## NEW BRIDGE WAS SURPRISE

### Residents of Ottawa Found It Built in a Night—Welcome to Connaught.

Ottawa, July 18.—There has been considerable talk in Ottawa of a bridge over the Rideau River from Strathcona Park to a new suburb opposite. There was a surprise in the situation this morning for Ottawans when they got up for a bridge had been built in the night.

The oddity arose from a desire of a real estate agent who was pushing the lots on the west side of the river. He asked no permission, said nothing, but just had a foot bridge put up from the walk of the Ottawa Improvement Commission over the Rideau. It does not actually touch the park, but you can step on to the structure from the walk.

An interesting situation now ensues as to rights and injunctions and the midnight bridge is likely to become famous.

Canada's New Governor General. It is probable the first thing the Duke of Connaught will be invited to do on his arrival in Ottawa will be to open the Dominion Art Gallery and the Victoria Museum, though it is not probable all the exhibits of the geological branch will then be arranged in the million-dollar building.

### Ottawa's Address to the King.

A writ of attachment has been served on the city by the Royal Bank of Canada for the money provided for the city's address to King George V. The City Solicitor told the Board of Control this fact this afternoon, and also asked what amount had been passed by the Council so far for the address.

It seems that O. Matton, the man who took the contract for the address, had a note for some amount endorsed by Mr. W. Foran and discounted at the Royal Bank of Canada. The note is now past due, but the address is not ready, and has not been taken over by the city. Until the city receives it no money will be paid, and therefore the bank will have to wait until the address is ready.

In addition, it is understood, that Rev. George Bousfield, who really did the work for Matton, has not yet been paid, and the Board of Control is wondering who is going to provide for Bousfield, especially as he was engaged by Mr. Matton, the contractor, to help him.

The address is still at James Hope & Son's bindery, and they have an account for \$300 for binding, while Messrs. Henry Birks & Sons have an account for \$75 for work done on the address. These latter amounts, however, have not been voted yet, and will be sent direct to Messrs. Hope and Birks firms.

### Ottawa's Welcome.

Considerable opposition is developing to the city spending \$5,000 to welcome the Duke of Connaught to Ottawa. For one thing, a big civic over-draft is looming up and the Aldermen feel the money could be spent to better advantage. The medical health officer thinks it would be better to place it to the credit of a modified milk scheme.

### PAPKE WILL MEET SAILOR BURKE.

New York, July 18.—It was announced here tonight that Billy Papke of Kewanee, Ill., champion middle-weight pugilist of the world, had been matched with Sailor Burke of Brooklyn in a 10-round bout for the belt before the Twentieth Century A. C. on Aug. 8. The men will weigh in at the limit weight of 158 pounds ringside. Should Papke win the popular decision, it is announced, he has agreed to meet "Cyclone" Johnny Thompson of Sycamore, Ill., before the same club two weeks later.

### CHOLERA MAKES APPEARANCE IN SICILY.

Chiasso, Switzerland, July 18.—The Italian government is encountering great difficulty in Sicily, where the cholera has appeared in grave form, in overcoming the hostility of the people against the doctors and officials. The Red Cross workers, who have often been attacked by peasants, have been obliged to depart from the villages where their presence is greatly needed. Superstition has reached such a point in some of the rural districts that several of the mayors, who went to Rome to be present at the unveiling of the monument to Victor Emmanuel have been unable to return to their posts, the villagers believing that they had gone to the capital to bring back germs of infection.

### FOREST FIRES IN NEW BRUNSWICK.

Amherst, N. S., July 18.—The forest fires which have been raging here for the past eight or ten days continue with unabated violence. During the past 24 hours the fire must have run fully ten miles. The conflagration has crossed to the east side of the Shalee River and has practically destroyed nearly all the green timber on the lumber areas of Robinson and Wright.

Yesterday the fire was fully two and a half miles from any of the residences at Shalee, but this morning the flames were within three-quarters of a mile from where the village stands.

## WILL MAKE ANOTHER BID

### Exiled Shah of Persia Back to Regain His Throne if Possible.

Teheran, Persia, July 18.—Mohammed Ali Mirza, the exiled Shah of Persia, has returned to his own land for the purpose of making another bid for the throne. The Shah is now at Gumesb Tepe, a small port in the Caspian Sea in the northern part of Persia near the Russian border, and it is stated that a Russian vessel conveyed him to that place.

Soon after Mohammed Ali Mirza was dethroned in July, 1909, he proceeded to Russia and arrived at Odessa in October of the same year. The Russian Government undertook by protocol to keep the ex-Shah under strict surveillance and prevent all intrigues with respect to his return to Persia and probably to the throne. Notwithstanding this, the deposed Shah has made his way through Russia, quite rapidly and without molestation, from Odessa to Gumesb Tepe, a distance of about 1,500 miles. What force Mohammed Ali has with him is not known.

London, July 18.—The sudden and unexpected appearance of the ex-Shah, Mohammed Ali Mirza, in Persian territory is a great surprise. He left Odessa some days ago for Baden, near Vienna, where he has been living with his family until July 6. It is understood that he has left Baden for Marienbad to take the waters, with the intention of returning to that place.

By this attempt to recapture the throne Mohammed Ali forfeits a pension of \$82,500 yearly. According to recent despatches from Teheran, his brother, Salar Ed Dowleh, is at the head of a small rebellion in Kurdistan, with 3,000 men, and has proclaimed himself in favor of Mohammed Ali's pretensions.

Teheran, July 18.—The Government has ordered Salar Ed Dowleh to proceed to Kurdistan with 2,000 horsemen and guns to crush the rebellion in that district which has made considerable head under the leadership of Salar Ed Dowleh, brother of the deposed Shah.

### \$4,000,000 ADDITIONAL CAPITAL FOR RAILWAY.

Toronto, July 18.—Interviewed today regarding the proposed issue of four million dollars additional capital stock of the Toronto Railway, Sir Wm. Mackenzie said: "The four millions new issue of stock is only in part for street railway extensions. The Toronto Street Railway Company does not end when the franchise ends in 1921. We have wider charter powers than the local road, the radial roads for instance. We are running our railway company to please the investors without injuring the public," said he, "and we require to spend money to keep our system in running order and abreast of the city's needs. A portion of the money will go into our new tracks as planned in the congested sections of the city."

### GOVERNOR MAKES CLAIM OF MONOPOLY

Boston, July 18.—A message requesting the Legislature to investigate the manufacture of shoe machinery in this State, which the Governor claims is a monopoly, and, if necessary, to enact additional laws so that other industries may not be placed in jeopardy, was sent to the Senate to-day by Governor Foss.

The Governor points out in his message that the manufacture of shoes is one of the principal industries and that it seems to be a fact that practically all of the machinery used in their manufacture belongs to one corporation, organized under the laws of another state, but operating principally in Massachusetts. By its ownership of these machines, this corporation, says the Governor, has been enabled to maintain an absolute monopoly, not only of its own business, but of the shoe manufacturing industry.

### LT.-COL. MEIGHEN SUCCEEDS HIS FATHER.

Montreal, July 18.—Lt.-Col. Frank S. Meighen was to-day elected President of the Lake of the Woods Milling Co., succeeding his late father in that position. The new President was the unanimous choice of the directors. Lt.-Col. Meighen had been a director of the company for several years and had also occupied the treasurer'ship. No director to the place left vacant on the board by the election of the new president has as yet been named.

Lt.-Col. Meighen's appointment to the presidency means that the anti-merger policy of the company, inaugurated by his late father, will be steadfastly adhered to. The new president to-day expressed himself as absolutely opposed to any scheme for merging the milling interests of the company.

### MONTREAL REJOICES TO SEE A GUNBOAT.

Montreal, Que., July 18.—Kaiser Wilhelm's American squadron, the Bremen, as near a cruiser as ever scoured the seas, arrived at the Montreal wharf this afternoon, flying the fierce eagle standard of the Caesars.

## GERMAN DEFAULTER HEADED HERE

### With Him is Said to be Daughter of a Merchant, Who Recently Disappeared.

Montreal, July 18.—According to information received at the local German Consulate, William Johann Gustav Schlottman, of Wismar, Germany, wanted by the police of that city on a charge of having obtained cash to the amount of over \$30,000 on forged cheques, is supposed to be now on the water heading in the direction of Montreal.

Travelling with Schlottman, who was a prominent lawyer in his native city, is said to be Miss Meschatt, the daughter of a Wismar merchant, who has been missing from her home since a day or two previous to Schlottman's disappearance.

While most of the money which Schlottman is said to have carried away from Germany with him, was the result of cleverly forged cheques in the name of some of his clients, it is understood that charges of embezzlement are also to be laid against the man.

The local police authorities, as well as those at Quebec, have been notified to be on the lookout for Schlottman, who is described as being 37 years of age, about five feet eight inches in height, with a strong thick set face, heavy moustache, slightly bald, blue eyes, florid complexion and always wearing a binocle.

The German police think that the couple may have booked for Canada under the impression that they could enter this country more easily than they could gain admission to the United States through the port of New York or Boston.

Until the whereabouts of the fugitives are known, the passengers of the vessel, continental ones especially, will be closely scrutinized while landing both here and at the Ancient Capital.

### CRITICAL SITUATION IN HAYTI.

Port Au Prince, Hayti, July 18.—The situation for the government is considered critical. All the districts north of Artibonite are in arms and the insurgents are close upon Cape Haytien, which they are expected to attack at any time.

The government has chartered the German steamers Syria and Allemania for the purpose of bringing the president and his troops back to Port Au Prince. This city is practically without defenders and the president intends to organize as effective resistance as possible against the revolutionists.

General Leconte, with his followers, it is reported, has landed between Monte Cristi and Fort Liberté. He is on his way to join the insurgents.

### REVISION OF WOOL TARIFF BILL.

Washington, July 18.—Senator Smoot, of the Senate Committee on Finance, will introduce to-morrow his wool tariff revision bill. It will be presented as a substitute for the house measure and will receive the support of the regular Republicans and of the administration.

The bill provides for a general reduction on wool and woolsens, but does not go so far on either as the House bill. It fixes the same rate on first class wool that the La Follette bill names so long as that class of wool maintains the price of 22½ cts. per pound, but as the rate is specific the production is made variable as it is under the ad valorem system of the Wisconsin Senator. It retains higher duties on wools than that are provided by the La Follette bill.

The Smoot bill maintains the classification of the present law on the three grades of wool. Instead of a rate of 11 cents per pound on first class wool in the grease and 12 cents on second class, a rate of 9 cents per pound is provided on both classes. On washed wool of both classes the rate is doubled and on scoured wool trebled.

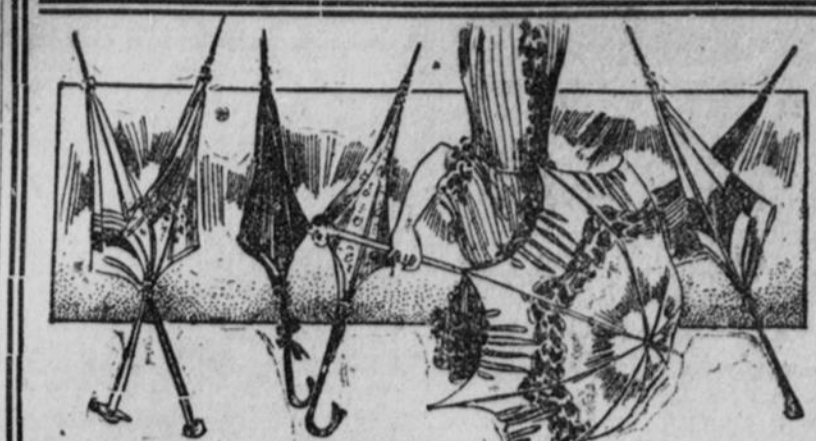

On third class wools the rate is fixed 3 and 6 cents instead of 4 and 7 cents. The "skirting clause," of which much complaint has been made by the wool growers, is eliminated. Garnetted waste is reduced from 35 to 30 cents per pound.

