

THE FIGHTING IN IRELAND IS STILL IN PROGRESS

STREET FIGHTING IN IRELAND IS STILL GOING ON—MANY OFFICERS RESIGNING FROM POLICE FORCE

Military Authorities Notify Railway Managers that Henceforth Military Guards Will Not Be Furnished for Goods Sent by Rail, and that It Is Not at Present Proposed to Use the Railroads for the Transportation of Munitions—Irish Railwaymen Claim that This Is at Least a Partial Victory.

(Associated Press Despatch)

DUBLIN, July 30.—Shooting here and in other sections of the country continues, and it is stated that the resignations of the Irish Police now exceed five a day. One civilian and three mill policemen were wounded outside the Bank of Ireland in a battle last night, while in a fight between soldiers and Irish Volunteers last night at Bruce, one soldier was killed.

Frank Brooke, Deputy Lieutenant for the County of Wicklow, Leinster Province, was shot dead at the Lestlandrow Station in Dublin this morning just after alighting from a train. His assailants made good their escape.

Military authorities yesterday notified the railway managers that henceforth military guards will not be furnished for goods sent by rail, and that it is not at present proposed to use the railroads for the transport of munitions. The Irish railwaymen claim this is at least a partial victory.

STATES THAT THE REPORT IS EXAGGERATED

Sixty Ships Now Under Construction, Says Secretary of Canadian National Railways.

(Associated Press Despatch) TORONTO, July 30.—R. P. Ormsby, secretary of the Canadian National Railways, said last night that the report that the Canadian National Railways had been negotiating for the purchase of a new fleet of ships which would cost \$85,000,000 and that the deal had fallen through, was in his opinion, greatly exaggerated.

Sixty ships are at present under construction," he said "some of them in Halifax and others in Vancouver, and in the course of the last two or three years, thirty-four ships have been delivered. They are plying on all the seven seas.

"The announcement of Mr. D. B. Hanna that the Canadian National will shortly inaugurate a service between Victoria, Vancouver and Seattle is only part of the programme of the Canadian Merchant Marine, Limited.

POST OFFICE WORKERS ARE NOT SATISFIED

Men at Hamilton Not at All Pleased with Their Bonuses.

(Associated Press Despatch) HAMILTON, ONT., July 30.—Many of the local post office employees are dissatisfied with their bonuses which they received on Wednesday. The checks were for amounts ranging from 87 cents to \$108. Though the men are disgruntled, there is little probability of a strike.

DISCUSSED OIL QUESTION WITH BRITISH GOVT.

Want Open Door Policy with Regard to Oil Shipments from Mandate Countries.

(Associated Press Despatch)

WASHINGTON, July 30.—An official statement from the United States State Department yesterday disclosed the fact that representations have been made to the British Government regarding its policy touching the exploitation of oil fields and the distribution of oil from mandate countries.

The matter has been discussed informally with Sir Auckland Geddes, British Ambassador, and it is believed that the United States embassy in London has been gathering information on the subject.

The position taken here is that there should be an open door policy pursued with regard to oil shipments from mandate countries.

Recently it has been reported that the British and French have entered into agreement on the subject of oil production in Mesopotamia, the Balkans and elsewhere.

LOST LIFE BY SUFFOCATION AT WINNIPEG

Three Firemen Were Also Injured While Fighting the Flames.

(Associated Press Despatch)

WINNIPEG, July 30.—W. A. Carson, proprietor of the Princess Billiard Parlors, Argyle Block, Garry Street, lost his life by suffocation and three firemen, Fred Clayton, Fred Thompson and Arthur Libby were injured and taken to the General Hospital in a fire which broke out on the premises shortly after nine o'clock.

Number of firemen were overcome by the smoke and fumes, but were able to resume their duties during the course of the fire.

The flames were restricted to the ground floor and the cellar and the loss will be proportionally small, probably not exceeding twenty thousand dollars. Mr. Mathews, manager of the pool room and others made frantic efforts to save Mr. Carson whom they were sure was sleeping in the basement at the time of the outbreak.

About ten thirty while fireman Clayton, Thompson and Libby were engaged with a heavy hose which was pouring water on the seat of the flames, the nozzle snapped and the metal striking Clayton on the head felled him to the ground. The hose also struck the other two firemen and they had to be assisted from the building.

TANK STEAMER KEHUKA IS NOW REPORTED SAFE

Feared She Was the Unidentified Steamer Destroyed by Explosion.

(Associated Press Despatch)

Investors In Get-Rich-Quick Scheme Withdrew Money And Tried Rival—Heavy Demands Were All Honored

Coffers of Instigator of Postal Exchange Scheme Were Emptied Through Uneasiness—Postmaster Says that the World's Supply of International Postal Coupons Is Not Large Enough to Have Made Ponsi's Accredited Fortune.

(Associated Press Despatch)

BOSTON, July 30.—The three day run of the offers of Charles Ponsi, a get-rich-quick scheme of international postal exchange continued yesterday with new believers taking their money to a rival a few blocks away.

Ponsi, having agreed with District Attorney Pelletier, to accept no further deposits until investigation of his accounts had been made, stood in his enlarged office and saw everything going off, with no new funds coming in, but although payments in the past two days are estimated to have exceeded a million dollars, he was honoring every demand. His rival foreign exchange company with a promise of fifty per cent. profit in forty-five days, was taking all the money presented, with no immediate payments to be made.

Postmaster Patton of the New York Post Office today declared the entire world's supply of international postal coupons is not large enough to enable any person to accumulate a fortune. Ponsi is said to have made through coupons transactions and foreign exchange.

In order to make eight million dollars the sum which Ponsi is credited with having realized from his operations, 160,000,000 coupons would have been required, according to Postmaster Patton.

The records of the New York post office, Mr. Patton explained, show that only \$370.50 was paid to redeem coupons during the three months ending June 30.

WANTS THE RUM RUNNERS TO DO JAIL TERMS

Hon. W. E. Raney Says Government Is to Employ Extra Men to Stop Rum-Runners.

