HON. JULES ALLARD HAD LEG BROKEN

Collapse of Stand at St. Jean Baptiste Celebration

AT FRASERVILLE TUESDAY

Provincial Minister of Public Works Was the Only Person Severely Injured by the Accident.

(Special to the Chronicle.)

Fraserville, Que., June 27 — An immense crowd of visitors from points from Quebec to Metapedia, New Brunswick and Maine attended the celebration here to-day in connection with the twenty-fifth anniversary of the foundation of the St. Jean Baptiste Society as well as the inauguration and benediction of an iron bridge across the River du Loup. Among the prominent visitors were Hon. Lomer Gouin, Premier of the Province of Quebec; Hon. Jules Allard, Minister of Public Works; Dr. Jean, M. L.A., Quebec East; J. L. Decarie, M. L.A., Hochelaga; D. Caron, M.L.A., Matane; N. Dion, M.L.A., Temiscouata, and Senator Choquette, of Quebec. After a solemn Mass a large procession paraded the streets, some thirty-five allegorical cars being in line. In the afternoon, immediately after the inauguration of the bridge, several speeches were delivered. During this part of the proceedings a crowd mounted the stand from which the speakers were addressing the crowd, when it suddenly collapsed, and as a result the Hon. Mr. Allard had one of his legs broken near the ankle. He was immediately removed to the residence of Mr. J. Canolle Poulton, where doctors Gilbert and Picard attended him. No one else was severely injured. The meeting was immediately dispersed.

THE RICHES OWNED BY FARMERS.

The American farmer to-day represents a new generation of intelligent, independent, thrifty people with money and inclination to be progressive. The farm products of this year bring to the farmers and planters probably five billion dollars, and quickly prove that they could corner the money market of this country if they got together and used it as one man. Strength, strenuousness and the future health of the American people depend upon our country folk. As a rule, country folk are healthier than those who live in our crowded cities. Consumption is a disease of civilization. It scarcely exists among savages who live in the primitive state, but quickly appears among such people when the habits of civilization are adopted, especially indoor life. Life in the open air and sunshine gives vitality and health. The strongest minds have gotten their inspiration direct from Nature, the great teacher and developer of mankind. In the same way people have more faith in a remedy which is taken from nature, from the vegetable kingdom, than from any other source. A remedy which has enjoyed a grand reputation for the last third of a century is Dr. Pierce's Golden Medical Discovery, an alternative extract taken from bark, roots and herbs, without the use of a particle of alcohol or narcotics. This medicine goes to the root of disease by imitating nature's methods of restoring waste of tissue and impoverishment of the blood and nervous force. This "Medical Discovery" of Dr. Pierce coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires. Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach. Dr. Pierce's Pleasant Pellets cure constipation and biliousness.

SPREAD OF DISORDER

Collision Between Military and Strikers at Odessa—Five Hundred Dead at Lodz

St. Petersburg, June 28—2 a.m. — The wave of disorder rolling over Russia has appeared at Odessa, where a general strike, accompanied by bloodshed and disorders, has broken out. There were several collisions between the military and the strikers Monday night and yesterday, in two of which volleys were fired by the troops. In the encounter yesterday several attacks were made on individual policemen. Four hundred armed workmen barricaded a suburb and repulsed the attack of the Cossacks. Reinforcements were sent to the suburb, but the result of their attack on the strikers is not yet known.

THIS VETERAN GIVES REASONS

Why he Pins his Faith to Dodd's Kidney Pills.

Worn out with Chronic Kidney Disease—The Great Canadian Kidney Remedy Banished His Pains.

Aedie Siding, Kent Co., N.B., June 23. — (Special.)—Calixte Richard, J. P., one of the most highly respected men in this part of the country, has joined the great army of those who pin their faith to Dodd's Kidney Pills. As usual Mr. Richard had good reasons for what he does and he states them as follows: "I have been troubled with Kidney Disease for forty years and the result was I found myself a worn-out man at seventy-two. But after using two boxes of Dodd's Kidney Pills I find all my pains are gone and I can employ all my days with the best results. I cannot let the opportunity pass of letting the public know the great good Dodd's Kidney Pills have done me."

LEADING MEN AT HER FUNERAL

Willour, Ont., June 27.—A funeral here to-day reveals a story of faithful service rewarded with friendship and respect. Many years ago Senator Casgrain's family brought Mary Murphy from Montreal to their home as a domestic. On Sunday she died in the hospital here from appendicitis, aged 45 years. To-day four of the best known of Windsor's citizens bore her to her grave.

Mrs. LOYNES, Philipsburg, Q.

Gained Ten Pounds and obtained good health by the use of Dr. Chase's Nerve Food.

Mrs. H. A. Loynes, Nurse, Philipsburg, Que., writes:—"I was all run down and could not do my own work. Everything I ate made me sick. In nursing others I had seen the good results of Dr. Chase's Nerve Food and resolved to try it. As a result of this treatment I have gained ten pounds, do my own work alone and feel like an entirely different person. I have received so much benefit from this medicine that I am glad to recommend it to others. I have a copy of Dr. Chase's Receipt Book and would not part with it for \$50.00 if I could not get another."

CANADIAN ELECTRIC LIGHT CO.

The annual meeting of the Canadian Electric Light Co. was called pro forma for yesterday afternoon at the Board of Trade Rooms, but was adjourned until a later date.

CORONER'S INQUEST.

Coroner Jolicoeur held an inquest yesterday on the body of the man Tessor dit Laplante who died suddenly at the camp at St. Joseph de Levis on Monday morning while preparing breakfast for the 57th Regiment, and a verdict of death from heart disease was returned.

GAYNOR AND GREENE MUST GO BACK

Decision of the Supreme Court of Canada

WAS RENDERED YESTERDAY

Decision of Judge Davidson Upheld and Writ of Prohibition Against Judge Lafontaine Refused.

Ottawa, June 27 — Argument was heard yesterday in the Supreme Court on a motion on behalf of the Government of the United States to quash the appeal of Gaynor and Greene, prisoners held for extradition at Montreal, from the judgment of the Court of King's Bench affirming the refusal of a writ of prohibition by Judge Davidson against the issue of a warrant for extradition. The grounds on which the motion was based were that the appeal was against good faith as it was only another mode of obtaining a discharge on habeas corpus in which no appeal would lie, and that it was a proceeding in prohibition arising out of a criminal charge as to which no appeal can lie to the Supreme Court of Canada. Messrs. Macmaster, K.C., and Stuart K.C. for the motion; Carvain, K.C., and Taschereau, K.C., contra. The Supreme Court today rendered a judgment maintaining the decision of Judge Davidson in the Gaynor and Greene matter. The writ of prohibition asked for against Magistrate Lafontaine was definitely dismissed. Gaynor and Greene will be extradited.

A SURE CURE FOR HEADACHE

Bilious headache, to which women are more subject than men, becomes so acute in some subjects that they are utterly prostrated. The stomach refuses food, and there is a constant and distressing effort to free the stomach from bile which has become unduly secreted there. Parmed's Vegetable Pills are a speedy alternative, and in neutralizing the effects of the irritating bile relieves the pressure on the nerves which cause the headache. Try them.

LEG PAINFULLY LACERATED.

About 2.30 o'clock yesterday morning a man named Desperre met with a painful accident at the draw bridge at the Louise Basin, having one of his legs horribly lacerated by being caught in one of the wheels on which the bridge is moved. Dr. LeBel was summoned to attend to the injured man, who became very weak from loss of blood. The doctor dressed his injuries and had him removed to his home in Bridge street, where his condition improved somewhat yesterday. It is not thought that amputation will be necessary. The victim is 69 years of age.

ROYAL ARCANUM RATES.

New York, June 27.—The New York Council of the Royal Arcanum to-night passed a resolution condemning the action of the Supreme Council of the order in raising the assessment rates, and called upon State Grand Regent Hoag to present the protest to the Council and use his efforts to have the new scale of assessments rescinded.

