NAZIS STRENGTHEN RESERVES ON SOVIET FRONT

Costly Losses Yielding Only Minor Advance

Soviet Headquarters Claims Germans Have Lost 30,000 Men, 1,539 Tanks and 649 Planes During First Three Days of Eastern Front Offensive—Russians Hold Steadily Everywhere But Near Belgorod.

By The Canadian Press
Fresh Nazi reserves are being thrown into the mighty German offensive on the Kursk plains where close to 1,000,000 German and Soviet troops are fighting amid violent tank battles, said Moscow reports today.

Hitler's invaders seek to break through the Red Army wait guarding Kursk, 300 miles South of Moscow.

Soviet dispatches declared that the Red armies had checked Hitler's four-day-old summer offensive and dealt the Germans the greatest rapid-fire blow ever inflicted on the Nazi war machine.

In the first three days of furious battles on a 165-mile front, Soviet headquarters reported, the Germans lost 30,000 killed, 1,539 tanks destroyed or damaged, and 649 planes shot down.

A special Soviet war bulletin issued this morning said the Germans, hurled approximately 450,000 troops into the assault, "succeeded in driving a wedge to an insignificant distance into our defenses" near Belgorod, but only at a price of "tremendous losses."

In all other sectors, the Russians were described as holding steadily.

After three days of warily asserting that the Russians had opened the attack, Berlin acknowledged that this was the long-delayed Nazi summer offensive.

While declaring that the Red armies were holding, except for a few "insignificant wedges" driven into Soviet defenses around Belgorod, the Russians warned against undue optimism.

"It would be wrong for us to underestimate the strength of German troops conducting the big offensive," the Russian command said.

"German forces are great. It is too early to formulate a final conclusion concerning the outcome of the battles."

THREE COMMUNITIES WERE WIPED OFF THE MAP BY BREACHING OF DAM

Stockholm, July 8.—(P)—Norwegian sources, quoting an uncensored letter from Germany to Norway, said yesterday that 3,000 persons lost their lives and three communities—Niederensee, Himmelforten and Hachen—were "wiped off the map" by flood waters which rushed from the Mohne reservoir after the R.A.F. breached it May 16.

It was said that 850 of those killed were Russian prisoners of war.

Privy Council Maintains Appeal Of Abitibi Against Forced Sale

By SCOTT YOUNG,
Canadian Press Staff Writer.
London, July 8.—(C.P. Cable)—The Privy Council's Judicial Committee today handed down a judgment allowing the appeal of the Abitibi Power and Paper Company, Limited, from the judgment of the Ontario Appellate Court and Mr. Justice W. E. Middleton who directed that assets of the Abitibi Company should be sold at public auction.

COMPROMISE ON SUBSIDY PLAN IS CONSIDERED

Washington, July 8.—(P)—Harassed lawmakers striving to untie a legislative knot over the United States administration's subsidy-roll-back programme considered a possible compromise plan today that would record Congress as opposing—but not prohibiting—payments to deflate retail food prices.

The recommendation, some members of a Conference Committee said, is being studied as a potential method of reconciling the Senate's "halt" sign against subsidy payments with the House of Representatives' green light.

Beginning the second consecutive day of conferences, Committee members reported that this far House conferees have refused to accept any Senate anti-subsidy proposal in a resolution to extend the life of the Commodity Credit Corporation to January 1, 1944.

A strong declaration of disapproval was made by the House of Representatives.

United Nations Jungle Fighters Closing Net Around Munda Airport

By MURLIN SPENCER,
Associated Press Staff Writer.
Allied Headquarters, Australia, July 8.—(P)—United States jungle fighters battled today within six miles of the Japanese air base of Munda from two new landing points on New Georgia Island, in the Central Solomons area where the enemy's hold has been weakened by a crushing naval defeat.

The new landings were disclosed today by Gen. Douglas MacArthur in a communique which also contained the news that in the warship engagement during the darkness of July 5-6 above Munda in the Kula Gulf at least nine and possibly eleven Japanese cruisers and destroyers were sunk against the loss of the Cruiser U.S.S. Helena.

The growing weight of the Pacific offensive began to tell against Japan at the other end of the 700-mile arc as well. In the jungle fight on the approaches to the Japanese air base of Salamaua, New Guinea, veteran Australian troops captured Observation Hill between Salamaua and Mubo after his Japanese defenders had been killed or demoralized by 106 tons of bombs dropped in less than 45 minutes by medium and heavy bombers.

The new landings which increased the peril to Munda were made Monday, today's communique disclosed. The troops swarmed ashore at Rice Anchorage, four miles Northeast of Bairoko, under cover of a naval barrage.

Monday night, other forces stormed ashore at Zanana, six miles East of Munda.

It was before dawn the following morning that American warships made contact in the Kula Gulf above the scene of the latest landing operations with a Japanese cruiser-destroyer force.

The surprised enemy was struck swift and rolling blows by the guns of our warships, today's communique said.

"In the first phase of the engagement," it said.

JEWISH LEADER FLAYS QUEBEC COUNCIL STAND

Declares Expropriation Proceedings for Synagogue Are Flagrant Violation of Religious Freedom.

Quebec, July 8.—(P)—Announcement last night that expropriation proceedings would be launched in Quebec in connection with a Jewish synagogue site here brought a strong protest from H. M. Caissman, of Montreal, General Secretary of the Canadian Jewish Congress. He said the proceedings "a most flagrant assault on freedom of worship and the civic right to erect a house of worship for the citizens of Jewish faith. Never before in the history of our country has this right been so openly or so unashamedly suppressed or challenged. This action of the Council will be contested by the Jewish community of Quebec through all legal means."

City Counsel Benoit Pelletier told the Quebec Administrative Committee that expropriation proceedings for the site for a new synagogue at the intersection of Salaberry and Cremazie Streets, would be launched this morning.

He said the site belonged to the Beth Israel Jewish congregation which had partly erected a building of a new synagogue. Mr. Pelletier added the City Surveyor had sent an expropriation notice and a plan of the proposed park enlargement to the Beth Israel congregation.

He said that a few weeks ago the Council had adopted a motion for the purchase of the site for \$25,000 but representatives of the Jewish community said they could only accept the offer if another site of their choice was provided.

The site was acquired in 1941 and shortly after its purchase the Quebec City Council passed a regulation excluding the building of any more churches in that section of the city. The regulations were tested in court and the case was dismissed.

