## 'Convicted by past'

# B.C. candidate admits record

VANCOUVER — (CP) — Donald Riggan, 41-year-old Social Credit candidate in next Monday's British Columbia general election, said Thursday he once served a prison term for theft but that it was part of a "secret service" assignment to obtain scientific information from a Nazi prisoner of war.

He said he made three attempts Thursday night to have authorities verify his statement but they were "evasive." He did not identify the authorities.

Mr. Riggan issued a statement saying: "I stand convicted by the past, a past I felt had been left behind. . . I can only hope that a jury on one charge and pleaded guilty to five others. He also admitted obtaining \$1,175 in a car deal by false pretences, but said he pleaded guilty in error and didn't correct the error because it made no difference to the three-year prison term he was given."

**OTTAWA** — The RCMP refused today to link itself with an undercover assignment which a British Columbia election candidate says he once carried out in order to obtain scientific information from a German prisoner of war.

Mr. Riggan indicated, without specifying, that there were discrepancies in a statement published earlier in which he admitted he had been sentenced to three years in prison for theft of public funds.

The thefts occurred in Edison, Alta., while he was a bailiff for the Edmonton sheriff. But Riggan said it was part of an elaborate plot to obtain vital information from a "brilliant Nazi scientist named Adolph Kratz" who was serving a sentence for murder in Prince Albert penitentiary.

He said he was convicted by

to my friends, no explanation is necessary. To my enemies, and they appear powerful, no explanation is sufficient."

Mr. Riggan, father of six children, is a director of the B.C. Social Credit League and president of the constituency league in Delta, where he seeks election.

The cause: An explosion in the paintshop.

# Turncoat code clerk cables his parents

EUREKA, Calif. (AP) — Beron Mitchell, National Security Agency code clerk who defected to Russia, told his parents in a cable from Moscow his only regret was their suffering.

The cable message was the first word Emery Mitchell 65, lawyer, and his wife, Helen, had had from their son since he and a companion, William Martin, went behind the Iron Curtain several weeks ago.

The message, received Thursday, said in part:

"Your trust in the United States administration and equal distrust of the Soviet Union is not shared

by me. Your honest efforts in the accumulation of a small fortune in common stock all seem to me consistent with your unflinching support of the Republican party during these differences in our outlook are understood, then please accept my invitation for you and mother to visit me in the Soviet Union. I shall meet you half way in the cost of the trip. This can be arranged by writing me. Love, Beron."

Showing deep emotional shock, Mitchell asked that he and his wife be spared any comment on their son's message.

## Special passes Restrict all travel in Berlin

BERLIN (Reuters)—West German citizens needed special passes to enter East Berlin today as East Germany clamped new restrictions on travel into their sector of the divided city.

The restrictions came into effect at midnight—just four days after the East Germans had lifted a five-day ban on West Germans travelling to East Berlin.

East German police at the Brandenburg gate, one of the main crossing points between East and West Berlin, today were issuing West Germans with passes valid only for 12 hours.

Traffic was still flowing freely, however, on the Autobahn linking West Germany with West Berlin, 110 miles behind the Iron Curtain. East German border guards were apparently still waiting for instructions on how to apply the new restrictions.

## TESTING THE WEST

The new restrictions were seen here as part of an organized campaign to see how far the Communist regime could go before the West would impose counter-measures.

West Berlin Mayor Willy Brandt urged residents to remain calm.

"The climax of this arbitrary crisis has not yet been reached," he said. "The present measures are only part of a new phase with which the powers responsible for the security of Berlin will have to deal."

West Germany's vice-chancellor, Ludwig Erhard, described the new move as "a provocation not only to the Germans but to the whole Western world."

The restrictions required all West Germans to obtain permits from East German police when entering East Berlin. Permits good for three months will be issued to persons making frequent trips to the Communist sector of the city, the East Germans said.

Thursday's announcement did not mention a time limit.

## Jussi Bjorling dies in Sweden

STOCKHOLM, Sweden (AP) — Sweden's world famous opera singer, Jussi Bjorling, died today at his summer home in the island of Siro. He was 49.

Bjorling has suffered from heart attacks.

Both his parents were talented singers. With his father and two brothers, he toured the United States and Europe when he was eight years old.

In 1938 he joined the Metropolitan Opera in New York.

## Flooding forecast in interior

MIAMI — (AP) — Fierce winds from hurricane Donna pounded the north coast of Cuba during the night and squalls increased in the Florida Keys and as far north as Miami.

Hurricane warnings were in effect from Key Largo, 45 miles south of Miami, to Key West. A hurricane watch continued from just south of Cape Canaveral southward over Florida to Fort Myers on the Gulf of Mexico.

"All precautions should be continued along the north coast of Cuba from Cayo Romana westward for hurricane force winds, very heavy rains and abnormally high tides," the weather bureau said.

Heavy squalls with considerable local flooding was forecast for the interior of Cuba.

**CLAIMED 136 LIVES**

Donna, which already has claimed 136 lives in the eastern Caribbean, was centred about 290 miles east of Havana and 250 miles southeast of Miami early today. It was moving west-northwest at 10 miles an hour.

Winds reached 150 m.p.h. at the centre of the storm and hurricane-force winds extended outward 185 miles to the northeast and 90 miles to the southwest. Gales stretched 250 miles to the northeast and 140 miles to the southwest.

Forecasters said Donna might pass through the Florida Straits and move into the Gulf of Mexico. Winds of 30 to 40 m.p.h. were expected at Miami.

Key West, a city of 45,000 lying 90 miles north of Havana, boarded up and prepared to wait out the storm. The huge naval installation there was buttoned up. All vessels put out to sea and aircraft were ferried northward.

**HOMES DESTROYED**

As the storm's first hard blows were delivered on Cuba, flood waters destroyed about 80 houses in the coastal community of Gibara. More than 3,000 persons were evacuated.

Hundreds of families in eastern Cuba sought refuge in schools and churches.

The hurricane produced one of the biggest buying sprees in south Florida since last Christmas. Shelves were stripped of canned goods, bread, milk, flashlights and batteries, candles and camp stoves.

## Fail to read the small print

BRADENTON, Fla. (AP) — The small print in its lease left the local Republican party in an embarrassing position today. It is paying the Democratic party's electric bill.

The two parties have headquarters in adjoining offices. One meter, located on the Republican side, records the electricity used by both parties. The lease requires the Republicans to pay the bills.

# Guineans to leave Congo

LEOPOLDVILLE — (Reuters) — The Guinean detachment with the United Nations force said today it wanted to pull out of the Congo until the UN "ceased its flagrant interference in internal Congolese affairs."

The Guinean action came soon after Premier Patrice Lumumba announced he had taken over the functions of head of state in addition to his present post of premier.

The head of the Guinean command told a press conference that Gen. Diane Lansana had asked President Sekou Toure to agree to the "provisional withdrawal" of the contingent.

(In another development, The Associated Press reported from Elisabethville that the UN command there said it has received reports that 300 or more Congolese troops have invaded rebel-ruled Katanga province.

**INVASION CONFIRMED**

(The UN's political adviser in Elisabethville, Jan Berendsen reported the Mali UN contingent based at Kongo confirmed the Congolese moved in Thursday from Kivu province, crossing the Luika River that forms the Katanga-Kivu border.

(The detachment was said to have reached a position 30 miles from Kongo, which would be the first major town on a march

# Charge arms flown to Katanga airport

UNITED NATIONS, N.Y. (AP) — Secretary-General Dag Hammarskjold warned Belgium against tampering in the muddled affairs of the Congo as the Security Council sought to clarify the UN's position in the chaotic African country.

Hammarskjold, under fire from several directions in the United Nations role in the former Belgian colony, levelled a warning Thursday night to Belgian Ambassador Walter Loidan.

The secretary-general said he had received confirmed reports that nine tons of weapons were unloaded Wednesday from a Belgian Sabena Airlines plane at Elisabethville airport in the secessionist province of Katanga.

Hammarskjold, under attack from Russia, Yugoslavia and Congolese Premier Patrice Lumumba, sought Council action to halt the flow of outside aid to battling Congolese factions.

The call presumably was directed against both Belgium and the Soviet Union. Russia has been sending planes, troop carriers and technicians to Lumumba.

# City hotel is sold

Final arrangements were made today for sale of the Sherbrooke Hotel to a group of businessmen from Montreal.

It was learned today that the purchase was made by Hotel Leaseholds, of Montreal. The principals in the company, operators of the Far Hills Inn & Cottages at Val Morin, are W. Manly Bourke, Peter Luke and Elton Irwin.

Further details of the arrangements are to be announced later following a press conference and reception at the hotel.

# Worst in memory Maritimes forests still burn

By THE CANADIAN PRESS

The dawn was sunny over most of the Atlantic provinces today promising no relief to firemen fighting the worst rash of forest fires in memory.

Rampaging flames entered one community Thursday destroying six buildings while changing winds joined forces with firemen to save other communities.

More fires broke out as temperatures soared to the high 80s and were fanned by brisk winds. The fires are raging through forests scorched by one of the hottest and driest summers since records began in 1876.

Here is a glimpse of the situation:

**New Brunswick** — A fire 12 miles south of Newcastle ran into the village of Barnaby River destroying a CNR station and freight shed, four CNR cars, a one-room school, two homes and a barn. A forester said the situation was "getting worse by the minute."

**Prince Edward Island** — An abandoned factory and an abandoned home were destroyed along the Tory road, 35 miles west of Summerside. Four major fires were burning but no communities were in immediate danger.

**Newfoundland** — Residents moved back into Old Perlican, a fishing community of 1,000 on the tip of the Avalon Peninsula, 100 miles north of St. John's. Fire was turned by a bulldozed trench. Eight fires were burning but no buildings were threatened.

**Nova Scotia** — A new outbreak seven miles north of Halifax threatened the heavily populated Halifax-Bedford highway area. Firemen were having trouble reaching the fire front. Near Shelburne in southern Nova Scotia the provinces' biggest blaze was still out of control in pine and spruce timber.