The compensatory duties are levied upon the same principle as in the present law with many reductions in the additional protective ad valorem. The present provision assessing blanket over three yards in length has been eliminated. On women's and children's dress goods the specific duties have been reduced from 11 cents to 9 cents per square yard. There are also material reductions on carpets, druggists and mats, clothing and on webbing, braids, ribbons, trimmings, etc.

There is a new paragraph which provides that "in no case shall any of the articles or fabrics enumerated in this schedule pay a duty greater than is equivalent to an ad valorem duty of 80 per centum."

It is admitted by the author of the bill that this provision may be the means of making it difficult for the manufacturers of exceedingly fine and high priced cloth to compete with similar foreign made goods.

## PAQUET'S SUMMER CARNIVAL

### Summer Parasols to Clear

LADIES' Summer Parasols will be cleared on Wednesday, and while they last, at unusually attractive prices. The quantity is very limited—only about 25 of these Parasols left—but SUCH beauties!

You will have many a chance to use one, before the Summer is over. It has been prophesied that the hottest weather of the present Summer is still to come. Be prepared for it—the cost is little.

Parasols, 98c Ladies' Silk Parasols, champagne shade with ecru insertion, regular price \$1.35, On Sale Wednesday.....98c

Parasols, \$1.29 Ladies' Champagne Linen Parasols, with green border, very attractive, regular price, \$2.50, On Sale Wednesday.....\$1.29

Parasols, \$1.69 Ladies' Silk Parasols in King's Blue, with pompadour border, fancy handle, reg. price, \$2.50 each, Wednesday.....\$1.69

## ADVOCATES ANGLO-RUSSIAN TREATY

Paper Urges the Necessity for Immediate Agreement on Arbitration Policy.

St. Petersburg, July 18.—The Novoe Vremya urges the conclusion of an Anglo-Russian treaty of arbitration. The Moscow Russkoe Slovo styles the treaty recently signed by Japan and Great Britain as "the end of the Anglo-Japanese alliance."

The amendments in the new version, it says, are tantamount to annulment of the alliance and will terminate Japanese hegemony in the Pacific. Since the Portsmouth conference, the Slovo says, Japan has neglected her navy and devoted her whole resources to the army and the establishments on the continent preparatory to a further advance to the northwest. An end has now been put to Japan's continental policy. Henceforth she must watch the United States and spend money for a powerful fleet.

The Roskoe Slovo urges immediate negotiations for an Anglo-Russian treaty of arbitration, "to free Russia from wearisome Japanese tutelage in the Far East."

## VETERANS NOW HAVE NO HOPE

### Reciprocity Debate in Canadian Commons Gives Them No Chance.

Ottawa, July 18.—Special to Chronicle.—The fat was in the fire from the opening of the extra session and right from the start the government's majority dropped to 16 on a straight party division. After preliminaries were over Hon. Mr. Fielding made a motion to go into committee of Ways and Means which meant resumption of the reciprocity debate. This was met by an amendment moved by Mr. Middlebro of North Grey that it is desirable that the government should recognize in some substantial manner the services rendered during the Fenian raids of 1866 and 1870, of the Canadian volunteers. Sir Wilfrid Laurier called his supporters to vote the amendment down, which was done on a straight party vote of 61 to 45, the cut in the normal majority being hailed with great cheering from the opposition. This means that the last hope of veterans for recognition of their services has gone in spite of Laurier's promises in past years that something should be done for them. To-night there was an extended discussion on the question of state-owned cable and land lines, MacLean of South York urging the government to co-operate with British authorities in order to secure reduction in present tolls. Hon. Mr. Lemieux announced that as a result of the been matched with Sailor Burke of general of England he expected shortly there would be a reduction of 12½ cents in cable messages and that if further reductions were not forthcoming England would build a state-owned cable.

The government has not yet made up its mind what relief it will give the sufferers from the Porcupine fire.

Mr. Smythe of East Algoma asked what it was intended to do to-night. Hon. Mr. Fielding replied that sufficient information had not been received and the government was waiting. Tents had been supplied by the militia department.

The reciprocity debate was resumed late to-night by Mr. Arthur's (Conservative) Parry Sound, who opposed the agreement from every economical and national standpoint. It appears to be the intention of the government to make a determined effort to get the reciprocity agreement through, although this is impossible, the opposition being determined to permit electors to be consulted first. Indications are that the government, finding it impossible to carry reciprocity, will make efforts to obtain support and then go to the country at an early date.

Mr. Monk gave notice of questions respecting tenders for the Quebec bridge, especially that of the British Empire Company. This will bring up an interesting debate. Both sides seem full of fight at this special term promises to be one of the most exciting in the history of the Canadian Parliament.

### TOWN'S CHIEF INDUSTRY TIED UP

Sturgeon Falls, Ont., July 18.—An indignation meeting was held here last night to protest against the long delay in the liquidation proceedings of the Imperial Paper Mills, which has wrecked the business of the town, caused many people to move out and has resulted in hundreds of empty houses and stores. The paper mills, which were the chief industry of the town four years and a half ago, went into the hands of the receiver. Repeated efforts to reorganize or sell the plant have proved futile and the citizens are on the verge of desperation. They claim that the assets are being dissipated by the long delay in selling the property.

QUEBEC, WEDNESDAY, JULY 19

**UP TO THE CITIZENS.**

It is now "up to the citizens" to act if they disapprove of the choice of an incompetent fire chief. If things are allowed to fall back into the old condition of disorder and inefficiency and this chance to reorganize the brigade on a business basis is allowed to slip, it will be entirely due to the slackness of the citizens themselves. There is still time to repair the error of last Friday night and to annul the unwise selection of an inexperienced man.

Perhaps the business in which you are engaged requires a great deal of specialization. If you wanted some one to take hold of it and improve it at short notice would you choose a man who knew nothing about it beyond what any ordinary passerby would have picked up in a casual glance?

The reorganization of the Fire Brigade will require an experienced and capable man quite as much as your business would, if not more so. And it is a matter which concerns everybody.

What is wanted is a new chief who, backed up by the Mayor and chairman of the fire committee, will make short work of the nepotism, patronage and aldermanic interference which have demoralized the force so long.

But if the election made last Friday be confirmed it will mean the triumph of nepotism and ward politics, the very thing which is most to be avoided.

The men who are paying the premiums and taxes, whose property is endangered, should get together and protest against his sacrifice of their interests. They have elected a Mayor who has given them a good civic government and now they leave him to fight his battles alone.

Surely this is a matter of sufficient importance to deserve the consideration of the Board of Trade. Yet they see into be doing nothing.

**PAVING THE STREETS.**

The sooner that the difference between the paving contractors is settled the better will Quebecers be pleased. We understand that work has been suspended on several streets which are now rendered impassable owing to the state in which they have been left and the engines, barrows, etc., which encumber them.

It is needless to say that this occasions a good deal of inconvenience to the residents of these streets and they are not anxious that it should be prolonged to any extent.

**A DISINTERESTED SUITOR.**

A well-known New York clergyman, the Rev. Charles Parkhurst, published an article the other day which described in figurative language the history of the relations between Canada and the States.

After referring at length to the early efforts of the Dominion to secure entrance to the neighboring markets, he goes on to say:

"The way in which Canada persistently clung to us was indeed hardly maidenly. She would not take 'no' when it was handed to her. The powers at Washington would have regarded with more tender consideration her persistent overtures had she been able to bring a dowry. But all she had to offer was herself; and we were not ready to marry merely for love, even had our heart been soft toward her, which it was not. The girl, bruised by repeated rebuffs, finally demitted her carresses about the beginning of the present century.

"Persuaded that she was getting rather past the marriageable age, she put her talent to work and, by sagacity and industry, commenced laying the foundation of a fortune which was wondrously accumulated. Her annual commercial dealings with outside people have crept up during the last 40 years from \$130,000,000 to \$730,000,000. So that now, although she has become somewhat of an old maid, she is beginning to be attractive. And, therefore, at this advanced period of her womanhood, the United States, with an eye to the main chance, commences making love to her."

This puts the situation very aptly and the wonder is that this viewpoint is not taken by more Canadians.

If there is any national self-respect among us we will treat these overtures as this New York divine expects us to regard them.

Supporters of the Taft policy argue from the conditions of twenty, thirty and fifty years ago. But the conditions prevailing today are vastly different and it would be absurd to hark back to the old policy. The best thing that we can do is to keep our "dower."

**FOR THE HOT WEATHER**  
40 costumes in white and colored duck, worth from \$6.00 to \$13.00, this week \$2.59. See our big advertisement.  
**FAGUY, LEPINAY & FRERE.**

**NEUTRALITY.**  
In a discussion of Sir Wilfrid's "autonomy-neutrality" scheme the London Spectator recently remarked that it would be impossible for one of the Dominions to say to a power with which Britain was at war that it did not approve of the act of the Mother Country and therefore it would stand out. The foreign power would, of course, refuse to draw any distinctions of that kind. It would be certain to say, "So long as you remain part of the British Empire you are at war with us. Your only way of escaping the consequences is to secede from the British Empire and declare yourself an independent state. If you are willing to do that, we will recognize your independence, but if you do not do that, we must treat you as enemies." It is because he realizes this that Sir Joseph Ward asks for some kind of closer Imperial co-operation in which the people of the Dominions would have the power to influence foreign policy and control the fighting services of the Empire.

**BIRDS AND INSECTS.**

Various interests threaten the shade and fruit trees of the country and do an immense amount of damage both in a financial sense and in respect to the appearance of the cities and villages, which they visit. In Montreal, for instance, many trees have been spoiled in this way and the trees of the forest are also suffering from the ravages of these pests.

The matter has resolved itself into a battle against these destroyers that involves spraying the trees and the adoption of various other devices to effect the same result. The warfare costs something—a sum that is not to be compared with the value of the trees menaced, but still it represents an outlay.

A means of obtaining effective protection that has often been mentioned was reiterated at a meeting at Columbus, Ohio, recently—that of relying upon native song birds. John Davey, a "tree surgeon," a man whose work it is to look after injured trees, said: "I am by profession a 'tree surgeon,' but I long for the day when it will not be necessary for me to ply my trade. It is a simple thing to make tree surgery unnecessary. If we could get plenty of native song birds no trees would be troubled by insects. That would eliminate the danger of decay."

That this alone would assure the safety of the trees from insects would perhaps not prove true, especially in reference to the larger cities, but if it reduced the number of the insects to a considerable extent it would render less work necessary to achieve the same purpose. In the country districts it would have a far greater effect, and trees there are endangered as well as those in the cities.

Prof. Miller of Indiana University stated recently in regard to birds as protectors of the crops that: "Unless quick measures are taken in protecting the insect-feeding birds of this state (Indiana), the crops in a few years will be at the mercy of the grasshoppers and other insects, and instead of having a land of plenty we will have a desert."

This may be overstating the case somewhat and yet it cannot be gainsaid that the birds are invaluable to the farmer for this very reason indicated. Some of them destroy crops to a certain extent. Yet, considered as a whole, they represent a safeguard that if dispensed with is costly to the agriculturist. Definite proof of this is not lacking. France is one country that learned to its sorrow that the destruction of the birds was a huge mistake. The island of St. Helena furnished another instance. Both of them had to import others to save the crops.

