

CHILD FIGURES IN STRANGE DRAMA

Court Awards Little Girl To Natural Mother—Cries For Foster Mother

Montreal, April 5.—The tangled skein of human life occupied Judge Perreault for several hours today before he returned seven year old Madeline to the custody of her mother and left the woman who had been mother to her for the past four years broken hearted.

Madeline's mother parted with her through force of circumstances at her birth. She gave her to Mrs. Alice Perreault, who kept her for nearly three years and then, because she could not look after her gave her over to Mrs. J. Edstrom.

For four years the mother vainly sought for trace of the child. Last week she had Mrs. Perreault arrested on a charge of kidnapping in the hope of learning the whereabouts of the child. It was admitted that she was living in Quebec with Mrs. Edstrom.

This morning all four figures in the complicated situation confronted Judge Perreault and he awarded Madeline to her mother.

Little Madeline regarded the woman who came towards her with outstretched arms with some alarm. She had never seen this woman who called her "my baby" before.

As the arms reached out to encircle her she sobbed and cried for her "mamma".

As her blood mother led her away with tears of joy on her own cheeks, Madeline wept convulsively as she tried to return to the broken hearted Mrs. Edstrom, who had been mother to her for all the time she could remember.

NEW METHOD OF RESTORING LIFE

Doctor Credited With Reviving Persons Who Were Pronounced Dead

Chicago, April 5.—A new method of resuscitation by the injection of fluid from the adrenal glands directly into the heart, credited with reviving persons who have been pronounced dead, was explained in reports read by Dr. Denis W. Crile, of Chicago, and Dr. G. W. Crile, of Cleveland, Ohio, his uncle, to a joint meeting of the Chicago Medical Society and the Chicago Society of Anaesthetists.

Dr. Crile, of Cleveland, was reported to have originated the method.

The physicians read reports of cases explaining the revival of persons, they said, who had been dead as long as thirty minutes. In some cases, the physicians said, patients who had been pronounced dead were revived, died again and were revived again at intervals and ultimately recovered completely.

"Life can be restored by this method provided the cup death can be removed quickly," Dr. Crile said. "With prompt and fearless treatment the patient may be made to live again."

"So far I have used the treatment only in cases of persons who were pronounced dead, not only by me but by other surgeons. Hereafter I propose to employ it on persons who are dying."

RUM OPERATIONS OF MONTREAL MEN

Will Be Investigated By Special Grand Jury In Boston Next Week

Boston, April 5.—A special Federal Grand Jury, to meet here next Tuesday will hear the testimony of a score of persons in the operations of a rum ring which is alleged to have been financing trips by the British steamer Avonmouth with whiskey from Glasgow for delivery of the New England coast.

Summoned on 15 persons in Providence, R.I., Newport, R.I., and Pawtucket, R.I., were served today by special Treasury Agent Owen McKenna. A Boston politician of some prominence also may be called.

GERMAN PLANS FOR VIOLENT RESISTANCE

Indicated By Circular Distributed By German People's Party, Is French Report

"HINTS TO WORKERS"

Locomotive Of Essen-Paris Express Wrecked By High Explosive In Ruhr

Paris, April 5.—The French Foreign Office today gave out the text of a circular alleged to have been distributed by the German People's Party among the manufacturers in Essen and which is regarded in official circles as part of the preparation for violent resistance to the occupational forces such as they declare provoked the fatal encounter at Krupp works last Saturday.

The circular, said to have been distributed in February, and since quoted in the Reichstag, is in the form of questions and answers giving hints as to how the workmen may be incited to resist the French.

The document, as given out by the Foreign Office, reads in part:—"Question—What do you do when French troops enter the works or endeavor to arrest workmen or functionaries?"

Answer—Inform all the workmen at once; also call out all workers in the neighborhood by means of steam whistles so that as soon as possible they may surround the French troops and menace them with picks, hammers or anything available."

Train Dynamited

Essen, April 5.—An attempt to wreck the Essen — Paris express with dynamite occurred last night between Kettwig and Werden. The express was proceeding cautiously, as usual, in the Ruhr district when the locomotive struck a high explosive placed on the track which at this point skirts the Ruhr River.

The engine was wrecked by the terrific explosion, but the day coaches, seep and diner did not leave the tracks. No one was injured.

General Degoutte has fined Kettwig for this act fifty million marks and Warden twenty million marks.

Communist Appeal

Berlin, April 5.—Josef Zander, who was killed while acting as spokesman for the laborers in the Krupp plant shooting of last Saturday was identified today as a Communist, in a protest against the incident made public over the signature of the members of the Communist International and the Radical Trades Union International executive boards.

Declaring that "the blood of the workers has flowed in broad streams at Essen" the protest embodies an appeal to the world proletariat urging opposition to capitalism and French militarism. The latter, it says, is beginning "to illuminate the Ruhr occupation with the fire of machine guns."

Dusseldorf, April 5.—Articles of daily necessity ranging all the way from tea kettles to automobiles were confiscated in large quantities by the French at Bochum yesterday, according to reports from German quarters.

Essen, April 5.—The French are making an investigation to ascertain whether any of the security police expelled from the Ruhr in the last two months have been taken on as employees at the Krupp plant between March 13 and 31, as in view of the German documents now in the hands of the French they contend that security police and nationalists were largely responsible for the clash last Saturday at the Krupp works, where thirteen Germans lost their lives.

NEW RAILWAY TO QUEBEC CITY

May Be Constructed, According To Indefinite Report From New Brunswick

Fredericton, N.B., April 5.—Construction of the proposed short line of railway across the northern portion of Maine and the province of Quebec to the City of Quebec which has been under consideration for some time, is likely to be undertaken this year. Hon. Arthur R. Gould, of Presque Isle, Maine, said while in Fredericton yesterday.

The new railway line will be 124 miles in length and will provide the shortest route to the Canadian ports on the Atlantic Coast and will be electrified.

"If my suggestion to electrify the St. John Valley Railway had been adopted by the then administration in this province I remarked Senator Gould, 'the railway would not only be earning dividends instead of piling up huge operating deficits and interest charges, but your hydro problems would have been solved without expense to the province.'"

When communicated with last night and asked about the above projected railway, Ivan Vallee, Chief Engineer of the Provincial Public Works Department and Superintendent of Railways, said that it was the first time he had heard of this project. He thought, however, that it might be the intention of those promoting the project to connect with the Quebec Central lines which might possibly be extended to meet the new line running in from Maine.

"There was a mummy once in the British Museum which was believed to be guarded by one of these elementals, for everyone who came in contact with it came to grief. This was the mummy of a Queen and even one of my dear friends, a journalist, who investigated the circumstances surrounding the happenings that befell the persons who handled the mummy, was himself stricken immediately with typhoid and died."

"The son of a friend of mine, Sir William Ingram, found a mummy while hunting in Somalia. Inscribed on the mummy's breast were the words 'may the persons who unwraps me die rapidly and may his bones not be buried.'"

"This young man in a few days was drowned in a water course which rose with the spring freshets and his body never was found."

"Therefore, I think it quite possible that Lord Carnarvon may have met his death through one of these elementals."

"I know the Egyptian knew a lot about spiritism, all the easterners did. We are in communication with them quite often. Wise old eastern spirits are our spiritual guides."

Continuing Sir Arthur said: "An elemental is a built-up, artificial think an imbued force which may be brought into being by a spirit mind or by nature. It exists of itself for a specific purpose and is not pre-created. We know very little about them but we have had evidences of their existence especially in regard to the Egyptians."

"There was a mummy once in the British Museum which was believed to be guarded by one of these elementals, for everyone who came in contact with it came to grief. This was the mummy of a Queen and even one of my dear friends, a journalist, who investigated the circumstances surrounding the happenings that befell the persons who handled the mummy, was himself stricken immediately with typhoid and died."

Based on the Quebec Government's programme of 1922 (the last under the present Federal grant arrangement) the Province of Quebec will be one million dollars short of using all its Federal appropriation at the end of this year, that is to say Quebec will at the end of the present year have used \$3,400,000 of its appropriation.

To avail itself of the other million would mean additional expenditure of \$1,600,000. The situation as regards Ontario is much the same, though Ontario will have used a larger percentage, due to the building of more expensive highways in 1922.

New York, April 5.—Dissatisfied with the 12 1/2 per cent increase recently granted by New England textile mills, the executive board of the United Textile Workers of America have decided on a campaign not only for an additional increase of 14.9 per cent., but for a cut in working hours from 54 to 48, President Thomas F. McMahon announced today.

"EVIL ELEMENTAL" CAUSED DEATH OF LORD CARNARVON

According To Sir Conan Doyle Famous Expositor Of Parlor Spiritualism

BUT HIS FAMILIARS

In Spook World Have Not Explained Mysteries Of Egyptian Occultism

New York, April 5.—Sir Arthur Conan Doyle, who has arrived in this country for a second series of lectures on spiritualism, today expressed belief that "an evil elemental" brought into being by Egyptian occultism or the spirit of Tutentkhamen might have caused the death of Lord Carnarvon, who opened the tomb of the Egyptian Pharaoh.

Sir Arthur was asked if he agreed with Miss Marie Corelli, the English novelist, who warned the explorer that it was dangerous to enter the Luxor tomb because the spirit of the Egyptian king might be angered.

"There was a mummy once in the British Museum which was believed to be guarded by one of these elementals, for everyone who came in contact with it came to grief. This was the mummy of a Queen and even one of my dear friends, a journalist, who investigated the circumstances surrounding the happenings that befell the persons who handled the mummy, was himself stricken immediately with typhoid and died."

"The son of a friend of mine, Sir William Ingram, found a mummy while hunting in Somalia. Inscribed on the mummy's breast were the words 'may the persons who unwraps me die rapidly and may his bones not be buried.'"

"This young man in a few days was drowned in a water course which rose with the spring freshets and his body never was found."

"Therefore, I think it quite possible that Lord Carnarvon may have met his death through one of these elementals."

"I know the Egyptian knew a lot about spiritism, all the easterners did. We are in communication with them quite often. Wise old eastern spirits are our spiritual guides."

WANTS MONEY PAID FOR STEEL STOCK

Toronto Action Against Steel Realty Development, Inc., Of Buffalo—Test Case

Toronto, April 5.—Acting for John and Letitia Abram, D. F. Coffey this morning entered an action at the Ontario Hall to recover \$1,500 subscribed for stock in the Steel Realty and Development, Inc., of Buffalo. The writ is against the Company and the American receivers. The ground of the action is the non-filing of a prospectus prior to the sale of stock. The return of the money is also asked on the ground that there was fraudulent misrepresentation. This will probably prove a test case to guide the other Canadian shareholders.

BUILDERS WILL ADOPT DAYLIGHT TIME

In Montreal Without Regard To Action Of Authorities, It Is Said

Montreal, April 5.—Daylight Saving will be put into effect by the leading building firms of Montreal this summer regardless of the attitude that may be taken by the City Council or other authorities. They are not even waiting for the deliberations of the Daylight Saving Association, which meets on Monday but have already taken their decision.

NO GUILTY WAS JURY'S VERDICT

Mrs. Sadie Connaughton Acquitted Of Charge Of Murdering John McKee

Sudbury, Ont., April 5.—After three hours deliberation the jury tonight found Mrs. Sadie Connaughton "not guilty" of the murder of John McKee of Chapleau on December 16 last.

The verdict was awaited by a packed court room. When Foreman Stull announced the words which gave the woman her freedom she knelt in the dock in prayer. She was surrounded by her friends who congratulated her.

The ordeal left its effect on her and she had to be supported from the courtroom. Mr. Justice Masten received the verdict without comment and briefly announced "the prisoner is discharged."

Sudbury, Ont., April 5.—Mrs. Sadie Connaughton charged with the murder of John McKee, locomotive engineer, at Chapleau, on December 16 last, giving evidence today in her own defence, claimed she did not intend to shoot him, that she believed he had a woman in his house and she went in to see who it was. She took a revolver with her but did not know much about firearms. McKee, she said, tried to persuade her to leave, then took her by the wrist and drew her toward the shed. She was trying to hold back. She had the revolver in her hand in her pocket when McKee pulled this hand out the revolver came also. While this struggle was going on the revolver went off and McKee fell seriously wounded.