CHOLERA AND ALL SUMMER COMPLAINTS

are so quick in their action that the cold hand of death is upon the victims before they are aware that danger is near. If attacked do not delay in getting the proper medicine. Try a dose of Dr. J. D. Kellogg's Dysentery Cordial, and you will get immediate relief. It acts with wonderful rapidity and never fails to effect a cure.

FERROVIM

A Tonic Wine, pleasant to take. Gives strength. Makes new blood. Builds up the system. Throws off all weakness. A boon to those recovering from wasting fevers and long illnesses. Sold by all medicine dealers. Davis & Lawrence Co., Ltd., Montreal.

SUNDAY SCHOOL PICNIC.

The annual picnic of the St. Matthew's Church Sunday School took place yesterday, the Island of Orleans being chosen as the scene of the outing. There was a large gathering of the children, their teachers, parents and friends, who were accompanied by the clergy of the church, the Rev. Dr. Scott and Rev. W. Barton. The party left by the 11.30 boat, and despite the rain, which somewhat marred the outing, the children appeared to enjoy themselves hugely and participated with vigor in the long programme of races and games which had been arranged for their entertainment, the party returning by the six o'clock boat, tired but happy.

Lever's Y-Z (Wise Head) Disinfectant

Soap Powder dusted in the bath, softens the water and disinfects.

Weaver's Syrup and Cerate

invaluable to cleanse the blood. Davis & Lawrence Co., Ltd., Montreal.

SUNLIGHT SOAP
The Sunlight Maids are always through their wash at twelve o'clock.
With ordinary soap a woman has to work so hard and so long on wash day she has no time for preparing any of the family meals. Wash day is a trial, and the good wife faces each with a sigh of despair. Sunlight Soap makes all the difference in the world. No toiling—no rubbing—no boiling—less than half the labor with much better results. Most women are all through their wash by twelve o'clock when they wash with Sunlight Soap the Sunlight way. It makes child's play of work.
ASK FOR THE OCTAGON BAR.
Sunlight Soap washes the clothes white and won't injure the hands.
LEVER BROTHERS LIMITED, TORONTO.

TOPICS OF CAPITAL

Rich Oil Discovery East of Lake Abitibi—Agricultural Exhibit for Pittsburg.

FIERY SPEECHES

Made in the Swedish Riksdag in Regard to Norway's Action.

TO THOSE OF SEDENTARY OCCUPATION.

Men who follow sedentary occupations, which deprive them of fresh air and exercise, are more prone to disorders of the liver and kidneys than those who lead active, outdoor lives. The former will find in Parmed's Vegetable Pills a restorative without question the most efficacious on the market. They are easily procurable, easily taken, act expeditiously, and they are surprisingly cheap considering their excellence.

MONTREAL ARCHITECT'S SUICIDE

Montreal, June 27. — A local architect named H. W. Middleton, shot himself through the head in the Terrapin restaurant on Notre Dame street this afternoon and died while being taken to the hospital. No cause is known for the act.

IT IS KNOWN EVERYWHERE.

There is not a city, town or hamlet in Canada where Dr. Thomas' Electric Oil is not known—wherever introduced it made a foothold for itself and main lined it. Some merchants may suggest some other remedy as equally beneficial. Such recommendations should be received with doubt. There is only one Electric Oil, and that is Dr. Thomas'. Take nothing else.

NEW CONSUL.

The appointment of Mr. Gaston Gaston as Consul-General of the Argentine Republic in Canada, with residence at Quebec, has been approved of by His Majesty the King.

ACCUSED OF INFANTICIDE.

Toronto, June 27 — Emma Harvey, alleged with William Furness to be responsible for the death of her newly-born child by drowning it in a basin of water, was committed for trial at the assizes in Sept. Furness was discharged because the evidence given did not implicate him in any way. The two were arrested three months ago after Emma Harvey had given birth to a child in a Walton street room house in which Furness rented a room for her. Doctors, who examined the dead baby, said that its death was due to drowning. "Something seemed to prevent the air from reaching that child's lungs," said Chief Coroner Johnston, in giving evidence. He further stated that death might have been caused accidentally. Mr. T. C. Robinette, who appeared for both prisoners, asked Magistrate Donison to allow Emma Harvey her liberty as well as Furness. "It would be better," said the Magistrate, "to have a jury's decision as to whether the baby's death was accidental or not."

The Quebec Chronicle

QUEBEC, JUNE 29, 1905.

THE SOLDIERS' MONUMENT.

In a very short time now the citizens of Quebec will be able to feast of a new and handsome addition to the attractions of the city in the shape of the Soldiers' Monument which is now on the eve of completion. The statue itself is on the ground and the accompanying granite the cap, the shaft and the taurus are expected to-day or to-morrow, and Mayor Parent, with his usual energy and care for the city has secured the promise of four 8-inch mortars to be placed one at each corner of the pedestal. His Excellency the Governor-General, has been approached, and has kindly consented to unveil the monument on a suitable date next week, which yet remains to be fixed. The bronze inscriptions are now on view in the window of the Chronicle office. It has taken some time, and no little trouble to arrive at this result, but thanks to the generous cooperation and liberal assistance afforded by all classes of the community, we may now congratulate ourselves on this happy termination.

THE BARK OF LE SOLEIL.

Le Soleil takes exception to the remarks of the Toronto Mail and Empire in an editorial which we recently published in these columns, and finds fault with ourselves for respecting them. In doing the first it is indirectly within its rights; but in doing the second it has indulged in a gratuitous and impertinent assertion which it had no right to make and for which it has not even the excuse of misapprehension to plead. We have on a former occasion explained to it that the quotations from other papers which appear in our columns are made for the sake of giving our readers some little insight into what is said elsewhere on the current topics of the day without implying thereby either our approval or disapproval. We call from different sources, from the Toronto Globe and Ottawa Free Press as well as from the Toronto Mail and Empire and the Ottawa Citizen, from papers in Manitoba, the Maritime Provinces and the United States, and it is only when these selections do not suit the Soleil that it holds us responsible and impertinently remarks that we use others to say what we dare not say ourselves. "Where ignorance is bliss 'tis folly to be wise," and we know of no reason why we should be afraid to express our opinions, or hesitate to tread upon the corns of our opponents any more than we hesitate to tread sometimes on the corns of our friends when we think that public interest demands it; certainly there is nothing about Le Soleil calculated to inspire us with pusillanimous terrors. It is our opinion that even those who do not agree with us will respect us all the more for the honest avowal of our sentiments provided that they are expressed, as we have always endeavored to express them, with courtesy and due regard to the convictions of others.

Now with regard to the recent cause of offence given to our nervous confederates in the reproduction of the article from the Toronto Mail and Empire, and the charge which he founds thereon it may be as well to say a few words which all who have followed our past course will readily perceive to be true. When the autonomy bills were first made public, and the school clauses in them gave rise to a lengthy discussion, we opposed them on the same grounds as those taken by the Conservative leader, Mr. Borden; and these were strictly constitutional, without any reference to the merits or demerits of separate schools, or to racial and religious issues. We have seen no reason since then to alter the opinions that we expressed at the time, but when the Liberals forced the sectarian issue, and the Conservatives both in this province and in the province of Ontario fell into the trap, we declined to follow; the new issue raised was a totally irrelevant one; it was not one brought up by ourselves, or by the Conservative leader, and we adopted the principle suggested in the old song of Jeannette and Jeannet.

"Let those that make the quarrel be the only ones to fight." The quarrel was none of our business, though the French papers in Quebec, and the English papers in Ontario took it up vigorously, and as we saw no good reason for joining in it, and every reason why we should not help to fan a flame that would be productive of no good results, we remained silent. That was, and is our position to-day and our reproduction of articles bearing on the subject from Ontario papers does not affect it. At the same time it is right that our readers should know that there are two sides to the question, and, even for the sake of the Soleil itself, should become acquainted with the fact that all the bigotry and intolerance are not confined to the columns of our confederates, and others that follow in his lead.