Impressive Record Of Canadians In Armament Production Lauded By United States Industry Head

Toronto, July 8.—(P)—The war production of the United Nations speaks to the world "in a big voice," Donald M. Nelson, chairman of the United States War Production Board, said today in an address prepared for delivery to the Canadian Club of Toronto.

"And if the Nazi and the Japanese warlords are not completely insane, they will recognize that the voice is the voice of doom," he added.

Mr. Nelson told of the output of war materials in the United States and Canada. Since the outbreak of war, almost 115,000 planes were produced and before the end of this year "we will be producing a completed plane every 4-2-3 minutes around the clock every day of the month."

More than 175,000 larger calibre guns of all kinds for the ground armies; nearly 1,500,000 machine guns and 6,000,000 rifles and sub-machine guns have been manufactured. Almost 200,000,000 rounds of artillery ammunition—exclusive of ammunition for naval guns—have been made and about 25,000,000 rounds of small arms ammunition "enough to let us fire over 1,500 bullets at every soldier in the Axis armies."

Close to 60,000 tanks and tank chassis have rolled off assembly lines and more than 1,600,000 trucks, he said.

"I should like to point out to the Axis that Canada alone has turned out half a million trucks—or about one-third of the total—although her population is only about eight per cent of the combined population responsible for this record production," he added.

Of the 70,000 scout cars, armored cars and similar combat vehicles produced annually Canada is supplying close to 20,000.

"As for ships, I can tell you that our combined production of ocean-going merchant vessels since the start of the war now has reached 20,000,000 deadweight tons, and today our rate of production is over 22,000,000 deadweight tons a year.

"Not counting Mosquito craft and auxiliaries, naval vessels totaling more than 2,000,000 displacement tons have been completed. At the current rates of production, these fast, modern fighting boats will be joined every month by sister ships totalling an average of about 200,000 tons."

"I think at this point we should warn the enemy not to take too much comfort from the so-called sagging of the home front in the United States."

Roving Pickets Force Closing Of Leading Captive U.S. Coal Mines

Pittsburgh, July 8.—Roving pickets accompanied by women ranged the rolling plains of southwestern Pennsylvania's coal fields today helping close more than a dozen steel company-owned "captive" mines whose output is vital needed to keep the steel mills running.

The new flare-up, which kept about 10,000 workers idle, stemmed from what John P. Busarello, President of the Pittsburgh District 5 of the United Mine Workers, termed an "outlaw gathering of outlaw miners" at Brownsville, Pa., as all of the other miners in the United States were ending a walkout that began June 29.

Busarello and other district union leaders said an appeal had been made to Alyn K. Renwick, District Representative of Secretary Harold L. Ickes, Government administrator of the mines for aid in suppressing the insurgent movement.

"Any action will have to be inaugurated in a move by Washington," stated a spokesman for the office of United States Attorney Charles E. Irl, when asked about the possibility of enforcement of the A-U-S strike Act.

Speakers at the Brownsville meeting on Tuesday called for "organized picketing" to support their "no contract—no work" stand. The pickets, cruising in dilapidated automobiles, persuaded miners not to work.

Last night pickets, including women, blocked the entrance to one big mine, employing 1,200, and the night shift did not work. At Bridgeport eight of sixteen pickets were women.

WAR BULLETINS

Allied Headquarters in North Africa—Bombers of the Northwest African air force maintained their attacks on Axis Mediterranean air fields yesterday and ten enemy aircraft were destroyed against an Allied loss of five, it was announced today.

London — Twenty American fighter-bombers attacked the Japanese base at Canton on the South China coast yesterday, the Berlin radio quoted advices from Tokyo as saying today.

The broadcast, recorded by the Associated Press, said one of the raiders was shot down.

NORMANDIE MAY STILL JOIN IN FREEDOM FIGHT

New York, July 8.—(P)—The one-time French super liner Normandie may yet get in the war—as a troop carrier for the United Nations.

Construction of an observation platform and the tearing down of work shacks on the side of the partially submerged hulk gave indication yesterday that the job of righting her—one of the greatest marine salvage operations in history—is nearing completion.

Workers were under orders to have the 400-foot observation platform, from which the righting will be watched by naval and other officials, completed by July 15.

The salvage workers have been removing the shacks and catwalks which they had named "Normandieville."

Soon after entering the war the United States took title to the Normandie from France and in the process of converting her to military use under the name Lafayette when

Jittery Nazi Radio Again Warns Allied Invasion Move Underway

London, July 8.—(P)—The Berlin radio reported today that battle units of the Allied Mediterranean fleet, reinforced by recently arrived American cruisers and aircraft carriers, had left Gibraltar, leading "to the supposition that the American Allied commander is preparing for an attack against Europe."

The broadcast, recorded by the Associated Press, declared that the Allies, in addition to strong concentrations of warships and transports, have forty-four infantry divisions and fifteen to twenty tank formations poised between Morocco and Syria.

These forces were said to include parachute battalions and airborne troops whose task, the broadcast declared, "would be to create a first one or two bridgeheads."

"At first sight," the German radio said, "these figures would appear considerable, but at least half of the Allied forces are regionally and locally tied down," in Algeria, Syria, Palestine, Egypt, Cyprus and elsewhere.

Other forces also are held down by a complicated supply system while "it is an open secret" that Gen. Eisenhower's American divisions have still to be thoroughly overhauled as regards training," the broadcast said.

The available effective forces, therefore, it added, constitute only a fraction of the total Allied troops stationed in the Mediterranean.

The broadcast, by the propaganda agency known as the "International Information Bureau," declared that among the fleet units leaving Gibraltar were two British battleships of the King George class—which includes the King George V, Duke of York, Anson and Howe.

Several hundred thousand tons of merchant shipping still remain concentrated at Gibraltar, the Germans said.

The broadcast reports concerning Allied naval movements and manpower were totally without confirmation from any Allied source.

GIraud Seeking Installation Of Pro-Allied Rule In Martinique

By RICHARD G. MASSOCK,
Associated Press Staff Writer.
Washington, July 8.—(P)—Installation of a pro-Allied administration in troubled Martinique was one of the prime subjects up for discussion today between Washington officials and Gen. Henri Honoré Giraud, co-chairman of the French Committee of National Liberation.

