subject of much discussion in financial and civic circles. The proposed purchase of Winnipeg Electric by the city, and the presence in London of Sir William Mackenzie and Mayor Evans, together with the possibility of an appeal before the Privy Council, all tends to keep up the suspense in the outcome of the whole situation.

Certain civic officials, as well as aldermen, are of the opinion that Winnipeg Electric Railway Company is making ready to drop its appeal to Privy Council on the subject of its rights in the city. It is very anxious to sell out to the city at a price of about $22,000,000, but the city refused to buy several years ago at $13,500,000, considering that the latter price was more than 50 percent too high.

In view of the lively competition to come from a municipal plant, the company's franchises are likely to be valued at less than their price at the time of the former offer.

The case of the city against the company is fully prepared, should the former decide to face the tribunal.

B.C. COAST WILL BENEFIT FROM POWER PLANT

The incorporation of the Prince Rupert Hydro Electric Company, with an authorized capital of $5,000,000, and a bond issue of $3,000,000, introduces a new industry of promise on the Pacific coast.

The new enterprise, which has as its sponsor Mr. C. H. Cahan, K.C., of this city, associated with a number of Canadian financiers and professional men has been for some time carefully studied and prepared by those who have now almost brought it to completion, gives evidence of establishing the reputation in the west and filling a position of industrial importance which will grow in volume in keeping with the expansion and enterprise of the western terminal.

The possibilities which are presented at Prince Rupert as a future centre of rail and port facilities are of such a promising character that the introduction of an electric or power concern must eventually prove a success. The foresight on the part of Mr. Cahan and his friends will be received by those interested in Prince Rupert with feelings of satisfaction, as it will provide in the near future for the generating and distribution of power on a large scale, and which will largely tend to assist in the development of that town and district commercially and otherwise.

The facilities for installing such a plant on the western coast are excellent. The water power is located at about forty miles from Prince Rupert, and are capable of developing at least 30,000 h.p. of electric energy. The construction of preliminary installation will be commenced at once, and it is proposed to supply 15,000 h.p. within three years' time, while it is the intention of the promoters to install an operator and gas producing plant at Prince Rupert capable of supplying at first 75,000,000 cubic feet of gas per annum for light and heating purposes, with facilities for expansion as the growth of the city requires.

All these improvements will be ready for operation by the time the Grand Trunk Pacific reaches Prince Rupert, and no doubt the dawning of that day will be a happy incident and one that will reflect to the credit and enterprise of Mr. Cahan and his associates in this large undertaking.

Discount Rates Weaker With Inflow of Gold--- Good Tone to Market

London, May 30.—Money was easy and discount rates were weak to-day on the influx of gold to the Bank of England, and talk of an early reduction in the bank rate.

The settlement on the stock exchange was concluded without trouble. The market had a fairly good tone and consols, rubber shares and foreign securities improved, but home rails were irregular, and Mexican rails closed flat.

American securities opened quiet and about unchanged.

Trading was limited and price changes were confined to small fractions during the forenoon. New York sold freely in the afternoon, causing declines from 1 to 3 points in the leading shares, and the rest of the list sagged in sympathy. The closing was weak.

MR. HOLT JOINS BOARD STEEL CO. OF CANADA

Hamilton, May 31.—(Special).—The Steel Company of Canada, yesterday afternoon, held an important meeting and reported favorable business returns.

The following directors were elected:—Messrs. C. S. Wilcox, Hamilton, president; Charles Alexander, Providence, R.I.; Hamilton Benn, London, England; Lloyd Harris, M.P., Brantford; H. S. Holt, Montreal; W. D. Matthews, Toronto; the Hon. W. Gibson, Beamsville; Cyrus A. Birge, Robert Hobson, William Southam and John Milne, Hamilton.

London May 31.—(Special.)—A representative syndicate of foreign financiers, carrying introductions from the Canadian government agent in Holland, Mr. Preston, is sailing for Canada for the purpose of investigating the opportunities presented by the Dominion for the investment of capital.

The members composing this syndicate represent strong financial interests, and it may be said that they have extensive financial and business connections with large and important banking houses in Germany and Belgium. It is proposed that the syndicate, if satisfied with prospects in Canada for judicious investment, will form a strong company, with head office at Amsterdam, Holland.

TORONTO GRAIN

Toronto, May 31.—An advance in Chicago futures offset by a decline at Winnipeg, quiet, cables and continued bullish crop reports resulted in a quiet market for cash grain and prices are practically unchanged from last night. Latest quotations:—

Ontario—No. 2 winter wheat, 85c outside; Manitoba—No. 1 northern, $1; No. 2, 97½c; No. 3, 95½c. Oats—Canada western No. 2, 40c; No. 3, 39c at lake ports. Ontario—No. 2 white, 37c outside and 40c on track Toronto. Corn—American No. 2, yellow, 56½c; c.i.f. May shipment bay ports.

Peas—No. 2, 79c to 80c outside; Rye—No. 2, 70c to 72c outside; Barley, 65c to 67c outside, for malting, and 55c to 57c for feed. Buckwheat, 50c to 52c outside. Manitoba flour, first patents, $5.10; second patents, $4.60; strong bakers, $4.40. Ontario flour winter patents, $3.45 Montreal freights. Mill feed, Manitoba bran, $21 in bags; shorts, $23; Ontario bran, $22 in bags; shorts $23.50.

The progress and expansion in the western prairie provinces has been dinned into our ears so much during recent years that many people, no doubt, are made to forget that other places are also advancing.

British Columbia, in this connection, is doing excellent work, and doing it quietly. The province is not so noted for spread-eagle pushfulness and aggrandizement as are other places—but what about this: It is estimated by the best authorities of the province that it will spend, within the next five years, in public works, municipal works, railway construction, etc., no less than $600,000,000.

Simply because we have had a little spell of warm weather there are brilliant commentators around the 'Street' who lazily hand out the remark that we are now in for a quiet period on the stock market.

It is not surprising that those who hold such views were surprised to find the market booming away as it did yesterday. Their curiosity in this respect can be easily gratified, as it does not require a very shrewd insight into the general situation to see that higher prices are not only natural, but almost inevitable, when trade conditions and the unmatched progress of the country is considered.

The announcement of the incorporation of the Prince Rupert Hydro-Electric Company, with $5,000,000 capital, at the head of which is Mr. C. H. Cahan, K.C., assisted by other able and enterprising financiers, has been received with much interest on the 'Street.'

The location is generally acclaimed to be a splendid one, and there can be no doubt that the directors have considered all the pros and cons of the matter.

Prince Rupert being the terminus of the Grand Trunk Pacific, is destined to become a great port and industrial centre, requiring a good deal of power, light and heat before very long, and the company is determined to assist the growth of the city for their mutual benefit.

BERLIN BOURSE DULL.

Berlin, May 31.—Trading was dull on the Bourse to-day. Prices were steady.

The local wholesale fruit dealers appear to be well satisfied with trade conditions during the past couple of weeks. The fine warm weather has stimulated demand, and with prices of most fruit very reasonable a large volume of business has been done.

The first consignment of California cherries, of the dark red variety is in. The quality is superb, and the demand is considerable in spite of the fact that prices range high, around $3.50 for a ten pound box.

The American asparagus is now superseded by the Canadian product. The first arrival from St. Catharines came in yesterday and is now in the market at $1 to $1.60 for the eleven quart basket, and 75 cents for the six quart receptacle. The Canadian is shorter and thinner than that from the United States, but beats the American in softness and quality of taste.

The strawberries now on sale are from Delaware. They are being put out in wholesale quantities at 18 cents. The Ontario fruit will not arrive before July 1, Dominion Day.

CHEESE AND BUTTER.

Prices of cheese at the boards continue high in comparison with quotations in New York State. The local market is steady, with new cheese quoting at 10 1-2c to 10 3-4c.

There is not much change in butter conditions. Finest new creamery quotes at 22 1-4c to 22 1-2c per pound.

BIG U.S. BANKING FIRM INSPECTS M.S.R. SITUATION

Representatives of one of the largest and most responsible banking and bond houses in the United States have been in Montreal, with the object in view of carefully looking over the Montreal Street Railway situation very closely, with the intention, it is said, of financing the proposed deal by which M. S. R. and its subsidiary companies will be amalgamated under one huge traction concern.

The inspection it is understood has been made under the most quiet auspices, and from private sources it is learned that the gentlemen from across the border have been agreeably surprised with their observations in and about Montreal, and with the present position and prospects for Montreal Street.

The firm in question has been indentified recently with a number of the most successful traction deals in the United States, and the Montreal one is the first to attract its attention on this side of the line.

It will be noted that up to the present time Canadian corporations, when they had such a deal on hand, have had to go as a rule to England for money, and that one of the largest American houses should be watching the Canadian business situation so closely must be taken as proof that they are realizing that there are evidently just as great opportunities in this country as there were formerly in the United States. As a result they are anxious to become identified with some of the large transactions in Canada, which are being put through from time to time.

Officials of Montreal Street Railway were not prepared to discuss the result of their negotiations with the United States firm at the present time, but it is evident that the situation is progressing favorably, and that an announcement will be made at the earliest possible date.

CHICAGO BOARD REGRETS 'DEAL' IN MAY WHEAT

Chicago, May 31, (Special)—The leaders of present May wheat deal have, it is said, bought between 12,000,000 and 15,000,000 bushels of wheat for May delivery, and it is not believed that this amount can be turned over by to-night, although during the last few days heroic efforts have been made to get the wheat here, but the bull leaders insist on the delivery of every bushel they have purchased.

Officials of the Board of Trade are somewhat exercised and deplore the 'deal,' as it is against the rules of the institution, and some rather drastic investigations may follow the wind-up of the latest sensation of the speculative grain trade.

The directors have been carrying on an investigation for the last fortnight relative to the same matter, but the result of their findings will probably not be made public for several days.

It is held that corners are detrimental to the Board of Trade as a legitimate institution for the merchandising of grain.

No attempt at the protection of the cash wheat market was made by the owners of May delivery wheat on Monday.

Advantage was taken of technicalities by leaving the cash wheat of contract grade to find such market as it could. If it can be transferred to the regular public elevators to-day before the close of business it will be accepted at May price, otherwise it will go at current cash prices, or on the basis of July delivery.

It thus transpired that contract grade wheat sold at 92 cents at the close of business made in car lots less than ten feet away from the pit where May delivery was bringing $1.03.

WINNIPEG GRAIN

Wheat cables from Liverpool came ⅛ to ¾ pence per bushel lower at the opening, a penny lower for May, and ⅛ pence higher for July at the opening, and even to ¾ higher at the close.

Following are prices at Winnipeg up to noon:

	Wheat.			Oats.	
	May	July	Oct.	May	July
Close	97	95⅝	87⅜	36¼	37
Open	96¼	95⅝	87½	36¼	37⅛
High	96¼	96⅝	87½	36¼	37⅛
Low	95	95⅜	87⅜	36⅛	36⅜
Noon	95¼	95½	87⅝	36⅛	36⅝

T. Davidson & Co.—On the whole the most remarkable thing about the local market is its continued strength in the face of every condition which arises.

G. W. Farrell & Co.—The local market remains very firm, and we can only reiterate our former statement that the list should do better on the first indication of easier money.

Burnett & Co.—The local stock market situation continues to show strength, and with favorable business throughout the country, high prices should be reached.

CHICAGO CATTLE MARKETS.

Chicago, May 31.—Cattle receipts estimated at 17,000; market steady to 10c lower; beeves, $5.15 to $8.40; Texas steers, $4.60 to $5.55; western steers, $5.80 to $5.60; stockers and feeders, $3.90 to $5.75; cows and heifers, $2.50 to $5.80; calves, $5.25 to $8.00.

Sheep receipts estimated at 22,000; market weak, mostly 10c lower; native, $3.00 to $4.60; western, $3.00 to $4.65; yearlings, $4.25 to $5.10; lambs, native, $4.25 to $6.60; western, $4.25 to $6.65.

TORONTO CATTLE PRICES.

Toronto, May 31.—The cattle trade was steady to-day. Sheep are slow, but lambs were a little better. The receipts are 44 cars, consisting of 500 cattle, 330 sheep, 1100 hogs, 120 calves.

Latest quotations:—Feeders, short-keep, $5.50 to $5.85; feeding steers, $5.25 to $5.50; stockers, $4.75 to $5.25; canners, $2.00 to $2.25; milchers, $60 to $85; springers, $25 to $40; calves, 4c to 6c; sheep, ewes, 4.50 to $5.25; bucks and culls, $3.00 to $3.50; yearling lambs $6.00 to $6.50; spring lambs, each, $4.50 to $7.00 each; hogs, fed and watered, $6.4c. f.o.b., $6.15.

Export cattle, $5.80 to $6.00; export bulls, $5.00 to $5.25; butcher cattle, at $5.50 to $5.90; do., cows, $4.75 to $5.40; do., bulls, $4.00 to $5.15.

STIRLING CHEESE BOARD.

Stirling, Ont., May 31.—At yesterday's cheese board 395 boxes were offered. All sold at 10 3-4.

CAMPBELLFORD BOARD.

Campbellford, Ont., May 31.—At the cheese market yesterday 910 boxes were boarded, 495 sold at 10 9-16 cents, 140 at 10 1-2. 10 1-2 offered for the balance, but refused.

STOCKS IN LONDON.

London was a heavy buyer of United States stocks, taking fully 50,000 shares. Buying embraced all issues. There were practically no sales. London was enthusiastic over Tobacco decision, particularly recognition of right to recombine.

AMERICANS IN PARIS.

Paris, May 31.—The official advertisement of American Telephone and Telegraph listings appears here today, and quotation of shares is expected in the near future.

WILL ATTEND CORONATION

Mr. Geo. E. Foster, M.P., Changes His Plans— Difference Settled

Ottawa, May 31. — The Hon. Geo. Foster has definitely decided to go to the Coronation. It will be recalled that in the Commons when the appropriation was under discussion, Mr. Foster took exception to statements made by Mr. Perley, the Chief Conservative Whip, and said he would not go. The difference has been settled, however, and Mr. Foster will attend the Coronation.

TENDERS FOR HOSPITAL

$32,500 is Lowest Tender for New Smallpox Building

Many tenders were opened at the meeting of the Board of Control this morning. Those for the Moreau St. Smallpox Hospital were as follows:—J. P. Pauze & Co., $41,000; Martineau & Prenoveau, $33,900; Joseph Denit, $33,701; J. Gauthier, $47,500; O. Rondeau, $38,980; and N. Allard & Son, $32,500. These were referred to a committee to decide on.

$3,658 was set aside for ten constables in new wards, and $8,000 is recommended to Council as needed to keep the temporary employees in the Long Room longer.

$600 for five years' privilege of taking photographs on Mount Royal was offered by Mr. Louis E. Bachand, and accepted.

$6,800 for repairs to Baldwin Park in Delorimier ward, was recommended to Council. $5,407 for works on Mount Royal, and $4,607 for a sustaining wall to the lakes in Lafontaine Park were also recommended.

INFANTICIDE.

Four Inquests Held To-day—Murderer of Babe Unknown.

Four inquests were held at the morgue by Coroner McMahon to-day, and one of the verdicts was infanticide against a party or parties unknown.

The others were found to be accidental deaths.

The body of the baby was found in Murray Avenue, Westmount, last week. There were no signs of violence, but it was established that the child had lived, and that death had been due to neglect.

Tetanus was found to have caused the death of Joseph J. B. Hebert, aged 26, of Blue Bonnets. Whilst rolling a boulder in the new aqueduct, at Lachine several days ago he had a finger crushed. He paid little attention to the injury, blood-poisoning set in, and Hebert died yesterday in Notre Dame Hospital of lockjaw.

In the case of Timothy Hebert, it was shown that he had fallen from the rear platform of a standing street-car. He had been seen prior to the fall, standing with his eyes shut near the steps. Suddenly he went down, falling on his head.

No signs that would have led to the suspicion of foul play were discovered on the body of the man found in the canal at the foot of Colborne Street some time ago.

As he has not been identified, the city will bury him.

HUDSON BAY RAILWAY.

Contractors Eager to Secure Contract for Work.

Ottawa, May 31.—Contractors are already looking for construction work on the Hudson's Bay Railway. The announcement that contracts would be let at once for the first 180 miles of line from the Pas northward has brought a number of railway builders to Ottawa. These gentlemen are studying the condition with a view to submitting tenders. The work will cost about four millions, and is expected to be finished by the end of 1912. The contractors hope to have their supplies on the ground this fall.

TRACKS ON NOTRE DAME.

Board of Control Notify the M.S.R. They Will Be Held Responsible.