**RATS AND PLAGUE.**

In any seaport rats may be a cause of disease. A few weeks ago the London Times announced that out of six dead rats found on a wharf at Wapping it was discovered that four had died of plague. The incident emphasized the necessity of a relentless war against the rat, and that is a necessity that applies to every seaport lest centers of infection should be established. It is unwise to be near a dead rat, let alone handling it. It is not the rat which conveys the infection, but the flea which lives upon it and the parasites at once leave the body of a dead host and seek a new one.

**SASKATCHEWAN AGAINST RECIPROCITY PACT.**

(Vancouver News-Advertiser.)  
Last Friday the Conservatives of Saskatchewan met in convention at Moosejaw. The number of delegates present was 170, representing every district. Among them were R. S. Lake, M.P., Mr. Haulton, the leader of the Provincial Opposition, and nine members of the Legislature. This fact is important, because Mr. Lake has, without authority, been described as a friend of reciprocity, and a few

**MAGIC BAKING POWDER**

TORONTO—ONE

weeks ago a reciprocity resolution was passed unanimously by the Legislative Assembly, Mr. Haulton speaking in favor of it. President Taft had not then made his speeches, and the nature of the compact was not so well understood as it is now. Evidently there has been a considerable change in public sentiment, for resolutions adopted unanimously by the delegates set forth:

"That this convention records its heartiest approval of the general policy of the Conservative party, as announced by our leader, Mr. R. L. Borden, and particularly with reference to the following subjects:

"(b) The unqualified opposition to the proposed reciprocity pact.  
"Reciprocity and preferential trade relations within the Empire."  
Another resolution also adopted unanimously:

"Emphatically condemns the attitude of Sir Wilfrid Laurier to the Imperial Conference in opposition to all proposals for more intimate political and commercial relations within the Empire. It further declares that the propositions of the Liberal Premier that this Dominion need not stand by the Mother Country and the other parts of the Empire at all times, whether in peace or war, is contrary to the spirit of the Canadian people."

The reciprocity clause was greeted with applause, and not a single voice was raised against it. The Moosejaw News, in describing the convention, says that the courageous and determined action taken by the convention "shows that Saskatchewan Conservatism has found itself."

Canada carries off once again the much-desired Mackinnon Challenge Cup at Bisley, and Bibby of Dundas heads the Canadian shots in the match, with Freeborn of Hamilton well up in the list, and McLaren—our own ex-mayor—bringing up the rear. And it is only simple justice to mention that the Canadians used the Ross rifle, Mark II, double star, it proving the most effective at the long ranges. It begins to look as if in this pattern of its much-abused weapon the Ross company had produced a gun as close to perfection as was the original claim for it.—Hamilton Spectator.

**Blau-Gas**  
ALL COUNTRY LIGHTING TROUBLES AVOIDED WITH BLAUGAS.

Most country houses are attractive during the day, but many of them are so poorly lighted with lamps and candles that they are anything but attractive at night.  
Every country home can now be lighted just as brilliantly as your city home with Blaugas. Blaugas is a ready-made gas, shipped to you ready for use. It produces a cheaper and better light than city gas or electric light. Blaugas not only furnishes your home with a fine clear light, but supplies fuel for cooking and water heating.  
Our agent, John Walker, Quebec, will give you any information you require.  
The Blaugas Company of Canada, Limited...

**ANTIQUES**  
During the Summer months we offer many inducements to antiquarians to secure valuable antiques.  
Many of these old curios have been sent to us by citizens for disposal.  
We have Antique Silver, Antique Watches, Antique Clocks, Antique Jewellery, Antique Paintings.  
In Paintings there is a beautiful work (Fruit) by Jacob Vanesse A.D. 1600—1650.  
Pastoral Scene by Albert Cuys 1620—1691.  
Two Water Colors (Dutch Vessels), by J. B. Hardy.  
A fine engraving entitled Venus attired by the Graces. This work is by Kaufmann, and the engraving by Bartalozzi.  
A valuable set of seed pearl jewellery consisting of necklet, conoret and earrings.  
Among the noticeable old-timers is a huge watch with repeating and alarm attachments. This watch is about 12 inches in circumference and weighs 2 lbs. 2 oz.  
Another interesting article is a blood stone cameo engraved on both sides, a very rare work.  
Sterling Silver Fish Slice, London, 1776.  
Sterling Silver Shaving Brush, London, 1807.  
Visitors are cordially invited to inspect our stock of Precious Stones, Fine Bronzes and Curios.

SUNDAYS
1:30 p.m. 1:00 p.m.
3:15 p.m. 2:30 p.m.
5:00 p.m. 4:00 p.m.
7:00 p.m. 6:00 p.m.
7:30 p.m.

On holidays, the boat will make a trip from the Island at 8:00 a.m. and in the afternoon at the same hours as on Sundays.

Connections at St. Joseph and St. Romuald, with the Levis Street Railway.

Shipping News

THREE PASSENGER STEAMERS INWARD

Due Here To-day and To-morrow. They Are Royal George, Empress of Ireland, Corsican.

The C. N. R. Co.'s steamer Royal George, Capt. Harrison, from Bristol, with passengers and general cargo, passed Cape Chatte at 1 p.m. yesterday and is due here this morning.

The C. P. R. Co.'s R. M. S. Empress of Ireland, Lieut. Forster, R. N. R., from Liverpool, with passengers, the mails and general cargo, was 148 miles east of Belle Isle at 1 p.m. yesterday, and is due in port at 3 pm. on Thursday.

The Allan steamer Corsican, Capt. Cook, from Liverpool, with passengers and general cargo, was 210 miles east of Belle Isle at 8:40 a.m. yesterday. Due on Thursday evening.

CUNARD-THOMSON LINE.

Str. Iona, Capt. Rollo, from Shields, with a general cargo, arrived in port at 9 pm. yesterday and proceeded for Montreal.

GASPE LINE.

Str. Lady of Gaspé, Capt. Bouchard, arrived from Montreal yesterday morning, mooring at the Pointe a Carcey wharf. She left at 4 pm. for Gaspé and way places, after embarking Quebec passengers and cargo.

LEFT FOR YARMOUTH.

H. M. C. S. Niobe, Capt. Macdonald, left port yesterday morning for Yarmouth, N. S., after a short visit of five days to this port.

GERMAN CRUISER.

The German cruiser Bremen left port yesterday morning for Montreal.

IS IT CHOLERA?

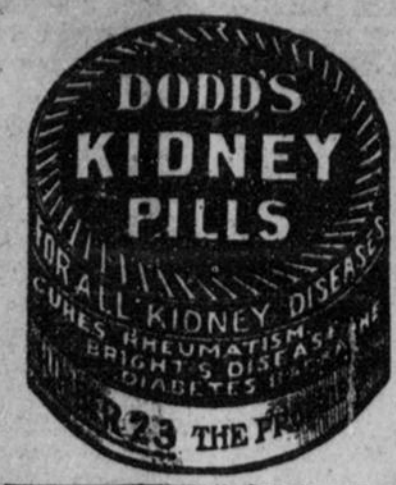

It now appears that the reason the steamer Bendu was detained at Grosse Ile, as before reported, was that four of her crew were suffering from illness, strongly resembling cholera. The vessel arrived from Quarantine on Sunday morning, from Baltimore, but had been previously in the West Indies. When she reached Grosse Ile her captain reported that the four men had been taken ill after leaving the American port. It was then decided that all on board should land on the island at once, the four sick men being sent to the hospital and the remainder isolated and placed under observation. As the detention of the steamer for a great length of time at the island would be a heavy loss to the owners—Elder, Dempster & Co.—she was thoroughly fumigated on Sunday and Monday. Capt. F. X. Pouliot, of the C. G. S. Montmagny, and a crew recruited in Quebec and Montreal, were sent down to Grosse Ile and brought the steamer up here on Monday night, proceeding on to Montreal direct.

Montreal, July 18.—The Elder Dempster liner Bendu arrived in port to-day, manned not by the original crew with which she left Baltimore some three weeks ago, but by a detachment of sailors from the government vessels Earl Grey and Montcalm, at present lying in dry dock at Quebec. The change was made necessary by the fact that the government health officials discovered two suspected cases of illness aboard, and ordered all hands ashore to the quarantine station at Grosse Ile, the captain included.

The owners of the vessel laugh at the idea of any serious illness being discovered, as she came up from Baltimore in ballast after being nearly two months out from Bombay and arrived there with a clean bill of health. She also cleared with a clean bill and the idea of a disease lying dormant so long and then suddenly manifesting itself on the appearance of the Canadian authorities is to them one to be derided.

THE MONTREAL CHANNEL.

Montreal, July 18.—Unfortunately there is an accident to report in the ship channel, as a result of which some delay may be caused to those vessels which are due to leave or arrive here during the next couple of days. Dredge No. 4, which has been working at Cape Charles, which is a point in close proximity to the dreaded bend at Cap a la Roche, struck a snag yesterday morning, and as a consequence, all of the buckets with the endless chain that operates them were ripped out. The dredge is anchored on the site of the loss, and notifications have been issued by the pilotage office that ships must keep well to the northward of the anchored dredge. No danger is anticipated but the channel at this point is a narrow one, and care coupled with a slowing down of vessels passing in or out is desired.

MONTREAL AS A WHOLE YEAR PORT.

Captain Evans, of the steamer Lake Manitoba, which was the first vessel to go eastward through the Straits of Belle Isle this season, was asked, on his return to Montreal, on Monday night, his opinion of Montreal as a "whole year" port. In reply, he said his experiences when he passed through the Straits a month ago have been quite sufficient for him, for he has no intention of ever attempting a similar voyage. There was no report as to ice conditions upon which he could rely received by his wireless apparatus from the time he left Quebec until he struck the ice fields. As to the possibility of opening Montreal up for the whole of the year, this in his opinion would be a farcical attempt, and while admitting that it might possibly be accomplished if sufficient money could be found for the enterprise, he said that he was of the opinion that the initial cost would be huge, and that the yearly cost of the upkeep of the necessary ice-breakers with their gear would be absolutely prohibitive.

NOTES.

Messrs. G. T. Davis & Sons, having completed repairs to C. G. S. Montcalm, the vessel was taken out the Graving Dock yesterday morning.

Str. Brynhild, Capt. Bach, from Port Hastings, with a cargo of coal, arrived in port yesterday morning and moored at Prince's Pier.

Strs. Vinland from West Indies, Helvetia and Chr. Knudsen from Sydney for Montreal, passed here yesterday.

PORT OF QUEBEC.

Arrived July 18.

Milfeed—Manitoba bran, \$20.21 per ton; shorts, \$22 per ton on track, Toronto. Ontario bran, \$20.50 per ton.

Eggs—New laid, per dozen 20a21c.

CLOSING LETTER.

By private wire to Neuville Belleau & Co, 93 St. Peter street.

New York, July 10.—The opening prices were firm, with advances generally of 1/4 to 3/4 of a point. Interborough Metropolitan was particularly strong, the preferred rising a point in the first few transactions to 53 1/2 on reports that the meeting to-day with the subway commissioners would develop favorably for the company as later proved true, carrying the preferred stocks two points still higher.

Brooklyn Rapid Transit, in the meantime, was neglected. Southern Railway preferred rose to 73 1/2 and is being constantly, though not voraciously, absorbed. We look to see Southern Railway preferred materially higher before the end of the summer.