Demonstrations at Fort-de-France, Martinique, in which crowds of 15,000 persons demanded a break with Vichy and an alliance with the Allies, were reported in a dispatch from Port of Spain, Trinidad, today.

The demonstrators, favoring the Fighting French leader Gen. Charles de Gaulle, were reported to have taken possession of the streets of Fort-de-France for two days. Gen. Giraud's representative in Martinique, Gen. Charles de Gaulle, was reported to have taken possession of the streets of Fort-de-France for two days. Gen. Giraud's representative in Martinique, Gen. Prices Board Officials Favoring Small Traders Parliament Is Informed

Officials Have "Leaned Over Backwards" to Ensure that Small Businesses Are Fairly Treated Under Wartime Regulations, Finance Minister Declares in Continuation of Debate on Board Estimates.

ONTARIO BANKER IS CHIEF OF SHRINERS

By C. R. BLACKBURN,
Canadian Press Staff Writer.
Ottawa, July 8.—Prices Board officials have "leaned over backward" to ensure that small businesses are fairly treated under wartime regulations, Finance Minister Isley told the House of Commons last night.

Replying to charges by John Diefenbaker (Prog. Con., Laka Centre) that because of the Board's tendency to favor large business organizations small independent firms were being forced out of existence, Mr. Isley said policies of the Board had kept the small businesses in a better position than they would otherwise enjoy, and they had been ensured a fair allocation, based on past business, of the available consumer goods.

He read from a maze of statistics, from statements of business association executives and from a statement published last year by the Board, to support his assertion.

Such claims as those of Mr. Diefenbaker were "a favorite procedure" of those who criticized the Board, the Minister said, but they could not be substantiated. The Board was helping small business by equitable allocation of available consumer supplies, by restrictions on the opening up of competitive businesses and by anti-inflationary measures.

Mr. Isley's argument was made during a day devoted entirely to consideration of the \$14,300,000 item for the Prices Board in the Finance Department's war appropriation.

No progress was made and today the House will continue the estimates of the Agriculture Department when the House meets at 11 o'clock for the first forenoon sitting of the session.

VIOLENCE AGAINST NAZI AGENTS IN DENMARK INDICATED BY RADIO

Stockholm, July 8.—(P)—Advices from Denmark today said Copenhagen police had issued a proclamation urging the public to refrain from any acts which might cause disturbances or rioting following incidents in which four persons were wounded. The incidents were said to have taken place Tuesday in the main square of the Danish capital. While details were lacking, the reports stirred speculation here that demonstrations against German occupation authorities or Nazi sympathizers might have been involved.

FIRE DESTROYS LARGE BARN AT NORTH HATLEY

Six Head of Cattle and Considerable Amount of Farm Machinery Lost in Fire on R. G. Davidson Property.

North Hatley, July 8.—A fire of unknown origin yesterday broke out on the farm of R. G. Davidson, of North Hatley, completely destroying the large barn on the property as well as six head of young cattle and a considerable amount of farm machinery.

Officials are investigating the cause of the blaze which broke out about noon. The extent of the damage has not as yet been completely determined but it is expected that they will be heavy since much equipment and a considerable amount of supplies were lost. Other buildings on the property were not burned.

FINED FOR VAGRANCY

Recorder Raoul Gagne in Police Court this morning imposed a five dollar fine and costs on a local man charged with vagrancy. The man was arrested by police last night.

Similarly charged, a Sherbrooke woman was remanded until July 15 for sentence. She pleaded guilty to the count.

Costly Losses

Hitler's field headquarters said fierce tank battles were raging in the Belgorod sector and South of Orel and claimed the destruction of 400 Soviet tanks and 193 planes. "The deeply-echeloned enemy defence system was broken through by German forces after stubborn fighting in wooded territory and in villages," the Nazi command said. By German accounts, 400,000 Soviet troops "supported by very strong tank and artillery forces" were engaged in the battle, while the Russians said 460,000 Nazi troops included fourteen tank divisions were leading the attack.

American troops are storming within six miles of the prize Japanese air base at Munda after two new landings on New Georgia Island, it was announced today as the count in the spectacular United States naval victory at nearby Kula gulf rose to at least nine and possible eleven enemy warship sunk. One American cruiser, the U.S.S. Helena, was lost. Most of the 800 officers and crew on board were saved.

A spokesman at Admiral William F. Halsey's headquarters said no other American warship was damaged in the twenty-minute pre-dawn battle on July 6th.

In the Mediterranean Allied raiders blasted three towns in Sicily and pounded Axis airbases in a continuing aerial attack presumably directed at a forthcoming offensive. Gerhain airbase was attacked nineteen times already.

Berlin said an Allied battle fleet had left Gibraltar and that Gen. Dwight Eisenhower "is preparing for an attack against Europe." Axis reports asserted forty-four Allied infantry divisions are massed between Morocco and Syria.

In Washington, where Gen. Henri Giraud is visiting President Roosevelt, there were forecasts of a pro-Allied administration for Martinique.

PRINTERS' WALK-OUT AT PROVIDENCE ENDS

Providence, R.I., July 8.—(AP)—The Providence Typographical Union voted last night to return to work at the Providence Journal and Bulletin after a one-day strike.

The vote was taken after the Regional War Labor Board ordered the men to "cease their striking activities and return to work immediately."

The walkout yesterday in a contract dispute caused suspension of the Evening Bulletin for the first time in eighty years and the vote to return avoided interruption of the daily issue of the morning paper, the Journal, which would have broken a record of 114 years of daily publication.

The composers returned to work immediately to prepare Thursday morning's Journal.

WAR ECONOMIES INDICATED IN OTTAWA SHOW

Over Thousand Cases of Cost Reduction and Material Conservation Exhibited by Munitions Department.

Ottawa, July 8.—(AP)—A wartime industrial conservative exhibit, arranged by the Conservation Committee of the Munitions Department, now is open in Ottawa, with more than 1,000 items on display. The exhibit shows some of the results achieved by Canadian ingenuity and the pooling of information in the Dominion's war industries.

The economies have been effected by changes in design, the substitution of plentiful materials for those in short supply, changes in production methods, improvements in handling and packaging operations, use of time studies, short cuts in operations and the conversion of ordinary tools to release specialized tools.

Among the exhibits are a double-end wrench, replacing two formerly supplied with each army truck and releasing 250,000 pounds of steel for other uses; a percussion fuse now made from a zinc die casting, replacing the fuse formerly made from solid brass bar stock, and an ammunition box which, through re-designing, now costs \$8.91 to produce, as against the \$40 the previous design cost.