(Associated Press Despatch)

TORONTO, July 30.—Acting the dual capacity at present of Provincial Secretary in the absence of H. C. Nixon, and Attorney-General, Hon. W. E. Raney will be able to co-ordinate the work of running down the rum runners on the border in the Windsor, Essex district, more effectively than he could do otherwise. As many men as may be needed to cope with the situation will be employed, and a two hundred dollar increase in salary is offered as an inducement to good men to enter the service, the salary being \$1,400 a year to start.

Another communication to the police magistrates and crown attorneys has been addressed by the Attorney-General, who points out the impossibility of sentencing offenders to jail for first offenses, instead of letting them off with fines.

PREDICTS A DROP IN THE PRICE OF BREAD

TORONTO, July 30.—C. B. Watts of the Canadian Wheat Board, said last night that he did not regard it as impossible that the fall in wheat prices would in a few months warrant a reduction of two cents in the cost of a ten cent loaf of bread in this country.

DELEGATES TO CONFERENCE AT ST. JOHN

Mr. Naylor Will Address the Press Delegates at Civic Luncheon.

(Associated Press Despatch)

ST. JOHN, N. B., July 30.—Labor chief representative with the Imperial Press conference, now touring Canada, Mr. T. E. Naylor, chairman of the London Labor Party, will address the guests at a civic luncheon to be tendered the Press Conference delegates in St. John today.

Sir Frank Newnes, publisher of the Strand Magazine and Tit-Bits, as well as Sir Robert Bruce, editor of the Glasgow Herald, will also speak on behalf of the delegates.

The press party arrived in St. John this morning and toured the harbor on a ferry steamer before luncheon. The ladies of the press party were entertained to luncheon by Mrs. F. B. Ellis, of St. John. A reception by Lieutenant Governor, Hon. William Pugsley, will be held late this afternoon.

TWO MEN KILLED AND SEVERAL INJURED AS A RESULT OF A TRAIN ACCIDENT TODAY NEAR ST. JOHN

Many Passengers Were in Coaches, and that More Were Not Seriously Injured Is Regarded as Almost Miraculous—Suburban Train from Hampton Crashed into a Long Freight Train About a Mile Outside the City of St. John, N. B.—Two Members of Suburban Train Crew Killed.

(Associated Press Despatch)

ST. JOHN, N. B., July 30.—At least two men are dead and several others injured as a result of a collision this morning shortly before eight o'clock when the suburban train from Hampton, due here at 7.40 o'clock, crashed into a long freight train about a mile outside the city.

William McGarrity, of this city, the driver on the suburban, was crushed between the engine and tender and death was almost instantaneous. The fireman on the freight engine was also injured.

Thatcher Irvine, the baggage-master on the suburban, was so badly injured that he died shortly after the accident.

The engine and four cars of the Hampton train were thrown from the rails by the impact, while the freight engine also left the train in the opposite direction.

Many passengers were in the coaches on the way to the city and that more were not seriously injured is regarded as almost miraculous.

Among the passengers the most seriously injured were John Myers, of Fairvale, whose face was badly cut, and H. W. Machum, of this city, whose arm was badly injured.

(Associated Press Despatch) BERLIN, July 30.—Twenty-one workmen were killed and seventy-six severely and six slightly injured in an explosion at a munitions factory at Nuremberg yesterday.

BOLD ATTEMPT TO GET MONEY BY THREATS

Police Believe They Have Man Who Threatened Life of Henry Ford.

(Associated Press Despatch)

DETROIT, Mich., July 30.—One of the boldest attempts yet made to force Henry Ford to pay money or pain of death was squelched yesterday, it is believed, when after two weeks work by all available local police detectives and post office inspectors from three states, the local authorities arrested Edward Gordon, twenty-two years old, of 420 Dix Avenue, and charged him with the attempted crime.

The first letter was sent to Mr. Ford about three weeks ago. It demanded that \$25,000 be sent to "Edward Warren, general delivery, Detroit," and said that refusal to deliver would result in deaths of Mr. Ford and Edsel, Inspector Fraser immediately ordered all clerks at the general delivery window to deliver no mail for "Edward Warren" without first notifying him. Within a week Mr. Ford got a second letter announcing that the signer was aware that detectives had been placed on his trail, making it impossible for him to call at the post office for the money and demanding that it be sent in person to "Edward Gordon, 420 Dix Avenue."

A dummy package was fixed up to be sent to the name and address given, but before it could be delivered, Mr. Ford received a third letter even more threatening than the first two. Wednesday afternoon the dummy package was delivered by the regular mail carrier and immediately afterwards Gordon was arrested.

Gordon told the police he was formerly employed as a news butcher on a train out of Detroit, but that he had not worked lately.

BOMB PLACED IN THE WINDOW OF THE CHURCH

Woman Died from Shock Following the Explosion of the Bomb.

(Associated Press Despatch)

HAVANA, July 30.—Explosion of a bomb placed in a window of St. Felipe's Catholic Church early last night while a service was in progress resulted in the death of one woman and slight injuries to a few other persons. The church was strewn with hats, fans and other articles dropped by the frightened congregation. The one victim's death was due to fright. She collapsed in the street and died shortly after being taken to an emergency hospital. Only slight damage was done to the church.

TANLAC HELPED HER FROM THE VERY FIRST

Mrs. Anna Lachance Says She Is Enjoying Perfect Health Now and Wants Others to Know What Master Medicine Did For Her.

'I'm now enjoying perfect health again and I just can't refrain from letting others know how thankful I am for what Tanlac has done for me,' declared Mrs. Anna Lachance, well-known resident of 549 St. Germain Street, Montreal.

that, after preparing breakfast, I would simply have to lie down again for several hours before I could go about my other housework. 'After taking a lot of other medicines without any improvement, I decided to try Tanlac, and the way it relieved me of my troubles is nothing less than remarkable. Why, I began to get better from the very first, and am now feeling just fine. My appetite is so splendid I'm always glad to see meal-time come, and everything agrees with me so perfectly I never have a bit of trouble with my stomach. The pain has entirely disappeared from my back, and my nerves are just as steady as a clock. My sleep is sound and refreshing, and I'm never bothered with dizziness. After all Tanlac has done for me, I can't help but endorse it, and I hope everybody suffering like I did will give it a trial, for I firmly believe it is just what they need.'