The Board of Control yesterday instructed Chief Engineer Janin to write to the M. S. R. drawing their attention to the bad condition of the rails on Notre Dame street from the Court House to Cote St. Lambert, and telling them they would be held responsible for any accidents resulting. He was also instructed to refer in the same way to that part of St. James street from Windsor street to Mountain street.

The Chief Engineer was also asked to produce a report asked for by the Board on all dangerous portions of the tracks everywhere in the city.

QUARRY AS DUMP.

Injunction Proceedings Likely to be Dropped Since City's Decision.

The motion for an injunction asked by Dr. J. A. Handfield against the city of Montreal to prevent the latter from using as a dump a quarry situated at the corner of Gilford and Brebeuf streets, on the ground that the practice was endangering the life of neighboring residents of the quarry, was pleaded this morning before Mr. Justice Brunea. As the city, since the taking of the proceedings, has practically complied to what was asked by the demand for an injunction, the petitioner was willing to desist of the action if the city would pay the costs so far incurred. This the city refused, and the case was adjourned to June 7.

MOVING A CABSTAND.

Mr. Pellissier, of Pellissier, Wilson & St. Pierre, will take out an injunction against the city to restrain them from moving the cabstand at the corner of Desriviers and St. James streets, as has been ordered by Chief Campeau. His ground of complaint is that this was done on a simple resolution of Council, while Art. 300a of the city's charter requires authorization from the Board of Control to change the location of cabstands.

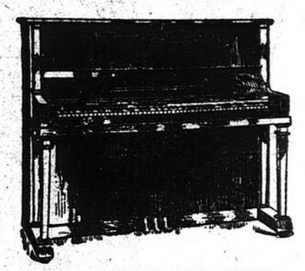

FIRE STATION IN AHUNTSIC.

As the result of complaint of Ald. Bastien about the fire protection in Ahuntsic Ward, the Board of Control this morning he was promised a fire station, three firemen, hose waggon, hose and other needed appliances as a start. Eventually this will be extended.

RUSH FOR LICENSES.

Licensed hotelkeepers and victuallers have to get an $8 permit at the City Hall license department before obtaining the $200 provincial license. The time expires to-day, and 403 out of the 440 have obtained it. Over 300 were issued to-day, and the rush was great.

CAR VICTIM RECOGNIZED

Had Left Home Saying He Would be Back Soon

The man who died in the Western Hospital Monday morning from injuries sustained by being struck by a street car at the corner of St. James and Dominion streets, has been identified by his wife as Mr. Timothy Hebert, aged 35, of 1435 Notre Dame street west.

Mr. Hebert left home Sunday, saying he would be back soon. Yesterday Mrs. Hebert found the body in the morgue. Besides the wife, five children survive. As he died without regaining consciousness, and there was nothing in his pockets to show who he was, Mrs. Hebert could not be informed.

CAMORRISTS' TRIAL.

Police Tell of Seizing Burglar's Kit and Weapon.

Viterbo, May 31.—Judge Bianchi, presiding over to-day's sitting of the Camorra trial, interrogated Ventimiglia, the police official of Terre del Greco, who was the first to reach the scene of the murder of Gennaro Cuoccolo, for which particular crime the thirty-six Camorrists are now on trial.

Ventimiglia enumerated the reasons why his suspicions fell on Enrico Alfano, the alleged leader of the Camorra and his associates.

Alfano, otherwise known as 'Erricone' frequently interrupted the police officials' testimony. He showed great acuteness and tried to make Ventimiglia contradict himself.

Ventimiglia also recounted how he had arrested Tomasso de Angelis, a former convict and a witness for the Crown in the present trial, while he was attempting to committ robbery.

The police official declared that he had sequestered from De Angelis a bag containing a burglar's outfit and which also included a dagger. This statement made a deep impression on the jury as up to the present time De Angelis and Gaelano Amedeo, also a Crown witness, have been considered as only sneak thieves and incapable of committing violence.

WILL PASS RECIPROCITY.

Mr. Carnegie Declares United States Senate Will Adopt Bill.

(Canadian Associated Press.)

London, May 31.—Interviewed on his arrival at Plymouth from New York, Mr. Andrew Carnegie predicted that the United States Senate would pass the Canadian reciprocity bill by a much smaller majority than did the House of Representatives.

COWARDLY ASSAULT.

Kingston, May 31.— Crazed with liquor, James Blake, aged 27, met Joseph Friend, aged 45, on the street and brutally assaulted him for no reason whatever, but simply because he was drunk, and did not know what he was doing. Magistrate Farrell fined Blake $15 and costs or two months in jail. Friend came here from Ottawa a few days ago, where he was discharged at St. Luke's Hospital after a serious illness. He was in a weak condition and came to Kingston for a rest. Friend was walking along the street and gave no offence to Blake whatever. He was beaten about the head, and had a narrow escape from receiving fatal injuries.

TO INSPECT I. C. R.

Ottawa, May 31.—Mr. A. W. Campbell, Deputy Minister of Railways, leaves at the end of the week on his annual tour of the Intercolonial Railway. He will be accompanied by the other members of the board of management. Previous to the trip an important meeting of the board will be held at Moncton.

MR. FIELDING'S PLANS.

Ottawa, May, 31.—The Hon. W. S. Fielding, who sails to-morrow for the Continent, expects to go straight through to Antwerp, where he will visit his son. He will probably avoid London altogether until after the Coronation festivities are over.

STARTS WESTERN LINE.

Edmonton, Alta., May 31.— Work of construction began to-day on the C N. R. Peace River line, 400 miles long, from Ononway, Sask., to Lac Ste. Anne.

VIRGINIAN REPORTED.

The Allan liner 'Virginian' was reported 297 miles east of Cape Race at 1 a.m. to-day, and is due at Quebec about noon on Friday, and Montreal on Saturday morning. She brings 69 saloon, 396 second, and 1,029 third class passengers.

FIRE CAUSES BIG LOSS.

New York, May 31.—Thirty car loads of grain, 1,000 bales of excelsior and 250 tons of hay fed the flames which licked up a six story brick building on West 138th street to-day. The building was occupied by Demarest and Carr, feed dealers. Thirty thousand bags of salt also were destroyed in the fire, which caused about $300,000 loss.

YUKON OFFICIAL RETIRES.

Ottawa, May 31.—It is officially announced to-day that Mr. Alex. Henderson, Commissioner of the Yukon, has been granted six months' leave of absence, after which he will retire. His successor will be Mr. Arthur F. Wilson, who is at present acting-commissioner.

THE PEOPLE AND THE 'WITNESS.'

FROM THE HARTHEY 'STAR.'

Since the Montreal 'Witness' has been the acknowledged champion of the people in all moral reforms and practical righteousness, it is felt that 'the people' ought to back the movement to double the circulation and aid the paper to continue its publication. The proprietors have informed their readers of their inability to continue unless their readers come to the rescue and assist them in this effort to stem the tide. The loss to Canada of this metropolitan and national daily paper which can ever be depended on to be true to its own editorial teaching, whatever the cost, can hardly be estimated and the questions arise, Shall the 'Witness' die? Shall the Christian community let it go down to defeat? Shall the cause of temperance and reform suffer this deadly blow? Shall the allied forces of evil triumph over the forces of righteousness? Surely we hear the voices of all wishers of righteousness say 'No.' It is the plain imperative duty of men and women who stand for Christianity, for temperance, for purity and social improvement to shoulder the burden and help their comrades who have borne the burden of the battle against evil so long and so heroically, and see that it is a case of up, up, double up, in the circulation of the 'Witness.'

PRESBYTERIANS AND THE 'WITNESS.'

The Brockville Presbyterial, which met in Spencerville in its twenty-sixth annual meeting on May 15 and 16, passed the following resolution:

'Resolved, that we as a society show our appreciation of the Montreal 'Witness' as a clean, wholesome, instructive and missionary paper, suitable for all the members of the family; by pledging ourselves personally to its support and by using our best efforts for the increase of its circulation.'

WEDNEDAY, MAY 31, 1911.

'Is it the sign of a new morality?' asks the correspondent of a London newspaper, 'that in the benediction which follows the crowning in the coronation service a curious change has been made?' This correspondent says that in the services for the last two coronations it ran: 'The Lord give you a fruitful country,' and ended with, 'an honest, industrious and obedient commonalty.' It appears that in the service put forth for King George's coronation the benediction is unchanged, except the last sentence, which now runs: 'an honest, peaceable and obedient commonalty.' The question is put: 'Do our leaders in Church and State consider "industry" an exploded virtue?' We do not suppose so, although the change is certainly a curious one. If the insertion of 'peaceable' was thought wise, it would surely have been better to have added it to the sentence rather than to have eliminated 'industrious.' If it be argued that peaceable people are usually industrious, and industrious people usually peaceable, then there was no reason at all for change. The wonder is that 'obedient' was not eliminated and 'loyal' or some word substituted, as in this age the King does not often call exactly for obedience; although his subjects are in theory subject to his commands. Even in the marriage service 'obey' is often left out, and when a woman subscribes to it, by word of mouth, she generally does so with a question as to whether it means anything more precise than 'with all my goods I thee 'endow.'

Ominous! Mr. William Norris Hughes, the acting prime minister of the Australian Commonwealth, has contributed an article to the Sydney 'Telegraph,' in which he declares that Australia will never agree, except at the sword's point, to admit Japanese immigrants, even should such refusal mean separation from the Mother Country. At the same time, Canadian 'Lord Harrys' are threatening to take up their muskets and to go out and shoot our neighbors rather than come to a better trade arrangement with them than the one which now exists; and there are those in England, whose home patriotism is parochial and 'of their pockets, and who understand nothing about the larger patriotism which is now the world's chief concern, who are doing their best to create strife and perpetuate ill-feelings not only as concerns Germany, but as concerns the United States as well. It is suggestive of the hard case of a mother with her neighbors, when her obstreperous brats are always breaking windows or pulling the hair of other boys and girls, and making ugly faces at older people. Fortunate, indeed, it is for Canada, and for Australia especially, that the Mother Country is strong and wise, and is able to take care not only of herself, but of her saucy children as well. Without the imperial flag Japan could swallow Australia to-morrow, if she wished, and that dominion is cultivating Japan's hatred. Her own hatred for the 'yellow monkeys,' as she politely calls the Japanese, is universal and openly expressed. Our jingoes, who denounce the United States, are, we believe, comparatively few, and try to make up in noise and abuse what they lack in numbers. Indeed, United States statesmen, and those who count as thoughtful people, are tolerant and amused at the antics of our Lord Harrys; and would count it absurd to think of such as them as cause for war.

Canada will heartily join in the congratulations sent by the King and the British Prime Minister on behalf of the Imperial Conference to Lord Gladstone, governor of South Africa, on the occasion of the first anniversary of United South Africa. The South African government was informed that the Imperial Conference shared the feelings of high hope and thanksgiving that animate South Africans today, and which find a hearty response in all parts of the empire. As the old chorus has it: 'So say all of us.' The South African union is indeed the greatest monument to magnanimity that the world has ever seen. When people were hung for stealing sheep, sheep were stolen, and many good people declared, and firmly believed that not a ewe or ram or lamb would remain unstolen if it were not for the hanging penalty. However, sheep-stealing is not a very prevalent crime to-day. Similarly, the good old hard-baked English Tories declared that the only way to keep South Africa after the war was to keep the Boers down, to take away their franchise privilege; that is to say, to keep alive the fires of resentment in every way possible. The Liberal government pursued an exactly opposite course, said to the South Africans, in effect, let us bury our sorrows and resentments for all time and forthwith act together as brothers and sisters of one common imperial family. We trust you! Then all the Tories groaned in unison with Lord Milner, and cursed such weakness, such stupidity, such folly, such pusillanimity, and declared as usual that the end of the empire was at hand. The end of it would certainly be very close at hand could they have their way. They have not ceased to accuse Canadians of all sorts of disloyalty, and in this have been abetted by renegade Canadians. For the Canadian who goes to England and proclaims that Canadians are plotting annexation, and can only be held to the empire by trade advantages, exhaustive to the mother country, are renegades and traducers of their country. Let all true imperialists rejoice that those are not in control in either country, and that Canadian loyalty is too strong to be alienated by irresponsible and interested slander.

Because an obscure, subsidized, tariff 'reform' sheet in London discusses Sir Wilfrid Laurier in the way an untipped barber is supposed to berate behind his back one whose face he has cut, our anti-reciprocity scribes declare that his popularity with Englishmen has waned, that he is getting the cold shoulder, that he does not know enough to explain the reciprocity agreement to sheals of adverse critics in Britain, and that he has therefore had to send out a hurry call to Mr. Fielding to come over and help him. The fact is, of course, that the large majority of the statesmen of Great Britain are heartily in favor of the reciprocity agreement and have so declared in no uncertain terms, and those who are not are the Little England, so-called tariff 'reform,' people, with whom Sir Wilfrid has little or nothing in common and whose illfeeling and ill-manners would rather cause him to smile than to depress him. Yet it is to act as reciprocity missionary to these that we are told Mr. Fielding is now leaving his former happy hunting grounds in, as we are let to gather, a state of ruction and riot. Mr. Fielding being in England to explain what Sir Wilfrid has not the sense to explain, Sir Wilfrid is, we are told, to rush back here and engage in a whirlwind campaign in Quebec and Ontario, where his chief campaign material must be the same reciprocity agreement which he knows too little about to explain to Englishmen. That Mr. Fielding is going to London to consult specialists about his nervous facial trouble is of course too natural and straightforward for these traducers, who try to reverse the methods of the mediaeval alchemists, and, instead of seeking to produce gold from base metals, do their best or worst to resolve gold into base metals. And people read such stuff, and perhaps there are some who even believe in it and other imaginative nonsense.

STREET NAMES.

People entrusted with giving new names to streets have an almost sacred task laid upon them, for names are monuments — monuments that should be respected more than they are. The English are very tenacious of old names and some very quaint names survive in almost all old English cities, indicative of their persistence through centuries of change. The opposite tendency prevails in Paris where there has been a revolution in every generation and where the names of important streets are as often changed. The love of change is very strong in Montreal, and it has at times only taken the collusion of a few aldermen to remove ancestral land marks which had become graven deep in the lives of men and women and in family histories. We do not think any good was gained by the wiping out of the name of St. Bonaventure street, quaint and fetching to the tourist landing on it, and replacing it with St. James. That was done along with a great number of like changes with the object of giving a continuous line of thoroughfare a continuous name. No good came of it that we know of. When the names St. Mary, St. Joseph and Bonaventure were in use people knew, when they heard them, what part of the city was referred to. When we now recall historical events, lo, the very land marks are gone. When the names Notre Dame and St. James came to represent many miles of street those names ceased to be in themselves any guide to where a place was to be found. The renaming now going on has much better cause. It is indeed reasonable and necessary. There are surely names enough to be had not to have more than one street in a city of one name. There are surely enough of dignified names to make such contemptible imitations as Fifth avenue unnecessary.

We do not know what principle has guided the committee, whether they sounded in any way the mind of the locality—indeed it is difficult to see how they could—or whether they worked out of their own unfettered imagination. Whichever may be the case they will, of course, be abundantly criticised. In giving names with two or three words in them they have evidently allowed their desire for monuments to supplant convenience. Frechette is surely a distinctive enough name without Louis H. Just look at the banality of that initial! If anywhere, a two word name might have been allowed in the case of King George. Yet, though we have a dozen such for persons of very minor note, the fact that there were a number of George streets has been the committee's excuse for calling no street after the King. In giving many names unpronounceable by English speakers, they have condemned those monumental names to perpetual and preposterous mispronunciation. But that is possibly the case both ways. Where the names have a pronounced sectional quality they are in the worst of taste. Some of the changes are unaccountable on any score but sectionalism, as where a very long and populous street, inhabited as much by English as by French has its name changed from Huntly to St. Valier. What sentiment induced the selection of Paul Kruger may perhaps best be left unasked. It does not run through any Dutch colony, whose hero Kruger might be. Kruger was certainly a fine picturesque character and a very devout Calvinist. He mercilessly suppressed the French language in his dominions. Is it for that he is to be immortalized or is it for being the impersonation of hatred of the imperial connection?

SUGGESTED AMENDMENTS

Canadian Government Interested in Senator Lodge's Reciprocity Changes

Ottawa, May 31. — The Government is not particularly alarmed over the amendment which Senator Root proposes to have inserted in the reciprocity agreement, but is more concerned about the proposals of Senator Lodge. Senator Root proposes to make free trade in pulp and paper conditional upon the removal of all restrictions by the various Canadian provinces. It is not likely that this amendment would be seriously rejected by Canada, because the only provinces now imposing restrictions are Quebec, Ontario and New Brunswick. The agreement would allow free importation from all parts of the Dominion, but the three provinces mentioned are the only ones which export extensively.