# Wind saves Gaspé town

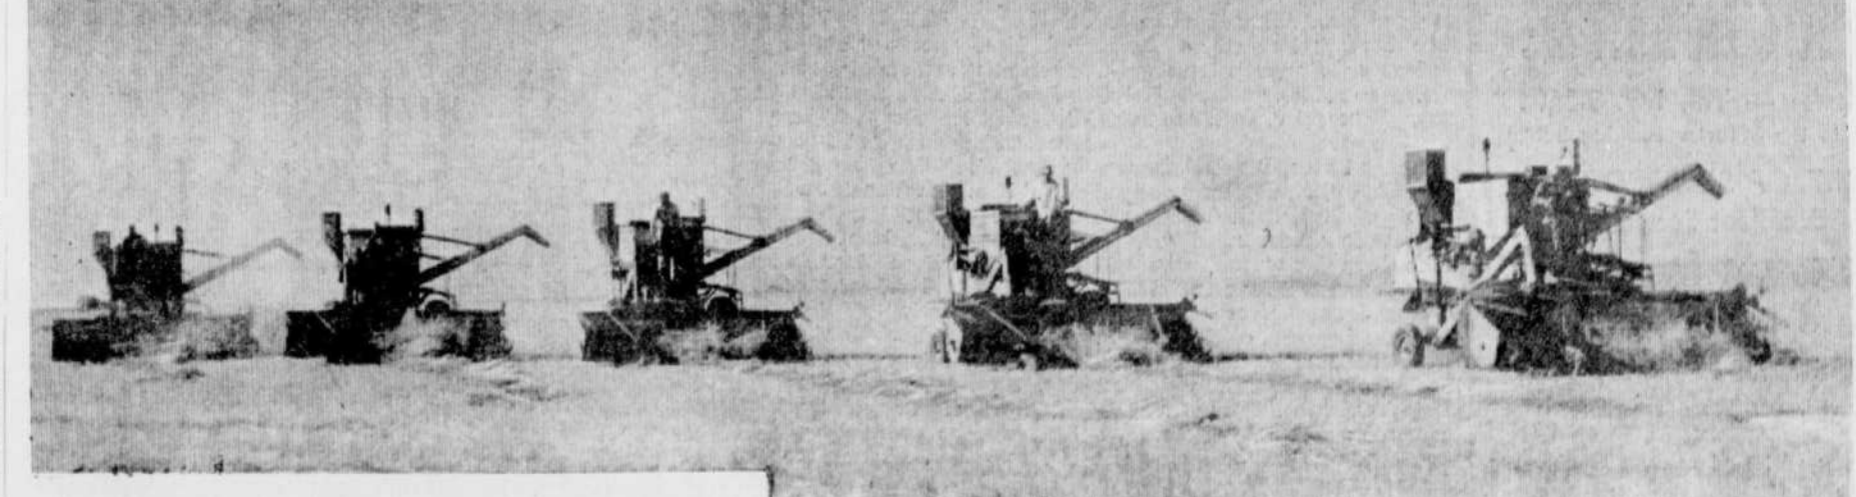

GRANDE RIVIERE, Que. (CP)—Fire cut off the water in Grande Riviere Thursday, but a shifting wind spared the town from possible destruction.

An off-and-on forest fire that has ravaged Gaspé South for the past month flared up again and moved on Grande Riviere, 330 miles northeast of Quebec City, but before night fall the wind changed and drove it back towards the uninhabited interior.

But it burned down power poles and left the town residents without water or light.

# Has tricky girdle

LONDON (AP) — A 53-year-old housewife was arrested at West London air terminal and charged with smuggling 400 watches into the country inside her girdle. Mrs. Marie Louise Clark, who arrived by plane from Austria, was ordered by a magistrate to be held in custody for a later court hearing. The prosecution said the watches were contained in a special kind of girdle. "I didn't know what was in the thing," Mrs. Clark retorted.

### EAST ANGUS —

Mrs. Isabella Lavalliere, Sherbrooke, spent a week as guest of Mr. and Mrs. Curtis Joyce, church hall at a miscellaneous shower prior to their marriages, which took place on Aug. 27 and Sept. 3 respectively.

The young ladies were taken by surprise when they entered the hall to find it beautifully decorated with streamers and wedding bells, and to find a table heaped with presents, and chairs placed for them at each end. The gifts included china, linen, electric irons, pyrex, etc. After they had been opened and admired, lunch was served.

The shower cakes were made by Mrs. L. C. Gray and Mrs. Edmund Howe and added much to the attractiveness of the table. The honored guests thanked all for the lovely gifts.

Guests of Mrs. David Byrne were Mr. and Mrs. Graydon Parker and son Jeffrey, of Montreal, Mr. and Mrs. Johnston Beattie, Lennoxville, and Mr. and Mrs. Clifford Byrne and family, of St. Catharines, Ont.

Mr. Lester Joyce, of Toronto, spent two weeks with his parents, Mr. and Mrs. Curtis Joyce.

Mr. and Mrs. Reg. Curtis, of Lowell, Mass., spent the weekend with Mr. and Mrs. Chester Da and Mrs. C. A. Adey, of Bristol, Ont.

It was officially announced yesterday that Lt. Col. John J. Dunn, CD, had been promoted from major, and named to take over command of Les Fusiliers de Sherbrooke, RCIC, on October 5.

Congratulations are due Lt. Col. Dunn, who has achieved highest goals as a militiaman during his fifteen years service in the Canadian Army.

Golfing officers and sergeants of The Sherbrooke Regiment will tee-off at 11 a.m. Sunday morning at the Lennoxville Golf Course, for their annual tournament. The draw for teams will take place Friday evening at the unit's orderly room. The Padre's Trophy is again at stake.

Officer cadets of the C.O.T.C. have completed their postings to summer camps and courses, and are taking a short recess before the 1960-61 term commences. The only Sherbrooke candidate, with the Bishop's University Contingent, O/Cdt. Kouri, successfully passed his course at the Royal Canadian Infantry School.

George Whittier, son of Mr. and Mrs. Willis Whittier of Victoria Street, Magog, who is with the Royal Canadian Electrical and Mechanical Engineers, left his home last weekend for a posting in the Yukon. George was an outstanding cadet in the former Magog High School Cadet Corps, No. 558. After leaving school, he enlisted in the RCN for a five year period, and on his discharge three years ago, joined RCME. George says he is very happy serving with his corps.

The stage is all set for the Sherbrooke Fusiliers Regiment Association's annual reunion being held this weekend. Former members of the famous world war two unit will hail from all parts of Canada, and across the border.

The Sherbrooke Fusiliers were formed by the amalgamation of The Sherbrooke Regiment and Les Fusiliers de Sherbrooke, who keep the glories of their war record very much alive.

Following the usual procedure, the reunion will commence

with registration of Association members from 9 a.m. till 2 p.m. tomorrow afternoon, to be followed by the annual meeting.

At 3:30 the Association will march to the monument, "Tank Bomb," at the Sherbrooke Parade Grounds.

Following the visit to "Tank Bomb," the group will move to St. Peter's Church, where they'll salute their colors, presented to the unit last September 19 by the Hon. George Pearkes, V.C., Minister of National Defence.

From 4.30 till 6 o'clock their will be cocktails served in The Sherbrooke Regiment's officers' mess, and a banquet dinner will commence at 6.30 in the Magog Hotel. Following the dinner, movies of last year's presentation and reunion, and a documentary film of the regiment, made during the war will be shown. There will be a social evening after the films showing.

Sunday the association will be hosted by Sherbrooke's Branch No. 10 of the Canadian Legion.

If Bandmaster F. W. Cook were to return to earth, he would be proud and honored to see how his memory is being kept alive, explained Sergeant-Major Edgar Kingsland, of the 117th Eastern Townships Overseas Battalion. One of the late Mr. Cook's closest friends, Mr. Kingsland presented The Sherbrooke Regiment Band with the deceased director's three prize batons three years ago, to be displayed in the mess at the Williams Street Armoury. The batons had been presented to the veteran bandmaster by bands he led during the Indian and African campaigns of the late 1800's, and one from his Highland unit. They now occupy a place of honour in the armoured unit's band quarters displayed in a specially made glass enclosed, velvet lined case.

This week relatives of the late Mr. Cook, through Mr. Kingsland, presented the Sherbrooke's band with decorations won by the deceased bandmaster, who is among Canada's most noted soldiers of the past. His decorations included "The Indian Mutiny", "The African Zulu War" of 1877-79, "First World War Decorations" and a medal won in 1886 for musketry while serving with the 5th Royal Highlanders of Canada. Three other prize possessions were the late veteran's service button, his wrist identification tag, awarded him while he served with the 189th Battalion, and his last badge of office as a bandmaster.

These medals and other badges shall be arranged with Mr. Cook's batons, to hang as a monument to the memory of a great soldier and fine musician.

Bandmaster Cook passed away in Montreal Feb. 26, 1935 at 81. At one time Bandmaster Cook headed bands of the brigade that included units from the

**Japanese textiles exported here increased 93 per cent in 3 years**

KINGSTON, Ont.—Textile and clothing exports to Canada from Japan were 93% higher in 1959 than they were in 1957, a business administration expert said here yesterday.

In a paper on production cost control before international delegates to the 7th Canadian Textile Seminar, D. C. Patridge, of the Department of Business Administration, Bishop's University, said that during the last decade much had been written on the subject of textile costs and foreign competition.

"We have heard that our declining profits are a result of a Japanese union squeeze. The unions force us to pay higher wages, and Japanese imports undercut us in the market," he said.

"The machine technology that once gave us a competitive advantage no longer exists. So clouded is our future, so black outlook, that many have said 'Why worry about costs, sales are our problem!'"

Higher tariffs and import quotas would give temporary relief, said Mr. Patridge, but more than government intervention was necessary. "The industry must also help itself."

Competition from low-wage countries was also featured in a later address by Raymond Charlebois, of Dominion Textile Company Limited, Montreal.

"To check the never ending growth of labour cost, and to remain competitive with the low-wage countries, we have to use the new ideas, theories, and sciences that are at our disposal, in order to produce more for less," said Mr. Charlebois in discussing trends in cotton processing equipment.

"Of course, capital outlay is greater every year to keep pace with progress. We have to be allowed more for depreciation and spend more on research. But if we want to keep pace with other industries, if we want to attract more of the better young people to keep our industry progressive, we have to get rid of the belt drives," he said.

In another paper, A. A. Laurin, also of Dominion Textile Company, stressed the importance of personnel training within the Canadian textile industry. "Technological evolution will

**Registration up over 1959**

A statement released today by Eugene Charette, local office manager of the Unemployment Insurance Commission, shows that the number of unemployed persons registering in August of this year was 520 more than the number for August 1959.

Referrals rose from 903 in August, 1959 to 1,017 last month, but placements dropped from 736 to 727.

However, the number of unplaced applicants dropped from 3,859 in July to 3,153 in August.

In the insurance field, the Sherbrooke local office and its sub-offices of Richmond, East Angus and Coaticook have registered in August 1960, 653 initial claims in person, 539 renewal claims and 15 postal claims, for a total of 1,207, compared to 1,693 in July.