THE NEEDED REFORM.

The proposal to increase the sessional indemnity of members of parliament from \$1,500 to \$2,500 has not been approved by the press or people of Canada. The reasons advanced in favor of the increase do not commend themselves to the electors. It may be admitted that the members are under heavy expenses in preparing their voters' lists, in cultivating their constituencies during the parliamentary period, in loss of business through enforced absence and by contributions to the campaign fund which one member has declared in his own case in the late election exceed \$7,000. The remedy for these abuses is not an increased sessional allowance.

It has never been seriously thought that parliament should foot the bill for expenses of the candidates—these are matters within his own discretion and may be small or large as he shall decide. Rather, the law has been framed with a view of keeping these within legitimate bounds by providing penalties, even disqualification, for improper expenditures. If a candidate would win a reputation as "a good fellow," by liberal donations to church fairs, etc., he should be prepared to pay the shot. Any expenses incurred in seeking and securing the honor of representing a riding in parliament are purely personal and controllable and should not be recouped from the public funds. Expenditures necessary in attending to parliamentary duties, are of a distinctly different class. The increase to \$1,500 was urged on the ground of the greater length of the session and the increased expenses of members during attendance at parliament. The larger sum was believed to be a generous provision for the purpose.

The sessions are too long; they could be shortened to the advantage of the members and public interests. Members grow weary and indifferent and advantages is taken of their condition to put through questions of large moment without them being subjected to a searching examination. More and better business could be done in less time by parliament if it would. The man in the gallery knows that there is a fearful waste of time, that while a noticeable few devote themselves conscientiously to business, a large number absent themselves from the chamber, some for weeks together not being seen by Mr. Speaker. Others put on such an appearance as entitles them to the sessional allowance and register their whereabouts with the whip so that they may be available when the division bell rings and their votes are required. The adoption of business methods in parliament is the reform desiderated, not an increase of the sessional indemnity.—Ottawa Citizen.

A DISAPPOINTING DEVELOPMENT.

The news that South Africa proposes to abandon the preference which is now given to Canadian wheat and flour is disappointing. When the reciprocal tariff concessions were made between the two countries it was in the hope that a profitable trade might be stimulated.

South Africa had not a great deal to export that Canada required, but she needed wheat and flour for she could not produce sufficient to satisfy her requirements, and the Canadian products were favored. According to the Canadian commercial agent, Mr. Kitting, it is contended that the consumer is not benefited by the reduction of the duty by one-half—that is to say from two shillings to one shil-

ling on wheat and from four shillings and sixpence to two shillings on flour—while the government needs the revenue.

This means that the reduction in the duty was not large enough or the imports not large enough, to cause a reduction in the price of the commodity to the consumer, and that the advantage consequently went into the pockets of the merchant, who was able to procure Canadian flour a little cheaper and to sell it at the ordinary market price.

It is to be hoped, however, that a movement so happily inaugurated will be given a longer trial, for its abandonment would not only be a matter of regret so far as the steadily developing Canadian trade is concerned, but a set back to the expectations of those who anticipated the day when groups of self-governing British communities in different parts of the world would be trading extensively together under a common flag and promoting each other's prosperity—Ottawa Free Press.

A CANADIAN VIEW.

The Buffalo Express notes the enormous increase in the proportion of manufactured goods from the United States into Canada, and then says: "Gratifying as these figures are to people on this side of the border, it would be a serious mistake to take them as proof that a reciprocity treaty with the Dominion is unnecessary. Though the increase of our exports to Canada has been remarkable in the face of the odds in favor of articles made in the United Kingdom, it is only fair to believe that a much greater increase would have occurred under reasonable reciprocal trade arrangements. There is no doubt that the United States will be forced to make a new commercial treaty with Germany in the near future. It would be the part of wisdom for Congress to consider the general subject of reciprocity when it takes up the German trade question. Canada is a good market now, but it contains possibilities for large expansion if the people of the United States are willing to deal fairly in the matter. It goes without saying that a continued policy of selfishness must some time bring unpleasant consequences." The Express no doubt thinks that country that is foolish enough to keep in office a government that has been silly enough to throw open its market to its competitors, as the Laurierite combination has done, might well be blind enough to hand over the rest of the market under the specious name and pretence of reciprocity.—Halifax Mail.

Mr. Buteau, Berthier, Que.

Had his Stomach partially paralyzed but obtained a Cure by Using Dr. Chase's Nerve Food
Mr. Ferdinand Buteau, Berthier (en bas), Que., writes:—
"I cannot keep silent regarding the great benefit I have obtained from the use of Dr. Chase's Nerve Food. For over a year I suffered from nervous dyspepsia and could not get relief though I tried many remedies. My doctors told me that my stomach was partially paralyzed.
"I have used altogether fifteen boxes of Dr. Chase's Nerve Food and the benefit derived from it is something remarkable. Judging from the way it is building up the system I believe the benefits will be lasting."
"Dr. Chase's Nerve Food stops the wasting process by which the nerve cells are being destroyed, and by forming new, rich blood and creating new nerve force positively and permanently restores the nervous system. Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Company, Toronto.

PEACE NEGOTIATIONS.

St. Petersburg, June 28.—(2 a.m.)—The Foreign Office has issued a communication confirming the statement made in the Associated Press despatches that Russia has accepted the first ten days in August as the time within which the first meeting of the peace plenipotentiaries will take place. The precise date depends upon the time of the arrival at Washington of the Japanese representatives.

THE MAN ABOUT TOWN

The man who has a twenty year endowment policy maturing next month does not wish he could live his life over again.

A new soprano has been discovered who "has eyes like a doe." More important her voice sounds like the dove.

They say that "brevity is the soul of wit," but just you tell that to some fellow who is "short."

A man who has money does not think it necessary to marry. Money talks you know.

When you read the account of the outrage at Roberval weren't you just a little bit in sympathy with the "lynching" propensities of our friends down South. Honest now weren't you?

Some of the citizens of this good old town of ours complain of the speed of the automobiles. "The Man About Town" says "More power to them, they are a living evidence of Quebec as it should and will be if her up-to-date citizens are given half a chance."

Here's a man in New York with two hearts and trying to raise \$10,000 on them at the medical colleges. Medicine may be different, but the ordinary men find two hearts a very foolish hand to draw to.

Just a word for the automobile. Last Sunday in New York three lads took a ride in a stolen auto and landed in the Tombs Police Station. Another machine did service as an ambulance. Thousands of others carried their owners to the happy hunting grounds by sea and mountain. Again it was shown how large a factor this four-wheeled thing is becoming in our daily life—especially on Sundays.

It's a sure sign that he loves you when he will sit in the library all evening learning to play chess with your papa.

Some folks think that because "all the world's a stage" that their neighbors' windows are the footlights—Rubber.

The race is not always to the swift, but don't be slow on that account.

Equalled by few. Excelled by none. The Rustic theatre at Kent House Park, Montmorency Falls.

Horse Sense—Something the man who never bets on one is endowed with.

Smile, and the world smiles with you. "Knock," and you go alone; For the cheerful grin Will let you in Where the kicker is never known!

"The Man About Town" has two new feckles. Gosh!

Imported Couburger Lager at the Chateau Cafe.

VICE-REGAL NIGHT AT THE AUDITORIUM.

The social and theatrical event of the season at the Auditorium will be tomorrow night when their Excellencies the Governor-General and Countess Grey will honor with their presence the double bill which will be presented by Henrietta Crossman and her New York Company. Miss Henrietta Crossman, the most distinguished American actress, will appear to-night, to-morrow and Saturday night, and matinee in a famous double bill, "Nance Oldfield" and "Madeline," affording an entertainment which promises rare delight to theatre patrons.