Senator Lodge's proposal to make free fish conditional upon the abolition of fishing bounties in Canada would be a very serious matter. The payment of bounties, which now amount to $180,000 per annum, have become a settled policy, and it is doubtful if a proposal to remove them would be considered by the government.

LIFE FOR A HAT.

Albert Johnson, who was injured on one of the government dredges at Maisonneuve yesterday, died in the General Hospital this morning. The body was taken to the morgue, where an inquest will be held.

It is said that Johnson dropped his hat into the machinery, which was at a standstill, and went to get it. While there the engines were started and he was crushed.

DRANK RAW ALCOHOL.

It developed this morning that the cause of the death of Louis Davies, who died at Delormier Park yesterday, was poisoning due to drinking 'green' or raw alcohol which had been kept in the stable for the purpose of rubbing the horses' legs. The case was disposed of by the coroner.

THE MACKAY INSTITUTION

Annual Examinations Show Remarkable Training of Child Inmates

BLIND AND DEAF-MUTE.

Conversations Between Deaf and Blind Children, and Other Interesting Features.

The annual examinations, or, as they might more fittingly be termed from the nature of the display given, the annual exhibitions in connection with the Mackay Institution for Protestant Deaf Mutes and the Blind, which took place yesterday afternoon, at the headquarters, Decarie avenue, Notre Dame de Grace.

The institution, which was originally started on Sherbrooke street, in 1870, and subsequently transferred to Dacarie avenue, is situated in a most charming and healthy district, and the bright, happy, healthy and intelligent appearance of the children showed that everything possible is being done to minimize the effects of their afflictions and help them to become useful citizens.

The officers and instructors are under the superintendency of Mrs. Harriet E. Ashcroft, a lady who has been 32 years connected with the institution, having joined the staff as articulation teacher during the time the late Mr. Thomas Widd was principal. Mrs. Ashcroft is assisted in the discharge of her duties by the following staff: Teachers of the deaf and blind, of articulation and of defective speech, Miss Geraldine D. Daly, Miss Pauline Saunderson, Miss Ida McLeod, Miss Elizabeth Booth, Miss Grace Snowdon and Miss Jessie Fraser.

Teacher of music, Miss Catherine H. Smith.

Teacher of drawing, Miss Geraldine D. Daly.

Teacher of elocution, Miss Grace Snowdon.

Teacher of sewing and girls' supervisor, Miss May Cunningham.

Teacher of shoe-making, Mr. Gordon Stamforth.

Teacher of carpentry and cabinet making and assistant boys' supervisor, Mr. Charles Kemp.

Supervisor of boys, Mr. Gordon Standiforth.

Engineer, Mr. John W. Bennett.

Housekeeper, Mrs. Kinnow.

The institution is under the patronage of His Excellency Earl Grey, Governor-General of Canada; Her Excellency the Countess Grey, the Right Hon. Lord Strathcona and Mount Royal, Lady Strathcona and Mount Royal, the Earl and Countess of Aberdeen, the Earl of Derby, G.C.B.; H.R.H. the Princess Louise, the Marquis of Lansdowne, etc. Mr. David Morrice occupies the position of president, the vice-presidents are the Hon. Robert Mackay, Mr. Abner Kingman and Mr. J. C. Holden. The directresses are: Mrs. F. Wolferstan Thomas, Mrs. Robert Mackay and Mrs. C. I. Root, and the honorary physicians are Dr. F. A. L. Loekhart, Dr. H. M. Church, Dr. C. H. Church, Dr. F. G. Finley, Dr. H. S. Birkett, laryngologist; Dr. W. G. M. Byers, aculist; Dr. J. M. Jack, dermatologist, and Drs. J. G., H. J. S., and F. C. Nichol, dentists.

Secretary-treasurer, Mr. George Durnford.

At present there are 78 children on the roll, the proportion of male and female being about equal; of these, 13 are blind, 17 are suffering from defective speech, and 49 are deaf and dumb. The blind children are the constant companions of the defective speech children, and are very devoted to them, and Mrs. Ashcroft stated that the lady who wrote to a Montreal daily paper a short time ago stating that nothing was being done for the education of the little blind Protestant children of Montreal was entirely in error, a fact which was clearly demonstrated to the large and interested audience by the pupils in their exhibition. The blind children, as well as those suffering from other afflictions are being educated and taught at the Mackay institution, as far as the means and opportunities allow, those things which will give them an opportunity of earning their livelihood, and one of the blind boys, who has been educated and trained at the institution is now an associate of the Montreal College of Music, having passed the examinations.

Two of the blind girls are ready to become governesses.

Another blind boy, who comes from British Columbia, expects to pass the junior examinations at the Conservatorium of Music next week, and one of the senior boys is going to leave soon to try and earn his living by music.

The superintendent stated that they never had found it necessary to turn away an applicant for admission to the institution, and they never had a failure with defective speech children.

The children, who could hear perfectly, but who could not speak until they were brought under the influence of the teaching methods carried out at the Institution, had made wonderful progress, the many examples given during the examinations clearly showing the reliability and effectiveness of the work done.

In the absence of the President, Mr. D. Morrice, through illness, the Hon. Robert Mackay officiated as chairman, and the examinations were conducted by the Rev. J. M. Almond, the Rev. A. A. Radley, the Rev. John Lochhead M.A., assisted by Mrs. Ashcroft, the superintendent, and the teachers.

The examinations were divided into two parts, the deaf department and the blind. The former included Kindergarten, Articulation, Lip-reading Defective Speech, Arithmetic, Scripture, Geography, History, Drawing. Miss Booth, in this part of the programme, sang very sweetly 'Annie Laurie,' an dalso the sacred solo, 'I heard the voice of Jesus say.' The latter was exceedingly touching as five of the deaf and dumb girls accompanied Miss Booth in sign recitation and many of the audience were visibly affected.

In the blind department examples of kindergarten, sewing, knitting, chair-caning, typewriting, recitations, music, spelling, reading, writing, (square, Braille), (New York point), grammar, geography, Scripture and conversations between deaf and blind were given by the pupils, the applause that greeted the various items showing that the work of the teaching staff was appreciated by the audience, and that the efforts of the pupils were pleasing and satisfactory. The recitation by a blind boy 'I and I can do a lot to keep this old world straight,' the duet, 'The milkmaid,' between a blind girl and boy, and the dialogue between two blind girls, as well as many interesting examples, plainly showed that the teaching given is of the highest standard, and the bright sunny faces of the children, the manner in which they responded to the question and requests of their superintendent and teachers, the way in which they seemed to cling to and depend on them showed that love and sympathy had been the predominating features in the teaching and training of the children.

Mr. C. W. Lindsay gave a very interesting address. Referring to the fact that there was only three blind Protestant children to every 20,000 of the population of the province, he said he did not think that it was necessary to have another school for the blind in this province, when the number was so small, and when the Mackay Institution was quite able to look after them all. This view was endorsed by Senator Mackay and the clergymen present, and it was also their opinion that some of the money collected lately for the blind should be given to the Mackay Institution to help to carry out the work that is being done there

FIRE AVERAGE GOES UP

Two More Outbreaks Per Day this Year Than Last

CAUSED BY IGNORANCE AND NEGLECT.

So Far There Have Been 300 More Calls Than at This Time Last Year.

Instead of calmly holding its position as the city which has more fires for its size than any other in the world, Montreal is going ahead, and so far this year there have been an average of eight calls per day, where last year there were six.

From the present outlook it looks as though Montreal, with its 500,000 population, would have more fires this year than the city of London, England, with its seven or eight million,' said Chief Tremblay this afternoon.

Already this year the Montreal firemen have answered 1150 calls, 300 more than at this time last year. Last year London had in all 3,208 fires, and Montreal 2,242.

The chief cause of the plethora of fires here is ignorance and carelessness. Ignorance of the properties of combustibles leads to many fires, and to negligence is ascribed many more.

'So far there have been more fires in Montreal than Toronto averages in a whole year,' said the chief. 'Notwithstanding the increase of fires our facilities for fighting them are the same as last year.

The chief has a report to hand from Buffalo, which shows that they have 624 firemen against Montreal's 424. Last year they had 1,866 fires in comparison with 2,242 here. The upkeep of their fire department cost $895,000, and that of Montreal $442,000.

BATTLE WITH BURGLARS

Bank Robbers Chased by Police Return Fire.

The Eastern Townships Bank in Danville was broken into at three o'clock this morning by a party or burglars, three of whom were seen. Two bank clerks named Thorpe and Greenshields, who were on guard in the building, fired on the men, who returned the fire and retreated. As far as is known no one was injured. Chief McCaskill's men are working on the case.

Two weeks ago the chief received information that there were 'yeggmen' in the district, and warned Mr. John Knight, secretary of the Canadian Bankers' Association, with the result that when the visitors arrived the two clerks were waiting for them. Twelve years ago an unsuccessful attempt was made on the same bank in the winter.

NE TEMERE DECREE

Strongly Criticised by Rev Dr. Carman—Laudo Peace Pact.

Stratford, Ont., May 31 — Dr. Carman, the general superintendent, handled the Ne Temere decree this morning at the London Methodist Conference without gloves. 'We have only one voice for that. We shut our teeth on it, and with eyes wide open say to the Pope at Rome: 'Not under the British flag.' We are prepared to say to the venerable Pontiff that he has no authority to enter and break up a properly legalized marriage. I hold that a marriage by a Methodist minister is as valid as if performed by the Pope himself.'

Touching church union, Dr. Carman declared the proper way to take a vote was for every man to stand up and say, yes, or no. He decried 'troop voting.' The peace pact of Great Britain, the United States and France he described as a glorious triumph of human civilization.

Apart from Dr. Carman's adress this morning the session was largely routine and purely ministerial.

IMPERIAL CONFERENCE.

Colonies Admitted to Full Knowledge of Imperial Affairs.

(Canadian Associated Press.)

London, May 31 — Mr. Andrew Fisher, Premier of Australia, expresses thorough appreciation of the British government's step in admitting members of the Imperial Conference into full confidence in Imperial foreign matters.

Mr. Haldane says they will come to a common conclusion with the government on problems recently difficult and obscure.

FUNERAL OF MRS. F. CLIFFORD SMITH.

The funeral of Mrs. Smith, wife of Mr. Frank Clifford Smith, took place yesterday afternoon on the arrival of the New York Central train from Chateauguay shortly after two o'clock.

The Rev. G. H. Maclennan conducted the service at the home, and with the relatives of the deceased accompanied the body to the cemetery, where interment was made in Mount Royal cemetery. Many floral remembrances were received by the family from friends in the city, many of whom attended the funeral.

Among those present at the station were: His Worship Mayor Guerin, Ald. Leslie H. Boyd, Ald. U. H. Dandurand, Ald. S. J. Carter, Messrs. Rene Bauset, assistant city clerk; Jack Guerin, secretary to the Mayor; J. P. Mullarkey, A. S. Lesage, Lacroix, C. Lamoureux, F. G. Robinson, W. Moore, C. Gordonsmith, R. MacLaughlin, F. Forston, Robt. Irwin, T. J. Potter, W. E. Phillips, George Janin, Frank Dowd, Cook and Knox

Representatives of the staffs of the city newspapers also attended the funeral.

LIBERAL RALLY IN ROCKLAND

Members of Cabinet Deliver Addresses on Government Policy.

RECIPROCITY DISCUSSED

The Hon. Charles Murphy and the Hon. Rodolphe Lemieux Chief Speakers.

Rockland, Ont., May 31.—The Hon. Chas. Murphy, secretary of state, addressed a meeting of his supporters here last night. The chair was occupied by Dr. Desrosiers, mayor of Rockland. He explained briefly that the audience would have an opportunity to hear the questions of the day discussed in an intelligent manner by two members of the Government and one or two others. He then introduced Hon. Charles Murphy.

Mr. Murphy, on rising, was greeted with cheers. He declared that the meeting was called primarily to hear Hon. Rodolphe Lemieux and Mr. Joseph Demers speak. He said that he would not make any lengthy address as he preferred to give all the time possible to the speakers of the evening. He was, however, loath to leave the floor without making reference to the reciprocity treaty. He declared that he wished to remove misconception regarding the proposed trade agreement. In spite of assertions to the contrary made by the Opposition, the proposed agreement did not make a radical change in the trade policy of the country. He referred to a similar treaty with the United States in force fifty years ago, namely, the Elgin treaty, which lasted from 1854 to 1866. This treaty had been of measurable benefit to the people of the county of Russell, by fostering and encouraging its industries. He declared also that the present agreement was identical with one which the Conservatives had endeavored to bring about with the United States in the early 90's, but which they had ignominously failed to negotiate. He felt that the four chief industries of the country, namely, cheese, hay, cattle and lumber, would be immensely benefitted by the passage of the present agreement, and he appealed to the electors of the country to support the efforts of the Government in obtaining reciprocity.

Mr. Murphy referred to the famous letter signed by eighteen alleged Toronto Liberals opposing the proposed agreement. He did not believe that the signers of the letter were true Liberals, and declared that one or two at least, including Mr. Flavelle, head of the pork packing industry, were actuated by personal motives.

He declared that the agreement was essentially a workingman's agreement. All articles of food and other necessities of life which had hitherto been under a heavy duty, would in future be admitted, if not free at a greatly reduced tariff. The aim of the Government was to benefit the great majority, even if the minority did suffer to some extent.

DISCUSSED NAVY POLICY.

Mr. Murphy was followed by Mr. Demers, who was given a cordial greeting.

He devoted much of his speech to a eulogy of Sir Wilfrid Laurier and his work in the upbuilding of Canada and the unification of the races. He touched upon the opposition which he is now meeting in certain quarters of the province of Quebec and uttered a warning to his audience that the movement was merely the result of jealousy, was ill-advised, and if carried into effect must surely end in eventual and inevitable confusion and disaster. He dwelt eloquently upon the extraordinary loyalty to the Crown of French Canadians, and in referring to the navy question pointed out that the policy of Sir Wilfrid Laurier was a wise and statesmanlike one, and in accordance with the views and wishes of the great majority of the people of Canada, regardless of politics and nationality. Great Britain had for many years contributed her navy and money for the protection of Canada, and it would be humiliating to every right-thinking Canadian if Canada refused to contribute to the support of the Mother Country by upbuilding a navy of her own.

Mr. Lemieux was the next speaker, beginning his remarks with a reference to the Imperial Conference now meeting in London, and the work accomplished by the Liberal Government during the years it had been in power. He next spoke on the reciprocity negotiations, giving a brief historical sketch of previous endeavors to secure better trade relations, and in closing claimed that the farmer would in every way be a gainer by the larger market opened to him.

Whether you want delivery made now or later in the year, if you have not already made application your order must be mailed to-day.

The original aim of the Concession, which expires to-day, was to induce subscribers to order quickly and thus afford the publishers the information necessary to standardize the production of the work in the two formats.

The reader is still permitted to profit by this concession even though he may not want to accept delivery until later in the year, because if he makes application to-day, his order will be executed as part of an unbroken series of manufacturing operations.

His volumes will be held subject to his direction in such a case, nor need his payments begin until he actually receives them; but to profit by this concession his order must be mailed to-day.

31 NEW DOCTORS

Holmes Gold Medal Won by W. O. G. Gliddon, of Ottawa

The fourth year graduating medical list of McGill shows a total of thirty-one passed out of a class of thirty-five. These results mark the last independent year of the fourth year course, and in future all students must follow the five-year course. Last year seventy-eight graduated, and the diminution is due to the new five-year system.

First place in the form of the Holmes gold medal, which marks the highest aggregate honors for the four-year course, is awarded to W. O. Gliddon, B.A., of Ottawa.

E. H. Falconer, Prentice, Wisconsin, wins the final year prize, the highest aggregate marks in the 4th year. The Wood gold medal, given for the best examination in all the clinical subjects, was won by H. J. G. Geggie, Beauport, Que. The Woodruff gold medal, for the special examination in ophthalmology and otolaryngology, goes to W. A. G. Bauld, B.A., Halifax. H. G. J. Geggie also wins the McGill Medical Society Senior prize.

RAILWAY IS FINED

Commissioners Take Firm Stand With Yukon Company.

Ottawa, May 31.—The Yukon and White Pass Railway Company has got another jolt from the Railway Commission. Some months ago, upon complaints prosecuted by F. T. Congdon, M.P., it was ordered to reduce its rates about one-third. It was given till the 1st of June to file its new tariff, making provision for such reductions. Meanwhile the company appealed to the Governor-in-Council, but the appeal did not operate as a stay of proceedings. Recently it applied for an extension of time from June 1 to November 25 for filing the rates in accordance with the board's ruling. This has been refused, and, moreover, the company will be fined $100 a day for every day it is in default after June 1, the date it was originally told to toe the mark.

VERDICT OF MURDER.

Jury Blames Prisoner in Toronto Tragedy.