The number of active claimants at the end of August, 1960 represents a decrease of 762 claimants from the previous month but an increase of 532 over the corresponding month in 1959.

Sherbrooke local had 739 male and 565 female for a total of 1,304; Sherbrooke postal had 381 male and 230 female for a total of 611; Richmond sub-office had 81 male and 49 female for a total of

**Mental exam is ordered**

By MALCOLM DAIGNEAULT (Record Staff Reporter)

A Bishopton man who was freed from prison by a "habeas corpus" proceeding in June following his arrest on a charge of assaulting his wife, appeared in Court of Sessions yesterday to hear four new charges against him read.

Presiding Judge Joseph Marier decided to send Charles Andrew Doane to Bordeaux Prison for psychiatric observation after he pleaded guilty to having assaulted a police officer who was aiding a prison guard in the performance of his duties.

The attack took place in court house on Tuesday of this week immediately after Doane had appeared on charges of driving a vehicle in a dangerous manner, driving a vehicle while his faculties were impaired and causing \$200 damage to a local hotel.

The decision to send Doane to Bordeaux nullifies the effects of the judgment handed down by Judge William Mitchell ordering the prisoner's release, Rene Monty, attorney for the defence, did not oppose the decision.

**APPEARED IN MAY**

Doane first appeared in Magistrate's Court on May 11 charged with having committed a grievous assault on the person of his wife. He was accused of having struck his wife who fled from the house in her night clothes and bare feet.

Judge Edouard Boisvert ordered a mental examination for Doane. The latter, through his attorneys, began the habeas corpus proceedings to have himself freed. Crown Prosecutor Benoit Trudel contended at the time that Doane should not be freed but should be sent to Bordeaux prison for mental treatment.

However, Judge William Mitchell ruled in favor of Doane who became a free man until Labor Day weekend when he was arrested and charged with causing damages to the local hotel and driving a car in a dangerous manner while his faculties were impaired. His appearance on these three charges resulted in the fourth charge of assaulting a police officer.

All four charges have been postponed "sine die"—indefinitely—while awaiting the results of the psychiatric observation.

Before being taken from the court room on his way to Bordeaux, Doane asked permission of the court to explain why he had "taken a swing" at provincial policeman Marc Beaupre, but was not permitted to do so.

The Foyer St. Joseph, an institution designed to care for elderly boarders, located at the Queen-Prospect-London streets area, will shortly undertake a \$1,900,000 extension program. The construction of the new building, a five-storey structure to accommodate 200 boarders, is made possible by a grant from the provincial government of \$1,300,000 which was announced yesterday by L. P. Brousseau, MPP for Sherbrooke.

Alphonse Belanger, architect in charge of the project, said the structure would be a five-storey affair. The ground floor would be occupied by the entrance hall, reception hall, dining hall, etc. The next three floors would comprise single and double bedrooms, each with its own bath, for the boarders. The top floor would contain quarters for the nuns.

Tenders will be called shortly and work should start early in November, said Mr. Belanger.

**Sherbrooke missionary 11 years in Viet Nam**

(By NICK POWELL) (Record Staff Reporter)

Slides and a talk about the life of a missionary with the Koho (pronounced ka-haw) tribespeople in the southeastern section of Free Viet Nam will be given tonight at the Lennoxville Pentecostal Church, at 8 p.m., by Miss Peggy Bowen, 36-year-old Sherbrooke missionary with the Christian Missionary Alliance — known in Viet Nam as the Evangelical Church — stationed in Dalat.

Miss Bowen recently returned from a five-year visit with these tribespeople, and shortly leaves to travel through West Virginia and Kentucky on a tour talking to groups about the missionary field.

Next April, Miss Bowen returns to Viet Nam, a land she first entered 11 years ago as a missionary schoolteacher.

Describing life in Dalat, where the missionary staff of five cares for the educational and spiritual needs of some 40,000 people, requires some lengthy discussion with Miss Bowen. However, her impressions of the area and its inhabitants are fascinating.

**STATIONS**

There are 10 missionary stations in the tribes area, she said, and up until the end of World War II, Viet Nam was the only country in which a Protestant mission alone attempted to bring Christianity to the people.

"There are some considerable difficulties in educating these people," she says. "In the first place, their tribal beliefs are all based on a form of animism, where they attribute all acts and occurrences to the gods of the woods, the field and various other things."

"In some cases we have managed to make the native tribesmen Christians, but occasionally they revert to their old beliefs."

Miss Bowen first went to Viet Nam as a schoolteacher for missionaries' children. Since then however, regulations on single women have been relaxed and she has been permitted

No election change justified

Wednesday's referendum on the proposed change in the municipal election system indicates that while seven per cent of the electors want a change in the existing set-up and four per cent actively want to retain the rotation plan, the great majority simply do not care which scheme is adopted.

To put it simply: Although the majority of those going to the polls wanted a change, apparently 93 per cent of the electorate can see little advantage resulting from the proposed changeover.

Certainly, the City Council can find strong justification for doing nothing about changing the election system.

No reasonable man can claim that a seven per cent vote in favor of the switch

constitutes a wave of public opinion which would authorize the legislators at Quebec to force the amendment to the city charter even if it were opposed by the council.

The bloc system of elections may have certain advantages, but the nature of its sponsorship did little to endear it to the general public.

The group pressing for the change made it clear on many occasions that they were less interested in the long-term situation than they were in the possibility of "getting" all the members of the present council at one sweep.

The activities of this particular group in recent years have been such as to make the average citizen steer clear of any project they supported too strongly.

Saskatchewan Ignores Canadian History

It is to be hoped that school authorities in other sections of Canada will be slow to follow the lead set by Saskatchewan where it has been decided not to teach Canadian history to school children until they reach grade twelve.

One of the greatest problems facing Canada today is to impress upon its people a feeling of pride in the developments and accomplishments of this country over the past four hundred years.

This feeling of pride in Canadianism

must be implanted in the minds of the children at an early age. It is during these years that human imagination is strongest and it is then that the proper teaching of Canadian history will instill the true patriotism in the children.

This does not mean the teaching of jingoism or the neglecting of the history of faraway parts.

But to appreciate the feelings which motivated people of other times and other places to achieve great deeds, the students themselves must have a love of their own country and its ideals.

Firearms control

New director of the Quebec Provincial Police, Josaphat Brunet, says it's going to be a lot more difficult to secure a gun in this province when permits expire at the end of the year.

New applicants, along with those seeking renewals, will be thoroughly screened before a permit is issued in 1961, the director has announced.

The move is a welcome one. The astonishing number of holdups committed in the province every week is, in large measure due to the ease with which it has been possible to obtain a gun.

Most of the armed holdups, it is true,

occur in Montreal, but other areas of the province are not immune to this particularly dangerous criminal activity.

Banks in some of the rural areas of the Eastern Townships have been almost regular victims of armed thugs.

A gun is usually a criminal's courage. If thugs can be prevented from securing firearms, the number of major crimes committed is sure to drop.

Tightening up gun permit regulations is one way to do this. It may not be the whole answer, but it's a long step in the right direction.

Letters To The Editor

Dear Sir: As the international observance of St. Francis or World Day for Animals is fast approaching, all Religious Leaders or Ministers, and Sunday School Superintendents are being kindly asked to observe this vital occasion in one of their services on September 25, or October 2 or 9th.

Not long ago, Air Chief Marshal Lord Dowding stated thus in the House of Lords, London: "What I am now saying, if people would realize it, is of very great importance, because failure to recognize our responsibilities toward the animal kingdom is the cause of many of the calamities which now beset the nations of the world. We shall never attain true Peace until we recognize the place of creatures in the scheme of things and treat them accordingly!"

Thanking you for your past and present co-operation. Yours sincerely, E. Clifford Pratt

I feel I must comment on a small news item that appeared in a recent edition of your paper. The item was headed (Commie Symbol Angers Citizen). Mr. Ronald Gendron was the citizen, who became so angry and upset when he observed youngsters wearing white sweaters with the communistic hammer and sickle symbol printed on the back. He went to the council meeting and demanded that the council enact a by-law prohibiting the sale of such clothing.

I wish to back up Mr. Gendron in his demand. I feel most strongly that the sale of such emblems should not be tolerated in a free community which intends to remain free. Doubtless most of these young people do not mean any harm. They simply do not know what they are doing. They do not realize that the communism today threatens the very existence of our western civilization. If we of the west, allow the communists to keep on enslaving more and more peoples and nations as they have been doing in the past it will not be very many years until such a thing as individual freedom of thought and action will be a thing of the past and our own grand children may be slaves of the soviet ideology. Surely when we contemplate that awful possibility and terribly real danger we must decide that we cannot allow unscrupulous business men to earn their blood money by selling communistic symbols to our young people.

SPELLING

Spelling reform is slow business. In 1902 the National Education Association simplified the spellings of 12 words. They took the "ue" from the ends of words like catalogue and demagogue.

They erased the "ugh" from such words as though and through. After 58 years only the new spelling of programme—program—has become preferred in our modern-day dictionaries.

Post-war immigrants

Contribute to higher education

By JOHN E. BIRD, Canadian Press Staff Writer

OTTAWA (CP)— Post-war immigrants are making a significant contribution to the higher education of Canadians.

A survey of new immigration records shows that students of Canadian universities have the help of teachers and technicians from 40 countries.

These teachers represent about 12 per cent of the total number of professors and research personnel employed by 24 universities.

At the beginning of 1959 post-war immigrants on the staffs of the universities totalled 852. All arrived in Canada after the war. Immigration and university officials estimate that more than 100 were hired during 1959 and a like number so far this

year, pushing the total over 1,000.

The great majority have become Canadian citizens or are planning to apply for citizenship after meeting the five-year residence qualification. Many are refugees or displaced persons from the war.

Dr. T. H. Matthews, executive director of the National Conference of Canadian Universities, said the immigrant teachers did much to relieve a serious shortage of professors in the early post-war period.

More than half the 852 were of British origin or former residents of the United States. British immigrants, including men and women from Northern Ireland, South Africa, Australia and New Zealand, totalled 355. There were 123 Americans. Germans were third with 46

followed by 42 Poles, 36 Hungarians, 32 French, 27 Dutch, 17 Czechs and 14 Austrians. There were also 13 East Indians, five Japanese, two Bulgarians, five Spaniards, 13 Yugoslavs, one Pakistani, three Turks and 14 Ukrainians.

In 1945-46 eight universities hired a total of 13 immigrants. In 1947 the number was 23 and increased almost every year to a peak of 128 in 1958.