STOMACH TROUBLES ARE DUE TO ACIDITY

Tells Safe, Certain, Speedy Relief For Acid Indigestion.

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in practically nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid. To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisulphated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating, whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use. An antacid, such as bisulphated magnesia which can be obtained from any drug-gist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestants. Magnesia comes in several forms, so be certain to ask for and take only Bisulphated Magnesia, which is especially prepared for the above purpose.

FEW FOLKS HAVE GRAY HAIR NOW. Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur. Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of 'Wyeth's Sage and Sulphur Compound,' which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

'Save the surface and you save all' Paint & Varnish. A Finish That Lasts. WHEN you paint it is with the idea of 'conserving' your property, as well as beautifying it. And you wish to avoid constant repainting. If it's to be a white surface, you want it to stay white. And it will—if you use B-H PAINT. This really superior paint gives a brilliant finish that will not fade for a long time to come. Whether in white, or in colors, it will give protection, and will continue to look 'fresh' for a long period. This result is obtained by the use of finest ingredients in just-right proportions. The white base for it is that superb pigment known for two centuries as Brandram's Genuine B.B. White Lead. By using this, and other ingredients of similar high quality, there is maintained in B-H 'English' Paint a standard of paint quality that other brands have to envy. It excels in 'body,' brilliance, covering-capacity and permanence. This store is proud to be known as B-H HEADQUARTERS. J. M. DESCHENES 80 S. Wellington St., Sherbrooke.

Waltham Watchwords

Care Counts

LIKE any other good machine a watch needs cleaning and oiling occasionally. That's only natural, isn't it? Continuously working mechanism gradually uses up the lubricating material. Unless this is replenished, and the tiny particles of dust removed, friction is created. Friction means wear. It's better to prevent than cure. To keep your Waltham in the best of good condition bring it to us about once every two years. We'll clean it, oil it, and make any necessary adjustments at a very moderate charge. We are skilled in Waltham movements and equipped to give you the service that satisfies.

Waltham Watches in a great variety of styles for ladies and gentlemen always in stock. Prices from \$25.00 upward.

INJURED MEN RECOVERING.

Mr. Tim Murphy, who had his arm broken in an auto accident last Saturday, while enjoying his first outing after a period in the hospital, is progressing favorably at the Sherbrooke Hospital.

Mr. Normand, driver of the car, was taken home shortly after receiving medical attention at the hospital, and is also recovering from his injuries. The other two men, who were badly shaken up, have marked the incident down as an unlucky occurrence of the past.

REMAINS OF LATE CHARLES WEARNE LAID TO REST.

The entire country side, with many friends from Sherbrooke, Lennoxville and the vicinity assembled at "Rose-laine," the residence of Mr. and Mrs. Robert Gillis, Belvidere, to attend the funeral of the late Charles T. Wearne who passed away Monday after a long and trying illness. The service was conducted by the Rev. Johnston Sells, pastor of the Methodist Church, who spoke with feeling of the life and character of deceased, and of his father before him, and turned the thoughts of those who heard him to the hope and faith of the Christian in immortality, and eternal life beyond the grave, and the consolations of such belief. A quartette from the choir of the Methodist Church, Sherbrooke, composed of Mrs. A. L. Parker, Mrs. Gooley, Mr. George Armitage and Mr. F. Parker rendered very touchingly "The Homeland," and "One Sweetly Solemn Thought," and the benediction was pronounced, the long cortege leaving the house for Elmwood cemetery, where the mortal remains were laid to rest. The bearers were the five nephews of deceased, Messrs. Albert, Guy and Clifford Bryant of Sherbrooke; J. C. Nutter, of Lennoxville; Roy Gillis, of Belvidere, and Mr. W. Wheeler. The mourners were Mrs. Wearne, wife of deceased, Mr. and Mrs. J. H. Bryant, Mrs. S. C. Nutter, Mr. and Mrs. G. Parkin and their families, Mr. and Mrs. Robert Gillis, Mr. and Mrs. Jas. Gillis, Mr. and Mrs. Jas. Gillis, Jr., Mr. and Mrs. Aretus Gillis, Mr. and Mrs. William Gillis, and other connections. The flowers were of the most exquisite description, covering the casket and hiding it from view.

Deceased was the son of the late Captain John Wearne, who was a native of Penzance, Cornwall, England, who came to Canada in his early manhood, and was a miner and prospector of note, his home being in Belvidere. Mr. Wearne inherited his father's tastes and ability, and was especially interested in mines in Canada and elsewhere, travelling in Northern Ontario, England and South Africa. He was a man of fine character, well-read and intelligent, conscientious and upright, kind and sympathetic. He had been very ill for two years with a lingering disease, which caused intense suffering, borne with manly fortitude. During his illness, Mr. Wearne was cheered and comforted by the presence of his wife who was his constant companion and efficient nurse. He leaves to mourn his loss his wife, who was Miss Rose Gillis; three sisters, Mrs. J. H. Bryant, Sherbrooke, Mrs. S. C. Nutter, Lennoxville, Mrs. George Parkin, Belvidere, with nephews, nieces and other relatives, who have much sympathy in their sorrow.

LOCAL NINE SCORED A WIN OVER BARTON

Sherbrooke Team Came from Behind to Win Out Last Evening.

After a hard and interesting up-hill battle, the Sherbrooke nine overtook a five run lead to win out from the Barton representatives to the tune of seven runs to five at the Exhibition grounds last evening.

The locals had one bad inning, the third, and during this stanza the visitors chalked up a five run lead. However, the Sherbrooke combination settled down to business after that and the visitors were unable to add to their total in the run column.