This talented woman whose genius and versatility overshadow that of any other actress on the American stage, will thus give to the public here an opportunity to see her in both comedy and tragedy. The double bill forms a programme of special attractiveness, as it presents Miss Crossman in two of her greatest roles. Her art is so broad that she is as effective in tragedy as in comedy, a range possessed by no other woman of the younger generation of stars. It will gratify the public that she has chosen this programme for her visit to this city and she ought to receive the welcome that will be a reward for her local enthusiasm.

The certain will rise promptly at 8.15 and the patrons are requested to be in their seats before that time.

Eugenie Blair comes to Quebec direct from Toronto where she is now filling a successful engagement. She will bring with her her entire company and a magnificent scenic equipment. During this her first visit to Quebec she will produce no less than five plays. On Monday night she will make her first appearance at the Auditorium as Paula in "The Second Mrs. Tanqueray," one of her finest impersonations. This will be followed by "East Lynne," "Under Two Flags," Camille and an important revival of Charles Dickens' famous story of "Oliver Twist" in which she will assume the role of Nancy Sykes and will be surrounded by the immortal characters of the great novelist, Fagin, Sykes, The Artful Dodger and the unfortunate Tuesday. They will be matinee Tuesday, Thursday and Saturday and in order to make this engagement thoroughly popular the prices have been arranged on a most liberal scale.

\$1,000 REWARD
FOR A CASE OF INCURABLE CONSTIPATION.

To a person who can't be cured of constipation by Dr. Hamilton's Pills, the above reward will be paid. No cathartic medicine gives such lasting satisfaction or effects such marvellous cures as Dr. Hamilton's Pills. Relief immediately follows for headache, biliousness and stomach disorders. No gripping pains, no burning sensations, nothing but the most pleasant relief attends the use of Dr. Hamilton's Pills—others not so good. Price 25c. A box, at all dealers.

INDIAN ARMY REORGANIZATION.
London, June 28.—The correspondent of the Times at Simla says he understands that arrangements have been made calculated to facilitate the carrying out of the scheme of Indian army reorganization without further friction.

TOOK A SEVERE COLD.

Settled in The Kidneys.

Pain in The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected. Heed the warning; check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to arise. Mrs. R. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used

DOAN'S KIDNEY PILLS, and is thankful for the immediate relief they gave her. She writes us as follows: "It is with pleasure that I add in testimony in favor of Doan's Kidney Pills. Some time ago I took a severe cold, which settled in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings."

Doan's Kidney Pills may be procured at all dealers, or will be sent direct by mail on receipt of price—50 cents per box, or 3 for \$1.25.

QUANANICHE FISHING.

The Quananiche fishing season at the Grand Discharge is now fairly open, the steamer Mistassini making daily trips to the Island House for the accommodation of anglers. A number of very good catches are already reported. Dr. Watson, the well-known Boston surgeon, and Mr. and Mrs. Cunningham of the same city, are already in camp at their summer quarters by the side of the Discharge, and among other anglers who have recently left for Roberval may be mentioned Mr. Geo. Donaldson of Harrisburg, counsel for the Pennsylvania Railway.

No tourist should fail to take a trip to the interesting Huron Indian Village, at Indian Lorette and to Lake St. Joseph, by the Quebec and Lake St. John Railway train, leaving Quebec at

SLOT MACHINE CASE

Judgment Rendered by Judge Langelier in Superior Court Yesterday.

In the Superior Court yesterday Judge Langelier rendered judgment in the case of Daignault, petitioner, and Judge Chauveau and Chief E. Trudel, respondents, maintaining the writ of certiorari issued on the demand of Mr. Daignault and quashing and annulling Judge Chauveau's decision in the slot machine case.

In the month of September last, nine slot machines were seized in different city hotels on a complaint of the Chief of Police and after a number of delays the case against Achille Daignault was proceeded with, and Judge Chauveau in May last declared the seizure well taken, ordered the destruction of the machine and the confiscation of \$52.75 which amount was found in the machine. From that judgment Daignault appealed by means of a writ of certiorari to the Superior Court on the ground that the judgment rendered by Judge Chauveau was illegal as the Chief of Police could not seize the machine without at the same time effecting the arrest of the proprietor or person in whose possession it was found, which he did not do; that Judge Chauveau could not pronounce upon the confiscation of the money or the destruction of the machine without an accused being party to the proceedings.

Judge Langelier in maintaining the writ stated that Judge Chauveau had no jurisdiction to pronounce upon the question as he did, as the Chief of Police had not taken Daignault in charge.

HARD ON MRS. JONES.

"My wife solemnly affirms that she will never speak to me again if I say anything about it," said Jones, with a smile. "But it is too good to keep so long goes. Mrs. Jones had been ailing for some time, and falling into the hands of one of the neighbors who is a faith curist, she became imbued with that peculiar belief. I nagged at her; but she remained firm, and said she was convinced that she could be cured only through faith. As her illness was not serious, I said nothing more.

"Things went on for some time, while my wife continued to get better and at last she announced that she was fully cured.

"Now then, John Henry," said she, "I never again wish to hear you say anything about mind cure being all imagination. I am sure that I should have been a dead woman if I hadn't taken the treatment I did. And to think that he never set eyes me!"

"He never what?" I gasped.

"Set eyes on me! I took the nearest treatment. I sent Professor Fake \$5 to treat me by his famous method."

"Do you mean to say," said I, "that you sent a quack \$5 to treat you?"

"That's just what I did! And to think the most wonderful thing about it was that I was aware the moment that he received my letter and opened it, although he was hundreds of miles from me! When I commenced getting right from that moment! It is simply wonderful! You can't deny that I am now quite well and all through the wonderful treatment that I received."

"I should have said something then, and there had I not heard the post-man's knock and gone to the door to get my letters. There was one for my wife from the Returned Letter Office, and when she opened it out dropped her letter to Professor Fake. She had misdirected it, and the quack had never received it. She says—but on second thoughts I hadn't better tell you what she says."

AWFUL EXPERIENCE

Supposed to Have Been Drowned—He Turned Up Late at Night Naked and Exhausted

St. John, June 26—Scott E. Morrill, the well-known St. John barrister, whose drowning was reported Monday afternoon, still lives but has passed through a terrible experience. Morrill and his family have been the guests of Mrs. Morrill's father, Samuel Mackay, of Pennfield, Charlotte Co., for over two weeks, and as has been his custom for some days, Morrill went in for a swim at a point known as the Woodland Monday about ten o'clock in the morning and intended returning in time to take the afternoon train to St. John. On his failing to return, search was made for his body. Capt. Pratt, of the cruiser Curlew, assisting. The search was continued all the afternoon without success. It was intended to resume the search at low water, but this was not necessary, as before then Morrill, naked and bleeding and in a state of utter exhaustion, staggered into his father-in-law's home. About half-past nine in the evening Samuel Mackay, Jr., heard a dog barking and opening the back door was almost paralyzed with astonishment to see Morrill stark naked in a state of almost collapse before him. He grasped the situation and quickly seized Morrill and carried him to bed. Bleeding from many cuts and wounds received in wandering through the bushes and over sharp rocks and shells he was a pitiable sight. Dr. Taylor, of St. George, was quickly summoned and at a late hour last night reported his patient as likely to recover. It seems that after being in the water a short time Morrill was seized with cramps in the thigh and hips. He managed to turn on his back and keep floating. A strong current carried him a considerable distance from the place he entered the water and by making a superhuman effort he eventually reached the shore in a dazed condition. He remembers but little of what happened until after aimlessly wandering about for some time he found himself in a field surrounded by thick woods. He soon came upon an old road, he followed this and soon was on Woodland Road. From this point to Mr. Mackay's house is two miles. Morrill had been wandering about in the descending rain, absolutely naked, for nearly an hour in reaching the house. His reappearance, exhausted and harried in his right mind owing to cold and exposure but still alive, caused much rejoicing at his father-in-law's home.