Montreal's McGill University has augmented its staff with 149 immigrant professors and research personnel. The University of British Columbia has engaged 119, the University of Alberta 93, University of Toronto 73, University of Montreal 66, University of Ottawa 57, and University of Western Ontario, London, 42.

The 852 are qualified in 35 fields ranging from agriculture to zoology but nearly one-third are in the fields of medicine and literature and languages.

Of the total, 142 are on the medical staffs of universities and 122 are teaching languages and literature. There are 59 teaching engineering, 58 mathematics, 49 chemistry and 47 physics.

Where is upturn?

Steel casts shadow on US economy

By SAM DAWSON

NEW YORK (AP)—The delay in the expected upturn in steel output is casting a shadow over the fall outlook for the U.S. economy.

U.S. business is used by now to the ups and downs in the steel industry. But when one of the ups doesn't come along on schedule, business gets nervous.

That's because steel has the name of being the basic industry. It lags when other industries lose their zip. And if it lags too long, pessimism tends to spread to other lines.

The steel mills were first expected to be firing up idle furnaces by now for the fall business revival. Now steel spokesmen talk of October. And one close observer of the industry says only a mild seasonal upturn can be expected this fall, with the big turnaround delayed until next spring.

One reason for the delay is that steel customers either have more steel still in stock than the industry had counted on, or their own products are moving too slowly for them to expand output now.

Added to this is their knowledge that steel is in good supply, idle capacity means that any rush of orders could be filled without undue delays.

Steel's best customer, the auto industry, hasn't put in the steel orders expected. Stocks of materials seem to be large. Also the stocks of 1960 cars in U.S. dealers' hands is well above this time last year.

Appliance makers also have tended to cut output instead of expanding it, and to be holding up new steel orders.

The construction industry has

slowed its pace and its orders. All this has been added to the usual summer slump due to vacations in steel-using industries and the general lull before output for winter business.

On the long-term side, a growing problem is competition from other materials. Cars are using more plastics, aluminum and glass. Buildings are using more pre-stressed concrete, more glass, more aluminum, more plastics. Tin-coated steel cans vie with glass, paper, foil, plastic bottles, squeeze tubes in sharing the food industry business.

NEW TYPE OF MILLIONAIRE

(Fort William Times-Journal)

According to an article in Fortune magazine a special kind of millionaire is emerging in the United States. This is a scientist in his thirties who turns industrialist, proprietor of his own Space Age growth company.

The new egghead millionaires pay little attention to their wealth and couldn't care less about keeping up with the Joneses. Many still live in the modest homes they bought years back. Most still drive aged autos and dress casually if not carelessly. Their wives seldom wear furs.

Most of the group disparage money. Arch Scurlock, 40, worth some \$10 million, is quoted by Fortune as saying: "Money doesn't make you any younger, or any happier. . . Making it is sort of a game." And another affluent commentator, Max Palevsky, remarks: "It's competition that makes things interesting, and money is just the way we keep score."

One of the men, David Bakalar, 35, of Transitron Electronics Corp., didn't even know he was especially wealthy until a Fortune writer confronted him with figures showing he was worth \$150 million.

The egghead millionaires have settled close to the country's major missile and electronic centres or near the great technical schools such as M.I.T., Stanford, and the University of California at Berkeley.

UNLUCKY EXPERT GETS SWINDLED

The victim of today's swindle was one of our better players. In fact he is one of our very best and as a result of the misfortune is to be pitied rather than censured if one should ever pity an expert.

South's six no-trump contract was optimistic to say the least and he had certainly overbid to get there. His opening two no-trump did include a six card suit but he had shaded his high card value down to 20 points and really should have passed when his partner raised him from two to four.

Actually the contract wasn't a bad one. Put the ace of diamonds over in the East hand and South would have 12 tricks but that diamond ace sticks out right in the middle of West's cards.

So, how did South make the contract?

It was a cinch. Remember West was an expert. South simply won the first trick with dummy's ace of hearts, led a diamond and went up with his king.

Expert West ducked. He did not know about that six card club suit. He did know about his own ace and jack of diamonds and wanted to wait for a second diamond lead so that he could make both of them.

That second diamond lead never came. And to add insult to injury South made all the tricks. West hung on to his ace and jack

# Hog producers in clover prices highest in years

OTTAWA (CP)—Canadian hog producers are in clover. Their hogs are going to market to fetch the highest prices for some years. What's more, officials say, prices are likely to hold firm and perhaps go higher during the autumn.

The reason is the marked reduction in hog marketings which has occurred this year. Farmers' deliveries at terminal markets are 17 per cent below last year. The decline is even more marked in recent weeks—in the five weeks to Sept. 3 deliveries were 27 per cent below a year earlier.

This has meant higher retail prices for roast pork and pork chops. Officials say it could also mean there will be no need for government deficiency payments to producers this year.

## MARKED CHANGE

The situation is in marked contrast to the upset in the hog market early this year after the government, switching its method of price support, stepped out of the pork-buying business. Starting Jan. 11, instead of buying pork when hog prices fell below the support level, it undertook to provide deficiency payments if the average annual hog price fell below the price floor. The government said the old system resulted in huge accumulations of pork.

# Show ways to cut costs in Canada's paper mills

BANFF, Alta. (CP)—Pulp and paper technicians listened attentively as experts told them Wednesday of ways to cut costs and improve efficiency in their Canadian mills.

E. E. Gilbert, Montreal consultant, told delegates attending the summer meeting of the Canadian Pulp and Paper Association's technical section that the pulp and paper industry should concentrate just as much on how to cut the costs of handling materials as how to cut the costs of production.

He called for recognition of the hidden cost of labor throughout the mills and more effective utilization of the labor.

He recalled a recent survey that indicated 44 per cent of 4,403 pulp and paper workers were not physically helping to produce the product, but were engaged only in handling materials.

## Quebec H&S vice-pres. to speak

When we say "I wish they would..." do this or that about education of children, who are "they"? When we declare "If they don't do something about..." again, who are "they"?

Next Monday evening, Sept. 12, at the Sherbrooke High School, this and other related questions will be discussed by Alex R. Hasley, vice-president of the Quebec Federation of Home and School Associations, at the inaugural meeting of the Sherbrooke Association.

Mr. Hasley is the President of Willingdon H. & S. Association, Montreal, a very large and very active local branch, and has been in home and school work for over 15 years.

The new officers of the Sherbrooke Association will be installed in office by Rev. Graham H. Barr, Minister of Trinity United Church, in a brief ceremony.

The new teachers in each of the three schools belonging to the Sherbrooke H. & S. Association, will be introduced by their respective principals.

Membership fees of one dollar per family will be received at the door prior to the meeting.

The award to the class having the best parent attendance during the coming year is again being offered by the Association, competition having been quite keen last year.

dead duck. The phoenix that arose in his stead is two-winged: one wing is the biologic chemist, and the other the salesman... The development of the salesman came when medicine became big business.

"The development of biologic chemistry tended to focus the attention of the physician more upon the pathologic physiology than upon the patient... In recent decades, the laboratory sciences have been in the saddle and the art of medicine under the crupper..."

"Recently, in a large teaching-hospital amphitheater... one of the physicians in the audience remarked 'Give Professor... two ounces of blood and a 24-hour urine and he would not need to see the patient.'"

"Physicians outline the course of treatment, but often neglect the person and his problems. As a consequence, shopping around has become habitual. Patients go from one supermarket to another for fast-frozen merchandise."

"The healthy and natural reaction to this (attitude) came with the psychosomatic approach to medicine (which) is the oldest type of medicine... That it has received the blessing of science is a godsend. But it is not synonymous with the art of medicine. It must not be departmentalized... Every physician should be its active exponent. (And when that occurs), clinical medicine will be reborn."

Mrs. Doris Panneton, accompanied by her daughter, Mrs. Laurent Trudeau, have returned to their home on Prospect St., after having spent a month at Cape Cod, Mass.

### Engagements

The engagement is announced of Joyce Shirley, daughter of Mrs. Mildred Sanschagrin, of Rock Island, and the late Horrida Sanschagrin, to Mr. Luc Martel, son of Mr. and Mrs. Marc Martel of Magog, Que. The wedding will take place on October 1.

Mr. and Mrs. George Deadman, of Eastman, Que., announce the engagement of their daughter, Nettie Dorothy, to Clarence E. Stansel, son of Mrs. E. L. Stansel, of Cornwall, Ont. The wedding will take place in November at Kingston, Ont.

### NEEDED VITAMIN

In addition to the citrus fruits, good sources of vitamin C are vegetables such as broccoli, raw turnip, potatoes and sprouts, and green and red peppers.

Mrs. Bessette, mother of the bride was in a black and white printed silk dress and wore a white hat and accessories and a corsage of white and yellow baby chrysanthemums.

Later, Mr. and Mrs. Bishop left for a wedding trip to Chelsea, Mass., where they will reside, the groom being a nurse in the naval hospital. For travelling Mrs. Bishop wore a corse nylon dress, a white hat and accessories and corsage of toning rose buds.

### JOHNSTON — LECKIE

UPPER MELBOURNE — The marriage of Margaret Ann Leckie, daughter of the late Mr. and Mrs. Gordon Leckie of St. Thomas, Ont., to Ronald Edgar Johnston, of Kingsbury, Que., son of Mr. and Mrs. John A. Johnston of Kingsbury, Que., took place on August 16th at seven o'clock in St. Andrew's Presbyterian Church, Upper Melbourne. Rev. William Brown officiated at the double ring ceremony, assisted by Mr. John Urquhart.

The wedding music was played by Mrs. A. MacArthur of Bedford, Que., and the soloist, Mr. A. MacArthur, sang O Perfect Love. The church decorations were candles and mauve and white gladioli which adorned the altar and windows and white satin bows marked the guest pews.

Given in marriage by her grandfather, Mr. James Leckie of Melbourne, the bride wore a street length dress of white embroidered silk organza over a white silk, fashioned with lily point sleeves and a softly scalloped neckline. Her veil was of Cathedral length and was held by a tiny tiara. She carried a cascade bouquet of yellow tea roses and ivy.

Miss Marjorie Tomlin of London, Ont., was maid-of-honor and wore a princess style street length dress of lilac Society Taffeta, featuring elbow length matching jacket. Her headdress was a lilac rose on matching net and she carried a nosegay of lilac and white mums.

Miss Jean Mary Leckie, Melbourne, and Miss Patricia Lynn Leckie, Sherbrooke, were bridesmaids for their sister, Miss Gay Johnston of Kingsbury, and sister of the groom, acted as junior bridesmaid. The bridesmaids wore identically styled dresses as the maid-of-honor, in mauve, while the junior bridesmaid was in light mauve. They wore floral headdresses the same as the maid-of-honor.