On the other hand the locals tallied three counters in the fourth frame another in the fifth, and tucked the verdict away by sending three men scampering over the pan in the seventh inning. The playing of Gordon Pender, the big Windsor Mills first baseman was the feature of the game in making several rather sensational catches.

The Sherbrooke boys will line-up against the team representing Barre, Vt. on Sunday. Barry is said to be one of the fastest aggregations in Northern Vermont and they have a long string of victories this season to their credit. The score by innings in the game yesterday was:

Barton 005000000—5
Sherbrooke: 00031030X—7

BURY SCHOOL EXAM RESULTS ARE GIVEN OUT

Odd Fellows Plan a Big Gathering at Town Hall on Saturday.

BURY, Que., July 30.—Mr. G. A. Atkins, secretary-treasurer of the Bury Protestant School Board, has just received from the Council of Public Instruction at Quebec, the results for the June examinations held at the Fairview School which is very gratifying and certainly reflects credit to the able staff of teachers that were employed during the last year. There was only one failure in all the grades, from six to ten inclusive. The results and marks are as follows:

Grade 8—Alma Davies, 865; Lena Anderson, 810; Ernest Gillanders, 737; Lena Hunt, 734; Erle Goodenough, 728; Alton Lavalliere, 655; Percy Armstrong, 496.

Grade 9—John McLeod, 891; Adelbert Barter, 861; Lucy Pehlemann, 784; Helen Hastings, 745.

Grade 10—Ada Bishop, 865; Jennie Hunt, 860; James Walsh, 790; Osborne Pickford, 682; Cecil Dunsmore, 678; Elsie Brundage, 608.

Certificates for the above can be obtained from the secretary-treasurer on application at his office in the town hall on his office days.

General Notes

Mrs. Wolfe Libby, of Tomifobia, is spending a few days in town the guest of her parents, Mr. and Mrs. Herbert Turner.

Miss Marjorie Stokes has gone to Milby to spend a short vacation with relatives.

Miss Ada Bishop, who has been spending a few days at Marbleton with relatives and friends, has returned to her home.

Mr. and Mrs. Howard J. Simons motored to Sherbrooke on Tuesday on business.

Mr. and M. George McMillan, of Sherbrooke, are spending a few days in town the guests of her parents, Mr. and Mrs. Alex Dougherty.

Mr. Rene Brouillette, of Cookshire was in town on Monday last, proceeding to the St. Francis River to spend a few days with his parents at "Camp Comfort."

Final arrangements have been made for the institution of the new encampment of the I. O. O. F. which will take place in the Bury Town Hall on Saturday afternoon and evening next. The session will commence in the afternoon at 4 p. m., which will be adjourned for supper at 6 p. m. and resumed at 7 p. m., when a second supper will be served at the completion of the work. Besides the visitors from outside points, who will number about a hundred, there are at present in the neighborhood of a hundred who have signed the application for charter and several more are expected to arrive and take advantage of the charter membership list on that day. Special protection has been arranged for the motorists who will place their autos in the town hall grounds, receiving a check for same, and thereby ensuring that every precaution will be taken that none of their property will be molested. Indications, which the committee in charge have received, are that this will be the largest gathering of Odd Fellows ever held in the Eastern Townships. All Odd Fellows in the localities of the new encampment are requested to attend.

CANADA DID NOT COMPETE

BEVERLOO, July 30.—The United States team won at least one of the seven events in the Olympic rifle matches yesterday and apparently had been placed in several of the others. The results are uncertain because of the large number on entrants and the delay with which the scores came in. Neither Canada which is entered only for the pistol shooting nor Britain competed in the army matches.

SHERBROOKE TO ENTER NEW LEAGUE.

(Associated Press Despatch)
CORNWALL, Ont., July 30.—Tentative plans were laid for hockey and lacrosse leagues to embrace teams from the Eastern Townships, at a conference of local sporting enthusiasts, with Mr. James Watson, of Sherbrooke, who was in town this week. It is proposed to embrace in the hockey league, teams from Sherbrooke, Westmount, Cornwall, Brockville and other aggregations yet to be selected. The contemplated lacrosse league, which it is hoped to have in running order for the summer of 1921, will be an independent organization, with representatives for both amateur and professional ranks on the various teams.

BASEBALL FLASHES

In the American League, Ward's home run into the left field bleachers in the eighth inning, with two out and two on bases gave New York a six to four victory over St. Louis in the second game of a double header yesterday, after St. Louis had won the first game.

Chicago and Philadelphia divided a double-header yesterday, the locals winning the first by bunching hits, and losing the second in ten innings.

Penock weakened in the eighth inning yesterday and Cleveland scored seven runs.

Detroit and Washington divided a double-header here yesterday, the visitors winning the first game, which went eleven innings, when Rice hit a home run into the right field bleachers. The second game was won by Detroit 13 to 3.

In the National League, Cincinnati made it two out of three from Brooklyn by winning yesterday. The Reds have won eight out of fourteen from Brooklyn this year.

Boston hit Alexander hard and evened the series by winning from Chicago.

New York made it three straight from St. Louis yesterday.

Philadelphia evened the series with Pittsburgh yesterday by winning the fourth game, pounding Pender for ten hits in six innings and being assisted by the errors of Cuthshaw and Calon.

TWO MEN MET WITH ACCIDENT AT MAPLE HILL

Mr. John Allen Was Killed and Mr. Jas. Watkins Badly Hurt by Falling from Load of Hay.

MAPLE HILL, Que., July 30.—Accidents in the hay fields are not uncommon, for news is often received from various sections, telling of injuries received from horses, machinery gone wrong, and countless other causes. Monday was an unfortunate day for Maple Hill farmers for two accidents occurred. Mr. John Allen met his death by being thrown off a load of hay, life being extinct when found by his brother, Mr. W. O. Allen.

Mr. James Watkins was also thrown off a load of hay and was badly hurt, although no bones were broken. He was attended by Dr. Dixon, and is recovering as well as can be expected.

FISHING SCHOONER ASHORE

(Associated Press Despatch)

LUNENBURG, N. S., July 30.—It is reported here that the fishing schooner M. J. Parks, is ashore at Ferryland, Newfoundland, a total wreck. The Parks was built at Shelburne last summer and last fall made a trip to the West Indies. This was her first season on the banks.