Toronto, May 31. — 'We find that James Lougheed came to his death on May 29, 1911, as the result of shots fired from a revolver by Joseph Jessimane, and that Joseph Jessimane did murder the said Lougheeed.'

This is the verdict at the inquest conducted yesterday afternoon by Chief Coroner A. J. Johnson. The evidence that Jessimane did the shooting was unanimous, six eye-witnesses identifying him positively as the man, in addition to the ante-mortem statement of the murdered man, which was read by Detective Cronin.

'He got off his bicycle and came across the road and said:

'"Are you going to ruin my house?" and started to shoot. I was carrying a ladder. I dropped the ladder and started to run. He ran after me, shooting four or five times. I do not know what made him do it. We were always the best of friends. Joseph Jessimane did the shooting.'

The murdered man made this statement on Monday morning and feebly attached his signature to it.

WESTERN BAPTISTS MEET.

Windsor, Ont., May 31.—Delegates, lay and clerical, to the number of about 75, were in attendance yesterday when the 74th annual meeting of the Western Association of Baptist Churches was called to order in Bruce Avenue Baptist Church by the Moderator, Magistrate Houston, of Chatham. The morning session was devoted to routine business, and in the afternoon the delegates listened to the moderator's address, which followed the address of welcome delivered by Dr. J. W. Brien. Reports from the secretaries of the various church organizations took up the remainder of the afternoon.

GERMANY AND PEACE

Kaiser's Government Much Interested in Arbitration Treaty

Berlin, May 31.— The 'Norddeutsche Allegemeine Zeitung' leads off its issue of yesterday with an announcement of the steps Germany has taken toward arbitration.

'After the United States indicated to Germany her readiness to negotiate a broader arbitration treaty with the other powers as well as England, the newspaper says, 'Germany expressed a wish to see the draft of the arbitration proposal, and also indicated her readiness to take up the study of the proposition. The draft of the treaty will arrive here within a short time.'

To the above statement can be added the semi-official expression of opinion that Germany, like Great Britain and France, is most sympathetic toward President Taft's arbitration proposal. Leading newspapers like the Frankfort 'Zeitung' welcome the news of the suggested arbitration treaty, though finding that the project is open to improvement on some important points.

TROLLEY CARS COLLIDE.

One Dead and Number Injured in Crash.

New Haven, Conn., May 31.—On a level stretch of track and in the middle of a straightaway run of nearly a mile, two trolley cars going from this city to Derby, were in a rear-end collision near Race Brook station, in Orange, late yesterday afternoon. John Malone, of Orange, was killed, and an unknown young man is dying and several were seriously injured. The dying man is about 20 years old. His skull is fractured.

George Damison, of Ansonia, had both hips dislocated and his right leg broken, and eight others were seriously injured.

The cars were running close together owing to heavy traffic all day between the two cities. The forward car had stopped to let off a passenger, when the following car, with only two passengers, crashed into it. The ends of both cars crumbled up, pinning the passengers in the forward car under the debris. James Malone was with his wife on the rear seat of the leading car. He was fearfully crushed, but singularly Mrs. Malone was scarcely injured. Robert Grannis the motorman of the second car, was placed under arrest and brought to this city. He refused to make a statement.

GROCER ASSIGNS.

Mr. H. Bergeron, grocer, of Montreal, yesterday made an assignment of his business for the benefit of his creditors on demand of J. C. E. Trudeau, accountant. No bilan has been as yet filed but the failure is a small affair. Mr. Trudeau has been appointed provisional guardian.

CHURCH ASSOCIATION

Rev. Dr. Sparling and Senator Dandurand Elected Officers of New Council.

Toronto, May 31. — A Canadian branch of the Associated Councils of Churches in the British and German Empires, for fostering friendly relations between the two peoples, is in process of organization. Sir William Mulock, the Ven. Archdeacon Cody and Mr. Robert F. Gourlay, Toronto, and Senator Dandurand and the Rev. Dr. William Sparling, of Montreal, have consented to be appointed vice-presidents of the Canadian branch. This announcement was made last night by Mr. J. Allen Baker, member of the Imperial Parliament for East Finsbury, England, just before his departure for Washington from this city. Mr. Baker will have an interview with President Taft on certain aspects of the peace movement, after which he will return to England in time to attend the coronation.

The Associated Councils of Churches in the British and German Empires had its inception at a meeting in Albert Hall, London, on June 1, 1908, when a resolution, moved by the Bishop of London, and seconded by the Rev. Dr. Clifford, was adopted, providing for the organization of such a body.

FIVE DEAD IN HOTEL FIRE.

Several Blocks Are Wiped Out at Silverton, B.C.

Vancouver, B.C., May 31.—A special from Nelson, B.C., says: 'A disastrous fire occurred at Silverton early yesterday morning, totally destroying a number of blocks, including the Victoria Hotel, Mrs. Carris's grocery and W. H. Brandon's store building, occupied by E. Patrequin and family.

Robert McTaggart, of Sandon; Robert Fairgrieve, F. L. Fairgrieve, the bartender at the Windsor, and a resident of Phoenix, name unknown, were burned to death in the Windsor.

The hotel register being burned, the names are not yet obtainable, and possibly others are also in the ruins. Several persons staying at the Windsor were badly burned, and some of the injured have been brought to the hospital here. The hotels were crowded with guests, and the Selkirk House was saved only by heroic work of guests and townspeople.

The fire originated in the Windsor Hotel from an unknown cause, and spread so rapidly that few of the guests secured even clothing to cover them. The property loss will exceed $25,000; insurance, $6,800.

RELIC OF BARBARISM.

Russian Official Issues Challenge for Duel.

St. Petersburg, May 31.—General Kleighels, former governor-general of Kiev, has challenged Alexander Stolypin, a leading political writer of the 'Novoe Vremya,' and brother of the premier, to a duel on account of an article which appeared in that paper with reference to the trial of Col. von Liarliarski, founder of the North-eastern Siberian Company, who is charged with conjunction with his step-son, with having forged a will, whereby they would become legatees to the estates of Prince Oginsky.

The article in question satirized General Kleighels for taking advantage of an antiquated law permitting high functionaries, who are subpoenaed as witnesses, to be heard at home. The entire court of assizes, the jury, nineteen persons implicated in the case and 25 lawyers, altogether more than a hundred persons, were therefore forced to make the journey to Kleighels' suburban villa.

The Kleighels' episode attracted wide attention in society, particularly as other witnesses of high rank, Senator Maximovich, Baron Budberg, who is head of the Emperor's private chancellery, and Prince Peter Sviatopolk-Mirsky, former minister of the interior, declined to follow the example set by General Kleighels. Senator Maximovich left a sick bed to appear in open court.

FELL AND BROKE RIBS.

Albert Johnson, aged 21, of 1293 Notre Dame street east, fell eight feet while working on a dredge at Maisonneuve yesterday. He was taken to the General Hospital, where it was found that some ribs had been broken, and that he had sustained internal injuries.

NOT CITY'S WORK

Reply to Licensed Victuallers' Attack on Early Closing.

A reply has been put in by the City Attorneys to the action entered by Mr. L. A. Wilson, president of the Licensed Victuallers, to test the constitutionality of the new early closing law. In this connection the city was named a party defendant, but the city attorneys declare that since the law was made by the provincial Legislature they have no standing in the matter, and simply have to obey and enforce the statute.

RUN DOWN BY CAR.

Little James Joyce, aged 7, son of Mr. James Joyce, 42 Boucher Street, tried to cross in front of a moving street car at St Denis and Boucher streets at 7.40 last night, and sustained serious injuries. He was taken to the Royal Victoria Hospital, where it is said he may recover.

MINISTERS UNDERPAID

Methodist District Conference Adopts Resolution Regarding Stipends

Toronto, May 31. — That the Methodist ministers throughout the Toronto Conference are considerably underpaid, in view of the increased cost of living, and the financial demands on the clergymen was the unanimous expression in the form of a resolution introduced by Mr. J. W. Flavelle at the annual meeting of the Toronto East District in the Carlton street church yesterday. The matter will be recommended to the coming Toronto Conference. No salary schedule was introduced yesterday, nor was any stated increase decided upon. This will be settled at the Conference.

Resolutions condemning the Ne Temere decree and rack track gambling were also unanimously endorsed.

The financial statements and membership returns from the various churches were read and though there is a slight decrease in membership due to the movement of population to the north, the finances were shown to be in a healthy condition.

JUMPED OUT WINDOW.

Montrealer Fatally Injured at Toronto Hospital.

Toronto, May 31. — Suffering from typhoid fever and delirium, Miss Ellen Hunter, whose home is in Montreal, jumped from a window of St. Michael's Hospital yesterday and died shortly afterwards as a result. An inquest was opened late yesterday by Coroner George W. Graham and was adjourned until to-day.

ARCHBISHOP OFF TO MADRID.

His Grace Archbishop Bruchesi, accompanied by the Rev. Canon Sylvestre, will embark on the 'Empress of Ireland' at Quebec next Friday, en route for the international Eucharistic Congress, which takes place in Madrid in the week of the 25th of the coming month. His Grace will reach his destination via Liverpool, London and Paris. After having assisted at the ceremonies held in connection with the congress he will pay a visit to Rome, and will return to Canada towards the latter part of July.

Better Than a Tonic

At this season of the year, after a strenuous winter the human system requires the most nourishing, body-building food.

Food that will build bone, muscle and brain tissue, and replenish the run-down nerve cells of the body.

Whole wheat is man's most perfect food.

SHREDDED WHEAT

Biscuit is the whole wheat, steam-cooked, shredded and baked. Nothing added—nothing taken away. Each delicate, porous shred full of strength-building nutriment, and easily digested by the most delicate stomach.

Its very crispness compels thorough mastication, the first process in digestion.

Try two Shredded Wheat Biscuits for breakfast with milk or cream. Always heat biscuit in oven to restore crispness before serving.

Of Interest to Women.

The 'Witness' Daily Fashion Hint.

QUEEN MARY AS MILLINER.

Queen Mary is an excellent needlewoman. With her own hands she will sometimes correct what displeases her in a new gown or a hat.

The London 'Daily Sketch' tells the story that recently a milliner sent to Buckingham Palace a hat for Princess Mary with high up-standing bows, which Her Majesty regarded as a style 'too old' for her daughter. Her Majesty forthwith asked for her work-basket, and remodelled the hat in the stylish simple style suitable to Princess Mary's age.

Knitting is one of the Queen's favorite pastimes. She knits silk stockings and ladies' shoes for gifts to her favored friends. A brocaded satin bag, tied with ribbon bows, containing the Queen's work, is brought to the drawing room each evening after dinner and slung on the back of her chair in readiness for her attention.

PRINCESS TO WED PASTOR.

Announcement comes that Princess Barbara Reuss, daughter of Prince Henry XXV. Reuss, is to marry Count Siegfried von Luttichau, a pastor, who is attached to the Diplomatic Service as chaplain of the German Embassy at Constantinople. The announcement of the betrothal has caused much interest, as the marriage of a clergyman with a Princess belonging to a ruling German house is quite without precedent. The pastor-diplomat is thirty-three years old, and his fiancee twenty-three. Princess Barbara Reuss is a cousin of Queen Eleanor of Bulgaria.

AVOID EXCESSIVE TAN.

It would be a good plan for the summer girl to start in at once with her mind made up to do something in the way of protecting her face and hands from overmuch exposure to the sun. Nobody minds a coat of tan, but sunburn is a different matter. Prolonged exposure to the sun's rays is very liable to make the skin coarser, and possibly withered-looking. There are two ways of protecting the face; one is to rub cold cream into the skin and dust it over with a pure, bland talcum powder, which, if properly applied, will not 'show,' and the other is to shade the face, either by a large hat, or by a parasol. The parasol has the advantage of leaving the hair uncovered for the air to circulate through the tresses, but, of course, there are times when it would be inconvenient to carry one, and then a large, light hat suffices. Another reason for protecting the head from the sun is for the benefit of the hair. A certain amount of sunlight is excellent for the scalp, but too much is not good. Continued hot sunshine makes dark hair streaky, and fair hair bleached and straw like.

Loose washable gloves can often be worn without inconvenience to protect the hands and arms, which should be 'prepared' like the face, with cold cream and powder, when their owner is going on a long tramp, or to play golf or tennis. For ordinary walks, the parasol can be managed to protect the arms as well as the face. White linen parasols lined with a color are popular for summer resort use.

FOR PARIS WORK GIRLS.

An item from Paris says that the shop girls, whose small wages do not permit them to lunch in even cheap restaurants, will no longer be able to use the Tuileries garden as a place for eating the food they bring from home, for the reason that they have been accustomed to leave little things behind them, such as paper bags, on the paths.

The committee which looks after the beauty of the parks has forbidden the girls to eat their frugal repast in the garden. Happily a municipal councillor has come to the rescue, and has started an interesting scheme which will enable them to eat their lunch eon in the open air as heretofore.

In those squares frequented by the work girls free refectories are to be established. Here they can bring their food. They will find tables, benches, and even stoves. The cost of keeping up these open-air refectories will mean a penny a day for each girl. The city of Paris will pay half; the other half will be borne by the employers of the girls and by charitable institutions.

WHITE FROCKS OR COLORED.

Are colored or white wash dresses the more expensive is a much debated question. White may soil the more easily, but when the problem of laundering and cleaning has to be faced, then white is the best to choose, if there is any uncertainty as to how the colored materials will look after they are cleaned or laundered.

Pongee, foulard and all thin silk materials are really less expensive than linen in the end on this account, for if once or twice cleaned during the summer they will look smart and in order. The thinnest of linings are sufficient, and often no lining is required, and the wash silks really do wash, so that if some simple model is chosen the gown can easily be washed, just as a linen or cotton would be. The present styles of straight skirts trimmed with bands of lace or embroidery are not difficult to launder.

The plain pongee and India silks are very cool fabrics. In dark colors for travelling or hard wear they are unrivalled from the practical point of view. A lace yoke and cuffs are all the trimming necessary, and such a gown can be either cleaned or laundered with little difficulty.

SUMMER HAT AND BLOUSE.

A chic summer chiffon hat trimmed with small coral silk rose buds and a marquisette blouse trimmed with bands of coral satin and finished at the elbow with small coral pom-poms makes a very attractive attire for afternoon wear.

THE QUEEN'S CROWN.

London, May 31. — Queen Mary's crown for the Coronation has just been completed. It is according to her own design, with an elegant lacelike tracery wholly in diamonds, the Koh-i-noor being set in the centre. The crown weighs 19 ounces. The Queen having insisted that it should not exceed the weight of an ordinary hat. It will be used only at the Coronation. After that ceremony the gems will be dismounted and used in separate articles of jewellery.

The King will wear his father's crown.

FOR WOMEN'S HOSPITAL.

London, May 31.— The Lady Mayoress is arranging a unique exhibition of city plate at the Mansion House for June 7. The city companies and churches are making valuable contributions of rare plate seldom seen, including pieces from the times of Edward VI., James I., and Charles I. The proceeds will be devoted to the Women's Hospital, of which the Queen is patron.

A DAILY COOKERY RECIPE.

Sardines on Toast. — This may be served for the family luncheon, or for a chafing-dish supper. Turn out a small box of sardines, free them from bones, and separate with a fork into small pieces. Melt four tablespoonfuls of butter, add one-third of a cupful of soft, stale bread crumbs and stir until well blended; then add one cupful of rich milk. Bring to the boiling point and add two hard-boiled eggs finely chopped and the sardines. Season with salt, pepper and paprika. Serve hot on pieces of buttered toast and garnish with parsley.

LAURA SECORD AND HER COW.

LAURA SECO RD STATUETTE.

Canadians in London visiting the Royal Academy this summer will be interested in a clever bronze statuette, among other pieces of statuary, in the Lecture Room. It is exhibited by Vernon March, a young English sculptor, who has been represented at the Academy, with the exception of one year, since he was fifteen, and who has been making a specialty of studies of famous figures in Canadian history. This statuette, of which the photograph is reproduced, shows Laura Secord driving the cow past the enemy's sentinels while on her way to give information to the British of the approaching attack.

Students of Canadian history are familiar with the story of Laura Secord's brave part in the British—American struggle on the Niagara frontier in the war of 1812, and will recall that in order to keep the American sentries from becoming suspicious of her movements, she pretended to be going to milk her cow, but cleverly managed to keep the animal restless and moving until she was in the edge of the woods, under cover of which she struck off to warn Col. Fitzgibbon at Beaver Dam of the American plans for attack, which had come to her knowledge.

THE 'WITNESS' DAILY PATTERN.

The home dressmaker should keep a little catalogue scrap book of the daily pattern cuts. These will be found very useful to refer to from time to time.

APPENDICITIS AND OPERATIONS.