POLICE COMMITTEE.

A meeting of the Civic Police Committee was held last night under the chairmanship of Ald. Cantin. Mayor Parent and most of the Aldermen were present. The only business transacted was the acceptance of the resignations of Constables P. Walsh and Dugal. Several applications were received for positions on the force and Ed. Cardinal, on motion of Ald. Gauthier, seconded by Ald. Binan, was appointed to replace Constable Dugal. The vacancy rendered by the resignation of Constable Walsh will not be filled until next meeting.

CONSUMPTION IN LONDON.

Heavy Toll Exact by the Dread Disease Every Year.

Addresses by two medical men, setting forth in particularly startling form the ravages of consumption, or tuberculosis in London and also in Ireland, are published in the British Medical Journal.

Dr. Arthur Latham, a great authority on the subject of consumption, puts the London case in this form: "Eight thousand persons die annually in this city of consumption; it is said that another 8,000 die of other forms of tuberculosis; therefore, 16,000 victims are sacrificed year by year. For every man who dies there are five others who are certainly, though slowly, succumbing to this disease.

"There are in London 40,000 persons suffering from consumption; if all forms of tuberculosis are included, the number is not less than 80,000."

The startling deduction could be made, he added, that out of every sixty-five people at present in the metropolis, one at least would be dead in five years' time from tuberculosis—that is, dead from a preventable disease, which owed its origin to silt.

The working classes suffered in this respect twice as much as the general community. Therefore, of the working classes—men, women and children—met in the streets of London, at least one in thirty-three would be dead in five years from tuberculosis. "We shall not be far wrong," he added, "if we put the annual loss from consumption in London at £4,000,000."

Prof. McWeeny, of Dublin, states that consumption produced 12,180 deaths in a year in Ireland, being a greater death producer than old age. Taken in conjunction with the steady increase of mental diseases and the steady drain of emigration, these statistics gave a gloomy outlook for the future of the Irish people.

A RUSSIAN MUTINY

Summary Shooting of a Sailor Who Presented Petition for Better Food.

Washington, June 28—Thos. Heenan, American Consul at Odessa, to-day cabled the State Department in substance as follows:—"The Russian warship Kinaz Potenkin and one torpedo boat arrived yesterday evening. All the officers were murdered at sea and the bodies thrown overboard. The men threaten to bombard the town if interfered with. The situation is precarious. The Black Sea fleet is expected to-day.

St. Petersburg, June 28—The only news which has reached here from Odessa regarding the naval mutiny is that the crew of the battleship Kinaz Potenkin are reported to have mutinied because of the bad food furnished to the sailors. Other despatches from Odessa say the strikers have everywhere been successful. They have stopped the street cars and all other traffic. The estate owners of the neighboring provinces, especially those of Kherson, are flocking to the city on account of agrarian disturbances.

Later advices from Odessa announced that the mutiny occurred on account of the summary shooting of a sailor by order of the commander of the battleship. The sailor, it is stated, presented a petition signed by the crew demanding better food. The report that the crew murdered the officers is not confirmed. The sailors this morning carried the body of their comrade ashore. This was followed by intense excitement. Thousands of strikers and others assembled at the quay with bare heads and viewed the corpse. When a detachment of soldiers attempted to disperse them a ring formed a ring around the coffin and defied the Cossacks. Some fighting is reported to have occurred, but no details were obtainable as this dispatch was filed.

THE MILITARY CAMP.

A Big Field Day Will Be Held at St. Joseph To-Day.

The inspection of the military camp at St. Joseph de Levis was continued by General Lake, Colonel Cotton, Colonel Buchan and the other members of the militia general staff yesterday. To-day there will be a big field day. The manoeuvres will begin about 7.30 a.m., and will be witnessed by Gen. Lake, Col. Cotton, Col. Buchan and other prominent officers. The 61st Montagny and 92nd Dorchester regiments will form the defending forces and the other regiments and First Field Battery, the attacking force. The Boar Company will be divided into two divisions, one with each force to supply the collecting and dressing stations. The Field Hospital will be similarly divided.

Catarrh is not a Luxury OR A NECESSITY.

Catarrh makes a man ridiculous—it makes him an offensive nuisance and it makes him dangerously sick. It is pretty sure to bring on consumption, pneumonia or at least a throat affection. You can not afford either, but you can afford the cure for it. It relieves a cold or catarrh, or cures a headache in 10 minutes. Don't hawk and spit and disgust your friends, but cure yourself by the use of this remedy.

Dr. Agnew's Ointment relieves eczema in a day. 35c.

DOMINION PARLIAMENT IN COLD STORAGE

Mr. Armstrong Carries an Amendment in Committee.

ALBERTA BILL'S CLOSING.

All Disposed of in Committee Stage Except the School Clauses.

Ottawa, June 27.—In the Senate today the bill to amend the Companies Act was read a third time and passed.

The bill for the relief of Agnes Salisbury Trelawney was read a second time and sent to the committee.

The Senate went into committee on the bill to amend the act respecting the Royal Military College, which was read a third time and passed.

Hon. Mr. Scott moved the second reading of the bill respecting the port and pilotage district of Quebec, which was agreed to on Monday.

The following bills for the Commons were read a first time: To amend the Government Railways Act; respecting the Grand Trunk Pacific Railway Company; to incorporate the Edmonton Book Company.

The bill respecting Gillies Bros., Limited, was read a third time and passed.

The House of Commons took an unexpected rest this afternoon from the Autonomy Bills talk, and on motion to go into committee of supply, Mr. Armstrong, of East London, drew attention to the need of improved cold storage and transportation facilities in connection with the export of perishable farm products.

He took the figures of the production of apples, and showed that it was possible to increase the export of apples by no less than ten million barrels a year, and to increase the price obtained by an average of 50 cents a barrel.

This would mean an additional income to Canadian farmers of five million dollars a year.

Mr. Armstrong estimated that two million dollars a year would be added to the value of dairy exports, if conditions were made what they should be.

It was further shown that while the Government was paying \$10,000 a year as subsidy to cold storage steamers, it had taken no power to secure that proper temperature should be maintained in their chambers, and that temperatures of 50 to 60 degrees were recorded, whereas Mr. Fisher was on record as declaring that a temperature of 29 degrees was necessary to secure proper results.

Concluding, Mr. Armstrong urged that the Minister of Agriculture should take up the matter and at once, so that the presently maturing crop of fruit could be transported under proper and probable conditions. He moved an amendment in the sense of his address.

Though Mr. Armstrong's amendment was moved on a Government motion, Mr. Fisher did not regard it as a

want of confidence matter. He admitted the justice of much that Mr. Armstrong had said, and complimented him on the interest he showed.

Mr. Fisher complained that Mr. Armstrong had spoken as if the contracts with the steamships were now in force. They had all expired. They were made as an experiment, which the minister claimed had been successful.

To-day, he went on, there were practically no steamships coming to Canada without cold storage accommodation, whereas before they were entered on there were not any cold storage chambers on vessels coming to Canada.

Mr. Fisher contended that there was no good achieved by carrying butter at 10 degrees. In shipments to Great Britain as good results as were required were obtained if temperatures of 30 to 32 degrees were maintained.

In regard to the shipment of fruit, Mr. Fisher said that it was not possible to judge from one or two shipments what the conditions in a cool chamber were, as the condition of the fruit itself would affect the temperatures.

There was, he added, more cool air space available on ships sailing from Canada than shippers would make use of. In reply to questions, Mr. Fisher said that a temperature of 60 degrees in transit would not harm apples, if they were not too ripe when put on board.

There had been, for two years, he went on, more cold storage and cool storage than there was demand for, and he did not think there was need for spending money to secure more. If there was anything wrong with the work, Mr. Fisher declared he was most anxious to secure a remedy, but he did not think anything connected with the cold chambers was responsible for the inferior condition in which some shipments of Canadian produce reached the market.