HUGE SUMS FOR RAILWAY WORK

American Railway Assn. Approved Plans For Expenditure Of \$1,540,000,000

New York, April 5.—Having approved the expenditure of \$1,540,000,000 in new tracks, locomotives, cars and terminals, the American Railway Association today adopted a programme which calls on every road, every shopper and every householder to help relieve the heaviest traffic burden in history.

They ask that shippers conserve space and keep cars moving; that dealers and consumers get their coal into bins early; that the bulk of ore and coal shipments on the Great Lakes be completed early in the summer; that road and construction work be gotten under way as soon as possible, so rail equipment may be available for crop movements in the fall.

On their part, the roads will try to have an extraordinary number of good order locomotives and cars available in the fall; to have all coal intended for railroad use in storage by September first; to restrict transportation of railroad supplies to the minimum during the fall rush and to help keep every car moving.

"FISH TRUST" MEN ARE SENTENCED

For Conspiring To Increase The Price Of Fish In New England

Boston, April 5.—Sentences of 10 months each in the House of Correction and fines of \$1,000 each were imposed today upon F. Monroe Dyer, a New York banker, and five other officials of the Bay State Fishing Co. and sentences of five months each and fines of \$500 were given, nine dealers indicted with them in the so-called "fish trust" cases. They were found guilty of conspiring to increase the price of fish in war time and to effect a monopoly.

GOVT OF SWEDEN DEFEATED AND WILL RESIGN.

Stockholm, April 5.—The Government, headed by Hjalmar Branting, Premier of the Foreign Ministry, was defeated in the Upper Chamber of Parliament tonight by a vote of seventy-six against sixty.

The vote was on a proposal by the Government to distribute doles among the unemployed. The formal resignation of the Cabinet will be tendered tomorrow, but Crown Prince Gustav, who is acting as Regent, will suggest that Mr. Branting handle the affairs of State until the King, who is at present in Nice, returns home.

TERRIBLE TALES OF SUFFERING IN NEWFOUNDLAND

Have Filtered In From Coast Settlements Isolated By Ice Barrier

SIX RELIEF SHIPS

Have Been Sent Out From St. Johns With Food For Starving People

St. John's, Nfld., April 5.—Determined efforts are being made by the Newfoundland Government to send food supplies to starving settlements along the South Coast, isolated for many weeks by the ice fields that block their harbors. The mail steamer Kyle, plying between this port and Sydney, N.S., today was taken off that route, and will leave to-morrow for the Southern settlements laden with provisions.

Already six vessels have put out on similar errands of mercy but all have fallen victims to the ice. All are held icebound in Southern harbors, some of them having been unable to move for six weeks. The Kyle larger and more powerful than the others, hopes to be able to break through the ice barrier.

Tales of terrible suffering in many South Coast villages have filtered through to the Newfoundland Capital.

The winter fell early freezing in the herring fleet and thus leaving many fishermen without their usual means of winter sustenance.

Later a series of bitter storms built a thick rim of ice along the Coast, shutting out supplies that would have relieved the suffering of the people.

PEOPLE LEAVING THE MARITIMES

40,000 Have Left Since Latter Day Exodus Began, It Is Said

Montreal, April 5.—The tremendous exodus of people from the Maritime Provinces, especially from Nova Scotia, is fanning the spirit of unrest which seems to be general throughout the eastern part of Canada," said James H. Conlon, secretary of the Canadian Fishermen Association and editor of the "Canadian Fisherman" on his return from a business trip through the Maritime Provinces.

Mr. Conlon, who is an old-time visitor of the Maritime Provinces, said that during his recent trip he had found an increasing conviction that Atlantic provinces have not profited as they should have from confederation while there was everywhere a constant agitation for relief from the general depression.

During the past sixteen months Mr. Conlon stated, he had been informed that approximately 14,000 people had left the Halifax district, while it was estimated by competent authorities that at least 40,000 people had migrated from Nova Scotia since the latter day exodus had begun.

The Weather

Toronto, April 5.—A depression which was in the lower Mississippi Valley last night is now centred over Lake Ontario and pressure is highest in the Western Provinces. Snow and rain have fallen over Southern and Eastern Ontario and in Western Quebec and the Southern portion of the Maritime Provinces. From the Georgian Bay district to British Columbia the weather has been fair.

BISHOP OF QUEBEC LEFT FOR ENGLAND. (By Canadian Press) New York, April 5.—The Rt. Rev. Dr. L. W. Williams, Lord Bishop of Quebec, left for England with Mrs. Williams today on the Ausonia. They will visit friends for a month and visit the Battlegrounds of Franco before returning.

GERMAN LABOR'S APPEAL TO WORKERS OF WORLD. London, April 5.—German Labor Unions, says a Berlin despatch to the Central News, have issued an appeal to the workers of the world urging them to do their utmost to avert the dangers of French domination which, it is declared, does not affect Germany alone.

British Columbia's Best

Only the choicest steaks from British Columbia's best sockeye salmon go into Sovereign Brand cans. Cooking in the cans in live steam preserves the rich red color, the firmness and the genuine sockeye flavor.

Sovereign Brand Sockeye Salmon

Sail to Europe on the NEW DORIC

Sister of the famous REGINA. The excellent service on these new cabin steamers, the largest sailing from Montreal, compares favorably with that of a fine hotel.

EINSTEIN IN THEORY OBSERVATIONS

Toronto Scientists Did Not Get Decisive Results During Eclipse Of Sun

Toronto, April 5.—Observations made in Australia during the total eclipse of the sun on September 21 last by Toronto scientists and others are entirely favorable to the Einstein theory...

JURY DISAGREED AND W. Z. FOSTER WAS DISCHARGED

Tried On Charge Of Criminal Syndicalism Carrying Sentence Of 10 Years

JURY STOOD 6 TO 6 Were Out 31 Hours And Took 38 Ballots—Judge Made 6,000 Word Charge

St. Joseph, Mich., April 5.—The jury trying William Z. Foster on charges of criminal syndicalism disagreed and was discharged at 5 o'clock to-day by Judge Charles White.

NO PROTEST TO SOVIET GOV'T.

By Holy See Over Execution Of Prelate—Considered Useless—France Indignant

Rome, April 5.—It is reported that Pope Pius and Cardinal Gasparri have concluded that they will abandon any idea of making a protest to the Russian Soviet Government on the execution of Vicar-General Butchkevitch.

IMPORTANCE OF A KNOWLEDGE OF TWO LANGUAGES

Oxford Added To Paris Culture Would Be Excellent, Says Canon Chartier

FRENCH METHODS Of Expression Recommended To National Council Of Education At Toronto

Toronto, April 5.—Rev. Canon Emile Chartier, Vice-Rector of the University of Montreal, taking for his subject "the teaching of literature" spoke of the formation of a committee for that which was best before the National Council of Education here.

FIVE KILLED IN POLITICAL FIGHT

Opposition Deputies In Rumania Capital Stage Scene In Prince's Palace

Budapest, April 5.—A crowd led by deputies of the Opposition broke into the palace of Prince Scriniey in Bucharest, yesterday, according to dispatches received here, and was destroying the interior of the palace when the police arrived.

SCRAPPING OF ALL BIG NAVIES OF THE WORLD

Is Advocated By President Of Naval Committee Of Senate Of France

ANOTHER CONFERENCE "If The World Does Not Look Out It Will Destroy Itself In A New War"

Paris, April 5.—The President of the Naval Committee of the French Senate, Gustave de Kerguezec, in a statement to The Associated Press today advocated the scrapping of a further naval armament conference which would have for its object the actual scrapping of the big navies of the world.

DEMAND FOR SUMMER TIME

Three Rivers City Awaiting Action By Montreal And Quebec

Three Rivers, Que., April 5.—The somewhat anomalous situation in regard to summer time in Montreal has had a notable effect upon the supporters of the change in Three Rivers. It is generally known that the manufacturers are in favour of the advanced hour, while the City Council and certain classes do not want it.

PEASANTS RISE AGAINST SOVIETS IN THE UKRAINE

Because Of Bolshevik Persecution Of High Church Dignitaries In Russia

IS BERLIN REPORT Pogroms Are Also Reported Against Jews Who Are Fleeing In Terror To Poland

Berlin, April 5.—Serious conflicts in the Ukraine between the Bolsheviks and Peasants are reported in dispatches received here by way of Lemberg. The Bolsheviks are declared to have executed 340 peasants, apparently because of protest against the Soviet persecution of high church dignitaries.

ROSE TO FORM STOCK COMPANY

Will Dispose Of One Hundred Shares Of Quebec Baseball Club

A stock company with a capital of \$10,000 will be organized by Uld Rose, manager of the Quebec team of the Eastern Canada Baseball League, to run the club this summer. Rose intends to dispose of one hundred shares, each of which will be sold for one hundred dollars.

CANADA CAN ABSORB 300,000 ANNUALLY

B.C. Minister Says, And Gives Novel Explanation Of Emigration Of Canadians

PURPOSES OF NEW FRENCH TARIFF

Are To Protect French Industries And Extend Their Foreign Markets

Paris, April 5.—The Government in the new customs tariff which it is drafting seeks to serve two purposes: to protect French industries against foreign competition, and to insure it widest access to foreign markets, says Lucien Dior, Minister of Commerce, in a circular to the presidents of French chambers of commerce.

SHALE-OIL PLANT

St. John, N.B., April 5.—It is understood that a plant will be erected shortly in New Brunswick by the Ohio Shale-Oil Company. A 1,000-ton retort designed for use in Ohio, will be brought to this province. It comprises a battery of four retorts, costing \$500,000 each, and other portions of the plant. The company, it is reported, will be on the ground this spring.

Spring Millinery

We have just received a number of Ladies' and Children's Trimmed Hats. These hats represent the very newest in Spring styles and are moderately priced. Children's, \$1.75 up; Ladies', \$3.50 up.

Ratine, the new material for dresses, has just been received in the following shades: Beige, Nile, Orchid Grey, Mauve and Black, and White at 80c. and \$1.10 per yard. Flake Etamine, also a new material for dresses in Orchid, Beige, Copenhagen, Pink, Blue and White at 65c. per yard.

OUR TRADE WITH U.S. DECREASED

In 1922 According To Foreign Trade Report From Ottawa

Ottawa, Ont., April 5.—Canada's foreign trade for 1922 amounted to \$1,647,701,892, or an increase of more than \$45,000,000 over 1921, according to the report of the federal department of trade and commerce.

FIFTY HOTEL GUESTS RESCUED FROM FIRE

One Fireman Killed And Two Injured When Walls Fell—Loss \$1,000,000

MORATORIUM ACT IN MANITOBA

Winnipeg, Man., April 5.—Retirement of the Moratorium Act over a period of three years is under consideration by the Government. The proposal is to permit mortgage holders to collect 20 percent on mortgages due the first and 40 percent the two following years.

READY TO OBLIGE

Judge (to defendant)—"Do you want to challenge any member of the jury?" Ex-Prize-Fighter—"Ah ain't feelin' jes' right, Judge, but ah ain't mindin' givin' a couple of rounds with that fat gemmum in the corner."

Simons & Co.

A complete new assortment of Collars has just arrived. All Spring styles in Ratine, Flannel, Linen and Lawn. Some have the Paisley trimming.

20 Fabrique St. QUEBEC Telephone 338

THE FINE ART OF BEING HAPPY

Is To Know How To Utilize Leisure, Says Professor Rene Du Roure

Toronto, April 5.—(Canadian Press). The art of being happy was to know how to utilize one's leisure, was the text of a charming address at Hart House this afternoon by Professor Rene du Roure, University of McGill, at the second and closing of the French sessions of the National Council of Education.

STORE CATTLE IN MANCHESTER

First Canadian Consignment For Thirty Years Attracted Widespread Attention

(Canadian Press Cable) London, April 5.—The first consignment of Canadian cattle ever to enter the port of Manchester was that which arrived today and the double event of the first arrival at Manchester and the resumption of the trade in store cattle in Great Britain after the thirty years of embargo received prominent notice in the newspapers.

Efforts are being made to tame the spotted Turkey of Honduras, but there's one in Eastern Europe needs it worse.

