SLAUGHTER OF ETHIOPIANS ORDERED

All Connected With Viceroy Assault To Face Firing Squad

Premier Mussolini Gives Direct Orders for Firing Squad Activities—Attempted Assassination of Viceroy Rodolfo Graziani at Addis Ababa Taken to Indicate that Italian Control Over Ethiopia is Far from Complete—Thousands Held in Connection with Assault.

Addis Ababa, February 22.—All Ethiopians connected with the attempted assassination of Viceroy Rodolfo Graziani will be shot by Italian firing squads on direct orders from Premier Mussolini, colonial officers announced today.

A second series of instructions from Mussolini decreed death for all native chieftains continuing opposition to the Italian Government, they declared.

Reprisals for the wounding of Viceroy Graziani and several others during a celebration Friday will be "extensive and summary," the Fascist commanders said.

The Viceroy, the Abuna Cyril, Coptic Bishop of Ethiopia, and Aviation General Aurelio Liotta were wounded when Ethiopians tossed hand grenades in the midst of the official party at a festival honoring the birth of King Victor Emanuel's grandson.

"The punishment will go beyond ordinary reprisals," the officers said, "to obtain a demonstration the new conqueror will not stand for opposition."

ITALIAN SUBJUGATION OF COUNTRY IS UNCOMPLETED

London, Feb. 22.—The Italian authorities have failed to establish control in Ethiopia, The Manchester Guardian said today in commenting on the attempted assassination of Viceroy Rodolfo Graziani in Addis Ababa.

The only progress accomplished by the Italians is in the field of education, the newspaper said. "Native boys were organized in formation like the Balilla and are taught with some success to march, salute, wave flags and blow trumpets," the paper declared.

"So far the Italians have failed to establish any control in Abyssinia except over the most restricted areas, and even in these their control is precarious."

"They are still engaged in what seems to be an interminable struggle with the so-called insurgents. The insurgents are simply Abyssinians who have not given up the fight. They are not numerous and are outnumbered by the Italian armies of occupation, but show great audacity. They seem to carry out raids with great impunity."

"The initiative is almost entirely in their hands and they hem the Italians in and keep them in a state of apprehension the whole time."

ETHIOPIAN CAPITAL IS NOW ON WAR-TIME BASIS

Addis Ababa, Feb. 22.—Marshal Rodolfo Graziani, viceroy of conquered Ethiopia, brought thirty thousand soldiers to the capital today to quell any possible uprising growing out of the attempt to assassinate him and members of his retinue.

Under express orders from Premier Mussolini, the city was placed on a war-time basis while Italian carabinieri and blackshirts rounded up.

Polish Citizens Rally To Support Of Nationalist Policy For Future

Elimination of Communism, Stronger National Defence, End of Anti-Semitism, Religious Freedom and Individual Initiative in Industry Keynotes of Sweeping Plan for Future Development of Poland.

Warsaw, Feb. 22.—Col. Adam Koc's design for a sharply nationalist future for Poland—a pattern inspired by her strong man, Marshal Edward Rydz-Smigly—drew today the support of more than two billion Polish citizens.

The Union of Former Army Men was the first organization to pledge support, followed by messages to Premier Felicjan Slawog Skladkowski from the Polish Boy Scout organization and from several trade unions.

The sweeping plan was outlined in a thirty-minute broadcast yesterday by Colonel Koc, former President of the Bank of Poland. The points he outlined:

Communism—"We reject Communism, which is wholly alien to our national spirit."

Defence—"The entire nation must concentrate on national defence."

Russian Rearmament Replaces China As Japan's War Danger

Minister of War Tells Japanese House of Representatives that Tremendous Increase of Soviet Army in Asia Necessitates Japanese Army's Replenishment Programme—Steadily Growing Strength of Chinese Central Government Brings Modification of Policy to China.

Tokyo, Feb. 22.—The Japanese Government, reported ready to mend its strained relations with China, turned its attention to Russian armament in Siberia today and told Parliament that was the reason for increased military expenditure.

Shortly after an official Government spokesman had indicated a distinct modification of policy toward China, Gen. Gen Sugiyama, Minister of War, told the House of Representatives a tremendous increase in the Soviet army in Asia necessitated the Japanese army's replenishment programme.

The Japanese forces, the War Minister declared, were decidedly inferior to the Soviet's Far Eastern army, which he said now totalled fifteen divisions.

At the same time complicated recruiting regulations were abolished.

Modification of the Chinese policy was believed to have been brought about, in part, by the steadily growing strength of the Nanking Central Government.

The spokesman indicated the Government was willing to abate its demands for simultaneous settlements of all pending Sino-Japanese incidents and negotiate separate settlements for each.

The Japanese press, as an indication, please turn to page 5, col. 2.

The Reich's armed force and the Nazi party are indissolubly bound together," the Marshal declared. "One cannot be a good soldier without being a good Nazi."