In regard to the land transport, Mr. Fisher explained that the records showed that butter sometimes lowered in temperature while in transit in steel cars, indicating that it had been put on board while too warm.

Mr. Fisher closed a talk of an hour and a half with a reference to the introduction of Mr. Hyman and Mr. Smith as members of the House, which evoked much Liberal applause, though it did not seem to have anything to do with cold storage.

Mr. Walsh, of Buntingford, took occasion of the discussion to draw attention to that old grievance, the weighing of butter and cheese at Montreal.

Messrs. Parnelle, Chisholm and Bechyshire also spoke on the same subject, after which Mr. Armstrong's amendment was put and carried.

It was nearly 10 o'clock when the Alberta Bill was taken up. The first talk was on Clause 12 and 21, the first of which contains certain laws in the new province, and the latter of which provides for the repeal of others.

Replying to Mr. Monk, Mr. Fitzgerald gave it as his opinion that under the former the legal use of the French language would be continued in the province subject to repeal by the Legislature.

The clauses were adopted after a short discussion as to their technical meaning, but with a proviso that if any one desired to talk more on them he would be permitted to do so.

Clause 8 provides that the provisional capital of the province shall be Edmonton. Mr. Fowler thought Calgary was a better place, being more central to the settled district. Mr.

Scott thought, on the contrary, that Edmonton was the most central, and, therefore, the best place for the seat of Government. Mr. McCarthy also spoke for Calgary, but the Government would consent to no change, and the clause was passed.

Mr. Lake moved an amendment to Clause 29, which vested the lands and minerals in the Dominion, to the effect that they should be the property of the province. Mr. Lake spoke briefly in support of his proposition, saying there should not be two grades of provinces, and that the local administration of the lands would be better than that of the authorities at Ottawa.

This latter ground was also taken by Mr. Fowler, of Kings, and Alberta, by Mr. McCarthy, of Calgary, and by Mr. Heron, of Alberta. The amendment was lost, and the clause adopted.

The bill is now disposed of as far as the committee stage is concerned, except the school clauses, which will be taken up to-morrow.

Mr. Prefontaine today introduced his bill to provide for the regulation of wireless telegraphy in Canada. The minister explained that the measure was based on a bill passed by the British Parliament in 1904. The purpose was to regulate the establishment of wireless telegraph stations.

No such stations, it is provided, shall be established without the approval of the Governor-in-Council.

Hon. Mr. Hyman, Minister of Public Works, as member for London, introduced this afternoon amid enthusiastic cheers from the Liberal side. Mr. George Smith, member for North Oxford, was also introduced amid hearty applause from the Government benches.

This Medicine Is Breathed. That's why it is sure to cure Catarrh. You see it goes direct to the source of the disease—its healing vapor repairs the damage done by catarrhal inflammation.

"Catarrh" always cures because it goes into those tiny cells and passages that ordinary remedies can't reach, goes where the disease actually is. Impossible for "Catarrh" to fail as any doctor will tell you. Don't be misled into thinking there is anything so good as Catarrh—use it and you'll soon say good-bye to catarrh.

THE CHINESE BOYCOTT. Peking, June 27.—The question of Chinese exclusion from the United States continues chiefly to occupy the attention of the Chinese. The extent and depth of the feeling manifested against foreigners, and is regarded as an evidence of the growth of a national sentiment of public spirit which five years ago would have been inconceivable.

Among many instances cited as evidence of this, it is said that a Chinese contractor has refused a lucrative appointment with an American company. Advertisements of American goods continue to be refused by native newspapers and letters and telegrams from all parts of China, as well as from abroad, are being received, asking the central Government to take a firm stand.

LAKE ST. JOSEPH HOTEL. The new Lake St. Joseph Hotel at the lake of same name, on the line of the Quebec & Lake St. John Railway, will be open for reception of guests on Saturday, 1st July next.

RUSSIA LOSES HOPE

Army Staff Is Disheartened Over Coming Land Operations.

St. Petersburg, June 28 — Advice have reached the general staff of the withdrawal from Vladivostok of three regiments of tirailleurs and cavalry and infantry to the number of 2,000 men. This is part of a rearward concentration, necessitated by the advance of General Kasogawa's sixth Japanese army across Northeast Korea from the Tumen River.

General Kasogawa's force has developed unexpected strength, numbering over one hundred thousand men, although his vanguard numbers only five thousand. The knowledge that the enemy is so strong in the secondary seat of war has spread a hopeless feeling among the staff in regard to coming operations.

It is convinced now that Field Marshal Oyama has a greater preponderance over General Linovitch than he ever had over General Kuropatkin.

An intelligence officer remarked that the Japanese had hitherto adhered to the principal of concentrating all their forces on the main point, disregarding the possibilities of secondary expeditions like Saghalien or Senemackia. The most serious feature of the present situation is that the Japanese are able to spare General Kasogawa's powerful army from the chief seat of war in Manchuria.

The military critic of the Russki Vidomost urges Russia to seek an early peace. He says that maintaining a defensive war on the Russian frontier would be a hopeless expedient, yet such a war is being widely urged by influential representatives of the ruling bureaucracy. Such tactics of exhaustion could only be effective if Russia's means were limitless, and Japan were unable to transfer the war to Russian territory. Such conditions are emphatically wanting.

General Linovitch telegraphs:—The enemy's outposts on our south front resumed the offensive June 21 and dislodged our troops, forcing them northwards. Our cavalry outposts at Hattonghen were dislodged on the same day. We despatched a force of volunteer chasseurs, who were met by an artillery fire by the enemy. Japanese infantry were visible in the mountains. The enemy resumed the offensive in Corea June 22, and attacked our advanced guards, consisting of some sections of cavalry, who retired after a skirmish.

HAD THAT CORN VERY LONG ? Quite easy to cure it with Putnam's Corn Extractor. Only takes twenty-four hours—no pain—dead sure cure. Try Putnam's; it's far the best.

HOW IT FEELS TO BE SHOT. Mr. Charles Spence, a well known theatrical man of Chicago, was seen sojourning in Quebec for the past few days.

During the riots attendant upon the teamsters' strike in Chicago recently, Mr. Spence was accidentally shot and his experience is tersely told as follows:—

"We were in my automobile, my wife and I, and had just turned into Jackson Boulevard from Wabash Avenue. As we were slowly crossing State street I felt a sharp pain in my left breast directly under the collarbone. At the same instant I heard, what seemed to me a 'fog' or track signal, usually used upon the railroads. It never even dawned upon me that I was the billet for a stray bullet, but such was the case. When the sensation of pain was first felt I imagined it to be pleuritic, as I had only recently recovered from an attack of pleurisy, and the pain was so sharp that I must have visibly paled. My wife remarked this and asked me the cause. I told her that I feared a return of the attack of pleurisy, and we hurried home. Luckily our destination was only the matter of a couple of blocks and the wound had not bled to any extent. The physician, who was called immediately, extracted the bullet without difficulty, it being imbedded just under the flesh and was evidently 'spent' when it reached me. I congratulated myself on my lucky escape and was well enough to attend to my business duties within the period of a couple of days."

Mr. Spence expressed himself as delighted with Quebec, and from the view point of a chronic tourist extolled its virtues to the skies. As a theatrical man he gave his opinion on our amusement enterprises cheerfully and remarked that in all his travels he had never seen more ideal surroundings nor a better equipped rustic theatre than the one now in operation at Montmorency Falls.