TEACH FRENCH IN ONTARIO SCHOOLS

Was Advice Of Tom Moore, Labor Leader, To National Council Of Education

Toronto, April 5.—Teaching of both French and English in Ontario schools—in fact in all Canada and to all Canadian children, was suggested to the National Conference of Education in convention hall today by Tom Moore, President of the Dominion Trades and Labor Congress of Canada.

FRANCE REJECTS DAYLIGHT TIME

For This Year At Any Rate, Owing To Opposition Of The Farmers

Paris, April 5.—There will be no daylight saving time in France this year. This was finally decided upon by a cabinet meeting held today at President Millerand's summer residence at Rambouillet.

Printed and published by the Quebec Chronicle Printing Company, Limited, at the building of the Company, 9 Buede Street, Quebec.

QUEBEC, APRIL 6, 1923.

LA BANQUE NATIONALE.

The Directors of La Banque Nationale have assuredly erected a unique and worthy monument, on the site of the original premises, to the memory of the founder of that institution in the general office building which is one of the largest and certainly the most modern of its kind that the city now possesses.

There is little disposition today to ignore the fact that this bank, like many other business or financial enterprises, encountered difficulties in the period immediately following after the war that rendered a substantial reorganization necessary or, at least, advisable.

With business men of the outstanding ability of Hon. Geo. E. Amyot and Mr. J. H. Fortier as President and Vice-President respectively; with gentlemen whose names inspire respect and confidence, such as Sir George Garneau, Mr. E. R. Decary and Mr. C. E. Taschereau on the Board of Directors; and with a practical banker of the deserved repute of Mr. H. des Rivieres as General Manager; the interests of the security holders and depositors are in strong, capable hands and the future progress of the institution should be unimpeded.

While Quebec has not been suffering for business accommodation to nearly the same extent as it has been suffering for residential accommodation and while some of the business blocks on St. Peter street may suffer from loss of revenue as a result of the new competition, until local business conditions become more active at any rate, there can be no doubt that such a modern and thoroughly equipped edifice as that which the public were invited to inspect yesterday afternoon must be a distinct asset to the Ancient Capital. It will in any event set a new and higher standard of office construction in this city that will compare favorably with that in other centres of considerably larger size and we trust that the Directors will obtain the results that they are entitled to expect from so striking a demonstration of faith in the industrial and financial development of Quebec.

THE FIRE COMMISSIONER'S DUTY.

In the enormous fire losses of the Dominion as a whole, which, figured out on a per capita basis, amount to between four and five dollars for every citizen, the city of Quebec is, of course, concerned incidentally, but its interest is far more direct in the loss by fire of this community itself; a loss that can be seen and the resultant damage noted, because it is here at home, while the tremendous loss of property and life, say in the Haldimand fire, can only be read about and therefore creates a less forcible impression.

If we examine then what concerns us most intimately, the loss in our city, it will be found that we have helped to increase rather than decrease the Federal loss per capita. Statistics are perhaps too often used with the object of laying emphasis on some particular line of argument and the ascription may be made that, taken as a whole, they have never prevented nor extinguished a single fire—this not to question their value, but only to cite their limitations.

Statistics, however, show what observant citizens have doubtless noted for themselves; that very few losses occur in dwelling houses as compared with mercantile and industrial premises and public buildings; and we ask ourselves why this should be so? If the people are careless in the matter of fire prevention measures we ascribe their comparative immunity as householders to sheer luck and their losses as merchants, manufacturers or business men to misfortune? These are thoughts that naturally arise in considering recent fires and various statements made by the local Fire Commissioner.

Local newspaper reports have credited this official with saying, among other things:

1. That fires, all of which entail enquiry, are so numerous and therefore occupy so much time, that he is need of an assistant.

2. That ninety percent of our public buildings have ten or a dozen direct defects that render them liable to catch fire and make them dangerous.

Quite naturally the public must be much interested, as they have every right to be, in such a sorry state of affairs as the statements just referred to would seem to indicate, for if they go to church, if they send their children to school, or if they bring their wives and daughters to the theatre, nine out of ten of each of these buildings are branded as dangerous.

It is perhaps somewhat unfortunate that the Fire Commissioner, if correctly reported, has not given consideration to the panic that such strong statements coming from such an official source may give rise to and which, if it occurred, would be ten times more deadly than the actual fire. It would also be interesting to learn how a man whose time is so fully occupied by investigations has acquired this intimate knowledge of the desperate conditions that exist in ninety percent of our churches, convents, schools and theatres.

Certainly such a situation, if it really, obtains ought to be known and the Fire Commissioner has performed a public service whether his methods have been altogether judicious or not. On the other hand sweeping generalizations are usually misleading and his charges are unsupported by specific details thus far. But granting that he is right the case would seem to be emphatically one for the exercise of the full authority that he possesses.

The Commissioner is, of course, familiar with the law, but we reproduce the text applying in such matters for the benefit of our readers who may not be equally conversant with it. Article 322, Revised Statutes of the Province of Quebec, 1909, as amended by Article 322h of the Act 3, Geo. V., Chap. 38, reads as follows:

"The Commissioner and officers, and Chief of a Fire Brigade in a city, town or village, and the Mayor in any place where there is no fire brigade, may enter any building, and if they find that the state of the building or of the effects therein is dangerous, they may order whatever they may think necessary to cause such danger to disappear, and if the owner of such building or effects do not forthwith obey such orders, he shall be liable to a fine or penalty of not more than ten dollars for each day he is so in default."

In the light of this provision and of the knowledge that he possesses, the Commissioner will no doubt

take immediate steps to have ninety percent of the churches, colleges, convents, schools, theatres, hotels and other public buildings in this city put into a condition of reasonable safety from fire or, failing that, will enter prosecutions against them according to law. The matter having thus been brought immediately to the attention of the proper and competent authorities, the dangerous conditions complained of will naturally cease to exist and the public may set their minds at rest. Otherwise the dread that the Fire Commissioner's statements are capable of inspiring may have serious effects and the fear of death may even deter many people from going to church. Certainly this situation cannot remain where he has left it and action of some kind is imperative.

AN AMAZING SITUATION.

It is not only by plans for costly terminal developments at Portland, Me., that the traffic policy of the Canadian National Railway can be judged. Replies given by the Minister of Trade and Commerce to the question put in the House of Commons as to how much Canadian grain had been carried by the C. N. R. to Portland and how much to St. John, N.B., from November last to the present date show an amazing situation.

In the period just named the publicly owned railroad of this country carried to a foreign port just 14,750,000 bushels of Canadian grain as against only 1,716,376 bushels that it carried to an Atlantic winter port of the Dominion. In other words, the C. N. R. carried more than eight times as much grain to Portland as to St. John; while, during the same period, the privately owned Canadian Pacific Railway carried 13,250,000 bushels of grain from Western Canada and the United States to the New Brunswick port.

These significant figures cause the St. John Journal to observe—what all Canadians may well echo—that "When Sir Henry Thornton was here he professed the greatest friendship and the greatest interest in this Province, and in fact in all the Maritime Provinces. He looked over our port and our facilities and his comments were of that flattering kind that led us to believe we were on the verge of great export business. The figures given above tell the tale, and just for fear that anybody may think that Halifax has been favored since the first of November, 1922, it may be stated that the answer of the Minister of Trade and Commerce was that there hadn't been any grain taken to Halifax by the Canadian National Railway or shipped through there. Amen."

A Verse Or Two

LIFE'S COMMON THINGS.

The dawn that creeps into my room— The herald of a coming day— That drieth away the night's dark gloom By its resplendent ray. A vision of delight it brings, A chance to joy in common things.

A fresh, new day—the sky aglow, The snow-fields down with shimmering pearls, The merry bells across the snow, The smoke that from the chimney curls— These common things of every day Are charms that in my heart hold sway.

The gladness greeting of a friend, The love that dwells in children's eyes, The little larks that have an end, A heartfelt hope that never dies— Oh! happy is the soul that sings And finds delight in common things.

—Helena B. Anderson, Concession, Ont.

Press Comment

NO GUARANTEE OF PEACE.

(London Times.) The most thoroughgoing pacifism cannot guarantee peace. As long as there are risks, it is waste of money to insure inadequately against them.

RESEARCH WORK.

(Alberta Farmer.) Canada will fail to accomplish much that would add to the national wealth if it neglects to employ highly trained men for research work in industry and agriculture, at adequate salaries, and with proper conditions in which to work for the best results.

SINCE THE CHANGE AT OTTAWA.

(Winnipeg Tribune.) Expenditures have been kept right up to the wartime scale, in every way except in the actual cost of military operations. The reductions in all other departments of the Government service have been infinitesimal where there have not been actual increases.

SURVIVAL OF THE FIT.

(Calgary Herald.) Any enterprise that is worth while and has the sympathy of the people will not suffer materially because the public treasury is closed to it. And where that is granted that it is not as important as its sponsors would have us believe.

THE SOVIET FAILURE.

(Natal Advertiser.) One great thing has been done at Lamsanne—the Soviet plans have been defeated. The Russians desired to block the passage of warships through the Straits so as to maintain the Black Sea as a Russian lake and hold Roumania at her mercy, a revival in Soviet Russia of the policy of Tsarist Russia, possession of the gateway between Europe and Asia.

TIRPITZ TALK.

(Cleveland Plain Dealer.) Old Tirpitz, the father of frightfulness, has emerged from the silences. In Hugo Stinnes' newspaper the man who sponsored unrestricted submarine warfare vows safes an extended interview on the Germany of today and her manifest destiny. Of course he advocates the hatred of France. But he spends most of his energy urging Germans to give up "strafing" England. It is a fact that England has re-established her commercial supremacy, and the best policy for Germany is to recognize this fact. Let them try to cooperate with the British. But by no means let them be content with existing conditions; let them merely ride their time till they are strong enough to offer real competition. In other words, Tirpitz is again preaching the gospel of "der tag." This most hated of Prussian war lords speaks through Stinnes' own publication. Unquestionably his views are the views of Stinnes. Stinnes sees the need of present co-operation with the British, and deplores sentimental hostility to the nation which is trying to act as Germany's friend. But he does not recognize any reason why Germany should accept a permanent position of inferiority. He, too, looks forward to the day when German commerce and industry shall gain for Teutondom the victory which Prussian militarism failed to win.

INVESTIGATES SPIRITS ABROAD

Scientific American Editor Returns From European Psychic Investigation

New York, April 5—Upon his arrival yesterday aboard the "Olympic," Sir Arthur Conan Doyle, the renowned British spiritist and lecturer, was accompanied by Mr. J. Malcolm Bird of the editorial staff of the Scientific American. It was learned that Mr. Bird has been in England, France and Germany for the past few weeks incognito and under the auspices of Sir Arthur Conan Doyle, visiting the psychic centers of Europe for the purpose of obtaining first-hand information regarding psychic work abroad.

While the Scientific American announced some months ago that it was prepared to pay \$2,500 to the first person producing a psychic photograph under its test conditions and a full satisfaction of an eminent committee of judges, and \$2,500 to the first person producing any other psychic manifestation of the physical order under its test conditions, it is learned from Mr. Bird that his investigation abroad has no connection with the prize offers and the American investigation.

The prime purpose of the European investigation has been for the purpose of obtaining first-hand information with regard to the remarkable results which have been reported from Europe. Furthermore, Mr. Bird has surveyed the field of European psychic workers with a view to having the more promising British, French and German mediums to this country should the Scientific American fail to receive the proper cooperation from American mediums in its present investigation. Then, too, the tour of Europe has been conducted with a view to observing the apparatus and control methods employed in giving the results obtained true scientific value, if any. As a result of his experiences, it is said that Mr. Bird has largely perfected the technique of the mechanical and electrical supervision or "control" of the American sittings soon to be held.

Apparently, psychic work in Europe is looked upon in a far more serious light than here, so far as the scientific investigation of the subject is concerned. On the other hand, and in sharp contrast, the English devotees of spiritism attend a séance in a quite matter-of-fact manner. "In America," states Mr. Bird, "one is rather accustomed to finding that the few men one meets at a séance are regular people, but one soon learns to shy of the 'ladies.' Almost without exception they are of the 'Hermione' type, flabbing around the edges of intellectual pursuits and deluding themselves into the belief that they are carrying the cultural advancement of the world upon their shoulders or emotional old ladies who come to have hysterics over their dead; or neurotics of an even more violent sort. There was quite nothing of this sort at the seances which I attended in England. Of course, all these present save myself are spiritualists, who would tell you that they know the communications received and the phenomena noted come from 'those who have passed on.' Save for this point the most violent skeptic can meet them on common ground. There was no mystery or other hocus about it. This was music, presumably to get the medium into trance, and, later, darkness to keep him in that condition. Aside from that, it was just an ordinary meeting and conversation between friends, some of them happened to be dead."