ALBERT SUTTON WAS DROWNED AT COOKSHIRE

Had Been Missing Since Wednesday—Body Was Recovered Yesterday.

Still another fatal drowning accident has been recorded within the borders of the Eastern Townships, the victim in this instance being little twelve-year-old Albert Sutton, the eldest son of Mr. and Mrs. Stanley Sutton, of Cookshire. The little lad had been out playing on Wednesday, and when he failed to return home that night a search was made for him, but without any successful results.

Yesterday, however, the body of the boy was found in the Eaton River, near the Pejeppscot Paper Company's boom. It is believed that the little lad had been playing on the logs and had slipped, with the result that he fell into the water and under some of the logs.

Coroner Bachand was informed and a verdict of accidental death returned at the inquest. Besides his mother and father, little Albert Sutton leaves to mourn his loss two brothers, Gerald and Percy, and one sister, Florence. The funeral is being held this afternoon.

USELESS YACHT RACES.

While the public has followed with interest the boat races off Sandy Hook, all have been impressed with the uselessness for practical purposes of this class of boats which were obliged to abandon the race on the only day that there was a first class breeze.

Discussing this feature, the Worcester, Mass., Telegram remarks:

"The yachtsmen who laughed at the objections of the landlubbers to the system of time-allowances will no longer do so with regard to the objections that the America's cup races have degenerated into exhibitions in which everything is of prime importance—except the prime requisite of every boat, whether 20-foot catboat or 900-foot ocean liner—seaworthiness.

"In a wind which any 20-foot catboat, any 21-foot Corinthian sloop, would have ventured forth with joy in the heart of the skipper at the tiller, these two great machines representing investments of well over a million dollars each, are not to be risked. In what any sailor would regard as the best whole-sail breeze that could be found, these two giants cannot chance even a start.

"If the America's Cup could be won by Sherbrooke, and the challenge should be made by America to specify a schooner, of either 100 or 115-foot waterline, the cup would be well worth losing for a brief season should there come by such loss a restoration of same conditions. The present series, equally contested as it has been, discloses the depth to which a contest, originally designed to bring out the strongest, most seaworthy, and best all-around craft, has fallen.

"Under present conditions the benefit to yachting, either in design or in anything else—is nil."

There are a great many people who will agree with this estimate of the situation.

DOMINION HOME RULE.

There are indications that the present impossible situation in Ireland may eventually find solution in the establishment of a Home Rule system similar to that of the overseas Dominions. Though the Sinn Fein leaders still profess that nothing will do but recognition of the Irish Republic, Irish leaders of cooler and saner temperament, recognizing that the Republic idea cannot prevail, are leaning in the direction of Dominion Home Rule for Ireland.

The world both within and without the British Empire would like to see the eternal Irish question settled. The irreconcilable attitude of elements both north and south within the Emerald Isle is the greatest obstacle to an early solution. Public opinion in Ireland and elsewhere may force consideration and acceptance of a governmental system which will be liberal enough to satisfy a freedom-loving people. Dominion Home Rule should meet such a condition.

PRESS COMMENT

A BREATHING SPELL FOR POLAND.

A sorely-needed breathing spell will be secured for Poland's battle-worn armies on July 30, when the armistice between Poland and Soviet Russia is scheduled to go into effect. Moscow is yet to disclose the terms of the proffered armistice and outline the conditions of the peace which she wishes to impose on Poland. But there is every indication that Moscow will not be permitted to dictate terms of peace to Poland. France, Britain and Italy, at the conference of their respective representatives at Boulogne appear to have agreed on a united policy towards the Russians' offer of peace. Soviet Russia is not to be allowed to deal single-handed with a crumbling Poland. If the agreement among the chief members of the Entente holds, the Soviet Government must consent to fulfill certain indispensable conditions before the Entente Powers will enter into diplomatic relations with it. And the Entente Powers are determined that they, and the so-called border states, shall be represented in the conference which will take up the terms of peace between Poland and Russia.

Great as is the calamity which has now befallen Poland, it may prove to be the means of her national salvation. Unhappily for Poland, the powers of Western Europe have valued her chiefly for the service which she was expected to render as the chief member of the "coron sanitaire," which Clemenceau and other statesmen had planned to protect Western Europe from the surging tide of Bolshevism. Polish national aspirations and ambitions fell in readily with this scheme. Polish statesmen and leaders dreamed dreams of a greater Poland, which should assume the undisputed hegemony of the Slavic nations. Under the intoxication of these dreams, the ill-fated Ukrainian venture was launched, amid great popular enthusiasm. Brilliant success at the beginning crowned Polish arms. Realization of the dream of the Warsaw imperialists seemed immi-

CHILDREN NOT TO BE EMPLOYED ON THE SHIPS

Age Limit for Arduous Forms of Labor at Sea Referred to Next Conference.

Ottawa, July 30.—The text has been received here of an international convention, adopted at the international seamen's labor conference at Genoa, providing that no children under 14 years of age shall be employed on sea-going vessels. The conference concluded its sittings a short while ago, and the Canadian delegates have not yet returned home.

The Genoa conference was called primarily to consider the application to seafarers of the labor conventions adopted at Washington in November.

Further advice received indicate that the conference appointed a special commission to consider the preparation of the children's charter of the sea. The commission was composed of representatives of Governments, shipowners and seamen.

It came unanimously to the decision that no children under 14 years of age should be permitted to work on sea-going vessels, with two exceptions, i.e. (1) on vessels on which "only members of the same family are employed"; and (2) in the case of children working on training ships under the supervision of public authorities. The first exception was made to bring the convention into line with the provisions of the children's charter, applicable to employment in industrial undertakings, adopted at Washington. In the second case, it was argued, the children are actually pupils and there is no intention of obtaining profits

from their work. A third exception was asked for by the Greek representatives on the ground that the special conditions of their country required that children should be trained for the sea at an early stage. The commission, however, could not see its way to exempt Greece from the general provisions of the proposed convention. The exception, therefore, was not granted.