Ontario Physicians Divided on Treatment.

Niagara Falls, Ont., May 31. — A lively discussion on appendicitis marked the opening session of the thirtieth annual meeting of the Ontario Medical Association in the Clifton Hotel yesterday afternoon.

Dr. Cruickshank, Windsor, spoke against surgical operations, but admitted that if attacked he would have his own appendix removed.

Dr. Herbert A. Bruce, Toronto, ridiculed such a position. He upheld prompt surgical treatment.

Dr. R. D. Ruduif, Toronto, advocated medical or non-surgical methods, as also did Dr. John Hunter, Toronto, who claimed physicians should prepare patients for operation and take full charge immediately after.

Dr. N. T. McLaurin, Toronto, showed by lantern slides morbid conditions, and dealt with the pathological and bacteriological aspects.

Dr. Armour, St. Catherines, was 'on the fence.'

Prof. T. B. Futcher, associate professor of Medicine, Johns Hopkins University, Baltimore, Md., a graduate of the University of Toronto, gave an address on 'Assimilation of carbo-hydrates in relation to diabetes.'

Dr. Thomas S. Cullen, associate professor at Johns Hopkins University, also a graduate of the University of Toronto, gave an illustrated lecture last evening on diseases of the umbilicus, dealing with the surgical treatment of such disease.

Dr. Norman H. Harris, graduate of the University of Toronto, but now professor of bacteriology in the University of Chicago, read a paper on the relation of laboratory work to medicine.

The addresses were of a highly technical character, and were closely followed by the members.

A reception to the members and ladies was tendered by President and Mrs. H. B. Cusgram, followed by a smoking concert, at which the members were guests of the Niagara Falls Medical Association.

KITCHEN IN A TRUNK.

Captain Belanger, of the City Hall Avenue police station, would like to find the owner of a trunk which was found in St. Hypolite late last night. It was evidently the property of an Italian, as in addition to a small amount of clothing, it contained cooking utensils and such things as a railroad laborer or a lumber jack might need.

REGULATIONS FOR CORONATION

King Makes a Number of Appointments.

London, May 31. — The official regulations to govern the coronation are being gradually concluded. The King yesterday made a number of special appointments of high and picturesque officials. The Duke of Northumberland, the Duke of Fife, the Duke of Abercorn, and the Earl of Crawford, were thus appointed respectively High Steward of England, High Constable of England, High Constable of Ireland, and Deputy Steward of Scotland.

Among the bearers of the royal regalia appear the names of Lord Roberts and Lord Kitchener, to carry the second and third swords, while the Duke of Roxburghe is appointed to the stewards staff.

The police have issued elaborate regulations to control the streets on Coronation Day. With the constant arrival of foreign guests, receptions, dinners and balls are being held at the ducal houses daily. The coming three weeks will be a whirl of social excitement. The Duke and Duchess of Norfolk gave a dinner and reception last night in honor of the colonial premiers.

PRINTING PRICES GO UP.

Toronto Proprietors to Meet Wage Increase.

Toronto, May 31.—An advance in the tariff of charges for job printing will go into effect to-day, following the coming into force of the new scale of wages to be paid to the printers and bookbinders of the city. A meeting of the master printers was held yesterday at which the matter was discussed, but the only statement given out was that it was a natural inference that prices to the public would be increased. It was intimated that the total amount of increase to the workmen would aggregate $148,200 during the year.

PILGRIMAGE TO LANORAIE.

The annual pilgrimage of St. Patrick's parish to the shrine of the Sacred Heart at Lanoraie, will take place July 8. The Rev. Fathers Singleton and Elliott are in charge of arrangements, and already there has been a heavy advance sale of tickets.

COMFORT FOR THE RUPTURED

B. Lindman, Esq., Montreal:—

Dear Sir,—The Truss with which you fitted me last June is all that you represented it to be. It has held my rupture for some time and is the only one I ever found that would do so. I shall personally call on Dr. Roddick, who directed me to you, to thank him for his kindness.

HALLEY'S COMET.

Recent Visitor's Course Followed by Observatory.

San Jose, Cal., May 31.— W. W. Campbell, director of Lick University, in a report on Halley's comet, issued yesterday, said:

'Halley's comet, which was nearest to the sun and to the earth and at its greatest brilliancy more than a year ago, has been followed on its journey into distant space with the telescope of the Lick Observatory.

'The comet is now a little further than Jupiter is from the sun, that is about 500,000,000 miles; but Astronomer Curtis has photographed it with the Crossley reflector on two nights this week, exactly in the predicted position. The comet is now 60 percent further from the sun than it was when its approach to the sun was discovered photographically in September, 1909.'

TWO KILLED IN WRECK.

Trainmen Lose Lives in Smash-up of Suspicious Cause.

St. Thomas, Ont., May 31. — The Michigan Central passenger train No. 9, leaving here west at three a.m., was wrecked near Ridgetown, engineer Stephen Quinlan and fireman Russell Oakes, both being killed. Both bodies were crushed beneath the locomotive. The rails were loosened, and had the engineer not stopped up his train for a block signal, the whole train would have been derailed. It is rumored that it is a case of deliberate train wrecking, as it is said the spikes were pulled, and have been found. Both victims were married.

WHAT SAITH THE SCRIPTURE?

May 31.

What will ye do in the end thereof?—Jer. v., 31.

Although the fig tree shall not blossom, neither shall fruit be in the vines; the labor of the olive shall fail, and the fields shall yield no meat; the flock shall be cut off from the fold, and there shall be no herd in the stalls: yet I will rejoice in the Lord, I will joy in the God of my salvation.—Hab. iii., 17, 18.

Though he slay me, yet will I trust in him.—Job xiii., 15.

SUMMARY OF THE PRECEDING CHAPTERS.

The story opens at the break up of a picnic in North Transvaal, the time being just before the outbreak of the Boer war. In this district there had always been the friendliest relations between the better class of Boers and their compatriots of British descent, the Granville girls being the centre of social life to Boer and Briton alike. The second daughter, Mamie, had just become engaged to Chris Andre, while Jan Van Reenan, his chum, was deeply in love with Joyce, the eldest. The two young men were shortly returning to Oxford, to which both had gone on the advice of Joyce, but her heart had long been given to Chris. The visit of the witch doctor to the camp had caused general excitement, but he had given a special message to Joyce who had great influence with the natives owing to her birth and early life among them, her foster-mother being the witch doctor's sister. She was greatly disturbed by it, and with the added sorrow of Mamie's engagement to Chris, returned home to Fairfontein in much distress. She told no one that the witch doctor had warned her war was near at hand, but her father had partially guessed the message, and sends the family off to England, Joyce electing to stay behind. Chris waiting events before deciding to go or stay, accompanies Joyce home after seeing the others off, but tries in vain to persuade her to stay with his mother. On the outbreak of war, however, it is Jan van Reenan who rides over and endeavors by threats and taunts as to her love for Chris, to make her leave with him for safety. He fails, and leaves in anger, while she finds that the servants have immediately deserted with the exception of Lalele, a dumb girl. Before they can escape a party of Boers arrive and commandeer all arms, horses, oxen and most of the provisions, warning Joyce that Mr. Granville, a determined neutral, will not be well treated if met. Wild with anxiety she sets out in the storm to meet him, and finds him and his attendant shot to death on the veldt. After the night spent guarding her father's body from the vultures, Chris finds and takes her home, only to have her lose her reason almost immediately. The tribe among whom she was born, send and carry her off, while Chris is warned that interference will be less than useless. The rest of the Granville family reach England, Mamie taking command as her mother breaks down, and without news from Joyce, with no friends to welcome them, and a very small income to make the most of, are rather miserable. It is some months before they have to welcome their first visitor who, besides being unprepossessing, arrives at nine in the morning.

CHAPTER XII.—Continued.

'You don't know me, of course,' she said, as she seated herself in the arm-chair Mamie indicated. 'I'm Mrs. Haddon, of St. Margaret's. The vicar regards me as his curate in a way; we can't afford to keep a curate at present. You've just taken seats, haven't you? I came yesterday,' she continued, without giving Mamie an opportunity to reply, and speaking always in a high, strident voice, which now assumed an aggrieved tone. 'I could get no answer, though I knocked twice, and I was almost certain I saw some one at the upper window.'

'You probably saw me.'

'You! Then why didn't you—'

'One moment, Mrs. Haddon. Kindly allow me to explain,' said Mamie calmly, though her indignation was rising at this woman's aggressive manner, so gratuitously offensive. 'I was alone in the house yesterday morning when you came — oh, of course I heard you knock, no one could have failed to hear it—but I was changing my dress, and could not get down before you had gone.'

'Oh, I see; I thought it rather an extraordinary state of affairs.'

'Really? Was it not rather an extraordinary hour for a call?' said Mamie pointedly, mindful of her mother's remark. She herself knew little and cared less about English etiquette in such matters.

Mrs. Haddon regarded the remark as a challenge or an impertinence. A call indeed! How could this person, who apparently did not even keep a maid, suppose for a moment that she, Mrs. Haddon, who knew, in a social sense, only the elite of the neighborhood, had called on her! She must have been brought up in the wilds not to know the difference between a parochial visit and a call! For an instant she hesitated, wondering if, by any possibility, she could have made a mistake, and these Granvilles might really be people whom one ought to know. But they kept no maid—that at least was evident—and the girl's intonation was—well, not exactly common, but peculiar. Mamie and her sisters, though they themselves were quite unconscious of the fact, spoke with a trace of the clippy or clicky Afrikander accent, which even their mother had acquired to a certain extent during the long years she had lived in a land where the English language was practically confined to the family circle. The Granvilles, one and all, could converse with equal ease in either English, the Dutch tael, or the lingua franca which served for intercourse with the natives.

But this digression has nothing to do with Mrs. Haddon.

'A call? You are in my district, so of course I came to see you at once, as soon as I heard that you were church people, and attended St. Margaret's,' she said, in answer to Mamie's question, with a severity calculated to annihilate that self-possessed young woman.

suavely, raising her eyebrows slightly. 'I am afraid I don't quite understand. May I ask why you have come at this early hour?'

Again Mrs. Haddon experienced an uncomfortable sensation, but again she vanquished it.

'Early!' she exclaimed. 'It is ten o'clock! I rose at seven and breakfasted an hour and a half ago, when I returned from early celebration. The habit of breakfasting in the middle of the morning is a very bad one for young people to acquire!'

Mamie had hitherto controlled herself admirably; in fact, she still controlled herself, for her voice was perfectly even, and she spoke more slowly and deliberately than usual. But never in her life before had she been so enraged.

'That,' she drawled, 'is an entirely uncalled-for remark, Mrs. Haddon. I repeat that this is a very early and inconvenient hour for any one to call—uninvited. Will you be kind enough to state your business at once?'

'Oh, if that's how you take my visit, perhaps I had better come again when your mother is visible,' said Mrs. Haddon, rising in an unwonted fluster.

'As you please, but my mother is not at all strong, and she seldom or never interviews strangers. Therefore you would only be wasting your time. You must have come here yesterday and to-day with some object?'

She paused interrogatively.

Mrs. Haddon hesitated. She had come with a definite object, that of finding out what these new people were like, by means of certain questions which she was accustomed to fire off point blank at members of the 'lower class,' to which she imagined all inhabitants of small houses in her district belonged. It happened that there were only four such houses on this particular road, one of them that which the Granvilles had taken; and, though it was nominally in her district, Mrs. Haddon had never inflicted her visitations on the tenants, who were presumably not church members; nor had she any acquaintance with the residents in the larger and more expensive houses, who were nearly all wealthy Scots people, members of a small Presbyterian church round the corner. On this account she had hitherto regarded Charlton Road as a godless sort of place. Most of her district visiting was done in a net work of mean streets near at hand, towards the High Road, where the houses were let out in rooms or floors, and where the people, whatever they might say behind her back—and they said a good deal—were usually deferential to her face, and endured her hectoring meekly, since they made a good thing out of her. She was a comparatively wealthy woman, a generous giver to those whom she 'took to,' that is to say, to those who allowed themselves to be constantly heckled and driven to church like so many sheep herded by a shrill-tongued sheep dog. Now, almost for the first time in her long experience, she was absolutely nonplussed by this tall, quiet girl with the steady blue eyes, which had a curious glint in them just now, a glint that any one who knew John Granville would have recognized.

Mrs. Haddon had meant to demand how many the Granvilles were in family, and what their ages were; where they came from; whether the elders were communicants and the younger ones attendants at Sunday School, and, if not, why not, and so on. But not one of those questions came from her lips, which were rather paler than usual.

'You must have some object!' Mamie repeated, still quite courteously but inexorably.

'I have explained my object already, I believe. I am the chief district visitor, and superintendent of the girls' Sunday School,' said Mrs. Haddon, with scarcely suppressed fury. 'I always call on new people in the parish, and therefore I called on you; but as you have received me so rudely—'

'That is not true, Mrs. Haddon. If I had come, uninvited, to your house at this unheard-of hour, and immediately started to criticize your domestic arrangements, you might justly have accused me of being rude. In this case I consider that I, as my mother's representative, am the person who has been insulted. Perhaps there may be some excuse for you—I really do not know enough about the manners of English district visitors to be able to criticize yours—but I cannot think that your call was actuated by any feeling of courtesy, and therefore I do not know why you should have troubled to call at all. However, it is really of no consequence.'

As she spoke, she moved to the front door, opened it, and stood, straight, tall, and inflexible, looking grimly at her astounded antagonist.

Mrs. Haddon, though an ill-bred, domineering woman, was no fool, and she knew quite well that she had behaved abominably, supposing this girl really belonged to her own class, and that suspicion had become a certainty. A snob to her finger-tips, she would never have acknowledged, even to herself, that her conduct would have been equally inexcusable in the poorer person's house.

Now she eagerly grasped at the slight chance of making l'amende honorable. Suppose this terrible girl should have friends in the neighborhood! Suppose the incident should come to the vicar's ears, as it might sooner or later, it would be exceedingly awkward! She must endeavor to retrieve her terrible mistake at once.

'Oh, then you are not English!' she cried, making a gallant attempt to speak in a conciliatory tone. 'How stupid of me! I ought to have known, and to have seen at once that you didn't understand our English ways. I'm so sorry! Have you been long in England?'

'Six weeks,' said Mamie, without taking the least notice of this sudden change of manner.

'Really, then, you are almost strangers. From the colonies? Granville is surely an English name.'

'We are Afrikanders,' Mamie responded calmly. 'Good morning, Mrs. Haddon.'

She moved the door slightly, and Mrs. Haddon, utterly baffled and humiliated for once in her life, realized that it was useless to prolong the conference. The door closed gently behind her the moment she had crossed the threshold. Mrs. Haddon wished it had been banged, as she herself most certainly would have banged it.

The quiet contempt with which she was dismissed hurt her far more than any amount of bluster could have done. She was so subdued that she had not spirit left in her even to slam the gate as she had the day before. She left it open.

The twins, who had sat quietly on the sofa watching and listening to the encounter with keenest interest and delight, now ran out into the passage, giggling and tumbling over each other in their excitement, and chorusing:

'Bravo, Mamie! She won't forget that sitting on in a hurry. What a horrid, horrid, old thing!'

But to their amazement Mamie, who for the last ten minutes had been white as death, leaned against the wall and burst into tears.

A WOMAN'S BACK.

Not One Woman In Twenty Has a Stong Back.

The kidneys are to blame nine times out of ten.

Mrs. A. H. Hutton, Jr., McCreary, Man., writes:—"Two years ago last spring I had a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or 3 for $1.25, at all dealers or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

When the blood isn't properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it's hardly to be wondered that backaches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membranes and make their action regular and natural.

"BED-TIME STORIES"

MOTHER'S PARTNER.

(By Annie Weston Whitney.)

The people of Denton were startled one evening by the sudden and wild ringing of the church bell. It was not an evening for service, and the only other thing for which it ever rang was fire.

Men and women rushed out of their houses and looked up and down the one long street of the little village, but nowhere could they see any signs of fire.

As suddenly as it started just so suddenly did the ringing stop, and it was soon known that it was done by Otis Barton, who had only been trying to see for himself how hard the sexton had to pull.

Now Otis, without being a vicious boy, was always getting into mischief, and was a terror to the town. He had no father, and people shook their heads and said he would never be any better, but would go from bad to worse.

But Otis was always sorry for having done anything that really annoyed others, and after the bell-ringing went at once to his mother and told her of it. He thought she seemed sadder and more unhappy over it than usual, and was surprised when she looked at him and said, suddenly:

'I fear mother is about to fail in business, Otis, and I see no help for it but for me to take a partner.'

Otis opened his eyes in amazement. He knew about their neighbor, Mr. Crafts, who would have failed if Uncle Jim had not helped him and become his partner; but Mr. Crafts kept a store. He looked so puzzled and bewildered that his mother said:

'Well, Otis, think a moment; what is mother's business?'