THE UMPIRE FAINTS. Morristown, N.J., June 27.—For a few minutes there was something of a commotion at the field club game on Saturday at the Field Club, when the umpire fell in a faint, and failed to respond immediately to restoratives. It was a hot game between the Montclair Athletic Club and the Morristown Field Club. Two thousand men and women were present. From the beginning it seemed as if both teams were put out by bad decisions. They grew worse. Protests came fast from the first inning to the fifth, when Umpire Newman said he would quit if there was any more kicking. The next man up was hit by a pitched ball, and the umpire declared that he could not take first base, but must remain at bat. This so enraged the players that they threatened Newman with violence. He walked off the grounds, but the players coaxed him back again, and just after he took his position he said: "My God boys, I'm going." He started for the side line, but fainted at first base, and in less than a minute there were a thousand people around him. Two doctors rushed to the fallen man, and endeavored to resuscitate him, but their efforts were unavailing for several minutes, and it was feared the man was dead. At last, however, the umpire breathed again, and insisted on going into the game, but was overruled, and when assisted to the clubhouse was so weak he could not stand for over an hour. He thinks he will never umpire another game.

STILL A CHANCE. To-day we will sell our colored shirts at the same prices as last week's great sale.

FAGUY, LEPINAY & FRERE.

Z. PAQUET'S Departmental Stores.

New Series of Bargains in Our Linen and Cotton Goods Department.

HERE'S PROOF That Ought to Convince You.

The following is from Dr. Stirling, who for 30 years made a study of the effects of the **MAGI** Caledonia Waters.—The disease in which I have seen the most remarkable cures is rheumatism, in both the acute and chronic forms. No person who visits the springs fails to observe the rapid improvement in this class of sufferers. In gout, sciatica and lumbago the curative action has been nearly as efficient. In gout, sciatica and lumbago the curative action has been nearly as efficient. In gout, sciatica and lumbago the curative action has been nearly as efficient.

M. TIMMONS & SON,
AGENTS AND BOTTLEERS, QUEBEC.

SPORTING EVENTS THE WORLD OVER

NOTE AND COMMENT

Winnipeg Lacrosse Team to Visit Quebec—Professional Hockey League to Extend.

Quebec will likely receive a visit next August from the Winnipeg Lacrosse Club team, which is to make an eastern tour. Percy Quinn, President of the Winnipeg club has received a letter from his brother, Kenneth, who is assistant secretary of the Shamrock Lacrosse Club, Montreal, stating that the Shamrocks are willing to grant them dates in the latter part of Aug. The trip is definitely on and games will be played at Ottawa, Quebec and Toronto, as well as at Montreal. The Winnipeg club will come east on its tour on or about Aug. 26th next.

The professional hockey league is talking of extending its circuit. A telegram from Calumet, Mich., gives the following information in this connection.—It is almost certain that the old club, with the probable exception of Pittsburgh, of the International Hockey League will be in the coming season—Calumet, Houghton, Soo, Mich., and Soo, Ont. Several applications have been received, and it is possible the league will be increased to include Chicago, Duluth, St. Paul and Philadelphia. The various managements are negotiating for the stars of last winter, and it is likely that many of the best men in Canada will be again seen in the American teams next winter.

Here is another great baseball game for the fans to witness, and it is certainly one of the greatest played in years. The contest was between the St. Louis and Chicago National League clubs Saturday in which the latter team won out 2 to 1, after playing for eighteen innings. Only one pitcher was used by each team and Chicago played the whole stretch without an error. To add to the excitement St. Louis went to bat in the last half of the ninth innings and tied the score and from that on till the eighteenth inning not a man crossed the plate. Reulbach who pitched for Chicago has just broken into fact company, only leaving College in May. He has been pitching winning ball right along and is now looked upon as one of the stars of the National League. Luther Taylor who worked for St. Louis is a brother of "Dummy" Taylor, the New York pitcher. This is the longest game in the big leagues for some years. Fifteen hits were made off Reulbach while Chicago only touched Taylor eleven times. St. Louis however had four errors but the Windy City lurch fielded without a misplay.

Capital stock fell with a dull opening on Saturday. The deficit by the Nationals is looked upon as an unpardonable sin, and viewed from any standpoint it puts the locals away out of the championship running. No Minto Cup for Ottawa this season at least and things looked good at the beginning of the season too. The Caps worked faithfully enough at their practices last week but they didn't get into the swing early enough. The very possible hope left is that the locals will be able to down the Shamrocks next Saturday. If they don't the game will not a fairly decided black eye.—Ottawa Free Press.

Edward Hanlan, the famous one, and Phil Riley, of Saratoga, are engaged in correspondence relating to a sculling match to take place in Saratoga early in the autumn. Riley in his time was one of the best, and Hanlan as everyone knows, was the best. The Saratoga man, who is engaged in the hotel business, felt the habit returning the other day, and concluded that nothing but a race would cure it. In reply Hanlan stated that he would consent to meet Riley at Saratoga in September for \$5,000 a side, three miles with a turn, provided the promoters of the race built a stand along the course capable of accommodating 50,000 people. In case anything happened to the expected crowds, and they didn't come the stands would serve as a wind shield for the scullers.

Talk of a wealthy athletic club, the Everton, England, Football Club seems to be pretty nearly the limit. The balance sheet of the club shows total receipts for the season of about \$80,000 (\$15,000). The total expenditure was \$52,500 (\$20,500) and the balance in hand is now over \$70,000 (\$14,000). There is nothing like leather.

John J. Holloway, the noted Irish athlete, made an excellent showing last week at Baltimore in the trials held to determine which M. A. C. man is to compete in the all-around championships at Portland, July 4. Holloway, without having a spiked shoe on for a month, scored 5668 points. The record for the all-around championships is 6300 points, made by Harry Gill, of Toronto. Thomas Kieley, with a score of 6039 points, won the all-around Olympic championship.

BASEBALL RESULTS.

- National.
- At New York—New York 2; Boston 1.
- At Philadelphia—Brooklyn 0; Philadelphia 9.
- At Chicago—Chicago 0; Cincinnati 6.
- At St. Louis—St. Louis 2; Pittsburgh 1.
- 2nd game—St. Louis 1; Pittsburg 9.
- American.
- At Boston—Boston New York game postponed; we grounds.
- At Washington—Washington 0; Philadelphia 1.
- At Detroit—Detroit 1; Cleveland 3.
- At Chicago—Chicago 3; St. Louis 2.
- Eastern.
- At Providence—Providence 7; Newark 3.
- At Jersey City—Jersey City 5; Baltimore 9.

ATHLETIC CABINET

The President Has Surrounded Himself With Men Fond of Sport.

Everybody knows that President Roosevelt is an all-around athlete, but it is not perhaps so generally known that he has gathered about himself a Cabinet of men whose tastes are similar to his own. Of the Cabinet officers chosen by President Roosevelt, Messrs. Shaw, Taft, Morton, Moody, Metcalf and Cortelyou are men who delight in sports, and each achieved distinction. Secretary Metcalf is slightly above six feet in height, almost all an arrow, and is fond of almost all outdoor sports. He is a Yale graduate, and as a freshman rowed stroke on his class crew. He played baseball, rode the bicycle and was an expert swimmer. In later years Mr. Metcalf has taken principally to shooting, fishing and golfing.

Postmaster-General Cortelyou, who was born and reared in New York city, played baseball until he entered college, and at Georgetown and Columbia was the crack pitcher for the varsity team. Notwithstanding his 250 pounds, Secretary Taft's chief sport is horseback riding, with golf, yachting and boxing as diversions. He leaves the War Department almost every afternoon about 5 o'clock, accompanied by one or more of his bureau chiefs and mounted on a large gray horse. When Secretary Taft does not ride into the country he slips away from his desk about 4 o'clock and joins Justice Harlan of the Supreme Court, on the Chevy Chase golf links before dinner. Tim Murnane, the baseball writer, declares that the profession of baseball lost a star pitcher when, in 1876, William H. Moody, the present Attorney-General, with a Harvard sheepskin in his hand, turned to the law. Mr. Moody was captain and catcher of the famous Haverhill Club, and when he entered Harvard, in 1872, as a freshman, was placed behind the bat on the varsity team.