Mr. Bird sailed from New York last February 10th, unannounced and incognito at the request of Sir Arthur. His journey abroad has been quite profitable in experiences and observation and is bound to count heavily in the great task which the Scientific American has undertaken, and for a view to determining once and for all whether the whole question of psychic phenomena is no huge hoax which has been perpetuated long enough on a credulous group in every land, or a new and elusive science which is entitled to extensive study.

CASTORIA In Use For Over 30 Years

For Infants and Children Always bears the Signatures of J. C. Williamson

U. S. IMPORTS FROM CANADA INCREASE (By Canadian Press) Washington, April 5—The import figures issued today by the Department of Commerce shows imports from Canada increased from \$26,709,021 in December, 1921 to \$26,521,814 in December, 1922.

The figures for 1922 showed a total of \$26,521,814, Canada heading the list of countries in the value of goods sold to the United States.

NAVY MAY FIGHT RUM RUNNERS

U.S. Gov't. May Be Driven To Use War Craft To Chase Rum Fleet

(By Canadian Press) Washington, April 5—The United States Government may be driven into the use of navy destroyers and other war craft or of armed coast guard vessels to break up the "rum fleet," representative Graham, of Illinois declared today.

He said the present position with many rum-runner vessels along the coast, and with the Government inactive and seemingly impotent, was "humiliating" and a disgrace. He said naval or coast guard vessels should be vigorously used and if conditions are not radically improved when Congress meets, he will make vigorous protest and carry the issue to the House.

DIVORCED MAN AND CO-RESPONDENT

Kidnapped After Sensational Trial, According To Story Told Police

Macon, Ga., April 5—Mrs. Frederick Race and Lynn Wood Bright, of New York, were kidnapped here to-night and taken from the city by a band of men, according to a report made to the police. Bright yesterday was awarded a divorce in a local court after a sensational hearing. His wife contested the proceeding, naming Mrs. Race as co-respondent.

According to the police, Bright and Mrs. Race were in an automobile on one of the main thoroughfares here when another automobile drove up and several men jumped on the running board of the bright machine. A struggle is said to have taken place. When the police arrived, the bright machine was empty and eye-witnesses said the other automobile made a dash for the city's outskirts.

FOUND SHRINE OF MOON GOD

Near Ur Of Chaldees, Famous City Of Biblical Days

Philadelphia, April 5—Interesting reports are being received here on the archaeological excavations being made in Ur of the Chaldees, the ancient city that is being explored by the joint expedition of the University of Pennsylvania and the British Museum.

Letters from Leonard C. Woolley, head of the expedition in Mesopotamia, describe the progress of the excavations, where diggers into the masonry past have unearthed a portion of the wall of the temple of the Moon God, said by Mr. Woolley to be the oldest and largest temple of Babylon. While it is too soon to give details, it is believed that the excavation of this temple will undoubtedly show continuous service dedicated to the Moon God covering several thousand years, and reaching backward possibly beyond the third millennium B. C.

The wall shows several reconstructions at different periods. On the upper part an inscription was found giving the name of Nebuchadnezzar as the restorer of the upper part, while another inscription shows that the main part was built by Ur-Engur in the third millennium, B. C.

While the chief popular interest in Ur of the Chaldees arises from the fact that it is mentioned in the book of Genesis as the birthplace of Abraham, scholars will find even greater interest in tracing its history backward through the millenniums that preceded Abraham, whose date was about 2,000, B. C.

The joint expedition of the British Museum and the University of Pennsylvania was organized last summer and reached Mesopotamia in November. Work proceeded until the present time, as the climate has been particularly favorable for excavation. One hundred and fifty natives have been kept at work, a light railroad has been laid down, and a house erected to accommodate the members of the expedition. It is planned to carry on excavations each season until the heat becomes intolerable about the middle of April. By employing from 150 to 250 men and utilizing as much modern machinery as is possible in scientific excavation, it is believed that a few seasons will uncover some of the more important parts of the city, and furnish an abundance of material for historical interpretation.

There was an elaborate ritual connected with the worship of the Moon God. A large number of priests were employed under the authority of the high priests and according to an ancient inscription the last king of Babylon, Nabonidus, who lived in the sixth century B. C., consecrated his daughter as high priestess and prophetess in the temple at Ur. The inscription

I have spent a lifetime at the making of fine CHOCOLATES

The preparation of fine chocolates is indeed the jewel making of the chef's art. It requires the most exquisite, deliciousness call for an artistry and skill that is unique, but more important still is the art of rounding and blending the cocoa beans from which the chocolate coatings are made.

Many years ago in the Moir candy kitchens was originated and perfected a secret process of blending chocolates which for rich flavor, delicious aroma and smoothness of texture has never been equaled. That it is the supreme achievement of the candy maker's art is readily and generously admitted by all in the trade.

A lifetime has been spent in perfecting fine chocolates in the Moir candy kitchens. If you have never tasted Moir's you have a pleasant surprise in store.

Syrup Pepsin Loved By Hosts of Babies

Half a teaspoonful will make a frail youngster happy and playful

THE mother has her choice of many remedies for her baby's minor ills, but she should be careful which remedy she selects lest she do the child harm. What might be safe for herself may do injury to an infant. You will find that if the little one cries and doesn't want to play that its bowels are constipated. First look carefully to the diet and give the child one-half teaspoonful of Dr. Caldwell's Laxative Syrup Pepsin. You will then see results in a few hours. You will not have to force it on babies or children; they actually ask for it, it is so pleasant-tasting and free from gripping.

Dr. Caldwell's Laxative Syrup Pepsin is a compound of Egyptian senna and pepsin with agreeable aromatics. The ingredients are stated on the package. It is a mild, gentle vegetable laxative that everyone finds effective and pleasant. It is better for you and yours than purgatives, coal-tar drugs, or salt waters and powders, which may concentrate the blood and dry up the skin; or mercurial calomel, which may salivate and loosen the teeth.

Use a safe laxative like Syrup Pepsin, and especially for the children, for invalids, growing girls, nursing mothers, elderly people, and persons recently operated upon who need bowel action without restraint. Mrs. H. Lejeune, of Medicine Hat, Alberta, always gives her little girl Dr. Caldwell's Laxative Syrup Pepsin, and Mrs. May Stephen Sharp of Sault Ste. Marie, Ont., is never without it in her home. Your druggist will supply you, and it costs only a cent a dose. Try it in constipation, colic, biliousness, flatulency, headaches, and to break up fevers and colds.

TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy

CRIMINAL COURT CEILING COLLAPSED WITH CRASH

Quite a little excitement was caused in the Court House yesterday morning when a section of the ceiling of the Criminal Court chamber collapsed, bringing down several chandeliers and the electrical connections, and causing damages estimated at ten thousand dollars.

All of the chairs in the room were demolished, but fortunately nobody was hurt, the room being vacant at the time. Part of the ceiling first gave way around nine o'clock, and a second section collapsed a few minutes later.

The tribune that is generally occupied by the judges was crushed by the fall, which is said to have been the result of excavation work that has been going on in the neighborhood of the building, in connection with the new annex to the Court House.

SGT. LORD LEAVES FOR ABITIBI DISTRICT.

Sergeant Lord, of the Royal Canadian Mounted Police, who is stationed here, left last evening of official business to the Abitibi district. It is understood he will be away several days.

HABES CORPUS FOR DYSEN

Application will be made this morning for the issuance of a writ of habeas corpus on behalf of Eileen Dyson, for whose extradition to the United States an order was authorized on Tuesday last.

COMMUNITED FOR TRIAL OF CRIMINAL ASSIZES

The docket for the spring term of the Court of King's Bench, Criminal Side, was increased by one yesterday when Judge Lachance committed Azarie Garneau, of the city, for trial before Jury. Garneau is accused of violating the Narcotic Drug Act.

COMMERCIAL SUPERVISOR.

Mr. Lawrence H. Choquette, former Manager at St. Johns, has been appointed Commercial Supervisor of the Bell Telephone Company at Quebec.

He entered the service in 1907 as City at Three Rivers, and was appointed Local Manager Grand Mere January 1st, 1910. After a severe illness in 1911 he acted as Relief Manager in Eastern Ontario during the summer of that year, subsequently being appointed Manager at St. Johns, January 1st, 1912. Mr. Choquette has demonstrated exceptional ability as a salesman, and as Commercial Supervisor at Quebec he will have full charge of all "sales."

340 BIRTHS IN MONTH OF MARCH

Out Of 177 Deaths, 23 Had Attained Age Of 70 And More

The vital statistics for the month of March last have just been issued by the Civil Health Department and establish that during the month there were 340 births, 111 deaths and 5 marriages in this city.

In the births male children led at a rate of 187 boys against 153 girls.

St. Malo parish led in the birth rate, having had 38 visits from the stork. St. Sauveur came next with 36, Fort-Croix had 35 and St. Jean Baptiste parish 34.

During the month there were five marriages in the city, 3 of which were in St. Patrick's parish, 1 in St. Jean Baptiste and 1 in St. Sauveur.

In the deaths the heaviest toll was among infants of whom 77 under one year passed away, but the month of March was severe on aged people as 23 persons of 70 years and upwards passed away.

The birth statistics by parish are as follows:

St. Coeur de Marie, 12; St. Jean Baptiste, 34; St. Malo, 38; St. Roch's, 31; St. Sauveur, 36; Sacred Heart, 27; Jacques Cartier, 13; Sacred Heart Hospital, 18; Notre Dame de Quebec, 6; St. Francois d'Assise Hospital, 14; St. Francois d'Assise parish, 4; La Creche, 35; Limolou, 23; Notre Dame du Chemin, 23; St. Patrick's, 8; Notre Dame de la Gardie, 4; Stadacona, 5; St. Matthew's parish, 2; Blessed Sacrament parish, 0. Total, 310.

The deaths are recorded as follows: Still-born, 17; under one year, 77; between one and two years, 13; between two and five years, 7; between five and ten years, 0; between ten and twenty-five years, 5; between twenty-five and forty years, 12; between forty and fifty-five years, 6; between fifty-five and seventy years, 13; seventy years and more, 23. Total, 177.

MISSION BAND ENTERTAINMENT

Young People of Baptist Church Gave Capable Performance Last Evening

A splendid entertainment was given last evening in the Church Hall by the Baptist Mission Band, at which, in spite of the unfavorable weather conditions that prevailed, there was a large attendance. Those who took part in the programme were mostly young children, all of whom performed their respective numbers in a very creditable manner, and fully deserved the applause accorded them.

The programme opened with a musical selection by the orchestra, followed by the singing of a hymn by Miss Joan Ruthman, the audience joining in the chorus.

The Rev. F. H. Wentworth then delivered a short though appropriate address, after which a chorus was sung by a number of little children, who acquitted themselves very well. The next number was a play entitled "Mother Goose," which met with great success. Another play, "The Missionary Doll," followed. This was performed by ten little boys, who vividly displayed what could be done with the money contributed to missionary work. The crayon pictures used in this play were cleverly drawn by the Rev. Mr. Wentworth. Other numbers included a recitation by Miss Chodot, a Chinese song by little girls, a play by Miss Stobo's class of girls, and a solo by Miss Joan Ruthman, all of which were well received by the audience.

During the intermission a sale of candy took place, which realized a tidy sum, and the orchestra rendered several selections.

The singing of the National Anthem brought to a close one of the most successful entertainments that has ever been held by the mission workers of the Baptist Church.

A Water Polo game and swimming competitions by the Q.S.A.C. at the Y.W.C.A. Pool tonight and Saturday, 8 p.m.

COMMITTED FOR TRIAL OF CRIMINAL ASSIZES

The docket for the spring term of the Court of King's Bench, Criminal Side, was increased by one yesterday when Judge Lachance committed Azarie Garneau, of the city, for trial before Jury. Garneau is accused of violating the Narcotic Drug Act.