Bloomberg's unusual emphasis upon this inter-relationship was believed to have been prompted by two circumstances:

1.—Certain generals are known still to hold their oath of allegiance binds them to Hitler personally as commander-in-chief but that the Nazi party can be a matter of indifference to a soldier.

2.—Many Germans who have declined to accept Nazism have clung tenaciously to the hope that Germany's most powerful body—her armed force—in taking into its hands all young men for universal military training, would rear them in a spirit opposed to Nazism.

Church—"The Roman Catholic Church, to which Poles have been faithful throughout the centuries, should occupy a special place in the country, while all other creeds must be treated with traditional Polish tolerance."

Industry—"We respect private property and individual initiative but the state must have the right to regulate production, especially that relating to national defence."

Agriculture—"Many large estates must be parcelled among the peasants but this should be done gradually so as to avoid economic disturbance."

CHURCH BUILT BY FRENCH MISSIONARIES DESTROYED

Montreal, Feb. 22.—The ancient Roman Catholic Church at Pointe aux Trembles, built by pioneer French missionaries 232 years ago, was destroyed by fire last night.

Loss in the destruction of the church, believed the oldest on Montreal island, was set tentatively at \$50,000. But its historic and sentimental value was far more than this intrinsic worth, for the structure was a religious link with the old days of French occupation in Canada.

It was built, in 1705, by the Recollet Fathers and was one of the few remaining survivals of the New France in the Montreal district.

The fire for a time threatened the nearby convent of Ste. Therese de l'Enfant Jesus, and the flames were controlled only just in time to turn aside evacuation of the four-story structure.

AUSTRIAN NAZI SALUTE GIVEN GERMAN ENVOY

Scores of Nazi Sympathizers Concealed in Crowd of Fifty Thousand Greeted Konstantin Von Neurath with Cries of "Heil Hitler!"

Vienna, Feb. 22.—Shouts of "Heil Hitler!" from scores of Austrian Nazis concealed in a crowd of fifty thousand persons greeted German Foreign Minister Konstantin von Neurath on his arrival here today for a series of conferences with Austrian statesmen.

Despite carefully-laid plans by Vienna police to prevent the expected Nazi demonstration, the pro-Germans managed to gather in small groups at the station and later at the Hotel Imperial to greet von Neurath with the Nazi salute.

The Nazis managed to create only a minor tumult today, however. In general they were swallowed up by the huge crowd which turned out to greet von Neurath and his party.

The cry most frequently heard was a simple "Heil!"

One woman died after being struck over the head during a slight disorder in front of the Fatherland Front's headquarters. An investigation was ordered after preliminary statements attributed her death to a heart attack.

The exact line of von Neurath's discussions here with Chancellor Kurt von Schuschnigg and other Austrian officials has not been officially revealed. It was generally believed, however, that the Reich Foreign Minister will attempt to bring up the question of a possible Hapsburg restoration, to which Germany is strongly opposed.

Mussolini Preparing To Call A Million More Men To Arms

Reserves Comprising Men from Thirty-Three to Thirty-Seven, Who Are Passing Prime as War Material, Affected by Partial Mobilization Order—Described as Routine Post-Military Training Measure—Campaign to Suppress Insurgent Ethiopian Native Elements Launched.

Rome, Feb. 22.—A terse one-sentence communique today warned the one million Italians of the conscript classes from 1900 to 1904 to be ready to answer a Fascist call to arms within the next few months.

The reserves affected by the partial mobilization order are men from thirty-three to thirty-seven who are passing their prime as war material. Premier Mussolini was considered in informed quarters to have called out these particular classes to emphasize that men of all ages must be ready to fight.

The mobilization was described as a routine post-military training measure. Throughout Italy, more than 1,500,000 soldiers will be on duty during the short time the conscript classes are kept under arms.

LEGIONNAIRES SEEKING GRATUITY FOR WAR SERVICE

Milford, Mass., Feb. 22.—More than 150 Canadian legionnaires from Massachusetts and Rhode Island adopted a resolution at a meeting yesterday requesting a gratuity from the Canadian Government of one dollar a day for each day's services during the Great War, and thence to London.

DOMINIONS ARE FREE TO DECIDE DEFENCE STAND

Baldwin Asked if Hoare's Speech Represented Policy of Government in Relation to Imperial Defence and Co-operation of Dominions.

London, Feb. 22.—Prime Minister Baldwin in the House of Commons this afternoon laid down the principle that member states of the British Commonwealth of Nations have complete freedom to decide for themselves their policies on defence.

The point arose on a question by Arthur Henderson, Labor, asking the Prime Minister whether the speech of Sir Samuel Hoare, First Lord of the Admiralty, at Bradford on February 5 represented the policy of the Government in relation to imperial defence and the co-operation of the Dominions.

In his speech, Baldwin replied, Sir Samuel made no new statement of policy. The subject was the "common defence."

Kurt von Schuschnigg and other Austrian officials has not been officially revealed. It was generally believed, however, that the Reich Foreign Minister will attempt to bring up the question of a possible Hapsburg restoration, to which Germany is strongly opposed.