GOVERNMENT TO INTERVENE IN RAIL DISPUTE

Army Officials Call Upon Government to Restore Road Which Provides Service to Large Copper Mine.

Bingham Canyon, Utah, July 8.—(AP)—United States army officials expressed confidence that Government action today would end a walk-out of railway conductors which halted production at the Utah Copper Company mines, the largest producer of the war-vital metal in the United States.

"The Government cannot stand for further loss of copper," Maj. M. J. Tierney, executive officer of the Labor Branch, 9th Service Command, asserted after a day-long conference with union and company representatives. The halt in production came after the walkout Tuesday evening of 100 members of the Order of Railway Conductors from their jobs on the Bingham and Garfield Railroad, a line which hauls the ores from mines at Bingham Canyon to smelters at nearby Magna and Arthur, Utah.

In Washington the National (Railway) Mediation Board assigned Otto F. Carpenter to represent the Board in mediation efforts.

Approximately 6,000 men are employed at the company's mines and its mills. Shifts reported as usual for work at pits yesterday but no copper was mined, company officials said. Both company mills prepared to shut down.

The walkout of conductors was over demands that the copper company recognize them as employees of the Bingham and Garfield and not of the copper company, Bert H. Richardson, a union spokesman, said. They feared loss of benefits under the Railroad Retirement Act.

ment, four or five hostile destroyers were struck by smashing broadsides that within five minutes destroyed or set afire the entire group," it related.

"Three or possibly four enemy light cruisers were then taken under fire. All were either sunk or afire within fifteen minutes. One was beached."

Later, "four destroyers intercepted and sank two of three enemy ships attempting to escape from the Gulf and damaged the third."

Previously Allied headquarters had listed the enemy's Kula Gulf losses as six ships probably sunk and four damaged.

While Allied fighters were in the air yesterday patrolling above Rendova Island they encouraged Japanese bombers escorted by fifty-eight Zeros. The resultant dogfights increased to approximately 190 the number of planes the enemy has expended trying to obtain mastery of the skies over the Central Solomons.

Out of that latest force of raiders the Allies shot down three bombers and nine Zeros at a cost of only one of their own.

Allied planes got in some heavy blows. Above the Kula Gulf an Kambangara Island, torpedo bombers and divebombers, escorted by fighters, blasted the Japanese air base area at Vila with twenty-eight tons of bombs. Later medium bombers, escorted by fighters, expanded the attack.

Over the New Guinea jungle front, in addition to the aerial bombardment of Observation Hill, Allied planes bombed and strafed the Japanese at Bobdubi, within five miles of Salamaua, and raided the supply base sector of Labu Lagoon above Salamaua near Lae.

GIRL REPORTER STILL MISSING

West Haven, Conn., July 8.—(AP)—Pretty Rose Marie Brancato, of the New Haven Journal Courier's 27-year-old girl reporter, was still missing this morning as the Federal Bureau of Investigation entered the nine-state clueless search.

Despite her parents' hope that she would return safely, nothing was heard of her last night, nor did police learn anything which would give them a starting point in their efforts to locate her.

The F.B.I. threw its weight into the hunt this morning, on the theory that the attractive, dark-haired girl might have been abducted. But friends of the girl conceded that there was no evidence to support that theory any more than any other explanation of her mysterious disappearance Monday evening.

were under discussion throughout the afternoon evening, and there was a cross-fire of questions and answers on numerous items of price control and commodity regulations.

The discussion brought from Mr. Halsey a definite declaration that control of farm prices would not be transferred to the Agriculture Department but that all price administration would remain with the Board.

Mr. Halsey also gave a long and detailed review of the index and in support of his assertion that the statement on the technique of an index was as accurate as possible.

Mr. Diefenbaker said inability of small dealers to get "a fair share of the small retailers" that remain to be distributed" had resulted in many going out of business and it appeared likely that by the time the war ended small businesses would have disappeared.

Discussing the position of the small retailers, Mr. Halsey said that in a time of high distribution costs and goods shortage, suppliers, if left to themselves, would have a natural tendency to prefer dealing with the large buyers. From the time of its institution the Board has adopted a policy on ensuring small retailers of a fair share of scarce commodities, based on previous year's sales.

ANNIVERSARY IS CELEBRATED IN MELBOURNE

Surprise Party Given in Honor of Mr. and Mrs. S. Miller on Thirtieth Wedding Anniversary.

Melbourne Ridge, July 8.—A very pleasant surprise party was arranged by Mr. and Mrs. Lorne Ames and took place at the home of Mr. and Mrs. Stephen Miller on the evening of June 25, which was their thirtieth wedding anniversary day.

When Mr. and Mrs. Miller arrived home from Danville, where they had spent a day with Mrs. Miller's brother, Mr. Herbert Goodenough, and family, they were greeted by about sixty-five relatives, friends and neighbors, who had assembled in honor of their thirtieth wedding anniversary.

THE FRENCH DISPUTE

People do not seem to realize that powerful, conscientious men on the French Committee of Liberation are forging ahead behind the scenes while Generals de Gaulle and Giraud contend for power, in the opinion of Edward J. Kennedy, Chief of the Associated Press news coverage in North Africa and the Middle East who has just returned to New York from Algiers. He is convinced that the turmoil in Algiers does not mean that the Committee, set up two months ago as a governing body over all liberated Frenchmen, with Generals Giraud and de Gaulle as joint and alternating Presidents, has fallen or failed.

It is not the two Generals who make up the Committee, nor do they control it. There are five other members, General Alphonse Georges and Jean Monnet, named to it by Giraud; Rene Massigli and Andre Philip, designated by de Gaulle, and General Georges Catroux, accepted by both.

Each of the five has a vote which counts as much as those of the joint Presidents. The nominees of both Giraud and de Gaulle have voted contrary to the man who named them on many issues. They are not sticking to any "party line."

General Catroux, though mouse-like in appearance, has cracked down firmly on both Giraud and de Gaulle at times. It was he who did more than anyone else to bring them together to form the Committee when he warned:

"France will never forgive two Generals who in times like these stood in the way of unity for personal reasons."