COMMERCIAL SUPERVISOR.

Mr. Lawrence H. Choquette, former Manager at St. Johns, has been appointed Commercial Supervisor of the Bell Telephone Company at Quebec.

He entered the service in 1907 as City at Three Rivers, and was appointed Local Manager Grand Mere January 1st, 1910. After a severe illness in 1911 he acted as Relief Manager in Eastern Ontario during the summer of that year, subsequently being appointed Manager at St. Johns, January 1st, 1912. Mr. Choquette has demonstrated exceptional ability as a salesman, and as Commercial Supervisor at Quebec he will have full charge of all "sales."

Something you haven't seen before: a Water Polo game. Come, Y.W.C.A. Pool tonight and Saturday, 8 p.m.

FERRY CONTRACT IS PASSED BY JOINT COMMITTEE

Amendments Made In Time Table As Well As In The Rates

\$50,000 DEPOSIT

No Change Made For Touring Automobiles—Summer Tickets For Trucks

The contract for the ferry service between Quebec and Levis for fifteen years from the 1st of May, 1925, was finally drawn up yesterday afternoon at the City Hall by the Joint Ferry Committee of Quebec and Levis, and will be embodied in a by-law which will come up for final reading at a meeting of the City Council tonight.

The contract was gone into in detail at yesterday's meeting which lasted from four o'clock until seven o'clock last evening, when the members of the committee felt that they had said the final word as regards the contract, to which, however, they made some important amendments affecting the deposit which must accompany each tender, the hours of crossing, the price of tickets as well as the tariff of rates for vehicles and automobiles.

The first change made in the contract yesterday was to increase from \$10,000 to \$50,000 the deposit which must accompany each tender for the purchase of the privilege of the ferry and the deposit is subject to confiscation should the company awarded the contract fail to sign the contract within ten days.

The other amendments concern the hours and the rates.

As the contract stands now it is a finished product, and when it comes before the meeting of the City Council tonight in the form of a by-law for final reading it cannot be amended in any way by the Council, but should the Council deem that certain sections should be amended it can send back the contract to the Joint Committee requesting that this or that clause be changed.

The second reading of the by-law will probably be carried out at the meeting of Friday, April 13th, and the notice calling for tenders will be published for ten full days which will bring the time for the reception of tenders and the awarding of the contract up to the 25th or 26th of April.

Two Years to Prepare

The company securing the contract will, therefore, have two years within which to prepare for the carrying out of the fifteen year contract, which will begin on May 1st, 1925, and conclude on April 30th, 1940.

As already published the new contract calls for larger boats than those now in use and it is stipulated that the boats user in the service shall be new, but exception is made in this connection for the Levis Ferry Co., Ltd., which has had the contract since 1910, and this company will have the privilege should it again secure the contract of using the boats now in the service, the Levis, Lauzon, Plessis and Colomb, providing these boats have been altered to meet the specifications of the new contract.

Amendments In Time Table.

The time table as amended yesterday reads as follows:

Time and circumstances permitting, beginning 25th of April to the 25th of November, at five o'clock in the morning, two boats shall start simultaneously from each landing every quarter of an hour to cross the river until eleven o'clock at night, and from eleven o'clock at night until one o'clock a.m. the ferrying shall be done by a single boat, which shall cross every fifteen minutes.

From one o'clock a.m. to five o'clock a.m., one boat shall run, leaving Quebec at the hours, and Levis at the half hours.

From the 26th of November to the 24th of April, on Sundays, between 6 a.m. and 12 o'clock (noon), ten boats shall run every half hour, leaving Quebec at the hours, and Levis at the half hours.

For the purpose of the by-law the summer season will mean the period between April 25th and November 25th, and the winter season the period between November 26th and April 24th.

Changes In Fares.

The summer fare for adult passengers as before, but passengers will have the privilege of buying fifty tickets for \$1. Tickets to be used between the hours of 6 and 8 a.m. and 5 and 7 p.m. on working days will be on sale at the rate of 25 cents, instead of 6 for 25 cents.

During the winter season a straight five cent fare will be charged adults and there will be no tickets at reduced rate.

School children will have the privilege of ten tickets for 25 cents, both in summer and winter.

Changes In Tariff For Vehicles.

The changes made in the tariff

RUMOR ROBERTS MAY BE FREED

Prisoner Of State Brought Into The Legislative Buildings Yesterday

There are persistent rumors current here that negotiations are on whereby John H. Roberts who is serving a year's term in the Quebec Jail in the use of a special bill passed by the Quebec Legislature, may be released at an early date.

These rumors seemed to be given a certain justification yesterday when John H. Roberts was seen in the Legislative Buildings yesterday in company with J. B. Carboneau, Governor of the Quebec Jail, and both went to the office of Charles Lanolot, Deputy Attorney General.

When asked if there was anything new as regards his client, Armand Lavergne, K.C., who has been acting for Roberts, admitted that there was question of negotiations for the liberation of his client.

The Deputy Attorney General when communicated with last night refused to say anything as regards the Roberts case.

Roberts' sojourn in the Quebec Jail is evidently not agreeing with him, for when seen at the Legislative Buildings yesterday he looked pale and drawn and his hair seemed to have become quite grey.

Will Take Roberts Case to Ottawa

Armand Lavergne, K.C., is leaving for Ottawa today to consult with the Department of Justice relative to the release of John H. Roberts from the Quebec Jail.

Mr. Lavergne maintains that the Special Act passed by the Quebec Legislature providing for the imprisonment of Roberts is unconstitutional and hopes to convince the Department of Justice of the fact.

O.D.E. DANCE GREAT SUCCESS

Enjoyable Social Function Given By Municipal Chapter Last Night At Chateau

The General Turner Chapter 1, O.D.E. gave a very enjoyable dance at the Chateau Frontenac last night, which was attended by about one hundred and fifty guests.

The guests were received by Lady Turner and the Vice-Regent, Mrs. Ford and Miss Parmelee.

Dancing, which took place in the Empire Room, commenced at 9 o'clock and continued till midnight, when a delicious supper was served, after which the dance was resumed, being brought to a close at one-thirty this morning.

A splendid programme of music for the dances was furnished by the Chateau Orchestra, and was much appreciated by the guests.

A "Bride" was also held at the same time for the benefit of those who preferred to dancing, and a large number took part in the game. This was under the capable direction of Mrs. H. C. Foy.

Both the dance and the Bridge were much enjoyed by the guests, and the Municipal Chapter is deserving of congratulations on the great success that attended this social function.

Come and see the Q.S.A.C. boys play Water Polo tonight and Saturday, 8 p.m., at the Y.W.C.A. Pool.

ACTIVITIES EXTENDED.

Montreal, Que., April 4.—It is announced by McLean, Kennedy, Ltd., who have been appointed Canadian agents, that the Scandinavian-American Line is about to extend its activities to Montreal, and that arrangements have been completed to commence early in May a regular freight service between Montreal, Copenhagen and Baltic ports.

For vehicles, sleighs and motor trucks are as follows:

Four-wheeled vehicles or sleighs, horse and driver (light), 30c. summer—40c. winter; loaded 30c. summer—50c. winter; 2 horses and driver (light), 30c. summer—50c. winter; 3 horses and driver (heavy), 40c. summer—70c. winter; 4 horses and driver (heavy), 50c. summer—80c. winter.

Two-wheeled vehicle or sleigh loaded with hemlock bark, horse and driver, 25c. summer—40c. winter.

The rates for automobiles have been left unchanged, as also the rates for trucks, with the exception that in summer time tickets will be sold for trucks at the following rate:

1-2 ton trucks (light), 10 tickets for \$2.50; (loaded), 10 tickets for \$5.00; 2 tons (light), 10 tickets for \$4.00; (loaded), 10 tickets for \$7.50.

Weight To Be Carried.

The following paragraph was added to clause 33 of the contract: The company shall not be obliged to cross any load exceeding 6,000 pounds above the weight of the truck. The company shall be the sole judge in the matter of taking or refusing the load.

The following clause was added to the contract as clause 33a:

For all loads exceeding the weights mentioned in articles 31 and 33 the company may charge 2 cents per 100 pounds for all such excess in weight.

Next Summer's Work.

Considerable work will be executed during the course of next summer on the south shore. The Levis College will construct a huge building, there will be roads built in Lauzon and the Davis shipyard

CHANGES OF TAX REDUCTIONS ARE EXCEEDINGLY SLIM

Increase In Revenue, Increase In Appropriations, Increase In Assessed Value

CAUCUS LAST NIGHT

City's Appropriations Already Exceed The Estimated Revenue—Must Be Cut

A special caucus of the members of the City Council was held last night at which the budget for the next fiscal year beginning May 1st, next was discussed.

The meeting was private and only the members of the Council and the city officials who were required, were present.

The work of studying the budget was not completed last night, for the members got no further than the appropriations of the various Departments, and these mounted up so high that there will have to be certain cuts made to bring them within the limits of the estimated revenue.

It was brought out that the estimated revenue for the next fiscal year is \$2,600,000, but the appropriations for the year reach \$2,760,000, thus exceeding the revenue by \$160,000.

The question of making the cut of \$160,000, to bring the appropriations down to the revenue might seem a simple matter, but the question is to know where to make the cut as each department alleges that its appropriations are not a farthing beyond what is strictly necessary.

There has been an increase of five million dollars in the assessed value of property. This has been reached by the new buildings erected within the past year and also by the increased value placed on properties as believed justifiable by the assessors.

When it was made known that the appropriations exceeded the estimated revenue, one of the members of the Council, who was probably elected on a promise that the taxes would be reduced, asked the Mayor if he hoped for any reduction in the rate of taxation.

The Mayor replied that if it were possible there would be a reduction in the rate of taxation, but it was plain by the way he answered that he did not have much hope in that direction.

OWNERSHIP OF TREES IN DISPUTE

Levis Men Bring Interesting Case Before Courts—Swallowed Teeth, Dies

(Special to The Chronicle.)

Yesterday in the Superior Court, at Quebec, the case of Chas. Begin, of Sorosto, Levis County, against Joseph Blais, contractor, of Levis, was heard. Last year Mr. Blais purchased a stone quarry from Mr. Begin for \$1,500.00, and when the time to sign the contract rolled round the two parties repaired to a notary, who prepared the bill of sale on the part of Begin and the bill of purchase on the other hand.

During the preparation of these bills, Mr. Begin asked Mr. Blais that the land be returned after all the stone had been removed. Blais refused to sign the contract rolled round the two parties repaired to a notary, who prepared the bill of sale on the part of Begin and the bill of purchase on the other hand.

Lemelin Wants Damages.

Yesterday in the Magistrate's Court at Quebec the case of Joseph Lemelin, of Levis, against the city of Levis was argued. Lemelin claims damages for injuries he claims to have received during an avalanche of snow that struck his house, situated in the St. Laurent Ward. Witnesses were heard for both sides and judgment will be rendered in this case in a few days.

Alderman Parent Ill.

Alderman Irene Parent is confined to his home, St. Marie street, Levis, suffering from the grippe.

The Repeal of Prohibition.

This evening the City Council of Levis will discuss the question of repealing the by-law relative to the repeal of prohibition in Levis. The by-law in question came up for first reading at the meeting of the City Council on Tuesday evening and is due for second reading tonight.

National Feast On South Shore

The national fete of the French-Canadians will be celebrated with pomp this year on the south shore and with the object of securing funds for the St. Jean Baptiste Society, a grand eueche will be held at Levis on April 11, in the Knights of Columbus Hall.

Next Summer's Work.

Considerable work will be executed during the course of next summer on the south shore. The Levis College will construct a huge building, there will be roads built in Lauzon and the Davis shipyard

LIST OF HOUSES TO RENT, ON THE LINE OF THE Q. R. L. & P. CO.

Summer Season of 1923

This Railway Company, has just published a list consisting of 188 houses to rent, furnished and unfurnished, situated on the line, as well as boarding houses, hotels, etc.

This list can be procured at the Ticket Office, St. Paul Street Station, or by applying to

J. A. EVERELL, Supt.,
310 St. Paul Street, Quebec.

Meeting Postponed.