SPEEDY ACTION ON U.S. COURT REFORM URGED

Expected that Measure Providing for Voluntary Retirement of U.S. Supreme Court Judges at Seventy Will Reach Senate this Week.

Washington, Feb. 22.—United States administration leaders responded today to President Roosevelt's request for speedy action on his court programme by seeking immediate Senate committee approval of voluntary retirement on full pay for seventy year old Supreme Court justices.

They said there was little doubt the judiciary committee would agree quickly on the bill, already passed by the House of Representatives. It may reach the Senate floor for debate by mid-week.

Some Senators have expressed the opinion that enactment of the measure, which supplements the President's recommendations, might result in one or two withdrawals from the high tribunal and ease tension over the court issue.

Opponents sought to split the President's proposals into two acts, one providing for a speed-up of lower federal courts and the other authorizing up to six more Supreme Court justices if members over seventy do not retire.

Senators who conferred with Mr. Roosevelt late Saturday, when he gave the "go ahead" signal, indicated there would be no compromise.

Senators who have not yet committed themselves still held balance of power, Senator Nye, Republican, North Dakota, came out last night against the programme, bringing the number of announced opponents to thirty-two. Senator Green, Democrat, Rhode Island, at the same time expressed support, bringing to thirty-two those who have publicly avowed it.

PAYING TAXES ON A BIG SCALE

Troy, Vt., Feb. 22.—An American farmer, Melvin J. Dunn, father of four children, has claimed the distinction of paying tax bills to more taxing bodies than any other citizen of the United States.

Because his thirteen-acre farm is situated two-thirds in Canada and one-third in the United States, he said he paid taxes to the two nations, two towns, a state, a province, and a county.

New Difficulties Enter Troubled Situation In United States Industry

Automobile Workers' Union Seeks to Become Sole Bargaining Agency for Chrysler Corporation Employees—Drive Impending to Unionize United States Steel and Oil Industries—Believed United States Federation of Labor May Enter Oil Fields Dispute.

The avowed intention of the United Automobile Workers of America to become the sole bargaining agency for Chrysler Corporation employees shared attention today with announcements of impending drives to unionize the United States steel and oil industries.

An organization director of the U.A.W.A., a unit of the Committee for Industrial Organization, announced at a union mass meeting in Detroit last night the group would make overtures to Chrysler officials this week.

John Brophy, executive director of the C.I.O., said its 280 steel union lodges would soon discuss demands on officials of the steel industry.

A campaign to organize the oil fields, said Harvey C. Fremming, president of the International Association of Oil Field, Gas Well and Refinery Workers, will begin at Houston, Tex., about April 1st with C. I. O. support. There were reports that the C. I. O.'s rival, the American Federation of Labor, also would campaign to unionize the oil industry.

The stalemate between some eighty sit-down strikers and officials of the Fansteel Metallurgical Corporation in North Chicago, Ill., persisted. The factory management said it would not negotiate with C. I. O. organizers. The strikers said they would not deal without them.

C. I. O. representatives in Newark, N.J., said they had made headway in New Jersey despite Governor Harold G. Hoffman's warning he would use every resource to bar sit-down strikes.

In Detroit, Walter L. Fry, president of a seat cover manufacturing concern, remained in his office determined to "sit it out" as long as the group of strikers were on a sit-down in his factory.

In New York, pickets employed by thirty-two wholesale dry goods dealers protested in front of the wholesale dry goods employees union headquarters. The dealers contended, through their picket proxies, the union denied them the right to bargain collectively.

Col. Albert H. Whitcomb, commanding the National Guard in militia-ruled Anderson, Ind., intimated the troops would be recalled soon. The guardsmen took over the city after ten persons were shot in a fight between unionists and anti-unionists.

Sit-down strikers, said by strike leaders to number more than two thousand, held seven Detroit plants. Some 1,300 women were said to be involved in the disputes at four cigar plants.

WOMAN'S QUESTION CAUSED A SCENE IN BRITISH HOUSE

London, Feb. 22.—Ellen Wilkinson, Labor, uttered a brief scene in the House of Commons today by demanding:

"Can we have some guarantee that we shall not be insulted by the presence of General Goering as Germany's representatives at the conference?"

She refused to General Hermann Goering, second only to Chancellor Hitler in the Third Reich.

Some Members shouted "order!" "shame!"

Viscount Cranborne, Under-Secretary for Foreign Affairs, to whom the question was addressed, replied:

With the Insurgent Forces, Outside Madrid, Feb. 22.—Insurgents drove up the Jarama River Valley today in the heavy fighting and were reported to have seized about four miles of Madrid's vital Valencia highway.

Insurgent officers declared General Franco's men rapidly were closing the door between Madrid and the remainder of Government-held Spain.

From emplacements in the Vaciadad sector insurgent field pieces shelled the Guadalajara road.