The special commission took the view that work at sea was particularly arduous, and that children under 14 years of age were unable to perform it without danger of injury to their health. The commission also considered the age at which children or young persons should be allowed to begin work at particularly hard forms of labor at sea, and they brought in recommendations which laid down that no one under eighteen years of age should be employed as trimmer or stoker, and no one under the age of seventeen should be employed on night watches between 8 p. m. and 6 a. m. The conference decided that it had no mandate to deal with these latter phases of the subject. The recommendations were accordingly struck out. They will, however, be brought up at the next international labor conference in 1921.

MOUNTING NEWSPAPER COSTS.

(Stratford Beacon) The expense of publishing a newspaper these days is high, but that it is certain to be considerably higher is confirmed by the statement of an expert, who estimates that production costs for Canadian daily newspapers during the next six months will be four million dollars in excess of the same period in 1919. The public is pretty well acquainted with the newsprint situation, through the investigation which has been in progress at Ottawa. The publishers have largely overcome the problem of supply, but cost will be 300 per cent. greater than in 1914, and this is, of course, but one item in newspaper production costs, those in other departments having likewise increased at rapid rate. In the face of this situation publishers generally have no alternative but to increase their charges to the public and advertisers, as much as they may dislike to do so. In the West the day of the five-cent newspaper appears to have arrived, but even at the increased charges the newspaper, which supplied up-to-the-minute news of the community and world is the cheapest article extant today. The man who buys a cigar or goes to a "movie" pays the equivalent of a goodly number of newspapers, yet because the newspaper has always been cheap, its proportional value has been lost sight of in many cases.

WANT WIRELESS STATIONS NOW IN ALASKA

Naval Department Objecting to Proposal on the Ground of Expense.

OTTAWA, July 30.—Dr. B. Thompson, Federal member for the Yukon, is here asking the government to install a wireless station at the new silver camp near Mayo, in the Stewart River district. Installation here would connect the Canadian Yukon with the United States wireless stations in Alaska. It is understood that the naval department is objecting to the proposal on the ground of expense, the estimated cost being \$42,500. Dr. Thompson told the Canadian Press that he had encouraging letters from his constituents telling of the preparations to greet the airman now making the trip from Mineola to Nome, Alaska.

Supply bases have been established on the Yukon River and the arrival of the first machine is to be the occasion for great rejoicing.

The special commission took the view that work at sea was particularly arduous, and that children under 14 years of age were unable to perform it without danger of injury to their health. The commission also considered the age at which children or young persons should be allowed to begin work at particularly hard forms of labor at sea, and they brought in recommendations which laid down that no one under eighteen years of age should be employed as trimmer or stoker, and no one under the age of seventeen should be employed on night watches between 8 p. m. and 6 a. m. The conference decided that it had no mandate to deal with these latter phases of the subject. The recommendations were accordingly struck out. They will, however, be brought up at the next international labor conference in 1921.

Before action can be taken by the Dominion Government either on the children's charter of the sea or on any of the other international conventions adopted at Genoa the authorized text will have to be received from the secretary-general of the League of Nations.

The main Washington conventions are being referred to the provinces to take such action as they may deem fit.

BIGGER CROPS RESULT OF USE OF FERTILIZERS
Cost of Production Is Lowered by Fertilizing—It Pays.

Fertilizing the land pays, and pays well. At present prices for most farm products it is especially profitable, but even in times of low prices it pays to fertilize, since fertilizers, when properly used, lower the per bushel or ton cost of production of nearly all crops. And in this time of shortage of farm labor, the fact that the same yield can be obtained on less acreage through the use of fertilizer can scarcely be overlooked. Fewer acres to plow and cultivate in order to produce the same amount of crops, means a greater net profit after the wage bill has been paid.
—Maryland Farmer.

If you can raise the same amount of crops on one acre as two acres usually produce, by fertilizing a little more heavily, it will certainly pay for the cost of the extra fertilizer will, ordinarily, be more than counterbalanced by the saving in cost of preparing the ground, seeding, cultivating and harvesting the crop on the extra acre. The acre saved can be used for pasture or for some other crop, and is so much clear profit.

WATER SUPPLY FOR DAIRY COWS IS IMPORTANT
Experiments Show that Water Continually Available Has Best Results.

U. S. Dept. of Agriculture test demonstrates the erroneous conception which many farmers and stockmen have regarding the watering of dairy cows. Some dairymen contend that the more water one can induce a cow to drink the more milk she will produce. The Federal experiments show that the difference in effect between watering at will and twice a day was not pronounced. The cows with water always available drank less and produced more. Perhaps the increased milk production was more or less a matter of temperament and individuality. The cow wants water when she wants it, and she will not do her best in the way of yielding milk unless her thirst is satisfied when it is most keen. There was no apparent difference in the gains in body weights of the cows which were watered twice daily and those watered at will. These methods of watering were effective of greater milk yields, larger consumption of water and greater gains in live weight than occurred where the animals were watered only once a day. The experiments point to the tentative conclusion that the advantage of having water continuously available lies mainly in the saving of labor rather than in a greater production of milk.
It is worthy of mention that an average dairy cow normally will

YOUNG FARMER MUST PREPARE HIS EXHIBITS

Training Animals to Show Good Points Is Necessary to Success—Exhibit Poultry and Vegetables.