The meeting of the Municipal Council, scheduled to be held last evening, was called off owing to there not being a quorum. The meeting will probably take place next week.

Rousseau Got Contract.

The contract for the construction of roads at Lauzon was awarded to T. Rousseau, Ltee, their tender being \$126,800.00, according to authoritative information. The tenderers were: T. Rousseau, Ltee, Gauvreau and St. Georges, Nova Scotia; Laganiere and Houde, Madon and Murphy, M. Loneragan, Blais and Dorval.

Died of Hemorrhage.

Antonio Fortin, of Lauzon, who swallowed his false teeth last week, died yesterday at the Hotel Dieu, from hemorrhage, attributed to irritation of the teeth.

A CHIMNEY FIRE.

The firemen were given a run yesterday when an alarm was rung in from box 263. It was for very little, however, the conflagration being merely a chimney fire, which was conquered without much difficulty.

It is a good preacher who follows his own instructions.

Q. A. H. A. HAS RECORD FINANCIAL SEASON IN 1922

PAST WINTER WAS RECORD ONE FOR GOVERNING BODY OF HOCKEY IN PROVINCE

Fifteen Leagues Were Affiliated With Quebec Amateur Hockey Association—Twelve Hundred 'Players' Cards Issued May Pay Expenses Of Out-Of-Town Delegates To Annual Meeting

Montreal, April 5.—Reports to be adopted at the annual meeting of the Quebec Amateur Hockey Association, to be held at the M.A.A.A. clubhouse Saturday afternoon will show that the past season has been a record one for the governing body of amateur hockey in the province. Fifteen leagues were affiliated with the association which advocated six clubs to each league while over twelve hundred amateur players cards were issued during the season. The number of amateur cards issued is a new record and surpasses the former mark by nearly two hundred. From these cards the association derived a revenue of nearly \$400 as each player is required to pay 25 cents for his card.

The greatest revenue was derived from League fees while the revenue from the play-off for the senior championship was about covered the expenses of the intermediate play-offs from which little revenue was derived. The receipts surpass the expenditures by nearly \$400 which is the largest balance ever carried forward by the association. The most important of the amendments to be discussed at the meeting are those passed at the annual meeting of the Canadian Amateur Hockey Association held at Winnipeg last month. The outstanding change is that permitting a player to play for only one club during a scheduled season and the denial of transfer cards from one club to another.

In former season a player has been found playing for as many as two and three clubs.

ATTEND MEETING OF THE Q.A.H.A.

Tom Fuller And Roy Halpin Will Represent The Local Leagues In Montreal

Tom Fuller, Secretary of the City Hockey League was appointed last evening to represent the League at the annual meeting of the Quebec Amateur Hockey Association which will be held in the M.A.A.A. Clubhouse tomorrow afternoon.

The local delegates will request while at the assembly in Montreal that the annual meeting of the Q.A.H.A. be held alternately in Montreal and Quebec. Should this request not be granted, the Quebec delegate will then ask that the expenses of the travelling delegates be paid by the Association instead of the league sending the representative, as is the case at present. The Q.A.H.A. always meets in Montreal and the delegates of the four Quebec leagues—Provincial, City, Province of Quebec and National as well as the league in Sherbrooke—have to have their expenses paid by the league they represent.

The Quebec leagues have given quite an amount of money to the Association through paying for players cards, games, etc., so it is only fair to believe that should the request to hold the annual meeting alternately in Montreal and Quebec be refused, the one asking that the expenses of the travelling delegates be paid will be favored.

The City League and the Province of Quebec circuit will be represented by Tom Fuller while Roy Halpin will be in attendance to look after the interests of the Provincial and National Leagues.

DATES OF RACING MEETS ANNOUNCED

Ontario Jockey Club Allotted First Meeting Of Canadian Turf Season

Toronto, April 5.—The Canadian Racing Association, the governing body of the Canadian Turf, met in annual session here today. Important business occupied the heads of the various jockey clubs, who make up the racing body. The chief item was the allotment of dates for the 1923 season, the spring series and the fall series. As usual the Ontario Jockey Club will institute the season of racing at Woodbine Park on May 19.

Canadian racing dates are as follows:

First Series—
Ontario Jockey Club, Toronto, May 19 to 28.
Connaught Park, Ottawa, May 29 to June 5.
Montreal Jockey Club, June 7 to 14.
Dorval Jockey Club, Montreal, June 16 to 23.
Hamilton Jockey Club, June 27 to July 4.

Niagara Racing Association, Fort Erie, July 7 to 14.
Kenilworth Jockey Club, Windsor, July 17 to 24.

Second Series—
Hamilton Jockey Club, July 26 to August 2.
Niagara Racing Association, Fort Erie, August 4 to 11.
Kenilworth Jockey Club, Windsor, August 14 to 21.
Connaught Park Jockey Club, Ottawa, August 23 to 30.
Montreal Jockey Club, September 1 to 8.
Dorval Jockey Club, Montreal, September 11 to 18.
Ontario Jockey Club, Toronto, September 22 to 29.

SENAGALESE FIGHTER WHO LOST TITLE TO McTIGUE RETURNED TO PARIS

Paris, April 5.—I was robbed," said "Battling" Siki, the Senegalese fighter who returned yesterday from Ireland, while referring today to the fight in Dublin in which he lost his light-heavyweight championship to Mike McTigue. "I will never go to Ireland again," the black man continued, "unless I can cross by way of England. I lost so much weight during the ocean trip to Ireland and back that I am now a middleweight."

Siki knocked out a diner in one of the best known Paris restaurants early this morning during a brawl.

ARENA STOCK IS GOING WELL

Three Rivers, Que., April 5.—The sale of Laviolette Arena Company's stock is progressing very favourably according to the men who have the issue in hand. While only a comparatively small number have been canvassed to date, the results have been very gratifying as the persons approached all realized that the Arena was and will continue to be a paying proposition, besides being an absolute necessity to the city.

The first five men who were canvassed were already stockholders in the Arena and when informed of the excellent showing made by the Arena in the first two months of operation all agreed to double the amount of stock they already held.

LOCAL GOLFERS DID WELL AT PINEBURST

Pinehurst, April 5.—Ivan De Bossé of Quebec, who on Tuesday won a place in the fourth sixteen of those competing for the North and South amateur golf championship, yesterday defeated his opponent, P. S. P. Randolph, sr., of Pine Valley 2 and 1.

G. S. Ahern, another Quebec player, who made the third sixteen, did not play his match on account of rain.

EXPENSIVE PATRIOTISM

During the war it was common to hear for a dollar a year. Now that the department of justice has six of those birds indicted for stealing as many millions it shows the Government had better give the less patriotic voter pay.—The Pacific Leader.

VICTORIA CURLING CLUB'S DOINGS

Secretary's Report Shows Club To Have Had Busy And Successful Season

The following is the report of the Secretary of the Victoria Curling Club, for the 1922-23 season:

The Directors herewith present the report for the season as follows:

The rink opened for play December 4th, 1922 and has been opened for curling continuously to the present date.

The membership of the club is composed of regular active 80, regular non-active 27, non-playing, honorary 3, 119 being the total membership.

Sixteen members left town or resigned. Ten regular members were admitted and two regular were transferred to the non-playing list. The resignations being mostly of the non-active class and several non-active taking up the game once more, the active list has increased notwithstanding the fact that the total membership decreased by six.

The club competitions resulted as follows:

Club Gold Medal—A. W. Colley, 35-32.
Club Bond—Col. W. H. Leonard, 31-31 plus handicap—78.
Chaplain's Cup—A. W. Colley, 41-36-76.
Senior Singles—E. A. Scott.
Junior Singles—Hon. Frank Carrel.
Class A Doubles—E. A. Scott and Col. W. H. Leonard.
Class B Doubles—A. H. M. Hay and W. J. Banks.
The President, A. E. Scott, presented prizes to the winner of the Senior Doubles. The Vice-President, C. V. Norris, the prizes in the Junior Doubles.

The Boswell Shield—Nine rinks competed in 11 matches, being one more game than last year and four more than 1921. The result was as follows: Geo. VanFelson (skip) won 1 and lost 1 on tie to defenders; A. H. M. Boulton (skip) won 2 and lost 1; Major W. H. Peiry (skip) won 0 and lost 2; A. D. Scott (skip) won 2 and lost 1; W. S. Champion (skip) lost 2; H. E. Price (skip) lost 1; F. J. Home (skip) lost 1; H. S. McGreevy (skip) lost 1; A. E. Scott (skip) won 5, tied 1, a win as defenders lost 1; A. E. Scott's rink won the Shield for 1923; George VanFelson's rink are the present defenders.

President vs. Vice-President—On December 8th, 1922, sixteen rinks competed in the first Bonspiel of the season, resulting: President, 88 shots; Vice-President, 71 shots, President winning by 17 shots.

Class B Rink Competition—Thanks to the generous gift of the trophy by Mr. C. V. Norris, the Match Committee organized a number of Class B rinks to compete by elimination, resulting in keen competition which is most gratifying as it has been the means of improving the play and bringing out many newcomers who were thereby given an opportunity to learn the game in competition. The competition was won by F. T. Handisombdy (skip), eight rinks competing.

Class A Rink Competition—The prize in this class was donated by Mr. John Laird. Owing to the many inter-club matches which call for Class A players some delay occurred in playing these games off, but finally resulted in the keenest of competition and some splendid exhibitions of curling. The competition was won by: T. C. Leonard, Lt.-Col. W. H. Leonard, A. W. Colley, S. T. Green (Skip) in a close finish 37-37. Green with five wins and one loss, the latter to Green in a close game. Eight rinks competed and will no doubt result in the club making a much better showing in the coming years.

Inter-Club Matches, Red Cross Shield, 12 rinks a side—Victoria, 115; Quebec, 123. Quebec by 7 shots.

The sum of \$26.00 was collected by the rinks competing for the Red Cross Fund.

Class A Inter-Club Series, 4 rinks a side, home and home—Quebec, 104; Victoria, 83. Quebec by 23 shots. The cup for this series was presented by Victoria.

Class B Inter-Club Series, 4 rinks a side, home and home—Quebec, 55; Victoria, 42. Quebec by 13 shots. The cup for this series was presented by Quebec.

The Watson Cup, 2 rinks a side on Quebec ice—Quebec, 37; Victoria, 33. The cup for this series was presented by Sir David Watson for annual competition between the two clubs.

Theftford Mines Bonspiel—Elimination contest between Quebec, Victoria, Sherbrooke and Theftford Mines, each club entering two rinks. Victoria winning: R. H. Goodday, A. C. Smith, R. Quirouet, A. R. M. Boulton. The winning rink was presented with the cup commemorating the event.

Inter-Club R. C. C. Club Branch Competitions, Royal Victoria Jubilee in the preliminaries 6 rinks a side. Victoria rink playing in the semi-final; won by Quebec, C. H. Handley (Skip). The trophy was won in the play-off at Montreal by Calgary, H. Hutchison (Skip).

The Governor-General's Preliminary Round, Quebec vs. Victoria, 2 rinks a side—Victoria, 32; Quebec, 28. Victoria winning by 4 shots.

In the play-off at Montreal, the Montreal Thistles won out, being defeated by Ottawa at Ottawa in the finals.

The District Medal, Victoria vs. Theftford Mines, at Theftford, 3 rinks a side—Victoria, 30; Theftford Mines, 22. At Victoria, 1 rink a side—Victoria, 13; Theftford Mines, 8. Victoria winning by 13 shots.

Scottish Curlers, 1923 Canadian Tour, 4 rinks a side—Victoria, 46; Scottish Curlers, 32. Victoria winning by 14 shots. Six rinks a side—Quebec, 36; Scottish Curlers, 32. Quebec winning by 4 shots. Three rinks a side—Visiting Club, 24;

OLYMPIC FINALS FOR MONTREAL

Finals For Track And Field Olympic Trials Likely For Metropolis

Montreal, April 5.—The finals for the track and field Olympic trials are likely to be held in Montreal says the Montreal Star today.

Although this has not yet been definitely decided, W. F. Findlay, local member of the Canadian Olympic Games Executive Committee, who returned from the West today after attending the meeting there recently, said that this was under consideration.