Freer Imports Of British Textiles Probable Highlight Of Next Budget

Intention of Including New British Trade Agreement in Budget to Be Submitted Thursday Will Probably Lengthen List of Tariff Changes to Be Announced by Finance Minister Dunning—Expanding Revenues

Ottawa, Feb. 22.—The House of Commons was expected to continue consideration of National Defence estimates today, but public interest was concentrated on the budget Finance Minister Dunning will bring down Thursday.

Observers began their usual pastime of trying to guess what would be in the budget, and it was taken for granted improved revenue during the last year would make it a more cheerful document than those of the past several years.

This year's budget will contain a new trade agreement with the United Kingdom, probably lengthening the list of tariff changes. The major change, it was said, would probably be in schedules affecting textiles, allowing freer imports of such goods from the United Kingdom.

Defence estimates, already subject of a four-day debate, were expected to have stormy passage at the hands of the Conservatives, who remained silent during last week's debate on the non-confidence resolution of Grant MacNeil, (C.C.F., Vancouver North).

Should passage of the money for defence prove easier than expected, the House may proceed to estimates of the Post Office and National Health departments. In addition the Government has before the House a number of bills. It might call for third reading of the bill to extend the Prairie Farm Rehabilitation Act. First reading of the bill to negative the gold clause in bonds, second reading of the Foreign Enlistment Act, first reading of a bill to establish a combines commissioner under the Weights and Measures Act.

BLUM CABINET PLANNING NEW LABOR REFORM

Extension of Forty-Hour Week, Increased Wages and Social Insurance Among Measures Being Studied by Popular Front Government.

Paris, Feb. 22.—The French People's Front Government, solidly entrenched after more than eight months of the "Blum experiment," has set about expansion of its Socialist programme.

Premier Blum has proposed to his Ministry, for submission to Parliament, a new series of social reforms, providing especially for a national unemployment fund, old age pensions and insurance against agricultural calamities.

When Parliament started its regular 1937 session, one of the most controversial measures passed in 1936—the forty-hour week—affected 4,429,120 workers: Miners, metal workers, bakers, building, textile, publishing and railroad hands.

Collective labor contracts, providing increases of seven to fifteen per cent in wages, and two-week vacations with pay, were already installed throughout virtually all French industry.

The compulsory arbitration law, providing that labor disputes must be submitted to a fixed procedure of settlement before a strike or lock-out can be declared, was applied in January.

This measure, coupled with police evacuation of factories occupied by stay-in-strikers, cut short threats of the renewal of the movement which accompanied the advent of the People's Front to power on June 4.

With new social measures in prospect, meaning more money spent by the Government and private industry for the benefit of workers, the opposition protested the programme was pushing prices up so rapidly that all benefits from the franc devaluation last September would be lost.

When the value of the franc was cut thirty per cent, the operation was calculated to help export trade by making prices of French products lower to foreign buyers.

Premier Blum personally answered his critics: "Improvement in the economic situation is already an accomplished fact, and we shall see in an early, second phase, its repercussions on the whole of the financial situation."

QUALITY OF FRENCH USED IN QUEBEC IS DEFENDED

Dominion French Archivist Replies to Criticism of Dominion Drama Festival Official Against Language of Quebec Province.

Ottawa, Feb. 22.—The French language spoken in the Province of Quebec, of which George de Warfaz, regional adjudicator of the Dominion Drama Festival, termed "the French of the sixteenth century and not the French spoken by cultured Parisians."

Last week Dr. Arthur Beauchesne, Clerk of the House of Commons, defended the language against Mr. Warfaz criticism.

"But I admit the Quebec French has not imported the Parisian slang familiar to Mr. de Warfaz. Fancy reproaching an Anzhi-Sakou for using words written by Milton and criticizing him for not blending it was Covent Garden slang."

RACKET-RIDDEN MONTREAL WILL BE CLEANED UP

Mayor Raynault Is Bent Upon Ridding Canadian Metropolis of Criminal Activities Which Operate Under \$1,250,000 a Year Protection Scheme.

Montreal, Feb. 22.—Racket-ridden Montreal had it from J. J. Penverne today that this city's criminals work within the bulwark of a \$1,250,000-a-year protection fund and that Mayor J. Adhemar Raynault is out to clean them up.

"Grimly determined to 'let the chips fall where they may,' the mayor will send his forthcoming racket and vice inquiry into every form of organized crime, Penverne said last night as he came back from a Raynault-ordered survey of the noted Dewey probe in New York.

Montreal's war on the racketeers and vice overlords is to be waged on the model laid down by prosecutor Thomas E. Dewey. Penverne indicated a staff of special investigators, probably under Penverne himself, will first go after gambling, disorderly houses, alcohol-runners and what the lawyer calls "wholesale stealing of elections."

The election "steals," according to Penverne, are delivered by criminals as one of their services for protection.

Other forms of crime to be investigated include a variety from social welfare frauds to loan sharks and other business crooks.

Penverne has estimated that, apart from the \$1,250,000 protection money figure, these and other rackets are milking Montreal's 1,000,000 people at the rate of around \$200,000,000 a year.