Mr. Donald Arthur Johnston of Kingsbury, acted as best man for his brother and the ushers were David MacDonald Jones, Bedford, and John Brock Johnston of Kingsbury, brother of the groom.

The groom's mother was in a mauve chiffon dress with stole of Chantilly lace, and white accessories. She wore a corsage of pale pink roses.

Following the ceremony a reception was held in Kirk Hall, Upper Melbourne. The bride's table was centered with a three-tier wedding cake surrounded with white gladioli and flanked by white tapers. The other tables were centered with gaily colored asters. The wedding and reception being held in the century old church, was attended by three generations of Leckies.

The bride and groom later left for a wedding trip to points of interest in south western Ontario and the United States, the bride travelling in a sand silk suit with chocolate brown accessories and wore a corsage of tiny yellow tea roses from her bouquet. The couple have taken up residence

### BISHOP — BESSETTE

DERBY LINE — The marriage of Gail Faye, elder daughter of Mr. and Mrs. Clarence Bessette of Derby Line, to Charles Bishop of U. S. Navy, Chelsea, Mass., son of Mr. and Mrs. William Bishop of Newport, Vt., took place at half past seven o'clock, the morning of Saturday, August 27 in St. Edward's Parish Church. Rev. J. Dussault officiated at the double ring ceremony.

The bride was given in marriage by her father and wore a white lace dress over taffeta, having a full waltz length skirt and a matching bolero over the strapless bodice. She wore a white hat and Chapel veil and carried a nosegay of pink roses and sweet peas.

Mr. Bishop stood as witness for his son.

The wedding breakfast took place at the home of the bride's

parents on Church street and was attended by the immediate families. The table was centered with the tiered wedding cake. Seasonal flowers decorated the table and home.

Later, Mr. and Mrs. Bishop left for a wedding trip to Chelsea, Mass., where they will reside, the groom being a nurse in the naval hospital. For travelling Mrs. Bishop wore a corse nylon dress, a white hat and accessories and corsage of toning rose buds.

# For and About Women

The other day when I was talking to Mrs. Lois Ogilvie Blanchette, she told me that her girls' choral group has commenced practicing for the winter concerts. This year she is associated with a group called the Singing Girls' Choral Group to which has been added a new name, La Chorale de L'Amitie.

Mrs. Blanchette, who is well known in Sherbrooke's musical circles, has given a great deal of pleasure to music lovers here with her talented girls choir, and by what she told me, I'm sure the coming season holds promise for many delightful evenings.

The girls have recently cut their first 12 inch record, which will be on sale soon. At present they are working on five recordings of sacred music for both French and English TV networks.

It will be well worth while to keep in mind the work of the

girls choir and their talented leader, for I am sure a treat is in store for you when they stage their concert this winter.

When travelling with small children be sure to tuck in a few small favorite toys and coloring books in your travelling bags.

Ordinary nail polish remover can be used to take off splatter of paint from floors — even when it has hardened. Let remover sink in for a few minutes only, then rub off with a cloth and wash the spot with warm soapy water.

### PORK ROAST AND HAM GARNISH

Peel and section an orange. Place 6 sections in pinwheel fashion on top of your pork roast or baked ham. In the center place a red grape for color.

It does not seem possible the summer has gone, and once again children are boarding the buses for school in their smart tunics and blouses. Houses and streets have come alive again as you hear the chatter of kiddies calling to their chums whom they have not seen all summer.

Deep-pile scatter rugs are no longer considered a stylish fad. Their popularity has been accepted and decorators like the added touch of color and luxury

### MUSHROOM TOPPING FOR POTATOES

For a change from potatoes and gravy, serve potatoes with mushroom topping. Cook some chopped onion in butter until tender but not brown. Add canned mushroom sauce; heat. Cut hot boiled potatoes in half and serve sauce over them.

Now that the various groups are starting the season's meetings, it may soon be your turn to be the hostess for an evening's meeting. At this time you want to take some of your best cooking, yet sometimes if things are rushed, there is not time to make a complicated delicacy.

Here are some squares that I like, they need no icing, though sometimes I shake a little icing sugar over the top for an added sweetness. And if you want a little variety add a few chopped dates for a delicious flavor.

### WALNUT STICKS

1 cup brown sugar, 1/2 cup sifted flour, 1/4 tsp. salt, 1/2 tsp. vanilla, 2 eggs, well beaten, 1 cup chopped walnuts. Add sugar, flour, salt and vanilla to eggs, and mix well. Add walnuts. Spread in greased shallow (9 x 12) baking pan and bake in moderate oven (375 degrees F.) 20 to 25 minutes. Cut into strips. Remove from pan while warm.

## W.C. Club season's program

The Women's Canadian Club of the Eastern Townships will open their fall season with a luncheon meeting at the Sherbrooke Hotel on Thursday, September 15 when the guest speaker will be Dr. Evan Turner, Director of the Montreal Museum of Fine Arts.

As in past years, the Women's Canadian Club, has made arrangements for some excellent speakers for the ensuing season, which it is hoped will be of great interest to its members.

The speakers for the months of September to March are listed below; the speakers for February, April and May will be announced at a later date.

SEPTEMBER: Dr. Turner, "Modern Canadian Art" Thursday, September 15th: 1 p.m.

OCTOBER: Guy Arnold, "Among the Head Hunters of Borneo—and related problems." Tuesday, October 11th: 7 p.m.

NOVEMBER: Lawrence E. Laybourne, "A Perspective on Canada" Tuesday, November 22nd: 7 p.m.

JANUARY: Elmore Philpott, M.C. "A Canadian Eye Witness in swiftly changing Asia." Wednesday, January 18th: 1 p.m.

MARCH: John C. Parkin: Subject to be announced later: Friday, March 10th: 7 p.m.

### Peachy Pancakes

Not too long ago pancakes and waffles were considered breakfast fare. Now, however, they are just as apt to be served for lunch or dinner. Here is a recipe for moist and tender Fresh Peach Waffles or Pancakes that not only makes a deliciously filling breakfast dish, but can also be featured on a summer luncheon menu.

### FRESH PEACH WAFFLES (or Pancakes)

Yield — 4 to 6 servings  
1 cup mashed ripe peaches, 2 teaspoons lemon juice, 1/4 cup granulated sugar, 1 1/4 cups once-sifted all-purpose flour, or 2 cups once-sifted pastry flour, 2 teaspoons baking powder, 1/4 teaspoon baking soda, 1/2 teaspoon salt, 1/4 teaspoon grated nutmeg, 2 eggs, 1 cup milk, 1/3 cup cooking oil.  
Wash, peel, cut up and mash sufficient ripe peaches to yield the required 1 cup; stir in lemon juice and sugar.  
Sift together twice, then sift into a bowl, the all-purpose or pastry flour, baking powder, baking soda, salt and nutmeg. Beat eggs well; stir in milk, cooking oil and prepared peaches. Gradually stir liquids into dry ingredients and mix until combined. Bake as waffles or pancakes. If the batter thickens too much, stir in a little additional milk. Serve piping hot with butter or margarine and fruit sugar.

## ACWW helps to relieve world hunger

The Associated Country Women of the World are working in partnership with FAO in the implementing of their Lady Aberdeen Scholarships. FAO gives grants to train leaders in the great battle against hunger and misery. Quite a number of these have been women—128 in fact, from eight different countries.

Being an association of country women, the Lady Aberdeen scholarships will be used to train leaders from rural districts in Home Economics, Nutrition and Rural Community Welfare, who will return to help their own women to use the resources they have to the best advantage.

A news report from ACWW Headquarters, London, continues, "Our scholars will have one advantage at least, for in all the countries that give the training they will find our societies and will be put in touch with our members, so that they may feel they are not working alone in a strange land, but are part of our great family of countrywomen."

TORONTO (CP) — Diamonds only natural that women can sell them so well. A female real estate agent has still another advantage over her male colleague. Many women balk at getting out during the afternoon with a strange male agent to look at unoccupied houses. Her work day begins about 9:30 a.m. when she goes to the office to check listings. If there are no appointments or meetings, she heads out by car to examine properties for sale so she can be familiar with what she has to offer. Afternoons are spent taking clients around to the properties. If she has a prospect on the string, a second trip, in the evening, is usually necessary to close the deal. "Seldom does her day end earlier than 11 p.m."

CONVENIENT BUDGET TERMS AVAILABLE • NEEDS NO PLUMBING OR INSTALLATION

Give yourself even more time to do other things by adding a dishwasher to the other appliances in your home which have contributed to your greater freedom. And this fine Westinghouse Custom, that rolls anywhere—even over rugs and doorsteps—gets dishes, pots and pans sparkling-clean! No pre-rinsing either. Just scrape off bones, cornucobs and the like and they're ready for the washer. A minimum of hand-rinsing too for the Custom "Roll-About" rinses for you!

What's more, regardless of tap temperature, cool or warm, your dishes are done with hot water that cuts through any grease or cooked on foods thanks to the exclusive Hot Water Booster that brings water temperature up to 140°! Another feature, Power Drying, sends a hurricane-like current of warm air rushing through. Your dishes, glasses and silverware come out bone-dry, sparkling clean—more sanitary-clean than ever before.

# Fuller Ekes Out 10-9 Win Over Kist In Opener

## Milwaukee Braves Not Dead Yet, Says Manager Dessen, Mathews Clouts Two Homers As Spahn Wins, Dodgers Win

In the words of Milwaukee manager Charlie Dessen, the Braves are not dead yet.

Not with guys like Ed Mathews driving in five runs on a pair of homers and Warren Spahn closing in on yet another 20-victory season as they did while clobbering San Francisco 9-4 Thursday night.

Spahn, working for the third time in four days, won his 18th and crashed a home run along with Mathews and Hank Aaron as the Braves moved within six games of first-place Pittsburgh. They also gained a virtual second-place tie with the St. Louis Cardinals who, like the Pirates, were idle in the National League race.

With 20 games left, the Braves are six back of the Pirates on the last side—and they have six to go with Pittsburgh. The Bucs, who open a four-game set with the Chicago Cubs while the Braves start a three-game series with Los Angeles, also have 20 left. St. Louis has 22 remaining, two against the Braves, none against the Pirates. The Cards play three at Philadelphia this weekend.

The defending champion Dodgers, 10 1/2 games behind in fourth, won 7-4 at Cincinnati Thursday night. The Cubs beat Philadelphia 2-1.