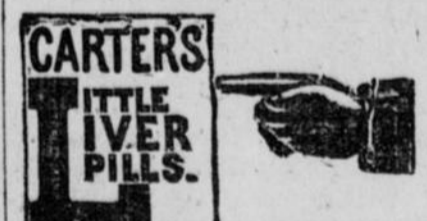

Western Maryland holds firm at 65 1/2 and finds constant buyers at that price. This is a good stock to buy and hold. Canadian Pacific did its usual stunt of breaking its record and sold 2 1/2 points up to 245 1/2.

Bull points are in circulation on this for a 50-point further advance, but no particulars are available. St. Louis and San Francisco second preferred gained two points on the better corn crop prospects.

The car equipment issues were firmer on expected heavy demand from railroads for new equipment for crop moving purposes. Money remains easy, however, being quoted 3% for over the end of the year periods. Business was somewhat more active, with a spurt in strength and activity in the last hour, which closed stocks at the highest for the day, with gains generally 1 point or more.

One hundred and forty-five thousand shares were traded in during the last hour, being 45,000 shares more than for the balance of the day. Buying was largely for short account. We still believe in higher prices for the better class of stocks.

Montreal, July 18.—Unlisted sales, afternoon session: Wayagmack, 10 at 40, 25 at 40 1/2; Wayagmack bonds, 1,000 at 77 1/2; Belding Paul, 25 at 87 1/2, 5 at 87 1/2; Mexican Northern, 30 at 26; Canadian Power, 5 at 49; Mexican Northern bonds, 300 at 66.

CURE SICK HEAD

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Dropsical Swelling after eating, Pain in the Side, etc. While their most remarkable success has been shown in curing

Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

# A TIP

ON

## Placing Advertising

### Something to Know

The problem which confronts many merchants and manufacturers of today is how and what to do to attain a bigger business. Usually the one who is always heard kicking as the saying is, as to business being dull is either the non advertiser or perhaps the one who advertises, but not in a well circulated paper, as that of his competitor. One of the most important facts to be considered in placing advertising is to use the best circulated medium regardless of cost. You may pay a little more for it, but you are sure to get double the returns than that of a minor circulated one.

### A Short Talk on Circulation

There is an old saying, that the older we grow the wiser we get, so is it with newspapers, the older they get the more reliable and popular they become. In the City of Quebec the "Chronicle" is the doyen of newspaperdom, having first been established as the Gazette in the year 1764, it has continually forged ahead and to-day it is looked upon as the most reliable, influential, and largest circulated English paper in the Province of Quebec, east of Montreal. Its circulation is continually growing, having made a net gain of over 2,000 during the past year.

## What It Did For Others

Many papers boast of all they have done for their advertisers, but when facts can be produced they speak louder than words. Following are a few of the numerous letters which the "CHRONICLE" is continually in receipt of.

What J. A. McClure, the well known Jeweller and Optician on Mountain Hill says:—

CHRONICLE PTG. CO.,  
QUEBEC,

Gentlemen,—

I have much pleasure to be in a position to say that I am more than satisfied with your valuable paper as an advertising medium.

A short time ago I took out a contract with the Chronicle, and as I was so well satisfied with results obtained, I am now taking a contract for one year.

I believe most thoroughly in patronizing a first class home paper, which I know the Chronicle to be, as many people who called at my store said they had seen my advertisement in same.

Yours very truly,  
J. A. McClure.

### An Example of Quick Returns

MESSRS. THE CHRONICLE,  
QUEBEC.

Gentlemen,—

It is with great pleasure that I take this opportunity of informing you of the exceptionally grand returns I obtained recently through the advertising columns of the Chronicle, which is to my belief, the best medium for quick results that I ever advertised in.

In October I took a small space of three inch single column for some oysters I had to offer, and by six o'clock the same day I had disposed of over one hundred barrels.

What confirms my belief that this result was attained through the columns of your paper is that most of the purchasers said they had seen my advertisement in the Chronicle and had inquired for further particulars as to what brand they were.

Thanking you for the above results obtained,  
I remain,

Yours respectfully,

H. DEROME,

Per A. H. DEROME Mgr.

P.S.—Mr. Derome is the well-known Fish and Fruit Merchant on Finlay Market.

## Why you should Advertise in the CHRONICLE

- It is the people's paper. Publishes all the News.
- It has the largest circulation of any English paper in the province east of Montreal.
- It has both Quality and Quantity in circulation.
- It has no equal as a result-getter,
- It is a morning paper and has the home circulation.
- It has the best news department.
- People read the "CHRONICLE" for a place to spend their time and money.

Phone 45 and our ad. man will call on you to explain rates and help you in the preparation of copy.

### Quebec Market

July 18, 1911.

Carcases, good	9.50 10.50
Carcases, common	7.50 8.50
Mutton	9.00 11.00
Veal	9.50 10.00

#### COTTON MARKET.

New York, July 18.—Cotton futures closed steady. Closing bids: July, 13.71c; August, 13.34c; September, 12.45c; October, 12.25c; November, 12.21c; December, 12.22c; January, 12.19c; February, 12.19c; March, 12.25c; April, 12.25c; May, 12.35c. Spot closed quiet, 25 points lower. Middling uplands, 14c; do., gulf, 14.35c. Sales 200 bales.

Liverpool, July 18.—Cotton, spot, moderate business. Prices 22 points lower. American middling, fair, 8.15d; good middling, 7.81d; middling, 7.59d; low middling, 7.39d; good ordinary, 7.13d; ordinary, 6.88d. The sales of the day were 6,000 bales, of which 1,000 were for speculation and export, and included 570 American. Receipts were 3,000 bales, including 800 American. Futures opened easy and closed feverish.

#### OILS, ETC.

London, July 18.—Calcutta linseed, July-August, 67s. Linseed oil, 40s 9d. Sperm oil, £34 10s. Petroleum, American refined, 5 1/4d; spirits, 6 1/4d. Turpentine, spirits, 37s 5 1/4d. Rosin, American strained, 13s 9d; do. fine, 17s 9d. Savannah, Ga., July 18.—Turpentine firm, 49 1/4@49 3/4; sales 771; receipts 1-521; shipments 150; stocks 22,094. Rosin, firm; sales 3,200; receipts 5-081; shipments 225; stocks 104,154. Quote: B, \$5.30; D, \$5.90; E, \$6.75; F, G, H, I, K, M, \$6.62 1/2; N, \$6.50; WG, \$7.05; WW, \$7.10.

#### SPANISH FOREIGN OFFICE.

Madrid, July 18.—According to a semi-official statement to-night, the Foreign Office has requested the Spanish Legation at Tangier for information regarding the reported arrest of M. Boisset, the French Consular Agent at Alcarzar. In view of the fact that instructions have already been given to the Spanish Minister at Tangier and the fact also that he has not reported the incident is taken as indicating either that it was unimportant in itself or that the explanations offered M. Boisset were satisfactory.

#### STRIKE RIOTS AT CARDIFF.

Cardiff, Wales, July 18.—Serious rioting occurred on the docks to-day, arising from the strike troubles, in which a dozen policemen and a score of civilians were badly injured. During the riots a large dock warehouse caught fire. It is suspected that an incendiary applied the match. The rioters interfered with the efforts of the firemen to extinguish the flames, and looted the warehouse of hogsheads of liquor, a large quantity of which they consumed.

Troops have been ordered here from Newport, and there is great fear of renewed rioting of an even more serious nature.

#### HAVE YOUR FAGED HATS RENEWED.

Ladies' hats trimmed at half price. Read our big advertisement and you will be surprised.

### IN AND ABOUT TOWN

#### MAN KILLED ON THE C.P.R. TRACKS

Attempted to Jump On a Moving Freight Train and Met Death.

A fatal accident occurred on the C. P. R. line in this city last evening about 8 o'clock, when an unknown man was killed by a freight train, near the corner of St. Dominique and Prince Edward streets. It appears that the unfortunate victim of the accident was hanging around that part of the city all the afternoon and attempted to jump on a western bound freight train, but missing his footing fell between the cars, which passed over his body. Death was instantaneous, and the victim was shortly after transferred to the Morgue, where an inquest will be held this morning by Coroner Jolicoeur.

It was thought that the man belonged to Limoilou, and that his name was Amyot, but he was not identified. The unfortunate man was almost decapitated by the train.

Don't miss the splendid programme on at the Palais Royal this week.

**COURT OF SESSIONS.**  
A man convicted of assault at the bridge works at Cap Rouge was fined \$5 and costs in the Court of Sessions yesterday. Three men accused of stealing wood were discharged, there not being sufficient evidence to support the charge.

**ENGLISH TWEEDS SACRIFICED.**  
English tweeds, and worsteds, also Scotch tweeds and Harris homespun, as well as Vercuna and Cheviots, are being sacrificed owing to J. H. Mullin closing his tailoring establishment. Tweeds worth \$3, \$4 for \$1.35 and \$1.95 per yard.

**RECORDER'S COURT.**  
Aldermen Shink and Goulet presided in the Recorder's Court yesterday. Eight prisoners appeared before them. One for being drunk and using obscene language was fined \$20 and costs or one month's jail. Of seven men accused of plain drunks, six were fined \$5 and costs or eight days each, and one \$2 and costs or a similar imprisonment. A man summoned by his wife was allowed to go on suspended sentence.

**LAST DAY, THURSDAY.**  
The special sale of Semi-ready suits, now taking place at L'Heureux & Gauvin's store and at Geo. Morissette's, will conclude on Thursday. This is the last chance to purchase \$15 suits for \$10.50; \$20 suits for \$11.50 and \$25 suits for \$20.

**WATER TROUGHS FOR HORSES**  
At the instance of the Society for the Prevention of Cruelty to Animals two water troughs have been placed by the city, one at the Champlain market and the other at the foot of de Salaberry street, and thanks are due to His Worship the Mayor, who so promptly gave his attention to the request of the Society. These troughs are a great boon to the horses, and are greatly used, showing the necessity there was to have them placed in the localities above named.

**BUILDING DESTROYED BY FIRE LAST NIGHT.**  
The firemen had a short but sharp struggle with a fire in Queen street last evening. An alarm from box 64 brought them to the scene, when it was discovered that the blaze had broken out in a two story brick building, No. 323. The fire was in the upper story and the building was badly damaged. The building was occupied by Mr. J. B. Falardeau, who has an insurance of \$600. The building was owned by Mr. Falardeau, senior, who has an insurance of \$1,000.

**CANADIANS FOR SHOEBOURNNESS.**  
The following members of the 6th Regiment of Artillery, Levis, left yesterday afternoon for Halifax to undergo training before proceeding to take part in the annual artillery competition at Shoeburyness, Eng., in which 40 Canadian volunteer artillery competitors will take part: Sgt.-Major T. Morin, Lauzon; Sergt. H. Carrier, Levis; Sergt. Bernier and Cpl. Belanger, Lauzon; Sergt. Emile Lafamme and Sergt. Peter Mackay, Levis. After undergoing their military exercises at Halifax, the Canadian representatives will proceed to Petawawa, and will leave there for England on the 8th of August.

An album full of post cards is a nice souvenir of a vacation trip to a big town. A lot of good albums can be found at the store of Mr. John E. Walsh, on St. John street.

**PECULIAR FIND MADE IN GUELPH.**  
Guelph, Ont., July 18.—A peculiar find was made yesterday by workmen at the subway excavation at Huskisson street. They were digging in the solid earth, over 13 feet below the surface, when one unearthed a stick of dynamite over two feet in length. Another picked up a Canadian copper coin, which was found to be over one hundred years old. Another coin was also found, but nothing can be made out of it.