"And it will get worse if we don't get it at the start," he declared. It was proposed, he said, to send specialists after specialized crime with a force that would be somewhat distinct from the police and "wholly separated from politics."

The lawyer will report this week to Mayor Raynault on his New York visit, and it is expected the investigation will be launched in a month or so.

REVENGE LURKS DEEP IN MINDS OF PRISONERS

Ontario Reformatory Inquiry Told Only Very Small Percentage of Prisoners Have Any Intention of Going Straight After They Have Served Terms.

Guelph, Ont., Feb. 22.—"A very small percentage of prisoners in the bull gang doing pick and shovel work say they are going to go straight when they get out," a prisoner told the Ontario Reformatory Inquiry today.

"Most of the conversation is about how they're going to get even when they get out," he said. "They discuss crimes they have done and are going to do."

"They discuss how they can do a crime better next time without being caught," suggested Gordon Gillanders, Commission counsel.

"Yes," replied the prisoner. "There's one young kid in there for stealing a quart of milk, but he's learning now how to crack open stores and safes."

PROSECUTOR IS ENCOURAGED BY LATEST 'BREAK'

Hackensack Official Calls Special Conference of Law Enforcement Officials to Obtain Extra Funds to Press Investigation into Slaying of Union Agent.

Hackensack, N.J., Feb. 22.—Encouraged by unexpected progress in the R. Norman Redwood murder mystery, Prosecutor John J. Breslin went before an extraordinary law enforcement conference today with his plans for pressing action in the case.

"Everything depends on the conference," he said, declining to discuss the unlooked-for developments of the last twenty-four hours. His confidence, however, contrasted with his attitude two days ago when he said chances of a complete solution in the case were one in a hundred.

Regarded as an important "break" was a girl's description of the automobile in which "four or five" men, believed to be the killers, rode to the scene of the crime. The prosecutor said this tallied with "confidential information received from other sources."

Breslin continued uncommunicative on his reasons for summoning a meeting of judges and county officials, but informed sources expressed belief he was seeking a large appropriation for an exhaustive investigation and the murder trials possibly resulting.

Labor and union disputes, in Breslin's opinion, hold the secret of why Redwood, English-born business agent for a New York subway workers' union, was shot to death by a squad of gunmen near his Tenack home on Friday night. If funds were forthcoming, it was believed, the investigation would immediately focus on these disputes.

Momentarily in the background as the conference convened was the figure of Samuel R. Rosoff, bulky figure of a millionaire and man of many enterprises, sought by Breslin for questioning. Secluded in New York, Rosoff stood firm on his refusal to come to New Jersey for examination.

DOMINIONS ARE FREE TO DECIDE DEFENCE STAND

plete freedom of member states of the British Commonwealth of Nations to decide for themselves for policy of defence.

"While the great burden of defence expenditure falls on Britain," Baldwin went on, "He (Sir Samuel Hoare) once again declared that it would be a grave mistake if we tried to impose some rigid plan upon the other members of the Empire."

Similarly, as to economic questions, which had been, or might be reached, must result from a common outlook and spontaneous desire for cooperation.

Henderson put a further question. Was the Prime Minister not aware, he asked, that in the course of the same speech the First Lord of the Admiralty had said that local Dominion schemes were both extravagant and inefficient, and that the Times had published a report from its Ottawa correspondent to the effect that the Canadian Government were gravely embarrassed by the statement. Could the Prime Minister now do something, Henderson pursued, to prevent these "ministerial indiscretions?"

Baldwin: "The latter part of the question is inaccurate because I have been in communication with the Canadian Government. What did happen is that what I believed were called abbreviated—which some people might call garbled—reports were sent across to Canada and they were used, as those one might expect to use them, as sticks with which to beat the Canadian Government. We had no complaints from the Canadian Government."

William Gallacher, Communist, then had a question. In view of the fact that Canada had a progressive government, Gallacher asked, might the House not take it that those using sticks with which to beat the Canadian Government were Conservatives?"

The House laughed. Baldwin did not reply. "Does the Prime Minister not realize that the authority for my statement is the Times, which is a supporter of the Government?" Baldwin: "I did not question the honorable gentleman's authority. I read the speech in the first person and made myself acquainted with it."

The Prime Minister closed with an ironic touch which sent a laugh around the Chamber. "I am very grateful," he said, "for the opportunity the members of the House give me of reading these speeches very carefully."

ESTABLISH NEW STEEL ROLLING OUTPUT RECORD

Synchronizing of High Power Electric Motors Allows Production of Sheet Steel at Rate of Half-a-Mile a Minute.

Pittsburgh, Feb. 22.—Sheet steel, which is one-quarter of the American steel business, is coming out of the rolling mills at the unheard-of speed of nearly half a mile a minute.

The steel, in sheets up to one hundred feet wide and one thousand feet long, is produced twice as fast as newspaper, whose approximate one thousand feet a minute was long a high mark for industrial speed.