Monnet behind his soft brown eyes, Massigli behind his thick-lensed spectacles, and Philip behind that black cabbage which passes for a moustache, are all able men and there is no question that they are working sincerely for the unity of all Frenchmen, and an all-out French effort to redeem their country. Nor is there any doubt that they favor the return of France to democratic government after the war.

Gen. Georges is the close-lipped, mysterious member of the committee. He is supporting Giraud on almost every point. He does not seem to have gained much popularity among the people, and de Gaulle has attacked him as "the worst defeated general of France."

The root of the dissension between de Gaulle and Giraud is de Gaulle's conception of himself as the symbol of pure and uncompromising resistance, as the one man who gave the clarion call when events were blackest and as the jealous champion of the full sovereignty of France, even when fallen.

A great many of the French in Africa so regard him and are loyal to him, and there is little doubt that many in France also see him as such a symbol.

Giraud's story is fully as romantic as de Gaulle's, but he seems unable to attract the popular following de Gaulle has. His military record in the Battle of France is good. His escape from the fortress of Koensberg, across Germany and France and the Mediterranean is one of the most thrilling of the war. Yet he is known in Algiers as "Papa Snooks."

One explanation of the troubles among the French is that the very illness which led to the collapse of France is present, to an extent, in the French factions trying to redeem France. The French fell because they were a sick people and the illness is not yet entirely cured. But there are signs of healing, and they are seen not so much among the politicians, but on the battlefield.

BRITISH LABOR TROUBLES

A controversy over the Trades Dispute Act (1927), which bans affiliation of Civil Service Unions in the Trades Union Congress, may develop into a battle of major proportions between the Labor Party and the British Government within the next few weeks.

The situation was brought up to a sharp head by the recent announcement from the T. U. C. General Council that the Post Office Workers Union (Civil Service) had applied for affiliation, and had been accepted.

The seriousness with which this move is regarded

can be judged from the Labor Party Central Committee's advice to delegates at the party's Whitsun conference not to discuss it because of its possible unfavorable interpretation abroad.

Roughly, the situation is this: The T. U. C. accepted the Post Office Workers Union affiliation without discussing the matter with the Parliamentary Labor members, who should have been consulted because they are the ones who will have to fight through the amendment that would make the affiliation legal. Unless the Act is amended to allow Civil Service T. U. C. affiliation, both the T.U.C. and its new affiliate are liable to High Court injunctions.

Possibly to plan action to assure support of the Labor M.P.'s, the T. U. C. called an emergency secret meeting, presided over by Sir Waller Citrine. No announcements of its decisions have been made.

If the controversy develops strongly enough, it is certain to add another permanent difference of opinion to the growing list of controversial issues standing between Labor and other parties, mainly the Tories, in Mr. Churchill's National Government.

MAINTAIN THE HOME SPIRIT

Generalissimo Chiang Kai-Shek's declaration of faith in Allied victory over Japan—the outside limit for which he daringly sets for two years—is pleasing to read at the opening of the seventh anniversary of the war against Japan, especially coming as it does from one of the greatest leaders of our time. However, the statement would be dangerously incomplete without the General's accompanying caution to his people that the "present marks the beginning of the greatest trials" and that the Allies have before them "the hardest stretch of the road to victory."

As a matter of fact, while such encouragement is legitimate for the heavily burdened Chinese people, it is doubtful whether it is particularly beneficial for some of China's allies. It is likely to inspire over-confidence, as witness the complacency which has developed in some parts of North America since the Allied victory in Tunisia. There is an echo of this self-satisfaction in War Production Board Chairman Donald Nelson's statement of declines in the output of ground ordnance, miscellaneous munitions and merchant vessels, which he describes as a very serious matter. It has been maintained that the Anglo-Saxon people can stand good news without becoming complacent, but passage of time causes one to wonder whether this assumption is correct. Maybe the propaganda experts who insist that it is necessary to feed the people bad news in order to keep them in fighting mood are not so far wrong.

Anyway, as regards China we are telling nothing less than the cold truth when we point out that her main asset at this moment is the magnificent spirit of her people who for six years have endured suffering which would have broken many nations. This will to win, plus vast reaches of territory to swap with the invaders for time, has enabled them to hold out.

We must recognize that China's ability to assume major offensive operations, or even withstand enemy attacks, depends on the assistance which the Allies can give her. Gen. Chiang has comparatively few resources at his disposal, either to make war or to sustain anything like normal living conditions in the unoccupied regions.

The thing the United Nations have to worry about is whether they can make their help effective soon enough to save China from collapse.

Generalissimo Chiang yesterday issued an appeal to the United Nations to strike in force at Japan immediately because he feels this is the opportune moment "to reap great results" in reducing the time of final victory. He declares Nippon now "is at her weakest as her ready resources are approaching a point of exhaustion."

As though to emphasize the statements of the great Chiang, we get the report of another American naval triumph over the Japs in the Solomons. Meagre details indicate that, as Frank Knox, United States Navy Secretary, puts it, "the Japs have taken another damned good licking." Apparently we have torn a further great hole in the fleet which represents much of Japan's strength in the Pacific.

All this is encouraging to the Allies, but the fact remains that we have before us a titanic job of blasting the Japs out of their hold on China and other occupied countries. Time is of vast importance.

The line is so finely drawn that anything which causes great delay in the execution of our plans might produce a disaster. Complacency here at home might easily do it.

PRESS COMMENTS

HOWARD A GREAT ACTOR

Canada shared with the whole English-speaking world and a great part of the rest of mankind a deep admiration for Leslie Howard as a great actor, artist and patriot. As a film actor, Mr. Howard created many memorable characters, from that of Tom Pryor in Outward Bound to "Mister V" in the picture of the same name. No part did he play to which he did not bring a distinction. Movie-goers will long remember his Philip Carey in Somerset Maugham's Of Human Bondage, his playing of the little role of the screen actor in his Prof. Higgins in Shaw's Pygmalion and his Romeo in the Shakespeare tragedy. One of his greatest roles is still to be seen—that of the late R. J. Mitchell, designer of the fighter plane, in Spitfire, the romance of the craft, that saved Britain in 1940.