Mr. Findlay stated that what the provinces had asked of the Olympic Committee had been granted, namely, representation on the different committees. In the first place there will be a general committee besides the executive committee already named and on that general committee there will be a man from every Province in the Dominion. Men from each Province also will be named shortly for the selection committee for track athletes. In connection with this latter committee Mr. Findlay announces that J. H. Crocker, the chairman, is sending out a letter immediately to the different A.A.U. of C. branches asking for their nomination. On the other sub-committees from each provincial branch will be represented, being split up to cover the needs of each board.

MAY POSTPONE IRISH OLYMPICS

Until 1924 Owing To Disturbed Condition In Ireland—Decision This Month

Dublin, April 5.—There has been some talk, owing to the disturbed conditions of the country, of a postponement of the Irish Olympic games until 1924, but according to Director Walsh, a decision whether there is to be a postponement will not be reached until about the middle of April. Mr. Walsh denied a report that the Free State Government had refused to grant a further subsidy to the games. He said that the Athletic Council had not yet asked for such a subsidy.

RENAULT WILL MEET GIBBONS

Rickard Announces Winner Will Meet Jack Dempsey In Title Bout

New York, April 5.—Jack Renault, Canadian heavy-weight champion, was signed today by Promoter Tex Rickard to meet Tom Gibbons of St. Paul at the New Yankee Stadium on either May 3 or 11. The winner will meet Jack Dempsey, world's heavyweight champion in a title bout, he announced. The match meets with the approval of the State Boxing Commission, it was said, which has ruled that Renault and Gibbons should meet before the latter could carry out a challenge match with Dempsey.

Gibbons, who was reached by telegram by Rickard, agreed to meet the Canadian in a fifteen-round bout. The terms for the match were not announced.

Those who would advance in knowledge should lay down this as a fundamental rule: not to take words for things.

GOLFERS LOOKING FOR NEW COURSE

Option Has Been Secured On Property North Of Three Rivers

Three Rivers, Que., April 5.—With the snow still lying four feet deep on the ground, and more of it falling as this is being written, it seems a little premature to talk of golf. Still, according to reports big developments are shortly to take place in local golf circles, the most important development of course being the negotiations for the purchase of a new golf-course.

We understand that two possible sites have been under consideration by a special committee of the Three Rivers golf course—one of them being a farm lying to the North of the city along the St. Maurice River. An option has been taken on this property, and it is said to possess many advantages as a golf course site.

Another location was selected out toward Point du Lac, and those who have seen this site were also favourably impressed with its possibilities. With a little work either of the two locations could be got into shape for playing this year, although it would of course, be impossible to have perfect fairways or greens in that time.

Should the committee decide to acquire either of these properties it is probable that a joint-stock company would be formed and a Country Club inaugurated. The undertaking would call for a capital of \$15,000 or more but with the growing popularity of the Royal and Ancient game this amount should be readily forthcoming.

The course on Ile St. Christophe used in previous years, although small, provided excellent sport for the golfing devotees of the city, and for accessibility and beauty of situation it is hard to beat. It was felt, however, that it was in the best interests of the game locally to procure a site which gave more assurance of permanence, but in any case the Three Rivers Golf Club is under a deep debt of gratitude to Mr. Robert Grant and the directors of the St. Maurice Lumber Co. who so generously permitted the use of the land for the convenience of the devotees of the niblick and putter, who would otherwise have had no opportunity for indulging in their favourite pastime.

CAPT. JOS. MATTE WON ROSS CUP

Final Shoot Of Season Of Quebec Miniature Rifle Club Staged

The Quebec Miniature Rifle Club staged the final shoot of the season last night when the annual competition for the Ross Challenge Cup was held. The shoot for this cup was on a handicap basis and was very keenly contested. After the first elimination shoot but seven contestants remained in the running with the following scores:

De St. D. McDonald 55
H. Fleit 55
F. Trepanier 54
Count de Bury 53
R. A. Bradley 51
D. Burridge 51
Capt. Jos. Matte 51

In the final shoot-off, which occurred between D. Burridge and Capt. Jos. Matte, the latter came out on top with a total score of 48 and will hold the Ross Trophy for the next twelve months.

Capt. Matte's victory is a popular one and he was heartily congratulated upon his success.

The final results in the Macpherson and Price Cup shoots for March were given out and showed the following as winners:

Macpherson Cup.....
H. Matte (Cup and Spoon)..... 137
F. Fossey (Spoon)..... 134
Capt. Jos. Matte (Spoon)..... 134

Price Cup.....
H. Fleit (Cup and Spoon)..... 125
M. Fossey (Spoon)..... 124
R. H. Jewell (Spoon)..... 115

The presentation of prizes was made by the Club's President, Col. Count de Bury, who took occasion to congratulate the members on the successful season's shooting and expressed the hope that next year could show even a greater interest taken in the indoor rifle shooting and, if possible, higher scores.

The evening wound up with cheers for the President and other officers of the club as well as for the winner of the Ross Cup.

MORRIS HAS HARD BOUT ON HANDS

Colored Montreal Scrapper Will Find King Hard Nut To Crack

What appears to be one of the best cards of boxing bats derived to local fans for some time will be staged by the Quebec Sporting Club at the Imperial Theatre on Monday night. Four scraps, comprising thirty rounds of boxing, should all the contests go the limit are on the bill. The main bout of the evening will be a ten-round affair between Felix King, a clever mitt-artist who claims Berlin, N.H., as his home town, and Johnny Morris, the colored boxer who has made quite a reputation for himself around Montreal. The semi-final will have Kid Gagnon of this city and Jimmy Correll of Berlin, N.H., as the principals while the two other bouts on the card will witness local "white hopes" demonstrating their ability.

The King-Morris contest promises to be as good a scrap as has been seen here for a good many days. Morris is not altogether a stranger here and will no doubt be remembered as the scrapper who substituted for Jake Sherman when the latter was unable to come here to fulfill his engagement with Joe Legare. The colored boy stepped into the ring with the hoots of the crowd ringing in his ears but before the bout had gone two minutes had the crowd cheering him through his clever work. Morris had Legare completely at his mercy throughout the ten rounds and no sooner had the bout ended than the promoters were deluged with requests to match the dark gent with a better man. He is certainly matched with a better man this time and if he comes out on top, he will certainly know that he has been in a desperate struggle, for King in every bit as clever as he is and can certainly hand out a stiff wallop with either mitt.

The bout between Gagnon and Correll should also be a hummer, while the preliminary scraps can be depended upon to furnish plenty of fireworks.

Seats for the bouts are going like the proverbial hot cakes and everything points to a record crowd.

SHEPPARD SET A NEW RECORD
Rolled Single Of 179 In Duck-pin League Games Last Evening

A new season's record for a high single was set by Sheppard of Crescents in the Duckpin League games last night when he hit the pins for a mark of 179, bettering the record set earlier in the season by Fortier. The games resulted in Crescents winning four strings from Victoria II., Chateau taking the same amount from Nationals and Knights of Columbus I. capturing the odd string from Knights of Columbus II. The scores:

U. S. TREASURY'S BUSINESS FORECAST OPTIMISTIC

STOCK PRICES MADE FURTHER RECOVERY IN N.Y. MARKET DESPITE ATTACKS OF SHORTS

Industrial Companies Making Favorable Earnings Reports, And Easier Money Rates Encouraged Cheerful Sentiment—Steels, However, Were Laggard And Rails Heavy

New York, April 5—Stock prices here made further recovery from their recent heaviness in today's more active market, despite another attempt by short interests to unsettle the list by attacking the railroad shares.

Publishing of additional favorable earnings reports by large industrial companies, easier money rates and the circulation through the financial district of an optimistic forecast of business condition by Secretary of the Treasury Mellon, all contributed to the more cheerful sentiment of professional investors, but the largeness of United States Steel Common and the continued heaviness of Union Pacific induced a cautious attitude on the part of outside public.

Equipment shares were heavily bought on reports that railroad executives, meeting here had planned heavy purchases of rolling stock in the next few months.

Sales of more than 500,000 bags of raw sugar at 5 5/8 a pound revived speculative interest in the sugar group, Punta Alegre, South Porto Rican and Maniti jumping more than 3 points each, while Cuba Cane pfd. advanced 3/4 and Cuban-American and American 1/2 each.

Some of the independent steel shares made a good response to reports of record breaking pig iron production last month.

The renewed attack on rails was rather surprising in view of the unprecedented March traffic returns, extreme losses of one to nearly two points being registered on the break by St. Paul pfd., Great Northern pfd., B. & O., Nor. Pac., Southern Pacific, Union Pacific and Chicago Northwestern, but all made partial recovery before the close.

Call money opened at 4 1/2 percent but dropped to four just before the close. The time money market was somewhat easier, brokers bidding 1-4 and bankers asking 5/8, with loans for virtually all maturities arranged at the latter figure. Commercial paper was moderately active with no change in rates.

Trading in the foreign exchanges was rather quiet with the principal rates exhibiting a firm tone. French francs advanced five points to 6.55 cents and demand sterling held steady around 44.66 5/8.

Brazilian milreis dropped to 10.40c, a new low and then snapped back to 1.55.

Total sales were 1,056,000 shares.

20 Industrials averaged 102.36 net gain .95.

High 1923, 105.37; low 96.96.

20 Railroads averaged 86.08; net loss .22.

High 1923, was 90.63; low 84.53.

Marked strength of sugar company lists, the Punta Alegre 7 1/2, rising five points, and marked improvement in the active United States governments issues were the features of today's bond dealings on the New York Stock Exchange.

Railroad mortgages and industrials were irregular. Changes among the Railroad mortgages were small and unimportant for the most part. Tractions were in supply.

Foreign government bonds were in fair demand, Brazil 5's gaining a point and the 7 1/2's 1-4, out of the European issues were up fractionally. Gains among the United States Government bonds ranged from 2-32 to 9-33 of a point.

Total sales, par value \$11,096,000.

The Canadian Pacific railroad announced it was pay off an issue of \$2,000,000 6 percent note certificates in July about seven months in advance of maturity.

Closing Letters By Local Brokers

(By L. G. Beaubien & Co.)
New York, April 5—Moderate strength has been retained by the market all afternoon, although trading has tended to narrow and quite down. Speculators continued to be the feature with here and there a sharp run up as this or that stock was taken in hand and whirled. Oil shares have been very firm all as have most of the steel stocks in view of the tremendously increased operations in the industry. The statement of Secretary of the Treasury Mellon on conditions in the country attracted much attention. He declared that consumption is keeping pace with production, that there is no sign as yet of inflation.

BANK OF ENGLAND

London, April 5—The weekly statement of the Bank of England shows the following changes—
Total reserve increase \$37,000.
Circulation decrease \$41,000.
Reserve decrease \$3,600.
Other securities decrease \$8,797,000 pounds.
Other deposits increase \$7,446,000.
Public deposits decrease \$13,065,000.
Notes reserve increase \$31,000.
Government securities increase \$16,000.
The proportion of the bank's reserve to liability this week is 18.22 per cent. Last week it was 17.19 per cent. Rates of discount three per cent.

Daily Gossip On Leading Stocks

The directors of the United Shoe Machinery Corporation of Boston voted today to increase the capital stock by the issuance of one million shares additional of common stock of the par value of \$25, making the total capitalization, \$75,000,000. The new stock is to be distributed pro rata to present holders of common stock.

The office of Notary Strolas was the scene of a real "bull" market when 40 shares of the Caisse d'Economie de Notre Dame de Quebec, one of the two financial institutions operating in this province under the Saving Bank's Act, made a sensational climb of 43 points in the course of the sale by auction of eight different lots of five each. The shares of the "Societe de Prets et Placements", which is an investment firm, were sold at 142.

This auction was made on orders of the Court as part of the estate of the late E. A. Anoll, of Quebec, and was conducted by Notary Adolphe Labrecque, Mr. Vidal acting as bailiff. There were about 30 bidders and much interest was manifested, due to the fact that the bank shares mentioned had not been offered for sale for some time. The last private sale of shares was made of 75, and the results attained were over expectation. The Caisse d'Economie shares pay 12 per cent and the Societe des Prets et Placements 8 per cent, with a bonus of 1 per cent.

There was no upset price for the Caisse d'Economie and the shares in 8 lots sold as follows—5 at 220 1-2; 5 at 235 1-2; 5 at 259, and 5 at 263 1-2. Societe de Prets et Placements 10 at 142.