The new record is the story of applying electricity to steel production. Motors which aggregate as much as 50,000 to 60,000 horse power and run the steel over a "fractrack" different from any mechanical course known in nature, were described today by G. E. Stoliz, of the Westinghouse Electric and Manufacturing Company.

Seven of these motors stand in a row in the rolling mills. They are spaced twenty feet from centre to centre. Each runs a set of rollers capable of pinching steel, either hot or cold, like dough under a rolling pin.

Into the rolling jaws of the first unit in line goes a slab of steel that may be eighteen feet long, three to four feet wide, and half a foot thick. This slab moves slowly, a few feet a minute. Yet it is never broken, as it passes from motor to motor, and it leaves the last one travelling two thousand feet a minute. The secret is that the same weight of steel per second comes out at the end of this race-track as goes in at the start.

As each roller flattens the steel, the outgoing slab or sheet speeds up, like paste squeezed from a tube. If one roller flattens the sheet by half, the next one must be running at twice the speed to carry it forward. At the finish the steel may be only 1-20th of an inch thick.

UNITED STATES MEAT IMPORTS CREATE RECORD

Government Experts Predict Imports During 1937 May Exceed Figure for 1936 and 1927-29 Record Years.

Washington, Feb. 22.—Government meat experts predicted today that imports by the United States this year may exceed the 572,000,000 pounds that came into this country in 1936.

The Bureau of Agricultural Economics said imports last year were exceeded only by the record years of 1927-29, and consisted chiefly of live cattle from Canada and Mexico and canned beef from South America.

Imports from Canada this year will be controlled by beef prices in this country and supplies in Canada, the Bureau said.

Live cattle imports last year numbered 410,000 head, compared to 378,124 in 1935 and an average of 253,000 for the ten years ending in 1932.

Reduced duties under the Canadian-United States trade agreement caused part of the import increases, the Bureau said, but added imports would have increased "considerably even if there was no change in duty."

Canned beef imports this year may surpass the peak total of 88,000,000 pounds in 1936, the Bureau said. The previous canned beef import record was 80,000,000 in 1929.

MONTREAL LIVE STOCK MARKET

Montreal, Feb. 22.—Local live-stock receipts were made up of 876 cattle; 370 calves; 61 sheep and lambs; and 2,027 hogs.

Cattle prices were steady to a shade firmer in spot. Good steers made from \$6.25 to \$7, with a couple of the best loads holding for more money. Medium quality steers sold from \$5.25 to \$6 and common steers from \$4 to \$5, heifers ranged from \$3.50 to \$5.50, good cows from \$4 to \$4.50, mostly \$4.25 to \$4.50, with medium cows at \$3 to \$3.75 and common butchers \$2.50 to \$3. Cannors and cutters were \$1.75 to \$2.25 and bulls were quoted at \$3 to \$4.75.

Cofferings of calves were very light and prices were firm to fifty cents higher than the close of last week. One good veal made \$10, with medium to medium good kinds up to \$9. Plain to just medium calves sold in mixed lots between \$8 and \$8.50, with common light veals down to \$7. Drinkers ranged from \$5 to \$7 and grassers ranged from \$2.75 to \$3.50.

Lambs were mostly bucks, selling from \$7 to \$8, sheep were from \$3 for common kinds to \$5 for good heavyweights.

Hogs were unchanged. Bacon was \$8.00, fed and water hog. Selects drew one dollar per hog. Butchers an heavier were \$8.10, extra hams and lights \$7.60 and sows from \$6.25 to \$7.

running east from the capital, the only trunk highway now remaining open.

A government force estimated by the insurgent command at 35,000 men massed in front of the attackers in a dogged attempt to restrain the push up the Jarama.

Insurgent officers added that repeated counter-attacks by Madrid's defenders had been repulsed. The Socialists, they said, were finding it difficult even to retain positions against localized attacks.

The overwhelming victory at Malaga on the southern Mediterranean coast two weeks ago and the lack of government resistance to the insurgents' subsequent advance on Almeria to the east of Malaga permitted an increased concentration of Fascist troops on the Madrid front, the officers said.

The insurgent command, meanwhile, declared General Franco's forces in Aragon, to the northeast, had cut into government territory in a suddenly renewed thrust toward the Mediterranean Coast.

In a sector between Teruel and Saragossa, it was said, one hundred dead were left by retreating government troops.

(A report to Madrid said more than one thousand insurgents were killed when the Aragon seaward thrust was beaten down.)

Madrid, Feb. 22.—The Spanish Government smashed at the insurgent foe and claimed victories today on three fronts—in Aragon to the northeast, at Oviedo in the northwest and in the Jarama river sector at Madrid's very door.