**HIT 35TH HOMERS**

Mathews, no longer a sluggish slugger, unloaded a two-run homer in the first inning, then tagged a three-run shot off loser Mike McCormick (12-11) in the second. Aaron hit his in the first. That gave both belters 35 for the season, with Mathews hitting four this week and 14 since August 2.

Spahn, 39, beaten as a starter and in relief at Pittsburgh on Monday and Tuesday, bounced back with an eight-hit job and hit his third home run of the year in the eighth off reliever Billy Loes. The Giants, who lost the season series 8-14 and dropped 10 of 11 at Milwaukee, bunched half their hits for three runs in the third. The other scored on Bob Schmidt's home run in the eighth.

It was Spahn's 285th career victory, and put him within two of an 11th 20-victory season, which would put his all-time record for left-handers.

**THREE RBI FOR LARKER**

Norm Larker drove in three runs with a pair of singles for the Dodgers, who wrapped up their scoring in the first two innings against loser Jay Hook (10-16). Sandy Koufax (7-12) was the winner with an eight-hitger. Vada Pinson and Cliff Cook homered for the Reds, who took the season series 12-10.

Rookie Art Mahaffey, who had beaten Pittsburgh (twice), St. Louis, Milwaukee and San Francisco, lost his first since being called up by the Phils, although allowing just four hits by the Cubs in his seven innings. Ernie Banks' 39th home run scored Chicago's first run, and Ron Santo's single scored the clincher in the sixth after a triple by Bob Will. Glen Hobbie (14-17) was the winner.

## Waterloo Little League Champions

The Waterloo Little League champions are shown above. The Yankees finished first in the league and in the playoffs they polished their opponent in straight games. In the semi-finals they downed Cardinals in two straight and in the finals they stopped the Braves in three to emerge the champions. In the front, left to right, Mario Grenier, Boh Yarnold, bat boy, Billy Yarnold, Richard Nantel and Alex Wilson. Standing, same order Andre Fortin, Marc Courtemanche, John Wilson, Kevin Sanschagrin, Marc Renaud, Bert Royer and Tony Sanschagrin. Manager Clancy Yarnold is in the rear. Missing from the photo are Bruno Chevre, Guy Normandin, Richard Valliere and Bruno Fournier. (Photo by Walt Hughes)

## Serge Gregoire Tallies Winning Run During Slight Confusion, Next Tilt Slated Sunday At Local Park At 7.30

An infield hit by Robert Bourque followed by a collision between pitcher Provencher and third baseman Letarte allowed Serge Gregoire to trot home with a run to give Fuller a close 10-9 win over Kist in the first game of the best-of-five finals last night in the Sherbrooke Junior Baseball League.

The tilt played before a crowd of around 500 fans was a closely fought battle the whole way which caused some of the players to get a little case of the jitters. Fuller, although they won, committed no less than seven errors while Kist booted only one.

Kist got off on the right foot showing four runs across the plate in the first inning. Two walks, three errors and a single by Chico Provencher accounted for the runs. In the second Fuller got their first tally on a walk, a stolen base and a hit by Menard.

In the third inning Fuller came through with four runs to take a slim lead however Kist bounced right back to knot the count when they managed to register one run on errors.

Fuller registered four runs in the fifth when Gagnon, banged out a double, coupled with a single by Serge Gregoire, a wild pitch and an error by the third baseman. In next inning Kist were right back and with the help of a walk, an error and two hits moved back into race again.

In the seventh Gregoire got home with the winner when a slight mixup happened in the infield. It was a tough break for the Kist team who had played good ball until then.

Five pitchers were used by the teams in an effort to win the tilt. Kist collected a total of only six hits and this was bad as several times they left runs stranded for failing to hit in the clutch. The Fuller crew picked up nine in the fixture.

Provencher was top batter with his double and two singles while Gagnon collected a double and a single. Menard and Serge Gregoire had two singles each for Fuller while Nugent, with a double, Doyon and Duquette collected the others.

For Kist Jacques, with a double, Chartier and Kirouac, with singles and Provencher registered the hits for the losing squad. Coach Ruel is looking for another close battle Sunday evening and is hoping for a victory to even the series.

## Al Cicotte Of Toronto Stretches His String Of Innings Without Allowing Run To 57, Stops Wings

Pitcher Al Cicotte of Toronto Maple Leafs is considered a generous fellow off the field in the International League. But not when he's facing opposing batters.

The ace righthander stretched his string of innings without allowing an earned run to 57 Thursday night in beating Rochester Red Wings 4-2. His last earned run was given to Richmond Virginians Aug. 7. The opponents have picked only four batters since then.

Jersey City Reds blew their chance to tie Buffalo Bisons for fourth place, the final playoff spot, by dropping a 2-0 decision to Richmond. Columbus Jets edged Miami Marlins 1-0. Buffalo and Montreal Royals were idle.

Cicotte, who pitched an 11-inning no-hitter against Montreal last Saturday, has a 16-7 record and an earned run mark of 1.79, lowest in the league. Third baseman Steve Demeter erred in the fourth inning Thursday night, allowing the Wings to take a 1-0 lead.

**TWO-RUN HOMER**

Chuck Anderson's two-run homer in the sixth erased this while Earl Hersh hit a one-on shot in the eighth. Bob Milliken lost as the pennant winners wound up their home season.

Richmond, clinching second spot, got a five-hit performance from Gary Blaylock the second Vees' pitcher to shut out the ambitious Reds in the series. John Gabler did it Tuesday. Deron Johnson homered for the Vees as Brooks Lawrence lost and Blaylock won his 13th in 25 decisions this year.

Len Alvey made his first International League game a big one, belting a home run for Columbus. He came up from Grand Forks, Neb., in the Northern League where he hit .276 and had

## Newport To Be Scene Of To Golf Tourney

The Tournament of Club Champions will be held Sunday at the Newport Country Club, Newport, Vermont. To be eligible for this tournament, you must have been either a club champion or runner-up at any one of the golf clubs in the State of Vermont.

There is also a Senior's Tournament held at the same time, whereby you must have reached your 50th birthday. Italo Morandi of the Montpelier Club won the 1959 Tournament of Champions with a total of 72. Robert Sawyer of Woodstock also shot a 72, and lost in a sudden death play off. In third with a 73 was Jack Butler of Bradford followed by John Chapman of Bennington with a 74 and Gene Lavoie of Burlington with a 75.

This is becoming more and more popular as one of the finer tournaments in the Northern Section of the State.

The Senior Class Title went to Kermit Grant of St. Johnsbury with 73. Tied for second at 78 were Carroll Wright of St. Johnsbury and Wright Rives of Orleans.

**Owner Jack Kent Hopes His Leafs Have Won Their Last International League Pennant, Interested In Majors**

By BEN WARD

TORONTO (CP) — Toronto Maple Leafs have clinched the 1960 International League baseball pennant, and Jack Kent Cooke hopes it's the last of such.

Not that Cooke, who has owned the club since 1951, doesn't wish the Leafs well. It's just that he wants the next baseball pennant flying over a Toronto ball park to carry an American or National League label.

Toronto's bid to figure in the proposed expansion plans of the two major leagues is a strong one. Most baseball observers rate Toronto a better bet than even chance of making down one of the four new franchises expected—two in each league.

**STADIUM PROBLEM**

One of the problems to be faced before Toronto can jump to major league status, however, is the provision of a big league stadium. It has been one of the main points of discussion since Cooke first began making serious overtures in major league direction.

Leafs' present stadium, located on the industrial harbor front just east of the Canadian National Exhibition grounds, isn't being considered as anything more than a stopgap arrangement. It can handle 19,216 customers and could take nearly 26,000 with the addition of outfield bleacher seats and 400 field boxes.

The target for a major league park is a minimum of 35,000 seats, however, and Maple Leaf Stadium just doesn't have the elbow room in the cramped in-

## Orioles Clobber Indians 9-0 Behind Jack Fisher's Shutout Relief Job As Yanks Lose, Senators Stop Kansas 7-0

It was opening day, Baltimore beat Washington 3-2 behind Jack Fisher's 3-2-3 innings of three-hit, shutout relief and Oriole fans wondered if they dared hope.

Now with just 18 games left for the Birds, that same 21-year-old righthander has pitched his third consecutive shutout, winning his sixth in a row as the Orioles clobbered Cleveland 9-0 Thursday to restore their 1 1/2-game lead in the American League.

With Ted Kuszewski, the general giant, driving in three runs, the Chicago White Sox knocked off the second-place New York Yankees 5-4. The White Sox, defending champs and the Oriole's next foes on an 11-game road trip, are third, still 4 1/2 games behind.

Washington rapped Kansas City 7-0 and Boston beat Detroit 6-1 in the other AL games.

**27 SHUTOUT INNINGS**

Fisher, who blanked the White Sox and Yankees in his last two starts, extended his shutout-inning string to 27 with a five-hitter against the Indians. But it was 0-0 until the seventh inning, when the Birds got all their runs as 13 men went to bat against loser Dick Stigman and two relievers.

Stigman, who had a three-hit shutout through six frames, left after a wild pitch and two walks followed a leadoff single by Ron Hansen. Fisher, winning his 12th, then forced in the first run with a bases-loaded walk off Jack Harshman. A two-run double by Jackie Brandt and a three-run homer by Gene Woodling made

The Yankees took the early lead on home runs by Hector Lopez, who belted two, and Roger Maris, but then Mike Garcia held them hitless for his two innings. He saved the decision for Russ Kemmerer by striking out Mickey Mantle and Skowron with the tying run on base in the ninth.

Lennie Green and Bob Lemon homered for the Nats in support of Jack Kralick, who beat the A's and Dick Hall with a seven-hitter. Ted Williams walloped home run No. 27, the 519th of his career, while Tom Brewer eliminated the Tigers with a four-hitter.

## Great Ted Williams Paces Red Sox To 6-1 Win Over Tigers, Clouts Homer, Double And Single At Detroit

DETROIT (AP) — The Great Ted Williams paced Boston Red Sox to a 6-1 victory Thursday over Detroit Tigers with a homer, double and single.

The Boston slugger improved on his performance Wednesday night, which was Ted Williams Night at Briggs Stadium, when he rallied the Sox to a 5-4 win.

Williams smashed his 27th home run of the season into the upper right field stands in the fourth inning for Boston's first score Thursday. He had doubled in the first.

Williams singled in the seventh when Boston scored twice. Vic Wertz' double scored Carroll Hardy, who had singled, and Willie Tasby, who went into run for Williams.