GARDENING INEXPERIENCE

The unwillingness of the inexperienced to seek the advice of the experienced is to be seen in many of the so-called Victory Gardens that have been made in the city. They are gardens which by all the rules of horticulture are bound to be failures and disappointments. An experienced gardener told of watching one of these tyros planting garden peas recently. He was virtually sowing the peas on top of the soil. The experienced gardener suggested that the peas should be planted deep or the tyro paid little attention to him. He thought he knew more than the man who was trying to do it. him some good advice. Similar mistakes are to be found in the planting of potatoes, corn and other garden products. Various varieties of vegetables and plants have been planted. Some of these very amateur gardeners have planted sufficient lettuce and radishes to supply their entire neighborhoods. Many of these errors could have been avoided had experienced gardeners been consulted. There are experienced gardeners in every residential district in the city who would have readily offered their advice had it been sought.

NOT FAIR TO BABY

Superior, Wis., Evening Telegram Because of low point value placed by the OPA on baby foods, many adults have been buying them. This diversion has reached such a point that one major manufacturer has requested food editors to ask the public to stop using them. Baby ration books would call for something over 250,000,000 dozen cans a year, if all were used, but the industry is restricted to producing not more than 40,000,000 dozens. There isn't enough to feed everybody on strained foods.

Presumably most of the offenders have assumed that the low point value means a plenitude of baby food. It doesn't. There's a scarcity. So please don't take the food out of infants' mouths.

GOEBBELS ADMISSION

Globe and Mail. Here Goebbels has made a notable admission for a high mandarin of the Nazi party. He tells the German people that in this world nobody is infallible, and that this applies equally well to the Government and chiefs of staff, as they are just as liable to human error as anybody else.

This admission, although a truism, must have come as a great shock to the people, and must add enormously to the nervous bewilderment which must now be afflicting them. For many moons Herr Goebbels and his minions have been dining it into their ears that their Fuehrer was a supreme embodiment of all human virtues and talents, a peerless master of the arts of statesmanship, absolutely incapable of the errors and follies of the normal kind of politician. They have also been told that the Reichswar was an invincible machine, against which no other army in the world could stand up, and that the members of its general staff were a band of modern Caesars and Napoleons, unrivalled practitioners of the arts of strategy. They were also informed continuously at one time that the German Luftwaffe could never have its supremacy in

the air seriously challenged, and Field Marshal Goering, its chief, solemnly promised that German cities would enjoy immunity from the air raids.

What a let down for the supermen of the superior race!

MORE JIM TODDS NEEDED

St. Thomas Times-Journal. James Todd, former reeve of Yarmouth, who has just died, was a top-ranking farmer. He was noted as the man who never permitted a weed to raise its head on his farm. His land, now occupied by the R.C.A.F. Technical Training School, was always clean. Well cultivated and properly fertilized it yielded excellent crops.

The ideal farming community, to our way of thinking, would be one made up of "Jim" Todds.

BRITAIN PRAISED BY AN AMERICAN PAPER

Charlotte, N.C., Observer.

Before one becomes harshly critical of another, one should always first take the measurement of one's own corresponding faults. R.C.A.F. That rule would shut the mouths of a great many Americans who are quick to rip Great Britain up the back for its war policies.

The people of this country might much better quarrel with themselves and with their own Government for their respective delinquencies in the premises before abusing and ridiculing a neighbor country and ally in this common enterprise for freedom and humanity.

For one thing, England did better than the United States in that she did not wait until attacked before declaring war upon the aggressors.

Great Britain went at the enemy three years before Hitler launched his unprovoked assault upon Poland—and went at it without any sort of reciprocal arrangement with the Government violated.

England declared war for the principal of freedom.

American waited until the enemy attacked America.

Not only so, but England preceded the United States in the policy of giving all possible aid to every people and power that was on its side.

England has been sending to Russia planes and tanks and other supplies. If she were fighting solely for the British Empire, they would have been sent to Malaya and other Empire possessions in the East—now lost because the men and equipment needed to save them were already engaged in fighting freedom's battle on other fronts.

WEIRD TALK

Hamilton Spectator

Certainly every forward-looking Canadian desires profoundly to see the English-speaking peoples of the world draw closer together in their associations. Canada and the United States have already collaborated to a degree that has made their good neighborliness a subject of wide comment. They have done this in peace and in war; every one hopes that this form of rapprochement will continue to prosper and that nothing shall ever mar the pleasant relationship that now exists.

But let us avoid talk of annexation, political union and the like intrude upon that happy state of affairs. Canadians, as has often been said, cherish the friendship of the American people, but Canada wishes to retain its identity and keep its place in the British Commonwealth of Nations.

A HEN'S A HEN

Cleveland Plain Dealer.

The New Jersey Agricultural Experimental Station at New Brunswick has given up its attempt to make better hens than those created by nature. For sixteen months 950 hens were kept in an artificial world of 26-hour days, each of 14 hours of light and 12 of darkness.

But the experimenters learned that the hens so blessed by science did not lay any more eggs than when they scratched around in the barnyard, running from dogs and cooks bearing hatchets.

The New Dealers who propose to make over the world and all the people in it might learn a lesson from New Brunswick's experiments, but they won't. Instead, they will probably point out that subsidies and time-and-a-half for overtime weren't tried.

FARMER LEFT \$332,000

Windsor Star

When Mr. Elmer Shaw, a farmer of Abernethy, Sask., died on April 6th, 1941, he left a will disposing of his \$332,000 estate. He bequeathed his widow \$1,000 in cash, furniture, a home, a car and an annuity of \$9,600 per year for life. Mrs. Shaw has sued successfully to break the will and she is now to receive one-third of the estate clear of succession duties.

While the legal aspect of the suit

A PEEK INTO THE FUTURE

is interesting, the point that will intrigue people of Ontario is the fact that a Saskatchewan farmer left an estate of \$322,000. Stories of the poverty and hardship of the West have been plentiful. Speakers have regarded audiences with reports that the West was ruined, people were starving and no one had anything.

Mr. Shaw, a farmer, left \$322,000, which is not peanuts even in a wealthy city like Toronto?

AYLMER'S ONLY DEFECT

Aylmer Express

We have heard a number of complimentary remarks that have been complimentary to our town of Aylmer. However, there is one fly in the ointment that is our system of drains. During the rainy period last spring there was considerable talk about doing something about the trouble, but with brighter and drier days the matter seems to have been dropped. We still advocate a system of sewers to take the place of our deplorable drains, such sewers to be constructed as a post-war project for which plans should be completed now.

LEGACY OF HATRED

A report from Chungking relates that the Japanese ever retiring from Manshin on the Northwest shore of Tungting Lake slaughtered 5,000 civilians and 5,000 wounded Chinese prisoners. The Japs, too, are building up a terrific legacy of hatred.