BOWLING RESULTS OF LADIES' INTER-CHURCH LEAGUE GAMES

The Lady Amateurs and the Plymouth "B" entry registered the only two-point triumph in last week's Y. W. C. A. Inter-Church Bowling League games. The Lady Amateurs blanked St. Andrew's Guild, while Plymouth "B" accomplished a similar feat at the expense of Plymouth "A". The other two games resulted in division of points. The Andrewettes lost the second string to St. Faith's Guild by six pins after winning the opener with eighteen pins to spare, and Baptist finished on even terms with St. Peter's Guild. The Trinity quintette was awarded two points when the St. Andrew's Auxiliary defaulted. Mrs. W. Wilson, of the Lady Amateurs, topped the single-string column with a score of 145, while Mrs. S. Belmont, of St. Faith's Guild, led in the two-string department with an aggregate of 228. Others over the two-hundred mark were Mrs. Wilson with 214, and Miss A. Barlow with 202. The detailed scores were:

DEATH FOLLOWS INJURIES SUFFERED LAST MONTH

Toronto, Feb. 22.—Death of Roméo Drolet last night from injuries received in a hockey game brought the total of Canadian deaths directly attributed to hockey injuries for the last five years to nine. Drolet failed to recover from spinal injuries received on January 13. He played for the St. Bruno de Guisnes, Que., team in the Tomkinsian League. Last known death due to hockey injuries was that of Harold Henwood, twenty-two years old, who died in Simcoe, Ont., on January 11, 1936. Henwood suffered injuries while playing for Brantford St. Jude's in an intermediate game of the Ontario Hockey Association at Port Dover.