Otis mentioned sewing, housekeeping, and various other things, but his mother always shook her head. That was not the business she meant. Suddenly a light came into his eyes as he said, quickly:

'I know, mother. It's to make me a good boy.'

'Yes, dear; but am I succeeding?'

Otis did not answer. He was thinking about that partner his mother spoke of. Who would it be? Uncle Jim? He liked him, but he was very sure he would not like to have him reprove and correct him. No, there was no one who could do that as mother could.

'You see, dear,' said his mother, presently, 'that in order to prevent myself from failing I must get some one to help me. Now, there is only one person in the world I would care to ask, but I am not sure that he would be willing to become my partner.'

'Who is he, mother?'

'The one who could help me more than anyone else—you, dear.'

'I, mother; I!' exclaimed Otis, opening his eyes very wide.

'Yes, dear; with your help there will be no need of my failing in business.'

It was not long before the people of Denton realized that Otis was no longer the terror he had been, though he still loved fun. When questioned about the cause of the change he would say, with a merry twinkle in his eye:

'I'm mother's partner now and I can't let her fail in business; that's all.'

If no one else understands what that means, he and his mother do.

INTERCOLONIAL RAILWAY

TENDER

Sealed Tenders addressed to the undersigned, and marked on the outside "Tender, Mulgrave Station," will be received up to and including SATURDAY, JUNE 10th, 1911, for the construction of a Brick and Stone Passenger Station at Mulgrave, N.S.

Plans and specification may be seen at the office of the Secretary of the Department of Railways and Canals, Ottawa, Ont., the Station Master's Office at Mulgrave, N.S., and at the Chief Engineer's Office, Moncton, N.B., at which places forms of tender may be obtained.

All the conditions of the specification must be complied with.

A. W. CAMPBELL,
Chairman Government Railways Managing Board.

Ottawa, Ont., May 26th, 1911.

THREATEN GENERAL STRIKE

Complete Tie-up of Industry in Vancouver is Imminent

Vancouver, B.C., May 31.—With what view the Master Builders' Association looks upon the offer of the City Council to mediate between the master builders and carpenters in order to avert the threatened general strike on June 5th will not be shown, it was declared by officers of the organization yesterday, until next Monday night, when the next regular meeting is to be held. From the opinions of prominent master builders as expressed yesterday, it would appear that many of them do not consider mediation at all necessary at this time, claiming that, having won a victory over the union carpenters in the matter of wages and closed shop, they would only be prejudicing their position if they reopened the question.

Interviewed yesterday, Mr. R. P. Pettipiece, business agent of the Trades and Labor Council, said that the unions were not willing to accept the offer of the City Council to seek for an adjustment. They plan, as he announced the other day, to tie up all the business of the city, street railway service, lighting, and every industry.

INSULTED WOMAN.

Ruffian Fined $265 and Will Serve Year in Jail.

Putnam, Conn., May 31.—In the City Court here yesterday William White, 27 years of age, of Plainfield, was sent to jail for a year and fined $265 for placing his arm about a woman as he passed her on the street. This is the heaviest penalty ever imposed in the state for a similar offence.

OTTAWA'S NEW STATION.

Ottawa, May 31.—The new quarters of the Railway Commission in the new Central station are expected to be ready for occupancy within a month and will be in keeping with the growing requirements of that important body. Three floors will be occupied. On the top will be the court room and the offices of the commissioners, in the centre the offices of the chief operating and traffic officials and below those of the secretary and staff. The station itself will not be ready for two or three months. The train shed has yet to be built and other parts of the work finished.

Cures Inflamed Nose and Throat

And such diseases of the respiratory organs as Bronchitis, Weak Lungs, Cold in the Head, and Nasal Catarrh, are treated with marvellous success on strictly scientific principles by Catarrhozone. The medicated vapor of Catarrhozone quickly traverses every air passage possible to be reached by any treatment. All soreness, pain, congestion and inflammation are at once dispelled, and by means of the healing powers of Catarrhozone the vitiated tissues are quickly restored. Where Catarrhozone is used colds last only ten minutes, coughs half an hour, and Catarrh, Consumption, Asthma and Bronchitis flee as from fire. A trial will convince anyone of the startling merit of Catarrhozone. Costs $1.00, small size 25c, at druggists.

KINGSTON LOCOMOTIVE WORKS

Industry Will Not Be Removed Under New Management.

Kingston, May 31.—Mr. W. Harty, M. P., president of the Canadian Locomotive Company, Limited, in a letter to the press says: 'The men employed at the works, and the citizens of Kingston generally may accept my assurance that the change of proprietorship will not in any manner militate against the future of the company, but, on the contrary, its efficiency should be increased, its output enlarged and the number of employees who may find work within its walls be largely added to. The Locomotive works are anchored in Kingston for good and for ever, and that its prosperity may be all that the people of this good old city desire and deserve is the foremost wish of one who has, in a humble way endeavored in the past to the best of his imperfect health and ability, to contribute his share to the prosperity and success of the Canadian Locomotive Company.

FRENCH AIRMEN LEAD.

Clifford Harmon Declares United States Outstripped.

New York, May 31.—Clifford Harmon, the amateur aviator, who is just back from a trip to Europe, thinks the United States is being outstripped in the flying game. 'They are too fast for us over there,' he says. 'They are flying every day and have big machines. We have nothing here that can compete with the French machines now. I don't know what the future will bring forth.'

HOUSE BLOWN UP.

Three Seriously Injured by Act of Assassins.

Bellington, W. Va., May 31.—The home of Henry Sturms on Sugar Creek, three miles from here, was wrecked by dynamite last night. Sturms and his wife each aged 60 were seriously hurt and a daughter, aged 20 years is dying of injuries received when the bed was blown through the ceiling of her bedroom. The explosive was set off beneath the building shattering the house and tearing a large hole in the house.

Bloodhounds have been put on the trail of the dynamiters. No motive is known for the deed.

AUTO. FOR FIRE CHIEF.

Ottawa, May 31.—Fire Chief Graham, of Ottawa, is to have an automobile for his use in answering fire alarms, the Board of Control having voted $3,500 for the purpose. A motor hose waggon and chemical engine combined has already been ordered by the city.

BARGAINS.

PIANOS AND THE MISSION FIELD.—Regarding the recent appeal made on behalf of the missions in the Canadian Northwest, we have decided to donate five percent of the purchase price of every piano bought by readers of the 'Witness,' the purchaser to have the privilege of selecting which denomination shall receive the money. Owing to the fact that we employ no agents, and that our rent and other expenses are lower than our competitors, intending purchasers have a two-fold reason for patronizing us. Namely, securing better value for themselves, and the opportunity of being the means of assisting the Northwest Missions. We sell New Beckstein, Heard, Gourlay, Leach, Bell and Victor Pianos, and are prepared to fill orders from any part of the Dominion. We sell for cash or upon terms. A visit or correspondence solicited by THE LEACH PIANO CO., Limited, 580 St. Catherine street West. N.B.—We have special lines of new Upright Pianos at $250, payable $25 deposit and $10 monthly.

TO-DAY'S FIXTURES

Montreal at Rochester.
Toronto at Buffalo.
Baltimore at Providence.
Newark at Jersey City.

Rochester, May 30.—(Special).—Montreal played better ball than Rochester to-day and won both games of the Memorial Day bill. The morning game gave the visitors victory by a 4 to 3 count, while they had to go eleven innings in the afternoon to win by 8 to 5. The afternoon game was a hard hitting contest. There was a home run for each side and Rochester had three triples. President Lichtenhein witnessed both battles and was pretty well satisfied with his team to-night. As a matter of truth, the Royals look better than any team Rochester has opposed this season. That includes everyone but Toronto.

The Montreal team showed gameness in fighting an uphill battle and winning out after a bad start. Glaze once he settled down, pitched well.

Rochester scored in the third inning of the morning game on Moran's double and Foster's single.

In the fourth Montreal took the lead. Two errors put Hanford on second and Demmitt on first. Gandil sacrificed and Holly's sacrifice fly to Moran scored Hanford. Roth then singled and scored Demmitt.

Rochester tied it up again in the last of the fourth. Moeller walked and scored on Ward's double after Osborne was out.

Montreal took the lead again in the fifth. After French singled, Yeager forced him. Miller singled and sent Yeager to third and he scored when Alperman made an error in trying to double Miller and Hanford up.

Rochester tied in the sixth. Moeller beat out a bunt and went to third when Dubuc, who fielded the ball, threw it over Gandil's head. He scored on a passed ball.

Montreal scored the winning run in the eighth on three singles in a row by Hanford, Demmitt and Gandil.

In the afternoon, McConnell had Montreal well in check until the ninth inning, when two hits and an error filled the bases before anyone was out. Holmes was called in, and before three outs had been made, the visitors had tied the score at 5 to 5. Three runs in the eleventh sewed things up very nicely for Captain Yeager's athletes.

Two were out in Montreal's first inning when Ward let Miller's grounder go through him. Hanford hit a home run to centre field.

Rochester tied in the same inning. A pass to Moran, a steal and two errors gave the rfist run. Moeller, on whom one of the errors had been made, then stole second, and scored on Osborne's single to right field.

Rochester took the lead in the third. Alperman hit to centre for a home run. Spencer singled and stole second, went to third on Mitchell's out, and scored on McConnell's single to left. Moran tripled to right to score McConnell. After that the locals didn't tally.

Gandil opened the ninth with a hit. Holly hit to short, and Alperman dropped McMillan's throw, when he had an easy force-out. McConnell tried to force Nattress, who ran for Gandil, at third base, when Curtis bunted but failed. That filled the bases, and Holmes was called in. He passed Roth, who batted for Glaze, forcing in one run. French struck out, but Holly came across with the tying run, while Yeager was being retired on an infield grounder.

There was nothing doing by either team in the tenth, but in the eleventh the Royals bombarded Holmes for four hits.

With Curtis out Burke rapped out a clean single. French followed with another, Burke going to second. Yeager belted the globule to right field, but Batch made a fine throw to the plate and the speedy Burke was out. Holmes then purposely walked Miller and the bases were filled. This proved fatal to Rochester's chances as Holmes plugged Hanford in the ribs with a pitched ball, forcing French over the plate with what proved to be the winning run. Demmitt then landed on the wabbly 'Ducky' Holmes for a safe drive to right, scoring Yeager and Miller. Hanford was daring and tried to go all the way from first to the plate on the hit, but he was caught, Batch to Alperman to Mitchell.

Burke easily disposed of Rochester in the eleventh as he did in the tenth.

TORONTO WON TWICE.

Buffalo, N.Y., May 30.—This morning's game between Toronto and Buffalo proved a much better article of baseball than yesterday's slugging match. The pitching was superior, the hits fewer, and errors practically absent. It was a beautiful Memorial Day, and a big holiday crowd was in attendance. Manager Kelly, in his best attire, viewed the struggle from the grand stand, being still under suspension. Two pitchers were used on each side, Pierce replacing Malarkey in the 7th and Lush taking Mueller's place in the same inning.

Score by innings—
Toronto . . . . . 2 0 1 0 0 3 0 0 3—9
Buffalo . . . . . 0 0 0 0 0 3 2 0 0—5

Umpires, Hart and Kelly. Time, 2.20. Attendance, 8,000.

BUFFALO STILL LOSING.

Buffalo, N.Y., May 30.—Toronto made it a double victory by winning the afternoon game, a 9th inning rally by the home team robbing Rudolph of a shutout. Shaw and Keeler made sensational catches in the outfield, which helped their team along to victory. It was the 3th consecutive defeat for Buffalo.

SPLIT EVEN.

Providence, R.I., May 30.—Providence divided to-day's games with Baltimore, losing the morning game 6 to 3 and winning the afternoon 7 to 6, after 12 innings. In the morning game Dale was responsible for the Greys defeat, as he was wild as a hawk. Maroney started for Providence in the afternoon and was hit freely. In the 8th Lavender went in, but he, too, was wild and ineffective, and only lasted one inning. Bedient finished out the ninth. McLeod then went in and finished strong for Providence, allowing but one hit in the last three innings. Adkins was also hit hard, and Dygert, who went in in the 8th for Baltimore, was wild. Maisel's two errors allowed Providence to even up the score in the 9th and get the winning run in the 12th.

Score by innings—
Baltimore . . . . . 2 0 0 1 0 0 1 0 2—6

SKEETERS WIN.

Newark, N.J., May 30.—The Skeeters got to Parkin hard in the first inning with a triple, two singles and a wild pitch, got two runs across and drove him to the bench. McGinnity worked until Holmes could warm up, but the lead was too much for the Indians to overcome.

Score by innings—
Newark . . . . . 0 0 0 0 1 0 0 0 2—3
Jersey City . . . . 4 1 0 0 0 0 0 1 0—6

Time, 1.50. Umpires, Murray and Pollock. Attendance, 2,000.

Jersey City, N.J., May 30.—Jersey City repeated on Newark in the afternoon game at West Side Park following up their morning score at Newark with a clean-up in West Side Park by a score of 4 to 3. Bases on balls figured in the run getting on both sides, the Ryanites landing the honors from a pass in the 7th, followed by a sacrifice, a single and an infield out. Jones pitched for the Skeeters, and Smith and Lee for Newark.

AN EVEN BREAK.

Chicago, May 30.— Pelty was too much for Chicago in the first game today, and St. Louis bunched hits off Scott and won an easy victory 4 to 1. Chicago's one run resulted from Messenger's triple and a sacrifice. Pitcher Young was at his best, and Chicago won the afternoon game 2 to 0. The visitors made two scattered hits. Scores:

Cleveland, May 30.—Detroit defeated Cleveland 3 to 2 in a ten inning game this morning. It was a pitchers' battle between Mitchell and Summers, and the former would have won but for errors behind him. A peculiarity of the contest was that each one of the five runs made was scored on a sacrifice fly.

Detroit won again in the afternoon 6 to 5. Works was driven from the box, but Donovan, who succeeded him, was invincible. Gregg was effective, but got poor support. Scores:

CHAMPIONS GOING NOW.

Philadelphia, Pa., May 30.—Krause's pitching proved too much for New York in this morning's game, and the visitors were shut out 3 to 0. Oldring's batting was the feature, he scoring two runs himself and driving in the other. Philadelphia again defeated New York in the afternoon. The home team pounded Ford's delivery for 11 hits and all their runs in the first two innings. They won 8 to 5. Coombs, who won yesterday's game, weakened in the 9th and Plank went to his rescue. Scores:

NATIONAL LEAGUE.

Boston, May 30.—Philadelphia won both the morning and the afternoon games in the double-header with Boston to-day, the first 3 to 0, and the second 11 to 4. The second game was won on hard hitting and costly errors by the visitors, the visitors knocking Curtis from the box in the seventh inning and from the box in the seventh inning and securing a total of six runs before Pfeffer retired the side. The fielding of Knabe and Doolan was fast. Scores:

Morning game—

	R.	H.	E.
Philadelphia	3	7	0
Boston	0	3	3

Batteries:—Moore and Dooln; Brown and Rariden.

NEW YORK WON TWICE.

New York, May 30.—The holiday visit of the cross-river Brooklyns to New York resulted in the loss of two games to the Giants by scores of 4 to 1 and 3 to 0. Raymond had to quit this afternoon in the fifth inning because of an attack of ptomaine poisoning. He held the Brooklyns to only one hit and Ames, who succeeded him, allowed only two more. Scores:—

Morning game—

CUBS DUMPED HARD.

Pittsburg, Pa., May 30.—Pittsburg toppled the Cubs to third place to-day by winning both games. They won the morning game by a lone score in the eighth, when the Pirates made three singles. Chicago never reached third base once.

Pittsburg won the afternoon game by hitting Reulbach hard in the first inning. In the first and second innings they made four doubles, a triple and a single. Camnitz gave only one base on balls, but it figured in scoring the only run for the visitors. Scores:—

Morning game—

	R.	H.	E.
Chicago	0	4	3
Pittsburg	1	6	0

Batteries:—Rich and Archer; Adams and Gibson.

Afternoon game—
Batteries:—Camnitz and Gibson; Reulbach; Toney, Richter and Archer, Kling.

AN EVEN BREAK.

St. Louis, May 30.—Cincinnati broke even on the day's playing by winning the afternoon game 6 to 2. The visitors hit Steele hard, while the locals found Fromme a puzzle with men on bases.

Cincinnati lost the morning game 4 to 2, because the players could not hit Sallee effectively. Scores:—

DIAMOND FLASHES

Who would have thought it?

Royals the first team to corral the Bronchos.

Buffalo is still in the first division, after losing nine straight games.

Providence is slowly going down the line, and yet they expect to be in the game strong at the finish.