McKENNEY ON BRIDGE

By Wm. E. McKenney, America's Card Authority.

USE OF VIENNA COUP MAKES SEVEN TRICKS

This unusual squeeze, which produced seven-odd, is known as the Vienna Coup.

The first Vice-President of the American Contract Bridge League, Capt. Richmond H. Skinner of Chemical Warfare Service, was in the last war as a lieutenant in field artillery. Today he is attached to Headquarters A. S. F. I saw him in Washington recently and he gave me this interesting hand.

Captain Skinner (South) won the opening lead with the ace of clubs and cashed the ace and king of hearts. On dummy's club king he discarded the three of diamonds. The four of clubs was ruffed with the heart eight. At this point the captain made the unusual play of cashing the diamond ace. The ten of trumps was cashed and the nine-spade overtaken with dummy's jack. The five of hearts was led, declarer discarded the eight of diamonds, and West was squeezed. He could not keep four spades and the diamond king.

A SELECTED WAR FOOD

Vital elements supplied by canned salmon include calcium and phosphorus, essential to sound bones and good teeth... also more iodine than is found in any food of land origin.

And today, in this moment of supreme trial, when every quality of nerve, bone and muscle is steeled to the breaking point, this vital seafood is selected to nourish and sustain the Empire's fighting millions.

... a fact worth remembering in times of peace.

THE EXPLANATION why WHITE SWAN TISSUE may be "out of stock" at your dealer's.

You go to your dealer for your regular supply of WHITE SWAN and find him temporarily out of stock. Naturally you are disappointed, but please don't blame him, as he is only too anxious to keep on supplying you with Canada's most popular toilet tissue.

It is simply a question of supply and demand. He cannot keep enough WHITE SWAN in stock because we cannot supply him fast enough. We cannot supply him fast enough because our mill, in turn, cannot meet the increased demand from Government, war industries and the public.

We would like to be able to make more WHITE SWAN than we are turning out now, but war needs come before our requirements for new equipment. So, until the present crisis is over, we ask you to bear with us. We will do our utmost to see that any dealer out of stock for the moment will soon receive his supply.

MR. KENNETH LLOYD KEZAR, NORTH HATLEY.

North Hatley, July 8.—Many sympathizing relatives and friends met to pay their last respects to Kenneth Lloyd Kezar, who was accidentally killed.

Kenneth Kezar, the only son of the late Guy and Gladys Kezar, was born in North Hatley on November 26, 1912. In 1940 he married Ruby Bryant, of North Hatley. He is survived by his widow; one daughter, Lois; his mother, Mrs. Gladys Kezar; two sisters, Thelma and Frances, and their husbands, Stanley Coping and Maurice Bowen, and numerous distant relatives.

The funeral service was held at the home, Canon E. Roy, of Waterville, who had married the young couple, officiating. The spacious house and grounds were crowded with relatives and friends of the young man, who held the friendship and respect of all who knew him.

The body, borne by Messrs. MRS. HIRAM TIBBITS, BROME.

Brome, July 8.—The funeral of Mrs. Hiram Tibbits, nee Cora R. Knott, took place in St. John's Anglican Church, Brome, with Rev. F. W. Gedyne and Rev. Macklin conducting the service.

The bearers were Messrs. C. E. Richard, E. J. Wilson, H. C. Derby and one nephew, L. A. Brislain.

Mrs. Tibbits passed away at her residence in Brome at the age of sixty years, after an illness of six weeks, during which time she was tenderly and lovingly cared for by her daughter, Miss Thelma Farnham.

Mrs. Tibbits, the elder daughter of Mr. Henry Knott and his wife, Miss Minnie Miner, was born in West Shefford on January 1, 1883. The deceased possessed a kind and happy disposition and a sterling character. She was a loving mother and will be sadly missed by her family and many friends and associates. Her home was at all times a most hospitable one. She was blessed with the knowledge that her life had been a busy and useful one.

The many floral offerings, silent expressions of sympathy from numerous friends, spoke of the affection and esteem in which the deceased was held.

SENATORS KNOCK SELVES OUT OF RUNNING

Washington Given Poor Chance For Come-Back

By JUDSON, BAILEY, Associated Press Sport Writer. The honeymoon seems to be over for Washington Senators.

Before the start of the double-headers on the fourth of July Washington still was a wonder team and was in a virtual tie with New York Yankees for first place in the American League.

Today Senators are in fourth place as the result of losing five of their last six games and even though they are only a single percentage point out of third place their prospects of again threatening for the lead are not bright.

The Senators' present plight may be traced to weaknesses that were apparent even before the club collapsed on its current Western trip. They had a problem at third base that was so hopeless that Manager Ossie Bluege in desperation finally installed Veteran Outfielder Bob Johnson at the hot corner.

Since becoming an infielder last Friday the Big Indian has hit three home runs and conducted himself capably in the field, but he hasn't been able to hold the club above its challengers. The pitching has been unsatisfactory and the infield play spotty.

Moreover, Detroit Tigers and Chicago White Sox have taken advantage of the Senators' slump to put on two of the fastest spurts of the season in the American League. The Tigers, who moved into second place yesterday by beating Washington 2-1 have won nine of their last eleven games and the Sox have won eight of ten.

White Sox nosed out Boston Red Sox 3-2 when Wally Moses stole home with the bases loaded and two out in the fourteenth inning.

New York's Yankees completed a sweep of their four game series at St. Louis as Spud Chandler shut out the Browns 2-0 on six hits.

The only other teams to get into action yesterday were Cincinnati and Boston in the National League. They divided a doubleheader with Elmer Riddle pitching three-hit ball as the Reds won the first game 5-1 and Manny Salvo coming back with a five-hit performance for a 4-2 decision in the nightcap.

BASE STEALING STRONG POINT OF WHITE SOX

By ARNOLD DERLITZKI
Chicago, July 8.—(AP)—If bats won't break up a ball game, use your feet. That is the policy with Chicago's White Sox who are running wild on the bases and getting away with it.

They got away with it again yesterday—a cute steal home in the 14th inning by Wally Moses with two out and the base loaded—to continue their dazzling dash up the American League ladder.

Just seventeen days ago the ham-scurram Hose were tied for last place. Today they are in third, four games behind New York's pace-setting Yankees. Tonight they get around to the Yankees, in the first of a five-game series. Victory would be the 11th in their last 13 games.