FARLEY OFFERED MANAGING DIRECTORSHIP OF GARDEN

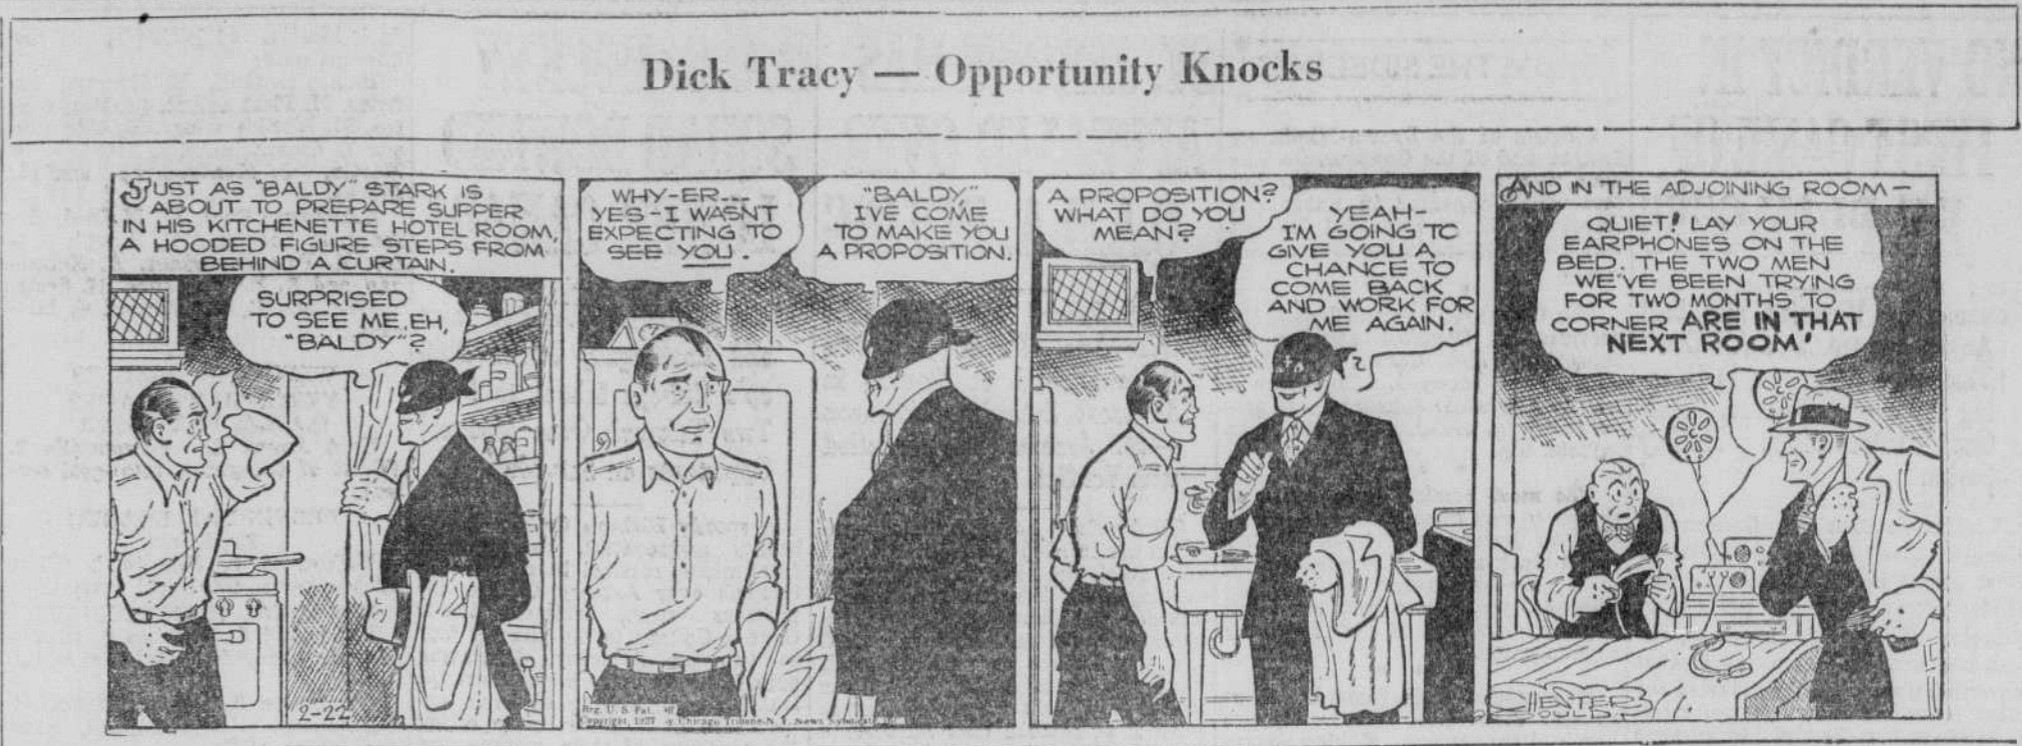

New York, Feb. 22.—Jim Farley can come back to the sports world when he finishes his political career. Walker Weast, of the New York State Athletic Commission, is quoted as saying that Farley has been approached about taking over the managing directorship of Madison Square Garden. "When the directors of Soldiers Field asked twenty-five per cent. of the Praxico-Louis gate for renaming the stadium, Manager Joe Guall said calmly, 'Maybe I've got this wrong. Is Soldiers Field fighting or is it Louis and Bradstreet?'"

CANADIANS AND BRITISH BLANK HOCKEY RIVALS

Kimberley Dynamiters and England's Representatives Scored Three-Nothing Shutouts Over Czechoslovakia and Switzerland, Respectively. London, Feb. 22.—Undefeated in four games, Canada and England meet Germany and Poland, respectively, tonight as they continue to drive toward the match that all English fans are awaiting—the Canada-England game in the final round of the world hockey championship. On Saturday the Kimberley Dynamiters representing Canada, had to go all out to defeat Czechoslovakia in the opening game of the second round of the title event. Two goals by Jack Botterill and one from Jack Forsy gave the Canadians their margin, but only poor finish around the nets kept the Europeans scoreless. Meanwhile, England downed Switzerland, also by three to nothing, for the fourth game that Jimmy Foster, of Moncton, has scored a shutout. He came through the three games of the first round without being scored on. In the other Saturday games Poland, the surprise team of the series, defeated Hungary by four to nothing while Germany defeated France by five to nothing. Poland has had only one defeat, an eight to two setback by Canada in the first round, and has the distinction of being the only team that has scored on Kenny Campbell, of the Dynamiters, in four games. A fight broke out in the Poland-Hungary game that resulted in Kovalsky, of Poland, and Jency, of Hungary, swinging their sticks at each other's heads. Both fell to the ice unconscious. They were revived and no serious injury was reported. run games in the International League games last year. "The average age of the players on both the 'Kids' and 'Kubs' is eighty-two. Correction: Sam Souda, the West Virginia golfer, wants it known that he isn't poaching his winter winnings with Leo Walper as this corner reported the other day. They're just travelling together. SIX SQUADS IN PLAY-OFFS ARE DECIDED EARLY

New York Americans and Chicago Black Hawks Eliminated from National Hockey League Play-offs, with End of Twenty-Week Schedule Still a Month Away. Detroit, Feb. 22.—Butter and cheese trading continued quiet over the week-end, hand to mouth buying remaining the rule in butter circles, while cheese business is still at a standstill, this being the off season. Egg trading perked up during latter part of the week as low prices induced greater buying. Sales on the Canadian Commodity Exchange on Saturday were 50 boxes of Quebec regreaded butter at 24c. At the close Quebec regreaded or Quebec buyer's inspection were quoted 23 3/4c to 24c. Small lots to the retail trade were quoted by jobbers at 25 1/2c for solids and 26c for prints. MANY QUESTIONS ASKED OF HYDRO IN ONTARIO HOUSE

Premier Hepburn Has Not Indicated Whether Government Will Choose to Reply to All Queries. Toronto, Feb. 22.—Officials of the Ontario Hydro-Electric Power Commission have a task ahead of them in preparing answers to more than a score of questions concerning Hydro put on the Legislature order paper by opposition members. Premier Mitchell Hepburn has not indicated whether the government will choose to answer all the questions. He was given notice to the House he will table a copy of the recently-signed agreement between the Ontario Hydro-Electric Power Commission and the Ottawa Valley Power Co. and will also introduce a bill to validate it. This may mean a resumption of the Hydro debate. The legislature today will be in committee several government bills, it is expected, though second reading debate on amendments to the Succession Duties Act and the Corporations Tax Act may also be held.