#### FUNERAL WAS IMPOSING ONE

Last Tribute of Respect to Memory of the Late Mr. E. G. Joly de Lotbiniere.

The funeral of Mr. Edmond Joly de Lotbiniere took place yesterday afternoon and was very largely attended by Quebec's most prominent citizens. The funeral service at the Cathedral was a very impressive one, the body being received by Lord Bishop Dunn and Bishop Farrar, while among the clergymen present were Rev. Messrs. Burgett, Scott, Bunbury, Thompson and Moorhead. The opening sentences were recited by Bishop Farrar and the lesson read by Lord Bishop Dunn. Rev. Canon Scott recited the prayers.

During the course of the solemn requiem the 5th Psalm and the hymns, "On the Resurrection Morning" and "Sleep Thy Last Sleep" were feelingly rendered by the choir, under the direction of Mr. E. A. Bishop, who presided at the organ and at the close played the "Dead March."

At the conclusion of the service in the Cathedral, the remains of the lamented deceased were interred in Mount Herman Cemetery, where they were followed by a large number of relatives and friends. Among the principal mourners were the deceased's son, Mr. Alain Joly de Lotbiniere, his brothers-in-law, Messrs. St. George Boswell, Arthur J. D. Campbell, Lieut. Col. G. E. Allen Jones and Lt.-Col. Geo. S. Cantlie; his cousins, Messrs. H. S. Oliver and Dudley Oliver, and his nephews, Messrs. H. A. Joly de Lotbiniere, Eric de L. Greenwood and Harold Greenwood.

Lieut. Gov. Langelier was represented by Capt. V. Pelletier, A. D. C., while Hon. L. A. Taschereau represented the Provincial Government.

Among the mourners was Mr. Jas. Lawlor, of Ottawa, secretary of the Canadian Forestry Association.

**INSEPECTING THE FORTS.**  
Brig.-General Otter is a guest at the Chateau Frontenac. He spent yesterday inspecting the forts of Levis.

**HAPPY NIGHTS HAD HAPPY NIGHT.**  
The moonlight occasion of the Happy Knight last evening was a most enjoyable and successful one. There was a large attendance, and a merry time. Charbonneau's Orchestra supplied the music, and the dancers had a fine time.

**DOCK STRIKERS MAKE TROUBLE AT ANTWERP.**  
Antwerp, July 18.—Serious disturbances occurred at this port to-night. Strikers attacked the men loading a Red Star steamer, and when the police intervened the crowds took sides with the strikers. The police were assailed on all sides, stones, crockery and other household utensils being showered on their heads from the windows of houses. They were finally forced to use their revolvers.

**BURIAL OF SUICIDES.**  
As one reason for the increasing number of suicides an unusual explanation was given by the Bishop of St. Albans in the Upper House of Convocation of Canterbury.

In a report read by the Bishop on the question of the burial of suicides, it was stated that there was a widespread belief that burial with full rites of the Church was not likely to be withheld from suicides in cases when the verdict was "Suicide," unqualified by any other conditions.

The Bishop of Bristol referred to part of the report which stated that it did not seem necessary to refuse to allow the body to be brought into the Church. He thought a little outward form of severity in this respect would strike parishioners, and might do a great deal of good.

The Bishop of Oxford said that a man who had lived notoriously in sin, who had done all he could to cut himself off from the Church, would be a better one to whom to refuse admission to the church.

But in other cases, if they could carry the relatives of the deceased with them in the matter, they would gain incalculably with regard to the feeling in the neighborhood.

He thought this could be done by admitting the body to the church, but making it clear that certain words could not be used in the service by the graveside.

The House adopted a resolution to the effect that in any case in which a clergyman might be compelled to believe that serious harm would result in the parish if the service in the Prayer Book were used in its entirety, he should bring the case before the Bishop, and be guided by his judgment.

It was also agreed that, with a view to uniformity of practice, it was desirable forms of service should be provided which might be used when the service in the Prayer Book could not rightly be used in its entirety.

### VETO BILL WILL PASS LORDS

Amendments to the Measure, However, Will Not be Accepted by the Commons.

London, July 18.—Mr. Balfour had another long conference with Lord Lansdowne to-night, and it is understood that they decided to adhere to the policy of allowing the amended veto bill to pass the third reading without division. So far, there is no sign of any motion to reject the bill and although it is still possible that the insurgent peers may challenge division it is not expected that the revolt will be big enough to endanger the bill in this stage, as Lord Lansdowne and his associates are doing their best to counteract the threatened rising.

London, July 19.—The Liberal morning papers predict that the crisis will end quietly without the creation of new peers. Assuming that the Lords will pass the third reading of the veto bill on Thursday, they state that Premier Asquith will on Friday announce in the House of Commons that the Government has the power to make the nation's will prevail.

One rumor goes so far as to state that Premier Asquith has also authority to announce that the King desires through his Ministers to express the hope that the violent differences of opinion shall be persisted in between the two Houses of Parliament.

After an announcement of this kind the Liberals assume that Lord Lansdowne will counsel his followers not to persist in opposing the bill, but will at the same time intimate the determination of the Unionist party to repeal the bill when they come into power. Some of the insurgent peers may even then hold out, but not enough of them to prevent the final passage of the bill.

Color is given to this Liberal view of the situation by the attitude of the Unionist organs this morning. They all anticipate that the bill will pass its third reading on Thursday, and some who have up to the present advocated the "no surrender" policy, now counsel moderate views, admitting that the insurgent policy would only lead to another general election when the Unionists would be certain to suffer defeat.

**BRIEF NOTES OF OF DOMINION NEWS.**

Toronto July 18.—Word was received in Toronto to-day of the death, at Vevey, Switzerland, of Mrs. Isabel J. MacMahon, widow of the late Hon. Justice MacMahon of Toronto. On the death of her husband, Mrs. MacMahon, who was ill-health, left Toronto for Switzerland.

Rosthern, Sask., July 18.—A triple drowning occurred on Red Deer Railway Lake, those drowned being Leroy MacDonald and his fourteen-year-old son and Owen Hughes. The three were out rowing in a small boat. Two of the bodies have since been recovered. The victims lived at Gilles, 30 miles northwest of Rosthern.

Toronto, July 18.—John M. Imrie, editor and manager of the Printer and Publisher, was at a meeting of the Executive Committee of the Canadian Press Association, held Monday night, appointed permanent secretary of the association with offices in Toronto. Mr. Imrie accepted the position to-day on the understanding that he should spend half his time in the work of the association.

Woodstock, Ont., July 18.—The Woodstock City Council this morning sent a draft for \$200 to Toronto to be added to the fund for the relief of the sufferers in the Northern Ontario fires. A number of the Aldermen thought the amount too small, but it was decided to send the two hundred first and to supplement the gift if the needs of the sufferers demanded it.

Woodstock, Ont., July 18.—Miss Mabel Mason, who lost her life in the Detroit River by jumping from a launch when the gasoline took fire, was formerly employed as a dining-room girl at the North American Hotel. Latterly she had been working at the knitting factory. On Saturday she left Woodstock in company with Miss McGovern, whose father is employed at the North American Hotel. Miss McGovern was on the boat but escaped.

Blenheim, Ont., July 18.—The Michigan Central Railroad almost had another level-crossing fatality this evening, and as it is Mrs. G. W. Cundie, wife of a well-known Harwick farmer, is lying at her home with broken shoulder, Mrs. Cundie and her daughter, Mrs. Clarence Huffman, were driving home from here and went on the track in front of the mail train. The women tried to hurry over before the train reached them, but were struck, the horse being killed and the buggy demolished.

Toronto, July 18.—The Canadian Northern Railway will soon have regular trains running between Toronto and Trenton. The line is partly ready, but has not been passed upon by the Railway Commission. The railway hope to establish a regular service about August 15.

Toronto, July 18.—The body of Harvey Kerwan, of Isabella street, drowned in the bay on June 28th by falling from a gasoline launch, was picked up this morning. A brother, Mr. T. A. Kerwan, was communicated with and identified the remains.

### PERMANENT SIDEWALKS

We are well equipped for the paving of sidewalks with our Mosiac Cement Blocks. The blocks may be bought by the hundred or by the thousand, as well as the chain which serves as a border to the pavement. SPECIALTY—Church Steps, Passages, Cellars.

MONTREAL PULLED OUT VICTORY

Dubuc Won His Seventh Straight Game—Buffalo Pitcher's Wretched Support.

Montreal, July 18—Schultz pitched good ball to-day and allowed Montreal only four hits, but the Royals pulled out a victory, 3 to 0, the Bisons giving their twirler wretched support. Johnny Dubuc was on the firing line for the locals and notched his seventh straight victory, shutting out the visitors and allowing only six singles. Score:

Miller, Hanford; stolen base: Gandil; base on balls: off Schultz, 2; off Dubuc, 1; struck out: by Dubuc, 4; by Schultz, 5; hit by pitcher: Schrim and Yeager. Time 1:40. Umpires, Hart and Kerin.

CANADIAN WINS FIRST STAGE OF KING'S PRIZE.

London, July 18—Corporal Trainor, of Toronto, won the first stage of the King's Prize to-day at Bisley.

THE CAUSE OF HEAVY HITTING.

Umpire "Silk" O'Loughlin, of the American League, does not agree with the majority of baseball followers that the new cork centered ball is responsible for the heavy hitting this season. Recently the king of American League indicator holders gave his opinion of the new ball and also his reason for disagreeing with those followers who insist that the new spheroid is too heavy. "Silk" offers the argument that an overplus of pitchers is to blame. Each team carries from six to ten pitchers, and the club managers, as a rule, try to give each man a fair trial. This plan gives a pitcher only one day in eight or ten for work, and it is hard for a man to show at his best. "Cut down your pitching staffs to six men," says O'Loughlin, "and you will have the solution of the hard hitting problem."

TORONTO CRICKETERS DRA WWITH CRESCENTS

New York, July 18—The Toronto cricketers played a draw game with the Crescent Athletic Club team to-day on the Bay Ridge grounds. The weather was excellent and the ground splendid wicket which favored the batters and puzzled the bowlers on both sides. The local men won the toss and went first to bat. F. Jackson making the top score of 56, and after seven wickets had fallen for 169 runs Capt. J. B. Johnstone declared the innings closed. The visitors then had 75 minutes of playing time and they speedily ran up a score of 124 for six wickets before the stumps were drawn at sundown. H. S. Reid was high man with 32; Dr. W. E. Dean, the Canadian captain, made 28; E. G. Hill 25 and O. Turvill 23, not out. The visitors will not play to-morrow, but are scheduled for three one-day matches on Staten Island during the remainder of the week.

RACING AT WINDSOR TRACK

Two Feature Events Yesterday—Meeting of the Stewards of Association.

Windsor, Ont., July 18—A handicap at a mile and a sixteenth, and a race for Canadian bred two-year-olds were provided as features at Windsor this afternoon. The Valley Farm stable captured the latter event with the Martimas colt White Caps, who made a runaway affair of the race and beat Ondramon out in easy fashion, while Cliff Edge proved best in the handicap. He made all of his own pace and led the one to two favorite Naushon a length at the finish. All of the stewards of the Canadian Racing Association with the exception of Jos. E. Seagram were present at the meeting of the body this afternoon.