Current Canadian Machinery and Manufacturing news predicts hand-to-mouth basis for steel trade by July. Reports, according to the above publication, indicate that mills are booked up to such an extent that deliveries of from four to five months are available to customers and that new business has to stand by for its opportunity. Just when order books will be opened is a matter of speculation, some say May—others more indefinite declare that the mills will not be able to see daylight for two months at least. Deliveries from Canadian mills are fairly normal, but all requirements cannot be met from this source. Price advances during the past week included pig iron up \$1 per ton to \$36.55, Toronto, and \$38.80, Montreal.

McLeod, Young, Weir & Co. reports, for the syndicate which took the \$5,000,000 Province of Quebec issue up recently, that it has already been more than half taken. Bonds are reported to have been bought largely by institutions. The chief reason for this is that the success of the issue means little, this showing that the bonds are selling entirely on their merits.

A total of 5,902,630 tons of coal was exported by Great Britain in February. That tonnage was approximately 300,000 tons greater than British coal exports in the enlarged shipment to Germany.

Great Britain exported 1,000,097 tons of coal to Germany in February or almost double the tonnage shipped in January. The February exports to Germany were 133,000 tons in excess of the best single month's exportation of British coal to Germany during 1913, which was Great Britain's record year for coal exports.

"Unless rain or a thaw comes before the twentieth, the Abitibi mills may have to close down owing to lack of power", says the Toronto Daily Star.
"For well over a month, the mill has been run less than full capacity to conserve water so as to keep the mill running through till the break-up. Now, with the water in the whole area getting very scarce. Every plant in the north is suffering."
"Monday there was a rise in temperature, but it is not thought there will be a run off till the fifteenth at least. If delayed, later than the 20th, it will be serious."

Production of gold from Northern Ontario for the month of March amounted to approximately \$1,300,000, according to preliminary estimates. This compares with a recent high record of around \$2,000,000 a month and goes to show how serious is the situation caused through the failure of the supply of hydro-electric entering the Porcupine district.

Egg Market

Ottawa, April 5—The egg market continued firm and unchanged. Some are of the opinion that the situation at the present time is a little too heavy and the storing of eggs now is not satisfactory on account the large number of chilled eggs, which are on the market and that if these the white will tend to be weak and watery. A cable received today states that the British market is weak and prices are six pence to a shilling lower than the beginning of the week.
Toronto special 35c, extras 33c to 34c. Fresh 30c to 32c. Montreal unchanged.

MONTREAL MARKET EXHIBITED GENERALLY STRONGER TONE, PAPERS BEING THE FEATURE

St. Maurice Was The Strong Spot, Making A Net Advance Of 4 Points To Close At 94—Dominion Textile Was Off 2 Points—Brazilian Led Market Activity

Montreal, April 5—The generally stronger tone in the trading in listed stocks on the local stock market today was accompanied by an expansion in volume of trading, the papers as a group being the feature. Of the 58 issues that came out, eighteen gained ground, the greatest advance being of four points; eight issues suffered losses with the greatest recession of two points; eleven remained unchanged and 21 came out in broken lots only.

Brazilian was marked leader in activity and closed unchanged at 48 1/2.

Abitibi came second and was up 1 3-8 at the closing price of 71 3-8.

Detroit Railway was the third and gained 1 1-8 at 78. St. Maurice was the strong spot of the list, that issue making a net advance of four points to close at 94. Other price changes took in Brompton a point; Dominion Textile pfd. off two points; Howard Smith up a point; Provincial paper up 3/4 to the new high of 92; Spanish River up 1 1/4; and the pfd. up 1/4.

The total sales, listed, \$393.

Trading in bonds on the local stock market today was small in volume and was quite without significance.

The government issues were generally firm in tone.

Sugar Market

New York, April 5—The raw sugar market was firm and unchanged early today at 5 1-2c for Cubas cost and freight, equal to 7.28 for centrifugal. There were no sales. The futures market was firmer and 5 to 8 points higher at midday on covering and buying by trade interests and houses with Cuban connections.
In refined, prices were unchanged at 8.60 to 9.00 cents for fine granulated and a good inquiry reported at the inside figure. Refined futures were nominal.

C. P. R. PLANS TO PAY OFF BIG ISSUE

(By Canadian Press)
New York, April 5—It was reported here today that the Canadian Pacific railroad plans to pay off a \$52,000,000 issue of six percent note certificates in July. This is about seven months in advance of the maturity date.

It is announced that Russia will permit the manufacture of liquors for economic reasons—the same reasons for which this country forbade their manufacture—Tatoma Ledger.

ATTEMPTS TO "PACK" GENERAL ASSEMBLY

Of Presbyterian Church With Unionists Are Being Made, Says Rev. M. Campbell

Montreal, April 5 — Deliberate and systematic attempts to "pack" the forthcoming General Assembly of the Presbyterian Church in Canada with Unionist supporters so

"I Can Now Do My Work Without Feeling Tired"

Mrs. A. Moffatt, Roxton Falls, Que., writes:

"I suffered from a run-down system and nervous debility. I could not sleep or rest at night, and felt so weak I could not walk any distance. I took several tonics, but they only helped me while I was taking them. Mother advised me to take Dr. Chase's Nerve Food, and I felt great benefit from the first box, and continued taking several boxes. Today I feel like a new woman, and am able to do my work without that dreadful tired feeling."

DR. CHASE'S NERVE FOOD
50 Cents a box, all druggists, or H. H. Johnson, Bates & Co., Ltd., Toronto

CARL BELIEVED END WAS COMING

Declares Tanlac Restored Him Fully When in Despair From Stomach Trouble

"I just think Tanlac is the best word in medicine," recently said James Carl, well-known carpenter and builder, of 123 John St., Hamilton, Ont.

"In 1916 my health began to run down and in spite of all I could do my condition got worse. Every bone in my body seemed to ache and my stomach caused me the end of my trouble. During all the winter of 1920 I was so miserable I never expected to live to see the snow off the ground. I would almost smother from the gas on my stomach and many a night I never closed my eyes in sleep.

"Before I got Tanlac I was simply a physical wreck and would walk the floor not knowing what to do. The first few doses of Tanlac showed me it was what I needed and four bottles built me up fifteen pounds and put me in the best of health. Mind you that was a year ago, but I have felt fine ever since. No one can go wrong by taking the Tanlac treatment."

Tanlac is for sale by all good druggists. Accept no substitute. Over 25-million bottles sold.

STEAMER SAGONA OF N.F.L.D. SEALING FLEET

Returned To St. John's With 11,367 Pelts—Total Kill Is Now 73,500

St. John's, Nfld., April 5—The steamer Sagona, the first of the Newfoundland sealing fleet to return from the ice fields, arrived today with 11,367 pelts. She had been absent just four weeks.

The Sagona reported that she made her catch 115 miles off Cape Race and that the other vessels of the fleet now are working there.

Unless conditions improve the Sagona will be the only paying catch among the fleet, as she is the smallest vessel and less expensive to operate. The total kill of the entire fleet up to today is 73,500.

THE WOMAN POWER OF AMERICA

is well illustrated by the thousands of women who are entering every profession, almost every line of business and politics as well. They are bound to make good, and there is no question but what health is their greatest asset. Many women, however, develop weak, nervous conditions and cannot stand the strain of a professional or business life. Such women should remember when beset with headaches, backache, nervous irritability of any kind, or any ailment peculiar to their sex that the greatest of all remedies for such conditions is Lydia E. Pinkham's Vegetable Compound. For nearly fifty years this old-fashioned root and herb medicine has been restoring the women of America to health and strength. It holds the remarkable record of helping 98 out of every 100 women who try it.

GILLETT'S LYE

Comparatively few people realize to what extent Gillett's Lye can be used to advantage in every home. For instance, with one can of Gillett's Lye and five and a half pounds of lard or grease, ten pounds of good hard soap can be made. Use one tablespoon Gillett's Lye in gallon of water for cleaning and disinfecting refrigerators, sinks, garbage cans, tiled floors, baths and toilets.

Useful for over 500 purposes.

EATS DIRT

EXPLOSION IN DYE MIXING ROOM

Killed One Man And Fatally Injured Two Others Yesterday

Buffalo, N.Y., April 5—One man is dead and two men are dying from burns received this afternoon when an explosion wrecked the dye-mixing room of the National Aniline Chemical Company's plant. Five others were less seriously burned and bruised.

Officials of the company said the explosion was probably due to an electric spark igniting dust coming from the dye-mixer. Fire which followed the explosion was brought under control by employees of the plant.

Don't Squeeze Black Heads—Dissoive Them

Squeezing and pinching out blackheads make the pores large and cause irritation. Blackheads are caused by accumulations of dust and dirt and secretions from the skin, and there is only one safe and sure way and one that never fails to get rid of them—a simple way, too—that is to dissolve them. Just get from any drug store about two ounces of peroxide powder—sprinkle a little on a hot, wet cloth—rub over the blackheads lightly for a few seconds—wash off, and you'll be surprised to see that every blackhead has disappeared, and the skin will be left soft and the pores in their natural condition.

Fashion's Forecast

DOUBLE-WEARING BLOOMERS AND A NEW CORSET COVER.

Only 1 1/2 yards 36 or 40-inch material is required to make these bloomers which are made with extra fullness at the back, which is gathered into the side seams to give plenty of freedom of movement. The pattern cuts in sizes 24, 26, 28, 30, 32 and 34 inches waist measure. The corset cover pattern No. 1586 cuts in sizes 36, 40, 44 and 48 inches bust measure. To make it in the 36-inch size will require 1 yard 36-inch material. The bloomer and corset cover patterns are separate. You can order both for 30c or each for 15c, stamps or coin (coin preferred).

Sateen is suggested for both garments as it is so long-wearing, but washable satin, rayon silk or silk jersey are suitable also.

Both bloomers and corset cover could be made for about \$1.70 if sateen at 65c per yard were used.

Our SPRING BOOK OF FASHIONS, containing all the new models for the coming season, is ready. It contains pattern styles for the whole family and money can be saved by referring to it in selecting the spring wardrobe. In addition to over 300 styles, there are pages of embroidery designs, styles worn by movie stars, and dreaming lessons to help the beginner. The price is 10c per copy. Address your order to FASHION DEPARTMENT, Quebec Chronicle.

Eat Kellogg's Bran regularly to get permanent relief from constipation!

Freedom from constipation, mild or chronic, can be surely looked for if you will eat Kellogg's Bran every day! Two tablespoons are sufficient; for severe cases with each meal.

Kellogg's Bran is nature's most wonderful food awaiting a chance to bring back your health. Kellogg's Bran is scientifically prepared to relieve suffering humanity from constipation and it will do that.

Being cooked and crumbled, Kellogg's Bran is delicious in its nut-like flavor. It should not be confused with common bran which is unpalatable and hard to eat. Kellogg's Bran adds greatly to the pleasure of eating other hot or cold cereals. A popular way to serve Kellogg's Bran is to cook it with hot cereals. In preparation, add two tablespoons of Bran for each person, mixing it with the cereal to be cooked.

Kellogg's Bran is especially delicious in raisin bread, muffins, pancakes, macaroni, etc. Recipes appear on each package.

Realize what Kellogg's Bran is doing for constipation sufferers all over the nation, then just think what it can do for you and yours. The horrors to come should guide you to eat bran regularly, to serve it in some form each day.

You can drive constipation out of your family with Kellogg's Bran— and remove the cause of 90% of human illness! First-class hotels and clubs serve Kellogg's Bran in individual packages. Ask for it at your restaurant. All grocers.

GERTRUDE EDERLE BROKE THREE SWIMMING RECORDS

New York, April 5—Gertrude Ederle of the Women's Swimming Association New York broke three world's records to-night in a local A. A. U. meet, starting from Scratch and finished third in the 200 metre event.

Miss Ederle cut the time for 200 yards from 2:32 5-8 to 2:20 1-8 for 200 meters from 2:46 1-8 to 2:45 1-5 and for 220 yards from 2:47 3-8 to 2:46 4-5.

If La Follette could make good on his prediction of dollar gasoline, the pedestrian vote would sweep him into the White House.—New York Times.