Dubuc pitched a good steady game in the morning and got away with a victory to his credit. He made the only error chalked up against the Royals.

Rochester reports are to the effect that Manager McCafferty has the drop on any team seen in that city this season. Some tribute from the leaders, and they should know.

To-day's game will be hard fought. Rochester has a good lead in the race, and four losses at home is too much for the fans to survive.

The Royals are now obsessed of that microbe called confidence, and while they have done what no other team has been able to do in this present series, they still are a 2 to 1 shot for the whole series. After them, McCafferty.

Barberich is due to twirl this afternoon, and another battle is looked for. One of the best pitchers away from home, and pitted against Hughes most likely, the game should be a hot one in our favor, as the Montrealer is steady, while Hughes is no longer the terror of the league. One thing that has never failed to show itself is the splendid fielding and the hard, steady batting of the Royals, and this reliable quality is the greatest tonic known for a pitcher. Now that the local club has it we are due for that position in the race which the above qualities warrant, namely, first division and fighting for the top.

WINGED WHEEL WHISPERS

James Rose, of Edinburgh, Scotland, has been appointed swimming instructor to the M. A. A. A. in the place of Captain Matthews, who resigned his position a few weeks back. Rose was a member of the Wynman Swimming Club, of Scotland, and played on the Wynman Club's water polo team in 1904-5-6-7, during which time they were champions of Scotland. He also figured on the Scottish International polo team which met England, Ireland and Wales in 1906. In addition to these honors he is the proud possessor of a medal and two certificates for life-saving granted him by the Royal Life Saving Society. In 1906 he won the 100 and 220 yards championship of the East of Scotland and since then has qualified as a teacher of swimming and life-saving in Edinburgh under the director of the Edinburgh School Board. Rose is credited with over a hundred swimming trophies.

Ten rinks of the M. A. A. A. Lawn Bowling Club will play the Westmount bowlers to-night, five rinks playing on the greens of the M.A.A.A. and five on the Westmount green. 'CROSSE CUTS

There is likely to be a shake up of the National team the next match.

The management are far from satisfied at the showing made, and are discussing the policy of shelving two or three of the regulars.

Secours, who is not in condition, and it looks now as though he could not get back into shape, with Gagnon, whose work was not considered to be at all satisfactory on Saturday, may be sent to the bench. Dussault and Duckett will be the men to fill the gap.

Jim Hogan turned out with the Shamrocks last night, so that the financial trouble has evidently been adjusted. He appeared to be in good condition, and will in all probability figure on the line-up on Saturday against the Tecumsehs. The 'Shams' will practice this evening and are very optimistic of the result. The line-up will be announced after to-morrow's practice, the management being anxious to place their strongest possible team in the field to ensure victory.

Coach Smith, now that he has more material, will undoubtedly whip a winning team into shape before long, and while the Capitals are up against the hardest kind of a schedule this summer, the Ottawa veteran hopes to be able to pull off a surprise before the season is much older. Smith has the better part of his squad in the very best of shape at the present. It is the intention of the coach to place Tommie Gorman at outside, moving the others out a peg. 'Lady' Taylor may be given a chance on the home field, while Fagan is slated for point, King also shaping up well on the defence field. Eddie MacDonald was in the nets, and he may be a regular in that position.

At the intermediate games on the Shamrock grounds Saturday some one deplored the fact that there was no team in the league representative of Point St. Charles, the famous breeding ground for lacrosse players. On examination it was found that of the forty-eight players participating in the double-header, thirty of them were from the Point, although none of the competing clubs had headquarters in that section of the city. In spite of the fact that there is no lacrosse field across the canal, it is evident that the game is by no means dead there.

SOCCER

While much discussion was indulged in at last night's meeting of the First Division League of the P. Q. F. A., at the Central Y. M. C. A. building, but little business was transacted, and that little was of minor interest.

The action of the P. Q. F. A. in regard to the Caledonia Cup competition came up again, and the governing body will be asked to reconsider their decision not to participate in the game this year, at the next meeting on Thursday night.

Two decisions arrived at last night by the delegates may be protested by Grand Trunk and Lachine. The G. T. R., if the League's ruling holds, will have to re-play Locos' before the end of the season, Locos' protest, on the grounds that the match was not played full time, being upheld. Lachine feel sore at having to pay the Grand Trunk men their expenses to Lachine for the re-play of last Saturday's match, when the ball burst twenty minutes before the finish. The objection raised last night to this ruling was not so much on the ground of expenses, but owing to the fact that the match has to played on neutral ground, yet at Lachine.

Several transfers of players were put through last night, a motion being made to limit the number of transfers a player might make during the soccer season. The motion which was defeated was the immediate result of a request from a player, who having transferred from one team to another, the previous week, sent in an application for a transfer back to his old club. The application was allowed to go through after half an hour's wrangling.

TOYING WITH DEATH IN 500 MILE AUTO RACE

Two Dead! One Becomes Insane With Terrific Strain on Nerves—Tremendous Crowd Present.

ESTIMATED AT 85,000.

Ray Harroun Winner of Chief Event in 6.41.08—Dave Lewis Had Broken Leg Through Blown-up Tire—Full Details and Incidents.

Speedway, Indianapolis, Ind., May 31.—Ray Harroun, driving a Marmon car, won the 500 mile race yesterday in six hours, 41 minutes, 8 seconds; Mulford (Lozier) was second, and Bruce-Brown (Fiat) third.

Spencer Wishart (Mercedes) finished fourth; Ralph De Palma (Simplex), fifth; Charley Merz (National), sixth.

As Harroun drove up to the Marmon pit he was surrounded by a wildly enthusiastic crowd, cheering him and trying to grasp his hands. He ran his car into the infield and stopped for the benefit of the photographers.

'Gee, I'm hungry,' he said, as he crawled out from under the steering wheel.

The first accident of the race occurred on the back stretch of the track, when an Amplex car, driven by Arthur Greiner, of Chicago, blew a tire. The car left the track, killing S. P. Dickson, the mechanician, and perhaps fatally injuring Greiner. Greiner had driven only thirty miles in the race when the accident occurred. He was taken to the field hospital, where physicians said his injuries were fatal.

Dave Lewis, mechanician, in the Lozier car driven by Tetzlaff, had his right leg broken when the car blew a tire in the home stretch in the 170th mile and ran into a Ope-Hartford, driven by Disbrow.

Tetzlaff was injured, but the crew of the Ope-Hartford escaped. Both cars were taken out of the race.

Eleven cars had been withdrawn because of accidents and breakdowns when the 25-mile post of the 500 mile automobile race had been reached. This left a field of twenty-nine cars to finish the last half of the race.

The strain of the terrible grind proved too great for Bob Evans, mechanician for Jack Tower, driving a Jackson, and he jumped from the car on the back stretch. Evans was hurled heavily to the ground, but at the field hospital it was said he was not seriously hurt. He was apparently suffering from dementia.

Several times the throng in the grand stand rose to its feet when it appeared that the crews of the cars must be crushed to death in a crash. On one occasion a woman sitting in a box dropped from her chair in a faint.

As the cars dashed into the last hundred miles of the race, it appeared that the drivers, instead of weakening from fatigue and the nervous strain, gained assurance. They took more chances in attempting to head each other at the turns and the crowd, excited by the mishaps and hairbreadth escapes of the day, watched the cars eagerly as they turned in and out of the home stretch and the back stretch.

Asked to make a formal statement, the victor in the first 500-mile race ever run on a speedway, said:

'All credit is due to my car for the brilliant victory. At no time was the throttle wide open, and I relied solely upon consistent high speed to win for me over occasional bursts in the back stretch. The weather was noticeably warm, although I did not suffer in any way from the heat.

'The last hundred miles was by far the easiest of the entire run, and the car was less difficult to handle on the turns. At first there was a tendency to slip, which increased toward the 200-mile mark, but from that time I had little trouble in holding the car to its course.'

'In my estimation the limit is reached at 500 miles and is entirely too long for the endurance of the driver. I was relieved from the 170th to the 250th mile, and the rest of the distance was extremely refreshing.'

The Marmon (Wasp) made only four stops during the entire run, each time to change tires on the rear wheel. Each time the oil and gasoline tanks were filled to prevent stopping for fuel.

After one of the early stops, Cyrus Paschke relieved Harroun at the wheel, but it was retaken by Harroun later.

Harroun was born at Spartanburg, Pa., and is 29 years old. He holds a long list of records and has won many trophies. Harroun won more firsts than any other driver during 1910. He retired from the racing game at the close of the season, but was induced to re-enter the sport to compete in this 500-mile event.

He has won, among other trophies, the 200-mile trophy, the Atlanta Speedway trophy, Los Angeles Motordrome 100-mile stock chassis trophy, Atlanta Automobile Association trophy, and the two-hours free-for-all trophy at the Los Angeles Motordrome.

At 5.30 p.m. Starter Wagner gave the checkered flag to all the drivers, indicating that the great race was over.

Sharply at ten o'clock the cars got away for the starting lap in the 500 miles automobile race. Eighty-five thousand people were massed about the two and one-half miles oval.

At the rate of about forty miles an hour, the racers jockey for position. As they came slowly around to the judge's stand, Aitken (National) led. He passed under the wire at 10.03 and the race was on.

The length of the track is two and a half miles, making 200 laps to finish. The estimated time of duration is six and two-third hours. Total prizes, $40,000. Cash to winner, $10,000.

In the first lap the forty cars strung out all around the course. Aitken (National) held the lead, with De Palma (Simplex) second, and Wishart (Mercedes) third.

D. Bruce Browne, driving a Fiat, led at the end of the first 100 miles. His time was 1.22.16, which is about seven minutes behind the record. Ralph Mulford (Lozier) second, and Tetzlaff (Lozier) third.

At the end of fifty miles, John Aitken (National) was leading. His time was 41 mins. and 7 seconds. Bruce Brown (Fiat) second, Ralph De Palma (Simplex) third.

D. Bruce-Brown (Fiat) was leading at 150 miles. His time was one hour, 59 minutes and 12 seconds. Ray Harroun (Marmon) second, and Ralph Mulford (Lozier) third.

Ray Harroun, in a Marmon, had taken the lead from David Bruce-Brown (Fiat) at the 200 mile mark. Harroun's time for that distance was two hours, 43 minutes, 21 seconds. Brown was second and Mulford (Lozier) third.

Harroun led at 450 miles and swung into the last fifty mile stretch of the race in winning form.

His time was six hours, two minutes and 45 seconds. Mulford (Lozier) was second; Bruce-Brown (Fiat) third; Dawson (Marmon) fourth, and Ralph de Palma (Simplex) fifth. Harroun was two laps in advance of Mulford.

LONDON DOG SHOW.

Huge Success Socially and Financially.

London, May 31.—Both as a dog show and a social function the fourth annual exhibition of the Pekin Palace Dog Association, held yesterday was a huge success. Lady Evelyn Cotterell and Mrs. Bertram Corbett judged. They had a record entry of 340. The Chinese Minister, Liu-Yu-Lin, said that the show was the best he had seen in England. Of the various colored dogs present he mostly favored the dark brindles and blacks of six or seven pounds weight as the real palace type.

The outstanding feature was the remarkable success of Mrs. Beechers Howbury Ming, which won the international challenge cup and other prizes of the value of $2,000.

MYSTERY SURROUNDS HOLDER OF WINNING NUMBER IN DRAW FOR COOKING RANGE.

View of the Cooking School on St. Catherine Street, the First Ever Taken.

MISS ANCTIL'S NEW RECIPES FOR THURSDAY.

Interior view of the M. L. H. and P. Cooking School, showing attendance and platform on which demonstrations of the art of cooking are given. Miss Anctil, instructress, and assistant, are on the platform.

A mystery remains to be solved. It is not a gruesome one, nor is it even unpleasant. In fact it is a most pleasant one for the right lady, if she is found, will have to be made the present of a gas range.

Every one should help to clear up this deep, puzzling and perplexing case. The most vigilant sleuths are out looking for the person on whom an up-to-date and improved gas range can be bestowed.

It is the lady with ticket number 335 that is wanted.

She received the ticket at the cooking school that is in progress in the parlors of the Montreal Light, Heat & Power Company, 358 St. Catherine street west. Evidently she is a person interested in the culinary arts. The authorities are puzzled to know why this person in question does not lay hold of her claim. This ticket, bearing number 335, was drawn last Saturday evening, and as no one present at the time had the stub to which the number corresponded, the number was made known through the newspapers yesterday, with the hopes that the fortunate possessor may claim the beautiful range that has been offered and is awaiting delivery. Up to date no clue of any description has been found as to who the winner is.

It would be considered a favor if the person having ticket 335 would notify the cooking school, telephone Uptown 4310, or by calling personally. The stove is awaiting delivery.

Application of the holder of the ticket must be made before Saturday next. An urgent request is being made to have the lady with this winning ticket notify the school, even if she was not in want of the exquisite range. It will then be drawn for again and others will then have the opportunity of winning.

The mystery must be cleared up.

Herewith is accompanied a view of the interior of the splendid cooking school at 358 St. Catherine street west.

Its exquisite interior finish and decorations, with absolute comfort for the auditors, may be seen. The lighting is so arranged that it is no strain on the eyes to see the preparations in progress on the platform. Miss Anctil, the expert instructress, may be seen on the platform in the midst of her work. The picture was taken at last Saturday afternoon's session, and by it an idea can be gained as to the class of patrons that attended. Everything is done in the best and most hygienic way, and it is a great educational movement on the part of the Montreal Light, Heat & Power Company to carry on this free school of cookery.

No one should fail to see the interior of these beautiful parlors, even if it is only to take a look around. Remember Saturday is the last day for the school. Take the opportunity while it lasts. Also do not forget that another free gas range is being given this week. All those who will attend the sessions this week will receive a ticket bearing a number.

These tickets will be for the drawing which will take place next Saturday evening after the closing session of the school.

To-morrow Miss Anctil will show how to prepare the following dishes in the afternoon at the three o'clock session: 'Swiss Meat Roast,' and 'Lemon Cream.'

In the evening, eight o'clock session, 'Macaroni Timbale,' and 'Saint amant's Pudding.'

NATIONALISTS BEGIN

Mr. Monk and Mr. Bourassa Will Address Opening Meeting To-night

The Nationalists open their political campaign to-night by a public meeting at which Messrs. Monk, Bourassa and Lavergne will speak. The 'Devoir,' Mr. Bourassa's paper, says that Mr. Monk will announce a speech programme; that Messrs. Taillon, ex-Provincial Premier, Louis Codere, advocate, Ald. Dr. Roux and Paul-Emile Lamarche, advocate, will speak along the lines extolled by the member for Jacques-Cartier, and that Messrs. Bourassa and Lavergne will define the attitude of their Nationalist friends.

The meeting will be held in the Ontario rink at the corner of Ontario Street and Delorimier Avenue, and will begin at 7.30 o'clock.

HOUSES SWEPT AWAY.

Cloudbursts in Germany Cost Sixteen Lives.

Berlin, May 31. — Cloudbursts, accompanied by heavy hail, caused great damage in South Germany yesterday. Six houses in a village in the Grand Duchy of Baden were swept away by the floods and twelve persons were drowned. Four persons were drowned near Heidelberg, where a mill was washed away.

Eight inches of rain fell at various places in the south, destroying the fruit trees and crops and killing birds by the wholesale.

TREASURES RECOVERED.

Rome, May 31.—A million dollars worth of treasures stolen from the palace of the Archbishop of Messina after the earthquake have been recovered by the cathedral authorities there. The treasures include an ancient gold mantle, studded with gems, jewels of the fourteenth century, and church furniture of historical as well as archaeological value. A number of the servants of the archbishop have been arrested.

TO AID INDUSTRIES.

Novel Proposal Before Moose Jaw Council.

Moose Jaw, Sask., May 31.—The Board of Trade here has evolved a novel scheme for the encouragement of small industries. It proposes that the city erect a large factory building on one of its vacant sites in the industrial spur district, and subdivide this into separate premises. This building would be furnished with light, power and water from the city systems, which would be supplied to tenants at rock bottom rates. Rentals would also be on a low basis, the whole idea being to encourage the establishment of small industries. The whole cost, including a fair valuation for the land, would be about $35,000, and the estimated annual income is about $3,400. The City Council will give the scheme a very careful consideration.

GRANT FOR BOY SCOUTS.

Ottawa to Assist Trip to England.

Ottawa, May 31.—The civic Board of Control has voted $250 for the entertainment of the Glidden tourists when they arrive here next month.

They have also granted $200 towards defraying the expenses of the Ottawa boy scouts who will go to England.

WHAT BREEDS TUBERCULOSIS?

Damp, Dirt, Dust, Drink, Dissipation and Destitution,

STATES DR. MONTIZAMBERT.