The following trainer licenses were granted:—SS. C. Barnam, Thomas Collins, F. Brooks, E. Glasco, Max Hirsch, W. S. Houde, W. O. Goplin, H. Loudon, J. W. May, Geo. Odum, J. B. Respass, H. H. Selby, George Walker and W. C. Westmoreland. The following jockeys also received licenses:—F. Branch, J. Davenport, T. Gaskins, N. Kennedy, J. Loftus, J. Love, H. McAfee, H. L. Saffel, C. Turner. L. Hughes was granted a license to ride for S. C. Hildreth, and Jockeys J. Glass and J. Henry were granted probationary licenses. Jockey A. Wispen has been temporarily stopped from riding until his contract papers have been straightened out. The ban against Jockey Byrne and Trainer John Powers was lifted and Tom Shaw was permitted to book again.

Summary.

1st race, purse \$400, 2-year-olds, Canadian bred, 4 1/2 furlongs—White Caps, won; Ondramon, 2nd; Prince Polo, 3rd. Time, 55 4-5. Rocksprings, Sati and Steamboat also ran. 2nd race, purse \$500, 3-year-olds, 6 furlongs—Pluvius, won; Stilly Night, 2nd; Martin W. Littleton, 3rd. Time, 1:13 2-5. Rogod, Little Father, Sidney R. Capsize, Cherish, Double Five and Ben Lasca also ran. 3rd race, purse \$800, handicap, 3-year-olds and up, mile and a sixteenth—Cliff Edge, won; Naushon, 2nd; Carlton, 3rd. Time, 1:46 1-5. Montgomery also ran. 4th race, purse \$400, for 3-year-olds and up, mile and 1/4 quarter—Supervisor, won; Oracle, 2nd; Naughty Lad, 3rd. Time, 2:08 4-5. Third Rail, Merman, Howard Shean, Bang and Salian also ran. 5th race, purse \$400, 2-year-olds, 5 1/2 furlongs—Miss Joe, won; Monsieur X, 2nd; Ochre Court, 3rd. Time, 1:08 1-5. Rey, Gagnant, Communist, Lure, Henock, Toart Rack, Inspector Lestrade also ran. 6th race, purse \$400, 4-year-olds, selling, 6 furlongs—Sir Alvecot, won; King Avondale, 2nd; Abrasion, 3rd; Time, 1:14. Carillon, Detroit, MacRae, Cooney K., and Running Account also ran.

MARK TWAIN REGARDING HORSE RACING.

Some years ago, after looking the situation all over, the late Mark Twain made the homely but very apt observation: "I am convinced that it is the uncertainty about it all that makes horse racing." Everybody familiar with the running horses knows that the uncertainty of the game has been established through the plan of handicapping the bang-tails; the ingenious scheme of putting weight on some horses and of taking weight off of certain other horses in order to make the chances of the fast and the slow ones equal. It was about ten years ago, or thereabouts, that the first attempt to equalize the harness horses was made by the late William B. Fasig, as smart a man as ever stepped on the racing track. Fasig gave the plan up as a flat failure and almost wept when all his plans went awry. Several years later Horace W. Wilson, Secretary of the Lexington, Ky., track, made an experiment on weight handicaps for pacers and trotters. He gave a tremendous amount of energy to the scheme, but had only an indifferent amount of success. This year the first public demonstration of handicapping the trotters and pacers by putting weight over harness saddle will be tried out. H. K. Kline, the Secretary of the Grand Rapids Association, firmly believes he has solved the intricate problem of handicapping harness horses. Kline argues along practically the same lines as did Fasig and Wilson, but in somewhat more detail. Since he is the first secretary in the Grand Circuit to promulgate races under the handicap plan, the outcome of his experiment is awaited with remarkable interest in Cleveland, Detroit, Indianapolis, Buffalo, Syracuse, Poughkeepsie, Readville, Columbus, Lexington and other cities where the great trotters and pacers will show.

BOU WAS CALLED OF: FLYNN HURT

New York, July 18—The 10 round bout scheduled for to-night at the Twentieth Century Club between Joe Jeanette and Porky Flynn, was called off to-day owing to an injury sustained by Flynn while training. As no fighter could be secured to take his place a postponement of the fight until Tuesday next was announced.

"BUCK" HERZOG QUILTS BASEBALL

Disgusted With the Game Will Leave Bostons for the Farm

Boston fans have scarcely recovered their breath from the shock given them by the announcement that Buck Herzog and Doc Moller had quit the Boston National League baseball team. Both of these players are crack ones and they, with Bill Sweeney, have kept the team from dropping completely out of the league. Herzog is by far the leader of the pair. He is one of the heaviest batters in the National League and has lammed out more triples and doubles than his competitors. As a base stealer he enjoys a national reputation. He has become disgusted, however, with the treatment accorded him. Herzog declared that he is going going back to his Maryland home, where no one will add any czarlake authority over him. He has a farm at Ridgely, and is convinced that it is the finest place in all the world. When asked if he really intended quitting the diamond, he murmured: "You should see my farm at Ridgely. Then such questions would be unnecessary."

It is generally credited that Buck will hike back to the farm. He shines as a player and regrets having to play with a losing team. If he really quits and can untie himself from Boston, he probably will be gobbled up by any one of a half dozen big league teams. Herzog complains that he was fined \$300 or 15 days' pay, for indifferent ball playing in New York, recently. He says that the fine was to be remitted if he played better ball, but, notwithstanding he has since done his best, nothing has been said about repaying the fine. Miller says he is going out West to practice medicine.

BERMUDA CRICKETERS WON AGAIN

Philadelphia, Pa., July 18—The Bermuda cricketers defeated the Merion Cricket Club eleven in a one inning match to-day at Haverford with nine wickets to spare. The local team was retired for a total of only 88 runs. J. R. Conyers scored 38 and A. West 40 for the visitors, their total, with 8 scored by Fisher before he was retired, and 3 extras, gave Bermuda the game with the loss of only one wicket.

WIFE SOLD FOR A SHILLING.

A husband at SStaveley Town has made a sad mistake by a rash offer. He sold his wife for a shilling. The buyer and the husband were in a local hotel. The wife entered and tried to persuade her husband to go home. He might have gone, but some of his friends joined their entreaties to hers, and this so incensed him that he ejaculated, turning to one of them, "Does tha' want'er? Tha' can 'ave'er for a 'bob'."

The offer was promptly closed with, and the woman "changed hands."

Since the affair the husband has repented of his sorry bargain, and has made repeated attempts to win the regard of his lost spouse again. But she prefers the new order, and is obdurate and, apparently, content. The husband has invoked the aid of the guardians of the peace, but has met with little sympathy in that quarter. Both the men are miners, and "old friends."

WELL KNOWN ENGINEERS DISSOLVE PARTNERSHIP.

Montreal, July 18—The partnership of the well known firm of engineers, Ross & Holgate, has been dissolved, the dissolution taking virtual effect as from July 1st last. Henceforward the business will be continued under the name of R. A. Ross & Company. Mr. Henry Holgate, who has been associated with Mr. Robt. A. Ross for the past ten years, has joined the Cedar Rapids Power Company and will take over the control of that concern as president. Messrs. Ross & Holgate during their partnership were concerned with the establishment of some of the best known electrical works in the country, notably the Hydro-Electric, and the West Kootenay companies. They were also consulting engineers for the Canadian Pacific Railway, and it was under their supervision that the Angus shops were laid out. Mr. Holgate was chairman of the commission which was appointed to investigate the cause of the collapse of the Quebec bridge.

LITERARY NOTES

"CANADA'S WEST AND FARTHER WEST."

(By Frank Carrel, Journalist.) We acknowledge with pleasure a copy of "Canada's West and Farther West" from the able pen of Mr. Frank Carrel, of the Quebec Telegraph. The book consists of a series of impressions gathered by the author during a recent extended trip throughout the Dominion. Mr. Carrel is a keen observer and has a faithful eye for detail so that his impressions are both interesting and comprehensive. He gives a graphic description of the places which he visited and the persons with whom he came in contact while the Easterner will find in his writings a veritable encyclopedia of information about the West and its rapid development and opportunities. The book is profusely and handsomely illustrated and reflects much credit on its author and on the publishers, the Telegraph Printing Company.

MR. ELISEE DUPUIS A FRANK TESTIMONIAL

Mr. Elisee Dupuis, of St. Paul de la Croix, was suffering from weakness, ST. MICHEL'S WINE cured him and he acknowledges its value.

Mr. Elisee Dupuis' trade is a hard one, that of sawyer; he had used his strength unparingly and, human endurance having its limits, he began to grow weak until finally the day came when he realized that he must find a remedy for his enfeebled condition. Mr. Elisee Dupuis has the courage of his convictions. This may be seen by the following letter:

Messrs. BOIVIN, WILSON & CO., Montreal. Gentlemen:—Many people hesitate at the idea of seeing their photographs or testimony published in the newspapers. For my part, I am not of these. When one obtains relief from his sufferings through another's help, it seems to me only just to give credit to whom it is due and show gratitude for the good that has been done. It is for this reason, gentlemen, that I take pleasure in thanking you for the marvelous results procured by means of your ST. MICHEL'S WINE, which I used for weakness, from which I suffered for many years. In my trade we are much more exposed than in many others. We over-exert ourselves, with the results you know and we often become extremely weak. I have been through the mill and if to-day I am enjoying good health, it is due in great part to the restorative properties of ST. MICHEL'S WINE. Since I have been taking this treatment I can attend to my work without fear of feeling weak as I used to formerly. I heartily urge my co-workers to follow my example, because I am certain that ST. MICHEL'S WINE will be worth its weight in gold to them. Once more, thank you a thousand times, thank you.

Very truly yours, ELISEE DUPUIS, St. Paul de la Croix. P.S.—You will find enclosed my photograph which I had taken after being restored to health. One dozen and a half bottles were sufficient to make me strong again. E. D.

Thousands of persons have thus felt the benevolent action of ST. MICHEL'S WINE. We are receiving new testimonials daily which we will be able to publish with the permission of our correspondents. BOIVIN, WILSON & CO. AGENTS, 520 ST. PAUL STREET, MONTREAL.

### JEALOUSY LEADS TO DEATH SENTENCE

Trial Turns on Valuable Medical Discovery—Historic Exposition.

The jealousy of a sombre-minded gardener precipitated a tragedy for which he heard pronounced upon him, at the Old Bailey, the sentence of death. He heard it apparently unmoved and walked quietly from the dock.

He had told a doctor that he did not care what became of him; he had tried to commit suicide. The case will hold a historic place in the records of medical discovery. To this aspect Mr. Justice Darling adverted in his summing up. He said that, until lately, all a doctor could say for certain, if he made a test of blood, was that it was the blood of a mammal or of a fish or a reptile. He could not say it was that of a bear, a lion, a horse, or a man, or a woman. Now doctors were able to say for certain, they claimed, by a test which they could make, whether it was the blood of a human being, or of some other mammalian creature. This was the first case in which it had been established in a court of justice that, as distinct from the blood of an animal mammal, this was that of a human being. But in this instance the evidence went further. The doctors were able to say that the blood found upon the clothes of the accused was of an anemic person, and the murdered girl had been attended for anaemia.

The gardener on whom the death sentence was passed was Geo. Baron Pateman, a man of 33, who had been in the navy, and he was sentenced in respect of the murder of Alice Isabel Linford, 22, to whom he had been engaged. The girl was employed as a parlour-maid at North Finchley.

The couple, just prior to the tragedy, had become estranged. Pateman, however, wrote the girl asking her to meet him. She did not keep the appointment, but as she was returning from a visit the accused cut her throat. The accused, whose clothing was covered with blood, returned home and went to bed, making no attempt to obliterate the evidences of the crime.