The fall fairs and exhibitions will soon be in full swing, and many professional exhibitors have already commenced preparing their exhibits. It pays to have the stock and other exhibits in the best possible condition. In selecting live stock for the exhibition, select animals that mate up evenly and conform closely to the standard type of the breed you are working with.
In every class of stock it is necessary to train the animals to stand in a position that will show their good points favorably. Many choice animals have been defeated in the show-ring because their owners failed to give them the necessary training. Cattle and horses should be well halter-broken. A judge can hardly be expected to pay much attention to stock that is jumping around.
Boys and young men of today will be the exhibitors of the future. To be successful at large exhibitions it is necessary to go through a period of training in fitting and showing for local fairs. The Eastern Townships Fair is a good place to start in the exhibition business. It is the duty of every young man if he has good stock on the place to fit it for the local fair which requires support of all stockmen in the neighborhood to make it a success. Give the neighbors an opportunity to see what you can produce and by coming in close touch with other exhibitors much valuable information may be picked up that will aid you in further preparing your stock for shows. Stronger competition is not only good for the fair but it has a tendency to improve the quality of live stock kept in the community. At many fairs there are classes for amateurs so that those starting have an opportunity of winning some prizes. However, the prize should not be the whole aim, the educational value ought to be considered.
Look over the home stock and see if there is not something that could be shown.
It may be a team of horses, a colt, or the driver, or possibly some of the cattle, sheep or hogs could be put in condition and trained for the show. Perhaps you could make several entries in the poultry department. Think it over and decide on what you will show in time to permit of training and fitting.
The stock to be shown this fall may require a little more feed than what they get in pasture, a little grooming will be necessary and it is essential to train the animals to do what you want them to. Have a talk with some good stockman who has been successful at the fairs. He may give you pointers which will be of great value in putting on the finishing touches before the fair.
Those who have no live stock to

exhibit perhaps may have some grain, vegetables or fruit to show. Not much can be done in preparing these until harvest time. Then select the best part of the field, cut the mature grain, thresh it and keep it separate from the main crop. A considerable quantity of grain, potatoes or roots is necessary from which to pick the bushel or whatever amount the prize list calls for. Of course this necessitates extra work and some may think it is not worth the trouble, but the training in selecting and exhibiting is worth more to a young man than mere dollars and cents.
If every young man could and would fit an animal that would look well in the local show-ring this fall, it would have a great influence on the live stock industry of our country. Look the stock over carefully and see if some of it cannot be fitted for exhibition.
Special prizes for children are being offered in different classes at some of the fall fairs, and we hope the parents are doing everything possible to encourage the children in this work as we feel that it is a great education for them, and it will do much to interest the boys and girls to stay on the farm and take the interest they should in the farm work.
Be sure to write the Secretary of the different Fair Associations for a prize list so that preparations can be made in time to have the different exhibits in proper shape for the opening day of the various fairs.

Here Is Where The Macartney Excels
15 Reasons for Selecting the Macartney Machine Milker
Read About Its Many Exclusive Features
It has the best type of teat cup (double acting) and the best milking action of any double-acting teat cup ever invented. The rubber linings in Macartney teat cups will last longer than the teat cup linings of any other milker.
Macartney milker has only one size of teat cup, which fits any and all sizes of teats.
The ends of the teat cups are cushioned with rubber.
The Macartney pulser has the most positive action of any pulser ever made. It is as steady and unvarying in its action as a 21-jewel watch movement.
It is the one absolutely simple and fool-proof pulser—only three working parts.
The pulser is instantly detachable from the lid so that the lid may be placed in water for washing.
Teat Cup release air is not drawn through pulser—no milk, dirt or sterilizing solution can get into milking parts.
It is the biggest labor saver—it not only gives you more milk from your cows, but actually takes less time, less labor and less expense for labor than any other milker.
There is more bronze in the construction of the Macartney than is used in any other milker. The milker head is all brass. There are no cheap or inferior materials of any kind.
The Macartney Milker is the easiest to keep clean. It is the most sanitary. It requires the smallest upkeep expense. Any boy or girl can operate the Macartney. You get life-long, dependable service and freedom from annoyance and expense of frequent replacement of parts.
—Particulars Free—Mail Coupon—
Whether you figure on buying a machine milker or not, this information will interest you. It will tell you what Agricultural Colleges and successful dairy men everywhere think of the Macartney Milker. Just fill in name and address with number of cows on lines indicated. Then mail coupon to us. You'll get all particulars by return.

PROTESTS THE ACTION TAKEN BY JAPANESE

Britain Concerned Over Ally's Foreign Policy and Takes Joint Council.

WASHINGTON, July 30.—An opportunity for the United States Government to take cognizance of Japan's aggressive policy in the Far East, has been afforded by the Japanese seizure, as an act of reprisal of the northern portion of the island of Sakhalin. An inquiry on the subject has been addressed by the United States Department to the Japanese Government. While State Department officials declined today to make any statement on the subject, press dispatches from Tokyo say that the United States Government has informed Japan that it is unable to recognize the occupation.

GAMBLING IN COMMODITIES IS REDUCED

Curtailment of Industrial Activity Due to Lower Demand.

(Associated Press Despatch) WASHINGTON, July 30.—Curtailment of industrial activity due to lower demand, cancellation of orders and general readjustment were the outstanding developments in the business of the United States during July, the Federal Reserve Board declared in its monthly review today. Speculation in commodities is in many parts of the country reported to have been greatly reduced, and in some practically eliminated. There is a general feeling that extravagant buying is at least less extreme and dangerous than it was some time ago.

FINANCIAL AND MARKET NEWS

TODAY'S QUOTATIONS ON STOCK EXCHANGE

The following prices furnished by F. B. McCurdy & Co., and McManamy & Walsh, show operations in the active and important stocks in the New York and Montreal markets:

Table with columns for Stock Name, Open, High, Low, Close. Includes Am. Bosch Mag., Am. Car. & F., Am. Loco., Am. Smelting, Am. Sum. Tob., Am. Woolen, Ana. Copper, Atchafalca, etc.

NEW YORK PRESS MARKET COMMENT

Furnished by McManamy & Walsh

The Sun—So far as the Street as a whole was concerned, there was no general feeling that the rally would hold for any length of time. Wall Street Journal—The floating supply of some of the road issues is decidedly scarce. Journal of Commerce—The increasing belief that the railway rate award would give the roads an assured income position and would thereby start them up on a forward movement, was encouraging. The Times—The speculative following of the rails took heart over reports that the Inter-State Commerce Commission would make known its freight rate decision in a few days. Wall Street Journal will say today: Tobacco shares decline, though business is good. Setback attributed to current investment market conditions. Pan-American Petroleum earns \$2.72 a share in four months. Recent drop in General Asphalt attributed to selling out some large accounts in a dull market. American Steel Foundries earnings for June about \$650,000. Mexican Petroleum reports net, after charges and Mexican and United States taxes, for first four months, \$2,112,665. White Oil daily output at rate of 60,459 barrels. Crucible earned \$13.56 on common in five months.