Government Expert Strongly Recommends Services of Women to Fight White Plague.

Ottawa, May 31.—One of the interesting reports made to the government from time to time is that of Dr. F. Montizambert, director-general of public health, and in his latest account of the conditions prevailing in the Dominion he deals at some length with the question of tuberculosis. Dr. Montizambert is a strong upholder of four cardinal principles in connection with the white plague. He stated that tuberculosis is not hereditary, that it is infectious, that it is curable, and that it is preventable. On this question he says in the report he made recently to the Hon. Sydney Fisher:

'I am more and more convinced yearly that consumption is mainly spread from the homes of those wage earners who live under the least favorable sanitary conditions, helped doubtless by the six "D's," damp, dirt, dust, drink, dissipation and destitution. It is there that the fight against it has to be made if it is ever to succeed and the disease be eradicated or even markedly diminished. The hospital for advanced cases and the sanatorium are good in their way for the help of the few, but even the sanatorium only reaches at the best incipient cases after they are already so far advanced as to be readily recognized. We must go further back than that. We must get at the homes of the incipient cases and the youngest members of their families while still uninjured. This can be done only by the domiciliary visit, to follow notification to the health officer, or the diagnosis at the dispensary that the cold or cough for what a cough mixture is sought is really due to tubercular trouble. The visitor to the home should be a woman. She can talk to and persuade the mother as no mere man could do. She can impress upon her the four cardinal facts which form a silver lining to the cloud which has so long shadowed us; that tuberculosis is not hereditary, that it is infectious, curable and preventable. Persuade her to adopt the open-air life for herself and her household; get her to improve the sanitary conditions in and around her home, and to allow the younger members of the family to be medically examined, and the most stringent precautions carried out in the case of any one of them who shows any tendency towards the development of tuberculosis. Thus and thus only can we hope to get at this disease at its source and origin; and thus and only may we hope to ever stamp it out.'

Japanese Pilgrims Showered With Molten Lava—Many Dead

Victoria, B.C., May 31.—News was brought from Japan by the 'Canadian Maru' yesterday, that when the annual festival of the Shrine, on the summit of Asama volcano was held, May 8, and several hundred pilgrims who had ascended to the shrine were returning, the volcano erupted and there was serious loss of life. A tremendous report, felt as far distant as Tokio, was followed by a column of lava and smoke rising several hundred feet, and the pilgrims were showered with molten lava.

Some corpses were found at the summit after the eruption shrivelled up by the red hot lava.

Searching parties found many bodies with the clothing, hair and portions of limbs burned away.

LIGHTING STRIKES AT TELEPHONE.

St. Clairsville, Ohio., May 31.—During a thunderstorm at Harrisville, Ada Morgan, a high school girl, while talking over the telephone was knocked unconscious, when lightning came in on the wire. The hair was burned from the left side of the head, one ear was badly burned, and a strip of skin an inch wide was burned on the girl's body, from th ehead to her feet where the shoe was torn off.

The Air is Germ-Laden

In the Springtime — Disease is Ready to Make You a Victim When the Blood is Thin.

Rich, Red Blood is the Greatest of Germicides—You Can Get the Blood Right by Using

DR. CHASE'S NERVE FOOD

When the blood is rich and red, when it is largely composed of red corpuscles, there is little chance for disease germs. They cannot thrive in the system which is filled with good blood.

But in the spring the blood is generally thin, weak and watery. It lacks the vitalizing red corpuscles and you become an easy prey to the germs of disease which seem to lurk everywhere at this time of year.

You can fortify yourself against the germs of disease by using Dr. Chase's Nerve Food. This great restorative treatment forms new, red corpuscles in the blood, makes the blood rich, red and healthy.

Weakness, tired feelings, stomach derangements and disorders of the nervous system soon disappear when Dr. Chase's Nerve Food is used.

This medicine cures by the building-up process, and for this reason its benefits are lasting. Nearly everybody needs something in the spring to enrich the bload and tone up the system, and it would be impossible to get a more satisfactory spring tonic than Dr. Chase's Nerve Food. Fifty cents a box, 6 for $2.50, at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

NAMES CHOSEN FOR STREETS

Cities, Famous Men and Some Not so Famous are Commemorated

NINETY-ONE DECIDED ON.

Feared New List is Not Issued in Time for New 1911 City Directory.

Cities like Toronto and Winnipeg, statesmen and politicians like Gladstone, Parnell, Paul Kruger, Fielding, Monk, Lord Grey, Beaconsfield and D'Arcy McGee; literary men like Dumas, Louis Veuillot and Lamartine; orators like Lacordaire, of Notre Dame; navigators like Drake and Cabot; scientists like Pasteur; artists, surgeons, early French-Canadian heroes, early French governors, bishops, early proprietors, and a small scattering of saints, are all embalmed for the benefit of directories and future generations in the ninety-one new names decided upon by Council at last night's meeting, to take the place of duplicate streets that came into the city in recent annexations. It is feared that the changes have been made too late to incorporate in the new city directory, which is almost complete, but Mr. Rene Bauset is trying to induce the proprietors to revise their work if possible. It would entail a great deal of inconvenience to them, and they have not yet promised that they can do it.

In the following list of street changes the original names of the streets are in alphabetical order. In each case the ward in which it is, and the new name are given in their respective orders. The changes are as follows:—

Adeline street, in St. Jean Baptiste ward, to Bonaventure, Albert, in Notre Dame de Grace, to Amyot Albert, in Papineau ward, to Compton; Albert, in St. Mary's ward, to Laforce; Albert lane, in St. Joseph's ward, to Tessier; Albert avenue, in St. Joseph's ward, to Habanel; Albert, in St. Denis ward, to Felelon; Balmoral avenue, in Notre Dame de Grace ward, to Hingston; Bernard street, in St. Lawrence ward, to Carmichael; Boulevard street, in Emard ward, to Randot; Champlain street, in St. Denis, to Marquette; Champlain street, St. Paul, to Champigny; Cherrier street, in Laurier ward, to Henry IV.; Cherrier, in Longue Pointe, to Nicholas Viel, Church avenue, in St. Paul ward, to Daulac; Davidson, in Emard ward, to Cardinal; Dorchester, Longue Pointe, to Honfleur; Dufferin avenue, in St. Paul ward, to Cabot (the famous navigator); Dufferin terrace, in St. Lawrence ward, to Prescott; Dufferin street, in Duvernay and St. Denis wards, to de la Roche; Dufresne, Rosemount ward, to Doblon; Dufresne, Longue Pointe, to Carillon; Dufresne, St. Denis, to des Ecores; Dufresne avenue, Delorimier ward, to Brule.

Edward VII. street, in Emard ward to Dumas, (a street of the same name in Longue Pointe ward remains); St. Emelie street in St. Henry ward to St. Ours; St. Elizabeth street in Papineau ward, to Dubuc, after a former cure of the parish; St. Elizabeth, St. Louis ward, to Bourdages who was a patriot with Papineau; St. Elizabeth du Portugal, in St. Henri, to de Courcelles, a governor of New France; Frontenac street in St. Paul ward, to Lavergne; George avenue, in Notre Dame de Grace, to Stephens, an early proprietor there; Highland avenue, Notre Dame de Grace, to Wright; Huntley street, St. Denis to St. Valier, Jarry street; Emard to Duquesne; Lagauchetiere, Longue Pointe, to Vaudreuil; Lagauchetier lane, St. Louis, to Goupil Lasalle, Duvernay, to de Lanaudiere, an officer who fought at Carillon; La Salle, St. Paul, to Le Caron; Levis street, St. Paul, to Drake; Maisonneuve avenue, St. Paul to Roberval; Maple avenue, St. Anne, to Parnell; Maple avenue, Notre Dame de Grace, to Fielding; Mill street, St. Paul, to Borden; Molson avenue, St. Paul, to Gladstone; Molson avenue, Notre Dame de Grace, to Monk; Mt. Royal avenue, Longue Pointe, to Louis H. Frechette (Canadian poet); Osborne avenue, Notre Dame de grace to Beaconsfield; Osborne avenue, Emard, to D'Arcy McGee; Pacific avenue, Laurier and St. Denis wards, to Marchand; Pacific avenue, Notre Dame de Grace, to Etienne Parent; Plateau avenue, Notre Dame de Grace, to Toronto; Rachel street, Hochelaga, Rachel, Longue Pointe, to de Montarville; Rachel, Hochelaga, to Beauce; Ryan avenue, Emard ward, to de Razilly; Ryan avenue, St. Denis, to Drucour; Sanguinet street, running north from St. Louis Square, to Henry Julien (late artist of Montreal); St. Catherine Road, Mt. FRIEND OF THE PRINCE

Leopold of Battenberg and Mr. C. G. Greenshields Met in Egypt

Few people who read the announcement of Prince Leopold of Battenberg's arrival in Montreal yesterday afternoon were aware that His Highness had a personal friend here. Some surprise was therefore caused amongst the patrons of the Orpheum Theatre last night when the Prince was seen occupying a box with his physician and companion, Dr. McIlroy, and a Montreal gentleman, Mr. C. G. Greenshields, son of Mr. J. N. Greenshields, K.C.

It transpired, however, that young Mr. Greenshields and Prince Leopold were old friends, having met some five years ago in Egypt, and became attracted to one another. Both were then boys of seventeen, and on parting arranged to sustain the friendship. Prince Leopold brought withh him to Montreal a letter he had received from his Canadian friend containing the latter's address. He was not long in the city before the old friendship was revived, and the two friends were touring the city in an automobile, winding up the evening by an informal visit to the Orpheum.

Prince Leopold leaves this evening at 4.40 for Quebec, where he will stay at the Chateau Frontenac. He sails on the 'Empress of Ireland' on Friday. His Highness spoke very highly of the Canadian hotels, and stated that he was treated in a perfect manner at the Place Viger. He travelled from Vancouver in the C.P.R. special car 'Canada.'

INQUIRY MUST BE HELD.

Passengers Demand Investigation into Wreck of the 'Bruce.'

That an investigation is to take place into the wrecking of the SS. 'Bruce' is the declaration of Mr. A. J. Grubert, of Montreal, who was one of the passengers on the ill-fated vessel. He declares that the passengers are determined not to let the matter rest, and brings serious charges against the crew of the steamer. The 'Bruce' belonged to the Newfoundland Government, and Mr. Grubert states that an effort will be made to have the enquiry held in England. He alleges that the passengers were put ashore 'like so much seaweed' and left to shift for themselves; their baggage was looted by the crew, and no arrangements made to send them to their destination, even though it was known they had lost their money and tickets. 'We shall insist on finding out,' he says, 'why on a clear bright night, in face of the Scatarie, East Point and Point Nova lights, we were landed on Cape Breton Point. Why were we out of our course? We will also make it a point to find out whether a special permission or toleration did not exist by which the 'Bruce' was to do ferry service between North Sydney and Port au Basques, and whether the running to Louisburg was going beyond that special ferry service arrangement.'

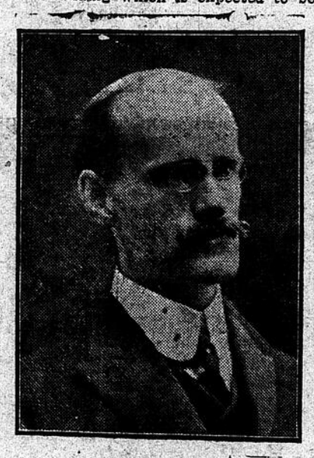

Y.M.C.A. ANNUAL MEETING

Prof. Bland Deprecates Attitude of Workers Who are Slaves to Convention

DIRECTORS' REPORT.

The Westmount and North End Branches Expected to be Completed This Year.

For the last time the annual meeting of the Young Men's Christian Association was held in Dominion Square headquarters last night, under the presidency of Mr. John W. Ross. When next the directors and friends of the organization meet to review the year's work, it will be in the new building which is expected to be

MR. J. W. ROSS.

ready for occupation next March.

Supper having been disposed of the business of the meeting was opened with an address by the Rev. Professor Bland on evangelistic work. Personal service, he said, was one of the greatest needs of the Christian Church and the realization of the obligation

THE REV. PROF. BLAND.

and privileges attached to it would bring measureless results. He deprecated the attitude of some workers in the churches, who seemed unwilling to depart from the conventional methods of work and deal face to face and heart to heart with man. The Church was charged with the message of Christ to men. Prayer, training and leadership were essential in order to deliver that message to the people in the streets and on the squares.

The first report read was that of the board of directors presented by Mr. D. A. Budge, which after stating that the year just concluded was one of unusual anxiety for the directors, went on to say that the enormous details in connection with the erection of a new central building and two branch buildings have been carried by a building committee, of which Mr. R. C. Holden acted as chairman. The work on the buildings had progressed so well that the architects had promised the completion of the Westmount and north end branches in November or December, and the central building not later than March, 1912. The four calls made on the building fund had resulted in a sum of $245,400 being received up to April 30. A special committee had been appointed to investigate conditions in the east end with a view to ascertaining the opportunities for the association existing there.

The visit of Mr. F. S. Brookman and J. R. Mott last summer had resulted in a sum of $40,000 being raised for the building of Y. M. C. A. quarters at Canton, China. A branch of the association had been formed amongst the Italian young men of the city, and was doing well as was the Chinese branch.

Amongst other subjects dealt with in the directors' report were the physical exhibition given at the Arena on April 7, the Canadian summer school at Lake Couchiching, and the boys' camp at Lake Kanawana.

The death of Mr. Charles Cushing was touchingly referred to.

The directors recommended the pressing need of a larger number of members taking part in the volunteer working force of the association, especially along the lines of enlarging and improving the Bible study and religious work programme, strengthening the industrial work, co-operating more fully with the Boy Scout council and establishing in the association a training school for the development and instruction of lay workers, in order to meet the urgent demand which presses upon them from every quarter for efficient and volunteer workers.

The financial report showed receipts for the year were $9,971, and expenditure $9,888, leaving a surplus of $82.

The central branch report read by Mr. J. W. McConnell, showed that 2,284 men and boys had been enrolled in membership in all departments, and 5,201 men had attended public religious meetings. The number attending the evening school was 486, with a total attendance in twenty-two courses of 12,640.

In the physical department a big advance had been made all along the line. Seven hundred men were enrolled in the physical classes. A gratifying feature of the year in this department was the extension work. Four of the leaders had conducted physical classes in Sunday Schools, and in this way 176 boys outside the association had been reached.

The report further stated that a noteworthy advance had been made in the boys' department, and that the social side of the work had been most successful. Thanks were expressed to the Ladies' Auxiliary for their continued helpful service.

The most important item in the report of the railway branch, Point St. Charles, presented by Principal W. A. Kneeland, was the announcement that a lot for a new building had been secured on Wellington street at the corner of the new park. The year had been one of exceptional anxiety owing to the strike on the Grand Trunk, during which the association had remained neutral. The year closed with a surplus of a few dollars.

Fairmount branch reported that the year closed without a deficit, and that subscriptions had increased by $200, and membership by 108, making a total of 317 members now enrolled.

McGill Y. M. C. A., Strathcona Hall, reported a year of good work, but regretted the present state of the branch's finances would not permit of much extension work being done, though this was badly needed considering that out of twelve hundred students in the university there was an average attendance of only seventy-five at the Bible classes.

Judge Leet formally moved that the reports be adopted, which was carried, as was also the re-election of the outgoing directors.

CONFECTIONER ROBBED.

The confectionery store of F. C. Berard, 1777 St. Catherine street east, was entered last night by thieves and three or four hundred dollars was taken from a room in the rear of the store. A man was seen to leave the premises by a back lane. The police were notified, but nothing has as yet been seen of him.

NOVI-MODI WARDROBE, - 556 St. Catherine Street West, Montreal

WANTED IN ENGLAND.

Two Arrests at Hamilton to End in Deportation.

Hamilton, Ont., May 31.—Detectives Bleakley and Sayers arrested this afternoon William Arthur Monck, alias Arthur Burrows, and Frank Jacobs, alias Frank Jones, wanted in Birmingham, Eng., for absconding with $5,000. Monck was a wholesale butcher and cattle merchant in Birmingham, Jacobs being his clerk. Six weeks ago the business failed, and the two departed with funds which, it is stated, should have gone to the creditors.

They sailed for this country from Southampton on the steamer 'Teutonic,' and their photographs and descriptions were distributed in all the large cities and towns. By these photographs the two detectives recognized the men, and it is probable that the provincial authorities will take steps to have them deported to England. Monck is 25 years of age, while Jacobs is 23. They had little money when arrested.

INJURED ON THE WHARF.

A piece of steel struck Tameske Krista, a Pole, aged 30, on the back whilst he was working at the wharf last night. His injuries are internal. They took him to the General Hospital.