Last September he was groom-gardener at Wormington Rectory, in Worcestershire. He gave up his situation in April to go to Finchley. On April 23 he told the girl he was going to cut his throat or throw himself on the railway lines. He kissed her, and said it was for the last time.

Among the witnesses called for the prosecution was the accused's father, who said he was in the habit of walking with the girl to the house where she was employed when she had been home because she was so nervous. He lodged at her home. He left her on the night of the tragedy, a Sunday night, about three minutes' walk from the house where she was employed. He saw the figure of a person approach her, but he could not distinguish whether it was a man or a woman. The father said his son had been very strange in his manner at times.

The medical officer of Brixton Prison said there had been insanity in Pateman's family, and he might have been temporarily affected by it. A doctor for the defence said he found the man sullen and morose.

Mr. Justice Darling, passing sentence, said he agreed Pateman was not insane and that he had taken the girl's life through jealousy.

### WOMAN SHOT IN AN AUTOMOBILE

Richmond, Va., July 18—While returning to the city in a motor car from Chesterfield County to-night, Mrs. H. C. Beattie, jr., was shot and instantly killed by an unidentified white man, who escaped.

### PRIEST LED FIGHTING MEN

Organized a Little Army and Captured a Town in Mexico.

Mexico City, July 18.—Father Capellan, temporarily forsaking the peaceful vocation of the priesthood, recently placed himself at the head of a hundred men and last week attacked and captured, after brisk fighting, the town of Penjamo, in the State of Guanajuato, according to Juan Guiterrez, owner of the Hacienda de la Calle, near Penjamo, who arrived here to-day. Until recently, the priest was chaplain of the hacienda. He recruited his little army there after haranguing the laborers on the subject of how badly they were treated.

### PLAYING BURGLAR TO HIS UNCLE

Confession of Daring Raids Before Epsom and Ascot.

A singular document was read in the Sutton (Surrey) Police Court—a declaration written, a detective said, by a youth who stood in the dock, to the effect that he broke into the local postoffice, of which his uncle is sub-postmaster, on the eve of Epsom and Ascot, taking money which was in betting and "seeing life." It was one further midnight visit to the house, the sub-postmaster intimated, that the accused was caught.

George Ernest Dickenson, ship's steward, was accused of breaking into the postoffice and of stealing thence on May 24 £12 in gold, and on June 9 £15 10c.

Going into the cell to Dickenson, on receiving a message, said the detective-inspector, Dickenson told him he wished to make a statement, and clear up the whole matter. He dictated the following voluntarily:

"Mr. Collins, sub-postmaster, High street, is my uncle. I have on several occasions stayed with him for weeks together. One night in May just before the last Derby day, about 11 o'clock I got into my uncle's house through the pantry window at the back. I passed through the scullery and kitchen and went upstairs to my uncle's bedroom, the door of which was unlocked. I took a bunch of keys, which included the keys of the safe, from my uncle's coat-pocket. I returned downstairs, entered the shop-parlour, unlocked the safe, took out about £12 in gold and silver, locked the safe, went back to the bedroom and put the keys into my uncle's pocket."

The writer recorded the curious incident that he returned to the kitchen and remained there until 3.30 in the morning, smoking cigarettes. He left the house by the scullery door. He went on all four days to Epsom summer races, and shortly before midnight on June 8 again proceeded to the postoffice, went through the same programme, and took £16 in gold and silver from the safe. He wrote:

"My uncle and aunt were both asleep. I returned to the kitchen, went into the pantry, took a bottle of stout, drank part of it, and smoked cigarettes, remaining there until about 3.30 a. m. I left by the same way as I had on the previous occasion. The following week I went to Ascot races, where I lost most of the money betting."

Dickenson, moreover, described how he got into the house on the night he was arrested, and concluded: "I am sorry I have done this, and will do all I can to repay my uncle the money I have taken."

The sub-master told of being awakened by noises on the night of the arrest, and about midnight hearing a window go up. Then, from the bedroom window he saw a constable with a man, and a voice called to him, "It's all right, uncle." The accused was his wife's nephew.

Dickenson was committed for trial.

### MEETING OF MASONIC GRAND LODGE.

St. Catharines, Ont., July 18.—Practically all the Masons who will attend the opening of the Grand Lodge of Canada for Ontario to-morrow morning are now in the city, many arriving by boats during the day. This afternoon Grand Lodge officers were taken on an automobile tour through the fruit belt, stops being made at Rittenhouse school, VVictoria Hall and experimental farm at Vine-land.

Headquarters have been opened at the Masonic Temple, Ontario street, where all the visitors register, and are then taken in charge by the local committee men, who will look after their comfort. To-night a special concert was given in the park by the 19th Regiment as a compliment to the visitors.

### FLEET'S ESCAPE IN THE DARKNESS

Seven Destroyers Crippled But Nevertheless Triumphant—Thrilling Sea "Fight."

A midnight dash for freedom by warships blockaded off the southwest coast of Ireland was a dramatic feature of the naval manoeuvres, the first stage of which has just concluded.

There was a grim realism about the whole business, for so great was the pressure upon the vessels that seven of the Blue destroyers strained their rivets so badly that they put into port in a leaking condition. Yet victory rested with the Blue fleet.

The Red, or blockading fleet, was commanded by Rear Admiral Sir Geo. Warrender, who controlled 18 battleships, 18 armored cruisers, two scouts and 48 destroyers. The Blue force of 12 battleships, two armored cruisers, Rear Admiral Lewes Bayly comprised five protected cruisers, 70 torpedo craft of various classes and five submarines. The battleships were only nominal, and were represented by H. M. S. Natal (Red) and H. M. S. Indomitable (Blue). Red had all the other invincible class of Dreadnought cruisers under him.

The object of Red was to watch the Blue's coast, and by superior force smash Blue when he emerged from Bantry Bay, while Blue was to adopt a policy of pin pricks to weaken the Red's strength.

Detected by Searchlight.

At 10 pm. on June 29, without showing a navigation light, 24 Red destroyers stole out of Bantry Bay, successfully filing through its maze of rocks in three snake-line lines. Later, the scouts Topaze and Pathfinder, with dimmed lights, stole after them, and simultaneously more Red flotillas from Dingle Bay and Kenmare River.

After midnight the squadron of small craft picked up the enemy's destroyers, and in the glare of searchlights there were a series of exciting running fights, generally unequal. A couple of rounds of blank shot, and ship after ship was put out of action, quite one-third succumbing to the umpire. Neither side had gained anything as a result of the meeting. Red's heavier loss in ships being equalled by Blue's expenditure of coal.

Next day the armored cruisers tried their luck, but met with misfortune, for Red lost three of his five cruisers and two submarines, and his only success was Roxburgh's raid upon Blue's commerce. Blue's loss was the cruiser Hogue, two scouts and six destroyers.

The fleet had already been at work 24 hours, but Admiral Bayly decided upon a dash for freedom under cover of darkness, and the manoeuvre met with complete success as far as the battle fleet was concerned, not a single mistake being committed. Blue lost heavily in destroyers, who engaged the enemy while he escaped, but to escape at all was a great achievement and the manoeuvres ended with Blue roving among Red's commerce.

The theoretical loss of ships was enormous, but the actual damage remains to be told. When the destroyers Riffeman, Lyra, Nemesis, Lame, Alarm, Acorn and Nymph entered Portland on Tuesday night last, they reported that, whilst steaming at full speed off Ireland the previous Saturday, they strained their rivets so badly that the water poured in, mixing with the oil in the bunkers. The vessels detached for Portland, making twenty knots all the way, with the watertight compartments closed. Divers were at once dispatched to repair the leaks.

Nor did the actual casualties end here. A Berhaven telegram states that the destroyers Bonetta and Osprey were in collision on Wednesday whilst forming up to leave with the other departing warships. The Bonetta had her bows badly twisted above the waterline, and, after temporary repairs had been effected, left for Portsmouth under close escort.

### NO BULL FIGHT FOR TORONTO

Toronto, July 18.—A flat refusal from Deputy Chief of Police Stark met the plea of Wm. Dunn, a Spanish matador, to be permitted to hold a bull fight in the Island Stadium during the last two weeks in August. The Police Commissioners backed up the Deputy Chief to a man.

Mr. Dunn, whose father was Spanish consul at Malaga, proposed to bring six bull and six matadors from Mexico and to conduct the fight according to Spanish ethics.

Niagara Falls, Ont., July 18.—The mystery surrounding the disappearance of Mrs. Ella Davis from her home at Niagara-on-the-Lake last December was cleared up by the identification of a body washed ashore yesterday at Olcott Beach. The body will be shipped to Toronto, the woman's former home, for burial.

Toronto, July 18.—William Spence, a lineman employed by the Bell Telephone Company, met death by electrocution to-day at Bloor and Christie streets.

**"YOUNG CANADIAN"**  
IN WITNESS BOX.

Washington, July 18.—Charles McGowan, of Regina, Sask., Canada, took the stand to-day as the hitherto unidentified "young Canadian," who was on the Winnipeg flyer in March, 1911, during the alleged conversation between W. F. Wiehe and W. Burgess about the Lorimer election jackpot. Burgess testified Wiehe remarked to him in the presence of the Canadian that a jackpot was raised to elect

Lorimer and that he subscribed \$10,000 to it.

"Did Mr. Wiehe at any time during the conversation say anything about there having been a jackpot raised to elect Lorimer or about Mr. Wiehe having contributed to it?" inquired Attorney Hynes.

"No, sir," replied McGowan, "there was nothing said about the election or Senator Lorimer."

The witness denied the Father Green incident which Burgess had testified was discussed in the train conversation.

MEETING OF THE CITY COUNCIL. Friday, July 14th, 1911.

Present: His Worship the Mayor, Aldermen Barbeau, Beaumont, Bergevin, Campbell, Gannon, Cote, Cummings, Delisle, Dinan, Emond, Fiset, Gauvreau, Gosselin, Goulet, Guillet, Jobin, Lantier, Lamontagne, Levallee, Lavigneur, Lockwell, Madden, Messervey, Monaghan, Mulrony, Paquet, Plamondon, Pouliot, Shink, Trudel, Verret. The minutes of the last meeting are read and confirmed. Read a protest from the Compagnie Maritime Industrielle, complaining that their boats have not the necessary accommodations at the Champ-laine Market wharf, and that they shall hold the city responsible for any damages which might occur; referred to the Ferry Committee. Read a letter from Mr. Martineau & Co. praying the Council to remit them the sum of \$600 amount that they had to pay for the displacement of their stables on the Huron River at Stoneham, said removal having been made as it was too close to the said river; referred to the Health Committee. Read a letter from the assemblée Papineau, transmitting copy of resolution praying the Council to appoint a Quebec man as chief of the fire brigade; ordered that said letter remain on the table. Read a letter from the Trades and Labor Council of Quebec, praying the Council to take rank in the procession on Labor Day on the fourth of September next, and praying for help for the occasion, as they have considerable expenses for the occasion; ordered that said letter remain on the table. Presented a petition signed by several rate payers praying the Council to appoint a Quebec man as chief of the fire brigade; ordered that said petition remain on the table. Read a letter from Mr. Alphonse Huard, transmitting copy of resolution past at a meeting of citizens of Quebec, praying for the appointment of a Quebec man as chief of the fire brigade; ordered that said letter and resolution be left on the table. Read a letter from Mr. L. C. D. Laroche, accompanied by recommendations from labor societies and others, praying to be appointed chief of the fire brigade. Read a letter from Mr. Philippe Hamel, stating that he is still a candidate for the position of chief of the fire brigade; ordered that said letter remain on the table.