Secretary Shaw, of the Treasury Department, finds that the horse fulfills all his desires for recreation and sport. In fact, the President, on his Wyoming trip, is perhaps the only equestrian who can follow the Iowa man on his famous mount, Prince. Secretary Morton, of the Navy Department, is very fond of shooting, yachting, golf, horseback riding and dancing. Before the trap he is a crack shot, plays better than an average game of golf and has entertained the President at some very close games on the tennis courts. Mr. Morton finds himself unable to acquire the baseball or football habit.

GERMAN YACHT RACES.

Eckernforde, June 27.—The Hamburg finished three minutes ahead of the Meteor III, in the fifty-two mile race from Kiel. The Diana was third, fifteen minutes behind Meteor. The Orion beat the Ailsa in a special race by 24 minutes.

CHESS TOURNAMENT.

Ostend, June 27.—The 120th round in the international chess match resulted today as follows:—Alapin defeated Taubenhaus; Burn beat Leonhardt; draws, Schlechter vs. Marco, Blackburn vs. Wolfe, Tsiegorin vs. Maroczy; Tarraech vs. Marshall. The Janowski-Teichmann game, unfinished, went over till to-morrow. All but Schlechter have been defeated at least once this far.

THE MAN ABOUT TOWN

The man who blows the fish horn and controls the blasting operations in front of the Post Office seems to have things pretty much his own way. Nobody seems to object to his "tooting his own horn."

It is not always a sign that a man is shaking for the drinks when his hand trembles.

The dramatic season in Quebec is nearly over, but eggs are arriving in town at the rate of many thousands per week.

The only man who can size a woman up correctly is a ladies' tailor.

Said Mary to Tom, one lovely night "Where will we go for a lark?" Said Tom to Mary "My darling, we will go to Kent House Park."

No man ought ever to write a love letter without thinking constantly how it will sound when it is read out loud in court.

I heard the other day of a man who refused a job as sub-marine diver because he couldn't spit on his hands before he started work. Must have been a base-ball player.

They tell me that the new rustic theatre at Montmorency Falls is doing a land-office business this week. I wonder why.

As the man who couldn't swim remarked to the man who fell off the pier, "I feel for you but I can't reach you."

There is no truth in the rumor that a cage of snakes is to be added to the Kent House Zoo, although there are many people who would gladly part with their collection.

"Where will we go to-night dear John, For the city on me palls." "Why darling Kate we'll take a trip To Montmorency Falls."

—Grape Nuts

A GREAT KILLING

The Sheephead Ring Loses \$200,000 on Hippocrates.

The greatest coup in recent years was made in the betting ring at Sheephead Bay on Saturday last by "Tony" Aste, the "bootblack turkman," and a selected following. The medium of this well-managed killing was Aste's own horse, Hippocrates, a 4-year-old Lisak colt, which won the sixth race. The aggregate winning of those who played with him must have been nearly \$200,000 or more. The horse opened in the betting at 8 to 1, but for nearly ten minutes hardly a dollar was placed on him, and the odds soared to 30 to 1. Then Aste and his friends unbelted. Nearly all of the bets were made at the top odds. The public soon began following the wise play, however, and the odds were hammered down to 4 to 1. Hippocrates' race was a frightful reversal of form, for Hippocrates had not come within 200 yards of winning a race within a year. The Great Trial stakes was the occasion for tremendous betting. The winner of the race, Security, who has been running at St. Louis, and which was quoted at 15 to 1, carried a wager of several hundred dollars from his owner, E. E. Smathers. J. W. Gates, J. A. Brake and H. P. Whitney kept commissioners busy going to the ring. The upset of Bellame and the winning of the race by Aste was almost as big a reversal of form as was Hippocrates.

THANK CANADA'S BOWLERS.

A. B. Hamilton, Secretary of the Scottish Bowling Association, in a letter to George Anderson, acknowledging the receipt of the address, says on behalf of the Association: "Permit me to convey to our friends in Canada our warmest thanks for their kind and touching reference to the good fellowship of the Scottish bowlers during their tour in Scotland and to express the hope that the bond of friendship thus sealed may grow and expand and that the greater intercourse we expect in the future may serve to make the bond indissoluble." J. C. Hunter, President of the Irish Bowling Association, says: "We feel highly honored in being the fortunate recipient of such generous tokens of your esteem and good will and feel sure your visit will result in great good to both countries."

WEATHER AND BUNKERS.

Geo. S. Lyon, Olympic golf champion, returned on Saturday from his excursion abroad, that was in vain, as far as further honors went. Still, he played the game all right, showing them that the colorless can do things. Interviewed, Mr. Lyon said: "I only suffered that in two of my single matches. In the championships I didn't land among the winners; neither did Willie Anderson, of whom so much was expected. I haven't any excuse; the golf was of a higher order than we play, yet I must say that the weather conditions were against an American or Canadian. My, it was cold and windy. One's hands were so cold that grasping the club with the usual grip was out of the question."

"The courses? Oh, they were fine, but there again I was handicapped in that there are so many more bunkers than over here. The cold and the bunkers were a combination that was enough to destroy any chance that I had, and Willie Anderson suffered in the same way. But, understand me thoroughly"—and the Toronto man emphasized his remarks—"I could not win in that company."

THE GOLF CHAMPIONSHIPS.

Toronto, June 27.—For the Canadian Golf championships which commence to-morrow morning, at nine o'clock, on the links of the Toronto Golf Club the list of entries is very full. Mr. F. A. Chisholm, the secretary of the club, said by the time the list is closed this evening the number of entries probably would be greater than ever before in any similar championship contest. Aside from the local men representing the five clubs in this city who will be present, Ottawa and Montreal are to be well upheld in both the amateur and professional events. Among these latter is Mr. P. T. Taylor of Montreal, the present champion of Canada. American points will also be in evidence. As a result of the work performed by Cumming, the local professional, the course is in particularly good shape.

If you had taken two of Carter's Little Liver Pills before retiring you would not have had that coated tongue or had taste in the mouth this morning. Keep a vial with you

SCHOLES WILL ROW.

Toronto, June 27.—Champion Lou Scholes stated to-day that he and his partner Smith, of the Toronto Rowing Club, would row not only in the Dominion Day regatta here on the Bay in the doubles, but would also take part in the Canadian races at St. Catharines and the National at Baltimore a week later, August 12. The Toronto pair hope to meet at Baltimore Mulehain and Varley, who are at present on their way to row in the German regatta in Hamburg next month and who are the present American champions. The local double defeated the New Yorkers badly two years ago and expect to gather fresh laurels this year.

Cook's Cotton Root Compound.

The only safe effective monthly medicine on which women can depend. Sold in two degrees of strength—No. 1, for ordinary cases, 11 per box; No. 2, 30 degrees stronger for Special Cases, 25 per box. Sold by all druggists. Ask for Cook's Cotton Root Compound, take no substitute. The Cook Medicine Co., Windsor, Ontario.

There is no reason why a Summer Suit should have less style than any other.

The Semi-ready two-piece suit (coat and trousers) is built with as much careful tailoring and by the same expert workmen who turn out their finest garments. There is style in every line of it—and it is put there so it will stay.

Our Kilalo and Blunoz Homespun two-piece suits are lined in shoulder and sleeves only, giving the comfort of lightness, yet sufficiently stayed to retain their stylish shape.

Price, \$12 to \$18.

Semi-ready Tailoring
178 ST. JOHN STREET.

Schlitz Beer is Good for You
The malt is a food; the hops a tonic. The alcohol—only 3 1/2 per cent—is an aid to digestion; a healthful stimulant.
Schlitz Beer is brewed with the extreme of cleanliness—cooled in filtered air—and every bottle is sterilized.
It is one of the best things in the world for you.
It does not ferment on the stomach, because it is aged—aged for months in refrigerating rooms before it is marketed.
It gives you beer without biliousness. Ask your doctor what he thinks about drinking Schlitz beer. Ask for the Brewery Bottling.
The Beer That Made Milwaukee Famous