Yesterday's stolen base, which brought a 3 to 2 win over Boston, was the 72nd of the season for the fifty-footed who only rivals in this matter are Washington Senators and their George Case. It was the third time this year the Sox have stolen their way home and the second time Moses has accomplished the trick.

He did it first on May 5 against Cleveland in the 11th inning after the Sox already had scored twice. Don Kolloway scored on June 3 at Boston in a high inning triple steal with Luke Appling and Joe Kuhel.

Moses is leading the parade of White Sox base stealers with 18—two more than he's ever accounted for in a full season previously. Then comes Thurman Tucker with 16, Appling with 11, and Kolloway with 10. They're not all kids, either. Moses is 32 and Appling 31. Even Joe Kuhel, age 37, has swiped seven bases.

TENNIS CLUB HAS NEW SET OF DIRECTORS

A special meeting of the Mount Pleasant Tennis Club under the chairmanship of Paul Lemieux, the new President, was held at the Mount Pleasant clubhouse last night to make arrangements for the forthcoming club tournaments and for any outside tournaments. The new directors for the 1943 season also took over their new duties and are as follows: President, Paul Lemieux; Vice-President, Gaston Gagne; Secretary-Treasurer, Paul David; Organizer, Gerard Proulx; Directors, Gilles Choquette and Paul Biron, and Publicity, Gaston Gagnon and Marcel Darche.

It was decided at the meeting that only two major tournaments would be held by the club this year. The lack of tennis balls and the poor quality of those obtainable were the chief reasons for this decision. The two tournaments will include the Eastern Townships tournament and a local club tournament to determine the club champion. It has, however, been arranged to play a series of friendly games with outside clubs and it is hoped that several of these return engagements will be able to be played. A decision to hold the tournaments early was also reached by the directors and it is expected that active participation will begin around the first of August.

A discussion was held concerning the quality of the club players and it was generally felt that there were many who needed instruction since the club was open to all tennis fans and there were many beginners. Because of this fact the directors felt that it would be both in the interest of the club and the members to have the players divided into three classes, A, B and C. This will apply to both men and women and matches will be arranged for players in their own classes. Near the end of the season the players in each section may then have a chance to cause of this fact the directors felt in the class above them and in this way a club champion could be determined. Instruction will also be provided for those who are not too strong in the game and who are keen on learning.

President, Mrs. Jack McCourt, opened the meeting and Rev. Mr. Pollitt offered prayer. The Secretary-Treasurer, Mrs. Bessie Watson, then read the minutes of the previous meeting. After a few business discussions a social hour was enjoyed. Mrs. Roy Watson and Mrs. Bessie Watson rendered several solos with Miss Elizabeth Witty presiding at the piano. Dainty refreshments were served by the hostess, assisted by Miss Iola McCourt, Mrs. Archie Paterson and Mrs. Delbert Watson.

Mr. and Mrs. Fergus Farquhar gave a dance to their friends and neighbors, which was much enjoyed. Miss R. Nelson, who was a guest of Mr. and Mrs. M. W. McCourt, has returned to her home in Richmond.

Mr. and Mrs. Archie Samson and Miss Edith Samson, of Island Pond, Vt., and G. J. Samson, F. S. C. of New York City, were guests of Mr. and Mrs. Gordon Paterson and Mrs. M. W. McCourt.

Mr. and Mrs. Murray Lockwood, of Richmond, attended the dance given by Mr. and Mrs. Fergus Farquhar.

Earl Naylor Again Resumes Original Pitching Position

By The Associated Press
Earl Naylor, former outfielder for Philadelphia Phillies, has gone back to pitching in the International League.

When Naylor reported to Hershey, Pa., for spring training with the Phils, Manager Bucky Harris told him to forget about throwing curve balls and concentrate on centre fielding. But a month ago Naylor was traded to St. Louis Cardinals along with Denny Lixfield. The Cards, in turn, sent the ex-Memphis lad to Rochester.

Last night, with the Red Wings trailing Buffalo at 7-3, Naylor went in as a relief pitcher in the seventh. He didn't yield a hit and retired the Bisons scoreless although he gave up two walks. He was taken out for a pinchhitter in the eighth after which Manager Pepper Martin took the mound and gave the Bisons their last two runs in a 9-3 victory on two hits, two walks and two wild pitches.

Al Jarrett turned in a six-hit shutout for Toronto Maple Leafs against the Montreal Royals, 3-0. In chalking up his sixth victory of the campaign Jarrett permitted only one man to reach third. Al Rubelling drove in the winning run in the fourth with a two-bagger.

With his supporting cast banging out seventeen hits, Ed Kileman won his fifteenth game as Baltimore beat Syracuse, 8-4.

The Newark-Jersey City game was postponed.

HORSE RACING PROGRAMME TO BE HELD HERE

Race fans in the Eastern Townships will once again thrill to the sound of flying hoofs as the speed and excitement of horse-racing, the good old trotting kind, returns to these parts this summer, with the revival of the former St. Lawrence Racing Circuit.

Preliminary arrangements have been in the hands of an active committee of horsemen composed of several local men, including Norrey Price, Colin Campbell and Dr. Romeo Veilleux of this city, with Orson Ingalls of Danville, Dr. A. Archambault, of Richmond, headed by President Rene Toupin, of Drummondville. Organizing a circuit of racing attractions in this district, the promoters have stuck to the old name of the St. Lawrence Racing Circuit, but to comply with the necessity of transportation difficulties, have made short hauls important, thus the gleaming of the new name: St. Lawrence Short-Haul Racing Circuit.

Tracks which will be put in shape and which will witness participation of this popular summer sport will be the regular ovals at Drummondville, Richmond, Wotton, Sherbrooke and Coaticook. Opening at Drummondville two weeks ago, a second meet

ORLANDO HEARING IS ORDERED ON JULY 17

Detroit, July 8.—(AP)—Jimmy Orlando, defence player for the Detroit Red Wings hockey team, will go on trial before Federal Judge Edward J. Moineau on July 27 on a charge of making false statements in a Selective Service questionnaire.

Orlando, of Montreal, registered with a Detroit board during the hockey season, stating that he was employed as a machine operator in a war industry. United States District Attorney John C. Lehr, who announced the trial late yesterday, said it had been determined that Orlando did not work at such a job.