**NIXON'S HOMER**

In the sixth, Russ Nixon gave Boston a 3-0 lead by lining his fifth home run of the season off the facing of the second deck in right centre field with no one on.

In the eighth, a triple by Lou Clinton made it 6-1 for Boston, scoring Frank Malzone, who went to first when he was hit by relief pitcher Pete Burnside.

The Tigers threatened in the seventh after Rocky Colavito doubled and Steve Bilko drew a walk. Pinch-hitter Neil Chrisley forced Bilko. Then Charlie Maxwell as pinch-hitter forced Chrisley and Colavito scored. Eddie Yost, pinch-hitting for pitcher Jim Bunning, forced Maxwell.

Tom Brewer turned in a brilliant pitching performance for the Sox, holding the Tigers to four hits in the nine innings. Bunning was the loser.

# Wilma Rudolph Emerges Individual Star Of 1960 Olympics

## Wins Three Gold Medals; Russia Has 34 Medals To 32 For US, Has 618 Pts To 511½ For US; Canada 4th In Relay

ROME — (CP) — Russian athletes dominated Thursday's diversified Olympic program to retain the unofficial team championship for their country, but a tall Negro girl from the United States emerged as the individual star of the 1960 Games.

Wilma Rudolph, 20-year-old Tennessee College student who couldn't walk as a child because of polio, Thursday anchored the American team to victory in the women's 400-metre relay run for her third gold medal of the current Games.

Wilma, who previously had won the women's 100- and 200-metre sprints, wasn't too happy, however. Her boy friend, Californian Ray Norton, had run outside his zone of limitation Thursday in taking the baton in the men's 400 metre relay and the American foursome was disqualified after it had appeared to have won the event.

Germany won the relay in 39.5, tying the world record. Armin Hary, the man who shares the world record of 10 seconds flat for the 100-metre dash with Vancouver's Harry Jerome, was a member of the German foursome.

### EIGHT GOLD MEDALS

Canada's team in the men's 400 relay ran fourth in a semi-final heat and failed to qualify for the final.

The Russians, meanwhile, grabbed eight of the 13 gold medals offered on Thursday's agenda. They won two medals in each of the following divisions: weightlifting, track and field, and women's gymnastics. The other two medals were for shooting and riding.

Rugged Alexander Kuryov won the middleweight weightlifting championship with a world record-breaking total lift of 962½ pounds.

Victor Bushuev of Russia won the lightweight championship with a world record lift of 876 pounds.

Pyotr Bolotnikov won the gruelling 10,000-metre run in the Olympic record time of 28 minutes, 32.2 seconds. Canada's entry, Doug Kyle of Calgary, was 24th, about two minutes behind the Russian.

### WON JAVELIN THROW

Victor Cybulenko won a gold medal for Russia with a heave of 277 feet, 8½ inches in the men's javelin.

In one of the premier tests of horsemanship, Sergey Filatov of Russia was declared winner of the grand prix de dressage.

Russians finished one-two in the small-bore rifle shooting event. Viktor Shamburkin was the winner.

In gymnastics, Larisa Latynina topped a Russian sweep of the first four places in the individual combined. She and her teammates also took the team combined championship.

### RUSSIA WELL AHEAD

Altogether, Russia had 34 gold medals going into today's com-

petition while the U.S. had 32. In points, based on the 10-5-4-3-2-1 scoring system for the first six positions in each event, the Soviet Union lead the Americans 618 to 511½.

Germany, with 10 gold medals, had 297½ points for third place and Italy, with 12 golds, 231 for fourth place. Canada, which earned but one medal—a silver in rowing—was far down the list with 15 points.

Rudolph Karpati of Hungary captured the individual sabre gold medal in fencing Thursday.

A Romanian girl, Iolanda Balas, won the women's high jump with an Olympic record leap of six feet, three-quarters of an inch.

A U.S. team won the men's 1,600-metre relay in the world record-breaking time of three minutes, 2.2 seconds.

Miss Rudolph anchored the winning women's 400 relay team to a clock of 44.5 seconds, just one-tenth of a second off the world record set by the same American quartet in a qualifying heat.

The Tennessee girl won the women's 100 in an amazing 11 seconds flat, but the mark was not allowed to stand as a world record because of a favorable wind. However, she tied the world record of 11.3 in a heat and in going so set an Olympic record. She also set the Olympic mark of 23.2 in a heat of the 200.

Only Fanny Blankers-Koen of The Netherlands, who won four gold medals in 1948, had exceeded the one-woman sweep of all three women's track and field sprints. Wilma shares the honor of winning three such gold medals with Australian Betty Cuthbert who did the trick in 1956.

in a fantastic race only to be disqualified because of Norton's error.

Previously Norton—by his own admission "tied up in knots" nervousness—had run last in the six-man finals of the 100 and 200 metre races. America had dominated the events for 32 years.

Thursday's mistake was a crowning blow. The tall Negro athlete tried to keep his chin up, but he couldn't completely hide all the agonies that chewed away at him.

"Ray can't fool me. I can tell," said Wilma Rudolph, winner of three gold medals and America's heroine of the women's track competition. "He tries to play it cool, but I know. He is dying inside."

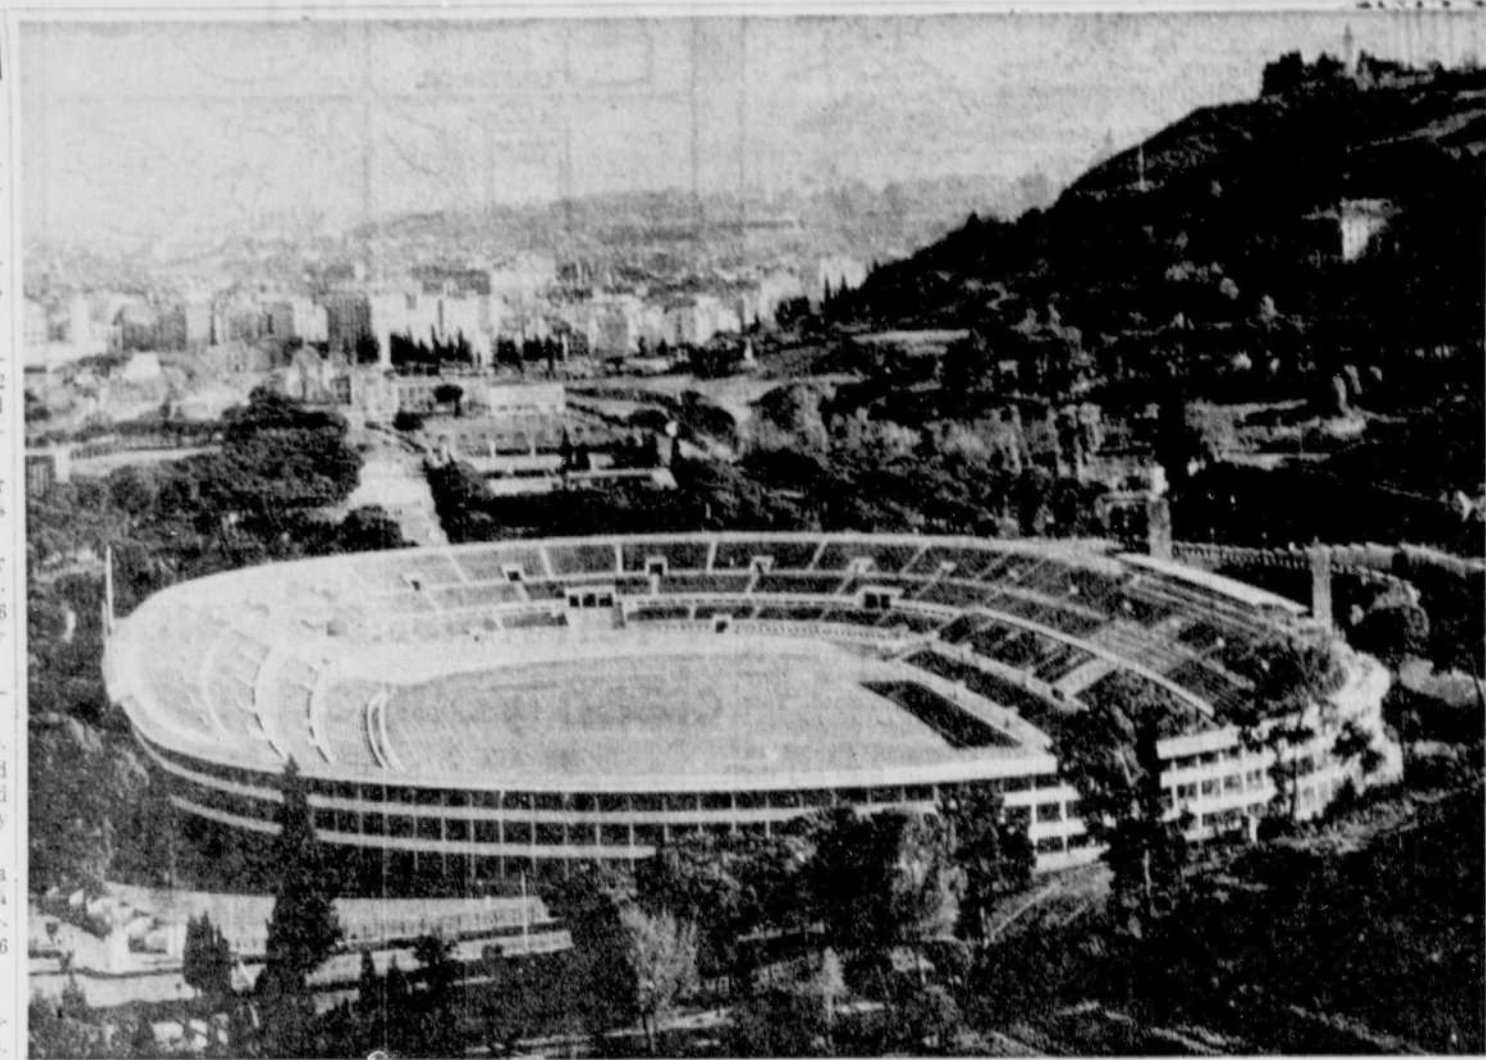

### FLED IN TEARS

Wilma won her third gold medal by anchoring the women's relay team to victory and then fled Olympic Stadium in tears Thursday because of Norton's shame.

Ray and Wilma have been inseparable. Ray has cheered the willowy Tennessee girl in her historic spring triumphs. Wilma has commiserated with Ray during his mushrooming miseries.

"After I get home from this trip, I don't think I'll ever run again," Norton said. "I've had it. Now I'd better go out and try to make a living. I hate to end my career on this sour note, but that's the way it has to be."