Reports by Officers of the Council. Read a letter from Dr. C. R. Paquin, assistant municipal physician, transmitting the amount of veal and other meats confiscated since the last three months by Mr. Jean Drolet, inspector of the said department. Read a report from Mr. W. D. Baillarge, city engineer, informing the Council that he considered it urgent to purchase a piece of land from M. Lapointe to widen Fourth street at its intersection with Sixth avenue in Limoilou, before that gentleman builds on said land. His worship the Mayor put before the Council the statement of revenue and expenditures from May 1, 1910, to April 30, 1911: Total revenue collected, \$927,636.46; expenditure in ordinary, \$875,345.61; surplus revenue on expenditure, \$52,290.85; total revenue 1910-11, \$927,636.46; appropriation, \$916,000; surplus revenue on appropriation, \$11,636.46; total appropriations 1910-11, \$916,000; total expenditure on appropriation, \$875,345.61 - \$40,654.39; surplus, \$52,290.85.

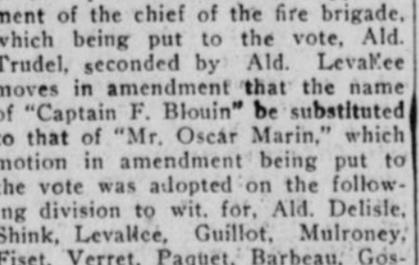

Presented the Following Reports. 2046, finance, exemption of taxes on the factory of George Elie Amyot; 2047, finance, to incorporate l'Union Chorale St. Cecile; 2048, finance, purchase of piece of land on Boulevard Langelier, belonging to M. Langevin; 2049, finance, exemption of taxes on Mr. A. Grenier, moved by Ald. Cannon, seconded by Ald. Lavigneur and resolved that said reports be taken into consideration as first, second, third and fourth order of the day; 1263, roads, tender of M. Hugh Cameron & Co. for the purchase of a steam roller; 1264, roads, tender from the Sicily Asphaltum Paving Co. for permanent sidewalks and curbstones, moved by Ald. Pouliot, seconded by Ald. Cote and resolved that said two reports be taken up as the fifth and sixth order of the day; 666th, water-works, tender of J. Waterson & Co. for iron pipes, moved by Ald. Lavigneur, seconded by Ald. Bergevin, resolved that said report be taken up as the seventh order of the day; 118th, police, winter rubbers for police force; 119th, police, tenders for winter pants, caps and winter gloves, moved by Ald. Paquet, seconded by Ald. Barbeau and resolved that said two reports be taken up as eighth and ninth order of the day; first report of special committee, reappointment of a fire chief, moved by Ald. Cummings, seconded by Ald. Lavigneur, and resolved that said report be taken up as tenth order of the day.

Order of the Day. Read the 2046th report of the finance committee which being put to the vote is adopted, and it is resolved that an exemption of taxes be granted to Mr. George Elie Amyot for his coat-manufactures, such exemption does not include the water and school taxes. Read the 2047th report of the finance committee, which being put to the vote is adopted, and it is resolved that the demand of M. Albert Turgeon and others to incorporate l'Union Chorale St. Cecile in conformity to article 7235 and others of the revised statutes of the Province of Quebec be granted. Read the 2048th report of the finance committee, which being put to the vote is adopted, and it is resolved that the city purchase a strip of land situated on Boulevard Langelier between Richelieu and St. Olivier streets and belonging to Mr. Langevin to widen said Boulevard Langelier for the price of \$3500; the amount to be taken from the contingent funds for the current year. Read the 2049th report of the finance committee, which being put to the vote is adopted, and it is resolved that an exemption of taxes be granted to Mr. A.

Grenier on a factory he is to build in Limoilou for the exercise of his trade for a period of 10 years, said exemption not including the water and school taxes; on condition that the plans of said factory be approved by the city engineer, and that he employ the number of people mentioned in the letter accompanying said report. Read the 1263rd report of the road committee, which being put to the vote is adopted, and it is resolved that the city purchase from Mr. Hugh Cameron & Co. a team roller weighing 30,000 pounds and in all conformity with the blank forms prepared by the city engineer at a cost of \$3550; the amount required for the purchase of said roller to be taken from the debentures authorized by the Act I, George V, Chap. 47, Sect. 1 of the amendments to the city charter. Read the 1264th report of the road, which being put to the vote, Ald. Lockwell moved, seconded by Ald. Dinan, that said report be amended by replacing the word "Asphaltum" by "Concrete Cement" and to substitute the name of "Anderson & Dube" to those of "The Sicily Asphaltum Co." as being the lowest tender in the quality of "Concrete Cement" at the price of the tender that is to say \$1.80 a yard for cement and \$1.03 for the curbstones; which motion in amendment being put to the vote is lost on the following division of six for and 25 against as follows to which, for, Ald. Lockwell, Gauvreau, Mulrony, Dinan, Fiset and Monaghan (6); against, Ald. Lantier, Delisle, Bergevin, Shink, Lamontagne, Guillet, Cote, Pouliot, Lavigneur, Cannon, Campbell, Messervey, Verret, Paquet, Barbeau, Gosselin, Emond, Trudel, Gauvin, Goulet, Jobin, Beaumont, Plamondon, Madden, Cummings (25), and the said report being again put to the vote was adopted on division and it was resolved that the contract for permanent sidewalks opposite the properties belonging to the city be awarded to the Sicily Asphaltum Paving Co. at the price of \$2.13 for superficial yard and also that the contract for curbstones be awarded to the same company at the price of 98 1/2c per foot. The amount to be taken from the loan authorized for 1911-12 and that His Worship the Mayor be authorized to sign the contract and accept the securities to be shall deem advisable. Read the 118th report of the police committee, which being put to the vote is adopted, and it is resolved that the contract for 172 pairs of rubbers at 97 1/2c per pair be awarded to Mr. Juneau, that the contractor be obliged to supply rubbers according to the sample furnished with his tender, and conforms himself to all the conditions mentioned in his tender. The amount to be taken from the appropriations of the police committee for the year 1911. Read the 119th report of the police committee, which being put to the vote is adopted, and it is resolved that the contract for 86 pairs of winter pants at the price of \$6.98 per pair be awarded to the Syndicat de Quebec, that the contract for caps be awarded to Mr. J. B. Laliberte at the rate of \$9.78 each, that the contract for winter gloves be awarded to M. Dechene & Poulin at the rate of \$25.40 per dozen. All to be similar to their samples accompanying their tenders; all according to the conditions mentioned in said report; that notarial contracts be passed and the securities be furnished to the satisfaction of His Worship the Mayor. The amount to be taken on the credits voted for the police committee for the fiscal year 1911-12. Read the first report of the special committee, reappointment of the chief of the fire brigade, which being put to the vote, Ald. Trudel, seconded by Ald. LevaKee moves in amendment that the name of "Captain F. Blouin" be substituted to that of "Mr. Oscar Marin," which motion in amendment being put to the vote was adopted on the following division to wit, for, Ald. Delisle, Shink, Levallee, Guillet, Mulrony, Fiset, Verret, Paquet, Barbeau, Gosselin, Emond, Trudel, Gauvin, Monaghan, Goulet, Plamondon, Madden (17); against, Ald. Lockwell, Gauvreau, Lantier, Bergevin, Lamontagne, Cote, Pouliot, Lavigneur, Cannon, Campbell, Messervey, Dinan, Jobin, Beaumont, Cummings (15), and the said report being again put to the vote was lost on the same division reversed. Alderman Jobin asks: (A) Is it to the knowledge of His Worship the Mayor that a freight car carrying broken stone, materials, etc., is circulating on the electric tramway of the City of Quebec? (B) Is it his intention to tolerate this state of things prohibited by By-law 335, clause 25, which states: That the cars shall be used exclusively for the carrying of passengers? Answer: It is for the building of its line. Ald. Jobin asks: As required by article 52 of By-law 335, has the old Electric Tramway Company obtained the consent of the City Council of Quebec before transferring its rights, privileges and its railway to another known as the "Quebec Railway, Light, Heat & Power Co."? Answer: The transfer has been made. Ald. Jobin asks: Is His Worship the Mayor of opinion that the said company should be summoned to stop circulating its cars on Ramsay street until it has obtained the permission of the Council, as required by the said by-law? Answer: It is a question that the Council will have to deal with. Ald. Jobin asks: Is His Worship the Mayor of opinion that section 61, imposing upon the said company a fine for each infraction to the conditions

and obligations imposed by the said By-law 335 should be strictly enforced? Answer: I am informed that the company is ready to make concession asked by us not to station their cars on Ramsay street. Notice of Motions. By Ald. Fiset. That there be deposited on the table of the Council at its next meeting a detailed statement of the expenses incurred by the city for the civic reception made to Sir Wilfrid Laurier of the 10th inst. By Ald. Dinan. That at the next meeting I will move the reconsideration of the motion appointing the chief of the fire brigade this evening. Moved by Ald. Cannon, seconded by Ald. Lavigneur, and it is resolved that when this council do adjourn it stands adjourned till Friday, the 11th of August next moved by Ald. Trudel, seconded by Ald. Levallee, and it is resolved that it is urgent to purchase from Mr. Lapointe that piece of ground to complete the widening of Fourth street at its intersection with Sixth avenue and being No 506 of sub-division 1907 of the cadastral plans of St Roch north; and as there can be no amicable understanding on the price of said piece of ground that the city engineer be authorized to deposit in the city clerk's office the certificate, fixing the amount he believes should be granted according to law. Moved by Ald. Cannon, seconded by Ald. Messervey, that this Council do now adjourn. (Adjourned).

DEATH OF A CANADIAN HEROINE. Coburg, Ont., July 18.—The death of a Canadian heroine, who spent her early childhood and girlhood days at Brantford, Northumberland County, occurred a few days ago at Alburne, in the passing away of Mrs. Patterson, wife of Thomas Patterson, keeper of the Cape Bale light house. During her fourteen years' residence at the light house she became known to the world as having heroically excited herself upon several occasions to assist in saving shipwrecked people on the west coast. Notable among these acts of self-sacrifice and heroism was her noble effort, four years ago, when she was directly responsible for saving the lives of the crew of the stranded ship Colome. At that time she suffered injury to her health, which she was not able to overcome. Besides being one of the recipients of public tributes in recognition of her bravery, her work was at that time officially recognized by the governments of Canada and United States.

City of Quebec, District of Quebec. BY-LAW No. 3A To Amend By-law No. 3. Concerning Markets and Private Stalls in the City of Quebec. At a meeting of the City Council of Quebec, held in the City Hall of that city, on the ninth of June, 1911, the following By-law was read for the first time:

It is ordered and enacted by the Municipal Council of the City of Quebec, and the said Council hereby ordains and enacts as follows: 1. Article 38 of By-law No. 3, passed by this Council on the 18th of April, 1911, is hereby repealed and replaced by the following: (38) If the divers articles above enumerated, instead of being placed in boxes, chests, baskets, or bags, are contained in a vehicle on the markets where vehicles are allowed to stand, the following tax shall be paid for the said articles: A tax of ten cents for each one horse vehicle, and of twenty cents for each two horse vehicle. PUBLIC NOTICE Is hereby given that in virtue of section 30 of the statute 29 Vict., chap. 57, as amended by section 11 of the statute 31 Vict., chap. 33, and of section 8 of the statute 39 Vict., chap. 51, and their amendments, the above by-law will be read a second time for adoption on Friday, the 23rd day of June instant, 1911. By order, H. J. B. CHOUINARD, City Clerk.