SOLDIERS DEMONSTRATE AT BRUSSELS.

(Associated Press Despatch) BRUSSELS, July 30.—Thousands of soldiers demonstrated outside the chamber of deputies, breaking windows and doors, as a protest against the government's treatment of former soldiers.

In The World Of Finance

Furnished by F. B. McCurdy & Co.

Finance Committee of French Chamber of Deputies rejects Government Bill for 200,000,000 francs monthly to cover advances to Germany in accordance with Spa agreement. Special Paris despatch to American says reported in French banking circles that Kuhn Loeb & Co. and other American bankers underwriting loan guaranteed by Allies in payment for coal, Germany is to supply France. Tokio despatch says U. S. note denying Japan's right to occupy northern half of Sakhalin Island not a protest, Washington, however, closely watching developments. Re-opening of recent wage award made by butuminous coal commission understood to be one of recommendations made to President Wilson by Secretary of Labor on report of present coal controversy. Merger of Maxwell-Chalmers Motors Companies nearly completed. Vanadium Corporation of America for six months ended June 30 shows total income after charges and Federal taxes of \$1,319,513 equal to \$3.53 a share on outstanding 373,334 shares no par value.

ACTIVITY SLACKENED AT NOON ON WALL STREET

(Associated Press Despatch) NEW YORK, July 30.—(Wall St. Noon)—Activity slackened visibly before noon and some of the industrial favorites eased slightly on moderate selling, presumably for profits. Rails assumed greater prominence. Reading leading representative shares, and Southern Railway the junior or cheaper issues. Rumor persisted that the rate announcement of the Inter-State Commerce Commission probably would be made over the week end. Call money opened and renewed to next Monday at eight per cent., and was in free supply. Weakness of exchange on London became more pronounced as offerings of bills increased. WHEAT PRICES DROPPED QUITE RAPIDLY TODAY (Associated Press Despatch) CHICAGO, July 30.—Houses with southwestern connections were sellers of wheat today and the market dropped rapidly, there being no support. Fresh setbacks in foreign exchange rates appeared to have considerable bearish influence. On the whole, however, trade was not large. Opening quotations, which ranged from 1-4 cent to 5/4 lower, with December \$2.29 1/2 to \$2.32, and March \$2.30 to \$2.31, were followed by moderate rallies from initial bottom figures. Rain in Iowa led to transient declines in the corn market. Complaints of lack of moisture continued from other sections. A during the first half hour it was moderately active. Breweries, Sugar and Brompton were the chief stocks on the active list this morning. Breweries went to 69, but later eased fractionally. Sugar eased slightly after a good start. Brompton was steady at a point advance over last night's close. Among the other issues displaying a firmer tone were Spanish, Dominion Steel and Abitibi.

REMAINS OF MISSING MAN WERE FOUND

Skeleton of Man Who Disappeared in 1918 Discovered in the Woods.

QUEBEC, July 30.—A skeleton has just been found in the woods of St. Agapit. The skeleton has been identified as being that of Arthur Olivier, cab man, of St. Agapit, who had disappeared in 1918 on the seventh of December. GOULD LADIES' AID SOCIAL A BIG SUCCESS

A Fine Programme Was Presented and Quite a Fair Sum Was Realized. GOULD, Que., July 30.—The entertainment and lunch with ice cream given in Gould Town Hall on Friday evening was a great success, both socially and financially. The hall was packed to the doors with an appreciative audience. Rev. Dr. MacLennan was in the chair and the programme contained the following numbers: Remarks by chairman; chorus, "Let's Be All Good Pals Together"; duet, Agnes Macdonald and Roddy MacAulay; solo, "The Bells of St. Mary's" by Miss Isabel Sherman; chorus, Burns and Scotland Yet; Duet, "Let the Rest of the World Go By" Misses Pleurose Duffy and Eliza Cowan; address by the Mayor, Mr. R. L. MacIver; solo, "Sunshine of Your Smile" by Miss Jean Murray; duet, (Scottish) Miss M. MacDonald and Mr. R. L. MacIver; chorus, Old Favorite Songs. Immediately after the programme sandwiches, cake and coffee were served and the ice cream in charge of Mrs. P. W. Buchanan and Mrs. A. A. MacAulay brought in \$24.90. The coffee was appetizing and abundant in quantity, being in charge of Mrs. J. MacCaskill and Mrs. J. A. Morrison. The proceeds of the evening amounted \$100.60. The Ladies' Aid wish to thank the four young ladies, the Misses Margaret MacLennan, Eliza Cowan, Jean Murray and Ruth MacLennan, who had charge of the programme, also Messrs. P. W. Buchanan and A. A. MacAulay, who acted as collectors for the evening also the gentlemen who kindly volunteered to assist in serving the coffee and cake, also the ladies who assisted in the kitchen and all others who helped to make the affair a success.

The Character of the Rosenbloom Store and Merchandise is well worth knowing

This is not one of these 365 sales a year store

We do a regular business in a regular way. We have one price every day in the year.

We don't over charge you when the Spring or Fall trade opens up, and after you have made your purchases at an exorbitant high price, the following week offer you those same goods at 20 to 50 per cent. lower prices.

Society Brand Clothes

The merchandise we sell is of exceptionally high character

The choicest products of Society Brand, and other makers of quality clothes

We don't advertise sensational price reductions. When you do your shopping at the Rosenbloom store you know exactly what you are getting. If you want a really good suit, at really good value, this is your store.

See our window displays of Suits at
\$25.00 \$27.50 \$32.50
\$37.50 and \$42.50

Look around town and make your own comparisons. You can be the judge.