The California speed star said he wanted to complete his studies, requiring about one more term, and then go into teaching and coaching.

### LAST NIGHT'S STARS

Pitching—Jack Fisher, Orioles, ran his string of scoreless innings to 27 with third straight shutout for sixth consecutive victory in five-hit, 9-0 decision over Indians.

Hitting—Ted Kluszewski, White Sox, drove in three runs with three hits in three trips, one a two-run double that capped four-run rally in seventh for 5-4 victory over the Yankees.

## Jinx Still Haunts Barry MacKay In US Singles Championships, Stopped By Australian Bob Mark In 3rd Round

FOREST HILLS, N.Y. (AP)—The jinx that has haunted Barry MacKay in the U.S. nationals tennis championships in other years struck the big Davis Cupper down Thursday.

He dropped a 7-5, 6-3, 6-8, 6-6, 6-4 decision to Bob Mark of Australia in the third round.

The victory enabled Mark to gain the quarter-final round. MacKay, seeded third and the top U.S. hope for the title, never has gone past the quarter-finals of the nationals.

The top two seeds, Australia's defending champion Neale Fraser, and Rod Laver also moved into the quarter-finals, along with fourth-seeded Earl (Butch) Buchholz of St. Louis, seeded No. 4.

Fraser sailed past Mike Sangster of England, 6-2, 6-1, 6-4. Laver had an uneasy time before downing La. John Lesch of Coronado, Calif., 6-2, 5-7, 6-2, 6-3.

And Buchholz had virtually no opposition in eliminating Eduardo Zelta of Ecuador, 6-0, 6-0, 6-2.

The upper bracket semi-finals in the women's division also were settled when top-seeded Maria Bueno, the defending champion from Brazil, turned

back Nancy Richey of San Angelo, Tex., 6-2, 6-4, and Christine Truman of England, ranked No. 3, whipped Mrs. Bernice Vukovich of South Africa, 6-3, 6-3.

Los Angeles — Danny Valder, 126½, Los Angeles, outpointed Ricardo Gonzalez, 125½, Argentina, 10.

## I Am The Goat Of The Olympics, Says Ray Norton, Following His Blunder Which Cost US Victory In 400-Metre

ROME (AP)—"I can't do anything right," said Ray Norton dejectedly. "First I run too slow, then I run too fast."

"Oh, what happens? I've become the goat of the Olympics. There's nothing I can do about it. It's a memory I'll have to live with for life."

The world collapsed Thursday for America's champion sprinter.

His series of failures was climaxed by a blunder which cost the United States a victory in the 400-metre relay.

Norton, running the second leg, became too anxious and overran his zone in receiving the baton from teammate Frank Budd.

The Americans nipped the strong German team at the wire

# The Record's Farm Report

The urgency of Canada's wheat marketing situation was emphasized last week by the visit to Ottawa of President W. J. Parker of Manitoba Pool Elevators. In a session with Prime Minister Diefenbaker and Trade Minister Churchill, Mr. Parker stressed the need for a stepped-up selling program for Canadian wheat in Asia and other areas where potential markets are growing. Increased difficulties for prairie wheat marketing expected to result from the impending expansion of U.S. subsidized wheat sales were also discussed and the Manitoba pool president raised the question of possible joint Canada-U.S. action in assisted sales to countries that cannot

otherwise obtain the food grains they need. Prospects are now favorable for lamb price supports similar to last year's. Look for a decision this week by the Stabilization Board.

The change in the quality bonus for hogs forecast last fall by Agriculture minister Harkness was announced last weekend. Starting on October 3, 1960, the premium will be paid only on Grade A's and S1 on Grade B's. Only 30 per cent of hogs have been grading A.

There have been no requests from the industry yet to implement the new "fair market value" provision for assessing duties against imports of fruits and vegetables. Mr. L. F. Burrows, secretary of the Horticultural Council said. The amendment to the Customs Act providing for "fair market value" in assessing duty was passed in September, 1958, but was proclaimed effective only in February this year.

Because action in applying "fair market value" cannot be delayed while the situation is being studied, the Customs department has now set up a unit to keep a running record of prices for fruits and vegetables most likely to be affected. Fair market value must be based on the three year average of these prices. But even if domestic prices fall below this three year average, the application of this special valuation for imports is not automatic. It must be requested by the industry.

### UNEMPLOYMENT NOT DISTORTED

The widespread view that unemployment figures are distorted upward by married women and others not overly anxious to get jobs has been found to have little foundation. Data on unemployment are based on a sampling

technique that includes some 30,000 families across Canada and this large sample is designed to eliminate those who are not truly unemployed.

When Prime Minister Diefenbaker announced last session that work would be started to establish a uniform statistic on unemployment which would reconcile the various types of information given out, many people apparently assumed erroneously that the aim was to eliminate errors in unemployment figures as they are now being announced. This is not so, the Labor department says. Unemployment figures as now announced by DBS and the Labor department reflect the situation accurately.

Farm improvement loans regulations announced in the Canada Gazette last week provide for only a few changes. In the main, they are a consolidation of amendments (such as the increase in the maximum loan from \$5,000 to \$7,500) with the old regulations. Several changes in administration were made, however. The most significant is that the banks, previously required to obtain receipts from farmers for all loan expenditures, will no longer need to do this in the case of building, fencing and damage loans.

The milk processing industry may be missing a good bet in not losing anti-oxidants to maintain the quality of the powdered whole milk now being canned. At present a vacuum pack and gas treatment are being used to prevent oxidation but even with these measures the life of the product is relatively short.

By adding anti-oxidants such as NDGA or propylgallate during the processing of the whole milk the shelf life can be extended greatly. Apparently there are no toxic effects and Agriculture department scientists indicate that these anti-oxidants could make a big contribution to maintaining the quality of the powdered whole milk.

The processing industry has not yet requested permission to use these additives but there is apparently no reason why such permission should be refused.

**CROPS ALMOST AVERAGE**  
Prospects for bumper crops forecast earlier have been dissipated by the late summer heat. The DBS crop forecast released last week shows most crop production likely to be below the ten-year average, though above 1959.

Wheat production is expected to be up 14 per cent over 1959 at 472.5 million bushels, with all of the increase in Saskatchewan and Ontario.

Oat production is estimated at 442.3 million bushels (417.9 million in 1959), barley at 210.7 million bushels (225.6) while oil-seed crops, flax, rapeseed and mustard seed all reached significantly higher production in the estimates. Potato production is expected to go up 11 per cent, from 35.8 million cwt. in 1959 to 39.8 this year.

Trade Minister Churchill has announced the appointment of a timber trade mission to the United Kingdom and Ireland and a trade mission to the European Economic Community. Neither of these missions will be concerned with agricultural exports. There is as yet no indication that the government intends to appoint such a mission for wheat promotion although exports of Canadian wheat in both Europe and Asia are facing the gravest difficulties they have encountered for many years.

In the cattle market the stability of U.S. prices continues to play a supporting role but a major influence has been the substantial increase in domestic consumption. Stable prices are the U.S. outlook for the first of 1960, in spite of an increase of four per cent in cattle on feed and the expectation that U.S. farmers will increase their marketings by six per cent in the current quarter over last year. U.S. prices are likely to ease downward after the end of 1960 but no sharp drops are anticipated.

In Canada, with inspected slaughter since January up 13 per cent over last year and exports of cattle and beef down 29 per cent, a 12 per cent increase in domestic disappearance has kept the market in balance.

This increase in consumption is related to several factors. Lower prices have widened the

## when finished painting clean your equipment

By MR. FIX

Which will you use the next time you paint—a brush, roller or spray gun?

No one of them will do every painting job equally well, although in a practiced hand the brush is mighty versatile.

The brush is the oldest of the three, can be used on most any surface. You'll need more than one brush for any job you tackle. Figure on a four-inch brush (for most broad surfaces) and a smaller trim brush. The trim brush is the only tool to use on narrow surfaces, along edges and around windows.

While the brush can be used on most surfaces the spray gun and roller are faster on some, less likely to be damaged.

Painting brick can ruin a good brush, and using a brush on serrated shingles can be time consuming.

#### Conditioning

Condition a brush before you use it by soaking it in linseed oil for 24 hours. Squeeze out the oil, rinse the brush in turpentine and then allow to dry. When you paint keep the paint away from the heel. Paint belongs only on the lower end of the bristles, and not more than halfway up.

Brush point on with the grain, using long strokes and lifting the brush at the end of each. Start at the top and work down. But paint all the way across before starting the area below to avoid lap marks.

#### Cleaning Brushes

When you're finished, clean the brush in the same solvent which serves as a thinner for the paint you used—turpentine for oil paint, alcohol for shellac, water for latex paint. Wash the brush again in soap and water, comb the bristles straight and allow to dry. Wrap in paper to hold the shape and to keep clean.

#### Rollers

Rollers call for the least amount of skill, are relatively inexpensive, should be used on broad, open surfaces. On a textured surface—brick, stucco, concrete—use a deep nap roller.

Paint is applied by dipping the roller in a shallow pan of paint, rolling off the excess on a bare part of the pan and then applying the roller to the surface to be painted.

Roll with the grain, then across and then lightly with the grain again. Use a light, even pressure. Don't permit the roller to spin at the end of a stroke or you will spatter the paint.

Clean the roller in the proper solvent and then with soap and water. After it has dried wrap in foil or newspaper. If you fail to clean a roller soon after you've finished using it you're likely to throw it away—it's difficult to reclaim.

#### Spray Gun

Using a sprayer—whether it's a pressure can, glass jar or heavy duty compressor—calls for skill and practice for even passable jobs. Check the manufacturer's instructions for proper thinning of the paint.

Hold the spray gun at right angles to the surface, about six to 10 inches away. Move the gun parallel to the surface.

Begin the stroke, then pull the trigger. Move in a straight line. Moving in an arc will cause an uneven application. If you hold the gun too close the paint will run, too far and the paint will be spotty.

Outdoors, avoid painting on a windy day. Indoors, have plenty of ventilation and keep surfaces covered that are not to be painted.

#### Mask Area

A spray gun is excellent for new unpainted wood shingles, serrated asbestos shingles, masonry. It's also good on metal where a hard, shiny surface minus brush strokes is required. But you'll have to mask and protect surrounding surfaces.

Check manufacturer's instructions for cleaning your spray gun.

Q—Can a sewing machine needle be sharpened?

A—You can do it without demand for beef. A substantially larger proportion of choice quality beef—choice beef carcasses increased almost 30 per cent over 1959 from January to August 20—has apparently stimulated consumption also.
